

Top talent 661

Section 661

After that.

Zhang Yuhe successfully passed the heavenly tribulation and ascended to the fairyland.

At that time, he had just reached the fusion realm.

Now.

Zhang Yuhe is already a great Daluo Immortal King, a big figure in the fairyland.

Li Tian looked up to Zhang Yuhe's growth all the way and followed closely.

Now he is not bad.

As early as 300,000 years ago, he finally resolved the bottleneck and successfully broke through to the middle stage of Taiyi Immortal.

Compared with other Taiyi Immortal Lords, his cultivation progress is already very fast.

However, compared with Zhang Yuhe, it is far behind.

Thinking of this.

Li Tian gradually came back to his senses.

He muttered to himself.

"I don't need to compare with the sect master, such a peerless genius."

"As long as I can follow the footsteps of the sect master, it is enough."

Li Tian recovered.

He looked around and remembered the important task at hand.

He said solemnly to the blue-robed disciples in front of him.

"The sect master's Immortal King celebration is about to begin, you must be vigilant."

"If you find any suspicious persons, report to me immediately."

"Absolutely no one can disrupt this event."

"Yes, Palace Master."

After Li Tian gave a few more instructions to the patrolling blue-robed disciples, he was ready to leave.

At this moment.

A stream of light passed through the distant sky.

Li Tian stopped.

He looked into the distance.

I saw a huge immortal ship gradually emerging from the sea.

On the top of the immortal ship, a large flag was flying.

There was a phantom of a palace painted on it.

Seeing this situation.

Li Tian quickly took off into the air.

He shouted loudly in the distance.

"I don't know which Taoist friend from the Nangong Immortal Clan is visiting. I am Li Tian from the Taoist Saint Sect. I am sorry for not welcoming you."

A loud voice came from the immortal ship.

"Hahaha, Palace Master Li, you are too polite. I am Nangong Tianming, and I am about to go to your sect to participate in the celebration of the Galaxy Immortal King."

The immortal ship approached quickly.

Nangong Tianming soared into the air and quickly landed in front of Li Tian.

It stands to reason.

As a veteran Taiyi Immortal Lord, Nangong Tianming is much stronger than Li Tian.

He should not be so respectful.

However, the power of the Daosheng Sect is too strong now.

Zhang Yuhe alone can suppress dozens of immortal domains around.

Not to mention their Nangong Immortal Clan, a small immortal monarch force.

The Daosheng Sect used to be a subsidiary force of the Nangong Immortal Clan.

When encountering a beast tide, they had to obey the conscription of the Nangong Immortal Clan.

Since Zhang Yuhe rose.

The situation has long been reversed.

Now it is their Nangong Immortal Clan that has to rely on the breath of the Daosheng Sect to survive.

It is also fortunate that their Nangong Immortal Clan did not suppress the Daosheng Sect at the beginning.

Even occasionally, they would provide some help.

Whenever he thought of this.

Nangong Tianming felt fortunate that he could make such a decision at the beginning.

Now, under the protection of Dao Shengzong, the Nangong Immortal Clan has developed extremely rapidly.

They have even built the second monarch-level immortal city on the Chaos Continent.

This was something that was completely unimaginable in the past.

You know.

There are only four Taiyi Immortal Lords in their Nangong Immortal Clan.

Once they encounter a Chaos Beast attack.

They will definitely not be able to defend two monarch-level immortal cities with their four Taiyi Immortal Lords.

But now they have the support of Dao Shengzong.

With the protection of Dao Shengzong.

These are not a problem.

Even the surrounding Chaos Beast tribes, intimidated by the power of Dao Shengzong.

They all moved far away.

They dared not approach at all.

With Dao Shengzong.

They don't have to worry about the threat of Chaos Beasts.

It is precisely because of this.

Nangong Tianming has always been able to position himself well.

Even though Li Tian's cultivation was lower than his.

He also behaved very respectfully.

Especially on a special occasion like today, when the Immortal King Celebration is approaching.

This is even more appropriate.

Seeing Nangong Tianming being so respectful, Li Tian felt a little embarrassed.

He immediately went up to him and said with a smile.

"Welcome, Daoist Nangong, to attend the Sect Master's Immortal King Celebration."

"Please follow me."

Li Tian stepped aside and led the way.

Nangong Tianming put away the Immortal Ship.

The two flew quickly towards the gate of Daosheng Sect.

...

Zhang Yuhe walked out of the cave.

He stood on the top of Yinhe Peak and looked at the current grand occasion of Daosheng Sect.

He couldn't help but smile.

This Immortal King Celebration is very important to Daosheng Sect.

He wants to take this opportunity to thoroughly establish the reputation of Daosheng Sect.

In the fairy world, reputation is sometimes very important.

Otherwise.

Zhang Yuhe would be too lazy to come out of retreat.

He has not yet comprehended the ten laws.

In these 20,000 years,

he has only comprehended the Chaos Law from the entry level to the state of perfection.

As for the other nine supreme laws, he has not yet started.

It must be said.

It is indeed very difficult to comprehend the laws from the state of perfection to the state of perfection.

Even if his comprehension is against the sky, it still takes a lot of time.

In fact, this is also normal.

Those Daluo Immortal Kings in the Immortal Realm have all lived for countless billions of years.

But how many people can truly comprehend all nine laws to perfection?

Section 662

And those Daluo Immortal Kings only comprehend ordinary laws.

Only a very small number of people comprehend special laws.

Despite this.

There are not many Daluo Immortal Kings who can push the power of laws to perfection.

In fact, comprehending laws is more difficult than improving cultivation.

What's more.

He comprehended the supreme laws.

And the law of chaos is even higher than the supreme law.

It is much more difficult to comprehend.

In other words, Zhang Yuhe's comprehension is against the sky.

Otherwise.

He might comprehend the laws and put them aside first.

Improve your cultivation first.

After all, cultivation is the foundation.

But it doesn't matter.

Anyway, he has plenty of time.

After this celebration is over.

Continue to comprehend slowly.

If 10,000 years doesn't work, then 100,000 years.

If 100,000 years doesn't work, then 1 million years, 10 million years.

He doesn't believe it.

With his explosive comprehension.

He won't be able to handle these ten laws.

...

Chapter 497: Cool Appearance

Five days later.

All the immortals gathered on Yunfei Island.

The major forces of the surrounding major immortal realms, the immortal kings and immortal lords who came to participate in the celebration, have basically arrived.

Outside the square of the Daosheng Sect's mountain gate.

Three hundred and sixty peaks rose from the ground.

The peaks were neatly divided into two rows.

