

Bank of the Universe

Chapter 531: Who Is King Zhou?

The demon and Heaven Heart both left quickly. The place they headed to wasn't anywhere else but the White Bone Ocean.

After they passed the broken ancient city, they saw an ocean. This ocean was covered in white bones.

The surface of the giant ocean was covered in white bones. The water was a scary pale white color.

White bones covered the ocean surface. Heaven Heart and the demon arrived and the first thing they saw was a giant palace.

In the middle of the white bone ocean, there was a solemn and sinister-looking palace. It was made of white bones and it seemed really vicious.

From far away, the demon said, "This White Bone Demon Lord seems really strong."

"Let's go and take a look. With us working together, we don't have to fear anything. Let's ask about the deep abyss, the White Bone Demon Lord should know about it." Heaven Heart's eyes lit up.

"Right, we need to ask clearly. If we search ourselves, who knows how long that would take." Zhong Zi Qi appeared and agreed with Heaven Heart.

"Then, let's go and see how strong this White Bone Demon Lord actually is." The demon flew over quickly. A second ago he was at the shore but a second later he was in front of the entrance to the palace.

Heaven Heart also took a step and arrived right after.

White Bone Palace was really empty. There were no guards and the gate was wide open.

The demon and Heaven Heart walked into the palace. There were several floors and from the outside, it seemed really shocking and rough. But inside it was really

exquisite and it seemed really clean. It didn't look like a place where no one was living in.

"White Bone Demon Lord, come out and meet us." The demon focused his gaze towards the depth of the hall. There was a white bone throne there and on it sat a skeleton.

A five-colored skeleton!

This was White Bone Demon Lord, a deathly being with strong cultivation. Different from humans, it used white bones to obtain the dao, giving birth to soul flames. After some time, it transformed and turned into the current five-colored bone structure.

The strength of the five-colored bones could only be broken by Celestial Artifacts. This was why White Bone Demon Lord was strong.

"Why did you summon me?" White Bone Demon Lord stood up. The five-colored soul flame burned in its skull. Its aura climbed and directly exploded.

A terrifying pressure swept the palace. With a loud explosion, a giant shockwave swept the white bone ocean and caused huge waves.

Heaven Heart and the demon were totally unharmed. Only their clothes danced in the wind but they didn't shift at all.

White Bone Demon Lord's aura was just so-so to them.

White Bone Demon Lord's soul flame became heavy. It knew that the two of them weren't easy to handle. He thought about it and decided to walk out.

"Stage six Destiny Realm." Heaven Heart said calmly.

"Not strong but for it to occupy a piece of land here and let its subordinates tempt men in, this meant that the top combat strength of this level is around that level." The demon guessed.

"If it is nice, we can have a good chat." Heaven Heart said calmly.

"If it doesn't then I will let it taste the scariness of soul scouring." The demon said coldly.

The two of them were a good party. Each one said one sentence and at the same time, they observed the surroundings.

The five-colored White Bone Demon Lord walked out.

"Why did two human experts come here? What do you want?" White Bone Demon Lord asked seriously.

It realized that it couldn't see through Heaven Heart and the demon so it was nervous too.

It didn't dare to be arrogant. It was okay if it was injured but if it was killed, that would be really unlucky.

So the White Bone Demon Lord seemed like it was arrogant. But inside it shivered from fear.

"We came to ask some questions and we hope that you can comply." Heaven Heart said.

"No problem." White Bone Demon Lord agreed right away.

Heaven Heart was not surprised. If the stage six White Bone Demon Lord didn't know how to judge the situation, it wouldn't have been able to reach such a level.

"Which level is this in the abyss?" Heaven Heart asked.

"The first, it is also the one that is closest to the real world." White Bone Demon Lord replied.

Heaven Heart wasn't surprised. He had long guessed that this was the first level. Now he was just proving himself right.

"This is the first level so how do I enter the second and third?" Heaven Heart asked. He wanted to head to the third level as the treasure was there.

"Pass through the demon cavern. There is no other way." White Bone Demon Lord said.

"Cavern?" Heaven Heart's brow rose up.

"The demon cavern is a bottomless cave that connects the 18 levels. No one knows what is below but without exception, be it heading down or heading up, one has to pass by it." White Bone Demon Lord said.

"Where is it?" Heaven Heart continued to ask.

"It is at the center of the first level." White Bone Demon Lord answered. It wasn't as arrogant as before.

After hearing Heaven Heart ask how to enter the other parts, White Bone Demon Lord knew that the two of them were really skilled and were planning to journey through the deep abyss.

It didn't dare to offend them.

After Heaven Heart asked this, he didn't say anything more and was in deep thought.

"Are you a deathly being that the deep abyss gave birth to?" It was time for the demon to ask.

"Right, I am the White Bone Demon Lord born on this level." White Bone Demon Lord was slightly unhappy and emphasized that he was called White Bone Demon Lord and not a deathly being.

Although in essence, it was, it was named White Bone Demon Lord.

The demon didn't care about all this. It just projected an image of the demon god pillars and said, "Have you seen this before?"

White Bone Demon Lord took a close look. The demon god pillars were so huge and were actually easy to recognize. But it didn't dare to say anything.

"What is the problem?" The demon saw how the White Bone Demon Lord wanted to speak but stopped so it asked solemnly.

"I have seen the pillar, it is huge. Three of them have pierced through the eighteen levels." White Bone Demon Lord hesitated before saying.

"What about the last one?" The demon was sharp.

3 of them piercing the deep abyss didn't surprise the demon. The demon god pillars came from the Demon World and were far stronger than Celestial Artifacts.

Li Xiandao used eight to create the Nine Skies and Ten Lands. 19 worlds being developed was already an amazing achievement.

This was why for the demon god pillars to pierce the 18 floors, it wasn't shocking for the demon. What shocked him was that there were only three.

What happened to the last one?

"King Zhou took the last one." White Bone Demon Lord said like it was afraid of this King Zou. It even looked around warily after it finished.

Heaven Heart and the demon looked at one another and they could both tell the shock in their eyes.

For stage six White Bone Demon Lord to be so terrified, this King Zhou seemed really strong.

"Who is this King Zhou?" The demon asked quickly. He wanted to see how strong the person who could take the demon god pillar was.

Chapter 532: I Will Receive The Guest!

Who was King Zhou?

That question caused the five-colored skeleton to become terrified. He said right away, "Be quiet, he is a supreme expert. If he hears you, we will all be very unlucky."

The demon smiled in disdain, "Supreme expert, how strong is he?"

In Human Celestial, the demon didn't dare to say he was invincible but he was amongst that group. Apart from Li Xiandao, he didn't fear anyone else.

Heaven Heart was the same. He looked on calmly and wasn't as afraid as White Bone Demon Lord was.

"You don't live in the deep abyss, so naturally, you don't know what is going on. King Zhou is one of the four kings here and he lives in the bottom few levels. Even stage nine experts can't take a single blow from King Zhou. A stage nine expert from the third level challenged King Zhou and was killed by an energy blast through space. King Zhou didn't even show his face, that was how terrifying he is." White Bone Demon Lord was afraid. The reason why it was so careful was that it didn't want to be killed by King Zhou through the air.

The demon retracted his arrogance. When he heard the White Bone Demon Lord's description, it made King Zhou sound really strong.

He didn't even show himself, through the air an energy way killed a stage nine expert.

This was something that the demon couldn't do now. He had to raise his strength before he had such ability.

"Why does King Zhou want that pillar?" Heaven Heart asked curiously.

"I don't know. But I heard that King Zhou placed the pillar in front of his door. Who knew what the point was?" White Bone Demon Lord shook his head.

"It seems like you know everything about the deep abyss." The demon gave a weird smile.

White Bone Demon Lord had a bad feeling. He took a step back and said in terror, "What do you want to do?"

"Nothing, asking more here is just a waste of time. You should follow us and bring us around as our guide. Naturally, you can make everything clear to us." The demon giggled.

White Bone Demon Lord looked at the demon whose strength was indiscernible, "Can I reject you?"

"No, your men lied to us and brought us in to sacrifice us to you. So now you need to follow us. Only then will we not owe one another anything." The demon said decisively.

White Bone Demon Lord wanted to flee but Heaven Heart stepped forth. The color of the sky instantly changed and 10,000 buddhas started to chant. White Bone Demon Lord screamed and shivered in fear, "I agree, I agree."

"Okay, thank you for cooperating." Heaven Heart immediately retracted it and smiled.

White Bone Demon Lord was speechless and sighed helplessly, "What are you planning. Can you tell me in advance before I decide whether or not to behead with all of you?"

"We were planning on splitting up after entering but now it seems like we need to work together." Heaven Heart sighed.

|

The demon said solemnly, "If we are working together, let's head to level three to solve your problem before getting the demon god pillars."

The demon was from hell and he had huge strength. However, he wasn't arrogant. He knew that he wasn't overpowered yet and the cultivation journey of the Demon Summoning Technique had just begun. He hadn't reached the level where he could use the extreme strength of this technique.

So he couldn't continue as planned. In front of this King Zhou, it could be tough.

Although he hadn't met him before, from those words, he could tell that King Zhou was strong.

"Bring us to the third level. We can take things slow." Heaven Heart said to White Bone Demon Lord.

“Okay, as long as you two don’t search for King Zhou.” White Bone Demon Lord heaved a sigh of relief.

Heaven Heart and the demon looked at one another and they understood. But once the deep abyss treasure was found, they had to find King Zhou to get the demon god pillars.

White Bone Demon Lord didn’t know that. Instead, he happily led the way as he thought that they weren’t finding King Zhou.

They left the White Bone Ocean and entered a boundless land. The three of them rushed, crossing who knows how many tens of thousands of miles. A day later they finally reached that demon cavern.

The cavern was 10 miles wide. Standing at the corner and looking down, one felt many gushes of wind but one couldn’t see what was there.

Heaven Heart looked at it and took in a deep breath. He used the Buddhist Technique Heaven Eye to scout what was going on inside.

Two golden streaks of light spread in the cavern and chased away some darkness.

But suddenly, a violent storm shot up. Fortunately, Heaven Heart retreated quickly, otherwise, he would have been hit.

White Bone Demon Lord said, “This is the cavern, anyone who tries to scout it would draw an intense reaction. Fortunately, you just tried to look. If you did anything else, who knows what would have happened?”

Heaven Heart remembered that. His eyes returned back to normal and he stopped trying.

“How do we get to the third level?” The demon asked.

“Follow me down the border, this cavern is ten miles wide and the bottom is immeasurable. Don’t get close to the center and just rest on the side so that one doesn’t fall down.” White Bone Demon Lord said carefully before he started to fly down.

Heaven Heart and the demon followed closely behind. They carefully looked at each action and learned from him. They entered the cavern and continued down.

“We need a long time but welcome to the cavern.” White Bone Demon Lord said helplessly.

Heaven Heart and the demon understood. They followed the White Bone Demon Lord and continued to head deep down.

...

Within the Bank of the Universe, Li Xiandao was looking on silently.

Beside him was Seven and the two of them stood together.

What was inside the deep abyss, or rather what thing was there? Li Xiandao was really curious. After Heaven Heart and the demon entered, they started to observe.

Now, they saw the cavern.

The size and weirdness of it baffled Li Xiandao.

“How did this abyss form?” Li Xiandao asked Seven curiously.

Seven shook her head to express that she didn’t know. She guessed, “It is attached to the main world, so it should be a dimension. But there are many experts in the dimension that would strengthen the deep abyss so it seems really huge. As for where exactly it came from, I don’t know.”

“Can people from the abyss get the watches that I scatter in Heaven Sky?” Li Xiandao asked.

“Of course, the 18 levels of the deep abyss are attached to the main world so they are one body. Of course, they can get it.” Seven said. Suddenly, her expression changed.

“What?” Li Xiandao didn’t understand.

“What a coincidence, a guest from the deep abyss, do you want to receive him?” Seven found it coincidental and asked Li Xiandao.

“Seven, go bring the guest in. I will meet him.” Li Xiandao was excited and said loudly.

But the moment he said this, he felt as if something was wrong.

Chapter 533: Celestial In The Human World!

In a corner of the 18 levels of the deep abyss, in front of a short grave, the soil moved and a white palm squeezed out.

This was the hand of an old man. Its skin folded and there was no flesh at all. The skin tightly attached to the bones and it seemed like a dry corpse.

"I am really going to die." The old man climbed out from the soil and he was totally wet. He knew clearly that he was about to die.

No medicine could save him and no doctor could cure him.

"My soul and body have been shattered. I don't have long to live." The hope in the old man's eyes had been extinguished. He knew that he was about to die.

"I am going to die but I can't die in my own home, what a regret." The old man gave a tragic smile and he looked on in despair. Time seemed to flow backwards and he returned to the small sect he spent 20 years at when he was young.

Many peach trees blossomed and the scent of flowers wafted in the air. There was a person under the cherry blossoms, wearing a red skirt and looking at him with a flower-like smile.

This was the girl that he loved, the moonlight in front of his window.

"I left the sect when I was 20 and thought that it was a small place and that I needed to see the world. But after leaving, the place I wanted to return to most was that small sect." The old man smiled woefully. His heart was aching. His whole life he had been chasing something that he always had.

As time went on, he abandoned these things one by one and ended up like that.

"If I have a chance to restart, I wouldn't enter this deep abyss and join in that celebration. In the end, I even lost myself." The old man's eyes were filled with regret. His breathing calmed down such that it all disappeared.

"Cherry Blossom Mountain..." At the last moment, the old man's desire for home won his hatred.

* Crack!*

Space, a red watch landed onto the old man's body.

But the old man was already dead.

He used his strength to climb out, using up his last bit of energy. His injuries exploded, he couldn't control himself anymore and he died.

The red watch landed half a beat later.

The red watch was stunned and after sensing, it realized that the host was really dead and it wanted to leave.

* Kacha!*

But at that moment, a piece of twin fish pendant flew out from space. It was an artifact spirit that shattered the watch.

“I will complete your final wishes.” This artifact spirit was a girl. Like ink, like mountain water, like spring breeze. She was really beautiful and brought with her the beauty from the countryside.

She appeared, shattering the red watch. She was going to complete her dead master’s wishes.

The watch shattered and the girl returned to the pendant. The old man’s corpse disappeared and he entered the Bank of the Universe.

...

Within the Bank of the Universe, Li Xiandao looked at the old man and blinked.

A corpse!

This was the new guest?

Li Xiandao thought that it was fake and that it was a prank but Seven nodded her head solemnly. Only then did he know that all of this wasn’t fake.

The new guest was really a corpse.

Li Xiandao looked at the corpse and frowned, “Since the guest is already dead, then he shouldn’t come in. A watch is waste and it has no value at all.”

“Someone crushed the watch.” Seven said innocently.

“He is already dead, did he shatter it before he died?” Li Xiandao was really confused. He looked carefully at the old man.

He was so thin that he didn’t look like a human. If one didn’t look carefully, one wouldn’t notice that he was a Destiny Realm expert when he was alive.

“I was the one who shattered it.” A female voice rang out. A green wisp flew out from the twin fish jade pendant and turned into a girl.

A girl with a countryside aura.

