

The Order 4471

Chapter: 4471

“It’s broken. This is the territory of the Bloodthirsty Thunder Eagle. We have been discovered.”

“A lot of monsters are coming here...”

“Trouble, run quickly, why did you end up in this place!”

Everyone said something, and some people began to rush out quickly and escape!

“Mr. Chen, let’s leave quickly. This bloodthirsty Thunder Eagle is very cruel and has no good impression of the human race.”

“Basically, all humans passing through his territory will be killed by this bloodthirsty thunder eagle.”

Demon Emperor Yihe frowned and said to Chen Ping!

“Okay, let’s go...”

Chen Ping nodded, then called the Three Phantom Thieves and fled quickly!

At this moment, Shitieqiao didn’t care about chasing the three monster thieves, and took the old woman to escape with him!

Although there are hundreds of monks in the entire airship, and all of them are of high strength, these people are not united, so when they encounter danger, they all flee.

If these people can unite and resist together, they don’t have to be afraid of the bloodthirsty Thunder Eagle!

But now, there is no one to organize and lead, hundreds of monks dispersed in a hurry, and they all disappeared without a trace!

“Yihe, I remember you said that there is a Sky Thunder Tree in the Eagle King’s Cave, and there are Sky Thunder Fruits on the Sky Thunder Tree?”

Chen Ping asked Yihe!

“Yes, it is indeed like this, and the Thunder Fruit that day was extremely precious and was a good cultivation resource!”

Yihe nodded.

But just after he finished speaking, Yihe noticed something was wrong and quickly asked: “Mr. Chen, why are you asking this? Do you want to pick the Sky Thunder Fruit?”

“Now that I’m here, I want to give it a try...”

Chen Ping said!

“Mr. Chen, you must not take risks. The strength of the bloodthirsty Thunder Eagle King is not low. He has already reached the stage of overcoming the tribulation. He relies on the thunder fruit of that day to successfully overcome the tribulation.”

“If we go to pick his Sky Thunder Fruit, the Bloodthirsty Thunder Eagle King will definitely protect it with all his strength. If I am not poisoned and my strength is not suppressed, I can give it a try.”

“But now, all of us together may not be enough to slap the Thunder Eagle King...”

Yihe tried to dissuade Chen Ping!

Chapter: 4472

“Okay, I’m just going to try. If I can’t succeed, I’ll run away.”

“You guys leave here first and find a place to hide. We will contact you then!”

Chen Ping said!

“Chen Ping, you’d better not go. The pharmacist meeting will start soon. What are you risking?”

Liu Ruyan looked at Chen Ping with worry on his face!

“Don’t worry, I’ll be fine.”

Chen Ping smiled slightly and said!

Seeing that Chen Ping had made up his mind, Liu Ruyan said nothing more. She knew that she must do what Chen Ping decided to do!

“Mr. Chen, let us three brothers go with you. If anything happens, we will have someone to take care of you!”

Dajie quickly followed Chen Ping and said!

The souls of the three of them are all in Chen Ping. If Chen Ping dies, then the three of them will not be able to live anymore. They will die together!

It’s better to go with Chen Ping. If Chen Ping is in any danger, they can still help!

Chen Ping glanced at Dajie. He knew what the three of them were thinking, so he smiled and nodded: "Okay, you three follow me!"

After Chen Ping followed Liu Ruyan and said a few more words, they separated!

Liu Ruyan and the third elder took Yihe and followed the direction pointed by Yihe towards the outside of the territory of the Bloodthirsty Thunder Eagle!

Chen Ping, on the other hand, took the Three Phantom Thieves deep into the territory of the bloodthirsty Thunder Eagle!

Monsters like these are very sensitive to aura, so Chen Ping took out a charm and cast it on the bodies of the Three Phantom Thieves to help them hide their aura!

Chen Ping's goal was to pick the Sky Thunder Fruit, so it would be best if there was no fight. Along the way, several people kept moving toward the Eagle King Cave with their secret auras!

Every time they walked a certain distance, Chen Ping would stop and set up a formation.

The Three Phantom Thieves didn't know what formation Chen Ping had set up. Although they were curious, they didn't dare to ask!

Along the way, Chen Ping and the others also encountered many monks. Some of the monks had already died, with only bones left after being eaten by monsters!

