

Two Trillion 1681

Chapter 1681 - Such a Useless Person! (2)

Although that's the case, Bai Xiaosheng wasn't so affected that he'd become dispirited and reluctant to work hard. After all, he is the Executive President of the Greater China Region, and it's a fundamental quality to fulfill one's role.

Moreover, the Zhenbei Group will be his in the future; it's akin to working for himself, so how could he afford to be emotional and not dedicate himself fully.

In addition, he had made a promise to the Wei Family to redeem Wei Xuelian's twenty years of youth!

Having made such bold statements, achieving them cannot simply be left to fate.

Bai Xiaosheng believed that unless the Greater China Region became exceedingly wealthy, fulfilling his promise would be impossible.

Whenever he thought of Wei Xuelian, Bai Xiaosheng's motivation soared even further...

In fact, to be honest, Bai Xiaosheng has been the Greater China Region's president for just about four months, and reaching 42 points is already quite impressive!

If he truly completes the regional president-level promotion within a year, even he would feel it's overly exaggerated to speak of it.

...

In this way, within half a day, Bai Xiaosheng and his team visited two cities, inspecting three enterprises.

Actually, it's also because they stayed a bit long in Ladoga, they were catching up on progress.

At ten in the evening, Bai Xiaosheng and his team arrived in Haru City by car, found a hotel to stay at, and prepared to go to Haru Medical College the next morning to witness Lai Yin's research results.

Before sleeping late at night, the three of them sat together, drinking a glass of milk to calm their nerves.

Discussing tomorrow's trip, the meticulous Lei Ying couldn't help but remind Bai Xiaosheng, "Although today we drove away that Tony, showing disdain for his employer's arrogance, we still must remain vigilant. Lai Yin and their team renting Haru Medical College's equipment and labs isn't a long-term solution; after all, they're at the mercy of others..."

Lei Ying was concerned that the medical college could be influenced by big capital.

On this, Lin Weiwei was wholly in agreement.

If they intended to invest in Lai Yin's team, then potential risks must be eliminated.

"Let's see tomorrow if it's convenient for them to relocate."

Speaking, Bai Xiaosheng mocked himself with a smile, "On this trip to Europe, I've done nothing but spend money!"

"The liquid funds of Zunbai Zhisheng, Xue Lian Wan He, and even Li Ni Workshop have almost all been invested by us, and even the profits from my shares in Shengsheng International and Zheng Pangzi's side have also been plowed in together."

Bai Xiaosheng sighed.

He first initiated a business war against Kelson and the Hawk Family here, then invested in Kelson to turn the tide and open up markets.

Co-founded the "Encounter" Wine Group with the three liquor giants Hawk Family, Feng Family, and White Family.

Expanded the facilities and equipment of Li Ni Workshop, hitching a ride on the development here.

Each of these initiatives involved a massive amount of investment.

Even if Zunbai Zhisheng and Xue Lian Wan He are reputed to be of "trillion" scale, they certainly don't have an actual trillion. Moreover, they must reserve basic liquid funds; otherwise, if the capital chain breaks, the trillion-dollar pedestal topples, it wouldn't just be skin-deep damage but would harm muscles and bones or even be fatal.

So after spending to this extent, Bai Xiaosheng surprisingly felt "poor."

Despite investing hundreds of billions, he felt his money was running short...

Speaking of which, to ordinary people, "billion" might be an astronomical figure, unattainable in their lifetime, but to big shots, that's just a small goal for the younger generation.

In the prosperous real estate market times, some residential-commercial complexes in Imperial Capital and Modu were valued at several hundreds of billions...

"However, even without money, such investments must still be made!" Bai Xiaosheng downed his glass of milk in one gulp, slammed the cup down heavily, and stood up to return to his room.

Calculating, the money in his account was about one billion, and of course, not in Euros or US Dollars, but in Chinese Yuan.

On the second day.

Bai Xiaosheng routinely rose early, utilizing breakfast time to organize the itinerary, review some progress, and read briefings.

This had almost become a habit, symbolizing the start of another fulfilling day.

After breakfast, Bai Xiaosheng and his team left the hotel, hailed a cab, and headed straight to Haru Medical College.

The ride took over an hour, and nearly at ten in the morning, Bai Xiaosheng and his team finally arrived at Haru Medical College.

After getting out of the car, the three of them looked at the medical college's entrance and nodded in silent approval.

This solemn and majestic gate, with a strong sense of artistic elegance, exuded historical vibes, visibly extraordinary at first glance.

Following Lai Yin's instructions, Bai Xiaosheng and his team entered the medical college, navigating their way to locate the laboratory building, which was an independent area. The security was strict, requiring not only detailed form fill-ins but also someone to escort them in.

As Bai Xiaosheng and his team approached, someone hurriedly came towards them.

It was a woman with a slim waist and long legs, pleasing to the eye, yet bare-faced, casually tying her hair up, wearing only a lab coat.

"Are you Bai Xiaosheng, Lin Weiwei, and Lei Ying?"

The opposite party directly inquired, with a melodious voice, albeit a bit stiff when pronouncing the names, as she had to follow the Chinese pronunciation.

She looked at each person as she mentioned their name.

"That's right." Bai Xiaosheng nodded, looking at her in confusion, "And you are?"

"I am Grace, a member of Lai Yin's team."

Grace answered straightforwardly, also taking the opportunity to scrutinize Bai Xiaosheng with a hint of examination and curiosity in her eyes.

This young Asian man was the investor recognized by their leader Lai Yin, and he looked so young.

From Grace's gaze, there was evidently a bit of skepticism, but she said nothing.

Bai Xiaosheng suddenly realized this must be someone arranged by Lai Yin to meet them.

Lai Yin must have described their appearances, so Miss Grace was able to "match names to faces," recognizing each person.

Chapter 1682 - Such a Useless Person!

"Lai Yin didn't come? That guy sure knows how to send people around." Lin Weiwei smiled at Grace, with a hint of teasing about Lai Yin.

Grace glanced at Lin Weiwei, saying nothing.

Clearly, she wasn't amused by this "joke".

Lin Weiwei felt a bit awkward instantly.

It seemed that Miss Grace was the serious type.

"I've already handled everything here, you guys follow me quickly." Grace nodded to the doorman and said.

Then she glanced at Bai Xiaosheng, "Originally, Lai Yin wanted to personally pick you up. But we hit a snag... or rather, trouble!"

Grace's expression was somewhat heavy, making Bai Xiaosheng's eyes narrow.

Lin Weiwei, and Lei Ying exchanged a surprised glance.

...

