

The Noble 106

Chapter 106: Complicating our relationships

"T-The tru-truth is... I'm a W-Woman."

".....?"

Selene, apparently, did not understand what I was saying. She turned and looked me straight in the eye, silently asking me to explain better, or so I understood.

"The-the truth is....., wait a minute."

Saying that, I stood up, and finally, in front of her, I began to slowly change, undoing the morphogenesis and returning to my original appearance.

"The truth is, I am Seraphina Silvercres, a high-ranking noble."

"...Who?"

".... Well, that doesn't matter. The important thing is that, as you can see, I am a girl like you, transformed by my ability, and it is because..."

I began to tell her my story, just as I had done with Alice in the morning. It was long, and I wondered if she was understanding, as his gaze seemed a bit lost as I spoke to her . Finally, when I finished.

"Tell me, Selene, what do you think about all this? I didn't want to lie to you, but you know it's hard to do this being a woman, right?"

"Uhhh... my boyfriend is a girl... do I like girls?... uhmmm..."

I had never seen Selene so thoughtful, and I started to get a little worried. But in the end, after a long silence....

"Mom said it was okay if I liked girls, and my sister didn't say anything..."

"Huh? What, no, more like, that's your conclusion?... Wait, you were trying to remember if your sister and mom allowed you to be with a girl?... Well, if they said it was okay, then it's okay, but I want to know what you yourself think about all this... Doesn't it bother you that it's a girl?"

"...Why would it bother me....?"

She tilted her head as if she didn't understand my question. There are times when Selene acts about some things as if it's something obvious when it's obviously not, and it's so normal that sometimes it makes me question if I'm the one who's wrong with the logic.

Well, anyway, this is exactly why I had planned to tell her things, even if what happened with Alice hadn't happened. While her common sense is certainly a bit off, I've come to understand her enough that I wasn't terrified enough to confess everything to her.

Well, I can't say that I wasn't nervous when she thought for a long time, and that although Selene seems like a simple person, there are times that logic and understanding doesn't go in line with people's feelings, and there wasn't 100% certainty, but in the end, it had nothing to do with what she thought her long doubt , and it happened what I originally thought.

In fact, I was more surprised that Alice accepted it and took it in right away, but in Selene's case, it's like she didn't care about those little details. As long as it was me, everything was fine.

Well, that was her personality. I had gotten nervous over nothing. Happily, I took her in my arms and gave her a hug. Well, this was much less of a problem than with Alice... where there were punches and a stabbing involved.

"Well, the first meeting of 'people united for the same purpose begins'."

I said as I raised a gavel and began the first meeting of my harem, which has been building up to now. Now there was me, being my clone transformed into Christian, bringing the gavel down as I watched the four women in front of me.

My original self was coddling Selene in my female form, reminding her that she should definitely never tell anyone that she was Seraphina, nor what was going on here.

Come to think of it, this is the first time my doppelganger and I have acted separately in the same place since I got parallel thinking. It's weird to see myself doing things apart from my own will.

Well, even though I am myself, if I concentrate I realize that it's me in the end, but it still feels weird. It's just a matter of getting used to it.

..

Now that we're all being honest, the truth is that certainly, even if it bothers me, the guy in the mirror said something that is true: I was working out of inertia. Honestly, from the moment I had Alice and Elena, technically my harem dream was fulfilled.

True, when one imagines a harem, one thinks of counting by the dozen.... well, that's how I used to think. Certainly, although he had no right to interfere in my life, what he said made me reflect on many things.

I don't want to lose this thing that I built, so I couldn't keep gathering more girls without any consideration, I at least want to know what the girls think of what I'm doing, I don't want to lose them, by going after someone who in the end, I wouldn't know if she would really join my harem.

Seriously, now that I know how I really feel about these girls, I don't want to risk anything, and I will make sure I never lose them.

I feel like I've been given some damn character development, but it was certainly another reality check, of what my current reality is, and how I have to deal with it.

Greed without measure can destroy me, that's why I wanted everyone's opinion here. Even at this moment, my original self explains my dream and purpose to Selene. Elena and Alice already knew. Once explained, I started the meeting.

"Well, as you know, originally my purpose was to grow my harem. That's something everyone here understands, right?"

""Yes..."" (x4)

Hey, you bastard, why are you answering too? Wait, I'm myself... uhmm, I think I understand why sometimes Elena hits me out of nowhere.... well let's ignore that for now...

"Well, as you already know, everyone here present is part of my harem."

"Who is part of your harem? Basta... ehem... I mean, go on."

I'm going to ignore myself and the fact that he almost called me a bastard, when he refused to be part of his own harem, even though he obviously wasn't included in what I said.

Luckily, I'm not that dumb, and he stopped at the end before self-insulting, the very idiot... I mean, myself. Haahh~...

"Well, let's talk about the possible prospects and what to do, and most importantly, I want you to tell me your opinion on the matter."

On the board, I wrote several names of potential prospects and other topics. Four names.

"This... big sister."

"Yes?" (x2)

Alice asked and unconsciously we both answered, we looked at each other blankly. Damn, I think it was me who was wrong, but Alice was looking at me when she asked me, which confused me, it really is something complicated to use.

Well, even though I'm the fake, I just feel like I'm inside the doppelgänger as usual. In the end, I can come back at any time.

It doesn't feel like I'm going to develop an independent mindset or anything like that, like in the clone stories. At the end of the day, it just feels weird.... Well, back to the topic...

"Alice, when you address me, do it as Chris."

"And when it's me, do it as big sister... so as not to confuse me."

we both said so that there would be no more confusion, True, this is confusing. But the reason I did it is so that the girls here, especially Alice and Selene, would understand things easier, and even to get used to it myself, since I have to be her and me at the same time.

I'd be in trouble if I answered to the wrong name like right now. And well, the truth is, there was something I wanted to try after, 'huehuehe'.

