Chapter 2401 Fight Papiyas, Buddha Or Not Buddha, Enlightenment of Buddha Emperor

"This is the Buddha you pray and worship — a hypocrite!" Blood Buddhist cackled and sneered at Buddha Emperor and the others, silencing them.

Some cultivators could not accept the revelation as it shattered their beliefs. They collapsed on the ground, drowning in their own disbelief and despair.

Buddha Emperor took a deep breath. He looked at Papiyas, asking, "Who are you? How did you know all of these? Why are you able to absorb the Desire Buddha's energy?"

"Me? I am Desire Buddha! Buddha failed to kill me back then, and a sliver of my soul fell into a tiny universe. It was not until I returned to the Great Hongmeng Universe that I regained my memories! I will wipe out the existence of Buddha across the Infiniverse!" Papiyas said loudly.

He was indeed the manifestation of a sliver of Desire Buddha's soul who reincarnated into the Pan Gu Universe out of coincidence and became Papiyas.

He lost the memories and powers of Desire Buddha, but it instinctively stood against Buddhism in general.

"That explains a lot..."

Cundi, Receiva, and the others were struck with realization.

Papiyas then looked at Blood Buddhist and the others, saying, "I planned all these to release you from the Buddhist Tower. Now, I officially ask you to follow me as we end this hypocrisy once and forever!"

Everyone was shocked once again to learn Papiyas was the one behind the collapse of the Buddhist Tower.

Blood Buddhist and the others knelt in the sky and said, "We will follow you."

All of them resented the Heavenly Buddha Pure Land for locking them up.

In addition to the embarrassing situation of being no match for Chu Kuangren, the only way out was to seek help. Papiyas came in the nick of time.

Only by following him could they escape it alive.

"Very well! Then, we shall start with you, Chu Kuangren!"

Papiyas looked at Chu Kuangren coldly.

Ever since he encountered Chu Kuangren back in the Pan Gu Universe, he had been avoiding him.

After he arrived at the Great Hongmeng Universe, albeit acquiring Opportunities of Fortune to boost his strength, Papiyas dared not do anything obvious and had been hiding under the table all along.

He was afraid Chu Kuangren would find him and kill him.

Now, after planning for so long, he finally regained the Desire Buddha energy under the Holy Bodhi Tree. His strength skyrocketed, making him stronger than an Ultimate Monarch and almost reaching the level of an Unlimited Great Dao Monarch.

He was no longer afraid of Chu Kuangren.

"Not bad. Not bad."

Chu Kuangren clapped his hands as if he was praising Papiyas. "I didn't expect you to have such a unique history and background. But do you really think you're my match just because you have the Desire Buddha energy?"

"We shall see about that," Papiyas said.

He looked at Chu Kuangren. For some reason, he hated Chu Kuangren even more.

However, Papiyas discarded the strange thought and channeled bloody Buddhist Light behind him. It contained the presence of absolute desire, which was something similar to the Devil King's energy.

The Devil King gained power from all evil and malicious intents of sentient beings, while Papiyas used the desires of all living beings.

"Six Ayatana Heavenly Demonic Pierce!"

Papiyas pointed at Chu Kuangren, shooting a beam of crimson Buddhist Light that carried intense Daoist law.

All kinds of strange conjurations appeared following the piece. There were beautiful women trying to seduce him, ashuras trying to kill him with a huge saber, an emperor ruling over the world with an iron fist, and more.

On top of that, the Desire Buddha energy even affected the other Buddhist cultivators and their six senses. They were caught in an endless illusion. Only some powerful Buddhist Monarchs could resist it.

"It's terrifying!"

"Is this the power of the Desire Buddha!?"

"Just a look at it, and we're affected? I wonder how strong of a temptation Monarch Chu is facing."

Everyone glued their eyes on Chu Kuangren.

Chu Kuangren stood still like a mountain. His eyes shone brightly and clearly, void of any hesitation.

All conjurations were ineffective against him.

"You're trying to affect my Daoist core with some illusions?" Chu Kuangren chuckled. He was unfazed.

He raised his hand and released boundless sword qi from his fingertips.

Then, he slashed with his sword qi, destroying the crimson beam with ease.

"Is that all you've got?" Chu Kuangren taunted Papiyas.

"Chu Kuangren, you're still as strong as ever, but I'm stronger now!" Papiyas bellowed.

He put his hands together, and a crimson Buddhist Light shone.

A powerful domain was constructed in the blink of an eye.

Behind Papiyas, a crimson avatar with three faces and four arms took form. Unparalleled Demonic Buddha's aura flooded the sky.

