

The Order 7201

Chapter: 7201

“Mr. Ning, Chen Ping did indeed have a trap under the sea, but it didn’t cause any harm to us. He just allowed this guy to escape.”

After the green-robed monk rushed out of the sea, he said to Ning Zhi!

“Escape?” Ning Zhi raised the corner of his mouth: “He won’t escape. I know him...”

Ning Zhi knew that it was impossible for Chen Ping to escape. Since he had tried so hard to lure him here, how could he escape?

As for the aura that suddenly broke out just now, it was indeed a trap made by Chen Ping, but the trap couldn’t be that simple. If Chen Ping’s trap couldn’t even deal with the demon cultivators in front of him, Ning Zhi simply didn’t believe that Chen Ping dared to lead yourself here!

It is true that Chen Ping did not explode the power of the demon-suppressing array. He just erupted a small magic array. In order to prevent Ning Zhi from discovering his demon-suppressing array, he deployed many small arrays in advance to confuse the audience!

Speaking of which, Chen Ping and Ning Zhi are now guessing what the other is thinking!

If it were anyone else, they might have been fooled and plunged into the Dead Sea!

But Ning Zhi was very calm. Even if he wanted to kill Chen Ping, he was still analyzing various situations calmly!

After Chen Ping forced those demon cultivators back, he was also waiting for Ning Zhi’s action. He did not kill those dozen demon cultivators just to lure Ning Zhi into being fooled!

If he killed all those demonic cultivators in one move, Ning Zhi would probably turn around and run away!

This guy has no dignity at all. When he sees something is not right, he turns around and runs away without hesitation at all!

As for face and dignity, they are worthless in Ning Zhi's eyes. Life is the most valuable thing!

After fighting with Chen Ping for so long, Chen Ping also understands Ning Zhi's temperament!

Seeing that Ning Zhi didn't move at all, Chen Ping became a little anxious!

After all, such a large formation consumes huge amounts of money every minute!

If Ning Zhi doesn't enter the demon-suppressing formation, Chen Ping can't keep wasting his time!

"Since you don't take the initiative, then let me take the initiative!"

Chen Ping knew that there had to be something exciting before Ning Zhi could be fooled!

So Chen Ping's body suddenly rushed out of the sea, the aura on his body suddenly exploded, and then he shot out with a palm!

Chen Ping's palm actually caused the entire hanging flame to surge, and several fire dragons began to roar, and then headed towards Ning Zhi and the others!

For dozens of miles in radius, thunder was rolling, black clouds were gathering, and streaks of thunder and lightning struck down from the sky!

With the origin of fire and the origin of thunder and lightning, Chen Ping burst out with amazing combat power as soon as he took action!

Chen Ping's eyes were sharp, and the aura in his body was unabashedly released. He even abandoned everything. It seemed that he was going to fight for his life!

Chen Ping had to be so unreserved to let Ning Zhi know that Chen Ping was going to fight tooth and nail this time!

While using these methods, Chen Ping's body was wrapped in an indestructible golden body!

Ning Zhi looked at Chen Ping's indestructible golden body, and his face was extremely sad. When he was in the secular world, he also suffered from Chen Ping's indestructible golden body!

"Chen Ping, is this all you have? If you only have this, then you are not worthy of me taking action."

Ning Zhi looked at Chen Ping and snorted coldly!

Although Chen Ping attacked with both fire and thunder elements, fire dragon and thunder and lightning attacked at the same time, Ning Zhi still looked down upon him!

"I have many means..."

The Dragon-Slaying Sword appeared in Chen Ping's hand, and with a wave of the Dragon-Slaying Sword, countless blade storms began to fire!

Fire dragon, thunder and lightning, sword light...

Chen Ping's explosive strength by himself is definitely beyond the Tribulation Realm!

Those demon cultivators who had never seen Chen Ping take action were all shocked when they saw this scene. After all, Chen Ping's realm was only the seventh level of the Tribulation Realm!

But the strength of this move has already reached the Mahayana realm!

All the demon cultivators used various means to resist and protected Ning Zhi behind them.

