Chapter 51: My Magic Box _1

In her right eye, the pupil that should have been dark brown was now blood red! It was blood-red and extremely demonic! It was also exceptionally...It looked good.

That's right, it was good-looking.

At least in Imperial Physician Jiang's eyes, he had to admit that such a demonic eye was fatally attractive to him. The mysterious dark light flickering inside gave him a feeling of extreme power, which made this eye have a magnificent and magnificent aura.

However, as the pupil grew redder and redder, it even emitted a red light beam. Ye Qianli was obviously in more and more pain. Her painful groans slowly turned into low hisses and then sharp roars!

" Ah! " When Ye Qianli's right eye turned dark red, she curled up into a ball and covered her right eye with both hands while screaming hysterically. Her clothes were soaked in sweat.

"Ah!"

"Ah--," Ye Qianli was rolling on the bed in pain. She kept screaming like a mother beast, and everyone could tell that she was in great pain.

However, Imperial Physician Jiang could not get close to her at all. It was as if an isolation barrier had popped up on her body, preventing Imperial Physician Jiang from touching her! This made Imperial Physician Jiang unable to help even if he wanted to. Even though he felt that even if he could get close, he should not be able to help and might even cause trouble.

Soon, Imperial Physician Jiang realized that his guess was correct. Because just as he was thinking this, he sensed traces of chaos! However, a terrifying power suddenly burst out of Ye Qianli's body and almost hit him.

"Buzz!"

If Rong Mo had not reacted quickly and blocked it with a cluster of Vermillion Bird Divine Fire, Physician Jiang would have lost his life here. This was really...

"You go down first." Rong Mo also noticed Imperial Physician Jiang's "uselessness" and immediately ordered.

Imperial Physician Jiang hurriedly nodded and bade farewell. This was truly the most life-threatening treatment process he had ever had. He was also very afraid and quickly withdrew from the side hall.

As soon as he stepped out, Rong Feng, who had been staring at him, wanted to look inside curiously. However, before he could see anything, the door was slammed from the inside!

"Boom!"

Imperial Physician Jiang was almost thrown out, but he didn't feel wronged at all. Instead, he let out a long sigh of relief, feeling that he was safe now.

"Imperial Physician Jiang, what happened? Why do I feel that the aura inside is very chaotic! Also, I could still hear the sound just now, but why can't I hear anything after that? How is he?" Rong Feng's questions were directed at Imperial Physician Jiang.

"Uh ..." Imperial Physician Jiang didn't know how to answer the question. To be honest, with his experience just now, it was still difficult for him to speak calmly and logically.

"Don't just say 'uh'. Hurry up and tell me what happened." Rong Feng asked anxiously because he could guess that Rong Mo had set up a barrier in the hall to prevent them from probing.

But why did Rong Mo do that? Rong Feng was curious! Could it be that something inaudible and undetectable had happened just now? Also, Imperial Physician Jiang had been kicked out, but the two little ones were still inside? A single man and woman?

Well ...

Rong Feng became even more anxious when he thought of this. However, Imperial Physician Jiang had yet to separate his thoughts and give an answer. He was so anxious that he wanted to push the door open and go in to take a look. Of course, he was just thinking about it.

"Your Majesty, may I have a word with you?" Imperial Physician Jiang was lying on the ground, Rong Feng's heart was being scratched by a hundred claws. He asked very seriously, his face solemn! His earnest expression made Rong Feng, who was originally a gossip, calm down. He nodded and said, " Let's go to the main hall. "

Not only that, Rong Feng turned around and instructed Elder Zhao seriously, "Elder Zhao, please keep an eye on him. Imperial Physician Jiang has something important to discuss with me."

After receiving Elder Zhao's permission, Rong Feng led Physician Jiang into the main hall at the side. However, what they did not know was that almost at this moment!

"Buzz!" In the side hall, Ye Qianli, who was rolling on the bed in pain, had disappeared into thin air. Rong Moqing's eyes narrowed as he stared at the empty bed for a while.

"That aura..." After a long while, Rong Mo said slowly, " The aura of the Primordial Battlefield. The last thing that came out of her right eye was the aura of the Primordial Battlefield. "

His words were very certain because he had been to the core of the Primordial Ancient Battlefield. He had a deep relationship with the Primordial Ancient Battlefield. Other than him, no one in the world was more familiar with this aura than him.

"Then where did she go?" Rong Mo looked at the empty bed. He had already made a guess in his heart, and his emotions were not calm because of this guess.

..

At the same time, Ye Qianli, who had been " thrown " into the ancient battlefield, no longer felt pain in her eyes. However, her right eye was still very red. Her consciousness seemed to have yet to recover. However, at this moment, in this gray ancient battlefield, there was clearly a red moon hanging in the sky.

Ye Qianli looked up at the crimson moon. Her confused eyes gradually regained clarity. She realized that she had come to this ancient battlefield without her knowledge.

Moreover, the place she was at now was different from the place she often went to before. The place she came to cultivate and wander in before, other than the gray air and sand, there would occasionally be a few strange-looking ugly creatures.

According to the magic box, those ugly things were ancient creatures. Even the lowest level of ancient creatures could kill her! She had fought with one of them and was almost killed.

And now?

Although the air was still gray and the ground was covered with dusty sand, there were actually scattered " plants "?

Ye Qianli looked at the nearest one, which was three to four stories tall and covered in a gray mist! It looked like an ice pillar, but it was impossible to determine if it was an ancient plant.

"Why are you still standing there? Look at the top! Was there no red fruit on the top? Hurry up and take it off!" At the same time, the familiar words from the Magic Box appeared in Ye Qianli's mind out of nowhere, stunning her.

"Idiot! Idiot! Stop daydreaming and get started. There are high-level ancient creatures coming over! Wake up, or I'll slap you." The prompt from the Magic Box appeared again when Ye Qianli was stunned.

The magic box that had disappeared appeared in front of Ye Qianli, as if it was going to wake her up! However, it didn't succeed because Ye Qianli had already reached out and grabbed it.

"Why are you here?" Ye Qianli held the magic box tightly in her hand. The joy of recovering something she had lost kept invading her heart. She didn't seem to notice that she had been locked onto by a pair of dark green evil eyes.

Chapter 52: Gifts from the Ancient Battlefield!

"Idiot! Why are you pinching me? Pick the fruit on it!" The Magic Box roared angrily. That's right, it wasn't a bullet screen this time. It was so anxious that it was roaring angrily.

How was the sound of the magic box?

Hmm, he was quite attractive, and he also gave off the feeling that he was young and in his prime. Ye Qianli felt that if the Magic Box was a person, he would be a handsome man.

