Section 301

Long Aotian stood on the flying boat, his face expressionless.

He just waved his right hand.

A golden talisman was thrown out from his hand.

The talisman turned into a golden stream of light and soon enveloped the Chaos Beast.

This powerful Chaos Beast was trapped in place in an instant, unable to move at all.

The third-level immortal talisman, Qiankun trapped demon talisman.

It is enough to trap the Nine-Star Chaos Beast for a period of time.

In the past six months since entering the secret realm.

Long Aotian searched everywhere for the place suspected to be the cave of Taixu Immortal King.

However, the final result disappointed him greatly.

The places he searched for did have the caves of high-level cultivators.

At the lowest, it was a place where Taiyi Immortal Lord had stayed.

He even found a cave of Daluo Immortal King and obtained a lot of precious resources in it.

But in Long Aotian's eyes.

These so-called precious resources are not worth mentioning at all.

He just wants to find the cave of Taixu Immortal King and get the origin.

As for other things, he would not even look at them.

As the only son of the leader of the Divine Beast Sect, he has everything.

In the entire Taixu Secret Realm, except for the possible origin thing.

He has no interest in anything else.

After half a year of searching.

Long Aotian finally found this place, a mountain range stretching for thousands of miles.

In the information he collected, this is also an important place.

The cave of Taixu Immortal King may be here.

But when he just came here, he was targeted by several nine-star chaos beasts.

It was also his bad luck.

Those chaos beasts that were originally led away by Zhang Yuhe's incarnation returned to their original places one after another.

Just happened to run into him.

Originally, Long Aotian was going to avoid it.

Although he had countless trump cards, the nine-star chaos beast was indeed not that easy to deal with.

Even if he used the top-grade immortal-killing cannon, he had to bombard it continuously for a long time.

Only then could he kill a nine-star chaos beast.

However, I don't know what kind of medicine these Chaos Beasts took.

They kept staring at him.

This made Long Aotian furious.

He simply stopped.

He planned to use the Qiankun Demon Trapping Talisman and the top-grade Immortal-Destroying Cannon to deal with these Nine-Star Chaos Beasts.

Anyway, before entering the secret realm, he brought a large number of high-level talismans.

As for the crystal cores that drive the top-grade Immortal-Destroying Cannon, there are countless of them.

Even if he fired continuously for several days, it would be enough.

In Long Aotian's eyes.

As long as it is a place he wants to go, even if it is a mountain of knives, he will flatten it directly.

He didn't provoke these Nine Chaos Beasts, which was already very face-saving.

They dared to chase him.

Then just kill them.

...

Chapter 253 Huang Que is behind

Long Aotian stood on the flying boat and controlled three top-grade Immortal-Destroying Cannons.

He kept firing at the Nine-Star Chaos Beasts in front of him.

As long as there is a Chaos Beast that breaks free from the shackles of the talisman, he will immediately add another one.

This third-level immortal talisman is extremely precious in the eyes of other cultivators.

In Long Aotian's place, it is like a piece of straw paper.

It can be consumed at will.

Several nine-star Chaos Beasts, facing Long Aotian's unreasonable operation.

They can only struggle in pain.

The power of the top-grade immortal-destroying cannon is no joke.

Even if the defense ability of the nine-star Chaos Beast is indeed extremely strong.

But facing the continuous artillery fire, they are almost unable to bear it.

Despite this.

Long Aotian stood on the flying boat, and he had no intention of doing it himself.

Although in the Golden Immortal Realm, he can be regarded as a peerless genius.

In the entire South Sea Immortal Realm, the number of Golden Immortal cultivators who can defeat him will definitely not exceed one palm.

But if you want to go up and attack the nine-star Chaos Beast yourself, it will definitely be a waste of effort.

With his strength, he was not qualified even to give a scraping to the nine-star chaos beast.

But Long Aotian was not embarrassed at all.

In his opinion.

There are many kinds of strength.

He used talismans and the top-grade immortal-killing cannon to kill the nine-star chaos beast, which was naturally a manifestation of strength.

He even thought of Zhang Yuhe.

The cultivators of the entire South Sea Immortal Realm were saying that Zhang Yuhe killed the seven-star chaos beast with the cultivation of the Golden Immortal Realm.

He is worthy of being the supreme genius.

But in Long Aotian's opinion, Zhang Yuhe's killing of the seven-star chaos beast was not a big deal.

The seven-star chaos beast couldn't even withstand one shot from his top-grade immortal-killing cannon.

Now he was about to kill the nine-star chaos beast.

And there was more than one.

There were as many as six nine-star chaos beasts in front of him.

These powerful chaos beasts had no power to fight back in front of him.

Thinking of these.

Long Aotian was quite pleased with himself.

...

Zhang Yuhe stood near the Taixu Palace, listening to the roars coming from afar.

He couldn't help but hesitate.

Originally, he was planning to deploy the Nine Heavens Hunyuan Sword Formation to test the defense formation of the Taixu Palace.

Now that other people are coming, it's naturally difficult for him to continue.

Once he deploys the Nine Heavens Hunyuan Sword Formation with all his strength, there will definitely be a lot of noise.

In that case, even a fool would know that there might be good things here.

He would definitely come to take a look.

He didn't want to be disturbed by others when he was halfway through breaking the formation.

"Let's go and take a look first."

Zhang Yuhe planned to go and see the situation outside first.

See if the person fighting outside was Long Aotian.

Although he didn't want to meet a madman like Long Aotian.

But facing the good things in Taixu Palace, he would not give up easily.

Zhang Yuhe planned to deal with the people outside first, and then come back to consider the problem of breaking the formation.

Anyway, Taixu Palace has stood here for countless years and will not run away.

Thinking of this.

Zhang Yuhe restrained his breath and quietly moved towards the direction where the sound came from.

After a while.

A shocking picture appeared in his vision.

Section 302

I saw a golden flying boat floating in the mid-air in the distance.

Long Aotian stood on the flying boat, and the three immortal-killing cannons were firing non-stop.

Not far from the flying boat.

The six powerful Nine-Star Chaos Beasts seemed to be restrained by some means.

He could only stand there and be beaten, completely powerless to resist.

Seeing such a situation, Zhang Yuhe couldn't help being surprised.

He never thought that there would be a Golden Immortal monk who could be so arrogant.

That is a top-grade immortal-killing cannon.

And he got three wickets as soon as he took the shot.

"Is this the genius of a super power? He is indeed terribly rich."

After a while, a Chaos Beast broke free from its restraints.

Long Aotian once again threw out a third-level immortal talisman, trapping the Chaos Beast.

Zhang Yuhe, who was in the distance, couldn't help but be stunned.

