Section 581

The Daluo Immortal Kings of each Immortal Realm are already preparing to enter the South China Sea Immortal Realm.

There will be a large number of Taiyi Immortal Lords and even Golden Immortal monks later.

Will also arrive at the South China Sea Fairyland.

In order to fight against the chaos beasts in Helan Mountain.

Immortal King Liuyue mobilized a large amount of combat power from various immortal realms.

Although the follow-up forces still need time to be assembled, they are not yet in place.

But those Daluo Immortal Kings should probably have arrived.

Think of this.

Helanbieye immediately gave the order.

All the king-level chaos beasts were dispatched together and quickly supported Liuhetian.

It would rather travel in vain.

I don't want any accidents to happen on the other side of the space channel.

Although it is on the other side of the space channel, it also leaves behind a strong protective force.

There are hundreds of king-level chaos beasts alone.

But facing the Da Luo Immortal King of each immortal realm, there is still no chance of winning.

Helanbieye is a conservative estimate.

There should be more than three hundred Daluo Immortal Kings that can be gathered in each immortal realm.

Faced with such a huge force.

It cannot be valued too highly.

Following Helanbieye's order.

Thousands of king-level chaos beasts rushed out from the Ten Thousand Immortals Gate station.

He ran all the way towards Liuhetian in the distance.

The shocking momentum soared into the sky.

Behind them, there is also a huge army of Chaos Beasts, following quickly.

Zhang Yuhe piloted the fairy ship and flew quickly all the way.

After a while.

He quickly chased after the Starlight Immortal Ship of Immortal King Liuyue.

After all, it didn't take much time to intercept the Chaos Beast team just now.

Two fairy ships flew side by side.

The location of the passage to Liuhetian is getting closer and closer.

There are more and more Chaos Beasts encountered on the road.

Now they have no intention to clean up these chaotic beasts anymore.

Because everyone understands.

Now their whereabouts must have been exposed.

Chaos beasts appear around from time to time.

Their whereabouts can no longer be hidden.

It's just a matter of time now.

They have to rush before the Chaos Beast on the Wanxian Sect side reacts.

Rush straight into the space passage and kill all the chaos beasts near the passage.

Just do this.

Then most of their goals this time have been achieved.

Of course.

If the space channel can be temporarily sealed for a period of time.

That's even better.

But this will take time.

It just depends on how long it will take for the Chaos Beasts from the Wanxian Sect to come over with support.

Liuhetian, near the space channel.

Helan Xilin was looking around vigilantly.

Ever since the Helan Mountain tribe entered the South China Sea Immortal Domain.

It has been staying near the passage.

This is the Chaos Beast's retreat, and there must be no accidents.

to this end.

Helanbieye also sent more than a hundred king-level chaos beasts specifically to it.

As for the ordinary army of chaos beasts, there aren't many.

The total number does not exceed one hundred thousand.

Guarding such a critical place does not rely on numbers.

And it requires top combat power.

As a nine-color king beast.

Helan Xilin is confident.

As long as Taozu doesn't come over.

It can firmly guard the space channel.

This is not just because it has more than a hundred king-level chaos beasts under its command.

more importantly.

On the Chaos Continent opposite the passage, there are also hundreds of king beasts staying behind.

Once the matter is urgent.

The king-level chaos beast on the opposite side can quickly pass through the passage.

Arrive here for support.

The remaining forces on both sides combined totaled nearly three hundred king-level chaos beasts.

If such a powerful force cannot hold the space channel.

That's the weird thing.

Although Helan Xilin is confident, it does not have any carelessness.

just now.

The commander-in-chief, Helan Bieye, sent an urgent message to it.

It is said that he is the Immortal King Liuyue, the Daluo Immortal King who leads the various immortal realms.

It may have entered the Wanshan Sea Area.

And their target is probably the space channel of Liuhetian.

If Helanbieye lets it go, you must be more vigilant.

Once the situation is not right.

He immediately called and the Chaos Beast on the other side of the passage came over to support him.

Moreover, Helanbieye has already led all the king-level chaos beasts.

Heading towards Liuhetian.

After receiving the message.

Helan Xilin immediately sent out a large number of Chaos Beasts to expand the warning range along the edge of Liuhetian.

Although Helanbieye's summons is only a possibility.

But Helan Xilin did not have any carelessness.

It guards the life passage of the Chaos Beast.

Once something unexpected happens.

That is the sinner of the tribe.

"Roar....."

Just at this time.

Loud roars kept coming from a distance.

"No, a monk is really coming."

The roar in the distance is the warning sentry it has set up in advance.

As long as a monk invades, a warning will be issued immediately.

Think of this.

Helan Xilin immediately stretched out his hand and pointed at a nine-star chaos beast next to him.

"You go through the passage immediately and ask for help from Mr. Anyuan on the other side."

"Let it lead the king beast over there and come over immediately for support."

"yes."

The nine-star chaotic beast next to him quickly rose into the air and jumped into the space passage.

Section 582

Just at this time.

Two streams of light passed by in the distance.

Boom...

A blazing light flashed from a distance.

The light passed through the void and instantly bombarded the vortex of the space channel.

The violent space scenery raged in the passage in an instant.

"Ahhhh..."

A scream came from the whirlpool.

...

Chapter 444: Hammer on the ground

The space storm in the passage raged.

The nine-star chaos beast didn't even hold on for a second.

It was directly torn into pieces by the violent space storm.

See this situation.

Helan Xilin couldn't help being frightened.

The space channel is connected inside and outside, and both sides can quickly support each other.

This is exactly where its confidence lies.

However, now it has not even seen the shadow of the enemy.

A terrifying cannon shot in the distance immediately destroyed this space passage.

As for within a short period of time.

This space channel will no longer be usable.

I want to wait until the space storm in the passage slowly calms down.

I'm afraid it will take half an hour.

How could they wait for such a long time?

Now the enemies are all here, coming to the door.

If you really have to wait for half an hour, I'm afraid the cucumbers and vegetables will be cold.

The two immortal ships rowed across the sea and rushed towards the passage at high speed.

