

Bank of the Universe

Chapter 481: Dust Settles!

Li Xiandao looked at Dugu Menge who was kneeling down in front of him.

He was asking for death for the sake of his reputation.

He looked at Li Xiandao with a begging gaze and hoped that Li Xiandao could kill him and protect his reputation.

“Everything can end. I have gone against the contract and I deserve to die. Celestial Sword, cultivation technique is all here, and along with my life, you can take everything away. My only request is that you protect my reputation.” Dugu Menge begged Li Xiandao.

Li Xiandao asked curiously, “Is reputation that important?”

“Of course, it’s important. It is more important than my life.” Dugu Menge said firmly.

Although Li Xiandao didn’t understand such a perspective, he agreed. He reached out and collected Dugu Menge’s sword and the Great Metal Sword Energy.

“Today, I will kill you. This matter will end here and Heaven and Earth Celestial Sect will no longer exist. All you disciples, if you want to go, just go. If you don’t want to, then you can die and be buried here together.” Li Xiandao looked around and said coldly.

Heaven and Earth Celestial Sect’s disciples were all silent.

They were unhappy but they didn’t dare to say it in front of Li Xiandao.

Li Xiandao looked at the two remaining stage seven old men.

“What do you two think?” Li Xiandao asked calmly.

The two old men looked at one another and said bitterly, “We can go but Heaven and Earth Celestial Sect is a branch of Heaven and Earth Sect. If this place is destroyed, people from Heaven and Earth Sect will rush over right away.”

Li Xiandao said calmly, “They won’t rush over.”

The two old men looked at Li Xiandao and didn't understand what he meant.

Li Xiandao didn't explain anything. He looked behind him at a place far away.

World tunnel!

The 3,000-foot huge Chaos Dragon Crocodile was pulling down the demon god pillars.

Hong long long!

His actions were shocking and he scared the Heaven and Earth Celestial Sect's disciples such that they opened their eyes wide in disbelief. This beast actually went to tear down the world tunnel.

"They actually want to tear down the world tunnel?" The two old men were shocked.

They didn't expect Li Xiandao to be so bold.

"You will be hunted down by Heaven and Earth Sect. They pay attention to this world tunnel and now you want to tear it down? Heaven and Earth Sect won't let you off." The old man muttered in fear.

Li Xiandao asked, "Do you think Heaven and Earth Sect will let me off when I wipe out Heaven and Earth Celestial Sect?"

The two old men shook their heads. They definitely wouldn't let Li Xiandao off.

"Since they won't let me off, then what am I to be worried about?" Li Xiandao smiled in disdain.

At that moment, the two old men felt like Li Xiandao's words made sense.

"The world tunnel is not so easy to break down. Those four pillars were so firm." Dugu Menge said.

Hong long long!

The moment he said this, Chaos Dragon Crocodile used all his strength to pull one of the pillars out.

The world tunnel started to collapse.

Dugu Menge was silent and closed his mouth.

Chaos Dragon Crocodile pulled out a demon god pillar and tossed it into his own independent space before pulling the second one.

The extremely huge and thick demon god pillar started to get pulled out bit by bit under everyone's gaze.

Chaos Dragon Crocodile gave off a huge aura and his muscles swelled up. He used all his strength and then pulled out another one.

This time, the world tunnel totally collapsed.

It attracted Heaven Sky's Heaven and Earth Sect's attention and they sent someone to investigate right away.

But Chaos Dragon Crocodile didn't give them the chance and the third pillar was pulled out.

The world tunnel totally collapsed and turned to dust.

Hong long long!

Those Heaven and Earth Sect people who rushed over were lost in space and who knew where they were teleported to.

The Chaos Dragon Crocodile didn't even need to pull out the fourth pillar as it fell out itself. Chaos Dragon Crocodile kept it right away. This was something that Li Xiandao needed.

The huge world tunnel was destroyed by the violent Chaos Dragon Crocodile and there was no longer a hole in the sky.

Everything returned to normal.

Chaos Dragon Crocodile's body shrunk back to three meters as he returned to Li Xiandao's side. "Master, I have destroyed the world tunnel. Heaven and Earth Sect people won't be able to rush back in such a short time."

Li Xiandao nodded in satisfaction.

He was pleased. All around, people from Heaven and Earth Celestial Sect were in despair and their last bit of hope was gone.

"All of you go. With all of you around, there might be a chance in the future. As the sect leader, I have dragged all of you down." Dugu Menge shouted to show that he was really heroic.

When the two stage seven old man saw this, they sighed and shook their heads before leaving.

Dugu Menge's move stunned Chaos Dragon Crocodile as he asked Li Xiandao, "Master, what is he doing? What is he even planning?"

Li Xiandao didn't explain and just said, "Pass the demon god pillar to me, and then Dugu Menge is yours. Take revenge for your sister."

Chaos Dragon Crocodile was delighted and said in disbelief, "Is that true?"

Li Xiandao nodded his head, "If he dares to fight back, his reputation will be ruined."

When Dugu Menge heard this, his body shook and his face drooped down.

He chose his reputation in the end.

Li Xiandao didn't care about him. He lived his entire life for his reputation and definitely wouldn't agree to it being ruined.

So, he wasn't worried that Dugu Menge would fight back.

Chaos Dragon Crocodile passed the four demon god pillars to Li Xiandao and then looked at Dugu Menge. When enemies looked at one another, their eyes would turn exceptionally red.

"Who asked you to force my sister to die? Now, it is your turn." Chaos Dragon Crocodile grabbed Dugu Menge and tore him.

Si la!

Dugu Menge was instantly torn apart by Chaos Dragon Crocodile and he died tragically.

But Chaos Dragon Crocodile wasn't done and sent his essence energy flying over to blow his corpse into ashes. No bit of Dugu Menge remained.

"Sister, do you see this?" Chaos Dragon Crocodile roared towards the sky and he showed his true body. His giant body swept up an endless storm.

"The brother you always cared about has taken revenge for you. Now, you can rest in peace. I will live my life well and will also live with your part." Chaos Dragon Crocodile cried.

The hatred that had been suppressed in his heart had been vented out. When he thought about the pain his sister went through, he felt frustrated and couldn't help but cry.

Li Xiandao didn't disturb him. He came to the highest point of Heaven and Earth Celestial Sect and looked down. He looked at the disciples that weren't willing to leave and a cold glow flashed in his eyes.

Those disciples stammered. They just wanted to see if they could pick up any gains.

They were too greedy.

Thinking about it, Li Xiandao used Dugu Menge's sword and slashed out a streak of sword energy.

Hong long long!

The sword energy slashed across the mountains, across the ocean, across an area far away, and killed some of the disciples. It was just a small matter.

A bottomless valley opened up between the mountains and oceans, splitting Heaven and Earth Celestial Sect into two. It announced Li Xiandao's strength and that the so-called top faction in Great Sky was now a part of history.

The past was like the wind, disappearing into the clouds.

Chapter 482: Person Master Likes The Most!

Mist wrapped around the mountains. Li Xiandao walked by himself with Chaos Dragon Crocodile following behind him.

After crying and venting, Chaos Dragon Crocodile returned to Li Xiandao's side after he calmed down.

Heaven and Earth Celestial Sect was destroyed and the world tunnel was taken down. Dugu Menge was killed. After Chaos Dragon Crocodile took revenge, his heart felt empty. He followed behind Li Xiandao and walked on aimlessly.

They walked and walked and arrived at the Bank of the Universe.

Li Xiandao obtained four demon god pillars and ended Dugu Menge's contract. Naturally, he was in no mood to continue strolling around, so he brought Dugu Menge back.

After entering the Bank of the Universe, Chaos Dragon Crocodile was at a loss. He looked around carefully. This was the second time he had been here and he would spend the rest of his life here.

Thinking about it, Chaos Dragon Crocodile felt a little nervous and lost.

“Do you know the Blood Dragon?” Li Xiandao noticed his emotions and smiled as he asked.

Chaos Dragon Crocodile was surprised, “Does Master know Blood Dragon too?”

Li Xiandao found it amusing, “Not only do I know, but I am actually really familiar with him.”

Chaos Dragon Crocodile was happy, “I have a close relationship with Blood Dragon. We crossed the dragon gate together. Where is he now? Can I go find him?”

“Sure.” Li Xiandao agreed.

“Where is Blood Dragon?” Chaos Dragon Crocodile asked in surprise.

Li Xiandao reached out and pointed at the mountain in the distance, “He is on that mountain. You can go take a look.”

Chaos Dragon Crocodile was stunned and then came back to his senses. Li Xiandao muttered, “Blood Dragon is also Master’s subordinate?”

“It was something that happened a long time ago.” Li Xiandao nodded.

Chaos Dragon Crocodile breathed out, “This time I have a friend.”

“Go find the Blood Dragon. If you don’t know anything, then you can ask him. Tell him to bring you to meet the rest. In the future, you can all be my men and we need to work together.” Li Xiandao said calmly.

“Okay.” Chaos Dragon Crocodile nodded and flew towards the mountain peak.

He was in mid-air when he suddenly roared, “Blood Dragon, come out and receive me.”

In the mountain, Blood Dragon was cultivating. He opened his eyes and looked at the sky in surprise.

He recognized that voice. His good brother, and apart from the eight monsters, he was his best brother.

“Chaos Dragon Crocodile, how did he enter the Bank of the Universe?” Blood Dragon was shocked.

Kong!

But he was really happy. Blood Dragon transformed into his real body and flew into the sky. He roared in reply to Chaos Dragon Crocodile.

“Brother, how did you end up here?” After Blood Dragon saw Chaos Dragon Crocodile, he laughed out loud and asked.

“Master brought me in.” Chaos Dragon Crocodile said happily. Seeing a familiar person made his nervousness disappear.

“Master!” Blood Dragon looked at Chaos Dragon Crocodile in shock. He was filled with excitement, “Has master taken you in?”

“Right, Master took me in.” Chaos Dragon Crocodile was happy.

“That’s good, Master rarely takes in subordinates. For Master to be willing to accept you, you are going to fly and ascend. You must do well for Master, cultivation and improvements are just small things.” Blood Dragon instructed.

“I know. Master told me to find you and ask you to bring me to meet the others.” Chaos Dragon Crocodile nodded his head. ...

“Okay, I shall bring you over.” Blood Dragon transformed and landed in the mountains.

Chaos Dragon Crocodile turned three meters large and stood on his legs. He followed behind Blood Dragon.

“Master has four angels. They are the inheritors of the angel race from the last eon. They are really strong.” The first people that Blood Dragon introduced were the four angels.

“They can live from the last eon until now?” Chaos Dragon Crocodile was shocked. The last eon was destroyed and the world had exploded. Only after were the Nine Skies and Ten Lands born.

“Under Master’s help, they were able to reappear in the world. But it isn’t really a reappearance. They just inherited the Angel Race’s god divinity.” Blood Dragon scratched his head and explained it like it was a really complicated matter.

Chaos Dragon Crocodile roughly understood the explanation.

“You just need to remember that the four angels are really terrifying, especially Lucifer and Moon Angel Usuna. One of them is cold and merciless and one has unparalleled beauty. She is the most beautiful person under Master.” Blood Dragon instructed.

“I know.” Chaos Dragon Crocodile nodded his head.

Then, Blood Dragon brought Chaos Dragon Crocodile to visit them one by one.

Battle Angel Michael, Archangel Gabriel, and Moon Angel Usuna nodded their heads in a friendly manner. As for Fallen Angel Lucifer, he nodded his head coldly.

After leaving the four of them, Blood Dragon said, "How do you feel after meeting the four angels?"

"Battle Angel and Archangel are really introverted. They are at Destiny Realm. They are quite decent." Chaos Dragon Crocodile analysed.

"Moon Angel Usuna has terrifying strength in her body. Her bloodline aura is different from those two and even I feel threatened." Chaos Dragon Crocodile said solemnly.

"As for Fallen Angel Lucifer, he is strong, he is really strong. His body has light and darkness and I can't see how deep it is. I feel like if we fight, I won't be his match." Chaos Dragon Crocodile said solemnly.

"I can't see through Fallen Angel Lucifer also. Master says that he is the most talented person. He might seem cold but he is the best at cold jokes." Blood Dragon smiled.

Chaos Dragon Crocodile remembered it in his heart.

Then, Blood Dragon brought Chaos Dragon Crocodile to visit the old priest.

Northern Region Lord, Qiu Bai, Tian Guangming, Li Wuya, and his brothers returned to the room and began discussing things.

"Who do you think is the most terrifying person here?" Blood Dragon asked.

Chaos Dragon Crocodile recalled and studied them slowly, "Fallen Angel Lucifer, Heaven Heart, Old Priest, Northern Region Lord, and you."

"Master's subordinates are all top geniuses. Any one of them can suppress their generation but the most terrifying ones are indeed the few of them." Blood Dragon pondered.

Blood Dragon said, "Northern Region Lord relies on the rare top technique of Great Dao Treasure Bottle. His potential is unparalleled. He spends all day with Qiu Bai and is a really demure and calm person."

"The old priest is special. He is friendly and doesn't want to compete and fight with others. His cultivation is really terrifying but he doesn't show it. He has always been low profile." Blood Dragon explained.

"There is Heaven Heart and Lucifer who Master trust a lot." Blood Dragon reminded.

“As for me, I am your good brother. I am terrifying and so are you. We are people who jumped across the dragon gate.” Blood Dragon laughed out loud.

Chaos Dragon Crocodile laughed too.

“Right, you also need to pay attention to one person.” Blood Dragon suddenly recalled.

“Who?” Chaos Dragon Crocodile asked.

“Tian Guangming!” Blood Dragon reminded.

“This person’s cultivation isn’t high but something about him doesn’t quite feel right.” Chaos Dragon Crocodile dissed.

“Your feeling is correct.” Blood Dragon said seriously.

“Then, why pay attention to him?” Chaos Dragon Crocodile asked.

“Because Master likes him. We all know that Master trusts Heaven Heart and Lucifer. But Master likes Tian Guangming the most, otherwise, this person would have been chopped up and killed dozens of times.” Blood Dragon dissed.

Chaos Dragon Crocodile immediately remembered Tian Guangming’s name in his heart.

Chapter 483: Holding Another Meeting!

When Blood Dragon brought Chaos Dragon Crocodile around to get a feel for the Bank of the Universe, Li Xiandao had already entered the Time Hall.

He burned 1,000 years of lifespan.

Li Xiandao burned the 1,000 years before entering along with the Triple True Flame.

Li Xiandao stored the Triple True Flame in his dantian. This was a rare spiritual flame that specialized in dealing with the demon god pillars.

In the Time Hall, Li Xiandao took out the four demon god pillars. Like last time, he burned them one by one. The huge flames were melting the demon god pillars.

Hong long long!

The endless spiritual energy was absorbed into Triple True Flame, providing for the Triple True Flame to increase their strength.

The demon god pillars were being melted bit by bit and the resources inside shot out.

Li Xiandao sat cross-legged. In front of them, four demon god pillars charged into the sky. Fortunately, the Time Hall was an independent space, otherwise, it wouldn't have been able to withstand it all.

A demon god pillar in front of Li Xiandao was in flames. It looked really terrifying as it melted. Huge amounts of celestial energy spat out and demon crystals from hell fell out.

At that moment, the nine worlds appeared behind Li Xiandao.

Nine skies!

The nine worlds absorbed it all in and the world's source started to be expanded and merged towards Li Xiandao's body.

The nine worlds were shaking and transforming.

Time passed minute by minute. Li Xiandao closed his eyes and breathed. He went all out to control the nine worlds to merge them into his body.

The first demon god pillar lasted for 250 years, allowing the nine worlds to reach a terrifying level.

The second demon god pillar started to burn.

Li Xiandao continued to persist like this and cultivated endlessly. The nine worlds had expanded to the limit of what he could currently control and started to merge it into his body.