In the plaza in front of the laboratory building, people not involved were prohibited from entering here, so it was quiet, only researchers in white coats could be seen, all looking hurried.

Judging by their attire, the three of them in casual wear stood out a bit.

But they didn't have time to mind others' glances, closely following Grace's footsteps.

Grace walked quickly, almost at a power-walking pace.

It was evident that she was in a hurry.

Bai Xiaosheng asked what on earth trouble Lai Yin and the others had encountered.

Grace couldn't say clearly, only that representatives from the school came to inform them that they would reclaim their equipment and the right to use the laboratory.

And it was decided suddenly this morning!

Lai Yin was arguing firmly with the school representatives, and they didn't know what the current situation was.

"The worst case is that they will demand us to leave within twenty-four hours!"

Grace's expression showed agitation. Seeing Bai Xiaosheng keeping pace with her, knowing he was the investor Lai Yin found, she needed to inform him in advance about the situation.

So, Grace said urgently as she walked, "But if it comes to that, we will have to halt all current experiments. And that's not the worst! Shipping the samples out requires highly specialized equipment vehicles. There's only here in Haru City, and they won't provide it to us! More importantly, we need equipment and laboratory facilities to transfer various finished and semi-finished products. The nearby cities don't have labs and equipment meeting the conditions!"

Grace even murmured a low curse, "Damn it, this is clearly meant to ruin us! Bastards!"

Bai Xiaosheng's brows furrowed slightly, saying nothing.

Lin Weiwei, and Lei Ying, following behind, also heard clearly and couldn't help but exchange glances.

Just discussing this kind of situation yesterday, and it was coming true today?

Haru Medical College doing this surely was to force Lai Yin to submit to someone or some power.

The one behind the scenes, was it the employer Tony mentioned yesterday?

What kind of background does this person have to actually sway the "unyielding" Haru Medical College as Lai Yin described?

Seems complicated!

"Mr. Bai Xiaosheng, you are the person our boss Lai Yin values. There must be someone sabotaging behind the scenes, what do you think should be done? Should we talk to the school authorities?" Grace said to Bai Xiaosheng as they walked.

Although she didn't believe someone as young as Bai Xiaosheng could have significant power, since their boss Lai Yin trusted him so much when mentioning him.

So she held some hope, wishing Bai Xiaosheng could go and negotiate with the school, possibly lending them a hand.

"Since Haru Medical College has been swayed to act against your team, I'm afraid going there myself would be useless." Bai Xiaosheng replied directly.

Not even attempting to try, just giving up?

Grace frowned slightly, her impression of Bai Xiaosheng declined a bit more.

"So, do you have any way for us to stay?" Grace asked.

Bai Xiaosheng didn't even think, directly shaking his head, "I don't."

Grace felt even more disappointed, staying silent.

Bai Xiaosheng then slowed down his steps, "There's no use for me rushing there, Miss Grace, if you're in a hurry, please go ahead."

Grace gave Bai Xiaosheng a glance, nodding expressionlessly, and then accelerated her pace.

Lin Weiwei, and Lei Ying looked at Bai Xiaosheng in surprise, not understanding why Bai Xiaosheng told her to go first.

"You guys go ahead, I'll be there shortly." Bai Xiaosheng slowed down, took out his phone, and began fiddling with it.

Lin Weiwei, and Lei Ying nodded, quickening their pace to catch up.

After Grace gained some distance, she whispered under her breath in a tone of disappointment.

"Boss Lai Yin used to have such a keen eye, how come he misjudged this time! Such a useless person, it's utterly disappointing!"

Chapter 1683: Cooperate With You? No Way!

Lin Weiwei and Lei Ying followed Grace into an experiment building and made their way to the elevator.

Grace's phone vibrated continuously, delivering messages. As she took it out to check, her brows furrowed noticeably and her expression turned rather grim.

"Is something wrong, Miss Grace?" Lin Weiwei asked, unable to hold back when she saw the change in Grace's expression.

Grace looked a bit anxious, but out of politeness, she replied to Lin, who was younger than her, "It's from my colleague... Things over there don't look good!"

Grace did not elaborate further.

However, Lin Weiwei and Lei Ying exchanged a glance, and they could roughly guess that the negotiations between Lai Yin and the school representatives were not going well.

When the elevator arrived, Grace was the first to hurry inside, pressed the floor button, and her impatience was plainly visible.

Lin Weiwei and Lei Ying followed her in.

In addition, there were other unknown people in the elevator going to other floors.

“Please wait a moment, my friend is coming!” Lin Weiwei raised her voice, directing her words mainly to those she didn’t know.

From a distance, Bai Xiaosheng was still looking down at his phone, approaching slowly.

To Grace, his slow pace was simply exasperating.

“He’s too slow, let’s just go! Besides, there are other people here!” Grace frowned, her eyes showing a hint of coldness, and pressed the close button without hesitation.

Lin Weiwei did not expect Grace to be in such a hurry to close the door and failed to stop it in time, so she could only watch the elevator ascend.

However, seeing Grace’s anxious and restless demeanor, Lin Weiwei sighed and didn’t say much.

Fortunately, Bai Xiaosheng knew which floor Lai Yin and the others were on and wouldn’t get lost.

The elevator ascended, with Grace not saying a word, continually checking her phone.

When the elevator stopped and the doors opened, she was the first to step out.

Members of Lai Yin’s team, having worked tirelessly for years, were on the cusp of realizing their results, and encountering such a setback was hard for anyone to accept, leading to understandable frustration and urgency.

Lin Weiwei and Lei Ying followed her out as well.

The three of them walked along a corridor, passed through two unattended automatic glass doors, and reached the first room, which was labeled boldly with the words “Reserved Reception Room.”

Though it seemed odd for the first room to be for receiving guests, Lin Weiwei and Lei Ying, familiar with Lai Yin and Grace, immediately understood.

This was not a warm welcome; quite the opposite, it was a way to stop visitors from going further in, with a hint of rejection.

Grace reached the reception room's door and pushed it open without knocking.

Within Lai Yin's team, including Lai Yin himself, six individuals were close-knit, unconstrained by formalities.

They treated others the same, disregarding the status of any important guests, and followed their own ways.

Lin Weiwei and Lei Ying followed her inside.

The reception room was exceedingly simple, with just a long table and two rows of chairs.

At most, there was a water dispenser in the corner.

Spacious and cold.

The whole room exuded an unwelcoming vibe, very much in the style of Lai Yin.

Upon entering, Lin Weiwei and Lei Ying noticed a row of people seated on either side of the long table.

