Section 471

Anyway.

Let's get the first step done.

That is.

All the Chaos Beasts in Niulan Mountain are wiped out.

At this time, Niulan Mountain is still peaceful.

After Niu Man led the king beasts in the tribe to leave together.

The other Chaos Beasts left in Niulan Mountain did not make any special response.

They did not even arrange guard posts outside the tribe.

In the eyes of these Chaos Beasts.

It has always been their share to beat others.

Who would dare to come to the great Niulan Mountain tribe to act wildly.

Isn't this courting death?

Although the High Priest Niu Man, with a group of kings in the tribe, temporarily left the tribe.

But that was temporary, and it is estimated that they will be back soon.

It's just such a short time.

How could there be a daring person who dares to come to the Niulan Mountain tribe to cause trouble?

What's more.

Even if the High Priest Niu Man left.

The Chaos Beasts they left behind are not vegetarians.

If there is really a fearless monk, dare to come to the Niulan Mountain tribe to cause trouble.

They can also send the other party directly to the altar.

The great Supreme True God is in need of sacrifices.

The entire Niulanshan tribe is still the same as usual, without any atmosphere of the coming war.

Zhang Yuhe was like lightning, quickly passing through the mountains and rivers.

He ignored some low-level chaos beasts he saw on the road.

His goal is the entire Niulanshan tribe.

As for these low-level chaos beasts, don't worry about them at all.

Just take down the Niulanshan tribe.

There will be plenty of time to clean up slowly in the future.

...

Niu Er is a nine-star chaos beast.

In addition to those king-level chaos beasts, it is one of the strong ones in the tribe.

At this time, Niu Er is slowly wandering among the mountains.

It is going to find Niu Cuihua next door to talk about the way of evolution.

Suddenly, Niu Er stopped.

It felt a strong breath approaching the tribe quickly.

Niu Er looked into the distance with concentration.

I saw a figure quickly passing through the void.

There are actually cultivators who broke into the great Niulanshan tribe.

Seeing this.

Niu Er simply couldn't stand it.

He shouted loudly while intercepting the other party.

"How dare you break into my Niulanshan tribe?"

Zhang Yuhe glanced into the distance.

There is still some distance from the core area of Niulanshan.

He didn't expect to be discovered by the Chaos Beast so quickly.

It was also his fault that he was in a hurry to get on the road and didn't hide his body.

Forget it.

He was too lazy to get entangled with it.

Zhang Yuhe pointed out casually.

A faint black light flashed through the void with a terrifying pressure. .

The black light instantly hit Niu Er's head.

Niu Er's momentum of running wildly stopped immediately.

Soon he fell down silently again.

It died.

It died very cleanly.

He didn't even struggle.

The nine-star Chaos Beast was also killed instantly.

The Soul-Destroying Finger plus the Soul Law of the Great Perfection Realm is so domineering.

As long as the cultivation level does not exceed the Taiyi Realm.

Whether it is a cultivator or a Chaos Beast.

Zhang Yuhe does not need to use a second move.

He can kill with one finger.

And it is silent.

It is so strong.

This is Zhang Yuhe's true strength after being promoted to Taiyi Immortal Lord.

...

Chapter 372 The advantage is mine

After Zhang Yuhe casually used the Soul-Destroying Finger to kill a nine-star Chaos Beast.

He did not stop for a moment.

Instead, he continued to move forward at a high speed.

However, Niu Er's roar before his death still awakened the Chaos Beasts of the entire Niulanshan Tribe.

Countless high-level Chaos Beasts rushed out from the mountains.

The roars of beasts rose and fell one after another, resounding throughout the Niulanshan Tribe.

Seeing this situation.

Zhang Yuhe couldn't help but frown slightly.

Originally, he was still thinking.

Whether he could rush directly to the core area of the Niulanshan Tribe.

Then he deployed the Nine Heavens Primordial Sword Formation to clear out most of the Chaos Beasts in the entire tribe.

Now it seems that something unexpected happened.

A large number of Chaos Beasts rushed out of the Niulanshan Tribe.

They looked up at the sky.

Soon they found Zhang Yuhe flying at high speed.

Roar...

The deafening beast sound shook the entire tribe.

"Forget it, let's do it here."

Seeing a large number of Chaos Beasts rushing over.

Zhang Yuhe quickly stopped.

There was no point in rushing over again.

There were so many Chaos Beasts in the Niulanshan Tribe.

He was not interested in chopping them one by one slowly.

If that were the case.

How long would it take to chop them all?

It would be more convenient to use the sword formation.

Thinking of this.

Zhang Yuhe waved his right hand.

Nine immortal swords quickly fell towards the distance.

As a fourth-level tribe, Niulanshan covers a vast area.

Even if the Nine Heavens Primordial Sword Formation is strong.

Section 472

It is impossible to cover the entire tribe.

With Zhang Yuhe's current range of control, it is impossible to control such a large range of sword formations.

But it doesn't matter.

If it can't be cleared in one time, then try again.

As the fairy sword fell quickly.

A faint sword light curtain slowly rose around.

The huge sword light curtain instantly surrounded a large number of chaos beasts.

Zhang Yuhe stood in the air, his expression was extremely indifferent.

He quickly pinched the magic formula.

The boundless sword energy, with a terrifying pressure, swept across the sky and the earth.

Those low-level chaos beasts were instantly swept away.

At this time, the only ones who could hold on in the sword formation were those Chaos Beasts of Taiyi Realm above seven stars.

However, Niulanshan, as a fourth-level tribe.

There are indeed quite a few Chaos Beasts above seven stars.

Zhang Yuhe controlled the sword formation and quickly narrowed the coverage.

He wanted to clear the group of Chaos Beasts in front of him as quickly as possible.

There are still a large number of Chaos Beasts in other places, waiting for him to go and clean them up.

Niulan Mountain is so large.

It is not so easy to clean up all these Chaos Beasts without sweeping them seven or eight times.

As the range of the sword formation quickly narrowed.

Those seven-star Chaos Beasts also fell to the ground and left quickly.

Looking at the sword formation.

The remaining eight-star and nine-star Chaos Beasts are still struggling and unwilling to die.

Zhang Yuhe frowned slightly.

"It's really troublesome, can't they die quickly?"

