

## **The Order 4001**

Chapter: 4001

Chen Ping thought of doing it, and began to slowly approach the group of sword puppets. Soon, the aura on Chen Ping's body attracted the attention of several sword puppets nearby, and then they chased after Chen Ping!

Chen Ping was overjoyed. After luring those sword puppets away, they were quickly eliminated!

Chen Ping used this method and quickly eliminated more than a dozen sword puppets. Although this method was a bit slow and it would take a long time to eliminate dozens of sword puppets, Chen Ping couldn't think of anything right now. Here comes a better way!

Just when Chen Ping was slowly approaching those sword puppets again, he suddenly felt something was wrong. He always felt that there were auras coming down from the pool of water above his head!

Chen Ping suddenly raised his head, and when he looked at it, Chen Ping instantly took a breath of air!

I saw more than a dozen sword puppets, waving the swords in their hands, breaking through the light curtain from the pool and heading straight for Chen Ping!

"What's going on? Are the sword puppets I just killed alive again?"

Chen Ping was so shocked that he was sweating profusely!

After the sword puppets that Chen Ping killed just now, those sword puppets turned into sword energy and dissipated, then floated into the pond, and then the sword energy formed sword puppets again.

In other words, Chen Ping spent so long without killing a single sword puppet. Now these sword puppets are rushing from top to bottom, and Chen Ping doesn't even have a place to hide!

Chen Ping is now being attacked from two sides. There are sword puppets above and sword puppets below. Chen Ping has no way to escape!

I saw Chen Ping forming seals with his palms, and two rays of light suddenly lit up, turning into a barrier above his head. He wanted to block the dozens of sword puppets coming from top to bottom!

After a dozen sword puppets touched the barrier, they immediately went crazy and rushed towards the barrier desperately, trying to break the barrier!

However, Chen Ping's barrier is very strong and unbreakable. More than a dozen sword puppets tried their best to hit it, but they couldn't penetrate it!

Although Chen Ping temporarily stopped the dozen sword puppets above, this is not a long-term solution. If this continues, the barrier will be broken sooner or later!

Chen Ping looked at the Dragon-Slaying Sword at his feet, his eyes flashing fiercely, he gritted his teeth suddenly, and rushed downwards like a meteor. He wanted to get the Dragon-Slaying Sword as soon as possible, and he could not escape at any time, otherwise he would wait for dozens of sword puppets above his head. Once the barrier is broken, it will be difficult for him to escape!

As Chen Ping's body rushed into the sword puppet camp, dozens of sword puppets were all alerted. Each one exuded a manic aura, waving the weapons in their hands, and rushed towards Chen Ping!

Chen Ping casually grabbed the dragon-slaying sword, turned around and ran away!

And while escaping, Chen Ping took out the God King Bow and kept pulling the bow string, and arrows shot out at the sword souls!

Chen Ping could not escape upwards, he could only escape to one side. After avoiding this area, Chen Ping planned to return upwards to the pool!

Dozens of sword puppets burst into roars and rushed towards Chen Ping's arrows desperately!

"These unconscious guys are not afraid of death at all..."

Chen Ping looked at the dozens of sword puppets who had transformed into realms, and felt his scalp numb in waves. If he was caught up by these dozens of sword puppets, Chen Ping knew that he would be destroyed in an instant!

Rumble.....

Chapter: 4002

At this time, a dozen sword puppets from top to bottom also broke through the barrier, gathered together with the large army, and rushed towards Chen Ping. These sword puppets pursued Chen Ping and seemed to be preventing Chen Ping from taking the Dragon Slayer Sword. !

Chen Ping pulled the bow string with all his strength, and then let out a low shout. The arrow feathers condensed with the power of dozens of lines on the bow string were shot directly towards the sword puppets!

Several sword puppets were shot in an instant, but they were not able to kill these sword puppets, and they could not stop the attack of these sword puppets at all!

Although Chen Ping shot out dozens of arrow feathers at once, the power of each arrow feather was greatly reduced, so it did not cause fatal damage to these sword puppets!

Just when Chen Ping was running away and attacking and blocking the sword puppets, a terrible force suddenly came from behind Chen Ping!

Chen Ping quickly looked back. At this glance, Chen Ping broke out in cold sweat!

Not far behind him, he saw countless sword puppets densely packed, heading towards Chen Ping.