This process lasted for 750 years.

After 750 years, Li Xiandao opened his eyes and looked around. It was empty, the four demon god pillars had disappeared, and only the Triple True Flame was burning there.

Li Xiandao stood up, "1,000 years have passed and I am a level higher."

At the moment, Li Xiandao was at stage eight and just one stage from the peak.

Of course, this was just in terms of realm. Li Xiandao's strength had reached a terrifying level.

The Nine Skies and Ten Lands was fully merged into his body. He could control more and more things and just a small bit of movement would be rumbling amounts of power.

Li Xiandao was satisfied, "This is the power that the Master of the Bank of the Universe should have."

At that moment, he sensed that his Nine Skies and Ten Lands had no restrictions.

He walked out from the Time Hall and came to Seven's garden.

Seven ran it well. The flowers bloomed here and fragrance surged into his nose. It was a beautiful sight.

"Why did you come?" Seven was shocked.

"I was thinking about you, so I came." Li Xiandao smiled and said.

Seven looked at Li Xiandao in shock and saw a streak of light in his eyes, "There must be good news. You seem really happy today."

Li Xiandao was shocked, "Is it so obvious?"

"It is on your face. You are giving off a joyous feeling. Who are you trying to lie to?" Seven's brow rose up and she said.

"Okay, I just think that we should end all the contracts in Great Sky." Li Xiandao said honestly.

Seven looked at Li Xiandao and suddenly said, "You broke through?"

"How did you guess?" Li Xiandao was really shocked. She was so smart?

He didn't tell anyone.

"If you didn't, then you wouldn't collect all the contracts. You would only do that after you broke through and because you are feeling confident." Seven said with certainty.

"You understand me so well?" Li Xiandao smiled happily.

Why was he happy?

Maybe because he broke through.

Or maybe because Seven understood him so much.

After all, there was only one possibility why a woman would understand a guy so much.

"You are my Master, so naturally, I have to understand you." Seven smiled.

Li Xiandao looked at the shy Seven and saw that there was no one around. He placed his arms behind his back and walked closer. He kissed Seven right on the lips.

Seven's eyes opened wide and her heart began beating quickly as she stared back at Li Xiandao.

10 seconds later, Seven pushed him aside. Her face flushed red and she said viciously, "You, you were just talking, so why did you sneak attack me?"

Li Xiandao grinned, "I don't know why but I just wanted to kiss you."

Seven's face turned redder and she rejected him, "From now on, no more kissing."

Li Xiandao felt like her face was so red that it was about to drip blood. She said regretfully, "Okay, I won't kiss you then."

"Right, bring the Great Sky contracts, I am going to hold another meeting." Li Xiandao's face turned solemn. He changed the topic and didn't want Seven to be shy.

Seven nodded but she still eyed Li Xiandao with a wary expression.

Li Xiandao felt uninterested. Why was she so wary of him? He wasn't a pervert. Where was the basic trust between people?

Seven ignored Li Xiandao and just looked at him warily.

Li Xiandao was helpless and just walked away.

...

On the Bank of the Universe square, a copper bell rang.

Dang! Dang! Dang!

Three sounds reverberated in the Bank of the Universe.

At that moment, all of the people in secluded meditation opened their eyes and rushed here.

Everyone who went through it knew that this bell wasn't rung often. Only when Li Xiandao wanted to hold a meeting did he ring it.

No one dared to be slow.

Blood Dragon dragged Chaos Dragon Crocodile right away to fly towards the square.

“What is happening?” Chaos Dragon Crocodile was stunned.

“Master wants to have a meeting. When you hear this sound, just fly to the square.” Blood Dragon explained.

Chaos Dragon Crocodile understood right away. No wonder he was so anxious; Master wanted a meeting.

In just a moment, everyone was here.

Li Xiandao stood on the 100-meter platform. Beside him was Seven and below were all the subordinates.

Battle Angel Michael, Archangel Gabriel, Fallen Angel Lucifer, Moon Angel, Tian Guangming, Heaven Heart, Wu Xian'er, Old priest, Qiu Bai, Northern Region Lord, Li Wuya, Feng Jiuer, Murong Longcheng, Giant Titan, Poison Python, Ling Wu, Jin Wudi, Chaos Dragon Crocodile, Demon Frog, Wild Boar, God Eagle, Pangolin, Mr. Mule, Heaven Swallowing Dog, Barbaric Cow, Blood Dragon...

These were the strongest people under Li Xiandao. They were all really talented.

Li Xiandao looked at them and was really satisfied, “We need to clear all the contracts in Great Sky. Seven will take them out and all of you will split them. Within a month you will clear them all.”

“A month later, we will enter Heaven Sky.” Li Xiandao looked at the endless space. This was the most mysterious place in Nine Skies and was also the place closest to Celestial World. Numerous experts would be there.

Li Xiandao wasn't an exception. In the nine skies, the destination was Heaven Sky!

Chapter 484: Confidence!

On the square, Seven moved out a whole bunch of contracts.

“There are around 1500 contracts here. All of you can split them.” Seven said.

“This is nearly double that of Cold Moon Sky.” Li Xiandao asked.

“How can Cold Moon Sky compare with Great Sky?” Seven rolled her eyes at Li Xiandao.

Thinking about it, it made sense. Great Sky was a whole that was only weaker than that of Heaven Sky.

“There weren’t many Cold Moon Sky contracts and there aren’t many Great Sky ones. Even after removing those contracts with dead hosts, there are only 1,500. If you go to Heaven Sky, there will be much more.” Seven said.

“Are there many contracts in Heaven Sky?” Li Xiandao asked curiously.

“Roughly three times this.” Seven thought carefully before speaking.

“Around 4,000, close to 5,000.” Li Xiandao was shocked.

“Right, Heaven Sky is the biggest market in the nine skies.” Seven nodded.

Li Xiandao was deep in thought.

While Li Xiandao and Seven were speaking, his subordinates all started to select their contracts.

Those weaker ones selected first.

Of course, out of all, apart from Tian Ya and Li Qing’er, who were still growing up, the weakest one of them was already at Emperor Realm.

Most of them had entered Destiny Realm which was why the Emperor Realm people all chose Emperor Realm contracts.

Li Xiandao mentioned that his subordinates were all top geniuses. Even if he let the weakest batch of them head out, they would be able to suppress all the youngsters in the generation.

For example, Wu Xian’er, who had entered Emperor Realm, was only 12 years old this year. Even if she spent some time in the Time Hall, she relied on her own hard work to reach stage four.

She was a Nine-Tailed Sky Fox and due to the top talent of the fox race, she was born really strong. She would become stronger and stronger.

If Wu Xian’er left the Bank of the Universe and went to any faction in the Nine Skies, she would be the undoubted first amongst the youngsters.

But under Li Xiandao, she was one of the weakest.

The only person weaker than Wu Xian’er was La Mo.

But La Mo was already learning from the Book of War and hadn’t given up. Maybe he would chase up and exceed them?

So these 1,500 contracts were swept clean very quickly. Even Chaos Dragon Crocodile who just entered the Bank of the Universe got 40 contracts.

After the contracts were distributed, everyone stood up respectfully and looked towards Li Xiandao.

“Since the contracts are distributed, then head out. Solve them out all within a month. If you can’t, then you will be punished.” Li Xiandao said solemnly.

“Master, don’t worry. I will definitely settle all the contracts.” Tian Guangming slapped his chest and ensured.

He wanted to do more for Li Xiandao and took 81 contracts.

9 times 9 is 81. Tian Guangming had to settle many a day to complete Li Xiandao’s mission but he was still confident.

During this period of time he had been improving himself and he was just this bit from reaching destiny realm. Once he returned, he could ask Master to give him tips and he would easily reach Destiny Realm.

Li Xiandao looked at Tian Guangming and was expressionless, “Go and return quickly. A month is quite short.”

The moment he said this, everyone left. They all exited the Bank of the Universe and started to follow the name on the contract to search for the hosts.

The huge Bank of the Universe suddenly became empty and only Li Xiandao and Seven remained.

“Now that everyone is gone, no one will disturb us.” Li Xiandao signalled to Seven.

Seven frowned and said seriously towards Li Xiandao, “I am going into secluded meditation for a month.”

“Don’t mess about, I have never seen you cultivate.” Li Xiandao didn’t allow it.

“I am not feeling well. I’m on my period, so I need to rest.” Seven thought about it and gave a reason.

“You need to rest for a month?” Li Xiandao had a weird expression. Did she think that he knew nothing?

“Right, woman, troublesome woman.” Seven said helplessly.

"I think that you are lying to me. Why do you need to rest a month because you are feeling unwell?" Li Xiandao frowned at Seven.

"I am not lying. You aren't a woman, so you won't understand. Be good, play with yourself for a month." Seven consoled Li Xiandao.

"I have an idea that can cure that." Li Xiandao said.

"What?" Seven blinked.

"I can give you acupuncture for free and ensure that you will not feel pain for 10 months. After 10 months, you might have unexpected rewards." Li Xiandao smiled.

Seven didn't understand at first, but when she thought about that, her face turned black. She reached out her hand and pinched Li Xiandao, "You only know how to bully me. What else can you do?"

"From now onwards, let's not meet for a month." Seven turned around and left. She cheered herself on to achieve that. They would not meet for a month so that Li Xiandao was punished.

Li Xiandao sighed and returned to his room to cultivate. He wanted to stabilize his realm and cultivation.

...

In his own room, Li Xiandao didn't care to look at his subordinates solving their contracts.

This was because he didn't need to worry.

The lowest was at Emperor Realm and the highest was Chaos Dragon Crocodile and Blood Dragon who were at stage three. Once they went all out, even people at stage five were no match for them.

Only if they met someone stage six and above would Li Xiandao take a look and even give a streak of sword energy.

One was enough.

Li Xiandao was not worried about them. In Great Sky, there was nothing good to be worried about.

in truth, once Tian Guangming and the others left and flew all over, each contract was really simple and quick.

An emperor was really fast and with an emperor personally appearing, even if the other person was an emperor who didn't want to compensate, he had no choice.

So often they would just ask them if they would repay it, otherwise, they would kill them right away and collect their riches, to take back what the Bank of the Universe loaned them.

After solving this contract, they would start the next.

On this day, Great Sky was in a mess. Many hidden secrets were exposed and this would be fatal.

They thought that even if they went against it, the Bank of the Universe didn't appear and they could continue to live peacefully.

However, the Bank of the Universe started to take care of them one by one and they couldn't smile at all.

The more convenience they enjoyed, the worse their deads. Not only that, but their family riches all belonged to the Bank of the Universe.

Fight back?

Could they win?

Even the weakest Wu Xian'er could fight against five against emperors. With the celestial artifact that Li Xiandao gave her, she could even activate it and fight one against ten.

So, this contract clearance was the simplest.

The reason was because they were too strong and they weren't as weak as before.

Including Li Xiandao, his strength gave him confidence. He sat in the Bank of the Universe and he would just summon a streak of sword energy to slice whoever dared to kill his men.

Bank of the Universe - Chapter 485 - Smart Tian Guangming! Chapter 485: Smart Tian Guangming!

All his subordinates were outside dealing with the contracts while Li Xiandao just calmly cultivated in his own room.

Seven said that she didn't want to bother about him, so she really didn't. She just stayed in her own garden and didn't head out.

Li Xiandao was a little lonely. Without Seven by her side, he was a little not used to it.

Fortunately, it was just a month. Once this month passed, Seven wouldn't be so angry and she would forgive him.

...

Outside the Bank of the Universe in Great Sky, there were such contract squabbles all over. With 1,500 contracts, each person was in charge of one region, so they didn't need to run all about just like that.

Tian Guangming had 81 contracts and was one of the top three. His expression was cold and he didn't care about having fun or playing around. He just thought about solving contract problems as soon as possible.

After the first day, Tian Guangming used his cold expressions and sharp actions to solve 10 contracts.

This speed made Tian Guangming delighted, "All these so-called emperors aren't too strong. Compared to this bunch of perverts in the bank, they are so many times weaker."

In the Bank of the Universe, Tian Guangming mostly came into contact with monsters like Heaven Heart, Lucifer, old priest, and Northern Region Lord.

These people dealt a huge blow to Tian Guangming. Even if his cultivation was quick, he couldn't catch up to them. He could only ensure that he wasn't left behind.

Under such a situation, Tian Guangming didn't dare to say that he was a genius. He also didn't think that he was strong. This sense of pressure on him meant that he needed to improve himself if not he would be eliminated.

But after leaving the Bank of the Universe and entering this vast land, when he met emperors on the same level, one punch from him was too much for the enemies, such shock told Tian Guangming that he was strong.

He was strong but he couldn't compare to Heaven Heart. This meant that Heaven Heart was even stronger.

Thinking about it, Tian Guangming's excitement was gone. He casually killed those people who weren't willing to pay the compensation.

Right, someone at stage four of Emperor Realm couldn't even block three punches from him.

Tian Guangming used the Great Light Bright Fist and was really valiant and fierce. Just three fists and he exploded.

He took their accumulated savings.

Tian Guangming rushed to the next family.

He came to the next one and asked right away, "You broke the contract. Are you willing to pay the compensation?"

This emperor was stunned. He then recalled that he owed the Bank of the Universe something and he still hadn't repaid it.

"Who are you?" This emperor wanted to act cool.

But Tian Guangming didn't bother to talk nonsense to him. He stared at this host. Seeing that he didn't reply, he said coldly, "I asked you and you don't even reply, so just die."

Hong!

When Tian Guangming launched the Great Light Bright Fist and the space around cracked. The emperor spat out blood right away and he knelt down.

"Slow down, slow down. I have a decent relationship with the Master. I don't know if you remember but I ate with him before." The emperor was terrified.

Tian Guangming looked at him and smiled, "Sorry, I remember clearly, my Master definitely hasn't eaten with you."

"Let me off." This emperor shouted in fear.

Tian Guangming waved his hands, "Turn your head and let me consider."

The emperor looked at Tian Guangming curiously before turning his head.

Peng!

Tian Guangming's smashed down his fist without hesitation and was right on target.

"So well behaved. If you don't die, then who won't?" Tian Guangming muttered. He used an hour to sweep all of this person's assets.

When Tian Guangming found the next person, he was really furious. He didn't listen and wanted to kill Tian Guangming.

Tian Guangming was helpless, "So naughty! If you don't die, then who will?"

Peng peng peng!

Tian Guangming relied on his Great Light Bright Fist and punched down three times to kill this emperor and take all his treasures away.

"Damn, all so rich. You have so many resources and don't use it, so what is the point?" Tian Guangming scolded before collecting all of them. He was prepared to give them to Li Xiandao and ask for rewards.

They stored it and didn't use it and that benefitted Tian Guangming.

He then continued to the next!

Just like this, Tian Guangming used such a simple and violent method and obtained a large bunch of treasures.

The others were the same. On this day, a few hundred emperors died. Although it seemed shocking, in the entire Great Sky, this seemed like a drizzle.

Just like that, they continued on the second day and solved all the contract disputes.

At the same time, a space tunnel appeared in the area where Tian Guangming was completing the contracts. Nine top experts walked out from the tunnel and all of them were really strong.

The weakest was at stage seven.

There were a few stage eight ones and the key was that the leader was at stage nine.

That was the peak of Destiny Realm.

"Who wiped out the Heaven and Earth Sect branch?" The old man walked out of the world tunnel and looked at the slowly closing tunnel. He was annoyed and asked with a cold expression.

Without the demon god pillars supporting, even a stage nine old man wasn't able to stabilize the tunnel.

"I don't know. We have no clues of the person. It is as if he appeared out of thin air. A stage seven Destiny Realm middle aged man replied.

“Have you confirmed his position?” The old man continued to ask. At the same time, he looked around and observed Great Sky.

“Old Xiong, the person disappeared without a trace.” A stage eight old man said helplessly.

