

## **The Order 6161**

Chapter: 6161

“Mr. Chen, we are about to enter the polar regions. Moreover, it is covered with snow and there are no conditions for treatment.”

Binglu looked around and said!

“You all gather around to resist the cold wind. I will treat her injuries immediately. If it is later, she will really die. Her internal organs have been soaked by the cold air.”

Chen Ping asked Binglu and the other saints to form a circle, and then used his breath to resist the cold wind around them!

Binglu immediately organized a dozen saints to gather around her, and then the aura surged out of her body. A dozen auras gathered together to form a protective shield, protecting Lan Yingying inside!

But just when Chen Ping was about to start treatment, he suddenly stopped, and then he felt his surroundings vigilantly!

“It’s broken, someone is following us, we have to go!”

Chen Ping noticed that someone was following him!

He guessed that he was from the Mu family, so he picked up Lan Yingying!

If they continue to treat here, when the Mu family comes, they are afraid that no one will be able to leave!

When Binglu and the others heard this, someone followed them. They immediately put away their breath, raised their spirits, and walked quickly towards the polar region!

After seemingly passing through a barrier, Chen Ping and the others entered the polar region!

However, the scene in the polar regions is the same as in other places!

“Someone has used formations in this polar region. Although the formations are now so weak that they are almost non-existent, when I stepped here, I still felt a different aura, as if I had passed through a certain barrier!”

Chen Ping said with a slight frown!

“Yes, I felt it too. It seemed that when I stepped in, there was a slight resistance, as if the formation barrier was blocking it.”

Binglu nodded and said!

“Quickly go, find a secluded place, and treat Miss Lan first.”

Chen Ping held Lan Yingying and walked towards a small hill. The hill was covered with heavy snow, like a huge tomb!

Chapter: 6162

More than a dozen saints stood on both sides, and Chen Ping was holding Lan Yingying in the middle!

As Chen Ping waved his palm, a formation barrier appeared out of thin air!

This will prevent their aura from leaking, and those who are chasing after them will not be able to find them!

Looking at Lan Yingying's weak look, Chen Ping began to take off Lan Yingying's clothes!

When many saints saw this, they were a little embarrassed for a moment!

Binglu was a little confused and said: "Mr. Chen, you are treating Sister Yingying's injuries, why are you still taking off your clothes?"

After all, Chen Ping is a man, so there is always something wrong with Lan Yingying taking off her clothes!

Chen Ping glanced at Binglu, and then said: "Come and touch her..."

Binglu stepped forward curiously and touched Lan Yingying, and she bounced away instantly!

"It's so hot..."

Lan Yingying's body felt like it was on fire. It wasn't a fever at all, but a fever!

If the burning continues like this, all the internal organs will be burned out, and the meridians of the body will also be burned!

“What...what’s going on? It’s obviously very cold here. Why is Sister Yingying’s body so hot?”

“Sister Yingying also practices ice-based skills. If she continues to burn like this, she will be completely destroyed!”

Binglu asked in confusion!

“She was injured by the snow-trampling cloud beast, her body was weak, and she forced herself to run such a long way, so that’s why she is like this.”

Chen Ping explained!

“The Snow-Stepping Cloud Beast is also covered in cold air. If it was injured by the Snow-Stepping Cloud Beast, it should be covered in frost!”

Binglu said!

“This is due to the adjustment of its own functions. It is precisely because it is injured by the cold that the body’s functions will desperately dissipate heat to maintain the operation of the body’s organs.”

Chen Ping took off Lan Yingying’s clothes while talking, and she was finally naked!

Although Binglu didn’t know if what Chen Ping said was right, they were here, so it was impossible for Chen Ping to do anything to Lan Yingying!

Chen Ping began to treat Lan Yingying. Although there was physical contact, Chen Ping avoided important parts!

At this time, Mu Yao and his men had already chased into the polar region. After using his spiritual consciousness to investigate, Mu Yao quickly led the Mu family and chased forward!

Chapter: 6163

Later, many people from sects and aristocratic families came to the polar area, and then turned into streams of light, running in different directions!

