

## The Noble 331

Chapter 331: New experience (R18)

"Haaah.... aaahhh~.... haaah!.... if-if you don't let me rest... I'll kill you! Haaahh~..."

"Uffhaaa...okay uff...."

We both finished this experience which was very intense even by my standards I was really losing my breath to the point that even my art couldn't cover with its reinforcement.

She on the other hand didn't seem to be able to move anything besides, her mouth would look very exhausted and in fact she is one of the one with the best stamina after Lily, it seems that continuing right away another round is out of the question

"but Eira, are you sure you're not half lust demon? You almost squeezed the vitality out of me there..."

"..."

Honestly, I questioned Eira. Well, I think it's because of my new technique... it seems dangerous and I should only use it as a last resort.

I don't think it would last many rounds if I used it too much... or would it? Well I still don't know what my limit is.

It was just a joke, but Eira remained silent, as if it was a serious question.

Although both of them, indeed, are 100% beastly women I know better than anyone!

"Aunts call mommy that..."

"Ugh!!! Selene! You didn't have to say it! Rather, since when are you awake?!"

"Sis... you scream a lot..."

"..."

Well, that was obvious seeing as we didn't put up soundproofing or anything.

I'm not questioning Lily, I know she's beastly woman-in fact, she's more beastly woman than anyone-but maybe the father....

Well, unless a miracle happened, he must be human or beastman too.

Lily said that her parents were cats to begin with and that she was the odd one out in the family tree, which doesn't surprise me seeing what she is... and with the physique she has.

"Well, Selene, since you woke up and Eira's indisposed.... how about if-?"

"Mhm!...it's my turn"

'good! she seems motivated, I knew she would wake up in a good mood'.

"Hey, first of all, clean me up, I want to rest. Also put a sound barrier on me.... And don't even think about dragging me, either of you!"

"..."

Well, someone's being picky. But she's right: she can't even move, it's not bad to let her rest.

And I complied with all her requests, although I don't know if I can comply with the latter as sometimes Selene and I get excited and tend to drag her into an intense threesome.

Click!. Click!. "Redintegro vires."

And as a bonus, I cast a spell to stimulate her recovery, in a few minutes she'll be as good as new.

I won't bother her for now, but when I'm done with Selene... it will be her turn. There's still time left, Huehuehue...

"Hmph!..."

She looked at me unsatisfied, as if she knew exactly what I was thinking and the reason for casting that spell. But she said no more than a snort, and simply lay down to sleep and regain her strength.

I took Selene and we went to a corner of this big bed, where the anti-sonic barrier would not affect us, so as not to wake her up.

..

.

"So, my little angel, any requests?"

"Hmmm..."

"Do you want your favorite position? Or do you want me to carry you like Eira?"

"Hummm..."

I simply asked out of politeness as she is always fine with anything and always says yes, to her favorite position as soon as I mention it.

But now she didn't say what, yes right away and looked thoughtful, which made me curious, she seemed to be looking for something different today, so I helped her out.

"Let's see... missionary? doggy? loaded doggy? you want to take control? you want to go for amazon style like Lily? helicopter?... ooh!! I know! how about using me as a bed?"

"yep... that one... and all of them."

"Huh?!? Oh! Selene, you're going all out! Alright then!!, if my little angel thinks she's capable... but why do you suddenly want to go all out? Ah! Lily said something to you again, didn't she?"

"Mhm!. Mommy said that's how a relationship lasts."

"Huh? Now what's Lily planning? fine... let me tell you, she's wrong."

"Why?"

"Because our relationship and my love will continue even if we never do... we'll be together for eternity."

"yep... but Then..., won't we?"( ^ ^ )

"Huh?!? I was just saying!!.... of course we're going to do it! But not for that reason, that's indisputable You already said you'd do me amazon style! Wait... you know what that is, right?"

"Mhm!... Mommy taught me."

"...I don't even know what to think about that...let alone what Lily's thinking...."

I don't know why Lily-someone who still refuses to do it at the same time as the twins-is teaching something so graphic and high-level to Selene.

'Wait! What about Eira? Hmm... Oh! I know what happened here.'

Now that I thought about it, knowing the three of them, my hypothesis is that Eira - even if she denies it - wants to actively move down the path of lust.

She asks Lily or the one-san for relationship advice, which is something I found out by coincidence.

I imagine that maybe she approached Lily to ask her something high-level, even at the cost of embarrassing herself.

Lily, who knows that... although maybe she didn't want to, ended up showing Eira what she knows.

I mean, Lily definitely wouldn't corrupt her 'cute little daughters' with that knowledge willingly... but if Eira asked, she can't refuse.

'yeah, I can easily imagine that scenario.'

Now with Eira's personality, she surely didn't put anything into practice, even if Lily taught her techniques, out of embarrassment.

'Well, today was a bit more fierce than usual... maybe it was a bit because of that.'

And well... I also imagine that Selene was the collateral damage, that Eira dragged along to be too embarrassed.