“The sect sent us over for us to find this person and investigate how Heaven and Earth Celestial Sect was wiped out. If all of you don’t know, then why do I need all of you?” The stage nine Old Xiong said.

The others were embarrassed and sighed.

“Old Xiong, he is just too cunning and he disappeared. Our tracking methods were all used but we didn’t gain anything.” The stage eight old man was helpless.

“I’d rather ask native cultivators. They will definitely know more than you. Such an amazing person definitely can’t appear out of nowhere. There will definitely be clues.” Old Xiong was unhappy. With a look around, he suddenly noticed Tian Guangming who had just ended a contract.

“Brother, come and have a chat, I have something to ask you.” Old Xiong’s tone was very tough. There was no room for discussion and it was like an order.

Tian Guangming was stunned. *Ask him?*

Who were these people?

He had to deal with the contracts so should he bother?

Tian Guangming didn’t want to. He had many contracts and couldn’t let his guard down.

But the old man was too strong. With one gaze, it was like a blade that could slice up one’s body.

Tian Guangming walked over and said respectfully, “Senior, what do you want to ask?”

“Do you know who wiped out Heaven and Earth Celestial Sect?” Old Xiong asked directly.

Tian Guangming was stunned, Heaven and Earth Celestial Sect?

Wasn’t that the top faction that Master wiped out?

Li Xiandao went to wipe out Heaven and Earth Celestial Sect and took in Chaos Dragon Crocodile. Everyone knew that.

“These people definitely want to take revenge and they want to attack Master. I must hold them back and report to Master.” Tian Guangming thought about it and replied.

“I don’t know that Heaven and Earth Celestial Sect was wiped out but my friend should know. Let me contact him.”

“Be quick.” Old Xiong was impatient.

Tian Guangming agreed respectfully but deep down he was laughing coldly.

Once I report to Master, let’s see whether or not you will die?

Chapter 486: Extreme Improvement!

Tian Guangming delayed time while acting like it was real. He took out his communication talisman and contacted a friend.

This so-called friend was his disciple Li Wuya.

Li Wuya was stunned when he got the information, especially since Master was asking him about Heaven and Earth Celestial Sect.

Didn’t Master wipe out Heaven and Earth Celestial Sect?

But Li Wuya was really smart. He knew that although his Master was a weird person, he wouldn’t be this messed up.

So, he started to sprout nonsense along with his master.

Old Xiong became happier and happier but when he saw that Tian Guangming was asking seriously, he couldn’t vent it out.

In truth, Tian Guangming had contacted Li Xiandao a long time ago.

Within the Bank of the Universe, Li Xiandao waved his hands and a video of Tian Guangming appeared in front of him.

The nine Destiny Realm experts with decent auras crossed worlds. They were from Heaven and Earth Sect and came to investigate Heaven and Earth Celestial Sect’s destruction and the world tunnel matter.

The one leading was stage nine.

“Master, this old man is really terrifying. His gaze is really invasive looking. I feel like he wants to kill me. I don’t even have a chance to fight back at all.” Tian Guangming shouted in his mind.

Li Xiandao nodded and said, “You are right.”

“What should I do? Should I continue to delay or find an excuse and lie to them?” Tian Guangming was worried.

Li Xiandao thought about it, using his hands to support his head, “Tian Guangming, do you want to experience the strength of being invincible?”

“What do you mean?” Tian Guangming didn’t understand what Li Xiandao said.

“I will give you a streak of sword energy, use it to kill the nine of them.” Li Xiandao smiled coldly.

“You must be kidding, Master. This old man is really terrifying and I don’t even dare to move. He has locked onto me.” Tian Guangming trembled.

Li Xiandao noticed this. Old Xiong noticed that Tian Guangming was delaying time and stared at him with a sharp gaze.

A stage nine Destiny realm old man stared at Tian Guangming sharply.

It was quite amazing that Tian Guangming didn’t pee himself or his legs didn’t go soft.

As expected, Old Xiong asked coldly, “You are delaying time?”

Tian Guangming was shocked and gave an awkward smile, “I am helping you ask a friend, so how is it that I am delaying time? You really know how to joke.”

“Asking a friend, but your attitude and that of the person talking to you are all delaying time. I am old but I am not stupid.” Old Xiong shouted fiercely.

“Who are you? Why are you delaying time? Do you know something and am doing so purposely to send a message?” Old Xiong’s aura covered half the sky like a thunderstorm. The terrifying scenes made one tremble.

Tian Guangming trembled. He didn’t want to but he couldn’t help himself.

He was only at peak emperor and hadn’t entered Destiny Realm. How would he be able to block the aura of someone at peak Destiny Realm.

If he wasn’t a little immune to strong auras in the Bank of the Universe, Tian Guangming would have already been forced to kneel down.

“You definitely know something. Are you going to speak or not?”

“If not, I will pull out your soul. Have you heard of the soul searching technique?” The old man laughed and walked closer.

Hong!

This step directly caused the world in front of Tian Guangming to collapse inch by inch.

At that moment, all things in heaven and earth turned illusionary and there was only Tian Guangming and Old Xiong.

Old Xiong had a cold expression as he walked towards him. He reached out his chicken claw-like palm and wanted to grab Tian Guangming’s head.

His fingers were like an eagle claw and he reached out for Tian Guangming’s head.

Tian Guangming looked on in terror. This damn guy actually wanted to pull out his soul and search it?

He was indeed a little unlucky usually but not everyone can bully him.

I still have a Master!

Tian Guangming hollered in rage, “Master, pass me a streak of sword energy.”

Within the Bank of the Universe, Li Xiandao’s lips curled up and he looked at the scenes in front of him. He flicked with his fingers and a streak of sword energy shot out.

Keng!

This sword energy pierced through the scenes in front of him and into Tian Guangming’s body.

Hong!

Tian Guangming only felt like there was a terrifying power in his body that was extremely sharp.

“You old piece of glass. You want to extract my soul? Go and die!” Tian Guangming shouted in anger. He used his fists as a weapon, using Great Light Bright Fist. But what shot out was endless amounts of silver-white sword energy.

Hong long long!

The sword energy intersected and instantly shocked Old Xiong. He looked at Li Xiandao in disbelief as he retreated to try and avoid the sword energy.

“Who are you? How can you use such strength?” Old Xiong said fiercely.

“I am your grandfather!” Tian Guangming shouted in rage. He was really arrogant now.

Didn't you want to kill me?

Didn't you want to extract my soul?

Didn't you want to search my memory?

Bring it on!

I couldn't beat you, but my Master, the Bank of the Universe's Master couldn't?

Master didn't even need to come personally. He can just kill you with a streak of sword energy.

Keng!

Tian Guangming punched a second time. When this fist was used to strike an emperor of the same realm, it was really powerful. Now that it was used against a stage nine Destiny Realm expert, it was really strong too.

A 3,000-foot sword energy shot out from Tian Guangming and swept forwards swiftly. With Li Xiandao's sword energy supporting, Tian Guangming feared nothing and fought the old man head-on.

Hong long long!

Old Xiong had nowhere to hide. He himself was really angry and he scolded, “Do you think I am afraid of you?”

Old Xiong tossed out his treasure, a pagoda that covered the area. It was really strong and gave off a huge commotion.

The pagoda was eight cornered and each had eight bells that started to ring. The ringing could disrupt one's mind.

It was a celestial artifact and Old Xiong was able to activate seven celestial seals.

This explosion suppressed many of the sword energy and pressed down towards Tian Guangming.

The sword energy was strong but they couldn't block the artifact and all of them collapsed.

The pagoda pressed down towards Tian Guangming.

"Use the Heaven Emperor Brush!" Li Xiandao said calmly.

Tian Guangming activated the Heaven Emperor Brush right away and then injected all the remaining bit of energy from the streak of sword energy.

Dong!

In an instant, the Heaven Emperor Brush reached a never before seen level.

It had been a long time since it was refined.

After Li Xiandao's last bit of energy from the sword energy was injected in, all nine seals were opened.

With all nine seals opened, the strength of the Heaven Emperor Brush was on full display for the first time.

Shatter!

Heaven Emperor Brush didn't hesitate and one word was written in the air.

Kacha!

Instantly, the pagoda started to crack. One corner broke and it started to wobble. It fell to the ground and crushed 100 miles of land.

Chapter 487: Attack From The River Of Destiny!

They were both Celestial Artifacts but after the Heaven Emperor Brush shattered in the sky, the eight-sided pagoda broke apart. It fell to the ground and its immense strength caused 100 miles of land to collapse.

Such a shocking scene stunned the nine people who crossed worlds.

Even Old Xiong who was at stage nine had his mouth opened wide.

"I... My eight-corner pagoda is a celestial artifact. In fact, it is a really strong celestial artifact. People of the same grade can't shatter it. I have fought with it for 10,000 years, how... How?" Old Xiong trembled.

The eight corner pagoda shattered. It had lost its sentience and he was affected too. He spat out a mouthful of fresh blood.

Tian Guangming laughed out loud, "You old glass wanted to kill me and pull out my soul and search my memories. Now, do you still want to?"

Shua!

Old Xiong stared at Tian Guangming with a sharp gaze and gritted his teeth, "Kid, you are really making me angry. Don't think that just because you have a celestial artifact that you can suppress the nine of us?"

Tian Guangming who was at Emperor Realm was just a kid to him.

He was also an annoying kid, especially that mouth of his. He wanted to skin him alive and shove it into his mouth.

Tian Guangming didn't fear anything and instead laughed coldly, "Rely on celestial artifact? Your grandfather Tian Guangming never relies on Celestial Artifacts."

He relied on his Master!

10,000 celestial artifacts couldn't compare to one Master. With Master there, Tian Guangming was the safest.

"Head up together and kill him. I will search his soul. Who cares about his life or death?" Old Xiong wiped off the fresh blood at the corner of his mouth and shouted in anger.

He hated Tian Guangming to death and wanted to kill him right away. As for soul searching, he could even do that against a dead person.

A dead person was even better than that of a live person. At least the dead won't fight back and you would be able to do whatever you wanted.

The other eight experts attacked.

Hong!

The aura of the eight of them attacking was quite shocking.

The weakest of the eight of them was stage seven and there were also a few stage eight ones. Each one of them could kill Tian Guangming thousands of times. They attacked altogether, their aura and true qi sweeping forth.

True qi was like a flame, like a tsunami or a storm. If it touched Tian Guangming, he would definitely die.

But the problem was that they couldn't touch him!

Heaven Emperor Brush had prepared long ago. The refined Heaven Emperor Brush gave off a strong glow. It bloomed like a flower and it looked really beautiful.

Heaven Emperor Brush wrote a word in the air!

Freeze!

The moment the word was written, the energy that could claim Tian Guangming's life instantly settled down and he was frozen in the air.

One drop of energy was about to land on Tian Guangming but now it felt as if everything had frozen.

Tian Guangming instantly fled. He was terrified to death.

He nearly peed his pants, but fortunately, he held it in.

"Heaven Emperor Brush, kill them." Tian Guangming shouted in anger which stemmed from embarrassment.

Old Xiong and the others reacted. If they wanted to kill Tian Guangming, they had to get past Heaven Emperor Brush.

If they couldn't, then they wouldn't be able to kill Tian Guangming.

"Head up together and suppress this celestial artifact. I don't believe that a celestial artifact without a master can be strong?" Old Xiong shouted in anger. He didn't panic much. What hasn't he seen in his life?

With just one look he saw that Tian Guangming was master of Heaven Emperor Brush but Tian Guangming definitely wasn't in control of it. Heaven Emperor Brush was acting on its own.

Since it was acting on its own behalf, everything would be much simpler.

If they suppressed him, would he even be able to turn the sky over?

Old Xiong's face was cold and really calm. He was the first to attack. He pressed down with his palm and sent an unstoppable aura out right away.

The other eight attacked at the same time to try and suppress the Heaven Emperor Brush.

Hong long long!

In an instant, the space around the Heaven Emperor Brush was sealed up and it seemed like it couldn't move at all.

But it only seemed that way!

At that moment, Heaven Emperor Brush suddenly exploded. It didn't write anything and just slashed in the sky.

Kacha!

The sky shattered!

Different from when it shattered from a battle, this caused a 100-mile crack that split the sky into two. Chaos energy spurted out and it repelled the attacks of the nine experts.

Hong!

All nine experts spat out blood, including Old Xiong who opened his eyes wide. His heart started to beat quickly. His calmness started to fade after the Heaven Emperor Brush's slash.

Like... The situation was totally different from what he had seen.

Not only was the Heaven Emperor Brush not suppressed, but it became even fiercer.

Right, it became even fiercer!

When it was being suppressed, the Heaven Emperor Brush's artifact spirit became furious. It took all of Li Xiandao's sword energy out.

Hong long long!

The space crack became bigger and bigger like a terrifying deep abyss that sent a chill down one's spine.

At that moment, the Heaven Emperor Brush wrote a word.

Die!

Then, the Heaven Emperor Brush swiped forwards and the word flew out. It directly entered the body of one of the stage eight experts.

Pu!

Immediately, this stage eight Destiny Realm expert started to choke.

He didn't utter a single dying word as his life force just disappeared.

When the others saw this, they were completely astonished and filled with disbelief.

That was even possible?

When killing, one could struggle and curse. If it really hurt so much, they would have been able to shout too, right?

He didn't even do anything and died just like that...

When Old Xiong saw this, all his calmness and confidence disappeared. He trembled, "You... You sliced off his future in the river of destiny. That was why he died."

Old Xiong was knowledgeable and he was also at stage nine. He knew many things and saw what was going on right away.

The death word that Heaven Emperor Brush wrote contacted the river of time. When it was shot into the body, it exploded. The power that it brought with it would wipe out one's future.

If you had no future in the river of time, then how would you be able to live?

Old Xiong had seen such an attack many years ago.

But the person who used it came from the Celestial World.

It was a Celestial!

But now, the Heaven Emperor Brush which was only a celestial artifact. Could it have such a terrifying ability?

Hearing Old Xiong's explanation, everyone was shocked and filled with disbelief.

He didn't attack him directly but attacked his future in the river of destiny. He just wiped him out right away.

What kind of weird technique was that?

Was there such a terrifying skill?

Everyone trembled in deep fear.

Heaven Emperor Brush didn't bother. It continued to write.

Die! Die! Die! Die!

Heaven Emperor Brush wrote eight words at once.

These eight words used up all the energy from the streak of sword energy that Li Xiandao gave.

Then, the Heaven Emperor Brush shot out all the words. It lost its strength and fell to Tian Guangming's body.

Tian Guangming raised his head in shock and looked at the nine of them.

Nine experts!

In Heaven and Earth Sect, these nine were a really strong bunch.

If they were lost, Heaven and Earth Sect would definitely be dripping blood.

When Tian Guangming thought about this, he became really excited.

Who asked them to occupy the world tunnel and even set up a branch to collect fees?

Of course, more importantly, they wanted to kill him!

People who wanted to kill him all had to die. Tian Guangming thought about it viciously.

Chapter 488: What Else Do I Need To Unlock The Next Mountain?

Hong! Hong! Hong!

Heaven Emperor Brush wrote eight kill words. The moment it ran out of strength, the words shot forwards.

The targets were the remaining eight experts who were on guard.

Old Xiong's expression was fierce and his old face gave off a frightening, green light.

At that moment, he was not calm and he had no confidence. He started to panic and actually became really afraid.

The Heaven Emperor Brush's attack terrified him. He was filled with fear and he tried his best to block it.

“Don’t think about killing me. I have reached stage nine and am just a few steps away from ascending. Your attacks are useless against me.” Old Xiong shouted in rage. Light appeared around his body and covered the entire sky, turning into one shield after another.

Defense!

He had to defend and block this move. Heaven Emperor Brush had run out of strength and he didn’t need to fear it anymore.