"This... big... I mean, Chris, I understand Lys, as she is pretty and I've seen that she has a good personality too, but Cordelia doesn't seem to like my big sister. Sometimes I see her giving her piercing looks, like she hates her."

True, Cordelia hated my Seraphina self for no reason. But what surprises me is that she hasn't done anything since academy started.

I remember that his harassment of my alternative self started from the first week, and we are almost on the third week. Other than the first day, when I personally approached her, she hasn't done anything else.

It gave me anxiety at that time, as he might attack my clone, which worked on automatic, that's why he kept me close as one of his lackeys.

And although I could see her status window, I find no hint of attraction to me.

This makes her an indecipherable mystery, to the point of wanting to give up on her. But hey, it's a postponed topic for now; if nothing happens, nothing happens, and that's okay too.

Although I feel weird saying this, if there's no chance of her joining my harem, I'll just have to let her go. So I explained this to Alice, who seemed the most interested in the subject, and then continued to ask me.

"I understand... but who is Aurora? I don't think I've ever met anyone like that. Besides, when you say Astrid, it's not that extremely beautiful instructor, is it? Come to think of it, Chris, you're her assistant... don't tell me."

"Yes, she is exactly the instructor Astrid, and in fact, I think it's only a matter of time before she joins us. As for Aurora, she's Auran; for certain circumstances she is dressed as a man".

"... Chris, you're amazing... do not you think so too Selene?"

"yep..." Selene nodded as she ate a cookie given to her by Alice.

"Kya!, how cute! Can you call me big sister, from now on?"

"uhm..." stated Selene again to Alice, it seems she also fell for Selene's cuteness, although she herself is in the same category of cuteness, but I won't ruin her moment.

In fact, Alice seemed to like Selene for how cute she was, but there's something not adding up. Let's see, if I'm not mistaken, Selene is the oldest here, followed by Elena, Alice, and lastly, me.

But I'm the oldest sister, Alice the middle one and Selene the youngest.

Hmm... Alice is complicating our relationships even more, but if it works for her, that's fine. If she's happy, I'm happy. Besides, Selene gave the nod easily, so it was all good.

Chapter 107: how shall I put it... he's a monster

Well, leaving that aside, the meeting continued and the next to ask was Elena.

"sir. Cristián, I have a question."

"Hey, Elena, is it necessary to call me 'sir'? ... Well, do what you want, tell me your question."

"I understand that you already have experience, male and female, with instructor Astrid and with Selene, right?"

"Huh? Wait, big sister, you've already done it with little Selene and the instructor, what about me?"

Hey, Alice, that's disrespectful. She's older... no, well, I guess it's unavoidable to call her 'little'. Although now that they're next to each other, the size difference isn't much to speak of, and even Selene has more in the boob department.... Well, if Selene doesn't mind, it doesn't matter.

Besides, how do you want us to do it if you just found out in the morning that it was a man? Well, if she wants to, I wouldn't mind showing her the pleasures of the body... no, wait, I have to go back to Elena's question, which was suspicious.

"Yes, well, that's true, because... for the record, you told me it was okay for me to do that, didn't you, Phina?"

Her question was suspicious, so I pulled my real self in for support.

"Uh, yeah. She gave us permission, and I got it on tape."

Admittedly, I was so happy that day that I asked her to replay it for recording. I mean, honestly, Elena was someone very important to me, so if she refused, I was out of options.

But of course, at that point I wouldn't give up and I would keep convincing until she accepted, at least Alice, who was the person I was also in a relationship with at the time.

So I didn't understand what he was getting at with his question, could it be that he changed his mind or something? A little nervously, I asked again.

"This... Elena, you don't want me to...". My doppelganger questioned him faster than I did. Oh, wait, I'm the doppelganger. Well, Phina questioned him faster than I did. In the end, we have the same mind, so we came to the same conclusion.

"Don't get me wrong, my lady. What I mean is that it's still too little; we need more people."

"uhmm..."

"Huh?" (x3)

'Elena, what do you mean? Elena, what do you mean? Why...?'

listening to Elena left my two selves and Alice in bewilderment. And Selene agreed? Wait, why? Selene agrees, as if she understands what Elena says.

As bad as it sounds, the fact that she understands something I don't makes me feel like I'm the problem.

Luckily, Alice is as confused as I am. Come to think of it, Elena from the beginning has been very supportive and even actively asks me from time to time to increase the number of girls.

I didn't fully understand her motives, but it always seemed advantageous to me, so I didn't question her deeply, as she might back out.

On the other hand, while Alice told me he could be with more girls, it's not like she supports it like Elena does, and now Selene, who rarely has a concrete opinion on anything.

"Miss Alice, you don't know this, but unlike when he's a woman, when my lady does it as a man it's usually..... how shall I put it... he's a monster."

'Hey, Elena, why is it that the only word you could find was something akin to an insult? And you, Selene, why are you nodding? Now I feel what Eira feels when you agree with me. I feel that you easily change me for someone else.'

"...I don't understand.... Big sister, does she turn into a monster?"

"Well, let's leave that here. And no, Alice, I don't turn into a monster. It's just Elena overreacting."

"I think we need more than four? hmmm....., a dozen?"

'Hey, Elena, stop being more active than me in wanting to build my harem. you're making my character development useless...'

Well, if I think about it and put the pieces together, I think I understand what Elena and Selene mean.

the art of lust that I practice basically gives me infinite energy as long as I have lust, so I am unstoppable and when I am a man, I am even more insatiable and tireless than when I am a woman, and I can shoot almost without limits, basically I have in me the dream of every man.

So far I have not found my limit, even if I do it with Astrid, Selene and with Elena. By the way, for me, my lust as a woman and a man are different, so that has to be spent separately.

..

Well, in the end, apparently Alice is not totally convinced of Elena and Selene's logic. In fact, neither am I.

I know that this world tends to think that harems are common, but there are people who honestly don't like the idea, like, for example, Eira, who, as I understood, doesn't like at all that I frequent other girls, like Elena and Alice.