Seeing that Papiyas had used his domain and avatar together, Chu Kuangren remained calm despite being bombarded by the fierce Demonic Buddha aura.

Three thousand Daoist laws swirled around him and summoned multiple Monarch Avatars behind him, such as the Tempest King's Avatar, Sword Palace's Avatar, Blood Ocean Avatar, and so on.

More than ten Monarch Avatars were summoned, and their auras shook the realm.

Everyone was shocked, especially Blood Buddhist and those who had never seen Chu Kuangren before.

Summoning more than a dozen avatars at once was absurd. "Bang! Bang!"

When the crimson Buddhist Light clashed with the Monarch Avatars, the clash felt like it could tear the universe apart.

Papiyas scoffed. "Chu Kuangren, why are you so protective of the Buddhist world? Do you know that, during the Infinity War, Buddha was on destruction's side? What you're protecting now will be destroyed in the future!"

Papiyas revealed another shocking fact during the battle.

Buddha was on destruction's side, and he and the other Primal Gods wanted to wipe out the Infiniverse.

Even Buddha Emperor was shaken by the revelation.

"So what?"

However, Chu Kuangren was not overly concerned.

Papiyas frowned.

Chu Kuangren's Daoist core was sturdy. Not even the Desire Buddha energy and the shocking revelation could shake his beliefs.

"Are you siding with destruction's side to destroy everything?"

"You're wrong." Chu Kuangren shook his head. "What I'm protecting is the human race, not Buddha or the Buddhist world."

Buddha Emperor and the others were Buddhist cultivators, but they were also humans.

It was the reason why Chu Kuangren stepped up to protect them.

As for Buddha being on the destruction side of the Infinity War, he actually had guesses when the Devil King revealed the information to him.

"Buddha was one of the Primal Gods who chose destruction, but to me, Buddha doesn't represent Buddhism as he is just a single entity. The real Buddha lives in everyone's heart. It shouldn't be

someone but a concept, a knowledge. It's more appropriate to call it Buddhism. "Buddha is the source of Buddhism, but after countless years of development, humans perfected the teaching, and our beliefs are no longer based on that person who is Buddha but the knowledge and teachings named Buddhism!"

Chu Kuangren's voice echoed across the realm.

His words enlightened Buddha Emperor and the others.

The Buddhist cultivators shaken by the revelation slowly regained their confidence and beliefs. "Monarch Chu is right!"

"Who am I questioning? Buddha? No, I should be questioning the entity named Buddha but not Buddhism!"

"Buddhism is endless and boundless. Buddhism lives in everyone, and it is everywhere in the Infiniverse. The Buddha that Papiyas mentioned is not the real Buddha! He might be the source of Buddhism, but he no longer represents it!"

"I am enlightened!"

Chapter 2402 Eighteen Desire Realms, Ancient Sarira, Oldest Buddha's Power

"I am enlightened..."

Buddha Emperor and the others looked at Chu Kuangren with nothing but gratitude.

One more step, and they would have fallen into the eternal abyss of self-doubt and destruction.

It was Chu Kuangren who enlightened them and pulled them back from the trance.

Some with stronger cognizance even benefited from his words.

"Chu Kuangren! Your eloquence is as good as your Sword Dao."

Papiyas feared Chu Kuangren even more now.

The man before his eyes was always able to surprise him. Papiyas revealed the true nature of Buddha to impact the Daoist core of the Buddhist cultivators, and he almost sent all of them into an eternal cultivation funk.

If it were successful, he could wipe out the Heavenly Buddha Pure Land with ease, followed by all Buddhists of the Infiniverse.

However, Chu Kuangren had ruined his plans with just a few words.

The man was indeed an uncontrollable variable.

"You're too kind with your praises," Chu Kuangren said with a smile.

He simply took Papiyas' words as a compliment.

Yet, as soon as he said that, Papiyas released an extremely powerful aura.

All the Monarch Avatars that Chu Kuangren summoned were destroyed by a blast from the energy.

Even Chu Kuangren was pushed back.

"Oh? Unlimited Great Dao energy..." Chu Kuangren narrowed his eyes.

He sensed that Papiyas had connected himself to a Great Dao in the space between Daos, and endless Great Dao energy fueled his body.

It was more powerful than the Doomsday Darkness he once faced before.

"Chu Kuangren, let me show you the true power of the Desire Buddha!" Papiyas said.

He grabbed the void. Endless Great Dao energy drowned Chu Kuangren instantly and formed numerous strange scenes around him.