As long as he blocked this move, the Heaven Emperor Brush was his. He would also be able to kill Tian Guangming, the scumbag.

Heaven Emperor Brush’s immense power shouldn’t have been wasted on Tian Guangming. If it was in his hands, he would have a high chance of ascending.

Thinking about it, Old Xiong was pumped up. His gaze was really sharp like that of an eagle. He stared at the death word that flew towards him.

The others were the same. They held up many protective layers and had solemn expressions on their faces.

Worse still, someone held up 100 protective layers and laid them out. If there was enough time, he would have laid out a few thousand of them to ensure that he was safe.

But the defensive shields that they saw as their saving grace weren’t of any use against Heaven Emperor Brush’s words.

The words that Heaven Emperor Brush wasn’t affected by the defensive shields. They attacked the river of time and not the people themselves. The moment they touched the shield, it was like a sharp arrow piercing through the lake. It caused waves, layer after layer of them. Although it was hampered a little, it wasn’t of much use. It still had huge strength.

Dong!

The kill word directly pierced through the stage seven Destiny Realm expert with the weakest shield.

The kill word entered his body and that stage seven expert collapsed. His life force disappeared and he didn’t make a sound.

He died just like that.

There was no sign at all. Once the kill word entered the body, one didn’t even have a chance to react.

First, second.

Second, third.

Pu pu pu!

Stage seven and stage eight experts started to fall to the ground after the kill word entered their bodies.

This was a totally silent scene. It was totally different from the war where killing intent exploded and they fought one another.

They died without making a sound. There were no tragic shouts or gory scenes. There were no killing moves thrown out to kill...

All that happened was people falling and dying.

This time it was even more terrifying, scary, and weird.

Old Xiong was facing the attack too. He was at stage nine and originally, he thought that he could block it, but the people beside him fell one by one. His kill word wasn't blocked and it was flying towards him.

His expression was one of terror and panic. He gritted his teeth and flew away. He didn't even defend and wanted to open up the distance between them.

"I can't afford to take this on but can't I hide?" Old Xiong hollered and then his body disappeared at a quick speed.

Xiu!

But the kill word was even faster. Without the defensive layer blocking, it was really like a sharp arrow piercing through the sky.

Pu!

This word entered Old Xiong's body. His eyes were filled with disbelief and then he shouted in shock, "No..."

But it was just a word.

His cultivation was higher, so he was able to shout something before he died.

Putong!

Old Xiong directly fell from the sky and smashed into a mountain, causing the entire peak to collapse. He was also buried by stone.

Tian Guangming blinked.

Fierce!

No, too fierce.

“Damn, that is my Heaven Emperor Brush?” Tian Guangming took out the Heaven Emperor Brush and looked at it carefully. He loved it so much.

After Li Xiandao passed the Heaven Emperor Brush to Tian Guangming, he studied it closely and refined it every day.

But that was because the Heaven Emperor Brush was a celestial artifact given to him by Li Xiandao.

Tian Guangming always felt that the Heaven Emperor Brush itself was not strong. This was because when he activated a few seals, it didn't show off much overpowered strength and it was just like a normal celestial artifact.

This made him guess that this Heaven Emperor Brush was a normal celestial artifact. Although he still liked it, he didn't place much emphasis on it.

But at that moment...

Tian Guangming personally witnessed the Heaven Emperor Brush evolving. Without Master's control, it wrote nine words and killed nine experts.

One of them was an expert that was at stage nine Destiny Realm.

“You are so strong?” Tian Guangming wiped the Heaven Emperor Brush and his eyes were filled with excitement. He really wanted to hold the Heaven Emperor Brush up high and worship it.

“These bunch of bastards who dare to cross worlds. Now, you know that your grandfather Tian Guangming is strong.” Tian Guangming said in delight.

He attributed Heaven Emperor Brush's kills to himself.

Heaven Emperor Brush was his treasure and he was its owner. Naturally, its kills were his too?

After all, without him, Heaven Emperor Brush wouldn't be able to show off such strength.

Of course, Li Xiandao's sword energy was the key.

But!

Without him asking Master to give him a streak of sword energy, could Heaven Emperor Brush show off such huge strength?

So, that meant that Tian Guangming had killed all of them. This logic made sense.

Tian Guangming checked out all the corpses. As for Old Xiong, who was buried in the mountain, Tian Guangming was lazy and didn't search for him. He also kept the eight-sided pagoda.

Although one corner was broken, in essence, it was strong. It was a celestial artifact and the strength of a celestial artifact wasn't to be underestimated. It only lost because it met the Heaven Emperor Brush.

Heaven Emperor Brush suppressed it and broke one corner. But if it was repaired and nourished with spiritual energy, it would recover soon enough.

Its source wasn't affected and it was fine. Tian Guangming picked it up happily and said, "I shall give this to Master and he will definitely be happy and give me some treasures. He might even give this to me and help me with my cultivation so that I can enter Destiny Realm. I can't fall too far behind Heaven Heart."

Tian Guangming still had a goal of chasing up to Heaven Heart. They were all Master's subordinates, so what gave him the right to be so strong?

Tian Guangming wasn't weak either. It was just that his talent was not comparable. So, he would hug Master's thigh. He would definitely be able to catch up and even exceed him like that.

Tian Guangming cheered himself on and then continued to clear the contracts.

He still had dozens more.

...

Within the Bank of the Universe, Li Xiandao wiped away the scenes in front of him. He stood by the window and looked at the numerous mountains.

"Now that the Bank of the Universe has saved up a decent amount, can we unlock the next peak?" Li Xiandao wanted to know what the gap to the next peak was.

Chapter 489: One More Month!

Since Li Xiandao started from Dali Land, he unlocked five mountain peaks. Without an exception, all of them helped him a lot.

Time Hall, Ten Thousand Country Book Depository, Legacy Hall, Restricted Mountain Peak, Teleportation Peak.

The sixth mountain peak wasn't unlocked yet. Li Xiandao didn't ask Seven either as his intuition told him that the resources needed far exceeded his imagination.

During these days, the Bank of the Universe had been accumulating. He collected the Cold Moon Sky and Hell Sky contracts and obtained many treasures that were piled up in the Bank of the Universe's treasury.

These treasures were the key to unlocking the sixth mountain peak. Li Xiandao had the demon god pillars, so he didn't care about using these resources.

"Can all the treasures added up together unlock the sixth mountain peak?" Li Xiandao didn't have confidence.

He wanted to ask Seven but he had made her angry and she didn't want to see her for a month.

So, he could only wait silently.

A month passed really quickly.

Li Xiandao entered deep sleep and didn't think or care about anything. He cleared his mind and let a month pass just like that.

During this month, Li Xiandao rested up and his body grew. After such a long rest, all his accumulated exhaustion was gone.

The moment he opened his eyes, he swept his arms forwards and ripples appeared in the air around. They dissipated all around and formed many videos.

A giant scene with many different screens of Li Xiandao's subordinates.

Most of them had completed their contracts and were rushing back. Some of them were strolling around and looking at the scenery.

Tian Guangming was still working hard at solving the contracts.

Since he met Old Xiong, his luck had become much worse. Most of the hosts delayed time or they knew that Tian Guangming was here to collect the debt. All of them fled.

Tian Guangming had to chase up to them to complete the contracts. Although he managed to do so in the end, he had wasted a lot of time.

As a result, on the last day, Tian Guangming still had many contracts in his hands and he was still really busy.

Tian Guangming also knew that it was the last day.

His disciple Li Wuya had finished his contracts seven days ago and was having fun all about. He suggested to come and help Tian Guangming but Tian Guangming rejected it.

He wanted to rely on his hard work to gain Li Xiandao's pity. If he came to help him, it would be too simple, so how could he ask for a reward?

Tian Guangming's plan was really well thought out.

The first thing Li Xiandao saw when he opened his eyes was that Tian Guangming was working hard. The others were either rushing back or having fun all about. Only Tian Guangming was heading person to person to kill them.

Right, he headed person to person.

He didn't care about attitude. He found the host and asked right away, "Will you pay the compensation?"

This was the problem that Li Xiandao suggested to give them a chance.

Since he gave a chance for them to pay back the compensation money, if they did, that person would be fine.

If they didn't, then they would definitely die.

But Tian Guangming was really fierce, terrifying the host and making him attack.

"You are asking for death." Tian Guangming was delighted. He was the one who attacked first, so this wasn't his problem. He would just kill him and end the contract.

Hong!

Tian Guangming attacked by slapping forwards. With a loud explosion, the emperor was smacked into meat paste.

"Done. Sweep everything and I'll have a few more contracts left. Let's end it before the sky turns dark." Tian Guangming was delighted and started to collect everything.

When Li Xiandao saw this, he nodded in satisfaction. Tian Guangming really was hardworking.

Tian Guangming's plan succeeded. Li Xiandao felt like he needed to reward Tian Guangming. Although he didn't contribute much, he did put in a lot of effort.

"Come back to the square for a meeting." Li Xiandao sent a message to everyone. He went to wash up and changed before walking out.

After a month, Seven was smiling as she appeared in front of him.

"Is your body better?" Li Xiandao smiled and asked.

"Yes, my body feels good." Seven's smile was like that of a flower. She walked around Li Xiandao, her skirt dancing in the wind. She looked really youthful and beautiful.

"Since that is the case, then I won't need to worry anymore." Li Xiandao heaved a sigh of relief and said.

What he meant was that since she was not angry anymore, he was at ease.

Seven understood it and scoffed, "Don't talk nonsense in the future. We have just started."

"Okay." Li Xiandao stood beside Seven. He sniffed her scent and he felt really energized.

As time passed, everyone slowly returned.

When the red sun set, Tian Guangming rushed back too.

"So close, I nearly missed it." Tian Guangming felt fortunate.

Li Xiandao stood on the steps with his arms behind his back and said calmly, "You are the last one."

Tian Guangming didn't bother about the awkwardness and said, "Master, I got a decent celestial artifact. Although one corner of the pagoda is broken, it is mostly okay. If we repair it, we can continue using it."

Li Xiandao looked at Seven and said, "Don't you know who you should give this too?"

Tian Guangming understood and passed it to Seven right away, "Seven, apart from this eight cornered pagoda, I have gotten back all 81 contracts. As for treasures, they are all stored within the pagoda."

Seven smiled, "Okay, I shall take it."

Li Xiandao coughed and look at his subordinates. Their cultivation were really decent and he was satisfied with it. "Since all of you are back, then hand your treasures to Seven and pick one that you find suitable."

"Thank you, Master!" A bunch of people started to cheer. Out of the treasures, they needed many of them.

For example, Chaos Dragon Crocodile said emotionally, "My weapon was unsuitable for me a long time ago. I want a celestial artifact. There is a giant axe out of the debts I collected and it is really compatible with me."

The two-handed axe was really huge and with them in his hands, Chaos Dragon Crocodile could turn into a meat grinder. He would be able to kill several people at once.

"Then, take it. Master is really generous. Since you need it, Master will definitely give it to you." Blood Dragon smiled.

"Eh eh, it is my honor to have such a Master." Chaos Dragon Crocodile said gratefully.

Li Xiandao looked at them pass the treasures to Seven and then pick out what they wanted. He walked towards the side with a smile.

Seven kept them all and was really delighted. After everyone left, Seven walked down and asked, "Now, can we unlock the sixth mountain peak?"

Chapter 490: Nether Purple Mountain!

Seven was clearing the treasures and when she heard Li Xiandao's words, she was stunned. She thought about it and said, "You want to unlock the sixth mountain?"

Li Xiandao nodded, "If I can, then of course. The mountains are all connected and I only unlocked five. That's too few."

Seven said, "I don't think we have enough resources?"

"What is the key to the sixth mountain peak?" Li Xiandao asked curiously.

The first five had brought him many benefits and helped him to increase his cultivation. If the sixth one could provide more benefits, that would be amazing for Li Xiandao.

Li Xiandao wanted to unlock more because of such a consideration.

Seven smiled, "The sixth mountain wouldn't be of much help to you but it would really help your subordinates."

"What is it?" Li Xiandao asked curiously.

"Weapon Crafting Mountain Range!" Seven said.

"Weapon Crafting Mountain Range, what do you mean?" Li Xiandao was confused.

"Weapon Crafting Mountain Range like the name suggests. It is a mountain range to craft weapons. But this mountain range is different from others. It is special. If you toss broken weapons, celestial artifact souls, and also rare metals inside, the Weapon Crafting Mountain Range will automatically help you to craft weapons and artifacts." Seven replied.

"Automatic?" Li Xiandao was shocked.

This was a little magical.

"Right, the Weapon Crafting Mountain Range is a giant volcano and it is a natural one. There are chaos flames inside but they are temporarily sealed up. When you have a chance in the future, you can unseal the chaos flames and it will even be able to craft the strongest weapons in Celestial World. When the time comes, your subordinates will be able to smash enemies to death with weapons." Seven nodded.

"I am suddenly really interested, what is the price of unlocking it?" Li Xiandao was pumped up and asked.

"Let me see whether or not these treasures including those in the treasury are enough?" Seven started to calculate.

Li Xiandao waited and looked towards the mountain range which was being covered by fog.

This was the sixth mountain, the Weapon Crafting Mountain Range.

The first five were peaks.

The sixth one was a mountain range with such an amazing ability. Just thinking about it filled Li Xiandao with anticipation.

Li Xiandao definitely wanted to unlock the majestic mountain range so that the Bank of the Universe could regain some of its function.

"You are still lacking a little." Seven raised her head and looked towards Li Xiandao helplessly.

“How much?” Li Xiandao asked solemnly.

The treasures collected along with those in the Bank of the Universe before were still lacking a little. This made Li Xiandao suck in a deep cold breath.

The resources needed to unlock the sixth mountain wasn't a small amount.

“You lack roughly the accumulated treasures of a top sect.” Seven calculated and said.

“What kind of top sect?” Li Xiandao asked.

There were many different top sects.

For example, those in Cold Moon Sky or those in Great Sky. Were they the same concept?

Cold Moon Sky was second last out of the nine skies while Great Sky was ranked second.

They were both second and both top sects but were they the same?

So, Li Xiandao had to be clear about it.

“The top sects in Heaven Sky, those who have been passed down since ancient times and not those new ones.” Seven emphasized.

Sects were also split into those with a long legacy with 100,000 years as their foundation.

There were those that rose up in the last 10,000 years, producing many generations of top geniuses which allowed them to leap into a huge sect.

But were their accumulated treasures the same?

The 100,000-year sect would definitely accumulate much more.

What Seven talked about was those big sects with a long history of at least 100,000 years.

Li Xiandao took in a deep breath, “It seems like we need to head to Heaven Sky.”

“But, even if they are large sects, huge factions and have a long history. We can't steal from them. After all, we are the Bank of the Universe and not bandits.” Li Xiandao said helplessly.

If there was a 100,000-year-old faction in front of him and both sides had no animosity with one another, what gave Li Xiandao the right to snatch the riches from them?

Seven had considered that and when she thought about how they lacked the resources from one large faction, she had already planned a solution for Li Xiandao.

“Look at this.” Seven passed a contract to Li Xiandao.

Li Xiandao took a look and realized that this was a weird contract.

This contract didn’t have a host or rather it was not normal.

“Nether Purple Mountain uses itself to sign a contract with Bank of the Universe in exchange for 100,000 soldiers to fend off its calamity.” Li Xiandao glanced at the contents and realized that the contract looked weird.

The host wasn’t a person. It was a mountain. It was a huge mountain known as Nether Purple Mountain. Had it used itself as a reward to sign a contract in exchange for 100,000 soldiers to defend against a calamity?

“This was also signed by the last guy?” Li Xiandao said with a weird tone.

Seven shook his head and said, “No, it was signed by the one before that. He signed it 30,000 years ago.”

The former former Master!

Which was the 7th Master.

This was the first time Li Xiandao had seen a contract that he signed.