Now he finally understood what method Long Aotian used to trap these nine-star chaotic beasts.

What's more, they are all third-level immortal talismans.

This level of arrogance is a bit too much.

Until now.

Only then did Zhang Yuhe understand why the Golden Immortal monk among them was so jealous of Long Aotian.

This thing is completely a walking arsenal.

Who can afford it?

Even if Immortal Lord Taiyi comes, he can't escape the restraints of the third-level immortal talisman.

Then facing the high-grade immortal-killing cannon, he didn't even have a chance to escape.

No wonder Long Aotian has been arrogant for so many years and has not been beaten to death yet.

If the Great Luo Immortal King doesn't take action, no one can beat him.

Thinking of these, Zhang Yuhe couldn't help but fell into deep thought.

When Long Aotian came here, he obviously came for Taixu Palace.

Just in this way.

Their goals will conflict.

Zhang Yuhe didn't want to give up Taixu Palace.

But a ruthless person like Long Aotian is not easy to offend.

If you are bound by a third-level immortal talisman.

He couldn't withstand the bombardment of the top-grade immortal-killing cannon.

And this is just what Long Aotian has shown so far.

Who knows if this guy has any other trump cards.

"Shall we go over now for a sneak attack and kill him directly?"

Zhang Yuhe thought silently in his heart.

But he soon gave up this idea.

the reason is simple.

A person like Long Aotian would definitely not be killed by a sneak attack so easily.

He will definitely have other life-saving trump cards on him.

"Wait a minute. Anyway, the protective formation of Taixu Palace is definitely not that easy to break."

"It's better to let Long Aotian try the formation of Taixu Palace first."

After making a decision.

Zhang Yuhe quietly hid in the distance and watched the battle.

He plans to be a magpie.

When Long Aotian defeated Taixu Palace's protective formation, it was about the same.

He will take action depending on the situation.

...

Under the continuous bombardment of the top-grade immortal-killing cannon.

The aura on the six nine-star chaos beasts began to slowly slip away.

Even if their defense capabilities are extremely powerful.

But facing the unreasonable Long Aotian, these chaotic beasts could only wait silently for death to come.

Another moment passed.

These chaotic beasts were all killed by the fierce fire of the top-grade immortal-killing cannon.

"Hahaha, what about the Nine-Star Chaos Beast? It wasn't killed by this young master."

See this situation.

Long Aotian stood on the flying boat, laughing wildly with pride.

With his cultivation in the Golden Immortal Realm, he was able to directly kill the Nine-Star Chaos Beast. He was definitely the first person in the history of the South China Sea Immortal Realm.

Such an honor is naturally something worth being happy about.

Of course.

As for the methods he used, Long Aotian didn't care.

As long as you can kill the Chaos Beast.

It doesn't matter whether it uses magical powers or immortal cannon.

Long Aotian rose into the sky and happily put away the Chaos Beast corpse on the ground.

These corpses are his, symbols of glory.

Long Aotian planned to wait until he left the secret realm.

Then the corpses of these nine-star chaos beasts were displayed to everyone.

It will definitely scare everyone.

Think of this.

Long Aotian couldn't help but feel a little proud.

...

Chapter 254 Top Grade Chaos Immortal Armor

Long Aotian put away the Chaos Beast corpse on the ground, and then continued to fly forward.

He naturally also knew that there must be something wrong with the presence of multiple Nine-Star Chaos here at the same time.

Based on past experience, the higher the level of the Chaos Beast, the greater the chance of a high-level monk cave appearing.

Like this situation where multiple nine-star chaos beasts appear at the same time.

In the past six months, he had only encountered it once.

Later, he discovered a cave of Daluo Immortal King there.

On the outskirts of this mountain range, six nine-star chaos beasts actually appeared at the same time.

This indicates that.

Deep in the mountains, there is probably the cave of Da Luo Immortal King.

"I just don't know, is it the cave of Taixu Immortal King?"

Long Aotian was waiting silently in his heart as he controlled the flying boat and flew forward quickly.

Zhang Yuhe followed quietly behind him.

He had already made his decision.

Before you figure out Long Aotian's trump card, try not to take action.

Just let the other party explore the way for him in front.

Zhang Yuhe thought.

The process is not important.

As long as the things in Taixu Palace are finally obtained by him.

It's not a sin to be a little bit aloof.

Long Aotian drove the flying boat and moved quickly and arrogantly in the mountains.

He even killed six nine-star chaos beasts.

So what was there for him to be afraid of?

In Long Aotian's opinion.

With his current strength, he was invincible in this Taixu Secret Realm.

There was nothing that could make him worry.

Whether it was the remaining formation or the chaos beast.

As for the other cultivators who entered the secret realm together, he didn't take them seriously at all.

Section 303

They are just some Golden Immortal cultivators.

Who can withstand the attack of his top-grade Immortal-killing Cannon?

Long Aotian was arrogant and rushed across the mountains.

He could not have imagined it at all.

At this time, there was also an old six, who was quietly following him.

After a while.

A magnificent palace appeared in front of him.

"Hahaha, I finally found it."

Seeing the palace in front of him, Long Aotian laughed wildly.

For this day, he has been waiting for nearly 200,000 years.

Taixu Palace.

There is no doubt that this is the cave of Taixu Immortal King in the secret realm.

Looking at the palace in front of him.

Long Aotian seemed to see that the original object was waving to him.

He seemed to see the future.

He became the first Taoist ancestor of the South Sea Immortal Realm.

Thinking of this.

Long Aotian was extremely excited.

But he did not rush in rashly.

He was just arrogant, not a fool.

Almost every cultivator's cave in the secret realm has a formation.

What's more, this is the cave of Taixu Immortal King, the core of the entire secret realm.

There must be a formation guarding it.

And the protective formation here must be very powerful.

Long Aotian drove the flying boat and circled around Taixu Palace.

He wanted to find the loopholes in the protective formation.

As long as he found the loopholes in the formation.

He could quickly break the protective formation with the formation-breaking hammer in his hand.

However, after careful observation, he did not find anything.

Even though countless years have passed.

The protective formation of Taixu Palace is still well preserved.

There is not even any breath leaking out.

Despite this.

Long Aotian was not discouraged.

He drove the flying boat to retreat quickly to a distance.

Then he directly started the Immortal-Destroying Cannon and launched a fierce bombardment in the direction of Taixu Palace.

Long Aotian thought.

Since there is no flaw in the formation.

Then he will start bombarding.

The fourth-level immortal formation arranged by Daluo Immortal King is indeed extremely powerful.

But it can't stop the continuous bombardment of the top-grade immortal-destroying cannon.

