

The Noble 86

Chapter 86: The Pain of Being Rejected

"Okay, calm down. Before you go crazy, look at the clauses. There's nothing wrong. Look, I don't want to say you don't have options, but let's see: blessing of the evil God, leaking information, causing terrorism, attempted murder of the one blessed by the God of light...hum, I don't know, I'd read the contract if I were you."

"...You know, you are someone hateful. You're nothing like the rumors."

"...."

I let go of her neck slowly as I handed her the contract. It was a contract that, at the very least, for the next two years she wouldn't be in contact with demons and wouldn't betray me or talk anything about me. Umm, come to think of it:

"Wait, give me a moment."

I took it from him and wrote a new clause. Now yes, it was simple and straightforward. With the new clause, I had to stay close to Chris and keep an eye on him. That included the two years, so he would have to work hard to be in Class A.

But seeing her stats, it wouldn't be a problem for her. I wanted to keep a close eye on her and between Christ and Seraphina, I thought that Christ was a better option, to keep her close since as Christ I have more freedom of movement and I could see if she is still hiding something, which she hasn't told me. I still don't know what kind of person she is, so she is still under examination.

And the possibility of joining my harem... honestly, I don't know what approach to take. In the end, I'd just be asking for trouble, I mean, from experience (Eira) I know what a siscon is capable of, so it's simply a favor I did for a friend from a previous life or future friend.

She looked quizzically at the new clause, but in the end didn't ask anything, as it didn't seem anything out of the ordinary.

So she signed. Besides, there were clauses in her favor, such as not saying what I intended to do, having the protection of my family and other beneficial things.

She didn't even ask me how I had prepared such a specific contract, with clauses like not disclosing the assassination attempt, or information about his blessing. Maybe because I told him before that I was the one asking the questions.

"Well, that's it. Nice working with you, Aurora," I extended my hand in a handshake to which she reciprocated. But as I did so and felt her soft hands, I was actually uncomfortable with her masculine appearance.

Unconsciously, without any hint of my central will....si, if it was not on purpose....it definitely was not.... I initiated a complicated process while concentrating the energy of my blessing.

I purified his hand, eliminating any impurity, poison or harmful thing.

'Come to think of it, the demons could have put something like this without her noticing', so without any hesitation I went and freed her of anything affecting...., that would come to affect her disguise and blessing, it's not my fault.' It's not because I wanted to see her real face or anything.'

"..." I was speechless, when the costume fell apart.

'Ohhhh... fuck, she's a beauty! Max, or, rather, brother-in-law, forgive me and my alternate self for doubting you. Your words weren't enough to express you.'

"he-hey, do you want to join my harem?"

unintentionally that was the first thing that came out of my mouth. It was my most primal and primordial desire at that moment.

She looked at me quizzically, not knowing what to respond, but then realized that her blessing had stopped working.

She panicked, covering herself again with her masculine appearance, which was neither handsome nor striking. The only similarity they shared was the black of her hair and the gold of her eyes.

"What did you do?"

"Well, I also have the inherited blessing of the goddess of purity. It's the one that runs in my family. Well, I inadvertently interfered with your blessing. Don't worry about that. But you wouldn't join my harem of beautiful girls?...you get a free pass,"

I said it. Appearances aren't everything, but honestly, but when it gets to such a high point, you can be someone with a big heart, ignoring everything else.

Her beauty was even above my own, and that's saying a lot, vain as it sounds.

And it's not because her ability hit me or anything, since I should be immune too. That's how beautiful she was, and I realized how lethal she could be.

She even made me propose right away, but in the end....

"I'm sorry, but... I like men, as you can see I'm a woman."

"Bullshit! ...I told you I know when you lie."

"...." realizing that her attempt to reject me came out, badly she remained silent and hesitating, until she finally spoke, without looking me in the eyes.

"The truth is, you scare me and I can't think of you that way...I think I'm going to have nightmares about you."

"Ughhh!!..."

I felt the pain of rejection. I did not think that the tragedy of my previous life would be repeated with someone with whom my alternative self thought I had a good chance, but by the fact that he had already died.

But hey, I was running out of time, so in the end I let the matter drop. Her rejection is only conditional; I haven't given up yet, she's just a little shocked.

"W-well, I'm going out. Release the fog spell in the room. After 10 seconds, remember the clauses of the contract. You have to report to me every week on the situation. got it?"

I had to pretend I'm not Christian, so as soon as I left the small room, I quickly changed my appearance with Metamorphosis and pretended to be lost in the fog like the rest.

As for why Seraphina appeared out of nowhere in this place, I left that to her imagination.

The rest of the guys were starting to get desperate, even though it had been barely a minute.

I stopped Eira, who seemed to have lost her patience and was about to cast a spell, which happened to be aimed at William.

He had saved William from his second assassination attempt, which this time might actually happen. "That short fuse bitch can't calm down. Look at Silvia, who's eyes are closed and sitting still."

Finally, Aurora left the room and began to undo the spell, until everyone could see. I held Eira's hand and prevented her murder attempt.

"aaah!?, what happened? Let go of me, you fucking pervert."