And the one who I guess now wants to put what she learned into practice. That's the only thing I can think of as a reason for Lily to teach that to Selene, since I can't imagine the latter asking her, to Lily.

Honestly, Selene and Amazon style don't seem to go hand in hand... and that's just why my expectations were sky high.

"What do I do!"

"Lie down."

Without thinking, and obediently, I lay down on the bed. With my Shenlong being the pillar that it is, imagining the possibilities.

I looked at Selene, who at that moment was taking off her pants along with her underwear and opening, her shirt exposing her large breasts.

Then she walked towards me and passed her feet to both ends of my sides, she was now lined up on my cock; she just had to do a squat and everything would fit perfectly, I was as hard, as I could be, not flinching to let Selene have an easier job.

'So she'll start with the cowgirl position.'

Indeed, she started to bend over. I don't know if Eira noticed it, but I had noticed when Selene woke up and I must say that she had been looking at us for quite a while.

And indeed she looked like she was very aroused, although she is not like Eira and Lily, who usually let out a lot of love play she was certainly aroused enough to be very wet.

I could see how a bit of wetness fell just over the tip of my erect member, I don't know if it was on purpose or not but its descent was relatively slow is that or is my perception altered by my eagerness for Selene to dominate me.

'oh! No!'

I was surprised, already when I was about to enter the promised place, my cock did not enter, in fact, it slipped and rubbed all over Selene's slit.

For a moment I was worried that he would fail to initiate the cowgirl position on his first attempt and get a little discouraged.

"mng! ♥️👉, good!"

But my worries were in vain, apparently, everything was planned by Selene; it seems that insertion was not Selene's goal, she continued to go down to the point of making my cock lie against my stomach.

And her goal was to rest her crotch, against my cock, I could feel her weight against me and also the warmth and wetness of her her warmth resting on my cock.

" Uhm ... now I have to ... aah!~♥️👉"

in fact, I didn't have time to think deeply because she immediately put her hands resting on me and started to wiggle her waist.

"ugh Selene, that's good!"

It was a simple motion moving her waist back and forth, but combined with her weight and warmth, it was actually very good feeling.

"hahh! ,mng!~♥️👉"

she slowly increased her intensity as her wetness was being an excellent lubricant, her vagina which was also plush like Eira's stimulated me a lot.

Splatsh! squelch! shhhh!

The slimy and rubbing sounds intensified, I looked into her eyes and she looked at me, her face was already very red and her breathing was starting to become heavy.

I saw in her eyes a mixture of desire, pleasure, anticipation and motivation, the latter being rare for her, she seemed to be actively looking for my reactions and seeing if I was feeling well.

because her waist was moving intensely, her exposed breasts also bounced and jiggled from the inertia of her movement.

They were a good sight I really wanted to reach out and fondle them, but I refrained, I didn't do anything just lay there letting her take care of everything.

Chapter 332: Good student (R18)

Slrrrp... thhhmmp... slurrrp

She didn't stop and kept the rhythm of her waist, while persistently and gratifyingly grinding her pussy against my cock, making wet sounds that excited me even more.

"...Does it feel good? mng~♥□"

"Yes, my little angel, ah! Yes it feels good, hyaa!?!!!"

"uhm♥♥, now it will feel great! ♥♥"

No sooner had I finished saying my opinion of how well she was doing, even though it was her first time, that she acted decisively.

My words left her satisfied and it was like a sort of confirmation for her next move, which was to bring her hands up and instead of just leaning against me she started and took off my uniform vest and shirt.

"Se-Selene let's calm down a little..., nooo!!!"

"(Ⓛ ω Ⓛ)"

She was wild and direct, baring my breast, and immediately, with her fingers, went and played with my nipples, my reactions only seemed to encourage her even more.

Since Eria discovered, that it is one of my weak points, she occasionally attacks me.

In fact, the gossip reached Lily and she felt defeated by Eria, and declared war on her, but that's another story.

..

"Selene, nooo!!!"

In fact, she started more aggressive and not just with her fingers, she leaned over, and started using her mouth she played with one with her tongue and moved the other with her fingers actively drawing reactions from me.

She wasn't like this before, she had always been very passive, but since Eria joined and we discovered the connection with Lily, she has slowly become more active because of the influence of these two.

In fact, I now know that when this happens her look of expectation and motivation is because she wants to make me feel great, reciprocating me the way I always do with her.

But that's all it was, what she is doing right now is another level compared to normal and I didn't know what expectations she had at this point; but it was undeniable that now she alone had me overpowered and was doing too well.

Selene may be the way she is, but she is a fast learner and in fact, she is my third best student in handling runes, only surpassed by Astrid and Silvia.

Worst of all, she did not hesitate in her Waist movement and with mastery I don't know where I get it from, even when she was playing with my nipples she moved it relentlessly.

She is more dominant than I thought; and she was really taking me steadily but firmly to the top, she was relentless.