The powerful chaos beasts around them rushed forward as if they were desperate.

But everyone ignored it.

Rush to the other side of the passage first.

If this space channel is not cut off, this battle cannot be fought.

The Helan Mountain Tribe is in the Chaos Continent, and there is also a massive army of Chaos Beasts.

If the channel has been smooth.

Those armies of Chaos Beasts can pass through the passage and enter the South China Sea Immortal Realm continuously.

No matter how strong and fierce they are.

It is estimated that they will never be killed.

Only the space channel must be closed, at least for a period of time.

Only then do they have a chance to fight the Chaos Beast.

Zhang Yuhe stands at the front of the fairy ship.

When he saw a nine-star chaos beast suddenly rushing towards the passage.

He decisively activated the chaos cannon on the fairy ship.

With a thunderous cannon blast.

The blazing light shot straight into the distance, creating a space vortex in mid-air.

The light passed through the space vortex and stirred up a strong space storm in the passage.

It is indeed not that easy to completely destroy or seal this space channel.

Even Tianxing Daozu couldn't do it.

But if you interfere with the use of space channels, it will be very simple.

Just blast into the space vortex.

When the power reaches a certain level.

It can stir up a strong space storm in the passage.

In this situation.

Except for the supreme Chaos Beast.

The other chaotic beasts of the Helan Mountain tribe no longer dare to enter this space passage.

Powers below the level of respect are completely unable to face that terrifying space storm.

We can only wait for the space storm in the passage to slowly calm down.

before it can be used again.

But will Zhang Yuhe give them time?

Obviously not.

Wait until all the Chaos Beasts nearby are dealt with.

They can take other measures to interfere with the operation of the space channel.

Whether it's using magical weapons or directly using chaos cannons to blast them.

All can form strong disturbances in the channel.

In fact, the best way is to arrange a formation near the passage.

Through the power of formation.

Constantly sending interference power into the channel.

The space storm in the passage will never have a chance to calm down.

Of course.

There is a major premise here.

That is.

The only way they can hold on is on the Liuhetian Space Channel.

Otherwise.

Once wait until they leave.

The Chaos Beasts in Helan Mountain can quickly destroy the formation.

Re-open the space channel and restore it to its use state.

But Zhang Yuhe is not in a hurry.

The meal must be eaten one bite at a time, and things must be done step by step.

Let's deal with all the chaos beasts here first.

The two fairy ships quickly rushed towards the direction of the space passage.

There were nearly three hundred people on the immortal ship approaching Daluo Immortal King, and their tyrannical aura spread out wantonly, shooting straight into the sky.

See this situation.

Helan Xilin's face was gloomy.

It knows.

Now has arrived, the most critical moment.

On the side of the human monks, so many Daluo Immortal Kings came unexpectedly.

And the king-level chaos beasts they left behind were only a hundred or so.

Although there are other chaos beasts around.

But the collision of king-level powers.

It is simply impossible for those Chaos Beasts below nine stars to play any role.

Fortunately, Helanbieye mentioned it during the summons just now.

It is leading the other king-level chaos beasts and is running towards this side quickly.

That is to say.

Helan Xilin only needs to hold these Daluo Immortal Kings back for a while.

When Helanbieye arrived, the support force led by him arrived.

Then the victory is still on your side.

It doesn't believe it.

Combined, there are more than a thousand king-level chaos beasts on both sides, and they can't defeat these Daluo Immortal Kings.

This is impossible.

"snort."

Helan Xilin couldn't help but snorted coldly.

Section 583

It muttered to itself silently.

"Come on, wait for the commander-in-chief to lead the team to arrive, and you will be dead."

Thinking of this.

Helan Xilin shouted loudly.

"All Chaos Beasts, come together, stop those human cultivators, and defend the space channel to the death."

"The support forces led by the commander-in-chief will come soon."

"As long as everyone holds on for a while, victory will definitely belong to the tribe."

"Roar..."

Countless Chaos Beasts around roared tragically.

This is to make them cannon fodder.

The human cultivators have three hundred Daluo Immortal Kings, and there are also two powerful immortal ships.

How can they stop this?

Can they rely on their flesh and blood?

Despite this.

Those Chaos Beasts, still desperately rushed towards the immortal ship.

"Kill."

Wanshan Immortal King jumped out of the immortal ship, waving his double hammers, and quickly killed the Chaos Beasts.

Other Immortal Kings followed, jumped from the immortal ship, and killed the Chaos Beasts.

Zhang Yuhe stood at the front of the fairy ship.

He swept his eyes across the battlefield.

Three hundred Daluo Immortal Kings soon fought with nearly 100,000 Chaos Beasts on the vast battlefield.

Facing this group of mighty Daluo Immortal Kings.

Those Chaos Beasts below the nine stars had no power to resist at all.

They fell down quickly like chopping wood.

Although there were more than a hundred king beasts on the Chaos Beast side.

But facing the overwhelming advantage of the human cultivators.

They simply could not save the situation.

There were even king-level Chaos Beasts who were hammered to death by the mighty Daluo Immortal Kings.

The situation soon became one-sided.

Zhang Yuhe stood at the front of the fairy ship.

He waved his right hand.

Nine fairy swords quickly fell into the distance.

A magnificent sword energy light curtain soon formed around.

The sword energy light curtain enveloped the entire battlefield.

As the spell was pinched.

The invisible sword energy in the sky instantly swept the world.

Those Chaos Beasts below the Nine Stars were immediately imprisoned in place.

Some weaker Chaos Beasts even fell silently.

On the entire battlefield.

There were only three hundred Daluo Immortal Kings and a few King-level Chaos Beasts.

They could still walk freely in the sword energy light curtain.

But this was only a superficial phenomenon.

In fact.

Even as strong as Helan Xilin, a powerful Nine-color King Beast.

It had to divide most of its strength to fight against the ubiquitous sword energy.

In this way.

The three hundred Daluo Immortal Kings of the human race were just like hitting sandbags.

They pressed these King-level Chaos Beasts to the ground and hammered them madly.

...