There are hundreds of sword puppets in this batch. Now both teams of sword puppets are coming towards Chen Ping, which scares Chen Ping!

“Where the hell did this come from?”

Chen Ping couldn't help but curse. If so many sword puppets were gathered together, the power would be absolutely terrifying. Even if these sword puppets didn't take action, the aura exuding from their bodies would be enough to crush Chen Ping!

Chen Ping could only desperately turn around and escape. At this moment, a strange scene appeared in the Sword Washing Pond. Chen Ping was running desperately in front, while behind him was a black mass of sword puppets, chasing Chen Ping!

Chen Ping now doesn't even have time to turn around and attack. He can only rely on his own flexible movement to avoid the pursuit of these sword puppets. Fortunately, these sword puppets have no intelligence and move slowly, which makes Chen Ping temporarily unable to Danger.

Above the Sword Washing Pond!

Hu Mazi looked at the pool of water with a look of anxiety on his face. Chen Ping had been down there for a long time. Logically, he should have taken out the Dragon-Slaying Sword long ago, but now there was no movement at all in the pool of water!

"You'd better leave. Don't wait any longer. There's no way that kid can come out alive. There are hundreds of sword puppets under this pool of water. Anyone who goes down there will be torn to pieces."

Jian Lao said coldly to Hu Mazi and Hammer Master!

"Impossible, Chen Ping will not die so easily. He is the true form of the Golden Dragon. He has never encountered any kind of danger. Instead of saving the day, just a small sword washing pool cannot kill Chen Ping.!"

Hu Mazi retorted loudly to Jian Lao!

"Hahaha, as the saying goes, Long You was tricked by a shrimp in the shallows. Even if he is really a golden dragon, he will be useless under this Sword Washing Pond."

Jian Lao burst out laughing.

“Don’t be happy so early, you will be slapped in the face later.”

Hu Mazi glared at Jian Lao angrily and said.

“Am I being slapped in the face?” Jian Lao raised the corner of his mouth: “Then I will let you see this kid’s situation and see if he will slap me in the face...”

After Jian Lao finished speaking, he gently touched his sleeves, causing ripples to appear in the pond water instantly!

Chapter: 4003

Immediately under the clear water, a scene was reflected. It was the scene where Chen Ping was chased by hundreds of sword puppets!

Seeing this scene, Hu Mazi immediately felt his heart in his throat!

“Do you think anyone will survive under hundreds of Transformation Sword Puppets?”

Jian Lao looked at Hu Mazi proudly and asked.

Hu Mazi didn’t speak, his fists were clenched and his palms were full of sweat. He was worried about Chen Ping!

At this moment, Chen Ping was just trying to escape, and he didn’t even have time to observe the surrounding environment!

“It seems we have to find a way. If we continue like this, we will be exhausted.”

Chen Ping frowned.

Although these sword puppets are not fast and cannot catch up with Chen Ping for the time being, Chen Ping cannot keep escaping like this. Sooner or later, the spiritual power in his body will be exhausted!

Unknowingly, Chen Ping began to circle around the bottom of the pool many times, and he even felt a little dizzy!

At this moment, Chen Ping suddenly tripped over something and almost lost his balance and fell to the ground!

When Chen Ping looked down, he found a protruding bluestone with a little bit of it exposed. Chen Ping tripped over this bluestone!

Chen Ping gently swept away the sand on it, and soon a dim brilliance emerged from the bluestone. With the emergence of this brilliance, light began to shoot out from the sand around the bluestone!

Upon seeing this, Chen Ping hurriedly cleared the area. Only then did Chen Ping see clearly that there was a huge magic circle under the pool of water!

The pieces of bluestone may seem messy, but they are arranged according to certain rules. Each piece of bluestone emits a ray of light!

“No wonder this sword-washing pool can quench swords. It turns out that it’s because of the magic circle, not the function of the pool of water...”

Chen Ping looked at the magic circle in front of him and suddenly realized that if the sword-washing pool didn’t have the magic circle underneath, it would be just an ordinary pool of water!

As the bluestone emits light, the light forms a large talisman array, which is reflected at the bottom of the pool!

The sword puppets chasing Chen Ping all stopped when they felt the aura emanating from this formation. Not a single sword puppet dared to step forward!

Seeing this scene, Chen Ping breathed a sigh of relief. As long as these sword puppets stopped chasing him, Chen Ping would have time to study this huge formation!

