

The Order 8251

Chapter: 8251

Chen Ping remained silent, staring intently at the rune. The Dragon-Slaying Sword in his hand was already unsheathed, and the sword was emitting a cold light.

He took a deep breath, swung the Dragon-Slaying Sword violently, and a sharp sword energy slashed towards the stone wall.

The sword energy exploded on the stone wall, filling the air with smoke and dust, but when the smoke and dust dissipated, the stone wall was still intact, without even a trace of a crack.

The Gadfly's eyes widened, and he exclaimed, "How is this possible? Brother, your sword is indestructible, how could it be..."

Chen Ping did not respond, his face became solemn.

He swung the Dragon Slaying Sword again. This time, he poured more power into it, and the sword shone brightly.

An even stronger sword energy roared towards the stone wall.

However, the result was still the same. The stone wall seemed like an indestructible fortress, easily withstanding the attack of the Dragon-Slaying Sword.

"It seems that simply using brute force won't work."

Chen Ping put away the Dragon Slaying Sword and said in a deep voice, "There must be an eye behind this stone wall. As long as we find the eye and break the formation, the stone wall will naturally disappear."

The Gadfly scratched his head and said helplessly, "But where exactly is the center of the formation? This stone wall is so big, we can't just look for it bit by bit, right?"

Chen Ping closed his eyes and began to circulate the spiritual power in his body, sensing the energy fluctuations around him.

His perception became extremely sharp with the help of the Concentration Heart Technique, and every slight change in energy could not escape his perception.

After a moment, his eyes suddenly opened and his gaze fell on a corner on the right side of the stone wall.

The runes there seemed to flash a little faster than other places, with faint signs of energy gathering.

“It should be there!” Chen Ping said, pointing to the corner.

The Gadfly rushed towards the corner without saying a word.

He raised his fist and smashed it hard at that spot.

However, as soon as his fists made contact, a powerful rebound force came, and he was knocked back and fell heavily to the ground.

“Be careful! The center of this formation has strong defenses.”

Seeing this, Chen Ping hurried forward and helped the Gadfly up.

The two began to carefully grope around the center of the formation, trying to find a way to break it.

Chen Ping took out a few spirit stones from his arms and placed them in a certain position, trying to use the power of the spirit stones to interfere with the energy flow of the array's core.

As soon as the spirit stones were placed, the rune light at the center of the formation became brighter, and a powerful repulsive force rushed towards them.

Chapter: 8252

Chen Ping immediately activated his spiritual power to form a shield in front of the two people to resist the repulsive force.

He gritted his teeth and kept adjusting the position and order of the spirit stones.

Finally, after some attempts, the rune light at the center of the formation began to become disordered, and the stone wall began to tremble slightly.

With a violent shake, the stone wall collapsed, revealing the scene behind it.

Chen Ping and the Gadfly's eyes widened instantly, and they were stunned by the scene before them.

A vein of fairy stones sparkling with golden light appeared before their eyes, and the fairy stones on the vein were of different sizes.

Each piece exudes a rich fairy air, and when these fairy airs gather together, they are a thousand times richer than outside.

The fairy stone veins twist and turn, extending into the distance, as if there is no end in sight.

"We're rich! Brother, we're really rich!"

The Gadfly jumped up excitedly, his face full of ecstasy.

He couldn't wait to rush over to pick the fairy stone, but was stopped by Chen Ping.

"Be careful, such a precious immortal stone vein cannot be left unguarded."

Chen Ping looked around vigilantly, his eyes full of caution.

At this moment, a sinister laugh came from deep within the mine. "Two ignorant ants dared to covet my immortal stone mine!"

With laughter, a group of demons emerged from the depths of the mine.

These demons have different shapes, some have huge wings, and some are covered with spikes.

Their eyes emitted a faint green light and black flames continuously spewed out of their mouths. Wherever they went, the ground was burned into charred holes.

