Bank of the Universe - Chapter 421 - I Will Take Care Of You, Give It To You When You Grow Up!

Chapter 421: I Will Take Care Of You, Give It To You When You Grow Up!

The Bank of the Universe appeared in the sky above the ocean region. A strong light smashed down deep into the ocean and formed a giant tunnel.

The spiritual beings and god medicine in the god hall all passed through this tunnel to enter the Bank of the Universe.

Within the bank, Li Xiandao and Seven stood on the square. They looked at the rumbling area ahead with a weird expression on their faces.

Seven was really curious. She wanted to see how many treasures there were in the god hall?

As for Li Xiandao, he was paying attention to those treasures that didn't birth intelligence.

100,000 years!

Million years!

Ten million years!

Uncountable!

There were even some 10,000-year ones that Li Xiandao didn't care about at all.

Within the God Medicine Hall there were many treasures and it took up a huge space. Moreover, there were various expanded spaces that specialized in planting god medicine. To move all of them to the Bank of the Universe took three days.

From that, one could see how massive it was!

During the three days, Li Xiandao smiled wide and looked more and more happy.

He promised Little Kid Ginseng not to touch those spiritual beings that gained intelligence. Li Xiandao would definitely keep his promise.

He didn't touch a single one of them.

But those who didn't, Li Xiandao didn't hold back at all.

On the Bank of the Universe square, Little Kid Ginseng saw Little Kid Ginseng and his bunch of friends.

"Bank of the Universe Master, you really are trustworthy." Little Kid Ginseng raised a thumb.

Li Xiandao smiled, "Who is the oldest here?"

"I am the oldest here, since I formed until now, over ten million years have passed." A willow tree whose leaves danced. It was enormous.

"Ten million years and your cultivation just entered Emperor?" Li Xiandao asked in confusion.

"The god hall is blocked off from the outside world and very little spiritual energy enters. If we break through, we will instantly absorb our children's nutrients. Just like that, they won't be able to be born." The willow tree explained.

Li Xiandao understood. He was wondering why the willow tree only entered Emperor Realm after ten million years. He was also at the first stage.

"Bank Master, you promised not to hurt us and also to provide us with living." Little Kid Ginseng said.

Li Xiandao looked at the hundreds of spiritual beings with minds of their own and smiled, "This endless mountain, you can choose one to live in. The spiritual energy here is really thick and it can be compatible with all of you."

"Thank you, Bank Master." The willow tree bent its back in thanks.

"No need, just follow the contract. Now, all of you can choose a suitable place. If you like that place, you can just choose it as long as no one else is living there." Li Xiandao smiled.

The willow tree thanked once more. The other living beings all thanked Li Xiandao too.

Little Kid Ginseng wanted to say thanks but noticed that something was not right.

The spiritual beings were all here and none of them were missing.

But...

Where was his food?

Those 100,000-year, few hundred thousand year, million-year ginsengs?

The other items that the spiritual beings planted were all gone.

“Bank Master, where are my things?” Little Kid Ginseng asked.

“What things?” Li Xiandao asked.

“My ginseng.” Little Kid Ginseng reminded Li Xiandao.

“Eh, I will help you keep it. You are still small. Once you grow up, I will give them to you.” Li Xiandao patiently explained.

Little Kid Ginseng looked at Li Xiandao doubtfully and felt like something wasn’t right.

He didn’t have a mother, if he did, he would definitely understand what tricks Li Xiandao was playing.

Willow Tree knew that he couldn’t get them back and treated it as rent. He shouted, “Let’s place it with the Bank Master, let’s select a place.”

The willow tree’s shouts stopped Little Kid Ginseng from asking. Maybe when he grew up, then he would ask Li Xiandao for it.

Li Xiandao and Seven looked on as they left, they selected a place to settle in.

“After Little Kid Ginseng grows up, would you still return it to him?” Seven smiled and asked Li Xiandao.

Li Xiandao said calmly, “It will take a long time for them to grow. Maybe after a million years, if he still remembers?”

...

Li Xiandao’s four angels and Tian Guangming all returned.

The moment Tian Guangming returned, he entered the time hall and went into secluded meditation. He used the stone heart to break through to Emperor Realm.

That stone heart was really terrifying and definitely came from a top expert that could definitely suppress gods. Which was why after his death, the heart could turn to stone and still have such vitality.

In Tian Guangming's dantian, each jump was like an activation of fresh blood. It surged around, letting Tian Guangming's get renewed. Each pump would help to clear out parts of his body.

In the future, it would make it much easier for him to break through.

Emperor Realm people weren't able to withstand a blow from this stone heart.

After spending 100 years in the Time Hall, Time Hall came out. During the 100 years, he used the stone heart to cleanse his body.

Before this, his body had scars and wounds.

But now, those scars were cleaned and his body was crystal-like. Each cell, each drop of blood was translucent.

Tian Guangming had transformed.

But even he himself didn't know how much he had transformed.

He entered the Time Hall for a hundred years but only ten minutes passed when he came out. Time Hall entered Emperor Realm and he was delighted.

"Master, you also want to enter Time Hall to cultivate?" Time Hall was delighted and saw Li Xiandao walk over. He asked respectfully.

"Not bad, you have entered Emperor Realm, not bad." Li Xiandao nodded. He noticed Tian Guangming's cultivation and was satisfied.

"Luckily, Master left this for me, otherwise, I wouldn't be able to win Lucifer and the others." Tian Guangming said sincerely. At the same time he praised Lucifer and the others.

"I just wanted to give the weak a chance. If you don't break through, then you'll be totally eliminated." Li Xiandao said honestly.

Tian Guangming was shocked and found this whole thing really dangerous.

"Take a good rest when you get back. Once I break through, prepare yourself. We will be dealing with Dragon Island." Li Xiandao said.

"No problem, Master don't worry and just break through." Tian Guangming said goodbye and quickly ran back.

Li Xiandao entered the Time Hall. He thought about it and burnt a thousand years of lifespan.

1,000 years allowed the Time Hall speed up and then he spent another 1,000 cultivating peacefully inside.

Li Xiandao was trying to break through to Destiny Realm.

The million top quality spiritual energy dragon veins he absorbed before helped him to merge half of the ten grotto-heavens.

But that was far from enough to breaking through.

But now with all these medicinal herbs being collected by Li Xiandao, he saw the hope of breaking through.

He would definitely be able to break through.

This was why Li Xiandao brought those herbs and entered the Time Hall. He started his days of secluded meditation.

Chapter 422: Destiny Realm!

Below Destiny Realm, emperors were king.

But Emperor was just a single person.

Humans would beat the heavens but the human's body couldn't compare to the vast, huge, and wide heavens.

The only thing that could compare to it was one's thinking.

A human's thinking could expand infinitely but due to the restrictions of the body, one would always be locked up in a certain region.

Have you ever had all sorts of weird thoughts and then noticed that it was just wishful thinking?

When your body was unable to support you from doing some things, your mind would have to jump out. Use the heaven and earth as the body, the moon and sun as your eyes. Use the mountains and rivers as your meridians to do all sorts of unbelievable things.

That was Destiny Realm.

Using heaven and earth, containing everything, expanding one's thoughts. The world was huge!

Destiny Realm, also called snatch.

What was snatch?

Snatching from heaven and earth, snatching from life, snatching from all beings.

The more one snatched, the stronger one would become and it would exceed one's imagination.

Celestial!

This name would naturally appear in everyone's minds.

So, Destiny Realm was below Celestial Realm. It was a magical realm.

Li Xiandao could enter it earlier but due to the 10 Grotto-Heavens, he was restricted to Emperor Realm.

This period of time of being restricted did have some benefits.

He didn't break through too quickly but he had more time to think about how to improve himself to be able to reach the peak.

Snatching from destiny was a normal thing.

But Li Xiandao carried the ten lands in his body.

If he went to snatch from destiny, it wouldn't be temporary.

Li Xiandao's goal was simple, which was to grasp destiny!

Other people snatched it but Li Xiandao wanted to grasp it.

Destiny Realm was in front of one's eyes and could be touched. But it also seemed so far away that one couldn't touch it at all.

Only by snatching and trying to get it would one finally succeed.

But Li Xiandao was different. His soul was huge and when he was in the Time Hall, he went through 100 years. He absorbed the food of Little Kid Ginseng and swallowed them into his stomach. His stomach was like a huge grinding stone smashing all of them.

Li Xiandao's soul looked towards heaven and earth, breaking past his physical form and saw many daos. They were really dense and he could reach out and grab all of them.

Other people were resting beneath the dao to snatch destiny but Li Xiandao was different. He didn't want to rest himself there. He wanted to grab it and use it for himself.

The more times one snatched at it, the more daos one could use. Normally when one just broke through, if they could use one or two, then it was passable. If one could rely on 10, then one was really talented. Those over 10 were all top talents.

But Li Xiandao was different. He was grabbing onto the daos.

Li Xiandao who was in soul form was really overbearing. He sat in the air and instantly suppressed hundreds of daos.

Grabbing the dao meant that he made the dao yield to him.

Li Xiandao absorbed hundreds of daos into his soul and he started to transform.

This transformation lasted 900 years.

During these 900 years, Li Xiandao controlled 100 daos. He then tried twice more and grabbed 265.

Altogether, he had a total of 365.

That was a really prosperous number and helped Li Xiandao's cultivation reach perfection.,

The 10 Grotto-Heavens were absorbed into his body and they were really strong. After grabbing the 365 daos Li Xiandao smoothly broke through and entered Destiny Realm.

After breaking through, he walked out of the hall and let out a deep breath.

He spent 1,000 years inside, fully immersed in cultivation. His improvement was huge.

But after coming out, only 10 minutes passed.

Li Xiandao could clearly feel that his lifespan was reduced by 2,000 years in those 10 minutes.

But it didn't affect much. Li Xiandao could live for 50,000 years now without any problem at all.

This was also when Li Xiandao didn't cultivate any life extending techniques.

If the old priest reached Destiny Realm, he might even live hundreds of thousands of years.

...

Li Xiandao came to the Trading Hall and looked at the empty hall. He sat alone on the chair and thought to himself.

He had came to Great Sky for some time and he was originally planning to deal with Dragon Island. But after Seven and the others persuaded him, he decided to slow down.

But now, he had broken through to Destiny Realm and was invincible. He had the confidence of heading to Dragon Island.

"As long as I don't make a huge ruckus and force out the old monster there, it'll be fine." Li Xiandao thought about it.

Before breaking through to Emperor Realm, Li Xiandao could easily defeat the demon's heart who had snatched from destiny five times.

Now that he broke through, his strength increased.

But he still couldn't defeat those who reached stage eight or nine.

Did Dragon Island have any?

Li Xiandao felt like they did.

But since they reached such a realm, they wouldn't attack too easily. As long as he didn't make such a huge commotion and forced them out, it would be fine.

"Blood Dragon, come and meet me." Li Xiandao closed his eyes and shouted.

Blood Dragon, who was in secluded meditation and was trying to break through to Destiny Realm, heard it and opened his eyes. "Yes Master!"

A blood red light flashed across and a teen appeared outside the Trading Hall. He wore a red coat and after entering, he knelt down and said with a clear voice, "Blood Dragon greets Master."

"Rise." Li Xiandao waved.

"Thank you, Master." Blood Dragon got up and looked at Li Xiandao calmly.

"You are peak Emperor now and with your combat strength, you will be able to easily kill those at stage one Destiny Realm. Do you want to take revenge?" Li Xiandao asked.

Blood Dragon had been working hard to improve himself and adapt to the strength of his bloodline.

“Revenge, I really want to take revenge.” Blood Dragon said firmly.

“I know that you want to. If I ask you to head to Dragon Island now to get back the Great Ancient Fallen Star, would you be willing?” Li Xiandao asked.

Great Ancient Fallen Star was the celestial artifact that Jin Wudi borrowed. It was really strong but the fire dragon chief took it and was unwilling to return it.

To ask Blood Dragon to get it back meant that he had to face his father, the chief of the fire dragon race.

Blood Dragon raised his head and with a firm gaze and powerful voice, he said, “I will definitely take it back for Master.”

“Very good, you can walk about freely as long as you get the Great Ancient Fallen Star back.” Li Xiandao nodded his head in satisfaction.

“Master, I will go now.” Blood Dragon cupped his fistss. He turned around and left.

“You aren’t going to bring friends?” Li Xiandao asked.

Blood Dragon had a thin but straight back, “No need. This is my family matter. Once I solve it, I will fully commit to serving Master.”

Li Xiandao looked on as he left and nodded his head in satisfaction.

At this time, Seven walked over and said, “There is a guest.”

Chapter 423: Ancestral Dragon’s Bloodline

After sending Blood Dragon away, a new guest came. Li Xiandao looked at Seven and asked, “Is this a new guest?”

“Right, a new guest. It is a young dragon from Dragon Island.” Seven nodded.

“A young dragon from Dragon Island?” Li Xiandao stood up in shock. He had just sent Blood Dragon to Dragon Island and didn’t expect someone from there to come right away.

“Get ready to receive the guest.” Li Xiandao said right away. He wanted to know more about this dragon.

Seven nodded, "I will bring him in."

Li Xiandao changed his clothes. He wore his mask and appeared in the Trading Hall.

Not long after Li Xiandao sat down, Seven came with a boy.

This kid was just 10. In the Nine Skies and Ten Lands, a 10-year-old kid would be huge if he developed normally. After all, cultivation could accelerate growth. Some married at 12 and some gave birth at 13.

But the 10-year-old kid in front of him looked no different from a six year old. He was really thin and weak and looked really comfortable.

This was an ordinary kid.

This was Li Xiandao's first impression. But when he saw his forehead, he saw a pair of dragon horns.

The small dragon horns were covered by hair and if one didn't see carefully, one would be able to notice it.

But if one looked closely, one could definitely find it.

This kid was a baby dragon.

For a baby dragon to be able to transform into a human at such a young age showed how thick his blood was.

One must know that Blood Dragon was only barely able to transform after getting the bloodline pearl and cultivating.

As for the 10,000 years before, the Blood Dragon couldn't transform.

This baby dragon's cultivation had just reached Saint Realm and wasn't a Great Saint.

But he transformed.

This was definitely impossible unless one had extremely thick bloodline.

So look at this polite and quiet kid.

Li Xiandao didn't dare to look down on him. Maybe his father or mother was a supreme expert.

"Friend, please sit." Li Xiandao invited him to sit.

This kid sat down politely and looked at Li Xiandao. He asked curiously, "Can you help me complete all wishes?"

Li Xiandao shook his head and said, "We can't help you complete your wishes but we facilitate trade. Take out something to trade for what you want. Once you agree, you will sign a contract and you can't go against your promise."

The kid nodded his head, "That seems fair, I would like to do a trade with you."

Although his aura didn't seem high and he looked polite, his thinking was really clear and his speech ability was strong.

"Before that, introduce yourself. I need to have a clear understanding of you." Li Xiandao said calmly.

"I am Aoyun, a true dragon on dragon island. My main body is an ancestral dragon." Aoyun said.

"Ancestral Dragon!" Li Xiandao looked on in shock. He didn't expect to see a baby ancestral dragon.

In the dragon race, ancestral dragons were really rare. Most of them treated this as their life's goal. They would cultivate and the moment they became celestials, they would borrow huge power to change their bloodline and transform into an ancestral dragon.

Once the ancestral dragon grew, he would be a ruler even in the Celestial World. He was the symble of invincible strength and numerous dragons wanted to turn into one.

Now, the kid that sat in front of him said that he was an ancestral dragon.

Li Xiandao was impressed. This reincarnation thing was really an art.

The thing that many envied and worked their lives to most probably not get, a kid was born with it.

"Since you are an ancestral dragon, then the dragon race must have high hopes for you. You can find them for help." Li Xiandao calmed down after a moment of shock and said.

"The dragon race won't help me do what I want to do and they won't agree." Aoyun shook his head and said with certainty.

Since the dragon race didn't help him, he came to the Bank of the Universe.

Li Xiandao smiled, "Then, you are right. The Bank of the Universe is good at anything. As long as you can pay, we can help you complete your wishes."

“Speak, what would you like to trade?” Li Xiandao asked.