Zhang Yuhe raised his right hand.

He pointed out a few soul-destroying moves and quickly solved these Chaos Beasts.

Looking at the crystal cores and Chaos Beast corpses all over the ground.

Zhang Yuhe rolled his right hand.

He rolled all the crystal cores and corpses on the ground into his sleeves.

After doing all this.

Zhang Yuhe quickly flashed and continued to fly to the core area of the Niulan Mountain tribe.

He cleared a large number of Chaos Beasts with a sword formation.

But the remaining Chaos Beasts in the Niulanshan Tribe were not afraid at all.

Under the leadership of those nine-star Chaos Beasts.

Countless Chaos Beasts rushed out of the mountains and forests and rushed towards Zhang Yuhe quickly.

For the Chaos Beasts.

This is their tribe, the holy land in their minds.

They will never allow human cultivators to defile their tribe.

Although these Chaos Beasts can see it now.

The strength of the human cultivator in front of them is extremely terrifying.

Even if they rush harder, they are just sending themselves to death.

Despite this.

They have to continue to rush.

Because they have no way to retreat.

The kings of the tribe have been taken away by the high priest.

The entire Niulanshan Tribe does not even have a king-level Chaos Beast left behind.

If they don't fight hard again.

Maybe it won't be long.

Their Niulanshan Tribe will become history.

So even if they know they will die.

Countless Chaos Beasts still rush towards Zhang Yuhe.

As they run wildly, they roar.

They are passing messages.

Now the Niulanshan tribe is facing a huge crisis.

If the high priest Niu Man does not bring other kings back to help the tribe.

Then the countless years of Niulanshan's foundation may soon become a thing of the past.

They are now rushing towards Zhang Yuhe frantically, with the purpose of delaying time.

Delay until the high priest Niu Man brings other king-level chaos beasts back.

Continuous roars of beasts come one after another.

It has been transmitted to the vicinity of Fengling Valley.

However.

At this time, Niu Man is trapped in the world of Qiankun.

This powerful Taoist technique completely isolates the world.

Even if the roars of beasts outside are already earth-shaking.

It can't hear anything.

At this time in the world of Qiankun.

Under the leadership of the Immortal King Liuyue.

They have successively wiped out the chaos beasts in three small spaces.

The number of king-level chaos beasts killed by them has reached nine.

This is a very great result.

You know.

Each king-level chaos beast has earth-shattering strength.

That is comparable to the existence of the Great Luo Immortal King.

In just a moment, they killed nine of them.

In the history of the South Sea Immortal Domain.

Such a huge victory has not appeared for many years.

There are still fifteen king-level chaos beasts left at the scene, including Niu Man.

And the six Great Luo Immortal Kings of the human race are now unscathed.

Boom...

Under the leadership of Niu Man, the five king-level chaos beasts, after a vigorous attack.

Finally broke through a space barrier.

The three chaos beasts trapped next to them quickly came over.

Niu Man's eyes swept around.

Now they have gathered a total of eight king-level chaos beasts.

There are also seven chaos beasts, trapped in two independent spaces.

Three chaos beasts in one space are facing the siege of the Great Luo Immortal King of the human race.

Niu Man knows without thinking.

These three king beasts are no longer safe.

Although their combined power is now stronger than before.

The speed of breaking the space barrier should be much faster.

But no matter how fast they are.

It is impossible to get there before the three king beasts are killed.

Open up the space connection on both sides.

Niu Man looked at another independent space.

There are still four king-level chaos beasts there.

And these king beasts have not been attacked by the human race's Daluo Immortal King.

As long as they move faster.

Maybe they can get through the connection with this space before the human race's Daluo Immortal King.

As long as they can get through the connection with another space.

Section 473

Then there will be twelve king-level chaos beasts that they can unite with.

There are only six Daluo Immortal Kings in the human race.

Twelve to six, the advantage is mine.

Think of this.

Niu Man waved the spear in his hand and shouted loudly to the Chaos Beast beside him.

"Follow me and get in touch with other people as soon as possible."

Under the leadership of Niu Man.

Eight powerful king-level chaos beasts blasted against the space barrier.

...

Chapter 373 Niu Man's back-up plan

Niu Man blasted the space barrier in front of him while looking at the three king-level chaos beasts not far away.

Under the siege of Wanshan Immortal King and others.

These three king-level chaos beasts have been beaten into blood gourds.

However, the Chaos Beast has tenacious vitality.

These three king-level chaos beasts should not be dead for a while.

Niu Man hoped that these three king-level chaos beasts could last a little longer.

Just hold on to them and join the four Chaos Beasts in another space.

Although the human monks.

The strength of Liuyue Immortal King and Wanshanhe Immortal King are indeed incredible.

Niu Man even felt that any of the two Daluo Immortal Kings could crush him.

But that's okay.

Because the remaining four Daluo Immortal Kings from the human race are also weaklings.

Not too difficult to deal with.

As long as the remaining king-level chaos beasts can all be united together.

That's a twelve to six advantage.

No matter how powerful Wanshan Immortal King and Liuyue Immortal King are.

But they have a huge numerical advantage, and they are still capable of fighting again.

Just when Niu Man was still thinking about the future battle situation.

Suddenly, there was a sudden burst of fear in its heart.

It seemed as if something particularly terrible had happened.

"Not good, the tribe was attacked by human monks."

Continuous fear in my heart.

This made Niu Man wake up instantly.

This is a signal that a large number of Chaos Beasts have fallen in the tribe.

As the high priest of Niulan Mountain.

As long as a Chaos Beast dies in the tribe, it can sense it.

But just now it was only focused on attacking the space barrier in front of it.

Didn't pay much attention to it.

Only then did it react.

Just a little while ago.

On the Niulan Mountain tribe, a large number of chaos beasts fell.

They range from one star to nine stars.

And a lot of people have died.

It is estimated that most of the chaos beasts in the entire tribe are almost dead at this time.

obviously.

This is a human monk who is indiscriminately massacring the Chaos Beasts of the Niulan Mountain Tribe.

Roar.....

Think of this.

Niu Man couldn't help but let out an angry roar.

"Bold."

It was completely unexpected.

He just brought a group of king beasts out to support the surrounding tribes.

How could such a big change happen?