As the light flashed.

Three blazing rainbow lights quickly rushed towards the distant Taixu Palace.

At this moment.

A sword light flew out from the hall and slashed directly towards Long Aotian in the distance.

The sword light crossed thousands of miles and slashed directly on the golden flying boat.

Instantly smashed the flying boat into pieces.

At the same time, a faint light curtain lit up above the Taixu Palace.

It easily blocked the three rainbow lights of the immortal-destroying cannon.

Long Aotian was covered in dust and soared into the air from a distance.

At this time, he was already wearing a black immortal armor.

There was a faint scratch on the chest of the immortal armor.

The sudden sword light just now really scared him.

If it weren't for him, he had the top-grade chaos immortal armor to protect him.

He would have died just now.

The top-grade Chaos Immortal Armor is made of the hide of a King-level Chaos Beast and precious fourth-level immortal ore.

It can block a blow from a King-level Chaos Beast.

In other words.

Even if the Great Luo Immortal King attacks, he cannot break the defense of the top-grade Chaos Immortal Armor with one blow.

The most important thing is that the Chaos Immortal Armor only needs to consume a small amount of immortal energy to activate.

So only the Great Luo Immortal King is qualified to equip the top-grade immortal armor.

Long Aotian can also activate it.

Seeing this situation, Zhang Yuhe, who was hiding in the distance, was completely stunned.

First of all, he underestimated the power of the Taixu Palace's protective formation.

Originally, he thought.

The protective formation of this palace would only attack targets within a hundred miles.

He had never thought of it.

The incarnation he controlled before was only because it did not attack the Taixu Palace.

That's why it was automatically attacked by the protective formation after approaching the hundred-mile range.

And Long Aotian arrogantly used the top-grade Immortal-killing Cannon to directly bombard the palace.

As a result, he was taught a lesson by the formation of Taixu Palace.

Thinking of this.

Zhang Yuhe couldn't help but feel a little scared.

Originally, he also planned to activate the Nine Heavens Hunyuan Sword Formation to attack the defense of the hall.

Now it seems that it was fortunate that Long Aotian helped him to step on the thunder.

Otherwise.

He didn't have the top-grade Chaos Immortal Armor to protect himself.

That magnificent sword light.

He really might not be able to withstand it.

The power of that sword light definitely exceeded the level of the Great Yi Realm.

It was equivalent to a blow from the Daluo Immortal King.

Even if he activated the Nine Heavens Hunyuan Sword Formation to defend with all his strength, he might not be able to withstand it.

Zhang Yuhe quietly looked at Long Aotian, and his eyes couldn't help but turn red.

Top-grade Chaos Immortal Armor.

He has been in the fairy world for quite a while.

But he has never seen other cultivators with Chaos Immortal Armor.

Let alone the top-grade Chaos Immortal Armor.

Even the worst low-grade Immortal Armor, he has never seen anyone wear it.

In the last beast tide, when the situation was so intense.

He did not see the people of the Nangong Immortal Clan take out the Chaos Immortal Armor.

From this, it can be seen that the Nangong Immortal Clan does not have immortal armor.

Looking at Long Aotian in the distance.

Zhang Yuhe felt an inexplicable jealousy in his heart.

The trump card of this madman really exceeded his imagination.

Fortunately, he did not choose to take action just now.

Otherwise.

Long Aotian is protected by the immortal Chaos Immortal Armor.

Even if he makes a sneak attack quietly, he can't be beaten to death.

What if he is restrained by the opponent's backhand with a third-level immortal talisman.

Maybe he will overturn the car.

Section 304

But now the opponent's trump card has been revealed.

That would be easy.

The unknown is the scariest thing.

Now that he already knows, Long Aotian's trump card. .

Naturally, you can come up with countermeasures.

despite this.

Zhang Yuhe still didn't take action.

Instead, he hid in the distance and continued to observe silently.

He is in no hurry.

Anyway, there is still half a year until the secret realm is closed.

As long as the protective formation of Taixu Palace has not been broken by Long Aotian.

There will be enough time for him to wait slowly.

...

Chapter 255 Eternal Formation

Zhang Yuhe quietly hid in the distance and observed silently.

He would like to take a look.

Faced with such a difficult guardian formation, what kind of response would Long Aotian have?

Judging from the current situation.

The guardian formation of Taixu Palace not only has powerful defensive capabilities.

And it also has terrifying counterattack capabilities.

As long as there are people on the periphery, attack Taixu Palace.

Will be injured by the formation's counterattack.

Of course.

This kind of counterattack is definitely not unlimited, and there must be certain rules.

For example, the distance of counterattack, the intensity and interval of counterattack, etc.

As long as you understand the rules of the protective formation, you can find the corresponding method to break the formation.

Long Aotian stood up in disgrace and looked towards the Taixu Palace in the distance, his face extremely gloomy.

He was a little careless just now.

The Taixu Palace's protective formation actually has the power to counterattack.

This was something he didn't expect at all.

If it weren't for the Chaos Immortal Armor protecting him, he would have been killed by the sudden sword light just now.

Looking at the blue light curtain that has risen above the Taixu Palace in the distance.

Long Aotian took out a strange little hammer.

Formation breaking hammer.

Specializes in breaking various formations.

He held the formation-breaking hammer in his hand and hesitated for a long time.

Then he put it away helplessly.

The formation-breaking hammer does have a powerful formation-breaking effect.

But the guardian formation of Taixu Palace is obviously unusual.

If he rashly uses the formation-breaking hammer to attack the opponent's formation.

They will inevitably continue to suffer counterattacks from the formation.

Thinking of the magnificent sword light just now.

He was a little scared.

He didn't want to be exposed to this terrifying sword light again.

Although the top-grade Chaos Immortal Armor does have powerful defensive capabilities.

It can even withstand the attack of Da Luo Immortal King.

But no matter how strong the Immortal Armor is, it has its limits.

If you come again a few times.

Long Aotian couldn't guarantee whether the immortal armor could withstand it all the time.

"Let's continue to use the Immortal-Destroying Cannon."

After careful consideration.

Long Aotian felt that it would be safer to use the immortal cannon.

After all, the top-grade immortal cannon can launch attacks from extremely long distances.

Distance creates beauty.

If there is another sword light in Taixu Hall.

As long as the distance is far enough.

He had every chance to react and get out of the way.

Think of this.

Long Aotian quickly moved his figure and came to the location where the flying boat was broken.

Although the flying boat has been split into pieces by the sword light.

But the immortal cannon above was still intact.

After all, the sword light fired from Taixu Hall was not aimed at those immortal-killing cannons.