Chen Ping didn't know, who would set up such a large formation at the bottom of this pool of water?

Chen Ping stood in the center of the formation. He could clearly feel that the power of the formation was very weak. It seemed that the formation had not been fully activated.

I don't know if it's due to the age and excessive energy consumption of the formation, or if it's because these sword puppets have caused damage to the formation!

But even if the power of the formation becomes weaker, it can still block those sword puppets and prevent them from getting closer!

Chapter: 4004

"Perhaps if this formation can be fully activated, the Dragon-Slaying Sword can be repaired without the help of the old sword..."

Chen Ping looked at the huge formation, and then gently pressed his hand on a piece of bluestone!

As the spiritual power in Chen Ping's body continued to be poured into the bluestone, ripples soon appeared in the formation, and then a talisman lit up in the formation, and the bright brilliance began to bloom!

When Chen Ping saw this, he was immediately overjoyed and hurriedly poured spiritual power into the other bluestones again, making the talismans in the formation begin to become extremely bright!

Soon, the entire bottom of the pond shone with light, and the rays of light connected together to form an extremely pure aura, and the sword energy crisscrossing in the pond, after this breath, gathered towards the bottom of the pond. !

Those sword puppets seemed to be threatened, and they all became extremely frightened and moved away from the surroundings of the formation!

At this moment, Hu Mazi and the others above the Sword Washing Pond seemed to feel the changes in the Sword Washing Pond!

The water in the pool that was originally extremely clear and filled with sword energy began to become a little turbid at this moment, and the sharp sword energy in the pool also disappeared!

“What...what’s going on?”

When Jian Lao saw the changes in the Sword Washing Pool, he couldn’t help but frown!

He quickly pressed the magic formula to see what was going on!

But he tried several times in a row and couldn’t see Chen Ping at the bottom of the pool anymore, so he didn’t know what happened at the bottom of the pool!

Hu Mazi felt the change in the water, and hurriedly stepped forward, inserting his hands into the water. This time, apart from feeling the coldness of the water, Hu Mazi was not in any danger.

In other words, this pool of water has become an ordinary pool of water. Without the sword energy to swim around, it will not cause harm to people!

Jian Lao seemed to feel something, and his whole person disappeared in an instant, and then went directly towards the bottom of the pool!

Hu Mazi also wanted to jump into the pool, but was stopped by Master Hammer: “Don’t join in the fun. You are going to the bottom of the pool, and I’m afraid you will only die...” ”

At this time, at the bottom of the pool, as the formations were continuously activated by Chen Ping, the originally quiet bottom of the pool became extremely turbulent at this moment, and the raging sword energy was continuously absorbed by the formations!

The dragon-slaying sword in Chen Ping's body seemed to be summoned, and it instantly separated from Chen Ping's body, and then inserted straight into the middle position of the formation!

Just when the Dragon-Slaying Sword was inserted into the formation, the light around the formation was all heading towards the Dragon-Slaying Sword. Countless rays of light were connected with the Dragon-Slaying Sword, and countless sword energies were also heading towards the Dragon-Slaying Sword. Rush away!

Chen Ping looked at all this with surprise in his eyes. Now that the Dragon-Slaying Sword was inserted into the formation, the power of the formation instantly increased a lot!

Those sword puppets that had fled one after another, under the impact of the formation's aura, turned into sword auras one after another and were absorbed by the formation!

Rumble.....

As countless sword energy swarmed in, the light curtain that originally isolated the pond suddenly collapsed at this moment, and a large amount of pond water rushed towards Chen Ping instantly!

Chen Ping felt the impact of the pool. His whole body was like a sharp sword. He stood motionless. Despite the impact of the pool, the raging sword energy around him kept hitting Chen Ping!

Chapter: 4005

Chen Ping's eyes became hot. Such pure sword energy and the impact of this pool of water were the best time to temper his body!

Moreover, the sword energy absorbed by the formation is also a good resource for cultivation!

"We can't waste such a good opportunity..."

Chen Ping sat cross-legged and directly into the formation.

At this moment, Chen Ping merged with the Dragon Slayer Sword, constantly absorbing the sword energy swarming around him!

The sword energy from all directions was absorbed by the formation, and then swarmed into Chen Ping's body!