There were also some injured monks lying under the trees with weak breaths!

Chen Ping looked at these injured monks and could only pray silently, but he had no ability to save them!

After all, people are selfish. If these people are not selfish, they can unite and not be hunted down by these monsters!

Chapter: 4473

Just when Chen Ping and the Three Phantom Thieves were approaching the Eagle King's Cave, a group of people also entered on the other side of the Bloodthirsty Thunder Eagle's territory. These people were not the monks on the airship!

I saw these dozen people, all wearing gray cloth gowns, with the word "Ning" embroidered on the chest of the gown!

In front of these people, a young man wearing a white gown was Ning Can, who had met Chen Ping. Next to Ning Can was his father Ning Caichen!

This time Ning Caichen personally led the team to the territory of the Bloodthirsty Thunder Eagle, just to pick the Sky Thunder Fruit!

The ancestor of the Ning family was resurrected, but his strength has never been able to return to its previous peak state!

Later, at Huang Yaoshi's suggestion, Ning Caichen came to pick the Sky Thunder Fruit, in order to restore the strength of their Ning family ancestor!

If their Ning family ancestors regain their strength, their Ning family's status in the entire world of heaven and humans will be greatly improved!

"Dad, I heard that this Thunder Eagle King is capable of transcending the tribulation realm, so we are no match at all?"

"And why did I feel weird after the ancestor woke up? Looking at his strength, he is not much stronger than me!"

"And the woman named Linglong a few days ago said that our ancestor of the Ning family has a demon body. Is she crazy? I think she looks like a demon cultivator!"

Ning Can kept nagging in Ning Caichen's ears!

Ning Caichen frowned, glared at Ning Can and said, "Shut up, I hear you talking bad about my ancestor, so I will cut out your tongue."

"Now, whether our Ning family can develop and succeed in the world of heaven and humans depends on our ancestors."

"And about that woman looking for the ancestor, you are not allowed to tell anyone..."

When Ning Can saw that his father was really angry, he could only shut his mouth and stop talking!

Seeing Ning Can like that, Ning Caichen spoke again: "I got the news that the Thunder Eagle King should have gone to Jialing County, presumably to attend the Medicine Master Conference. Now is a good time to steal the Thunder Fruit that day!"

After Ning Caichen finished speaking, he led everyone quickly towards the Eagle King Cave!

At this time, Chen Ping had already approached the Eagle King Cave with the Three Phantom Thieves.

Chen Ping could even clearly feel the strong power of thunder and lightning in the Eagle King Cave. This should be the power emitted by the thunder tree that day!

This kind of thunder and lightning power is even more terrifying than the thunder disaster that Chen Ping suffered!

Chen Ping's heart was already in his throat at this moment. He was only at the second level of the Fusion Realm. If he really encountered a strong person who could overcome the tribulation, even if he resorted to all the means to save his life, he would not have the slightest chance of survival!

The three heroes of the Phantom Thieves were also covered in cold sweat. They also understood the terror of the Thunder Eagle King. Even those ordinary bloodthirsty Thunder Eagles were strong enough to deal with. If they faced the Thunder Eagle King, they would be killed in an instant!

Chen Ping took a deep breath, cast a few more concealment spells to hide their auras, and then slowly approached the Eagle King Cave!

Chen Ping didn't know at all that the Thunder Eagle King was not in the cave. If the Thunder Eagle King was in the cave, even if Chen Ping concealed his aura, it would be of no use!

Chapter: 4474

The Tribulation Overcoming monks are different from ordinary monks. When it comes to the Tribulation Overcoming stage, every step of improvement is difficult, and a large amount of resources must be prepared to face the final sprint of the Tribulation Overcoming stage!

Only one out of ten monks can succeed in the Tribulation Stage. Many monks spend their entire lives but fall in the Tribulation Stage!

However, after breaking through the tribulation period, all monks will return to their origins and feel the power of the origin. Only monks who have broken through the tribulation period can be called true semi-immortals.

They just need to improve their strength a little bit and wait for the day when they can ascend, and monks in this realm are just like ordinary people!

Just as Chen Ping and the three monster thieves were slowly approaching the Eagle King's Cave, Ning Caichen also led the Ning family members to approach the Eagle King's Cave!