“What is going on with this Nether Purple Mountain?” Li Xiandao asked.

“Nether Purple Mountain is a place that focuses on purple crystal formations which are popular things even in the Celestial World. Purple crystals are larger than celestial crystals. This Nether Purple Mountain is a branch of the biggest purple crystal mine of the Celestial World.” Seven explained.

“What is up with the 100,000 soldiers?” Li Xiandao asked.

“That year, the Nether Purple Crystal Mine was in huge trouble. A huge power wanted to occupy it and sent millions of troops. The Nether Purple Crystal Mine was at its weakest state, so this branch formed its own intelligence and found the Bank of the Universe. It used itself as the price in exchange for troops to help the mine tide through the crisis.” Seven explained.

Li Xiandao understood and had a weird expression, “So, this mine should belong to the Bank of the Universe, so why did it disappear?”

“This was because there was an accident. This was the last contract he signed and before he collected the Nether Purple Mountain, the new Master replaced him. You know about the new master, he didn’t care about this contract at all.” Seven was helpless.

“What was the reason?” Li Xiandao asked solemnly.

“You still can’t know about it now. Your strength is decent in the Nine Skies and Ten Lands but you haven’t reached the level where you can find out about this.” Seven shook her head.

“Okay, I won’t ask. Then where is this Nether Purple Mountain now?” Li Xiandao didn’t mind and asked another thing.

Chapter 491: I Come From East Great Tang!

Li Xiandao remembered the name Nether Purple Mountain in his heart. He took a contract and said, “Then, we have to head to Heaven Sky.”

Seven nodded, “If we have to, then let’s go.”

“This Nether Purple Mountain doesn’t have a good temple and might not recognize you as he is really respectful of the last master. You should know...” Seven said.

Li Xiandao smiled, “It is written in black and white and he himself signed it. Are you afraid he won’t follow it?”

Seven shook her head and said, “I think that you might not be able to beat it now.”

Li Xiandao’s expression froze. He was really strong now and couldn’t beat this Nether Purple Mountain?

But thinking about how Nether Purple Mountain came from the Celestial World, Li Xiandao was a little worried.

What if he couldn’t beat it?

“Cough cough, this... Is it really so amazing?” Li Xiandao asked.

“You will know when you see it. The contracts in Great Sky are all settled, so it is time to head to Heaven Sky.” Seven gave a naughty smile and didn’t answer Li Xiandao’s question. She just hugged piles of treasures to leave.

Li Xiandao watches as Seven’s left and had an urge to carry her up and slap her ass.

Pa pa pa!

She said such terrifying words and then left without giving an explanation.

She did it on purpose!

Li Xiandao knew that Seven was doing so on purpose and he also suspected whether her words were true.

“It is impossible that I can’t beat him. I have merged the Nine Skies and Ten Lands into my own body and the strength it brings me is unrivaled.” Li Xiandao muttered to cheer himself on.

“What if?”

“What if, that would be so awkward... After all, this Nether Purple Mountain came from the Celestial World and if I can’t beat it, I won’t be able to order it around.” Li Xiandao frowned and started to worry.

This was all Seven’s fault. Her one sentence messed up Li Xiandao’s thoughts.

“I am still not strong enough. After stage eight, I am just one step away from the peak. But it will be really tough to break through this time.” Li Xiandao sighed. His accumulated cultivation was too thick now.

It was so thick that each time he would have to rely on his own training which would take a long time. He had to accumulate enormous energy.

“If this Nether Purple Mountain listened, with its importance in Celestial World, I will just take its purple crystals to cultivate and it would be really quick to break through.” Li Xiandao muttered.

His gaze deepened. He had to meet the Nether Purple Mountain. No matter whether or not he could win, he had to meet it.

Thinking about it, Li Xiandao immediately used 1,000 top quality spiritual energy dragon veins to teleport to the mountain peak.

“Enter Heaven Sky!” Li Xiandao said firmly.

The final journey in the Nine Skies and Ten Lands and the most mysterious world.

Now, Li Xiandao had officially entered this place and came to the strongest place in the Nine Skies and Ten Lands. This was the world where Celestials walked in and out.

...

Hong long long!

The Bank of the Universe entered Heaven Sky without making a sound!

The teleportation peak broke through the world barrier and the Bank of the Universe crossed the worlds.

The process was really calm and peaceful.

Compared to the first few times, Li Xiandao's process to get over to Heaven Sky was really peaceful and nothing much happened.

As usual, Heaven Sky had thick spiritual energy. The various factions were doing their own things and they didn't know that a terrifying new group had descended on Heaven Sky.

Li Xiandao stood on the square and looked outside. It didn't seem much different as compared to the other worlds.

The spiritual energy was ten times thicker than that of Great Sky. The trees were flourishing, the beasts were huge but everything else was the same.

Trees, forests, rivers, waterfall, flowers, wild animals...

Farms, bridges, old people pulling their cows, chimneys with smoke bellowing.

Everything seemed so exciting.

After the Bank of the Universe entered Heaven Sky, it started to crazily absorb spiritual energy right away. It adjusted the ratio of spiritual energy between the outside and the inside.

The spiritual energy within the Bank of the Universe was 10 times thicker than that of the outside.

This was because the ancestral dragon spirit meridian that Li Xiandao and Seven developed was sucking in spiritual energy at every moment.

At that moment, a shocking change occurred within the Bank of the Universe.

The ancestral dragon spirit meridian was roaring and spiritual energy swept all about. The entire Bank of the Universe's spiritual energy swelled by over 10 times.

Tian Guangming and the others immediately sensed the changes.

"I feel it, I am about to break through." Tian Guangming said emotionally. The spiritual energy came at the right time.

Not only him, but at that moment, the emperors in the Bank of the Universe started to break through.

Destiny Realm wasn't too far away.

Li Xiandao looked around, "No wonder so many people want to enter Heaven Sky. The dao and spiritual energy here is 10 times thicker than other worlds and it is much easier to break through here."

Li Xiandao understood why Heaven and Earth Sect would have a branch in Great Sky to collect fees from people entering. The large amounts of resources they got from that shouldn't be underestimated.

No wonder Heaven and Earth Sect would send stage nine experts to kill Li Xiandao.

After all, Li Xiandao had blocked off their path to riches.

Everyone was working hard to break through to Destiny Realm. Those who already broke through started to advance.

This was a good chance. Everyone was improving themselves and in Heaven Sky, only the geniuses would be treated well.

Li Xiandao's men were all the geniuses amongst geniuses. They were all trying hard to transform now.

Li Xiandao thought about it. He took the Nether Purple Mountain contract and walked out.

The surging spiritual energy within the bank could help Tian Guangming break through but it wouldn't help Li Xiandao. This was because he needed a far more enormous sum.

So Li Xiandao walked out of Bank of the Universe to look for Nether Purple Mountain.

On the farmland, morning dew dropped down. Li Xiandao wore a scholarly dress and crossed it to head into the nearby village.

In this village at the foot of the mountain, there were around 100 people.

They rested on this mountain. Luckily, there weren't any beasts that had birthed intelligence here. There were large patches of farmland, vegetable farms and it gave off a country feel.

The people here rest when the sun set and worked when the sun rose. They were really hard working and they had lived simple lives.

Li Xiandao walked into the village. A kid noticed him and immediately shouted for the village chief.

"Grandpa village chief, Grandpa Village chief, an outsider is here."

"Grandpa Village Chief, the brother that came is so handsome, he is even more handsome than me. How is there such a good looking male in the world?"

"Grandpa Village Chief, come out."

A white-haired old man walked out. After seeing Li Xiandao, he headed forwards, "Greetings young master."

"Greetings, village chief." Li Xiandao smiled.

"Where does young master come from? Why did you come to this village?" The chief asked carefully.

"I came from East Great Tang and am heading to the west. I passed your price land and want a bowl of water. I also wanted to ask for directions as I know nothing about this place." Li Xiandao said with a straight face.

"East Great Tang? Forgive me for being ignorant but I have never heard of it before. But it is okay. Heaven Sky is huge, so it is normal that I don't know." The chief smiled.

Li Xiandao thought to himself, "It would be amazing if you know about East Great Tang..."

Chapter 492: Top Talent!

The chief invited Li Xiandao into his house.

"My place is very simple, so please don't mind." The chief carried a bowl of water over. It was a clean bowl with really clear water.

Li Xiandao smiled and stood up, "Thank you, chief. It is good enough to have a bowl of water to drink, so how can I blame you?"

“Scholar, the land we are on belongs to the North Qi Dynasty.” The chief said.

“North Qi Dynasty?” Li Xiandao asked curiously.

“North Qi Dynasty has been established for just 300 years. 300 years ago, they wiped out the last country and under Old Ancestor Xiao, they opened up new land. After 300 years, North Qi covered a dozen states and now has tens of millions of civilians.” The chief explained.

Li Xiandao took note and asked, “What kind of factions are there near North Qi?”

“I am not sure but I heard that there are some like Star Celestial Sect, Taixu Holy Land, etc., but those are just rumors.” The chief said.

“You went out when you were young chief!” Li Xiandao looked at the way the chief welcomed guests and it was totally different from country people.

“The young feel that since the world is so big, that they would have to go out to take a look. Maybe they will be able to craft a glorious road for themselves. But after spending over 20 years outside, I wasn’t able to gain anything. I even lost my youth, so I decided to come home and live a stable life.” The chief smiled.

Li Xiandao drank a mouth as he looked at the chief. His smile was really calm like he had seen through everything. He was once an ambitious young man but now he was the chief of a secluded village.

“Chief, it is time for me to take a leave. Thank you for your drink.” Li Xiandao got up and said goodbye.

“Let me send you out.” The chief got up and said.

Li Xiandao wanted to reject but the chief insisted, so Li Xiandao accepted it.

From the start until now, Li Xiandao didn’t give the chief any rewards. He just came for water and not here to be a charity to help others.

But the one who received the charity was him who came to ask for water. He asked for water and the chief gave it to him. The chief was the one giving charity to him.

If Li Xiandao gave him a treasure or thank him, then he wouldn’t be asking for water and it would end up as him pitying the chief.

The chief didn’t want Li Xiandao to do that.

But he didn’t need his pity either.

Li Xiandao always remembered not to show pity to others just so that one can show that one was kind.

The chief sent Li Xiandao to the entrance. The two of them said goodbye politely before Li Xiandao left.

The chief smiled too and he was in a good mood.

He passed Li Xiandao who was lost a bowl of water and pointed him forwards.

He was satisfied.

Li Xiandao got the geographical information that he wanted. This was Great Qi Dynasty. He charged up into the sky at an area where the chief couldn't see him.

In the sky, Li Xiandao surged forwards really quickly. The wind around him smacked against his body.

But he held up a defensive layer and blocked the furious wind outside. He took out the Nether Purple Mountain's contract.

The signature on it was different from that of normal people.

The signature was a mark left on a piece of stone and it wasn't the name of a human.

So, Li Xiandao was just able to sense the rough area but he wasn't able to lock onto the exact person.

This made Li Xiandao sigh helplessly.

"Slowly. Tian Guangming and the others are breaking through, so I have time to search." Li Xiandao wasn't in a rush. He had just entered Heaven Sky, so he could take it slow. Anyway, he had a lot of time.

The key was that Li Xiandao had no red watches that he could scatter and he couldn't bring in new guests.

He had to unlock the sixth mountain to obtain 100 watches. Then he would be able to scatter them and welcome new guests.

"During this period of time, I will just let my men cultivate. Although they improve quickly, it is still not enough in Heaven Sky." Li Xiandao thought to himself.

The strongest one was Blood Dragon and Heaven Heart.

They were at stage three!

They were all around this realm and there wasn't even a single one at stage five. Li Xiandao thought about it and felt his head hurt.

If he sent them to solve the guests and they met an expert, they would need Li Xiandao to send out a streak of sword energy.

Then, what was the point in having these subordinates?

So, during this period of time, the Bank of the Universe's spiritual energy soared. This was their chance to improve themselves and not be a burden.

Li Xiandao was outside to search for this Nether Purple Mountain.

"This Nether Purple Mountain is within the North Qi Dynasty. It seems like I have entered Heaven Sky in a good location." Li Xiandao giggled and flew towards the rough area on the contract.

He was unable to lock onto the exact location and the rough area shouldn't have been too far away. Li Xiandao could accept that.

He just treated it as a game, a game to search for the Nether Purple Mountain.

In just a moment, Li Xiandao crossed a few states in North Qi and came to a prosperous city before landing.

"Cloud City."

Li Xiandao looked at the two big words on the city wall. They were really eye-catching and the words were really powerful. The name that seemed quite ethereal was actually filled with killing intent.

If someone with low cultivation saw those words, their hearts couldn't help but jump out in terror.

After they entered Cloud City, they wouldn't dare to go out of hand.

Li Xiandao walked into this Cloud City and what he saw were all cultivators.

On this street, they were all cultivators and there were extremely few normal people. All of them were the ones who set up stores and opened shops.

The people Li Xiandao called cultivators were people who reached grotto-heaven realm.

People below that were normal people to Li Xiandao.

On the street, most people were above Grotto-Heaven Realm. Most of them were young people with deep potential.

“Are they the young generation of the large factions?” Li Xiandao muttered. He didn’t care much as it had nothing to do with him. He just felt curious about it.

After Li Xiandao walked around Cloud City, he found a restaurant and chose a seat near the window. He ordered a plate of peanuts and four dishes.

He also asked for a jug of wine. Li Xiandao wanted to taste the skills of the chefs in Heaven Sky.

Dong!

At that moment, a bird cage was placed on Li Xiandao’s table. A fat guy carrying a dog leash panted as he sat opposite Li Xiandao.

“Brother, if you don’t mind, let’s share a table. The other seats are taken and your seat is really good. Let me treat you this meal.” The fatty was really warm and he didn’t show any courtesy. He grabbed a few pieces of peanuts and tossed it into his mouth.

Li Xiandao looked at him play with birds, walk dogs and at the 11 rings on his 10 fingers. There was jade, gold, quartz...

Anyway, he was really eye-catching.

This... Was a top talent..

Chapter 493: Celestial Tomb!

Li Xiandao looked at this confident Xiao Zhuge that was three times his size and smiled. He didn’t bother and just took a sip of his wine.

“Brother, which family are you from?” Xiao Zhuge asked curiously.

Li Xiandao was stunned and smiled, “I am just a random cultivator with no sect. I don’t want to find a master either.”

“Is that true? I can’t see through your cultivation, a random cultivator being stronger than me, you really are a genius.” Xiao Zhuge praised himself.

Li Xiandao glanced at him. Stage ten grotto-heaven realm... In the eyes of normal people, that was decent but amongst the geniuses, he was just trash.

But Xiao Zhuge seemed satisfied about his own cultivation. Not only that, but he even thought that he was a genius.

Li Xiandao admired his confidence.

Thus, Li Xiandao told the waiter to prepare a bunch of dishes and carry wine over.

"I shall enjoy it then. Please go ahead." Li Xiandao held up the wine cup and smiled.

"You really are frank, I love people like you. I lack everything, the only thing I don't lack is god source." Xiao Zhuge said proudly.

His extravagant demeanor made the girl at the table beside frown. She mocked, "Da Zhuge's younger brother, Xiao Zhuge, a famous money waster. Your brother is so famous and is a Celestial in the human world. His biggest flaw is that you are his brother."

The moment she said this, all the people around stood up. They didn't even eat and just paid and left.

They all recognized this woman and also knew who Xiao Zhuge was. Now that the two of them were arguing, it was fine but they would be lucky if they were wrapped up in this.

Peng!

Xiao Zhuge smacked the table unhappily, "Ye Chanu, I remember that I didn't offend you, right? Are you trying to provoke my brother?"

The girl called Ye Chanu was really beautiful but she wasn't human but a Yasha. She frowned when she heard this, "I am unhappy with you and I didn't provoke your brother. Don't use your brother's reputation to scare me."