Chapter 445 The situation is one-sided.

Liuyue Immortal King jumped out of the Immortal Ship.

She waved the spear in her hand and quickly ran towards a three-color King Beast.

As the golden spear light flashed.

The spear instantly pierced the three-color King Beast.

The whole process was simply too easy.

The three-color king beast was like a piece of wood, and could only stand there stupidly for her to kill.

Under the suppression of the sword formation.

Although those king beasts below three colors were not like ordinary chaos beasts.

They were completely unable to move.

But their movements were also severely restricted by the sword formation light curtain.

Even if they tried their best, they could only move twice with difficulty.

Under such circumstances.

In front of Liuyue Immortal King, a top-level Daluo Immortal.

They were simply hanging chickens.

They were completely at the mercy of others.

Other Daluo Immortal Kings also discovered this situation.

They all waved their weapons and quickly swept away those king beasts below three colors.

All of them were swept away.

Almost a moment after Zhang Yuhe opened the sword formation.

There were only dozens of king-level chaos beasts left on the entire battlefield.

Wei Tianfeng waved a huge mountain-splitting axe and killed a two-color king beast with one axe.

The whole process was as simple as drinking water.

When fighting against Chaos Beasts, cultivators usually use heavy-duty immortal weapons.

Because Chaos Beasts have extremely strong defense.

The attribute magical powers of ordinary immortal weapons are basically not very effective.

Only heavy-duty immortal weapons can have a huge killing power against Chaos Beasts.

"Haha, cool."

"I never thought that killing a king beast could be so cool."

Wei Tianfeng laughed.

At this time, he was completely impressed by Zhang Yuhe.

It was obvious.

The sword formation that Zhang Yuhe deployed not only had a strong killing power.

It could instantly wipe out low-level Chaos Beasts.

And it also had an extraordinary suppressing effect on those high-level Chaos Beasts.

Even King-level Chaos Beasts could not be exempted from the suppression of the sword formation.

This was simply terrifying.

Even if he was in the sword formation.

Wei Tianfeng did not understand where this powerful suppressing force came from.

But there was one thing he was very clear about.

This must be related to the Supreme Law.

Because only the Supreme Law can suppress Chaos Beasts across levels.

As for the power of ordinary laws, don't even think about it.

Let alone across levels.

Even if facing Chaos Beasts of the same level.

Ordinary Five Elements Laws are basically ineffective.

Special Laws are better.

Special Laws will have a certain effect against Chaos Beasts of the same level.

But if you want to achieve cross-level suppression, you must use the supreme law.

As for what kind of supreme law Zhang Yuhe used in this sword formation, Wei Tianfeng was not very clear.

Section 584

There are nine supreme laws in the fairy world, each with different divine power.

As far as he knows.

Zhang Yuhe comprehended the law of power.

However, the law of power focuses more on damage burst.

There is no outstanding performance in suppressing and confinement.

Just looking at the chaos beasts on the scene.

Wei Tianfeng couldn't help shaking his head.

It was really hard for him to understand.

How did Zhang Yuhe do it?

"In addition to the power of the law of power, he also comprehended other supreme laws?"

"If so, it would be too terrible."

"How could there be such a heaven-defying person?"

"Forget it, I'm too lazy to think so much, just kill all the chaos beasts in front of me first."

Wei Tianfeng shook his head and shook off those messy thoughts.

Then he waved the giant axe in his hand and ran towards Helan Xilin.

The meat was eaten.

Now it's time to gnaw the bones.

After they killed all the three-color king beasts.

Only those king-level chaos beasts with four colors or above were left on the scene.

There were about forty more.

Three hundred Daluo Immortal Kings, each waving their weapons.

They attacked those high-level king beasts.

Liuyue Immortal King waved his spear, and the golden spear shadows crossed the sky and the earth.

Helan Xilin was firmly trapped in place.

Wanshan Immortal King held the hammer in both hands and also launched a fierce attack on Helan Xilin.

At this time, Wei Tianfeng also rushed up.

Three top Daluo Immortal Kings surrounded Helan Xilin.

Spear light, axe shadow, and huge double hammers crossed the sky and the earth.

Even though Helan Xilin was a powerful nine-color king beast.

Possessing extraordinary defense.

However, facing the fierce attack of three top Daluo Immortal Kings.

And there were those pervasive sword energy, constantly cutting and suppressing.

It had no power to resist at all.

It was beaten to spit blood and retreated continuously.

Its huge body was constantly pierced by the golden spear.

The heavy double hammers almost shattered its bones.

The terrifying axe shadow chopped a series of terrifying scars on its body.

"Roar..."

Helan Xilin waved the spear in his hand and let out a weak roar.

The battle has just begun.

They originally guarded the powerful force in Liuhetian.

Now there are only more than 40 king beasts left.

And these king beasts are facing the siege of nearly ten times the number of Daluo Immortal Kings.

What makes it even more helpless is.

The damn sword formation on the periphery has been suppressing their strength.

And those pervasive sword energy can actually hit the depths of the soul.

This not only brought them endless pain.

And it is constantly shaking their minds.

It makes them completely unable to concentrate on dealing with these Daluo Immortal Kings.

Faced with such a bad situation, they simply can't hold on for too long.

Maybe after a while.

The dozens of king beasts they have left will probably be killed by the Daluo Immortal Kings of the human race soon.

Thinking of this.

Helan Xilin looked towards the direction of the Wanxian Gate in the distance.

It couldn't help but roar.

"Helan Bieye, where are you?"

"The whole tribe wants to know, where are you now?"

"Ahhh..."

Helan Xilin was very helpless.

It could only place its hopes on the great commander Helan Bieye.

Because according to the previous message.

Helan Bieye had already led the support forces to set off in advance and was rushing towards this side.

But it also knew.

Wanxianmen was still a long way from Liuhetian.

Even if the king-level chaos beast ran at full speed.

It would probably take a quarter of an hour.

And Helan Bieye might not know the severity of the situation here.

Whether he would run at full speed was not certain.

It would take another quarter of an hour.

Can they hold on for so long?