Although Chen Ping was healing Lan Yingying, he was also observing the movements in the polar regions!

When he learned that many people from sects and aristocratic families came to the polar region, Chen Ping frowned deeply!

He suddenly discovered that this trip to the polar regions was not as simple as he thought!

In addition to dealing with the dangers of Jiji itself, we also have to be wary of the Mu family, but now even people from other sects and aristocratic families have to be wary!

This is too difficult!

However, there is an advantage to having more people, that is, the more people come from the poles, the more chaotic it will be. If you can take advantage of the chaos and get what you want, that is the best way!

It seems that in this polar trip, we not only need to rely on strength, but also rely on good judgment of the situation, as well as on-site analysis capabilities!

It is impossible for Chen Ping to follow all the sects and aristocratic families who entered the polar regions to take revenge. In that case, they would have nothing to do!

What needs to be done is to win over, shock, and suppress. When facing different people, different methods are required!

After Chen Ping's treatment, Lan Yingying slowly woke up!

When she saw herself naked in front of Chen Ping, and Chen Ping's hands were touching her body, Lan Yingying instinctively waved her palm out!

Fortunately, Chen Ping was prepared and just avoided it!

"Sister Yingying, are you okay?"

Upon seeing this, Binglu hurried forward and asked!

Lan Yingying took a breath and found that it was much smoother and nothing serious, so she nodded and said: "It's nothing, this guy..."

"Sister Yingying, Mr. Chen is here to save you. If it weren't for him, you might have died long ago!"

Binglu hurriedly explained!

After hearing this, Lan Yingying glanced at Chen Ping and slowly put on her clothes!

"Do you have to take off your clothes to treat illnesses and save people?" Lan Yingying muttered!

Chen Ping did not explain, but said calmly: "Let's go..."

Binglu followed Lan Yingying and explained: "Sister Yingying, your body was too hot just now. I can only take off your clothes to cool down, otherwise your body will be burned."

"I can guarantee that Mr. Chen didn't do anything to you. He just helped you heal. So many of us are watching!"

Listening to Binglu's words, Lan Yingying felt that she might have been a little too aggressive, so she whispered to Chen Ping: "Thank you..."

Chapter: 6164

Chen Ping ignored her and walked straight forward!

The group of people followed Chen Ping towards the depths of the polar region!

Several groups of people passed in front of them, so Chen Ping and the others had to speed up and find available resources in the polar regions.

Chen Ping walked very fast, and Binglu and the others could only alternately support Lan Yingying to keep up quickly!

Along the way, Chen Ping's consciousness was always in a tense state. As long as there was any danger nearby, Chen Ping would know it immediately!

Until the sky darkened, Chen Ping and the others did not encounter any danger, let alone anyone!

Seeing that Lan Yingying's body couldn't bear it, Chen Ping said, "Let's rest here tonight!"

Binglu nodded and immediately arranged for the saint to stand guard all around!

Lan Yingying sat on the ground, breathing heavily!

"This polar region doesn't look like a place where immortals fell. I didn't feel the slightest bit of immortality."

Chen Ping looked around, feeling a little confused!

If this is the place where the immortals fell, then there will definitely be the existence of immortal energy here, and the weapons used by the immortals and the various magic weapons worn on their bodies will definitely be left behind again!

In that case, the fairy energy here should be much stronger than other places!

But now Chen Ping doesn't even notice a trace of immortality!

This made Chen Ping a little confused. Is this polar region the place where immortals fell, or is this a lie in itself?

"This is not the place where immortals fell at all!"

At this time, Demon Lord Chiyun spoke!

As a demon king speaking like this, it means that this is definitely not the place where immortals fell!

Chen Ping didn't understand, why did the master of Guanghan Palace lie to him?

"Since it's not the place where immortals fell, what are you doing here?"

Chen Ping was very surprised!

"Boy, didn't you notice that the atmosphere here is very chaotic, and even the entire space is distorted."

"The magnetic field here is too strong. If you want to fly high here, I'm afraid it will be difficult."

Demon Lord Chiyun said!

Chapter: 6165

After hearing this, Chen Ping frowned, and then jumped up!

