

The Order of the Dragon King Chapter: 10

2-3 minutes

Chen Ping frowned. It seemed that what the bald man said was true!

“Where is Geng Shanshan? Who is she married to? Let her come out to see me and explain clearly...”

Chen Ping rushed towards the villa with a cold face!

“Hey...you madman, why do you just break into other people’s yards?”

Jia Meili desperately pulled Chen Ping!

But she was not as strong as Chen Ping. She was dragged into the yard by Chen Ping!

Chen Ping was about to rush in with his eyes open, when a girl in a wedding dress walked out with a gloomy face!

When he saw the girl, Chen Ping stopped suddenly.

“Geng Shanshan, what is going on? What’s going on? Please explain it to me clearly?”

Chen Ping looked angrily and questioned Geng Shanshan!

“Chen Ping, go away, don’t come looking for me, I have decided to marry Xiao Lei!”

Geng Shanshan looked at Chen Ping expressionlessly and said!

Chen Ping’s eyes narrowed and he clenched his fists tightly. Although he already knew it, when Geng Shanshan said it herself, Chen Ping’s heart still twitched violently.

He was imprisoned because of Xiao Lei, but now his girlfriend wants to marry him?

This is so ironic!

Suddenly, Chen Ping gave a self-deprecating smile. He felt that he was really too cheap...

“Is this what you mean?”

Chen Ping looked at Geng Shanshan, his face no longer angry, and his hands slowly relaxed.

“Yes!” Geng Shanshan nodded: “I want to live a rich life, but you can’t give it to me.”

“Besides, you are still a prisoner in a labor camp. Even if you are released, you may not be able to support yourself. How can you support me?”

“For the sake of our past relationship, you can take these hundreds of dollars and save yourself from sleeping on the street!”

After Geng Shanshan finished speaking, she took out a few hundred-dollar bills from her bag and threw them on Chen Ping’s face!

At this moment, Chen Ping looked at Geng Shanshan and completely gave up. The person in front of him was no longer his girlfriend.

“You will regret this!”