Helan Xilin had no confidence at all.

It might not hold on even for one more second now.

Wanshan Immortal King stared at Helan Xilin with a sharp look, holding the two hammers tightly in his hands.

Smashed down swiftly.

As early as the beginning, he had set his sights on this king-level Chaos Beast.

He knew that Helan Xilin was the leader of the Helan Mountain Tribe who was responsible for guarding Liuhetian.

The reason was very simple.

There was only this nine-color king beast here.

If he didn't fight it, who else could he fight?

The Wanshan Immortal King didn't have the idea of picking on the weak.

If he wanted to fight, he would pick the hardest Chaos Beast.

He was the number one person in the South Sea Immortal Domain.

Although Zhang Yuhe was rising rapidly now.

His position as the number one person was already a little shaky.

But the Wanshan Immortal King was arrogant.

He was the local boss of the South Sea Immortal Domain, so how could he be like other Daluo Immortal Kings.

Pick on those weak persimmons?

Although he could kill those low-level king beasts with a few hammers.

But the Wanshan Immortal King didn't bother to hammer.

He just wanted to drive all the invading Chaos Beasts out of the South Sea Immortal Domain as soon as possible.

The chance to kill the dog, let those Daluo Immortal Kings who came to support him.

...

Chapter 446 I've been waiting for you for a long time!

Boom...

The double hammers in the hands of the Immortal King Wanshan fell down again.

A large dent was made in Helan Xilin's chest.

His figure was quickly blasted back.

The Immortal King Liuyue followed closely.

The golden spear flashed and hit Helan Xilin's huge body directly.

Section 585

Poke a transparent hole.

"Roar....."

Helan Xilin let out a thundering roar.

It hasn't fallen yet.

As the nine-color king beast.

Although facing three, the top Daluo Immortal King was besieging him.

Moreover, it was suppressed by the Nine Heavens Hunyuan Sword Formation.

But it doesn't die that easily.

It wants to hold on a little longer.

Stick to Helanbieye and lead the support force to arrive.

Just at this time.

Wei Tianfeng waved his giant axe, and the shadow of the axe was like a strong wind sweeping the world.

An ax hit Helan Xilin in the chest.

"Ahhhh..."

Helan Xilin let out a scream.

Wei Tianfeng's ax made a terrible gash in its chest.

It almost killed it.

Helan Xilin fell back hundreds of miles before barely regaining his balance.

It looks into the distance.

Still no sign of support was seen.

It waved the spear in its hand, and its figure was a little shaky.

It's really a little bit unbearable.

The enemy is too strong.

There is simply no way they, a group of chaotic beasts, can deal with them.

The opponent gathered together the top powers of dozens of fairy realms around them.

And here they are just a small force from the Helan Mountain tribe staying in Liuhetian.

All the king-level chaos beasts added together did not exceed two hundred.

It was completely inadequate to cope with the opponent's terrifying attack.

Only the army of chaos beasts led by Helan Bieye could suppress these Daluo Immortal Kings.

After all, there are thousands of king-level chaos beasts over there in Helanbieye.

But there was no trace.

Helan Xilin looked into the distance and saw no movement at all.

It glanced across the battlefield.

There were originally more than forty king beasts, but now there are less than twenty left.

All other king-level chaos beasts have been killed by those Daluo Immortal Kings.

"Roar....."

Helan Xilin let out a feeble roar.

It knows.

They are all finished today.

They can no longer wait for Helanbieye's support.

"kill."

Immortal King Wanshan shouted loudly.

He clenched his hammers tightly and struck Helan Xilin quickly again.

Helan Xilin's huge body was like rags.

He was blasted back quickly.

puff.....

Blood spurted out from its mouth.

The entire sea surface has been dyed red.

It looked into the distance expectantly, but couldn't see any movement.

This time it couldn't hold up any longer.

The continuous attacks of the three top Daluo Immortal Kings left countless terrible injuries on it.

Even if the nine-color king beast has strong vitality.

Now it has come to an end.

Helan Xilin slowly closed his eyes.

Then he fell down unwillingly.

With Helan Xilin died.

Wanshan Immortal King and others quickly changed direction and rushed towards other targets.

Everything went well though.

Under the suppression of Zhang Yuhe's sword formation.

The difficulty for them to kill the king beast was countless times easier than usual.

But everyone understands.

They need to hurry up.

Wipe out all the chaos beasts in Liuhetian as soon as possible.

Otherwise.

Wait until the army of Chaos Beasts from the Wanxian Sect comes to support.

Then we will be attacked from both sides.

Although Wanxianmen is far away from here.

But at the speed of a king-level chaos beast.

If you run with all your strength.

It only takes a quarter of an hour at most to get there.

Nearly three hundred Daluo Immortal Kings surrounded the remaining twenty king beasts and launched a rapid siege.

It will probably only take a while.

These powerful king-level chaos beasts can be wiped out by them.

Think of this.

Everyone couldn't help but feel a little excited.

Let's finish this battle today.

Chaos beasts below nine stars do not count.

They killed more than 160 king-level chaos beasts alone.

Even though they are all top powers from various immortal realms.

But they haven't seen such results for billions of years.

We killed so many king-level chaos beasts last time.

It was still in the war more than 10 billion years ago.

But that was a war that swept through the entire fairy world.

It's not comparable at all now.

Killing so many king beasts at once made everyone feel a little excited.

Everyone waved their weapons and quickly pounced on the remaining Chaos Beasts.

...

Zhang Yuhe stood at the front of the fairy ship and looked at everything in front of him quietly.

He didn't take action.

In addition to controlling the sword formation and suppressing the chaos beast.

He didn't carry the Nine Heavens Flying Spirit Stick, and went forward to fight with him.

Because there is no need.

At the beginning.

They already have an overwhelming advantage.

Moreover, these Daluo Immortal Kings are indeed very fierce.

No need for him to take action.

You can kill all those chaos beasts.

As for the chaos cannon on the fairy ship, there is no need to use it.

Don't say it's him.

Even the Starlight Immortal Ship of Immortal King Liuyue has not turned on the chaos cannon on it.