As soon as his body flew away, he felt a huge suction pulling him down!

Chen Ping fell down quickly, his eyes even more confused!

They didn't choose to fly at first because they were afraid that the target would be too obvious. Now here, they might not be able to fly even if they want to!

"Ice dew....."

Chen Ping shouted to Binglu, he wanted to ask Binglu if he didn't know about the polar things!

"Mr. Chen..."

Binglu hurriedly walked to Chen Ping!

“Let me ask you, is this pole the place where immortals fall?”

Chen Ping asked Binglu!

Binglu was stunned for a moment, then shook her head and said: “No...”

“No?” Chen Ping didn’t expect Binglu to be so honest, and said angrily: “If it’s not the case, why did your palace master tell me that this is the place where immortals fell, and asked me to take you to hunt for treasures and resources?”

“Mr. Chen, don’t be angry. In fact, the palace master did not deceive you in this matter, but the palace master deceived others.”

“To be honest, Mr. Chen, there are no immortal treasures in this polar region, only various polar stones. These polar stones are very important resources for our Guanghan Palace.”

“Of course, this kind of pole stone is also a very important resource for the Mu family, because this kind of pole stone is helpful for those who practice ice-based skills.”

“After discovering that there are pole stones in the polar regions, the Mu family cooperated with our Guanghan Palace and wanted to find them together and then distribute them!”

“It’s just that the Mu family is stronger than our Guanghan Palace, and the Mu family has come to our Guanghan Palace to become elders. It’s obvious that they don’t trust us.”

“The reason why the Palace Master spread the news that the Pole is the place where immortals fell is to attract more people to come to the Pole, and also to find more monks to help us in Guanghan Palace.”

“Because there is only chaos in Jiji, our Guanghan Palace will have a chance. As long as we find Jishi resources, we Guanghan Palace will no longer have to look at other people’s faces!”

Binglu said clearly!

Chen Ping looked at Binglu blankly. It was obvious that Binglu had known everything for a long time, and if she dared to tell herself everything, she must have been instructed by the palace master!

Now that we have reached the extreme, many sects and aristocratic families have been deceived, so there is no need to hide it from Chen Ping!

Chen Ping now understands that even if he does not appear in Guanghan Palace and does not kill Mukui, Guanghan Palace and the Mu family will collapse sooner or later!

Coming here is just an opportunity for Guanghan Palace to fall out with the Mu family in advance!

Chapter: 6166

“What is this pole stone?”

Chen Ping asked!

Binglu shook her head: “I don’t know either, I haven’t seen it before. The palace master accidentally discovered it in this place.”

“That time, the palace master was seriously injured and had to recover for a long time.”

When Chen Ping heard this, he was a little surprised. The palace owner of Guanghan Palace was a Mahayana monk. If she was injured in the polar regions, wouldn't it mean that if a monk like them came to the Tribulation Realm, she would die?

Binglu saw Chen Ping's doubts and quickly explained: "The palace master was injured that time because he mistakenly entered the borderland of chaos. This polar area is the borderland."

"And there are no obvious features or obstacles on this border. If you stray into the chaos of the border, you may be dead."

"The Palace Master said she just took a few steps by mistake and barely escaped!"

After saying this, Chen Ping finally understood that in the chaotic land on the border, even if the powerful immortals entered, there would be no bones left!

There is nothing much to say about the Mahayana realm of the Palace Master!

"You go and rest, we will continue our journey tomorrow!"

Chen Ping sent Binglu away!

But Chen Ping himself fell into confusion. He didn't know where the pole stone was, and he didn't have a map. Where to find it in the vast white snow!

If it is the place where an immortal fell, you can also find the exact location based on the intensity of the immortal energy!

Now they don't know what the Extreme Stone is, let alone the aura of the Extreme Stone. Where can they find it?

Just when Chen Ping was at a loss, Demon Lord Chiyun said: "The pole stone should be caused by the magnetic field. To find the pole stone, you only need to look for the place with the strongest magnetic field!"

"magnetic field....."

