

The Order 3831

Chapter: 3831

As the pattern began to shine, a magic circle was arranged by Chen Ping.

The fortune teller was a little surprised when he saw how easily Chen Ping arranged the array. He didn't expect that Chen Ping's array spells were so powerful!

After setting up the magic circle, Chen Ping and everyone left quickly!

Soon, Leng Wudao and others arrived here. Looking at the traces of rest on the ground, Leng Wudao showed a sneer on his face.

"They can't run away..."

After saying that, Leng Wudao took the lead and led the people to pursue!

But just after taking two steps, the ground suddenly trembled, and then the surrounding trees seemed to come alive. The trees began to spin crazily around Leng Wudao and others, blocking the path of Leng Wudao and others!

"Hmph, it's a joke that such a small magic circle wants to stop people like us..."

Leng Wudao snorted coldly, waved his hand, and a tsunami-like energy swept forward in an instant!

The rocks and trees turned into powder, and soon the formation was broken!

However, Chen Ping did not expect that his formation could trap Leng Wudao and others, as long as this formation could delay time!

After traveling all night, Chen Ping led Yue Buqun and the others to the location marked on the treasure map!

Looking at the bottomless ravine in front of him, Chen Ping frowned slightly, because he could clearly feel a dangerous aura emerging from the ravine!

This ravine is bottomless, stretching for dozens of miles, with no end in sight, and it's pitch black inside, like a passage leading to an abyss of hell!

Moreover, the stone walls on both sides of the ravine were extremely smooth. They did not look like natural formation at all, but more like someone had split them open with a sword.

"Mr. Chen, who is this person? Why do I feel so eerie and terrifying?"

Liu Rui asked Chen Ping.

"I don't know either..." Chen Ping didn't know where this place was at all. He only remembered that this was the place marked on the treasure map!

At this time, Chen Ping's chest suddenly flashed with light, and then a transparent skull slowly appeared in the air!

Seeing this scene, everyone was shocked and became on guard!

"Hahaha, we're finally here, right here, right here..."

The skull actually spoke!

"Mr. Chen, who is this?" Yue Buqun looked at the transparent skull and asked Chen Ping.

Chen Ping shook his head: "I don't know who he is either..."

Chapter: 3832

Hearing Chen Ping's answer, Yue Buqun and Shen Suanzi were speechless. It turned out that Chen Ping didn't know who the other party was, and he brought him here. If the other party had any intentions, wouldn't it be troublesome?

The skull seemed to read everyone's thoughts, so he smiled and said: "There are countless treasures in this abyss. It depends on whether you dare to go down..."

After saying that, the skull actually flew into the abyss, and was quickly swallowed up by the darkness in the abyss!

At this moment, Chen Ping and Yue Buqun looked at each other, not knowing what to do!

Chen Ping could clearly feel the dangerous atmosphere in the abyss, but he also knew that great opportunities are often accompanied by danger!

Now it's up to them to see if they have the courage. As the saying goes, how bold a person is, how productive the land is!

"Master of divine calculation, Sect Leader Yue, what should we do?"

Chen Ping knew that if he broke into the abyss, there would be many dangers and he might lose his life, so he wanted to consult the fortune teller and Yue Buqun for their opinions!

"Mr. Chen, we listen to you. If you say yes, we won't hesitate..."

"Yes, Mr. Chen, just ask..."

The fortune teller and Yue Buqun said!

Chen Ping walked to the edge of the abyss, then lowered his head and looked down. He saw darkness inside and couldn't see anything, but the eerie aura made people shudder!

A ray of golden light flashed across Chen Ping's forehead. He wanted to use his spiritual consciousness to explore what was in the abyss. Unfortunately, Chen Ping's spiritual consciousness was cut off instantly as soon as he entered the abyss. He didn't dare to explore. Find out what's going on inside!

"Mr. Chen, Leng Wudao and others are catching up soon..."

The fortune teller walked to Chen Ping and whispered.