Her gaze, provocative but full of expectation, met mine, her normally innocent face was now flushed, painted with a mixture of pleasure, excitement and arousal that made it all the more overwhelming.

She was breathing raggedly, her lips barely ajar as soft moans escaped her. All the while her warm mouth curled around my nipple, licking it, sucking it, caressing it, she was getting better and she felt much better than last time.

She e wasn't just moving her hips, she was moving every part of me. Body and mind. Every movement, every sound, every look... they were melting my resistance.

I could feel the tension building too fast. I was losing control. She was overpowering me without even noticing, and I couldn't help but shudder at how close she was coming to bringing me to the breaking point so fast.

In fact, I instinctively wanted to grasp her delicate waist, as her persisintemte mocimiento made me lose my cordur, but I didn't want to interfere with her and I endured the urge to interfere.

Oddly enough that further increased my arousal and pleasure and brought me even more to the edge.

"aaahmn~❤️, mghmnm~ mmmm!!❤️"

Squelch!.... thhhmmp.... slurrrp!

Actually, Selene was moving her waist aggressively and relentlessly, rubbing the entire length of my cock with her hot pussy, but oddly enough, that intense fast and unstoppable rubbing wasn't just taking its toll on me.

"mnggh!!! Aahhh!~♥□♥□♥□"

Psshht!.. squish!... splish!...

She was the first to hit the limit. In fact; as good as she was, I had a little more stamina from cumming earlier and more from using my new technique.

But Selene was just getting started and climaxed faster than I did.

"mng aaahh!!♥♥♥"

She Started to lose herself a little, straightened up again and started looking at the ceiling as she tensed and arched her back, I could also feel her vagina contracting from our close contact.

Of course, her hips movement did not diminish, although now it was involuntary movements due to her orgasm, which increased the heat and wetness soaking my cock more. she was enjoying her orgasm very much.

"No! Wait, Selene, no!"

But the problem was, her hand that was still playing with my nipple and the other that coincidence or not reached the other one again, due to Selene's focus on her orgasm, were inconsiderate and caught me hard.

Selene seemed to have no margin for restraint. In fact, our range of strength and defense, as well as vitality, were about equal.

But it didn't take away from the fact that I was sensitive, and that was more than just a strong stimulus; I felt it twisting them to the point of almost spinning, giving me a lot of pain.

But the problem was that...

"Ugh! Selene, I'm coming!"

It felt good...,I mean it was the climactic stimulation, and the breaking point.

I screamed because it really was dangerous. The rubbing, indeed, is a fantastic experience, but that makes me vulnerable and again I was in the crosshairs of the shot.

To avoid a disaster, I wanted her to put it inside her; in fact, I was enduring it with all my willpower.

The problem is that that would cause there to be 100% chance that the shot would hit me.

"!!!"

Luckily, Selene's orgasm was not that strong or long lasting orgasm nor was she totally lost in it. Finally, it was over and Selene paid attention to me, although I would have liked it to be a moment sooner.

"Oh!,"

"Yes, quick. You just have to... ugh! What are you doing?!!!"

Selene moved quickly. I thought she was about to take me inside her, but instead, she lifted herself off of me

I felt empty and abandoned resigning myself to my fate, this was my karma, for giving girls facials without consideration, when I went into berserk mode.(not the skill)

But she had not abandoned me, but nimbly what she did was to half turn around and lay on her stomach, taking my cock in her mouth.

"No, good, that works too, here goes!"

Spurt!!! Gush, gush!

"mghh! Glck, glck!"

The moment I felt her warm mouth, I already, I couldn't take it anymore!!!, it wasn't necessary.

Immediately my semen came out along with the pressure that compensated for the previous obtaining, but Selene received it all with her mouth.

Glrrrk... glp... schlrrp...grhhlp... glck...!

She didn't hesitate and started swallowing while at the same time giving me deep fellatio, which didn't surprise me much; in fact, after Lily, she's the best at it.

And it's not something I learned from her, since she's been doing it since long before we found out about everything.

Apparently, she had a peculiar taste for the flavor of my seed, and self-taught herself how to get it out of me as quickly as possible.

I don't know what to think, that she seriously sees it as consumable, but in fact she is efficient when it comes to milk me dry.

'If I tell Lily she was also Selene as a rival?...ugh!'

" Gluuck...schlrrrk♥..... grlk!!!"

I left my rambling thought because Selene was giving me a high level fellatio, she could handle the large amount of seed coming out of me, and in fact she was sucking intensely as if she wanted to get more out of me, even faster in coordination of her beautiful chest and mouth.

Really the combination of her mouth, breasts and hands was very good and she had great command of it, getting the best out of me in every way.

I, on the other hand, looked on at the scene, although her breasts covered me a bit and I could barely see how she was licking me.

But more importantly, her being upside down made hersacred place basically right in front of me, I could see it was very wet, I could also see her plump labia covering a lot of her pretty pink flower, which tempted me a lot.