“I want you to help me save my brother.” Aoyun said.

“Your brother?” Li Xiandao’s brow furrowed.

“Right, my brother. My brother from the same mother.” Aoyun nodded.

“He has ancestral dragon bloodline?” Li Xiandao asked.

“No, he is a flood dragon.” Aoyun sighed helplessly and had a melancholic expression.

“You are of ancestral dragon bloodline and once you mature you will be able to roam the skies. But your brother is a flood dragon, that difference is a little huge right?” Li Xiandao didn’t understand.

If they were of the same father, that was understandable.

But they had the same mother.

Did they have the same mother but different father?

“Our father is the god dragon race chief and is also the head of the eight races. He is the number one.” Aoyun explained.

Li Xiandao’s eyes blinked, “What?”

Their parents were the same but he had ancestral dragon bloodline and his brother was a flood dragon.

“Everyone said that it was because I absorbed his bloodline which resulted in him being born first. We were supposed to be out together, so I was filled with guilt.” Aoyun lowered his head.

“Okay, then how is your brother now? Why do you want me to save him?” Li Xiandao didn’t understand.

“My brother wants to participate in the Ten Thousand Dragon Assembly to challenge others. But his bloodline was weak and cultivation isn’t high. He would definitely be beaten to death.” Aoyun was worried.

“Can’t he just not participate?” Li Xiandao said.

“If he doesn’t participate and doesn’t get a rank, he’ll be chased out and wouldn’t be able to return to Dragon Island for the rest of his life. I wouldn’t be able to see him anymore.” Aoyun was sad.

Li Xiandao understood. This was similar to Blood Dragon. Descendants with weak bloodline would be chased out of Dragon Island.

The only difference was that after Blood Dragon was chased out of dragon island, he was suppressed by his nine brothers and shot into the Ten Lands. If not for Li Xiandao, he wouldn't have been able to make a comeback.

Aoyun's brother had a good brother. For his safety, he came to the Bank of the Universe.

"So, am I ensuring his safety, or am I helping him get results?" Li Xiandao asked.

"Help him get a good result." Aoyun thought about it and said firmly.

He didn't want brother to be eliminated, if that happened he wouldn't be able to see it anymore.

"No problem but what price can you pay?" Li Xiandao asked.

"What do you want? I will see whether or not I have it." Aoyun heard that Li Xiandao could help. He was delighted and said.

"I am not interested in treasures. You are too young and the only thing I am interested in is your Ancestral Dragon bloodline." Li Xiandao said calmly.

"You want my Ancestral Dragon bloodline?" Aoyun's expression changed and he said warily.

Chapter 424: 10 Drops Of Blood

Aoyun looked at Li Xiandao warily.

Ancestral Dragon's bloodline was really precious. On Great Sky's Dragon Island, he was the only one with Ancestral Dragon bloodline. He was Dragon Island's baby.

This baby wasn't spoilt. He was well behaved and didn't exhibit lawless behavior.

He was just quiet, polite. If one didn't look carefully, you wouldn't believe that he had Ancestral Dragon bloodline.

This was rare. It was enough to show that a kid's personality could be developed.

Bloodline was a natural advantage and personality was from nurture. Li Xiandao liked Aoyun's personality.

“I don’t want your bloodline, I just want your essence blood.” Li Xiandao said calmly.

“Ancestral Dragon essence blood?” Aoyun was stunned and slowly placed down his wariness.

“Right.” Li Xiandao nodded his head.

“What do you want my Ancestral Dragon essence blood for?” Aoyun asked.

“To hatch some things?” Li Xiandao gave a short answer.

In truth, Li Xiandao wanted to hatch the dragon eggs he got from Flame King in the Heaven and Earth Battlefield.

Hell Dragon!

Li Xiandao had nine dragon eggs and placed them in the Bank of the Universe with no chance to hatch.

Seven tried but she wasn’t able to.

Hell Dragon’s eggs were able to handle such heat, reaching an unbelievable level.

Hell Dragon was part of an ancient dragon race.

Hell Dragons were much crueler compared to the fire dragons of the current day and age.

To compare with the current fire dragons, it was like an adult fighting a kid.

This was bullying.

Li Xiandao wanted to hatch the few dragon eggs to add some combat strength to the Bank of the Universe.

But unfortunately, he didn’t find a suitable opportunity.

The few dragon eggs were also absorbing the Bank of the Universe’s energy to replenish themselves.

Now, the dragon eggs became much bigger and needed Li Xiandao to treat them seriously.

Coincidentally, Ancestral Dragon Bloodline came?

Ancestral Dragon bloodline could face up to it, even suppress Hell Dragons. After all, Ancestral Dragon was the ancestor of all.

When the Blood Dragon grew, he could face up against the Ancestral Dragon but no one would place their hopes on a blood dragon.

After all, there were too few Blood Dragons.

Although Ancestral Dragons weren't rare, over these years, they were pretty much extinct in the Nine Skies and Ten Lands.

Li Xiandao was thinking, was Aoyun the only Ancestral Dragon in the Nine Skies and Ten Lands?

It was a live Ancestral Dragon, not a dead corpse.

No matter whether or not it was, and regardless of whether Aoyun was young, he would just take some essence blood and hatch the nine dragon eggs to get nine Hellfire Dragons.

Aoyun looked at Li Xiandao and started thinking carefully.

"If I give the essence blood to you, then how will you help my brother?" Aoyun asked a practical problem.

But this problem also meant that he was getting tempted.

Li Xiandao said confidently, "As long as you agree, of course, I will have a way to give your brother a good position and he would be able to remain on Dragon Island!"

"I need to know your exact situation." Aoyun said firmly and didn't want to back off at all.

Li Xiandao was still really patient, "The exact plan would be for a Blood Dragon to guide your brother to get a good position. Then, our contract will be completed."

"Blood Dragon?" Aoyun stood up in shock and looked at Li Xiandao.

This was the first time he stood up in shock after entering the Bank of the Universe.

One could see how famous and strong blood dragons were.

"Right, blood dragon, you are in charge of giving him an identity, so he can teach your brother and get a good position." Li Xiandao said.

“Where did you get a blood dragon? Till now, the dragon race only had one. Based on records, Blood Dragons will be undying, and without 100 experts, it won’t be captured at all.” Aoyun said emotionally. It was obvious that he was a blood dragon fan.

“Sign it, sign it and wait. Blood Dragon has set off and you will be able to see him soon.” Li Xiandao pushed the contract that Seven prepared forwards.

He passed a pen over too.

Aoyun calmed down. he knew that this contract was significant and he had to check it carefully.

First time!

Second time!

Third time!

...

Ninth time!

After carefully reading it nine times, Aoyun was sure that this contract was correct and then he signed it.

While signing, Seven asked, “These 10 drops will hurt you a lot. After all, you are just starting your cultivation journey.”

“That is okay, just let me get hurt. To be able to save my brother and see the legendary Blood Dragon, even if I die, I will die with no regrets.” Aoyun said happily and wrote down his own name.

Li Xiandao looked at the contract and was satisfied, “Okay, I will now take 10 drops of blood from you.”

Aoyun looked at Li Xiandao nervously and his mouth shook, “What do you want to do? Don’t try anything. Are you slicing my body apart?”

Li Xiandao smiled, “You are thinking too much. The Bank of the Universe has its own rules. We won’t slice guests apart.”

“Moreover, it is too gory to slice one apart, so our actions are strictly regulated.” Li Xiandao slowly walked towards Aoyun.

He placed an arm on Aoyun’s body and activated the Bank of the Universe’s power to shoot out Aoyun’s bloodline power.

Ah ah ah!!

Aoyun screamed. His heart was in total pain. It felt like his body was being ripped dry and even his human body couldn't handle it anymore.

Hong long long!

A young ancestral dragon appeared. It was three meters long with thick and tough scales.

A drop of fresh blood flew out from Aoyun's head.

One drop of essence blood was gained.

Li Xiandao was prepared to repeat it.

"Wait. Why don't we take 10 drops out all at once?" Aoyun hollered in rage.

If I do, then you will die. Essence blood is really important.

To take care of Aoyun, Li Xiandao split it up 10 times, to take one drop each time.

This was a really merciful method.

But it was also really cruel.

To take out 10 drops after 10 times meant that he had to bear with this intense pain 10 times.

"Take a blade and kill me." Aoyun laid on the ground and didn't move at all. He was so restless like working guys on the bus on the way to work.

"If you are able to take some hardship you will become a man above man. Bear with the pressure and pain and it would help you in the future." Li Xiandao spoke to Aoyun like he was his life's tutor.

"Quickly. End this and then I can go back to take a rest. You must fulfil my brother's wish, otherwise, you have broken the contract." Aoyun said stubbornly.

Chapter 425: Like Me In The Past!

After Li Xiandao sucked out the 10 drops of blood from Aoyun's body, he let Aoyun off.

Aoyun was laying weakly on the ground. His dragon body turned soft and he couldn't raise up any strength at all.

He didn't have a drop of blood left at all.

"Okay, you can leave the Bank of the Universe now. Go back and rest and let yourself slowly recover." Li Xiandao said in a relaxed manner and directly told Aoyun to leave.

"You have to abide to what you said." Aoyun stared at Li Xiandao and said weakly.

"Don't worry, the Bank of the Universe treats everyone equally. After you sign it, we will stick to the contract." Li Xiandao said firmly.

Aoyun was still not relaxed but since he signed the contract and gave the essence blood, he could only believe Li Xiandao.

10 drops of blood made him suffer greatly. But there was nothing he could do and he returned using his main body.

After sending Aoyun away, Li Xiandao instructed, "Seven, take out the nine Hellfire Dragon eggs."

Seven nodded, "Okay."

She turned around and left. Very quickly, she took the nine dragon eggs out.

A half a meter tall dragon egg, the essence within was really thick. The egg was wrapped in flames and it burnt it was being cooked.

From the outer shell of the dragon egg, Li Xiandao saw the Hellfire Dragon growing inside. Its body shape was formed and was just coiled up. Even if it was small, but one could see the fierce body and expression.

Just with its eyes closed, Li Xiandao could feel its strength. That made Li Xiandao anticipate their birth.

He took out all the Ancestral Dragon essence blood that he got and injected a drop into each dragon egg.

Nine drops were injected in the nine eggs. Li Xiandao still had one in hand which he tossed to Seven, "Keep it. Maybe we will be able to use it in the future."

Seven nodded and kept that drop into the storage.

The dragon eggs that had essence blood injected in started to blaze. It looked really majestic. In the dragon eggs, the dragon souls were roaring, giving out roars of rage. They wanted to break free of the egg and appear in the world.

Of course, the dragon egg was still firm and the Hellfire Dragons didn't hatch.

After roaring a little, the dragon souls calmed down and silently absorbed the energy from the Ancestral Dragon essence blood.

Li Xiandao looked on and smiled in satisfaction, "Come out. I want to witness how strong the ancient dragon race was."

...

Great Sky, an endless ocean... There was a restricted area and within this range, the ocean water was coral blue, the surface was calm, and there were no waves at all.

In this giant restricted area was a giant island. Trees covered a large region, there were also mountain ranges and peaks and it looked really majestic.

This was Dragon Island.

Nearby there were eight islands that formed a fresh comparison to this island.

A comparison in size.

The eight smaller islands were where the eight races stayed in.

The eight dragon races were the god dragon race, fire dragon race, water dragon race, wind dragon race, earth dragon race, lightning dragon race, heaven dragon race, and Yin Dragon race.

Each one had its own island and usually they would just gather on the main island.

In the past, dragon island was silent. Those who slept slept, those who cultivated did so and no one disturbed one another.

But the Ten Thousand Dragon Assembly was starting, so the dragons weren't able to rest. Things got noisy and they gathered on the largest island.

Ten Thousand Dragon Assembly, was a competition where dragon race children and grandchildren younger than a hundred came to fight.

After all, looking at one's descendants fight was joy and interesting to the dragon race who lead boring lives.

The dragon race placed all their attention on this and no one noticed that Blood Dragon had infiltrated the area.

Dragon Race's seals were tough for outsiders but it was simple for the blood dragon. That was because he grew up here and was really familiar with this place.

He entered the Dragon Island easily. He was about to make a move when he received Li Xiandao's orders.

"Help a flood dragon qualify and do well in the Ten Thousand Dragon Assembly to stay on Dragon Island." Li Xiandao instructed. He also told Blood Dragon about Aoyun's request.

Blood Dragon's expression turned complicated, "Ten Thousand Dragon Assembly... Remain on Dragon Island..."

10,000 years ago, Blood Dragon thought the same way. He was chased out and begged his father to let him participate in Ten Thousand Dragon Assembly. He believed that he could beat others to get a good position.

But his father coldly rejected him and even said, "You even dare to head to Ten Thousand Dragon Assembly to throw face. If you lose in the first round, I will lose all my honor."

His cold words stabbed the hearts of Blood Dragon who was still really young.

Till now, he was unable to forget about all of this.

Now, another weak bloodline flood dragon was fighting hard to remain on Dragon Island.

He was much more lucky than Blood Dragon. At least he could remain on Dragon Island to compete in this once in a lifetime Ten Thousand Dragon Assembly.

Blood Dragon had begged his father but he was unable to get such a chance.

"Are you listening?" Li Xiandao asked curiously.

"I heard it Master. I will definitely help him to get a good position to remain on the island." Blood Dragon said firmly.

Helping this kid would be helping himself fulfil a regret.

If he could join the Ten Thousand Dragon Assembly, even if he lost, he wouldn't be filled with so much regret.

“Okay, after this mission then get the Great Ancient Fallen Star back.” Li Xiandao said calmly.

“Yes Master!” Blood Dragon said respectfully.

“This kid is of the god dragon race. His brother has Ancestral Dragon bloodline, you can find them.” Li Xiandao told the news to Blood Dragon before cutting the call.

Blood Dragon raised his head and looked towards one island.

God Dragon's island.

Xiu!

Blood Dragon turned into an afterimage and disappeared in the sky, heading towards God Dragon Race's island.

On the island, a bigger sized flood dragon was cultivating. He absorbed moon and sun essence into his body to purify his bloodline.

“I am not willing to be weak.”

“I don't want to leave Dragon Island.”

“I will definitely get a good position on Ten Thousand Dragon Assembly.”

Flood Dragon gritted his teeth and absorbed spiritual energy. He didn't care about whether or not it would spoil his own body.

He was just cultivating without a care for his life.

“Hey hey hey, it is not right for you to cultivate like that.” A voice of pity sounded out.

“Who are you?” Flood Dragon opened his eyes wide and looked at the red robed male.

“I am here to change your fate. Swallow this and your bloodline will be purified. With my training, you will definitely stand out in the Ten Thousand Dragon Assembly.” Blood Dragon took out the blood pearl that he deemed as a treasure.

Before leaping through the Dragon Gate, this blood pearl was his biggest hope.

“Why are you giving this to me?” Flood Dragon didn't understand.

“Maybe because you are very similar to me in the past.” Blood Dragon smiled and said.

Chapter 426: Only One Time!

Flood Dragon looked at Blood Dragon and still decided to swallow the blood pearl in the end.

He chose to believe the Blood Dragon because he was already on the edge of the cliff. In 10 days, if he couldn't beat his opponent and couldn't advance, he would definitely be kicked out.

Dragon Island didn't let mixed-blood descendants remain.

Those who did were all ones who openly defeated pure-blood descendants on the Ten Thousand Dragon Assembly.

With this strength, they were allowed to live on Dragon Island.

Flood Dragon Ao Qiong had nothing to lose. Blood Dragon gave him a chance and he had to grab it.

He swallowed the blood pearl into his stomach. Instantly Ao Qiong felt the bloodline burning, his muscles were too and then his bones burnt.

His entire body was burning.

He felt so much pain that he felt like dying.

He hollered in rage and in that roar was suppressed pain.

"It is like I am about to die." Ao Qiong said. He found it really unbearable and wanted to just stab himself.

"Bear with it. After I refined it, the blood pearl is really strong and can change your body. It can burn all the impure parts." Blood Dragon explained.

Ao Qiong gritted his teeth but still found it hard. He roared in rage once more.

"I am really going to die!"