The leading demon was huge, ten feet tall, with three huge horns on its head. In its hands, it held a huge battle axe, and the axe blade emitted a heart-pounding cold light.

Seeing these demons in front of him, Chen Ping was a little confused. These guys were neither human nor animal, neither demon nor devil, and their body shapes were very strange.

"These guys are not real demons. Although they have demon blood, they are demons. They are the hybrids of demons and beastmen."

"Although he looks ugly, he has inherited the power of the beastmen. The cruelty of the demons is very difficult to deal with."

Upon seeing this, Demon Lord Chiyun followed Chen Ping to explain.

When Chen Ping heard this, he was speechless, especially when he heard the word "hybridization"!

My father is a golden dragon, which is considered a beastman, while my mother is a real human!

Chapter: 8253

Then I am also a hybrid?

“Brother, what the hell are these? They’re so scary...”

The Gadfly was also shocked when he looked at the demons in front of him.

“These are demons, hybrids of beastmen and demons!”

Chen Ping said!

“Hybrid?” The Gadfly was stunned when he heard these two words.

The demon leader was also extremely angry when he heard the word “hybridization”.

“None of you will leave alive today!”

The demon leader roared and swung his battle axe towards Chen Ping and the Gadfly.

Chen Ping immediately pulled the Gadfly away and slammed the battle axe heavily on the ground, splashing countless sparks.

“Gadfly, you are responsible for dealing with those minions, and I will take care of this big guy!” Chen Ping shouted loudly.

The Gadfly nodded, a spear appeared in his hand, and he rushed towards the little demons.

The spear danced, the tip flashing with cold light, and every stab could take the life of a demon.

However, the number of demons was too great. They continuously poured out from the depths of the mine and soon surrounded the Gadfly.

Chen Ping faced the demon leader head-on. The Dragon-Slaying Sword in his hand was unsheathed again, and the sword shone brightly.

“bring it on!”

Chen Ping shouted loudly and rushed towards the demon leader.

The dragon-slaying sword and the battle axe collided with each other, making a deafening noise, and the powerful impact force distorted the surrounding air.

The demon leader is extremely powerful, and every attack he makes carries tremendous force.

Relying on his agile body, Chen Ping constantly dodged the attacks of the demon leader while looking for opportunities to counterattack.

However, the demon leader seemed to have sensed the threat posed by Chen Ping, and his attacks became more fierce. He also spewed out black flames from time to time, trying to trap Chen Ping.

Chen Ping's clothes had been torn by the flames, and there were also several burns on his body.

But he did not retreat at all, instead his eyes became even more determined.

Chapter: 8254

He took a deep breath, and the spiritual power in his body circulated wildly, and the light on the Dragon Slaying Sword became even brighter.

“die!”

Chen Ping roared and used his strongest attack move.

A huge sword energy shot up into the sky and slashed towards the demon leader.

Seeing this, the demon leader was not willing to be outdone. He swung his battle axe, and a black axe edge met the sword energy.

The two collided, causing a huge explosion, and the powerful air wave blew away the surrounding demons.

Chen Ping was knocked backwards by the air wave and hit a huge rock, with a trace of blood flowing from the corner of his mouth.

Just then, the screams of the gadfly were heard.

Chen Ping turned around and saw that the Gadfly was being besieged by several demons. He had multiple injuries on his body and was in a very critical condition.

Chen Ping's heart tightened, and without caring about his own injuries, he immediately rushed towards the gadfly.

He wielded the Dragon-Slaying Sword, killing the demons that besieged the Gadfly one by one, and pulled the Gadfly to his side.

“Brother, these demons are too powerful, we are no match for them!”

The Gadfly was breathing heavily, his face full of fatigue and fear.

Chen Ping gritted his teeth, a look of determination flashing in his eyes.

He took out the magic whip from his arms, which was specifically used to restrain demon cultivators.

The devil whip was waving in the air, making a “pa pa” sound. Wherever the whip tip went, the demon’s body was torn apart and blood splattered everywhere.