Section 586

Because every time the Chaos Cannon is turned on, a king beast crystal core needs to be consumed.

To know.

The crystal core of the king beast is extremely precious.

Even the Great Luo Immortal King does not have much inventory.

This kind of strategic power is only available at the most critical times.

Will use it.

Things are looking great now.

A perfect crushing game.

Naturally, there is no need to activate the chaos cannon on the fairy ship.

Zhang Yuhe stands tall on the fairy ship.

Suddenly he turned back and looked into the distance.

I saw waves of soaring momentum appearing on the horizon in the distance.

The chaotic momentum soared into the sky.

The clouds in the distant sky were shattered by these powerful momentums.

See this situation.

Zhang Yuhe muttered to himself.

"Is it finally here? I've been waiting for you for a long time."

"Come on, come on, I hope you all come together so that I can fight and finish you all off."

Yes.

Zhang Yuhe knew it a long time ago.

The army of Chaos Beasts from the Wanxian Sect will definitely come to support.

And it will be fast.

The reason why he never took action.

Just to accumulate strength and wait for this powerful enemy.

According to the information provided by Wang Guofeng.

Near the station of Wanxian Sect, an army of hundreds of millions of Chaos Beasts gathered.

Among them, the number of king-level chaos beasts exceeds thousands.

This is a terrible force.

If there is no Taozu sitting in charge.

Such a powerful force can even destroy a holy place.

despite this.

Zhang Yuhe still showed no fear.

He still has a trump card.

Hunyuan Guiyi's magical power is his greatest confidence.

As long as this magical power remains usable.

He has no fear of any enemy.

So what about Chaos Beast Dona?

What can happen to thousands of king-level chaos beasts?

He wanted to try it.

After activating the magical power of Hunyuan Guiyi.

Can the nine-color king beast be imprisoned in the sword formation?

If this can be achieved.

So that means.

This war in the South China Sea Immortal Territory will soon come to an end.

Just wipe out those king-level chaos beasts.

The remaining army of Chaos Beasts is not worth mentioning at all.

There is strong support from various fairy realms.

No matter how huge the chaos beast army is, they will eventually be wiped out by them.

But he wasn't completely sure.

Whether it can be done depends on the actual effect of turning on the Hunyuan Guiyi magical power.

"Let's see, hopefully I can do it."

Zhang Yuhe looked into the distance and gently clenched his fists.

...

Chapter 447 Everyone wants to kill the dog

Thousands of king-level chaos beasts were running wildly, their momentum soaring into the sky.

Behind them, there is an endless army of Chaos Beasts, following quickly.

Helanbieye was at the forefront of the team.

At this time, the expression on its face was so cold that it was almost dripping with water.

Not that long ago.

It speculated that the human monks might cut off the space channel of Liuhetian.

For this reason, it immediately led an army of Chaos Beasts and rushed all the way to support.

However, it wasn't long before they set off.

Helanbieye sensed that the Chaos Beasts on the Liuhetian side were dying quickly.

This made it very anxious.

The space channel on the Liuhetian side is for the chaotic beasts entering the South China Sea Immortal Domain.

It's really important.

Once this passage, something went wrong.

Then they, these chaotic beasts, are likely to become lonely souls with no home to return to.

Not to mention asking the monks to completely cut off the space passage.

Even if the space channel is only interrupted for a short time.

It will cause indelible panic to the Chaos Beasts that enter the South China Sea Immortal Domain.

This is their life channel.

Helanbieye absolutely does not want any accidents to occur.

However, Chaos Beasts died one after another, which made it feel very panicked.

Not even for a while.

It also lost its sensitivity to Helan Xilin's scent.

Helanbieye knew.

There must be a very urgent situation on the other side of the space channel.

Helan Xilin can be beaten to death in a short period of time.

The strength of human monks is probably much stronger than it imagined.

They must rush over as soon as possible.

Otherwise.

The consequences are unpredictable.

Think of this.

Helanbieye shouted behind him.

"Speed up, don't worry about the army behind you, let's rush over first."

Thousands of king-level chaos beasts shook off the army of chaos beasts behind them.

At the fastest speed, he ran towards Liuhetian.

After a while.

They finally saw the battlefield in the distance.

I saw two huge fairy ships, quietly suspended in the air.

Nearly three hundred Daluo Immortal Kings surrounded a dozen king-level chaos beasts.

Being brutally attacking.

Roar.....

See this situation.

Thousands of king-level chaos beasts roared with grief and anger.

Their Helan Mountain tribe originally had more than a hundred king-level chaos beasts here.

Now there are only a dozen or so left.

The other king-level chaos beasts have naturally been killed by the human race's Great Luo Immortal King.

Section 587

And even the remaining ten or so king-level chaos beasts were beaten to half death.

Even if they have rushed over, it is estimated that it will be difficult to save them.

Zhang Yuhe stands at the front of the fairy ship.

I saw a wave of my right hand.

The nine fairy swords quickly flew back.

The fairy sword surrounded him, flowing slowly.

Chaos beasts supporting from a distance arrive.

Zhang Yuhe saw it, and the other Daluo Immortal Kings had naturally discovered it long ago.

But they didn't stop.

Instead, they surrounded the king-level chaos beast in front of them and stepped up their attacks crazily.

How could they let go of the dead dog they got?

Anyway, the Chaos Beast in the distance wants to rush over.

It will still take some time.

during this time.

It was enough for everyone to kill all the prey in front of them.

Immortal King Liuyue glanced into the distance.

She waved the spear in her hand.

As the golden gun light flashed, it penetrated the Chaos Beast in front of him again.

An eight-color king beast fell to the ground and threw itself into the street.

Immortal King Liuyue swept his eyes across the battlefield in front of him.

There were only six Chaos Beasts left on the scene.

Immortal King Liuyue put away his gun and retreated, but she did not make another move.

With more people and less prey, there simply wasn't enough points.

Immortal King Liuyue rose into the sky and quickly landed on the Starlight Immortal Ship.

She turned around and shouted to everyone.