From the Daosheng Sect's mountain gate square, it extended all the way to the edge of the island in the distance.

There were exactly three hundred and sixty Daluo Immortal Kings from various immortal realms who came to participate in the celebration.

Each Daluo Immortal sat on a peak.

This showed that Daosheng Sect had a respect for these noble guests.

On the top of each mountain, a wide platform was arranged.

On both sides of the platform, there was a team of blue-robed disciples of Daosheng Sect serving on the left and right.

The Daluo Immortal King sat high in the center.

In front of each of them, there was a wide table.

On the table.

It was filled with various precious immortal fruits, delicacies, and immortal wines.

On the hillside of each mountain.

Each is surrounded by a long corridor.

A wide table is placed at a certain distance in the corridor.

There are also various kinds of fairy fruits and fairy wine on it.

In front of each table, there is a Taiyi Immortal Lord sitting cross-legged.

Two blue-robed disciples of the Daosheng Sect serve behind him.

There are more than ten thousand Taiyi Immortal Lords who came to participate in the celebration this time.

The corridors on each mountainside are in the number of Tiangang, with thirty-six tables placed.

It is just right to arrange all the Taiyi Immortal Lords well.

Three hundred and sixty Daluo Immortal Kings and tens of thousands of Taiyi Immortal Lords.

These are all the guests from various immortal realms who came to participate in the celebration.

As for those below Taiyi Immortal, there is not a single one.

As the Immortal King Celebration of the Daosheng Sect.

Without the strength of Taiyi Immortal, it is embarrassing to come and participate.

What's more,

Daosheng Sect only sent invitations to those major forces with Taiyi Immortals in charge.

Forces with insufficient strength did not even have invitations.

Naturally, they could not come to participate in this celebration.

And those major forces that received invitations were almost all leaders of the sect.

They came to participate in the celebration in person to show respect for Daosheng Sect and Yinhe Xianwang.

Whether it was Xianwang or Xianjun, they were the leaders of various forces.

The guests sat in front of the table, and there were disciples of Daosheng Sect serving beside them.

At this time.

Lu Yunfei slowly walked up to the high platform in the center of the mountain gate square.

He looked around and bowed to the guests from all over the mountain.

"Welcome all seniors and Taoist friends to come to the sect master's Xianwang celebration."

"If there is any place where the hospitality is not good, please forgive me."

At this point.

Lu Yunfei paused for a while.

He took out a golden book and slowly opened it.

"The Daosheng Sect has been established in the Ji'an Sea for tens of millions of years."

"Fortunately, the Sect Leader Zhang Yuhe has successfully promoted to the Daluo Realm and ascended to the position of the Immortal King."

"This is hereby announced to the world and spread to the Heavenly Dao."

Lu Yunfei closed the golden book, then bowed and shouted loudly towards the void.

"Welcome the Sect Leader to enter."

As soon as Lu Yunfei finished speaking.

Near the gate of the Daosheng Sect, countless disciples also shouted in unison.

"Welcome the Sect Leader to enter."

Just at this moment.

Boom...

Suddenly there was a loud noise.

A huge black hole slowly appeared in the void.

Zhang Yuhe's figure floated out of the black hole.

His powerful Daluo Realm aura suppressed all directions.

The power of various laws intertwined and appeared, and then slowly converged.

Countless Daosheng Sect disciples shouted excitedly in unison.

"Greetings to the Sect Leader."

The voice shook the heaven and earth and resounded through the clouds.

Seeing such a situation.

All the guests at the scene were stunned.

Whether it was the Daluo Immortal King on the top of the mountain or the Taiyi Immortal Lord on the mountainside.

They almost couldn't believe their eyes.

How could this be possible?

The Yinhe Immortal King had just broken through, just 100,000 years ago.

How could he have such a terrifying power?

What was even more terrifying was that.

Zhang Yuhe actually created a huge black hole in the void.

Then he shuttled out of the black hole.

Section 663

All the guests present are people with extraordinary experience.

Based on what they know.

In this fairy world.

Only the Dao Ancestor Emperor and the Supreme Chaos Beast can shuttle forward in the void.

No matter how strong others are, at most they can only teleport over short distances.

Even the top Daluo Immortal King would never be able to do this.

Zhang Yuhe's impressive appearance completely shocked everyone.

If not understood in advance.

Everyone may think that this is a Taoist ancestor appearing in this world.

Looking at Zhang Yuhe standing in the void.

All kinds of strange expressions could not help but appear on everyone's faces.

There is envy, awe, longing, and more of all doubts and incomprehension.

Zhang Yuhe had just been promoted to Daluo Immortal King.

How did he do it, travel through the void?

Isn't this exclusive to Emperor Daozu?

Could it be that Zhang Yuhe's strength is already comparable to that of Emperor Daozu?

The Supreme Prodigy is indeed terrifying.

Every time he is promoted to a great realm, his strength changes drastically.

There have also been three supreme geniuses in the Daluo Realm in the Immortal Realm.

But it's not that exaggerated.

Don't say you just got promoted.

Even when Daluozeng reaches consummation.

In the past, the strength of the three supreme geniuses was at most comparable to that of the supreme Chaos Beasts.

Both sides will suffer losses.

Compared with Emperor Daozu, there is still a big gap.

Everyone has never thought about it.

After Zhang Yuhe was promoted to the Da Luo realm, his strength would improve so much.

Isn't this too exaggerated?

Now his strength is comparable to that of Emperor Daozu.

Then wait until he reaches the perfection of Da Luo realm.

What kind of strength it will be.

Is it possible to crush the Dao Ancestor Emperor?

Everyone simply didn't dare to think about it.

Of course.

In fact, some people think about it.

Maybe Zhang Yuhe was able to travel through the void only with the help of certain means.

This does not mean that his strength can be compared with Emperor Daozu.

But even so.

That's pretty awesome too.

Because this also explains.

Zhang Yuhe has mastered a method that is comparable to that of Emperor Daozu.

Isn't this scary enough?

Zhang Yuhe stood in the void. He looked around, smiled and said to the guests.

"Thank you fellow Taoists for coming to participate in my promotion celebration."

"Everyone in Dao Sheng Sect, as long as you eat well and drink well, you will have enough delicious food and immortal wine."

"If there is any lack of hospitality, please fellow Taoists please forgive me."

"Hahaha."

Wei Tianfeng laughed loudly.

"Since Sect Leader Zhang said so, I won't be polite."

"You must drink enough of this Hundred-Fruit Fairy Brew today."

"Yes, this is a rare event. Everyone must not get drunk today."

"Okay, everyone come together."

"Congratulations to the Galaxy Immortal King."