Chen Ping turned around and took a look, and then said to the divine fortune teller: "Master divine fortune teller, do you have any runes, jade pendants or the like on you?"

"Mr. Chen, what are you doing looking for those things?" Shen Shuzi asked in confusion.

"The Yin energy in this abyss is too heavy. I'm afraid that some people can't resist it, so I need to refine something that can prevent the invasion of Yin energy and distribute it to everyone..."

Chen Ping explained.

"Mr. Chen, I only have copper coins, is that okay?"

The fortune teller took out a handful of copper coins and said.

"Okay!" Chen Ping glanced at it, then took the copper coins, and then waves of divine dragon power began to be sealed in those copper coins by Chen Ping! Remember URL

In just a few minutes, all the copper coins were refined and distributed to everyone!

"You must wear this copper coin on your body, otherwise your body may not be able to withstand the erosion of Yin Qi over time..."

Chapter: 3833

Chen Ping warned everyone!

Everyone held the copper coins, and they felt that the cold copper coins actually had warmth, just like a small stove, they were warm in their hands!

“Everyone, be careful, because we don’t know what dangers there are in this abyss, so don’t get separated.”

“Follow me closely. It’s best if everyone can find a rope to hold together. Otherwise, if we get separated, I’m afraid we won’t be found at all in this abyss...”

Chen Ping reminded.

After saying that, Chen Ping turned around and jumped into the abyss, and others followed closely behind, no one was afraid!

Chen Ping only felt that his body was falling continuously, and the whistling wind sounded in his ears.

Chen Ping didn’t know how long he had been falling, but when he felt his feet touch the ground, he knew he had fallen to the bottom of the abyss!

A faint spiritual fire burned on Chen Ping’s palm, trying to give a glimmer of light into the dark abyss, but the spiritual fire jumped and only burned for a moment before it went out.

Chen Ping tried several times, but the spiritual fire couldn’t burn here at all!

“This place is filled with evil spirits, how could your spiritual fire burn...”

As an old voice sounded, Chen Ping’s surroundings instantly became brighter!

Chen Ping saw that the crystal skull was emitting dazzling white light, illuminating his surroundings as bright as day!

“You didn’t leave?” Chen Ping was a little surprised. The skull obviously fell into the abyss long ago, so why is it still here?

“I’m waiting for you to see if you have the courage to jump down...”

The skull opened its mouth and spoke in an old voice.

Soon, Yue Buqun, Shen Shuanzi and others also fell down one after another. Although the abyss was very deep, no one was injured!

After all, they are already masters at the level of God of War. It is not difficult at this level!

However, this thick Yin Qi made many people unable to bear it, and their bodies could not stop shivering. Fortunately, there was the copper coin given by Chen Ping, otherwise someone would have been invaded by Yin Qi and turned into a rotten corpse. Dead!

Yue Buqun and others were very puzzled when they saw that the crystal skull was there and emitting white light, illuminating the surroundings!

“Now that you’re here, it all depends on your own destiny. Apart from giving you some light, I can’t help you with anything else. You have to rely on yourself...”

Skull said slowly.

“It’s enough to illuminate it. We will walk the next road ourselves...”

After Chen Ping finished speaking, he looked at Yue Buqun and others and said: “Sect Master Yue, the dangerous atmosphere in this abyss is very strong. You must be careful and don’t get separated...”

Chapter: 3834

Yue Buqun nodded, and then everyone started to move forward. They didn't know how long they walked, but they still couldn't see any other road, just this straight passage going diagonally underground.

At this time, Chen Ping and the others didn't know how many meters they had gone underground. Anyway, as they went deeper and deeper, the Yin Qi became stronger and stronger. Even with the copper coins refined by Chen Ping, some people began to be invaded by Yin Qi. His sanity began to suffer.

Seeing this, Chen Ping took back everyone's copper coins, and then used them as the power of the divine dragon, and then carved spells on the copper coins.

When everyone took the copper coins with them, they instantly felt much refreshed!