“You are an artifact spirit?” Li Xiandao’s brow rose up. She looked at the jade pendant. It was of great quality and was a celestial artifact.

“Right, I am the jade pendant’s artifact spirit. This is my master and he has died. I used my stored up energy to appear.” The artifact spirit nodded her head.

Li Xiandao fully understood. This guest should be her Master. This person died before the watch appeared which resulted in the current scenes.

What should he do?

Li Xiandao injected true qi into the artifact spirit to ensure that she wouldn’t disappear from the lack of spiritual energy. He asked, “Since you shattered the watch then you are my guest. So what would you like to trade?”

The artifact spirit pointed and said, “Send my Master home and bury him beneath Cherry Blossom Mountain.”

“So simple?” Li Xiandao was curious.

“Right, this was his biggest regret, something he regrets even more than people he hates. He would rather not take revenge and complete this final matter.” The artifact spirit nodded her head.

“I understand. Since that is the case then what price can you pay?” Li Xiandao asked.

“Me.” The artifact spirit pointed at herself. Her petite body gave off a different kind of charm.

Shua!

Li Xiandao felt like a gaze landed on his body.

Li Xiandao coughed, “Your main body is the twin fish jade pendant?”

“Right, this pendant is my main body and is a celestial artifact. It is strong at protecting one’s body and it can help adjust one’s cultivation ability. When one wears it, one will get many benefits.” The artifact spirit nodded her head.

“Your main body and your request are comparable. I can bury your master but I have some questions for you.” Li Xiandao bent down and picked the pendant up to pass to Seven.

Seven smiled, she seemed really elegant and noble.

“What do you want to ask?” The artifact spirit looked at Li Xiandao curiously.

“Has your Master always been living in the deep abyss?” Li Xiandao asked.

He sensed the pendant. The master was really strong and was at least stage eight. In Heaven Sky, he was an expert.

But he died and died quite badly. It was like he climbed out from the dirt himself.

In truth, he really did.

“My Master left home when he was 20 and ended up in the deep abyss by accident. He rose up here and it has been 10,000 years since. He reached stage eight but because of an accident, he died here.” The artifact spirit said regretfully.

“What accident?” Li Xiandao’s eyes lit up. He wanted to understand the situation here.

This person lived in the deep abyss for so long and he definitely understood the place like the back of his fingertips. As the celestial artifact he carried, the jade pendant definitely knew about things that Li Xiandao didn’t.

“That is because the four kings in the deep abyss want to become Celestials in the human world so they are working hard to dig up the ancient treasure.” The artifact spirit added.

“Celestials in the human world!” Li Xiandao looked at her in shock. He didn’t expect there to be such a situation.

Chapter 534: Heart Of The World!

Celestial in the human world!

That was a really huge goal.

The problem was that it was hard to fulfill.

Since the status change between the Nine Skies and Ten Lands and Celestial World, becoming a celestial in the human world was already a dream.

One couldn’t turn into a Celestial in the human world. This was an answer that was obtained after numerous years and countless geniuses’ hard work.

That was because the Celestial World absorbed too many world sources. Li Xiandao read a book in the Ten Thousand Country Book Depository that said something really shocking.

“A region in the Celestial World is as wide as the entire Nine Skies and Ten Lands. The Celestial World has many such places.”

So Li Xiandao was suspicious when the artifact spirit said that.

He said out his suspicions, "There is no way for Heaven Sky to let one become a Celestial. Maybe your strength is comparable and you can kill Celestials in the Nine Skies and Ten Lands but you definitely can't become a Celestial here."

Unless you ascend!

This point didn't change based on one's strength. That is because the world had no more matter that allowed one to become a celestial and all of them were consolidated in the Celestial World.

Now that the Celestial Gate was closed, it was impossible for any of it to leak down.

The artifact spirit didn't know that much. She just said what she knew, "When my Master first heard it, he had the same reaction and felt like it was impossible. But the more he understood, the more he crazily believed in it."

"What reason made him believe that he could become a celestial in the human world?" Li Xiandao asked right away. He wanted to know too.

Li Xiandao didn't believe that someone could do it, but what if?

What if there was a magical method, who knew? After all, there were many miracles in the world.

"Someone dug out a world core from the last eon in the core region of the deep abyss." The artifact spirit said.

"What?" Li Xiandao was shocked.

Seven's eyes lit up. She looked at the artifact spirit and found it unbelievable.

The last eon was the eon of the god race. The angel race was a branch of them and the hell demons were another branch.

But this eon was already destroyed. The god race broke apart and the strong angel race could only rely on the god divinities to steal life. Now, the world core from the last eon was actually found deep in the abyss?

"Are you sure?" Li Xiandao asked solemnly.

"I am sure. My master personally went to look at it. This was a new world, although it is lacking the core is still there. However, it is stuck really deep so people had been digging." The artifact spirit said.

Li Xiandao was delighted, he didn't expect there to be a world core here.

A core left from the last eon.

It wasn't the Nine Skies and Ten Lands that Li Xiandao formed using the eight demon god pillars.

If he got it, how strong would he become?

How much would the Nine Skies and Ten Lands expand by?

Li Xiandao didn't dare to continue thinking about it. he looked at the artifact spirit and continued to ask, "Since this is the world core, then did they dig it out?"

"No, once it is dug out, it would cause too much commotion. People from the deep abyss won't be able to block it so they hid it inside. When my Master dug it out, he was hit by a time attack. After so many years, this attack was 10,000 times weaker but it still hit him." The artifact spirit sighed.

"The others thought that he died so they made a tomb for him. Until now, he managed to struggle to climb out but he still died in the end." The artifact spirit was despondent.

Truthfully, her Master was unlucky. An attack that came from who knew when and was how many times weaker. But it still crushed him.

He had an unlucky death.

The artifact spirit said that it was an accident, it really was. Even the person who launched that attack years ago couldn't expect it to cross time and space to kill someone.

So toward the end of his life, the master didn't think about revenge but to return home.

Return home, that was his final wish. The artifact spirit was going to help him complete it.

Li Xiandao was stunned. It seemed like when one was unlucky nothing would go right.

"Wu Xian'er, Giant Titan, come over." Li Xiandao shouted for his two subordinates.

Li Xiandao was handing the mission over to the two of them.

Since Wu Xian'er followed Li Xiandao, she had been cultivating hard and hadn't slacked off at all.

Her talent was really shocking and she was a Nine Tail Sky Fox. The top bloodline in the monster race. She had already activated it and turned really terrifying.

Right now, she was at Destiny Realm and had stolen from destiny several times.

Giant Titan was also much more terrifying. He cultivated the Titan Race Life Technique that Li Xiandao gave him. He was so strong that one hit from him could sweep a large amount of Destiny Realm experts.

The two of them came to Li Xiandao. A beauty and a beast.

Wu Xian'er had snow-white skin and her natural alluring nature became more and more obvious.

The giant titan was a few meters high and carried the Great Sky Rod, his aura was really valiant.

"Master!" The two of them shouted respectfully.

"The two of you will go and bury this old man and let him return home." Li Xiandao instructed solemnly.

Li Xiandao used the power of the Bank of the Universe to craft a coffin. it was made of red wood.

He placed the old man's corpse in and then passed the jade pendant to Wu Xian'er. He said, "Come back soon."

"You should also send your Master on his last journey. once you are back, I have something else to ask you." Li Xiandao said towards the pendant.

This trade had no contract signed because Li Xiandao felt like there was no need. If the jade pendant went against her word, that would be her dumbest mistake.

"Thank you, Master!" The jade pendant knew that Li Xiandao was friendly and even let her send him off.

Li Xiandao waved and swept all of them out.

Trading Hall, only Li Xiandao and Seven were left.

"Are you interested in the world core from the last eon?" Seven bumped Li Xiandao and asked.

Li Xiandao thought about it and said, "I am a little interested."

It was fake if he said that he wasn't. World core, even if it was broken and was damaged, it was still a world core.

Once Li Xiandao got it and comprehended it, it would help his Nine Skies and Ten Lands.

But to snatch it from the deep abyss, Li Xiandao didn't want to.

"Once we take out the world core, everyone in Heaven Sky will pay attention. The people in the abyss won't be so relaxed about it." Seven pumped Li Xiandao's elbow and said.

"Let's just wait and see. I feel like getting those demon god pillars are more important." Li Xiandao looked at Seven and smiled.

Chapter 535: Who Are The Four Kings?

That year, the cherry blossoms bloomed in the entire mountain. They were perfect and beautiful such that one couldn't shift their eyes away at all.

A teen waved goodbye to the girl he grew up with. He made a promise to return in three years to marry her.

But those three years ended up being an eternity.

After three years, the teen fell into the deep abyss by accident and was trapped inside, unable to escape.

Three years...

This deadline was extended infinitely. Until now, 10,000 years had passed.

Many things had changed.

Wu Xian'er brought the twin fish jade pendants while the Giant Titan carried the red wood coffin here.

This was the home that the artifact spirit talked about.

Her master's home!

They didn't see anything. The sect from before, the houses, the cherry blossoms was now just a desolate mountain.

It had been a long time since anyone came here.

Wu Xian'er asked, "Are you sure that this is the place?"

The artifact spirit floated out and said, "Master said that this was the place."

"This place has been abandoned for a long time. What should we do, bury him in the ground?" The Giant Titan asked.

"No, there was a sect here before, even if it was abandoned there should be some traces of it. Let's search." Wu Xian'er shook her head. Instead, she wanted to help the old man that had passed to find out what happened to his sect.

Even if she was to bury him, she would bury him in the ruins.

The Giant Titan and Wu Xian'er started to search. They followed the mountain range and found many traces.

"There used to be buildings here but only the foundations are left." Wu Xian'er looked at the ground that was covered in grass and sighed.

"This used to be a huge square where disciples are taught. Now, it is already a patch of ruins, even the flat ground has started to protrude." Wu Xian'er noticed many of such places and believed that this place used to be a sect.

Since the ruins were confirmed, Wu Xian'er heaved a sigh of relief and was prepared to bury the old man.

But when she twisted her head, the Giant Titan was gone.

Wu Xian'er looked out at a place in the mountains. She could see the Giant Titan's body.

"What are you doing there? We are at the core of the ruins, let's bury the old man here." Wu Xian'er shouted.

The Giant Titan didn't reply and just asked curiously, "Is the old man called Yi Changfeng?"

Wu Xian'er blinked. She didn't know, she hadn't heard Master talk about it before.

In truth, Li Xiandao himself didn't know.

The old man was already dead, so Li Xiandao didn't ask for the old man's name.

“Right, my Master is called Yi Changfeng, why?” The artifact spirit appeared emotionally.

“Yi Changfeng’s wife Yun Wei’s tomb!” Giant Titan read out the words on the tomb loudly.

The moment he said this, Wu Xian’er’s expression changed. She rushed over and saw a small tomb and also half a tombstone that was worn down by the wind.

The words carved on the stone tomb were missing but the few words to the middle were still there.

Yi Changfeng’s wife Yun Wei’s tomb!

The artifact spirit was shocked, “She actually waited her whole life for Master.”

Wu Xian’er was shocked too. She looked around and there was actually a cherry blossom.

On this day, the cherry blossom bloomed.

The entire mountain only had this one cherry blossom and it even bloomed.

That year, the entire mountain was covered in flowers. There was a young girl and a teen.

At that moment, one cherry blossom tree, that lost teen was back.

“If Master knew about it, he would be sad. The girl he had thought about didn’t marry anyone else and didn’t leave. She just guarded here and waited for Master to return.” The Artifact spirit muttered.

“Why didn’t he come back earlier? Your Master was already at Destiny Realm.” Wu Xian’er grumbled.

“Master was held back, even if he wanted to leave he couldn’t.” The artifact spirit sighed.

Reality played tricks on him. He reached old age and died and the two of them still hadn’t seen each other.

Maybe their memories of one another stopped when they were 20.

The teen was ambitious while the girl’s skirt danced in the wind and she had a slightly shy expression on her face.

The Giant Titan dug a huge hole beside the tomb and buried the old man in. He then sliced the giant mountain and picked a tougher stone to act as the tomb.

Yi Changfeng, Yun Wei, husband and wife's tomb!

The Giant Titan used his fingers as a brush and wrote these few words on the tough tombstone.

Dong!

He stuck it right in front of the two of them and heaved a sigh of relief. He sighed, "Rest."

Wu Xian'er and Giant Titan bowed to express respect. They then kept silent for a moment before Wu Xian'er said, "It is time for us to return."

The artifact spirit returned to the jade pendant. She was in a complicated state. She knew why Master thought about Lady Yun Wei for his whole life. In the deep abyss, he didn't let himself go and led a life as a hardworking coolie.

All of this was because Lady Yun Wei was worth it.

That alone was more important than anything else.

When Wu Xian'er and Giant Titan left, the wind blew over. Beside their tomb, the cherry blossoms danced. A single cherry blossom tree but it was as if the entire mountain was covered in them.

Wu Xian'er turned her head and saw a male and female under, looking at one another.

She blinked once more and everything was gone.

Wu Xian'er stopped.

"What?" The Giant Titan asked curiously.

Wu Xian'er suddenly smiled, "Nothing, the sand entered my eyes. Let's go."

...

In the Bank of the Universe, Li Xiandao looked at Wu Xian'er and the Giant Titan and told them to leave after handing over the jade pendant.

"How should I address you?" Li Xiandao looked at the jade pendant and said.

Their identities were different now. She was the guest before but now she was Li Xiandao's celestial artifact.

"Twin Fish." The artifact spirit pursed her lips and she said.

She had walked out from sadness and her attitude towards Li Xiandao was correct.

Li Xiandao was her new Master now.

"Tell me, how many experts are there in the deep abyss?" Li Xiandao asked.

This was something that Li Xiandao was concerned about.

"Not many, if there were many, they would have all attacked. Because there were a few of them, although there were a few top-quality ones, in terms of number, they can't compare to the real world." Twin Fish shook her head.

"Did all of them join in to dig out the world core?" Li Xiandao continued to ask.

"Yes, those with some ability. They had to agree. My Master was the same, he was forcefully brought over." Twin Fish nodded.

"So now who is in charge?" Li Xiandao frowned and asked.

"The four Kings are in charge of everything." Twin Fish said without hesitation.

Li Xiandao's brow rose up. These four kings again. He found out about King Zhou over from Heaven Heart.

"Who are the four kings?" Li Xiandao asked.

Chapter 536: Girl In A Bridal Dress!

The deep abyss had four kings but Li Xiandao only knew about King Zhou.

The didn't know about the other three.

Twin Fish said, "The four kings are King Zhou, King Lanling, King Giant and King Yasha."

"Among them, King Lanling and King Giant are on the same side and they had a close relationship with one another. King Zhou and King Yasha are close and they basically don't disturb one another. They are working together so as to dig up the world core." Twin Fish added.

"I understand." Li Xiandao remembered that. He reached out and a three-dimensional diagram appeared of the deep abyss.

Heaven Heart and the demon came to the third level under White Bone Demon Lord's leadership.

"Take a look, once we come into contact with the four kings then we shall see if they are strong or not?" Li Xiandao said calmly.

...

Level three, after entering this place, Heaven Heart took the treasure map and observed it carefully.