The power of the aftermath alone is not enough to destroy the high-grade immortal cannon.

Long Aotian once again took out a golden flying boat.

Then put the three high-grade immortal-killing cannons on them again.

After finishing everything, he drove the flying boat and arrived thousands of miles away from Taixu Palace.

"Now that we are so far apart, it should be okay."

Long Aotian activated the immortal cannon again.

Three scorching rainbow lights, like thunder, hit Taixu Palace directly.

At this moment, a sword light rose from Taixu Hall again.

The sword light spanned thousands of miles and struck straight towards Long Aotian.

"Hmph, if you hit me again, I will become a pig."

Seeing the sword light strike out again, Long Aotian couldn't help but snorted.

He quickly steered the airship and moved to the side to avoid it.

Boom...

The sword light struck the deserted mountain range, making a continuous thunderous roar.

The sword light flying out of Taixu Hall was a mechanical dead thing after all.

Although the power is extremely fierce.

But without human control, there is a lack of flexibility.

As long as you are careful, you can indeed avoid it.

"Hahaha....."

Seeing the sword light splitting the sky, Long Aotian couldn't help but be overjoyed.

His strategy was right.

Just put some distance between you and me.

The sword light in Taixu Hall could not do anything to him.

In this way, he can rest assured and fire from a distance.

Until the Taixu Palace's protective formation was completely blasted away.

that's all.

Long Aotian controlled three high-grade immortal-killing cannons and launched fierce bombardments in the direction of Taixu Palace.

The scorching rainbow light struck the blue light screen, causing faint ripples.

However, Long Aotian still underestimated the defensive capabilities of Taixu Palace's guard formation.

After three immortal-killing cannons bombarded him continuously for three days.

The blue light curtain above Taixu Hall is still as stable as a mountain.

There are absolutely no signs of collapse.

As time went by, Long Aotian became more and more arrogant.

He never thought that the protective formation above Taixu Palace would be so difficult to deal with.

Even if he controlled three high-grade immortal-killing cannons and bombarded them continuously for several days.

Still can't see the slightest hope of success.

This made him feel very anxious.

Section 305

Ten days later.

Long Aotian took back the Immortal-Destroying Cannon and stopped bombarding.

At this time, he had already seen it.

The protective formation above the Taixu Palace may be different from ordinary formations.

Normal defensive formations have a certain limit to their endurance.

As long as they keep attacking.

With the accumulation of damage, the formation can be broken.

But the protective formation above the Taixu Palace obviously did not follow such rules.

Otherwise.

Even a fourth-level immortal formation could not withstand the bombardment of the top-grade Immortal-Destroying Cannon for ten consecutive days.

This is obviously abnormal.

Looking at the Taixu Palace in the distance, Long Aotian was extremely angry.

"I don't know what kind of tortoise shell Taixu Immortal King designed, why is it so hard?"

He really couldn't understand.

Why did the formation light curtain above the palace still show no signs of loosening after so much effort.

This is too unreasonable.

...

Looking at the palace in the distance, Zhang Yuhe touched his chin.

Thinking in his heart.

These days, he has been hiding in the dark and observing silently.

Long Aotian did not find his trace at all.

Through these days of observation, he did see something.

"Maybe this is an eternal formation."

Zhang Yuhe thought silently in his heart.

The formations arranged by the cultivators are generally powered by immortal stones or immortal veins.

Facing such a formation, you only need to exhaust its power and it can be broken naturally.

But this is not an absolute thing.

There are also some special formations that accidentally touch higher rules.

You can widely use the power of various immortal spirits around as the source of power.

In this way, the formation can be endless and operate forever.

The Renshui Thunder Absorption Formation that he has improved many times is actually also a category of eternal formations.

The Renshui Thunder Absorption Formation uses the endless water source power on the sea as its power.

It can almost be said that it will never stop.

Even a strong heavenly tribulation cannot exhaust the power of the Renshui Thunder Absorption Formation.

Unless the power of the heavenly tribulation exceeds the tolerance limit of the Renshui Thunder Absorption Formation.

A single attack will shatter the Renshui Thunder Absorption Array.

Otherwise, the array can continue to operate.

The same is probably true for the protective array above the Taixu Palace.

To break this kind of array, the damage of a single attack is required.

It will reach the limit of the array's tolerance.

Obviously, this is not easy to do.

Breaking the fourth-level immortal array with one blow.

Even if the Daluo Immortal King takes action personally, it is not so easy to do.

...

Chapter 256: The trace is exposed

Looking at the Taixu Palace in the distance, Zhang Yuhe hesitated a little.

He didn't know whether he should continue to wait here.

Because he had already seen it.

The protective array above the Taixu Palace is a kind of eternal array.

Facing such a defensive array.

If there is no super explosive power, it is impossible to break it.

At least Zhang Yuhe believes that he will definitely not be able to break this array.

Even if he activates the Hunyuan Guiyi magical power, his strength is only temporarily improved to the early stage of Taiyi Realm.

It is far from enough to break through a fourth-level immortal formation in an instant.

And Zhang Yuhe thinks.

If even he himself can't do anything with this formation.

Then Long Aotian obviously can't do it either.

In this case, why stay here?

If he wants to be a yellow magpie, he also needs the help of the mantis, right?

Since no one can do anything with this formation.

It's better to go to other places earlier.

Maybe he can find the cave of the Daluo Immortal King in other places.

After all, the Taixu Sect was not just the Taixu Immortal King, who was in the Daluo realm.

Although the good things in the Taixu Palace are definitely not comparable to other immortal king caves.

But they can't break the protective formation of the Taixu Palace.

Even if there are more good things in it, he has no chance.

Before, he planned to be a yellow magpie.

See if he can pick up the leaks behind Long Aotian.

Now it seems.

He can't pick up this leak.

Zhang Yuhe thought.

Even if Long Aotian has many cards, it is impossible to break through a fourth-level immortal formation in an instant, right?

This is almost impossible.

"Find a chance to run away."

Zhang Yuhe thought for a long time and made a decision quickly.

This is good.

If there is no conflict of interest, he doesn't need to do anything to Long Aotian.

Originally, he was thinking.

After Long Aotian opened the formation, he would sneak up and hit him with a club.

There will be a yellow magpie behind.

But in this situation, it is obviously unnecessary.

He is not a madman who likes to kill people indiscriminately.

Although he does look a little unhappy with Long Aotian.

But it's just unhappy.

In the absence of a conflict of interest.

He will naturally not continue to think about killing.

The road is open to the sky, each side.

Just when Zhang Yuhe made up his mind and prepared to run away quietly.

He turned around and glanced at Long Aotian in the distance.

