

## **The Order 4011**

Chapter: 4011

Chen Ping casually picked up a stone and held it in his hand. Then a breath entered Chen Ping's body, and the light of the stone dimmed and became extremely ordinary!

"These are spiritual ores. Each spiritual ore is different. To build different magic weapons, different spiritual ores are needed."

"The spiritual ores discarded here now contain relatively little forging power, so they are not suitable for making weapons, so they were discarded directly."

Master Hammer followed Chen Ping and explained!

Chen Ping looked at these spiritual ores. If they could be taken to the secular world, they would be extremely valuable, but in the eyes of the Refining Sect, they were just garbage!

"Roar....."

Suddenly, a huge monster roar came from the mine, which startled Chen Ping and the others!

"Holy crap, why are there monsters here?" Hu Mazi said in shock!

Chen Ping also frowned slightly, because just now he only felt the forging power emanating from the spiritual ore in the mine, and did not feel the breath of the monster!

Wouldn't it be very dangerous if we walked in rashly?

After Master Hammer heard the roar, surprise flashed in his eyes: "It has been more than ten years, and the armor-piercing beast in the mine is still alive?"

After saying that, Master Hammer ran desperately towards the mine, with Chen Ping and the others following closely behind.

After entering the mine, I saw several figures lying on the ground not far from the entrance of the mine, and these figures were still squirming!

Roar.....

Another roar sounded.

After the Hammer Master fired several rays of light, Chen Ping and the others saw clearly that there were several armor-piercing beasts lying on the ground. The armor-piercing beasts were all covered with scales, but these originally golden scales had become very strange at this time. gloomy!

These armor-piercing beasts were as skinny as wood, and their breath was very weak. The loud roar just now should have exhausted the last strength of the armor-piercing beasts!

Looking at the armor-piercing beast in front of them, Chen Ping and Hu Mazi were stunned!

The hammer master's face was full of shock and love, and he gently knelt down and stroked the head of an armor-piercing beast!

"It's been more than ten years, I didn't expect you guys to still be alive. It's a miracle, it's simply a miracle..."

As he spoke, Master Hammer actually shed tears.

"Master Hammer, what's going on with these armor-piercing beasts?"

Chen Ping asked in confusion when he saw Master Hammer crying.

Master Iron Hammer wiped his tears and said: “These armor-piercing beasts were raised by our Weapon Refining Sect in order to mine spiritual ores. However, after the Weapon Refining Sect was destroyed, no one has fed them. Unexpectedly, They’re still alive!”

Chapter: 4012

“Master Hammer, why don’t these armor-piercing beasts run away? Can’t they just run out to find some food?”

Hu Mazi asked!

“You don’t understand. Once these armor-piercing beasts recognize their owners and are kept in captivity, they will never leave. They would rather die than leave this mine.”

“Besides, even if they leave the mine, they can’t find anything to eat. They feed on spiritual ore.”

Hammer Master shook his head and said.

“This mine is full of spiritual ores, so why don’t these armor-piercing beasts eat them? Are they just waiting to starve to death?”

Chen Ping asked.

“These spiritual ores are unrefined and cannot be eaten by armor-piercing beasts. They must be refined before they can be fed to them.”

“They must have sensed my aura just now, so they roared with all their strength to attract my attention!”

After Master Hammer finished speaking, the aura on his body suddenly erupted, and streams of forging power surged out of his body, quickly forming a big hammer in Master Hammer’s hand!

Then the hammer master took a big hammer and hit a piece of spiritual ore that was about one meter in the mine!

The spirit ore was immediately shattered, and in the center of the spirit ore, a crystal clear core the size of a fingernail was exposed!

Master Hammer threw the essence of the spiritual mineral that was only the size of a fingernail to an armor-piercing beast, and the armor-piercing beast swallowed it in one gulp.

This small amount of spiritual ore essence is simply a drop in the bucket for the armor-piercing beast that is about to starve to death!

“Master Hammer, how can such a large piece of spiritual ore contain such a small amount of essence?”

Chen Ping asked puzzledly.

“The spiritual ores here are all garbage, so they are discarded at the entrance of the mine. The spiritual ore that truly contains a large amount of forging power can only be obtained deep in the mine!”

“If we want these armor-piercing beasts to eat enough and recover, we have to go deep into the mine.”

Hammer Master said!

“Master Hammer, even if we find the spirit stone mine, we can’t purify it. We don’t have your ability to extract the essence of the spirit stone mine!”