Gu Linglong appeared before him. "My dear."

Even Lan Yu was there. "Master."

Then, multiple women whom Chu Kuangren knew started to appear around him.

There was Mingyue Wuxia, Chu Hong, Hun Meier, Shang Honghua, and even the Devil King.

They became the most seductive succubuses to seduce Chu Kuangren. Their enchanting looks, aromatic body scent, and beautiful figures could charm any man in an instant.

Chu Kuangren, however, reacted coldly to them.

"Papiyas, what else can you do other than illusions?" He swung his sleeve, releasing a shining light from his Daoist core.

His Daoist core shed light on the land, river, and mountains.

It was so powerful that nothing could penetrate it or shake it.

Papiyas scoffed.

Suddenly, Gu Linglong, Lan Yu, and the others approached Chu Kuangren and then transformed into skeletons to attack him.

"My dear, I'm suffering!"

"Master, please die with me!"

"Little one, we can't win the Infinity War. Let's just die."

Beautiful women transformed into skeletons in the blink of an eye.

This time, it was no longer just illusions.

Each skeleton carried tremendous powers that could defeat a common Monarch easily, and they attacked Chu Kuangren ferociously.

Chu Kuangren's gaze grew cold.

He swiped his sword hand sign in the air.

"Buzz!"

Crushed by the sword qi, the first skeleton exploded into a cloud of mist.

The other skeletons were also destroyed by the indomitable power of the sword qi.

"Hmph! All Desire Eighteen Realms!"

Papipas channeled the Unlimited Great Dao energy and formed a massive tower in the air. The tower had eighteen floors, and each floor represented the desire of humans.

There was the desire for power, love, food, hatred, materialism, and more.

Eighteen different desires formed a tower of eighteen floors, attempting to crush Chu Kuangren.

Its sheer power alone caused the void to collapse and the universe to shake.

A sliver of the tower's energy could transform a world into the Desire World Sky, proving how terrifying it was.

Yet, all eighteen floors of the tower were now targeting Chu Kuangren.

The pressure that he faced was self-explanatory.

"It seems like I have to use the Human Ancestor's sword," Chu Kuangren murmured.

Only by using the Human Ancestor's sword and connecting to the Sword Great Dao for the Sword Twenty-six could he block the tower's influence.

However, before he could draw his sword, the prize that he got, the Ancient Sarira, buzzed and released endless Buddhist Light from his body.

The Buddhist light shone across the universe and shocked all the other Buddhist cultivators at the scene, including Buddha Emperor.

"That's the oldest Buddha!"

Even Papiyas was shocked. He glared at Chu Kuangren and bellowed, "Buddha?! That's Buddha's power! How do you have his power?"

The Buddha he referred to was the original Buddha, one of the Primal Gods.

That was when Chu Kuangren realized the Ancient Sarira he got a while back was the Buddha's sarira.

A sarira was the crystallization of a Buddhist cultivator after death.

If he got the sarira of Buddha, did it mean that Buddha had died?

Chu Kuangren pondered but was not overly concerned about it.

He used the light released by the sarira and pointed his sword hand sign forward. "Immovable Enlightenment King's Sword Seal, Endless Sin Repentance!"

The Immovable Enlightenment King's Sword Seal was an ultimate-level cultivation technique of the Buddhist world. Chu Kuangren fused it with his Sword Dao and transformed it into Sword Twenty-five.

Now that he had activated that technique using the sarira's energy, he was able to release the technique's full potential.

It might have even surpassed its creator.

A massive Buddha avatar wielding a demon-subduing sword appeared behind Chu Kuangren, swinging the sword downward at the tower.

The sword qi was boundless, and the golden Buddhist Light shone across the universe.

The slash could cut off all sins from the universe.

"Bang!"

When the ultimate-level cultivation technique clashed with the All Desire Eighteen Realms, the holy Buddhist Light and the chaotic desire clashed like good versus evil.

The clash between two powerful techniques pushed Chu Kuangren and Papiyas back.

Papiyas was shocked. "How? How did you acquire his powers? Impossible!"

With a grim expression, he raised his hand to use another powerful attack from the Desire Buddha.

Desire from all over the universe gathered and transformed into tens of thousands of crimson blades.

Chu Kuangren also pointed his sword hand sign up. "Golden Defense!"

Using the Immovable Enlightenment King's Sword Seal as a defense, endless mantras appeared and formed layers of golden barriers to block the incoming blades.

"Universal Purification!" Chu Kuangren followed up with another attack.

Tens of thousands of sword qi that he released contained vast Buddhist energy.