"Quickly resolve the matter at hand. Let's meet up with the army of Chaos Beasts in the distance later."

The continuous elimination of more than a hundred king-level chaos beasts greatly increased the confidence of Immortal King Liuyue.

In her opinion.

As long as Zhang Yuhe's sword formation can still produce the same effect as before.

So it seems that the thousands of king-level chaos beasts in the distance are not impossible to defeat.

Under the suppression of the sword array.

Even a king-level chaos beast will be greatly restricted.

This allows them to let go of their hands and feet and launch attacks wantonly.

There is no need to worry about being hurt by the Chaos Beast's counterattack.

Even the nine-color king beast will be bound by the invisible sword energy.

There's no way there could be any decent counterattack.

In the view of Liuyue Immortal King.

Zhang Yuhe's sword formation is even more practical than her Taoist art Qiankun Tiandi.

Especially in this situation of large-scale melee.

The power that this sword array can exert is even more terrifying.

The divine power of the sword array enveloped the world, seeming to be able to suppress all enemies.

There is Zhang Yuhe's sword array.

Even the number of king-level chaos beasts that came to support from a distance exceeded thousands.

Immortal King Liuyue is also fearless.

You have to try it first whether it works or not.

If you really can't beat it.

Everyone can still run away.

There is an earth-level immortal ship.

They were just totally, invincible.

You can move forward or retreat freely if you want to fight or leave.

After a while.

A group of Daluo Immortal Kings quickly eliminated all the remaining king-level chaos beasts.

Everyone flew onto the fairy ship and looked at the Chaos Beasts coming to support them from a distance.

There are thousands of king-level chaos beasts in the distance, and their momentum is extremely astonishing.

to be honest.

Even if they are all veteran Da Luo Immortal Kings.

But like this, thousands of king-level chaos beasts are running wildly.

They really haven't met a few times.

Two fairy ships were suspended side by side in mid-air.

Immortal King Liuyue turned his head and said to Zhang Yuhe.

"Sect Leader Zhang, just unfold the sword formation later and suppress those king beasts."

"Leave the rest to us."

"I hope to take this opportunity to kill more king-level chaos beasts."

Other Da Luo Immortal Kings present also followed suit.

"Yeah yeah."

"Sect Master Zhang, you only need to control the sword formation."

"With your sword formation here, those king beasts below three colors are like dogs with broken legs, very easy to kill, hahaha."

"Yes, let's kill those king beasts below three colors first."

"Then we will consider whether to continue fighting based on the situation."

"Now the initiative is completely in our hands."

"If you want to fight or leave, you can move forward and retreat freely."

"So everyone must seize the opportunity. This kind of opportunity to kill a dog is hard to find in billions of years, hehe."

Looking at the group of Daluo Immortal Kings, everyone said something to me, but no one paid attention to the powerful Chaos Beast in the distance.

In their view.

These powerful king-level chaos beasts seemed to be the dishes on their plates.

This made Zhang Yuhe feel a little speechless.

How can it be like this?

They all want to kill the dog.

"I will also take this opportunity to kill some king-level chaos beasts."

Don't say anything else.

He must accumulate more, King Beast Crystal Cores.

Otherwise.

There is an earth-level immortal ship in the sky.

But there are only a few king beast crystal cores in his hand.

It made him a little timid even if he wanted to activate the chaos cannon on the fairy ship.

This feeling is really unpleasant.

If the core tube is enough.

How cool that would be.

Directly unfold the sword formation.

Then he started firing the Chaos Cannon.

It takes no effort at all.

Unfortunately.

He could only think about it.

Even Liuyue Immortal King from the Holy Land would not dare to be so extravagant.

The crystal core of a king-level chaos beast is really too precious.

Not at the critical moment.

It was impossible for her to activate the chaos cannon on the fairy ship.

This kind of strategic force will only be used when it is time to fight to the death.

...

Section 588

Chapter 448 Only the Great Luo Immortal King is in his eyes

Thousands of king-level Chaos Beasts were running fast all the way.

However, no matter how fast they ran, they could not save even one Chaos Beast that stayed behind.

A group of Great Luo Immortal Kings of the human race killed all the remaining Chaos Beasts in a few moves.

Then they boarded the Immortal Ship one after another and waited quietly for them to come.

Seeing this situation.

Helan Bieye looked cold.

He waved his right hand.

The fast-running Chaos Beast team stopped instantly.

Helan Bieye looked up and looked into the distance.

He saw two Immortal Ships quietly suspended in the air.

At this time, he was angry and entangled.

The Earth-level Immortal Ship was really hard to resist.

Although there were thousands of King-level Chaos Beasts on their side.

To be honest.

Helan Bieye thought that they were completely crushing the situation.

One thousand to three hundred.

The advantage was mine.

However, the other side has two earth-class fairy ships.

The earth-class fairy ships have strong defense and can shuttle through the void.

The speed is extremely fast.

No matter how big the advantage they have.

As long as the other side wants to leave.

They can't stay.

Helan Bieye took a deep breath and slowly calmed his anger.

Even if he couldn't stay, he would drive away these Daluo fairy kings on the opposite side.

Then restore the use of the space channel as soon as possible.

Helan Bieye has already thought about it.

As long as the space channel returns to normal.

It will divide the thousands of king-level chaos beasts into two parts.

One team guards the channel, and the other team guards the chaos beast army behind.

And it needs to ask the tribe for help.

After repeated failures.

Helan Bieye deeply felt that their strength was insufficient.

In terms of overall strength.

They did crush the human cultivators.

But their team is really too large.

Not only do they have to guard the space channel, but they also have to slowly transport a large number of sacrifices back to the tribe.

The long transportation line is really not safe.

Those human Daluo Immortal Kings can completely control the immortal ships.

Attack their transport teams everywhere.

If this continues.

Then the sacrifices they have worked so hard to catch from all over the place.

All will be in vain.

Helan Bieye has figured it out.

Relying on their current strength, it is not enough to complete this task.

So the tribe needs to continue to provide support.

Although on the Chaos Continent.

The Helan Mountain Tribe has a vast territory and needs a large number of Chaos Beasts to guard it.

