Section 155

Everyone immediately stood up and greeted him.

"Brother Xie, you are finally here. I haven't seen you for thousands of years. I heard that you have made another step forward. Congratulations."

Xie Mingyuan bowed to everyone and said.

"My fellow Taoists are too polite. I have only made a little progress, which is not worth mentioning."

Zhang Yuhe stood by and listened to everyone's communication silently.

It can be seen.

Xie Mingyuan should be very famous among the True Immortal cultivators, and he is not comparable to ordinary people.

Xie Mingyuan pulled Zhang Yuhe over and introduced him to everyone.

"This is my junior brother Zhang Yuhe. Please take care of him in the future."

"Okay, Brother Xie is too polite."

Zhang Yuhe stood by, greeting everyone and silently thanking them.

Xie Mingyuan was really good to him.

Everything is difficult at the beginning.

If there is no one to lead the way, he wants to integrate into the True Immortal circle in the market, I am afraid it will take a lot of effort.

How can it be as easy as it is now.

...

Among the more than ten people at the scene, in addition to the two of them, there are four disciples of the Nine Immortal Sect and three disciples of the Ten Thousand Beast Sect.

The rest are independent cultivators in the Ji'an Sea Area.

In the fairy world, the strength of independent cultivators should not be underestimated.

After all, many people who have cultivated to the true fairyland do not like to be constrained.

There are many who practice alone.

After everyone sat down, they continued to talk loudly.

One of the slightly fat young men said with some worry.

"There are nearly 100,000 people on the Chaos Continent, and there has been no beast tide. It is estimated that the next beast tide will not be too far away."

This person is named Zhu Yulin, a disciple of the Nine Immortal Sect.

When they heard Zhu Yulin talking about the Chaos Beast Tide, everyone agreed.

"Yes, within a few hundred years or even ten thousand years, there will be a beast tide."

"I don't know if the Nangong Immortal Clan will issue a conscription order next time."

"Can we still avoid it? Whenever a beast tide breaks out, the Nangong Immortal Clan will recruit cultivators from all sides."

"The beast tide is not scary, but the outbreak of the Immortal Meteoric Tribulation. Once the Immortal Meteoric Tribulation breaks out, even Taiyi Immortal will perish, and we, the True Immortal Cultivators, will be cannon fodder at best."

"No way."

"It's hard to say. It's been nearly 800,000 years since the last Immortal Meteoric Tribulation."

"According to past practice, the Chaos Continent will have an Immortal Meteoric Tribulation every million years or so. I believe the next Immortal Meteoric Tribulation will not be too far away."

When everyone talked about the Immortal Meteoric Tribulation, they couldn't help but feel a little discouraged.

Although the immortals have established a firm foothold in the Chaos Continent.

But in terms of strength, the Chaos Beasts are much stronger than the immortals.

The Chaos Beasts are not only numerous, but the key is that their defense is amazing and they are extremely difficult to kill.

Moreover, in terms of high-end combat power, Chaos Beasts are far stronger than Immortal Cultivators.

Every time a beast tide breaks out, a large number of Immortal Cities will be breached by Chaos Beasts.

The Cultivators in the cities are captured by Chaos and taken for sacrifice.

It can be said that their end is extremely miserable.

As for the Immortal Fall, it is even more needless to say.

Every time a Immortal Fall breaks out, a large number of Immortals will fall.

Even Taiyi Immortals may be captured and sacrificed by Chaos Beasts.

The entire Immortal Realm can be said to be a competition between Immortals and Chaos Beasts.

And the battlefield is on the Chaos Continent.

For Immortals.

Chaos Beasts are full of treasures.

Crystal cores can be used to refine equipment, set up formations, refine pills, etc., which can be said to have many uses.

The fur of Chaos Beasts can be used to refine defensive Immortal weapons such as armor.

Even the tendons and bones of Chaos Beasts can be used to refine some special items.

However, in the eyes of Chaos Beasts, Immortals are also an important resource.

They can gain more powerful power by capturing immortals and offering sacrifices.

Chaos beasts are not ignorant monsters, but have extremely high wisdom. They also have their own civilization and cultivation methods.

Immortals have always been in a weak position in the competition with chaos beasts.

Therefore, whenever the beast tide breaks out, the Nangong Immortal Clan will recruit a large number of monks from the affiliated forces to go to the Chaos Continent to fight.

And their Ji'an Sea Area belongs to the sphere of influence of the Nangong Immortal Clan.

When there is nothing to do, the Nangong Immortal Clan does not need them to pay tribute.

Only when the beast tide breaks out, they need to contribute.

Facing the call of the Nangong Immortal Clan, all major forces will generally respond actively.

There is no way, who let the Nangong Immortal Clan have Taiyi Immortal sitting in charge.

And every time they call, the Nangong Immortal Clan will give out generous rewards.

They will not let them work in vain.

Of course, all this must first survive the beast tide.

Speaking of the Chaos Beast Tide, the scene seems a little dull.

At this time, a short middle-aged cultivator spoke loudly.

"I wonder what you are worrying about."

"Isn't it just right that a beast tide breaks out? Killing a Chaos Beast can not only collect the crystal core corpse, but also get rich rewards from the Nangong Immortal Clan."

"I wish such an opportunity would come every year."

Hearing this, everyone was very speechless.

Liu Haitao said helplessly.

"Fellow Daoist He, we can't compare with you. You have just formed an immortal body, and you have no pressure at all when facing Chaos Beasts below three stars."

"We want to kill a Chaos Beast, even if it is only a one-star Chaos Beast, it takes a lot of effort."

"The key is that if you are not careful, it is easy to be beaten to death by a Chaos Beast."

"That's right, if I can cultivate an immortal body, I won't take Chaos Beasts seriously."

"Fellow Daoist He's luck is really enviable. He actually found the Earth Spirit Fruit and cultivated his immortal body in one fell swoop."

"Hehe, it's all luck."

Zhang Yuhe listened quietly beside him.

This True Immortal cultivator named He Xingfa has actually cultivated his immortal body.

He couldn't help but look at him with new eyes.

You know, there are more than ten people present, including Xie Mingyuan and Liu Haitao, two late True Immortals.

None of them have cultivated their immortal bodies.

The immortal body is really too luck-dependent.

Just like He Xingfa.

It is rumored that he found a Earth Spirit Fruit in a dangerous place.

Then he cultivated his immortal body in one fell swoop.

This is simply unreasonable.

As long as there is a chance and you can encounter special natural treasures, even a pig can evolve into an immortal body.

If the chance is not enough.

No matter how talented you are, you still can't think of getting an immortal body.

But Zhang Yuhe heard.

In some top powers, some precious elixirs can be refined, which can also promote the cultivation of immortal bodies.

But they should not think about such things.

Anyway, there are no such good things in the Ji'an Sea.

Even if there are in other places, they can't afford it.

The immortal elixirs that can promote the cultivation of immortal bodies generally need to be exchanged for treasures of equal value.

They can't be bought with immortal stones.