On the inner side were five people, with Lai Yin in the center. Surrounding him were three men and one woman, of different ages and appearances, all in lab coats, members of Lai Yin's team.

At this moment, Lai Yin's face was extremely grim, starkly contrasting with his carefree demeanor of previous days, his brow carrying a hint of seriousness.

The people beside him also showed varying degrees of displeasure.

On the opposite side of Lai Yin, another row of six people were seated.

The most striking was the person in the center, with a spherical body, a fat head, and ears, and layers of flesh on his chin.

The atmosphere in the reception room was extremely tense, as if a fierce argument had just taken place.

As Grace, Lin Weiwei, and Lei Ying entered, everyone naturally turned their gaze towards them.

Grace headed straight to Lai Yin's side and sat down immediately.

Lin Weiwei and Lei Ying couldn't follow suit, so they stood at the door. There was no other reason; the twelve chairs surrounding the long conference table were all occupied, leaving no seats for them.

"You're here." Seeing them, Lai Yin's expression slightly relaxed, and he greeted Lin Weiwei and Lei Ying, glancing behind them, "And Bai?"

"He'll be here soon," Lin Weiwei replied.

Lai Yin nodded and told a sturdy man beside him, "Go bring three chairs over."

The man, a part of Lai Yin's team, nodded and got up to leave.

"No need, we can just stand here for a while," Lin Weiwei said.

"We need to! You are my friends!" Lai Yin replied earnestly.

The man instructed by Lai Yin cheerfully smiled at Lin Weiwei and Lei Ying as he passed by, showing a bit of warmth due to Lai Yin's words.

Lai Yin's friends were their friends.

The other people beside Lai Yin also softened their gazes.

Only Grace kept her face dark.

The impression Bai Xiaosheng left just now was too poor, and she had no intention of smiling, her eyes filled with hostility as she glared at those seated opposite.

"Oh, we meet again. Big guy, do you remember me?" someone sitting beside the rotund man opposite Lai Yin suddenly called out loudly, his voice tinged with cold mockery.

Chapter 1684 - Cooperate with You? Not a Chance! (2)

Lin Weiwei and Lei Ying finally realized that the person was actually Tony!

At this moment, he no longer had the dejected look of yesterday. His face was full of pride and confidence!

It seems that the one pulling the strings behind the scenes is indeed Tony's employer!

Lin Weiwei and Lei Ying exchanged glances and looked coldly at the other side.

"Mr. Lai Yin, if we are to continue our talks, these two need to get out! I find them an eyesore standing here!" Tony sneered as he pointed to Lin Weiwei and Lei Ying, speaking domineeringly.

Lin Weiwei and Lei Ying turned their gaze to Tony, their eyes suddenly turning cold.

"Don't go too far!" Lai Yin glared at Tony, drinking with some uncontrollable anger.

Just a round of negotiation had filled Lai Yin with rage, now completely erupting.

"If it doesn't work, we won't talk! Who are you trying to intimidate?" Lai Yin slammed the table and shouted.

The people around Lai Yin shared the same hostility, their expressions even showing a murderous tension.

Indeed, who are you trying to scare!

At worst, we break off all relations!

From just now, the other party has been aggressive and excessive!

If it really comes to tearing faces apart, true, Lai Yin's team's experimental samples might be destroyed. But they have the original data and can start over, it might just take a year or two longer!

Tony did not expect Lai Yin and his people to react so violently, his face stiffened.

He just wanted to seize the chance to flaunt, after all, yesterday he was thrown out by that giant, what a humiliation!

Now he's putting on airs, trying to exploit, and unexpectedly provoked Lai Yin and his people to madness!

He was instantly afraid.

If things really get out of control, that would be disastrous!

To Tony, they had cornered Lai Yin and his people, about to see results, but if it collapsed now, the responsibility would be immense.

His employer, that transcendent identity, would definitely not spare him!

Tony's heart chilled.

Seeing the situation going awry, the round, chubby person beside Tony hurriedly spoke, laughing to ease the situation.

"Lai Yin, don't get so agitated! Mr. Tony was just speaking casually, wasn't he? Didn't he not do so?"

"We were negotiating well before, why stop now? What would that be like!"

"As I've said, the college side is difficult too, always striving to maintain your interests!"

"Aren't you all graduates from our school, successful in your fields, is this how you repay your alma mater?"

"Understand the difficulties of the school, let's all sit down, talk calmly, and things will ultimately move towards a win-win direction."

This chubby person seemed to be a representative from Haru Medical College, his words both eased and persuaded, genuinely calming the tense atmosphere.

Lai Yin, though he seemed unreliable, was very sentimental, especially grateful to the school for its support over the years. Hearing the round guy's words, he fell silent, and so did the members of Lai Yin's team.

"Now, we're negotiating, isn't it inappropriate for you to meet guests or friends."

"Besides, there's really no place here."

"I think Mr. Tony's suggestion is to have them wait outside for a while." Seeing Lai Yin's unwilling expression, the round guy immediately added, "I think we could also place seats over there, have the two wait there or even listen in, this is also acceptable."

Just then, the man from Lai Yin's team who went to fetch chairs returned, holding three plastic round stools in his hand.

"This gentleman is right, we can sit here, it's not a problem." Lin Weiwei raised her voice.

She didn't want to make things difficult for Lai Yin because of them.

After all, from the current situation, negotiations are better than none.

Everything will have to wait until Bai Xiaosheng arrives.

But, Xiaosheng really is quite slow... Lin Weiwei thought to herself.

Lei Ying took the round stool, nodded and smiled at the person who brought the chairs, who also returned the smile and went back to his seat.

After hearing the round guy's words and Lin Weiwei giving a way out, Lai Yin forcibly suppressed his anger.

After all, sitting down to negotiate involves not just him, but his entire team!

It's easy to say "break off relations," but Lai Yin is not willing to give up the hard-earned results of everyone.

"Mr. Lai Yin, consider it as me saying something wrong, okay? I take back what I said just now!" Tony also raised his hands in a gesture of surrender, backing down.

Tony couldn't help but submit; his employer was sitting next to him, if he went back and reported that he messed up, he'd really be in big trouble!

Lai Yin had a gloomy face and snorted.

The others also refrained from speaking further, considering the matter closed.

"Let's continue the previous topic." The round guy looked at both sides, smiling kindly, "Since, Lai Yin does not agree with Mr. Tony's employer's conditions, we can slowly discuss them later, first settle the parts we can, which is to reach a cooperation intention. Lai Yin, in any case, you will eventually need funding, finding a reliable investor is imperative. Mr. Tony's employer is a director of our college, with significant weight, and the college considers them the most suitable investors for your project. If you don't agree, refuse cooperation, it would hurt the feelings of your alma mater, forcing us to reclaim the equipment and laboratory lent to you, both sides would suffer losses, so why do this."