The strength shown by Chen Ping made the fortune teller increasingly surprised.

"Mr. Chen, we don't know how far we have walked or how long we have been walking. It has always been so dead here, and we haven't seen any danger. We just don't know when it will end?"

The fortune teller asked Chen Ping.

After all, in this dark environment, coupled with the gloomy atmosphere, if you stay in this environment for a long time, you will probably go crazy!

"Let's take a walk and see..." Chen Ping didn't know when this would end!

But just as Chen Ping finished speaking, the originally illuminated skull suddenly became dim.

"what happened?"

Everyone's eyes suddenly went dark, and they were all startled.

Chen Ping's expression changed: "Everyone, be careful..."

Just as Chen Ping finished speaking, a gust of cold wind blew by, followed immediately by a chirping sound!

It sounded like a flock of birds flying towards them!

Because there was no light, everyone could only feel the aura around them beginning to surge, as if all the Yin energy was coming to life!

Then countless sharp birds with sharp beaks flew out from the bursts of Yin Qi and began to attack Chen Ping and the others!

Chen Ping immediately activated his Indestructible Golden Body, and his whole body was covered with thick golden scales, making it impossible for those powerful birds to hurt him!

But others were miserable, although everyone was resisting desperately, and strong winds formed a wall of wind!

But there were too many fierce birds, and people kept being pecked. Although one peck would not kill someone, the dense numbers of fierce birds made the disciples of the Divination Gang with low cultivation already covered in blood and wailing continuously!

"A bunch of annoying beasts..."

Yue Buqun and the divine fortune teller were attacking desperately, and powerful birds kept falling in front of them!

But for these densely packed and powerful birds, these casualties are nothing!

Chen Ping was also holding the Dragon-Slaying Sword, and he was waving out sword rays one after another.

Chapter: 3835

Facing the small but numerous powerful birds, everyone felt like they were struggling!

There were more and more screams, and more and more Divination Gang disciples fell!

Seeing this, Chen Ping put away his dragon-slaying sword. The beautiful fire phoenix on his forehead flashed, and then it turned into bursts of golden light. A ball of golden light slowly rose into the sky, and then turned into a huge fire phoenix, flashing wing!

Chen Ping knew that this fire phoenix was the master of thousands of monsters. When the fire phoenix appeared, these monsters would become timid and even surrender!

However, when the fire phoenix hovered above everyone's heads and illuminated the area, everyone realized that there was no powerful bird in front of them, and there was no dead bird on the ground!

There was nothing around, not even a single one could be seen, but the Divination Gang disciples who fell on the ground, covered in blood, did indeed exist, which proved that they had indeed been attacked just now!

"What...what the hell is going on?"

The fortune teller and Yue Buqun looked confused!

Chen Ping was also frowning at this moment. He didn't know what was going on. Did he force the fire phoenix to scare away the monsters?

But it is impossible for those powerful birds to disappear instantly as soon as the fire phoenix appears. This is simply impossible!

Chen Ping wanted to ask the old man, but when he saw the skull, he found that the crystal skull fell to the ground, without any luster, as if it had lost some kind of power. Chen Ping picked up the skull, and no matter how he asked, he would not stop it. I can't hear the old man's voice either!

Helpless, Chen Ping could only temporarily put away his skull, and then carefully thought about the scene that just happened!

“What we just encountered was probably not a real monster, but an illusion of Yin Qi. Now those monsters have turned into Yin Qi again and filled the air around us, so we can’t find it at all!”

Chen Ping thought for a moment and said!

This is the only possibility now, otherwise there is no way to explain. Where did the dense birds just go?

And where are the bodies of those fierce birds?

“Yes, Mr. Chen’s analysis should be good. There shouldn’t be any monsters that can survive in this environment.”

Yue Buqun nodded and agreed with Chen Ping’s point of view!

At this time, the divine fortune teller looked at the disciple who fell on the ground and kept wailing, with a look of distress on his face!

But in this case, there is no way to treat them!