All the guests stood up together, picked up their wine glasses, and saluted Zhang Yuhe together.

"Congratulations to Sect Leader Zhang for being promoted to Great Luo Immortal."

...

Chapter 498 The geographical layout of the fairy world

Zhang Yuhe sat cross-legged on the high platform.

Raise your glass to the guests and drink to your heart's content.

It's a joke to get drunk and then rest.

All the guests present were either Immortal Kings or Immortal Lords.

No matter how strong the alcohol is, it is impossible to make them drunk.

But you really shouldn't drink too much of this Baiguo Fairy Brew.

This kind of fairy wine is brewed from hundreds of kinds of fairy fruits that are more than 100 million years old.

The effect of the medicine is extremely strong.

Ordinary Da Yi Immortal Lord, even just take a small sip.

It takes a long time to slowly dissolve the medicinal power in the fairy brew.

Even Daluo Immortal King can't drink more than a few drinks at a time.

Otherwise.

Not only does it bring no benefits, but it will also cause various hidden harms.

Everyone toasted to each other, drank, and chatted happily.

Wei Tianfeng put down his wine glass and said to Zhang Yuhe with a smile.

"Now that Sect Leader Zhang has been promoted to Immortal King, he will probably travel to various immortal realms, right?"

"The fairyland is so vast, it's really worth visiting everywhere."

"Different fairy realms have different styles, especially other large realms."

"Compared with our Tianxing Domain, each has some distinctive characteristics."

Zhang Yuhe nodded and responded with a smile.

"After waiting for a while, I really plan to go to various places to see the scenery of various places in this fairyland."

In fact, he has long wanted to visit various places in the fairy world.

More than eight million years have passed since he ascended to the fairy world.

In addition to the South China Sea Immortal Territory, he has only been to dozens of surrounding Immortal Territories.

As for places farther away, he has not been there yet.

In the fairy world.

It is divided into separate spaces by the Immortal Domain, between adjacent Immortal Domains.

It is blocked by the vast Chaos Continent.

Without sufficient strength, it is easy to encounter danger when traveling rashly.

In the same large domain, the situation is better.

Because there are teleportation arrays connected to each other in the same large area, it is quite convenient to travel between them.

But the distance between the big domain and the big domain is really too far.

Even Emperor Dao Zu couldn't set up the teleportation array.

If you want to go to other large areas, you can only rely on the monks to fly by themselves.

But due to the long distance, even Daluo Immortal King.

It may take tens of thousands of years of continuous flight on the Chaos Continent.

To reach other large domains.

It is even farther than the Origin Sea where the twelve major tribes are located.

The geographical layout of the fairyland is indeed a bit strange.

The fairyland is centered on the Origin Sea and spreads out to the surrounding areas.

The distance between each fairyland and the Origin Sea is actually not much different.

But the distance between fairylands is hard to say.

Section 664

It might be better since they are in the same big area.

Even if there is no teleportation array, you can still fly there.

If there are two fairy realms separated by two ends of the fairy world.

That would be too far.

You even have to cross the sea of origin.

Even the Dao Ancestor Emperor may not be able to fly over.

If you bypass the sea of origin.

Then the time it takes will be extremely exaggerated.

Daluo Immortal King has been flying continuously for millions of years, but he may not be able to fly to the Immortal Realm on the other side.

This still does not take into account the emergencies that may be encountered on the road.

After all, it is impossible to stay safe and sound while flying on the Chaos Continent for a long time.

It is possible to encounter a powerful Chaos Beast at any time.

Normally.

The monks call the fairy realms that are close to each other a big realm.

In every large domain, there is usually a Taoist ancestor sitting in charge.

It can be regarded as a party, independently fighting against the power of Chaos Beast.

As for the major domains.

It is the vast continent of chaos.

Ordinary monks would not be able to travel to other great regions throughout their lives.

Not even Immortal Taiyi.

If you want to cross the boundless continent of chaos, you must be at least as strong as the Great Luo Immortal King.

Otherwise.

If he encounters a king-level chaos beast, the normal Taiyi Immortal Lord will definitely die or not.

The fairy world is so big, Zhang Yuhe has long wanted to go out and have a look.

It's just that it didn't have enough strength before, and it had to take care of the development of Dao Sheng Sect.

He really couldn't get away.

Now that he has been promoted to the Great Luo Immortal King, the matter of cultivation is no longer so important.

Now the development of Daosheng Sect has already been on the normal track.

Even if he is not in the South China Sea Immortal Domain, he doesn't have to worry about being targeted.

Zhang Yuhe really planned to do it.

After successfully practicing Taoism, he will sweep away all the surrounding Chaos Beast Tribes.

Completely lifted, the threat of Chaos Beasts to the South China Sea Immortal Territory.

After completing these things.

Just go check out other big areas.

After all, it has been so many years since he ascended to the immortal world.

I haven't traveled out yet.

Hear Zhang Yuhe's words.

Wei Tianfeng said with a smile.

"With Sect Leader Zhang's current level of cultivation, he will naturally not encounter any danger in the Immortal Realm."

"But it's best not to go to the territory of the demon and demon clans."

"They are very repulsive to human monks and are not much friendlier than Chaos Beasts."

Zhang Yuhe nodded lightly.

He has also heard about the situation of the two demon clans.

Although the three tribes of humans, monsters and demons fight against the chaos beasts together, this is the overall situation of the fairy world.

But that's only when facing a full-scale war with the Chaos Beast.

Only three tribes can unite.

In normal times.

The relationship between the three races of humans, monsters and demons is far from friendly.

The three tribes didn't fight because they were far apart.

Distance creates beauty.

It's hard to fight.

But if the human monks enter rashly, it will be the territory of the demon and demon clans.

The result is difficult to predict.

Zhang Yuhe naturally has no idea of entering the territory of the demon and demon clans.

Seriously speaking.

He and the demon clan still have quite a lot of grudges.

It's hard to say that Long Yuanguang's death had nothing to do with him.

After all, it was after he suppressed Long Aotian that Long Yuanguang chose to risk opening the space channel of Liuhetian.

Therefore, he was beaten to death by Tianxing Daozu.

Zhang Yuhe only found out later.

Long Yuanguang is the legitimate son of the Black Dragon Taoist Ancestor.

Now Long Yuanguang is dead.

Black Dragon Daozu did not dare to cause trouble to Tiandao Daozu.

But it's hard to say whether it will cause trouble for him.

in particular.

If he takes the initiative to enter the territory of the demon clan.

This is tantamount to giving the Black Dragon Daozu an opportunity for revenge.

Although Zhang Yuhe thinks.

Wait until he masters Taoism.