After Jian Lao reached the bottom of the pool, he was stunned for an instant. He saw the huge formation emitting bright light, and a huge suction force that continuously absorbed the sword energy in the sword washing pool!

And Jian Lao was also a sword spirit formed by condensing sword energy. His whole body was shaking violently uncontrollably, and he was constantly being sucked into the formation by the huge suction force of the formation!

Jian Lao panicked and tried his best to resist the suction of the formation. If he was sucked in by this formation, Jian Lao would probably dissipate instantly and turn into countless sword energy that would be sucked into Chen Ping's body!

After trying his best, Jian Lao was able to break away from the huge suction force of the formation. Seeing the countless sword energy in the sword-washing pool being sucked away, Jian Lao felt heartbroken. You must know that these sword energy are the basis of his survival. If Without this sword energy, and if the sword is no longer quenched in the Sword Washing Pool, the spiritual body of Jian Lao will slowly dissipate!

At this time, Chen Ping closed his eyes slightly and had no idea what Jian Lao was thinking. He was just trying his best to absorb a large amount of sword energy in the sword-washing pool!

The Dragon-Slaying Sword began to make a buzzing sound in the middle of the formation, and the sword body was also shaking violently!

As a ray of light exploded in the center of the formation, a ball of golden light as dazzling as the sun soared into the sky!

This ball of light broke through the pond, shot straight into the sky, and then fell rapidly from the clouds!

boom.....

With this blow, all the water in the Sword Washing Pond rose into the sky, and from the formation at the bottom of the pond, a ray of light fragments slowly flew up and floated out of the Sword Washing Pond!

Chen Ping suddenly opened his eyes and looked at the fragment of the scroll floating away. He knew that it must have been left by the person who set up the magic circle, so he jumped up and grabbed the fragment directly!

“Forging fragments...”

After seeing the fragment of the scroll, Sword Master and Hammer Master all shouted in surprise!

Chen Ping didn't know what the forging fragment was, so he stretched out his hand and grabbed the fragment in his hand!

Chen Ping saw that part of the fragment was missing, but other parts recorded the forging method!

The Sword Washing Pool returned to calm, and the Dragon-Slaying Sword flew out of the formation and returned to Chen Ping's hands!

Chen Ping saw that there were no more cracks on the body of the Dragon-Slaying Sword. Moreover, the light of the Dragon-Slaying Sword became purer and its quality seemed to have improved!

Chen Ping held the Dragon-Slaying Sword in his hand, and he could clearly feel the surging sword energy surging inside the Dragon-Slaying Sword!

Chapter: 4006

“Chen Ping, can you give me the forging fragment in your hand?”

At this time, Master Hammer jumped up and stood in front of Chen Ping, asking with burning eyes!

Jian Lao also arrived in front of Chen Ping, looked at the fragment in Chen Ping's hand with excitement and said: "I didn't expect that the forging fragment has been in the Sword Washing Pond. I have been guarding the Sword Washing Pond for so many years, but I have never discovered that there is one. With this forging fragment, the Weapon Refining Sect can recreate its glory."

Chen Ping looked at Master Hammer and Sword Master in surprise, and asked in confusion: "What is this forging fragment? It just records the incomplete forging method. Is it that important?"

"Chen Ping, you don't know something. This forging fragment is the most precious treasure of our weapon refining sect. Our sect leader was captured just because he wanted to get this forging fragment!"

Master Hammer followed Chen Ping and told him about the origin and importance of forging fragments!

When Chen Ping heard this, he threw the forging fragment to Master Hammer and said: "Since this is the treasure of your weapon refining sect, let me return it to you. It's useless for me to hold it in my hand..."

Chen Ping returned the forging fragment to the Hammer Master!

Master Hammer took the forging fragment and thanked Chen Ping profusely. You must know that this forging fragment is a priceless treasure to many people, but Chen Ping did not have the slightest greed and handed it over directly!

At this time, Jian Lao also looked at Chen Ping with admiration. Thinking of his initial ridicule to Chen Ping, Jian Lao felt burning pain on his face!

Jian Lao has seen Chen Ping's strength and ambition!

“Young man, I didn’t expect you to hand over the forged fragment so happily. It seems that the Dragon-Slaying Sword has been put to its best use in your hands. Since I promised you, as long as you take out the Dragon-Slaying Sword, I will help you repair and temper the Dragon-Slaying Sword. Now that you have done it, give the Dragon-Slaying Sword to me...”