However ...

Just as Ye Qianli was thinking about this, the green eyes closed in on her! However, at the same time, Ye Qianli, the magic box, and the plant disappeared.

"Bang!"

A moment later, a man, a plant, and a box fell on another part of the ancient battlefield. The magic box cursed, "You idiot, you made me have to uproot the Nine Suns Wood. What a sin!"

However, Ye Qianli didn't say anything. Instead, she looked at the sky in a daze, at the red moon that had obviously dimmed.

"Hey! Are you really stupid?" This time, the magic box flashed into Ye Qianli's sea of consciousness.

Ye Qianli shook her head and touched her right eye. Then, she said in a muffled voice, "I feel that if I wanted to, I could have easily destroyed the ancient creature that was approaching me. "

"What do you mean?" The magic box was stunned.

"I don't know. I wanted to try just now." Ye Qianli said that the reason why she didn't try it was because she had been taken away by the magic box.

"Tell me what you felt just now. Tell me in detail." The magic box said.

Ye Qianli thought for a moment and said, ""I feel like my body is filled with power. I feel like everything around me has become one with me. I can clearly sense the thing that's approaching me, its power level, its appearance, and so on. I feel like it can't harm me."

"..The magic box didn't say a word.

Ye Qianli was stunned again. The feeling she had just experienced was very subtle. At that time, her focus was not on the fact that she was about to be killed, but on the fact that the magic box had returned! It did not disappear! It wasn't burned out! Moreover, it could actually speak, and its voice was quite pleasant to the ears...

She was clearly in danger at that time. Now that she thought about it, she was sure that the monster just now was far stronger than the old Taoist priest who almost killed her previously.

Normally, she would not be able to deal with such a level! However, she didn't feel that way just now. Now, she felt a lingering fear. However, her intuition told her that if she had attacked just now, she could have easily killed that monster.

It was very contradictory and strange...

"I understand." At this moment, the Magic Box sent another message. " I know what happened. You must have obtained a trace of the power of the Demonic Moon just now. "

"The power of the Demonic Moon?" Ye Qianli was confused.

"The power of the Demonic Moon is the most primitive power of this ancient battlefield. It is also the source of this ancient battlefield, and it can be said to be the foundation of this world.

The place you were at just now was even deeper into the ancient battlefield. The reason why you were able to enter was because your spiritual power suddenly soared. Moreover, it seems that this opportunity to soar allowed you to be lucky enough to obtain the favor of the Demonic Moon's power. If my guess is correct..."

The magic box paused for a moment before it emphasized the bullet screen, ""It shouldn't be a coincidence that this Nine Suns Wood can bear Nine Suns Fruit. It must have been ripened by the power of the Demonic Moon and given to you."

"It gave it to me? Why? Also, according to what you said, can I understand that the power of the demonic moon is an intelligent body that comes with the ancient battlefield?" Ye Qianli was a little confused.

"Uh ..." The magic box pondered for a moment before flashing and saying, ""You won't understand even if I explain too much to you. You can think so for the time being."

Ye Qianli was speechless. If this fellow didn't explain, how would he know that she didn't understand? However, she didn't want to know too much. She only needed to know that she was favored by the ancient battlefield and that they had given her something.

"Then what are the uses of the nine suns wood and the nine suns fruit?" Ye Qianli seemed to know what kind of benefits the ancient battlefield could bring her.

If it could increase her strength, that would be the best! She was in desperate need of strength now. After being in danger many times today, especially when she almost died the last time, she especially wanted to become stronger.

With her current strength, she could easily kill an ordinary Mystic King and could fight Ye Fengtian without losing. With the help of the Magic Box after her transformation, she could even kill Ye Fengtian in an instant, but ...

The old Taoist priest could still kill her easily. If she hadn't received a Vermilion Bird tail feather as a reward from the Vermilion Bird God, she would have been dead by now.

But the worst thing was that the Vermillion Bird tail feather was so powerful, but it could not kill the weak her! Because her speed was too slow, she could at most make the other party perish together with her.

Weaklings really had a hard time surviving no matter where they were. As for Ye Qianli, no matter where she was, she didn't want to be a weakling! She wanted to become stronger and do her best to control her own fate.

"The Nine Suns Wood is useless to you now, but the Nine Suns Fruit should be able to allow you and the Nine Heavens Obsidian Flame to immediately reach the initial level of fusion." the magic box explained.

Ye Qianli knew what this meant. After she obtained the talent, she had asked the magic box all the questions about talent cultivation.

A talent, in fact, also needed to cultivate like a Xuan Martial Artist. The difference was that Xuan Martial Artists cultivated Xuan Jin, while a talent cultivated innate spiritual power.

Mystical Force was similar to inner force, but it was mainly condensed in the body. Only after becoming a Mystical Warrior could one accumulate Mystical Force in the dantian and use it in battle! However, once it was used up, it usually needed to meditate to recover, and the recovery period was very long.

The ranks of Mystic Martial Artists were Mystic Learner, Mystic Warrior, Mystic Master, Mystic King, Mystic Emperor, and so on! The higher the level, the more Xuan Energy accumulated in the dantian, and the shorter the recovery period after consumption.

Innate spiritual power was similar to internal energy, but it relied on the talent awakened by the talent to communicate with heaven and earth energy and then turn it into something for one's own use! The more perfect the integration of the talent and the talent, the more powerful the talent spiritual power could be condensed. As long as the talent did not die or tire, he could continuously obtain power.

The levels of talents were divided into tier 1, tier 2, tier 3, and so on! The higher the level, the more talents would be awakened. For example, a Tier 2 talent was a person who had awakened the second talent and had two talents at the same time! They could also be used at the same time, and so on.

Currently, Ye Qianli was a level one talent because she had only awakened her first talent! The prerequisite for her to awaken her second talent was to perfectly integrate her first talent.

But ...

"You also know that your first talent is very high. It's very difficult for you to completely fuse with it, even if your comprehension is extraordinary! However, if your physical body is too weak, you won't be able to completely fuse with it. However, the Nine Suns Fruit can change your physique. In other words..."

Chapter 53: Awkward Increase in Strength (1)

The words on the magic box kept flashing and highlighted: "In other words, after you swallow this Nine Suns Fruit and completely digest it, you don't have to worry about not being able to completely fuse with the Nine Heavens Obsidian Flame in the future.

This meant! As long as you're not a fool, you'll be able to perfectly control the Nine Heavens Obsidian Flame in a short period of time and then carry out the awakening of your second talent. Do you understand?"

"I don't understand." Ye Qianli replied, and the box almost exploded in anger, ""Why are you so stupid! I've already explained it so clearly."