"You came to search for treasure?" White Bone Demon Lord was shocked.

"Right." Heaven Heart replied without much care and continued to deduce the location they were at.

"Are there three treasures in this level?" White Bone Demon Lord was curious, he had never heard of it.

"Do you know about White Phosphor Mountain?" Heaven Heart asked.

"I know, it is a really mystical mountain range." White Bone Demon Lord said.

"Bring us there." The demon said right away.

"Okay." White Bone Demon Lord didn't want to waste time. He too wanted to know what treasures there were here.

White Phosphor Mountain, a white mountain range. On the third level, it was a really weird giant mountain.

After traveling for half of the third level, Heaven Heart finally saw the majestic White Phosphor Mountain.

Different from the green and black mountain body around, the white mountain often had flames that appeared on it. The white spiritual flames seem really mystical and strong.

"It was simple for the White Phosphor Mountain itself to burn. No living things dare to enter as it is too easy to get injured. Are you saying that there is a treasure here?" White Bone Demon Lord asked curiously.

“Yes or no, you will find out when we enter and take a look.” Heaven Heart said calmly. Since they were already here, whether or not the treasure is real or fake will be revealed soon.

“Right.” White Bone Demon Lord nodded.

Heaven Heart led the way and the three of them entered the White Phosphor Mountain.

They were all Destiny Realm and the weakest was White Bone Demon Lord but he was also at stage six. Although White Phosphor Mountain would combust and the flames would burn everything, but it wasn't a huge threat to the few of them.

So the three of them quickly headed deep in.

If the White Phosphor Mountain would occasionally burn on the outside, it was a blazing mountain on the inside. The mountain body here would naturally burn at high temperatures. Even someone at Emperor Realm would find it uncomfortable.

Heaven Heart still felt okay. he followed the route on the map and started to search within White Phosphor Mountain.

Very quickly, he found the place where the map said the treasure was located.

A mountain cave was wrapped up in flames. If one didn't look closely, one wouldn't be able to notice it. Without the treasure map, Heaven Heart wouldn't have noticed it.

If normal people came here, they definitely wouldn't expect there to be a treasure here.

Jin Jiu's grandfather found it by pure accident but because of it he lost half his life and was poisoned by the flames. After a short period of time, he left the world.

Now Heaven Heart was here. He passed through the flames. The fire couldn't affect his white jade robe and he just entered the cave like that.

There were no flames within the cave. When one walked deep in, one could see a coffin that was floating in mid-air.

The coffin was really thick and was made of copper. It looked like it was really heavy.

When the demon and White Bone Demon Lord entered and saw those scenes, they were shocked.

“The ancient demon god buried himself here?” The demon observed the land around.

“This is the right place.” Heaven Heart nodded.

“Open it and take a look.” The demon was excited. After confirming there was no danger, he took off the lid and placed it on the ground.

Dong!

The cave shook, it was really heavy.

The demon slowly opened the coffin. It wasn't an ordinary thing and the material was really special. Inside it, there were tens of millions of celestial seals. This was a really terrifying treasure.

Even if they didn't get anything from this trip, just this coffin alone was worth it.

Hong long long!

When the coffin was opened, what they saw wasn't a white skeleton but a beautiful girl. She closed her eyes and her face was a little white. She wore a red bridal dress and her hands were on her stomach.

“What is going on?” White Bone Demon Lord was shocked. This coffin buried a girl in a bridal dress?

“Sorry for disturbing you.” Heaven Heart placed his hands together and closed the lid.

“This is the only coffin in the cave, we need to let Master decide. I will keep it, let's not disturb the dead.” Heaven Heart said.

“Keep it. Who knew that this so-called ancient demon god treasure was actually a girl's coffin? That is weird, who is that girl?” The demon was confused.

“This is something that Master wants to understand. There are no clues in the cave so let's just head to get the demon god pillars.” Heaven Heart smiled.

The demon nodded. Speaking about the demon god pillars, Zhong Zi Qi appeared and asked, “Which level is King Zhou at?”

White Bone Demon Lord looked at the demon in shock and his mouth opened wide, “Didn't we say that we won't search for King Zhou?”

“Did we?” The demon asked curiously.

“Anyway, I didn't say that.” Heaven Heart shook his head.

“Neither did I.” The demon said calmly.

“Who did you make a deal with?” The demon asked White Bone Demon Lord.

White Bone Demon Lord was speechless. He looked towards Heaven Heart and the demon in rage, "If you want to go then you go. Anyway, I won't go there. Whether or not you or King Zhou kills me, the outcome would be the same."

The demon said, "Since you won't go, then I will kill you right now. Anyway, there are many people in the deep abyss, you aren't the only one that can bring me there."

Heaven Heart said calmly, "Kill him then, there is no need to let him live."

White Bone Demon Lord's soul flame started to burn and after thinking about it, "Let me bring you there, but once we get there, you need to let me go. You all are asking for death, don't drag me into it."

"Okay." Heaven Heart agreed right away.

Only then did White Bone Demon Lord relax. He pointed at Heaven Heart and the demon and said, "A man must be honest."

"Don't worry, you won't be of much use there anyways. You just need to bring us to King Zhou's palace. Once we see the pillar, all of you can leave." The demon said.

Only then did the White Bone Demon Lord not worry. He sighed, "Leave, I will send all of you to your deaths."

The demon and Heaven Heart didn't bother about White Bone Demon Lord's disturbance. They exited White Phosphor Mountain and headed towards the demon cavern.

They continued down the cavern, all the way until the 18th level!

Chapter 537: Empty Residence!

It was a really long process getting from the third to the eighteenth level.

But fortunately, the few of them were at Destiny Realm and in less than a day, they arrived.

The deep abyss was different from other places. Anyway, the spiritual energy here was thinner and more violent.

Since the spiritual energy was thinner, it meant that this place was further away from the actual world.

The long distance was the reason why the world didn't notice that they were digging out the world core from the last eon.

All in all, the pros were bigger than the cons and all the experts were gathered in the 18th level.

Heaven Heart and the demon came here. They instantly sensed that the atmosphere here was a little heavier.

"Many experts are gathered here, I can sense some terrifying people." The demon said solemnly. He was stage nine and his sensory ability was naturally really strong.

"We have to be careful. Take the demon god pillars and leave right away." Heaven Heart said solemnly.

White Bone Demon Lord's soul flame was shaking. It wanted to flee, this eighteenth level wasn't a place that it should come to.

"You aren't to leave. Bring us to King Zhou's palace. Only when we are there can you leave." The demon grabbed White Bone Demon Lord and carried him up like he was picking up a small chick. The demon said coldly.

"Head north." White Bone Demon Lord wanted to cry but no tears came out. He pointed in rage.

The demon and Heaven Heart immediately brought White Bone Demon Lord towards the north.

"Four Kings, apart from King Zhou, who else are there?" Heaven Heart asked.

"The four kings are King Zhou, King Lanling, King Giant, and King Yasha." White Bone Demon Lord said softly.

"King Lanling and King Giant live in the south. King Zhou and King Yasha lived in the north and they split up land to rule. They don't disturb one another at all." White Bone Demon Lord added.

Heaven Heart's expression turned solemn, "What if King Zhou and us fight, will King Yasha interfere?"

This was a problem. They weren't confident in dealing with King Zhou, now with one more King Yasha, even the demon didn't dare to be arrogant.

"He probably will. King Zhou and King Yasha are on one side to deal with King Lanling and King Giant." White Bone Demon Lord said without hesitation and wanted to scare Heaven Heart and the demon away.

“So we shouldn’t go. Life is important. It is not worth to sacrifice your life just for one pillar.” White Bone Demon Lord tried to persuade.

“Well said, but we still have to go.” The demon praised but he still headed forwards firmly.

“Since you think that I am right then don’t go.” White Bone Demon Lord cried. He really didn’t understand why they were so stubborn.

But there was nothing it could do now. It was like a small chick under their hands and his words held no weight.

Just like that, under the look of despair in the White Bone Demon Lord’s eyes, they headed towards the north.

The deep abyss was huge, that was undoubted. It was much larger than any other level. So after one day of traveling, only then were they able to see King Zhou’s palace.

A palace on one of the mountains which looked down on a few hundred miles of land. In front of it was a giant iron pillar.

Demon God Pillar!

This demon god pillar stretched from the foot to the peak, reaching the same level as that of the mountain peak. It was huge.

“All of you see it. This is the demon god pillar that you two have been wanting to see. Now can you release me?” White Bone Demon Lord asked.

After coming to King Zhou’s land, it didn’t dare to speak loudly.

Slap!

The demon casually tossed and placed White Bone Demon Lord down. After it landed on the ground, the sounds and commotion it caused terrified White Bone Demon Lord. He was afraid of an unexpected attack.

“Why are you so afraid?” Heaven Heart didn’t understand.

“This is King Zhou’s territory, can I not be afraid?” White Bone Demon Lord said softly.

“But... There is no one in the palace.” Heaven Heart was confused.

“What?” White Bone Demon Lord was stunned. What did he mean?

It looked towards the palace, it really was empty and there was no one there. He couldn't sense any movement and breath within.

"Is King Zhou out?" White Bone Demon Lord was shocked. He relaxed. It was good that King Zhou was not here.

"Since he is not here, let's move the demon god pillar away." The demon worked right away. This was a good chance. They didn't need to fight King Zhou head-on and could take the demon god pillar away. They saved a whole bunch of fighting.

Since the demon god pillar was stabbed into the ground, it caused a huge commotion to move it. But since the demon was experienced, he was easily able to do it. He quickly kept it into his treasure.

"So easy?" Heaven Heart was curious.

White Bone Demon Lord kept saying how strong King Zhou was. He and the demon were prepared to fight with King Zhou, but now it seems like everything was so simple?

White Bone Demon Lord was stunned, this was just too simple?

He just walked and pulled out the demon god pillar, putting it into his treasure space and then walking back.

He did so like a stream of water, without any obstruction at all.

Within the Bank of the Universe, when Li Xiandao saw that, Li Xiandao's lips curled up, "King Zhou should be digging the world core."

Twin Fish nodded, "Right, not only King Zhou, even King Yasha is not there so they were easily able to take the demon god pillar."

Li Xiandao sent a message to Heaven Heart, "King Zhou gathered many Destiny Realm experts to do something huge so he isn't in his palace. Take the demon god pillar and return right away."

"Yes, Master." Heaven Heart understood now and told this news to the demon and White Bone Demon Lord.

"So they were doing something important, we have really got lucky this time." The demon smiled happily. He really liked how he got the demon god pillar without needing to fight.

White Bone Demon Lord was stunned, "King Zhou gathered so many Destiny Realm experts to do things so why didn't he call me?"

“Maybe because you are too weak.” Heaven Heart said honestly.

White Bone Demon Lord’s soul flames instantly turned black.

“Let’s go, getting this demon god pillar is the extreme of what we can do now. To get the other three, we need to tear apart the 18 levels of the abyss. We can’t do that with our strength.” The demon said to Heaven Heart.

“Go.” Heaven Heart knew that they couldn’t say and they had to leave quickly.

White Bone Demon Lord and the demon returned from the path they came. They spent a day to return to the cavern and then climb upwards.

The whole process wasn’t dangerous at all. This shocked White Bone Demon Lord, “When did the deep abyss become so safe?”

It was really dangerous before. Unless one was a tough expert, otherwise, it would be hard to get to the last level.

But this time it was just so safe for them. So safe that the White Bone Demon Lord didn’t dare to believe it. Was this still the deep abyss?

He didn’t know that the experts in the abyss were called to do something huge. If he knew, he would be certain that the deep abyss was really safe now.

Chapter 538: Absorbing Demon God Pillars!

After returning to the first level, the demon and Heaven Heart warned White Bone Demon Lord.

“Don’t speak about this matter. If not, we might leave you alive now but we might not next time.” The demon threatened.

“I know. My mouth is really tight. I am able to live until now because of that.” The White Bone Demon Lord ensured.

“I hope so.” The demon turned around and left.

White Bone Demon Lord looked at the two of them who left and heaved a sigh of relief, “I should just continue as a skeleton, this isn’t something I should interfere in.”

After returning back to White Bone Demon Lord, White Bone Demon Lord removed its limbs and tossed them in different places. He then separated his skull and his skeleton structure, totally disappearing without a sign.

...

Within the Bank of the Universe, Li Xiandao looked at the demon god pillar that Heaven Heart and the demon brought back. He relaxed and he was in a really good mood.

He brought back the demon god pillar without spending much effort. That was the best outcome.

Seven looked on from the side and said, "Fortunately, they all went to dig out the world core and didn't bother about the demon god pillar at all."

Li Xiandao smiled, "That is quite good. With this demon god pillar, our work in Heaven Sky can begin."

This demon god pillar wasn't used to develop the Nine Skies and Ten Lands but to cultivate.

Li Xiandao himself absorbing energy couldn't compare to an entire world absorbing energy.

One demon god pillar would last him for a really long time.

So he wasn't in a rush to get the three remaining ones.

He waved his hands to scatter the scenes in front of him before keeping the jade pendant and passing it to Seven, "This is for you."

Seven asked, "Why did you suddenly think about giving me a gift?"

"I just want to." Li Xiandao was in a good mood and he smiled.

"You are probably in a good mood after getting a demon god pillar without spending any effort which is why you gave it to me." Seven rolled her eyes at Li Xiandao.

Although she said this, she still took the jade pendant happily.

Li Xiandao smiled and didn't say a word.

...

When Heaven Heart and the demon exited the deep abyss, the Bank of the Universe was waiting to receive them.

After unlocking the 5th mountain peak, the Bank of the Universe could travel around the world and even teleport from world to world. They just needed to pay some top-quality spiritual meridians.

So once they exited the abyss, they entered the Bank of the Universe.

“Master.” Heaven Heart and demon saw Li Xiandao who was standing on the square and shouted respectfully.

Li Xiandao nodded, “Where is the demon god pillar?”

He was really direct and didn’t beat around the bush at all.

The demon took it out right away and passed it to Li Xiandao, “There are three more that pierce through the eighteen levels. To take it, we have to tear apart the abyss, we can’t do that.”

The three demon god pillars pierce through a few levels and were hard to pull out. Unlike this one which was shorter.

Li Xiandao said calmly, “No worries, this is enough. I will think of a solution for the other three. From now onwards, you can cultivate peacefully and not have to run around in search of the pillars.”

When the demon heard it, it was like the piece of stone in his heart was placed on the ground. Now he could relax.

Even Zhong Zi Qi was excited, “ Thank you, Master.”

Li Xiandao smiled, “Why are you thanking me. This is your hard work. Go and rest along with Heaven Heart.”

Heaven Heart and the demon left the square right away. They went to rest.

Li Xiandao immediately disappeared from the spot and when he appeared, he was in front of the Time Hall.

Creak!

The door of the Time Hall slowly opened. Li Xiandao stepped in, “Burn a thousand years of lifespan.”

Hong long long!

The gate of the Time Hall closed and the time flow was different from the outside world.

Li Xiandao sat in it and took the demon god pillar out. As compared to before, it was much shorter. No wonder the other three pierced through the deep abyss while it was placed outside the palace.

Although it was much shorter, it wasn't lacking in quality. It still had huge amounts of energy.