In fact, we had some fight when I was coming back on the train because I was now chatting more familiarly with Alice as opposed to when we were going. But well, maybe it's just because she's a hopeless siscona.

The important thing is that two of my three ladies are still in favor and even positively pushing me to expand my harem, so I'll keep trying no problem. As for Alice, let's see her opinion after tonight.

"Attention, girls! The topic is postponed to the next meeting being held... hmm... since Selene and Alice know the truth... humm, well, anytime there's a chance."

Technically, my doppelganger can be with them, and honestly, continuing to do so with Selene out in the open could be dangerous.

I certainly put up various little barriers around and stuff so we wouldn't be easily discovered, but if by chance a powerful instructor happened to walk by and notice, we could be interrupted or even discovered.

So now that there are no secrets with our identities, this room could become our love nest.

'huehuehue'

With that my duty for this meeting is over, it's time for action.

I thought I was forgetting something, but it was only Eira.... Well, I don't think Eira would mind if Selene spent the night with me.

I mean, even when we were on our way here, I left her a note and everything in her room, since Selene didn't want to worry her sister.

Of course, I told her to block the resonance completely. I already had everything coldly calculated.
'Huehuehuehuehue...'

Hey, how the hell does Elena know I'm laughing in my head? Sometimes I think Elena really can read minds since she throws that look of disgust at the exact moment. Well now with nothing else to do, it's time to get down to business.

"This, girls, you know it's been a while and, well, you know..."

"My lady, it's only been a day and a half."

"That long? This is worse than I thought. Well, girls, since our hearts are bound together, how about we do... you know...? Since it's a special occasion, I'm up for anything."

I didn't know how willing Alice was to accept what happened, so I wanted her opinion to understand her preference.

"This, big sister, I want to do it. It's not fair that I'm the only one who hasn't."

"Uh... oh, that's right, well..., as a man?"

"Well, big sis, you said you could, just change that down there, right?"

"Oh, so it's the futa version. No problem. Technically it's your first time, so anything for you, my sweet Alice,"

I said as I licked my lips and spoke seductively. I could tell she loves it when I'm aggressive; I even noticed how her legs were shaking a little. I guess she's a basket case if she gets like this just because of my voice.

Come to think of it since it's a good time maybe I could....

"This, Selene, can we do it over there...?"

"?...no..."

'Shit, I tried. I thought she'd get carried away with the atmosphere, but she's a tough opponent. Well it's not that bad, anyway there was something I wanted to try with Selene.'

" Selene, so how do you want to do it, do you prefer me male or me female, or do you prefer an futa like Alice?"

"Hummm..." I think today was the day I saw Selene in a pensive pose the most. It was so weird that I secretly took a picture.'Well done, Chris, we'll keep it in our collection. '

"any..."

'oh! that's good I see you have no problem with my female form. '

"Huehuehue," (x2).

I laughed out loud, along with my doppelgänger that had returned to normal. I was already looking forward to what was to come.

"My lady, I told him to stop laughing like that. He's twice as gross now."

"Hey, Elena, how can you say anything about my beautiful, pure smile? Alice likes it."

Certainly, Alice is the only one who liked my laugh. As for Selene, she hasn't complained, so the problem is Elena, not me.

"With all due respect to Miss Alice, but I don't think her judgment is correct."

"Really? But big sister seems so happy when she does it, her cute, isn't it?"

"for nothing"

"Well!!!..., putting that aside, we're going to have a long and passionate night."

The five of us go into the room, obviously my doppelganger will also participate. After playing rock, paper, scissors we decided who would be the first armed with Shenlog.

..

.

"Oh!...now that I remember, it's time to negotiate."

I almost forgot something important. So, when we arrived and started to undress, I pulled out of my bag different suits and clothes for the occasion that was about to happen, with a serious face of a professional negotiator.

Due to past experiences, I was a faithful believer that provocative clothes were better than being completely naked, and a big occasion like this required measures of the same level. So I didn't hold back and pulled out my entire accumulated arsenal.

I saw the blushing Alice while looking at the different models and outfits she had, Selene who didn't understand what was going on and the always welcome cold and critical look of Elena. Well, now the really important part begins.

I need all of my focus and insight as well as my actual two heads to negotiate, the real problem is that Elena is no pushover and is hard to negotiate with, but I'm sure tonight I'll finally get her to wear the maid-themed microbikini I've never been able to get her to wear, I'll bet my life on it, let the game begin.

Chapter 108: Wild night out >(R18),(futa)(yuri)(Fivesome)

There was Seraphina, rather the Seraphinas, looking at the three beautiful ladies on the bed, which she had long ago replaced with a larger one, for occasions like this. He was self-praised for his predictability, but that was not the important thing; the important thing was that there were two Seraphinas.

Although they looked like two entities, they were the same person and their thoughts were completely synchronized. The Doppelganger ability was so good now, that they had parallel thinking; they didn't notice the difference between the real body and the fake one.

The only thing that differentiated them was that one could use only one ability while the other could use the whole repertoire of her abilities.

Well, at this point it didn't matter which of the two was fake or real; the important thing was that they were both looking closely at the outcome of their previous negotiation. Unfortunately, she couldn't win his negotiation with Elena, and could only make her wear a red transparent negligee.

Alice, on the other hand, was wearing a normal black lace underwear ensemble with a super mini-skirt on that served no purpose other than to feed Seraphina's .

On the other hand Selene was not the best negotiator, so Seraphina made the most of her fantasies and, with her deft hands she herself put a very fine and sheer bodystocking set on Selene, with a convenient absence of coating in the most important parts, and of course with nothing else underneath for Seraphina's preference.

One of the Seraphinas, who was wearing a lace culotte, licking her lips seductively and with a smile that suggested less-than-good thoughts, was moving towards her little victim.

She wanted to show her that it didn't matter if she was male or female, she could make her feel good. And with that in mind, his blue eyes focused on his target.