First, they were a group of chaotic beasts who were trapped by Immortal King Liuyue's Taoism.

Then those powerful king-level chaos beasts are like little piggies.

He was surrounded and killed by the Da Luo Immortal King of the human race.

Now it's even more extreme.

There are actually human monks who have killed their tribe in Niulan Mountain.

Judging from the speed of the fall of the Chaos Beasts in the tribe.

The human monks who attacked the Niulanshan tribe were at least as good as the Great Luo Immortal King.

And there must be more than one Da Luo Immortal King.

Otherwise.

How could the Chaos Beasts of their tribe die so quickly?

The massive amount of information induction would make its head explode.

"Damn it, how can there be so many Daluo Immortal Kings from the human race?"

"Is it the Divine Beast Sect?"

The three superpowers of the South China Sea Immortal Domain.

All the Immortal Kings from Wanshan Gate and Chaotian Palace are here.

Only the Immortal King of the Divine Beast Sect did not see any of them.

Niu Man hardly thought about it.

He thought it was the Immortal King of the Divine Beast Sect and attacked their Niulan Mountain tribe.

Because there is really no other force nearby that has such strong strength.

"Damn the Divine Beast Sect."

The more Niu Man thought about it, the angrier he became, and his heart became more and more irritable.

Poor Divine Beast Sect.

They did nothing and were blamed for nothing.

Fortunately, this black pot should not be too heavy.

After all, the once powerful Niulanshan tribe has now had its legs broken.

And it is very likely that they will all be killed immediately.

It seems that there is no harm in memorizing this pot of divine beast sect.

Not a big problem.

Seeing Niu Man suddenly becoming violent and attacking the space barrier, he felt a little unsteady.

Niu Lin, who was next to him, quickly asked.

"High Priest, what happened?"

Niu Man took a deep breath, and then said bitterly.

"The tribe has been attacked, and now the chaos beasts in the tribe are falling rapidly."

"It's probably the Immortal King of the Divine Beast Sect who took action."

"Damn the Divine Beast Sect."

To this day, Niu Man still hasn't forgotten and scolded the Divine Beast Sect.

It's so hateful.

They are still fighting to death here.

As a result, the home was robbed.

What the hell is this?

Hearing Niu Man's words.

The surrounding Chaos Beasts jumped up in shock.

Niu Lin said anxiously.

"High Priest, we can't delay any longer. We have to go back as soon as possible to provide support."

Niu Man looked at the light curtain in the distance, feeling helpless in his heart.

How to go back now?

Section 474

They are trapped in Taoism.

As long as Liuyue Immortal King's immortal power can still sustain it.

This damn space will always exist.

Unless they can beat Immortal King Liuyue to death.

But is this possible?

Totally impossible.

There is still a small space between them and Immortal King Liuyue.

You can't reach them at all.

Even if you want to hit, you can't.

Moreover.

How could a ruthless person like Immortal King Liuyue be beaten to death so easily?

Not to mention that there is Immortal King Wanshan nearby.

Even if Liuyue Immortal King is alone.

With their current lineup, they would not have a chance to surround and kill the Liuyue Immortal King.

Now they are trapped here, and the chaos beasts in the tribe are being massacred.

Even if they want to rescue, they don't have the ability to go back.

"I hope that Venerable Helan, for the sake of past friendship, can help me, right?"

Niu Man felt a deep sense of powerlessness in his heart.

It looked up into the distance.

We can only place our hope in the venerable people of the Helan Mountain tribe.

Niulanshan is not only strong in itself, but also has a super big backer.

That is one of the most powerful forces in the entire Chaos Continent.

Helan Mountain tribe.

When I was first trapped by Taoism.

Niu Man tried it and contacted Helan Ruobei.

It's just that this damn Taoism is really weird.

It was actually completely unable to get the message out.

despite this.

As the high priest of Niulan Mountain.

Niu Man still has a hand in the tribe.

It placed a special communication tool on the tribe's altar.

As long as there are enemies, attack near the tribal altar.

That prop will automatically send a request for help message to Helan Mountain.

"I hope the venerable master of Helan Mountain can save our tribe, right?"

Niu Man took a deep breath, his eyes turned red.

He waved the spear in his hand wildly and continued to bombard the space barrier in front of him.

anyway.

They have to repel Immortal King Liuyue and others first.

As for the tribe, you can only look at the sages from Helan Mountain.

Will they do their best to rescue?

Zhang Yuhe swept all the way.

He quickly deployed his sword formation and harvested the Chaos Beasts batch after batch.

After harvesting a batch.

He continued to move forward, and then spread out his sword formation to sweep across again.

that's all.

Relying on the Nine Heavens Hunyuan Sword Formation, it has powerful sweeping ability.

Zhang Yuhe quickly advanced all the way to the altar of the Niulan Mountain tribe.

He looked toward the altar. .

I saw a simple horn placed on the high platform in the center of the altar.

Zhang Yuhe flew past and was about to land on the altar.

Just at this time.

The horns on the high platform suddenly glowed with red light.

The light shot straight into the sky, instantly dyeing the entire sky blood red.

"not good."

See this situation.

Zhang Yuhe immediately felt something was wrong.

This simple horn should be a special communication tool.

Is the Niulan Mountain tribe asking for help?

...

Chapter 374 The Supreme Chaos Beast

See the red light emanating from the cow's horns.

Zhang Yuhe immediately felt something bad.

Very obvious.

This is an automatic rescue prop.

As for the Niulanshan tribe, it is difficult to say where they are asking for help.

But with the strong strength of Niulan Mountain.

The forces that can rescue them must be extraordinary.

"It can't be the twelve major tribes, right?"

Think of this.

Zhang Yuhe had the urge to run away.

The twelve major tribes in the Chaos Continent are as powerful as the Immortal Realm.

Since the beginning of history in the fairy world.

There have always been twelve major tribes.

You can say that.

These twelve major chaos beast tribes have a longer history than the Immortal Path.

As far as he knows.

Each of these twelve major tribes has a respected Chaos Beast in charge.

And there are more than one or two.

According to the classic records.

These large tribes that have existed since ancient times have at least three to five supreme-level chaos beasts.

There are even dozens of them.