And in other directions, there are also many monks slowly approaching!

After all, the Sky Thunder Fruit is too tempting, so it is normal for some people to risk their lives!

Several people were approaching the Eagle King Cave at the same time. Everyone held their breath and concealed their aura to the extreme!

But when he arrived at the entrance of the Eagle King's Cave, he suddenly froze!

These people met together and looked at each other!

Chen Ping took a look and found that many of them were monks on the airship, including the stone iron bridge and the old woman.

When Shi Tieqiao saw that Chen Ping and the Three Phantom Thieves dared to come to the Eagle King's Cave, the anger on his face instantly showed!

Chen Ping looked to the other side and found a group of strangers, but judging from the clothes they were wearing, they should belong to a family or sect!

But soon, Chen Ping looked at Ning Can and frowned slightly. He always felt that Ning Can looked very familiar, as if he had seen it somewhere, but he couldn't remember it for a while!

When Ning Can also saw Chen Ping, he was also stunned. He looked at Chen Ping twice and didn't remember who Chen Ping was!

After all, Chen Ping was mingling among the villagers at that time, and Ning Can didn't pay much attention at all!

"Mr. Chen, this is the Ning family. I didn't expect that the Ning family would also come to the Eagle King Cave."

Dajie whispered to Chen Ping!

Chen Ping had no impression of the Ning family and had never heard of it, so he didn't pay too much attention!

He was more concerned about Shi Tieqiao and the old woman. Chen Ping was afraid that Shi Tieqiao couldn't help but attack them directly. In that case, his aura would be completely exposed and he would be discovered soon!

“Elder Shi.....”

While everyone he met was stunned, Ning Caichen slowly walked towards the Shitie Bridge and said hello!

It was obvious that Ning Caichen knew Shi Tieqiao!

“Master Ning, I didn’t expect you to bring people to the Eagle King Cave. Could it be that you also came here for the Thunder Fruit that day?”

Chapter: 4475

Shi Tieqiao asked Ning Caichen!

Ning Caichen smiled and said noncommittally: “Elder Shi brought so many people here, isn’t it also for the Sky Thunder Fruit?”

“The head of the Ning family guessed wrong, and we had no choice but to do so.”

Shi Tieqiao followed Ning Caichen and told him in detail about the crash of the airship.

When Ning Caichen heard that Chen Ping released the three-headed pterosaur, causing the airship to crash, he couldn’t help but take a look at Chen Ping!

“Elder Shi, this kid seems to be at a low level. If you kill him, wouldn’t it be easy?”

Ning Caichen asked!

After all, the pterosaur is very precious to the Feitian Sect. Now that Chen Ping has let him go, how could Shi Tieqiao let Chen Ping go!

“I planned to kill him, but it’s a pity that this is the territory of the bloodthirsty Thunder Eagle. We encountered many monsters, so we were scattered!”

“I didn’t expect this kid to be so brave and dare to come to the Eagle King Cave.”

Shi Tiejiao said, looking at Chen Ping fiercely!

“Elder Shi, please don’t do anything here again. If you alert the Thunder Eagle King, we will all be doomed...”

Ning Caichen hurriedly persuaded Shitiejiao!

Of course Shi Tiejiao knew, otherwise he would have taken action as soon as they met!

Chen Ping looked at the two people talking. He didn’t react. Now that so many people are together, they are all here for the Sky Thunder Fruit.

Chen Ping had to find a way to preserve his strength so that he could get the Sky Thunder Fruit into his hands at the right time.

“Master Ning, you came here specifically for the Sky Thunder Fruit, so you must be fully prepared. How about you take someone in to investigate first?”

Shi Tiejiao said to Ning Caichen!

Shi Tiejiao knew that the people he brought were all monks on the airship, and some of them had just met. Even though there were many of them, they would not form an overall combat effectiveness!

But Ning Caichen is different. What he brought are the elites of the Ning family. Although there are only a dozen of these people, they can act together and completely obey Ning Caichen’s command!

That's why Shi Tieqiao asked Ning Caichen to take the lead. If there is any danger, let Ning Caichen carry it first!

"no problem....."

After hearing this, Ning Caichen readily agreed.

Because Ning Caichen knew that there was a high chance that the Thunder Eagle King would not be in the cave, and whoever entered the cave first would definitely have a huge advantage!