The girl who normally had a calm and sleepy expression, who, if you looked right now, even had a little blush. It seemed that even for her, wearing this was embarrassing.

One of Seraphina's greatest pleasures was to make her look embarrassed and show different reactions during her pleasure sessions.

Confident in her abilities, she began to move closer, watching for rejection on Selene's face at the new appearance, but she didn't show much, so, with a little more confidence, she began to kiss her.

Chup....Mmmmua.....chu....mua

Softly, the soft lips made contact with hers, and little wet sounds began to emerge from them. Slowly, Selene began to reciprocate and even began to wrap her arms around Seraphina.

They both seemed to become easily intoxicated by her kisses and, though a bit cloudy, even so, Seraphina began to massage the breast which was a decent size through the body mesh that didn't affect the sensation at all.

It was soft and adaptable, giving her the desire to massage it relentlessly, as well as imparting pleasure.

Selene was just holding it. She always liked how Chris, or rather Phina, massaged her; this time was no exception, although it felt a little different, the pleasure was the same.

She herself, in her curiosity, tried to replicate it, but it wasn't the same no matter how hard she tried. So she always expected to feel this sensation when they were together.

Selene's breathing became erratic, her heart, which was always calm, began to race. The redness in her body increased, her ears twitched and made small movements as if searching for something, and her tail wagged back and forth erratically.

Seraphina, seeing Selene's absolutely positive response, began to be bolder. Slowly, her hand began to caress her ever curious and fleshy vagina, a delight to her.

drip...

Juices began to drip from Selene's vagina, and the eager Seraphina broke away from the kiss, where both tongues were together and created a small bridge of saliva.

Seraphina looked at the beautiful Selene, who had her little tongue out with her blue eyes and a little feline vertical line, looking at her as if to ask for more, although they were a little blurry.

"Haaah!~.... Haaah!~...."

They both breathed shakily, as the intensity had made them forget to breathe, but barely had room to maneuver, Seraphina began to make a path of kisses, moving down from his lips to his neck to finally reach his chest covered in the very fine mesh and with the absence of covering just at the chafed tips. She began to kiss her now hard and sensitive cherries.

One of the great mysteries that Seraphina, since she first tasted it with Elena, wanted to answer, was why, despite not having any taste, it was so delicious to have them inside her mouth. It was an ecstasy, invisible and stimulating, of which she would never tire.

Selene began to have little tremors and moan louder and louder.

Mmmm-smack...smack.

"Ah...ahh...hnm... ahaa~..."

Her ever steady, calm voice was getting louder and louder, feeding Seraphina's desire, which kept attacking the tips of her nipples, nor did she stop stimulating her fleshy pussy, which were the only unprotected ones.

She herself was beginning to react, as juices were dripping from her uncontrollably and adding to the mix of all the beautiful ladies in this room.

..

On the other side, there were Alice and Elena, along with the other Seraphina, watching the scene with a bit of a destracted look, and the latter had something that women should not have between her legs; you could tell because she was completely naked.

It was growing from where the female clitoris was supposed to be, but deaving the rest of her female anatomy intact.

Seraphina who finally reacted as she was enraptured watching Selene and her other self in that demonstration, now she was especially effervescent and that was clearly shown by the member in its maximum splendor and it went like that to her own victim.

Alice, seeing her older sister approaching with desire in her eyes, unconsciously moistened and blushed heavily.

Not to mention the dangerously large and somewhat grotesque dick that was now protruding from her sister.

She honestly wondered if that would could enter into her, but if it was her big sister, she would accept anything as long as it brought her even closer to her big sister.

In her heart, it was an amazing existence and being closer to her in any way made her extremely happy.

"Glurp...Huff..."

Her breathing began to hitch and she unconsciously swallowed hard. Her legs were shaking a little, but it definitely wasn't out of fear.

By the time she reacted, her sister was so close to her that their breaths were colliding.

Always seeing her older sister's beautiful face up close was a delight. Besides, she could feel a great warmth perched on her stomach; she didn't even have to look to know it was the great pillar she saw moments ago.

Seraphina knew it was Alice's first time and she had to be careful. Certainly, those who go through metamorphosis are physically stronger than ordinary people, but it never hurts to be careful.

The positive thing was that Alice had vitality growth talent, a hard statistic to improve, but at the same time it gave the body great stamina, endurance and health, so she didn't have to be so worried about Alice not being able to take it.

And she started to be more aggressive and attack her; she wanted to get her wet enough and push her arousal to the limit.

..

On the other hand, Elena watched the two couples starting to heat up and didn't know how to intervene. She was certainly starting to feel hot herself and wanted to go, though it was always heavy for her in the end.

She couldn't deny that her lady always made her feel wonderful, and by this time it was beginning to frustrate her that Seraphina was leaving her aside.

But, as usual, and as if she had a gift for reading minds, she or rather both of them at the same time noticed Elena and called out to her.

"Elena, what are you doing there, join in!" (x2).

"..."(x2) Both Seraphinas said to then stare at each other. they were the same person but curiously they did not agree at the moment, but in the end, they gave the decision to Elena.

Honestly, Elena went so far as to ask him if he had an ability to know what he was thinking, but he always denied it, and knowing her, she was unlikely to lie, so with a bit of hesitation, she approached the Seraphina who was with Selene, as although she felt more comfortable with Alice, who she had known for a long time, she didn't want to mess with her first time.

She watched as the Seraphina here gave the other one a look of victory, and honestly she was confused because she herself told her that they were the same person.

Well, she had always been someone eccentric, otherworldly or not; understanding her was beyond her capabilities and she already gave in.

Elena was well received and, as if naturally, joined the others and began a round of kissing and such, helping Serafina to tease the pretty Selene, who even Elena internally wanted to caress her ears, and would take this opportunity to do so discreetly.

For Elena, the last night was so intense that this was captured as something normal what she is doing right now, and she totally forgot about the fact that her lady was the only woman she felt attraction to.