It is really difficult to draw out more forces to support.

However, the Helan Tribe is strong.

As long as the venerables in the tribe are willing.

There will always be support if they squeeze in.

Even if they draw out more, thousands of King-level Chaos Beasts are probably not a problem.

At worst, they can give up some first, in the territory of the Chaos Continent.

Now, ensuring the transportation of sacrifices is the top priority.

The sacrifice is in hand, but it cannot be transported back.

It is better not to have it.

Helan Bieye took a deep breath.

Now their first step is to take back the space channel.

As for those human Daluo Immortal Kings.

They can only let them go.

Of course.

If these human Daluo Immortal Kings are willing to stay and fight with them.

Helan Bieye would naturally be more than happy.

But it estimates.

This possibility is not high.

These human Daluo Immortal Kings are not that stupid.

Facing disadvantages, they will definitely run away first.

However, at this time.

Helan Bieye was shocked to find that.

The three hundred Daluo Immortal Kings on the opposite side suddenly jumped up from the immortal ship.

They quickly rushed towards them.

Seeing this situation.

Helan Bieye was stunned.

What kind of operation is this.

Are human cultivators so tough?

Three hundred against one thousand, they dare to rush like this.

This is an opportunity.

If they can kill more than half of these three hundred Daluo Immortal Kings.

Then for a long time in the future.

The entire South Sea Immortal Realm will no longer have a force that can fight against them.

Even the forces under the Tianxing Daozu will fall into a long-term decline.

They will also maintain a long advantage on the Chaos Continent.

This is their chance to make great contributions.

Thinking of this.

Helan Bieye couldn't help but be overjoyed.

Roar...

It let out an excited roar.

At the same time, he shouted loudly.

"Let's go together and kill those Daluo Immortal Kings to avenge our dead brothers."

Roar...

Thousands of king-level Chaos Beasts, waving their companion weapons.

They rushed over swiftly.

Three hundred human Daluo Immortal Kings, thousands of king-level Chaos Beasts.

On the wide sea, a mindless confrontation was launched.

Both sides were full of confidence.

They felt that victory belonged to their side.

Helan Bieye thought.

One thousand versus three hundred.

Section 589

If they still can't beat them, then they are just a group of pigs.

And the Daluo Immortal King of the human race is even more confident.

They are protected by Zhang Yuhe's sword formation.

They can completely suppress the power of the Chaos Beast by more than half.

This is equivalent to a chance to kill the dog.

If you don't charge now, when will you?

Zhang Yuhe stood at the front of the fairy ship.

He didn't charge.

Instead, he silently calculated the distance between the two sides.

The sword formation can't be set up too early.

The king-level Chaos Beasts he faced this time were not one or two.

Nor were they one hundred or two hundred.

But more than a thousand.

Facing such a powerful enemy.

Even if the Nine Heavens Hunyuan Sword is powerful.

It is possible that it will be quickly broken by those Chaos Beasts.

So he has to wait.

Wait until the distance between the two sides is shortened.

Then the three hundred Daluo Immortal Kings will hold the Chaos Beasts.

Those Chaos Beasts will not have many opportunities to attack his sword formation light curtain.

Can only be trapped in the sword formation, and be beaten honestly.

Suddenly.

A strong aura rose from Zhang Yuhe.

Seeing that the opportunity was ripe.

Zhang Yuhe decisively opened the magical power of Hunyuan Guiyi.

With the blessing of the magical power.

The aura on his body quickly rushed from the early stage of Da Yixian to the perfection of Taiyixian.

Half-step Daluo Immortal King.

Feeling the powerful and terrifying aura on his body.

Zhang Yuhe felt that he could now step on the whole world under his feet.

He glanced at the distance.

Then he waved his right hand.

Nine immortal swords turned into streams of light and quickly fell towards the distance.

As the spell was pinched.

A magnificent sword energy light curtain instantly rose in the distance.

Before those chaotic beasts could react.

They were trapped in the sword energy light curtain.

Helan Bieye glanced at Zhang Yuhe on the immortal ship.

But it didn't care.

It knew that Zhang Yuhe was very strong.

A ruthless man who can continuously sweep through tens of millions of Chaos Beasts.

How can he not be strong?

Despite this.

Helan Bieye still did not take Zhang Yuhe to heart.

They have thousands of King-level Chaos Beasts here.

A mere Taiyi Immortal Lord.

Even if he bursts out with a strong aura.

He will not take it seriously.

Helan Bieye fixed his eyes on the Daluo Immortal King who rushed over.

These powerful Daluo Immortal Kings are their target.

The three hundred Daluo Immortal Kings on the opposite side.

If they can catch half of them and sacrifice them to the Supreme True God.

It is even enough for the Nine-Colored King Beast to evolve directly into a Venerable Chaos Beast.

Thinking of this.

Helan Bieye was a little excited.

As for Zhang Yuhe in the distance and the light curtain rising around him.

He completely ignored it.

It was not only him who thought so.

The other King-level Chaos Beasts next to him were also ignored.

They would not even look at Zhang Yuhe for a second.

In their eyes, there were only those Daluo Immortal Kings.

The collision of king-level power.

How could they care about the Taiyi Immortal Lord on the opposite side?

...

Chapter 449 Terrifying Divine Power

Zhang Yuhe's eyes swept across the distance with a cold expression.

As the spell was quickly pinched.

The invisible sword energy in the sky instantly swept the world.

Uh...

Ah ah ah...

Endless sword energy, with terrifying divine power, quickly cut into the Chaos Beast.

Thousands of King-level Chaos Beasts were like being cast into a fixed spell.

All were imprisoned in place by the tyrannical power of the law.

Except for a few nine-color king beasts, they could still struggle a few times.

The remaining King-level Chaos Beasts, even the Eight-color King Beasts.

They were also unable to break free from the imprisonment of the sword formation.

The terrifying divine power enveloped the world.

This made all the King-level Chaos Beasts on the scene feel extremely terrified.

They had never expected it.

It was just a sword formation performed by a Taiyi Immortal Lord.