Papiyas tried to block it but was still astonished by Buddha's energy on Chu Kuangren, which distracted him.

As he quickly fell into a disadvantage, Chu Kuangren seized the chance to follow up with more attacks.

"Grand Dragon Elephant Force!"

The ultimate cultivation technique of the Buddhist world was cast, and the Buddhist light on him shone to its brightest level.

In the void, a dragon and elephant conjured and went after Papiyas.

"Bang!"

Papiyas's expression turned pale after being struck.

He was sent flying more than a hundred meters away. The Great Dao in his body was shaken, and the Desire Buddha energy felt like it was leaking.

"I must leave!"

Papiyas controlled the Desire Buddha energy in him and changed his mind.

Chu Kuangren's strength was immeasurable, and he possessed the Buddha's power. Papiyas had no idea what else he had under his sleeve.

If Papiyas continued fighting, he might not be able to escape in one piece.

Chapter 2403 - Papiyas Escape, The Notorious Four Falls, Devil Bone's Claw

Papiyas channeled his Desire energy and created a crimson-color desire hell in the void. The endless energy it contained burst out as soon as it appeared.

The attack was not only locked on to Chu Kuangren, but it even locked on to Buddha Emperor, Guanyin, and others.

Chu Kuangren unleashed a slash, and the mantras that swirled around him formed multiple layers of barriers.

“Bang!”

With the Desire energy stopped by the mantras, Papiyas seized the window and dashed away so fast that he disappeared into the horizon in a split second.

Chu Kuangren blinked in the direction Papiyas escaped and did not give chase.

“Desire Buddha, Buddha, they might be useful in the future.”

The oldest Buddha was on the destruction side.

No one knew whether Buddha was alive or dead, and there was no clear indication of that in the information the Devil King provided.

If Buddha was not dead, Papiyas would be useful in the future.

That was what Chu Kuangren had in mind when he saw Papiyas escape.

Then, he looked at Blood Buddhist and Minotaurus.

Both of them were petrified. They thought they had gotten powerful support, but then Chu Kuangren defeated Papiyas with ease and forced him to escape, leaving the two of them behind.

“Run!”

Blood Buddhist and Minotaurus wanted to run.

The Desire Buddha was useful but not the two of them.

There was no way they could escape from Chu Kuangren.

Chu Kuangren struck as fast as a lightning bolt, killing Minotaurus.

Blood Buddhist was quite powerful being an Ultimate Monarch, but it was not Chu Kuangren's first fight against one.

After a few exchanges, Chu Kuangren finally killed Blood Buddhist.

With that, all the Notorious Four of the Buddhist Tower were dead.

The disaster that befell Heavenly Buddha Pure Land challenged Buddha Emperor and the other Buddhist cultivators like never before, but Chu Kuangren resolved it with such ease.

Everyone breathed a sigh of relief. They were astonished by Chu Kuangren's strength, especially the Buddhist cultivators of the Pan Gu Sect like Cundi, Receive, and others.

They looked at Chu Kuangren with deep reverence.

"He's always the unpredictable Outlier no matter where or when he is. His existence is the biggest miracle in this universe," Cundi murmured.

Some of the Buddhist cultivators looked at Chu Kuangren with admiration.

The Buddhist energy that Chu Kuangren used to defeat Papiyas felt pure and powerful, which was something not even Buddha Emperor possessed.

"Thank you for assisting us, Monarch Chu," Buddha Emperor said as he put his hands together.

"Buddha Emperor, you're welcome. Since you stood up against the Void Ruler without hesitation, it's only normal for me to help you overcome this disaster," Chu Kuangren said with a smile.

Some of the Buddhist cultivators behind Buddha Emperor reacted conflictedly.

In fact, some of them were hostile toward Chu Kuangren because he used to have a conflict with the Pure Land, which included killing Gu Chan.

However, after what happened, they finally learned to let go of their grudges against him. Even if they resented him, they could do nothing about it.

With his current strength and status, they could not even get close to him.

On the contrary, Chu Kuangren could easily wipe them out.

“Monarch Chu, I wonder what you’re going to do with these men?”

Buddha Emperor was referring to the wicked and ferocious men who escaped the Buddhist Tower.

Even though he was a seasoned cultivator, he was amazed by Chu Kuangren Bodhi Samadhi.

It was actually his first time seeing a cultivation technique that could cleanse one of his evil intents.

“They are all your prisoners. I’ll let you take care of them,” Chu Kuangren said. At least he had to show some respect to Buddha Emperor.