After all, it was born from hell and the quality was enough for Li Xiandao to improve quickly.

Li Xiandao placed the demon god pillar and then took out the Triple True Flame to burn it.

"The 8 demon god pillars before were used to craft the Nine Skies and Ten Lands and none of it was used to raise my strength. Now that the Nine Skies and Ten Lands are crafted, I will use it all on cultivation." Li Xiandao muttered.

* Hu, hu, hu!*

Triple True Flame received Li Xiandao's true qi and instantly exploded. Flames wrapped around the pillar and started to melt it.

Time passed second by second.

In the blink of an eye, 100 years passed.

The demon god pillar started to melt and the resources slowly entered Li Xiandao's body.

Each pore of his was absorbing a spiritual energy wave. The dantian expanded infinitely and his entire body was transforming.

His soul immersed in the dao ocean. Li Xiandao himself was transforming.

One demon god pillar, that was just enormous.

The Nine Skies and Ten Lands absorbed them all right away so Li Xiandao didn't think it was a lot. But now, he clearly sensed that he couldn't finish the terrifying energy within.

"As expected, a person can't be compared to a world. Luckily I crafted the Nine Skies and Ten Lands, that would be my trump card in the future." Li Xiandao clearly knew that he himself couldn't contain as much energy as a world.

The world is so huge and the energy it contained was just too enormous.

Li Xiandao had 19 of such worlds.

Although they were just being born, after all, it was already born. The worlds had limitless potential. As long as Li Xiandao developed them, it wouldn't be a problem for them to grow.

Time passed, Li Xiandao continued to cultivate, comprehend and absorb the demon god pillars.

1,000 years passed in a blink of an eye. Once the time was up, Li Xiandao opened his eyes. Immediately, what he saw was that the universe was breaking apart, the living beings were being born, and worlds were developing...

He comprehended so many daos that Li Xiandao found it hard to comprehend right away.

Fortunately, in the next second, Li Xiandao blinked and he returned back to normal. He got up and he looked at the large part of the demon god pillars remaining. He couldn't help but laugh.

"As expected I can't absorb as much as a world, I didn't even consume half of this. But now I am already really strong." Li Xiandao shook his head and laughed. He left the demon god pillar inside the Time Hall while he walked out.

It wasn't that useful for him to continue absorbing now.

Stage nine, he even reached the peak of Destiny Realm.

To a certain extent, the current Li Xiandao was the peak of the peak.

If he improved further, he would have to ascend. Unless he failed the tribulation and became an unorthodox cultivator, only then could he continue to improve.

But now, Li Xiandao didn't hold back, "Unorthodox cultivators can't take a single hit from me now."

Chapter 539: Heaven Sky Debts!

Li Xiandao left the Time Hall as the sunlight shone down.

This secluded meditation caused his strength to greatly increase. If he met an unorthodox celestial like the Celestial College Dean, Li Xiandao could easily destroy him.

After heading out of the Time Hall, Li Xiandao went to meet Seven.

The first person he wanted to see after he broke through was Seven. He wanted to share all of his happiness with her.

But Seven was frowning towards a coffin, who knew what she was thinking about.

This coffin was the one that Heaven Heart brought back, the so-called ancient demon god's treasure.

In the coffin was a girl in a bridal dress.

Li Xiandao said curiously, "What is going on?"

Seven saw that Li Xiandao was there and said, "When you were breaking through, Heaven Heart passed this to me. I have been looking at it closely."

Li Xiandao looked at the coffin solemnly. A corner of it was open and one could see half of the face within. She seemed really kind and the red bridal dress stood out.

"What did you notice?" Li Xiandao asked.

"It seems like this girl isn't dead." Seven said solemnly.

"She has no breathing and heartbeat. She has no soul tremors. Apart from her body not decomposing, she is no different from a dead person." Li Xiandao observed and said.

"I know that too. She seems dead but I feel like she is not." Seven shook her head helplessly. She felt like her words had no persuasion at all.

Intuition couldn't be used as proof.

"No matter whether she is dead or not, she belongs to the Bank of the Universe. Keep the coffin." Li Xiandao thought about it and said.

Seven nodded her head. She suddenly had an idea and said, "I will place her coffin at the core area of the ancestral dragon spirit meridian so that she would be nourished by it day and night. I would like to see if she would wake up some day if she isn't dead."

Li Xiandao didn't care, "Do what you want, I will help you carry the coffin over."

Li Xiandao slowly closed the coffin and then carried it to the core area of the ancestral dragon spirit meridian.

Seven was satisfied, "Let's just place it here. Since you have broken through, are we going to go big?"

Li Xiandao nodded, "Of course, we haven't been doing much since we entered Heaven Sky. Now it is time to collect back those past contracts."

Heaven Sky had the most contracts. Seven had arranged them all and there were close to five thousand of them. All of their hosts weren't dead yet.

The size of Heaven Sky was ten times that of Great Sky but there were only two to three times more contracts than Great Sky. There was too much competition and many of the hosts died. The hosts fell so the contracts were automatically canceled.

Out of the hosts that were still alive, they were basically experts in Heaven Sky.

So when Li Xiandao first entered, he didn't touch them and instead, he searched for demon god pillars.

With the demon god pillar in hand, he improved himself and reached the peak. Li Xiandao was planning to go all out to clear the contracts.

Seven was delighted when she heard that. Clearing the contracts meant that more treasures would enter the treasury. Although she couldn't use it, the feeling of managing an empty treasury and a full one was totally different.

"I will go and get the contract. Some of them are ones that you have to go personally." Seven turned around right away and hopped to get the contracts.

Li Xiandao watched as she left and smiled.

In just a moment, Seven carried a few contracts over and passed it to Li Xiandao.

"The hosts of these contracts come from the top factions in Heaven Sky, they aren't as weak as Heaven and Earth Sect." Seven coughed and said.

Li Xiandao flipped a contract open.

"Pure Yang Celestial Sect's current grand disciple Bai Chunjiang borrowed a Pure Yang Celestial Sword from Bank of the Universe and paid five thousand kilograms of Pure Yang Spiritual Liquid. 10 thousand years later he would return the sword and if he fails, he would pay ten times the amount of liquid."

This person borrowed the Pure Yang Celestial Sect, a celestial artifact. Its quality was definitely not low. The price he paid was Pure Yang Spiritual Liquid, that was definitely something good.

Li Xiandao looked at the records in Ten Thousand Country Book Depository. Pure Yang was an extreme spiritual energy. Once it reached a certain level, it would give birth to Pure Yang Spiritual Energy. From spiritual energy to liquid, the accumulation process was really long.

Each drop of spiritual liquid was comparable to one top quality spirit meridian.

In terms of quality, the value of the Pure Yang Spiritual Liquid was only lower than that of the celestial energy. So it wasn't without reason that the Pure Yang Celestial Sect could become a top faction.

This contract was worth 50 thousand kilograms of pure yang spiritual liquid. Pure Yang Celestial Sect was really strong and it had multiple experts. It wasn't appropriate for him to send anyone else over.

Only Li Xiandao who had just broken through was suitable.

Li Xiandao took this contract and studied it. "Let's start from this. I will find this Bai Chunjiang who was once Pure Yang Celestial Sect's grand disciple."

Seven placed the other contracts aside and said, "I will support you."

"I want to take a look at Pure Yang Celestial Sect's pure yang spiritual liquid. I heard that it is slightly worse than Celestial Energy, is it really that strong?" Li Xiandao smiled calmly. He held the contract in his hands and walked out of Bank of the Universe.

It was only written for people who owed items to pay it.

The words were clear on the contract. Li Xiandao would follow it to get back what belonged to the Bank of the Universe.

After leaving the Bank of the Universe, Li Xiandao rushed towards Pure Yang Celestial Sect.

In truth, it was really easy to find Pure Yang Celestial Sect. As a top faction with numerous experts and also having things like pure yang spiritual liquid, they were like fireflies in the night sky. They would shine everywhere they go.

Pure Yang, a lone peak that seemed to pierce into the clouds.

Li Xiandao crossed the land, teleporting through space to reach here. Right away he saw this giant mountain peak.

The entire mountain peak was as straight as a sword. There were numerous spiritual meridians around which formed a giant Celestial Sect.

Pure Yang!

Two words were carved on the mountain. They were giant and bright and represented the region up ahead belonged to Pure Yang Celestial Sect. No one was allowed to fly and to enter, one had to get in from the main gate.

Coincidentally, today was the day that the grand disciple Bai Chunjiang inherited the position of Sect Leader.

So the entire Pure Yang Celestial Sect was in a joyous mood. From top to bottom they were all on cloud nine.

Li Xiandao landed. When he heard people talk about this, he was slightly shocked.

When he went to a shrine alone previously to ask for the celestial artifact, they were celebrating something too.

The current Li Xiandao was different from the past and could ask for a celestial sword from a top faction. But they were holding a celebration too.

Fate was just so amazing.

“I hope that you can cooperate and not let this celebration end up into a funeral.” Li Xiandao muttered.

Chapter 540: Pure Yang Celestial Sword!

Pure Yang Celestial Sect was really famous now. The old sect leader took charge of Pure Yang Celestial Sect for thirty thousand years so it was time for a change.

The heir was Bai Chunjiang.

This senior brother who had gotten famous in Heaven Sky long ago was finally allowed to take over after a few hundred years of tests.

Today was his joyous occasion. Li Xiandao thought about it and didn't rush out arrogantly.

He entered like a normal guest and handed gifts over before walking up step by step.

Pure Yang Celestial Sect's entire sect had smiles on their faces as they welcomed the guests.

Apart from those they invited, there were many who chose to come themselves to try to get close.

After Li Xiandao placed his gifts down, he crossed the crowd and came into the internal mountain range of the Pure Yang Celestial Sect.

He took in a deep breath and there was a slight Pure Yang feeling in the air.

Pure Yang Celestial Sect was a Taoist sect but was famous for its sword techniques. Their most famous one was the Pure Yang Sword Technique!

So Bai Chunjiang borrowed the Pure Yang Celestial Sword so as to perfect the Pure Yang Sword Technique.

Li Xiandao didn't find Bai Chunjiang right away but instead strolled around Pure Yang Celestial Sect. When people passed Li Xiandao, they couldn't notice him and just bothered about their own matters.

Li Xiandao just walked around casually.

"Senior Brother Chunjiang wasn't outstanding at the start. Who knew that he would rise up from behind and become the new heir?" A female disciple said.

"Right. In their generation, Senior Brother Chunjiang wasn't in the top ten." Another female disciple said.

"How did he come back?" The female disciple asked curiously.

"Pure Yang Sword Technique. Senior Brother Chunjiang didn't cultivate anything else and focus solely on the sword technique. He wasn't famous for a thousand years but after he killed an ocean monster, he became famous." The disciple worshipped him.

"That is so amazing. I love such stories of someone cultivating silently and then rising up." The disciple listening to the story said emotionally.

Li Xiandao passed by them and gave a slight smile.

If it was as expected, Bai Chunjiang rose up around the time where he got the Pure Yang Celestial Sword.

Pure Yang Celestial Sword greatly strengthened his comprehension of the Pure Yang Sword Technique which allowed him to catch back up. He improved and finally reached such a stage.

"But since your strength increased, why didn't you follow the contract?" Li Xiandao was filled with slight regret. He passed the female disciples and came to a room filled with sword energy.

"Who?" Li Xiandao stepped in and someone scolded coldly.

A guy in a black robe frowned.

The room was empty and there was no one at all. But he sensed sword energy fluctuations. Someone was here.

"Bai Chunjiang." After Li Xiandao stepped into the room, he showed himself and said.

"Who are you?" Bai Chunjiang looked at Li Xiandao with a solemn expression. He didn't call for anyone so it was obvious that Li Xiandao came for him.

"I am just someone familiar with you that you don't know." Li Xiandao smiled.

"If I don't know you then how can you be familiar with me?" Bai Chunjiang frowned.

"You don't know me but do you know this?" Li Xiandao took out the contract.

Bai Chunjiang's expression changed and his eyes landed on the contract. His throat became dry, "You... You are from Bank of the Universe?"

"Right, now I am someone familiar with you right?" Li Xiandao's lips curled up and he asked.

"Did I break the contract?" Bai Chunjiang said bitterly.

"You know?" Li Xiandao laughed coldly, "If you know it then you still broke the contract? The contract clearly wrote ten times the price which was 50 thousand kilograms of Pure Yang Spiritual Liquid and also the sword. Hand them to me and you can leave and continue the celebration. You can still become the new sect leader."

Bai Chunjiang looked at Li Xiandao and struggled. He wasn't weak and was at stage nine. Although he didn't reach the honorable one level, he was quite strong already.

The key was his sword technique. If he used the Pure Yang Sword Technique, he was like a god, like a demon. He was filled with limitless potential.

But all of this was like a joke to Li Xiandao.

Li Xiandao wanted to let Bai Chunjiang keep his face and didn't just charge up like he did at Dali Land.

But if Bai Chunjiang didn't listen, then Li Xiandao wouldn't show him any more respect.

Bai Chunjiang reached out and a sword slowly appeared in front of him.

Keng!

Sword energy exuded out from it. The Pure Yang energy surged towards Li Xiandao.

"The Pure Yang Celestial Sword is here, I will pass it to you." Bai Chunjiang's expression changed several times, but in the end, he tossed it over.

Li Xiandao grabbed it and was curious, "You are able to give it up so easily now so why didn't you do so a few years back?"

Bai Chunjiang smiled bitterly, "I was one of the three fighting to be sect leader. The sword was my trump card so I couldn't hand it over. Even if I broke the contract and paid the price, I didn't mind."

"Now that I am the sect leader, the Pure Yang Celestial Sword is strong but I don't want to offend the Bank of the Universe just because of it, so I am willing to pay the price." Bai Chunjiang said his thoughts.

Li Xiandao nodded and accepted it, "Also the 50 thousand kilograms of Pure Yang Spiritual Liquid. Hand it to me and I will leave, you can continue your ceremony."

"Can you give me one more day? After today, I will pay 55 thousand kilograms to Bank of the Universe." Bank of the Universe said solemnly.

"5 thousand more just for a day?" Li Xiandao didn't believe him.

"As long as today passes and I become the new sect leader, Pure Yang Celestial Sect's pure yang spiritual liquid is under my control. I decide how much to use. So I can give you 55 thousand kilograms tomorrow. But not today." Bai Chunjiang said sincerely.

Li Xiandao thought about it and agreed, "Okay, same time tomorrow, 55 thousand kilograms. I hope you can do what you said, if not you will know how terrifying the Bank of the Universe is."

After saying that, Li Xiandao's body turned pale and he disappeared.

Bai Chunjiang saw the entire process. He wanted to find traces of Li Xiandao but he couldn't.

"He is much stronger than me, fortunately, I wasn't rash." Bai Chunjiang heaved a sigh of relief. The moment he saw the contract in Li Xiandao's hands, he really wanted to kill him.

But in that instance, he sensed the gap between them. If he dared to pull out his sword, the one that died would be him.

Bai Chunjiang was terrified. He would have been dead, that was just so terrifying.