However, Ye Qianli, who knew that it was going to scold him, asked first, ""Didn't you say that after I swallowed the Nine Suns Fruit, I could only fuse with the Nine Heavens Obsidian Flame from the initial stage and advance to the initial stage? How did it become perfect control now? What kind? Tell me clearly."

The magic box was speechless. It needed time. This master was a little too stupid!

After a while, the Magic Box said, ""What I mean is that if you swallow it, you will immediately reach the initial level of fusion. In the future, it will take at most one year, at least half a year! With your talent, you can perfectly control the Nine Heavens Obsidian Flame. Do you understand? Do you understand?"

"Understood." Ye Qianli nodded, not showing any surprise on her face. Before the magic box was ready, she reached out for the Nine Suns Fruit on the Nine Suns Wood, pulled it off, and stuffed it into her mouth.

F * ck!

"!If the magic box had eyes, it would probably stare until its eyes popped out. How could it eat it just like that! It wasn't ready yet, and it hadn't said anything about taking it. This idiot ...

Fortunately, there was no need to pay attention to anything when consuming the Nine Suns Fruit. Therefore, after the Magic Box was shocked, it did not stop Ye Qianli from swallowing the Nine Suns Fruit.

Ye Qianli, who had chewed the Nine Suns Fruit, felt that it was not delicious at all. It was bitter and astringent like drinking a secret Chinese medicine, making her feel nauseous.

However, just as she was thinking about this, she felt a burning fire burning from her throat to her intestines and stomach when she swallowed the Nine Suns Fruit! The abdominal cavity, the dantian!

“!”

The moment her dantian was "burned", Ye Qianli felt as if her entire body had exploded and was ignited! In fact, she was really ignited. Her entire body was burning with reddish-green flames.

"Tsk!"

Ye Qianli's clothes were also burnt to ashes.

The Magic Box, which had expected this, buried itself in the sand and muttered, "Do not look at evil, do not look at evil, this magic box is a gentleman.

..

Two hours passed by quickly. Rong Mo looked at the empty bed, his long eyebrows locked together for a long time, as if he was thinking about something difficult.

After about 15 minutes, Rong Feng, who was getting more impatient, was already knocking on the door tirelessly. " Open the door, open the door, open the door quickly! "

What a joke, of course he couldn't keep his cool. After his conversation with Imperial Physician Jiang, he could basically deduce that what Ye Qianli had awakened was not just the Nine Mysterious Heavenly Flame, but a higher grade talent!

It's very likely that it's the seventh-ranked talent, the Nine Heavens Mystic Flame. Its level is the same as the Vermilion Bird Divine Flame. My God...

His first talent had awakened the seventh grade talent, the Nine Heavens Obsidian Flame. What a monster! This kind of pervert was not much weaker than his crown prince.

However, according to Imperial Physician Jiang, this child seemed to be on the verge of death? No matter what, he had to let her live. He was willing to pay any price. This was a genius of their Vermillion Bird Dynasty! A super precious abnormal genius.

"Open the door! Open the door! Open the door!" Rong Feng knocked on the door desperately. He wanted to go in. He wanted to say that as the Saint Emperor of the Vermillion Bird Dynasty, he had a Saint Emperor Pill that had been passed down since ancient times! That was a precious medicinal pill that could save lives.

The Saint Emperor Pill was something that every Saint Emperor could only obtain from the first priest of the temple on the day they ascended the throne.

Rong Feng remembered that when he was still young, his father had swallowed this pill before he died and lived for another hundred years.

One had to know that even experts or talents above the Mystic King realm could not extend their lifespan by much. It was already unbelievable for them to live to over 200 years old. However, the Holy King Pill could directly extend their lifespan by 100 years! It could be seen that the life-saving effect was very impressive.

However, other than the number one priest of the previous temple and the Sage Emperor himself, no one else knew about the existence of the Holy Emperor Pill! After all, this pill was so precious that any Saint Emperor would be in danger if news of it were to leak.

"Pa, pa, pa..." However, no matter how hard Rong Feng knocked, Rong Mo refused to open the door. He was so anxious that he wanted to ask the three consecrators to smash the door together, but he was afraid that it would startle Ye Qianli, who was already in danger.

However, he didn't know that Ye Qianli, who he cared about and was willing to give up a hundred years of her life, was feeling very good. The flame burning around her body had gradually turned from reddish-green to the true color of the Nine Heavens Obsidian Flame. In the end, it only burned on her right arm.

When she stood up, she used this arm to punch the ground! A circle of brilliant flames immediately exploded in all directions with her as the center.

Little success...

Ye Qianli had only reached the Initial Harmonization Realm with the Nine Heavens Obsidian Flame. At this moment, she could clearly feel that her strength was enough to instantly kill Netherworld, who she had captured before, without any external help!

If she borrowed the power of the magic box, she would not be seriously injured even if she suffered a full-powered attack from the old priest! However, if he wanted to defeat the old Taoist priest, he would still need the help of the Vermilion Bird's tail feather, but there was no need to die together.

"Even if his speed is still faster than mine, I can still gather the power of the Nine Heavens Obsidian Flame with a single thought to hold my internal organs and protect my life. The Vermilion Bird tail feather acted according to my will and instantly hit that old Daoist. He died and I was at most seriously injured." Ye Qianli evaluated her strength in her heart and was satisfied with the significant increase in strength brought by the Nine Suns Fruit.

After all, it was impossible to become fat with just one bite. She was so much weaker than the old Taoist priest before. Now that she could fight to the death and not lose, it was already considered good. She was satisfied.

However...

" Hey, idiot, don't say that I didn't warn you. Although you can stay in the ancient battlefield for an extended period of time after your spiritual power has been upgraded, you can only stay for an hour and a half. " The magic box's screen was interrupted at this moment, and Ye Qianli was in a daze.

Ye Qianli, who was interrupted, replied calmly, ""It's fine. I've already finished cultivating."

"The problem is that you're not wearing any clothes. Don't you think you should find something to take off your body? When you came in, there were quite a number of silver needles on your body. It seemed that you were receiving treatment. I reckon that when you go out, there will be ..."

The Magic Box's bullet screen reminded him. Unfortunately, before it could send out the last word, Ye Qianli had already been " swept " out of the ancient battlefield due to the time limit. Then-

Chapter 54: What Do You Want?

Ye Qianli was lying on the bed in front of Rong Mo, naked. She wasn't completely naked. At the very least, at the last moment, she had cleverly wrapped her entire body with the Nine Heavens Obsidian Flame.

However!