"Hey, you idiot, why would you cast an attack spell instead of a dispel spell or something? Are you even dumb? What if you hit someone, like Selene or me?"

"..." At my scolding, she was silent. He couldn't seem to argue that point with me. Still, after a moment, he spoke again.

"Damn... okay, my bad, but who the hell used that spell, I'm going to kill him!"

"Th-this... it was my fault, I'm sorry."

"Eh?" At that moment, all of us, who barely understood what was going on, stared in shock at the sudden figure that had just appeared from the next room. Or at least, that's the face I faked.

"So it was you, you bastard. Do you know what you almost provoked?"

"Hey, hold still. You were the crazy one who was going to cast an attack skill."

Eira, like the crazy beast she is, was going to attack Aurora, but I stopped her and passed it to Selene to restrain her. I took a step forward.

"Ehem, excuse that girl. Well, could you explain what's going on here?"

"ahh!!!... I'm sorry. The truth is I didn't know this room was used and I was practicing a fog spell. I'm sorry for my carelessness you got caught,"

she said, bowing and apologizing to us. she certainly is a good liar, and the rest immediately nodded in understanding. Even Eira relaxed, and William, as always, stepped forward.

"Well, this room is in common use. It was our fault for assuming it was free, but you forgot to hang the sign outside. You have to do that so no one will interrupt you."

"Y-yes, I'll keep that in mind. Oh!..., but,,, are you class A? Ah, wait, I haven't introduced myself. My name is Auran, and I'm in class B. Oh, actually, you're Eirlys, right? We're classmates. I've never talked to you, but you're so pretty, I'll never forget you."

'Hey, what are you doing flirting with my future harem member, you bastard? Wait, if she's a woman, she makes it more or less dangerous. Hmm... For her tastes she should be dangerous, but, uhmm.'

I was suddenly in a dilemma but I realized I was overthinking it, whatever. They'll both eventually enter my harem, so I thought positively.

On the other hand, she is surprisingly communicative.

So much so that, unbeknownst to me at some point in their conversation, it even got to a point where, he was asking me along with William's support if I could join the lessons.

I know I myself asked him to approach me, but I didn't think it was that decisive. In the end, I agreed. The lessons now started with two new members.

Chapter 87: I thought we had something special.

"Chris, do you want to go out with me?"

"ah!!!?..."

Bang!!

"Ughhhh..."

There I was, looking at William with dead eyes after he made a request straight out of my worst nightmares. My body reacted involuntarily and I punched him in the stomach.

Now he was on the floor, passed out from my blow. Soon after, Silvia arrived, as always I was glad that her relationship with William was so good.

She spoke to me as she looked at William on the floor and then at me, as if trying to understand the situation.

"Did you hit him?"

"Huh? Oh!" At that moment I realized what I had done and began to doubt the logic of the events. So I asked Silvia:

"This, Silvia, just out of curiosity, do you know what William wanted when he approached me?"

"Yes, he is inviting some of his friends to his house. Apparently, a letter came from his father saying that he won nobility and to bring his friends over this weekend, who wanted to learn experience from facing real beasts. So he's been inviting everyone to come out this Saturday."

"Oh!"

That explained a lot of things. Like the fact that I couldn't see William's status, Again I cast a healing spell on him, which made him regain consciousness.

"ah? What happened, I was... eh?"

He didn't seem to remember what had happened, and I wasn't going to let him be left in doubt. So I interrupted his thoughts:

"Hey, William, congratulations. I heard you became a noble, right? Your father made great accomplishments and stuff."

"Uh... ah, y-yes, that's right. I was actually coming to invite you to come with me to see my new house. A-also, m-my father said we were going to, uh, go beast hunting, in a nearby forest. B-but, you don't have to come if... if you don't want to. I know that that, uh, incident happened recently, so.... I'll totally understand."

"Oh, no, it's okay. By the way, who are you planning to invite?"

"I, uh, I wanted to invite all my friends, but... my father, um, said that... it-it was dangerous. He, uh, said only bring those with a-at least three metamorphoses, you know..."

It wasn't hard to see how bad William was at lying. His fidgeting, his stuttering... it all screamed nervousness.

I knew exactly what was going on, and I realized it was the moment I was waiting for, and one of the reasons I wanted to approach him in the first place.

"Can I invite a few more friends?"

"Uh—w-well, this, uh, Chris... I-like I said, they can only come if, uh, they have the three, um, metamorphoses."

"Oh, don't worry about that. They're all strong. By the way, I'll also invite Selene and her sister. That's fine, right?"

"W-well, if they're strong, then... sure! I, uh, trust your judgment!"

That said, I said goodbye to William, and to Silvia, who in the end didn't say anything about the situation, when she arrived.

Although this event came earlier than expected, I have no complaints, this is important for many future plans and the sooner it happens the better.

It was the first time William's position would be useful to me. He didn't say it, but as he was gathering friends to go to his house, it wasn't something he would normally do.

and I am almost certain that it is the intervention of the god of light or whoever is managing william.