"Still okay, this person is rational. Problems that can be solved with spiritual liquids are not problems." Bai Chunjiang heaved a sigh of relief. He had no sense of guilt towards spending the spiritual liquid.

He paid so much to become the sect leader. Now that he took some spiritual liquid for himself, wasn't that just entitlement?

Chapter 541: Male Sword, Female Sword!

Li Xiandao backed away and gave Bai Chunjiang a day.

For him to get five thousand more Pure Yang Spiritual Liquid after a day, Li Xiandao felt like it was a huge win. He definitely could wait.

As for whether or not Bai Chunjiang would go back on his word?

Li Xiandao hoped that he wouldn't as that would only force him to attack. For a celebration to turn into a funeral was just too inauspicious.

Li Xiandao didn't appear at all. He just faded quietly, watching Bai Chunjiang inherit the position as Pure Yang Celestial Sect's Sect Leader.

Majestic!

He had reached the peak of his life!

At that moment, Bai Chunjiang finally achieved his dream state. He was respected by many and reached an unprecedented level of happiness. Such that he even started to feel arrogant.

But, when he saw Li Xiandao sitting at a corner of the feast and drinking wine, his mind became clear. He felt like he was struck by lightning, falling from high above in the clouds. Only then did he stop himself and stopped embarrassing himself.

Li Xiandao raised his glass from the side and smiled before downing it and disappearing.

No one else at the feast noticed Li Xiandao.

Such silent and ghostly methods terrified Bai Chunjiang, waking him from his drunken stupor. He started to think about how to take out 55 kilograms of pure yang spiritual liquid from the pond.

On this day, Bai Chunjiang was both happy and nervous.

On the second day, Li Xiandao arrived in his room on time.

Li Xiandao looked at Bai Chunjiang calmly and reached his hand out, "Where are the 55 kilograms?"

If he really didn't see the pure yang spiritual liquid today, Li Xiandao would go mad.

Fortunately, Bai Chunjiang knew that he had to take it out and said, "Last night after I inherited the position of Sect Leader, I went to store 55 kilograms of the pure yang spiritual liquid. The pond was full but now half of it is gone."

Li Xiandao opened the storage jade box and it was filled with pure yang spiritual liquid. It was really pure. Li Xiandao was satisfied, "Good, our relationship ends now. Forget about me, forget about the contract and focus on being your sect leader."

Bai Chunjiang exclaimed, "Okay, this heavy stone in my heart has finally been removed."

Li Xiandao turned around and left. This contract ended because of Bai Chunjiang's help. If not they would have fought.

Of course, Bai Chunjiang's cooperation had precedence which was that Li Xiandao had to be the one who came to collect the debt.

Or rather, the person had to have higher cultivation than him so he couldn't suppress them. Only then would he compromise.

If Tian Guangming came, Li Xiandao was certain that Bai Chunjiang would kill him with one sword and then destroy his corpse and act as nothing had happened before.

Which was why Seven said that only he was suited for collecting these contracts.

The contract had ended and Li Xiandao took back what he should get. He didn't stay and directly returned to Bank of the Universe.

Within the bank, Seven waited for him. She was like a wife waiting for a husband who was away at work.

When Li Xiandao passed his gains to Seven, Seven was shocked, "So smooth, I thought that you two were going to fight."

Li Xiandao shook his head and said, "No matter what he wouldn't fight me yesterday as he was at his most glorious moment. If he fought and that atmosphere was destroyed, he would regret it to his death."

Li Xiandao saw through Bai Chunjiang's thoughts.

"Do I let the ancestral dragon spirit meridian swallow it all?" Seven asked Li Xiandao.

"You are in charge of all of these, you decide." Li Xiandao said calmly.

"The pure yang spiritual liquid is a good thing. Pure Yang Celestial Sect can only get 100 kilograms a year. There are 55 thousand kilograms here. If the ancestral dragon spirit meridian absorbed them, it would make Bank of the Universe a spiritual energy pool only weaker than Celestial World." Seven looked forward to it.

"Then give it all to it. This was the reason why we nurtured it in the first place." Li Xiandao smiled.

"No problem." Seven immediately poured the pure yang spiritual liquid on the core area of the spirit meridian.

Hong long long!

In an instant, the ancestral dragon spirit meridian started to swell. Along with it, the spiritual energy in the Bank of the Universe increased in folds. It reached a level where it was not much different from the pure yang spiritual liquid.

Li Xiandao looked on with satisfaction.

Seven felt a little bit of regret, "It is still lacking a little, if not we could produce our own pure yang spiritual liquid."

Li Xiandao didn't mind, "Then, let's wait for a while more. Anyways we don't have to rush, we still have to deal with the other contracts."

"Wait, when you were dealing with the contract, there was a guest." Seven stopped Li Xiandao.

"A new guest, bring him to the Trading Hall." Li Xiandao stepped into the Trading Hall right away.

Seven went to guide the way and bring someone in.

This was a priest.

A middle aged priest.

A priest with some vengeful energy between his brows. He wasn't as calm as a priest should be and instead he gave off a reckless aura.

The key was that Li Xiandao smelled something on this person.

The smell of pure yang.

Li Xiandao just returned from Pure Yang Celestial Sect so he was really familiar with that scent.

Even if he had many questions in his heart, Li Xiandao still smiled, "Welcome to the Bank of the Universe. You can trade for anything here as long as you can pay the price. We have everything."

The middle aged priest looked at Li Xiandao before sitting down. After taking in a deep breath, he said firmly, "I would like to borrow the Pure Yang Celestial Sword."

Li Xiandao had a weird expression. He just took back one and now he had to lend it?

"Why do you need it for?" Li Xiandao asked.

"My junior brother and I are competing for the sect leader position. Our cultivation is the same but he relied on a sword to defeat me." The middle aged priest was really unwilling. He clenched his fists. He lacked just one Pure Yang Celestial Sword.

If he had one then, he would definitely have won.

Li Xiandao smiled and listened. This was the person who fought with Bai Chunjiang. He lost because of the celestial sword and now he came here to get one.

Keng!

Li Xiandao didn't say a word and took it out right away. He placed it on the table, "Take a look at this, how is it?"

The priest was shocked, "This... This looks exactly the same as the one my junior brother has."

Li Xiandao said calmly, "It is the same. Mine is the male sword, his is the female sword, crafted by the same blacksmith. Where the male sword is, the female won't appear. If you take this to find your junior brother, he definitely won't take out the female sword."

Seven listened to Li Xiandao's shamelessness and smiled. What male or female. Bai Chunjiang's Pure Yang Celestial Sword was here so how could he take another one out?

But the middle aged priest believed him. He said emotionally, "I want this, what price do I need to pay?"

"Pure Yang Spiritual Liquid, I only need that." Li Xiandao said calmly.

Chapter 542: Fate Is Just Magical!

The middle aged priest was Bai Chunjiang's senior brother Bai Chunyu.

Bai Chunyu was a genius since young. He had the same master as Bai Chunjiang and so their names were really similar.

But their experiences were totally different.

Bai Chunyu was the chosen heir since young and was seen as a genius by those of the same age.

Bai Chunjiang seemed really ordinary and his cultivation couldn't compare to that of Bai Chunyu. In terms of relationships with others, he was decent.

But in front of Bai Chunyu, he couldn't be compared.

Until that day when their master died because of illness and he left large amounts of treasures for the two of them.

Bai Chunyu didn't steal his junior brother's share. He didn't want to so he split the treasure into half. He worked hard and aimed to become the sect leader.

But Bai Chunjiang took the stuff that Master gave into the Bank of the Universe to exchange for a Pure Yang Celestial Sword. He then studied it, relying on the strength of the sword to cultivate the Pure Yang Sword Technique.

Just like that, Bai Chunjiang caught up. A few years ago when they fought for the position, the two of them reached the end.

That battle was really intense, causing the elders in Pure Yang Celestial Sect to praise them.

The outcome was naturally that Bai Chunjiang won. He relied on the Pure Yang Celestial Sword to win the crucial battle to become the heir.

Bai Chunyu became the new grand elder.

Pure Yang Celestial Sect's leadership would change each time a new Sect Leader took charge. The elders would change too, handing over to new people.

Bai Chunjiang was the sect leader and Bai Chunyu was the grand elder. The senior brother and junior controlled the Pure Yang Celestial Sect. That should have been a really joyous situation.

But Bai Chunyu was troubled.

He didn't lose to Bai Chunjiang but to the Pure Yang Celestial Sword.

The sword was too ferocious. His artifact was shattered and all his attacks weren't worth a hit under the attacks of the celestial sword.

Without the Pure Yang Celestial Sword, his position with Bai Chunjiang would be swapped.

So Bank of the Universe got the watch and came to Bank of the Universe.

Now Li Xiandao placed the sword on the table and looked at Bai Chunyu.

He had taken out the sword so what price would he pay?

Bai Chunyu gritted his teeth, "Can I borrow it with 5 thousand kilograms of pure yang spiritual liquid?"

"Yes, five thousand for a hundred years." Li Xiandao thought about it and gave a logical price.

The former Master allowed him to borrow it for 10 thousand years for five thousand, so a year was worth 500 grams.

When did Celestial Artifacts end up so cheap?

Li Xiandao's price was considered cheap too. He wanted to say ten years but that was too much so he changed his words.

"Okay, deal." Bai Chunyu said firmly. He reached out to touch the Pure Yang Celestial Sword. Deep down he got really emotional.

Although the position was set, and he couldn't change anything with the Pure Yang Celestial Sword.

But Bai Chunyu still wanted to prove that he didn't lose to Bai Chunjiang but to the sword.

Li Xiandao didn't bother about his fanatic look and pointed, "Seven prepare the contract and write the stuff about compensation."

Seven prepared it and passed it to Li Xiandao.

Li Xiandao took a look before pushing it to Bai Chunyu, "Sign it once you confirm that there are no mistakes."

Bai Chunyu looked at it carefully. There really wasn't anything wrong. He wrote down his own name.

"Hand over five thousand kilograms,
you can take the sword." Li Xiandao smiled and said.

Since they would just be placing the sword in the Bank of the Universe after taking it back, loaning it out and earning five thousand kilograms of pure yang spiritual liquid was a profitable deal.

Bai Chunyu added what he saved over ten thousand years along with what his Master gave him, a total of 5 thousand kilograms and passed it to Seven.

Throughout the entire process, he grabbed onto the sword and didn't let go.

Seeing that the deal was complete, Li Xiandao waved his hands and sent Bai Chunyu out of the Bank of the Universe.

"A celestial sword loaned to the junior brother. After it was collected, it was then loaned to the senior brother. This deal is great." Seven praised Li Xiandao.

Li Xiandao smiled, "Collect it back after 100 years and then loan it to their disciples."

"What a great plan." Seven was amused.

Li Xiandao looked at her happy smile and smiled too, "Are there any other contracts?"

"Yes, but I suggest you don't deal with the contracts as there is a guest." Seven's smile disappeared and she said seriously.

"So quick?" Li Xiandao was shocked. He had just sent a guest away.

"More guests so we earn more. This time it is a huge one." Seven said seriously.

"Huge guest?" Li Xiandao was curious, "How huge?"

"Didn't you aim at the deep abyss, at that world core from the last eon?" Seven asked.

Li Xiandao's eyes lit up, "The guest is from the deep abyss?"

"Right, he is one of the four kings." Seven nodded.

"Let him in, I will welcome him." Li Xiandao said right away. He adjusted his attire, not moving and just seating down in his seat.

...

Eighteenth level of the deep abyss.

A bunch of people were at the edge digging at something. From the darkness, one could see a broken world core.

"This is the world from the last eon and after it collapsed, only this small piece remained. But the world source inside is enough for us to turn into celestials, we don't have to go through that damn lightning tribulation." A male with a ghost-like body said.

"King Yasha, your words make sense but the problem is that we can't dig it out. Once we do, it would cause a commotion. All the experts will surge over and we can't stop them." A masked man said.

"I know what King Lanling is worrying about so I found a friend. He will help us when the time comes." A noble guy said.

"King Zhou, you didn't discuss with us and privately invited someone?" A three meter tall giant stared furiously at King Zhou.

"King Giant, don't tell me that you didn't invite others. We all know so there is no point." King Zhou said coldly.

"You..." King Giant stared at King Zhou furiously.

"Okay, since you called someone then I will also call someone else. But remember, if you touch the core without informing me, I will fight you to the death." King Lanling stared at King Zhou coldly.

King Zhou stared at him without backing down either.

"Let's go." King Lanling turned his head and left. The King Giant scoffed and followed behind.

King Zhou said coldly, "Let's go. How many did you invite?"

"They are all stage nine, their strength can't be underestimated." King Yasha said.

"That's good, this time the world core should be ours." King Zhou said confidently.

Chapter 543: Deal!

King Lanling and King Giant returned to their camp and were still furious.

“What a bully, this King Zhou is such a weird person. We said that this was cooperation and now that we found the core, he called others over. Isn’t he treating us like monkeys?” King Giant was furious.

King Lanling took off his mask and showed a face that all girls would be jealous about, “You should know that he is a wolf. He doesn’t even trust King Yasha so why would he work with us?”

“What now. They found people but we didn’t, we will be at a disadvantage.” King Giant frowned.

“We will also call for help.” King Lanling said firmly.

“Who should we call. I open my eyes and I am in this deep abyss. Apart from you, I have no other friends.” The King Giant was crestfallen.

“Because of your face, numerous people look at you with weird gazes so you have no friends too.” King Giant was helpless.

The two of them really didn’t have friends, close to no friends at all. This was why King Giant was furious.

King Zhou was just bullying them.

King Lanling smiled and raised his hands, “Do you see what this is?”

A red watch appeared in King Lanling’s palm.

Tick, tick, tick...

The watch gave out a metallic clashing sound, making the giant open his eyes wide. He looked at it curiously and said, “What is this?”

“This is our opportunity.” King Lanling smiled confidently, “With this, our problem is not a problem anymore.”

“What are you saying?” The King Giant didn’t understand.

Only King Lanling alone could hear the voice inside. King Giant couldn’t hear anything.

King Lanling didn’t explain anything and just held the watch firmly.

“You don’t have to care about anything else. Just guard the area, I will be back soon.” King Lanling instructed him.

“Okay.” Although King Giant didn’t know what King Lanling was doing, he still agreed.

Kacha!

King Lanling shattered the watch and his body slowly disappeared.

King Giant looked on in shock and opened his mouth. He didn't know what to say and could just look around silently.

...

Within the Bank of the Universe, Li Xiandao saw the guest that came from the deep abyss.

A very handsome guy wearing armor strolled in.

"Welcome guest to the Bank of the Universe. You can trade all things in the world. The prerequisite is that you can pay the price." Li Xiandao smiled.

King Lanling sat opposite Li Xiandao and looked around. He realized that he couldn't see through Li Xiandao. That made him frown and his attitude became serious, "I hope that I can get help."

"What kind of help?" Li Xiandao asked calmly, "Also, before saying anything, introduce yourself."

King Lanling said, "I am King Lanling from the eighteen levels of the abyss."

"One of the four kings, King Lanling?" Li Xiandao's brow flicked up.

"Right, we have been digging for a treasure." King Lanling nodded.

"The world core from the last eon." Li Xiandao directly said it out.