Chapter: 7202

Ning Zhi took out the small cauldron. As the cauldron was thrown upward, a huge suction force began to absorb the flames released by Chen Ping!

The flame breath was desperately absorbed by the cauldron, and the fire dragons dissipated instantly!

Chen Ping looked at the magic weapon that Ning Zhi ran out and couldn't help but frown. This magic weapon seemed to be specially designed to restrain the aura of fire?

There was no fire dragon, only thunder and lightning and sword light. It was obviously much easier for a dozen demon cultivators to resist it!

Ning Zhi took back the cauldron, but did not choose to take action against Chen Ping. His eyes narrowed slightly, and he suddenly rushed towards the bottom of the sea!

Ning Zhi suddenly rushed into the sea, which made the dozen demon cultivators and Chen Ping all confused!

Especially Chen Ping, he never expected that this guy would suddenly rush into the sea instead of taking the opportunity to attack him!

The dozen demon cultivators just entered the sea, but Ning Zhi was watching from mid-air!

Now they are all above the sea, but Ning Zhi suddenly entered the sea!

This brain circuit made Chen Ping confused!

After Ning Zhi entered the Dead Sea, his body was instantly surrounded by black energy and he went straight to the bottom of the sea.

Ning Zhi just wanted to go to the bottom of the sea to see clearly what trap Chen Ping had on the bottom of the sea!

Now that Chen Ping is fighting those dozen demon cultivators at sea, Ning Zhi just has the opportunity to go to the bottom of the sea to see clearly!

Although Chen Ping was confused at the moment, he was about to chase Ning Zhi!

This guy must have some intentions when he suddenly enters the sea!

But those dozen demon cultivators were not willing to miss this opportunity. They surrounded Chen Ping and entangled him!

Ning Zhi fell to the bottom of the sea and looked around with his eyes. Looking at the surrounding mountains, Ning Zhi always had a bad feeling in his heart!

But he didn't notice the magic array set up by Chen Ping, nor did he expect that Chen Ping would set up a magic array here!

This area is so huge that Ning Zhi never imagined that Chen Ping could set up such a huge formation in a short time!

"Since I don't know what the trap is, I'll give it a try..."

After Ning Zhi finished speaking, his face turned cold, and the black energy on his body instantly swarmed around!

But just when the black energy on Ning Zhi's body spread to the surroundings, the mountain peaks around him also lit up formation patterns at the same time!

The demon-suppressing array was activated. Looking at the array patterns that lit up around him, Ning Zhi's face was full of disbelief. This was the first time he had seen such a huge array!

He didn't believe that Chen Ping had set up this formation himself in a short time. This guy must have come here by chance and discovered the existence of this formation!

Chapter: 7203

Maybe this place was a sect residence many years ago!

Without any time to think, Ning Zhi's figure rushed out from the bottom of the sea like a cannonball!

Ning Zhi would not be stupid enough to fight against such a huge formation!

While rushing out of the sea, Ning Zhi shouted loudly: "Everyone, please step back and stop entangled."

Although Ning Zhi didn't know the power of this formation, he immediately called for everyone to retreat!

After all, the power of such a huge formation will never be simple!

More than a dozen demon cultivators still didn't know what was going on, and they all looked at Ning Zhi in confusion!

I don't understand that Ning Zhi just went to the bottom of the sea for a moment. What did he see? He was so frightened and panicked!

Just when the demon cultivators were puzzled, there was a sudden buzz!

I saw the sea surface swaying for a while, and right in front of everyone, rays of brilliance suddenly lit up within a radius of dozens of miles. The dense brilliance connected together to form a light curtain, directly sealing this area!

"What...what is going on?"

A demon cultivator was shocked, and then shot out a stream of spiritual energy, but the spiritual energy hit the light screen and bounced back instantly!

When Ning Zhi saw this scene, the corner of his mouth twitched. He didn't expect to be so cautious, but Chen Ping was still plotting against him!

He never expected that such a huge formation would exist here!

The surrounding light curtains continued to rise, blocking all roads.

With such a huge formation, it was already impossible for Ning Zhi and the others to escape in all directions.

“Run upward, while the formation is not closed, hurry up...”

Ning Zhi roared and took the lead in running towards the top quickly!