However, the demon leader was not affected at all. He rushed towards Chen Ping and the Gadfly again, waving his battle axe.

There is still a certain difference between demons and magic cultivators, so the power of the magic whip is greatly reduced.

Chen Ping made up his mind and took out the God King Bow.

The God King Bow is an ancient artifact with enormous power, but using it consumes a large amount of Dao Pattern evil energy.

Chen Ping injected the evil spirit of the Dao pattern into the bow of the God King, and soon an arrow feather appeared, flashing a dazzling light.

“Go to hell!”

Chen Ping roared, released the bowstring, and the arrow shot towards the demon leader like a golden lightning.

The demon leader seemed to be aware of the threat of the arrows, and he quickly swung his battle axe to try to block the arrows.

Chapter: 8255

However, the arrow was so powerful that it pierced through the battle axe and shot into the demon leader's shoulder.

The demon leader let out a painful roar, and its body began to tremble violently, with black blood continuously gushing out from the wound.

But the demon leader did not fall down. He attacked Chen Ping and the Gadfly even more frantically.

Chen Ping knew that it was now a matter of life and death and he had to give it his all.

“Come out...”

Chen Ping released the Fire Kirin.

As soon as the Fire Kirin appeared, the temperature around it rose instantly. It let out a long roar towards the sky and rushed towards the demon leader.

There was a raging fire burning around the Fire Qilin's body, and the air was ignited wherever it went.

It fought with the demon leader, and the flames and black power continued to collide, producing a strong explosion.

Chen Ping took the opportunity to raise the God-King's bow again, put an arrow on it, and aimed at the heart of the demon leader.

“Die!”

Chen Ping used all his strength to shoot the arrow.

The arrow shot towards the demon leader with the power to destroy the world.

The demon leader wanted to dodge, but was entangled by the Fire Kirin and could not move at all. The arrow accurately hit the demon leader’s heart. The demon leader let out an earth-shaking roar and his body collapsed.

As soon as the demon leader died, the other demons immediately lost their fighting spirit and wanted to escape.

Chen Ping and the Gadfly would not let them escape, they pursued them and killed all the remaining demons.

“Brother, you are so awesome. I admire you so much. You have so many things around you, including a divine beast.”

“This divine beast should be the Fire Qilin, right? This is a mount that only celestial beings can have, right?”

The Gadfly looked at the Qilin beast covered in flames and said in shock!

“I don’t know either. My Fire Qilin is still young and needs to grow slowly before it can unleash its power!”

Chen Ping shook his head!

He also didn’t know what level of immortal’s mount this Fire Qilin was.

“Brother, there are so many immortal stones. Do you want me to go back and call people to mine them?”

The Gadfly looked at the endless fairy stone vein and asked Chen Ping!

Chapter: 8256

“No, the matter of this treasure land is between you and me. Don’t let anyone else know.”

Chen Ping didn’t want others to know about the fairy stone veins in the treasure land.

After they take away the fairy stone mine, others will continue to covet the treasure land.

At that time, the Gadfly can use this worthless treasure land to defraud other people’s resources.

“I understand!” The Gadfly nodded.

Chen Ping looked at the fairy stone veins. No matter whether he used a storage bag or a storage ring, he couldn’t take them away.

But Chen Ping was worried about placing these fairy stone veins here!

After thinking for a moment, Chen Ping suddenly thought of something and took out the Demon-Suppressing Tower.

The space inside the Demon-Suppressing Tower is extremely huge. If the immortal stone mineral vein can be stored in the Demon-Suppressing Tower, then Chen Ping will have resources when he practices in the Demon-Suppressing Tower in the future.

However, Chen Ping has never tried it, and he doesn’t know whether the Demon-Suppressing Tower can hold other items like a storage ring!

As Chen Ping’s thoughts moved, the Demon-Suppressing Tower began to emit rays of light!

The endless fairy stone vein was being quickly sucked into the Demon-Suppressing Tower!