"If you can't take this, then scram out of Dragon Island. What Ten Thousand Dragon Assembly, what is the point of remaining on Dragon Island, aren't you just a piece of trash?" Blood Dragon's expression changed and he scolded.

Flood Dragon Ao Qiong stared angrily at Blood Dragon. He snorted and flames shot out from his nose.

He was really angry but his rational mind told him that Blood Dragon was correct.

“Even if you are able to stay on Dragon Island, you don’t have a future. You will just be a coward and you will be trash in the eyes of others. Everyone will bully you. Do you really want such a life?” Blood Dragon asked coldly.

Flood Dragon gritted his teeth and didn’t say a word.

But his expression wasn’t so rebellious anymore. He started to consider his situation.

To him, the only one that was willing to help him was this mysterious person.

If this person left, then no one else would help him.

Although this blood pearl was burning his body, it was actually improving his bloodline.

But this sort of improvement was direct.

All the impurities were being burned.

This was similar to placing Flood Dragon Ao Qiong in fire and just scorching him.

Barbecued dragon meat!

Ao Qiong gritted his teeth. For a full day and night, his body shrunk by half. The smell on his body disappeared and the impurities within were burned. They turned into black water and turned into a small pond.

In just a day, he really transformed.

“Please let me bow to you.” Ao Qiong knelt down to Blood Dragon and said gratefully.

Not only was it because his bloodline improved, but his strength did too.

The current Flood Dragon had Human Celestial cultivation.

Before the bloodline burning, he was just the peak of Great Saint.

“Now do you believe that I can let you improve quickly and stay on Dragon Island?” Blood Dragon smiled in delight.

“Yes I do. Thank you senior.” Ao Qiong nodded.

“There are now nine days until the Ten Thousand Dragon Assembly, you have enough time to improve yourself.” Blood Dragon thought about it and said.

“How shall I improve myself?” Ao Qiong asked in anticipation.

After tasting the sweetness, Ao Qiong started to look forward to Blood Dragon's ability.

Dong!

Blood Dragon took out a furnace. It caused the ground to shake as it was really heavy.

Great Sun Furnace!

"What is this for?" Ao Qiong asked in shock.

"Go in, I will stew you." Blood Dragon pointed and smiled.

Ao Qiong's expression changed and he took a step back, "Can I reject?"

A minute later, Ao Qiong's screams covered the area. It was really cold and tragic.

Stewing himself, stew for nine days. Ao Qiong's bloodline even started to give off a fragrance. He was brand new.

His bloodline after 10 days of saving and the blood pearl's purification could compare to those of normal dragon race disciples.

The night 10 days later, Ao Qiong had transformed. A cold young man looked at Blood Dragon and asked curiously, "Even if I was like you before, there was no need for you to help me, right?"

Blood Dragon said calmly, "You have a good brother."

Ao Qiong's expression changed and he asked in shock, "He sent you?"

"No, but he found me." Blood Dragon said.

Ao Qiong frowned and who knew what he was thinking.

"What price did he pay to invite you to help?" Ao Qiong asked while tearing up.

"He gave me 10 drops of Ancestral Dragon essence blood to help you pass this." Blood Dragon envied Ao Qiong.

If he had such a brother, how would he have ended up like that for over 10,000 years?

Ao Qiong smiled bitterly, "You fool."

"10 drops of ancestral dragon essence blood, his body would be badly affected." Ao Qiong felt heartpained.

“The body will be hurt and he needs to slowly recover. Within three years, he won’t be able to improve at all.” Blood Dragon said.

“I want to go see him.” Ao Qiong suddenly said.

Blood Dragon followed without saying a word.

“We were twins. Mother took 1,000 years to give birth to us but some day, his ancestral dragon bloodline woke up. I didn’t have such a thing, so I was born first. 90 years later, he was born.” Ao Qiong said while walking. Who knew whether or not he was telling him or saying so for himself?

“After Aoyun was born, he was Dragon Island’s baby. Many old ancestors came out to see him. They were from the same womb but their statuses were totally different.” Ao Qiong was really jealous but right after, his gaze turned soft.

“He respects me and is close to me. If he has the chance, he will run out to play with me. Aoyun is only 10 but has Saint Cultivation. He has never cultivated and just built his foundations. But he forms a fresh comparison with my 100 years of hard work.” Ao Qiong smiled bitterly.

Before Blood Dragon came to help him, he was at Saint Realm.

100 years, Saint Realm, that seemed okay.

But Aoyun took 10 years of foundation building and he reached Saint Realm without cultivating at all.

This comparison was a huge blow to Ao Qiong.

“I am jealous of him but I love him a lot too. He knows that he would affect me so every time he would sneak to see me and then sneak away.” Ao Qiong sighed.

“This fool, we are all Saint Realm. He didn’t cultivate and couldn’t control his aura, so I was able to notice him but I didn’t tell him.” Ao Qiong said.

“You are lucky to have such a brother. If he didn’t care about you, you would probably be chased out.” Blood Dragon said calmly.

“Yes, so I will protect my brother. Such a drop of essence blood can only happen once in his life.” Ao Qiong said firmly.

Chapter 427: I Am Your Uncle

Ao Qiong came to Aoyun’s home.

As he was the baby of the entire Dragon Island, the place he lived in was really luxurious.

At the border of a cliff, where one could see the endless oceans when one opened the door, white clouds were floating above. With the ocean below, if one stayed inside, one would feel really proud and strong.

Ao Qiong wanted to head in to see his brother but he heard sounds from within.

“Aoyun, your brother’s first opponent in the Ten Thousand Dragon Assembly is my subordinate. Should I give him a chance so that your trash brother can stay on Dragon Island?” An arrogant voice rang out.

Ao Qiong’s face sunk. He knew who that person was, the second genius on Dragon Island.

He was a so-called second genius because he would always step underneath Aoyun’s feet.

This was even more painful than being third or ten thousandth.

The other people didn’t have hope so they didn’t compete but would the second be willing to give up?

He was just one spot. If Aoyun failed or died, then he would be first.

So, the number second thought of many ideas to deal with Aoyun. This time he found a chance to threaten Aoyun.

He knew that Aoyun cared about his trash brother a lot.

Aoyun’s weak voice rang out, “Aoqing, you are wrong about that. My brother is not trash.”

“If not trash then what is he? Mixed blood flood dragon, he should have been chased out long ago. Is it because of you protecting him? Which was why he was able to remain on Dragon Island?” Aoqing said in disdain.

“If you don’t agree to my request, then I will tell my subordinate to go all out. On the Ten Thousand Dragon Assembly if one flood dragon dies, no one will care.” Aoqing said gleefully.

“Or, I could tell him to give your brother a chance. But once he advances, I am his next opponent. Should I personally kill him?” Aoqing said coldly.

Aoyun's face turned cold and he shouted, "You dare?"

"What do you think?" Aoqing was really arrogant.

"If you don't agree to give me 10 drops of your essence blood, then I will personally kill your brother.

You might have the ancestral dragon bloodline, but you can't do whatever you want. I have many ways to deal with you." Aoqing said coldly.

"The trash eavesdropping outside, you can enter," Aoqing said in disdain. He had noticed Ao Qiong long ago.

Peng!

Ao Qiong pushed the door open and walked in. He looked at Aoqing coldly, his eyes shooting out flames.

Especially when he saw that his ashen white faced brother was sitting on the bed after being bullied, Ao Qiong was furious.

If he could beat Aoqing, Ao Qiong definitely would have attacked.

"Ao Qiong, you have transformed. You must have improved a lot during this period of time. But I guess that Aoyun gave you his blood which was why you improved?" Aoqing laughed coldly. After seeing the weak Aoyun, he felt like something wasn't right.

"You don't have to worry about how I transformed. I just want to tell you that it is useless to threaten me with your brother. I am trash and so are you. We will all be trampled underneath my brother's legs and watch as he soars high above. You don't know how strong an ancestral dragon is." Ao Qiong protected his brother.

"What are you saying?" Aoqing gritted his teeth and was infuriated. He was unhappy about why the ancestral dragon bloodline was on his body. He was someone who always wanted to prove that his fire dragon bloodline wasn't any weaker and had been working hard.

Ao Qiong's words provoked him.

"I said that we are the same. We are just trash and he will step on us. But I am willing to let my brother step on me. However, you don't seem willing." Ao Qiong burst out laughing. He looked towards Aoqing in arrogance.

"You are asking for death!" Killing intent flashed in Aoqing's eyes as he grabbed. Flames spread in his palm which exploded out with huge vigour.

He and Aoqing were born 100 years ago. They cultivated hard and ate many resources. He reached stage 33 of Legend Realm and was just one step from Grotto-Heaven.

Although Ao Qiong received 10 days of extreme training, he had only just reached the first step of Legend Realm. He was no match for him at all.

Even under Aoqing's aura suppression, Ao Qiong couldn't move at all.

"Brother!" Aoyun exclaimed and looked on in worry.

Hong!

That palm didn't hit Ao Qiong's body and instead landed on Blood Dragon.

Thick flames entered Blood Dragon's body.

"Who are you?" Aoqing frowned and questioned. He didn't notice Blood Dragon previously.

With Blood Dragon's current realm, it was too easy to not be noticed.

"You are Aoqing, so is your father Ao Longyun?" Blood Dragon asked calmly.

"You know my father?" Aoqing frowned.

"As expected, like father like son, you two are really arrogant." Blood Dragon said.

"Stop acting like a senior. You ate my flaming fist and the flames will burn your organs. You are in danger." Aoqing smiled coldly.

"Flaming Fist, is it this?" Blood Dragon spat out a ball of flames that singed Aoqing's hair.

"How is that possible? Even Grotto-Heaven experts wouldn't dare to underestimate my fist." Aoqing was shocked.

"Who are you?" Aoqing scolded. His body retreated and he started to become afraid.

"I am... Your uncle. I won't kill you today, you can scam." Blood Dragon said coldly.

"Bullshit, I don't have an uncle like you. You can't even compare to my uncles." Aoqing scolded in rage. But his legs still quickly left in a well behaved manner.

"Even if I don't kill him, you should just beat him up and teach him a lesson." Ao Qiong said unhappily.

“He is my nephew, so as an uncle, how can I kill him? If I wanted to kill, I would kill his father who is my brother.” A cold smile appeared on Blood Dragon’s face.

Ao Qiong and Aoyun were totally silent.

“You are Blood Dragon?” Aoyun asked weakly.

“Right, Master sent me. Your brother’s bloodline is similar to that of normal dragon race children. I have completed Master’s promise to you. But do you want to improve further?” Blood Dragon’s lips curled up and asked.

“What do you mean?” Ao Qiong and Aoyun looked at one another and then at Blood Dragon in confusion.

“Aoqing is so arrogant. Do you want to kill him?” Blood Dragon asked Ao Qiong.

“Didn’t you say that he is your nephew?” Ao Qiong was stunned.

“I just said that I won’t kill my own descendant but you can.” Blood Dragon smiled.

“I want to kill Aoqing.” Ao Qiong said firmly.

“You want to do a trade with my brother?” Aoyun guessed right away.

“Right, I am going to trade with your brother.” Blood Dragon nodded. He was finding business for the Bank of the Universe.

Chapter 428: Mother’s Letter

Within the Bank of the Universe, Li Xiandao and Seven saw that.

“Do you accept this guest?” Seven asked.

“Why not?” Li Xiandao asked her.

“He has no watch.” Seven said.

“You can send one over. Let Blood Dragon do what he wants. Anyway, we are killing a fire dragon race descendant.” Li Xiandao didn’t care.

Fire Dragon Chief took Li Xiandao’s Great Ancient Fallen Star and didn’t want to return it which made Li Xiandao really angry.

Now that Blood Dragon was causing trouble, it was good. The fire dragon chief would know how strong he was.

“Okay then.” Seven agreed.

...

In Aoyun’s house, Ao Qiong looked at Blood Dragon and his brother in confusion and asked, “What trade?”

Buzz buzz!

A red watch appeared in mid-air and hung in front of Ao Qiong.

Blood Dragon said, “Take it and crush it. Enter the Bank of the Universe and say that you want to become strong.”

“Then, what does my brother have to give up?” Aoyun was worried.

“Life. You are from the dragon race and although your bloodline is not good, with my help, you should have 50,000 years of lifespan. Give up lifespan for cultivation and you’ll be able to defeat Aoqing.” Blood Dragon suggested.

Ao Qiong looked at the watch and said in shock, “There is such a place?”

“You will know when you arrive there.” Blood Dragon smiled.

Kacha!

Ao Qiong smashed the watch. His body slowly paled and then he disappeared from the room.

Blood Dragon and Aoyun looked on silently and didn’t say a word.

...

Within the Trading Hall of the Bank of the Universe, Li Xiandao looked at the cautious Ao Qiong and asked, “What would you like to trade?”

“Cultivation, I need cultivation.” Ao Qiong gritted his teeth.

“I can give you 1,000 years to cultivate and only 10 minutes will pass outside. How much you improve will depend on yourself.” Li Xiandao said calmly.

“Then what is the price I will have to pay?” Ao Qiong’s eyes lit up. This was a good idea but then he started to worry. How much lifespan did he have to pay?

“10,000 years!” Li Xiandao raised a finger.

Ao Qiong’s breathing stopped. 10,000 years in exchange for 1,000.

“In other words, 10,000 years is complete and the you will also pay the 1,000 you spend.” Li Xiandao added.

This meant that Li Xiandao would toss Ao Qiong into Time Hall to spend 1,000 years cultivating.

These 10,000 years were not used to buy cultivation; it was just the entry fee to Time Hall.

The time he paid to go in was paid by himself. He would also pay 1,000 and cultivate 1,000 which was 2,000 altogether.

Li Xiandao didn’t do anything. He just sold the usage fee of the Time Hall.

Just like that, he earned 10,000 years of lifespan.

It was such a good deal.

Li Xiandao couldn’t bear to do so too, otherwise, he would have asked for 20,000 years.

As he was from the dragon race, Ao Qiong had 50,000 years.

He could afford to lose 10,000 years.

But thinking about how his experiences were like the Blood Dragon’s, Li Xiandao wasn’t so greedy.

“I agree.” Ao Qiong thought about it before agreeing.

“Okay, then sign your name on the contract.” Seven passed the contract to Li Xiandao and then he passed it to Ao Qiong.

Ao Qiong was as careful as Aoyun. After checking it several times and ensuring that it was correct, he signed.

“Now, I will take 11,000 years from you. 10,000 is my payment and the 1,000 is to be burned.” Li Xiandao stood up and said.

Ao Qiong nodded and said firmly, “Okay, I am not afraid of pain.”

Li Xiandao said, "It isn't painful to take lifespan, but taking essence blood is painful. Your brother persisted 10 times because of you which really shows how much he loves you."

Li Xiandao was impressed by the brothers. One had a high status and one had a lousy bloodline but their relationship was firm and unbreakable.

As expected from two who came from the same womb.

Li Xiandao waved his sleeves after collecting the lifespan without causing any pain. He then sent Ao Qiong to the Time Hall.

Then, 1,000 years were activated.

"Work hard and cherish every moment." Li Xiandao's final sentence cut off the connection between Time Hall and the outside world.

Time passed minute by minute.

10 minutes later, Ao Qiong walked out of the Time Hall and it felt like a long time had passed.

"You can go out now." Li Xiandao sent him out. He looked at Seven, taking off his mask and smiling, "Look, so simple, I got 10,000 years just like that."

Seven rolled her eyes at Li Xiandao.

...

When Ao Qiong opened his eyes, he was back in Aoyun's room.

He looked around and his expression was one of exhaustion.

"Brother, what happened to you?" Aoyun asked worryingly.

"How long did I disappear for?" Ao Qiong asked.

"15 minutes." Aoyun thought about it and said.

"15 minutes!" Ao Qiong really believed it. He had spent a thousand years in a room filled with thick spiritual energy.

During the 1,000 years, he continued to wear Blood Dragon's blood pearl on his body.

Ao Qiong had transformed.

“Brother, I will definitely advance tomorrow and kill Aoqing.” Ao Qiong clenched his fists and said firmly.

Blood Dragon looked on and squinted his eyes.

Once Ao Qiong killed Aoqing, it would be his turn to act.