Because this formation brought him a great sense of crisis. This formation was definitely left over from ancient times. Ning Zhi believed that with Chen Ping’s strength, it was impossible to deploy such a huge and powerful formation in a short time!

Seeing this, all the demon cultivators rushed upwards with Ning Zhi, hoping to fly out of this huge formation before the formation closed!

When Chen Ping saw this, he held the dragon-slaying sword and quickly swung the sword, blocking them directly in front of everyone!

He finally set up the formation and consumed a lot of resources. He must not let these guys escape!

Ning Zhi was too cautious, causing the formation to open in advance, and Chen Ping could only stop these people!

Chen Ping originally wanted to trick these people into going to the bottom of the sea and activate the demon-suppressing array. In that case, there would be no way these people could escape!

Chapter: 7204

But now, the formation is opened in advance, giving these people time to react!

Feeling the power of Chen Ping's sword light, Ning Zhi and others could only slow down!

"Chen Ping, do you want to die? If the formation is activated, you will be trapped here. By then, none of us will be able to survive."

When Ning Zhi saw Chen Ping blocking him, he immediately said speechlessly!

Trapped in this formation, Chen Ping can't survive. Wouldn't this mean that we will both perish together?

But who knows, Chen Ping smiled coldly and said: "You have a beautiful idea. I set up this array to deal with you. How could I die? It's you who will die."

As Chen Ping finished speaking, the Demon Subduing Formation finally closed, and huge power burst out!

"Impossible, how could you have set it up? How could you have set up such a huge formation in such a short time?"

Ning Zhi's face was full of shock and he didn't believe what Chen Ping said at all.

"There is nothing impossible. Just because you can't do it, it doesn't mean that I can't do it either. Compared to me, everything you have is just rubbish."

Chen Ping was crazily attacking Ning Zhi's self-esteem!

Ning Zhi was furious, but at this moment countless dazzling brilliance surged from the bottom of the sea!

It was like the sun was rising from beneath their feet!

In this brilliance, countless spiritual lights shot out in all directions, densely packed like sharp swords, penetrating the entire void!

Looking at the dense auras, Ning Zhi didn't care to follow Chen Ping's nonsense. He could only surround himself with a black energy, forming a shield to resist these auras!

“ah.....”

A demon cultivator was hit by the spiritual light and let out a scream, and his whole body instantly turned into a ball of blood mist!

“What kind of formation is this? Why is it so powerful? How powerful is this spiritual light?”

“There are these things for dozens of miles around, are we all doomed?”

Many demon cultivators all had shocked expressions on their faces!

Even if they run upward, they have no chance. The entire formation has closed, and the area where they are is completely enveloped!

These demon cultivators have become lambs to be slaughtered!

There is no other way. These demon cultivators can only use their own methods to resist the attack of these spiritual lights!

But faced with such a large amount of spiritual light, these demon cultivators were all numb!

Chapter: 7205

His power will always be exhausted, but the spiritual light erupting in this formation feels endless!

These demonic cultivators did not dare to be careless at all and used all their abilities. Some even started burning blood essence!

As long as the essence and blood are not burned out, there is still hope of living, but the strength will definitely decrease, but it is better than death!

More than a dozen demon cultivators tried their best to block the spiritual light, but the spiritual light came in waves. Even though these demon cultivators were very strong, they were all injured in the end, and some were even dying!

Ning Zhi frowned. There was black mist around him. Those spiritual lights would dissipate when they hit the black mist. This shows that Ning Zhi is also very powerful!

“Chen Ping, what kind of formation is this? How come I feel the sound of Buddha’s voice from these auras?”

Ning Zhi looked at Chen Ping very puzzled and asked!

Because every time that spiritual light attacks you, the Buddha’s voice will sound in your mind as you follow!

“It seems that you are really capable. This is the Demon Subduing Formation, specially designed to deal with you demon cultivators. The Buddha’s voice in this spiritual light is the best thing to attack you.”

Chen Ping looked at the exhausted demon cultivators, and finally there was a hint of pride on his face!

“Hmph, don’t think that this demon-suppressing array can trap us. We are not real demons, we are just demon cultivators. Our true essence is still human race.”