"Fuck, what is that?"

Long Aotian was holding a golden talisman that was shining brightly.

Even though Zhang Yuhe was thousands of miles away, he could still feel it.

The terrifying pressure emanating from the golden talisman.

He muttered to himself.

“Is this a fourth-level immortal talisman?”

Seeing the talisman in Long Aotian’s hand, Zhang Yuhe was completely stunned.

Fourth-level immortal talisman?

He simply couldn’t believe it.

How could Long Aotian come up with such an awesome thing.

Section 306

Although the fourth-level immortal talisman was drawn by Daluo Immortal King.

But this does not mean that as long as you are a Daluo Immortal King, you can draw a fourth-level talisman.

In fact.

Da Luo Immortal King, who can draw the fourth-level immortal talisman, is definitely a phoenix-feathered neighbor.

Not to mention a fourth-level immortal talisman.

Even third-level immortal talismans are extremely precious.

In the entire South China Sea Immortal Realm, there are only a few Taiyi Immortal Lords who can draw third-level immortal talismans.

Same thing.

There are certainly fewer Daluo Immortal Kings who can draw fourth-level immortal talismans.

Previously, Long Aotian used the third-level immortal talisman like throwing away tissue paper.

Zhang Yuhe was very surprised.

Now that I see the other party, he can even take out the fourth-level immortal talisman.

It simply subverted his imagination.

"This black boy couldn't have emptied all the treasure trove of the Divine Beast Sect."

Zhang Yuhe thought silently.

Now he has no more thoughts of running away.

Now that Long Aotian has taken out the fourth-level immortal talisman.

Then you might as well take a look again.

Maybe the fourth-level immortal talisman can break the protective formation of Taixu Palace.

...

Long Aotian held the golden talisman in his hand, and his face kept twitching.

He also had some physical pain, so he didn't activate the talisman for a long time.

He knows better than anyone how precious the fourth-level immortal talisman is.

Their Divine Beast Sect only has three fourth-level immortal talismans in total.

In fact.

In the entire South China Sea Immortal Realm, there is no real fourth-grade immortal Talisman Master.

Their three fourth-level immortal talismans were obtained by Long Yuanguang from other immortal realms in exchange with other Daluo Immortal Kings.

This fourth-level immortal talisman is Long Aotian's biggest trump card.

Long Yuanguang said solemnly when he handed the immortal talisman to him.

With this immortal talisman, you can kill the Great Luo Immortal King, so be sure to use it with caution.

One can imagine how precious something can be to kill the Immortal King Daluo.

Long Aotian held a golden talisman in his hand.

He gritted his teeth and muttered to himself.

"For the sake of the original thing, what does a mere fourth-level immortal talisman mean?"

"Done."

Think of this.

He hesitated no longer.

With the injection of immortal power.

The golden talisman soon turned into a huge shadow of a long sword.

The light of the sword traveled across the sky, like a long river, heading straight to the Taixu Palace in the distance.

The fierce sword light, carrying terrifying pressure, quickly traversed the world.

Even Zhang Yuhe, who was hiding thousands of miles away, was almost pushed to the ground by this terrifying pressure.

He subconsciously summoned the Nine Heavens Hunyuan Sword.

Nine celestial swords surrounded him, forming a dense sword net to protect him.

at this time.

Boom...

The shadow of Daohe transformed into the golden talisman instantly struck the formation light screen above Taixu Hall.

The fierce sword light and the formation light curtain collided fiercely.

The roar resounded throughout the world.

All the monks in the secret realm heard the loud noise.

As the light of the knife flashed.

The formation light curtain guarding the sky over Taixu Palace finally could no longer hold up.

A loud noise was heard again.

The light blue light curtain shattered and exploded.

The boundless aftermath of the air wave swept tens of thousands of miles around in an instant.

"not good."

Seeing such a situation, Zhang Yuhe couldn't help being shocked.

He quickly rose into the air.

At the same time, he activated the Nine Heavens Hunyuan Sword Formation with all his strength, and circles of sword energy light curtains quickly extended to the surroundings.

The aftermath swept past him.

The sword energy light curtain propped up by the sword formation quickly shattered layer by layer.

Wait until the aftermath dissipates.

Zhang Yuhe breathed a sigh of relief.

It's a bit scary.

The fourth level immortal talisman is indeed terrifying.

Even thousands of miles away, the aftermath of the collision between the sword light and the formation still carries a fatal threat.

Fortunately, the Nine Heavens Hunyuan Sword Formation is indeed powerful enough in terms of defense.

Otherwise.

He might have died watching the show.

When the sword light collides with the formation.

Long Aotian drove the flying boat back tens of thousands of miles, avoiding the terrifying aftermath.

However, when he turned back and looked in the direction of the main hall.

It was discovered that there was a sword energy light curtain thousands of miles away from Taixu Palace.

Wait until you can clearly see the figure in the light screen.

Long Aotian couldn't help shouting angrily.

"Zhang Yuhe, how dare you hide in the dark and spy on this young master?"

...

Chapter 257 If I can't kill you, I'll shock you to death.

When he found Zhang Yuhe hiding nearby, Long Aotian was about to explode with rage.

In order to break through the protective formation above Taixu Hall, he expended a lot of effort.

In the end, even the precious fourth-level immortal talisman was used.

As a result, Zhang Yuhe, the sixth child, had been quietly hiding beside him.

Isn't this an attempt to take advantage of him?

He didn't believe that Zhang Yuhe came here by accident.

He must have been squatting here for a long time.

Thinking of this, Long Aotian became furious.

Zhang Yuhe looked at Long Aotian in the distance and responded lightly.

"What? This is your home? Can't I come?"

By this time, he no longer had any scruples.

Because it was impossible for him to choose to give up the Taixu Palace in front of him.

This is not only the cave of Taixu Immortal King, but also the core of the entire secret realm.

Perhaps the most important and precious things of Taixu Sect were placed here.

Facing such a place, let alone Long Aotian.

Even if the king of heaven came, Zhang Yuhe would not let go.

In this case.

Then there is naturally nothing to say.

All he can do is beat Long Aotian to death.

Although doing so may bring endless troubles.

But Zhang Yuhe is too lazy to care so much now.

Section 307

Some things always require trade-offs.

His choice was to kill Long Aotian.

Then he would search the Taixu Palace to see what good things he could find.

As for Long Aotian's numerous trump cards, could he kill him?

Zhang Yuhe had already considered this question.

Whether it was the third-level fairy talismans or the Chaos Fairy Armor.

He had thought of a countermeasure.

Killing Long Aotian was not a problem at all.

Seeing Zhang Yuhe's calm look, Long Aotian went completely crazy.