Buddha Emperor nodded and thanked him once again. “Thank you, Monarch Chu.”

After that, he had the evil men locked up, and surprisingly, the evil men did not even resist.

Once everything was back on track, Buddha Emperor asked Chu Kuangren about his purpose to visit.

Chu Kuangren skipped the courteous talk and revealed his intention.

“The Devil King’s weapon?” Buddha Emperor was slightly surprised.

He pondered before he was struck with realization. “I think I know what you’re referring to. Please come with me.”

Buddha Emperor brought Chu Kaungren to the deepest part of the Pure Land.

There was a pool blanketed with golden lotuses.

Inside the pool was a deep and dark aura containing a terrifying energy that felt like it could burst out from the pool at any moment.

However, the golden lotuses on the surface managed to hold it down.

On a closer look, it was actually a black bone claw.

It was carved with mystical runes and emanated an evil presence.

If not for the pool, the evil presence that it released could summon devils across ten million kilometers of land.

It was much more terrifying than the collapse of the Buddhist Tower.

“Devil Bone’s Claw.”

Chu Kuangren’s eyes glimmered.

The Devil Bone’s Claw was the Devil King’s Ultimate Supreme Weapon.

The Devil King was originally a mystical bone that had absorbed the evil intents of all sentient beings.

During the first Infinity War, her body was destroyed, and her soul reincarnated into a devil, which made her into the current Devil King.

She tried her best to search for the fragments of her body. However, since she had gotten used to being a devil and refused to go back to being a skeleton, she used the fragments to craft a powerful Ultimate Supreme Weapon, which would be the Devil Bone's Claw.

Only with the Devil Bone's Claw could the Devil King return to her prime.

Unfortunately, another battle destroyed her body again, and she lost the Devil Bone's Claw.

It was not until recently that the Dark Demonic Ruler located it, which was why Chu Kuangren was sent to retrieve it.

"Buddha Emperor, I want to take it away."

"Monarch Chu, you saved us from the disaster earlier, so you're free to take it away. However, this item is wicked. When the Pure Land discovered it, the cultivators almost got corrupted by its evil presence. That's why the pool was built to hold it down. I wonder how you're going to take it away."

"It's not that hard."

Chu Kuangren smiled and then sucked the claw out of the pool.

The moment the claw left the pool, boundless evil intents spread. It only took a moment for the evil intents to sweep across the whole Pure Land.

Then, with a single thought, Chu Kuangren activated the Thousand Weapon Heart.

The technique allowed him to control all weapons in the universe, including the Devil Bone's Claw.

Under Chu Kuangren's control, the evil intents across the land were suppressed.

However, the Devil Bone's Claw retaliated when Chu Kuangren tried to subdue it. It attacked Chu Kuangren with endless evil intents, trying to corrupt him into a devil.

Chu Kuangren countered with Bodhi Samadhi and cleansed himself of the evil intents.

Slowly but surely, he gained full control of the Devil Bone's Claw.

Chu Kuangren put it into a pocket realm that he opened up.

He dared not put it into his Pocket Universe.

His Pocket Universe had yet to have the strength to handle the evil intents from the claw, so it would only take a while for it to be overwhelmed by devils, and countless lives would be lost.

"Monarch Chu, that's some amazing control!" Buddha Emperor exclaimed.

He added, "I see you have some attainments in Buddhism as well. Why don't you stay here for a few more days so that we can properly welcome you with our hospitality? I can even learn a thing or two from you."

"I shall take your offer," said Chu Kuangren.

Chapter 2404 Thousands of Years, Everyone Competes For Freedom, Chu Kuangren's Avatar

Chu Kuangren stayed at Heavenly Buddha Pure Land for several months. Other than discussing Buddhism and cultivation techniques, he also talked to Buddha Emperor about many other things.

Before he left, he went to Cundi, Receiva, and the others.

"These are ultimate-level cultivation techniques, the Immovable Enlightenment King's Sword Seal and the Bodhi Samadhi."

Chu Kuangren gave them a piece of jade talisman.

Cundi, Receiva, and the others were confused by the jade talisman.

The items that Chu Kuangren gave them were unparalleled cultivation techniques in the Heavenly Buddha Pure Land. Even Buddha Emperor would be moved.

Yet, he gave the items to them for free and without any hesitation.

They were genuinely surprised.

"I'm giving you these because I want you guys to be strong enough to influence the Heavenly Buddha Pure Land," Chu Kuangren said.

After knowing about the Infinity War, he felt a sense of urgency.

He wanted to grow stronger as soon as possible and unite the entire human race.