After listening to Demon Lord Chiyun, Chen Ping started rummaging through the storage ring!

Chen Ping didn't sleep that night and started making things to find magnetic fields!

Chen Ping and the others can only detect the surrounding objects and feel the surrounding aura with their spiritual consciousness, but the magnetic field cannot detect it!

Now we can only rely on equipment to find the places with the strongest magnetic fields.

By the time it got light, Chen Ping already had two more metal rods in his hand!

The ends of the metal rod have been made sharp.

"Mr. Chen, what is this?"

Chapter: 6167

Looking at the metal rod in Chen Ping's hand, Binglu asked curiously!

“This is a detector. Where there is a pole stone, the magnetic field will become stronger and the metal rod will react.”

“Now let’s work separately. This place is too big. If we continue to search like this, we don’t know how long it will take.”

“You go all the way with the detector, and I’ll go all the way by myself!”

“But the distance can’t be too far, just a hundred miles apart. That way, if you are in danger, I can support you at any time!”

Chen Ping gave Binglu a detection rod and several jade slips for sound transmission!

And the method of using the detection rod was handed over to Binglu!

“Mr. Chen, just be careful. After all, people from the Mu family are looking for you everywhere.”

Binglu warned Chen Ping!

Chen Ping nodded and then left!

Binglu and the others also started to take action, looking for the pole stone everywhere!

Not long after they separated, the metal rod in Chen Ping’s hand shook slightly!

Chen Ping was delighted!

“I found the pole stone...”

Chen Ping was very happy in his heart, and slowly moved forward. The metal rod shook more and more violently, and slowly changed its direction!

Chen Ping followed the guidance of the metal rod and explored again!

After walking for more than ten miles like this, the metal rod stopped shaking, as if it was absorbed by something and stopped instantly!

Chen Ping knew that this should be the location of Jishi!

But looking at the frequency of the metal rod shaking, it seems that the magnetic field is not very big!

Chen Ping looked around and found that except for small raised snow packs, there seemed to be nothing around!

No one has ever seen Jishi. If Jishi was not big, it would have been buried under thick snow by now. How to find it?

Just when Chen Ping didn't know what to do, suddenly those little snow bags moved!

Immediately afterwards, huge monsters appeared!

“Holy shit...”

Chapter: 6168

Chen Ping was surprised. It turned out that these snow packs were formed by these monster beasts lying on the ground, covered with thick snow!

I saw more than a dozen monster beasts roaring at Chen Ping, spewing out streams of cold air from their mouths!

These monsters did not attack Chen Ping, they just roared, as if to scare Chen Ping and prevent him from approaching their territory!

Chen Ping took a closer look and found that there were several fist-sized stones where these monsters lay!

It's just that these stones are also snow-white, and it seems that the shapes of snowflakes can be seen inside!

"Is that the pole stone?"

Chen Ping was very happy. If he didn't look carefully, it would be difficult to find it!

These dozen monster beasts all have stones like this under their bodies!

Chen Ping took a few steps forward, wanting to take a closer look!

But when the dozen monster beasts saw Chen Ping continue to move forward, their roars became even louder!

"I just want the rocks under you and don't want to hurt you. You'd better leave!"

Chen Ping said to those monsters!

These monsters are only in the seventh level of the Tribulation Realm. Chen Ping is not afraid at all even if he faces a dozen of the seventh level demonic beasts in the Tribulation Realm!

“Roar.....”

A monster bared its teeth and blew out a breath of cold air at Chen Ping!

Chen Ping’s body instantly felt a wave of heat, which directly blocked the cold air!

The monster started to attack, and Chen Ping was not polite!

I saw Chen Ping taking out the Dragon-Slaying Sword, and the fire was rising from the Dragon-Slaying Sword!

Most of the monsters here belong to the ice system. The reason why they hold the pole stone under their bodies is probably because they are practicing!

It’s just that Chen Ping used a metal rod to find this place and disturbed the cultivation of these monsters!

Looking at the ultimate fire on Chen Ping’s dragon-slaying sword, the eyes of the dozens of monster beasts showed a bit of fear!