In just a blink of an eye, an entire vein of fairy stone ore entered the Demon-Suppressing Tower!

Seeing that he had succeeded, Chen Ping was overjoyed and hurried into the Demon-Suppressing Tower. This time he discovered that there were immortal stone veins in the Demon-Suppressing Tower. The immortal energy inside was very rich, and he could achieve twice the result with half the effort when practicing!

“let’s go……”

Chen Ping called the Gadfly and left the treasure place.

Before leaving, Chen Ping repaired the formation of the treasure land, in order to deceive those who entered the treasure land in the future!

After the two returned to the City Lord’s Mansion, Chen Ping said nothing and couldn’t wait to enter the Demon-Suppressing Tower to practice!

He wanted to use the fastest speed to push his realm to the level of scattered immortals.

You know, although he is now in the ninth level of the Transformation Realm, there is still an essential difference between him and the Scattering Realm.

If he could reach the realm of scattered immortals, Chen Ping would be invincible in this heavenly realm!

Inside the Demon-Suppressing Tower, Chen Ping sat cross-legged in the center of the immortal stone mine. The immortal energy surrounding his body condensed into substance and poured into his meridians like the Milky Way rolling back.

Time passed quickly inside the tower. Although it was only a month outside the tower, nearly ten years had already passed inside the tower.

Chen Ping's robes were worn away by the years, but his eyes became clearer and brighter, reflecting the flowing runes.

Chapter: 8257

The Concentration Heart Technique was madly absorbing the immortal energy. Chen Ping's meridians were like a dry riverbed suddenly encountered a rainstorm, and cracks appeared under the impact of the Yuan force.

Veins bulged on Chen Ping's forehead and blood flowed from the corners of his mouth, but he suddenly bit his tongue and used his own blood essence to force the scattered immortal power to gather at his dantian.

Chen Ping knew that he had reached the critical moment of breaking through the realm of scattered immortals...

Outside, the clouds above the City Lord's Mansion suddenly spun strangely, forming a dark vortex.

Lightning moved in the vortex like a silver snake, and the roar made the birds within a hundred miles fall to the ground.

The monks guarding the city took out their magic weapons and looked at the sky in horror – this kind of vision was far more terrifying than when the demon army attacked.

Inside the Demon-Suppressing Tower, Chen Ping's hair stood on end, and ancient demon-suppressing emblems appeared all over his body.

These lines twisted as if they were living things, suppressing and tempering the magical power raging in his body.

With a deafening roar, brilliant golden light burst out from Chen Ping's body, penetrating the tower and rushing straight into the sky.

The lightning in the vortex was attracted by the golden light and pierced into the Demon-Suppressing Tower like thousands of arrows. However, the moment it came into contact with the golden light, it turned into starlight and merged into it.

“boom!”

There was a loud noise in the tower, and Chen Ping’s breath suddenly surged.

He slowly opened his eyes, with star-like light flowing in his eyes, and the unique pressure of the Scattered Fairyland swept out like a tide.

The Demon-Suppressing Tower trembled violently, and the runes on the tower became brighter and brighter, as if cheering for Chen Ping’s transformation.

Outside the tower, Gadfly and others tightly grasped their weapons at their waists, their hearts almost jumping out of their chests.

He had never seen such a horrific scene and prayed secretly for Chen Ping in his heart.

In the territories of various races in the first level of the heavenly realm, countless powerful men cast their gazes towards the direction of Rhino City, their eyes filled with shock and confusion.

They didn’t know what kind of existence could cause such a terrifying phenomenon in heaven and earth.

When the light of the Demon-Suppressing Tower gradually dissipated, Chen Ping walked out slowly with his hands behind his back.

Every step he took seemed to be on the void, and his every move exuded an aura of oppression that made people dare not look directly at him.

The Gadfly looked at Chen Ping, who looked like a god in front of him, and his throat moved, but he didn't know what to say.