Click!

I shouldn't, but I couldn't stand it, the ecstasy prevented me from thinking clearly, I stretched out my hands and grabbed her by her buttocks, and pulled her towards me.

'I don't think she'll mind a little cooperation.'

Lick!... Schlup... slrrrk.

"mng!!♥□ Grhhlp.... glck ~♥♥"

And I began to devour her slick folds; she seemed still sensitive from her recent orgasm. She felt my tongue and trembled , but she also had positive reactions.

Really, now that I started, I don't think I could stop; my orgasm was at its peak and, with the help of Selene, who was giving me deep fellatio, I was simply in absolute ecstasy.

I wanted her to be in ecstasy as I was, and even though she hadn't long since cum, I knew her body like the back of my hand.

"gghhh!!!♥□"

I began to run my tongue, across her lips, kissing and sucking, stimulating her directly and taking her to the highest.

I skirted her wet entrance and tentatively pushed in a little, but retracted it and moved back down, again passing over her petals until I reached her clitoris and began persistently pressing it with my tongue and sucking on it.

Mm... schl... uh... slrrrk... Hrk... glp... slrrrk... hhah!

The vulgar sounds were very prominent, she kept sucking and gave intense fellatio and I reciprocally devoured her sweetness and took her high again.

She was ultra-sensitive and seemed to tremble when I touched her sensitive spots.

But that wasn't all; if there was a definite weak spot on Selene, it was the one my fingers gripping her buttocks were about to reach.

"Grhhlp!~♥♥"

Chapter 333: Little mistress (R18)

I distracted her with my tongue, then surprised her by slipping my fingers to her anus, sending a shiver down her spine that almost made her choke

But she stood her ground and continued with her thing. If there was one thing she was good at, it was swallowing and she didn't choke at all, and continued milk me dry.

"Phlup... schlp💕, slrrk... mmmwah."

Finally, my finger and tongue worked in harmony stimulating Selene until my tongue finally left her vagina, fully savored by me, and I reached her her tight ring with my tongue and la attack in conjunction with my fingers.

"Aaahhh! ❤️👄💕💕"

Pshhhh!!... Shlk ... schlk.....

Selene, who was affected by a stronger stimulation than before, finally couldn't take it anymore and pulled away from my cock and starting moaning while having her orgasm.

I for one drifted off but it didn't matter as I was about to finish, only the last of it was left, which ended up staining his chest and face, which was also not wasteful from my point of view.

"mnggh aahh!💕💕"

I have to say it though really I was the culprit, in fact, Selene has as a critical weakness her anus, and it's not like her vagina was less sensitive, in fact it's normal, but her anus is like her Achilles heel.

Well I could create it with the use of my art, but I wouldn't do something like that to my girls if she didn't ask for it.

She cum intensely and I who was under her received it gladly, She had a vaginal and anal orgasm and again with my mouth I went down and started sucking her vagina while my fingers kept stimulating her tight ring looking to prolong her orgasm.

But just as I was enjoying Selene's orgasm, I realized the hard way that she that she wasn't totally lost in pleasure at that moment.

"Hmph! Aah!💕 Bad, Hmph!(¯ε(¯) Bad boy ~mnhm💕"

"(°Д°)! "

'oh! Shit, I got carried away '

As if I struck by lightning, I realized too late my mistake, she was supposed to be the one in charge and I got excited and didn't let her do her thing and pissed her off.

Selene was all over me, and yet I felt how dissatisfied she was with my actions, not to mention that now that I think about it she resents it when she can't drink all my seed, and more so now that she was the one in charge.

"punishment!"

"yes, I need punishment!"

Just as I was thinking of committing Seppuku in the face of my heavy crime, Selene started to move and suddenly turned away from my face and, before I knew it, she was on top of me again, but this time with her back to me.

"hmph...ahh!💕."

"uh, oh, oh,"

suddenly she grabbed my member and lined it up with her backhole , her actions were concise and decisive, that I put all my thoughts aside.

I actually worried for a moment, if she was overexerting herself too much, in this role.

She slowly started to go down until finally it was all inside, once this happened she settled on top of me and lay down.

"mnggh!!!~...move!!!~♥□" "

But listening to her, although she didn't have an authoritative tone, I realized that I shouldn't interfere, if she wants to go all the way, we will.

"(🔥\_🔥)"

She ordered me to move; in fact, it's not her taking control of the movement, but no matter, in fact going back to earlier it was my chance for redemption.

Although she seemed to be trying hard to act tough she my little angel and gave me an easy way out, I was on fire and highly motivated to make up for my previous mistake.

Thwapp! Thwapp! Thwapp!

So I began to move my waist upward, with perseverance I gave my best in each pumping, making impact sounds each time I did it.

" Aaahhh!!!♥...Hold me!"

"Yes, Mistress!"