".."Rong Mo narrowed his eyes and expressed that the fire did not have any effect on him. He could still see what he wanted to see.

"Swoosh!" However, Ye Qianli quickly wrapped herself up with a blanket! Only his head was revealed.

The two eyes on her head were staring at Rong Mo's eyes. This guy...Could it be that he had already seen her naked? Could it be that her fire curtain had no effect on him?

However, um ...

Even if she really saw him, could she blind him? After all, this was an accident, and it was an accident of her " taking the initiative. " Besides, she had seen him before, and he obviously " couldn't see " her at that time. This could be considered as paying off his debt.

However!

"What are you looking at? What's there to see?" Ye Qianli couldn't understand why Rong Mo was still looking at her after she had wrapped her body and stared at him for so long.

The key was that under his gaze, even though she was sure that she was wrapped in a blanket, she still felt as if she was stripped naked and being sized up.

"There's nothing to see." Rong Mo murmured in agreement, but no one knew what he meant. His right hand reached out to Ye Qianli.

"What are you doing?!" Ye Qianli was stunned. She didn't know what this beautiful prince wanted to do. Could he have some evil intentions towards her? Should she resist, or should she resist...

However, Ye Qianli soon realized that she was thinking too much. Rong Mo's hands had only rubbed her face for a while before they left.

What was going on?

"..Ye Qianli was confused. The beautiful prince who had just pinched her face had already revealed her secret, ""You swallowed the Nine Suns Fruit."

Ye Qianli was speechless. How did this guy know?

However, what shocked Ye Qianli even more was that Rong Mo continued, "" You've indeed entered the ancient battlefield. You must have benefited from the divine memory of the ancient battlefield to be able to awaken the Nine Heavens Obsidian Flame. "

"..Ye Qianli looked at Rong Mo without saying a word. Her heart, which had gained a lot of confidence because of her strength, had deflated like a deflated balloon.

How did he know everything?

It was fine if she knew about the Nine Heavens Obsidian Flame. She had always felt that her talent could not be hidden from him, but how did he know that she could enter the ancient battlefield? He even knew that the reason why she could awaken the Nine Heavens Obsidian Flame was because of the divine memory of the ancient battlefield.

If she knew everything, then she had no secrets from him at all! This feeling made her feel very flustered. It was as if there was no privacy at all. It was as if everything about her was in his hands.

If she was facing someone else, she could still explain herself. However, in front of him, under his seemingly clear eyes that seemed to contain a universe, she knew that she could not fool him.

Previously, she was able to fool him because he was too weak at that time. She did not know what happened to him, but she was lucky enough to get away with it. Now ...

What else could she say when he had personally "witnessed" it?

Fortunately, there was no one else in the room except him. No matter what, he should at least be a tight-lipped person and was on the same side as her, at least for now.

"You don't have to worry. I won't do anything to you." Rong Mo seemed to have noticed Ye Qianli's worry, so he comforted her.

"What do you want to do to me?" Ye Qianli asked back. She didn't mean anything else, she just wanted to ask! If they weren't on the same side in the future, what would he do to her?

However, considering that she had just appeared naked in front of him, Ye Qianli felt a little awkward when she asked this question.

"What do you want me to do to you?" Rong Mo asked back, which made Ye Qianli even more embarrassed. She wanted to bury her head in the blanket.

However, Ye Qianli was not an ordinary person. She quickly found a way to resolve the awkwardness. She changed the topic and asked, ""Let me ask you, when you were talking to God Vermilion Bird, why did you sound like you were meeting an old friend?"

".."Rong Mo's pupils constricted. Ye Qianli, who had been staring at him since the beginning of the question, believed that she was not mistaken. There was indeed a relationship between him and the Vermilion Bird God.

However, even if he had awakened the Vermillion Bird talent, he could only control the Vermillion Bird's power. He shouldn't be related to the Vermillion Bird God. After all, he wasn't the only person in the world who had awakened the Vermillion Bird talent. Since ancient times, there might have been more people who could only control the Vermillion Bird's power, not enslave the Vermillion Bird God.

As for him...

Not only did he seem to have a good relationship with the Vermilion Bird God, but the Vermilion Bird God also seemed to be easily summoned by him and listened to him! He seemed to be the master of the Vermillion Bird God, and an old master at that!

"Yes, I have an old friendship with it. If it wasn't for the fact that I am currently too weak, it would have been able to stay by my side." Rong Mo's soft reply made Ye Qianli's heart pound. She was sure that her guess was right.

"What's wrong with you?" Ye Qianli couldn't help but ask again. She suddenly felt that the rumors about this beautiful crown prince were not enough to let people know even one ten-thousandth of him.

The Vermilion Bird God had acknowledged him as a divine son with the divine spark of a master god. He was definitely more than that! Alright, she felt much better thinking about it.

This meant that Rong Mo was very, very strong, and the reason why she could be seen through was not because she was weak. The stronger he was, the more special he was! It could also mean that perhaps he was the only one in the world who could see through everything about her, and no one else could.

"It's better not to know what you shouldn't know. Otherwise, your life will be short. For example, you almost died this time because you knew something you shouldn't know." Rong Mo obviously didn't want to say anything more about his own secret.

"I don't know anything at all." Ye Qianli's face darkened when she heard that. She looked at the unknown object beside the bed and the Sirius ring. The unknown object was obviously taken out by the old Taoist from the underground of her Ye residence.

"If you discover the secret and do something you shouldn't, you will also be killed." Rong Mo replied lightly, but Ye Qianli felt that he was hinting at something.

She didn't know if she had a guilty conscience or something else, but she felt that being alone with this beautiful prince was a test of intelligence! Something that made her very nervous.

"Do you know what this is?" Suppressing her nervousness, Ye Qianli reached out a hand from under the blanket, picked up the unknown object, and changed the topic.

However, the shape of this thing looked very much like a Cambrian-era trilobite, and its color was the same as the Sirius ring. It was a pure dark green color, looking like jade and wood, and it felt as cold as ice.

As Ye Qianli was observing, Rong Mo suddenly asked, "Are you comfortable?"

Chapter 55: A Sudden Marriage!

"Yes ... Hmm? What?" Ye Qianli looked at him in confusion. The tension that she had just suppressed was now rising again. She really felt that this guy had a hidden meaning.

Because the moment she touched this thing, she actually thought of something she shouldn't have thought of. Could she say that she felt that the touch of this thing was similar to the feeling of touching the beautiful prince's skin when she pounced on him?

"Apart from Ye Fengtian, the entire courtyard you were in vanished shortly after you left." Rong Mo said slowly.

Ye Qianli was stunned for a moment, and then she realized that Rong Mo didn't mean anything else when he asked her about "comfortable".