Strength does not necessarily mean it will be worse than the Black Dragon Daozu.

He's really not too scared.

But the problem is.

The Demon Clan is not the only Dao Ancestor, Black Dragon.

Although there are not as many Taozu emperors from the demon clan as there are from the human clan.

But there were about a dozen of them.

No matter how conceited he is.

I dare not say that I can fight against more than ten Tao Ancestor Emperors at the same time.

As for the demon clan's territory, he even dared not go there.

When I was in the lower realm.

He wiped out all the demons in Cangyun Realm.

He even smashed the phantom of the fairy world with a fist.

Different from the human race.

The demon clan has only one power in the fairy world.

That is the Demon Palace.

The entire demon clan in the fairy world is under the control of the Demon God Palace.

That is to say.

The Demon God Palace in the Cangyun Realm is actually the direct subordinate of the Demon God Palace in the Immortal Realm.

And the phantom he shattered came from the Immortal Demon Palace.

Presumably, there is still a wanted order for him in the Demon God Palace.

Slap someone in the face.

Wouldn't it be uncomfortable to go to other people's territory?

Zhang Yuhe is very knowledgeable.

You're certainly not asking for trouble.

He will not go to the territory of the demon and demon clans.

Just walk around and have a tour in the major areas of the human race.

...

Chapter 499 Tianxing Daozu and Liuyue Immortal King

In front of the gate of Daoshengzong Mountain.

Immortal mountains rise from the ground, and all the immortals gather.

Section 665

The Immortal King is high on the top of the mountain, and the Immortal Lord is sitting cross-legged on the corridor on the mountainside.

Zhang Yuhe and the guests toasted and drank.

The atmosphere was extremely warm.

...

The no man's land near Galaxy Island.

A huge black hole suddenly appeared in the void.

Three giant cauldrons holding the sky slowly flew out of the black hole.

Under the protection of the giant cauldron, two figures stood in the sky.

Immortal King Liuyue pointed his hand towards the distance, and then said respectfully.

"Master, over there is Galaxy Island."

"Let's go over and take a look."

Tianxing Daozu nodded gently.

I saw him wave his right hand.

The three giant cauldrons disappeared instantly.

The two people turned into streams of light and soon appeared above Galaxy Island.

At this time, the tribulation formation on Galaxy Island had already been repaired by Zhang Yuhe.

A light blue light curtain, like a giant bowl, turned the entire Galaxy Island upside down.

Compared with other types of tribulation formations.

The Renshui Thunder Absorbing Formation not only has an excellent effect of weakening the Heavenly Tribulation.

The key is that there are no special costs.

It all relies on the endless water power of the sea to drive the operation of the formation.

so.

Zhang Yuhe repaired the Renshui Thunder Absorbing Array.

Let this formation remain in operation.

It doesn't cost him half a dime anyway.

Moreover, the layout of the Renshui Thunder Absorbing Array is extremely complex.

Even if he burned the arrangement method on the jade slips.

No one else can open this formation.

That is to say.

If this formation is not kept in running condition.

When someone from the Dao Sheng Sect needs to overcome a calamity.

He had to come in person to activate the formation.

How troublesome that would be.

It's just right as it is now.

When someone from Dao Sheng Sect is about to break through to Taiyi Immortal or Daluo Immortal.

All you need to do is come to Galaxy Island, break through the bottleneck and welcome the disaster.

There is no need for Zhang Yuhe to go there in person.

This would save him a lot of trouble.

At this time, a group of blue-robed disciples were standing on the Tribulation Crossing Platform of Tianjie Peak, quietly looking in the direction of the Dao Sheng Sect in the distance.

Today is a big day for their sect master to hold the Immortal King's celebration.

Most of the disciples of Daosheng Sect who were scattered in various places returned to the sect.

But they can't leave.

Because Galaxy Island is an important place for Dao Sheng Sect.

It cannot be left without someone to guard it.

So everyone could only stand on the Tribulation Crossing Platform and look at the Dao Sheng Sect in the distance.

Imagine the enthusiasm and splendor in the sect at this time.

Tianxing Daozu and Liuyue Immortal King stood quietly over Galaxy Island.

The Dao Sheng Sect disciples on Tianjie Peak didn't find anything.

In fact, this is normal.

The Great Emperor Daozu walks in the world.

If you don't want people to see it, then no one will know that he has been here.

The Dao Sheng Sect disciples who guard Galaxy Island have the highest cultivation level but the Golden Fairy Realm.

It was naturally impossible for them to discover the figures of Tianxing Daozu and Liuyue Immortal King.

Looking at the magnificent formation in front of him.

Tianxing Daozu couldn't help but sigh.

"The Galaxy Immortal King is indeed a genius. He is actually able to design such a complex formation based on such simple principles."

"The fantastic ideas here are simply incredible."

Hear this.

The Immortal King Liuyue next to him asked with some doubts.

"Master, do you think this formation was designed by the Galaxy Immortal King himself?"

"Didn't he inherit it from the fallen Tao Ancestor?"

before this.

Everyone thought that Zhang Yuhe should have received the inheritance from a certain Taoist ancestor.

Otherwise, his cultivation speed would not be so fast.

more importantly.

Zhang Yuhe is not only able to lay out complex tribulation formations.

And there is also an earth-level fairy ship in hand.

Like these advanced things.

If there is no inheritance, it is all designed and built by Zhang Yuhe himself.

That is simply unimaginable.

However, Tianxing Daozu said.

This magnificent tribulation formation was actually designed by Zhang Yuhe.

This made Immortal King Liuyue feel very incredible.

Did they guess wrong before?

Zhang Yuhe has not received any inheritance from Tao ancestors.

Was all this designed and built by himself?

Tianxing Daozu looked into the distance and responded calmly.

"Where can there be so many Taoist ancestors in this immortal world?"

"Although there are indeed many Taoist ancestors who have fallen."

"But there is no inheritance left behind."

"All inheritances have been sorted and collected and handed over to the designated successors."

"More importantly."

"This great tribulation formation is so perfect and complex."

"Even if I took action myself, I wouldn't be able to do this."

"As for the fallen Taoist ancestors, there is no one who has such high attainments in the formation method."

Tianxing Daozu is very convinced.

The tribulation formation arranged by Zhang Yuhe was not inherited from anyone.

At least not a known inheritance in the fairy world.

Unless it comes from outside the fairy world.

As far as the formation method is concerned.

Tianxing Daozu is very confident.

In this fairy world.

If he claims to be second, no one will dare to claim to be first.

No one can surpass him in formation formation.

Including the fallen Tao Ancestor, the same is true.