I was very obedient; in fact, she was using me as a bed, so it was easy to hug her, my arms wrapped around her waist and I wrapped her firm, still pumping upward.

"Mnggh!!!♥ Aaah!!!, good!♥, harder!♥"

She was a Mistress of few words, but she was concise with her commands. I hugged her tightly and pumped like my life depended on it.

Thwapp! Glrtttttt ! Thwapp!

Selene, she squeezed me very willingly. As always, it was a different sensation; I felt her squeezing me and making it difficult for me to move.

Even though my precum was already coming out again, the feeling it gave me and how practically she, despite her size, could cover practically my entire length, was really good.

"mngh!~, ahh!!!"

Her hair, so close to my face, carried a scent that unsettled me. It was her natural fragrance, mingled with sweat, sex, and the unmistakable trace of her arousal. A deep, intimate perfume, as if her entire body were exhaling pheromones, calling to me, provoking me without a word."

"Mmmm-❤️... mmmhh~❤️"

I could feel her breathing erratically, as well as her body tensing up, and shaking a little, having small spasms, from some small vaginal orgasms she was having as secondary stimulation.

I wanted to increase the intensity even more.

But this was my atonement and I would not make the same mistake again, so I did nothing she did not command me to do and asked first.

"Selene, do you want to feel even more?"

"Mistress!~❤️mngh!~"

"Uh!?... , ooh! yes, mistress, do you want more?"

"❤️☐...Yes."

She seemed to take a liking, or it was part of what she was taught, to be called that, but the important thing is that she gave me the confirmatory I needed.

With one of my hands I began to move down and crawl across her sweaty skin, down her abdomen to her hair-free mons venus.

And reached her hidden flower, which was very hot, wet, in fact she was having little spasms.

'As i thought she was having little orgasms, let's go for the big one!!!'

I invaded her and began to feel her intensely, a curiosity of these twins is that their sensitive spots in her vagina were relatively similar.

I slipped two of my fingers in and directly stimulated her G-spot which I obviously know its exact location, with just the right pressure and intensity and the one I know would stimulate Selene the most.

"AAAhhh!~❤️"

and just as my thumb was about to rest on her now very sensitive Clitoris, I noticed that Selene was very sensitive and I got a bigger reaction from her than I expected, even if I hadn't made any big moves, of course besides continuing to assault her other entrance.

She assaulted by the different sensations, she was at her limits; she shuddered on top of me.

"MhhnnHH!!!~❤️❤️"

She held on to my arms that were passing over her, as if seeking to hold on to something for a moment.

I felt her body tense, as if preparing for something big. I really felt she was on the verge of climax; all it took was one more intense pump from me or....

"mng!!!♥□, I cum~♥□♥□♥"

Splatsh! squelch! Shhhh!...

She really was on edge and just putting my thumb where I originally planned was enough.

Selene was really starting to arch a bit, as she held on even tighter to my arms, she seemed to be having a really big release at that moment.

Skrrrrkkkk... sckshhh... plpshhh....

I felt the firm, tight pulsations of her insides. The tightness increased and thus the resistance of my pumping. As Selene was getting out of control, she was pushing me to the limit.

"Mistress there it goes !!!"

Schloop... Spurt!!! !.... gush!

I pumped intensely upward, I had already peaked; at that point, I again began to flood her with my thick seed.

"Uhm! Aaaahh!!~♥□□♥♥♥"

Pshhh! splrrghh! fwaaah!

Selene, feeling the stimulation, started squirting, more intense from her vagina, driving her insides crazy including her anus which was stimulating me to the point that it really felt amazing.

"MmmmM!!♥"

I leaned towards one of her ears and bit it gently, which provoked an even more intense reaction in Selene: she started to move her pelvis upwards involuntarily.

Still, I held firm, not allowing my member to leave her interior. That precise back and forth, that constant friction, This in itself caused a stimulation that brought us both to absolute ecstasy.

"Nngh... turn ov-mngh!♥□...on... me~♥♥♥"

"ugh!!! Huh!?...oh!"

During the intensity of the moment, I heard Selene say coherent words, or, well, I didn't really understand for a moment what she meant to tell me, but then I thought Selene was doing what she liked best.

Then...thinking that was it, I swung in such a way that it made us both turn.

The bed, affected by my will, cooperated and made it easy for both of us to end up face down, but maintaining the same position we were in before.

Which meant that my arms now went under Selene, and I could not support myself and therefore all my weight rested on her.

"like this?"

"yes...mngghh!!!~-.♥□♥□♥♥♥"

Squelch...shlick...slosh.....

Apparently, I had indeed understood and performed his request well; after all, this is his favorite position.

..

### Chapter 334: Cute Twins (R18)

Normally, I wouldn't put all my weight on her, but she's the one in charge. I kept releasing my semen, while feeling the tightness of her backdoor, but at the same time the lubrication was considerable and kept getting better.

glssshhhj whmp.... slrrrrpp! Whmp... plpsshhhh

It was difficult for me to move my waist without a foothold, I could only hug her harder and move my waist as best I could, but that only made my movements, feel more forceful and deeper.