"Ahhh, die for me."

He just waved his right hand.

A talisman with a shining aura turned into a stream of light and quickly attacked Zhang Yuhe.

The third-level fairy talisman, Qiankun Magic Trapping Talisman.

Even the Nine-Star Chaos Beast could be trapped for a while.

Long Aotian had already thought about it.

Once Zhang Yuhe was trapped by the fairy talisman, he would immediately start the Immortal Destroying Cannon.

Directly blast Zhang Yuhe into slag to relieve the hatred in his heart.

However.

Since Zhang Yuhe dared to face Long Aotian like this, he naturally thought of a way to deal with the Qiankun Magic Talisman.

After all, as early as ten days ago.

He saw Long Aotian, like throwing straw paper, constantly throwing this kind of talisman.

If he couldn't avoid the restraint of the Qiankun Magic Talisman, how could he dare to show up.

He must have run away long ago.

At the moment when Long Aotian activated the fairy talisman.

Zhang Yuhe used all his strength to activate the Galaxy Dragon Body Skill, and the whole person instantly merged into the void and disappeared.

Because the restraint target was lost, the light emitted by the Qiankun Magic Talisman slowly dissipated.

Under the blessing of the law of space.

Zhang Yuhe used all his strength to activate the body skill, which could completely achieve the effect of teleportation.

Facing a person with infinite flash, control skills are completely ineffective.

Unless it is a sneak attack, so that the opponent has no time to flash.

Obviously.

Zhang Yuhe will not make such a mistake.

If he could teleport, he would still be bound by Long Aotian's fairy talisman.

Then he would be a pig.

Seeing Zhang Yuhe disappear, Long Aotian was shocked.

"Law of Space?"

Being able to teleport in space, it can only be the law of space.

Thinking of this.

He felt incredible.

As far as he knew.

Zhang Yuhe mastered the law of power.

When did it become the law of space?

Could it be that Zhang Yuhe comprehended two supreme laws at the same time.

However, Long Aotian didn't have time to think more.

Zhang Yuhe quickly flashed his figure and teleported in the void.

Soon he came in front of Long Aotian.

He just waved his right hand.

Nine fairy swords flew quickly, and three huge pressures instantly pressed down on Long Aotian.

"Not good."

Seeing Zhang Yuhe approaching instantly, Long Aotian immediately felt bad.

He was about to fly away.

However, a sword light curtain rose quickly.

Endless sword light with huge pressure instantly pinned him to the spot.

Zhang Yuhe had already comprehended all three supreme laws to the state of minor success.

With the advantage in the laws, he could completely suppress any Golden Immortal cultivator.

Even a Golden Immortal cultivator like Long Aotian, who had already comprehended six laws, would not be an exception.

What's the use of having many laws?

Facing the supreme law, you can only be beaten.

Feeling that he was imprisoned by Zhang Yuhe's law power, Long Aotian couldn't help but get anxious.

He frantically urged the immortal energy in his dantian to break free.

Unfortunately.

All his struggles at this time were in vain.

As the magic formula was pinched.

Endless sword light quickly swept across the world.

However, the Chaos Immortal Armor on Long Aotian's body emitted a faint rainbow light.

The rainbow light seemed weak, but it intercepted all the sword light.

The vast amount of invisible sword energy did not even cut off a hair of Long Aotian.

Seeing this situation.

Long Aotian yelled madly.

"Zhang Yuhe, you can't kill me, I have fairy armor to protect me."

"Even if it's Taiyi Immortal Lord, don't even think about touching a hair on my head."

"Ahhh, when I break free, I will tear you into pieces."

Looking at Long Aotian's crazy shouting, Zhang Yuhe's face was expressionless.

Why should he care about a dying man?

Do you really think that he can't be killed by wearing a top-grade chaos fairy armor?

What a joke.

He can kill the chaos beast, so why would he care about a mere fairy armor.

Does Long Aotian really think that he is invincible wearing fairy armor?

Zhang Yuhe stretched out his right hand.

A golden long stick appeared in his hand.

He soared into the air, swung the long stick in his hand, and quickly smashed it towards Long Aotian.

Boom...

The Nine Heavens Flying Spirit Stick slammed into the light curtain of the fairy armor, making a deafening sound.

Despite this.

Under the protection of the fairy armor, Long Aotian was still unscathed.

"Hmph."

Zhang Yuhe snorted coldly.

The Nine Heavens Flying Spirit Stick turned into a golden stick shadow that instantly covered Long Aotian completely.

Can't kill you?

No way.

I can kill you with a shock.

Facing the tortoise shell on Long Aotian's body.

The solution Zhang Yuhe thought of was to imprison the opponent.

Then use the Nine Heavens Flying Spirit Stick to attack.

If I can't kill you, I can kill you with a shock.

Seeing the shadows of sticks falling all over the sky.

Long Aotian finally panicked.

He already knew what Zhang Yuhe was thinking.

This was going to shock him to death.

The defensive ability of the top-grade Chaos Immortal Armor was indeed extraordinary.

Section 308

It can even resist the attack of the Great Luo Immortal King.

But facing Zhang Yuhe, the golden stick shadow is like a rainstorm.

Long Aotian has no confidence at all.

No matter how strong the defense is, it is impossible to hold on forever.

If it goes on like this, he will be worn out to death.

The golden stick shadow penetrates the defense of the fairy armor and shakes his blood.

Although in the short term, he did not suffer much damage.

But Long Aotian knows.

If the time is prolonged, he will definitely die.

He will really be shaken to death.

...

Chapter 258 Sealing Long Aotian

As the golden stick shadow keeps falling, the huge force penetrates the fairy armor defense and acts directly on him.

At this time, Long Aotian is already as panicked as an old dog.

No longer arrogant as before.

Suddenly, he spit out a mouthful of blood, and his breath began to slowly wilted.

During this period.

Long Aotian tried various methods, but still could not break free from Zhang Yuhe's imprisonment.

"Am I going to die here?"

Thinking of this, Long Aotian was very unwilling.

He still had various powerful trump cards.

But after his body was imprisoned.

These trump cards could not be used at all, and all became useless cards.

He could only stand there and passively take the beating.

Feeling the footsteps of death, getting closer and closer.

The feeling of fear quickly surrounded Long Aotian's heart.

He was the pride of the Divine Beast Sect and had a bright future.

He also wanted to soar into the sky and strive for the realm of Daozu.

How could he die here like this?

"No, I can't die."

Thinking of this.

Long Aotian shouted loudly.

"My father is Long Yuanguang, you can't kill me."

"Once I die in the secret realm, you won't have a good life, my father will definitely cut you into pieces."