Honestly, when she first accepted Alice's integration, she thought her lady would do everything to each other, but in the heat of the moment she even did it between Alice and her, and she didn't dislike it at all.

Now, Elena is seriously rethinking her tastes, which became a mess because of her changing mistress, and she reproached him by biting his neck a little hard, as that thought came to her at the moment he was kissing her there.

"ayy!!..., Elena, don't be so aggressive!"

Well, it was just a little passionate kiss or so Seraphina wanted to believe, and she kept teasing Selene.

..

Seraphina alone with Alice removed her panties and directly with the tip of her cock was starting to tease Alice's wet pussy, feeding both of their desire and giving her a taste of what was to come.

"Alice, are you ready for what's to come?"

"ahh!...Yes, big sister, yes it's you...hummn~ I'll be happy."

Seraphina had been looking forward to this moment for a long time and regretted a little for being such a coward and not telling Alice in advance about her male identity.

Alice had accepted everything so easily that she felt stupid for overthinking it.

So today, which was a special night for Alice and she was bent on doing it right, was turning her on even more, causing more and more love juices to start gushing out of Alice, as Serafina stimulated her entire vagina with his cock already covered in pre-seminal fluid.

"Haaa~♥□"

She was doing nothing but defiling Alice's so far pure entrance; the thick member rimmed and squeezed as made fake insertion motions, to draw more and more love juices from Alice's increasingly eager and quivering vagina.

Even though it was her first time, Alice couldn't have been more eager to receive everything from her big sister, and her whole body knew it.

Both now on the bed, in a missionary position, Serapina being on top of Alice slowly but gently guided the thick member that found its way inside Alice, making her virgin entrance tingle even more in anticipation of accommodating the large member.

"Alice, are you ready?"

"...Yes~"

Chapter 109: Wild night out (2) >(R18),(futa)(yuri)(Fivesome)

Finally, Seraphina had thought it was time; she looked into her eyes, emerald green ones that sparkled like gems.

Although Alice had a lost and intoxicated look, when she heard her older sister's voice, she regained some clarity and looked into Seraphina's beautiful sky blue eyes, which she loved, as well as her platinum white hair.

She was her first love and she wouldn't trade that for anything. More than ready, she was looking forward to it. Still, acting a bit spoiled, she said:

"Big sister~, could you kiss me while you're at it?"

"Of course, my sweet Alice."

For Seraphina, that was no problem at all. She pulled Alice close enough for their bodies to feel the heat and their breasts made contact, initiating a soft, long kiss.

"

In her warm embrace, slowly but surely Seraphina began to penetrate Alice with her thick, hot and full of vitality member, beginning to mold Alice's insides and giving Alice a mixture of pressure, pain and pleasure.

The big member, slowly but surely, was invading Alice, finding in its way the proof of virginity that she had cherished until today, and that she thought she would never lose since she had decided to spend her life together with her older sister.

"Mnn~♥□"

Both were immersed in their passionate kiss and union; there were no words, emotions were naturally transmitted, as Seraphina made the last little effort that broke the boundary of that thin membrane Alice had kept for 18 years.

"AaahH!~ahmmn~♥~"

A small cry of pain came from her, but was immediately drowned out by Seraphina's lips.

Alice was overwhelmed by the sensations, and didn't know what else to do but hug her big sister, to the point where both breasts were warping and stimulating each other.

It was the best of two worlds, and Alice was enjoying it for her first time. She felt the thick member reach into her depths parts, causing her to spasm in pain.

Still, the pleasure was more overwhelming and totally different than usual; she felt more connected to her big sister than ever.

From that moment on, she knew she would never be separated from her. Even in the afterlife, she would forever be with her big sister. 'forever and ever'.

Slowly and steadily, Alice felt her big sister begin to move the thick member inside her.

Slap... slap... slap...

At first it was small, gentle movements that eventually increased in speed and magnitude, coursing from the entrance to the end of the corridor, stimulating it with a pain and pleasure she had never felt before.

It was strange, as it was painful, but it still felt so good as the tip of the penis kissed the entrance of her matrix and scored her deepest, giving her a feeling of ecstasy both mentally, and physically, Alice wanted more.

She wanted to ask her big sister to make it harder. She didn't care about anything, she wanted to feel that sensation more, even if her big sister tore her apart. She would be happy.

"More!!~♥□"

Slowly, her desires began to break free, asking her big sister to keep going, to disregard her, to do whatever she wanted with her body.

"Big sister, Deeper !!~♥□"

"Ohhh!...Alice!"

"AaahHH!!~♥□♥□"

Seraphina, encouraged by the request of the moments ago virgin Alice, began to pump harder and harder and more intensely.

She knew it was not something that would be done to a virgin, but Alice's insides had a peculiar sensation... she didn't know how to describe it, but it was both rough and, at the same time, well lubricated, as if there was a harmony between opposite concepts.

It was the first time I felt that peculiar sensation. She didn't know if it was something of Alice's or had to do with her mixed blood, but she was becoming addicted to that unique sensation, and her whole being was asking for more, and did not hold back any longer.

Slap... slap... slap...

"Ahhh~♥□.... haaaa!~♥□... ahhh!!~♥♥."

It was so intense that, at some point, the soft and common missionary ended in a mating press.

Where Serafina was intensely moving her hips down, Alice was receiving without hesitation and even asking for even more by instinct because her mind right now was in absolute ecstasy.

It was a raw and intense mistress of unscrupulous lust, Both were lost in pleasure and simply could not stop.

..

On the other hand, elena who watched as Selene was contrite and ran something in which she was of help, realized too late the other problem, which her lady had made her overlook before.

Elena had joined this group as if it was something natural, but she realized that the situation was different from what happened a few days ago, since, although Alice is also a girl, it had been a few years since they met and became friends.

On the other hand, the girl in front of her was almost a stranger, of whom she had only heard of, which made her feel a little uncomfortable, when she finally noticed this.