It was because of the thing in her hand. However, it would not hurt her family. Therefore, he wanted to know if touching this thing would make her feel comfortable.

However ...

"How is he now?" Ye Qianli asked in a low voice. She could sense that Ye Fengtian was not breathing. He...

"Not dead." However, Rong Mo said, " It's just that his dantian is damaged. His cultivation might drop in the future. "

".. "Ye Qianli lowered her eyes and looked at the thing in her hand. After a while, she let out a sigh and said, " The Xuanwu Dynasty wanted to use the broken hand to send the Skywolf Ring back to the Ye Residence and get it without anyone knowing. "

"It seems so now." Rong Mo nodded and handed another ring to Ye Qianli. She took it and found that it was exactly the same as the one beside her bed!

" If you didn't take the broken hand and it was in Ye Fengtian's hands, that old Daoist would have taken it away without anyone knowing. Then, he would have used the Skywolf ring in his Qiankun Bag to replace the real one. Even I wouldn't have noticed. After all, many things have happened today. I've never received any information that the Xuanwu Dynasty is after something in your Ye Residence. " Rong Mo continued.

"So the Black Tortoise Dynasty did so much for this thing. Of course! If you can destroy my Vermillion Bird Dynasty, that would be even better." Ye Qianli also understood everything.

"How did you find out that the severed hand wasn't your grandfather's?" Rong Mo nodded.

"How do you know that I discovered this problem?" Ye Qianli couldn't help but ask, " How can this person guess everything? It's like a worm in my stomach, even though I don't have a worm in my stomach. "

"Otherwise, why did you return to the Ye Residence?" Rong Mo asked, then pointed at the thing in Ye Qianli's hand and said, "Moreover, that hand is no longer there, and this item will not harm the Yates family bloodline."

"You weren't there, so how can you be sure that the disappearance of the courtyard is related to this thing? And nothing else." Ye Qianli asked, even though she also felt that the disappearance of the courtyard had something to do with the strong light that erupted from the thing.

But ...

"I can." Rong Mo seemed to have run out of patience from being questioned. He stood up and said, "" We can basically confirm that the Northern Region King is dead. "

"Bullshit!" Ye Qianli exploded upon hearing that. If she wasn't naked, she might have jumped up.

" That's the truth. If you don't believe me, go ask your father. " Rong Mo then walked towards the palace door. However, before he opened the door, he reminded her, " The plan to depart at 7 am remains unchanged. "

"I know." Ye Qianli didn't plan to delay. She couldn't wait to go to the Genius Academy and the Black Tortoise Dynasty as soon as possible! Find out what happened to her grandfather.

Dead without an intact corpse? She didn't believe a single word.

However ...

"You still haven't told me what this thing is?" Ye Qianli waved the Trilobite in her hand and asked.

Rong Mo turned around and walked back. He reached out and put the Trilobite and the ring back into his pocket. " You're too weak. I'll take care of you. "

"You..." Ye Qianli wanted to retort, but Rong Mo suddenly leaned in close to her. He was so close to her that the natural snow-white aura on his body was instantly absorbed into her breath.

"Boom!"

Ye Qianli's heart skipped a beat. She had to admit that no matter how hard she tried to control herself, she could not resist his scent. Every time she smelled it, she felt an indescribable sense of comfort. However, she was not poisoned after the first time.

"Thump! Thump!"

However, what made Ye Qianli's heart beat faster and faster was that Rong Mo, who had rushed towards her, had even reached out and pulled her under the blanket. Ah! What was he doing? This ...

"Bang!"

At the same time, the door to the side hall where the two of them were at was opened with a bang. Rong Feng was the first to rush in.

And then...

"What are you guys doing?" Rong Feng's eyes widened as he looked at the man and woman on the bed. This posture, although the clothes on top were neat and tidy, and it did not look like he had done anything, he could not help but think too much.

"Nothing much." Ye Qianli answered almost instinctively.

It was a pity that it would have been better if she did not answer. Her answer gave people more room to fantasize, especially now that she was still tightly wrapped in the blanket. This image...

Rong Feng, who had been through this before, suddenly looked enlightened. "It's fine even if you did it. But it seems like I was worrying for nothing. Aren't you fine? "

"Yes..." Ye Qianli didn't know what to say anymore. She could only sense that the prince who had tucked his hand under her blanket didn't do anything and had already pulled his hand out.

"Your box." Rong Mo said as he took out the box. The box was almost completely covered by Ye Qianli's blanket. If he hadn't turned around at the right angle, he wouldn't have been able to see it.

"Yes." Ye Qianli nodded in a daze. So, this guy reached into her blanket just now to get the magic box? What did the Magic Box do to attract his attention?

The magic box was speechless. It wanted to say that it had not done anything. Ever since it left the ancient battlefield, it had been quietly making a magic box.

"You asked me before. Since it was taken away by that old Daoist and I didn't pick it up for you, how did it come back?" Rong Mo was persistent about this question.

"Uh ... I don't know." Ye Qianli expressed that she really didn't know. Rong Mo didn't mention it, and she forgot about the magic box. After all, she didn't have time to ask about it in the ancient battlefield.

Rong Mo did not ask further. Instead, he lowered his eyes and looked at the magic box in his hand. The latter was unmoved by his gaze. After a while...

"Keep it." Rong Mo put the magic box back beside Ye Qianli's head. He then put the Trilobites and the ring beside the magic box and said, "Keep them well. "

Ye Qianli was speechless. Did he even see through the Magic Box?

"Cough!" However, at the same time, Rong Feng, who had been ignored so much, could not help but cough heavily and say something shocking. "Seeing that you two are so close, I am relieved. I can draft the decree and bestow the marriage. "

After saying this, Rong Feng left. What a joke! Since he was fine, he didn't want to be fed candy by a young man. He couldn't stand eating too much candy when he was old.

"Minister Bai, draft the decree! Zhen wants to bestow a marriage." Rong Feng had yet to walk out of the hall when he started to shout. Ye Qianli was anxious, but she couldn't chase after him, so she could only ask Rong Mo for help, "" Aren't you going to stop it?!"

"Why should I?" Rong Mo would definitely ask back.

Chapter 56: Your Highness, Do You Like Me (1)

Ye Qianli was speechless. She had wanted to ask, " Why not? " However, Rong Mo was staring at her so intently. She had an inexplicable feeling of, " That's right, why should I? " There was nothing to stop him.

By the time she calmed down, Rong Feng had already walked out of the palace and closed the door for them. Ye Qianli wanted to stop Rong Feng, but she didn't have the chance.

