Section 771

"I believe no one will take it lightly."

"Yes, I have sent people to send the collected materials to Dao Sheng Sect."

"Except for the bones of king-level chaos beasts, the quantity needed is too large, which is a bit difficult to deal with."

"I believe that the other auxiliary materials should be almost collected."

"Haha, Brother Cang Yue just said the opposite."

"Now, all the noble Chaos Beasts from the twelve major tribes have been basically wiped out by the Galaxy Immortal King."

"Without the supreme Chaos Beast sitting in charge, wouldn't all the king beasts in the Immortal Realm be a piece of cake?"

"Where can they go?"

"Let me tell you, it's best to get the bones of the king beast after we destroy the demons."

"Just continue to organize our forces and bulldoze the entire Chaos Continent in one wave."

"When the time comes, will there still be a shortage of bones of the king beast?"

"That's right. The Chaos Continent will be bulldozed, and the human race will be able to unify the Immortal Realm just around the corner."

Everyone talked loudly.

No one raised any questions at this moment.

Whether Zhang Yuhe can survive the catastrophe and whether he can successfully advance to the realm of Tao Ancestor.

After promotion, can you defeat the Supreme True God and open the way to the outside world?

for these questions.

No one has any doubts anymore.

joke.

With such a defiant figure like Zhang Yuhe.

When he was in the Great Luo Realm, he could sweep all Tao Ancestors and Supreme Chaos Beasts.

If such a person cannot survive the catastrophe.

Then they don't have to struggle anymore.

Don't even think about opening a path forward, stepping out of the fairy world, and heading towards a higher level of outer world.

Just stay in the fairy world honestly and wait for the destruction of the era.

The appearance of Zhang Yuhe.

Let everyone see the light and hope.

No one would think about it.

Will this hope be dashed?

Because this is everyone's last chance.

...

Qinglong Holy Land.

Just when the twenty-four Taoist ancestors of the human race gathered in the Jiuzhou Hall.

At this time, Qinglong Daozu had woken up.

Originally, after we parted ways with the Demon Emperor last time.

To avoid getting involved in possible disputes.

Qinglong Daozu immediately activated the secret technique and put himself into a deep sleep.

Originally he was still thinking about it.

If I can't afford to offend you, why can't I afford to hide?

But now.

He had to wake up again.

Because something earth-shattering happened in the fairy world.

He could no longer sleep.

Qinglong Hall.

Qinglong Daozu is sitting at the top.

Below, the Jade Dragon Immortal King is reporting to him the recently collected information.

Qinglong Daozu spent most of his time in deep sleep.

The specific affairs of the entire Qinglong Holy Land are handled by the Jade Dragon Immortal King.

Qinglong Daozu said calmly.

"Tell me, what happened?"

Jade Dragon Immortal King responded respectfully.

"Reporting to my ancestor, this is what happened."

"About six thousand years ago, the Demon Emperor and the Black Dragon colluded with the Chaos Beasts to set up an ambush in the Sea of Chaos, hoping to ambush Emperor Tianzuo."

"As a result, the Galaxy Immortal King suddenly appeared."

Speaking of which.

Jade Dragon Immortal King paused for a moment, and then he continued with some certainty.

"Based on the latest information we have."

"At that time, the Galaxy Immortal King displayed his might and swept away all the Demon Race Dao Ancestors and Supreme Chaos Beasts."

Hear this.

Qinglong Daozu stirred up and asked solemnly.

"What about the result?"

The Jade Dragon Immortal King hesitated for a long time before speaking slowly.

"All dead."

"The fifteen Dao Ancestors of the Demon Clan, plus the Black Dragon Dao Ancestor, and more than 600 supreme-level Chaos Beasts were all killed by the Galaxy Immortal King on the spot in the Sea of Chaos."

Qinglong Daozu was stunned and stood up.

he asked with disbelief on his face.

"Are you sure? This is not a smoke bomb released by the human race?"

The Jade Dragon Immortal King took a deep breath, and then spoke slowly.

"Maybe there may be some differences in how things happened, but the results probably won't make much difference."

"Because the Demon Emperor and the Dao Ancestors of the Demon Clan are indeed all dead."

"Based on the information we heard from the demon clan."

"The soul lamps of the Demon Emperor and others were extinguished six thousand years ago."

"Now the Demon Clan has no one in charge and is completely in chaos."

"Currently, all human tribes are gathering towards Tianzuo Holy Land."

"As for their goals, we haven't found out yet."

"I don't know whether we have to deal with the demons, the Black Dragon Holy Land, or the Chaos Beasts."

Qinglong Daozu stood up and walked back and forth in the hall.

The world was changing so fast that he couldn't even react.

In fact, what happened is not that important anymore.

The facts are clear.

The Demon Emperor wanted to plot against An Tianzuo, but he ended up dead.

Moreover, all the Dao Ancestors of the Demon Race were all dead.

That idiot, Black Dragon, was naturally already dead.

Now the human race's magic sword is roaring.

Qinglong Daozu couldn't help but worry whether the knife would hit his head.

After all, the black dragon was also involved, and the black dragon was the Taoist ancestor of the demon clan.

It is entirely possible for the human race to stab him casually.

"No, let's strike first and destroy the Black Dragon Holy Land first. Then the human race will have no excuse to cause trouble to the demon race again."

Think of this.

Qinglong turned around and said solemnly to the Jade Dragon Immortal King.

"Instruct all ministries that the Black Dragon colluded with the Chaos Beasts and betrayed the alliance of the three tribes. Immediately launch a large army to destroy the Black Dragon Holy Land."

...

Chapter 572: Kill millions of king beasts!

The human race gathers its forces and points its sword at the demonic realm.

at the same time.

Qinglong Daozu also took action quickly.

He summoned the forces from all over the demon clan and went straight to the Black Dragon Holy Land.

for the coming danger.

The demons and the Black Dragon Holy Land are still at a loss.

Section 772

Since the soul lamps of the Dao ancestors of each family went out, they have been in chaos.

But whether it is the demon clan or the Black Dragon Holy Land.

They all know.

This matter must be kept secret.

Otherwise.

Let others know that there is no Dao Ancestor in their family, the consequences will definitely be disastrous.

The high-level officials of the Demon Clan and the Black Dragon Holy Land strictly blocked the news.

After all, the Dao Ancestor rarely shows up.

It is normal to be in seclusion for hundreds of millions of years.

They want to delay time slowly by blocking the news.

Maybe there will be a turning point in the future.

The ordinary cultivators of the Demon Clan and the Black Dragon Holy Land don't know at all.