“So your demon-suppressing array won’t be too powerful against us. Don’t scare us with this thing.”

Ning Zhi snorted coldly, and the aura on his body surged again!

Chen Ping was stunned for a moment, then smiled and said: “You still know a lot about the formation. My demon-suppressing formation is indeed not very powerful against you demon cultivators, but even if it is not very powerful, it is enough to kill you people. ”

Chen Ping suddenly clapped his palm, and the immortal stone in the Demon Subduing Formation instantly burst out with all its aura!

The aura is great and the speed is much faster!

In an instant, he was in front of these demon cultivators!

For a moment, screams could be heard endlessly, and blood surged from many demon cultivators. Several fell directly into the Dead Sea and turned into bones!

“Immortal energy? You actually put immortal stones into the formation? It seems that you really spent a lot of money to kill us!”

Ning Zhi instantly noticed the difference in this aura!

Chen Ping looked at Ning Zhi and had to admire this guy, he knew so much!

He must be killed today, otherwise he will really become a serious problem in the future. This guy is like a dog-skin plaster wrapped around him, it is so annoying!

“Master Ning, please help us, we can’t hold on any longer...”

Seeing this, the monks in green had no choice but to ask Ning Zhi for help. If this continues, they might all die here!

Ning Zhi nodded and instantly condensed countless strands of black energy, which then all collided with those spiritual lights!

The black energy collided with the spiritual light, making a deafening sound, and the entire sea surface surged amidst the sound!

This black energy is pure demonic energy, that’s why it explodes with such great power!

Ning Zhi actually wanted to fight against such a huge demon-suppressing formation by himself!

Seeing this scene, Chen Ping couldn’t help but frown, and the relief on his face disappeared!

“Ning Zhi, let’s make an end today...”

Chen Ping took the dragon-slaying sword and rushed towards Ning Zhi in an instant!

He couldn’t let Ning Zhi block the Demon Subduing Array. Now that the Demon Subduing Array trapped those demon cultivators, Chen Ping had the opportunity to challenge Ning Zhi in a duel without having to consider other demon cultivators!

This demon-suppressing array was set up in a hurry by Chen Ping, and it was not very perfect. The resources put into the array would not last long. If Ning Zhi dragged this demon-suppressing array until the resources were exhausted, it would be over.

“You kid actually dares to take the initiative to attack. I want to see how powerful you can be at the seventh level of Tribulation Realm.”

Seeing Chen Ping taking the initiative to attack him, Ning Zhi narrowed his eyes slightly with disdain on his face!

Although he was trapped in the demon-suppressing formation, Ning Zhi still looked down on Chen Ping. After all, the gap between the two people’s realms was too big!

Chapter: 7206

Ning Zhi made a claw in the air with his big hand, and a wisp of black energy instantly condensed into a long knife, and then slashed directly towards Chen Ping!

Ning Zhi’s whole body of demonic energy exploded, and the churning sea water seemed to be boiling!

The long knife passed by and turned into thousands of black sword lights. In an instant, the entire void began to vibrate!

When Chen Ping saw this, his indestructible golden body shone with light, he swung out his dragon-slaying sword, and the sword energy instantly turned into fire dragons!

The moment Chen Ping and Ning Zhi fought, the auras around them were instantly shaken and disappeared!

The dozen demon cultivators were also blown away by the aura, and they all looked at the scene in front of them in horror!

The water in the Dead Sea flows backwards, forming a canyon directly under the feet of Chen Ping and Ning Zhi!

The sea water in the entire Demon Subduing Array disappeared, and the Demon Subduing Array was also exposed to everyone!

On the towering peaks, formations flashed continuously, and in the middle of the canyon, a large amount of flint was being consumed rapidly!

Maintaining the demon-suppressing array for one minute will consume a huge amount of energy!

More than a dozen demon cultivators could only watch helplessly, unable to help at all. They had to constantly resist the aura attacks of the demon-suppressing array!

Chen Ping and Ning Zhi exchanged hundreds of moves in a fight. Although the two of them seemed to have just come into contact, they had already fought hundreds of moves. Every time they touched, there was a void shock, making the demon cultivators very uncomfortable!