Chapter: 4476

Shi Tieqiao seemed a little surprised when he saw Ning Caichen agreeing so happily!

Ning Caichen led the Ning family members into the cave slowly.

Shi Tieqiao led people to guard outside the cave. As long as there was any disturbance inside, they would evacuate immediately. After all, no one wanted to face the Thunder Eagle King in the Tribulation Realm!

Shi Tieqiao and his men didn't move, but Chen Ping took the Three Phantom Thieves and followed the Ning family into the cave!

Ning Caichen frowned slightly and glanced at Chen Ping, but ignored him.

In his opinion, Chen Ping is just a young monk at the second level of the Fusion Realm, and has no influence on them at all!

As Ning Caichen led the people slowly deeper, Chen Ping felt more and more the terror of the power of thunder and lightning!

Soon, a ray of light flashed, and everyone saw a horrifying scene!

I saw a huge Sky Thunder Tree standing in the center of the Eagle King Cave. The Sky Thunder Tree was in the cave with lush branches and leaves, and around the Sky Thunder Tree, there were endless thunder and lightning beating, like a line of lightning. A thunder snake dances wildly.

And on this Thunder Tree, ten fist-sized Thunder Fruits were flashing with the light of thunder and lightning.

“Tian Lei Fruit.....”

Seeing the Sky Thunder Fruit, Ning Caichen screamed with excitement!

Chen Ping was frightened when he saw Ning Caichen yelling, for fear of drawing out the Thunder Eagle King!

Fortunately, there was no movement in the Eagle King Cave, and Chen Ping breathed a sigh of relief!

If the bloodthirsty Thunder Eagle King is lured out, none of them will be able to leave!

“The Thunder Eagle King is no more, it’s just God helping me...”

Ning Caichen said happily!

After hearing Ning Caichen’s words, Chen Ping understood why Ning Caichen dared to enter first!

“Dad, I’m going to pick the Sky Thunder Fruit...”

Ning Can looked at the plump Sky Thunder Fruits and said excitedly!

“Don’t go!” Ning Caichen shook his head, then pointed to a servant of the Ning family and said: “Go and pick off the Sky Thunder Fruit...”

“As commanded...”

The servant of the Ning family did not dare to disobey and understood. Although he was also afraid, he still had to bite the bullet and slowly approached the Sky Thunder Tree!

“Mr. Chen, what should we do?”

Chapter: 4477

“How about we three brothers use space to travel and pick a few Sky Thunder Fruits first?”

Dajie said to Chen Ping.

“Don’t act rashly yet, the Thunder Fruit shouldn’t be that easy to pick today.”

Chen Ping stopped the Three Phantom Thieves!

Just as Chen Ping finished speaking, the servant of the Ning family jumped up and headed straight for the Sky Thunder Fruit on the tree!

boom.....

Just when the servant of the Ning family was approaching the Sky Thunder Fruit, a huge bolt of lightning suddenly struck the servant of the Ning family hard!

With a violent explosion, the body of the Ning family servant was instantly struck by the huge lightning and disappeared into smoke, leaving not even a body behind!

Seeing this scene, Ning Caichen frowned instantly, and everyone else was also surprised!

The three Phantom Thieves were so frightened that they swallowed their saliva.

If Chen Ping hadn't stopped them, the three of them might have disappeared into thin air now!

"This Thunder Eagle King is really cautious. It seems that it is really difficult to get the Thunder Fruit today!"

Ning Caichen frowned and said!

"Dad, what should we do?" Ning Can asked!

"Don't worry, I've already guessed this situation, so I'm well prepared!"

With that said, Ning Caichen took out a bronze mirror from his arms. One side of the bronze mirror was extremely smooth, while the other side was carved with several beasts!

"This is an ancestral treasure of my Ning family. It's called the Auspicious Beast Mirror. With it, the lightning will be reflected and no harm will be caused!"

Ning Caichen said, handed the auspicious beast mirror to a Ning family servant and said: "Take the auspicious beast mirror and pick off the Sky Thunder Fruit!"

Although the servant of the Ning family was scared, he still held the auspicious beast mirror and walked towards the Sky Thunder Tree obediently!