Lai Yin's eyes sharpened, looking at the round guy, he said slowly, "Mr. Taylor, I have a question."

"Go ahead!"

"When did this person's employer become a director of Haru College!" Lai Yin pointed at Tony, coldly snorting, "Don't think that we researchers are oblivious to the outside world, I've never heard of them before!"

Chapter 1685 - Work With You? Not a Chance!_3

Lai Yin's team exchanged glances, and all of them shared the same sentiment.

The round and chubby Taylor, however, was calm and collected, smiling as he said, "Lai Yin, don't say that it's just you; even I didn't know before... Because it was only yesterday that Tony's employer became the largest shareholder of our school! Overnight! What do you think of such power!"

As he spoke, Taylor's eyes sparkled even more.

This is the power of big capital!

It can easily intervene and influence the board of directors, completed overnight, and it sounds so unbelievable!

Even he was willing to submit to the power of the other party, and came this time to actively "persuade" Lai Yin and his team.

Tony listened with a more smug expression.

Lai Yin, Grace, and everyone in Lai Yin's team were all shocked, full of disbelief.

They truly underestimated the power of the wealthy.

Lin Weiwei and Lei Ying also exchanged surprised glances.

Indeed, Haru Medical College isn't public, but to rank among the top ten medical colleges in Europe, presumably those directors wouldn't easily transfer their shares.

But Tony's employer behind the scenes could achieve it, and in just one day!

The difficulty of this can be imagined!

The fearsome background is also not difficult to imagine.

At the very least, it has to be at the level of Soruns!

Lin Weiwei and Lei Ying silently made assessments.

"Mr. Taylor, we do need investment, but I made it very clear just now that we've already found an investor, and he's about to arrive!" Lai Yin said.

He emphasized this just now, but Taylor wouldn't listen, perhaps thinking that no investor could compare to Tony's employer, the major shareholder of Haru Medical College.

"Your investor? That young one, really thinks he can compare to my employer?" Tony couldn't help but interject with a cold laugh, "Mr. Lai Yin, I hope you're not joking, there's really no comparison, okay! If you had listened to me yesterday instead of rudely kicking me out, you would know how powerful my employer is! It would save us all this trouble today! If I were to mention my employer's name, your young friend would immediately withdraw his investment! Because compared to us, his money is nothing, and his connections are just no connections at all!"

Tony spoke arrogantly, quite pleased with himself.

Lai Yin looked at him coldly, fists clenched, wanting to retort but unable to come up with anything to say.

Bai Xiaosheng indeed had connections and power, but he was so young, and maybe he relied on his family.

Can he really make the decisions, can he really arm-wrestle Tony's employer!

Even Lai Yin wasn't confident.

Lai Yin's inability to respond put his entire team in silence.

Sitting at the far end, Grace quietly sighed. She had met Bai Xiaosheng and felt quite disappointed.

As Tony said, perhaps they're just not in the same league.

"What's more, where is he?" Tony glanced at Lin Weiwei and Lei Ying sitting over there and chuckled, "His subordinates have arrived, yet he's not here!"

Lin Weiwei and Lei Ying's eyes turned slightly cold.

Yet, the door beside them was pushed open.

"Are you asking about me, Mr. Tony!" A young man with black hair and black eyes walked in with a smile.

It was Bai Xiaosheng!

"You've finally come!" Tony's eyes lit up when he saw Bai Xiaosheng, "You actually dare to come!"

Bai Xiaosheng was originally thought to be one of Tony's peers, then he found out Bai Xiaosheng was the financier Lai Yin found, and yesterday, he was thrown out by that big guy.

This humiliation, Tony had remembered all along!

Now with a chance to take revenge, how could he miss it!

"Why wouldn't I dare to come?" Bai Xiaosheng looked at Tony with a hint of amusement, yet his gaze was indifferent, "A small-time headhunter barking here. This is a business negotiation, what's it got to do with you. I think you can leave, as there's no place for you to speak here!"

Bai Xiaosheng looked at him with contempt. Tony, furious and wanting to speak, couldn't think of a retort.

"Sir, you're being excessive. Mr. Tony is a representative for our Haru Medical College's board, how can you..." Taylor said with a stern face.

Bai Xiaosheng directly interrupted him, "You're that school's representative?"

"Indeed!" Taylor said proudly.

"Haru Medical College is ultimately just a toy in the hands of capital. You, a person from the academy, turning against your own, and feeling proud about it?" Bai Xiaosheng shook his head disdainfully at him, then looked at Lai Yin, "You researchers can't negotiate, let me handle it."

Bai Xiaosheng said this, and Lai Yin bitterly smiled and nodded.

Bai Xiaosheng, with the authority given, spoke crisply and decisively to Tony and Taylor, "As the future investor for Lai Yin's team, let me be clear: cooperate with you?"

"No deal!"

Chapter 1686: We'll See About That!

Bai Xiaosheng flatly rejected Taylor and Tony on behalf of Lai Yin, which immediately turned a negotiable situation into a deadlocked stalemate.

Everyone was taken aback and looked at him.

Even Lai Yin didn't expect Bai Xiaosheng to be so decisive and give such an absolute answer!

He was a bit stunned, too.

Lai Yin had thought that Bai Xiaosheng would engage in a verbal battle with the other side, arguing with logic on their behalf.

In Lai Yin's view, if accepting the other party's investment were unavoidable, it would be best to have Bai Xiaosheng as a co-investor, at least to exert some restraint on the other party. At the very least, even if Bai Xiaosheng couldn't participate in the investment in the end, he would help them fight for maximum interests.

From the incident with Uncle Jonas, Lai Yin knew that Bai Xiaosheng was such an upright and passionate person.

And in such negotiations, as Bai Xiaosheng said, he and those around him were not specialized.

Therefore, Lai Yin nodded on the spot, “entrusting” Bai Xiaosheng to speak, but he didn’t expect Bai Xiaosheng to speak in such a manner.

Lai Yin’s team members were also stunned as they looked at Bai Xiaosheng.

What this young man said was indeed satisfying!

But the price paid for this might also be the greatest!

Grace’s eyes widened as she looked at Bai Xiaosheng in astonishment, and then an inexplicable anger flashed in her eyes.

She wasn’t afraid of the talks breaking down.

She believed, however, that even if the talks collapsed, causing everyone’s hard work to go to waste and possibly requiring another two years to start from scratch, such a decision should be made by Lai Yin!