After seeing the formation in front of him.

Tianxing Daozu was very sure.

All of this was from Zhang Yuhe's own design and creation.

Thinking of this.

He also felt a little incredible.

Section 666

This world.

How could there be such a rebellious person?

When I was in Taiyi Realm, I was able to design and arrange such a perfect and complex formation.

But that's the thing.

Tianxing Taoist Ancestor stood in the void, silently feeling the rhythm flowing on the Renshui Thunder Absorbing Formation.

The more I looked at him, the more I admired him.

Zhang Yuhe applied simple principles to the extreme.

Even if he had seen the Renshui Thunder Absorbing Formation with his own eyes.

It is also impossible to copy this formation again.

How could Tianxing Daozu not admire this?

To know.

He is the Dao Ancestor Emperor.

His cultivation level is several levels higher than that of Zhang Yuhe.

Moreover, he has studied the art of formation for countless years.

Actually even a Taiyi Immortal Lord once arranged a large formation.

Neither can be copied.

How incredible this is.

When Zhang Yuhe set up the formation, there was no breakthrough yet.

At that time, he was still Taiyi Immortal Lord.

The more Tianxing Daozu thought about it, the more shocked he felt.

He felt it was necessary to meet this rising star in person.

Think of this.

Tianxing Daozu turned around and said to Immortal King Liuyue.

"I heard that the Dao Sheng Sect is holding a celebration of the Immortal King."

"Come on, let's go and take a look."

"Yes, Master."

Upon hearing this, Immortal King Liuyue's eyes lit up.

Originally, she also wanted to attend the Dao Sheng Sect's Immortal King Celebration.

Moreover, Dao Sheng Sect also sent an invitation to Tianxing Holy Land.

But she was stopped by Master.

Therefore, Immortal King Liuyue had to arrange for others to attend the celebration.

The two quickly flew away from Galaxy Island.

The Dao Sheng Sect disciples who were responsible for guarding the formation had no idea at all.

There was a great Tao Ancestor who once came to this place.

...

Chapter 500 Dao Ancestor arrives in person!

Outside the gate of Daoshengzong Mountain.

While everyone was drinking the fairy brew, they were chatting.

Boom...

A huge roar suddenly came from the distant sea.

There was silence for a moment.

All the guests stood up immediately.

Everyone was very surprised.

A big day like today.

Is there still someone who dares to come to Dao Sheng Sect to find trouble?

I'm afraid I'm living impatiently.

Zhang Yuhe slowly moved on his body.

He looked into the distance.

On the outer sea of Yunfei Island, a huge black hole suddenly appeared in the void.

Three giant cauldrons holding the sky slowly flew out from the black hole.

Two human figures stood in the sky, with giant cauldrons surrounding them, gently flowing.

See this situation.

Everyone couldn't help being shocked.

Naturally, they all recognized the natal Taoist weapon of the Heavenly Star Dao Ancestor.

The Three Talents Cauldron of Heaven and Earth is the top Taoist weapon that has suppressed the immortal world for countless years.

The terrifying power of the sky-holding giant cauldron, as well as the figures traveling through the void.

Although it was too far away, everyone could not see it very clearly.

But there is no doubt about it.

This is the arrival of Tianxing Daozu.

It just made them feel very puzzled.

Why did Tianxing Dao Ancestor come to Dao Sheng Sect at this time?

Are you also coming here to participate in Zhang Yuhe's Immortal King Celebration?

This is impossible, right?

As the Supreme Being of the Immortal Realm, Dao Ancestor has always been like a divine dragon.

Let alone these people.

Even the Great Luo Immortal King of the Holy Land rarely saw his Taoist ancestors a few times.

Now Tianxing Daozu will actually come in person to participate in Zhang Yuhe's Immortal King celebration.

This is simply unprecedented.

But now it's too late for everyone to think too much.

Everyone quickly jumped into the air.

They shouted respectfully towards the figures in the distance.

"Meet Dao Ancestor."

Two figures approached from far away and soon appeared outside the mountain gate of Dao Sheng Sect.

Tianxing Daozu looked around, waved his hand gently, and said nothing.

Immortal King Liuyue next to him smiled and said.

"Master was out for a walk and happened to hear that Sect Master Zhang was promoted to Daluo Immortal. He came here to congratulate him. Don't be restrained."

Speaking of which.

Immortal King Liuyue turned around and cupped his hands to Zhang Yuhe.

"Congratulations to Sect Leader Zhang for being promoted to Daluo Immortal King."

Zhang Yuhe smiled, raised his hands and responded.

"Thank you Daozu, thank you Fairy."

Just at this time.

Lu Yunfei and other Taiyi Immortal Lords from the Dao Sheng Sect immediately stepped forward.

I personally added two desk tables to the central high platform.

All kinds of delicacies, wines and wines are available.

Until this time.

No one knows either.

Why did Tianxing Daozu come?

But since Immortal King Liuyue said that he came here specially to congratulate.

Then everyone can only arrange according to the most distinguished guests.

Tianxing Daozu slowly sat down in front of the desk.

Immortal King Liuyue followed closely, serving behind him.

Although Dao Shengzong also added a desk next to her.

But she obviously had no intention of sitting at a table alone.

I saw Tianxing Daozu sitting on the high platform in the center.

The others returned to the mountain peak and sat down quietly.

But this time, obviously I can't drink it as comfortably as before.

The great god Tianxing Daozu is here.

How dare everyone drink happily?

Section 667

The atmosphere at the scene became slightly dull.

Tianxing Daozu picked up the wine glass and took a small sip.

He smiled and said to Zhang Yuhe.

"Yes, it is a great blessing for our human race to have a genius like you rise among the younger generations."

"The various chaotic situations in the fairy world may be solved by your hands one day in the future."

Hearing such high praise from Tianxing Daozu.

Zhang Yuhe quickly responded modestly.

"Senior, you're welcome."

"The road is boundless. I've only just started. There's still a long way to go."

Want to resolve the chaos in the fairy world.

That not only requires wiping out all the chaos beasts, but also suppressing the demon and demon clans.

Otherwise.

This fairyland.

Not even peaceful.

Tianxing Daozu really thinks highly of him.

Although Zhang Yuhe is very confident in his own strength.

But that will have to wait until later.

It would not be good to praise him too highly now.

Tianxing Daozu put down his wine glass.

He nodded slightly, and then spoke slowly.

"You don't have to be too self-effacing."

"To be honest, although the Supreme Prodigy is powerful, it is not uncommon."

"In the long years of the fairy world, countless supreme geniuses have been born."

"There were even three supreme geniuses in the Daluo Realm."