Hu Mazi said to Master Hammer!

After all, Chen Ping and Hu Mazi don’t know blacksmithing skills, let alone weapon refining, so they can’t purify the essence from the spirit stone mine!

“This is easy to handle. Purifying the spirit stone mine is not complicated. I can teach you two. The most important thing is to go deep into the mine as soon as possible and find the spirit stone with a relatively high purity.”

After Master Hammer finished speaking, he headed straight towards the depths of the mine!

Chapter: 4013

Chen Ping and Hu Mazi followed behind, and the sword spirit Zhongli felt a little scared when he felt the dark mine, so he turned his body and turned into a dragon-slaying sword, and then entered Chen Ping's body!

Under the leadership of Master Hammer, Chen Ping and the others continued to go deeper into the mine. They didn't know how far they had gone, but Master Hammer stopped!

At this moment, around the mine, some light blue and pink spiritual ores are scattered on the stone walls and around!

"Master Hammer, why don't we keep moving forward?"

Chen Ping asked puzzledly.

"We can just stop here. My current blacksmithing skills can only purify this kind of spiritual ore. Like the purple spiritual ore in front, I can't purify the essence!"

Hammer Master explained!

After hearing this, Chen Ping said to Master Hammer: "Master Hammer, can you teach us how to purify spiritual ore?"

Master Hammer nodded, and then took out an already yellowed parchment roll from his arms!

"If you put your spiritual consciousness into this parchment, you will naturally master low-level blacksmithing techniques, and you can purify low-level spiritual ores."

After Master Hammer finished speaking, he spread the parchment on the ground!

When Chen Ping and Hu Mazi saw this, they quickly emitted their spiritual consciousness and entered the parchment!

In just an instant, the two of them mastered the technology of purifying spiritual ore!

“Now that you have mastered the method, you can try it...”

Master Hammer put away the parchment and said!

Chen Ping and Hu Mazi nodded, and then bursts of aura erupted from the two people, and soon the aura condensed into a big hammer in front of them!

The big hammer exuded bursts of condensed energy. Chen Ping and Hu Mazi held the big hammer in their hands and felt that the big hammer condensed with breath was actually in their hands. There was no illusion at all, just like The real thing is average.

“You can now condense the forging hammer, but what level of spiritual ore can be purified with this forging hammer depends on your understanding and the technology you master.”

After Master Hammer said to Chen Ping and Hu Mazi, he found a piece of spiritual ore and began to purify it!

Chen Ping and Hu Mazi followed the same example and used the big hammers in their hands to hit the spiritual ore!

However, after they smashed it down with a hammer, although the spiritual ore shattered, the core essence was not revealed, and there were still many impurities mixed with the essence of the spiritual ore!

When Chen Ping and Hu Mazi saw this, they could only hit it with the sledgehammer again. They didn't know how many times they hit it, until they were sweating profusely and panting, and they finally refined a piece of spiritual stone!

An essence ore that was the size of everyone appeared in front of Chen Ping and the others, but at this time, Master Hammer had already purified more than a dozen pieces of essence ore!

“This... we are too slow...”

Chapter: 4014

Hu Mazi said with a dejected look on his face.

“You have just learned how to purify spiritual ore. You need to continue to pity and increase your proficiency, and your speed will slowly increase...”

Master Hammer comforted Chen Ping and Hu Mazi!

Chen Ping and Hu Mazi nodded and began to refine the spirit ore. Chen Ping calmed down and practiced while trying to figure it out!

At this moment, there was a constant clanking sound throughout the mine.

But as the purification speed of Chen Ping Ling's ore became faster and faster, he was surprised to find that there was an extra forging power in his body. This forging power kept wandering in his dantian, and Chen Ping's level of strength was also unknown. It's growing unconsciously!

Seeing this, Chen Ping worked harder and swung the big hammer in his hand like a tiger...

I don't know how much time has passed, and I don't know if it's night or day. At this moment, in front of Chen Ping and the others, there are already hundreds of refined spiritual ores!

The Hammer Master was almost exhausted from exhaustion, and the forging hammer in his hand began to become illusory, and finally slowly disappeared!

The hammer master consumes a lot of money, so in the end the forging hammer was unable to solidify and dissipated!

“With so much purified spiritual ore, it should be possible for those armor-piercing beasts to move.”

Master Hammer took a breath and said!

“Master Hammer, please rest here first while I send these spiritual ores to some armor-piercing beasts...”