How could there be such a terrifying divine power?

They were all noble king-level chaos beasts.

They were fixed in place like little chickens, completely unable to move.

What frightened them even more was that.

Those terrifying invisible sword energies could even directly attack the depths of the soul sea.

They felt that their souls were being slowly cut by a knife.

The endless pain made them roar wildly.

Three hundred Daluo Immortal Kings rushed through the sword energy light curtain in an instant.

Seeing thousands of king-level chaos beasts, all imprisoned in place.

Everyone was completely stunned.

What a terrifying power.

How could so many king-level chaos beasts be imprisoned in place?

They couldn't imagine it at all.

Is this the power that Taiyi Immortal Lord can exert?

It's simply terrifying.

Before this, Zhang Yuhe could suppress king beasts below three colors.

This already made everyone feel incredible.

However, what they didn't expect was.

When Zhang Yuhe burst out with a strong aura.

Section 590

It was actually able to imprison the eight-color king beast in place.

Even the nine-color king beast.

In the sword array.

I can only struggle painfully.

The original arrogant momentum is gone.

See this situation.

Everyone was stunned at first.

Then it turned into ecstasy.

This is the real killing of a dog.

A king-level chaos beast that was imprisoned in place and completely unable to move.

Even they have lived for a long time.

I've never seen anything like this before.

I would be sorry for myself if I didn't call him out immediately.

Immortal King Liuyue waved the spear in his hand and pounced towards a three-color king beast.

But what she couldn't understand was.

Before she could rush over.

The three-color king beast suddenly fell to the ground and threw itself on the street without any sound.

See this situation.

Immortal King Liuyue simply couldn't believe his eyes.

Originally she thought.

Zhang Yuhe's sword formation.

It just has a terrible effect in terms of suppression and confinement.

If you want to kill the king beast Chaosmon with just the power of the sword array.

This is simply impossible.

After all, the king-level chaos beast not only has ferocious attack power, but also has extremely exaggerated defensive abilities.

Even the Great Luo Immortal King wants to kill a king-level chaos beast.

None of it is that easy.

Maybe both sides can fight for half a day, but they may not be able to fight to death.

Then Zhang Yuhe only relied on the invisible sword energy in the sword formation.

It can kill the powerful king-level chaos beast silently.

How terrible is this?

Immortal King Liuyue glanced around.

There were originally thousands of king-level chaos beasts on the scene, but now there were less than 500 left.

All the king beasts below three colors have been wiped out by the invisible sword energy.

Not only that.

Even the four to six colored king beasts were struggling painfully.

Looking at that posture, it seems that he can't hold on for long.

It is estimated that he will be cut to death directly and inexplicably by those terrifying invisible sword energies.

Immortal King Liuyue held a spear and threw it away.

The same is true for other Da Luo Immortal Kings.

They rush towards the goal with excitement.

If you want to pick some soft persimmons, kill them first.

Of course everyone understands the principle of staying safe.

There were so many king beasts at the scene, and if one of them was killed, one would be missing.

If one is killed, they gain a fortune.

However, before they could wait for them, they walked up to their target.

Those seemingly powerful king beasts, the Chaos Beasts, actually fell silently.

This made everyone stunned.

What to do now?

The large piece of fat meat was eaten directly by Zhang Yuhe.

The rest are all tough bones to crack and not easy to kill.

Just at this time.

Immortal King Liuyue shouted loudly to everyone.

"Don't worry about anything else. Kill the king beasts of seven colors or above first."

Now she finally understands.

After some mysterious magical power broke out.

Zhang Yuhe's sword formation now was enough to kill those king beasts with six colors and below.

That is to say.

Zhang Yuhe could kill most of the thousands of king-level chaos beasts on site by himself.

The remaining king beasts of seven colors or above total less than a hundred.

These king-level chaos beasts should be their targets.

Immortal King Liuyue doesn't know either.

How long can Zhang Yuhe's explosive magical power last?

So they had to take advantage of Zhang Yuhe's explosive power while he still had it.

Try to get rid of most of those powerful chaos beasts first.

If this can be done.

Perhaps all of the thousands of king beasts present will have to stay today.

The chaotic situation in the South China Sea Immortal Territory will be reversed in an instant.

After being reminded by Immortal King Liuyue.

Others finally reacted.

Everyone waved the fairy weapons in their hands and rushed towards the powerful chaos beasts.

Three hundred Daluo Immortal Kings surrounded less than a hundred king beasts and launched a swift attack.

Roar.....

Helanbieye waved his spear and let out a loud roar.

It shouted loudly to the Chaos Beast next to it.

"Quick, let's attack together and break this damn sword formation first."

The Chaos Beasts that can still move at the scene, together with Helanbieye.

There are only six nine-color king beasts in total.

As for the other chaos beasts, even if they struggle hard.

Still unable to break free from the terrifying confining power in the sword formation.

Helanbieye knew.

Now has arrived, the moment of life and death.

If they can't break the sword formation.

Then the remaining king-level chaos beasts present will all die here today.

Roar.....

The six nine-color king beasts let out thundering roars one after another, responding to Helan Bieye's call.

They waved the accompanying weapons in their hands, struggling to block out the dense invisible sword energy.

Then he quickly pounced towards the outer sword array light curtain.

Just at this time.

Immortal King Liuyue and others have already rushed forward.

The golden spear shone with shocking light and shrouded directly towards Helanbieye.

Wanshan Immortal King waved his double hammers and also trapped another nine-color king beast.

Wei Tianfeng waved his giant axe, and knocked back a nine-color king beast with one blow.

The remaining three Nine King Beasts were also restrained by the other Daluo Immortal Kings.

Facing the attack of Daluo Immortal King.

These powerful nine-color king beasts have no chance at all to approach the sword array light curtain again.

As for the remaining ones, the king beasts of seven colors or above.

It was soon divided and besieged by other Daluo Immortal Kings.

They formed a group of two or three, surrounded the imprisoned king-level chaos beasts, and launched a swift attack.

As for those king beasts below six colors, they were completely ignored by everyone.