Now it was too late for reflections, she had already, in more than one sense, defiled the beautiful Selene, At this point Elena felt that she needed more self-reflection, about some things and at what point she became corrupted to this point.

..

Seraphina, knowing her very well and preventing her from further deepening her thoughts, began to occupy one of her hands to stimulate Elena's dripping vagina.

"Ahh... nnnm~... ahh... mhn~"

Masterfully, Seraphina massaged both vaginas, not holding back at all, causing both to have small orgasms, until finally Selene, who had been stimulated the longest, began to writhe and release a large amount of juice as she grabbed and clung to Seraphina's hand.

On the other hand, Elena, who was vulnerable, as Seraphina knew her body like the back of her hand, with a masterful and winning combination of combos, guided Elena to a large and strong orgasm.

"haa~...haaa~...haaa~..."

Leaving her now both tired, incapacitated and breathing heavily on the bed. There, Seraphina raised herself up and, kneeling on the bed, contemplated the result of her finger work. But it was only for a moment, looking especially at Selene, or rather at her fleshy vagina, she swallowed heavily.

It was something she had been thinking about for a while, even though Selene had not allowed him to put his shenloong inside her, she had played with that fleshy vagina in many ways.

and now she was curious to know what it would feel like to have hers meet Selene's fleshy vagina. As an adaptive being, or as she called herself, she had to find out what it would feel like.

So far, there was no rejection from Selene towards what they were doing, even Alice was confused when they had their first kiss, both being female. So, Seraphina always acted careful when she was a woman.

She removed the lower part of her clothing. Slowly and masterfully, she approached Selene and carefully entwined her legs together.

She looked at Selene the whole time; she looked at her while breathing heavily. She was red, but her ears seemed to show good signs. She was a little glad he had investigated the cats and the things their ears say.

Having encountered no problems, Seraphina began vaginal contact. At first it was tentative, interspersed touches.

Plap... plap... plap...

Selene's labia majora were soft and stimulating giving her a unique and different sensation, which was why I was curious and wanted to try this.

"nhmm~...ahhh~...mmhn~♥□"

He was looking at Selene, who started to let out soft moans and her body was starting to warm up and redden again, so he was increasing the interval of contact and getting both vaginas stimulated, especially the clits; he was making sure to squeeze them with the opposite vagina.

She had already gained a lot of experience and had been doing it for a long time with Elena, and recently with Alice, so she knew how to move.

Slsh..., slap..., schlup..., slap....

Both vaginas were very wet, hot and sensitive. After seeing Selene's positive reaction, he went to Elena and pulled her in.

He began a kiss again while his free hand massaged Elena's large breasts.

This was only her second time doing it with more than one person, and as someone who dreamed of creating a harem, she could not fall short of this sort of thing.

With her other hand, she held Selene's leg and began to increase her pelvic motion even more, stimulating Selene strongly. By this point, their vaginas were clashing and squeezing intensely.

Schlop..., squish..., slrp... smack

Seraphina was especially delighted with the feel of Selene's fleshy vagina and how it stimulated her in a unique way.

The atmosphere was getting more and more intense, and Selene was at the mercy of the experienced Seraphina, while Elena was at risk of cumming just from the kiss and the massage on her breast, and as always, she blamed her lady for turning her body into something so sensitive.

"Hyaaa!!-mmmhnn!?!?"~❤️👉❤️"

At that moment, Elena suddenly let out a loud muffled moan which was silenced by the kiss with Seraphina.

The reason was the sudden penetration of the shenlong armed Seraphina towards Elena. Looking back, Alice could be seen in a mess, with large amounts of white liquid coming out of her legs with reddish tones, from her innocence.

She had c her legs carelessly spread and a face in ecstasy and ahegao,

"big...sister,mo,...mmor,...more"

she seemed to mumble something, but did not appear to be fully conscious.

This was the result of the intense first time with Seraphina, that seeing her, she felt guilty for a few seconds, until she recovered and looked at a vulnerable butt pointed at her, and did not despise the opportunity.

"Mmm~❤️👉... haah~❤️👉...ahh!!~❤️❤️❤️"

Elena was now being attacked from behind by the armed seraphina, and kissed and stimulated on her breast by the other seraphia, giving her double pleasure.

..

But at no time did the Seraphina in charge of Selene stop stimulating her and moving her waist while inteseficating the grinding of her vaginas and she felt the moment was approaching.

Schlop, squish, slrp....

I didn't know if it was her or Selene, but I felt their vaginas quivering with anticipation and desire. The union was so wet and hot, as the rubbing of both vaginas increased this heat and wetness more and more.

Squish..., schlup..., slsh....

"hhh~...haaa~♥□"

At that moment, Seraphina began to wildly move her hips to peak, while stimulating Selene hard.

"mmnnhhhhhAHH!!!~♥□♥□"

Selene couldn't take any more of Seraphina's intense movement, for Elene it was a completely new experience, it was rare and unique but she just knew it felt good. Selene finally reached her peak of pleasure, the desire for release filled her whole being and she was at her peak, and then.

"ahhh.... cuming.... AAAHHH!!!~~~~♥□♥□♥□"

Shlick..., Splash...,Gush....

Selene began her great and long awaited orgasm, as she released many love juices into the hot junction of both vaginas.

Seraphina finally felt a sudden surge of heat and wetness, as well as movement from the hitherto passive Selene, which stimulated her.

As an electric current shot through her body, the explosion came and she began to cum, also releasing large amounts of fluids into the union with Selene, who at the same time was also releasing a large amount of fluids, making their union even wetter and more viscous.

Splash...,Gush....Slosh...

"ahhh!!...♥□~..yesss...Haaaa~♥□♥□♥□"

The orgasm of both of them was prolonged, as they had combined the continuous and stimulating rubbing caused by the reaction of the orgasm itself.