Only when the human race was united could they become a powerful force in the upcoming Infinity War. He needed the entire human race to become a force to be reckoned with.

As a sanctuary for the human race, the Heavenly Buddha Pure Land was influential, powerful, and resourceful.

In order to unite the entire human race, there was no way he could move away from the Human Sanctuaries. Hence, he had to plan early.

"We understand."

Cundi, Receiva, and the others nodded.

They were deeply convinced by Chu Kuangren's powers and generosity. Back in the Pan Gu Universe, they stood against Chu Kuangren due to different beliefs, but now, their conflicts in beliefs were nothing compared to the incoming Infinity War.

After making the necessary arrangements, Chu Kuangren left.

That was when Buddha Emperor summoned Cundi and Receiva.

"Cundi, Receiva, you two have joined us for a while now, and your deep knowledge of Buddhism has convinced the others. From now on, I will grant you the right to preach. You can now start your own temple and preach within the Pure Land's territory," Buddha Emperor said.

Cundi and Receiva were delighted. It had been their lifelong goal to be able to start their own cultivation path in Buddhism.

They thought they had to spend an entire era to achieve it, but their wish was granted early.

They tacitly thought of Chu Kuangren.

He must have said something to Buddha Emperor.

"Thank you, Buddha Emperor."

Both of them bowed and went off to start a new line of cultivation path in the Pure Land.

Meanwhile, Chu Kuangren visited the Devil's Territory. "Devil Bone's Claw, it's been a while."

The Devil King stroked the claw in her hand. The pitch-black claw buzzed and released a rampant aura.

Even Chu Kuangren was scared when he sensed the aura.

The power level of the Devil Bone's Claw was undoubtedly higher than the Dragonslayer.

"Little one, thank you for your effort," the Devil King said with a smile.

"You're welcome. You've helped me a lot, and I'm just returning the favor," Chu Kuangren said, not expecting any rewards.

Besides, if the Devil King went to retrieve the weapon herself and the negotiation went south, the Heavenly Buddha Pure Land might get wiped out.

After a few more exchanges with the Devil King, Chu Kuangren left and returned to the Pan Gu Sect.

He did not travel anywhere for the next few thousand years. He either spent his time cultivating or traveling within the Pan Gu Sect, living the life of dreams.

In a few thousand years, many things had changed.

All forces in the Great Hongmeng Universe had a hunch about the incoming Infinity War, so they got riled up and eagerly strengthened themselves.

Their efforts produced a few more Monarchs in this era, which astonished everyone.

It was rare in the previous eras to see so many Monarchs.

In the previous era, the Tempest King was the first Monarch in a million years, and only less than a handful of Monarchs were produced before the universe reset itself.

This era, however, produced numerous Monarchs in just a few thousand years.

"So this is the final era that the Void Ruler and Doomsday Darkness refers to? This is indeed amazing."

"This era is unusual. Something big is coming."

"The final era? Does it mean the Infiniverse will be gone after this?"

"That's going to be troublesome."

"I have to achieve my goal in this era!"

"This era will face an unprecedented change. All kinds of Opportunities of Fortune will appear. I have to seize my chance!"

Some were worried about the future.

Some got inspired and wanted to strengthen themselves even more. Everyone competed for their goal.

...

On a certain mountain peak in the Pan Gu Sect, Chu Kuangren sat with his legs crossed as the first light shed on his face.

Around him, Daoist laws intertwined and formed numerous Monarch Avatars.

The scene defied the common sense of the Great Hongmeng Universe because he was the only one who could achieve it.

For a few thousand years, Chu Kuangren traveled across the universe and witnessed different kinds of Monarch Avatars. He copied them with Limitless Cultivation, plus a plethora of other cultivation techniques.

He wrote them all down into books and tomes and placed them in the Pan Gu Sect's library.

It was not an exaggeration to say that the Pan Gu Sect's collection contained the most mystical cultivation techniques in the universe.

Other than using it to boost the resources of the sect, the main reason he collected different Monarch Avatar was so that he could use them for deduction to form his own Monarch Avatar.

He already got clues about it.

The Monarch Avatars he summoned faded and were replaced by a white avatar that looked exactly like him.

The eyes were as bright as the sun and moon, stars twinkled above the head, and it stood on Yin Yang and Chaos; its hands controlled Life-death and Samsara while being surrounded by tens of thousands of Daoist law energy.

A sliver of its energy tore the void apart.

Fortunately, Chu Kuangren had set restriction seals around him before he started, hence containing the rampant energy.