What right did this person have!

Grace recalled downstairs when she asked for help, and Bai Xiaosheng said there was nothing he could do.

This was someone who didn’t even have the courage to attempt to solve the issue, and now he dared to make a life-and-death decision for them. How ridiculous!

Grace glared fiercely at Bai Xiaosheng and even gritted her teeth, muttering angrily, "This guy who acts without authorization, who does he think he is!"

Lin Weiwei and Lei Ying were also surprised as they looked at Bai Xiaosheng.

Both of them knew Bai Xiaosheng well and understood that Bai Xiaosheng would never act recklessly.

Before coming in, Grace had mentioned that to preserve Lai Yin's team's experimental samples, they needed exclusive equipment and laboratories from this side.

Once separated, they could only be preserved for up to twenty-four hours in portable freezing canisters before the samples would be completely destroyed.

They assumed Bai Xiaosheng would never let the worst possible outcome occur.

But now, Bai Xiaosheng was actually pushing for that outcome.

They wondered if Bai Xiaosheng had spoken with Soruns and asked for help?

But that didn't make sense!

Someone who had acquired huge shares from Haru Medical College in a single night would not be intimidated by Soruns and was determined to succeed in this matter.

Even if Soruns could speak, would the other party back down?

Even if it could be done, Soruns would have to pay a very high price.

Bai Xiaosheng was the least likely to owe a favor or force others against their will.

So the possibility of asking Soruns for help was very small...

Lin Weiwei and Lei Ying, for the moment, couldn't figure out what Bai Xiaosheng was thinking.

Taylor, Tony, and the people around them were also shocked as they looked at Bai Xiaosheng, momentarily unable to react.

For a moment, the atmosphere in the room was frozen.

Then—

“Who the hell do you think you are! You can't just say whatever you want here without my say-so!” Tony exploded first.

Taylor also frowned, squinting at Bai Xiaosheng, his voice low and hostile, “Sir, watch your words! Also, you are not a party involved, so you have no right to make any decisions!”

With that, Taylor turned to Lai Yin, his tone threatening, “Lai Yin, I'm taking your so-called ‘authorization’ as just a casual remark that's not serious. But now, you need to speak up and make a stance. Ask this gentleman to shut up or leave! Otherwise, we really can't continue the negotiations!”

“Make him leave!” Tony shouted after him.

Having learned from earlier how to provoke Lai Yin, Tony held back from adding a “get out” to his words.

Lai Yin paid no attention to Taylor and Tony's words and looked at Bai Xiaosheng.

Bai Xiaosheng looked back at him.

Bai Xiaosheng's expression remained calm and composed, even with a slight smile, but his gaze was very firm.

Everyone looked at Lai Yin.

Lai Yin took a heavy breath.

“This person is the only investor I recognize!” Lai Yin pointed at Bai Xiaosheng, his expression decisive, as he spoke word by word to Taylor, Tony, and his team, “His decision aligns exactly with mine now!”

“This matter is off the table for discussion!”

Actually, from the beginning, Lai Yin was suppressing a surge of anger, even having just had an outburst.

Submitting to capital was something Lai Yin despised, not to mention that the capital side even threatened him, demanding they lower their heads.

For the sake of his team, Lai Yin had endured repeatedly, thinking he could really hold on.

The appearance of Bai Xiaosheng suddenly gave him a push, aiding him in making this decision!

“Collaborating with such investors, who knows what the future holds, better to endure some short-term pain than long-term pain, at worst, we’ll start again from scratch!”

Lai Yin couldn’t help but pound the table, his words hard, also as an explanation to his team.

The members of Lai Yin’s team nodded one by one.

Even Grace had no objections.

Taylor had originally intended to pressure Lai Yin but didn’t expect him to react by “breaking the pot,” showing no interest in negotiations.

Taylor was suddenly startled.

Tony was truly panicking!

“Lai Yin, have you considered the consequences! Once you decide this, your years of work may be destroyed overnight! Also, you’re opposing your alma mater!”

Chapter 1687 - We’ll See About That! (Part 2)

Taylor, in a moment of urgency, slammed the table and threatened, "Do you still want to return to your alma mater in the future! And all of you, do you really not care whether you can go back or not!"

Taylor’s last line was a direct threat to everyone in Lai Yin’s Team.

Unfortunately, his threat was like a stone sinking into the sea, stirring no waves at all.

Lai Yin’s Team was indifferent even to family relationships; they considered the team their family, centered their lives around research, and couldn’t care less about such threats.

"If my alma mater is as you say, constantly threatening its students to achieve its goals,"

Lai Yin looked at Taylor coldly, "then I would rather sever ties with it!"

Taylor was stunned by Lai Yin’s ruthless words.

He used research success, team interests, and even the alma mater as threats, yet Lai Yin feared none of these. What else could make Lai Yin yield?

Even Tony was dumbfounded.

Soon after, Tony looked angrily and with hostility at Bai Xiaosheng and the others.

Everything was going well until Bai Xiaosheng's arrival made it impossible to continue!

This bastard, a jinx!

Tony cursed Bai Xiaosheng in his heart.

At this moment, watching helplessly as the deal went sour, Tony was truly unwilling to let it end.

"Mr. Lai Yin, Mr. Taylor, everyone calm down." Tony couldn't hold back and spoke up to mediate, offering a forced smile to Lai Yin, "Mr. Lai Yin, we can't be so absolute, Haru Medical College is your alma mater after all, there's some sentiment involved, how can you just cut all ties..."

Lai Yin gave him a cold look, "Why can't I?"

Bai Xiaosheng had opened Lai Yin's psychological barrier, taking the first step, and now, Lai Yin steeled his heart completely.

Tony never expected him to be so resolute, and couldn't find the words to ease the situation.

Just then, the door to the reception room was suddenly pushed open forcefully, and a deep, resonant voice came through, radiating authority.

"Lai Yin, what audacity! Who are you trying to sever ties with, are you not even recognizing me, your teacher!"

With this angry shout, several more people walked in from outside the reception room.

Bai Xiaosheng turned to look.

The newcomers were led by two individuals.

One was an elderly white man dressed in a suit, with graying hair and wearing gold-rimmed glasses.

The other, also dressed formally, was younger with an Asian face, although he was somewhat lean both in face and stature, his gaze nonetheless sharp.

Seeing the glasses-wearing man, Taylor immediately stood up respectfully and greeted first, "Vice President Logan!"

Lai Yin also changed his expression and respectfully addressed him, "Mentor!"

Mr. Logan, the Vice President of Haru Medical College, and Lai Yin's mentor!