A supreme-level Chaos Beast is equivalent to a Dao Ancestor emperor-like existence among monks.

Zhang Yuhe looked up and saw the red light in the sky.

His face couldn't help but turn a little dark.

"There can't really be a supreme-level Chaos Beast running over to rescue it, right?"

Zhang Yuhe thought silently in his heart.

He is not afraid of king-level chaos beasts.

Even if he faced the most powerful king-level chaos beast, he was confident that he could save his life.

But facing the supreme Chaos Beast, it's completely different.

He is not arrogant enough to withstand the attack of the supreme Chaos Beast.

Even if the Hunyuan Guiyi magical power is activated, the supreme Chaos Beast can still slap him to death.

Do you want to run away quickly?

Zhang Yuhe was extremely confused.

He had just roughly wiped out the chaos beasts in the Niulanshan tribe.

Now is the time to start harvesting.

It would be such a loss to just run away like that, right?

"First do a quick search, and then observe the situation."

Zhang Yuhe made a decision quickly.

It's impossible to run away directly.

Section 475

There are so many treasures on the ground, if he doesn't pick them up now.

He will regret it for the rest of his life.

More importantly.

Zhang Yuhe thinks.

The possibility of the appearance of the Supreme Chaos Beast is not high.

Although Niulanshan has sent out a message for help.

But the Supreme Chaos Beast, such a terrifying existence, should not be so easy to dispatch.

That is equivalent to the existence of the Taoist Ancestor.

It can't be so shameless.

Besides.

Doesn't the human race still have the Taoist Ancestor Tianxing?

Zhang Yuhe remembers that when he was meeting in Wanxian City.

According to what the Immortal King Wanshan said.

The Taoist Ancestor Tianxing is also paying attention to this action.

If a Supreme Chaos Beast is dispatched.

The Taoist Ancestor Tianxing can't just sit back and watch.

After comprehensive consideration.

Zhang Yuhe made up his mind.

I don't care about anything.

First search and then see the fairy mines and resource output here.

He also wants to use this place as the foundation of the Taoist Saint Sect in the Chaos Continent.

How can I give up so easily?

Thinking of this.

Zhang Yuhe's expression changed.

One after another, figures quickly appeared around him.

"Go."

He pointed his hand.

Three thousand avatars quickly spread out.

Niulan Mountain is such a big place.

If he relies on himself, how long will it take to search?

It is more convenient to use avatars.

After he was promoted to Taiyi Immortal Lord.

The strength of these avatars also improved to the realm of True Immortal.

In the Chaos Continent, ordinary True Immortals are nothing.

They are all cannon fodder.

But Zhang Yuhe, these three thousand avatars.

They are not comparable to ordinary True Immortal cultivators.

The avatars also mastered the nine supreme laws.

With the powerful power of the laws.

Even if the avatars cannot use immortal tools.

The strength will not be much worse than that of ordinary Golden Immortal cultivators.

Now there are basically no high-level Chaos Beasts in the Niulan Mountain tribe.

After the multiple rounds of sword formation sweeps just now.

Those high-level Chaos Beasts had already been cleared out by him.

Even ordinary Chaos Beasts, it is estimated that there are not many left.

Three thousand incarnations quickly spread out.

Not only can they help him quickly collect natural materials and treasures from all over the place.

Most importantly.

They can help him be alert to the powerful enemies that may appear.

If a Supreme Chaos Beast really appears.

He also has enough reaction time to run away and escape.

After the incarnations dispersed.

Zhang Yuhe looked in a direction and quickly searched there.

...

In a place far away from Niulan Mountain.

Helan Ruobei stood among the mountains.

It looked up at the sky.

It saw patches of blood-red in the direction of the distant Niulan Mountain.

This was the vision caused by the token it gave to the high priest of Niulan Mountain.

If you encounter danger, you can activate the token to ask for help.

"Is Niulan Mountain in crisis?"

Looking at the blood-filled sky in the distance.

Helan Ruobei thought silently.

Niulanshan is not weak.

And there are no strong enemies around.

Only the cultivators of the South Sea Fairyland have built some fairy cities nearby.

The cultivators of the South Sea Fairyland should not threaten the safety of Niulanshan.

Besides.

Among the three super powers of the South Sea Fairyland, there is one that it has planted.

The remaining two super powers would not dare to provoke Niulanshan.

Could it be that the Daozu has taken action.

Thinking of this.

Helan Ruobei looked at the bloody clouds in the distance, and his face couldn't help but be a little gloomy.

It's a bit against the rules for the Daozu to take action against the fourth-level tribe.

Do the Daozu emperors of the human race want to start a war again?

"Forget it, no matter what, let's go and take a look first."

Helan Ruobei couldn't figure out what happened over there in Niulanshan.

But it doesn't matter.

Go and take a look, and everything will be clear.

If the Daozu emperor of the human race really wants to start a war.

The twelve Chaos Beast tribes were not vegetarians either.

In all the previous wars.

They, the Chaos Beasts, relied on their huge numerical advantage and basically never suffered losses.

They were really not afraid that those Dao Ancestors of the human race would cause trouble.

Thinking of this.

Helan Ruo raised his hand and punched.

A huge black hole was blasted out in the void.

The space barrier of the fairy world was extremely solid.

Even if the Daluo Immortal King used all his strength.

It was difficult to break the void.

But as a Venerable Chaos Beast.

Helan Ruobei only used one punch to create a huge black hole in the void.

The strength of the Venerable Chaos Beast was revealed at this time.

Helan Ruobei did not hesitate and stepped into the black hole.

Almost in an instant, it appeared billions of miles away.

Helan Ruobei punched again, and then passed through the temporarily opened void channel.

Quickly move towards the direction of Niulanshan.

Chaos Beasts cannot use the teleportation array.

But Helan Ruobei, relying on his powerful strength, quickly shuttled through the void.

Even though the Niulanshan tribe was in an infinitely remote location.

Section 476

It probably won't take too much time for it to get there.

Helan Ruobei broke through the void all the way and quickly approached the Niulanshan tribe.

At this time, Zhang Yuhe was still happily searching for natural treasures.

Facing the impending crisis, he was completely unaware.

...

Chapter 375 Treasure Land

Zhang Yuhe didn't know that a super-large crocodile was rushing towards him quickly.