Their Dao Ancestor has fallen long ago.

The upper level is undercurrent, and the lower-level cultivators are still the same.

...

Somewhere in the Chaos Continent.

After Zhang Yuhe unfolded the sword formation and destroyed a fourth-level tribe again.

He stood quietly in the air.

After a long time.

He muttered to himself.

"I've finally killed enough, 10 million king-level Chaos Beasts."

In the past 6,000 years.

Zhang Yuhe has been teleporting back and forth in various places in the Chaos Continent.

The number of level 4 tribes destroyed by him is already countless.

In addition to the twelve major tribes that were wiped out near the Sea of Origin before.

Until now.

He finally gathered enough, the bones of 10 million king-level Chaos Beasts.

The core materials for refining the lightning-absorbing pillars are finally available.

Zhang Yuhe looked around and thought silently in his heart.

"Let's go back first and prepare to refine the lightning-absorbing pillars."

In the past few thousand years, he has been completely tired of killing.

Anyway, the materials are now enough,

so there is no need to continue killing.

Although.

There are still many level 4 tribes on the Chaos Continent.

As for the level 2 and 3 tribes, there are even more.

But it doesn't matter.

The remaining Chaos Beasts will be left to the cultivators from all over the place, and they will be killed slowly in the future.

We can't let him clean up the entire Chaos Continent by himself.

That would tire him to death.

The most important thing is.

Zhang Yuhe still has things to do.

He has to go back to refine the lightning-absorbing pillars.

Nearly 10 million lightning-absorbing pillars of the highest-grade immortal weapon level, this is no joke.

If you want to refine them all, it may take millions of years.

This is still Zhang Yuhe, who has superb weapon-refining skills.

If it were an ordinary cultivator.

I'm afraid it would take hundreds of millions of years to get it done.

"Go back first and see how much auxiliary materials have been collected."

Thinking of this.

Zhang Yuhe drew his right hand in the void, and then took a step forward.

A moment later.

He appeared above the Galaxy Fairy City.

Zhang Yuhe's consciousness covered the four directions.

He suddenly found that the fairy city seemed to have become a little colder at this time.

Especially those high-level cultivators, most of them disappeared.

Even the Taiyi Immortal of the Daosheng Sect, only a few people were left.

Others had no idea where they had gone.

Seeing this.

Zhang Yuhe couldn't help but frown.

Did something big happen in the Galaxy Fairy City during the time he was away?

At this moment.

A stream of light passed from a distance.

Lu Yunfei showed up.

He said to Zhang Yuhe excitedly.

"Master, you are finally back?"

Zhang Yuhe nodded gently, then asked with a puzzled look.

"Has anything happened recently? Why haven't I seen other people?"

"Oh, Master, you're talking about this."

"Everyone responded to the call of Emperor Tianzuo and has gone to the Holy Land to gather, ready to completely destroy the demons."

At this point.

Lu Yunfei's expression flashed with excitement.

Although Zhang Yuhe's sweep of a group of supreme chaos beasts has not been fully disclosed.

But Lu Yunfei has heard some gossip from the Immortal King Liuyue.

It is said that Zhang Yuhe not only successfully rescued An Tianzuo and Li Tianxing.

But also wiped out more than 600 Daozu beast masters.

It is precisely because of this.

Emperor Tianzuo dared to completely abandon defense and mobilize the human race forces from all over the country.

Prepare to destroy the demon race with all his strength.

Because now there is no power in the fairy world that can threaten the fairy city of the human race.

Each fairy city does not need to arrange a large number of cultivators for defense as before.

The roots of the chaos beasts were interrupted by Zhang Yuhe.

It is no longer possible to organize a large-scale war.

The only end waiting for the chaos beasts is death.

But before that.

The demon race must be wiped out first.

Hearing Lu Yunfei's words.

Zhang Yuhe was stunned.

It has been so long.

Hasn't the demon race been wiped out yet?

He thought.

After An Tianzuo returned, he would immediately go out and wipe out the demon race directly.

It has been more than 6,000 years, and they are still gathering forces.

This efficiency is a bit too slow.

But Zhang Yuhe also knows.

There is nothing we can do about it.

Who made the fairyland so big?

There is no teleportation array connecting the major domains.

Section 773

Even communication is very inconvenient.

And the demon clan has a vast territory.

If you want to completely destroy the entire demon clan.

It is really not something that can be done by one or two holy places.

It requires the gathering of all the power of the human race.

Thinking of this.

Zhang Yuhe turned around and said to Lu Yunfei.

"I'll go over and take a look first."

After saying this.

He just saw his right hand swiping.

A particle vortex appeared in the void.

As the vortex slowly closed.

Zhang Yuhe's figure disappeared in front of him in an instant.

Lu Yunfei stood there blankly.

His heart was filled with infinite respect.

This master of his own is really amazing.

Invincible.

In Lu Yunfei's mind, this word immediately came to mind.

...

Tianzuo Holy Land, Jiuzhou Hall.

Zhang Yuhe flew and landed outside the hall.

At this moment.

A group of Daozu emperors in the hall quickly flashed out.

"Galaxy Immortal King."

"Zhang Zongzhu."

Seeing Zhang Yuhe appear, everyone immediately stepped forward to greet him warmly.

"Hello, seniors."

Zhang Yuhe responded with a smile.

After everyone entered the hall.

An Tianzuo narrated to him the action plan to destroy the demon clan.

At present, various armies have set out and are forming a huge encirclement.

The entire demon domain is tightly blocked.

They, the Daozu emperors, must also set out immediately to take charge.

Although the Daozu emperors of the demon clan have all died.

But the demon clan has the advantage of geographical location after all, and there are many demon immortal kings.

If they don't go to take charge.

Each department may suffer a lot of damage.

This is completely unnecessary.

After listening to An Tianzuo's narration, Zhang Yuhe nodded gently.

He has no interest in destroying the demon clan.

It's a doomed outcome, and he doesn't want to interfere.

It's a waste of time.

He came this time.

Mainly want to ask about the progress of the auxiliary materials that Li Tianxing had helped to collect before.

He still has to hurry back to refine the lightning-absorbing column.

Thinking of this.

Zhang Yuhe turned around and asked Li Tianxing.

"Senior, I wonder how much of the materials I need have been collected now?"

...

Chapter 573 The envious eyes of the Daozu

Hearing Zhang Yuhe asking about collecting materials.

Li Tianxing responded with a smile.

"Master Zhang, please rest assured that you will get the materials you need."

"Over the years, everyone has been working hard to collect them."

"Just now we counted, and the total amount of materials collected is about one-third short of the amount you need."