Chen Ping said, put the Xiangling Ore into the storage ring, and then walked towards the entrance of the cave!

When they came to the entrance of the mine, several dying armor-piercing beasts all became a little restless after seeing Chen Ping, their eyes full of desire!

Chen Ping hurriedly took out the purified spiritual ores, and several armor-piercing beasts swarmed and began to devour them!

Hundreds of spiritual ores were swallowed up by a few armor-piercing beasts in just the blink of an eye!

After eating these spiritual ores, the auras of several armor-piercing beasts have obviously improved a lot!

“Thank you, young man...”

At this time, an armor-piercing beast said to Chen Ping!

Chen Ping was shocked. He didn't expect that this armor-piercing beast could actually talk!

“You can actually talk?” Chen Ping said in surprise!

“Nonsense, we have been practicing for thousands of years. If it weren’t for being hungry for more than ten years, we might be able to transform into human forms now, so what we say doesn’t matter.”

“The demon beasts in Demon King City have long transformed into human forms and are living the same life as you humans!”

Chapter: 4015

The armor-piercing beast said to Chen Ping!

“Demon King City?” Chen Ping was stunned. He didn’t understand where this Demon King City was. It should be the territory of monster beasts!

“I told you that you don’t understand, but the aura on your body doesn’t look like someone from the world of gods and humans. Where is Master Hammer? I want to know where the people from the Weapon Refining Sect have gone in the past ten years or so. ?”

“We worked hard to mine the spiritual ore in the mine, but we didn’t expect that no one would come to the mine again.”

The armor-piercing beast asked Chen Ping!

“Senior, something happened to the Weapon Refining Sect more than ten years ago. The Fire Sect was destroyed. The leader of the Weapon Refining Sect was also captured. Master Iron Hammer escaped to the secular world to save his life, so there is no one here. Come to the mine.”

Chen Ping quickly explained!

“Destroyed?” The armor-piercing beast’s tone was obviously surprised: “I didn’t expect humans to treat their compatriots so cruelly.”

After saying that, the armor-piercing beast continued: “Is Master Hammer deep in the mine? Take us to find him. The essence of the spiritual ore just now is only enough for us to maintain our operations for the time being. If we want to be full, this essence There’s not enough ore!”

Chen Ping nodded and led several armor-piercing beasts toward the depths of the mine!

Master Hammer and Hu Mazi were soon found. They were both lying on the ground because they were purifying spiritual ore, and they were too tired to stand up!

Master Hammer was very happy when he saw that several armor-piercing beasts could move!

“You guys have finally recovered. I know those essence ores can’t keep you full, but with the three of us refining the ores, we really don’t have the ability to continue refining them. We need to take a rest!”

“Let us rest for a few days before continuing to refine it for you. Please wait patiently for a few days...”

Master Hammer said politely to several armor-piercing beasts!

“No problem, we can sustain it for a few years with just these essence ores.”

An armor-piercing beast said!

However, Chen Ping was unwilling at this time. He didn’t have time to wait here to purify the ore for these armor-piercing beasts. The spiritual energy recovery array was about to be launched, so Chen Ping had to rush back as soon as possible.

“Master Hammer, we have to rush back to the secular world as soon as possible, so we can’t stay here for long!”

“I can still continue to refine it now, but the level of these spiritual ores is too low. Is there any high-grade spiritual ore? Purifying high-grade spiritual ore can also allow several senior armor-piercing beasts to recover quickly!”

Chen Ping said to the Hammer Master!

Master Iron Hammer glanced at Chen Ping and said, “You have just learned the forging and purification technique. It would be good if this level of spiritual ore can be refined into the essence with three to five hammers. Do you still want to purify high-grade spiritual ore?”

Chen Ping didn’t speak, but picked a large piece of spiritual ore, and then hit it hard with a hammer. The hard spiritual ore exploded instantly, and a large number of impurities turned into powder!

A piece of mineral essence larger than a fist was left behind. The crystal clear mineral essence exuded breath and light, making people feel the breath and feel extremely comfortable!

Chapter: 4016

Master Hammer looked at the ore essence purified by Chen Ping and was completely confused. Even if he took action, this kind of spiritual ore could not be purified with just one hammer. Moreover, looking at the ore essence purified by Chen Ping, it was obviously pure. Incomparable, without the slightest impurity!

“Chen Ping, you...did you know the forging and purification technique before? Otherwise, you just learned it, how could you have such skillful skills in such a short time?”