“Disciples, I hope you don’t blame Master. Instead of suffering like this, it’s better to die happily...”

With that said, the Divine Fortune Teller planned to kill those seriously injured Divination Gang disciples!

After all, it is impossible for them to take these seriously injured disciples with them in a place like this. And if these disciples are left here to fend for themselves, it will be even more cruel and painful!

But just when the fortune teller made his move, Chen Ping stopped him!

Chapter: 3836

“Mr. Chen, they are in so much pain, why not give them a break...”

The fortune teller said with a sad look on his face!

“Master Divine Calculation, although their injuries are serious, they are not fatal. They are all skin injuries and will be cured soon!”

After Chen Ping finished speaking, he then asked: “Which of you has herbs on you, please take them out...”

The fortune teller looked at Chen Ping and said with surprise: “Mr. Chen, do you know how to heal diseases and save people? Are you a pharmacist?”

“Master of Divine Calculation, Mr. Chen is not only a pharmacist, he is also a senior alchemist. Even Bao Yukun of the Alchemy Sect is nothing in front of Mr. Chen!”

Yue Buqun said to the divine fortune teller.

When the fortune teller heard this, he was even more shocked. He couldn't help but look at Chen Ping. Chen Ping was young, but the methods he displayed shocked him time and time again!

Everyone quickly took out a bunch of medicinal herbs. After all, in this secret realm, the most indispensable thing is medicinal herbs, so everyone picked some and took them with them!

Chen Ping didn't waste any time. He took out the Shennong Cauldron from the storage ring and started refining the elixir.

Such serious skin injuries couldn't be easier for Chen Ping. Soon Chen Ping refined the ointment and asked the fortune teller to apply it on the seriously injured disciples!

The wounds that were not on the disciple's body were actually healing at a speed visible to the naked eye. This miraculous effect shocked the fortune teller again!

"Taking advantage of this little time, I will teach you a spell to prevent the excessive Yin Qi from affecting everyone's mind!"

After Chen Ping finished speaking, he passed the Qingxin Mantra to everyone!

Chen Ping didn't know what would happen as he continued to deepen. If the Yin Qi was too strong, even the copper coins he refined might not be able to protect the mind, so Chen Ping passed on the Qingxin Curse to everyone!

Reciting the spell taught by Chen Ping, Shen Shuzi stood stunned on the spot, his mouth wide open, because only he knew that this Qingxin spell was a very advanced spell, but Chen Ping taught it to others so easily!

While Chen Ping and the others were repairing, above the abyss, Leng Wudao and others had also chased to this place. Looking at the bottomless abyss, Leng Wudao's face was full of solemnity!

"You said Chen Ping and the others are here?"

Leng Wudao looked at the eldest disciple of the fortune teller and asked.

"Leader Leng, I think they are here. Since there is no one here, they should have gone down here..."

The great disciple of the fortune teller said!

Tong Haiyang looked into the abyss, and then a burst of spiritual consciousness penetrated into it, only to find that his spiritual consciousness was cut off instantly, and he could not detect the situation in the abyss at all!

Then he picked up a stone and threw it into the abyss, but no sound was heard!

“This abyss is full of yin energy and bottomless, so Chen Ping and the others won’t be stupid enough to jump in, right?”

Chapter: 3837

Tong Haiyang didn’t believe it.

“I think so. It’s impossible for them to jump directly into such an unfathomable abyss in order to avoid our pursuit. Moreover, I feel that there is a strong dangerous atmosphere in this abyss!”

Leng Wudao didn’t believe that Chen Ping and the others would jump!

Upon hearing this, the great disciple of the Divine Fortune Teller hurriedly said: “Leader Leng, then Chen Ping and the others must be here, and there is no way to hide people here. Since they are not around, they just jumped in here. I can guarantee that... .”

The eldest disciple of Shen Shuzi is afraid that Leng Wudao and others will not trust him. If they don’t trust him, there will be no use value, and he knows what the consequences will be!