From what I know Since he received the blessing of the god of light, William has been sponsored with an ability (EX), which allows the god of light to interfere with him and put a collar on him.

if he is gathering friends it is because he received what would be called here an oracle, or as my alternate self described it, a mission, or quest .

I, who knew that the event would start as soon as he was declared heir to earl, realized it right away.

This was something I had been waiting for and why it was my golden ticket.

It was good news, but equally there was something else on my mind and the news did not change my current objective, With that in mind, I kept walking.

..

.

It was Friday afternoon; classes had just ended and I wasn't on my way to Astrid's office, I had told her I would be late.

I had to take care of something important, although honestly it was something unpleasant that I didn't want to do, but it was necessary for my strength.

I walked through the corridors until I saw my target, whom I had asked Elena to keep an eye on after she pretended to return with my Doppelgänger to the dormitories.

I already had his schedule and stuff thanks to Elena's excellent work, and just now was the chance to get an ability through my spear, it had recharged and I could extract an ability.

Just as a precaution, I changed my appearance to someone who would be untouchable, even if the boy were to seek justice from the school or the law.

I changed my face to look like William to the best of my imagination and stalked him until I finally found the time and place I was waiting for.

..

.

"You're a monster."

The guy after I finished the uncomfortable but required procedure, looked at me with hatred, anger, humiliation and tears in his eyes, it was a bit traumatic even for me, but this is the way I chose to make me strong.

"I'm sorry, buddy. It's nothing personal, it's just your bad luck. Here, this is compensation."

I slowly left a lot of money, many expensive potions of recovery, empowerment and others with different effects, also as I was an alchemist, I left some rare, and high quality materials.

"....."

When he saw them, he looked at them for a moment, then at me, who was about to leave, this was repeated over and over again and finally he stopped me with a shout.

"Wait!!....!"

"as I said I'm sorry, but it was a necessary thing..."

"is this just a one time thing?"

"ah?? what?" i thought he wanted to keep reproaching me, but suddenly he said something i didn't understand.

"I said is this just a one time thing?"

"..."

at that moment I started to understand what he was saying and slowly I started to back away, the guy, not caring that he had his pants down got up and walked towards me

"You can't end this just like that no more.... you can't just use me and then discard me."

"...."

he walked towards me with eyes full of desire. I, who a moment ago was the aggressor, started to be afraid.

"if you want we can keep doing it, it'll be our little secret."

"w-w-wait calm down, I just wanted to..."

"don't worry I don't judge you every person has some dark secret, I can keep doing if you want me to."

"...."

The guy was coming towards me and he wasn't wearing pants. I was stronger than him but right now his aura was very oppressive, leaving me, helpless, so I instinctively activated my art and with everything I could I strengthened my legs and ran as if my chastity depended on it

"Nooooo, wait!!!... You can't just end this like this and just walk away. I thought we had something special."

I could hear him screaming, but I just kept running, not wanting to look back again.

..
.
"Haahh.... Hahhh...ahhhh" I finally stopped and began to gasp for breath. I didn't run far, but I forced my craft to the extreme to escape.

I felt harassed and was afraid that this guy would come near me again. But I remembered that I had William's appearance and calmed down.

I thought of happy things, and little by little I calmed down, you never know when a pervert might jump out of nowhere, it really was a big world, and you had to be careful, on the other hand

"I finally have it. I finally have the ability that would allow me to have two identities easily Parallel Thinking(B). With this I don't have to fear the doppelganger acting or doing something weird. I can finally talk to Alice and Elena during classes. I can finally be calm."

I went back to being Chris and activated the ability. At that moment I didn't feel anything weird, I just felt like I could do things like two sums or think about two different subjects at the same time.

I guess that's what I would normally do. But at that moment, without closing my eyes, I tried to connect to my doppelganger, who must have been in the dorms, and suddenly I felt my vision split. At that moment I felt dizzy and confused, not understanding what was happening.

I lost my balance and started to get dizzy, but I calmed down and tried to take control. Immediately I was able to process what was happening: my vision was splitting.

It was strange, no more than splitting, it was widening and I could see two places at the same time. I realized that, as always, my clone was sitting from our bedroom.

I could not see Elena, but I imagined that she must be in the bathroom by the sound of it. At that point, I slowly started to get used to it and, with a little confidence, I began to move around.

At first, even with the parallel thinking, I was getting confused and mixing up the actions a bit. It was minutes before Elena appeared, with a wet towel on her body, fresh from the shower.

It was a fascinating sight, which obviously caught my attention and Elena noticed it.

"My lady?... is there a problem, why are you in the doppelgänger?"

"Oh, it's nothing. It's just that I just got the ability from the guy I mentioned to you, so I'm testing it out."

"So you've committed another crime, have you? I hope you didn't leave any evidence behind that would tarnish the family name, my lady."

"Don't worry about it, I disguised myself as William, so no problem."

".... My lady, that's no way to deal with your friends, even if this one is a degenerate just like you."

"Hey, I already told you he's not my friend. Besides, who... hmm, well, back to the topic, with this ability you don't need to keep an eye on this Doppelgänger. I think after I get used to it for a while, I can handle it at the same time."

