Chapter 2225 - 2225 Dragon Hunters' Wrath, Eliminate Trash of the Human Race, This is Fake

Standing in the void, Armament Destruction was surrounded by an invisible boundary.

He stared coldly in the direction where Wang Yi flew off and muttered, "Dragon Hunters, I'll be looking forward to your show with the Huang clan."

He had a hunch about Chu Kuangren's plans — Chu Kuangren wanted to sow discord between the Dragon Hunters and the Huang clan.

Armament Destruction did not help Wang Yi out of compassion. He simply wanted the man to report to the Dragon Hunters about what the Huang clan did.

Then, the Huang clan and Dragon Hunters would go to war with each other.

Armament Destruction had conflicts with both forces, so no matter who lost in the end, it would still be a preferred outcome.

"Swoosh."

Two more figures arrived.

It was Chu Kuangren and Lan Yu.

Chu Kuangren had a bronze box in hand, which was the Ultimate Supreme Treasure, the Dragonslayer.

The Dragonslayer had gone through a few hands and ultimately ended up back in his possession.

“You used the Dragonslayer to exchange for countless resources from the Dragon Hunters and then used the Huang clan’s plan to create conflict so that you can steal the Dragonslayer back and put the two forces against each other. You really do know what you’re doing,” Armament Destruction said after glancing at Chu Kuangren.

“Haha, it’s just a little trick.”

Chu Kuangren kept the Dragonslayer away.

“Is this what you meant by being a man of your word and that you always treat people with sincerity?” Armament Destruction teased.

“I always treat people with utmost sincerity. I did give the Dragonslayer back to the Dragon Hunters, but they lost it and the Huang clan took it. I’m simply taking it back.” Chu Kuangren shrugged and laughed it off.

He was telling the truth. He did give the real Dragonslayer to the Dragon Hunters, and it was not his fault that the Dragon Hunters failed to keep it.

Even though he did leak the news to the Huang clan, which indirectly caused the immediate ambush, he did not leak the news to the spies from the Huang clan on purpose.

Either way, it was not his fault.

“Now that things are settled, I should leave.”

“I wonder what the Huang clan would think when they see the fake I’ve prepared for them.”

...

Meanwhile, at the Dragon Hunters’ base, the leader had been waiting for the Dragonslayer’s return.

He had prepared a grand welcoming ceremony, and countless Dragon Hunters gathered at the square. Everyone looked excited.

“The Dragonslayer is coming back to us Dragon Hunters!”

“This is great!”

“We shall reclaim our former glory!”

Amidst everyone's anticipation, a bloody figure faltered into the square.

It was Wang Yi.

"Elder Wang?"

The leader was shocked.

He immediately went up to Wang Yi. When he had a quick check of Wang Yi's condition, his expression turned grim. "What happened?"

"Leader, the Dragon-blooded Huang clan has been plotting this. They snatched the Dragonslayer from us!" Wang Yi said weakly.

A powerful and terrifying aura erupted from the leader.

It was the aura of a Monarch.

His gaze turned frosty. "Dragon-blooded Huang clan, you double-crossers and betrayers shall die for what you did!"

"Leader, send our troops to the Huang clan and retrieve the Dragonslayer!" one of the Dragon Hunters said angrily.

The others immediately echoed the Dragon Hunter's suggestion.

"Yeah. Kill those filthy b*stards with the dragon blood!"

"They're not worthy to become humans!"

"They're more like dragons, so they're no longer humans, and we must eliminate them!"

"They snatched the Dragonslayer from us. They must pay for their crime!"

The leader got up and looked at his men. He said to them coldly, "Everyone, we march on the Huang clan to retrieve our Dragonslayer!"

"Retrieve the Dragonslayer, eliminate the trash of the human race!"

The Dragon Hunters were not exactly fond of the Huang clan in the first place.

The Huang clan with the dragon blood inside their bodies were no longer humans, so they were considered the trash of the human race — the deviants who had defied the natural law.

If not for retrieving the Dragonslayer, the Dragon Hunters would not have worked with the Huang clan.

Now, they had even gone so far as to snatch the Dragonslayer from the Dragon Hunters.

The Dragon Hunters could not tolerate it anymore.

The Dragon Hunters' army marched toward the Huang clan's base in the Great Hongmeng Universe. They swore to eliminate the traitors.

On the other hand, the cultivators who successfully snatched the Dragonslayer had returned to the Huang clan.

"Clan Ruler, we have completed the mission."

The elderly man revealed the bronze box and handed it to the Huang Clan Ruler.

Huang Clan Ruler was eager to hold the box in his hands.

"You guys did well."

"Clan Ruler, we're sorry, but Wang Yi escaped."

Huang clan Ruler furrowed his brows. "You guys shouldn't have failed. How did Wang Yi escape?"

“Someone helped him.”

The Huang Clan Ruler was baffled, but he could not think of anyone who would help the Dragon Hunters.

He said calmly, “Activate the clan’s formation. If Wang Yi isn’t dead, the Dragon Hunters will come for us soon.”

He was not afraid.

The Dragon Hunter Leader might be a Monarch, but the Huang clan had methods to deal with him. Worst case scenario, they would simply retreat to the Dragon King Universe.

The Dragon King Universe was the Dragon Tribe’s home universe.

They believed the Dragon Hunters were not that bold to hunt them there.

He looked at the bronze box with great excitement. “Once I refine this Ultimate Supreme Treasure, we won’t have to be afraid of the Dragon Hunters anymore.”

As he wanted to open the box, the others’ faces turned pale. “Clan Ruler, we have the Dragon Blood in us, so the Dragonslayer is a bane to us. Be careful.”

“I know what I’m doing,” the Huang Clan Ruler said with a nod.

He had prepared for this day. Once the Dragonslayer was in his possession, he would cleanse the Dragon Blood of his body and refine the Dragonslayer as a pure human.

The Dragonslayer was much more important than the Dragon Blood.

“Clank!”

The box was opened, and inside it was a long red saber.

Everyone was nervous because they were afraid that the Dragonslayer would hurt them.

However, the Huang Clan Ruler’s expression turned grim. “This isn’t the Dragonslayer. This is just a fake!”

The Dragonslayer was a bane to all dragons, but nothing happened when he held the saber in hand.

He did not sense any terrifying power in it either.

“What is this? How did you guys get a fake?” Huang Clan Ruler questioned furiously.

The elderly man knelt on the floor. “Impossible. We got the Dragonslayer directly from Wang Yi. How could it be a fake? Could it be...”

A sudden realization struck him. “Did Wang Yi anticipate our ambush and prepare a fake to fool us?”

“It’s possible. The real Dragonslayer might still be with him, and I presume it’s with the Dragon Hunter Leader now.”

“Damn it. Those sly Dragon Hunters!”

“F*ck!”

Then, a vast energy fluctuation came from outside the Huang clan.

“You trash of a human, come out and die!”

A cold voice echoed across the sky, and a Monarch’s aura erupted.

The Dragon Hunter Leader and the army had arrived at the Huang clan.

The Huang Clan Ruler reacted grimly. “Wow, I can’t believe the Dragon Hunter Leader has come after us after getting his hands on the Dragonslayer!”

A flash of light shone on his body, and a grand dragon-scaled armor appeared on him.

It was a top-tier Hongmeng Supreme Treasure with unrivaled defense.

It was also one of the trump cards he had against a Monarch.