" Uhhhh.... mmmhhh..... Ghhhh♥... mmmphh♥♥♥♥"

Sploosh! shhhh! squelch!

Selene seemed to be going crazy, her face was half buried in the bed, but I could still hear her moans that wouldn't stop.

My hand, which was crushed by the weight of both of us, was still stimulating her bud, and due to the tightness ,..my fingers moved in short, forced motions due to the lack of space..

I felt like she was soaking the mattress just with the amount of juice her vagina was releasing.

"yes that's it, ugh!!!"

It was so intense that I felt as if my body was trying to climax again before I had even finished the current one.

My euphoria was reaching the highest heavens and the suppressed Selene was arousing my arousal even more.

She was supposed to be the one in charge and in control, but we ended up pretty much business as usual.

What can I say, if she likes it, I have no problem, because in fact I like it too. I kept filling her to the point of overflow.

I also joined in messing up the bed. Her rear was incredible, but she filled up quickly, so I turned to the other one — who was already trembling with anticipation

It was really a difficult task for our positions, but I awakened and true potential in the use of morphogenesis.

In an instant, even I didn't understand what I did, I was quick and precise, and before I knew it, my cock was filling her depths.

Really in important moments, one brings out one's hidden potential, but I didn't focus on that anymore.

Gush!... gush!

I began to fill the inside of her tight, wet, spasming, hot very core with my seed, also intending to bring her to the point of overflowing.

Skrrrrkkkkk... Thwapp!.... plpsshhh... whmp....

"mngghfgh!!!,❤️❤️ mmnghghgh!!!❤️❤️❤️"

Pshhh! splrrghh! fwaah! splatsh!

With Selene's crazed moans heavily stimulated, I continued to fill her as if it was my life purpose to inseminate her.

..

.

"Ufff... haaah..... This... Selene, you're okay, aren't you?"

"M...t...ss..."

When I finally finished cumming inside her, I asked her, because I really let myself go as usual.

I got an answer from Selene, even though she was still face down on the bed. I barely understood her, but I think she wanted me to keep calling her "Mistress".

I was a little surprised that she didn't lose consciousness, but maybe that was because she was still in her role.

'Uhm, I think Lily didn't explain it well.... let's see...'

Click!.

I grabbed Selene and pulled her on top of me this time, looking up at me. She was very flushed and still breathing a little heavily.

I cast some calming spells, while patting her a few times and explaining what I think she was missing at that moment.

"Let's see, my pretty mistress... you know, it was great and all, but the important thing is that we both feel good remember? Like the first time we did it and started our relationship."

"...~Mhm, pervert...liar."

"Huehehe~, I haven't heard that in a while.... Yes, I was a sly, lying pervert, but I don't regret it, because now I have my lindurita, whom I love very much."

"... I love you too..."

"Hue~ You really are my little angel.... Like I said, If we both feel good, that's enough. If you want to try new things, I'll support you, but you don't have to overexert yourself we can go gently. You were really good today 'mistress'. Now, if you're tired, rest the mistresses can do it too. There's still time left and you can do the rest when you wake up, okay?"

"Yes... I will dominate you...!"

"..."

With that last, she finally closed her eyes. To begin with, she's the one who usually falls passed out or asleep after an intense round like the one we had, and she didn't because she wanted to maintain her role as mistress.

"Really... what did Lily teach them, what did... you ask her ,to do, Eira?"

I asked Eira, who had had time to rest and was looking at us. She hadn't been there long.

She only woke up when we were done, and she was coming towards us, well, it looked like she was going to check if Selene was okay, but I did it first and she just looked at us , without saying anything.

On the other hand, that meant he overheard our conversation.

'I hope he doesn't ask what happened back then.'

How I cheated, cajoled, and made a meaningless deal with Selene in the beginning is one of my best kept secrets, only she and I know.

On the other hand, now that Eira was here I really wanted to know what Lily did to make Selene swear to dominate me before she fell asleep.

"Why do you assume it was me?"

"I have a hard time imagining Selene asking for it on her own..."

".ugh..well, yes it was me. I asked her a few things to keep you, an out of control pervert, in check."

"Hee~ I knew it! But really, what did Lily teach them? Because Selene ended up like that."

"She didn't... When I asked her, she called our aunt Carmen who taught us, some tips and stuff like that. She's retired, but she's in charge of teaching the new employees of the place..."

"Wait... What do you mean, she showed them? Don't tell me they saw her doing it with someone or..."

"Hey! What are you thinking? My aunt Carmen just used some mannequins while she was explaining to us. Y... Ugh! I really shouldn't have asked.... No! That old hag was the one who came up with that nonsense solution."

"Hey, in Lily's defense... it's true that with better techniques you could accomplish what you asked, right?"

"Yeah...if it wasn't you. For starters, even my mother can't keep you under control! I don't even know why I asked her to."