The companion just now was struck by lightning and disappeared into thin air, so even though this servant of the Ning family was holding the auspicious beast mirror, he was still afraid in his heart, and his legs were trembling when he got close!

Chen Ping looked at Ning Caichen and realized that this guy was really well prepared, even weapons to deal with thunder and lightning!

After the servant of the Ning family approached the Thunder Tree with the auspicious beast mirror, he suddenly exerted force and jumped up in an instant, and then reached out to grab the thunder fruit that day!

Rumble.....

Suddenly, a bolt of thunder and lightning erupted from the Sky Thunder Tree, severely striking the Ning family servant's hand.

Chapter: 4478

When the servant of the Ning family saw this, he quickly raised the auspicious beast mirror in his hand. The lightning struck the auspicious beast mirror and was instantly reflected to the side!

The lightning was reflected and hit the cave with huge force, causing a shaking in the cave and rocks falling one after another!

Seeing that the auspicious beast mirror was working, Ning Caichen was extremely happy and commanded loudly: "Hurry, thunder and lightning can't hurt you anymore, hurry up and pick the thunder fruit!"

When the servant of the Ning family saw this, he was extremely happy and reached out to grab the Sky Thunder Fruit!

But just when he was about to catch the Sky Thunder Fruit, a strong wind suddenly blew up and instantly knocked the Ning family servant down!

Then a huge bloodthirsty thunder eagle appeared in front of everyone, with a pair of wide wings that produced huge power every time it waved!

"This...is this Thunder Eagle King?"

The three monster thieves said with shock on their faces!

They had never seen the Thunder Eagle King, so when they saw such a huge bloodthirsty Thunder Eagle, they thought it was the Thunder Eagle King who appeared!

“This shouldn’t be the Thunder Eagle King. The strength of this bloodthirsty Thunder Eagle has not yet reached the Tribulation Realm. It is only at the eighth level of the Fusion Realm!”

Chen Ping looked at the bloodthirsty Thunder Eagle in front of him and said slowly!

Ning Caichen looked at the Bloodthirsty Thunder Eagle that appeared and secretly breathed a sigh of relief in his heart, because he could also see that this was not the Bloodthirsty Thunder Eagle King, so he didn’t need to be so afraid!

This bloodthirsty thunder eagle was obviously arranged to guard the cave when the Thunder Eagle King left!

At this time, I saw someone stealing the thunder fruit from the sky, and this bloodthirsty thunder eagle appeared!

With the cry of this bloodthirsty thunder eagle, the entire Eagle King Cave began to tremble, and then countless bloodthirsty thunder eagles poured out from the other side of the Eagle King Cave!

“Holy shit...”

When Chen Ping saw this, he immediately cursed angrily, turned around and ran away!

In the Eagle King’s Cave, fighting with so many bloodthirsty thunder eagles is just seeking death, and there is no way to do it!

Seeing Chen Ping running away, the three monster thieves also quickly used space to travel. They dodged in two seconds and were out!

Ning Caichen was stunned when he saw so many bloodthirsty thunder eagles suddenly pouring out!

It was only after Ning Can shouted that he led the people and ran out desperately!

Although the Thunder Eagle King is not here, it is impossible for the Thunder Eagle King not to make arrangements for such an important thing.

“Bah!”

A cry resounded through the sky, and then a violent breath erupted from the Eagle King’s Cave, carrying endless anger!

Chapter: 4479

Countless bloodthirsty thunder eagles flew out of the Eagle King’s Cave!

Shi Tieqiao and others who were originally at the entrance of the cave were stunned when they saw so many bloodthirsty Thunder Eagles suddenly appearing!

But soon, they reacted and picked up their weapons to kill these bloodthirsty thunder eagles. Some formation mages began to arrange formations to deal with these bloodthirsty thunder eagles!

When Chen Ping saw this, he no longer ran away. Instead, a burst of fire penetrated the other people’s formations, and the flames soared into the sky in an instant!

The formation was blessed by the ultimate fire, and those bloodthirsty thunder eagles fell one after another!

Chen Ping also knows that although the Thunder Eagle King is not here, if he wants to get the Sky Thunder Fruit, he must eliminate these bloodthirsty Thunder Eagles!