Ning Zhi's eyes twitched slightly. In this fight, they both roughly knew each other's strength!

“Chen Ping, you are the proud son of heaven in the secular world. I didn't expect that you will still be like this in the world of gods and humans. At the seventh level of the Tribulation Realm, you can be as good as me, the second level of the Mahayana Realm. But today you are very powerful. I will definitely kill you and will never let this opportunity go.”

After Ning Zhi finished speaking, the black energy on his body condensed into a monster, and it bit Chen Ping in one bite!

The dragon-slaying sword in Chen Ping's hand slashed smoothly, and the sword light cut the monster into two halves!

But what Chen Ping didn't expect was that after being cut in half, it didn't stop at all, but instantly turned into two monsters and attacked!

boom!

Chen Ping's body was hit hard by the two monster beasts, causing Chen Ping to keep retreating, and the indestructible golden body on his body began to have cracks!

When Chen Ping saw this, the dragon crystal on his chest began to shine, and a giant flame dragon slowly appeared behind Chen Ping!

Chen Ping knew that the fire dragon transformed by sword energy alone had no way to deal with Ning Zhi!

The fire dragon roared and started fighting with the monster transformed by the black energy!

But every time the monster beast was bitten by the fire dragon, it would continue to split open and turn into multiple monster beasts!

Soon the fire dragon was surrounded by a group of monsters and gradually fell into a disadvantage!

Chapter: 7207

When Chen Ping saw this, he couldn't help but frown. He didn't understand what kind of demonic method Ning Zhi used. If this continues, the entire formation might be filled with demonic beasts transformed from black energy!

"Senior, what's going on? How can this guy use demonic energy to transform the monster beast without breaking apart?"

Chen Ping was speechless and asked Demon Lord Chiyun!

“Didn’t you see that he was holding a cauldron in his hand? His cauldron is constantly emitting demonic energy. It is probably an absorbing magic weapon.”

“The fire aura you started to emit was absorbed by the cauldron and stored. It can be released and used when the time comes.”

“The reason why those demonic beasts can break apart is entirely because of the demonic energy that is constantly released in the furnace. How could this be possible without the support of a large amount of demonic energy.”

“You have to find a way to destroy his cauldron, or directly snatch the cauldron...”

Demon Lord Chiyun said!

At this time, Chen Ping noticed that Ning Zhi was really holding a small cauldron in his hand. The cauldron looked hollow, but demonic energy kept coming out of the cauldron!

But just when Chen Ping was distracted and was talking to Demon Lord Chiyun, suddenly a cold breath came from behind!

I saw the monk in green, holding a long knife, coming behind Chen Ping like a ghost!

Then he slashed at Chen Ping fiercely!

“Die to me...”

The monk in green had a stern look on his face. Chen Ping crippled one of his arms. Of course he would take revenge!

The violent aura was directly on the long knife. This was the rhythm that was going to split Chen Ping in half!

Although Ning Zhi said that Chen Ping would be handed over to him, the monk in green was still worried about losing his arm, so he wanted to kill Chen Ping for revenge!

Just now he discovered that Chen Ping was distracted during the battle, so he took the opportunity to attack Chen Ping behind his back!

Facing the sneak attack, Chen Ping showed a sneer on his face and did not look back!

Not even dodging!

Just when the long knife slashed at Chen Ping, golden light burst out, and the indestructible golden body blocked the strike. However, because the indestructible golden body had just had a crack, the indestructible golden body instantly collapsed when the sword was struck. broken!

The monk in green was overjoyed. Without this armor, Chen Ping would be a lamb to be slaughtered!

As the long knife in the hands of the monk in green continued to fall, the long knife actually hit Chen Ping's shoulder directly, without sinking even a cent!

Looking at Chen Ping's body, there was no trace of any scars!

The monk in green was full of surprise, and the smile froze on his face!

Chapter: 7208

He thought that if Chen Ping's indestructible golden body was broken, he would be able to hurt Chen Ping, but who knew that Chen Ping's physical body was also so powerful!

"You're a little piece of trash. Even if I don't have the armor to protect me, you can't hurt me..."