I talked to Elena for a while about some things while walking and acting with my normal body. It was a little stressful, but I felt it was a matter of practice.

Even in those moments, I learned a trick: I was somehow able to deconcentrate my thoughts, making the secondary go to the unconscious part of the thought.

More or less, if I'm in my Doppelgänger, I send the part of what my body sees to the subconscious, where I didn't pay attention to it, and on the other side it's the same thing.

I focus my attention on what I'm doing and send what my Doppelgänger does to the subconscious.

It's weird, but it's better; it's like having two different brains, or something. The ability was another integration to my mana expenditure.

But thanks to Astrid, I didn't need to worry about it, and it was getting bigger every day. So I didn't need to worry. Finally, I could perform as usual.

but now that I think about it the really important part of the day hasn't happened yet, it was so important that I was thinking about canceling the rune lessons.

but in the end I decided to go since patience is a virtue, as for what would happen at the end, well you could say that I finally convinced Elena to have a threesome.

Alice had already given me permission some time ago, so I was very excited, well as Alice doesn't know about my other identity it would only be a girls' night, but, I had no complaints.

'Hueheueheue...'

Chapter 88: The night before the trip >(R18) (Yuri)(Threesome)

In one room, there were now three beautiful women looking at each other. Two were a bit nervous, while the silver-haired one looked at the other two proudly.

They were none other than Seraphina, Elena and Alice, who at that moment were kneeling on the bed wearing underwear, and not just any underwear: it was extremely explicit and did not fulfill its original duty.

Seraphina had seen Astrid wearing it and had wanted to find something similar for this occasion and she succeeded.

She, who although she was in her feminine version, could not help but feel inwardly embarrassed for wearing this type of clothing, but there was absolutely no sign of it on her face as the embarrassment was easily quelled by desire.

Rather, there was excitement and a sense of accomplishment, as she wore this type of lingerie. In doing so, she managed to convince Elena and Alicia to do the same, making all three beautiful ladies wear this highly exposing outfit.

Elena was wearing a beautiful black ensemble with high stockings that squeezed her juicy thighs and a garter belt that was tied at her waist, further accentuating her figure.

Her hair, which was usually kept in a bun, was loose, giving her a charm that could only be seen on nights when she usually has passion.

Alice, on the other hand, wore the same thing, but in white. I could see her beautiful cherry tips peeking through the holes in the top.

Her emerald eyes were looking at the other two ladies nervously and her body was flushed.

She herself seemed delighted to see Seraphina wearing that kind of clothing, but in light blue. Even Elena, who is usually serious and indifferent, was looking at her with an unusual blush.

Not bearing it any longer, Seraphina approached the two ladies and grabbed them both by the waist, drawing them close to her.

"You know, I'm really happy that you guys agreed to do this..."

"..."

Elena said nothing and just looked away a bit embarrassed, on the other hand, Alice said:

"Y-yes, if big sister is happy, so am I... besides, I like Elena too."

At that moment, Seraphina looked proudly at Alice. For her, there was nothing better than her harem getting along, so, happily, she moved closer and started an intense and hot kiss with Alice.

Ssslurp... spliick... muuaah... smmmch

Their hearts began to pound and they could both hear it clearly and even resonated with each other.

Elena, on the other hand, watched the scene and, although she didn't want to admit it, seeing them didn't bother her. In fact, in a way, it turned her on more, but being the way she is, she wouldn't show it.

Chluuuup... muah!

Seraphina suddenly cut off the kiss with Alice and went straight to Elena, who received her with more eagerness than she appeared.

Mmmpphhh... mmmmmmm.... chluuup

Immediately, their tongues intertwined and played, used to each other. They both had good chemistry and knew what the other liked.

Seraphina didn't leave their hands alone and went straight for the main course. Both hands reached down and from behind began to caress both vaginas that were vulnerable due to the particular lingerie.

"Mmmnh~♥□"

"aahhm!~♥□"

They both let out a little moan, and unconsciously they both parted their legs a little giving a better access to those naughty fingers, which made them both happy.

Finally, Seraphina broke away from the intense kiss with Elena and said:

"I will give you both the best night, you won't regret a thing."

"I'll be in your care big sister~"

"mmn~"

Alice answered affirmatively while Elena, nodded giving her approval.

Seraphina from excitement hugged them more intensely and at this point the three breasts began to rub against each other.

While Seraphina did not have as much as Alice and not to mention Elena, it did not stop the pleasure they both felt from being intense. the softness and hardness of the tip was clearly felt and they stimulated each other increasing the heat of their bodies.

The intense play of Seraphina's fingers kept caressing both vaginas with her fingers and the wet kisses sounded again in the room.

Mfffmmm... muahhh... splurt

The parallel thinking she had recently achieved helped her not to neglect either, it was as if coincidentally the skill was given to her for this exact moment.

Finally, Alice, who is usually more proactive, began to seek and caress Seraphina's ass and Elena's that were easily molded by her hands, she didn't know when, but this sensation began to please her.