Chen Ping had just stepped into the realm of scattered immortals, but the pressure he displayed was so great that even a cultivator at the third level of the realm of scattered immortals dared not look directly at him!

This is the difference, he was born with golden dragon blood, while he is just a rhinoceros!

“My dear son-in-law, you have actually reached the realm of scattered immortals. Could the strange phenomenon just now be caused by your breakthrough to the realm of scattered immortals?”

Chapter: 8258

Bai Yi saw Chen Ping coming out and had reached the realm of scattered immortals, and asked excitedly!

“I don't know either, but when I broke through a great realm, the phenomena of heaven and earth were indeed a little more powerful than those of others...”

Chen Ping said!

“Brother, it's more than just a little bit. I'm afraid that even the entire First Heaven has been alarmed. Those who don't know would think that a strong man from a higher plane has arrived!”

The Crazy Immortal looked at Chen Ping with envy on his face and said!

Chen Ping just smiled faintly. He now knew that with his current level of strength, he could easily reach the first level of the heaven!

With this Demon-Suppressing Tower and this immortal stone mine, my cultivation is indeed twice as effective with half the effort!

“How long have I been practicing?” Chen Ping asked!

“Brother, it’s been a month...” said the Gadfly!

“One month?” Chen Ping frowned slightly: “Has Niu Ben been rescued?”

“Not yet.” The Gadfly shook his head. “Just now, the Lord of Feihu City, Jie Zhong, sent someone to deliver a letter, asking me to send someone to Feihu City to discuss in detail.”

“I guess they will only let Niu Ben go if I give up some resources and cede some territory.”

“I have been considering candidates. If I go in person, I am afraid that Jie Chong will go back on his word and detain me. That would be troublesome!”

“I’ll go. If Feihu City doesn’t release our people, I will destroy Feihu City!” Chen Ping spoke immediately after hearing this!

“Brother, it’s too dangerous. Although you have now broken through to the Sanxian realm and are not afraid of others in terms of strength, after all, Feihu City has a large number of people.”

“As the saying goes, two fists cannot defeat four hands. If Jie Zhong is determined, then wouldn’t that be like letting a sheep fall into the tiger’s mouth?”

“I can’t let my brother be in danger just for my son...”

The Gadfly shook his head and refused to let Chen Ping take the risk!

“Lao Niu, I’m following Big Brother. I also know Jie Zhong. Maybe he can give me some face!”

The Crazy Immortal spoke!

“I’ll go too. I can’t let my son-in-law take risks alone!” When Bai Yi heard this, he wanted to follow Chen Ping too!

He couldn’t bear to see Chen Ping take risks alone.

“Don’t worry, I will definitely rescue Niu Ben!”

Chen Ping patted the Gadfly on the shoulder.

Chapter: 8259

“Brother, how about I send you a few thousand soldiers to follow you, so that you can have someone to look after you when the time comes?”

said the Gadfly!

“No, I’m going there to negotiate, not to fight. If there are too many people, it will be inconvenient.”

Chen Ping waved his hand!

“Brother, take care of yourself. If the situation is not right, leave immediately and don’t worry about Niu Ben. I don’t think Jie Zhong would dare to do anything to Niu Ben.”

The Gadfly warned Chen Ping!

Chen Ping nodded, then took Bai Yi and Feng Xian away from the City Lord’s Mansion!

The three of them went back to Linghufang first. It had been such a long time, and Chen Ping had to tell Hu Mazi and Xiu Rui about it!

When Chen Ping returned to Linghufang, Hu Mazi looked at Chen Ping with dissatisfaction and said, "Damn, where have you been? It's been more than a month. I thought you died outside."

"Master Hu, I have been practicing, so I don't have time to come back. Please don't be offended!"

Chen Ping followed Hu Mazi to apologize!

"You have already left the fairyland?" Hu Mazi looked at Chen Ping, only then he realized that Chen Ping had already left the fairyland!

"Fellow Daoist Chen, in just over a month, I didn't expect that you have reached the level of scattered immortals."