'.... I don't know what to weigh on this, but that answered my question to a lot of things'.

"...I understand now what happened. I was wondering how Lily was able to teach you high-level things, being the way she is with you guys, I really had a hard time imagining it."

"Well...she stayed with us, watching us from a corner as she chewed on a pillow. She looked like she wanted to jump on my Aunt Carmen

"You really put her in a sticky situation.... "

"she was the one who came up with that absurd solution, plus she was very annoying started complaining, and persistently mumbling things like "why, I tried so hard" "I do not approve of this type of education." "where did I go wrong" and so on and on in a corner, with a dark aura."

"...haha~"

Well, I guess I get Lily's point, who obviously fought for the twins to never need those kinds of classes, since she didn't want them to go into their profession.

In the end the Classes really wasn't for that purpose, but I imagine for Lily it was like something out of her nightmares.

It was certainly a complicated situation, but at the same time fun. I mean, she got herself into it by not giving them more normal advice.

' hum, well, I get it, humm, I don't think Selene will stay like this for long, maybe she just wants to use everything she learned.'

It was a shame, but now that she know, once in a while wouldn't hurt. Besides, she hasn't really put it all into practice yet I'm excited to continue, when she wakes up.

I looked down at her, who was sleeping peacefully on top of me. I picked her up and gently laid her down so as not to wake her up on the bed.

"uhmm~"

She didn't wake up, but her little face looked a little bit sulky, as if she didn't like me pulling her off of me. She really cute, so I gave her a kiss on her forehead, which seemed to ease her little sulk.

It was then that I noticed Eira, who was looking at me with a bit of annoyance. She really still isn't very comfortable with me showing a lot of affection to the other girls in front of her, even if it is Selene.

On the other hand, Selene loves it when I show affection to Eira in front of her. Really, they are unique despite being twins, almost inseparable.

I sat cross-legged, motioned for her to come closer and she did, but with a face that said it was reluctantly.

When she was within my reach, I arranged her to face me, while putting her legs at my side and holding her by the waist.

She wrapped her arms around my neck, but, even though we are facing each other she didn't look directly into my eyes, but averted her gaze a little with a blushing face,

'She is really cute'

Chapter 335: Lucky day (R18)

"So what else happened, how did your aunt Carmen manage to teach Amazon style, I'm very curious?"

"that's none of your business, hmph, ah, but my mother also swore revenge towards you"

"huh!?, why am I suddenly in trouble?"

Eira didn't want to tell me the details of the class, something she was very curious about.

But more importantly, apparently, although I did nothing, I was involved in the affairs, Eira who finally seemed to overcome her embarrassment looked me in the eye.

"After a while, she seemed to think about the source of the problem. Apparently she was going to go after you"

"hey, I didn't do anything! you were the one with the request!"

"so complain to my mother, she's the irrational one here".

"And by the way, when did this happen?!"

"hmm, two days ago"

"huh?, but I saw her yesterday morning and the day before yesterday and I didn't notice anything different!... ah, wait, now that I remember she said something like "I left you so dry that it won't be necessary anymore" or "now yes, this goes for you, my little ones", now I understand!".

"..."

At the time I hadn't understood what she was saying, but I remember Lily starting out especially aggressive.

She seemed to extend her strange solution to herself and wanted to implement it...so the twins wouldn't have to and she made a point of keeping me under control and sucking me dry.

But for me it wasn't that different from normal, maybe I think she lasted half an hour longer in control.

"That was a very advantageous payback for me, I'm not complaining, although if she was so against it, why did she even do it?"

"you ask me? I've known her all my life and I don't know how her head works."

Well, it's really a no-brainer. She's the one who does something without measuring the consequences and then pettily wants revenge for something she herself caused.

'I just hope that Aunt Carmen doesn't suffer some weird revenge from Lily afterwards.'

"Well, in the end there were only advantages for me, Aunt Carmen is good at teaching, Selene is very good, she had me on the ropes from the beginning, I wait with great expectations for the continuation".

"Hmph! ~ I-I can... I can too! Hmph!"

"Oh, those are great words. Come on what can you do."

I said provocatively as Eira averted her gaze again.

This is actually a good thing too, Eria is very good at handling her body even though she started out as a mage.

'yes today is my lucky day!'

With that thought I looked at Eira who seemed to be having some kind of internal struggle, but finally seemed to make up her mind, gritted her teeth and looked at me resolutely.

"ok-okay! Stand on your head!" \ (≧□≦) /

"Huh?" (ಠ\_ಠ)?

"!Mngh!!!Big sis♥♥, I can't anymore!!!Haa!!!Mngh!!!~♥♥♥♥"

Psshht... Squish!!!...splis!....

"agh, Alice me neither there goes another one."

Spurt!!! Splurt!

At that moment Alice and I climaxed and we both reached the chasm in coordination, and began to give it our best shot as we cum.