Alice Always felt she should repay her older sister's pleasure and this time she would even make Elena feel good, so with the little experience she had accumulated since her first time, she began to mold and massage both of them, making the room fill with sounds of soft moans and kisses coming from all three of them

"haaa~mmhn~hya~ mmn~"

"haaa~...haaa~...haaa~♥□"

"mnnnhaah~...muacmm~...mnhhya~"

Elena, feeling more than two hands, one massaging her ass and the other her vagina, felt weird, and more so because they were from different people.

But in the end she also joined in and began to caress Seraphina with one hand and Alice with the other, molding Alice's ass and massaging Seraphina's vagina.

All three were intoxicated, and in their own world, it was an invasion of sensations, and their actions were instinctive, at one moment they were kissing at another they were leaving little kiss marks on their necks, their breasts with erect tips also adding more stimulation and sensations.

Nnnmmph.... chu

Their actions were so erratic that at one point Alice and Elena were giving each other a deep and intense first kiss while Seraphina kissed Alice's neck and ears.

Seraphina moved down a little and began sucking on both of their pink, erect breasts. Like someone greedy, she put them together and took them both in her mouth, while her hands changed targets and caressed the breasts that were still free.

Muah...Muah...Muah....

Mmmmmph...sllurp.... chu

she knew the sweet spot of both of them and didn't hesitate to attack them, finally coming back up and joining in the kissing, while pinching and pulling at their erect cherries and molding the breasts to his will.

On the other hand, she was also being attacked, as Elena's and Alice's fingers, taking turns playing with her vagina, never failed to feed the heat inside her.

At that moment she felt a tingling inside her and felt the first of many big and small orgasms she would have that night coming.

The kiss became a three-way kiss, second by second they exchanged and kissed each other, guided by desire and heat and the pent up pleasure finally released.

The first, she was the more sensitive Alice, began to tremble and contract a little, her wet vagina began to flood and even tremble as the force in her arms increased stimulating Seraphina and Elena harder.

Seraphina and Elena also felt the sudden strong stimulation push them over the edge and felt their vaginas quiver with anticipation. the heat and ecstasy began to give way to the anticipated release.

With a sudden movement Seraphina pulled hard on both of their nipples and their fingers reciprocated by grinding Seraphina's vagina at the same time causing the inevitable.

"Hummm...big sister, I come, it's already here...hyaaa♥□♥□♥□"

"Um Phina..., kiss me, mmm... ahhhh!!!~♥□♥□♥□"

"Oh!!! girls, this is great, mmmnaaahh!!~♥□♥□♥□"

At that moment, as if synchronized, all three of them were cumming heavily while releasing various liquids from their wet, hot vaginas.

The three simply kissed and enjoyed the ecstasy, pressing themselves together and increasing the heat to maximum levels as their pelvises moved unconsciously and released spurts, that without any care were sprayed towards the other.

Ecstasy reached its climax and their bodies tensed to the point of staring at the ceiling with misty eyes lost in pleasure. their beautiful faces were in a mess worthy of contemplation

Finally, all three lost their tension and fell backwards, each while breathing in agitated breaths.

"Haaa...~ahhhh~...haaaa~" (x3)

Alice was even still spasming and wiggling her hips with her orgasm, which was especially long and lingering.

Seraphina saw this and, like an insatiable beast, crawled across the bed and finally came between Alice's legs, and put her mouth on Alice's hot, dripping pussy, and began to devour it after she quickly removed her panties to get a fuller view of the beautiful pussy, while bringing Alice, who was still in ecstasy, back to reality.

"...ahhh!~♥□...wait...mnnahh~♥□ bigsister...hyaa there~♥□♥□"

It was like a roller coaster; she was extremely sensitive and her older sister, without any consideration, began to lick her. It was the ultimate, but it was a dangerous pleasure that her body couldn't take.

She put her hands on Serafina's head and hugged her tightly, but at the same time tried to push her away as her thighs struggled and tried to close, only for the stimulation to open them again it was an invisible struggle that only she would understand.

Her body was also writhing and intuitively wanted to get away from this pleasure. In the end, Seraphina would not come unglued and held her tightly together, gripping Alice's thighs.

"hya!~♥□...eh? ...Elena wait...ahumm~♥□"

"haaaa~...haaaa~...haaaa~"

but at that moment she had a small break as suddenly her big sister reflexively raised her head and began to moan and grit her teeth.

Looking further back, she realized that Elena had started attacking her older sister with her mouth likewise.

On the other hand, Seraphina began to feel the pleasure in her vagina and had to stop her attack on Alice, but she quickly came up with an idea, did some quick calculations and it seemed a feasible idea.

She quickly pulled away from Alice, who, although her body was refusing was enjoying her big sister's intense tongue.

Chapter 89: The night before the trip (2) >(R18) (Yuri)(Threesome)

What Alice saw was her older sister take Elena and, in one smooth, fluid motion, put her in a position her older sister used to call 69. But if that was all it was she wouldn't be surprised.

What surprised her was that her older sister somehow fluidly managed to get her crotch and Elena's crotch intertwined, with their vaginas making contact.

"mmmnn~♥□"

"aaah~♥□"

Intuitively Alice moved a little and felt Elena; she felt how their vaginas were so close that a small movement could make them rub together she felt their heat and everything else grasping them both let out little moans and a shiver ran down their backs.