Jian Lao said to Chen Ping!

“Sword Master, this dragon-slaying sword has been repaired and its grade has been improved a lot, so I won’t bother you.”

Chen Ping smiled slightly and said!

The Dragon-Slaying Sword has absorbed so much sword energy that it has been completely repaired and its level has been improved. It doesn’t need Jian Lao’s help at all!

The sword master smiled slightly, shook his head and said: “What you see is just the appearance. The sword spirit of Dragon Slaying Sword is still not fully recovered. After I completely recover the sword spirit of Dragon Slaying Sword, you can come and see... ..”

After Jian Lao finished speaking, he waved towards Chen Ping, and the Dragon-Slaying Sword came out of Chen Ping’s body and into the hands of the Jian Lao!

I saw Jian Lao holding the Dragon-Slaying Sword, and a brilliant light burst out from his eyes. The brilliant light swept across the Dragon-Slaying Sword, causing the Dragon-Slaying Sword to tremble!

Soon, a large amount of sword energy emerged from Jian Lao’s body and poured into the Dragon Slaying Sword crazily!

The old swordsman held the dragon-slaying sword, suddenly jumped up high, and then plunged into the sword-washing pool!

After Jian Lao took the dragon-slaying sword and plunged into the Sword-washing Pool, the Sword-washing Pool quickly returned to calm. Looking from the outside, nothing could be seen.

“Chen Ping, you don’t have to worry. Since the sword master said he would help you temper the dragon-slaying sword and restore the sword spirit, he will definitely do it. We can just wait quietly...”

Master Hammer was afraid that Chen Ping would be anxious, so he comforted Chen Ping!

Chapter: 4007

Chen Ping nodded, and several people waited for Jian Lao to appear on the Sword Washing Pond, but they waited for several days, and there was no movement in the Sword Washing Pond!

At this moment, in the secret realm of Demon Heart Sect in the secular world!

The six purple-robed envoys were all waiting for Da Neng to appear in the main hall. They had been staying in the secret realm of Demon Heart Sect for many days, but they had never seen their relatives. You must know that Da Neng had already sent people to invite them. My relatives should have arrived by now!

Soon, with a fluctuation in the void, the master of the main hall sat on it, and a powerful figure appeared.

“What do you six want from me?”

Da Neng looked at the six purple-robed messengers and asked.

“Damneng, so many days have passed. I think our relatives have arrived at the secret realm of the Demon Heart Sect. We just want to see our relatives...”

Yu Qian stepped forward and said to the powerful man!

“Your relatives are indeed here now, but you can’t see each other for the time being. I have something I need you six to do...”

Da Neng said coldly!

“What happened?” Yu Qian asked.

“Now the spiritual energy recovery array is about to be launched, and Chen Ping’s strength has exceeded our expectations. If no one can control Chen Ping when the spiritual energy recovery array is activated, an accident is likely to happen!”

“Now the only one who can check and balance Chen Ping in the big formation is Ning Zhi, who is a fire demon. However, Ning Zhi’s current strength is not Chen Ping’s opponent at all.”

“So I want to quickly improve Ning Zhi’s strength, and to quickly improve Ning Zhi’s strength, someone must make sacrifices.”

Da Neng did not continue to speak, but looked at the six purple-robed messengers with cold eyes!

This time, the six purple-robed messengers were startled.

“Da Neng, you...what do you mean? Do you want to sacrifice the six of us to improve Ning Zhi’s strength?”

Yu Qian panicked and asked with a slightly trembling voice!

“You are overthinking, how could I sacrifice six of you...”

Da Neng said with a slight smile.

When they heard that they were not sacrificed to enhance Ning Zhi’s strength, the six purple-robed envoys all breathed a sigh of relief!

“I wonder who Da Neng wants to sacrifice to improve Ning Zhi’s strength?”

Yu Qian asked.

“I just want to sacrifice your disciples. You all control your own secret realm now, and your disciples number in the thousands.”

Chapter: 4008

“As long as Ning Zhi absorbs their strength improvement every day, I believe that when the spiritual energy recovery array is activated, Chen Ping will definitely not be Ning Zhi’s opponent...”

Almighty said!

Upon hearing this, the six purple-robed envoys all took a breath of air!

It turns out that the ones that the great powers want to sacrifice are their disciples. You must know that their disciples have been following them for many years. If these disciples are gone, then they will become mere commanders from the beginning.