Master Hammer asked incredulously!

Chen Ping shook his head: “Master Hammer, I didn’t understand it before. It’s true that I just learned it. Maybe it’s because I have a stronger understanding and learn faster...”

“Boy, your understanding is getting better. No one who has just learned the forging and purification technique can purify this level of spiritual ore with just one hammer.”

“Back then, the master of the Weapon Refining Sect also had a very high level of understanding and had a talent for refining. Even he didn’t have such a high level of understanding. He had just learned the Art of Artifact Refining and Purification, and was able to purify this level of spiritual stone ore with just one hammer.”

The armor-piercing beast said incredulously!

“Then maybe I’m a little more enlightened than the master of the Weapon Refining Sect...”

Chen Ping smiled slightly and said!

At this moment, Master Hammer and the armor-piercing beast were both speechless. If they hadn’t seen Chen Ping purify the spiritual ore with their own eyes, they would never have believed it!

“Chen Ping always surprises people. If you know him longer, you won’t be surprised!”

At this time, Hu Mazi spoke. He was not surprised at all about Chen Ping’s understanding of weapon refining, because he knew that Chen Ping was not an ordinary person, and anything could happen to Chen Ping!

“Can you take me to purify some high-grade spiritual ore now? If you only purify this grade, I’m afraid it will be difficult to feed these armor-piercing beast seniors in a short time.”

Chen Ping asked.

“No problem, you sit on my back and I will take you there...”

The talking armor-piercing beast said to Chen Ping!

Chen Ping jumped onto the armor-piercing beast, and the armor-piercing beast swayed and galloped forward in an instant!

The armor-piercing beast’s speed in the mine was extremely fast. Even if it encountered a landslide, the armor-piercing beast’s speed did not slow down. It quickly passed through the rocks and quickly sent Chen Ping to the deepest part of the mine!

At this time, the entire mine is filled with purple light, and the spiritual stone mines everywhere are emitting purple light. It is obvious that this place has reached the deepest part of the mine, and the spiritual ore here is also the highest grade!

“This is it. This is the deepest part of the mine. This kind of ore is also the highest grade at present...”

The armor-piercing beast said to Chen Ping!

Chen Ping nodded and started working without the slightest hesitation. The essence of the ore was purified in Chen Ping’s hands!

The armor-piercing beast ate greedily and soon became full.

The armor-piercing beast did not sit idle when it was full. Instead, it continued to mine spiritual ore from the rock walls around the mine for Chen Ping to purify!

Chapter: 4017

I don’t know how long it took, but the mineral essence in front of Chen Ping was like a small mountain!

Wiping the sweat from his forehead, Chen Ping said to the Armor-Piercing Beast: “Senior Armor-Piercing Beast, are these mineral essences enough for you to eat for a while?”

“Enough, enough...”

The armor-piercing beast said excitedly!

“Okay, let’s go back. I don’t know how long it has been...”

Because in the mine, Chen Ping no longer had the concept of time, and he didn’t know how long it had been!

Chen Ping put the ore essence into the storage ring and planned to let the armor-piercing beast take him back!

But the armor-piercing beast said: “Young man, you have helped us so much, I have to give you something.”

“What do you want to give me?”

Chen Ping asked in surprise.

These armor-piercing beasts have been hungry for more than ten years. What treasures can they give to themselves?

After the armor-piercing beast finished speaking, it began to wave its two claws and kept digging on the stone wall of the mine!

The armor-piercing beast dug very quickly. The mine that was originally at the bottom was now dug dozens of meters further by the armor-piercing beast. Spirit ore was constantly being dug out along the way!

Looking at these spiritual ores, Chen Ping said helplessly: “Senior Armor-Piercing Beast, I have other things to do and I don’t have time to purify these spiritual ores...”

“I’m not giving you these spiritual ores to purify and sit on me. What I want to give you is right in front...”

The armor-piercing beast said!

Chen Ping had no choice but to sit on the armor-piercing beast, and then followed the armor-piercing beast to continue cracking mountains and rocks, heading deeper into the mine!

Soon, the speed of the armor-piercing beast slowed down, accompanied by the sound of panting, and when the armor-piercing beast dug forward, there was a sound of metal collision!

The two front paws of the armor-piercing beast were actually a little bloody at this moment!

Seeing this, Chen Ping hurriedly said: “Senior Armor-Piercing Beast, what are you going to give me? I don’t think we should continue digging forward. I’m afraid your body won’t be able to bear it...”