Seraphina, who at that moment was looking at the two vaginas that were close enough to make contact, at some point Elena's panties had also disappeared, not as if they were hiding anything, but she felt there was more freedom and she could see a bit of Elena's normally beautiful black and Alice's golden bush.

At that moment she felt happy to be alive, to see them rubbing and stimulating each other and how from time to time their bodies trembled was a delight, but she did not stay on the sidelines; she went all the way in and with her tongue invaded the sacred space created by the two vaginas almost in contact and began to lick both vaginas.

Sometimes one, sometimes the other, her tongue played with their clits and sucked on their labia, stimulating them and making them squirm inevitably causing them to rub against each other, due to the closeness of the pussies the sensation was best when both clits met and stimulated each other, the heat and wetness began to grow.

Squish..., slosh..., schlop....

Elena was not standing still, as when Phina was fully a girl she was usually more active, she started to play and lick also Seraphina's pussy which was above her face, she had already done this a great number of times and knew exactly where to lick to please her insatiable Phina.

"AaaAh~♥□"

The three of them were in ecstasy Elena and Alice's vaginal kisses were more and more continuous and stimulating; both vaginas were very wet, either by their honey or by Seraphina's saliva that did not stop enjoying devouring both vaginas.

"wait...big sister, Elena, stop it is coming~♥□♥□"

"mmm~♥□♥□"

"mnaaaahhh!!!...Elena wait, ahhh..~♥□♥□"

Finally, Alice again began to have a big and strong orgasm, accelerating her pelvic movement more intense and persistent, that made the grinding of his pussy stronger and more intense, stimulating Elena who inadvertently bit Seraphina's clit a little hard, making her let out a big moan.

The problem was that her mouth was buried in the vaginas and stimulated them more, causing Elena to finally break as well, devouring Seraphina's pussy with more intensity, driving her to the absolute limit.

"come again, hyaaaa~♥□♥□♥□"

"mmnna phina, Alice, no more mmmnnn!!~♥□♥□♥□"

"Elena, there right thereaaaahhh!!~♥□♥□♥□"

All three, due to the intensity, began to grind their pussies and respective mouths more intensely; it was a feedback loop that made all three of them cum for a long time, extending with small orgasms initiated again by their movements.

Finally, Seraphina fell on top of Elena, panting intensely, but once her orgasm stopped, without a second's rest, she looked over and Alice looked a little worse than Elena, so without hesitation she separated Elena's and Alice's hot pussies and, without any hesitation, positioned herself on top of the tired Elena and crossed her legs.

Elena Accustomed to Seraphina's insatiability, did not stop her, so they both started rubbing each other's pussies, strongly enhanced by the sensitivity that still remained after the orgasm, of both of them.

Squish, schlup....., slsh. Slsh....., squish, schlup....

In her excitement, Seraphina brought Elena close to her and started a hot kiss, obviously without stopping the pussy rubbing.

Elena also reciprocated and grabbed her by the waist. The wet sounds of both mouths kissing, both upper and lower, could be heard.

Schlup..., Mwahmwah ...slsh... mwah.... Slsh,

Both moved their pelvises in unison seeking their own pleasure as well as the other's, their bodies craved each other and they broke the kiss to catch their breath and hugged even tighter, kissing necks and ears , to slowly finally slowly return to kissing mouth to mouth.

"Big sister, Elena, that's not fair."

Alice, who had revived, commented from the side. She had already been there, but was ignored even so you could see a hand on her naughty pussy, which was dripping with love juices.

Hearing her, Seraphina pulled away from Elena, who, with little strength, fell on the bed lying down. Seraphina settled down and held Elena's thigh raising one of her legs to the top, now Seraphina had all the control and moved violently her pelvis grinding more intensely both vaginas looking for the so desired clitoral encounter.

On the other hand, she called Alice and started a kiss with her, and finally took her on top of Elena.

Elena knew what she had to do and started licking Alice's pussy. Now, because seraphina had all the control and with the leg of the flexible, Elena, as a support, they rubbed intensely, their pussies, causing in them continuous and sometimes strong orgasms while she kissed and played with her free hand with Alice's breasts.

The pussies, with pink petals and very soft lips now swollen and wet , kept rubbing each other.

Both vaginas were extremely sensitive and showed signs of mild inflammation, but the pleasure was divine and Seraphina at no time stopped her pelvis from moving.

At that moment, Elena and Seraphina felt her abdomen, thighs and legs contracting; Elena's stretched toes stretched and the movement and clashing between vaginas became louder, grinding until both had redness, but the wetness did not stop flowing and the sloshing sounds were very audible.

Elena's and Seraphina's hearts were beating fast, their breaths were very heavy and erratic, especially Seraphina, who had to kiss Alice, but to her it meant nothing.

Elena, Seraphina and even Alice, who was only being toyed with one hand and Seraphina's mouth up and elena's mouth down , felt her body preparing for something bigger.