Bai Xiaosheng couldn't help but scrutinize the man.

Everyone else in the room who were seated stood up.

The members of Lai Yin's Team stood up because of Logan.

Whereas the people beside Tony, belonging to his employer, respectfully gazed at the lean man.

"You remember I'm your teacher, huh, Lai Yin! You've become quite capable now, even disregarding your alma mater, right? And all of you!"

Vice President Logan coldly snorted, his gaze swept over Lai Yin's Team and finally landed on Bai Xiaosheng.

He examined Bai Xiaosheng with a peculiar gaze, "Who are you?"

"Mr. Logan, this young man is the so-called investor that Lai Yin found, he's also the one who incited Lai Yin to stop negotiating with us. Because of him, Mr. Lai Yin momentarily lost his voice, please don't blame Mr. Lai Yin too much." Tony quickly "explained".

He was indeed adept at speech, shifting all the blame onto Bai Xiaosheng, "exonerating" Lai Yin.

Unfortunately, Lai Yin glanced at Tony with disgust and did not appreciate his help.

"Oh? You're the investor Lai Yin found?" Logan seemed surprised, sizing up Bai Xiaosheng, with an expression of mixed amusement, "From your age, you're probably investing with family money."

"Lai Yin's friend? It could only be Lai Yin who would fool around like this, a grown adult befriending a child!"

"Inviting you to be his investor?" Logan shook his head repeatedly at Bai Xiaosheng, seemingly not taking it seriously.

"Young man, listen to me, the capital and market involved here are not within your reach!"

Logan casually waved a hand at Bai Xiaosheng, "You may leave."

Before Bai Xiaosheng could speak, Lai Yin suddenly became anxious, "Mentor Logan, he..."

"Lai Yin!" Vice President Logan's face darkened, raising his voice to interrupt.

He cut off Lai Yin's words first, his expression showing some anger, "Have you made enough fuss! I heard you from outside the door just now, saying what, cutting off all ties with your alma mater? Good, very good, my student! Are you disregarding me, your teacher!"

"Have you forgotten who got your project approved, who helped you apply for research funding, and who arranged the venue for you!"

"Now, not even listening to your mentor's words? Ungrateful!"

Logan unceremoniously berated Lai Yin in front of everyone.

This left Lai Yin unable to retort.

Indeed, from the time their research project was approved to securing venues and funding, his mentor's support was undeniable.

Not only Lai Yin, but the entire Lai Yin's Team had nothing to say, even straightforward Grace remained silent.

Bai Xiaosheng observed Logan.

This mentor who had been kind to Lai Yin and was now the vice president, his arrival indeed brought complications, making matters quite tricky.

Logan's subtle changes of expression were also all captured by Bai Xiaosheng, causing his mind to stir.

"Red Lotus, search for all information related to Vice President Logan of Haru Medical College for me."

Chapter 1688 - We'll See About That! (Part 3)

Bai Xiaosheng issued a command in his mind.

"Alright," Red Lotus responded.

Bai Xiaosheng's mind was instantly flooded with a vast amount of text and image data.

With Red Lotus's help, Bai Xiaosheng quickly processed the information.

However, to outsiders, Bai Xiaosheng's silence seemed like an admission of defeat.

Grace glanced at the silent Bai Xiaosheng, feeling disappointed and somewhat disdainful.

In her view, Bai Xiaosheng had only shown off with one reckless remark since his appearance, and then fell completely silent.

"This is Mr. Shen Qingqiu, a favored figure around the new director, here specifically to discuss cooperation," Logan said looking at the slender Asian man beside him with a warm smile.

Mr. Shen Qingqiu also smiled and nodded at Logan.

"Today, I accompany Mr. Shen to negotiate with you! Will you still dare disrespect me!" Logan demanded sternly.

Lai Yin's face darkened; usually playful, he was the most sentimental. When someone had a favor on him, it was like holding his Achilles' heel. He wanted to speak but couldn't organize his words.

Several members of Lai Yin's Team were Logan's students and had no rebuttal.

Grace was not Logan's student, but she had no right to speak in front of Logan the mentor either.

Are we truly compelled to submit to capital today?

Grace felt a fleeting sense of desolation, as though all struggles were futile.

Seeing Lai Yin fade and Lai Yin's team silent, Taylor and Tony couldn't help but feel delighted.

This is truly a case of one thing defeats another!

If we had known, we should have invited Mr. Logan, this powerful figure, to make everything easily resolved.

"Mr. Shen Qingqiu, please!" Seeing everything settled, Logan felt somewhat triumphant as Shen Qingqiu beside him also showed approval, gesturing invitingly.

"Sure." Shen Qingqiu smiled at Logan and started to step inside.

However, he froze mid-step.

Because a young man who had remained silent blocked his path.

It was precisely the young funder sourced by Lai Yin, whom Logan had casually dismissed earlier.

Logan also noticed Bai Xiaosheng blocking the front and was taken aback, frowning, "Kid, what do you want now?"

All eyes fell on Bai Xiaosheng.

"Vice President Logan, right?" Bai Xiaosheng said leisurely with a faint smile, "You came late, so you might not have heard. Now I'm here to negotiate with you on behalf of Lai Yin and his people! If you have something to say, say it to me."

"You?" Logan sneered.

He didn't take Bai Xiaosheng seriously at all.

What's this guy up to now! Stirring trouble?!

Grace looked at Bai Xiaosheng, suddenly irritated.

This anger might be due to the terrible situation today, or perhaps the emergence of Vice President Logan had them all restrained. Regardless, she was very angry, yet didn't know where to vent it, so it all fell on Bai Xiaosheng.

"I have nothing to say to you," Logan remarked disdainfully to Bai Xiaosheng.

Bai Xiaosheng chuckled, "And yet, I have plenty I'd like to say to you!"

Logan was taken aback.

"No, I want to talk to everyone about you!" Bai Xiaosheng's eyes turned cold.

Everyone was taken aback by this, including Logan, Lai Yin, and others.

Bai Xiaosheng and Vice President Logan were meeting for the first time, surely they wouldn't know each other, what topics would about Logan would they possibly discuss?

"Vice President Logan has published eighty papers from four years ago until now!" Bai Xiaosheng exclaimed, praising, "Not in vain as the vice president, remarkable output faster than a hen laying eggs, surpassing many professors' lifetime productivity."

"What are you saying!" Logan's eyes widened.

"Four years ago, you published eight papers on anti-aging molecule research, signed with your name, while the assistants listed were them," Bai Xiaosheng pointed at Lai Yin and the others, continuing on his own.