"I represent my brother. he is my backing. You offending me is the same as you offending him." Xiao Zhuge didn't hold back.

"Can you stop talking about your brother?" Ye Chanu was unhappy.

"No, my brother told me not to cause trouble outside but I also didn't need to be afraid. If something happened, he would protect me. He is a Celestial in the human world. Even if the older generation meets him they wouldn't dare to be too arrogant. You are finding trouble with me now, so should I call my brother?" Xiao Zhuge said a whole bunch.

"Your brother... your brother... your brother... Without your brother, you would have been slashed into pieces." Ye Chanu raged.

“Are you jealous that I have a good brother?” Xiao Zhuge was delighted.

“I shall give your brother face and leave. Next time I will beat you up, remember this.” Ye Chanu chose to bear with it. She wasn’t a match for his brother.

“Walk slowly, I won’t send you away.” Xiao Zhuge waved. Those six rings were really eye-catching and it made the waiter blind.

Ye Chanu walked out in anger. The tense atmosphere in the restaurant suddenly lightened up.

The boss, waiter, and customers all heaved a sigh of relief.

They all had their hearts in their mouths and were afraid that Ye Chanu and Xiao Zhuge would fight.

The only one at ease was probably Li Xiandao.

He sat on his seat calmly and ate the dishes. He drank the wine and watched the unexpected show.

Of course, once this show began, Li Xiandao started sipping wine and found it really amusing.

Ye Chanu really wanted to kill Xiao Zhuge. Li Xiandao sensed that sharp killing intent but when Xiao Zhuge mentioned his brother, she was afraid and retracted it. She chose to take a step back.

This surprised Li Xiandao. It seemed like Xiao Zhuge’s brother must have been really strong.

If not, just his reputation alone shouldn’t have been able to scare them off.

“Why weren’t you afraid?” Xiao Zhuge sat back down and even the chair creaked.

“Why should I be afraid?” Li Xiandao asked. He started to be a little curious about Xiao Zhuge.

It was just a bit and it wasn’t enough to make him ask. He continued to drink and look at the scenery outside.

Xiao Zhuge had never met someone like Li Xiandao before and asked curiously, “You don’t know my brother?”

“Didn’t you say that you are Xiao Zhuge and your brother is Da Zhuge? He is some Celestial in the human world. With this reputation, he should be strong.” Li Xiandao said.

“Of course, my brother reached stage nine Destiny Realm long ago and he is just a step away from being an Honored one. But that is okay, many Honored Ones are respectful towards my brother.” Xiao Zhuge was proud.

“Honored one?” Li Xiandao looked at Xiao Zhuge in confusion.

There was an Honored One realm above Destiny Realm?

“Now, I believe that you are a random cultivator.”

“I never tell lies.” Li Xiandao smiled and said.

That sentence in itself was a lie.

Li Xiandao lied but the current him didn’t have the mood to lie.

“After Destiny Realm, one will enter an extremely strong realm. In this realm, the strong people are really strong and the weak are quite weak, so there are many distinct differences between them. As for those strongest ones, they would have a title.” Xiao Zhuge explained.

Li Xiandao understood. The so-called Honored One was in truth someone at stage nine but due to their strength, they were given the title.

“Your brother is called a Celestial in the human world, so why doesn’t he have the title?” Li Xiandao asked curiously.

“I asked him before. He just said that it was just a nickname and he didn’t need it.” Xiao Zhuge scratched his head and then drank a mouthful of wine.

Li Xiandao looked outside at the people passing by. He asked curiously, “Why are they here?”

“You don’t know?” Xiao Zhuge was stunned. He looked at Li Xiandao carefully and noticed that Li Xiandao didn’t seem like he was wearing a disguise.

“I don’t know.” Li Xiandao shook his head. He had just entered Heaven Sky today, so obviously, he didn’t know anything.

“Celestial Tomb, in the Eighteen Mile Region outside Cloud City there are over a dozen celestial tombs. Those people came because of them. Didn’t you too?” Xiao Zhuge asked curiously.

"I really do not know. I came here by coincidence. I was wondering, even though Cloud City is relatively big, it shouldn't be so prosperous." Li Xiandao shook his head.

"Celestial Tomb? A tomb of a celestial?" Li Xiandao asked.

"Right which is why many factions came. I also came to take a look and my brother will come later too." Xiao Zhuge said.

Chapter 494: Forceful Rescue!

When Xiao Zhuge said that his brother was coming, he was filled with delight.

Li Xiandao was confused, "The Celestial is already dead, so why are there so many people?"

What was the point of a dead celestial?

It was just a corpse that wasn't of any use at all. Was he buried alongside treasures?

Only treasures could gather so many people to fight and watch.

Xiao Zhuge proved Li Xiandao's thoughts, "It was said that they have valuable treasures. Some have celestial artifacts and the key is that there are many techniques. One of them will teach you how to ascend."

Li Xiandao was deep in thought, "So, your brother came because of that cultivation technique?"

"One can easily see that many people came for that technique. I heard that many Honorable Ones came especially those old ones. After all, they are about to reach their limit and everyone wants to take a gamble on this chance." Xiao Zhuge said.

"Understood." Li Xiandao drank all the wine in his cup before taking his leave.

"I shall go first, eat slowly." Li Xiandao smiled.

"Okay, walk slowly." Xiao Zhuge shouted.

Li Xiandao waved his hands and left.

"I didn't expect there to be a Celestial tomb here?" Li Xiandao was shocked. Nether Purple Mountain was nearby and a few dozen Celestial tombs appeared, was there a connection?

“Definitely.” Seven’s voice rang out in Li Xiandao’s mind.

“What connection?” Li Xiandao walked without his expression changing. he walked out of the city and asked.

“Why will these celestials die near Nether Purple Mountain?” Seven asked Li Xiandao.

“You are saying that Nether Purple Mountain did this?” Li Xiandao was shocked.

He wasn’t shocked that the Celestials died but that the Nether Purple Mountain could actually kill dozens of Celestials in Heaven Sky.

A little strong!

No, not a little, very.

If they told Li Xiandao to kill a dozen Celestials now, Li Xiandao might have to consider.

But Nether Purple Mountain did it.

Li Xiandao’s opinion of Nether Purple Mountain got much higher.

“I am not sure about what happened then and whether or not Nether Purple Mountain personally killed them. You have to ask for yourself. But I think that even if it didn’t, it must have something to do with it.” Seven explained.

“I understand.” Li Xiandao calmed himself down. There was no proof that Nether Purple Mountain killed those dozen Celestials, which meant that there was a chance that he could suppress the current Nether Purple Mountain.

Thinking about it, Li Xiandao quickly entered the so-called Eighteen Mile Region.

Eighteen Mile Region wasn’t eighteen miles of land but eighteen mountain ranges.

They were called the Eighteen Mile Region after being added together.

That was because when one looked down from above, it looked like a shop that was tightly merged together.

This name was etched into the hearts of the people.

Li Xiandao took the contract and it showed that Nether Purple Mountain was within this region.

A mountain hidden in the eighteen mountain ranges.

Li Xiandao couldn't help but smile. How long would this take him?

"Can't it pinpoint the location even more?" Li Xiandao asked.

"This contract was signed just like that, so it can't." Seven was helpless.

Li Xiandao sighed. There was nothing he could do. He could only start from the first mountain range and search one after another.

He started to show off the Dragon Meridian Search skill he learned from Ten Thousand Country Book Depository which was a way to find underground dragons.

Nether Purple Mountain had a mind of its own, so naturally, it was different from other mountains. No matter how it hid itself, the dragon meridian scent was different.

So, Li Xiandao needed to use his legs to measure the ground, to walk all about and sense each area.

Although it was complicated and problematic, it would help Li Xiandao a lot.

He wouldn't miss out on checking any peak.

If he ended up missing Nether Purple Mountain, then that would make him speechless.

Night, the cold wind blew. The wind in the mountains seemed much colder.

Howl!

There were silver wolves howling and giving off the aura of a king to announce that this territory was his.

Li Xiandao looked at it and said, "Howl one more time and I will barbecue you."

The silver wolf king knelt down and kowtowed to Li Xiandao with its tail between its legs. It was asking for mercy before it fled. It was really quick, afraid that if it was a little slower, it would be barbecued.

Li Xiandao continued to walk. The mountain breeze was a little cold but luckily he wasn't afraid of it.

Hong!

Li Xiandao stepped down and the ground flipped to show that Nether Purple Mountain was within this region.

Li Xiandao continued.

While Li Xiandao was searching, many other people appeared in the region.

The appearance of a Celestial Tomb drew many random people who wanted to take a look.

The moment there were many people, problems will arise. The key was that most of them were youths and were all hot headed. If they didn't agree with one another, they would start fighting.

So even at night, the mountain wasn't quiet. Compared to the howling wolf king Li Xiandao met, everything else was much noisier.

He passed all those distractions. Even if a young man was pinned to the ground, he wouldn't even look and would just continue doing his own thing.

Someone begged for help and treated Li Xiandao as his life saver.

"Save me, save me, I don't want to die." A good looking woman begged.

Behind her were six treeman which were really huge. They might just stand tall in the ground usually like mountains but when they fought, they were really ferocious.

This girl's begging interrupted Li Xiandao's thoughts. The connection broke and he would have to find it again. Li Xiandao didn't even look at her and just walked by her side.

"No..." The girl looked at Li Xiandao in terror. Her eyes were filled with blood, "Why didn't you save me, as long as you reached out, I would be safe. You are alone walking in the mountain range. Since you are perfectly fine, you must be really strong. Why didn't you save me? I am so weak, so why didn't you save me?"

She looked towards Li Xiandao's backview with a venomous gaze. She gritted her teeth. She didn't hate those six treeman that wanted to kill her but she hated Li Xiandao instead. If she turned into a ghost, the first thing she would do is to take revenge on Li Xiandao.

She wanted to question him. *Why didn't you save me? You could just do so casually and I won't have to die!*

Li Xiandao stopped. His expression was really cold. He thought about it and flicked with his fingers.

Keng!

A streak of sword energy shot out. It was a really terrifying power that pinned the girl to the ground.

The six tree men looked on in shock and they retreated quickly. Anyway, the girl was dead.

Li Xiandao mocked, "I will save you now, save you from the pain in life. You should thank me. If we meet in the next life, remember to do so."

Li Xiandao was saving them. To prevent you from suffering pain, he would kill you so that you will never feel pain ever again.

You didn't need to thank him. Doing good deeds anonymously was Li Xiandao's way.

Chapter 495: Discovering Nether Purple Mountain!

Li Xiandao traveled throughout the night like it was flat land. He searched each and every mountain peak for Nether Purple Mountain.

But unfortunately, Li Xiandao didn't gain anything.

He passed three of the eighteen mountain ranges and a few hundred mountains but he didn't find Nether Purple Mountain.

In the morning, Li Xiandao faced the rising sun and looked at the light that shone down on the mountains. It was a beautiful sight.

He stood on top of a mountain and looked around. If not for the many people rushing around, Li Xiandao might have felt much better.

Looking at the bunch of them, Li Xiandao continued to search for Nether Purple Mountain. He didn't care about these people.

If a Destiny Realm battle occurred here, they would be the first to die.

When gods fought, mortals were the ones to suffer.

In front of people from Destiny Realm, they were all mortals. Destiny Realm experts, who went all out, would be able to draw on the dao. The ripples would give off terrifying strength and they could instantly kill people.

Those people watching the show who wanted to test their luck would become mortals.

Li Xiandao continued to head along the eighteen mountain ranges to search for Nether Purple Mountain.

But when he just passed one mountain, he bumped into a fat person.

This person was the size of three Li Xiandaos added together. He was walking a dog and a bird was following along. His eleven bright rings were really eye-catching.

Xiao Zhuge!

Li Xiandao didn't expect that after splitting up yesterday, they would meet again today.

Moreover, Xiao Zhuge was in trouble. He was panicking and it seemed like people behind him were trying to kill him.

Li Xiandao looked on from afar. A familiar woman was holding a blade and charging at him, her face marked with killing intent.

Ye Chanu!

Ye Chanu, who had suppressed her anger last night, was now chasing him down.

"Brother, save me. It is an emergency." Xiao Zhuge looked at Li Xiandao and was delighted. He ran over and wanted Li Xiandao to save him.

But Li Xiandao frowned.

He was busy and wasn't in the mood to save someone.

"Die!" Ye Chanu's body turned into a streak of light which shone brightly.

Xiao Zhuge took a look and screamed. He hid behind Li Xiandao and used Li Xiandao's body to block.

Li Xiandao frowned, "You treated me to a meal yesterday, so I shall save you once. Our deal is done."

Li Xiandao flicked and an energy stream exploded. It turned into a short sword and shot up into the sky.

Hong!

Ye Chanu flew backward at an even faster rate. She smashed into a huge mountain.

"Brother, how are you so strong?" Xiao Zhuge was shocked. He reached his hand out from behind Li Xiandao.

Li Xiandao wanted to open up the distance between them. He said expressionlessly, "If I couldn't beat her, I would have become your shield and she would have stabbed me."

"Didn't you beat her?" Xiao Zhuge replied with an awkward smile.

“You invited me to a meal and I saved your life. We don’t owe each other anything anymore. I didn’t hurt Ye Chanu, so she would chase you once more. There is still time for you to run.” Li Xiandao said coldly. He was unhappy that Xiao Zhuge used him as a shield.

If not for his cultivation, he would have been killed.

At that time, would Xiao Zhuge help him take revenge?

He would probably flee right away and then find his brother to take revenge for himself.

In the end, Li Xiandao would have died for nothing.

Xiao Zhuge was a selfish person. He wasn’t skilled and was only good at causing trouble. Li Xiandao drew the line between them and treated him coldly.

“That is just wrong. My brother is a Celestial in the human world, so many people want to be friends with me.” Xiao Zhuge was unhappy.

“Even if he is a real Celestial, I don’t have to fear him or try to get close to him. if you don’t go and Ye Chanu chases you, I won’t interfere.” Li Xiandao said coldly.

“Okay, since you are not interested then I will leave.” Xiao Zhuge’s expression turned cold. He smiled coldly before leaving.

Hong!

In the mountain in the distance, Ye Chanu broke free. She stared at Li Xiandao warily. That strike made her feel true fear.

Li Xiandao controlled his strength well and smacked her away without hurting her at all. She just felt some minor pain which instantly dissipated.

But if Li Xiandao used more strength, she would have been killed.

Li Xiandao didn’t say anything. He continued to move towards his target which was to search for the Nether Purple Mountain.

Ye Chanu saw that Li Xiandao didn’t interfere. She gritted her teeth, “I will kill Xiao Zhuge today.”

Hong!

Her speed rose up once more as she chased Xiao Zhuge.

Li Xiandao tossed this matter to the back of his head and continued to search for the Nether Purple Mountain.

As for whether or not Ye Chanu killed Xiao Zhuge, Li Xiandao didn't care.

It was good if she didn't as it had nothing to do with him.

He came to a new mountain. Li Xiandao's leg landed and he started to activate the dragon meridians around.

Hong long long!

The dragon meridian awakened. It was really fierce, like a dragon that was in slumber for a million years being woken up. It was furious and vented all its negative emotions.

The mountain started to shake like an earthquake. Stones fell and smashed onto the ground. The trees collapsed and it was a really scary scene.

Li Xiandao frowned and he stepped down.

Dong!

"Damn dragon, quieten down." Li Xiandao was unhappy.

His strength directly suppressed the naughty dragon meridian. The surroundings became quiet right away.

"Why is the dragon meridian so angry?" Li Xiandao was confused.

"Is the Nether Purple Mountain nearby?" Li Xiandao looked around in surprise.

This mountain wasn't the Nether Purple Mountain. That was something Li Xiandao was sure about. But this dragon meridian wasn't normal.