Chen Ping turned his head and said with a contemptuous smile!

"Quickly retreat, this Chen Ping's body has been tempered, you can't hurt him."

Ning Zhi saw this and shouted loudly!

The monk in green turned pale, threw away the long knife in his hand, and then retreated back!

When Chen Ping saw this, he dropped an immortal finger, and a golden light shot out from the finger. The monk in green was shocked to find that his retreat speed was actually slowing down, and even the flow of time began to slow down!

Before he could react, his other arm was instantly penetrated by immortal fingers, and he screamed!

"Master Ning, save me..."

The monk in Tsing Yi shouted to Ning Zhi for help!

After all, the strength Chen Ping showed was simply too abnormal!

Now even if Chen Ping stood still, he would not dare to sneak attack Chen Ping!

Are you kidding me? I have never seen such a powerful body before!

“Immortal magic? You actually understand immortal magic? And this immortal magic also contains the origin of time. You actually understand the origin of time?”

After Ning Zhi saw Chen Ping displaying Immortal Finger, he was immediately shocked!

He thought that just following Chen Ping’s action would be all Chen Ping did, but he didn’t expect that Chen Ping would suddenly use an immortal technique!

This surprised him too much...

Ning Zhi did not take action to save the monks in green clothes, but shouted loudly: “Escape to the center of the formation and destroy the formation, and you will naturally be saved...”

Ning Zhi wants the monk in green to destroy the formation!

As long as the formation is destroyed, the remaining demon cultivators will no longer be in danger!

Seeing this, the monk in Tsing Yi could only rush towards the bottom of the sea with all his strength. At this moment, there was no sea water on the bottom of the sea, so he would not be eroded by the sea water!

“Ning Zhi, are you looking down on him a little by letting this kind of rubbish destroy my formation?”

Chen Ping smiled coldly, disappeared instantly, and then appeared behind the monk in green!

Chen Ping used the Fire Control Step, which is an immortal technique that can span hundreds of miles in one step. However, Chen Ping has not yet fully mastered the secret of space, so he can only perform it for several miles in one step!

Chapter: 7209

When Ning Zhi saw this, the black energy around his body shook. With a low shout, his body dissipated like a phantom, and he immediately caught up with Chen Ping!

Black energy surged all over the sky, turning into a huge palm and suddenly swatted at Chen Ping!

Chen Ping seemed to have guessed Ning Zhi's movements. Just when Ning Zhi slapped him down with a palm, Chen Ping's figure suddenly disappeared!

But the monk in green in front of Chen Ping was in a terrible situation. He couldn't dodge and was hit by Ning Zhi's palm. With a muffled groan, blood spurted out of his mouth. His whole body was like a kite with its string broken. Smashed to the ground!

"Depend on....."

Ning Zhi couldn't help but curse!

As the green-clothed monk's body hit the ground heavily, as if power was instantly injected into the demon-suppressing array, countless dazzling spiritual lights rushed up like stars. This time, the spiritual light was a thousand times more dazzling than the spiritual light that consumed the immortal stone. !

And the monk in green clothes was shrinking rapidly, and he was getting older visibly to the naked eye, and the breath on his body also disappeared in an instant!

No one thought that this demon-suppressing array could absorb the breath of demon cultivators and use it as a resource!

Even Chen Ping himself didn't think of it!

This time, all the demon cultivators were shocked. They originally thought that when the great formation appeared, they just had to find a way to go down and break it. But in this situation, as long as they get close to the great formation, they might become demons. The array consumes resources!

The next scene instantly made everyone jump with fear, even Chen Ping!

I saw bursts of shattering sounds, and violent void breath radiated around!

Immediately afterwards, dense cracks in the void appeared, and they continued to spread to the surroundings!

The dark cracks in the void are like the giant mouths of monster beasts, sucking everything in with infinite suction!

Seeing so many void cracks suddenly appearing, Chen Ping suddenly started sweating on his forehead!

This time it seems to be a bit big!

If you really get sucked in by the crack in the void, you might never be able to come back!

Those demon cultivators and Ning Zhi looked at the cracks in the void that appeared, and their faces suddenly turned pale with fright, and they screamed!