"Do you think that people outside don't know what happened in the secret realm?"

"My father never needs a reason to kill people."

"As long as I die here, he will definitely kill all the people who enter the secret realm."

Facing Long Aotian's intimidation, Zhang Yuhe's face was expressionless.

It has come to this point, what's the point of saying these now.

At this point, can he still stop?

If Zhang Yuhe stops.

Long Aotian will still not let him go.

In this case.

Why not just beat this madman to death with a stick.

Of course Zhang Yuhe knows.

Once Long Aotian dies in the secret realm.

Then they will definitely have endless troubles.

After the investigation of the Divine Beast Sect, none of them can escape.

Even so.

Zhang Yuhe has no intention of letting go.

Trouble is always there.

As long as he cultivates fast enough.

Then troubles can't catch up with him.

Seeing that Zhang Yuhe was not threatened, Long Aotian immediately changed his face.

He begged bitterly.

"Brother Zhang, please let me go. I won't fight with you for the things in Taixu Palace."

"In addition, everything I have can be given to you, just spare my life."

Seeing Long Aotian's change of face.

A trace of disgust flashed in Zhang Yuhe's eyes.

"Disgusting."

No matter what, Long Aotian is also a powerful Golden Immortal cultivator, but he is so shameless.

It's really disgusting.

Thinking of this.

Zhang Yuhe couldn't help but swing the long stick a little faster.

It's better to kill this disgusting lunatic as soon as possible.

Even if you see it once more.

It will pollute your eyes.

Time passed slowly.

As the Nine Heavens Flying Spirit Stick fell again.

Long Aotian's body shattered.

A miniature Nascent Soul flew out of the body, with endless panic in his eyes.

Zhang Yuhe waved his hand and quickly imprisoned the Nascent Soul in his hand.

He took out a talisman, pasted it on the surface of the Nascent Soul, and then put it into a jade box.

After doing all this.

Zhang Yuhe breathed a sigh of relief.

After so much effort, he finally solved the disgusting guy Long Aotian.

But he did not kill Long Aotian directly.

Instead, he temporarily preserved Long Aotian's Nascent Soul.

Because Zhang Yuhe knew.

As long as Long Aotian's Nascent Soul dissipated, the Divine Beast Sect would definitely know it immediately.

In that case.

He was afraid that he would not even be able to leave the secret realm.

He would definitely be blocked outside by the people of the Divine Beast Sect.

Maybe Long Yuanguang himself might come.

After all, Long Aotian is Long Yuanguang's only son.

Who knows what Long Yuanguang will do at that time?

Once Long Yuanguang goes crazy.

Wanxianmen and Chaotian Palace may not be able to withstand it.

For such a situation, Zhang Yuhe had already thought of a countermeasure.

That is to keep Long Aotian's Nascent Soul first.

For a cultivator, as long as the Nascent Soul is not destroyed, it means that he is not dead.

In this way.

The Divine Beast Sect cannot know the specific situation of Long Aotian.

At most, they think that he is trapped in a dangerous place in the secret realm.

When the secret realm was opened before, this kind of thing was not uncommon.

Sometimes the cultivator did not exit the secret realm in time, but the soul lamp did not go out.

Some of the soul lamps of some people were inexplicably extinguished even after the secret realm was closed for tens of thousands of years.

Therefore, as long as Long Aotian's Nascent Soul is left in the secret realm.

Then no one would have thought that he would be the one to do it.

Section 309

After putting away the seal of Long Aotian's Nascent Soul.

Zhang Yuhe glanced around.

Seeing the items scattered on the ground, his eyes couldn't help but turn slightly red.

Top-grade Immortal-Destroying Cannon, top-grade Chaos Immortal Armor, and Formation-Breaking Hammer.

There are also various third-level immortal talismans.

As for other good things, there are countless of them.

It's all good stuff.

It's a pity that he didn't dare to take it.

Zhang Yuhe took out a storage bracelet and put away Long Aotian's belongings separately.

There are indeed many, extremely precious items here.

But he didn't intend to.

Zhang Yuhe couldn't imagine the methods of Da Luo Immortal King, they must be mysterious and unpredictable.

If he took Long Aotian's items.

Maybe others will follow the items and extrapolate them to him.

For safety reasons.

Zhang Yuhe plans to keep all these things in the secret realm for the time being.

Although there are indeed many precious things in Long Aotian.

But compared with Taixu Palace, it is definitely far behind.

After all, this is the cave of Taixu Immortal King.

He looked up at Taixu Palace in the distance and murmured to himself.

"I hope the things inside won't disappoint me."

Now he has completely offended the Divine Beast Sect, if he cannot gain enough benefits in Taixu Palace.

That's really a big loss.

Zhang Yuhe moved quickly.

He suddenly stopped hundreds of miles away from Taixu Palace.

"It's better to be careful."

Think of this.

Zhang Yuhe quickly pressed the magic formula, and three thousand incarnations flashed around him.

"go."

Then he raised his finger.

Three thousand incarnations flew quickly towards the Taixu Palace in the distance.

When the incarnation was close to a hundred miles away, no sword light flew out of the hall.

Seeing this situation, Zhang Yuhe couldn't help but feel overjoyed.

"Very good, all the protective formations of Taixu Palace have indeed been breached."

After making sure there is no danger.

Zhang Yuhe jumped into the air and quickly flew to the front of Taixu Hall.

I saw a bronze door closed tightly.

He walked around the hall several times and found no other entrance.

"How are we going to open this door? Do we have to blast it hard?"

Look at the bronze door closed.

Zhang Yuhe did not take action rashly.

Who knows if Immortal King Taixu may have other killing moves hidden in his mind?

What if he fired out a sword light while bombarding the gate? Wouldn't that be nonsense?

Zhang Yuhe stretched out his right hand and gently pressed on the bronze door.

However, a surprising scene occurred.

The door actually opened slowly.

See this situation.

Zhang Yuhe quietly retreated and looked at the situation in the hall warily.

at the same time.

Nine immortal swords surrounded him, forming a dense curtain of sword energy.

Zhang Yuhe thought.

In case something unexpected happens.

He can also use the sword formation to withstand a wave, and then run away quickly.

But he obviously thought too much.

Wait until the bronze door is completely opened.

There was still nothing strange in the hall.

There was no sword light coming out.

Seeing this situation, Zhang Yuhe couldn't help but breathed a sigh of relief.

He controlled the avatar, slowly passed through the bronze gate, and walked into Taixu Hall.

...

Chapter 259 Walking away with the pot

After the incarnation entered Taixu Hall.

See through the eyes of the avatar and see what's going on inside.