"Three years ago, you published six experimental papers, and the actual content was the work of Lai Yin and his team. Yet, thoughtfully, you added them to the assistants' list."

"Two years ago..."

Bai Xiaosheng casually recited each paper's title and key content.

Lai Yin's Team looked at their mentor Logan in shock; some papers were openly taken by Logan, claiming they'd be modified and published under his name for better academic acceptance.

But certain paper data and experimental outcomes they didn't want to disclose were secretly taken and publicly published by Logan!

That they didn't know!

These individuals were confined to the laboratory, immersed in research; despite knowing their mentor published new papers, they hadn't scrutinized them deeply.

Unbeknownst to them, many of their achievements had been usurped!

Logan watched Bai Xiaosheng speak confidently, his complexion shifting from astonishment to disbelief, eventually turning grim.

"Is this what you call gratitude? Vice President Logan, you're seizing your students' work. How do you have the face to ask for sentiments from Lai Yin and his team?" Bai Xiaosheng spat, "Pfft, shameless old man!"

Despite his usual poise, Bai Xiaosheng resorted to yelling.

Bai Xiaosheng actually despises such self-righteous so-called mentors using students as mere tools.

Lai Yin's Team eyed Logan with sullen expressions and hostile stares.

"How did you know this? Lai Yin, did you have him investigate me!" Logan blurted out angrily.

Inadvertently, this amounted to an admission.

Grace also looked incredulously at Bai Xiaosheng.

Lai Yin glanced at Bai Xiaosheng, although clueless about how he knew this, he looked at Logan and spoke, "Mr. Logan, seems you always took us for fools. We're done talking! If the school wants to take back the equipment and the lab, so be it!"

Logan reacted with shock and anger, "You're prepared to abandon your achievements; do you realize what losses this implies..."

Before Logan could finish, a burst of laughter resounded.

It immediately drew Logan's and everyone's attention.

Bai Xiaosheng finished laughing, let out a cold scoff, "Who said losing your equipment and lab necessarily results in loss? Mr. Logan, why don't we just wait and see!"

Chapter 1689: I Can't See Through People's Hearts, But I Can See Through You

Bai Xiaosheng publicly exposed Vice President Logan for secretly stealing Lai Yin's team's achievements, and this time, there's truly nothing more to discuss.

Lai Yin looked at Logan, his eyes filled with anger and deep disappointment.

This mentor, who provided them with venues, funding, and all sorts of conveniences for their project, only did so for the purpose of 'reaping the rewards'!

In fact, Lai Yin and the others were willing to contribute part of their research achievements, crediting some papers to the mentor's name, as a form of gratitude, but Logan shouldn't have taken things they hadn't planned to disclose and claimed them as his own. That's truly exploitative!

He even treated them like fools!

This is something Lai Yin couldn't tolerate at all!

Lai Yin always wanted to leave some glory for his brothers and sisters, after all, they had worked tirelessly on this project for years without any regret, and they deserved it!

What Logan did not only betrayed their feelings but also stole the honor that belonged to them!

Lai Yin was not only angry at the despicable actions of Logan but also at himself.

After all, most of the data that Logan got came through him!

Lai Yin felt like he betrayed the team.

Anger, disappointment, and guilt towards the team made Lai Yin not want to stay here for another moment.

"Pack up, we're leaving!" Lai Yin shouted to those beside him.

Those in Lai Yin's team also looked at their former mentor with hostile eyes. If Logan asked, they might have given it to him, but stealing it secretly was truly disgraceful, and he was that greedy!

Such a person is not worthy of their respect at all!

Led by Grace, they stood up and left, each with a cold expression, walking out without a word.

They were going to pack up the materials and samples and leave immediately!

They would rather destroy the samples and start over than compromise with someone like Logan!

As they passed Bai Xiaosheng, Grace looked at him with a complicated expression.

Although Bai Xiaosheng ultimately didn't solve their problem, he did help them see Vice President Logan's true colors.

From this perspective, Grace still felt some gratitude towards Bai Xiaosheng.

"Mr. Logan, are you just going to let them go like that!"

Watching Grace and the others leave, Shen Qingqiu couldn't help but move over, lowering his voice urgently to Logan.

Vice President Logan's face was somewhat green, fiercely glaring at Bai Xiaosheng.

This young man appeared out of nowhere, and he even investigated him!

Then he went on to expose all his affairs in front of everyone!

Vice President Logan both hated Bai Xiaosheng and was somewhat apprehensive of him.

Seeing Grace and the others looking at him with cold disdain, and everyone else's gaze being off, Logan felt immensely ashamed and angry.

However, with Shen Qingqiu speaking up, he couldn't ignore it.

After all, this Asian man had recently become one of the most influential directors of the school. Logan couldn't afford to offend him!

"Rest assured, Mr. Shen, let them go, I have my arrangements! It's inconvenient now, I'll talk to you later!" Logan whispered to Shen Qingqiu.

The latter also knew it was inconvenient to speak here, so he nodded silently and didn't ask further.

As for the scandal exposed about Logan, Shen Qingqiu didn't take it to heart at all.

With fame and power, who dares claim to be spotless?

"Lai Yin, as your mentor, everything I did was to prevent you from being burdened by fame so you could focus on research!"

"Furthermore, the things you newcomers have researched, even if published, how many people would believe them!"

"I intended to establish some achievements in this field first and then promote you! Why can't you understand my painstaking efforts?"

Logan said to Lai Yin with heartfelt pain.

He still spoke with such confidence and uprightness.

But when compared to his righteous demeanor, his words were truly ironic.

"Vice President Logan, your good intentions, unfortunately, we cannot accept!" Lai Yin said with a livid face, pointing to Bai Xiaosheng, "Now the representative of our team is this gentleman, whatever you want to say, please talk to him."

Having said that, Lai Yin walked around the desk with a stern face, directly heading out the door, nodding solemnly as he passed Bai Xiaosheng, but without even glancing at Logan.

Logan watched Lai Yin leave with a dark expression, then turned to look at Bai Xiaosheng, eyes slightly sinister.

Bai Xiaosheng looked at him calmly.

“All of you, get out!”

Vice President Logan suddenly turned to Taylor, Tony, and the others, shouting coldly.

The two dared not say a word and left in a hurry.

Today, they had heard an incredible piece of insider information, but they didn't dare spread it.

Vice President Logan's fame and status were clear, and with no personal vendetta or benefit to gain, and lacking any evidence, they wouldn't gossip outside, as it would be utterly counterproductive.