“Mighty, we...”

Yu Qian opened his mouth to dissuade him. After all, none of them were willing to sacrifice their disciples!

But before Yu Qian finished speaking, the powerful man waved his hand and said: “I am ordering you, not discussing with you. Now you call all your disciples here immediately...”

“Remember, no one is trying to play tricks. Your relatives are still here.”

After saying that, the Almighty waved his sleeves, followed by a tremor in the void, and then a huge picture appeared. In a huge cage, all the relatives of the six purple-robed messengers were imprisoned!

Yu Qian’s daughter Yu Jiameng was also among them. The six purple-robed messengers who saw this scene were filled with anger, but they did not dare to say a word!

They can only summon all their disciples to the secret realm of Demon Heart Sect, and then watch helplessly as their disciples are sucked into mummies by Ning Zhi every day!

With the support of the strength of these secret realm disciples, Ning Zhi's realm is rapidly improving. As Ning Zhi's realm improves, his ambitions and desires are also getting bigger and bigger!

In the entire Demonic Heart Sect, Ning Zhi didn't take anyone seriously except for the mighty ones. Even the Demonic Envoy, Ning Zhi would come and go as soon as he was called.

While Ning Zhi continued to improve his strength, Chen Ping and the others were still waiting for Jian Lao to appear!

"It's already the tenth day. This sword master couldn't have run away with the Dragon-Slaying Sword, right?"

Hu Mazi was impatient to wait!

"It's impossible. Mr. Jian is a spirit body. He can't survive for a long time without leaving the Sword Washing Pond."

Master Hammer shook his head and said!

"It's been so long and you haven't seen it yet? How long will it take?"

Hu Mazi asked anxiously.

In fact, Chen Ping was also anxious at this time. If he waited endlessly, he didn't know what would happen in the secular world, and he didn't know what was happening with the Demonic Heart Sect now!

If calculated according to time, it is almost time for the spiritual energy recovery array to be opened!

While Chen Ping and the others were waiting anxiously, suddenly the calm water began to move!

I saw big bubbles starting to appear in the middle of the pool, as if the pool was boiling!

Chapter: 4009

Immediately afterwards, a burst of sword energy emerged from the pool, and two dazzling sword energy rays of light shot straight into the sky!

Then the two sword energy slowly fell, and instantly transformed into a human form!

One of the sword auras was none other than Jian Lao, and next to Jian Lao was a young girl. The girl was slim and graceful, and her fair skin was like warm jade. She was like a fairy descending to earth!

Seeing the girl who suddenly appeared, Hu Mazi's eyes widened. This guy couldn't control himself when he saw a beautiful girl!

"Mr. Jian, where is my dragon-slaying sword?"

Chen Ping just glanced at the girl, then looked at Jian Lao and asked!

At this time, Jian Lao's hands were empty and there was no dragon-slaying sword, so Chen Ping asked like this!

"Your Dragon-Slaying Sword is right here. This is your Dragon-Slaying Sword..."

Jian Lao pointed at the girl and said!

Chen Ping was stunned for a moment and looked at the girl in disbelief. Why did his Dragon-Slaying Sword suddenly turn into a girl?

At this time, the girl stepped forward and saluted Chen Ping: “Master, I am the sword spirit Zhongli. I received the inheritance of the old sword, so I separated from the sword body and turned into a human body!”

After the sword spirit Zhongli finished speaking, he turned around, followed by a flash of light. Zhongli transformed into the dragon-slaying sword again and fell directly into Chen Ping’s hand!

Chen Ping held the Dragon-Slaying Sword in his hand, and instantly felt that there seemed to be more power and aura in the Dragon-Slaying Sword!

Moreover, the minds of Chen Ping and Dragon Slayer Sword are even more closely connected. Every thought of Chen Ping can be truly revealed in Dragon Slayer Sword!

“Boy, you have absorbed a lot of sword energy. Now the sword energy is wasted in your body. Now I will give you a life-saving sword energy, which can save your life at a critical moment...”

“Now you transfer all the sword energy into the Dragon-Slaying Sword. In this way, the strength of the sword spirit Zhongli can make a qualitative leap and become your most powerful helper!”

Jian Lao said to Chen Ping!