“The sky has turned dark. Rest. I will head out to do some things and I will see you tomorrow morning.” Blood Dragon thought about it and got up to leave.

...

Blood Dragon was flying around in Dragon Island. He gave off the aura of a true dragon, so everyone thought that he was from there. No one noticed that he was a Blood Dragon.

Blood Dragon came to a place where his mother lived.

Blood Dragon wanted to see his mother, the only person on Dragon Island that was good to him.

Blood Dragon only had his mother, Ao Qiong only had his brother. No wonder Blood Dragon would help Ao Qiong enter the Bank of the Universe in exchange for a chance to kill Aoqing.

The two of them were too similar.

But his mother’s original home was empty. The things in the house were covered in dust and hadn’t been repaired for a long time.

No one had lived here for a long time.

“Mother...” Blood Dragon noticed a letter at the head of the bed.

He opened it and in it, it said that because it was hidden from her, she didn’t know that Blood Dragon had been chased out. When she found out, she cut off all ties with the fire race chief. She left Dragon Island without taking anything.

Blood Dragon looked on and teared up. One sentence in the letter touched him.

“My son and I are connected by blood. He is my own flesh. He is part of me, a part that can never be taken away. I know my son. He definitely has the skill and he will rise up. When he returns to Dragon Island one day, he will announce his arrival with his head high. This letter is for him.”

Blood Dragon instantly broke down. He trembled as he tucked away the letter. He wiped his tears and gritted his teeth, "Mother, tomorrow I will let them know that you didn't give birth to a piece of trash. You gave birth to the second Blood Dragon in dragon race history!"

Chapter 429: Ten Thousand Dragon Assembly!

Dang! Dang! Dang!

Three loud bells announced the start of the Ten Thousand Dragon Assembly.

Hong long long!

Numerous true dragons, god dragons, and baby dragons flew out. They were all really emotional. The once in a century Ten Thousand Dragon Assembly was about to begin.

On the biggest island, there was a huge, majestic palace. It was just spectacular, especially the two long jade white stairs. At its sides were many weapons.

Blades, axes, swords, spears, halberds, hammers....

Those weapons were all enormous. Just one look and one felt like one had come to the world of giants.

This was the Ten Thousand Dragon Hall!

There were just over 10,000 people from all eight dragon races which was why Ten Thousand Dragon Assembly was befitting of the occasion.

In front of the palace were eight giant thrones which represented the eight chiefs.

Below it were many other seats where the true dragons that could transform could sit down.

Those who couldn't were coiled up at the back. They had their own landing spots to look on from afar.

This exciting assembly caused many dragon race members to fly about in the sky.

Dragons that were a rarity all appeared now.

Fire Dragon! God Dragon! Earth Dragon! Water Dragon! Wind Dragon! Wait...

All of them roared in the sky and made loud sounds.

Dong dong dong!

The three bells made them quieten down. One after another they transformed into humans and sat on their seats.

In the distance, the eight chiefs came.

God Dragon Race, Fire Dragon Race, Water Dragon Race, Wind Dragon Race, Earth Dragon Race, Lightning Dragon Race, Heaven Dragon Race, and Yin Dragon Race.

Out of the eight, the God Dragon Race chief was number one, Heaven Dragon Race was second. The two of them sat at the center.

The others all landed on their seats. The fire dragon chief was a solemn-looking, middle-aged man. He was muscular and his muscles filled up his clothing. He sat there squinting his eyes with no expression at all.

From afar, Blood Dragon could tell with one look that this was his father.

It was the person who gave him life but also personally pushed him into the abyss.

He knew that the other brothers worked together to suppress him but he didn't punish them and even acted as if nothing had happened.

This father was really cold-blooded.

No one noticed Blood Dragon as they were all looking at the eight chiefs. They obviously didn't care who each and every person looking at them was.

"Ten Thousand Dragon Assembly begin!" An old man walked up the white stairs and announced.

Shua!

All of a sudden, everyone looked towards the battlefield beneath the stairs.

It was a platform that was dyed with blood. It looked ancient and gave off an old and despondent aura.

A blood dyed stage with weapons all around!

A palace that rested on a cliff, a vast battlefield!

The white jade stairs looked like the rich family missus, really gentle and beautiful.

The platform looked like a general that defended the land, giving off a fierce and valiant aura.

"The competition will begin. Let's first invite Ao Qiong and Ao Ti up!" The old man announced.

"Brother, you are first." Ao Yun said with a weird expression.

"First is good, I can kill him and then ask to challenge Ao Qing." Ao Qiong stood up and walked out.

"Don't hold back. Kill those who you should kill. With me behind you, if anything happens I will protect you!" Blood Dragon sent a message into Ao Qiong's ear. His tone was really cold.

He wanted Ao Qiong to kill.

Ao Qiong stopped. But right away, he continued to this battlefield.

He stood there alone and waited for Ao Ti.

Out of the eight chiefs, when the God Race chief saw his son walk up, his eyes flashed but he didn't say a word at all.

"God Race chief, your son is sent first to throw face, won't that affect your pride?" Fire Dragon Chief giggled. It looked like he was asking, but actually, he was mocking him.

"I am not as vicious as you, not giving your own son a chance." God Dragon Race chief said calmly.

"What chance?" Fire Dragon Chief smiled in disdain, "A chance to throw face?"

"Your son will be throwing his face right away. If I agreed then I'll be the one losing honor." Fire Dragon Chief said in glee.

The other chiefs looked on and didn't say a word.

God Dragon Chief's expression became ugly. He was infuriated by the Fire Dragon Chief but he still looked on calmly.

"I am able to afford to give Ao Qiong a chance. To lose face for my own son is okay. Our Fire Dragon Chief is more of an animal than wild beasts, I am impressed." God Dragon Chief looked at the Fire Dragon Chief and mocked.

He was mocking the Fire Dragon Chief for not giving his own son a chance and chasing him out right away.

Fire Dragon Chief looked on with a dark expression.

On the battlefield, Ao Ti arrived. Before coming, Ao Qing specially called him over and gave some instructions. He then coldly looked at Ao Qiong and did a slight swipe on his neck.

Your life was gone!

Aoqing was warning Ao Qiong.

“You are Ao Qiong. My brother told me to beat you up and trash your dantian so that you will be a handicap for the rest of your life.” Ao Ti laughed coldly.

Ao Qiong looked on expressionlessly, “Are you finished?”

“You are pretty... Ah! ! !” Ao Ti was furious. He slapped but instantly, Ao Qiong moved. The power that was hidden beneath a volcano exploded.

This was power that he didn’t expect. Even the eight chiefs didn’t notice it.

They could detect it but because they didn’t bother to look at Ao Qiong they didn’t pick up the enormous power on Ao Qiong’s body.

At that moment, there was a crack. Ao Ti’s head was snapped off by Ao Qiong. His soul was shattered too.

Ao Ti, dead!

He was so fast that everyone couldn’t even react. In the blink of an eye, Ao Ti was dead?

Ao Qing stood up and said in shock, “Legend Realm stage 33!”

Ao Qiong had used stage 33 strength.

That was really terrifying and really strong. Wouldn’t it be easy to kill Ao Ti who was just at stage 20.

“No, not stage 30, Ao Qiong is still hiding his strength.” Heaven Dragon Chief saw through it and said with certainty.

Although he didn’t know what secret cultivation method Ao Qiong used, but since all the chiefs couldn’t tell, that meant that it was quite amazing.

“What is he doing? He killed a dragon race descendent just like that, he is a monster, he must be punished.” Fire Dragon Chief hollered in rage.

“What did your grandson tell Ao Ti, you don’t need us to repeat it right?” God Dragon Chief said coldly.

“Since that is the case, Ao Qing, you are his next opponent. Go, kill him.” Fire Dragon Chief was really explosive and hollered right away.

“You...” God Dragon Chief stared at Fire Dragon Chief in anger.

The other chiefs looked unhappily at the Fire Dragon Chief

“He was the one who killed first, you can’t blame me.” Fire Dragon Chief said coldly and he didn’t back off at all.

He believed his grandson would be able to kill Ao Qiong.

Ao Qing heard his grandfather’s words and became pumped up. He flew excitedly onto the battlefield. He said coldly, “I am here to kill you!”

Ao Qiong relaxed and smiled coldly, “I have been waiting for you.”

Chapter 430: Big Brother, You Remember Me, Right?

Aoqing mocked, “Even if your cultivation is at Legend Realm Stage 33, in my eyes, it is only that.”

“Regardless, you will know when you try.” Ao Qiong said calmly.

“Okay, I will kill you now.”Aoqing stepped out. The entire battlefield shook and a storm surged. Raging flames appeared on his body and he transformed into a fire dragon as he charged forwards.

“Blazing Flame Spark!”

Aoqing hollered and charged out. His flames gathered to form a fire dragon which wrapped up Aoqing.

Hong long long!

The scenes looked shocking. A huge fire dragon opening his claws and looked like he was about to swallow someone up.

Fire Dragon Chief looked at such scenes and smiled with satisfaction, “This is the difference between pure blood and mixed blood.”

God Dragon Chief smiled coldly, "You hadn't even looked at Ao Qiong from the start. If you did you wouldn't say such things."

Fire Dragon Chief frowned, what did he mean?

He couldn't help but look towards Ao Qiong.

On first look, it was just ordinary Legend Realm Stage 33 strength.

But after he stared for two seconds, he saw through it.

Grotto-Heaven Realm!

Fire Dragon Chief's expression changed and he said in disbelief, "Impossible!"

In the next second, Ao Qiong's strength exploded.

"In the past few days, apart from stabilizing my bloodline and increasing my cultivation, I trained a killing move." Ao Qiong said coldly.

"Now, taste the World Breaking Strike."

At that moment, Ao Qiong's realm exploded, Grotto-Heaven Realm.

Grotto-Heaven Realm wasn't much on Dragon Island.

But at that moment, everyone was shocked.

It was as if a volcano was suddenly erupting. Naturally, you would be shocked.

This was Ao Qiong right now.

His strength exploded. At that moment, his body and his shadow separated. The shadow remained on the spot but his body appeared in mid-air. His full strength was condensed in his fingers.

That strike aimed right at Aoqing's brow.

Puchi!

Blood splattered in mid-air. The fire dragon roared in rage and his body went soft.

Ao Qing's body stopped in mid-air and Ao Qiong's fingers hit his brow.

A bloody hole appeared.

This blood hole was the wound that killed Ao Qing.

Ao Qing was filled with disbelief as he continued to stare at Ao Qiong. He was confused. This mixed blood Ao Qiong could kill him?

Ao Qiong wouldn't answer that. He just looked on silently, and in his heart, he felt like everything was worth it.

He spent 10,000 years of his lifespan in exchange for this power. It allowed him to remain standing while Aoqing fell.

Peng!

When he fell it was like someone else's heart was falling too.

Fire Dragon Chief stumbled and his eyes were bloodshot and filled with rage. He said, "Impossible."

"The truth is right there, you saw it personally so how can it be fake?" God Dragon Chief said coldly.

"Ao Qiong's body is definitely possessed. I will kill this monster and everything will be clear." A middle-aged man strolled over and stared at Ao Qiong. He didn't say a word and just slapped.

Hong long long!

This was Emperor Realm strength. Ao Qiong couldn't block it at all.

"Ao Longyun, you are too arrogant." God Race Chief was furious and wanted to make a move.

But Fire Dragon Chief stopped him and said with a solemn expression, "I think he is right. Everyone knows what Ao Qiong was like in the past. He was a piece of trash. Now that he can kill Aoqing, if he wasn't possessed, then what is it?"

"You are asking for death. Do you want to fight me?" God Dragon Chief stared at Fire Dragon Chief in fury.

Fire Dragon Chief smiled coldly. He didn't need to delay him for too long, just a second was enough.

His son Ao Longyun would be able to kill Ao Qiong.

But a second passed.

Ao Longyun didn't kill Ao Qiong and he was instead smacked away by a force.

Right, Emperor Realm Ao Longyun was struck aside.

The slap that he gave out with rage caused the sky to change. The sun became dim and even the sky felt like it was about to collapse.

Ao Qiong couldn't block such an attack.

But when he was in despair, a blood-red body appeared in front of him. He said coldly, "Scram!"

Hong!

A giant force smashed into Ao Longyun's body like a pillar of water facing an iron hammer, splattering all around.

Pu!

Ao Longyun's organs were badly damaged and he looked towards Blood Dragon in shock and rage.

"Who are you?" Ao Longyun was furious. His temper exploded and he couldn't suppress his rage.

Fire Dragon Race people were basically like that; they all had hot tempers.

Ao Longyun and Aoqing were the same.

Son was killed so Ao Longyun was furious. He ran out and wanted to smack Ao Qiong right away.

But to the Blood Dragon, this slap had no damage at all and didn't even shatter Blood Dragon's defensive shield.

At that moment, everyone focused on Blood Dragon, including the eight chiefs.

Fire Dragon Chief saw that his son failed to kill Ao Qiong and instantly he turned his head and saw that his son was struck aside.

Moreover, the person who forced him away didn't even attack.

This...

Fire Dragon Chief was astonished.

His son was Emperor Realm first stage.

“He isn’t from Dragon Island.” Fire Dragon Chief looked closely and was furious. He was about to attack Blood Dragon.

“Wait and take a look.” This time the God Dragon Chief stopped him. He grabbed the Fire Dragon Chief and said coldly.

“You...” Fire Dragon Chief stared. What comes around goes around. Who knew that karma would be so quick.

“An outsider appeared on Dragon Island!” Fire Dragon Chief was furious.

God Dragon Chief looked at Blood Dragon and his lips curled up, “Are you so sure he is an outsider?”

Fire Dragon Chief was stunned and he looked towards Blood Dragon.

He didn’t know him!

He was not from Dragon Island!

But after looking closely, the Fire Dragon Chief frowned.

He suddenly realized that this young man was similar to his lover.

That lover left 10,000 years ago and Fire Dragon Chief had long forgotten about it. Now that he looked at Blood Dragon, he remembered.

“No...” Fire Dragon Chief shook his head and insisted on not believing in what he said.

On the battlefield, after Blood Dragon struck Ao Longyun aside, he stepped forwards. Blood surged out from his back, turning into an endless blood ocean. It spread across the battlefield and waves started to spread.

Hong long long!

This was a really terrifying scene. The blood didn’t have a gory stench and was instead fragrant. If one took in a deep breath, one wouldn’t be able to forget it.

The blood waves pushed the blood dragon as he looked coldly at Ao Longyun, “10,000 years have passed. Brother really has a bad memory; you actually forgot about me.”

Chapter 431: Killing Ao Longyun!

The blood ocean raged, shocking everyone's hearts. Everyone on Dragon Island stood up in astonishment.

But the person that was most shocked out of all was Ao Longyun and the Fire Dragon Chief.

What did they hear?

Ao Longyun's pupils opened wide and in it was all shock and terror. He hollered, "What are you saying? Who is your brother?"

Hong long long!

Giant waves started to stir in the blood ocean which represented the fact that Blood Dragon's heart wasn't calm at all.

Even if Blood Dragon was expressionless, but he still wasn't able to calm down. 10,000 years of hatred that had accumulated was still a huge amount.

"10,000 years ago, I was your tenth brother. You were the one that pushed me to the Ten Lands, have you forgotten already?" Blood Dragon said coldly.

"My good brother!" Blood Dragon laughed but that smile was so cold and was filled with killing intent.

Now, Ao Longyun totally believed Blood Dragon, that he was tenth brother that everyone had looked down on 10,000 years ago.

"You... You should have died in the Ten Lands." Ao Longyun didn't understand.

"Right, I should have but I am tough. I survived and my life is getting better and better." Blood Dragon laughed coldly.

"Ao Lai, what are you doing? stop." Fire Dragon Chief's cold voice rang out. He was sure that Blood Dragon was his most useless son. He behaved like a father once more, directly scolding him.

He was like that usually. He would just directly scold others, regardless of whether they were in a good mood, or whether the location was suitable.

Fire Dragon Chief looked at Blood Dragon with an unfriendly gaze. *You are my son but you are spoiling the situation here. Do you think that you can disobey me just because you transformed?*

Blood Dragon hollered in rage, directly reverting back to his main body. He was enormous. The blood dragon appeared in the air, absorbing all the blood ocean into his body.