Xiu Rui was also shocked when he saw Chen Ping!

"Just broke through!" Chen Ping smiled faintly, and then told Hu Mazi and Xiu Rui about what he was going to deal with next!

Let Hu Mazi and Xiu Rui stay in Linghufang and don't run around!

"Don't worry, Fellow Daoist Chen. Master Hu will definitely not run around. He has been partying every night for more than a month!"

Xiu Rui looked at Hu Mazi and said with a hint of envy in his eyes!

"Master Hu, you should exercise some self-control, or you might die of exhaustion!" Chen Ping said.

“Get lost now! When you come back, we will go to a human territory. Two women will get tired of playing together eventually!”

Hu Mazi waved towards Chen Ping!

Chen Ping and Bai Yi followed the Crazy Immortal and left Rhino City and headed straight for Flying Tiger City!

Rhino City is thousands of miles away from Flying Tiger City. It took Chen Ping and his team nearly a day to reach Flying Tiger City!

Chen Ping was suspended in the air, looking from afar, and found that although the scale of Feihu City was not as large as Rhino City, it was composed of dozens of cities of different sizes.

Chapter: 8260

And in the very center is the City Lord’s Mansion of Feihu City, which is surrounded by many cities and has a much higher safety factor than the City Lord’s Mansion of Gadfly.

Rhino City is just one city, with the Gadfly’s City Lord’s Mansion in the middle, while Flying Tiger City consists of dozens of cities of varying sizes, each with its own independent checkpoints!

Therefore, if you want to pass these checkpoints and enter the City Lord’s Mansion of Feihu City, it will be more difficult than waiting for him!

As the sun sets, the twilight turns blood-red, dyeing the bluestone walls outside Feihu City dark red.

Chen Ping looked at the cities that stretched out like the scales of a giant beast, and the spiritual energy in his sleeves quietly circulated. As the saying goes, one should not have the intention to harm others, but one must always be on guard against others.

Just as Chen Ping and his companions reached the first checkpoint in the city, they sensed three obscure auras locking onto the three of them.

“Stop! Feihu City is under martial law, all outsiders must leave immediately!”

In front of the first checkpoint, armored guards blocked the way with their spears in their hands, and vigilant eyes could be seen through the gaps in their helmets.

Just as the Crazy Immortal was about to speak, Chen Ping raised his hand to stop him.

He glanced at the jade token hanging on the guard's waist, and a faint golden rune condensed on his fingertips. He gently tapped the token and said, “Please inform City Lord Jie that we are from Rhino City and have been invited to see him.”

The moment the rune penetrated the token, the guard's expression suddenly changed, and he saluted respectfully and let him pass.

Because this person was indeed invited by the Lord of Feihu City, and they, the small guards, dared not make things difficult for him.

What's more, they are just the guards of a small town at the front and have the lowest presence.

Bai Yi lowered his voice and said, “Son-in-law, this rune...”

“The Gadfly told me, otherwise we can't get through any checkpoints.” Chen Ping looked calm, but his eyes swept across the faintly visible array patterns on the city wall, “But judging from this situation, I'm afraid there is more than one checkpoint.”

Sure enough, when they reached the third city, the city gates slammed shut.

Twelve black-robed monks appeared in the black fog. The leader held a bronze compass, on which three figures were reflected clearly. “Who are you? Since you dare to trespass into Feihu City, you will die!”

“We are from Rhino City. We received an invitation from City Lord Jie and came here to negotiate.”

Chen Ping stepped forward and said!

“You are from Rhino City. I don’t know you. If you want to see the city lord, you have to get past us first.”

The leader actually turned the compass, and a formation instantly appeared in front of Chen Ping and the others!

Seeing this, the Crazy Immortal sneered, his aura surging. Just as he was about to take action, Chen Ping took a step forward.

His fingertips passed through the void, and a rune exactly the same as before was condensed, but this time the rune was glowing a dazzling red light.