King Lanling looked at Li Xiandao in shock, "How did you know that?"

Li Xiandao smiled mysteriously and said, "There is nothing that the Bank of the Universe doesn't know about."

King Lanling was suspicious, "Since you know that then there is nothing for me to hide. We dug out the core but we don't dare to take it out. Once we do, it would cause the world to shake. All the experts in Heaven Sky will find out and if they surge in, we won't be able to block them."

Li Xiandao nodded. He knew about that too and told King Lanling to continue.

"We were planning to continue waiting but King Zhou suddenly invited some experts over."

He wants to dig the core out and not wait anymore.” King Lanling’s expression turned ugly.

“You can invite experts too.” Li Xiandao said.

“I don’t have many friends. For these years, only King Giant is helping me in the abyss. I don’t have a single other friend.” King Lanling said coldly.

Li Xiandao understood, “So you come to the Bank of the Universe for me to help you?”

King Lanling nodded and said firmly, “I need the world core to become a Celestial in the human world and then ascend to the Celestial World.”

Li Xiandao tapped the table, “I can help you but what can you give me in return?”

King Lanling was prepared, “I can give you the treasures I got in the deep abyss. If they are turned into spirit meridians, they would be worth at least a billion.”

Li Xiandao was tempted but when he thought about it, he shook his head, “If your treasures are for me to kill a few peak Destiny realm people, that is okay. But the problem is that once the world core is dug out, the commotion would draw everyone from Heaven Sky over. If you want me to help you, then this can’t work.”

King Lanling frowned. He thought about it and realized that Li Xiandao’s words made sense.

As he didn’t know how many people would come, the price he had to pay wasn’t accurate either.

King Lanling was troubled.

Li Xiandao thought about it, “How about this. One enemy is worth 200 million spirit meridians. How many I help you block, you shall pay me the amount.”

King Lanling’s eyes lit up. That was a good solution but he thought about it and said bitterly, “But what if it exceeds what I can pay?”

King Lanling lived in the abyss for a long time. That place was far away and the spiritual energy was thin and there were far few treasures.

He accumulated for a few thousand years and only had around a billion worth.

A billion could only deal with five enemies. If he added in King Giant’s items, that was ten.

King Lanling was certain that more than ten would come.

This was the problem that troubled King Lanling. He couldn't afford Li Xiandao.

Li Xiandao said calmly, "No worries, if you can't pay me then pay by your body!"

King Lanling frowned and stood up right away. He chided, "I won't sell my own body."

Li Xiandao's expression turned weird, "I meant be my subordinate, you misunderstood."

King Lanling's expression recovered and he sat down, "That is your fault, your words were easy to misunderstand."

Li Xiandao apologized, "Okay it was my fault."

"If you can't pay then be my subordinate for hundred years. After that, you will get your freedom and we are done." Li Xiandao explained.

King Lanling thought about it. If controlled well and the Bank of the Universe dealt with the ten strongest ones, he and the King Giant could deal with the rest and he wouldn't lose hundred years of freedom.

"Okay." King Lanling looked at Li Xiandao firmly and agreed.

Chapter 544: Arrogant King Zhou!

King Lanling agreed and Seven passed the contract to Li Xiandao.

Li Xiandao opened the contract and took a look before pushing it to King Lanling, "Sign it. Once you sign it, the contract will come into effect immediately."

King Lanling took a close look and confirmed that it was the same that Li Xiandao said. After there were no mistakes, he calmed down and signed it.

He wrote his own name and felt more relaxed. Now King Zhou's plan wouldn't be able to succeed.

Li Xiandao smiled and passed the closed contract to Seven, "Now that we have come to an agreement, when you need me, just call me."

King Lanling nodded, "How should I leave?"

Li Xiandao waved his hands and King Lanling's body turned into smoke, disappearing from in front of him.

|

...

Deep abyss.

King Giant was silently defending King Lanling's land.

Suddenly, King Lanling appeared from where he had just disappeared. He was totally stunned.

"What happened, did anything happen, did you face any danger?" King Giant asked in a caring manner.

King Lanling smiled happily, "I didn't face any danger and instead obtained a good opportunity. King Zhou's attempt has failed."

King Giant was delighted, "That's good. Did you find people to help?"

King Lanling smiled and nodded, "Just wait and see. Be it King Zhou or others, they won't be a problem at all."

The Bank of the Universe's strength and mystery gave King Lanling huge confidence. He believed that the moment Li Xiandao came, there would be no problems.

"Is that so? Who knows who King Lanling invited this time that gives you such confidence?" A cold scoff of disdain spread from above.

King Lanling's expression changed. He quickly wore the fierce ghost mask and said coldly, "You just left not long ago so why did you come?"

King Giant looked at King Zhou and King Yasha coldly.

King Zhou said proudly, "I came personally to inform you that three days later, we will dig out the world core."

"You are informing and not discussing." King Giant shouted coldly. We aren't your subordinates so what gave him the right to inform them?

King Lanling had a cold gaze, "King Zhou seems proud, do you think that you have us under control?"

"I don't dare but it doesn't matter if you agree or not. The world core has to be dug out and you can't stop me." King Zhou said coldly. His attitude has always been arrogant and he didn't care about what they thought. He did whatever he wanted.

King Yasha just stood at the side and gave King Lanling and King Giant a mocking expression.

“It seems like the people King Zhou has invited are giving you two much confidence and making you arrogant.” King Lanling mocked.

“It is like how King Lanling is so confident. Although I don’t know who you invited, it shouldn’t be a problem. I think he might be strong and I really want to see who he is.” King Zhou mocked too. He didn’t believe what King Lanling said.

No matter who it was, it was impossible for him to settle everything.

King Lanling wasn’t someone that could easily be tricked.

“Okay, let’s just see whether my guy or yours is stronger.” King Lanling said coldly, “I agree to dig out the world core in three days.”

“We agree so you can scram now.” King Giant waved his hand unhappily. An aggressive aura surged towards them.

King Zhou and King Yasha didn’t want to fight either. Seeing that King Lanling agreed, they left quickly.

King Lanling watched as they left. He reached out to stop King Giant and said, “Forget it, they are gone.”

“Why did you agree to dig it out three days later? Can we really do it three days later?” King Giant didn’t understand.

“Even if we don’t agree, they would still dig it out three days later. This person is forcing us. The people they invited would definitely come over three days later.” King Lanling shook his head.

Seeing that King Giant was still worried, King Lanling took off the fierce mask and smiled, “Don’t worry, our guy will reach three days later.”

King Giant was still worried, “Can we win?”

King Lanling recalled the conditions on the contract and said confidently, “Of course. If he can’t win then we will have to give up on the world core.”

King Lanling placed this treasure all on Li Xiandao’s shoulders.

King Giant could only support King Lanling. He said viciously, “In three days, I will kill King Zhou.”

King Lanling's expression was cold, "We will kill the two of them together. They keep going against us, they deserve to die."

...

Three days of time passed in an instant.

During these three days, the people in the deep abyss started to get busy. Without an exception, the various Destiny Realm experts lined up.

King Zhou and King Yasha walked aggressively to show off their strength. During this time, the experts they invited rushed over. Without an exception they were all stage nine, some even reached the Honorable One level.

These people caused King Zhou's side's aura to rise, drawing many to join their side.

As for King Lanling and King Giant, they didn't do anything. They looked like they didn't care about what they did, they didn't do anything.

But this affected some people's judgment and they felt like King Lanling and King Giant weren't their match.

So after those three days, no one joined King Lanling and King Giant's side.

King Zhou and King Yasha's side were filled with people.

The difference in strength was a little huge.

In front of the world core, King Zhou walked out in delight.

Behind them stood dozens of people all at Destiny Realm. The worse thing was that fifteen of them were at Honorable One Realm.

Those people entered stage nine a long time ago, working hard to become an Honorable One. But they were still a distance from ascending.

"King Lanling, where are your helpers?" King Zhou looked around and asked with 'concern'.

King Lanling looked at King Zhou coldly.

"Did you not invite anyone?" King Zhou was shocked.

"Did our famous King Lanling not have friends?" King Zhou smiled in disdain. He looked at King Lanling and behaved arrogantly.

“My friend is coming right away.” King Lanling said calmly.

“Is that so?” King Zhou shook his head in disdain, “Unfortunately, he is too late. From this moment on, you aren’t a part of this.”

King Giant raged, “King Zhou, you want to claim this?”

“For people with strength, this would be called taking. People with no strength will say that I am claiming it. It is obvious that I have much more strength than you.” King Zhou opened his arms and said in delight.

Behind him were dozens of Honorable Ones who looked on aggressively. Just one look and they just seemed like people that we shouldn’t provoke.

“Is that so?” But in the next second, a curious voice rang out from behind King Lanling.

Li Xiandao appeared out of nowhere. He looked at King Zhou and smiled coldly.

Chapter 545: Killing King Zhou!

Li Xiandao was here.

King Lanling called for him in his heart and Li Xiandao teleported from the Bank of the Universe.

His appearance made King Lanling heave a sigh of relief. After all, King Zhou’s side had dozens of Honorable Ones. Just looking at it, one felt like they were under huge pressure.

Li Xiandao’s appearance caused everyone to look at him.

One couldn’t see through him!

King Zhou stared at Li Xiandao and realized that he actually couldn’t see through Li Xiandao.

But he didn’t care. In Heaven Sky, the strongest person was at stage nine. As for unorthodox celestials, that was not really possible.

Stage Nine Destiny Realm experts weren’t anything that he feared.

Did you not see the 17 Stage Nine experts on his side?

"Is this your helper?" King Zhou looked at Li Xiandao with a cold gaze. He said without caring much.

"King Lanling, are you a fool, or am I blind? You called for one helper?" King Yasha laughed out loud and mocked.

"One helper is enough." King Lanling was confident in Li Xiandao. After all, he came from such a mysterious place like the Bank of the Universe.

"Enough?" King Zhou laughed coldly, "You are disrespecting the experts behind me."

"Not only them, but I am also disrespecting you too." Li Xiandao said calmly.

King Zhou's expression sunk. He looked at Li Xiandao with killing intent and hollered, "Who will help me kill this arrogant person. Let King Lanling see whether this is enough or not."

"I will do it!" A sword energy shot out from the darkness. It was really quick, after which a shadow appeared. Two heavy attacks struck forth.

King Giant couldn't help but remind, "Be careful, this is an elder from Heaven Sky's assassination organization. His assassination methods are really strong."

Even King Lanling couldn't help but stare at Li Xiandao.

He wanted to see how strong Li Xiandao was.

Li Xiandao stood alone there. His eyes were bright like two lamps that could shine onto one's soul. All sorts of things in the darkness were fully apparent to him and they couldn't hide at all.

Li Xiandao saw the sword energy and also saw the person behind it.

The sword energy was just a disguise, this person was the killing move.

This was an old assassin. His face had no fluctuations and right when he attacked, all he thought about was to find that fatal point.

Li Xiandao raised his hand and tapped the sky, "The sword isn't used like this."

"Being so sneaky when killing, how can you show off how overbearing the sword is?" Li Xiandao sighed and shook his head. He couldn't help but give him a streak of sword energy.

Keng!

This was the first time Li Xiandao attacked since he reached the peak after absorbing the demon god pillar.

The sword energy instantly expanded, giving off a white patch that covered one's field of sight. Under that sword, no one could escape.

The expression of that old assassin changed. He retreated and he gave up on killing Li Xiandao.

But Li Xiandao didn't give him that chance. After his sword energy slash, he used his fingers as a sword to target an area 20 thousand miles away.

Kacha!

This strike hit the assassin's forehead. Sword energy exploded and sliced up this old assassin.

Hong!

Only a white patch of sword energy landed. The ground was totally clean and no corpse remained. The only thing left was sword energy which spread all around.

All this happened too quickly.

King Lanling was shocked. Even if he believed that Li Xiandao was strong and could solve their problems.

But Li Xiandao did it so easily and killed a stage nine expert. That shocked him a lot.

"This old assassin is an elder of the assassin organization and he reached Honorable One long ago." King Giant muttered as he looked at King Lanling.

"Where did you find such a strong person?" King Giant didn't understand.

King Lanling couldn't answer.

King Zhou was shocked. He saw Li Xiandao kill the old assassin so easily. His face turned really dark and sunken.

"You are an unorthodox celestial?" King Zhou asked coldly.

Li Xiandao shook his head, "No I am not, like you, I am just stage nine."

King Zhou didn't believe Li Xiandao's nonsense. How could a stage nine expert kill someone of the same realm instantly.

Although that old assassin wasn't terrifying, he wasn't weak. He was tough to notice too and often caught one out by surprise.

But even then, he couldn't survive in front of Li Xiandao for even a moment.

He was killed with one strike.

Was this the level of strength someone at stage nine could have?

"Who are you?" King Yasha asked solemnly.

Not only them, but even the experts who came to help them all looked at Li Xiandao warily.

Li Xiandao killed the assassin so quickly that some of them couldn't react.

Now that they faced Li Xiandao, no one dared to behave arrogantly.

"It doesn't matter who I am. More importantly, is that you have no part to play in this world core." Li Xiandao said coldly.

King Zhou was furious, "You really think that you can fight one against ten?"

"That should be no problem." Li Xiandao looked at him in disdain.

"Okay bring it on, we will all attack and kill this arrogant person. Then we will kill King Lanling and King Giant. After which we will dig out the world core." King Zhou shouted. He wasn't dumb and didn't choose to fight Li Xiandao alone. Instead, he spurred on the stage nine experts behind him.

Li Xiandao scoffed, "I was in a good mood so I spoke more to you. Do you really think that I can't do anything to you? Are you worthy of being arrogant in front of me?"

Peng!

The moment he said this, Li Xiandao stepped forth and his aura climbed. A sharp sword energy slashed at King Zhou's head.

At that moment, Li Xiandao's eyes gave off a bright saint light. The sharp sword energy swept everything, using its own dao to instantly kill King Zhou.

Li Xiandao was really decisive and attacked so suddenly, not giving King Zhou any time at all.

Didn't you like to bully people?

Now that I am bullying you, what can you do?

Li Xiandao looked on coldly. His killing intent exploded, he didn't care about anything, ignoring the experts around. He just wanted to kill King Zhou.

"Xuántiān Zhōu Book!" King Zhou shouted in rage and used his technique. He tried to make himself invincible and unforgettable as a book appeared above his head.

But in the next second, with a crack, Li Xiandao's sword energy directly slashed that book.

"Die!" Li Xiandao's cold voice reverberated in the area. The sword energy gave off an eye-catching light and a cold sharp glow, directly slicing King Zhou's head off.

Head on kill!

He really killed him just like that!

* No matter how much you say or how many people you have, I don't fear anything.*

* If I want to kill you, I will. I won't let you live for a second more.*

Chapter 546: Digging Out World Core!

In front of all the experts, Li Xiandao killed King Zhou.

When his head landed and the sword energy dissipated, everyone looked at Li Xiandao in shock.

King Zhou!

That was King Zhou!

One of the four kings in the deep abyss. He was so close to ascending.

But now he was killed.

In front of everyone, Li Xiandao just stuck his tongue out and spat out a streak of sword energy. King Zhou couldn't escape and could only try to block.