"Some of them have been sent to your sect, don't you know?"

Hearing this.

Zhang Yuhe was stunned.

Has part of it been sent over?

He really didn't know about this.

Just now in the Galaxy Fairy City, he just met Lu Yunfei.

Then he was immediately teleported here.

He really didn't ask specifically.

This is a bit embarrassing.

Zhang Yuhe silently calculated.

Ever since he talked to Li Tianxing about collecting materials.

Three million years have passed.

Over the years.

About two-thirds of the auxiliary materials for refining the lightning-absorbing column have been collected.

There is still one-third left.

The gap is a bit large.

You know.

The same materials must be easier to collect at the beginning.

The later it is, the harder it is to find.

After all, the materials that can be found have been collected.

So how long will it take to collect the remaining one-third.

It won't take millions of years.

This is a bit difficult.

In less than a million years, he should be able to use up all the materials in his hands.

Does he have to wait for the materials slowly?

Thinking of this.

Zhang Yuhe asked again.

"I wonder how long it will take to collect the remaining materials."

Hearing this.

Li Tianxing was stunned.

He asked subconsciously.

"Are you in a hurry?"

"It shouldn't be too difficult to collect these auxiliary materials."

"But don't we need the bones of king-level chaos beasts to refine the core materials of the lightning-absorbing pillars?"

"Tens of millions of king beasts are not that easy to kill."

"Even if we all go out, it will probably take several years to gather enough."

Uh.

Zhang Yuhe just remembered.

It turned out that Li Tianxing was worried that the bones of king-level chaos beasts had not been gathered enough.

So there was no need to be too anxious about collecting auxiliary materials.

Tens of millions of king beasts were indeed not easy to kill.

After all, except for the twelve major tribes in the Sea of Origin.

The king-level chaos beasts in other places were too scattered.

On average, each level 4 tribe had only two or three king beasts.

Section 774

Zhang Yuhe killed most of the Chaos Continent with the teleportation magic.

It took him six thousand years to kill tens of millions of king beasts.

And most of them were killed near the Sea of Origin.

This is because he has the teleportation magic of Tiandi Wuji.

If it were someone else.

To kill tens of millions of king-level Chaos Beasts.

I'm afraid that even if they kill until the end of time, they may not be able to collect them all.

No wonder Li Tianxing said that.

He thought that the king beast corpses had not been collected, and there was no need to rush to collect auxiliary materials for the time being.

Just take your time.

Thinking of this.

Zhang Yuhe sighed softly.

Then he slowly spoke.

"I have already dealt with the corpses of king-level Chaos Beasts. For the past six thousand years, I have been hunting king beasts all over the Chaos Continent. Now I just need auxiliary materials."

Hearing this.

Li Tianxing was completely stunned.

So fast?

Could it be that all those king beasts gathered in a certain place for a meeting, and you just happened to run into them?

He never doubted Zhang Yuhe's strength.

Li Tianxing believed.

No matter how many king beasts there were, Zhang Yuhe could kill them all.

But the question was.

Where did you find so many king beasts to kill?

Killing two or three here, killing four or five there, you can get tens of millions of king beasts.

That's too cruel.

Li Tianxing quickly recovered.

He thought of Zhang Yuhe's magical teleportation ability.

Perhaps it was with this magical ability that Zhang Yuhe could quickly kill all over the Chaos Continent.

Only then could he get the number of these king beasts together.

Thinking of this.

Li Tianxing sighed, and then slowly spoke.

"You are too fast. I am afraid that you will kill all the king beasts in the whole fairy world."

"Don't worry, we will take care of the remaining auxiliary materials."

"The demons didn't help collect materials before, so the demons should still have a considerable amount of inventory."

"After we wipe out the demons, I guess the materials will be enough."

"Thank you very much, senior."

Zhang Yuhe nodded gently.

He just remembered now.

Before, only the holy land of the human race helped him collect materials.

On the demon side, only the Qinglong holy land helped collect some.

The remaining demon holy lands and other demon holy lands.

Didn't help him.

Now we just need to wipe out the demons.

It seems that the remaining one-third of the materials are basically available.

Everyone chatted for a while.

At this time, Zhang Yuhe stood up and said.

"Then I will go back first. I wish all the seniors a smooth extermination of the demon clan."

"Master Zhang, don't worry."

"The small demon clan is no problem at all."

Everyone sent Zhang Yuhe out of the hall.

He just waved his right hand.

A vortex the size of a pond slowly appeared in the air.

Zhang Yuhe took a step forward.

As the vortex slowly closed.

Zhang Yuhe's figure instantly disappeared in front of everyone.

Seeing this situation.

Everyone couldn't help but marvel.

"The teleportation magic of the Galaxy Immortal King is so mysterious."

"I don't know if he realized it himself or inherited it from somewhere."

"It's probably that he realized it himself. There are only those inheritances in the fairy world."

"There is no such exaggerated teleportation magic at all."

"If the fairy world had such a magic before, we would have known it long ago."

"The Galaxy Immortal King's teleportation back and forth can really be called free and unrestrained."

Everyone looked at the direction where Zhang Yuhe disappeared, and their hearts were filled with infinite envy.

As long as you have this magical power, you are almost invincible.

No one can catch up.

The most important thing is.

It is convenient to travel.

It takes thousands of years for them to travel to the Tianzuo Holy Land.

It takes hundreds of years to travel to the nearby places.

With this magical power, Zhang Yuhe can teleport to the destination in an instant.

It is so convenient.

At this time.

An Tianzuo said lightly.

"Okay, everyone go and prepare separately."

"First, arrange for someone to send the collected materials to the Yinhe Immortal King."

"Then we will set off immediately and wipe out the demons in one fell swoop."

"Okay."

The Daozu Emperors quickly dispersed.

Zhang Yuhe returned to Yinhe Immortal City, and he quickly found Lu Yunfei.

"You ask someone to prepare and expand the weapon refining hall according to the requirements above."

After saying this.

Zhang Yuhe took out a jade slip and handed it over.

Tens of millions of lightning absorption arrays are indeed a bit difficult to deal with.

And Zhang Yuhe did not intend to let others help refine it.

Although.

In this fairy world, there are indeed many fairy weapon masters who can refine top-grade fairy weapons.

Many Daluo fairy kings can refine top-grade fairy weapons.

But the speed of others refining weapons is too slow, and the success rate is not high.

Zhang Yuhe is worried that others will fail in refining, which will waste materials.

He has just over 10 million king beast corpses.

They can't be wasted.

Otherwise, others will have to hunt them again.