"Back then, we old guys thought that the Supreme Prodigy was invincible at the same level and had unparalleled combat power."

"As long as one of them can be successfully promoted to the realm of Dao Ancestor, then he will definitely be able to wipe out the chaos beasts."

"It is not impossible to completely resolve the grudges between the monks and the chaos beasts, and even open up the path to immortality."

"For this reason, all the major holy places have tried their best to help the Supreme Prodigy cross the threshold of the Dao Ancestor Realm."

"It's just the result that everyone must know."

"Those three supreme geniuses all fell into the calamity in the end."

"The calamity that the Supreme Prodigy has to face is really terrible."

"Even if we try all kinds of methods, we still can't help the Supreme Prodigy to successfully survive the Dao Ancestor Heavenly Tribulation."

"It's as if the way of heaven does not allow the existence of geniuses who master the supreme law."

Listen to the narration of Tianxing Daozu.

Zhang Yuhe's heart trembled.

It seems that he still underestimated the difficulties he would face in the future.

Originally, he thought that those three people in history were the supreme geniuses of the Great Luo Realm.

Maybe it was due to lack of preparation or lack of foundation, so he failed to withstand the Dao Ancestor Heavenly Tribulation.

Now it seems.

Apparently that's not the case.

All the major holy places are trying their best to help, and they must have made all kinds of preparations to the extreme.

despite this.

None of the three supreme geniuses could withstand the Dao Ancestor Heavenly Tribulation.

It can be seen from this.

How terrifying is the calamity that the Supreme Prodigy will face when he breaks through to the Dao Ancestor Realm.

Compared with the supreme genius of the past.

The calamity Zhang Yuhe needs to face will definitely be more exaggerated.

Because he doesn't have only one supreme law.

Instead, he mastered the nine supreme laws at the same time.

Not only that.

He also mastered the higher-level laws of chaos.

Wait until he is promoted to the Dao Ancestor Realm.

How terrible will the catastrophe that will follow be.

Zhang Yuhe simply didn't dare to think about it.

Originally he had planned.

In the future, we will use the existing Renshui mine-absorbing array and slightly improve it.

Just try to lead the disaster to come.

Because the current Renshui Thunder Absorbing Formation has been pushed to its extreme by him.

It will be very difficult to continue to improve significantly.

After all, this is a large formation composed of nearly a million high-grade immortal weapons.

If you still want to make in-depth improvements.

Is it necessary to use tens of millions of lightning-absorbing pillars at the level of top-notch immortal weapons to arrange a large formation?

Where was he going to get so many materials?

You can't use tens of millions of king-level chaos beast bones to refine thunder-absorbing pillars, right?

Can we find so many king-level chaos beasts in the entire fairy world?

This is a big problem.

But now it seems.

He could only go so far.

Kill all the chaos beasts in the fairy world.

If it's not enough, supplement it with other materials.

Even if you search the entire fairy world.

He also wanted to take the Renshui Thunder Absorbing Formation a big step further.

Otherwise.

He would not be able to withstand the future Taoist Heavenly Tribulation.

But this question is still early.

He has just been promoted to the Great Luo Realm.

Thinking about it, it will take at least tens of millions of years, or even hundreds of millions of years, to reach the perfection of Daluoxian.

He still has a lot of time to prepare for the tribulation.

take it easy.

Anyway, the battle between the Chaos Beast and the monks was originally a matter of life and death.

Even if all the chaos beasts are killed.

He won't feel any guilt.

...

Chapter 501 The road ahead to the fairy world

Tianxing Daozu looked at Zhang Yuhe and said with admiration in his eyes.

"Unlike the three supreme geniuses before, you are not only powerful, but also practice extremely fast."

"And I can also divide my mind and delve into other matters."

"This is very rare."

"I just went to see the great tribulation formation you set up."

"The wonderful ideas in it have to be said to be very mysterious."

Speaking of which.

Tianxing Daozu paused for a moment.

He turned to Zhang Yuhe and asked.

"You created the great formation for overcoming the tribulation, didn't you?"

"I think so."

Zhang Yuhe nodded gently.

Then he continued to respond.

"When I was still in the lower realm, I found that this formation had a very good effect in weakening the heavenly tribulation."

"Then I deduced and improved it again and again until it became what it is now."

Section 668

Hearing Zhang Yuhe's words.

Tianxing Daozu was greatly shocked.

He asked with some uncertainty.

"You mean, that great formation for overcoming tribulations was improved step by step from the formation in the lower realm?"

How is this possible?

To improve a formation in the lower realm to this point.

This is too exaggerated.

It is even more difficult than redesigning a formation.

How did you do this?

What kind of heaven-defying enlightenment is needed.

To be able to deduce a formation in the lower realm to such an exaggerated point?

Tianxing Daozu simply couldn't believe it.

Zhang Yuhe nodded gently.

He reached out and took out a jade slip, and then handed it to Tianxing Daozu.

"This is a record of my improvements every time, please guide me, Daozu."

Tianxing Daozu took the jade slip.

After checking the contents on the jade slip.

He couldn't help but say with admiration.

"You are indeed a genius."

"I was wondering how the principle of your formation could be so simple."

"It turns out that it was derived and improved from the formation of the lower realm."

"The formation of the lower realm was made from simple to complex, and then from complex to simple."

"The difficulty is simply unimaginable."

"But this formation is indeed very effective in assisting in overcoming the tribulation."

Daozu Tianxing looked at Zhang Yuhe and said solemnly.

"If you can continue to push this formation forward."

"Then in the distant future."

"Maybe you can successfully overcome the Taoist tribulation with this formation."

"Become the first supreme genius of the Taoist realm in the history of the fairy world."

Zhang Yuhe nodded gently.

"Yes, that's what I was planning."

"It's just that if I want to continue to improve this formation, it will not only take a lot of time."

"The key is that the materials needed to set up this great formation for overcoming the tribulation are too huge."

"I don't know if I can find them all in the future."

"Let's do it step by step."

To be honest.

Although the Renshui Thunder Absorption Formation has been deduced to the extreme by him now.

But Zhang Yuhe is confident.

As long as he is willing, he can definitely deduce and improve it.

It's nothing more than spending more time.

The only trouble is.

As the Renshui Thunder Absorption Formation is slowly deduced and improved.

The required lightning absorption columns will inevitably become more and more exaggerated.

The current Renshui Thunder Absorption Column is still the third level of the fairy product.

It will require nearly one million lightning absorption columns of the upper level of the fairy weapon.

If this formation is deduced to the fourth level of the fairy product by him.

Then the lightning absorption columns needed for the formation will have to be tens of millions of the top-level fairy weapon level.