“Scram!!!”

This holler stunned all the dragon race descendants around including the eight chiefs. All of them looked at the Blood Dragon in shock.

“I wasn’t your son 10,000 years ago. You decided to chase me away and from that moment on, our relationship was gone. Why are you acting like my father now? You have no right to do so.” Blood Dragon shouted in anger. He grabbed the ground with his claws and caught Ao Longyun.

Ao Longyun who was at stage one of Emperor Realm turned into his real body, a huge fire dragon as he tried to struggle.

“If you continue struggling, I will shatter your head!” Blood Dragon lowered his head coldly as he stared at Ao Longyun who was in pain. His eyes were filled with cold killing intent, scaring Ao Longyun so badly that he didn’t dare to move.

Kacha!

Blood Dragon’s claws were really sharp, instantly shattering Ao Longyun’s armor. His claw stabbed into his flesh and blood flowed out.

Those scenes were really shocking. A 1,000 foot blood dragon stood in the middle of the battlefield. Its sharp claws pressed onto a fire dragon such that Ao Longyun couldn’t move at all.

This was a stage one Emperor Realm fire dragon, and in Blood Dragon’s hands, he had no way to retaliate at all.

All of this happened in the blink of an eye. The Fire Dragon Chief was furious, especially since Blood Dragon scolded him without giving him any face at all.

“You brat, I really shouldn’t have given birth to you.” Fire Dragon Chief gritted his teeth.

“If you knew that you had no ability to be a father and if you didn’t know how to teach a child, then you shouldn’t have had one, in case you hurt the child. You are a trash father. You are hot-tempered and only know how to scold, punish, insult, beat people. What else do you know?” Blood Dragon said coldly as he stared at the Fire Dragon Chief.

"I am going to kill you. I can give you life and I can take it away too." Fire Dragon Chief was furious. His nose was spitting out flames. He was ablaze. His anger couldn't be suppressed.

He didn't think that this was caused by his own problems. He only felt that Blood Dragon couldn't be taught, so he should have beat him up until he listened.

In this world, there was no kid that was not afraid of being beaten.

This was Fire Dragon Chief's educating method.

"Do you think that just because you have awakened the Blood Dragon bloodline that you can face off against me? You are far from it!" Fire Dragon Chief said coldly. He recognized Blood Dragon's main body and also knew that he was the one who killed Long Younan at the dragon gate.

But so what?

He was his father? What did he think he could do?

Fire Dragon Chief wanted to suppress Blood Dragon, he said coldly, "It is such a waste to give you the Blood Dragon bloodline. I am going to extract it and give it to other better kids. You have no right to possess it."

"Hahaha, I have no right to have it?" Blood Dragon laughed out loud. His heart was dripping blood. At that moment, his heart was totally cold.

"I will let you see whether or not I am worthy of it." Blood Dragon said coldly.

Kacha!

Blood Dragon flew up, using his claws to smash Ao Longyun's head in front of everyone.

Ao Longyun didn't even have the chance to scream.

Fire Dragon Chief was stunned. He didn't expect Blood Dragon to be so crazy.

When the God Dragon Chief saw this, he was astonished. He started to question whether he had treated Ao Qiong a little unfairly.

Although Ao Yuntian was the most talented, they were both his children. Ao Qiong worked hard too, so in the future, he had to treat him better.

God Dragon Chief had his own thoughts while on the other side, the Fire Dragon Chief was about to go crazy. He witnessed his eldest son getting killed by Blood Dragon. His rage charged to his head and his eyes were about to pop out of their sockets.

“Kong!!”

Fire Dragon Chief flew out and reverted to his main body which was an enormous fire dragon buffed with blazing firms. Along with his anger, it felt like he was invincible.

Hong!

Fire Dragon Chief charged out and flew really quickly. He opened his mouth and hellfire flames spat out, drowning the Blood Dragon.

It felt like the entire sky was in flames. The blazing flames felt unstoppable and it instantly suppressed Blood Dragon’s aura.

“Fire Dragon Chief is at Destiny Realm. Although he is just at stage one, it is still Destiny Realm. He is no match for Blood Dragon.” Wind Dragon Chief said calmly.

“Why do I feel that Fire Dragon Chief is going to lose face instead?” Heaven Dragon Chief was on the fence, smiling like this matter didn’t concern him.

“Blood Dragon’s strength is not so simple.” Lightning Dragon Chief frowned.

“Fire Dragon Chief is so hot-tempered. If he had left this kid, this Blood Dragon will be our trump card and our blessing. I have only heard of Blood Dragons in legends and this is the first time I saw one.” Water Dragon Chief looked on curiously. He wanted to see how strong Blood Dragon was.

“I feel like Fire Dragon Chief is going to lose.” Yin Dragon Chief frowned.

“Impossible, Blood Dragon is only peak Emperor Realm.” Earth Dragon Chief disagreed right away.

“But it is a Blood Dragon!” Yin Dragon Chief sighed. He had many thoughts in his heart that he didn’t say out.

Blood Dragon’s strength was only recorded in the dragon race records and was only described by the words, unbelievable.

“They have started fighting.” God Dragon Chief squinted his eyes and looked carefully.

Chapter 432: Kill Him!

Fire Dragon Chief's hellfire flames were spat out but it didn't burn Blood Dragon at all. He used his invincible state to counter the flames.

"Your flames are totally useless to me. Today, I came here to find you." Blood Dragon's gaze was filled with determination as he looked at Fire Dragon Chief. 10,000 years ago, he needed to look up to him. 10,000 years later, he wasn't as weak anymore.

Fire Dragon Chief's gaze was filled with rage as he said coldly, "Since you dare to come back, I dare to kill you."

Keng!

A giant sword appeared. Many phenomenons appeared around the sword body that were strong and scary. This sword was different from the usual long sword. This was a really majestic long sword.

Great Ancient Fallen Star!

This was the celestial artifact that Li Xiandao had been missing. It had been borrowed by Jin Wudi and then the Fire Dragon Chief took it, refined it, and made it his own celestial artifact.

Hong!

The appearance of the Great Ancient Fallen Star caused numerous cracks to appear in the sky. This celestial artifact was really strong and was also how the Fire Dragon Chief was able to lead the fire dragon race even though he was at the first stage of Destiny Realm.

With Great Ancient Fallen Star in hand, the Fire Dragon Chief was really strong and could easily deal with second and third-stage Destiny Realms.

This gave him confidence. Usually, he wouldn't take out the Great Ancient Fallen Star. This time he only did so because Blood Dragon had given him too much pressure.

"Now kneel and admit your mistakes. Let me suck out your blood." Fire Dragon Chief confidently turned into human form and grabbed Great Ancient Fallen Star. He pointed at Blood Dragon and said coldly.

He didn't like this kid at all.

No, this mixed blood.

Even if Blood Dragon completed his evolution, in the Fire Dragon Chief's eyes he was still a mixed blood.

When one hated someone else, even if he became really good, one would still be annoyed by him.

Blood Dragon also turned into human form and laughed coldly, "Do you know why I returned to Dragon Island?"

"Isn't it because you awakened the Blood Dragon bloodline and wanted to brag?" Fire Dragon Chief replied in disdain.

"No, it is just too low class to brag to all of you. I came back for your Great Ancient Fallen Star." Blood Dragon shook his head and looked at the Great Ancient Fallen Star.

This was the mission that Master gave him. Blood Dragon had to complete it.

Fire Dragon Chief's eyes turned cold, "You have your eyes on my Great Ancient Fallen Star?"

"This is not yours." Blood Dragon said calmly.

"I have held Great Ancient Fallen Star for over 10,000 years and you say that it is not mine?" Fire Dragon Chief burst out laughing.

"You took it from Jin Wudi and didn't want to return it to him. During these 10,000 years, you have never refined this celestial artifact. Don't you think that something is stopping you?" Blood Dragon laughed coldly.

Fire Dragon Chief's expression changed. He frowned and stared at Blood Dragon with a dark gaze, "How did you know that?"

"I told you, this Great Ancient Fallen Star isn't yours, so naturally, you can't totally refine it." Blood Dragon gave a mocking laugh and said.

"If it is not mine, then is it yours?" Fire Dragon Chief laughed out loud.

"It is not mine but this Great Ancient Fallen Star belongs to my Master." Blood Dragon said proudly. When he talked about Master, he was extremely proud.

"You have recognized a master and are willing to be a dog?" Fire Dragon Chief said in disdain.

"My Master is noble, strong, and you can't understand his magnanimity. Give Great Ancient Fallen Star to me or I won't hold back." Blood Dragon reached out and said coldly.

“Go and die you piece of trash that is willing to be a slave.” Fire Dragon Chief hollered in rage. He reached out and grabbed the Great Ancient Fallen Star before slashing.

Keng!

A streak of sharp sword energy swept the sky and slashed down.

“Blood Shadow!”

Blood Dragon hollered. His body turned into numerous drops of blood which flew over.

Each drop of blood was a blood dragon. If one of these blood drops hit the Fire Dragon Chief, it would immediately merge with him.

Kill Fire Dragon Chief.

In the sky, both sides started fighting with one another.

The seven other chiefs looked on solemnly.

But no one helped. This was a problem between the Fire Dragon Chief and his son. Everyone knew that and no one wanted to interfere.

Fire Dragon Chief looked on coldly. When the blood shadow pounced over, he waved the Great Ancient Fallen Star to slash down.

“Ten Thousand Dao Suppression!”

Hong long long!

In the sky, a mysterious word appeared. All these words were instantiations of the Dao. Dao suppression was the Fire Dragon Chief using the Dao he comprehended to suppress the Blood Dragon.

Numerous blood drops couldn’t even get close to the fire dragon chief. The moment he entered the region, he would be suppressed. The drops that were suppressed would retreat and accumulate to form Blood Dragon’s body.

Blood Dragon’s expression didn’t change. he reached towards the sky and grabbed. With a loud explosion, the Great Sun Furnace landed.

You had a celestial artifact but don’t I have one too?

Hong long long!

Great Sun Furnace expanded and covered a 1,000-foot range as it smashed forwards.

The energy waves were shocking and this caused the Fire Dragon Chief's expression to change. He retreated and blocked using the Great Ancient Fallen Star.

Dang!

A shocking explosion spread all around. The Great Sun Furnace could not only help to stew him, but it could be used to defend, smash others, refine pills, refine artifacts...

This was a really useful celestial artifact.

At that moment, it clashed with the Great Ancient Fallen Star. The giant shockwave caused the Great Sun Furnace to shake and return to Blood Dragon's brow.

Fire Dragon Chief retreated several steps and his face was ashen white. His hand that was holding the sword trembled. Just now, both Great Sun Furnace and Great Ancient Fallen Star's celestial seals were open.

It wasn't the first seal but the third one!

The two of them both activated the third seal. Celestial Artifact's initial strength was demonstrated. It was invincible and really terrifying.

"You actually have such a strong celestial artifact?" Fire Dragon Chief gritted his teeth.

He was a Destiny Realm Fire Dragon and he couldn't take down Blood Dragon who was peak Emperor Realm. He was in a really bad mood.

Fire Dragon Chief didn't expect Blood Dragon to be so strong.

He thought that Blood Dragon was a normal peak Emperor. Who knew that his strength would increase so much after transforming?

Blood Dragon looked at the Fire Dragon Chief coldly and Li Xiandao's voice rang out in his ear.

"Kill him and bring Great Ancient Fallen Star back."

Blood Dragon hollered, "Die!"

Hong long long!

At that moment, Blood Dragon didn't hide his strength anymore. The might of the Blood Dragon was on full display and he instantly appeared in front of the Fire Dragon Chief. He started to absorb his blood to heal himself.

Peng peng peng!

Three consecutive fists smashed down without any reason.

Chapter 433: You Can't Kill My Men!

Peng peng peng!

Blood Dragon got close and he went mad. He didn't care about his body at all and just absorbed Fire Dragon Chief's energy to replenish his losses.

"Die!" Fire Dragon Chief didn't back off. He was at Destiny Realm. He was also Blood Dragon's father. If he retreated, then wouldn't he lose his honor?

The entire Dragon Island was paying attention to the situation. Fire Dragon Chief really went all out.

Since he couldn't capture Blood Dragon, then he would just kill him.

At that moment, the Great Ancient Fallen Star slashed. A bright light and sword energy exploded. It was really dazzling like the sword had landed on an entire world.

This was a supreme technique. It was really terrifying and was also Fire Dragon Chief's special move.

Weng weng weng!

The sword was as exquisite as a flower. The giant Great Ancient Fallen Star was actually able to sew a flower in the sky. From this, one could tell how good one's control was.

In the next second, the world that the sword birthed was extremely colorful and bright. It exploded right in front of Blood Dragon.

Hong!

Blood Dragon's body was struck. His fist brought with it terrifying strength and smashed onto this world. The enormous energy swept around and spread out.

Hong long long!

The shockwaves swept the land. Fire Dragon Chief charged in holding the sword. Sword energy wrapped around it and he sliced down viciously.

"Die!"

Fire Dragon Chief's expression was cold. He and Blood Dragon had no kinship at all. They hated and wanted to kill one another.

Blood Dragon saw that. He didn't dodge and didn't fear anything. He just charged forwards without a care in the world.

"Great Blood Dragon Technique!"

Blood Dragon used the blood dragon's hidden technique. He gathered all his blood in one spot and then absorbed the enemy's thick blood. The energy around him would be activated, causing the void to rip apart.

He pressed down and with a crack, the space shattered.

In the next second, the Great Sun Furnace that was floating on Blood Dragon's head had three celestial seals activated.

Hong long long!

Great Sun Furnace protected the body, Great Blood Dragon Technique to attack. This was Blood Dragon's complete victory form.

Dang!

Fire Dragon Chief's Great Ancient Fallen Star slashed down. It brought with it extremely sharp and terrifying sword energy like anything could be sliced apart.

But when Great Ancient Fallen Star struck the Great Sun Furnace, it trembled, giving out a crisp ring that reverberated throughout the sky.

The Great Ancient Fallen Star was really strong.

But unfortunately, Fire Dragon Chief didn't refine it. This resulted in the Great Sun Furnace shaking and nearly collapsing.

But it was still lacking a little.

Great Ancient Fallen Star that Fire Dragon Chief placed his hopes on didn't shatter the Great Sun Furnace.

At the same time, Blood Dragon's attack came.

Blood Dragon had Great Sun Furnace protecting his body but Fire Dragon Chief didn't. He only had the Great Ancient Fallen Star.

But Great Ancient Fallen Star was used to attack Blood Dragon's Great Sun Furnace.

So, he was totally defenseless.

Hong long long!

In an instant, the entire space exploded. Blood Dragon's maniacal method caused several cracks to appear in the sky like it was about to be split into half. The longest one was 1,000 feet long like a bottomless abyss opening up.

These were scenes of the end of the world.

In the next second, Fire Dragon Chief transformed back into his main form. Blood Dragon smashed right into Fire Dragon Chief's dantian.

Peng!

The dantian exploded. Fire Dragon Chief's body shook and his entire body was spitting out blood.

He wasn't able to pick up the Great Ancient Fallen Star. It fell to the ground and stabbed into the center of the battlefield.

Hong long long!

Fire Dragon Chief himself fell onto the jade white stairs.

The jade white stairs were now dyed red. It was really outstanding and also really terrifying.

It was like the day of a daughter's wedding. On that joyous day, the husband was killed and she just stood alone in a bloody room.

Fortunately, Fire Dragon Chief's body was red and that covered those scenes. It was quite a good fit.

As for Blood Dragon, he landed and looked around. He took in a deep breath and said, "I told you that Great Sun Furnace wasn't yours. It is impossible for you to use it to shatter my Great Sun Furnace."

Cough cough!

Fire Dragon Chief picked up his only remaining strength. At that moment, he shouted, "Do you really think that you can leave Dragon Island?"

Blood Dragon looked around. Apart from the Fire Dragon Race staring at him angrily, the other seven races just looked on silently.

None of the other seven chiefs stepped out.

Fire Dragon Chief was too hot-tempered and had offended all of them.