When Chen Ping heard this, he sent all the sword energy he had absorbed in the Sword Washing Pond towards the Dragon-Slaying Sword without hesitation!

A large amount of sword energy was transported into the Dragon-Slaying Sword, and Jian Lao put his fingers together and fired a golden light into the Dragon-Slaying Sword!

After a while, the sword energy in Chen Ping’s body was exhausted, and the sword elder also stopped his hand, but at this time, the sword elder’s expression showed that he was very tired!

At this time, the dragon-slaying sword in Chen Ping’s hand shook, and then the sword spirit Zhongli appeared in front of Chen Ping!

At this time, Zhongli's face was like a peach blossom, his skin became more delicate, and between Zhongli's eyebrows, there was a golden sword-shaped tattoo, which added a bit of color to Zhongli's appearance!

Seeing Zhong Li's appearance, Chen Ping was a little distracted for a moment!

Seeing Chen Ping like that, Jian Lao said: "Sword Spirit Zhongli's body now contains a life-saving sword intention. You must not use it until the critical moment, otherwise the sword intention will backfire and hurt you."

Chapter: 4010

Chen Ping nodded, his eyes flashing with fire. With this sword intention, Chen Ping was like having an extra life-saving talisman.

"Jian Lao, this sword spirit Zhongli is so graceful. I wonder if she can do other things that other girls can do besides helping in fights?"

Hu Mazi asked Jian Lao!

Although Hu Mazi's words were relatively obscure, everyone could understand the meaning.

Sword Spirit Zhongli's face turned red and he lowered his head shyly!

Sword Spirit smiled faintly and said: "Sword Spirit Zhongli has now separated from the sword body and transformed into a human form. She is a real woman of flesh and blood, so she can do anything a girl can do..."

"If Chen Ping gets lonely at night, he can let Zhongli accompany him to spend the lonely night..."

Chen Ping's face turned red when he was told that, and he quickly lowered his head and said, "Jian Lao is joking."

Hu Mazi said with envy on his face: “Chen Ping, you are so lucky. There are so many beauties around you. Now you have such a beautiful sword spirit who can sleep with you. I’m so fucking jealous.” Already...”

“Haha, as the saying goes, beauties love heroes. Although Chen Ping is young, he is extremely powerful and broad-minded. It is normal to have more beauties around him!”

Master Hammer laughed and said!

After bidding farewell to Jian Lao and leaving the Sword Washing Pond, Chen Ping planned to use the Divine King’s Bow to once again open the passage between the heavenly and human worlds and the secular world, and return to the secular world, but he was stopped by Master Hammer!

“Chen Ping, if you give me the forging fragment, I can’t let you come to our weapon refining sect in vain. I will take you to a place, and I guarantee that you will like it...”

After saying that, Master Iron Hammer walked through the deserted Weapon Refining Sect, crossed Qingniu Peak, and then walked towards another mountain!

Chen Ping, Hu Mazi and Zhongli were following behind, and Zhongli was cuddling up to Chen Ping like a little bird!

Along the way, Hu Mazi was so excited that he shed tears...

Soon, Chen Ping and the others came to the foot of the mountain and looked at the majestic mountains in front of them. Chen Ping felt a different atmosphere from the mountains!

This breath is different from spiritual energy and sword energy. It is a breath that Chen Ping has never felt before!

Master Iron Hammer saw Chen Ping’s strangeness and smiled slightly: “This is Wujin Mountain. There are some spiritual ores in the mountain. The reason why our weapon refining sect can forge various magic weapons is thanks to the spiritual ores in this mountain.” ore!”

“Without these spiritual ores, no matter how advanced our forging methods are, our Weapon Refining Sect will not be able to create magic weapons. As the saying goes, it is difficult for a clever woman to make a meal without rice.”

“The spiritual ore in Wujin Mountain is very difficult to mine. Until the leader of our Artifact Refining Sect was captured by the Fire Sect, we were not able to mine much spiritual ore. Otherwise, our Artifact Refining Sect would have created more magical weapons!”

Master Hammer followed Chen Ping to explain, and then took Chen Ping and the others up to Wujin Mountain!

Soon, a dark mine appeared on Wujin Mountain. The entrance of the mine was very huge. Standing at the entrance, the special atmosphere became even stronger!

Moreover, there are many scattered stones around the mine. These stones are obviously different from other stones. Each stone has a faint light of various colors, but the light is very weak!