We were both in the academy bathroom, a place we used to go to I would say, relatively often, during lunches that last an hour.

But, as I thought in the morning, today was my lucky day, because for some reason, an instructor meeting suddenly started.

As soon as I found out it was an hour of self-study I pretended for a moment to do it then slyly with the excuse of going to the bathroom I quietly withdrew while dragging Alice and Elena along.

It was not uncommon for girls to go to the bathroom in groups, a custom that this world also has and I exploited to the maximum.

Of course, in case the bathrooms were very clean and very modern; even the toilet was like the ones in my previous life.

I really appreciate that they existed, either because it was a fluke, because it was a universal design that crossed dimensions, or because someone from my world created it.

It was one of the things I was grateful for the first few days I was in this world.

Still, every time we went in, I would clean it with my purification to the point that you could even eat anywhere in this cubicle, although the image of something like that is disgusting in itself.

Today it was just Alice and me. Elena kept watch outside the door and, on top of everything else, had covered us with some of her concealment spells.

Even if an instructor came in, she wouldn't notice us, and they had a personal bathroom to themselves, and no student is a concern, so it was foolproof.

No one could see through Elena's concealment, except Silvia and me.

I was making up for not waking her up this morning. Just now I was sitting up, and Alice was riding my Shenlong, or rather at this moment she was writhing, and making involuntary movements of her pelvis from her intense orgasm she enjoys as she was filled by my seed giving us both intense pleasure.

"mng!!~♥...haahh~♥♥♥♥"

Finally, we finished our orgasms and Alice a little exhausted from the intense rush and because we had been doing it for a while fell placidly on top of me, resting her back on my chest.

Click!

In the end I threw a purification as Elena told me "no evidence", only then she allowed me to continue coming at lunchtime, that was the condition, along with that I had to leave enough time to eat at least ten minutes, but as today is my lucky day, I could enjoy more time.

'How much time did I have left?'

"Twenty minutes, my lady."

"Oh, thank you, Elena."

I'm going to ignore that I don't think I said it out loud and make the most of those 20 minutes.

"hahhh~, big sis~♥"

I grabbed my sweet Alice, who was breathing heavily, and turned her around so we were facing each other.

Her fair skin was very flushed, her emerald eyes were a little misty; still, I knew she had my existence fixed in her eyes and only unconsciousness would stop her.

Her redness reached all the way to her ears and neck, now that she wasn't hiding her appearance, the blonde hair with green background gave her an even cuter and more mystical touch.

She was my beautiful half-elf and sweet Alice, and the first to confess her unconditional love to me, one that I will be sure to reciprocate.

"My pretty Alice, tell me what you want, now."

"Haah ~ big sister, hold me more, kiss me more, love me more. "

"hue~ my sweet Alice, you are being demanding. Pitifully, I can't fulfill that."

"/\_\"

" Wait, don't make that sad face. I meant it's physically impossible to love you more, but screw logic, I'll dethrone the goddess of love if it's for you."

" Big sister~"

"My sweet Alice. "

Mmmmmwaaaaahhh.

We started kissing, as her body and mine came together, Alice wasn't holding back at all, and was hugging me very hard, but that's the wonderful thing about dual synchronization, me and my partners didn't have to hold back.

I'm glad we are now in sync; there was a time when, although she didn't say it, she was sad because my vitality was my biggest statistic and outweighed her by far, making it impossible for me to benefit from it in any way.

But after so long, we got in sync, and thanks to her talent, she's already surpassed me in vitality and is back to being the one who helps me raise it.

..

"mmmuaaah!!!❤️, mngmngf!!!❤️❤️

Alice didn't seem to be satisfied with this alone, but she didn't seem to want to separate from me, and made a relatively quick and fluid movement.

She pulled away from me a little, she lifted her hips a little, lined up with my cock, which was up to that point resting on her buttocks, and shoved it inside her, and went back to hugging me intensely and continuing our

She separated a little from me, she lifted her hips a little, lined up with my shaft, which was up to that moment resting on her buttocks, and put it inside her, and went back to hug me intensely and continue our kiss.

In fact, I wanted to do the same, only she was faster than me.

she seems especially excited, and even with all that we have done she still wants more, my beautiful Alicia; it seems that today she especially wanted to be pampered, maybe because she had to wait since the morning to do it.

Sllllluuuuuurrrpp.... chu... mmmuuuuuuaaaah

We both kissed passionately; there wasn't much movement other than the slight movement caused by our intense kissing and the movements involved at the stimuli as I was inside her.

..

.

"mwaahmn!.... Alice, my pretty Alice

"huuuhaaa, mmngh♥♥~ big sister!"

We broke apart to catch our breath a little. I went straight to her ears, which I know were her weakness, and gave her a gentle nibble that made her shiver, and squeeze me more intensely as she got amas wet and hot...., She is very sensitive in her pointy ears.

"~hummngh!!~ ♥♥big sister, love me like you did Elena."