But they didn’t run away, they held the pole stone in their mouths one after another, and then launched an attack on Chen Ping!

Poof!

Chen Ping swung his sword, and the terrifying sword light combined with the fire, instantly cut off the head of a monster!

Chapter: 6169

The head rolled to the ground, and the pole stone in his mouth also fell out!

Chen Ping waved, and the stone was in Chen Ping's hand!

This pole stone is cold to the touch, but it still carries a slight electric current. This should be the effect of the magnetic field!

Seeing their companions being killed, all the other monsters went crazy and kept rushing towards Chen Ping!

However, it was all in vain. The monsters that rushed in front of Chen Ping all became dead souls under the sword!

The pole stones in his mouth also fell one after another, and were picked up by Chen Ping!

There were more than a dozen monsters, but only one was left. It looked at Chen Ping in horror, not daring to attack again!

This demonic beast slowly lay down, showing its surrender, and even took the initiative to spit out the pole stone in its mouth!

Seeing this, Chen Ping stepped forward, picked up the pole stone, and stroked the monster!

The monster remained motionless and very docile!

In front of the strong, only absolute obedience and meekness can survive!

It seems that this monster is very smart!

Chen Ping looked at the docile monsters and then at the dead monsters, and couldn't help feeling a little emotional!

In fact, he has no grudges with these monsters, it's just to get the pole stone!

This is the case in the world of gods and humans. For the sake of resources and interests, people can ignore family ties!

Not to mention between humans and monsters!

There are no eternal friends, only eternal interests!

Chen Ping did not kill the last monster. He turned around and was about to leave, but just after taking two steps, he suddenly stopped!

Since these monsters can find the Extreme Stone and use it to practice, Chen Ping can completely use these monsters to find the Extreme Stone!

And Chen Ping can still ride on this monster, which is a lot easier!

It's difficult to fly in this place, so you can find a mount!

Chen Ping turned around and walked towards the monster again. The monster's eyes clearly showed fear!

"You don't have to be afraid, I won't kill you. Now you take me to find the Extreme Stone. Once I have recruited enough Extreme Stones, I will release you and give you some Extreme Stones to practice with."

Chen Ping said to the monster!

Chapter: 6170

The monster understood Chen Ping's words and nodded vigorously!

Chen Ping sat directly on the monster's body. The monster's whole body was furry, and it felt warm when he sat on it!

The monster took Chen Ping, and after walking for a while, the metal rod in Chen Ping's hand reacted again!

Immediately afterwards, the monster used its huge claws to peel away the snow, revealing several fist-sized pole stones underneath!

Chen Ping threw the pole stone directly into the storage ring!

In this way, with this monster, Chen Ping found more and more pole stones, there were already hundreds of them, and he was very comfortable sitting on the monster!

However, Chen Ping has never found the pole stone mine. After searching for a few stones like this, when will he be able to find the quantity for Guanghan Palace?

But it seems that this monster doesn't know where a large number of pole stones are located.

One day has passed like this!

Chen Ping followed Binglu and the others and reunited!

Seeing Chen Ping riding a monster, many saints felt very strange!

"Mr. Chen, what kind of monster are you riding?"

Binglu asked curiously!

"I don't know. I was too tired from walking, so I caught one and rode on it!"

Chen Ping said casually!

"This is the Snow Bear Monster, the most common monster in the polar regions. However, the Snow Bear Monster has a docile personality and generally will not attack unless they themselves are threatened."

At this time, Lan Yingying said!

Lan Yingying actually hasn't been able to come out this whole day. She, a big girl, was stripped naked by Chen Ping in public, touched and looked at, and she couldn't accept it in her heart!

But she also knows that Chen Ping cannot be blamed for this, Chen Ping also wanted to save her!

When Chen Ping heard what Lan Yingying said, it was true that these snow bear monsters did not attack him at that time, but only scared him to make him leave!

But it was Chen Ping who took the initiative to approach Ji Shi, which caused the conflict!

As a result, all those snow bear monsters were killed!

Thinking of this, Chen Ping felt a little guilty in his heart!

"How was your harvest? Did you find the pole stone?"