All three were just concentrating on the sensations and acting on instinct, with their bodies having reached a great degree of sensitivity especially, their vaginas and clitorises were extra sensitive, sending electric currents down the spine of both of them.

"it's coming...-♥□♥□"

"ah...yes~.... harder...there~♥□♥□"

"mmm~hyaaaahm...~♥□♥□"

Each touch and rubbing was clearly felt, bringing momentary but pervasive ecstasy.

The meeting point could not have been wetter, and even dripped and stained the sheets. Breaths were becoming more agitated and body heat was rising higher and higher, especially in the abdomen, chest, thighs and vaginas, which felt very hot but pleasurable.

They were in their own world of ecstasy, as if the outside world faded away and only that moment existed.

The deep and overwhelming pleasure that seemed to grow with every second made the bodies of all three instinctively seek maximum pleasure,

which finally reached the point where they couldn't take it anymore, even if they wanted to, as if all the pleasure they had accumulated would explode at once, releasing everything.....

"big sister , ug...haa...cummingggg!!!!~♥□♥□♥□"

"P□hina...haa...ah!....mnnnn!!!!~♥□♥□♥□"

"yes that's it this is the ultimate,aaaahhh!!~♥□♥□♥□"

An intense, rippling heat spreads from the pelvis to the rest of the body. Muscles contracting rhythmically and pleurably as pussies still rubbed and moaned, fueling the pleasure even more, feeling a deep and complete release.

They moaned uncontrollably, sinking into ecstasy; all three trembled, Serafina moved her hips masterfully in a circular fashion without ceasing to stimulate their pussies and held tightly the head of Alicia still kissing her, who had her eyes in ecstasy turned upwards, lost in her orgasm her body was soft, as she smeared Elena nonchalantly with her cum.

Elena for her part was unconcerned because she was equally enjoying her strong and intense orgasm that just kept going thanks to the rubbing that never stopped.

This went on for a long time until finally,lost the strength in their bodies and all fell back on the bed with Serphina in the center breathing heavily, even Seraphina needed to get some air.

"haaa...girls...ahhh...., how were you liking it?"

"big sis~...it felt great, ahh~"

"yes it felt.... really good...aahhh~"

Both girls went over and cuddled and hugged seraphina very closely together while, catching their breath,

"I'm glad...I'm so glad, ahhh..."

To be hugged so intimately and with such great affection like this, Seraphina simply felt as if she was finally at peace and wrapped her arms around them, kissing both their foreheads.

Though she wasn't sure what love was, she was sure this was the closest she had ever felt. The comfort and peace they conveyed to her was something that resonated within her.

They stayed like that for several minutes, sharing warmth with each other, until finally, and without warning, Seraphina began to tease them again. Knowing her, they were not surprised; still, they looked at her with doubt on their faces.

"Big sister, if we go on we won't be able to get up early."

"That's right, you yourself convinced us to go..."

"Well, that's right... well, how about one more round and that's it?"

Due to the morning's schedule, they certainly couldn't go on much longer, so, coming to an agreement, they continued.

In the end, they didn't stop with one more round and went late into the night, causing them to get reproachful looks from Elena in the morning and even a bit of grumbling from Alice, who didn't want to leave even with the sleep she was carrying, because of the night in which she released some of her deepest desires.

Chapter 90: Left you as a loser

"Well, we're all here... it's time to go. Let's go!!." said William as we boarded the train.

At that moment, we were all gathered at a port, ready to board a magical train. William's new territory was not far from the capital, and it was faster and more versatile to travel by train than by fly ship.

So the meeting place was the station. As William said, there were present some members of the Dynamite team who are Mike and Ban and Silvia who apparently advanced in rank: Ivan, Lys, the twins, Aurora (or Auran), Alice and Elena who I personally invited, as well as another guy I only knew from my memories and with whom I never had direct contact.

He was someone who was on my personal blacklist to eliminate. And not just because of the memories, but because this bastard is heir to a marquise and, to top it off, Alice's fiancé.

'Although, if he gives up on Alice, he might survive.... well it all depends on him.'

We all got on the train, and as I was thinking about where to sit, I saw Alice's winged seat free but the guy I was thinking of eliminating was sealing his own fate and stealing my seat next to Alice.

There were three seats next to each other, and besides Alice there was Elena, so I couldn't sit next to her.

I had no choice but to sit in the front to keep an eye on him. Finally, the rest took their seats, and my little angel Selene sat next to me, accompanied by her curse, I mean, sister, who sat at the other end.

I saw her a little sleepier than usual, I guess it must have been from getting up early for this trip.

In return I pulled her close to my thighs and laid her down while I stroked her head and her soft ears, bringing a small smile to Selene's face, relieving the bad mood of seeing this bastard named Alexander so early in the morning.

I thought I heard Eira say something but I just ignored her, I guess it was my imagination. And I looked straight at that bastard in case he tried something funny with Alice.

"Oh! I see I didn't introduce him."

"waaa

!, you scared me, William!" 'That bastard definitely has a fetish with getting behind me' . '

Just when I was thinking of ways to get rid of the bastard in front of me, William, who was in the back seat, leaned out and suddenly spoke to us.