Moreover, this was Fire Dragon Chief's family matter and their race wasn't affected, so why would they join in?

Blood Dragon pulled out the Great Ancient Fallen Star and left. He didn't care about the vicious expression of the Fire Dragon Chief.

"You are my father and gave me life. Although I don't like you, I won't kill you. Now that I've shattered your dantian, you will be trash for the rest of your life. That is my revenge on you." Blood Dragon said while walking. He had a cold expression on his face.

The dragons around didn't dare to stop him.

"Who let you leave?" In the endless ocean, a scorching aura rose up like an underwater volcano was erupting. At that moment, a huge fire dragon appeared and said coldly.

Hong long long!

The ocean surface riled up and huge waves appeared. But in front of the huge fire dragon, it wasn't able to do anything.

The Fire Dragon Chief was huge enough but this fire dragon was three times his size. His aura was as deep as an ocean and one couldn't see through him at all.

"It's the fire dragon old ancestor, a Destiny Realm stage six expert." God Dragon Chief said.

"Fire Dragon Old Ancestor supports the Fire Dragon Chief and has been cultivating in the underwater volcano. Who knew that he would be awakened?" Yin Dragon Chief said in shock.

"Can Blood Dragon leave?" Heaven Dragon Chief said curiously.

"What?" Water Dragon Chief asked.

"That is bad, Blood Dragon will still be subdued." Wind Dragon Chief sighed.

"All of you forget that Blood Dragon has a Master." Lightning Dragon Chief suddenly said.

The moment he said this, the few chiefs looked on with focus.

As for helping the Fire Dragon Chief take revenge, they didn't care at all.

Blood Dragon looked at Fire Dragon Old Ancestor's huge body and said with a cold expression, "Old Ancestor, do you want to kill me?"

"Right, you are unfilial and impolite. You killed my Fire Dragon Chief chief so you have to pay the price." Fire Dragon Old Ancestor said coldly.

"Then, how are you going to deal with me?" Blood Dragon gave a mocking laugh.

"Kill you, suck out your blood and pass it to him." Fire Dragon Old Ancestor said solemnly.

Fire Dragon Chief whose dantian was shattered and hope was lost suddenly felt really emotional.

But before his words were finished, a cold voice rang out.

"You can't kill my men!" A guy appeared in front of Blood Dragon. He wore a mask and he seemed really calm.

Chapter 434: Antagonists Die From...

Li Xiandao appeared and faced up against the Fire Dragon Old Ancestor straight up. As he was wearing a mask, Fire Dragon Old Ancestor could only see Li Xiandao's calm eyes.

There was no fear in those eyes, no shock, and no worry.

There was only calmness.

Fire Dragon Old Ancestor, whose body was a few thousand feet long, suppressed the entire space with his aura. Numerous dragons felt the scorching air which made it tough on their lungs.

This was because the Fire Dragon Old Ancestor's body temperature was really high.

So, it felt like the air around was being ignited. When one breathed it into the body, it was like one had breathed in hot steam. It was just so unbearable.

This was also because Fire Dragon Old Ancestor wasn't looking at them and was just staring at Li Xiandao.

But Li Xiandao was still really calm. He held his hands by his back. He wore a black robe which made him look really mysterious but calm.

Li Xiandao didn't say anything.

Fire Dragon Old Ancestor didn't continue either.

"Greetings Master!" Blood Dragon knelt down emotionally and handed the Great Ancient Fallen Star over.

"Master, I didn't let you down, I have gotten the Great Ancient Fallen Star." Blood Dragon said respectfully.

Everyone around was silent.

Blood Dragon who was so majestic and valiant actually knelt down on both knees and respectfully called this mysterious person Master.

Everyone could tell that he was totally respectful. Blood Dragon was not only totally respectful, but he viewed Li Xiandao as the only leader in his life.

Everyone looked towards Li Xiandao. They were all thinking, who was this mysterious person?

Li Xiandao didn't care about those gazes. He just looked towards Great Ancient Fallen Star.

Li Xiandao had heard Seven mention this celestial artifact before. It was a really terrifying celestial artifact and was a decent one in the Celestial World.

Seven suggested that once he got the Great Ancient Fallen Star back, he would use it as a weapon.

At the moment, Li Xiandao was still without a weapon. He hadn't had a weapon since the beginning.

He had thick sword energy, sword intent, and the dao.

But he didn't have a weapon.

After Zhong Zi Qi gave Li Xiandao those dozens of celestial artifacts, Li Xiandao wanted to choose one of them as his weapon.

But Seven suggested Great Ancient Fallen Star.

This was the reason why Li Xiandao had a deep impression of the Great Ancient Fallen Star.

Even if it wasn't good to use, since Seven recommended it, Li Xiandao would have to choose it.

Under everyone's gaze, Li Xiandao placed his fingers onto the sword handle.

This was a two-meter long giant sword. The sword was really sharp and a dragon and phoenix were carved on the handle. Many celestial seals were tangled together within the sword body. It was really shocking and also really strong.

Li Xiandao held the Great Ancient Fallen Star and his true qi surged in.

Like a dragon sweeping a cave, he wiped clear all of Fire Dragon Chief's marks in the Great Ancient Fallen Star.

Hong long long!

Under Li Xiandao's sword energy hits, Fire Dragon Chief's marks were totally defenseless. They swiftly broke down, and in a short few seconds, Li Xiandao was under full control.

Pu!

Fire Dragon Chief spat out blood from his heart once more. His head hurt so badly that it felt like it was about to rip apart. The Great Ancient Fallen Star that he had refined for close to 10,000 years was gone just like that.

Moreover, in the next second, he was infuriated even more so by the fact that the Great Ancient Fallen Star seemed to know that its real Master was here. It gave out a delighted sword ring.

Keng keng keng!

At that moment, 1,000 feet around Li Xiandao became covered in sword energy.

Li Xiandao laughed and grabbed the Great Ancient Fallen Star. He turned around and looked towards Fire Dragon Old Ancestor.

"This thing will end now." Li Xiandao said.

"It will only end when you defeat me, otherwise, both Blood Dragon and you will die here today." Fire Dragon Old Ancestor's voice was loud and he stared at Li Xiandao coldly. Killing intent surged around him and his mustache was just floating around.

Li Xiandao carried the two-meter long Great Ancient Fallen Star and said, "Since that is the case, then if I don't defeat you, I'll feel really bad for making you come out from the underwater volcano."

Fire Dragon Old Ancestor smiled in disdain. His body turned into a muscular, middle-aged man. His hair was in a mess and he said with a cold expression, "It is extremely easy for me to kill you. I gave you a chance to take control of the Great Ancient Fallen Star so as to give you hope and then make you feel despair."

Fire Dragon Old Ancestor thought to himself that he was playing with Li Xiandao.

He didn't attack when Li Xiandao was refining Great Ancient Fallen Star. He looked on coldly and once Li Xiandao refined it, he attacked. He would then defeat Li Xiandao and suppress the Great Ancient Fallen Star.

That would be a huge blow to Li Xiandao.

Fire Dragon Old Ancestor loved to deal blow to juniors like that. This felt really good for him.

"Do you know how the bad people always die?" Li Xiandao asked.

Fire Dragon Old Ancestor looked at Li Xiandao coldly.

"They die from talking too much and also because they think that they'll win easily. You actually allowed me to refine the Great Ancient Fallen Star so easily. You really don't respect me." Li Xiandao sighed. He held the Great Ancient Fallen Star and pointed at Fire Dragon Old Ancestor.

Fire Dragon Old Ancestor smiled in disdain, "You are just at stage one and dare to say such arrogant words. Since I let you refine Great Ancient Fallen Star, this meant that I didn't care much about it."

Keng!

Li Xiandao's Great Ancient Fallen Star felt like he was being looked down on and it was exceptionally furious. A sharp sword energy erupted.

"Since you are so arrogant, then let me, someone at stage one kill you." Li Xiandao said coldly.

"Bring it on, you are definitely dying today. Also, our Fire Dragon Race doesn't need such an arrogant descendant like Blood Dragon." Fire Dragon Old Ancestor said coldly.

"You don't have the right to kill my men." Li Xiandao swung Great Ancient Fallen Star right away.

Hong!

A dozen-meter tall streak of sword energy slashed forwards.

Fire Dragon Old Ancestor's body was hit faced on and that shattered the sword energy.

In the next moment, he dashed forwards. True qi wrapped around his body like that of a war god. Flames wrapped around his hand as he punched.

Li Xiandao looked on. He didn't dodge at all and just placed the Great Ancient Fallen Star in front of him to block.

Hong!

Fire Dragon Old Ancestor's fist smashed onto the Great Ancient Fallen Star. The ripples from the attack swept all around. It was really terrifying and it made one tremble in fear.

Hong long long!

The energy that swept damaged the Ten Thousand Dragon Assembly right away. Many young dragons were affected and some were injured.

Li Xiandao and Fire Dragon Old Ancestor couldn't compare with Fire Dragon Chief and Blood Dragon.

Li Xiandao shook the Great Ancient Fallen Star and a terrifying power exploded, smacking Fire Dragon Old Ancestor away.

"This is Dragon Island. If we fight here, this place will be destroyed. Let's go to the ocean." Li Xiandao said coldly.

He was not from Dragon Island but he was worried about the safety of Dragon Island.

Fire Dragon Old Ancestor was Dragon Island's ancestral generation but he didn't care.

In his eyes, Li Xiandao was the only thing that mattered. Li Xiandao smacking him away was very humiliating for him. He hollered in rage and charged forwards.

Chapter 435: Great Desolate Star's True Strength!

When he came to the ocean, Li Xiandao's eyes were ice cold. He raised up the Great Ancient Fallen Star once more and numerous streaks of sword energy smashed down. That strike caused the sky to dim down. Waves swept forwards and caused the entire area to shake.

Hong long long!

At this moment, Li Xiandao was just over 1.9m but he waved a two-meter sword and instantly activated five seals within.

Three celestial seals were only activated when they were in the hands of the Fire Dragon Chief. But now, in Li Xiandao's hands, he easily activated five.

Hong long long!

Great Ancient Fallen Star showed off its might. At that moment, sword energy wrapped around it. Light covered Li Xiandao like he was an invincible celestial. It was as if he could grab the sun and moon and also step on the stars.

This strike was so terrifying that the young dragons on Dragon Island all looked on in fear.

Was he a top expert?

The seven chiefs who were all at stage one of Destiny Realm all looked on with ashen white faces.

They were thinking whether they block such a terrifying attack from Li Xiandao?

They all came to a common answer.

No!

But Fire Dragon Old Ancestor could. He roared. While the sword energy and the ocean were both striking him, he took out a blazing iron rod and started swinging it. It was really terrifying and it had an unstoppable aura.

Strength beat everything!

This was Fire Dragon Old Ancestor's method. He spat out flames from his mouth and stood tall. When the sword energy struck him, he waved the iron rod to hit back.

Hong long long!

This was a really terrifying scene. Fire Dragon Old Ancestor's iron rod destroyed numerous streaks of sword energy. He stamped, causing the air around to shake. An enormous power swept the ocean surface and suppressed all the waves.

As for the final strike, he hollered. The iron rod blocking as he tried to stop Li Xiandao's Great Ancient Fallen Star.

Hong!

This clash instantly caused the region a few thousand miles around to shake.

Dong!

The waves swept up violently like it was a storm.

Li Xiandao's Great Ancient Fallen Star struck Fire Dragon Old Ancestor's iron rod. Both sides trembled. Li Xiandao kicked right into the rod and he also kicked Fire Dragon Old Ancestor away. He stabilized himself and held up the two-meter long Great Ancient Fallen Star.

As expected from a stage six expert, he was even able to block such an attack.

From that, one could tell how strong Fire Dragon Old Ancestor was.

"That is a celestial artifact?" Li Xiandao stared at the iron rod.

"Right, the celestial artifact iron rod is my weapon. It doesn't have a name as it does not need one. I will kill you easily." Fire Dragon Old Ancestor still felt like it was easy for him to kill Li Xiandao. He waved the iron rod and smashed forwards.

Li Xiandao held Great Ancient Fallen Star, and without saying a word, he stabbed forward.

Keng!

Two celestial artifacts clashed. Great Ancient Fallen Star was unaffected at all but that iron rod trembled like it had been damaged.

But Fire Dragon Old Ancestor didn't care about all that. He came to kill Li Xiandao, so if one strike didn't work, he would strike again.

But this time, Li Xiandao didn't give him the chance.

When others snatched at destiny, they really snatched at it.

But Li Xiandao's one was in essence, grasping destiny.

At the first stage, he grasped 365 daos.

His 365 daos totally exploded at that moment.

Hong long long!

Li Xiandao waved the Great Ancient Fallen Star in a violent manner. He didn't say a single word and just attacked.

The giant Great Ancient Fallen Star along with Li Xiandao's 365 daos meshed together exploded.

This strike caused mountains to splinter. Fire Dragon Old Ancestor's expression changed. He felt huge pressure and he gritted his teeth.

Daos appeared on his body. He comprehended these when he snatched at destiny.

360!

It was already really decent for him to comprehend 360 daos at stage six.

But in front of Li Xiandao, he was still weaker.

Hong!

Li Xiandao's Great Ancient Fallen Star smashed down causing Fire Dragon Old Ancestor's iron rod to shake. Fire Dragon Old Ancestor's expression changed and he was smacked a few hundred meters away.

Hong long long!

This 100-meter region was turned into chaos. Chaotic energy spread about and it was really violent and strong.

But Li Xiandao ignored all of that. He didn't give chance, waving the Great Ancient Fallen Star and smashing downwards.

At that moment, it seemed like Great Ancient Fallen Star got excited.

Hong!

Li Xiandao's strength along with Great Ancient Fallen Star's compatibility allowed the sixth celestial seal to be unlocked.

At that moment, Li Xiandao sensed that the consciousness of the Great Ancient Fallen Star was awakening. Although it was still asleep, it wasn't totally ignoring the outside world before. The Great Ancient Fallen Star had a magical nature. Once it woke up, it would be invincible.

Hong long long!

A terrifying aura swept the sky. Who knew how heavy it was but it caused the sky to collapse.

Li Xiandao slashed forth once more.

Peng!

This sword was terrifying and it swept the entire ocean region. Li Xiandao and Fire Dragon Old Ancestor's battle had reached a crucial moment.

This sword stabbed forwards.

Li Xiandao was having the advantage and he was suppressing Fire Dragon Old Ancestor. He grabbed the iron rod and gritted his teeth as his arms trembled. That strike was a little tough for him to handle.

That strike made his gaze dark but he had to block it.

Fire Dragon Old Ancestor used all his strength to attack and to block it.

Hong!

Li Xiandao's sword smashed into the iron rod. The sky turned silent before huge waves swept forth. It was really terrifying and it surged all about.

Fire Dragon Old Ancestor's panicked. Li Xiandao's strike was so powerful that it couldn't be blocked. His celestial artifact iron rod was shaking from the strikes and it had no way to fight back at all.

The huge power made it hard for him to hold onto the iron rod. Even if he had activated the fifth seal, Li Xiandao still struck him. He spat out blood, his body trembled, and his face was ashen white.

Fire Dragon Old Ancestor looked at Li Xiandao in terror. He was filled with regret.

He shouldn't have given Li Xiandao time to refine Great Ancient Fallen Star. This celestial artifact was so much stronger in Li Xiandao's hands compared to Fire Dragon Chief.

This was simply the most terrifying thing in the world.

"One more time!" Li Xiandao didn't give him the chance and smashed down once more.

Hong!

Fire Dragon Old Ancestor looked on in terror. It was really fast and he didn't have time to dodge at all.

Right after Li Xiandao hacked down, the third sword followed.

Hong long long!

In Fire Dragon Old Ancestor's eyes, 365 invincible gods wrapped around Li Xiandao. The Great Ancient Fallen Star in his hands was also a god artifact that could kill anyone.

Dong!

The sword struck Fire Dragon Old Ancestor's body...

Chapter 436: Four Demon God Pillars!

Li Xiandao used Great Ancient Fallen Star and smashed it into Fire Dragon Old Ancestor's iron rod.

Kacha!