What if the failure rate is too high.

After killing all the king-level chaos beasts in the fairy world.

If it's still not enough.

That's really nonsense.

It's better for him to do it himself.

This is fast, stable, and wasteless.

Section 775

Chapter 574: Refining Field

Zhang Yuhe planned to do the same as before, and refine the lightning-absorbing pillars needed for the formation by himself.

However, the amount of refining this time was too large.

It was necessary to carry out a large-scale transformation of the Refining Hall.

However, this kind of thing naturally did not need him to do it.

Leave it to Lu Yunfei and arrange for the disciples in the sect to do it.

After Zhang Yuhe continued to explain some things, he quickly took off and flew towards Yitian Mansion.

After six thousand years of killing outside, Zhang Yuhe felt that his heart had become particularly peaceful as soon as he entered Yitian Mansion.

Yitian Mansion was still the same as before, and was transformed into a romantic sea of flowers by Wu Yiyi.

There were not many changes.

Seeing Zhang Yuhe coming back, Wu Yiyi immediately jumped off the swing.

She quickly ran to Zhang Yuhe and complained.

"Where have you been? It's been such a long time since you came back."

"I almost wanted to go out to find you."

Seeing Wu Yiyi's innocent look, Zhang Yuhe responded with a smile.

"I went out to do some things, and also to make some preparations for the future tribulation."

Wu Yiyi remembered then.

Now Zhang Yuhe has reached the perfection of Daluo Immortal. The next step is to break through the Void God Realm and usher in the coming of the Heavenly Tribulation.

"That's right, you are going to cross the tribulation soon?"

"Oh, I heard that the Heavenly Tribulation is very dangerous. You won't be killed by the Heavenly Tribulation, will you?"

"It's over, it's over. If you are killed by the Heavenly Tribulation, who will take me back to the Chaos Sea?"

"Can you beat that crocodile monster now?"

"Why don't you beat the crocodile monster first, and then come back to cross the tribulation."

"In that case, if you are killed by the Heavenly Tribulation, I can still go back to the Chaos Sea by myself."

Hearing this.

Zhang Yuhe was speechless.

Look at what he said.

Are you looking forward to his death?

Go find the Supreme True God now?

He is not stupid.

Zhang Yuhe has experienced the might of the Supreme God in the Sea of Origin this time.

Although he really can't do anything to him.

But this time he is far away.

If he runs to the Supreme God.

Zhang Yuhe has no confidence.

Let alone chasing the Supreme God away, it is not bad to save his life.

Zhang Yuhe has never underestimated the Supreme God.

Even if the Supreme God only has one breath left and may die at any time.

But he should not be underestimated.

The so-called tiger dies but the remaining power remains.

After all, it is a Chaos Beast in the Great Perfection of the True God Realm, which is two realms higher than him.

As long as the Supreme God has one strike left, it is enough to beat him to death.

Without being promoted to the Void God Realm.

Zhang Yuhe has no interest in looking for the Supreme God again.

That would be pure abuse.

He is not used to being abused.

Wu Yiyi surrounded Zhang Yuhe, chattering non-stop.

Zhang Yuhe just smiled slightly, he did not show any impatience.

As a tree of enlightenment, Wu Yiyi helped him a lot.

And there was no contract signed between them.

It was an equal relationship.

And he was used to it.

It was good to have someone by his side, even if Wu Yiyi was just a tree.

Three years later.

Zhang Yuhe walked out of Yitian Mansion.

Lu Yunfei stood outside the mansion and saw him coming out.

He immediately stepped forward and shouted respectfully.

"Greetings, Sect Master."

Zhang Yuhe nodded gently, and then asked lightly.

"Has the refining site been arranged?"

"Reporting to the Sect Master, according to your request, a new refining site has been built in the north of the Immortal City."

"Okay, let's go and take a look together."

The two took off and flew quickly towards the north of the city.

According to the original plan, when the Immortal City was established.

The north of the Immortal City is the private land of the Daosheng Sect, which is not rented or sold to the outside.

The mountains in the north of the city stretch out, almost occupying one-third of the entire fairy city.

The disciples of the Daosheng Sect usually build their caves in these mountains.

The two quickly passed through the fairy city and soon came to the mountains in the north.

Zhang Yuhe stood in the air and looked forward.

I saw tall peaks rising from the ground and reaching the sky.

The peaks showed the shape of the Eight Diagrams, forming a huge circle.

On the top of each mountain, there was a square refining array platform.

On the array platform, there were densely carved mysterious array patterns.

Tall four-legged square tripods stood quietly on the mountain peaks.

Amazing spiritual pressures continued to emanate from these square tripods.

Zhang Yuhe knew.

These square tripods are all top-grade fairy refining immortal tripods.

Taking out any one of them is a huge fortune.

But on the top of these mountains.

There are as many as 500 such fairy refining tripods.

In other words, Zhang Yuhe is rich and powerful, so he can afford such a big deal.

If it were an ordinary superpower, it might not even be able to take out a few such immortal tripods.

In order to refine the lightning-absorbing pillars, Zhang Yuhe spared no expense.

He wanted to complete the refining work as soon as possible, and then start to overcome the tribulation.

But refining tens of millions of lightning-absorbing pillars of the highest grade immortal weapon level.

Naturally, it is not that easy.

Under normal circumstances.

The average Daluo Immortal King would refine a top-quality immortal weapon every time.

Even if you don't consider the problem of failure, it will still take hundreds or thousands of years.

Even Zhang Yuhe can refine weapons faster and never fails.

Every time he refines the best immortal weapon, it takes hundreds of years.

If he were allowed to slowly refine it one by one through lightning-absorbing pillars.

Wouldn't that take nearly a billion years?

This is something Zhang Yuhe absolutely cannot accept.

It's too slow.

It is precisely because of this.

Zhang Yuhe then asked Lu Yunfei to build such a weapon refining place.

He wanted to give it a try, and five hundred artifact-refining immortal cauldrons were started at the same time.

Refining five hundred thunder-absorbing pillars at the same time.

Section 776

That way, it will save a lot of time for refining.

And Zhang Yuhe has calculated it.

With his current foundation, he can start refining 500 lightning-absorbing pillars at the same time.

It should be possible.

As for these 500 refining immortal cauldrons, they were also specially refined by Zhang Yuhe.

Refining 500 immortal cauldrons of the best immortal weapon level.

For him, it is not a difficult task.

He has been prepared for it.

Otherwise.

Let Lu Yunfei collect 500 such immortal cauldrons.

I am afraid that he may not be able to get them even if he collects them from the entire Tianxing domain.