“Don’t be nervous, I believe in your divination skills. Since you are the great disciple of the Divine Fortune Teller, you must have obtained his true inheritance!”

Leng Wudao stepped forward and patted the great fortune teller’s disciple on the shoulder.

Seeing this, the great disciple of the fortune teller secretly breathed a sigh of relief.

But before he could finish breathing, he was directly pushed into the abyss by Leng Wudao!

“Since you said they jumped, then go down and look for me...”

Leng Wudao looked at the whereabouts of the great disciple of the Divine Fortune Teller and smiled coldly!

“ah.....”

The great disciple of the Divine Fortune Teller had a face full of horror and screamed miserably!

At this time, Chen Ping and the others had finished repairing, and the injured Divination Gang disciples had recovered. When they were about to continue setting off, they heard bursts of screams coming from above their heads!

Then a figure fell in front of them. Seeing this, Yue Buqun and Shen Suanzi jumped up and stopped the man from the front and back!

After the great disciple of the Divine Fortune Teller landed, he was still congratulating himself on being alive when he saw two shadows coming towards him!

When he saw the person clearly, he suddenly broke into a cold sweat and knelt down with a thud!

“Master, Master.....”

The great disciple of the divine fortune teller knelt in front of the divine fortune teller!

When the divine fortune teller saw that it was his eldest disciple, he immediately became furious!

“You traitor, you still have the nerve to call me master, I will clean up the house today...”

After the fortune teller finished speaking, he slapped his eldest disciple with a palm!

However, Chen Ping took a quick step and grabbed the divine fortune teller’s wrist: “Master divine fortune teller, let’s ask clearly before we talk...”

When the fortune teller heard this, he said with a cold face: “Beast, tell me, where are Leng Wudao and others? Did they jump down too?”

Chapter: 3838

“No, they didn’t dare to jump down and pushed me down to explore the way...”

“Master, I was wrong, I was really wrong, please forgive me this time...”

The great disciple of the fortune teller desperately begged for mercy.

“It seems we have to set off quickly. If these guys jump down, we will be in trouble...”

Chen Ping doesn’t want to start a conflict with Leng Wudao and others here for the time being!

He wants to put all his energy into exploring this abyss. Maybe there will be some opportunities in this abyss!

“Okay, let’s go...”

After the fortune teller finished speaking, he slapped his eldest disciple on the head without hesitation, killing him instantly!

No one looked at it, but left quickly!

“Mr. Chen, was that the Shennong Cauldron you used to refine the elixir just now?”

On the way, Yue Buqun asked Chen Ping.

“Yes!” Chen Ping nodded!

“I remember that Mr. Chen lent the Shennong Cauldron to Bao Yukun. I wonder when he got it back?”

Yue Buqun asked curiously.

“Hahaha, that Shennong Cauldron is an ancient alchemy cauldron. How could I lend it to him so easily? Moreover, Bao Yukun is obviously a loaner who never returns the loan. I can’t trust him. What I gave him was just a fake. That’s all!”

Chen Ping said with a laugh!

“Mr. Chen is smart, but Bao Yukun is a despicable person. Mr. Chen is right to be like this.”

Yue Buqun said with admiration!

The group of people walked and chatted. While chatting, everyone also increased their vigilance to prevent this from happening again!

But everyone just walked diagonally to the bottom, and nothing happened! Remember URL

But as they went deeper, the thick Yin Qi, accompanied by the gusts of wind, made Chen Ping and the others feel like they were in hell!

Soon, a door tens of meters high appeared in front of Chen Ping and the others. The door was tightly closed, blocking the way!

Looking at both sides, there are smooth stone walls with no way out. It seems that if they want to get in, they have to open the door!

Chen Ping stepped forward and pushed it, and found that the door was so heavy that it couldn’t be pushed open at all.

Chapter: 3839

“Let’s all push the door hard together to see if we can push the door open...”

Chen Ping said to everyone!

When everyone heard this, they hurried forward, and then used all their strength to push the door together!