Despite his efforts, the restriction seals shook violently and broke. As such, Chu Kuangren quickly kept his Monarch Avatar away.

"This avatar is terrifyingly powerful."

Even Chu Kuangren was shocked, but since it was formed using the three thousand Daoist laws and the deduction of numerous Monarch Avatars, it only felt normal.

It was the Monarch Avatar of Chu Kuangren!

How could it be weak?

It could be considered the best Monarch Avatar in the Infiniverse.

"Bang!"

Rampant energy erupted in the Pan Gu Sect, and a terrifying soul energy fluctuation erupted.

"Oh? Someone has ascended to Monarch Realm... It's her?"

Chu Kuangren was rather surprised.

Chapter 2405 Hun Meier's Persistence, Sparring With Armament Destruction, Hongmeng Spiritual Qi's Changes

The Pan Gu Sect had produced a number of Monarchs over the years as well.

The sect was blessed with an abundance of fortune energy, after all.

Mingyue Wuxia, Yu Shanling, and Armament Destruction were already Monarchs.

Lan Yu, Jue Wushen, Shang Honghua, and the other Black Heaven Nine Stars were Grand Dao Supreme Honorables, with Lan Yu being a Pseudo-Monarch.

The Three Clarities, Nuwa, Fuxi, and the other ancient beings were preparing for their Monarch ascension.

The latest Monarch would be Hun Meier.

She stayed in the Pan Gu Sect so that the Soul Tribe had a reason to work with the Pan Gu Sect.

Chu Kuangren did not restrict her, and to his surprise, she had become a Monarch already.

"Swoosh!"

A feminine figure appeared before Chu Kuangren.

The lady wore a black dress that revealed most of her chest. Her movements were alluring, and she emanated a powerful Monarch energy fluctuation.

It was Hun Meier, who had just ascended to the Monarch Realm.

"I'm here to thank you, Sect Leader."

Hun Meier moved closer to Chu Kuangren and bowed.

Chu Kuangren caught her aromatic scent and said expressionlessly, "Oh? Why are you thanking me? You're the one who ascended to the Monarch Realm."

"Of course, I have to thank you. I managed to ascend to the Monarch Realm because of the Immortal Island's spiritual qi, and it was all because you agreed to let me stay, Sect Leader. I don't know how to repay you for that," Hun Meier explained.

Now that she was a Monarch, she acted even more feminine and alluring. She even emanated a prestigious nobility that men would love to challenge.

However, Chu Kuangren was unfazed. "You just need to do what you're supposed to do. Don't think about things you can't get, and that's the best way to thank me."

Upon hearing that, Hun Meier's eyes glimmered. She feigned a sobbing tone and said, "Sect Leader, is your heart made of stone? Can't you understand my feelings for you?"

"Keep it to yourself."

Just as Chu Kuangren wanted to leave, Hun Meier appeared before him in a flash, stopping him from leaving. She continued, "I don't mind being the consort. Are you really not going to give me the chance? Or is there anything you're not happy with me? I can change for you!"

"You're the princess of the Soul Tribe and now a Monarch. You're undoubtedly one of the best. I do like one thing about you. Do you know what it is?"

Hun Meier's eyes gleamed. "What is it?"

"I like you... to stay away from me!"

Chu Kuangren then disappeared in a flash.

With his capabilities, even if Hun Meier was a Monarch, there was no way she could catch up with him, let alone stop him.

"What a stubborn and cold-hearted man." Hun Meier stroked her hair and said in a sulky tone.

The harder it was for her to acquire him, the more she was interested in him.

Hun Meier was obsessed with Chu Kuangren.

In the past few thousand years in Pan Gu Sect, Hun Meier realized her affection for Chu Kuangren had increased instead of lessened.

She thought by ascending into the Monarch Realm, Chu Kuangren would look at her differently, and it might elevate their relationship. Now, it seemed like it was a one-sided thought.

"Sect Leader, you have underestimated the persistence of a Soul Tribe lady. Once a lady of a Soul Tribe has their eyes on someone, she will never give up so easily. Even if I have to be a dog, I will want to be with you!" Hun Meier giggled.

...

"Hun Meier is really persistent."

Chu Kuangren shook his head.

The Soul Tribe and Pan Gu Sect had grown closer over the years, and Hun Meier had not done anything that crossed the lines, so he allowed her to stay in the Pan Gu Sect as a hostage or whatever.

"Buzz!"

Another person appeared before Chu Kuangren — it was Armament Destruction, who was already a Monarch. He looked at Chu Kuangren calmly, with the Broken Arm in his hand, surrounded by a scorching aura.