It's no wonder that he made a misjudgment.

Because it was the result of an information gap.

Zhang Yuhe never knew that there was a big backer behind Niulanshan.

He didn't even know that the super big backer was the Helanshan tribe.

To be honest.

His understanding of the twelve chaos beast tribes was limited to legends.

Legend has it that the twelve tribes are all located on the edge of the Chaos Sea.

There is an endless distance from the immortal city of the human race.

Even the top Daluo Immortal King may have to fly for hundreds of years.

To reach the Chaos Sea.

Such a long distance directly made Zhang Yuhe ignore the possible danger.

After all, distance creates beauty.

In his opinion,

Even if there are Supreme Chaos Beasts who want to come to support, it will probably be many days later.

Zhang Yuhe has never thought about it.

Supreme Chaos Beasts can actually break through the void and shuttle forward.

His understanding of the strength of Supreme Chaos Beasts is a bit too abstract.

He only knows that Supreme Chaos Beasts are very strong.

As for how strong they are, it is difficult to say clearly.

After all, the existence of that realm is too far away from him.

Zhang Yuhe has been practicing Taoism for too short a time, and has just broken through to Taiyi Immortal Lord.

There is also a layer of Daluo Immortal King in between.

Supreme Chaos Beasts like those comparable to Daozu are really beyond his imagination.

No wonder he neglected it.

At this time, the major forces are still attacking those third-level tribes rapidly.

Except for Mingsha Ridge, other third-level tribes have not been conquered by cultivators.

Although the human cultivators have the first-mover advantage and are stronger than the Chaos Beasts.

But they killed to the Chaos Beast's lair.

These Chaos Beasts will naturally fight back desperately.

It may take some time for those big forces to completely conquer a Level 3 tribe.

And they have to pay a huge price.

In the battlefield of Fengling Valley.

Six human Daluo Immortal Kings are fighting with the King-level Chaos Beasts of Niulan Mountain.

Under the fierce attacks of Chaos Beasts such as Niu Man, they finally get ahead of the Daluo Immortal Kings.

Join the Chaos Beasts in the third space.

Under the cover of the heaven and earth.

Six human Daluo Immortal Kings fight against twelve King-level Chaos Beasts in a shocking way.

Although Chaos Beasts have the advantage of double numbers.

However, on the side of the cultivators, there are Wanshan Immortal King and Liuyue Immortal King, two super powerful fighters.

Still suppressing the Chaos Beasts.

Wanshan Immortal King swings his double hammers, the right hammer circles Niu Lin, and the left hammer smashes the high priest Niu Man.

He fights alone against the two most powerful Nine-color King Beasts in Niulan Mountain.

It seems that they have a slight advantage in the situation.

As the number one person in the South Sea Immortal Realm, Wanshan Immortal King is indeed worthy of the title.

Because Wanshan Immortal King held back the two most powerful Chaos Beasts.

Liuyue Immortal King completely let go.

The golden spear in her hand was like a golden dragon.

It encircled six powerful king-level Chaos Beasts and attacked fiercely.

As for the remaining four king beasts, they were held back one by one by Chaotian Immortal King and others.

From the overall situation.

The human race Daluo Immortal King completely occupied the advantage.

If they can keep it up.

Then all the king beasts of Niulan Mountain may die today.

But they have fought for a long time today.

Especially Liuyue Immortal King.

She has to take on the main attack task and maintain the operation of the world.

Under this double consumption, the immortal energy in her dantian is rapidly decreasing.

If they can't play an advantage as soon as possible.

Maybe later.

Immortal King Liu Yue had to release the suppression of the heaven and earth.

Let these king-level chaos beasts escape.

However, for the six Daluo Immortal Kings present.

They have already made a lot of money today.

Even if all these king-level chaos beasts in front of them escape successfully.

That doesn't matter.

After all, before this, they had killed twelve king-level chaos beasts.

The brilliant degree of today's battle results has long been beyond everyone's plan.

As for these chaos beasts in front of them.

In their opinion.

It would be best if they could kill them all.

If it really doesn't work.

Then kill one and count it as one.

There is no need to force it deliberately.

Helan Ruobei blasted open the void and shuttled forward quickly.

However, the distance to Niulan Mountain is really too far.

Even if it shuttles through the void.

It will take some time to get there.

Zhang Yuhe stood in front of a fairy fruit tree full of spiritual energy.

He just waved his right hand.

The fairy fruit tree rose from the ground and quickly flew into the Wanlingtu.

The richness of Niulanshan's resources was far beyond his imagination.

Zhang Yuhe quickly searched along the way, all kinds of fairy fruits and fairy herbs.

He didn't know how many he had gotten, and he was a little numb.

At this time, the Wanlingtu space was already full of various precious fairy fruits and fairy herbs.

Zhang Shen in the Wanlingtu was so busy that he was almost smoking.

Every time he just finished planting a spiritual medicine or fairy fruit tree.

Zhang Yuhe threw in a large handful.

All kinds of precious spiritual medicines and fairy fruits were thrown in by Zhang Yuhe like weeds.

At this time, Zhang Shen was very confused.

He didn't know where Zhang Yuhe got so many precious fairy plants from.

Did he rob a Taoist ancestor?

This is impossible, right?

Section 477

Zhang Can shook his head and cleared all the messy thoughts.

Why bother so much.

He only needs to help Zhang Yuhe and quietly farm in the Wanlingtu.

The outside world has nothing to do with him.

He just hopes that Zhang Yuhe will not be beaten to death.

After all, this master is quite good to him.

If he can follow him forever, it would be a kind of happiness.

...

Zhang Yuhe flew quickly across Niulanshan.

When he saw spiritual medicine or fairy fruit trees on the road, he threw them directly into the Wanlingtu.

Anyway, there is Zhang Can, the professional planting master.

There is no need to worry that these spiritual medicines and fruit trees will die.

He quickly flew all the way.

He received all kinds of natural treasures.

As a fourth-level tribe, Niulanshan covers an extremely large area.

Even if he sent three thousand incarnations to search everywhere.

He did it himself.

However, the natural treasures everywhere could not be collected at all.

There are really too many.

In addition to spiritual medicines and fairy fruit trees.