It seemed like it was affected by the Nether Purple Mountain. Since that was the case, then the Nether Purple Mountain wasn't too far away.

When Li Xiandao thought about it, he immediately headed to the few mountains around.

Hong long long!

The dragon meridians below were still really impulsive and were even more impatient than the previous one.

Li Xiandao continued to probe. Each one was like that and it got worse and worse.

But Li Xiandao crossed nine mountains and saw a black mountain peak hidden behind two mountains. He was barely able to find it.

When Li Xiandao saw it, his lips curled up, “Nether Purple Mountain, did you know that I was coming?”

“I know, come in.” A low voice rang out in the mountains.

Li Xiandao didn't fear it. No matter what, since he found it, he would fight it head-on.

Of course, maybe when Li Xiandao just entered and he gave off his overlord aura he would just take the contract out and say his identity and scare the Nether Purple Mountain into kowtowing to him.

Of course, this was just a momentary thought to Li Xiandao before he tossed it to the back of his mind. He walked into the Nether Purple Mountain.

Chapter 496: The Decay Of The Angel!

The black mountain body wasn't really tall and it was hidden behind two mountains. If one didn't look closely, one wouldn't have noticed it.

Even if one looked closely, one wouldn't have been able to notice it.

This black mountain didn't have any trees and it was just totally naked. There wasn't any nice scenery and it wasn't too tall such that one could look down onto all the mountains. So even if someone saw it, one wouldn't care about it.

Only Li Xiandao himself saw this mountain. If he didn't know about the Nether Purple Mountain, he would have simply overlooked it.

This was the way Nether Purple Mountain hid itself such that it was able to stay here without problems for tens of thousands of years.

Now that Li Xiandao was here, it sensed the aura from the contract and knew what was happening. Nether Purple Mountain was open and invited Li Xiandao in.

Li Xiandao walked in.

If he didn't go when others didn't invite him, wouldn't it show that he was afraid?

Within Nether Purple Mountain, there wasn't any special changes. It was just a mountain with many curved paths. When he walked to the core area, there was a cave.

This cave was completely empty.

There was a stone-made tea set and a half filled cup of tea. Who knew how long it had been left there for but the tea was still giving off steam.

Li Xiandao looked around and noticed that a few pieces of stone was stacked up at a corner. It formed into a human form and didn't seem stable. But it didn't sense it or rather it didn't care at all. It just walked over, "Who are you to the Bank of the Universe?"

"The Master!" Li Xiandao said calmly.

"Nonsense, you aren't the Master. I have seen that person and he is stronger than you." The stone person raged.

Li Xiandao didn't bother, "The person you mentioned was the Master but he disappeared in the world. I am the person who inherited it from the guy that inherited it. I am the new Master of the Bank of the Universe."

The stone person was silent and said, "I have been waiting for so long. I signed a contract with him which said that I sold myself to him."

Li Xiandao corrected him, "You didn't sell yourself to him but to the Bank of the Universe."

"You are so weak. You are just stage eight and you want me to be your subordinate?" The stone guy's tone was filled with disdain.

Li Xiandao didn't argue with him.

"I feel like you have no rights to say that about me right."

The stone person stared at Li Xiandao in an unfriendly manner.

"You are the Nether Purple Mountain, a treasure mountain from Celestial World. Many people want to get you and you are also skilled. But why did you spend tens of thousands of years here?" Li Xiandao asked.

The stone person scoffed coldly, "I like it so why do you care?"

Li Xiandao looked at the arrogant stone person and knew that it was faking it. As expected from what he guessed, Nether Purple Mountain was in trouble.

"You don't like it. You are just helpless." Li Xiandao pointed out Nether Purple Mountain's problem.

The stone person frowned and looked at Li Xiandao, "What do you know? You are just randomly guessing?"

Li Xiandao sat down and looked at that half filled tea cup, "I didn't randomly guess. You know yourself. Do you know what I saw along the way?"

The stone person frowned and asked, "What did you see?"

"There are over a dozen Celestial tombs appeared in Eighteen Mile Region. Do you know something about that?" Li Xiandao asked.

The stone person cupped his hands and said calmly, "I have nothing to say."

Li Xiandao looked at it and squinted. If he wasn't so confident in taking Nether Purple Mountain down, he would have attacked. His attitude was too bad.

"Do you know?" Li Xiandao's lips curled up.

"What?" The stone person looked at Li Xiandao in confusion.

"After I found out that those dozen tombs were related to you, I have been doing some thinking. You could have killed them in Heaven Sky, so why didn't you enter Celestial World or find the Bank of the Universe. Why did you stay here?" Li Xiandao asked.

The stone man said stubbornly, "Why can't I like the environment here?"

"The flowers and grass here are so beautiful. The blue sky and white clouds and well behaved dragon meridians. Am I not allowed to love this place?" The stone person asked.

"Of course, you are. You can use anything as an excuse, but in truth, you can't move." Li Xiandao said coldly.

The stone man stopped and sighed. He looked towards Li Xiandao with some thought and asked, "How did you know?"

"I don't need to know, I just guessed it right away. Not only do I know that you can't move, but I also know after killing those dozen celestials, you weren't able to move afterwards and were forced to stay here." Li Xiandao added.

"As for you loving the flowers, that is just an excuse. No matter how many flowers there are, none of them are growing on your naked mountain body." Li Xiandao exposed his lies.

The stone person muttered, "My body is entirely purple crystal mines, so no flowers can grow which is why I like all of that."

Li Xiandao didn't disregard the comment and asked, "Now, tell me what price you paid to kill those dozen celestials such that you were trapped here for 30,000 years?"

"If I tell you, can you solve it?" The stone person asked.

This was an admission that Li Xiandao was right. To kill those Celestials he had no choice but to stay here for 30,000 years.

"If you don't tell me, then you will never be able to solve it. Moreover, your strength is dropping and soon you will lose everything." Li Xiandao didn't force it and just said calmly.

His calm tone struck Nether Purple Mountain's heart. He kept silent for a moment before saying helplessly, "When I killed these celestials I was at my peak. Even if Heaven Sky had restrictions, I could have still killed them."

Li Xiandao listened and didn't say a word. He controlled the rights to speaking.

Since entering Nether Purple Mountain, Li Xiandao was directing the conversation. He slowly brought Nether Purple Mountain into his tempo. The two of them could speak equally but it turned to Li Xiandao asking and Nether Purple Mountain replying.

Like servant and master.

Nether Purple Mountain himself didn't sense it and unknowingly his attitude towards Li Xiandao changed. Now, he was replying Li Xiandao's questions.

"When I was killing those dozen Celestials, their combined attack hurt my main source." Nether Purple Mountain's mountain spirit said helplessly and his tone was filled with rage.

Without this, Li Xiandao couldn't beat it now.

It didn't need to reply to Li Xiandao's questions respectfully.

"How did they injure you?" Li Xiandao asked curiously.

"The decay of the angel!" Nether Purple Mountain's mountain spirit sighed and said in a depressed manner.

Chapter 497: Solution!

Decay of the angel!

Li Xiandao knew about it as he had read records about it in the Ten Thousand Country Book Depository.

Celestials were supreme and had eternal life.

If one became a Celestial, even if one was the lowest grade, one's lifespan would be a minimum of 100,000 years.

Those Celestial World experts were young even at a million years old.

In the long annals of time, they would face tribulation too. These tribulations come from different places, some were killing tribulations and some were personal struggles...

Decay of the angel was one of them and it came from within the body.

When one got it, one's body would excrete impurities, one's lifespan would burn, one would lose their sight and senses and their cultivation would weaken.

Once all these steps appeared, a Celestial would reach their end and welcome death.

There were a few defensive methods against the decay of the angel, but normally speaking, no one knew whether or not they would get it.

Along with cultivation prospering in the Celestial World, more and more people came up with different techniques.

The Decay of the angel was invented and it became a lethal attack.

Coincidentally, those Celestials who came down all knew it. In the battle against Nether Purple Mountain, they gathered all their strength to use it, shooting it into Nether Purple Mountain's mountain spirit body.

Although Nether Purple Mountain killed them, a serious consequence was left in his own body.

It was unable to solve the decay of the angel and could only suppress it and stop it from spreading.

But after 30,000 years, a few signs still appeared.

Firstly, the physical body would excrete impurities.

Nether Purple Mountain's mountain body turned black. That was the secretion of impurities. Originally, it was purple gold in color and looked really beautiful.

Second was the burning of lifespan.

Nether Purple Mountain was a mountain god, its lifespan was very long, but during these 30,000 years, it actually burned 200,000 years...

Thirdly, cultivation weakened.

When the Nether Purple Mountain's mountain spirit was at its peak, it could fight one against a dozen. Even with everyone's cultivation being suppressed, it could still fight one against dozen and get the upper hand.

It didn't dare to attack Li Xiandao now as that showed how much it had weakened.

It had obtained three of the five curses. This was even after its body suppressed it and it didn't move for such a long time.

But with it slowly eating into it, Nether Purple Mountain's mountain spirit couldn't do anything.

After Li Xiandao heard it, he was in deep thought and communicated with Seven. He explained the situation and asked, "Is there anything we can do to get rid of the decay of the angel?"

The Bank of the Universe was extremely skilled but with a large loss of functions now, could it deal with the decay of the angel?

Seven thought about it and said, "Temporarily no as its decay of the angel is really serious. 30,000 years have passed and if it was another Celestial, he would have died already but it managed to hold on. The price was that the decay of the angel had seeped into the entire Nether Purple Mountain. To change it, we need to bring it back and unlock the sixth mountain peak. We will toss it in and let the sixth mountain refine Nether Purple Mountain into a treasure."

"Unlock it and then toss the Nether Purple Mountain in to refine into a treasure to change it. Then it will live on this world as a treasure and not a being." Li Xiandao's eyes lit up, this was a good idea.

Li Xiandao immediately told this idea to Nether Purple Mountain's mountain spirit.

"Think about it, this is the only way to save you now." Li Xiandao said.

Nether Purple Mountain immediately knelt down towards Li Xiandao and shouted, "Thank you Master for your saving grace."

It knew that Li Xiandao was saving it. If it didn't show loyalty and annoyed Li Xiandao, he might end up throwing him down the side of the mountain. It didn't know how long it could survive then.

As for its gratitude towards the former Master, Nether Purple Mountain expressed that he didn't care anymore.

"I signed the contract with the Bank of the Universe and not with a certain person." Nether Purple Mountain said firmly. Its eyes lit up as it knelt in front of Li Xiandao.

Li Xiandao was satisfied, "Then, prepare yourself. I will bring you to the Bank of the Universe but you need to pass me the purple crystals that you accumulated. I need them to unlock the sixth peak."

Nether Purple Mountain's face froze and it looked at Li Xiandao with an awkward expression.

"Don't tell me that you have no more purple crystals." Li Xiandao blinked and asked.

"After I got hit by the decay of the angel, apart from suppressing myself, I absorbed the purple crystal's energy to replenish myself to slow down the decay." Nether Purple Mountain gave an awkward smile and said.

"So, it is understandable that I absorbed the purple crystals, right?" Nether Purple Mountain said.

Li Xiandao sighed helplessly and said, "Then you need to wait for some time. Once I get enough resources, I will then be able to unlock the sixth mountain and then refine you."

"Master, do you lack resources?" Nether Purple Mountain asked.

Li Xiandao nodded.

If he didn't lack resources, he wouldn't have bothered to find him.

"I don't have purple crystals. I have used the crystals that I accumulated and my body has been infected by the decay, so no purple crystals are being produced." Nether Purple Mountain sighed.

"Then, you can only wait." Li Xiandao said helplessly.

"I don't have but someone else do." Nether Purple Mountain smiled.

"Who?" Li Xiandao asked.

"I need a lot, at least the amount stored in a 100,000-year top faction." Li Xiandao reminded Nether Purple Mountain.

"No problem. The people I am referring to might even have more than 10 of those top factions." Nether Purple Mountain said firmly.

“Where?” Li Xiandao asked right away.

Nether Purple Mountain turned into a stone man and pointed to the ground.

Li Xiandao frowned, “You are talking about the Celestials that you killed?”

“Right, each one of them is a Celestial. They are really strong and have many treasures. I didn’t take them and can pass them to Master now.” Nether Purple Mountain nodded.

“Where are their tombs?” Li Xiandao asked.

“They are being suppressed under my main body. ” Nether Purple Mountain said.

Li Xiandao blinked. Just beneath his feet there were dozens of Celestial tombs. Who knew whether or not those people searching outside would feel depressed?

They had searched for many days and didn’t find anything. Li Xiandao didn’t bother about searching but now they appeared under him.

Luck and fate was just so unpredictable.

“Open these Celestial tombs. I will take away the treasures and resources and see whether or not I can unlock the sixth mountain.” Li Xiandao instructed.

“Okay.” Nether Purple Mountain was really well behaved. Since this concerned his life and safety, he cared even more than Li Xiandao.

“Master, these treasures will definitely attract a lot of attention.” Nether Purple Mountain was worried.

“No worries, I am here.” Li Xiandao said with confidence.

“Okay then.” Nether Purple Mountain immediately pulled out those Celestial tombs.

Chapter 498: Celestial In The Human World?

Nether Purple Mountain pressed down on over a dozen Celestial corpses. If not for that, people would have noticed over these 30,000 years.

The reason why they were noticed now was because Nether Purple Mountain wasn’t as strong as before.

At the moment, it was extremely sick and would occasionally be unable to control itself.

The last time it lost control was seven days ago which revealed the tombs. The treasure energy surged into the sky and it lit up half the sky.

Even after a Celestial died, their thick aura would spread about. It was really scary and just one look and a person would be able to notice it.

As a result, the factions and aristocratic families nearby all gathered in Eighteen Mile Region to start to search for the tombs.

Nether Purple Mountain didn't have the strength to bother about outside matters, so it allowed them to search. As long as it didn't lose control again, these people wouldn't be able to find it.

But now that Li Xiandao wanted it to open the tombs, their location would be revealed.

Nether Purple Mountain followed Li Xiandao's instructions, pulling the tomb out and then quickly hiding it.

"Master, I am using all my strength to suppress my injuries, so I won't be able to support you. Good luck." Nether Purple Mountain explained.

"Heal up." Li Xiandao said calmly. He didn't place hopes on Nether Purple Mountain helping him.

Hong long long!

On a mountain not far away from Nether Purple Mountain, 12 tombs rose into the air. These tombs were all of extremely strong celestials. When Nether Purple Mountain killed them, he placed all of them in huge tombs.

Those 12 tombs were beneath Nether Purple Mountain and now to draw the line and not let itself be affected, Nether Purple Mountain sent them to the neighbouring mountain.

Peng peng peng!

The 12 tombs appeared and a pillar of light instantly shot into the sky. It was really intense and it drew the attention of everyone a hundred thousand miles around.

Many peoples' bodies shook and they said emotionally, "The Celestial Tombs appeared."

"One, two, three... A total of 12 light pillars. The same as before, 12 huge tombs." Someone counted and was extremely happy.

“12 tombs! That is unbelievable. In it are all Celestials but now they belong to us.” A white haired old man trembled emotionally. It seemed like he became a dozen years younger. He activated his last bit of strength and was prepared to fight to the death.

In the next second, under these light pillars were huge amounts of treasure energy. Many treasures showed off their glow. They were all Celestial weapons of celestial artifact grade.

This time it really made everyone pumped out. Without hesitation, they dashed towards Li Xiandao.

Treasure!

Celestial's treasure!

Many streaks of light appeared in the sky. They were the various experts who dashed over.

On a mountain peak, the 12 tombs formed a circle. There stood a guy with his hands behind his back.

The tombs all looked the same with no tombstones. But they seemed more majestic than even an emperor's tomb.

The guy standing in the middle was like a dragon. Although he was alone, everyone who came could sense his strong aura.

Hong!