This arrangement requirement is really too exaggerated.

Even if the entire fairy world is searched, there can't be so many top-grade fairy weapons.

Let alone tens of millions of top-grade fairy weapons.

Even if there are millions of top-grade fairy weapons, there shouldn't be so many in the fairy world.

He just set up a great formation for overcoming the tribulation.

He needs so many top-grade fairy weapons.

This is really too exaggerated.

However, he has no other way.

Zhang Yuhe's idea of improving Renshui's lightning absorption is to continuously improve the level of the lightning absorption column.

At the same time, increase the number of lightning absorption columns.

It seems simple and crude, but it is extremely effective.

Thinking of this.

Zhang Yuhe is also very helpless.

He has already thought about it.

When the strength is improved to a certain level.

Then launch a full-scale war against the chaos beasts.

All the chaos beasts in the entire fairy world will be wiped out.

But he is not sure.

How many king-level chaos beasts are there in this fairy world.

Are there millions, or tens of millions?

If there are only two or three million king-level chaos beasts in the entire fairy world.

Then he wants to gather nearly 10 million lightning-absorbing pillars of the best fairy weapon level.

But it is difficult.

Other materials can indeed replace some of them.

But each material that can be used to refine the best fairy weapon is extremely precious.

Even if he searches the entire fairy world, he can't get much.

So it is better to hope that there will be enough king-level chaos beasts in the fairy world.

Don't wait until he kills all the chaos beasts, but there is still a big gap.

That will be really troublesome.

Hearing Zhang Yuhe's words.

Tianxing Daozu picked up the wine glass and took a sip gently.

He said solemnly.

"You don't have to worry about these things."

"If there is such a day, we old guys will do our best."

"We will also help you find the materials."

"Now the only thing you need to do is to practice well."

"Raise your cultivation to the state of perfection as soon as possible."

"At the same time, continue to deduce and improve the great formation of crossing the tribulation."

Tianxing Daozu put down the wine glass.

He continued.

"This is not just to help you, nor is it just for the situation in the fairy world."

"More importantly, we old guys have been trapped in the Daozu realm for too long."

"If we don't open up the way forward as soon as possible, maybe in the near future, some people may go crazy."

Zhang Yuhe nodded silently.

He naturally knew what the way forward that Tianxing Daozu was talking about was.

It was in the Sea of Origin.

But there were not only a large number of Venerable Chaos Beasts sitting there.

The key is.

There is also the terrifying aura of the Supreme True God, which overwhelms the entire Origin Sea.

Even if all the Daozu Great Emperors in the Immortal Realm attack together, they cannot suppress those Supreme Chaos Beasts.

Not to mention the Supreme True God, who is beyond the Immortal Realm.

But.

Is there really a Supreme True God in the Origin Sea?

Section 669

What is the strength of the Supreme God?

Zhang Yuhe didn't know.

This information was just a few words he saw in some books.

It's not necessarily accurate.

But Tianxing Daozu should know this information.

Thinking of this.

Zhang Yuhe asked Tianxing Daozu tentatively.

"Daozu, does the Supreme God really exist? How strong is it?"

Tianxing Daozu slowly stood up, looked into the distance, and then spoke softly.

"The Supreme God does exist without a doubt. I have seen its phantom in the Sea of Origin."

"As for how strong the Supreme God is, no one knows."

"I was just pressed to the point of being unable to move when I saw the phantom."

"If it wasn't for Emperor Tianzuo who helped me."

"I would have died in the Sea of Origin at that time."

...

Chapter 502 The Origin Conference of the Immortal Realm

Speaking of the Supreme God, Tianxing Daozu couldn't help but sigh.

At that time, he just saw a phantom.

He was suppressed in place, completely unable to move.

If it weren't for Emperor Tianzuo, who happened to be next to him and helped him.

He would have died at that time.

It was just a phantom, so scary.

If the real body of the Supreme True God appeared in the world, it would be very powerful.

Tianxing Daozu simply didn't dare to think about it.

But according to their guess.

The Supreme True God should be subject to certain restrictions and cannot descend to the fairyland in person.

Or.

The Supreme True God was seriously injured and could not exert his strength at all.

He could only rely on the phantom to suppress the four directions.

There is another possibility.

That is.

In fact, the Supreme True God may have died a long time ago.

That terrible phantom.

It was just a remnant soul left by the Supreme True God.

But what is certain is that.

No matter which possibility it is.

For the Daozu Emperor of the fairyland.

There is no solution.

Because they can't even get close to that phantom.

As long as the phantom appears.

Except Emperor Tianzuo.

The other Daozu emperors in the fairy world have almost no power to resist.

It is impossible for them to go deep into the sea of origin to study the situation of the Supreme True God.

For countless years.

Those Daozu emperors can only hope that a Supreme Tianjiao will rise.

The Supreme Tianjiao comprehends the Supreme Law and has invincible combat power at the same level.

They can even challenge by leaping levels.

If a Supreme Tianjiao in the Daozu realm appears.

Then it is possible.

Relying on the power of the Supreme Law, they can compete with the phantom of the Supreme True God.

This is the only way that the Daozu can think of to open the way forward.

If they don't remove the Supreme True God, this roadblock.

Then they can only be trapped in the fairy world forever and can't make any more progress.

Even if the Daozu emperor has an infinite lifespan.

But they can never see the way forward.

This is undoubtedly a terrible despair for them.

Now that Zhang Yuhe has suddenly risen, it seems that Tianxing Daozu has seen some hope.

Unlike the three Supreme Tianjiao before.

Zhang Yuhe is stronger, has a faster cultivation speed, and has an extremely extraordinary understanding.

He can improve an ordinary lower realm formation into a powerful tribulation formation.

And the principle of this formation is very simple.

There should be potential for further improvement.

Tianxing Daozu believes.

Zhang Yuhe can improve this formation many times.

Then it is completely possible to improve it again.

As long as this formation is improved once more.

Then it is possible to become the first formation in the fairy world to assist in overcoming the Taoist ancestor's heavenly tribulation.

In this way.

Zhang Yuhe, the supreme genius, may be able to survive the heavenly tribulation and successfully advance to the realm of the Taoist ancestor.

Once Zhang Yuhe is successfully promoted, there will be more hope to open up the road ahead.

Thinking of this.

Tianxing Daozu slowly spoke.

"Don't think too much about these things now."

"The Supreme True God is indeed extremely powerful, but it is also possible that he is just a paper tiger."

"As for the specifics, you will have the opportunity to explore it only after you break through to become a Taoist ancestor."