"I..." But Ye Qianli felt that it was impossible! No way, she thought. The beautiful prince might not seem to know the inside story, but she did. She knew everything!

She knew that she had taken advantage of him when he was not feeling well to eat him up. Moreover, he was extremely angry because of this. It was obvious that if he knew that the person was her, he would kill her!

This ...

Marry him?

No, no, what if he was exposed on the wedding night? Would she become the first transmigrator bride to die on their wedding night?

Aiyo, damn ...

If that was really the case, then it was really tragic. How could she let such a thing happen? Absolutely not! No way.

Therefore, Ye Qianli organized her words and said seriously, ""My grandfather's life and death are unknown. How can we bestow a marriage now? Even if you want to give it to me, you have to wait for my grandfather to come back and let him accept it. I won't acknowledge Ye Fengtian accepting it. "

That's right, if not for anything else, she hoped that if she really wanted to get married, her grandfather would be the witness and not anyone else, not even Ye Fengtian.

Even though Ye Fengtian seemed to have really repented and wanted to make up for what he had done to her, she wanted to say that he did not owe her anything. The person he really owed was the dead " Ye Qianli ".

That person, that silly girl, he would never have the chance to make it up to her in his lifetime, so...What was the use of doing more? They were all dead.

Of course, compared to Su Qin, Ye Fengtian was more or less like a father. It was not in vain for the former " Ye Qianli " who had always treated him as a respectable and adorable father.

However, if 'she' had not died, if 'she' had experienced what happened after that,'she' would not have thought that way.'She' would probably not have respected Ye Fengtian anymore.

Therefore, no matter what, Ye Fengtian had no right to interfere in her marriage. The only elder in this world who could bear witness was her grandfather, whose life and death were unknown.

"You're right." Hearing this, Rong Mo nodded his head in agreement and said, ""Then wait for your grandfather to come back before giving the decree."

However, even though he said that, he still stood by Ye Qianli's bed. This made the latter a little anxious. " Then why aren't you going to stop him? "

"Okay, I'll go now." Rong Mo nodded and did not stand there anymore. However, the speed at which he walked out of the hall was extremely elegant! Slow!

Ye Qianli wanted to throw a pillow at him. However, she thought about how powerful this guy was. He was probably confident that he could stop the imperial edict no matter how late it was.

Thinking of this, Ye Qianli wasn't so anxious. However-

When Ye Qianli asked the first question when they met up at midnight, she felt a sense of desolation, as if leaves were floating in the sky.

When Ye Qianli asked,"Has the imperial edict been stopped?" After that, Rong Mo gave her an imperial edict. The words on it were written clearly that she had been betrothed to the Crown Prince Rong Mo. It was even stamped with the bright red Vermillion Bird Sage Emperor Seal.

Without a doubt! This was an effective imperial edict.

So ...

"Didn't you say that you would stop the imperial edict and wait for my grandfather to return before bestowing the marriage?" Ye Qianli looked at Rong Mo and asked. She could read the words. She didn't lose her memory. She could read the words of the Vermilion Bird Dynasty.

"That's what the imperial edict means. Don't you understand?" Rong Mo raised his eyebrows.

Ye Qianli was speechless. Yes! The imperial edict said that the wedding ceremony would be arranged after the Northern Region King returned, but ...

This imperial edict was still bestowed! Her plan to delay and cancel the marriage did not work. She still had to marry him.

Why was it different from what was agreed upon? What she wanted was no imperial edict, no imperial edict.

"Are you unhappy?" Rong Mo asked.

Ye Qianli was speechless. What could she say? Could she say that she was really unhappy? It didn't seem like that. She felt that the outcome wouldn't be good, and she really needed to hug this beautiful prince's thigh now.

"I'm happy, very happy. I just don't know how my grandfather is doing." Ye Qianli put away the imperial edict listlessly. She really wanted to burn it, but as far as she knew, there should be another imperial edict in the Ministry of Rites. It would be useless even if she burned it.

However, what Ye Qianli didn't know was that Rong Mo, who had been staring at her, had a slight smile on his lips when she put away the imperial edict with a very docile expression.

If his talkative subordinate, Tian Er, was here, he would definitely be dumbstruck again. This would definitely be the first smile that Tian Er would see on their cold and aloof Crown Prince.

Even the last time, Rong Mo only had a smile in his eyes, not a real " smile " like this. Even though the angle of his smile wasn't big, it was still a smile.

"Your Highness, do you like me?" Ye Qianli suddenly looked up at Rong Mo and asked. Unfortunately, Rong Mo's smile had already disappeared before she could look at him.

Rong Mo then turned around and left.

"Your Highness, don't go. Answer me first. Do you like me? Is that why you agreed to this marriage?" Ye Qianli's eyes lit up as she followed him.

Unfortunately, Rong Mo obviously wouldn't answer this question. In the following days, Ye Qianli couldn't ask this question again.

Because on their journey to the Genius Academy, Ye Qianli felt that her question was really stupid!

This inhumane Crown Prince! He was simply! Impossible! He liked her!

After traveling for more than a month, Ye Qianli finally walked out of the remote mountains and forests. Bathed in the long-lost sunshine, she felt like she had been resurrected.

However, her beggar-like corpse appearance caused the passersby to be stunned, shocked, and pitiful...She looked at him with a complicated expression.

Well, in fact, these gazes were not directed at her, but at the beautiful prince dressed in luxurious clothes beside her!

The passers-by wondered why this handsome young master, who was as elegant as jade and as if he was from heaven, was so dirty! The question of the ugly, crazy woman was deeply incomprehensible. Therefore, everyone looked at the beautiful prince with strange and complicated expressions.

"Get up." Especially when the handsome young master was really talking to the crazy woman, it made the passersby think that it was impossible for the two of them to not have any relationship.

"..”Ye Qianli pretended not to hear him, squinting her eyes and enjoying the sunlight. The past month or so had made her feel like she was dying in hell. Now, she had to lie down no matter what! Sunbathing!

However, she didn't know...

Chapter 57: Two Weirdos in Genius City (1)

Just as she refused to leave and insisted on lying on the ground and basking in the sun to relax her abused life, a luxurious carriage from the Vermillion Bird Dynasty had already entered a city before Rong Mo and her.

That city was right in front of the place where she was paralyzed. It was not smaller than the Vermillion Bird City and was even more prosperous than the Vermillion Bird City.

And this city was called Genius City! As the name suggested, this was a city where countless geniuses gathered. It could be said that this name was quite awesome, but it was not an exaggeration at all.

This was because the best academy in the Four Symbol Land, Genius Academy, was located in this city. Moreover, the management rights of this super large city belonged to Genius Academy.