In the center of these 500 peaks, there is also a spectacular high platform.

The high platform goes straight to the sky and soars into the clouds.

Zhang Yuhe flew and landed on the high platform.

He looked around.

A series of hidden array patterns closely connected the high platform with the outer immortal cauldron peaks.

Seeing this situation.

Zhang Yuhe nodded with satisfaction.

He muttered to himself.

"What a great weapon refining dojo."

Five hundred peaks, plus the high platform in the middle, form the shape of the Eight Diagrams.

The area is hundreds of miles in radius.

Rather than calling it a weapon refining hall, it is better to call it a dojo, which seems more appropriate.

A dojo built specifically for refining lightning-absorbing pillars.

Weapon refining dojo.

...

Chapter 575 The Great Dao is in the Heart and in the Fate

Zhang Yuhe stood on the high platform and looked at the weapon refining dojo in front of him.

He was very satisfied.

With the help of this weapon refining dojo, the speed of his refining lightning-absorbing pillars should be much faster.

According to refining five hundred lightning-absorbing pillars every hundred years.

It will take about two million years for him to refine tens of millions of lightning-absorbing pillars.

Although two million years is not too short.

But Zhang Yuhe can totally accept it.

After all, he has reached his level.

A casual retreat may take hundreds of millions of years.

I heard that some Daluo Immortal Kings even went into seclusion for hundreds of millions of years.

They were able to refine tens of millions of top-grade immortal artifacts within two million years.

This was already a very amazing achievement.

It was also the maximum limit he could achieve.

At this time.

Lu Yunfei next to him suddenly spoke.

"Master, this weapon refining field has no concealment formation."

"Once you start refining the lightning-absorbing column, I'm afraid all the cultivators in the entire Immortal City will be able to see it."

"Will this be a bit bad?"

"I'm worried that other people might disturb you from refining the immortal artifact."

Facing Lu Yunfei's concerns, Zhang Yuhe said lightly.

"Don't worry about it."

"When I designed this weapon refining field, I deliberately didn't design a concealment formation."

"The purpose is to let other cultivators see it."

At this point.

Zhang Yuhe paused for a while.

He took a deep breath, and then spoke slowly again.

"Once the lightning-absorbing column is finished, I will soon be ready to break through the tribulation."

"Once the tribulation is successfully passed, I may leave the fairyland soon."

"This can be regarded as a sermon to the cultivators in the fairyland before I leave."

"As for how much everyone can understand, it depends on each person's luck."

Hearing Zhang Yuhe's words.

Lu Yunfei couldn't help but be surprised.

He asked quickly.

"Master, are you leaving the fairyland? Where are you going?"

"Is there a higher level world outside the fairyland?"

He never worried that Zhang Yuhe would not be able to pass the heavenly tribulation.

Lu Yunfei knew.

Zhang Yuhe's talent is top-notch, and the heavenly tribulation he needs to face must be very terrible.

But the results have shown time and time again.

As long as Zhang Yuhe prepares seriously.

No matter how fierce the heavenly tribulation is, it will not be difficult for him.

This time will definitely be no exception.

Compared to the last time of the Daluo heavenly tribulation.

This time, almost the entire fairyland is providing help to Zhang Yuhe.

People from various major holy places continue to send various materials to Daosheng Sect.

Lu Yunfei knew.

This is what Zhang Yuhe needs to refine the lightning-absorbing column.

It has the support of the entire fairy world.

If Zhang Yuhe still can't survive the heavenly tribulation, that would be strange.

Lu Yunfei has never worried about Zhang Yuhe's tribulation.

But what he didn't expect was.

Zhang Yuhe is going to leave the fairy world soon?

Speaking of leaving the fairy world, where can he go?

He hasn't heard that there is a higher level world above the fairy world.

For billions of years, haven't those Daozu emperors stayed in the fairy world?

I haven't heard that any of those Daozu emperors have left the fairy world.

Is there any secret in this?

Lu Yunfei's cultivation level is too low.

He hasn't even left the Tianxing Great Domain.

He doesn't know much about many things in the fairy world.

Zhang Yuhe looked up at the sky.

After a long while.

He said lightly.

"The Great Dao is boundless, and the Daozu Realm is naturally not the end of the Great Dao."

"And the Immortal Realm is far from being the highest world of the Great Dao."

"Beyond the Immortal Realm, there is a wider world."

Speaking of this.

Zhang Yuhe looked back at Lu Yunfei, and then said with a smile.

"These things are still too far away from you."

"If one day you can be promoted to the Daozu Realm, you will naturally understand."

Hear this.

Lu Yunfei's heart suddenly surged.

Section 777

He muttered to himself.

"It turns out that Dao Ancestor is not the end point of cultivating immortality. There is a higher world above the immortal world."

"It looks like I have to work harder."

Think of this.

Lu Yunfei quietly clenched his fists.

He considers himself to be exceptionally talented.

But after so many years, he has just broken through to the late stage of Great B Immortal.

Not to mention compared with Zhang Yuhe.

Even the Dao Sheng Sect had several people walking faster than him.

Currently, the person with the highest cultivation level in Dao Sheng Sect is naturally Zhang Yuhe.

Next is Yang Yueyue.

As a rising star, Yang Yueyue entered Yu Fantian from Blue Star, and then ascended to the fairy world.

With her special Taiyin Holy Body, her cultivation speed has always been far ahead.

As early as a million years ago, Yang Yueyue successfully survived the catastrophe and was promoted to the realm of Daluo.

Old seniors like Lu Yunfei were far behind.

Became the second Da Luo Immortal King of Dao Sheng Sect.

Except Yang Yueyue.

The cultivation of Li Tian and Feng Xiaotian also progressed very quickly.

Both of them have become Taiyi Immortals.

As long as you polish it for a while, you may be able to trigger a catastrophe and be promoted to the Great Luo Realm.

Relatively speaking.

Like Lu Yunfei and Yu Liwei, these old people from the Dao Sheng Sect.

The progress of cultivation is actually slower.

Originally, Lu Yunfei had no sense of urgency.

Anyway, he has a long life now.

Just practice slowly and rely on the resources left by Zhang Yuhe.

Sooner or later.

Not to mention being promoted to the realm of Dao Ancestor, at least cultivating to Daluo Immortal is no problem at all.

But after hearing Zhang Yuhe's narration, he was now a little anxious.

There is a realm above the Taoist ancestors, and there is a broader world beyond the fairyland.

As a monk.

Who doesn't want to pursue a higher realm and move toward a broader world?

He wants it too.

I want to see what kind of realm is above Tao Ancestor.