Surprising me, I mean, hearing this other bastard's voice from behind is not a good feeling.

"Ah?, I'm sorry. Well, let me introduce you. This over here is Alexander, he's a friend sits behind me in classes and we also share some classes together.... And this here is Christian, he sits in front of me and he's a friend since the time of the entrance examination."

'Damn it, I don't want you to introduce me to this bastard.'

Well, I couldn't be rude, at least not yet. Not to mention that I wanted to take advantage of this trip to create a connection with Alice with my Christian identity and I don't want her to have a bad first impression of me.

So I gave her a sidelong glance, but for some reason she was scowling at me.

'Wait, why are you looking at me like that Alice, what have I done?'

I tried to remember, but I hadn't contacted her with this identity, so I didn't understand why her look of disgust towards me, which by the way broke my heart.

"nice to meet you I'm alexander simply Alexander, I hope from now on we will get along well".

But hey, in the end I heard about it, and I guess I have to do the same, even if I don't want to.

"Well, as William said, I'm Christian. It's a displeasure, oh I mean, it's a pleasure...oh! Since I invited them, let me introduce them. This here is Elena, a close friend of mine, and the one next to her is a friend of hers, Alice. I hope they get along well."

It's a little awkward because I didn't technically know Alice, but I convinced her to come today, even though she obviously wasn't going to come as Seraphina and be close to William.

Alice has little or no connection to William; she is a friend of a friend of a friend's friend. so obviously she would be uncomfortable.

'I'm sorry Alice' with regret in my heart I apologized to her in fact I had already negotiated with her before we started, the night of passion, so I fulfilled some of her requests last night.

"Yes, besides you don't need to introduce us, she's my fiancée, isn't she, Alice?"

But at that moment, that bastard Alexander intervened, saying unwanted things that no one asked for, causing a vein to swell in my temple.

But I was able to calm down thanks to the soothing powers of Selene, who was in my lap, sleeping and purring happily.

'wait can she purr...is that even possible?'. Suddenly, my thoughts drifted to how the biology of a beastman worked, almost losing the thread of the conversation.

I looked at Alice's reaction to the guy and she simply said nothing, looking at him with a complicated expression, with a bit of rejection and disgust?.

We could all notice that, and William, though dense, noticed it too.

"Well, it's nice to meet you. As the saying goes, a friend of a friend is also my friend. I hope you enjoy your stay."

Sometimes I wonder if his problem of being dense only applies in love, because from what I've noticed, he has no problem noticing things like this.

But when it comes to a girl sending him love signals, he just ignores them, no matter how blatant they are. My alternate self even thinks he does it on purpose.

But who in their right mind would willingly turn down a harem for a woman who is a man on the inside? That just makes me realize that, whatever it is, William has a very serious mental problem.

In the end, he sat back down because a stewardess scolded him. The trip began. While I was at it, I wanted to talk to Alice and started a conversation.

"This, the truth is I wanted to meet you. I've heard so much about you from the lady as well as Elena, I wanted to talk to you. Like I said, my name is Christian, but you can call me Chris."

"..."

But she just didn't address me and looked at me. I didn't know how to act; she had never acted that way with me, and I was at a loss as to what to do. So I sent a signal for help to Elena, which through our couples telepathy she received. (it does not exist but Elena understands it anyway)

"Miss Alice, as he says, he is the son of a gentleman of the Silvercres, as well as a promising future prospect. lady says, if possible, try to get along with him."

'Oh, Elena great idea,' I certainly didn't think to tell Alice to get along with Chris and create a connection, but Elena cleverly arranged it.

Alice is very willing to do things as long as the one asking her is Seraphina, so normally, as long as me being eraphina is involved, Alice will cooperate, such as coming on this trip.

"But he betrays big sister."

"....." (x2)

'Damn, I forgot.'

I technically betrayed myself on the first day of class, and Alice probably witnessed it. She never said a word, so I didn't think she thought much of it, but apparently she maintained a bit of a reluctance towards Chris.

As in not wanting to get involved. Even Elena didn't know how to proceed next and couldn't be of much help.

I tried to talk to her some more, but in the end, my efforts were in vain. However, I haven't given up yet.

I'll keep trying during this long weekend, and when we get back, I'll make sure to improve Christian's image when I'm Seraphina, I think it won't be long before I tell her the whole truth about my dual identity.

"jeee~."(x2)

At that moment, I heard a derisive laugh from two places at the same time: one from the bastard next to Alice, who was definitely going to kill next, and the other from the thing a seat away.

For some reason, that touched my nerves, so I looked at her and asked:

"What are you laughing at?"

"Nothing, just that you're pathetic. You even tried to flirt with a girl while having your girlfriend on your lap. That's not all you even got dumped like a loser."

'This wretch...'. At that moment, the temptation to grab her and throw her out the window was born in me, but I restrained myself, I don't even know why I asked if I knew I would get angry, aahhh....

Finally, I averted my gaze and appreciated the scenery through the window, I didn't want to talk anymore, and the only one I could talk to was elena, but that would make Alice very angry.

I simply caressed Selene while I imagined Eira falling off the train, while watching the scenery.