“It’s okay, we’re almost there. You saved our lives, of course I have to repay you...”

The armor-piercing beast dug forward desperately, even if its two front paws were bloody and bloody, it didn’t stop!

Seeing this scene, Chen Ping was very moved. You must know that some people don’t have the conscience of the armor-piercing beast in front of him, and they know how to repay kindness...

This is why Master Hammer has always told Chen Ping that the most terrifying thing in the world of gods and humans is the human heart. Many humans are worse than monsters!

Chapter: 4018

This armor-piercing beast has suffered in the mines for more than ten years and never thought of leaving even if it starved to death. However, some people may betray their relatives and masters for a little profit...

Unknowingly, the armor-piercing beast dug another tens of meters, and at this moment, a dazzling golden light suddenly illuminated the entire mine!

Chen Ping’s eyes were illuminated by this golden light and he couldn’t open them for a while!

After a while, after he got used to it, Chen Ping slowly opened his eyes and saw a spiritual ore emitting a dazzling golden light embedded in the middle of a pile of spiritual stone mines!

“Finally found.....”

The armor-piercing beast finished speaking excitedly, and then dug out the spiritual ore that emitted golden light!

“Take this ore. This is the highest grade gold phosphorite. Although this ore may not look big, the energy contained in it is huge.”

“With this golden phosphorus stone, your strength can be greatly improved, and maybe it can even allow you to break through the realm...”

The armor-piercing beast said to Chen Ping!

Chen Ping took the gold phosphorus stone and felt that the small gold phosphorus stone was very heavy to hold, and there were scale-like lines on it, like a layer of armor, much like Chen Ping’s indestructible gold. body!

Chen Ping only slightly explored his spiritual consciousness, and was instantly shocked by the huge power in the gold phosphorus stone. The power contained in such a small gold phosphorus stone is probably greater than the power in Chen Ping’s body. huge!

Shocked, Chen Ping thanked the armor-piercing beast profusely, and then asked: “Senior armor-piercing beast, how many of these gold phosphorus stones are there in this mine?”

Chen Ping felt that if there were a lot of this gold phosphorus stone, Chen Ping could completely handle the affairs in the secular world and then come here to practice. With this gold phosphorus stone, Chen Ping’s strength would not improve by leaps and bounds!

“I don’t know how many there are, maybe there is only this one, maybe there are a few, but even the entire Wujin Mountain cannot produce many of the highest-grade spiritual ores. So far, I have only found this one. It was discovered more than ten years ago, but it has never been excavated!”

“As for whether there will be this kind of gold phosphorite in other mines, I don’t know, but I can help you keep an eye on it, but even if I dig up gold phosphorus stone in the future, I can’t make the decision to give it to you without authorization. , after all, these are items from the Weapon Refining Sect.”

The armor-piercing beast followed Chen Ping very honestly!

“Senior Armor-Piercing Beast, I know that if I find gold phosphorus stone, I won’t get it for nothing.”

Chen Ping admired the attitude of the armor-piercing beasts. After all, they were still spiritual beasts belonging to the Weapon Refining Sect. Even if the Weapon Refining Sect was destroyed, Master Hammer was still alive, so they would serve the Weapon Refining Sect!

The armor-piercing beast returns with Chen Ping!

At this time, Hu Mazi and Master Hammer have almost recovered!

Chen Ping took out the purified mineral essence and fed it to several other armor-piercing beasts. The other armor-piercing beasts also ate to their fullest, and they were all very grateful to Chen Ping!

“Master Hammer, with my current strength, I’m afraid I won’t be able to go to the Fire Sect to rescue your sect leader, but please don’t worry, I will find a way to help you rescue your sect leader after I finish handling the matters in the secular world.”

Chen Ping assured the Hammer Master!

Master Hammer nodded: “I believe in you. Even if you can’t save our sect leader, I should thank you. Now I have the forging fragment in my hand, and these armor-piercing beasts are also alive, so I We can slowly restore the Weapon Refining Sect.”

Chapter: 4019

“In less than ten years, our Weapon Refining Sect will definitely be able to achieve greater glory. When the time comes, I will help you build a magical weapon.”

Master Hammer said to Chen Ping very gratefully!

Master Iron Hammer was very grateful that Chen Ping did not use ink to forge the broken seal. If someone else got the forged broken seal, they would definitely keep it as their own!

After saying goodbye to several armor-piercing beasts, Chen Ping and the others returned to the Weapon Refining Sect.