Take a look at what kind of world is outside the fairy world.

Unfortunately.

He has not even reached the Great Luo Realm yet.

I don't know how far away I am from the realm of Dao Ancestor.

We must work harder.

Lu Yunfei quietly clenched his fists and thought silently in his heart.

Zhang Yuhe next to him smiled slightly, but he didn't say anything.

It is a good thing that monks have a heart to pursue the great path.

Regardless of whether you succeed in the end, at least you tried hard.

If you have no worries about longevity, you will become relaxed.

Then his whole life.

Maybe we can only wander around in Taiyi Realm.

...

Time passes slowly

Zhang Yuhe quietly sat cross-legged on a high platform, surrounded by five hundred peaks.

The immortal cauldron is suspended in the sky, and the scorching flames are burning blazingly all day long.

All the monks in the entire Galaxy Fairy City can see this grand scene.

At the beginning, many people were a little curious and didn't pay much attention.

until one day.

By observing Zhang Yuhe's weapon refining, a monk suddenly broke through the bottleneck and successfully advanced to a small realm.

After the news spread.

The entire South China Sea Immortal Territory couldn't help but be shocked by it.

Zhang Yuhe was refining the thunder-absorbing pillar.

The laws of Tao Yun in him will naturally manifest outwards.

Ordinary monks watch him refining immortal weapons, as long as they understand it with their hearts.

Maybe you will gain something.

This is equivalent to a different kind of preaching.

It's just that Zhang Yuhe didn't express his understanding of the Dao through his mouth.

Instead, through the action of refining the thunder-absorbing pillar, he conveyed his understanding of the great avenue.

manifest in the world.

Zhang Yuhe did not deliberately promote it, and neither did the Dao Sheng Sect.

The great road lies in the heart and fate.

Those who are predestined will naturally gain insights from it.

If you have no chance to follow Zhang Yuhe's path.

Even if you are in the Galaxy Fairy City, you may gain nothing.

...

Chapter 576 The Demon Clan is Destroyed

Demon Realm, Demon God Palace.

The former overlord of the fairy world was now in a pale state.

Countless mountains collapsed and magnificent palaces were reduced to ashes.

After tens of thousands of years of fighting.

Under the leadership of many Taoist ancestors, the human monks advanced steadily.

Finally, in the Demon Palace, all the remaining demons were wiped out.

Although the demons also put up fierce resistance.

Unfortunately.

Because of the Demon Emperor's other demon ancestors, they all fell into the sea of chaos.

Without Dao Ancestor in charge, no matter how hard the demons struggle.

It cannot change their final fate.

The human monks were not lenient.

After entering the demonic realm.

Wherever it passes, no chicken or dog will be left behind.

The genocide means complete annihilation.

Whether it is An Tianzuo or an ordinary human monk, everyone understands this truth.

Otherwise, the spring breeze will blow again.

It will only leave endless trouble for yourself.

As the humans invaded the Demon Palace.

The Demon Clan, which had dominated the Immortal Realm for countless years, has since completely disappeared into the long river of history.

slowly.

In this fairy world, there is no trace of the existence of any demon clan.

In a valley deep in the Demon Palace.

The twenty-four Taoist ancestors of the human race stood quietly in the sky.

At this time, everyone's faces were filled with excited smiles.

The demon clan was completely destroyed, and their long-standing grievances were finally settled.

In these tens of thousands of years of war, they, the Dao Ancestor Emperors, basically did not take any action.

Although the demons are powerful, the human race is even stronger.

Section 778

Daozu sits in the army, more just to prevent accidents.

Fortunately, everything went well and the demon clan was finally destroyed.

The Taoist ancestors looked at the valley below.

I saw a strange fairy pond exuding a strong Taoist atmosphere.

There are even occasional innate runes that manifest themselves.

This is an innate spiritual treasure place.

It is also in the process of gestating the Demonic Sword.

It is precisely because of this precious land.

It was only after the Demon Emperor cultivated the Demon God Sword, this prestigious innate Taoist weapon.

Now the demon clan is destroyed.

This treasure land naturally belongs to the human race.

An Tianzuo looked at the fairy pond below.

After a long time.

He spoke slowly.

"Let's seal this place up first. After meeting the Galaxy Immortal King, we can discuss how to deal with it."

"Yes, let's wait until we meet the Galaxy Immortal King."

There was no objection to An Tianzuo's proposal.

Although Zhang Yuhe did not participate in this demon extermination operation at all.

But everyone understands.

Regarding the issue of the use and distribution of treasure land, Zhang Yuhe cannot be bypassed.

If Zhang Yuhe hadn't killed the Demon Emperor and others in the Sea of Chaos.

How could they successfully destroy the demon clan?

Of course.

There is an even more important point.

Now Zhang Yuhe is about to usher in the disaster.

As long as he survives the catastrophe.

Then there is hope to defeat the Supreme True God and open the way to the outside world.

Compared to leaving the fairy world, what does the Demon Clan's innate soul gathering treasure land mean?

For all the great Tao ancestors.

Nothing is more important than getting out of the fairy world.

The innate spirit gathering treasure land can indeed cultivate innate Taoist weapons.

Moreover, the power of the innate Taoist weapon is indeed very terrifying.

But it is not that easy to cultivate an innate Taoist weapon.

Don't even think about success until it takes tens of billions of years.

They have no interest in staying in the fairy world for tens of billions of years.

As for the cultivation bonus effect of the treasure land, no one cares about it.

As early as after being promoted to Dao Ancestor.

Their way forward has been cut off.

No matter how hard you practice, it won't have any effect.

Therefore, the innate soul gathering treasure land is good.

But for the Taoist ancestors, it is not very attractive now.

Li Tianxing waved his right hand.

The formation flags fell quickly.

Follow the magic formula and pinch it.

This spiritual gathering treasure land has been temporarily sealed.

After everything is done.

Li Tianxing said with a smile.

"I heard that the Galaxy Immortal King was publicly refining weapons in the Immortal City, attracting countless monks to observe. The scene was very spectacular. Have you heard about it, fellow Taoists?"

"I got the message too."

"I heard that the Galaxy Immortal King activated five hundred immortal weapons and refined them at the same time."

"Such a scene is really amazing."

"I really don't know how the Galaxy Immortal King has such powerful divine soul power that he can activate five hundred Immortal Cauldrons at the same time."

"It's more than that."

"I also heard that the Galaxy Immortal King was refining the immortal weapon."

"The aura of Tao Yun Law is fully revealed, which has benefited countless monks who observed it."