They both felt great and simply had eyes in ecstasy; especially Selene, who seemed to be having astral travel. Her waist was still moving unconsciously, stimulating Seraphina as well, who enjoyed this kind of pleasure as much as the other.

..

.

Thwap... plap... thwap..

On the other side, at the same time, in doggy position, Elena was being attacked by the armed Seraphina from behind.

They reached the intense point where, as always, Seraphina let herself go and her uncontrolled pumping caused them both to fall on the bed, and due to the closeness with the other two caused Elena to fall on top of Selene.

plap... thwap...plap...

Still, like a wild animal, the Seraphina, equipped with her throbbing length, did not stop wiggling her hips lost in the pleasure that Elena's insides were giving her.

thwap... plap... thwap...slap

"Elena, it's coming, ughh!!!"

"aaahhh... phina.... mmn, AAAHH!!!~♥□♥□♥□♥"

she was already at the peak, and when she reached the absolute, she started to fill Elena with her thick seed, which just with the thick and hot feeling made Elena cum continuously.

Mmmmua-chu-mua!

In ecstasy she found solace, unwillingly, in nearby Selene, who also, in her reverie, intensely began to share an intense kiss, while both had the reflections of their intense orgasms.

..

"Haaaa.... Haaahaaa...aaaaa!" (x2)

Both Seraphinas breathed intensely and looked at each other. As if by reflex, they made a handshake pose handshake.

slap!!

Their squeezes echoed in the room, both looked at each other with pride as if they were praising each other for doing a good job and seeing how their harem was getting along, well that was for a moment because then they felt embarrassed, since in the end they are the same person.

But leaving aside that little episode of silliness, both, as always and regardless of gender or if one was a clone, their recovery was divine plus the unlimited energy that art made run through their whole body, and with their eyes filled with a great overflowing desire, they went on and attacked their three prey, lying on the bed. this had just begun....

Chapter 110: Wild night out (3) >(R18)(futa)(yuri)(Fivesome)(anal)

..

In the room, no one knew how much time had passed. All five women were exhausted and breathing heavily.

There was one whose breathing was especially erratic, and that was Elena, who was being doubly assaulted, lying on her side with one leg raised and assaulted from behind by the futa Seraphina, while from the front Seraphina's fingers stimulated her vagina and different parts of her body, without any mercy.

thwap... plap... thwap...slap

Elena was extremely sensitive and could no longer count how many times she had cum; her eyesight was blurred and she seemed to respond only to stimuli, even when she was doubly assaulted.

On the other hand, the two Seraphinas, oblivious to the fact that their current actions could earn them a close encounter with George, were making sure to bring Elena to ecstasy, as if it were their divine duty.

"Ah, huaa, aaaaaaahhg!!!! ♥□♥□♥□♥"

Finally, Elena came hard, as she was filled deep inside with the thick, hot seed, who knows how long Elena's body spasmed from her prolonged, deep orgasm, until she finally lay there immobile.

The strength in her body had long since faded and her consciousness, which was already on the verge of being lost, finally reached its limit, making her fall unconscious.

her face was such that if she could see herself now she would definitely leave Eerafina at death's door for leaving her in such a questionable state.

"Haaaa.... Ahahaha!" (x2)

Both Seraphinas were breathing heavily, as if they were in sync, and they certainly were, since they are the same person.

They were so intoxicated that they paid no attention to the possible cause of their death tomorrow, and followed like hungry beasts to their next victims, which were Alice and Selene.

All five were lying on the bed, with Elena now unconscious in the center, with the Seraphinas on either side, and Alice and Selene on both edges.

So the two Seraphinas had only to turn 180° and found the two ladies, who were still breathing heavily and looking at them.

!haa~

Unlike the tough Elena, who resisted to the end, finally being defeated by a double attack, Alice and Selene had small lapses of unconsciousness after an orgasm, but returned to clarity after the moans of the others woke them up.

The cycle repeated itself, reaching this point where both could barely move, and they were certainly close to the true limit.

Even Alice, who is noted for having great vitality, felt that it was not enough to support her older sister even before as a woman, and now she felt it even more, the difference from when she was equipped with that extra limb making her completely different, just as Elena had told her.

With what little reasoning she had left, Seraphina noted that both girls couldn't go more than one round, and that this would be over after this round. Finally, the unarmed Seraphina began to grow Shenlong as well.

This had happened several times during the night; they both took turns and switched roles. Even she herself did not know exactly who the doppelganger was; the important thing was that he could feel twice as good and give pleasure to his beloved girls.

"selene, this is the last one, hufp.... can you stand it?"

"uhmm~"

Not wanting to overdo it, she asked Selene if she could take any more, to which she nodded softly.

Finally, one took Selene and, as the only option, left her in the same face down position she had and climbed on top of her, starting to slowly thrust his big, hard cock into Selene's back door.

"Haa~♥□"

When she first did this, the other two ladies were surprised to see it happen as it was not something they had ever seen before, but then even Alice wanted to try it.

Of course, she was duly prepared and subsequently filled with a large amount of seed.

On the other hand, Elena flatly refused; well, Seraphina knew it wasn't for everyone, and unlike the vaginal, Seraphina had to be a bit careful and release purification after every big cum, since.... well, she tends to release too much and it could end badly.

The important thing is that Selene seems to like the sensation, and sometimes even asks to leave her at that since, saying she 'feels full.' , but as someone with a conscience, Seraphina can't leave her like this and ends up purifying her anyway.

Well, the point is that officially today was Alice's first time in both hole, and also, pitifully, although Selene was curious about how it felt frontally, in the end she did not give her consent, she was immovable.

..

The other Seraphina took Alice, who always accepted whatever from her older sister, and turned her in the same position as Selene. Alice still retained the black miniskirt that did not cover her beautiful smooth white ass.

Without any consideration, Serafina opened her ass and contemplated her options, since she had both holes available.

She hesitated for a while, but in the end she started to put her cock in Alice's already very sensitive and wet pussy.