Zhang Yuhe also harvested a large amount of refining materials, fairy ore and fairy wood.

However, these are not his main goals.

The most important thing for Zhang Yuhe is to find the mineral veins, spiritual land or fairy pond here.

Because only these things can support the long-term operation of a fairy city.

When Zhang Yuhe was quickly passing through the mountains.

Suddenly found that in the distance, there was a valley emitting an inexplicable mysterious atmosphere.

"Hey, what is that? Go and have a look."

When Zhang Yuhe flew over the valley.

Seeing the situation in front of him.

He was simply stunned.

"What kind of treasure land is this?"

I saw that the fairy spirit around the valley was as thick as rain.

Various mysterious auras of the avenue rose from the valley.

There was even a faint sound of the avenue coming from the valley.

...

Chapter 376 Treasure Land and Innate Dao Instruments

Seeing various strange phenomena rising in the valley.

Zhang Yuhe quickly remembered the records of the innate gathering spirit treasure land in the classics.

The fairy world is different from the lower world.

When in Yufantian.

Zhang Yuhe can gather the surrounding spiritual energy by arranging a gathering array.

To promote the improvement of cultivation speed.

But due to different rules.

There is no array in the fairy world that can gather spiritual energy.

The distribution of spiritual energy in the fairy world is relatively uniform.

Except for the spiritual energy near the spiritual vein, which will be more concentrated.

Other places are basically the same.

Zhang Yuhe once thought of various ways to increase the concentration of spiritual energy in Daosheng Sect.

As a result, except for improving the spiritual vein of Daosheng Sect, all other methods are not feasible.

And even if the spiritual vein is successfully upgraded, the impact on the speed of cultivation is very insignificant.

The effect is not too great.

At least for Zhang Yuhe, it is so.

But the innate spiritual gathering treasure land is completely different.

This kind of treasure land is formed innately.

No one knows the principle.

If you can find an innate spiritual gathering treasure land.

Then the cultivation speed of the cultivator will definitely increase exponentially.

And the innate spiritual gathering treasure land is not just as simple as improving the cultivation speed.

It also has a crucial role.

That is related to the innate Dao weapon.

As far as Zhang Yuhe knows.

At present, there are only three innate Dao weapons in the entire fairy world.

They are respectively in the hands of the top Dao ancestors of the three tribes of humans, demons and monsters.

As for the other Dao weapons, they are all refined after birth.

It is not that those Dao ancestors do not want to cultivate innate Dao weapons.

As Dao ancestors who have been in the fairy world for countless years, they can naturally get ordinary innate treasures.

And they also have enough fairy materials and fairy mines to cultivate innate treasures.

But except for the three innate Dao weapons.

Other innate treasures can only be cultivated to the level of top-grade fairy weapons at most.

The later the innate treasures are, the higher they will be.

Zhang Yuhe has a deep understanding of this.

He spent nearly 200,000 years, but he still couldn't upgrade the Nine Heavens Flying Spirit Stick to the level of a top-grade fairy weapon.

It's not that he didn't invest enough, but there are some other factors that restrict it.

In fact, in the fairy world, there must be more than one cultivator who is cultivating innate treasures.

But it is difficult for everyone to improve the innate treasure too much.

It is not only difficult for ordinary cultivators to upgrade an innate treasure.

Even those Dao ancestors are the same.

No matter how hard those Dao ancestors try, they cannot upgrade the innate treasure to the level of Dao tools.

Zhang Yuhe also accidentally saw the record of the innate spiritual gathering treasure land in a classic book.

Then he knew the reason.

According to the classic book.

Only those who have the innate spiritual gathering treasure land are qualified to upgrade an innate treasure to the level of Dao tools.

As for why there are only three innate Dao tools in the entire fairy world.

The reason is very simple.

Because so far.

Only three innate spiritual gathering treasure lands have been found in the entire fairy world.

And these three spiritual gathering treasure lands are respectively in the hands of the top holy lands of the three tribes of humans, demons and monsters.

As for other Dao ancestors' holy lands.

Because no innate spiritual gathering treasure land has been found, no matter how hard they try.

They cannot cultivate the innate treasure to the level of Dao tools.

"Is this really an innate spiritual gathering treasure land?"

Looking at the strange phenomenon rising in the valley.

Zhang Yuhe muttered to himself silently.

If it is really an innate spiritual treasure land.

So no matter how big the price is.

He also had to find a way to take this treasured land into his own hands.

"Go and take a look first."

Think of this.

Zhang Yuhe quickly jumped into the air and flew towards the valley.

Section 478

As he got closer to the center of the valley.

The surrounding spiritual energy became more and more intense.

It has completely reached the point where the spiritual energy has liquefied.

After a while.

Zhang Yuhe was standing next to a strange fairy pond.

The Fairy Pond is in the shape of the Big Dipper.

Various mysterious auras emanate from the fairy pond to the surroundings.

In each of the seven corners of the fairy pool, there is a crystal clear fairy stone.

See this situation.

Zhang Yuhe couldn't help being stunned, and he murmured to himself.

"Is this an innate spiritual material?"

He waved his hand.

Hold one of the fairy stones in your hand.

After careful inspection.

Zhang Yuhe is absolutely sure.

These fairy stones are innate spiritual materials.

In the same place, seven pieces of innate spiritual materials actually appeared.

There is no doubt that this strange fairy pond is the core of the innate spirit gathering treasure land.

Otherwise.

It is also impossible to cultivate seven innate spiritual materials here.

Think of this.

Zhang Yuhe was extremely excited.

It never occurred to him.

I can find such a treasure place by myself.

There is such a treasure in hand.

His cultivation speed will definitely increase a lot in the future.

Although after arriving at Taiyi Immortal.

Every time you advance to a higher level, it takes a long time.

But with this treasure.

That will definitely speed things up a lot.

Zhang Yuhe quickly took action and collected the remaining six innate spiritual materials.

A total of seven innate spiritual materials.

Just in time to increase the power of the Nine Heavens Hunyuan Sword.

His natal magic weapon consists of nine fairy swords in total.

before this.

He has already integrated two innate spiritual materials.

If you add the seven innate spiritual materials in front of you.

Then Zhang Yuhe's magic weapon.

Just upgrade them all.

By that time.