But his attempt wasn't worth anything and he was instantly shattered.

So King Zhou was dead.

He died just like that, it was totally one-sided. One sucked in a cold breath. People who King Zhou nearly persuaded to attack were all tongue-tied and terrified.

They looked at Li Xiandao like they were looking at a terrifying beast.

A beast that ate humans.

Li Xiandao didn't care about them and looked at King Lanling. He raised two fingers, "I killed two."

King Lanling recalled their agreement but he obviously didn't care now. He was still shocked, "You killed King Zhou just like that?"

King Giant was also filled with disbelief. He had fought King Zhou for thousands of years and they had hundreds of battles. They knew each other's strength.

But now, King Zhou who they had fought for thousands of years couldn't even take a single move from Li Xiandao. This shocked both King Lanling and King Giant.

"Right, he is just too weak." Li Xiandao said honestly.

King Lanling was silent. King Zhou was weak? Only those unorthodox celestials in hiding were worthy of this person.

Li Xiandao looked at King Yasha and the others and said, "Now that King Zhou is dead, will you continue to sacrifice yourselves or all of you will leave?"

King Yasha was uncertain. King Zhou's death provoked him, naturally, he didn't dare to fight Li Xiandao.

But leave just like that?

He was unwilling. They were the ones who dug the world core out together.

"When we dug the world core, we put in the effort. Now that you are chasing us away, isn't that immoral?" King Yasha asked.

"When King Zhou was alive, didn't you want to chase King Lanling and King Giant away?" Li Xiandao smiled coldly, "Now that you are talking about morals, you really are making me laugh. If you don't want to go then become a dead soul under my sword. I don't mind killing a few more. If you think you are stronger than King Zhou then try."

The moment he said this, the situation changed. Some people turned around and left without saying a word.

What world core? One's life was more important...

As for defeating Li Xiandao?

Didn't you see how King Zhou was killed instantly? If they worked together, what were their chances of winning?

So at that moment, many of them left. All those invited were all gone.

Only King Yasha and some native Destiny Realm experts remained.

"You aren't leaving?" Li Xiandao looked on coldly. Sword energy appeared in his hands and gave out a metallic sound.

"Goodbye!" King Yasha didn't say a word and just left.

The others all fled. They were terrified by Li Xiandao.

Li Xiandao looked on as they left. He dissipated the sword energy in his hands and smiled, "This seems easy."

King Lanling gulped and said, "It is easy."

With Li Xiandao's cultivation, he just stood there and all problems were solved.

King Giant smiled, "Senior, what is your surname?"

Li Xiandao looked at him and smiled, "Li, you can call me Boss Li."

"Boss Li?" King Giant was shocked, he didn't understand why he wanted to be called that.

King Lanling knew. Li Xiandao was the Master of Bank of the Universe, so naturally one could call him boss.

"Okay, now that King Zhou is solved, we want to dig out the world core." King Lanling said solemnly.

King Giant was worried, "If we dig it out, we will cause a commotion."

"No need to be afraid, we have Boss Li." King Lanling said firmly. He had faith in Li Xiandao's strength now.

Li Xiandao stood with his arms behind his back and smiled calmly, "Dig it out, I also want to see what the shattered world core from the last eon looks like."

King Giant didn't have anything to say now. Since Li Xiandao said that, if there was a problem, Li Xiandao would be the one at the front.

So King Lanling and King Giant went to the edge of the abyss. There was a black hole there and inside it was the world core.

Li Xiandao could sense the enormous strength of the world core from so far away.

King Lanling and King Giant entered it. they used all their strength and finally moved the world core.

Dong dong dong!

Each step caused the ground to shake. The moment they pulled it out, the dao all around became frantic.

The world core from the last eon had limitless potential. Although only a bit remained, but in essence, it was the same as the core of this world.

So the world dao went mad at that moment.

Like an elephant falling into a calm lake, it caused water to splash and the entire lake to ripple.

Everyone in Heaven Sky Destiny Realm and above opened their eyes and looked on in shock.

A dried-up old man opened his eyes at the cold land, he said in shock, "What happened?"

Why did the world dao become so frantic? What good thing is happening?"

He looked into the distance and saw a bright light. From far away, he saw the deep abyss.

"Is it at the deep abyss?" The dry old man stood up, smacking the dust off him and muttering, "I haven't been there in a long time. Time to go take a look."

In the north ice land, on an icy throne, a beautiful woman stood up. She looked at the deep abyss and said coldly, "Can this treasure help me block the tribulation?"

In the next second, large amounts of ice collapsed. The throne fell to the bottom of the ice mountain. The beautiful woman stepped out and disappeared.

In an ancient tomb, one of the tombs moved. The coffin was flipped open and the corpse climbed out. It was an old man with long sideburns. He looked towards the abyss and muttered, "I might end up being struck by lightning this time but if I don't go, this good luck might have nothing to do with me. What a waste."

The old man was in a tough spot.

He thought about it and still got up to head towards the deep abyss.

Not only the few of them, but all the experts in Heaven Sky also rushed towards the deep abyss.

Within it, in front of the world core, Li Xiandao was delighted. “Am I finally going to see the top experts in Heaven Sky?”

Chapter 547: Ice Queen!

After the world core was dug out, Li Xiandao paid attention to the dao fluctuations.

As expected, the dao was like boiling water, going totally mad.

When the new world welcomed the world core of the old world, although it was just a small amount, it still became really emotional.

Who knew whether that emotion was that of relatives meeting or enemies meeting?

Anyway, at that moment, the world was gathered in the deep abyss, in front of the world core.

In a holy land, a white-haired old man teleported through space. He ripped the space open and came to the deep abyss.

This old man suddenly appeared in front of Li Xiandao. He looked really old and he seemed like he had been buried until the soil was right up to his neck. However, his eyes were like a mirror that shone brightly.

After entering the deep abyss, what he looked at first wasn't Li Xiandao but the world core.

That world core which was like a small world was just revealed outside like a naked girl, attracting attention.

That color was really fiery and hot.

“Give it to me!” The old man had a cold gaze. He reached out and said firmly.

He didn't hide his desire at all. He saw the hope of becoming a Celestial from this world core.

As for Li Xiandao, King Lanling, King Giant, he didn't care about them at all.

"Great Demon Holy Land's stage one unorthodox cultivator Yang Cheng, how arrogant." King Lanling said coldly. He stood behind Li Xiandao and had nothing much to worry about. He directly said out his name.

Great Demon Holy Land, one of the top demon sects. This Holy Land developed many top demon path experts.

Yang Cheng was an unorthodox celestial. In terms of cultivation and combat strength, he exceeded those at stage nine of Destiny Realm which was why he was so arrogant.

"Looking at the mask that you are wearing, you should be King Lanling. I heard that you are born handsome and even more beautiful than girls. Someone nearly raped you in your manor so after that you wore a mask, not letting people see your real face." Yang Cheng knew King Lanling like that back of his fingertips. A look of disdain appeared on his face.

"Do you think that because you are at stage nine Destiny Realm that you can behave arrogantly in front of me?" Yang Cheng laughed coldly.

"I don't dare. You know me like the back of your fingertips while I know nothing about you. The one that wanted to lock me up then was one of the elders from your sect. Unfortunately, I cut him up into many pieces." King Lanling said coldly.

"I know, of course, I do. I wasn't planning to take revenge for him. People who die because of their desires deserve to die. But now, I have decided that I should take revenge for him. I shall capture you and see how handsome you are to make guys interested." Yang Cheng smiled coldly. His gaze sized up King Lanling's face and he had nefarious intentions.

"Old piece of glass, even if you want to kill me, it would depend on Boss Li." King Lanling gritted his teeth in rage.

"Boss Li?" yang Cheng looked towards Li Xiandao who was standing at the side. He said in disdain, "you want to stand out and help King Lanling?"

Li Xiandao smiled, "Don't misunderstand. I just want to kill you or get killed by you, I don't want to stand out."

Yang Cheng smiled, "Great, since you have such a wish then I will make it come true."

Li Xiandao's eyes lit up, "Bring it on."

Peng!

Yang heng attacked. His old body didn't affect his fist techniques at all. They were extremely powerful and his punch was so quick that the naked eye couldn't pick it up.

Hong!

But Li Xiandao was even faster. He flew up and kicked. His leg landed on Yang Cheng's stomach. An enormous power exploded, causing his eyes to open wide. His body arched and he flew backward.

"You are too slow." Li Xiandao said calmly.

"How did that happen? I am already an unorthodox celestial." Yang Cheng looked at Li Xiandao in shock.

Li Xiandao was just stage nine, so how did he have such terrifying explosiveness?

That wasn't logical at all.

"Die." Yang Cheng was about to go mad. His white hair danced and the energy around him went insane. Like lightning, they shot forwards.

Demon Path Long Spear!

Yang Cheng turned into a spear. He was wrapped in demonic energy which made him seem really scary. He was going all out and he used the supreme demon path spear technique.

But Li Xiandao only kicked.

Peng!

Li Xiandao's kick brought with it the power of an entire world. It smashed onto the spear.

Yang Cheng flew backward, spitting out large mouthfuls of blood halfway. His body shook. Li Xiandao's terrifying strength made Yang Cheng feel despair.

Pretty much right when they came into contact, his organs were hit. The attack wasn't even on the same level. His spear exploded and the rumbling energy made him spit out mouthfuls of blood.

Hong long long!

The ground caved in by hundreds of miles. This strike made Yang Cheng give up and he looked at Li Xiandao in terror.

“What kind of realm are you at? This is definitely not strength that someone at stage nine can have. What kind of demon are you?” Yang Cheng was terrified, Li Xiandao was just too scary for him.

As a stage one unorthodox celestial, he was like a baby to Li Xiandao. He was smacked so badly that he couldn't fight back at all.

Li Xiandao looked at him and he didn't care.

Before he reached stage nine he could kill stage one unorthodox celestials. Now that he broke through, wouldn't it be too easy?

“It seems like you can't kill me, so I shall kill you.” Li Xiandao said with a cold gaze. He formed a long sword and casually tossed it.

Keng!

The sword pierced through Yang Cheng's body and pinned him to the ground.

It was really clean and direct. He said he would kill him so he did.

Li Xiandao who killed the stage one unorthodox celestial looked into the distance.

A lady with a cold aura walked out. She was like an ice statue. From far away she made Li Xiandao feel huge pressure.

Her appearance caused King Lanling and King Giant's expression to change.

“It is Ice Queen, the queen of the snow region, a true queen.” King Lanling's voice trembled as he reminded Li Xiandao.

“Give this world core to me.” She said coldly and reached out.

Li Xiandao looked at her. His expression turned solemn. This was a strong opponent.

But before he said anything, a dry old man ripped open space and appeared. His mouth was filled with yellow teeth, “Long time no see Ice Queen, you still look so pretty.”

On the other side, the old man that opened his own coffin silently appeared opposite Li Xiandao, “I need this world core too, can you give it to me?”

Chapter 548: Attack Together!

Three experts appeared right away and all of them had extraordinary strength.

Moreover, many more people were rushing over. One had to say that the temptation from the world core was huge.

Li Xiandao looked towards the old man who climbed out of the coffin, "Before you demand things, can you introduce yourself?"

The old man nodded, "I am an unorthodox celestial from 30 thousand years ago called Gu Cheng, I am currently at stage seven."

Seven times!

This made Li Xiandao's eyes light up. This person was actually so strong. A stage seven unorthodox celestial wasn't a joke. Each tribulation was like life and death, if one passed it, that was it. If one failed then their bodies would die and their souls would be wiped out.

"Gu Cheng, a top cultivator that tried to ascend ten thousand years ago. Everyone said that you failed and lightning killed you." King Lanling was shocked.

It was obvious that Gu Cheng was quite famous in Heaven Sky.

After all, people who tried to ascend within these 30,000 years had to have much confidence.

As the Celestial Gate closed, the lightning tribulation got stronger. Many people had reached the peak but they didn't dare to ascend.

Those who did had great courage and determination.

Gu Cheng was one of them. even if he failed, after becoming an unorthodox celestial, he passed seven stages in ten thousand years.

He was just two times away from stage nine. if he passed it all, the potential and strength he had after ascending would be greatly increased.

So he came.

"Let's not talk about the past, the tribulation has hurt me a lot and I need this world core to ascend. Give it to me." Gu Cheng was really pitiful.

"Shameless, stop acting pitiful here. You buried yourself in the ground so why come out?" Another thin and dry old man said coldly.

Li Xiandao looked at him and asked, "Who are you then?"

"King of the north, Shi Potian." The thin old man raised his chest and said firmly.

“What king, you are just a bunch of thieves and you are the boss of them.” Gu Cheng was annoyed, exposing Shi Potian’s identity.

“This is the chief bandit that roamed the northern lands 20,000 years ago. The factions had to pay up and obtain their tokens if not they would definitely be robbed.” King Lanling muttered behind Li Xiandao.

Li Xiandao nodded and remembered those words in his heart.

“Gu Cheng, do you want to fight?” Shi Potian said coldly.

“You won’t be able to scare me. A bandit is just a bandit, wanting to kill just because they disagree.” Gu Cheng mocked.

“You...” Shi Potian rolled up his sleeves.

“If you want to fight then scram to the side, the world core has to be mine.” The Ice Queen stared at them coldly before reaching out towards Li Xiandao.

“Give the world core to me if not I will turn the deep abyss into an ice mausoleum.” Ice Queen said coldly.

She didn’t want to wait anymore and just asked Li Xiandao for it.

Li Xiandao looked at the three of them. Ice Queen and Shi Potian were probably at stage seven too.

Thinking about that, Li Xiandao turned around and kept the world core. he placed it in the Bank of the Universe and grinned, “Sure, if you want it, you have to defeat me.”

Ice Queen had a cold gaze. Her eyes had no temperature at all. There was a cold aura around, the temperature descended quickly and the sky started to snow.

“You are asking to die.” Ice Queen said coldly.

Li Xiandao shook his head and said seriously, “The few of you are the strongest in Heaven Sky now. Along with the world core closing, people here couldn’t ascend for 30,000 years. The few of you who became unorthodox celestial are the strongest, stage seven.”

It was easy for one to ascend 30,000 years ago so at that time no one would be an unorthodox cultivator as it was too dangerous.

If something could be solved by going through one tribulation, why drag it nine times?

So the unorthodox celestials all chose to cultivate that way during these 30,000 years.

Among which, the three of them improved the most.

Stage seven.

“A stage nine Destiny Realm actually dare to ask us to defeat you?” Ice Queen mocked and was laughing at Li Xiandao for being ignorant.

Stage seven unorthodox celestial, that wasn't the same level as someone at stage one.

“You are wrong.” Li Xiandao took a few steps in front and smiled, “I didn't tell you to come to defeat me.”

Ice Queen frowned and looked at Li Xiandao.

“I want the three of you to defeat me together!” Li Xiandao gave off a maniacal look on his face.

He was fighting one against three!

Ice Queen, Shi Potian, Gu Cheng's expressions all changed.

He was looking down on them?

Not only them, but even King Lanling and King Giant also opened their eyes wide and looked at Li Xiandao in disbelief.

Stage nine Destiny Realm fighting three stage seven unorthodox celestials.

