Section 62

After the physical body has been strengthened by the heavenly tribulation, even if it does not use any magical power.

Relying on the strength of flesh alone, the Void Refining cultivator can lift up the Divine Transformation cultivator and beat him.

"Fortunately, the first tribulation is not too strong."

Zhang Yuhe looked up and saw that the light curtain held up by the Qingxuan Pearl was still intact.

He couldn't help but breathed a sigh of relief.

Since the low-grade defensive Tongtian Lingbao can withstand the bombardment of the heavenly tribulation.

It will be easier now.

Although it is only the first heavenly tribulation now, there are 62 more to come.

Moreover, the power of the subsequent catastrophe will definitely become stronger and stronger.

But now Zhang Yuhe feels a little unsure.

He has prepared a lot of defensive Tongtian Lingbao.

The most important thing is that he also has the Nine Heavens Hunyuan Sword Formation as the final guarantee.

As long as these defensive Tongtian Lingbao can help him last a little longer.

The last few thunderbolts, with the super strong defensive power of the Nine Heavens Hunyuan Sword Formation, will definitely be able to withstand them.

As for why the Nine Heavens Hunyuan Sword Formation was not activated at the beginning?

The reason is simple, it is impossible for him to reveal his trump card from the beginning.

Moreover, although the Nine Heavens Hunyuan Sword Formation has extremely powerful defensive capabilities.

But as the foundation of the sword formation, his natal magic weapon, the Nine Heavens Hunyuan Sword.

At this time, it is still a low-grade heaven-reaching spiritual treasure, and it may not be able to continue to withstand the bombardment of the heavenly tribulation.

He had just broken through to the Void Refining Realm and had no time to upgrade his natal magic weapon.

If a catastrophe destroys his magic weapon, he won't even have a place to cry.

Therefore, Zhang Yuhe planned to save the Nine Heavens Hunyuan Sword Formation as late as possible.

He would first use the ordinary defensive Tongtian Lingbao to carry it for a while. Anyway, he had prepared a lot.

When ordinary spirit treasures are really unable to withstand the catastrophe, the Nine Heavens Hunyuan Sword Formation can be used.

As the thunder struck down one after another, the cyan barrier above Zhang Yuhe's head gradually became unsustainable.

Click...

When the ninth thunderbolt passed, subtle cracks suddenly appeared on the surface of Qingxuan Pearl.

Zhang Yuhe quickly took back the Qingxuan Pearl, and then held out a yellow shield.

Xuan Jade Shield is also a low-grade defensive Tongtian spirit treasure.

With the injection of mana, the black jade shield propped up an earthy yellow light curtain above his head.

...

Time passed slowly, and thunder struck down one after another.

The vortex in the sky slowly expanded larger and larger.

The thunder formed from the vortex became more and more powerful.

From the very beginning, a low-grade defensive Tongtian Lingbao could block nine thunder bombardments.

Later, each low-grade Tongtian Lingbao only blocked two or three thunderbolts before being scrapped.

Zhang Yuhe looked a little solemn.

It has just passed the fifth round now, and the effectiveness of low-grade defensive Tongtian Lingbao against heavenly calamity is rapidly weakening.

Fortunately, he was well prepared.

As long as each piece of heaven-reaching spiritual treasure can completely block a catastrophe bombardment, that is enough.

...

When Zhang Yuhe was going through the tribulation, the surrounding Yunzhong Mansion fell into chaos.

A large number of monsters rushed out of the Yunlang Mountains, causing huge pressure on the surrounding cities.

At the beginning, many people thought it was a beast wave.

All major forces in the city have united to prepare for the attack by monsters.

However, not long after, they saw dark clouds covering the sky above the Yunlang Mountains.

Listening to the thunder in the distance, everyone seemed to understand something.

The guardian of Yunzhong Town.

Wang Guofeng and three others stood outside the door of the mansion.

Seeing the vision in the distance in the sky, Qian Weiguang muttered to himself.

"Is this a catastrophe?"

Sun Pengcheng, standing next to him, replied subconsciously.

"I'm not sure. I've never seen a monk overcome a tribulation, but judging from the vision in the distance, it's very similar to the heavenly tribulation recorded in the classics."

"I just don't know, is this a monk or a demon beast going through a tribulation?"

There are many monsters in the Yunlang Mountains, including seventh- and eighth-level monsters, and even more sixth-level monsters.

When a monster breaks through the seventh level, a catastrophe will come.

According to ancient records, there were records of demonic beasts overcoming tribulations in the Yunlang Mountains in the past.

It's just that Qian Weiguang and Sun Pengcheng have not been practicing Taoism for a long time and have not seen them before.

As for Wang Guofeng, he had never seen the scene of a monk overcoming a tribulation.

The three of them stood outside the house, all worried.

They just received a report from the city below.

Because there are monsters or monks who are going through the tribulation in the Yunlang Mountains.

This caused countless demonic beasts to rush out of the mountain, triggering a large wave of beasts.

The guarding master was not in the city, and they couldn't even activate the defensive formation of Yunzhong City.

Once the beast tide rushes to Yunzhong City, what will happen?

Suddenly, Qian Weiguang said with a hint of speculation.

"Do you think the person who will overcome the tribulation will be the Lord Guard?"

"No way. If the Lord Guard wants to survive the tribulation, he should find someone to protect him."

"That's not certain. Three days ago, the guard suddenly went out. Now in the Yunlang Mountains, a natural disaster is coming. I think it's probably because the guard has just broken through the realm of refining the void and is going through the natural disaster."

"If the Lord Guard successfully survives the catastrophe, wouldn't he be an elder of the Dao Sheng Sect?"

"Yes, we can only look up at your majesty."

Qian Weiguang and Sun Pengcheng stood nearby and discussed quietly.

Wang Guofeng did not interrupt.

To be honest, he still doesn't understand what happened.

Things like heavenly tribulation are too far away from him.

And as a player who entered Yufantian from Blue Star, he still lacks a certain understanding of many common senses of cultivating immortals.

For example, the heavenly tribulation in the distance.

If Qian Weiguang didn't say it, he would not know at all.

The strange phenomenon in the distance was that there were cultivators or monsters who were undergoing the tribulation.

At the beginning, Wang Guofeng thought that it was a sudden natural disaster.

Regarding Qian Weiguang and Sun Pengcheng's speculation.

Wang Guofeng was both expectant and hesitant.

If the person who was undergoing the tribulation in the Yunmang Mountains at this time was Zhang Yuhe.

Then as a player from Blue Star, he would naturally be very happy.

However, Wang Guofeng was a little hesitant.

Once Zhang Yuhe broke through the Refining Void Realm and became an elder of the Daosheng Sect.

Can he still hold this big thick leg?

Entangled.

...

Chapter 62 A close call

Boom...

Crack...

As a thick thunder fell, a brick-shaped spiritual treasure on Zhang Yuhe's head.

Instantly, it was covered with cracks, and then it turned into countless fragments and scattered.

This was the sixteenth piece of the scrapped defensive Tongtian Lingbao.

The power of the heavenly tribulation was stronger and stronger.

At the fifty-second thunderbolt, the low-grade Tongtian Lingbao could only block one attack.

After blocking once, it was scrapped.

Seeing the Tongtian Lingbao scrapped again, Zhang Yuhe couldn't help but tense up.