The power of the Nine Heavens Hunyuan Sword Formation must be extremely terrifying.

If that's the case.

Maybe with the sword formation, he could face off against the king-level chaos beast head-on.

Zhang Yuhe quickly searched around the valley.

Unfortunately.

Apart from the seven innate spiritual materials, no other precious items were found.

despite this.

Zhang Yuhe was not disappointed.

I can find a place that is an innate spiritual treasure place.

This is already an incredible opportunity.

There is a treasure in hand.

What else do you need is a bicycle?

The only problem now is what he can do to secure this treasure.

Being able to take complete control in your own hands.

Although he conquered the entire Niulanshan tribe by himself.

But if those Daluo Immortal Kings knew that there was a treasure land here for gathering spirits.

The outcome was almost doomed.

This treasure land definitely has no connection with him.

Then Daluo Immortal King, no matter how good his character is.

I guess I won't be able to bear it anymore and grab it with force.

Although Zhang Yuhe thinks he is pretty good.

But it is impossible to defeat those Da Luo Immortal Kings.

Because it was not one Daluo Immortal King, but six.

"No, let's hide this place first."

"When we build a fairy city here in the future, we won't be afraid of anyone coming to rob it."

Think of this.

Zhang Yuhe quickly flew out of the valley.

I saw him wave his right hand.

The array flags quickly fell towards the distance.

Follow the magic formula and pinch it.

A faint curtain of light rose from the outside of the valley.

The light curtain flashed past and quickly disappeared again.

Not only that.

The valley that originally stood before my eyes also disappeared without a trace.

Yin and Yang cover the sky.

This is a concealment formation created by Zhang Yuhe, taking advantage of each family's strengths.

Under the cover of this formation.

Even if Immortal King Da Luo passes by, he cannot find anything unusual.

Unless it's an attack.

Otherwise.

Others will definitely not be able to discover that there is a mysterious valley hidden here.

...

Chapter 377 Tianxing Taoist Appears

After Zhang Yuhe hid the valley, he quickly left.

Before he really grows up.

This innate soul-gathering treasure land is destined to never see the light of day.

Otherwise.

It is estimated that those Dao Ancestor Emperors will shamelessly go out and grab it.

Only when he is strong enough to ignore all opponents in the fairy world.

You don't have to worry about others coveting you.

Hide it first.

Grow quietly, don't use guns.

Zhang Yuhe left the valley and continued searching throughout Niulan Mountain.

Time passed slowly.

After searching for most of the day.

He finally searched everything near the Niulanshan tribe.

The results are very gratifying.

Because the Niulanshan tribe is located deep in the Chaos Continent.

before this.

Section 479

There are almost no traces of monks' activities here.

Moreover, Niulan Mountain is vast.

There are a large number of mineral veins distributed around the entire tribe.

After careful investigation.

Zhang Yuhe discovered a total of one fourth-level fairy mine and five third-level mineral veins.

As for the mineral veins below the second level, he didn't pay much attention to them.

Among them, the fourth-level mineral vein is called Zishuang Immortal Gold.

This is a core material for refining the best immortal weapons.

There are many types of top-quality immortal weapons, all of which use Purple Frost Immortal Gold.

the most important is.

The output of this precious fairy mineral is extremely small in the fairy world.

Every time a piece appears, it will cause the Daluo Immortal King to fight for it.

Except for those big auctions.

in general trading channels.

It is almost difficult to buy this precious weapon refining material.

In simple terms.

Purple Frost Immortal Gold is a high-level weapon refining material that is both precious and practical, and is also very popular.

There is such a fairy mine.

It is more than enough to support the operation of a king-level fairy city.

no doubt.

It is the most suitable choice to establish the Daosheng Sect's Immortal City near Niulan Mountain.

As for the other five third-level mineral veins, they are actually not bad either.

One kind of fairy mine is even more precious.

It was a red cloud fairy jade vein.

Red Cloud Immortal Jade is the core material for refining top-grade Immortal-Destroying Cannon.

Everyone knows the power of the immortal cannon.

The top-grade Immortal-Destroying Cannon is even comparable to the existence of Taiyi Immortal Lord.

Just one shot is enough to kill the seven-star chaos beast.

Even the eight-star Chaos Beast couldn't stop several bombardments from the top-grade Immortal-Destroying Cannon.

If used properly.

Even the Nine-Star Chaos Beast and the top-grade Immortal-Destroying Cannon can kill it.

In any big power.

Top-grade immortal-killing cannons are all strategic-level killing weapons.

Just like the Nangong Immortal Clan.

They have been developing in the fairy world for hundreds of millions of years.

I just got three top-grade immortal-killing cannons.

And Red Cloud Immortal Jade is the core material for refining top-grade Immortal-Destroying Cannon.

Its preciousness can be seen from this.

There is this Red Cloud Immortal Jade vein.

Zhang Yuhe can continuously refine high-grade immortal-killing cannons.

If we could produce more, a few high-grade immortal-killing cannons.

That could make up for the Dao Sheng Sect's lack of high-level combat power.

That way when faced with a crisis.

There is no need for him to take action every time.

Other elders in the sect relied on top-grade immortal-killing cannons.

Completely able to handle most crises.

Zhang Yuhe stood in mid-air.

Looking at the vast Niulan Mountain tribe, I couldn't help but feel ambitious.

With this foundation, why worry about the Tao Sheng Sect not flourishing?

Zhang Yuhe wanted to know.

If one day, Lu Yunfei returns.

How do you feel when you see the foundation he has laid?

That scene must be very interesting.

...

While Zhang Yuhe was still searching everywhere.

Helan Ruobei was still in the void, moving forward quickly.

The Niulanshan tribe is really far away from the sea of origin.

Even Helan Ruobei, as a noble-level chaos beast, can easily break through the void and shuttle forward.

It still takes a long time to catch up.

Helan Ruobei glanced into the distance.

I saw that the blood cloud hanging over Niulan Mountain had basically dissipated.

He didn't know what kind of crisis Niulan Mountain had encountered.

He is not even sure whether Niulan Mountain still exists.

Communication between Chaos Beasts is not as convenient as that of monks.

If the distance is not too far.

They generally convey information through roars.

If the distance is further.

Then we can only use some special props.