In their eyes, it felt as if a huge army was behind Li Xiandao. They all shouted and gave off a really intense aura which suppressed them.

At that moment, the people who rushed over were shocked. Had this person gotten all the treasures in the 12 tombs?

“Hand over thre treasure.” An old man whose eyes were bloodshot from his desire to get the treasure charged over. His hands danced, his palms were more girly than a woman's and he was using a female technique.

Butterfly Flower Seal!

Like a butterfly spreading its wings, it tried to suppress Li Xiandao. It was really strong.

Hong long long!

In the air, the clouds rolled and a white fog wrapped around. A giant seal pressed down onto the ground.

Li Xiandao just lifted his head and took a look. This old man was strong and he was really old. It seemed like he didn't have much time left and he wanted to use this chance to take a gamble.

It was stage eight, same as Li Xiandao.

But in Li Xiandao's eyes, he was pitifully weak.

In the blink of an eye, a sword energy shot out. Li Xiandao still stood with his arms behind his back. He didn't even bother to attack the old man.

Keng!

Li Xiandao's sword energy exploded, slashing a 100-meter attack in the air.

Hong long long!

The butterfly flower seal exploded. The old man himself was pierced through and he died on the spot without feeling any pain at all.

Peng!

The old man's corpse fell off the cliff. The white clouds rolled and the wind blew aggressively. Everything was shivering like they were sending him off, and also like they felt afraid of Li Xiandao's attack.

"The Butterfly Flower user was killed just like that?"

"He was a stage eight expert!"

"Who is this person?"

"He is too terrifying?"

"Is this person stage nine?"

"Why is he so young then? Even if his looks returned back to youth, his life force and aura shouldn't be able to."

"Who knows who he is?"

Everyone who came was afraid. Those people whose cultivation was weaker than the old man all looked on with their mouths agape.

The stage eight top expert wasn't even worthy of him attacking and he was killed just like that.

"Which Honorable One are you?" A red shirt old man stepped out and asked solemnly.

"You seem foreign. Are you not from our world?" A black robed old man asked.

"This Honorable One, you are just too overbearing. There are 12 tombs here and you want to take them all?" Someone questioned.

Many people were staring at Li Xiandao, so the emperors didn't interrupt and just looked.

The people who spoke were all at stage nine. There was even an Honorable One that everyone was familiar with which made them exclaim. That was because he had died 3,000 years ago, so no one expected him to appear now.

Hong!

At that moment, an eight triagram appeared on the mountain and a person walked out. A cold man stared at Li Xiandao and said impolitely, "Scram, you can't take them all."

The moment he said this, this person's arrival drew a wave of shock.

"Da Zhuge!"

"The top genius Da Zhuge."

"Many people call him the Celestial in the human world. He is extremely strong."

"That person is dead."

Their discussions entered Li Xiandao's ears. He looked at Da Zhuge, Zhuge Weiwo who was the person they called the Celestial in the human world.

But in front of Li Xiandao, he didn't even fear Celestials, so why would he fear him?

"From now onwards, whoever steps into this mountain will die." Li Xiandao looked around and announced coldly.

Chapter 499: 4 Sword Moves!

The 12 tombs were beside him. Li Xiandao pointed and just looked around with a cold gaze.

He didn't want to be so high profile.

Compared to that, Li Xiandao would rather be behind the scenes and allow his subordinates to steal the limelight.

But the situation forced his hand.

Nether Purple Mountain pulled out the 12 tombs and this would definitely cause a huge battle. People who were jealous would definitely fight for it.

No one would give Li Xiandao the chance to bring the 12 tombs away.

Li Xiandao just needed the treasures, not the corpses or the coffins. But he didn't have time to take the treasures out before they all came.

There was a dense bunch of people while Li Xiandao was alone. He had no choice but to be more high profile as the problems that would come from not doing so would make his head hurt.

Between killing a top expert and killing a bunch of ants, Li Xiandao preferred killing top experts.

This was because when a top expert died, these ants would be scared off.

When the ants left, Li Xiandao wouldn't have a problem.

At that moment, one or two experts jumped out. Li Xiandao looked at them and he was delighted.

If they didn't step out, he could only deal with those ants and it was just pointless.

When he behaved arrogantly, those top experts would play along.

The Honorable One that had died 3,000 years ago appeared here.

The one that people called the Celestial in the human world had appeared.

Many stage nine people appeared here.

Which was why when Li Xiandao said that, it sounded so powerful.

The moment he said this, those arrogant and proud peoples' faces turned black.

Li Xiandao was looking down on them.

“Aren’t you too arrogant?” The Honorable One who had been dead for 3,000 years said coldly. Everyone could see that he was suppressing his rage.

One gaze from Li Xiandao killed a stage eight person which threatened everyone. If not, they would have all charge up at once.

“To you I am arrogant. But to me, I am confident. The strong and the weak see problems differently, so the answers we get are different. Without a doubt, all of you are weak!” Li Xiandao said without any hesitation.

“I am weak?” This Honorable One smiled and laughed out loud. As he smiled, his face became twisted.

“Now, I shall let you see how strong this weak person is!” That Honorable One shouted in rage as he stepped forwards. He flew right opposite Li Xiandao and with a loud explosion, his aura surged forwards like a wave. True qi swept, turning into 10 tigers and 10 dragons which roared around him, giving out a deafening sound.

Hong long long!

The 10 tigers and 10 dragons suppressed everything. This stage nine expert who reached a stage where people in Heaven Sky called him Honorable One did have some skill.

But that was just it.

His 10 tigers and 10 dragons were strong and increased his strength by 10 folds. He wanted to use them to suppress Li Xiandao.

He wanted to kill Li Xiandao and then try his best to take more of the coffins.

Kong! Kong! Kong!

The tigers and dragons roared. The mountains seem to reflect all that as energy waves rippled in all directions. It was really terrifying and shocked everyone.

But apart from Li Xiandao’s clothing fluttering and his hair being messed up, his legs were rooted to the ground like an old tree. He stood there like he was a part of the mountain.

“Fighting isn’t a competition of voice. The volume is just a child’s game. In my eyes, you are just a kid.” Li Xiandao said.

Li Xiandao totally ignored the 10 tigers and dragons above him.

“Talk less and take my move.” This Honorable One was confident in his attacks. He didn’t hold anything back and went all out. Dao attainments stacked together.

To him, this was really strong. This terrifying dao attack however wasn’t worth a mention in front of Li Xiandao.

Li Xiandao’s control of the dao was like an endless ocean.

This person’s one was like a pond. Comparing to Li Xiandao, it was like the sun being compared to a firefly.

So, Li Xiandao could destroy these 10 tigers and 10 dragons with a flick of his finger.

Li Xiandao used his fingers as a sword and he looked at him, “Now, watch how I destroy the 10 tigers and 10 dragons.”

Keng!

What Li Xiandao used was still the four dao sword techniques he comprehended in the Ten Lands.

Overturning the Ocean, Withering Flame, Cloud Mountain, Collapsing the Heaven.

Li Xiandao hadn’t given up on these moves. He didn’t give up on any sword technique he comprehended. Along with his cultivation increasing, the imperfections would be improved on and now these techniques were still really strong.

First move, Overturning the Ocean.

Hong long long!

His sword energy brought with it an ocean which swept forth from all directions.

The ocean waves rumbled and covered the land, looking like it was about to drown the enemy.

The key was that the waves were all sword energy!

This was a sword ocean. There was an endless number of swords.

Each drop of ocean water was an extremely sharp sword that could pierce the heavens and slice the clouds.

Now, the sword energy ocean was all hidden in this streak of sword energy.

Terrifying!

Extremely terrifying!!!

Li Xiandao's sword energy was all in this sword and after it slashed out, it exploded into an ocean.

The size of the ocean covered the sky and the land such that this Honorable One couldn't escape.

Hong!

The 10 tigers and 10 dragons were swept away without any way of fighting back.

What a joke.

"You want to compare volume. Can you beat a wave?" Li Xiandao said in disdain.

"Die!" With the ten tigers and ten dragons being destroyed, this Honorable One was in trouble. He pulled out his weapon and shattered a part of the ocean. He smacked all about to break region by region.

But the ocean region that was shattered not only wasn't damaged, but they just turned into nothingness.

One drop of water was a sword energy. This was Li Xiandao's weapon, a weapon that could take your life.

It was really terrifying and Li Xiandao had something that was even more scary.

Withering Flame!

The second slow. After Li Xiandao slashed, it instantly turned into a flame ocean.

Two totally different sword energies mixed together actually forming a perfect combination. They then clashed and sliced up this Honorable One.

The sword energy in the form of ocean water pierced his body while the flaming sword burned it up.

Hong long long!

When the ripples dissipated and the explosions stopped, everyone covered their mouths.

Only one person was within the range of the mountain top.

There was this person that people called the Celestial in the human world and Li Xiandao.

The others including those stage nine experts saw that Li Xiandao could kill an Honorable One in two swords. They knew their place and retreated to look on from far away.

“You are strong but you will still lose to me.” Zhuge Weiwo said coldly. He was really confident as he pulled out his own weapon.

His weapon was really special and Li Xiandao had an impression of it. It was an artifact that could be used as a blade and also as a bow.

When in close combat it would be a blade and from far away it would be a bow. This was his life treasure that he had kept for a long time.

Breaking Blade!

“You should be satisfied that I am using the Breaking Blade to kill you.” Zhuge Weiwo said coldly.

“You won’t be able to kill me.” Li Xiandao shook his head.

Chapter 500: Suppressing All Celestials!

Zhuge Weiwo was Celestial in the human world, a top genius, a true expert.

He was born in Heaven Sky, he rose up in Heaven Sky, and was invincible in Heaven Sky.

His reputation was true. He relied on himself to build it up bit by bit.

20 years ago, he started to roam Heaven Sky to fight others. At the start, he fought those of the younger generation, but then he quickly realized that they were too weak.

Very few of them could take one hit from him.

He then turned his gaze to the older generation.

Just like that, after 20 years, he covered a tenth of Heaven Sky. He fought numerous older generation experts and built up his reputation.

There were no Celestials above but there was one here.

Zhuge Weiwo was such a person.

So, he had enough confidence and pride to face Li Xiandao.

Even if Li Xiandao killed an Honorable One in two swords, he felt like if he went all out, he could do that too.

That Honorable One was too old and should have died 3,000 years ago. He delayed it forcefully and his body lacked vitality. His last gamble was useless and he instead became Li Xiandao's stepping stone and helped to raise his confidence.

Embarrassing!

Zhuge Weiwo held his Breaking Blade and his aura climbed. He descended on the area and didn't let his aura get suppressed by Li Xiandao.

"You are too arrogant. Now, I will kill you!" Zhuge Weiwo said confidently as he walked over. The Breaking Blade gave off a cold light which was so beautiful that it made one tremble. It was so terrifying that one couldn't describe it in words.

Many of the people far away looked on with bated breaths. All of them looked forward to seeing how strong this person who everyone had high hopes for was.

When his little brother Xiao Zhuge saw this, his lips curled up, "No matter how strong you are, how can you be my brother's match. You dare to look down on me. Now, it's time for you to die to my brother's hand."

Millions of people, numerous gazes, all of them landed on Zhuge Weiwo's body.

He took large steps forwards, stepping on the air and slashing with the Breaking Blade which turned into a streak of light in mid-air as it shot forwards.

This strike was really strong like a meteor smashing on the ground. It was filled with destructive and powerful energy, carrying a violent dao and suppressed Li Xiandao.

This strike was extremely strong.

At least to outsiders, this was extremely destructive and maniacal.

These two daos were merged well by this person and it was super strong. But to Li Xiandao, it was just so so.

His body contained the Nine Skies and Ten Lands and with these 19 worlds supporting him, his body was invincible.

Li Xiandao didn't use any sword energy. He just reached out. His fingers shone bright, his body was translucent like exquisite marbles.

Peng!

Li Xiandao's palm had the dao flowing in it. His fingers had the dao wrapped around them. It wasn't the deep dao but the most basic five elements.

The five elements were the most basic dao but they were the most essential ones. Only with the stable five elements could other daos be birthed.

If the five daos collapsed, then the other daos would be like a building without foundations which would collapse instantly.

So the basic dao wasn't the weakest. On the contrary, if one comprehended the five elements, one definitely wouldn't be weak.

At that moment, Li Xiandao's five fingers represented the five daos and welcomed the blade.

Kacha!

The extremely sharp blade light landed on Li Xiandao's hand and it swiftly disappeared. The destruction and killing intent was wiped out by the five elements.

Zhuge Weiwo frowned as he didn't expect Li Xiandao to be so strong. He had comprehended the five elements and they were actually at such a deep stage.

"So what if you have the five elements? I will definitely kill you today." He was still confident. This was just a slight problem. He had just casually swung that blade.

Now, he was attacking properly.

The blade light surged through the sky and his body flew through the air while he used a really rare blade technique.

Assassination Blade Technique.

At this moment, when Zhuge Weiwo was flying and walking in the darkness, a huge storm erupted.

Kacha!

In the storm, beside Li Xiandao, a silent blade slashed forth.

Li Xiandao didn't do anything. In the blink of an eye, he saw through the emptiness and saw Zhuge Weiwo who was hidden in the space.

"If this is all the skill you have, you really aren't worth the title of Celestial in the human world." Li Xiandao said calmly. He flicked his fingers and it accurately hit the Breaking Blade.

Dong!

A terrifying power spread up the blade and it caused the Celestial's body to shake. He flew out from the darkness of space.

Peng peng peng.

He retreated dozens of steps, each step would cause the air to explode. In the end, he even spat out a mouthful of blood as he looked at Li Xiandao in disbelief.

"How... How are you so strong?"

Li Xiandao smiled calmly, "Because I used all my strength."

His full strength flick caused Zhuge Weiwo to be stunned and filled with disbelief.

"You... You are a cultivator that failed to ascend?" Zhuge Weiwo was furious. He didn't dare to believe it. His confidence had lowered now.

A flick of his finger caused all his confidence to disappear.

"A cultivator that failed to ascend?" Li Xiandao's brow rose up and he shook his head, "I am not a failure. You attacked me just now so it is my turn."

Hong!

The moment he said this, Li Xiandao was about to attack.

Zhuge Weiwo was the only person around.

As long as Li Xiandao killed him, everything would calm down.

When the gods died, the believers would all collapse.

The fervent and passionate gazes of the people around showed that they were believers of him.

The people they believed in was Zhuge Weiwo.

To them, one person couldn't take all the Celestial tombs. It was best if the tomb was shattered and the treasures would scatter. When that happened, they would then have a chance to benefit.

But, Li Xiandao wouldn't give them such a chance.

In the silence, a large patch of black clouds appeared. It covered the sky causing the sun to disappear. The land was in darkness and it was totally silent.

Dark clouds pressed down like a black mass, causing the aura around to be really suppressing. It felt as if a storm would descend at any moment.

Black fog surged all about and spread in all directions.

Li Xiandao's aura was within it all.

Keng!

A sword ring sounded out and killing energy spurted out. A cold sword energy, bone-stabbing killing intent swept the entire sky. It felt like a living hell and it was extremely scary.

"Hong!"

At that moment, Li Xiandao's eyes gave off a cold glow. His desire to kill spread all about. Large pieces of the mountains collapsed and were turned to powder. Under the invisible killing intent, nothing was left and nothing was allowed to exist.

On this mountain peak, Li Xiandao's killing intent was consolidated on Zhuge Weiwo.

At that moment, his face was dead as ash. His confidence was crushed by Li Xiandao and he roared with unwillingness. His voice was like that of a dragon but it was no use.

The cold sword energy charged into the sky and sliced it open. The intense light connected with the dark clouds above. A vicious strike shattered everything in front of Li Xiandao.

Everything was shattered!

Like the wheels of history pressing down, nothing could stop it and everything was destroyed.