"We old guys have not even reached the core area of the Sea of Origin, so there is no point in saying these things."

Tianxing Taoist Ancestor looked at the jade slip in his hand, and he paused for a moment.

Then he smiled and said to Zhang Yuhe.

"I will study this jade slip first."

"But I won't take advantage of you for nothing."

He took out a golden invitation, handed it over slowly, and then continued to speak.

"Three million years later, the Jiuzhou Conference will be held in Tianzuo Holy Land."

"This is the highest level gathering in the fairy world, and each domain has only two places."

"Take this invitation, and you can go to Tianzuo Holy Land to attend the gathering."

Zhang Yuhe took the invitation.

On the front of the invitation, there were four big characters [Jiuzhou Conference].

On the back was a tall stone tablet phantom.

He took the invitation and took a closer look.

His heart was filled with doubts.

Jiuzhou Conference?

He had never heard of it.

Could it be a gathering of Daozu?

But why would it be named like this?

In the fairy world.

It is usually named after a domain, and there is no concept of a state.

Why was this gathering named Jiuzhou?

Zhang Yuhe was very puzzled.

He asked with some doubt.

"Daozu, what is this Jiuzhou Conference? Is it a gathering of all the Daozu in the fairy world?"

Section 670

About this question.

Tianxing Daozu did not answer directly.

He looked into the distance and then asked calmly.

"Do you know the origin of immortality and where it comes from?"

Zhang Yuhe shook his head.

He really didn't know about this.

He just heard.

The origin of the Chaos Beast comes from the Supreme True God.

Because the path taken by the Chaos Beast is the path of sacrifice and evolution.

Only by offering sacrifices to the Supreme True God can we gain powerful power.

As for the immortal path that the monks followed, he really didn't know where it came from.

He once thought.

It may be that in ancient times, a certain senior with amazing talent created the way to cultivate immortality.

Now it seems.

That's obviously not the case.

Otherwise.

Tianxing Daozu would not ask that.

Is there something else that can't be explained here?

Tianxing Daozu said slowly.

"Actually, our fairy world, as well as the surrounding lower realms, should be collectively called the Great World of Kyushu."

"A long time ago, there was a powerful man who was chased by a terrifying chaos beast."

"They had a shocking battle near the fairy world."

"In the end they fought to the death."

"The great master only had a remnant soul left. After passing down the cultivation method in the immortal world, he quickly dissipated and died."

Hearing this, Zhang Yuhe interjected and asked.

"Is that Chaos Beast the Supreme True God?"

Tianxing Daozu nodded.

"Yes, it is the Supreme True God."

"In that great battle that year, that powerful man completely perished, but the Supreme True God did not die."

"It sacrifices itself by breeding Chaos Beasts, and it has been surviving until now."

"So the current situation in the fairy world is actually a continuation of the war that year."

"We don't know much about the Mighty One."

"The first batch of monks who accepted the inheritance have long since disappeared in the long river of history."

"We only know that the name of that mighty one is Kyushu."

"As for where he comes from and what kind of realm he is, I have no idea."

"But that Kyushu senior left a stone tablet in Tianzuo Holy Land."

"The so-called Kyushu Conference is actually for everyone to study the contents on the stone tablets and study the origin of the fairy world."

"Everyone hopes to find another way out from the stone tablet."

"It's a pity that the content on the stone tablet is really profound and difficult to understand."

"After so many years, someone learned a certain skill from the stone tablet."

"Some people have realized supernatural powers. There were even people who understood the Supreme Law from the stone tablets."

"But the true content recorded in the stone tablet has never been revealed."

"We convened the Kyushu Conference in the hope that someone can completely unlock the secrets on the stone tablet."

"See if there is another way to go."

...

Chapter 503 Nine Heavens Flying Spirit Stick Improvement

After listening to Tianxing Daozu's narration.

Only then did Zhang Yuhe realize that this was the origin of the path to immortality.

He thought that before.

The Immortal Way may have been gradually explored and perfected by some geniuses.

Now it seems.

It was because he thought too simply.

The mighty man named Jiuzhou didn't know where he came from.

It was probably the remnant soul of the Nine Provinces Great Power, and its survival time was too short.

Therefore, there are almost no legends left in the fairy world.

If it weren't for Tianxing Daozu, talking about this matter.

Zhang Yuhe had no idea at all.

It turns out that the spread of civilization in the fairy world came from this great master of the Nine Provinces.

The only basis that can prove that the great power of Kyushu once existed.

Maybe the only thing left is the stone tablet in Tianzuo Holy Land.

Zhang Yuhe looked at the invitation in his hand.

Every billion years.

The Dao Ancestor Emperor of the Immortal Realm will hold a Kyushu Conference in Tianzuo Holy Land.

In addition to the Dao Ancestor Emperor, there were occasionally some peerless geniuses from various immortal realms attending the meeting.

Everyone gathered together, hoping to unlock the secrets on the stone tablet.

Looking for the origin of Kyushu Power.

the most important is.

Everyone hopes to find another way out from the stone tablet.

Because in everyone's eyes.

Since the Nine Provinces are powerful, they can come to the fairy world from other places.

Then they can naturally go out.

Just so far.

No one has found the way yet.

The only suspicious place is the center of the Origin Sea.

But there is the shadow of the Supreme True God there.

The Tao Ancestor Emperor in the Immortal Realm was completely helpless.

Even if he is as powerful as Emperor Tianzuo, he cannot face the shadow of the Supreme True God.

so.

Everyone places their hope in the stone tablet left by the great power of Kyushu.

I hope that from above, I can find a way beyond the origin.

Zhang Yuhe is also very interested in the stone tablet in Tianzuo Holy Land.

He also wanted to see the great master of the Nine Provinces who was above the Dao Ancestor.

What kind of information was left on the stone tablet?

As his cultivation gradually improved, he had slowly reached the pinnacle of the immortal world.

He also has needs for the path forward to immortality.

Zhang Yuhe didn't want to be trapped in the immortal world forever, with no way to seek enlightenment.

I hope that the Nine Provinces Great Master left useful information on the stone tablet.

Just don't know.

How can I unravel the contents on the stone tablet?

That stone tablet has stood in the Tianzuo Holy Land for countless billions of years.

I don't know how many geniuses have studied that stone tablet.

However, until now, no one has been able to decipher the information on the stone tablet.

Although Zhang Yuhe is full of confidence in his understanding.

But who knows whether deciphering the contents on the stone tablet is related to understanding?

What if other conditions are required.

But it's useless to think about these now.

Wait until three million years later, go to the Tianzuo Holy Land and you will know.

Thinking of these.

Zhang Yuhe put away the invitation.
