### Section 68

He turned back to Lu Mingfang and asked.

"Elder Lu, I want to bring someone into the sect. What procedures need to be completed?"

Lu Mingfang said with a smile.

"There is nothing to do. As a sect elder, you can just bring him in."

Hearing this, Zhang Yuhe was very surprised

Can it still be like this?

The Dao Sheng Sect is not a vegetable market, so aren't they afraid of people from the Demon God Sect sneaking in?

Lu Mingfang seemed to know what Zhang Yuhe was thinking, and he continued to say proudly.

"Don't worry, there are immortal weapons in the sect that monitor all directions. Once someone with evil intentions enters the sect, the immortal weapons will issue a warning."

Immortal weapon?

Zhang Yuhe couldn't help but open his mouth.

Does the Daosheng Sect still have such advanced gadgets?

When you think about the power of the Immortal Kung Fu Hunyuan Heavenly Scripture, you can know how awesome the Immortal Weapon must be.

Not only was he surprised, Li Tian next to him also had an incredible expression.

Seeing their expressions, Lu Mingfang said with a smile.

"Don't think too much about it. The immortal weapons left behind by our ancestors require immortal energy to activate."

"Naturally, no one in the lower realm has immortal power, so this immortal weapon that no one can activate can only automatically monitor and warn, and has no attack capability."

"I see."

Now Zhang Yuhe finally understood.

Just say it.

Since Dao Sheng Sect has immortal weapons, how could it take hundreds of years to fight the demon invasion one hundred thousand years ago?

Who can block a strike from an immortal weapon?

If no one can use the immortal weapon, that would make sense.

...

Chapter 67 Living next to each other

After walking out of Fengming Hall, Li Tian said to Zhang Yuhe.

"Junior brother, I'll go back and clean up first. I'll meet you at your place later."

"good."

After saying that, the two of them left.

After a while, Zhang Yuhe was outside the mountain gate and took Wang Guofeng into the sect.

Then go to Galaxy Peak to clean up, and then fly to the new mountain cave.

"This place is really nice."

Standing over a huge lake and looking at the two mountain peaks in the distance, Zhang Yuhe couldn't help but feel a little happy.

The surrounding environment is very comfortable at first glance.

He likes to live in places with mountains and water.

What kind of landscape villa? Compared with here, it is really weak.

The two peaks stand next to each other, about the same size, and are separated by dozens of miles.

The islands where the peaks are located are each hundreds of miles in radius.

Compared to the previous Galaxy Peak, this place is much larger. It is worthy of being the elder's cave.

Zhang Yuhe took Wang Guofeng and flew to the small island on the left.

This is the mountain he chose, still named Galaxy Peak.

As for the small island on the right, it is Li Tian's cave, called Wangxian Peak.

Li Tian may seem arrogant, but he is actually not difficult to get along with. Zhang Yuhe also admires him very much.

It can be seen from the naming of the mountain that Li Tian is a monk who truly aspires to immortality.

Otherwise, it would be impossible for him to break through to the Void Refining Realm within nine hundred years.

Although Li Tian's qualifications far exceed those of ordinary people, in the history of Dao Sheng Sect.

There are countless disciples with extraordinary qualifications, but only a few can actually make it to the end.

Zhang Yuhe is very optimistic about Li Tian.

He felt that there was a great possibility that this person would eventually be able to survive the great catastrophe and ascend to the immortal world.

Maybe when they get to the fairy world in the future, they will still have friends to deal with.

As for himself? Zhang Yuhe has never worried that overcoming the tribulation and ascending are just a matter of time.

Zhang Yuhe took Wang Guofeng and quickly flew to the top of Galaxy Peak.

I saw the towers, pavilions and pavilions on the top of the mountain, everything was complete.

Unlike when he first entered the inner gate, he had to build his own house, otherwise he would have to sleep in the open air.

As a sect elder, his treatment is not comparable to that of inner sect disciples.

Although no one lived here before, people still came to take care of it from time to time.

This is also one of the tasks of those outer disciples.

Zhang Yuhe looked around for a while, and then came to an open space on the top of the mountain.

He said to Wang Guofeng beside him.

"Find a big stone and set up a stone monument here."

"Yes, senior."

Wang Guofeng quickly turned into a stream of light and searched for suitable stones near the mountainside.

After a while, he was carrying a huge stone and flew up to the top of the mountain.

Zhang Yuhe waved his right hand and cut the stone into the shape of a stone tablet.

Then the sword light surged out and quickly carved on the stone tablet.

Soon, the three characters "Yinhe Peak" appeared on the stone tablet.

There was light in the handwriting, as if there was endless sword light that was about to burst out.

"The Milky Way."

Zhang Yuhe muttered to himself, and suddenly turned around and asked Wang Guofeng.

"Have you ever flown into deep space on Blue Star?"

Space is vast and empty, but the flying speed of the monks is obviously very average.

Even a golden elixir monk like Wang Guofeng is not as fast as an ordinary rocket.

Exploring space physically is no joke.

It's just that he himself is a little lacking in adventurous spirit, except for a lap on the moon.

I didn't explore deeper.

He just wanted to practice quietly and had no intention of exploring the mysteries of the universe.

Hearing Zhang Yuhe's words, Wang Guofeng couldn't help but be a little stunned.

"I haven't tried it, but some Taoist friends from Blue Star have tried it. They have flown as far as Mars, and they haven't found anything special."

Zhang Yuhe nodded.

He just asked casually.

As his cultivation level improved, he also had his own understanding of the connection between the worlds.

For example, the relationship between Blue Star, Yu Fantian, the Demon Realm, and the Immortal Realm.

In Zhang Yuhe's view, if explained by the science of Blue Star, these worlds should not be in the same universe.

Or not in the same dimension.

The reason is very simple.

If the Demon Realm and Yu Fantian belong to the same universe.

Then the invasion of the demons should be in a spaceship, instead of always thinking about opening the interface channel.

Just as he was still thinking about it, a stream of light suddenly passed from a distance.

Soon, an exquisite flying boat came to the top of the Yinhe Peak.

In addition to Li Tian, there were four other people on the flying boat.

Judging from the clothes of these people, they were obviously not disciples of the Daosheng Sect.

It is estimated that like Wang Guofeng, they were followers brought into the sect by Li Tian.

After all, the cultivation of Taoism is long, and they can't do everything by themselves.

As an elder of the Daosheng Sect, it would be unreasonable if there was no one to run errands around him.

They were lucky. I heard that some elders had many wives and concubines in their caves, just like a small country.

After the flying boat landed, Li Tian said to the four people around him.

"This is Elder Zhang. Come and meet him."

The four people, all in green clothes, shouted to Zhang Yuhe at the same time.

"Meet Elder Zhang."