Sometimes death is not scary, but the unknown territory is scary!

No one knows what is behind these void cracks!

As each demon cultivator was sucked into the void cracks, they let out screams, and some were directly smashed into pieces by the void cracks and turned into a puddle of flesh!

Even though these are all monks in the Tribulation Realm, or even Mahayana Realm monks, they still look so small in front of this crack in the void!

A large amount of seawater began to refill, and the originally exposed mountain peaks were swallowed up by the seawater in an instant, and the exposed formations were also covered up!

“Chen Ping, what the hell are you playing at? Can you survive being sucked into the void crack?”

Ning Zhi cursed Chen Ping and was so angry that it seemed that Chen Ping really wanted to die together in order to kill him!

What a fucking pervert...

Chen Ping looked at the furious Ning Zhi and was speechless. He didn't expect it to be like this!

“Don't scold me, didn't you see that I am also avoiding the cracks in the void? How could I have known that it would be like this?”

“It's all your fault. You insisted on letting that evil pen destroy my formation, which resulted in this.”

Chen Ping said while avoiding the suction of the void crack!

Ning Zhi was stunned. He didn't expect Chen Ping to complain about him.

Ning Zhi resisted the suction of the vortex and dodged to the side, while looking at Chen Ping: "You told me that you don't know the formation you set up? Wait until you escape these void cracks and see how I peel off your skin and cramp your tendons..."

"I still don't know who is robbing whom, we'll see..."

Chen Ping and Ning Zhi could only quarrel!

No one dares to do anything, and now all their energy can only be to avoid those void cracks!

Fortunately, Chen Ping and Ning Zhi were able to avoid those void cracks and not be sucked in!

Chapter: 7210

But those demon cultivators were miserable. They screamed and were sucked into the void cracks one by one. They didn't know whether they were strangled or sent directly to other worlds. Anyway, they didn't even think about coming back!

Chen Ping and Ning Zhi desperately avoided the cracks in the void, and slowly there were fewer and fewer cracks in the void!

In the end, the cracks in the void completely disappeared, the entire demon-suppressing array stopped operating, and all resources were consumed!

Ning Zhi gritted his teeth at this moment, looked at Chen Ping hard, and then rushed towards Chen Ping with rapid strides!

While rushing towards Chen Ping, Ning Zhi raised his hand and shot out black energy that filled the sky!

When Chen Ping saw this, he fired out balls of fire, which collided with Ning Zhi's black energy!

Chen Ping didn't dodge, he was planning to follow Ning Zhi in a head-on fight!

Without the threat of other demon cultivators, Chen Ping is not afraid of Ning Zhi!

What's more, he still has many methods that he has not yet used!

The God King's Bow, the Demonic Whip, and even his own True Fire Dharma Body, these are all Chen Ping's methods!

Especially the magic whip, which is specially designed to restrain demonic cultivators like Ning Zhi!

Chen Ping also has the Fire Qilin and the Sky-Swallowing Beast. If these two little guys can jump out, it will be enough for Ning Zhi to drink a pot!

Now that Chen Ping still has the secret book of Wanjian Sect in his hand, which is useless, this can be regarded as a method!

Chen Ping's last resort to save his life is Demon Lord Chiyun. If it comes to the time of life and death, Chen Ping won't be able to care so much and can let Demon Lord Chiyun control his body!

By then Ning Zhi will still be nothing but a piece of trash!

With so many means, Chen Ping is confident and extremely confident!

When Chen Ping shot out a burst of fire aura, he also rushed towards Ning Zhi!

When Ning Zhi saw this, he smiled coldly: "You want to fight with me up close, let me see how strong you are physically!"

Ning Zhi knew that Chen Ping's physical body had been tempered and was extremely powerful, but he was not afraid. After all, the gap between their realms was so big. He wanted to follow Chen Ping and give it a head-on try!

boom!

Ning Zhi and Chen Ping collided instantly!

Even if it was just a slight collision, there was still an earth-shattering sound!

Chen Ping's fist flashed with golden light, and without any hesitation, he turned around and punched Ning Zhi again!

"Holy Light Fist..."