“Can you still open the passage from the heavenly world to the secular world?”

Master Hammer asked Chen Ping!

“I’ll give it a try, but I’m not sure yet...”

Chen Ping’s forging and purifying the spiritual ores also consumed a lot of spiritual power, so now Chen Ping is not sure whether he can open a passage to the secular world, so he plans to give it a try!

“Chen Ping, I think you should stay here and go back after your strength improves. After your strength improves, it will be much easier to open the passage.”

“Besides, the gold phosphorus stone on your body can only exert its maximum energy through cultivation and absorption in the heaven and human world. If you take it to the secular world, perhaps due to the suppression of the laws of heaven and earth, the energy of the gold phosphorus stone will be greatly reduced?”

Master Hammer persuaded Chen Ping!

Chen Ping was stunned for a moment and said with a slight embarrassment: “Master Hammer, you...you know I have gold phosphorus stone on me?”

“Of course I know. The breath of gold phosphorus stone is very unique. I have discovered it a long time ago. But you have helped our weapon refining sect so much, so it is nothing for the armor-piercing beast to give you a gold phosphorus stone.”

Master Hammer said with a smile!

“Chen Ping, what is gold phosphorus stone? Let me see...”

Hu Mazi said very curiously!

Chen Ping could only take out the gold phosphorus stone. Hu Mazi took the gold phosphorus stone in his hand and looked at it carefully, his eyes full of envy!

“In this case, I will absorb the gold phosphorite here first and then return to the secular world...”

Chen Ping decided to absorb the energy of gold phosphorus stone in the secular world first, improve his own realm, and then return to the secular world!

Chen Ping found a quiet place and began to absorb the energy of gold phosphorite!

Hu Mazi and Sword Spirit Zhongli protect Chen Ping!

Master Hammer left and began to lobby people nearby to recruit disciples for the Weapon Refining Sect!

If you want to rebuild the Weapon Refining Sect and restore the Weapon Refining Sect to its glory, Master Iron Hammer alone cannot do it. He must recruit disciples for the Weapon Refining Sect!

While Chen Ping was practicing in the world of heaven and man, the atmosphere in the secret realm of Demonic Heart Sect seemed a little strange!

Chapter: 4020

The six purple-robed envoys gathered together, and at this moment, the six purple-robed envoys took off the masks on their faces!

Although they had already guessed each other's identities, when the masks were taken off, the six purple-robed messengers were still a little shocked!

After all, they are all heads of sects in the Eight Great Secret Realms, and they know each other well!

It's just that none of them know the identity of each other's purple-robed messenger from the Demonic Heart Sect!

Now that the mask is taken off, it means we can be honest with each other!

"Everyone, now that we have taken off our masks against the rules, it proves that we are now grasshoppers on a rope. Anyone with different intentions will be punished by God."

"Now our family, our disciples, and we are the only ones who have to figure it out ourselves."

"We have secretly followed the powerful master of Demon Heart Sect for decades. In the end, we are just pawns. Now we see that our disciples have become Ning Zhi's training resources. It is simply too much..."

Yu Qian said with a cold face and eyes full of murderous intent!

"Master Yu, whatever you say, we will listen to you. Although we, as monks, should put aside our emotions and desires, we are human beings after all. We cannot watch our disciples and family members being killed and remain indifferent."

Yao Qisheng, the leader of the Purple Thunder Sect in the Dimen Secret Realm said!

"Yes, we all listen to the head of the family. Among us, the head of the family is the strongest."

Another purple-robed messenger said!

"With just the few of us, it would be difficult to rescue our family and disciples. The mighty power is unfathomable. If we go together, we won't be able to defeat him!"

"If we can unite with others to deal with the Demonic Heart Sect, can we have a better chance of winning?"

At this time, Feng Jingyan, the master of Fengyue Valley in the secret realm of Shanmen, said!

“Master of Wind Valley, who are you planning to join forces with?”

Yu Qian asked.

“Chen Ping...”

Feng Jingyan said.

When the words Chen Ping came out, everyone was stunned.

They followed Chen Ping directly and had a deep hatred. The other two purple-robed messengers were killed by Chen Ping.

Moreover, Feng Jingyan’s disciple Feng Wuhen was also killed by Chen Ping at the Secret Realm Conference. They couldn’t understand why Feng Jingyan expected to cooperate with Chen Ping?

“Master Feng Gu, you also know the situation between us and Chen Ping. Do you think Chen Ping will help us?”