But the door did not move at all. You must know that many of them are strong men at the level of Martial Gods, and even Martial Emperors!

Working together, they can’t even push the door open?

“This gate seems to have been set up with a magic circle. It cannot be shaken with brute force. You need to find out where the center of the circle is.”

The fortune teller looked at the door that was tens of meters high and said!

Chen Ping nodded, and then began to search seriously.

Chen Ping gently placed his palm on the door, and wisps of spiritual power spread around. With his eyes slightly closed, Chen Ping began to feel the formation on the door!

However, after searching for a long time, no formation was found at all. This gate was just an ordinary gate, and there was no formation on it!

“Strange, no one has set up a formation on this gate?”

Chen Ping frowned and said!

The fortune teller was stunned for a moment, then stepped forward, took out a copper coin, and blew it hard. The copper coin made a buzzing sound. Then the fortune teller tossed the copper coin, and the copper coin actually stuck to the door and began to spin!

The fortune teller was also confused for a moment and said: "It is true that there is no magic circle, but without the magic circle, how come this door cannot be opened?"

"With the strength of us people, even if he leveled a hill, he couldn't open a door?"

"Mr. Chen, since there is no magic circle, there must be a secret lock on the door. Maybe if we find the mechanism, we can open the door..." Yue Buqun said!

"Mr. Chen, look at the top of the door..."

At this time, Liu Rui pointed to the door and said to Chen Ping.

Everyone looked up and found that there was a plum blossom-like shape on the gate. Moreover, the plum blossom shape was not carved on it, but carved out.

Chen Ping always jumped, his body rose into the air, and then he came to the plum blossom-shaped groove. Chen Ping looked at the smooth surface, and it was obvious that it was man-made!

"Is this where the agency is?"

Chen Ping stroked the groove: "But what do you need to open it?"

"Mr. Chen, it seems that such a groove suddenly appeared on this smooth door. It should be a hidden lock or something. There should be a key with the same shape. If you put it on it, the door should open."

The fortune teller also rose into the air, looked at the groove and said!

Chapter: 3840

“But where are we going to find a key in this shape now?”

Chen Ping was speechless for a while. They didn't have the key at all, and they didn't know where the key was. Where to find it?

Without the key, it looks like they have no way of getting in!

“Mr. Chen, that skull, that skull seems familiar with this place. Maybe he knows where the key is. You can ask...”

The divine fortune teller reminded!

Chen Ping then remembered the skull, but the skull had lost its luster, and there was no response to his calls. Chen Ping didn't know if the owner of the skull was still there!

However, Chen Ping still took the skull out of the storage ring, but when Chen Ping took the skull out, he was stunned. He found that the skull, which was originally crystal clear and crystal-like, turned dark at this moment!

And on the top of the skull, a plum blossom-shaped pattern is shining. This light is so conspicuous on the dark skull!

“this.....”

Chen Ping looked at the skull in his hand and was stunned!

“Mr. Chen, is this key the skull in your hand?”

When the fortune teller saw this, he was also shocked and said.

“possible.....”

Chen Ping held the skull and gently approached the groove at the door.

Suddenly, a huge suction force sucked the skull directly up, and then the door made a creaking sound!

Soon, the door dozens of meters high opened, and the skull was back in Chen Ping’s hands!

At this moment, Chen Ping was a little confused. If the door needed to be opened by the skull in his hand, then wasn’t this place built by the owner of the skull?

What exactly is going on?

Chen Ping couldn’t figure out what was going on. Who was the owner of this skull?

“Mr. Chen, look quickly...”

At this time, Yue Buqun screamed, waking Chen Ping up from his dazed state!

Chen Ping looked in the direction of Yue Buqun’s finger and found that after the door was opened, there was a valley behind, and countless bones were scattered densely on the ground!

The hills on both sides of the valley were bare, and the few trees that were left were all turned into dead wood!

And on the mountains on both sides, there are also a large number of corpses scattered on the mountains, as well as those weapon fragments scattered all over the ground!