Zhang Yuhe couldn't help but feel surprised.

This is not a big hall.

It is clearly a vast world.

After passing through the bronze gate.

Only one side of the vast world appeared in his field of vision.

Mountains stretch inside, with rivers and lakes crisscrossing them.

Various pavilions and pavilions are densely and orderly distributed among the mountains and lakes.

"Could it be that this Taixu Palace is a space fairy weapon?"

After seeing the situation in the hall.

Zhang Yuhe quickly understood.

This hall should be like the Ten Thousand Souls Map, it is also a space artifact.

It looks like a big hall from the outside, but in fact it is a world of its own inside.

However, there are still some differences between the two.

Wan Ling Tu is a closed space.

Only the master who masters the Wanling Diagram can control the entry and exit of the space.

No one else can enter without the permission of the owner of the immortal weapon.

But Taixu Palace is obviously not like this.

There is no such restriction in Taixu Palace.

Others can enter through the bronze door as long as they are not sick.

It feels like an open space artifact.

Thinking of this, Zhang Yuhe couldn't help but fell into deep thought.

He once heard a rumor.

According to rumors.

Many superpowers' mountain gates are actually composed of a powerful space artifact.

Once the sect encounters an irresistible crisis.

As long as you put away the space fairy weapon, you can pack up the entire sect and take it away.

This is also an important reason why those superpowers can endure for a long time.

Because as long as they have one top powerhouse left.

You can lead the entire sect and hide quietly in other places.

Very difficult to detect by enemies.

"Perhaps this Taixu Palace is the Taixu Sect's mountain gate in the Immortal City."

Zhang Yuhe guessed silently.

If this is true, then he is very rich.

This shows that.

Taixu Palace not only has the inheritance of Taixu Immortal King, but also all the important items of the entire Taixu Sect.

They may all be placed here.

Section 310

"We must find the control core here as soon as possible."

Thinking of this, Zhang Yuhe was extremely excited.

This kind of space fairy weapon will have a control core.

As long as the control core is refined.

You can master this fairy weapon.

In that case.

He can pack up all the items left in the secret realm by the entire Taixu Sect and take them away.

Thinking of this.

Zhang Yuhe took off and flew into the Taixu Palace quickly.

Looking at the vast world in front of him.

He found a direction and flew over quickly.

He ignored all the buildings he flew over along the way.

There is no rush for treasure hunting.

As long as the core is refined, the entire Taixu Palace will belong to him.

Aren't all the things inside his?

Now he has no need to spend time on treasure hunting.

After he controls the Taixu Palace.

There is plenty of time to slowly explore the entire palace.

Zhang Yuhe flew quickly all the way and soon came to the highest peak of this space.

I saw a tall stone tablet standing on the peak.

The stone tablet stood like a spear between heaven and earth, reaching the sky.

On the surface of the stone tablet, there were densely packed with various mysterious runes.

In the middle of these runes, two vigorous and powerful characters were engraved.

[Taixu]

"This stone tablet should be the core of the space fairy weapon, right?"

Looking at the stone tablet in front of him, Zhang Yuhe soon had the answer in his heart.

After so many years of ascending to the fairyland, he is no longer the little white at the beginning.

Although he rarely walks in the fairyland.

But all kinds of common sense and experience are still no less than those of normal golden immortal cultivators.

Besides.

He himself is also a master of fairy refining with outstanding skills.

He still has some eyesight.

Zhang Yuhe came to the stone tablet, slowly stretched out his right hand, and pressed it on the stone tablet.

He urged the fairy energy in his dantian to keep pouring into the stone tablet.

I don't know how long it has been.

The surface of the stone tablet suddenly burst into a dazzling light.

The light flashed across the sky and earth, and instantly illuminated the entire fairy weapon space.

A huge stream of information continued to pour into his mind.

After a while.

Zhang Yuhe retracted his right hand, and a look of great joy appeared on his face.

"Hahaha, I finally refined this space fairy weapon."

He quickly flashed his figure.

The whole person immediately appeared outside the hall.

He just stretched out his right hand.

The Taixu Palace, which had stood in the secret realm for countless years, began to shrink rapidly.

Then it fell into his hand.

Looking at the miniature palace in his hand, Zhang Yuhe was overjoyed.

"What a great harvest."

After refining Taixu.

He not only got a space fairy weapon.

The key is that the things inside are now all his.

And he doesn't have to look for them.

The things in the space have long been reflected in his mind.

In addition to the cave of Taixu Immortal King.

Other disciples and elders of Taixu Sect also set up caves in this space.

Not only that.

In the fairy weapon space, all the inheritance of Taixu Sect is also included.

Alchemy Hall, Weapon Refining Hall, Fairy Medicine Garden, Sword Pool, Sutra Library, etc.

It has all the facilities of a super sect.

"Should I go to other places to continue looking for opportunities?"

Zhang Yuhe held the mini Taixu Hall in his hand and thought silently in his heart.

It is almost half a year before the secret realm is closed.

If he continues to look for it in other places, there is indeed a chance to find some good things.

But he soon gave up this idea.

With this Taixu Hall, the inheritance of the entire Taixu Sect is here.

Why should he go out and wander again?

Although he will not encounter too much danger in the secret realm.

But it is completely unnecessary.

"Let's take a look at how many good things there are in the Taixu Hall."

If you don't scratch the lottery ticket in your hand, you will be itchy.

Thinking of this.

Zhang Yuhe flashed quickly and disappeared in an instant.

After entering the fairy weapon space again.

He first came to the library.

There won't be too many good things in other places, whether it's the alchemy hall or the weapon refining hall.

Those are just functional buildings, maybe there will be some recipes and drawings.

But there won't be too many.

As for the medicine garden, he didn't plan to check it out for the time being.

So many years have passed.

Most of the immortal medicines planted by Taixu Sect at the beginning are estimated to have withered long ago.

Those that can be left must be extremely precious.

Maybe none of them are what he can use now.

I'll go and see later.

There's no rush now.

In Zhang Yuhe's opinion.

In the entire inheritance of Taixu Sect, only the library is of the greatest use to him.

Just think about it.

A superpower that has existed for countless years.

How many skills and magical powers will it collect?

It's estimated that taking one or two out will be a remarkable existence.

Zhang Yuhe quickly flashed and soon appeared in front of the library.

He just waved his right hand.

The door of the library opened silently in an instant.

After refining Taixu Hall, this space immortal weapon.

All the formations inside are under his control.

He can easily open all kinds of halls and monks' caves.

It's not like outside.

Every time he finds a cave or building, he has to break the formation first.

It's totally unnecessary here.

This is his territory now.