Seeing Logan about to talk to Bai Xiaosheng, Shen Qingqiu also waved for his people to leave. Then, he gave Logan a deep look and walked out himself.

In the end, the room was left with only Bai Xiaosheng, the other two, and Vice President Logan.

Vice President Logan shut the door and looked coldly at Bai Xiaosheng, “Kid, who instructed you to investigate me? Lai Yin? No, he and his people don't have that kind of wit!”

Logan knew them well.

Lin Weiwei and Lei Ying looked at Bai Xiaosheng, inevitably curious.

None of them knew when Bai Xiaosheng had completed his investigation on Logan.

“I just had a detailed chat about what Lai Yin mentioned, and couldn't sleep at night, so I looked into some related materials and accidentally discovered several of your similar papers with content identical

to theirs. Out of curiosity, I investigated the renowned Vice President Logan and realized you were their mentor.” Bai Xiaosheng naturally wouldn’t tell him that with a super AI in his mind, investigating was just a thought away.

Chapter 1690: I Can’t See Through People’s Hearts, But I Can See Right Through You (Part 2)

Logan’s eyes flickered, but he wasn’t entirely convinced by Bai Xiaosheng’s words.

“Just a moment ago, I was merely speaking off the cuff, and if Mr. Logan doesn’t recognize me, there’s nothing I can do. It was you who couldn’t hold back and admitted it yourself.”

Bai Xiaosheng’s smile carried a hint of mockery.

Despite being ridiculed by Bai Xiaosheng, veins bulged on Logan’s forehead, but he still didn’t explode.

Logan stared steadily at Bai Xiaosheng, his gaze was murky, but suddenly he laughed.

“It doesn’t matter, whether you did it intentionally or not, it doesn’t matter.” Logan feigned lightheartedness, “Right now, I’m the Vice President of Haru Medical College, and I’m not afraid of any rumors. I have many friends in the media circle! After all, if their relatives want to enroll, they have to ask me!”

“No one can tarnish me!” Logan emphasized.

Bai Xiaosheng gave a slight smile, his expression seemed to say, “You’re overthinking.”

“Now, let’s talk about serious matters.” Logan took a deep breath, staring into Bai Xiaosheng’s eyes, and stepped forward, getting a little closer to Bai Xiaosheng, “Lai Yin and the others trust you now, so I want to discuss some collaboration with you!”

Bai Xiaosheng raised an eyebrow, signaling him to continue.

“You want to invest in Lai Yin and the others, to make money.” Logan said, “We are too. In this regard, our goals align, and there’s no need for us to be at each other’s throats!”

This remark by Vice President Logan was somewhat unexpected for Lin Weiwei and Lei Ying.

Just a moment ago, this Vice President was fuming with rage, eyes full of ferocity, and in the blink of an eye, he’s putting aside hatred to talk cooperation?

This man is overqualified to be a vice president and should be a politician...

“We can also collaborate, without disrupting your cooperation with Lai Yin and the others, you can benefit from both sides!” Logan smiled.

Bai Xiaosheng looked at him.

Logan was about to explain, but Bai Xiaosheng spoke first, slowly, “You want me to work with them to earn the profits from that side, and then use their resources to work with you, to earn the profits from your side as well. Can I understand it this way?”

Lin Weiwei and Lei Ying couldn’t help but glance at each other, still not quite understanding.

Vice President Logan immediately laughed, giving a thumbs up.

“Young minds are indeed flexible. That’s exactly what I mean!”

Logan continued, “Actually, to be honest, I’m discussing this matter for the board of directors. As long as I get the data and information they are interested in, I’ve done my job!”

“You can invest fully in Lai Yin and the others, flood the market with drugs and earn huge profits, and all we need is the data, just for me to satisfy our board.”

“As for what our board comes up with, it will likely lag far behind what you have, so your profits won’t be affected.”

“This way, you profit, I have something to show, and we can forge a deep friendship for more cooperation in the future.”

“Isn’t that great!”

Logan continued speaking, persistently persuading.

“Besides, without our equipment, laboratories, Lai Yin and the others can only store their samples in cryogenic tanks, which will be destroyed after twenty-four hours.”

Logan spoke to Bai Xiaosheng with a sincere face, “I can responsibly tell you, at least half of Europe, as long as our board and school give the word, no one will provide them with any equipment.”

“To acquire equipment and assistance from that half of Europe, you’ll need to fly, take a train, or drive there, but regardless of the method, escorting medical samples through layer upon layer of borders is definitely not something that can be done within twenty-four hours!”

“By the time you’ve navigated numerous barriers and quarantine to reach a place where equipment and labs are available, the samples would have long been destroyed!”

Logan affirmed without a doubt, “That would mean your investment this time is completely lost!”

Lin Weiwei and Lei Ying couldn’t help but frown.

Indeed, this is the greatest crisis Lai Yin’s team is facing right now!

Bai Xiaosheng’s expression remained unchanged as he continued listening.

Logan looked at Bai Xiaosheng, his voice softened, "Why go through all this when you're just seeking profit, right? As long as you agree to work with me! I'll let you 'find' partners who can provide equipment smoothly, wouldn't it be a win-win, working with me?"

It must be said, Vice President Logan really had a way with words.

Lin Weiwei and Lei Ying glanced at each other, thinking that if it were an ordinary person, they might indeed be tempted. An investor of Bai Xiaosheng's age, who could resist such coercion and temptation?

Bai Xiaosheng remained silent, staring into Vice President Logan's eyes, seemingly gauging his sincerity.

Vice President Logan faced him calmly, his gaze brimming with sincerity.

"Do I need to leave you a voice message or a signed document to demonstrate sincerity?" Bai Xiaosheng smiled.

Logan had a smug "you're getting it" look on his face.

"Actually, Vice President Logan, you still harbor a deep resentment towards me and are quite wary and apprehensive of me, aren't you?" Bai Xiaosheng murmured.

Vice President Logan wanted to retort, but Bai Xiaosheng raised a hand to stop him.

"Yet you are still 'sincere', closing the door to persuade me to cooperate." Bai Xiaosheng smiled with some appreciation, "Human nature, I really cannot fathom it."

This musing from Bai Xiaosheng made Logan smile.

He thought the young man in front of him was moved.

Bai Xiaosheng looked at Logan, he actually had another sentence unspoken —

Although I cannot fathom human nature, I can perceive emotional changes, deduce the truth from words, and decipher one's thoughts!

"If I agree, with Vice President Logan, and leave a recording or written promise, you might turn around and show it to Lai Yin and the others, revealing my 'true colors', correct?" Bai Xiaosheng said to Vice President Logan with a smile.