"Aunt, what if the Genius Academy refuses to accept my registration form?" At this moment, the person speaking in the luxurious carriage was Su Lianhua, who had been kicked off the Vermillion Bird Stage by Ye Qianli. However, it seemed that she had already recovered from her injuries.

"Why would he refuse? You're a talent, and you have a recommendation letter from the Vermillion Bird Dynasty's Ministry of War. Your age and combat strength have also met the recruitment requirements of the Genius Academy in the past, so they won't reject your application." Su Qin said with certainty.

"But..." Su Lianhua lowered his head, as if he wanted to say something.

"No buts, but you have to work hard. Only by passing the new student assessment can you become an official student of the Genius Academy. Aunt has already been chased out of the residence by your uncle. He is waiting for me to go back and apologize to that evil daughter. I will definitely not do as he wishes. You have to work hard so that you can support Aunt later. Aunt will rely on you."

Seeing that Su Lianhua did not seem to have much confidence, Su Qin's expression was obviously not too good. Besides the anger in her tone, there was also a helpless pleading tone.

"I'm sorry, Aunt. It's all because of me that you made Uncle angry. Don't worry, when I enter the Genius Academy and meet my sister, I will definitely beg her to forgive you and let you return to the residence." When Su Lianhua heard this, he immediately said with a sad expression.

"Beg her for what? If I asked her to do it, why would I ask you to do it?" Su Qin exploded at the mention of Ye Qianli, and her face turned green with anger.

"Madam, it's time for registration." The coachman who was driving the carriage outside reported at this moment.

"Go down and register." When Su Qin heard this, she stood up immediately. Clearly, her anger had not subsided, so she got off the carriage to take a walk.

However, not long after she got off the carriage, her anger grew even greater.

"Did you hear that the Vermillion Bird Dynasty summoned the Vermillion Bird God? The Vermillion Bird God's power will stimulate the entire Vermillion Bird Dynasty and produce many talents."

"Of course I've heard about it. In fact, there are signs that the Vermillion Bird Dynasty is going to have an endless stream of talents. You guys don't know, right? The Vermillion Bird Dynasty has a special enrollment student from the Genius Academy this time. "

"That can't be right. The news of this special enrollment student was two years ago, right? The special enrollment student is the Crown Prince of the Vermillion Bird Dynasty. Everyone knows about this. That Vermillion Bird Crown Prince is indeed extremely talented."

"Tsk tsk tsk...This year, the Vermillion Bird Empire also has a special enrollment student. It's said that the special enrollment student is the fiancée of the Vermillion Bird Crown Prince. She's an extraordinary talent who has awakened the Nine Mysterious Heavenly Flame as her first talent. Her name is..."

"Clang!" When Su Qin heard this, she couldn't take it anymore. She slammed her palm on the carriage angrily. Such a loud sound shocked all the people who were discussing nearby, including Zhang San, Li Si, Wang Laowu and Zhao Laoliu.

Everyone looked in the direction of the voice and saw Su Qin glaring at them angrily with a livid face. This ...

"Did we offend this woman?"

"I don't think so. I don't know her. She's quite pretty, but she doesn't seem to have a good temper. Brother Wang, is this your family's hag?"

"How is that possible? I don't have the money to let that woman spend so much jewelry ..." The few passersby who were glared at by Su Qin were really confused.

"Aunt, don't be angry. It's a good thing that Sister has a reputation. You're her mother. How glorious is that?" When Su Lianhua saw this, he quickly went forward to comfort Su Qin.

It would have been better if she didn't comfort her, but when she said that, Su Qin exploded again. "Shut up! I, Su Qin, am not like Ye Qianli, who abused her mother and sent her away!"

As soon as he said that, the passerby who was about to reveal the news suddenly had a strange expression on his face. "Eh, the special enrollment student from the Vermilion Bird Dynasty is called Ye Qianli. "

"What is it? Could this woman be the mother of the special enrollment?" The gossiping passers-by immediately became impatient, as if they had smelled an exclusive source of news.

However, at this moment, Su Lianhua pulled Su Qin into the registration area at the right time. His heart was bursting with joy. " Ye Qianli, oh Ye Qianli, you probably never thought that before you even reached the Genius Academy, your scandal in Vermillion Bird City would spread. "

Ye Qianli!

I, Su Lianhua, have also entered a meditative state in this Genius Academy. I can make the entire Ye Residence loathe you, and I can also make the entire Genius Academy loathe you. I can play you to death once! I can kill you a second time. Let's see if you're still that lucky.

Ye Qianli!

I, Su Lianhua, will slowly repay you for the revenge of your kick...

Su Lianhua, who walked step by step into the Genius Academy's registration point, swore in her heart, word by word, she swore! She must make Ye Qianli pay a heavy price for humiliating her.

..

"Achoo ~" Ye Qianli, who was still lying on the ground, suddenly sneezed loudly, which made her look even more wretched.

Rong Mo, who could not change his expression even if Mount Tai collapsed in front of him, could not help but frown. Then, he turned around and left as if he could no longer bear it.

This caused many passersby to stop and watch. They felt excited! Sure enough, the handsome young master couldn't stand this crazy woman anymore and ran away! He finally ran away.

However ... What did it have to do with them?

"Wait, wait for me!" Ye Qianli jumped up like a carp and chased after him. The passers-by felt like the moon was about to be tarnished.

"Stay away from me." Rong Mo said rudely when Ye Qianli approached him. However, Ye Qianli didn't care at all. She continued to walk beside him, almost sticking to him.

Rong Mo was speechless. He knew that Ye Qianli was trying to disgust him and take revenge on him. It was his fault for disciplining her in the army and not letting her off easily.

However, if she was really his soldier, he would have kicked her away a long time ago...

"I feel like my drama queen cousin was cursing me. Do you think she died in the Vermillion Bird City? I don't think he's dead. After all, a disaster lasts for a thousand years." Ye Qianli complained.

However, she had to admit that she and Su Lianhua had a tacit understanding on this point. After all, Su Lianhua had really cursed her just now.

"Netherworld escaped." Rong Mo said.

Ye Qianli stopped in her tracks and looked at Rong Mo in disbelief.

"He ran away before that old Daoist entered your Ye Residence, but the news only spread after you and I left the city." Rong Mo said softly.

"What are you trying to say?" Ye Qianli's expression darkened. She felt that this matter was not simple. After all, the people guarding the Netherworld were the Heavenly Cavalry Army!

Unless...

Chapter 58: You Poisonous Husband!

"I used a fake nether to exchange for the real nether." Rong Mo continued.