The iron rod, the celestial artifact, was actually bent. It broke free from Fire Dragon Old Ancestor's control and he spat out blood. His body seemed like it was a free target and he was forced back to his fire dragon form.

Hong!

A violent storm swept the area, smashing the head of the old fire dragon. He died on the spot and landed in the ocean. Fresh blood dyed the ocean surface and the Fire Dragon Old Ancestor slowly sunk to the bottom.

Fallen dragon!

When whales died in the ocean, they would slowly sink and their corpses would feed the beings within.

Now, the Fire Dragon Old Ancestor was similar to whales. He fell down and this region became a fallen dragon region.

Li Xiandao took in a deep breath and felt exhausted. He instantly kept the Great Ancient Fallen Star.

His entire body was empty.

The true qi in the vast ten lands was sucked dry. From that, one could tell how much spiritual energy was needed to activate the Great Ancient Fallen Star.

"I can kill people at stage five but not those at stage six. At most I will tie with them, or I'll be able to suppress them but not kill them." Li Xiandao had a clear understanding of his own strength.

He was similar to someone of stage six now.

One would instantly be invincible after entering Destiny Realm.

Along with snatching more and more from Destiny Realm, one's strength would also increase.

If stage one was one, stage two would be two, stage three would be four, stage four would be sixteen, stage five would be 256, stage six would be 65,536...

What about stage seven?

Stage eight?

Stage nine?

When one was close to stage seven, it wouldn't be such a simple increase in strength.

One's entire soul would be refined. One breath wouldn't just be spiritual energy but celestial energy from the Celestial World. One would improve towards an unbelievable stage.

This was why Destiny Realm was split into many different stages.

The first and second were the weakest. They were so weak that if they didn't work hard, they would be killed by peak emperors.

But after stage three, they would slowly become stronger.

Third to fifth was the mid-tier combat strength.

Before Li Xiandao broke through, he could defeat the demon's heart who was at stage five. Now that he broke through to Destiny Realm, there wasn't much of an increase, so he could only fight to the same level as someone at stage six. He could even suppress them which was already quite decent.

All this was due to the 10 grotto heavens and Li Xiandao's talent.

But all this was definitely also because of the Great Ancient Fallen Star.

Li Xiandao felt that Great Ancient Fallen Star was extremely strong and that it was a perfect fit for him. Stage six experts that he could originally only fight to a standstill with were also killed by him.

He just had to consume a lot of energy which was why the first and second stage wasn't a change in nature. Blood Dragon could kill Fire Dragon Chief at peak emperor based

solely on his strong bloodline. The true change is when one reached stage three, after which, one would slowly become more and more terrifying.

After killing Fire Dragon Old Ancestor, Li Xiandao flew above Dragon Island and looked around. He bowed slightly, "Everything that happened today comprises the grievances of the two of us and the Fire Dragon race. Sorry for giving all of you a problem."

"No worries, we are actually not close to the Fire Dragon Chief." God Dragon Chief said right away.

The other chiefs all rolled their eyes but none of them retorted the God Dragon Chief.

"We will leave right away and won't interfere in dragon race matters." Li Xiandao said decisively. He knew that Dragon Island had hidden strength and he couldn't behave arrogantly now. If he drew out a stage seven expert, then even if Li Xiandao had Great Ancient Fallen Star he still couldn't win.

"Master, the demon god pillars." Blood Dragon muttered to Li Xiandao.

Li Xiandao said calmly, "Go and take them. I will speak to the chiefs."

Blood Dragon nodded and left quickly to uproot the four demon god pillars.

"Hong!"

Li Xiandao didn't say much nonsense. He tossed Fire Dragon Old Ancestor's iron rod and a celestial artifact of his own to the chiefs.

"This is the gift for interrupting all of you. I really need these four pillars, so I hope that all of you will allow me to take them." Li Xiandao was really polite. He gave the gifts first before seeing whether or not he had to fight them.

The chiefs looked at one another and then at the two celestial artifacts. They looked at the calm Li Xiandao and also at Blood Dragon who was pulling out the pillars.

"Those four pillars won't be of much use." God Dragon Chief coughed and said.

"They are the pillars to support this island." Lightning Dragon Chief reminded.

"Without these four, we can use other treasures. These are celestial artifacts." Water Dragon Chief said.

"Right, without these four pillars, Dragon Island will not collapse." Earth Dragon Chief said.

“Right, the celestial artifacts are more important.” The lightning race chief thought about it. Those four thick pillars weren’t of any use at all, so why not exchange for two celestial artifacts?

“Senior, we agree.” The God Race chief said loudly.

Li Xiandao nodded his head in satisfaction. He stood on the spot and waited for Blood Dragon to pull the four pillars out.

Hong long long!

Blood Dragon found it hard to shift them. They were huge and were at the bottom of the ocean.

Looking at how tough Blood Dragon was moving it, the seven chiefs wanted to help him. They wanted to get close to Blood Dragon and also form a relationship with Li Xiandao.

Thus, Li Xiandao saw the seven chiefs personally helping Blood Dragon to dig out the four demon god pillars.

Li Xiandao was stunned.

Dragon Island had guarded a treasure for 100,000 years but they didn’t know.

Now, they gave the treasure to Li Xiandao and even helped Blood Dragon dig them out.

Li Xiandao exclaimed. This spirit was really good.

With their help, the four demon god pillars were pulled out quickly.

As expected, Dragon Island was still there and hadn’t collapsed.

Li Xiandao hid those four demon god pillars in the bank. They were too huge and they couldn’t be stored in normal storage artifacts.

“Might we meet in the future?” Li Xiandao brought Blood Dragon to say goodbye to these seven chiefs.

“Let’s hope so. If you are free you can come to Dragon Island.” God Dragon Chief invited Li Xiandao.

“Sure, I definitely will if I am free.” Li Xiandao nodded and his lips curled up. He brought Blood Dragon and disappeared from the spot.

He entered the bank.

The seven chiefs saw Li Xiandao left and they all looked at one another. Now, they were sure that the storm was over.

“So, should we still continue with the Ten Thousand Dragon Assembly?” Water Dragon asked a dumb question.

“Let’s just leave and return home.” God Dragon Chief shook his head and left. He was going to see his elder son, Ao Qiong.

Blood Dragon and Fire Dragon Chief fought to the death which made Fire God Dragon Chief reflect on whether or not he had done things wrongly.

He wanted to make up for it, to improve his relationship with Ao Qiong.

Chapter 437: Three Streaks Of True Fire!

Four thick and huge demon god pillars stood tall on the Bank of the Universe’s square.

These four pillars reached up into the sky and stabbed straight into the clouds. They were even taller than the four mountains that Li Xiandao unsealed.

It was the tallest thing here now.

Li Xiandao looked at the four demon god pillars and felt a little helpless.

Only Seven stood behind him.

“Are these the demon god pillars?” Seven walked up and knocked her hands on it, giving out a thud.

No matter how one looked at it, it was just a pillar that was made of stone.

But Li Xiandao tried and no matter what he did, he was unable to open it up.

This was tough.

He couldn’t slice it open, so he couldn’t take out the treasures that were hidden within.

108 demon god pillars spent a lot of Hell’s resources to create.

This was Hell, a top world that competed with the Celestial World.

It wasn’t like worlds like the Nine Skies and Ten Lands that were being abandoned.

This was why the energy contained within one pillar was huge.

If Li Xiandao opened one up, he dared to say that he could use them to break through to Celestial Realm in a short time.

So tempting!

But unfortunately, Li Xiandao couldn't open it up.

The demon god pillars contained the treasures of Hell and with similar reasoning, they were created by experts.

How could Li Xiandao, who wasn't even top of the Nine Skies and Ten Lands, open up the demon god pillars crafted in Hell?

So Li Xiandao was really sad.

All that joy for nothing in the end.

He thought that he could get unlimited resources but now it seemed like it was just a dream.

"Are you sad?" Seven looked at his expression and asked.

"No, I am just a little depressed. The demon god pillars are real and so are the treasures. They are right in front of me but I'm not even able to take them out." Li Xiandao was depressed.

"Since you aren't able to, then why don't you ask that demon from Hell." Seven reminded Li Xiandao.

His eyes lit up and he nodded, "You are right, let me ask the demon."

...

In Great Sky, the demon and Zhong Zi Qi shared one body to search for other demon god pillars.

But during this period of time, they found no news at all.

They ran to many places and asked many locals but they didn't gain anything.

"How?" Another night of nothing. Zhong Zi Qi asked the demon.

The demon controlled the body. He laid on a bed and sighed, "What plan can I even come up with? Let's just continue searching."

“Has Master collected those four demon god pillars?” Zhong Zi Qi said with anticipation.

“Probably not as there are many true dragons on Dragon Island.” The demon said decisively.

“That’s good, Master will pay attention to those four pillars.” Zhong Zi Qi felt fortunate.

“To think that a Hell demon like me with millions of girls worshipping me, enemies who shiver when they see me, women whose legs go soft because of me, how could I end up like this?” The demon sighed and looked at the moon. Tears were streaming down his face as he spoke with sadness and frustration, “The heavens are jealous of me!”

Zhong Zi Qi, “...”

“Demon, how do I open the demon god pillars?” At that moment, Li Xiandao’s voice spread over. Only the two of them could hear it.

The demon, who was just saying that the heavens were jealous of him, became quiet. He said hurriedly, “Master, why are you asking that? You need to get the demon god pillars from Dragon Island first before asking that.”

“Master, the demon is right. You must get those demon god pillars first before thinking about this. Anyway, we still have time. We can take decades. Even 100 years is normal.” Zhong Zi Qi said.

The demon raised a thumb towards Zhong Zi Qi’s soul and expressed his respect.

If Li Xiandao used a few decades to get the demon god pillars, they would have more time to search for the others.

“I have already gotten the demon god pillars.” But Li Xiandao’s words shattered their beautiful dreams.

The demon was stunned as he looked at Zhong Zi Qi who was staring right back at him.

They blinked, their eyes filled with shock.

How did he get it?

“Master, not anyone can head to Dragon Island. The chiefs there are really strong and overbearing. You got the four demon god pillars?” The demon asked.

He would rather believe that Master was joking with him.

Li Xiandao said, “I felt like it was quite simple. The chiefs aren’t as bad as you said. Apart from the Fire Dragon Chief, the rest were nice.”

The demon and Zhong Zi Qi looked at one another.

Those hot tempered and proud dragons were nice?

Or was it because Li Xiandao was too terrifying and scared them?

Li Xiandao continued, "When Blood Dragon was getting the demon god pillars as they were too huge, he found it really hard. The seven chiefs all helped to take the four demon god pillars out to give to us."

The demon and Zhong Zi Qi's heart became totally cold.

Their plan ended up in failure before it even started.

The cruel reality pressed down on their minds.

"Master, why did you contact us?" The demon asked helplessly.

"Although we got the demon god pillars back, they are too hard. I can't open them. What ways do you have to open up the demon god pillars?" Li Xiandao asked.

The demon raised his head. At that moment, he saw hope.

Light at the end of the tunnel!

The demon god pillars couldn't be opened.

The demon recalled that the demon god pillars were built in Hell. They did so to form a formation to seal them off from the Celestial World.

In the Nine Skies and Ten Lands, who could open it?

No one!

To open up the demon god pillars based on one's own strength, that was impossible.

One had to rely on other ways.

The demon knew about that.

He saw hope that could help delay time.

"Master, it is expected that you can't open it. Even if I go back I won't be able to either." The demon replied excitedly.

"I am asking you, what way do you have to open it up?" Li Xiandao said calmly.

“Based on the strength of the demon god pillars, no one in Nine Skies and Ten Lands can.” The demon said.

Li Xiandao frowned and asked, “There is no way at all?”

“Of course there is, but it is tough.” The demon replied.

“What?” Li Xiandao asked.

“Has master heard of the three streaks of true flames?” The demon asked.

“I have.” Li Xiandao thought back to a little baby that was naked and wearing a small piece of cloth.

“But I don’t know the exact content. Please enlighten me.” Li Xiandao asked calmly.

“Three streaks of true flames are basically three rare flames merged together to form one.” The demon showed off his knowledge.

“They can burn the demon god pillars open?” Li Xiandao asked.

“If Master collects enough of them, you can do so quickly. If it is too slow or you don’t have any, then you won’t be able to open it up.” The demon acted like he cared but deep down he was really happy.

As long as Li Xiandao gave up towards the demon god pillars, he wouldn’t need to find the others. The demon felt like this was like trying to find a needle in a haystack.

Chapter 438: Don’t Talk About Hardship!

Li Xiandao heard the suppressed excitement of the demon and said coldly, “Go and find demon god pillars. I will search for the three flames.”

The demon was stunned and his expression collapsed. He really wanted to argue.

For example, his body was uncomfortable... Like he was on his period...

But Li Xiandao didn’t give him the chance and ended the call right away.

Within the Bank of the Universe, Li Xiandao asked Seven, “Do you know about the three flames?”

Seven nodded, “I know but can the three flames melt this demon god pillar?”

“The demon said yes but we need a lot.” Li Xiandao nodded his head.

“But I don’t know what they are.” Li Xiandao shook his head.

“The three flames are a type of mysterious flame formed by merging three types of spiritual flames.” Seven said.

“Which three types?” Li Xiandao asked.

“Stone flame! Wood flame! Water flame!” Seven said.

“I know about the wood flame.” Li Xiandao recalled that he had seen records of it in the Ten Thousand Country Book Depository.

“You need a wood spirit over 50,000 years old who failed when going through the tribulation. His body must start burning due to the lightning and the essence of the wood along with the tribulation will turn into a sort of fire.”

This was Wood Flame!

The conditions for its birth were really strict and so it was very rare.

Were the stone flame and water flame the same?

Li Xiandao looked at Seven and wanted to know the answer.

“Water Flame is the easiest to get. It is also known as the nether spirit flame. It is a relatively common flame.” Seven said.

“What about stone flame?” Li Xiandao asked.

“That is the rarest. Only one race can give birth to it.” Seven pursed her lips and said.

“What race?” Li Xiandao asked. His gaze landed on her lips.

Her face turned red and she rolled her eyes at Li Xiandao.

Her voice was crisp like that of a bird, “Stone flames only come from the stone race. The stone race is a natural spirit, the main body is a spiritual stone, and of course, some of them turn into human form.”

“Stone flame is their heart flame, so to find it, we have to find stone race people. But based on what I know, 10,000 years ago, stone race people were already rare in the Nine Skies.” Seven said helplessly.

Li Xiandao frowned. It seemed like the three flames were all hard to acquire.

The only easier one was the water flame which was the Nether Spiritual Flame.

But, where was Li Xiandao going to get that?

“Seven, give instructions and tell the watch to find guests with these three flames.” Li Xiandao instructed.

Since he couldn’t find it, he could only place his hopes on the guests.

Seven nodded, “I will make arrangements.”

Li Xiandao looked at the four demon god pillars reluctantly and sighed, “Let me just place them here.”

This was like guarding a treasure mountain that one wasn’t able to enter.

“Right, do any of the Bank of the Universe contracts have anything to do with these three flames?” Li Xiandao suddenly recalled. If there was such a contract, he would go collect it personally.

Truthfully, it had been a long time since Li Xiandao went to clear contracts.

But Seven shook her head regretfully, “The three flames are a small category. Very few people will collect it and those who need it are even rarer, so there are no contracts like that.”

Li Xiandao was a little disappointed.

“But Master, a new guest is here.” Seven’s expression changed and she received a notification.

Li Xiandao said calmly, “A new one or an old guest?”

“The watch was given by you.” Seven said.

Li Xiandao immediately thought about one person.

Huaxia Corporation CEO, that fat Liu Ge.

“I didn’t expect it to be him. Invite him in.” Li Xiandao smiled. This guy from his old home actually came so quickly.

Seven nodded and entered the Trading Hall along with Li Xiandao.

In just a moment, a fat, white man entered. His expression was kind but he seemed a little nervous as he walked in.

When he saw Li Xiandao's mask, Liu Ge was delighted and said respectfully, "Hello, senior."

"You are now my guest, so there is no need to call me senior. Just call me Bank Master." Li Xiandao waved his hand.

"Greetings, Bank Master!" Liu Ge greeted once more.