Alice was ready to receive whatever her big sister gave her without any restriction, her body was her big sister's to do with her whatever she wanted.

and maybe by focusing on this new phase of Alice who always asked for more and more, he didn't even ask her if he could, Alice had already made it clear that he could do whatever he wanted with her even if she was unconscious, so he didn't hold back at all, this would be an unforgettable night for Alice.

slap.....pat....Slap... pat... slap..."

"mmhnm~nmhm~mmmu~♥□"

Selene, who found the position comfortable, while Seraphina was boobing her hips on top of her, was already tired and didn't have to do anything, just lay there and enjoy the sensation.

She didn't have to do anything anymore, just lay there and enjoy the sensation as she let out moans that were drowned out by the bed.

Her 'body stocking' was already broken and a mess. Seraphina was like a beast, her hips were moving intensely defiling Selene's anus, she didn't look tired at all, even though she had been doing this for hours.

She was a monster of lust, as Elena described her, and it was not for nothing that she was fine with having more companions.

Certainly Elena loved her, but simply her body, even with more metamorphosis, was not enough to sustain her as Seraphina became even worse the stronger they became.

"hmn!~♥□hmmhnh!~♥□nnnmh~♥□"

Sudden sounds invaded the room, and the soft moans and gasps of Alice and Selene, drowned out by the pillows, could be heard.

The Seraphina leaned her body over Selene, resting her chest on her back and intensifying the contact areas generating an even more intriguing heat, for both ladies already sweating.

Seraphina, despite the pressure between their bodies, managed to slide her hand underneath them. Her fingers reached Selene's wet, fleshy vagina, which had not stopped releasing love juices.

drip..., Slsh...,drip..., schlup...,

Seraphina didn't even hesitate and put her weight on her, as she moved her hips, moving in and out of Selene's back door.

Mmmpphhh... mmmmmmm.... chluuup

On the other side, almost in the same position, the other Seraphina had Alice, only this one was holding her by the neck while they shared an intense kiss.

During the course of the night seraphina noticed something that, despite having previous experience, she had not noticed at least not as clearly as now, and that is that Alice particularly liked rough sex, and she showed it by drawing moans of pleasure, despite the inordinate intensity with which she was pounding her vagina.

Plap... thwap... plap..

Seraphina felt that Alice's whole body proclaimed submission absolute, which ignited her flame, and desire, until it left her at this point that despite her vitality, she was already at the limit.

Seraphina felt she was reaching her limit and had to let go of everything she had in storage, forgetting that for the moment she had no family jewels, and didn't even care where the hell that much seed was coming from.

Well, not that as a man he had sense that amount he was always pouring out, in the end, he simply attributed it to morphogenesis or some other legacy ability, without thinking it through.

"ugh...viene"(x2)

"mmmnaahh~♥□♥□"

Feeling the absolute limit, Seraphina, on top of Selene, pressed her body more intensely against hers, feeling the small contractions and tremors coming from her. Selene's body was preparing for a big, final orgasm.

Seraphina held her so tightly that Selene was completely immobilized and inert under her, barely leaving her room to breathe.

".coming...,argh!!!"

"mhnnn!!!~♥□♥□♥□"

Seraphina began to release her thick, hot, and above all, abundant seed inside Selene, who simply moaned as she felt her warm insides react. Her entire body convulsed, reaching its own powerful orgasm.

"mmmhaumn~~♥□♥□♥□♥"

She no longer had the strength for anything, simply trembling a little and spasming inside her while she was held ermetically by seraphina who in ecstasy simply filled Selene's interior each time without worrying about anything.

Gush....Shlick...Drip....

as she released spurts from her vagina, which was also being stimulated by Seraphina's hand. This went on for a while, with Seraphina holding Selene tightly and pressing her down on the bed, without any measure, releasing everything.

..

"muhnn, big sister....mnhhff!!~♥□♥□"

he same for the other side. Seraphina on Alice felt she had reached the same point of ecstasy at exactly the same time as the other Seraphina.

Well, two bodies, one mind, was something that was no doubt obvious, and even in the unconscious, the pleasure was shared.

It didn't help Alice's sensational and unique vagina that wanted to squeeze him and get his essence out of her, and without any resistance it was given just like that.

She began to release into Alice's womb, which not being human completely, discovered a variable and without any hesitation began to inject it directly, filling Alice without any restraint.

"oh, Alice!!"

"mhnnff...lmhannhpff~♥□♥□♥□♥□"

She held her by the head and equally pressed her down on the bed. Both were in ecstasy, and Alice her face as well as her body pressured by seraphina began to cum erratically moving both her feet and body

but seraphina's firm control gave her a heady, intoxicating pressure that only intensified her strong, intense, shuddering orgasm.

mnhhhuff~♥♥♥...nnhmpff..~♥♥♥♥♥"

Her body reacting on its own, she began to convulse and shudder beyond measure, as she released equally spurts onto the bed.

Seraphina, who never stopped releasing and when she felt that the Alice was full enough, in one sudden movement pulled out his big cock of its vagina and, before he finished cumming, shoved it up her ass, releasing the last of it into her being.

The same for the other Seraphina; not to overdo it, he pulled his cock out of Selene's ass and simply released the rest on the external parts Selene's vagina, contaminating every last nook and cranny of her fleshy cunt, with his cock that was releasing semen and he even sneaked some of it into her entrance, freeing some of it inside Selene's chaste interior, staining it and marking it deeply.

"haaa...ahhh...huff!"

It was a pure demonstration of nothing but lust. Finally with a breath somewhat agitated, they both fell back down and settled into their original position, with Elena in the center and Alice and Selene in the corners from the big bed.

And lastly, just in case and not to wake up, in a desastee, he released a wave of strong purification imbued with his blessing, over the bed and the room, satisfied, he closed his eyes and deactivated all his abilities.

As for who was the true seraphina, only the one who, in the end, used his blessing, knew.