"Yes, the Galaxy Immortal King's understanding of laws has long been unknown to how powerful it is."

"Any exposure of aura can benefit ordinary monks immensely."

"After things here are sorted out, I plan to go to Galaxy Fairy City to have a look."

"I wonder if fellow Taoists are interested in going with us."

"Go together, go together."

"If you miss this grand event in the fairy world, I'm afraid you'll never see it again."

"Yes, let's go together."

After arranging some disciples to garrison and develop in the Demon Realm.

The Dao Ancestor Emperors then led a huge expeditionary army and quickly returned to the Holy Land.

...

Galaxy Fairy City.

Zhang Yuhe sat cross-legged on the high platform, his mysterious Taoist aura covering all directions.

Graceful as a god appearing in the world.

At this time, Galaxy Fairy City was already overcrowded.

All properties available for lease and sale have already been snapped up.

Ever since Zhang Yuhe publicly refined the thunder-absorbing pillar.

Monks from all over the place flocked towards the Galaxy Immortal City.

First is the South China Sea.

Immediately afterwards, monks from the surrounding immortal realms also came after hearing the news.

Even the monks from other regions are also rushing to the Galaxy Immortal City.

When Zhang Yu was refining the immortal weapon, the various miraculous things he displayed had already spread throughout the entire immortal world.

Someone successfully resolved the bottleneck by observing Zhang Yuhe's weapon refining, and achieved a small breakthrough on the spot.

Some people have made new breakthroughs in understanding the rules. .

There were even people who suddenly resolved their major realm bottleneck while observing Zhang Yuhe refining weapons.

Then find the nearest tribulation platform, successfully survive the tribulation, and soar into the sky.

At this time, Zhang Yuhe was like the incarnation of a god.

The various miraculous powers he displayed seemed endless.

It seems to be all-encompassing.

As long as you observe carefully and understand with your heart, you may gain something.

After the news spread.

Everyone understands.

Zhang Yuhe took advantage of the time when he was refining the immortal weapon to spread the word to the world.

Powerful in public preaching.

For ordinary monks in the immortal world, this is a rare opportunity in billions of years.

How could anyone miss it?

Just receive the message no matter where you are.

They will try their best to rush to the Galaxy Fairy City.

The cultivators in the Tianxing Great Domain are close to the water and get the moon first.

They only need to be willing to pay the teleportation fee.

They can quickly teleport to the Galaxy Fairy City through the teleportation array of Tianxing City.

But the cultivators in other great domains are not so convenient.

They have to cross the vast wilderness and spend a long time to fly to the Galaxy Fairy City.

Despite this.

The cultivators from all over the world still try their best to rush to the Galaxy Fairy City quickly.

So much so.

Section 779

The Galaxy Fairy City, which is hundreds of millions of miles in radius, has become overcrowded.

Many cultivators who have not been able to buy or rent a cave in the Fairy City.

Just found an open space at random and sat cross-legged quietly in the sky.

Carefully observed Zhang Yuhe on the high platform, trying to understand a glimmer of opportunity.

All the immortals gathered in the Galaxy City.

This is a prosperous era that has not happened in hundreds of millions of years.

...

Chapter 577 Daozu Gathered

Galaxy Fairy City, Transmission Hall.

Two teams of disciples in blue robes are standing quietly on both sides of the hall.

Xie Mingyuan is in front of the hall, and his late Taiyi Immortal cultivation is fully revealed, without any restraint.

Because there are too many cultivators who have been teleported to the Galaxy Fairy City recently.

Various people are mixed together.

In order to prevent chaos.

Lu Yunfei specially arranged Xie Mingyuan to sit in the Transmission Hall.

At this time.

A dazzling light lit up on the transmission array.

Figures suddenly appeared on the stage.

Although these people's auras were completely restrained, their auras were as deep as the sea.

It was still daunting.

Seeing this situation, Xie Mingyuan couldn't help but feel a little confused.

He searched his mind but couldn't figure out the origins of these people.

"Maybe they are immortal kings from other domains?"

Xie Mingyuan thought in his heart.

Ever since Zhang Yuhe publicly refined the lightning-absorbing column.

Most of the cultivators teleported to the Immortal City from all over the world are generally below the Taiyi Immortal.

There are not many immortal kings coming.

First of all, most of the immortal kings are participating in the action of destroying the demons with various holy places.

There are also more than 30 Taiyi Immortals from the Daosheng Sect who participated in this action.

These people have not returned yet.

And that is.

Xie Mingyuan felt.

After all, his own sect master is only a Daluo Immortal.

His act of preaching to the world should not be attractive to the Daluo Immortal King.

In short.

There are indeed Daluo Immortals who have been teleported to the Galaxy Immortal City recently, but not many.

The sudden arrival of a large group of people made Xie Mingyuan feel a little abrupt.

However, since it was the Immortal King who came, he must stand up to greet him.

At this time.

With the last figure, he appeared on the teleportation array.

Xie Mingyuan was shocked.

He stood up in a flash, ran to the front of the array quickly, and shouted respectfully.

"Meet the Dao Ancestors."

At this time, Xie Mingyuan's heart was already in turmoil.

Originally, he thought.

This group of people might be the Great Luo Immortal Kings from other domains.

But after seeing Li Tianxing appear.

He woke up.

These are not the Great Luo Immortal Kings, they are all Dao Ancestors.

Although Xie Mingyuan did not know other human Dao Ancestors.

He had not even seen their portraits.

Dao Ancestors were not famous in the world, and ordinary people had almost no chance to see them.

But he was not a fool.

He was teleported here with Li Tianxing, and Li Tianxing was the last one.

If this isn't the Dao Ancestor, is there anyone else who dares to walk in front of Li Tianxing?

...

After a while.

A group of human Dao Ancestors, led by Xie Mingyuan, came to the top of the Yinhe Peak.

Lu Yunfei and others came upon hearing the news and served silently in the distance.

They didn't dare to disturb them.

So many human Dao Ancestors suddenly descended on the Yinhe Fairy City.

They said they wanted to watch Zhang Yuhe refine weapons.

This made Lu Yunfei and others feel extremely proud.

They knew that their clan leader was very strong, but how strong he was.

They didn't know.

Now seeing this, so many Dao Ancestors came to observe.

Is there any need to think about the charm of this?

The influence of their clan leader in the fairy world is probably far beyond their imagination.

...

The Dao Ancestors stood on the Yinhe Peak, looking at the weapon refining dojo in the distance.

Looking at Zhang Yuhe sitting cross-legged on the high platform, the flames of five hundred immortal tripods soared into the sky.