Because these props are obtained by offering sacrifices to the Supreme God.

So every piece is very precious.

Not only that.

The information these props can convey is also very limited.

So much so that Helan Ruobei only knew that Niulan Mountain was facing a huge crisis.

As for the specific situation, it has no idea at all.

"Isn't it already destroyed?"

"Forget it, why are you thinking so much? Just go and take a look and you will know."

"It's not that far away anyway."

Think of this.

Helan Ruobei blasted out a huge black hole again, and then stepped into it.

But when it came out from the other side of the black hole.

It happened unexpectedly.

I saw three giant cauldrons covering the sky, showing a mysterious formation.

He quickly pressed towards it.

See this situation.

Helan Ruobei's heart trembled.

It punched three times in a row.

The huge fist shadow blasted the void into a dense spider web.

The fist shadow knocked back the three giant cauldrons.

Helan Ruobei stood with his hands behind his back, his face extremely gloomy.

It looked up to the sky.

He said with a somewhat gloomy tone.

"Old ghost Tianxing, since you are here, why not show up and see him."

Seeing the three giant cauldrons reaching the sky.

Helan Ruobei knew that he would not be able to go to Niulan Mountain.

Because Tianxing Daozu had already intercepted it here in advance.

On strength.

The Dao Ancestor Emperor among the monks is basically slightly stronger than the Supreme Chaos Beast.

And Tianxing Daozu is the best among them.

It can't be beaten.

The reason why the Chaos Beast can suppress the monks.

Chapter 480

It is not based on individual strength, but on numbers.

The Daozu Emperors among the cultivators are indeed very powerful.

But there are many Chaos Beasts.

There are hundreds of Venerable Chaos Beasts in the twelve major tribes alone.

It is precisely because of the huge advantage in numbers.

The Chaos Beasts can suppress the cultivators and expand in the Chaos Continent.

Helan Ruobei knows himself.

It is definitely not able to beat Tianxing Daozu by itself.

If it takes action by force.

Then it is inevitable that it will be beaten again.

Of course.

It is indeed impossible for Tianxing Daozu to kill it in a short time.

But it is no problem to press it to the ground and beat it.

Thinking of this.

Helan Ruobei's face became more and more ugly.

No one likes to be beaten, and Chaos Beasts are no exception.

At this time.

A huge vortex suddenly appeared in the sky.

A figure with immortal style and Taoist bones slowly walked out of the vortex.

The person who came was Tiandao Daozu.

The top warrior among the cultivators, controlling the existence of multiple fairyland.

Tianxing Daozu stood in the air.

He just stretched out his hand.

The three giant tripods that covered the sky quickly shrank and then quickly returned to his side.

Three mysterious giant tripods that reached the sky slowly rotated around his body.

Tianxing Daozu glanced at Helan Ruobei, and then said lightly.

"Go back."

...

Chapter 378 Ignorance is also a kind of happiness

Tianxing Daozu did not take action directly.

Because even if he attacked as soon as he came up, it would be a waste of effort.

It is not so easy to kill a venerable chaos beast.

Chaos beasts have strong defense.

Especially for venerable chaos beasts, that is even more so.

Although his strength is far stronger than Helan Ruobei.

Let alone only one Helan Ruobei came.

Even if three or four venerable chaos beasts came at the same time, he would not be afraid at all.

But whether he can beat them or not is another matter.

Whether he can be beaten to death is another matter.

Tiandao Daozu can suppress Helan Ruobei.

But there is no need.

Anyway, he can't kill him for a while.

Why should he waste his energy.

If he really gets angry.

Helan Ruobei summoned all the supreme chaos beasts in the entire Helan Mountain.

Then he has to run away.

Helan Mountain is not an ordinary tribe.

In the entire Helan Mountain tribe, there are at least twenty supreme chaos beasts.

If they rush in all at once.

Tianxing Daozu has no other choice but to run away.

He doesn't have an innate Taoist weapon, so he dare not face the siege of a large number of supreme chaos beasts.

Since he can't be killed, it's better to let Helan Ruobei go back directly.

Of course.

If Helan Ruobei doesn't know what's good for him, he must let him loosen his bones.

Tianxing Daozu will naturally not be polite.

Anyway, he is free.

Beat him up and leave, that's fine.

Helan Ruobei looked at Tianxing Daozu in the air, his face was extremely gloomy.

Especially the words of Tianxing Daozu, which made him very unhappy.

What do you mean go back?

These words came out of Tianxing Daozu's mouth lightly.

It was as if he was saying, have you eaten?

It felt light and calm.

However, to Helan Ruobei, it was very harsh.

It took so much effort to break through the void and run here.

Now it's actually let it go back?

Think of it, Helan Ruobei, it is also a dignified Chaos Beast.

Doesn't it have face?

However, although he was angry.

Helan Ruobei could only hold his anger in his heart.

There was no way.

The situation was stronger than the person.

He couldn't beat them.

And this place was very far away from Helan Mountain.

Even if it wanted to call other Chaos Beasts in the tribe to come to support.

It didn't know when it would have to wait.

Maybe wait until the reinforcements arrive.

It might have been beaten half to death.

Helan Ruobei became more and more angry, and he asked Tianxing Daozu hatefully.

"Tianxing old ghost, do you want to start a war?"

To be honest.

Until now, Helan Ruobei still doesn't understand what happened.

Originally, he thought that Tianxing Daozu might have attacked the Niulanshan tribe.

But now it seems that this is not the case.

Because Tianxing Daozu is right in front of him.

He doesn't have the skill of splitting.

It is impossible to destroy Niulanshan while freeing up his hands to intercept him here.

In other words.

The cultivator who attacked the Niulanshan tribe should be someone else.

Could it be that there are multiple Daozus who attack together?

It shouldn't be possible.

There are only a few Daozus in the fairy world.

It's not so easy for them to get together at ordinary times.

There hasn't been any major events recently.

Those Daozu emperors shouldn't deliberately make trouble.

Helan Ruobei didn't know what exactly happened, so he could only ask angrily.

Tiandao Daozu looked up at the sky and responded indifferently.

"It doesn't matter if we start a war."

"Speaking of which, the Chaos Continent has been peaceful for a long time, so it's okay to have a big fight now."