The bloodthirsty thunder eagle at the eighth level of the Fusion Realm did not come out of the Eagle King’s Cave, but was firmly guarding the Sky Thunder Tree!

Bloodthirsty thunder eagles are constantly flying out of the cave, and other monsters are coming from all directions!

For a time, in this area, the roars of monster beasts and the shouts of human monks continued to sound!

Although Shi Tieqiao had some troubles with Chen Ping, at this time, they only focused on killing monsters, and no one was causing trouble for each other!

Because everyone knows that if these monsters are not killed, it will be difficult for them to leave this place safely!

The corpses of monsters on the ground have covered the entire ground!

These monsters guarded the entrance of the cave, preventing Chen Ping and others from entering!

However, the strength of these monster beasts is obviously weaker. With the constant fighting, the number of monster beasts is getting smaller and smaller!

At this time, the whole earth suddenly trembled, and then the huge bloodthirsty thunder eagle flew out of the cave, and a powerful aura erupted from his body!

The bloodthirsty thunder eagle's eyes were full of anger, and the feathers on his body gradually turned blood red under the anger!

There was a shrill scream, and the manic aura rushed towards everyone in an instant, like a huge wave of aura, directly blowing some low-level monks flying backwards!

Among them, if Chen Ping hadn't been protecting the three heroes of the Phantom Thieves, the three of them would have been blown away by this manic aura!

"The bloodthirsty Thunder Eagle of the eighth level of Fusion Realm? Is this the Thunder Eagle King?"

After Shi Tieqiao saw this bloodthirsty thunder eagle, his expression changed instantly!

There is no way Shi Tieqiao can deal with a bloodthirsty thunder eagle of this level. He is only at the fifth level of the Fusion Realm. If he wants to fight with the bloodthirsty thunder eagle at the eighth level of the Fusion Realm, he will have to hit the stone with an egg!

“This is not the Thunder Eagle King. The Thunder Eagle King’s strength is not that bad...”

Ning Caichen said!

When Shi Tieqiao heard that the Thunder Eagle King was stronger, his expression suddenly changed with fright.

Chapter: 4480

“retreat.....”

Shi Tieqiao led the old woman back first. This kind of monster was not something they could deal with!

Seeing Shi Tieqiao retreating first, the other monks also retreated immediately!

What they don’t know yet is that the Thunder Eagle King is not in the cave!

The bloodthirsty thunder eagle in front of me is not the Thunder Eagle King. It has already reached the eighth level of the Fusion Realm. Then isn’t the Thunder Eagle King’s strength about to reach the stage of transcending tribulation?

Thinking of this, the monks retreated even faster!

Ning Caichen was dumbfounded when he saw Shi Tieqiao retreating with many monks. He originally wanted to follow Shi Tieqiao and make it clear that the Thunder Eagle King was not in the cave!

But before Ning Caichen could explain clearly, Shi Tieqiao turned around and ran back!

Now that Ning Caichen and his men have run away, only the Ning family is left to face these monsters!

As for Chen Ping and the four of them, Ning Caichen never paid attention to them from beginning to end, because their realms were really too low!

“Dad, what should we do?” Ning Can asked.

“Back off first and then talk...”

Ning Caichen was not sure that he would let the Ning family face these monsters!

Without this bloodthirsty thunder eagle at the eighth level of the Fusion Realm, Ning Caichen could still try, but now they don't even have the courage to give it a try!

Ning Caichen and everyone in the Ning family also began to retreat quickly!

When Chen Ping saw that they had all run away, he also ran back with the Three Phantom Thieves!

Although the Sky Thunder Fruit is a good thing, life is more important!

Everyone retreated, and the huge bloodthirsty thunder eagle spread its wings, and then flew into the sky. With the wings flashing, a few feathers were like sharp swords, attacking the fleeing monks!

Whoosh whoosh whoosh.....

Several feathers instantly penetrated the chests of several monks, causing these monks to fall to the ground instantly!

Looking at the monk who fell to the ground, Shi Tieqiao frowned!

Their escape speed can't match that of the bloodthirsty Thunder Eagle, so it's difficult to escape now!

"Everyone, please stop running. This bloodthirsty Thunder Eagle is too fast. If we run again, we will all be killed one by one!"

Shi Tieqiao knew that even trying to escape was of no use, so he quickly stopped everyone!