He firmly believed that there was no such thing as being too polite.

Li Xiandao told him to sit down and he asked, "I thought that I would see you only after a long time after passing you the watch. But who knew that I would see you so soon?"

Liu Ge gave a bitter smile, "I didn't want to use such a precious treasure. But I am in a desperate situation and my mother in law told me to find you for a deal."

Li Xiandao nodded and wasn't surprised. Only those with urgent matters would rush back into the Bank of the Universe. One had to want something, otherwise, they wouldn't be able to enter.

"Talk about your problems." Li Xiandao said calmly and sat there leisurely. Seven stood beside him and Li Xiandao hugged her waist.

Seven was shocked and lowered her head to stare at Li Xiandao.

But Li Xiandao didn't care. He just looked at Liu Ge and continued to hold her.

Seven was helpless but seeing that Li Xiandao wasn't planning on doing anything more, she calmed down.

She just treated it as if a pig was holding her. Seven thought about it furiously...

Liu Ge didn't notice what the two of them were doing and talked about his own matter.

"I created a huge corporation and it is undoubtedly the first in Great Sky. Each day I bring in huge revenues. I have started to split the profits and built a committee to invite 10 huge powers to invest." Liu Ge said.

Li Xiandao nodded. He really respected Liu Ge.

It was tough for someone who couldn't cultivate to reach such a stage.

"In the past, I could maintain the balance because my mother-in-law was an emperor, but after she returned her strength and I taking out all the savings, someone leaked the news. They said that my mother-in-law was useless and all of a sudden, I was in a tough situation." Liu Ge said helplessly.

He was able to make the business so huge not solely because of his talent and former life experience but also with the support of his mother-in-law.

Without an emperor mother-in-law, he would have been eaten up.

Now that his mother-in-law had lost her strength, he was alone and unsupported.

In truth, this was a dog eat dog world. His shares and the ability to speak on the board of directors were all built on strength.

With an emperor supporting him, Liu Ge was confident, but without an emperor, he had no power at all.

“Your mother-in-law should have been prepared, so how did it get leaked?” Li Xiandao asked.

Liu Ge’s expression turned ugly, “My wife leaked it.”

Li Xiandao’s expression changed.

“She always looked down on me and was unhappy that my mother-in-law married her to me. We are husband and wife in name, but to ruin my good fortune, she leaked the news.” Liu Ge said.

“Just to make you unhappy?” Li Xiandao asked.

“Bank Master, it is pointless to talk about these things.” Liu Ge felt like he was carrying a hat and placing it on his own head.

It was green.

Chapter 439: Girl After 10,000 Years!

“So, what did you come in to trade?” Li Xiandao asked.

“I want to be supported by the Bank of the Universe to stabilize the situation and suppress those factions.” Liu Ge took off the green hat and said.

“No problem, I can help you to suppress them.” Li Xiandao said casually. He had made a trip to Dragon Island already so suppressing some factions shouldn’t be a problem.

The key was how could people that were suppressed by Liu Ge’s mother in law make Li Xiandao think differently.

Liu Ge's mother-in-law was at emperor realm and Li Xiandao didn't even care about those at emperor realm now.

"About that... I also want to ask whether or not the Bank Master will allow me to cultivate." Liu Ge was looking forwards. He was unable to cultivate. That was the biggest problem and he could only rely on others.

If he cultivated by himself, with his current resources, he would definitely soar quickly.

"If you can give me what I wan, there will be no difficulty cultivating at all." Li Xiandao said truthfully.

"What does Bank Master need?" Liu Ge asked nervously.

If he couldn't take out the stuff that Li Xiandao needed, then this opportunity would be missed just like that.

Li Xiandao looked at Liu Ge and said, "I need the Nether Spirit Flame which is the water flame, wood flame, and stone flame."

"Out of these three flames, you just need to take two types out." Li Xiandao added.

Liu Ge frowned. He thought about it and a light flashed in his mind, "I have the Nether Flame which is the water flame. I remember that someone gifted it to me and I took it, but since I had no use for it, I tossed it in the storage. I will go back and find it for you right away."

"Not bad, you have one of them." Li Xiandao praised.

"As for stone flame, I have no idea. As for wood flame, I know someone who has it." Liu Ge gritted his teeth and said.

"You know who has it but can you get it?" Li Xiandao asked.

"It is in the hands of a priest friend. He is a Taoist disciple who has the wood flame. But I shouldn't be able to get it. We aren't close and it wouldn't be possible for him to pass it to me." Liu Ge said helplessly.

Li Xiandao thought about it and said, "Can you help me contact him?"

"Yes!" Liu Ge said firmly.

"You can sign the contract. Take out the water flame and help me contact this priest, I will talk to him personally." Li Xiandao relaxed the conditions.

This was also because of the water flame and also the fact that they were from the same place.

“Thank you, thank you.” Liu Ge said gratefully.

“Sign the contract and once you do, I can help you improve your body.” Li Xiandao said calmly. He took out the contract that Seven prepared and passed it to Liu Ge.

Liu Ge took the contract and looked at it closely. Especially after seeing the term that his body would be improved and he would become a genius, he signed it emotionally.

“Thank you, Bank Master...” Liu Ge who signed it was extremely emotionally and touched.

Li Xiandao reached out and said calmly, “This is a fair trade. You get what you want because of your hard work. You don’t need to thank me.”

He stood up and walked behind Liu Ge before placing his hands on his spine to take a look at his body.

“Too many impurities, weak meridians, shut dantian, but apart from that, the others are still okay.” Li Xiandao immediately knew the reason why Liu Ge was not able to cultivate.

“Can I be saved?” Liu Ge was worried.

“Yes.” Li Xiandao was sure.

“But it will be painful. Let me warn you first.” Li Xiandao reminded him.

“I am not afraid of pain. I can withstand it. I won’t scream either.” Liu Ge said.

Li Xiandao looked towards Seven and said, “Take out that last drop of Ancestral Dragon blood.”

Seven looked at Li Xiandao in shock, “We need to use the Ancestral Dragon blood?”

According to Seven’s understanding, such a body type that couldn’t cultivate would be fixed with other resources.

There was no need for ancestral dragon blood.

“Take it out.” Li Xiandao didn’t explain. could he just say that because he was from my old world, I want to help him, so I will give him a drop. Then, it will be up to him to work hard.

Although Seven couldn't understand, it was just a drop of ancestral dragon blood.

Very quickly, she passed the Ancestral Dragon blood to Li Xiandao.

A drop of deep red blood gave out a dark aura. It gave off a natural dragon aura and it was really powerful.

"It will be really painful." Li Xiandao instructed once more.

"I will withstand it." Liu Ge gritted his teeth and said firmly.

"I will definitely not scream." Liu Ge swore.

Li Xiandao refined the Ancestral Dragon blood and then injected it into the spine.

Hong long long!

Ancestral Dragon blood exploded within Liu Ge's body and started to improve it.

Ah!!!

Liu Ge gritted his teeth and screamed. It was like one was killing a pig, not one but a few.

Kacha!

Li Xiandao didn't say anything, he just punched and knocked Liu Ge out,

Seven looked at Li Xiandao's violent actions, she burst into a laugh like a flower.

...

When Liu Ge woke up, two hours had passed.

His body was much smaller and one couldn't see his fat stomach anymore. His cultivation actually reached Dao Pursuing Realm and his foundations were really firm. If he had resources, it would definitely be able to soar.

One drop of ancestral dragon blood was just so strong.

"I can finally cultivate." Liu Ge teared up emotionally.

"Okay, I will accompany you to deal with those factions. You will pass me the water flame and invite out that priest." Li Xiandao said calmly.

“Okay, there is a board meeting today and they want to force me to hand out the corporation.” Liu Ge said solemnly.

“Then, let’s go.” Li Xiandao waved his hands. A black hole appeared and he walked in.

Liu Ge said goodbye to Seven.

Seven waved his hand and smiled as he looked at them leave before she kept the contract.

...

Fallen Emperor City!

Li Xiandao came here once more. Last time he was with Liu Ge and this time he was with Liu Ge too.

In Fallen Emperor City, the biggest and most prosperous building was Huaxia Corporation’s main building.

Over 30 stories, the infrastructure was beautiful and Liu Ge made the infrastructure of the new era compatible with the formations of this era.

Liu Ge brought Li Xiandao here.

They waited at the entrance, there was Liu Yun and a beautiful girl.

The moment Liu Yun saw Liu Ge, she didn’t dare to recognize him right away. Was this still that fatty son in law?

But after seeing Li Xiandao, especially that special mask, Liu Yun was sure.

“Greetings, Bank Master.” Liu Yun and that grotto-heaven realm beauty walked over and said respectfully.

“Brother in law, my sister is just too much. Don’t be sad. If she doesn’t want you, I want you.” Before Li Xiandao said anything, that girl hugged Liu Ge and said.

Li Xiandao was stunned.

Liu Ge was so popular?

Liu Yun married her elder daughter to him. His elder daughter didn’t like him and cheated on him.

Now the younger daughter liked him.

Wait...

Li Xiandao suddenly thought about how Liu Yun's husband had died 10,000 years ago. After that she didn't find another one.

So, her two daughters were at most 10,000 years old.

Liu Ge was only 30.

They said that girls who were 3,000 were like celestials.

What if the girls were 10,000 years old?

Chapter 440: Who Agrees? Who Objects?

Liu Ge looked at Li Xiandao awkwardly and said, "Bank Master, this is not what you think."

Li Xiandao didn't care, "This is your matter, it has nothing to do with me."

Liu Yun sighed helplessly and pulled her daughter over and said with embarrassment, "I'm sorry that you had to see this."

"Go in. Have those people come?" Li Xiandao changed the topic.

"They are here. They are all upstairs and they know that I have no cultivation." Liu Yun was helpless. This news was covered well, but no matter how they tried to keep it, they couldn't prevent someone from their own family from leaking it.

"Okay, go in." Li Xiandao didn't want to bother about their family matter. He told Liu Yun to lead the way to solve this matter as soon as possible.

Liu Yun was the first to step into the building.

The workers looked on with complicated expressions. Liu Ge was being forced to give up his position and that news couldn't be hidden. Many people saw that those of the eleven factions had come really early and with how aggressive they were. This wasn't good at all.

In their hearts, Liu Ge was finished.

Liu Ge ignored those gazes. Be it sympathy or disdain or gloating...

He brought Li Xiandao to the top, the 30th floor!

A girl similar to Liu Yun stood at the entrance at the top level. She was just at Legend Realm and she looked at Liu Ge coldly. Especially when she saw that Liu Ge was much thinner, she felt like the pressure during this period of time had made Liu Ge thin.

When she thought about it, her heart went soft. She felt like she should have been kind and she showed some concern.

“Liu Ge...” The girl shouted.

But Liu Ge didn’t say a word and walked past her. Her expression was cold.

The girl gritted his teeth and looked at Liu Yun before shouting, “Mother...”

“I don’t have a daughter like you.” Liu Yun’s expression was cold as she looked at her elder daughter.

“You could have told me that you didn’t like Liu Ge. Would I still force you to marry him?”

“You married him and felt like he wasn’t good enough for you. Now, you actually pushed our family to the abyss. I actually gave birth to such a dumb daughter!” Liu Yun scolded.

“Sister, you can’t see brother-in-law’s strong points, so you look down on him but I don’t. You don’t need to call him husband anymore. Remember, call him brother-in-law.” The girl similar to the elder daughter said with a crisp voice.

“Of course, we shouldn’t come into contact in the future. It would be best if we have no more contact.” The girl said coldly.

“Liu Ya, stop talking to these bunch of people that are about to be failures.” A man walked over gleefully, pulling Liu Ya into his arms. He smiled in disdain right in front of Liu Ge.

Liu Ge’s expression didn’t change and he said, “Zhang Chao, is everyone here?”

This person was the Zhang Family kid from one of the eleven factions. He was arrogant and he was the one who contacted Liu Ya and spread the news that Liu Yun had no more cultivation.

“Everyone is here. We are just waiting for you. Cherish your chance, this is your last time holding this board meeting. You are about to have nothing left.” Zhang Chao was delighted.

Liu Ge looked at Li Xiandao and laughed coldly, “I am sorry, I am afraid all of you won’t get what you wish for.”

“You have no emperor supporting you, so what gives you the rights to sit on the same level as us?” Zhang Chao was filled with disdain.

“Who said that he has no emperor supporting him?” Li Xiandao opened his mouth. He felt like this was like a drama and it was best if he settled this quickly.

“Who are you? Who gave you the right to interfere here? Don’t overestimate your strength.” Zhang Chao said coldly.

“I am someone who you can’t afford to offend.” Li Xiandao glanced towards Zhang Chao. He used his mental strength to scare Zhang Chao so badly that his legs went soft and he knelt to the ground. He screamed in terror.

Li Xiandao’s gaze crushed Zhang Chao’s mental state and made him into a dumb child.

Everyone was stunned by that, especially Liu Ya.

She abandoned Liu Ge and chose to follow Zhang Chao because her mother had no cultivation at all and Liu Ge was a piece of trash that didn’t know how to cultivate. No one would protect her in the future.

Zhang Chao was a Legend Realm genius and he was 100 times better than Liu Ge. Liu Ya felt like her choice was correct.

For this, she didn’t mind betraying her mother.

But now, Zhang Chao who she placed her hopes on, who she felt was 100 times better than Liu Ge had collapsed. He was kneeling down on the ground and looked really mad.

Liu Ge stopped looking at him. He followed Li Xiandao and pushed open the door to the meeting room.

Peng!

Li Xiandao entered the meeting room first.

The meeting room was huge and there were eleven people at Emperor Realm.

They came from the eleven factions and their expression were all different. The Zhang Family Emperor stood up and stared at Li Xiandao in rage, “You actually dare to attack the hope of our Zhang Family?”

“I didn’t open my mouth and you dare to talk?” Li Xiandao said coldly. He released his aura.

Putong!

The Zhang Family Emperor knelt down unsurprisingly and he looked at Li Xiandao in terror.

“Des... Destiny... Destiny Realm!” The Zhang Family Emperor trembled as he looked at Li Xiandao.

The moment he said this, the other 10 emperors looked at Li Xiandao in terror.

Many question marks appeared in their minds.

Didn't they say that Liu Ge's mother in law had lost the peak emperor cultivation and lost her support?

Why did a destiny realm expert appear?

He was more terrifying than peak Emperor Realm.

“You came to force him to leave?” Li Xiandao sat at Liu Ge's position and looked around. He asked coldly.

“Senior, it is a misunderstanding. We came to congratulate Liu Ge.” Someone changed his words.

“Right, this is all a misunderstanding. We are willing to be led by Liu Ge. He is a genius and he has helped us earn a lot. Why would we do such a thing?”

“Right, senior misunderstands.”

...

They were all smart and they changed their words so quickly. They seemed really sincere like they weren't the ones who tried to force Liu Ge to abdicate.

Li Xiandao didn't bother about them and looked towards the Zhang Family emperor.

“Listen to Liu Ge and you will all be fine. If you don't, raise your hands and let me take a look.” Li Xiandao looked at them.

The people trembled and they didn't dare to raise their hands.

“Don't be afraid, I am a democrat. Who agrees with me and who objects?” Li Xiandao asked calmly.

“My Zhang Family objects!” After Zhang Chao died, the Zhang Family emperor couldn't take that insult and loudly objected.

The other 10 factions looked at one another and didn't say a word.

Li Xiandao didn't do anything. He just flicked his fingers.

True qi shot forwards, turning into a sword which stabbed into his head.

Putong!

The Zhang Family Emperor fell to the ground and stopped breathing.

The surroundings were silent like they could hear each other's heartbeat.

"One more time, who opposes and who agrees?" Li Xiandao said calmly. He killed an emperor like he killed a chicken, he didn't care at all.

The other 10 people were terrified by Li Xiandao's calm voice and shook their heads.

"We all agree." An old man was on the verge of falling down.

"Very good, then the meeting is over. Whoever doesn't follow the rules will end up like that." Li Xiandao stood up in satisfaction, saying one sentence before turning around.

Liu Ge's family followed.

When they passed the stunned Liu Ya, Liu Ge's family didn't speak to her at all. They didn't even bother to look.