Ye Qianli raised her eyebrows. She wanted to wait for Rong Mo to continue, but he didn't say anything. Ye Qianli could only continue to analyze by herself.

"I was prepared for this. I seemed to have known that You Ming would be captured, but You Ming was so arrogant at that time that he did not seem to think that he would be captured...The traitor who exposed my grandfather's whereabouts is in Vermillion Bird City, right?" Ye Qianli suddenly said.

After all!

You Ming's status was noble, not only because he was a talent, but also because he was a refiner. Ye Qianli knew that in this world, a refiner was a very high-end profession.

Especially since You Ming was still a very young second tier Armament Master, his future prospects were immeasurable and it was very likely that he would become a respected third tier Armament Master in this continent.

Even if the Black Tortoise Dynasty sent him out on a mission, it would definitely be a safe mission. Nothing would happen to him! Therefore, it was impossible for the Black Tortoise Dynasty to have predicted that Netherworld would be captured and even prepared a substitute.

The substitute that could hide the news definitely had many similarities with the Netherworld on many levels. Otherwise, it would be impossible to hide it from the Heavenly Cavalry Army that was guarding the Netherworld.

Then ...

This substitute needed time to prepare. The old Taoist priest might have time to prepare. After all, he still had plenty of time when Netherworld was captured and the Ye Residence was in trouble. However, it was not easy to find a candidate.

Unless the old Daoist was very familiar with the Vermillion Bird City or someone provided him with convenience, even if there was none! The old Daoist had gotten his hands on someone. It would be very difficult for him to avoid the guards of the Heavenly Cavalry Army and go in to exchange for the Netherworld! Unless there was an informant.

"Did he commit suicide by replacing Netherworld's informant?" Ye Qianli asked.

"Yes." Rong Mo nodded and said, " That's a ward attendant from the Imperial Academy of Medicine. He almost became Imperial Physician Jiang's trusted aide. His file is clean. "

Ye Qianli was speechless. This was the most terrifying part. The enemy was too clean, leaving no clues behind.

"Do you have any suspects?" Ye Qianli felt that Rong Mo should have someone suspicious. Even if he didn't, he would definitely find someone.

"Not at the moment." Rong Mo said.

"..Ye Qianli fell silent again. She felt that this spy was really smart. He even hid it from the beautiful prince who knew everything.

However, her grandfather was the commander of the Northern Territory, and his whereabouts should be top secret. Even the Sage Emperor Rong Feng might not know about it. How could someone be able to lock onto him? She could even find an opportunity to attack him.

The key problem was, from what the beautiful prince said, the traitor was not someone close to his grandfather. But other than those close to his grandfather, who else would know his grandfather's whereabouts?

Moreover...

"Are you sure everyone around my grandfather is dead? The 1.8 million troops of the Northern Territory were completely wiped out. Not a single one survived?" Ye Qianli felt that this matter was too mysterious.

" At the beginning, there were about 500,000 soldiers in the Black Armored Army. They were all soldiers who died at the border in the Xuanwu Dynasty's 100 years. When they reached the Vermillion Bird City, there were less than 50,000 soldiers left. What do you think? " Rong Mo asked.

"!"Ye Qianli's heart clenched. She held her breath for a while before she took a deep breath and said, " A hundred-year plan, just for that day. "

"Yes." Rong Mo's reply was obviously much deeper. After all...1.8 million soldiers of the Northern Territory! Apart from the 10,000 guards brought back by Ye Fengtian, the rest...All of them died in battle.

How tragic!

How tragic!

..

Rong Mo could not imagine it himself, but Ye Qianli could. She had been on the frontlines of wars all over the world. Even in the era of non-cold weapons, the number of deaths caused by war was much less than in the era of cold weapons, but...

There were even more commoners! Innocent people were killed by high-end destructive weapons, leaving no bones behind and homeless...She had seen too many tragic battlefield scenes.

Her title of " Divine Doctor Ye " had actually been passed down in the process of snatching lives from the King of Hell on the frontlines of the battlefield.

It was also because she could imagine that Ye Qianli had been in a very low mood ever since then. She did not even know how she entered Genius City. It was only when she entered the inn and Rong Mo gave her clothes and asked her to wash them that she finally stopped being in a daze.

"Come to my room in fifteen minutes." said Rong Mo, who had given her the clothes.

"What?" Ye Qianli was unhappy. She was only given 15 minutes to shower. She was so dirty! It would take fifteen minutes to wash it clean. She still wanted to soak in it.

"Half a quarter of an hour." Rong Mo said.

Ye Qianli widened her eyes and turned to leave. She had been scolded for more than a month! She really understood this perverted Crown Prince too well. If she continued to nag now, he would shorten the time! And if her protests were ineffective, he would find a way to make her lose all hope.

"Pervert! Poison husband!" As soon as Ye Qianli entered the room, she jumped into the hot water bucket that Rong Mo had asked the waiter to prepare. However, she couldn't help but curse.

"You only dare to nag when he can't hear you." The magic box flashed its screen and mocked.

"Aren't you the same? If you have the guts, use your voice to scold him for me!" Ye Qianli retorted angrily. The magic box that "dropped" outside the screen replied, "He didn't offend me, nor did he abuse me."

"Magic Box, you said that you can speak. Why can't you speak properly? Why do you have to give me bullet comments?" Ye Qianli had only spoken to the Magic Box once, but she was still upset about the bullet comments after that. Although there was nothing wrong with brain communication, it was also very secretive.

"Have you ever seen a box speak?" the magic box asked.

"Yes, you."

The magic box was speechless. It felt that its stupid master was evolving.

"You're just a box. How can you have a gender?" Ye Qianli recalled the sound of the magic box and couldn't help but tease him. Especially since this guy was always so polite and knew not to look at anything inappropriate.

He didn't want that person! He simply did not treat her as a woman...

Thinking of this, Ye Qianli couldn't help but look at her figure under the dirty water. She felt that it was pretty good! Especially for a young girl like her, that would be great, okay?

But why did she always feel like her figure was trash under that perverted crown prince's gaze? He must be pretending, he must be!

"My voice imitates the voice of the person who refined me." The magic box suddenly explained, which meant that this wasn't its voice?

Before Ye Qianli could ask, the magic box reminded her, "'Hurry up, or you'll be tortured again.'"

" I know. " Ye Qianli rubbed her hands helplessly and then changed to a bucket filled with water. Then, he would change...He washed five buckets of water in total!

Ye Qianli didn't think it was clean yet, but there was no more water and no more time, so she quickly put on her clothes and went to find the perverted prince.

On the way there, she suddenly thought of a problem!