That was just too terrifying.

“Boss Li...” King Lanling wanted to tell him to forget it. But when he looked at Li Xiandao's straight spine that seemed as heavy as that of a mountain, he swallowed any word that he wanted to say.

Li Xiandao ignored the shock on the faces of King Lanling and King Giant, slowly walking forwards, “Since I started cultivating I have never had an opponent. No one has forced me into a tough spot. The last person that made me go all out was a stage one unorthodox celestial but I killed him.”

Ice Queen stared at Li Xiandao with a sharp gaze. She was furious. Since she took control of the ice plains she had been supreme, it had been a long time since she had gotten so angry.

“If you want to die, I can make it come true. The strength of a stage seven unorthodox celestial is already that of a celestial. You will find out how preposterous your thoughts

are.” Ice Queen said coldly. She didn’t want to join hands with others. She was enough to kill Li Xiandao.

“You alone aren’t my match.” Li Xiandao said honestly.

“How bold, I will let you see what is called invincible.” Ice Queen scoffed coldly.

“Kneel!”

The power of heaven and earth pressed down, instantly snow spread, ice sealed up the land a thousand miles around.

The moment Ice Queen attacked, it changed the landscape, turning the deep abyss into an ice land. She was the supreme queen, looking at Li Xiandao coldly and stabbing him with thousands of streaks of ice.

Those scenes were really shocking. Ice Queen wanted Li Xiandao to understand how strong a stage seven unorthodox celestial was.

Li Xiandao took out the Purple Crystal Sword. This celestial artifact crafted by the Weapon Crafting Mountain Range was going to show off its strength for the first time.

One sword to open up mountains and rivers.

Li Xiandao held the purple crystal sword, using everything he comprehended. At that moment, he didn’t hesitate to activate the Nine Skies and Ten Lands.

Hong long long!

Li Xiandao’s aura exceeded that of stage nine Destiny Realm, reaching a terrifying level.

His confidence, the Nine Skies and Ten Lands, and 19 worlds, allowed Li Xiandao to battle against stage seven unorthodox celestials.

The sword intent, dao, world laws that he comprehended were all merged into his sword.

This sword was the first move of Li Xiandao’s invincible sword technique.

Bank of the Universe - Chapter 549 - Spitting Blood!

Chapter 549: Spitting Blood!

The deep abyss turned into an icy world. Li Xiandao used one sword to split the sky open. The purple crystal sword gave out an intense glow which seemed really noble but

also very simple and natural. This sword gave out a ten thousand feet light and all sorts of daos shot forth.

Li Xiandao had comprehended too many daos and all of them accumulated in his body. Now that they exploded out, they were just too dazzling.

Keng!

The sound of the sword ringing reverberated in this icy world. After exploding, it was really terrifying and shattered a bunch of the ice spikes.

Ice Queen stared seriously at Li Xiandao's sword. She said, "Interesting, this sword seems to reach our realm but your dao is too scattered. In front of me, it can't handle a strike at all."

The moment Ice Queen said that, her thin snow-white fingers were like that of a butterfly, appearing in front of Li Xiandao, wanting to slice off his head.

That was really terrifying!

This was why Ice Queen was strong.

Her dao was really thick and what she comprehended the most was the Ice Dao. She reached out to attack Li Xiandao's head. The temperature of the air around dropped to freezing point,

causing one's breath to turn into thick fog.

Since they were fighting in an ice land, Ice Queen's attack strength naturally increased. So she dared to get close and pluck off Li Xiandao's head.

But Li Xiandao wasn't someone to be offended. He had dozens of worlds supporting him, you actually dared to fight him in close combat?

Keng!

Li Xiandao's purple crystal sword shook and sword energy shot out, instantly slashing at Ice Queen's neck.

The sharp sword energy slashed through the air, causing Ice Queen to frown. She reached out and pulled, wanting to turn Li Xiandao's attacks into something formless.

But Li Xiandao's sword energy wasn't an ordinary technique it didn't turn formless under Ice Queen's attacks.

The purple crystal sword was crafted using the Nether Purple Mountain and it was really strong. now that it was used, the Ice Queen definitely couldn't wipe it out so easily.

This made Ice Queen frown. She scoffed coldly, "Ice Wall!"

Cold energy exploded in the air, forming an ice wall to block Li Xiandao's purple crystal sword.

But the purple crystal sword was naturally fierce, it smashed the ice wall and slashed heavily.

It just wanted to kill!

Li Xiandao had nineteen worlds supporting him so what did he have to fear?

Ice Queen was now totally furious. She slapped with her snow white fingers, wanting to smack the purple crystal sword away.

Peng!

But what welcomed her was Li Xiandao's extremely thick true qi. It was like a mountain, like a deep abyss, unable to be broken. It exploded out right away.

Only then did Ice Queen know how terrifying Li Xiandao was. She looked on in shock and retreated quickly.

"It is too late, eat a sword of mine." Li Xiandao hollered loudly. His eyes shone brightly as the purple crystal sword slashed past everything, landing right on Ice Queen's body.

This strike was one that Ice Queen had to take. She hadn't even looked at Li Xiandao properly since the start. She looked down on him and now she was paying the price.

"Extinction!"

Ice Queen gritted her teeth. Ice exploded out from her body, covering hundreds of miles and freezing everything. It turned her body into an eternal statue.

* Kacha!*

Li Xiandao's purple crystal sword landed on the statue and turned her into dust.

But Li Xiandao wasn't happy at all. He looked towards somewhere a hundred miles out. Ice Queen had broken out of her shell and was just staring at him coldly.

"I underestimated you. You actually forced me to use my life saving technique. You are good enough to make me go all out." Ice Queen gritted her silver teeth and said with an ice cold voice.

Li Xiandao smiled calmly, "I told you that I can fight the three of you. You are not strong enough."

Ice Queen scolded, "Whether I am strong or not, look at this move first."

Ice Queen went all out. She took out an ice sword and slashed. She attacked with a cold killing energy.

At that moment, snow and wind blew in front of Li Xiandao and a cold light flashed.

"Winter Snow Sword Technique!"

Ice Queen really went all out like what she said. One could tell that she did from her attack.

But Li Xiandao didn't fear anything. With a cold gaze and stable footing, he stepped forth step by step. With the purple crystal sword in hand, he slashed down.

Dang!

The purple crystal sword clashed with Ice Queen's sword and gave out a loud explosion. It caused large amounts of snow to scatter in all directions. However, Li Xiandao's body was unobstructed. He continued to walk forwards and attack.

On the other hand, from that clash, Ice Queen knew that things were bad. Li Xiandao's strength was too thick and it far exceeded her expectations. It was extremely strong.

Li Xiandao used dozens of worlds for that sword. In terms of strength, he crushed the Ice Queen such that her skill wasn't able to be used at all. She immediately retreated from Li Xiandao's strikes.

But right away, Li Xiandao slashed a second time.

Li Xiandao stepped on the snow and walked forwards. His hair danced in the wind and his aura was unparalleled. With the purple crystal sword, he was like a war god.

The second struck swept forth.

Hong!

Ice Queen could only block. Now she was flung a few hundred meters away and her body shook intensely. Blood surged and her face flushed red. She couldn't help but spit out a mouthful of fresh blood.

Ice Queen, stage seven unorthodox celestial was beaten by Li Xiandao such that she spat out blood.

Those scenes stunned everyone around.

King Lanling and King Giant didn't dare to believe their own eyes. They rubbed it hard but that didn't change anything. She did spit out blood.

They were shocked by how strong Li Xiandao was. At the same time, they were excited.

But Gu Cheng and Shi Potian frowned and moved at pretty much the same time.

Li Xiandao's strength far exceeded their expectation. He actually caused Ice Queen to spit out blood.

Right when Li Xiandao slashed down with his sword, Shi Potian and Gu Cheng attacked together.

Hong long long!

The surging strength caused Li Xiandao to fly backward, making him retreat by tens of steps. Each step would cause the ground to shake and hundreds of spiderweb-like cracks to spread out.

Li Xiandao looked at them. He wasn't afraid and smiled instead, "Good timing. I told you before that the three of you must attack together."

Ice Queen gritted her teeth, her breathing was filled with an ice cold energy. She said coldly, "This person is a monster, his strength is shocking. I am not his match, let's kill him together."

Gu Cheng and Shi Potian had seen the whole process, they nodded, "Okay!"

At that moment, they abandoned their selfishness and worked together to deal with Li Xiandao. That and getting the world core was the key.

Li Xiandao looked at them and grinned. His blood started to boil. Three stage seven unorthodox celestials were also a threat and pressure to him.

Li Xiandao held the purple crystal sword in his left hand and the Great Ancient Fallen Star in the right.

With the swords in hands, Li Xiandao didn't say a word and attacked right away.

Chapter 550: Do You Believe?

Li Xiandao fought one against three right away. With the Purple Crystal Sword and Great Ancient Fallen Star in hand, he slashed them down.

Hong!

After the Great Ancient Fallen Star exploded, the wind and snow around became much thicker and intense.

Gu Cheng didn't hide anymore. He hollered and his body went from his old state back to his peak. His hair was thick and black and his eyes gave out an intense glow.

Soul Killing Technique!

This attacked Li Xiandao's soul right away. He didn't bother to fight with your physical body and went deep into your soul.

But Li Xiandao wasn't easy to deal with. He shouted and his body closed, locking up his soul, allowing that technique to hit his forehead.

Kacha!

A mark appeared and fresh blood flowed out but his body had locked up his soul and it wasn't hurt.

But in the next second, Li Xiandao's Great Ancient Fallen Star slashed down.

Hong!

Gu Cheng who had injured Li Xiandao didn't expect his technique to be blocked by the physical body. He retreated in shock.

But he was still too late. Great Ancient Fallen Star smashed on his body and he instantly formed a hundred-layer shield.

Plop!

This hundred-layer shield exploded instantly, tossing Gu Cheng back and he smashed heavily onto the ground.

“What terrifying strength.” Only then did Gu Cheng understand what Ice Queen mean by Li Xiandao being strong.

The strength felt as if an entire world had struck you. Gu Cheng couldn’t block it at all. If not for the hundred-layer shield, he would have spat out blood.

Gu Cheng was smashed aside. Shi Potian wasn’t slacking, he flung his spear and it stabbed forth quickly.

“Eat my strike.” Shi Potian shouted coldly.

At that moment, Li Xiandao got into his peak zone. Vital energy surged and behind him, it felt as if the 19 worlds had appeared and were protecting him.

“Just in time.” Li Xiandao didn’t hesitate and struck with the Purple Crystal Sword. It hit the spear and caused it to fly.

|

“Attack together, this person is too terrifying.” Ice Queen shouted. She wasn’t so arrogant anymore. Now she knew how strong Li Xiandao was. She struck with her sword.

Gu Cheng used his Taoist techniques, dragon meridians charged up from below, turning into chains that wanted to lock Li Xiandao up.

Shi Potian stabbed with his spear, he proceeded forwards fearlessly with an unparalleled aura.

Three stage seven unorthodox celestials attacked Li Xiandao together from three directions. Li Xiandao could only stand on the spot and use his own sword technique.

Hong long long!

Li Xiandao used the Overturning the Ocean technique he comprehended to force Ice Queen’s attack back.

He turned around and slashed with the Great Ancient Fallen Star. His strength was like a huge mountain, smashing Shi Potian’s spear aside.

Additionally, Li Xiandao hollered. A terrifying aura exploded from Li Xiandao’s body and broke the chains.

“Kill!” But Ice Queen returned, launching an even fiercer attack.

Shi Potian used his spear really well too, his eyes were like two iron gongs staring right at Li Xiandao.

“I don’t believe that you can hold on.” Gu Cheng shouted. He turned the dao that he comprehended into an undying phoenix that pounced forth.

Every one of them was a top expert that could crush Heaven Sky. But in front of Li Xiandao, they weren’t enough. Only with them working together could they barely suppress Li Xiandao.

But they weren’t able to harm him.

Li Xiandao was even purposely controlling himself.

Endless amounts of the dao flashed in Li Xiandao’s eyes.

He had cultivated many sword techniques and comprehended large amounts of the dao. But he hadn’t merged them together to form his own sword technique.

At that moment, under the combined attacks of the three stage seven unorthodox celestials, Li Xiandao comprehended it. He was surrounded like a piece of iron being forged. The three of them were like iron hammers smashing out his impurities and making him much stronger.

This was really terrifying. Under their attacks, Li Xiandao was actually merging a sword technique.

Hong!

A sword slashed aside Shi Potian and a look of comprehension appeared in Li Xiandao’s eyes.

He turned around and avoided Ice Queen’s sword. With a flick of his hand, a terrifying sword energy exploded and slashed forth.

Ice Queen dodged and that sword directly broke a mountain.

Those scenes terrified Ice Queen.

“He... What is he doing?” Ice Queen realized that things weren’t right.

Li Xiandao’s state wasn’t right. It seemed like he was becoming stronger.

Not only did Ice Queen notice it, but so did Shi Potian and Gu Cheng.

When Gu Cheng's dao sword was casually shattered by Li Xiandao, he exclaimed, "This sick bastard is using us to train himself."

Shi Potian looked at Li Xiandao who gave off an unparalleled aura and said in terror, "He is using our attacks to make his sword merge. The current him is much stronger than before."

Ice Queen was silent. She looked at Li Xiandao and didn't attack anymore.

It was obvious that Li Xiandao was using them which was why the battle was so intense. Once Li Xiandao comprehended what he wanted to, they would be defeated.

That made the three of them feel bad.

They thought that they were the strongest in Heaven Sky but who knew that the three of them working together couldn't take Li Xiandao down. They even became his grinding stone.

At that moment, the three of them looked at Li Xiandao with a complicated expression and didn't know what to say.

When Li Xiandao wasn't being attacked, he stopped to comprehend. He said with regret, "Why did you three stop?"

"Attack to be your grinding stone?" Shi Potian was annoyed.

Li Xiandao saw that they realized his plan and weren't willing to attack anymore. He sighed regretfully, "What a waste."

What a waste, he had just gotten some idea and was interrupted just like that.

But he wasn't sad and said calmly, "You still want the world core now?"

Ice Queen didn't say a word, just turning around to leave.

"Forget it, forget it, I am old, I can't compete with you youngsters." Shi Potian was dispirited. He ripped open space and left right away.

Gu Cheng turned old once more and said with regret, "I will continue to lay in the coffin. This era is not ours anymore."

Li Xiandao looked on as the three of them left and didn't stop them.

The three were the strongest three in Heaven Sky. Once they failed their tribulation, they went through seven lightning trials and were really strong.

Only Ah Qing in this generation of Heaven Sky experts could compare to them.

If Celestial Gate opened and they ascended, they would rise up quickly.

So Li Xiandao didn't want to kill such talents, anyways they weren't enemies with one another.

After looking at them leave, a shadow silently appeared behind King Lanling and grabbed him. He said coldly, "Pass the world core to me or he will definitely die."

This was a stage five unorthodox celestial who had been hiding in the darkness. When Li Xiandao and Ice Queen were fighting, he didn't pay attention to him.

"Do you believe that I can kill you before you kill him?" Li Xiandao looked at him coldly.