Dao Ancestor Cangyue couldn't help but say in amazement.

"The refining technique of the Galaxy Immortal King is really unheard of."

"Using five hundred immortal cauldrons at the same time to refine the best immortal weapons, he can do it in a neat and uniform manner without any interference."

"Such techniques and skills, such a strong soul and immortal power, are really eye-opening."

"Yes, the Galaxy Immortal King is indeed extraordinary."

"It is not particularly difficult to refine weapons with three or two immortal cauldrons at the same time. I can do it too."

"But refining five hundred immortal weapons at the same time is really unimaginable."

Looking at Zhang Yuhe on the high platform in the distance, all the Taoist ancestors exclaimed in unison.

At this time.

An Tianzuo suddenly spoke slowly.

"I don't know if you have discovered that the law aura revealed by the Galaxy Immortal King seems to have more than one supreme law."

"There are at least five supreme laws that I recognize."

"There are several other auras that I haven't seen yet."

"But judging from the aura of the aura, it is obviously also a supreme law."

After hearing what An Tianzuo said, everyone quickly focused their attention and looked into the distance.

"Power, time, space."

"No, there are also laws of life and death."

"Hey, that should be the law of the soul."

"What is that? Cause and effect, reincarnation?"

"It seems there is also the law of yin and yang."

The Dao ancestors looked into the distance and talked to themselves silently.

After a long while.

They looked at each other, and their hearts were filled with shock.

"Nine supreme laws, how is this possible?"

"How can there be such a heaven-defying person in the world?"

"He actually understood and completed all nine supreme laws."

"This is too scary."

"No wonder the Galaxy Immortal King has such terrifying strength."

Chapter 780

"How terrifying it would be if the nine supreme laws were added to the body."

The more people talked, the more excited they became, and at the same time, they felt more incredible.

Ever since there was civilization in the fairy world.

No one has ever comprehended more than two supreme laws at the same time.

The supreme geniuses in the past only understood one of them.

It's hard for them to imagine.

Zhang Yuhe's understanding must be so incredible to be able to comprehend all of so many supreme laws.

And they have all advanced to the state of consummation.

the most important is.

Zhang Yuhe has been practicing for less than 30 million years.

To know.

The rules are mysterious and unpredictable.

The average Da Luo Immortal King wants to understand an ordinary law to the state of perfection.

It will take at least hundreds of millions of years.

If special laws were used, it might take tens of billions of years.

They may not all be able to achieve perfection.

Even their group.

Back then, it took everyone hundreds of millions of years to comprehend the law.

Only then can a law be understood to perfection.

Zhang Yuhe has only been practicing for less than 30 million years.

It will be able to advance all nine supreme laws to perfection.

What kind of incredible understanding is required to achieve this?

It is completely unimaginable to everyone.

Just when they felt very puzzled.

An Tianzuo suddenly spoke again.

"No, it seems there are other Taoist auras."

"Isn't it possible? A monk can only comprehend the power of nine laws, right?"

"How could there be other Taoist auras?"

Hearing An Tianzuo's words, everyone looked in disbelief.

Because this is completely beyond the common sense of the fairy world.

There are three kinds of laws that can be understood in the True Immortal Realm, and six kinds of laws can be understood in the Golden Immortal Realm.

Taiyi Immortal can comprehend nine laws.

This is the path of cultivation that has been established since the beginning of civilization in the immortal world.

Because each monk can only open nine orifices at most.

The nine orifices correspond to the nine laws.

If Zhang Yuhe also understood other laws.

Then where should his tree of law fall?

Could it be that Zhang Yuhe has opened the tenth orifice?

Is there a secret technique to open ten orifices in this fairy world?

Never heard of it.

An Tianzuo looked into the distance and thought silently for a while.

Then he said solemnly.

"I'm not wrong. The Galaxy Immortal King does have the aura of the tenth law in him."

"And this kind of lawful aura is mysterious and deep, and it seems to be all-encompassing."

"This is a law that is more powerful than the Supreme Law."

Speaking of which.

An Tianzuo himself had some doubts and couldn't believe it.

How could there be a law stronger than the Supreme Law in this fairy world?

...

Chapter 578 Choosing the location to overcome the tribulation

Everyone felt incredible after hearing An Tianzuo's words.

In addition to the nine supreme laws.

How could Zhang Yuhe understand other laws?

This is simply something that goes against the normal common sense in the fairy world.

But everyone knows it.

An Tianzuo will definitely not talk nonsense.

the most important is.

Everyone present was the Great Dao Ancestor.

Their knowledge is far beyond that of ordinary monks.

In fact.

Back in the beginning.

They felt something strange and familiar at the same time on Zhang Yuhe.

It's just that everyone is not sure whether it is the manifestation of the law or something else.

Now after being reminded by An Tianzuo.

Only then did everyone react.

Li Tianxing thought silently for a while, and then slowly spoke.

"Brother An is right, the Galaxy Immortal King does have the breath of the tenth law."

"And this kind of law aura is obviously more mysterious and profound than the supreme law."

"Yes, there is indeed the tenth law aura, and this law aura makes me feel familiar."

"Do you see it? What kind of law is this?"

"It has a familiar smell, and it feels stronger than the Supreme Law."

"It shouldn't be. Is there a higher law than the Supreme Law in this fairy world?"

"In other words, there is a tenth supreme law in the fairy world."

"Never heard of it."

The Taoist ancestors were discussing in a low voice while looking into the distance.

But the more they discussed, the more confused they became.

This really touched upon everyone's knowledge blind spot.

...

Zhang Yuhe sat cross-legged on the high platform.

Suddenly his expression changed and he murmured to himself.

"Why are they all here?"

"Have the demons been wiped out?"

"Forget it, let's go over and meet."

Follow the magic formula and pinch it.

A figure flashed next to Zhang Yuhe, and then quickly turned into a stream of light, flying towards Galaxy Peak.

The Taoist ancestors of the human race gathered in Galaxy Fairy City as the landlords here.

Of course he had to go out and see him.

However, Zhang Yuhe was in control of the Five Hundred Immortal Cauldron at this time, so naturally he could not leave.

Otherwise.

This batch of lightning absorbing pillars is useless.

Zhang Yuhe didn't want to waste time or materials.

So I can only send an avatar and go over to say hello.

The stream of light flew down on Galaxy Peak.

Zhang Yuhe smiled and shouted to everyone.

"Hello, seniors."

"Galaxy Immortal King."

"Zhang Zongzhu."

Seeing Zhang Yuhe's incarnation coming over, the Dao ancestors did not show any contempt.

They came forward one by one to greet him.