Chu Kuangren knew exactly why he was here.

"Old place?"

"Old place."

The two of them appeared in a valley on Immortal Island.

The valley was covered with slash marks, and a scorching aura filled the air as if it were a battlefield where millions had died.

"Come on." Chu Kuangren pointed his sword hand sign.

Armament Destruction swung his weapon forward.

Ever since Amament Destruction ascended to Monarch, he would spar with Chu Kuangren from time to time as training to master the Monarch's energy.

Their spar shook the valley violently.

The energy fluctuation of a Monarch swept over everything.

Many people in the Pan Gu Sect knew what was going on as soon as they sensed it.

"How many moves do you think Armament Destruction can take this time?"

"The last time was thirty moves. This time, maybe thirty-five."

"Yeah, that sounds like it."

Everyone was trying to guess how many moves Armament Destruction would last before Chu Kuangren defeated him.

The spar continued fiercely in the valley. Armament Destruction did not hold back. Those who knew less might think he was fighting his arch-enemy.

However, Armament Destruction knew that even if he gave it his best, he could not even hurt Chu Kuangren. Despite his grievance, it was a fact that he could not change.

Soon, the spar ended with Chu Kuangren's victory.

"Fifty-seven this time. You've improved a lot." Chu Kuangren was surprised.

The last spar ended with only thirty moves, and this time, he took nearly twice the number.

"You never used your full strength. How many moves I can take depends on how much you think I can take," Armament Destruction said. He was not exactly happy with the result.

He knew if Chu Kuangren went all out on him, he might not even be able to take three moves.

"Haha! You think too little of yourself." Chu Kuangren chuckled.

"I sensed Luo Hou a while ago. He's already a Monarch, like me," Armament Destruction said.

"Oh? Interesting."

"Don't you go after him. He's mine," Armament Destruction said.

He had fought Luo Hou more than he had sparred with Chu Kuangren. Luo Hou had become his rival of some sort.

"I got it."

While they were chatting, the spiritual qi in the sky suddenly grew restless.

"A new leaderboard is appearing?" Chu Kuangren looked up in the sky.

More than a dozen leaderboards had been revealed over the years.

There was the Divine Beast Leaderboard, Supreme Weapon Leaderboard, Longevity Leaderboard, Pill Leaderboard, Cultivation Technique Leaderboard, and more. Chu Kuangren managed to get his name on most of the leaderboards and ranked first for a majority of them.

Due to the leaderboards, Chu Kuangren and the Pan Gu Sect's reputation skyrocketed. What followed was the increase of fortune energy.

"Oh, this isn't a leaderboard." Chu Kuangren noticed something strange.

The Hongmeng spiritual qi was massive this time — far stronger than any leaderboard appearance.

When all the sentient beings in the Great Hongmeng Universe sensed the rumbling spiritual qi, they all looked up into the sky in awe.

"What's going on?"

"What leaderboard is it this time? Why is it gathering so much Hongmeng spiritual qi? This is more spiritual qi than all the others combined in the past."

"No, wait. This isn't a leaderboard!"

"Look at that!"

Chapter 2406 Fortune Earth World, Void Roulette, Zhu Yang's Current Condition

A vast amount of spiritual qi rumbled in the sky of the Great Hongmeng Universe.

The scale of the commotion far surpassed the previous leaderboard announcements. It even surpassed all leaderboards combined.

Countless cultivators were shocked.

"Look at that..." someone cried in shock. A massive violet vortex appeared in the sky and released mystical energy fluctuations. A Monarch could not help but speculate, "There's some kind of spatial energy fluctuations from the vortex. Does it mean a Spirit World is opening?"

"What kind of Spirit World could this be?"

"Is it the Spirit World ranked first on the leaderboard — the Fortune Earth World?" "It's possible..."

The commotion sparked a heated discussion among the cultivators.

The Fortune Earth World was the Spirit World ranked first on the Spirit World Leaderboard.

It had never appeared before in the previous eras.

This era was known as the final era, so it was not surprising that it would appear. Then, everyone saw the shifting of the Hongmeng Leaderboards.

The name of Fortune Earth World lit up on the Spirit World Leaderboard, signaling its opening.

That was when everyone knew it was indeed the opening of the Fortune Earth World.

The Fortune Earth World, which had never appeared before in any era, finally opened up in the final era.

It made everyone curious as to what was so amazing about the Spirit World. "Since it's named Fortune, I bet it's related to fortune energy."

"Fortune is mysterious and mystical. I wonder what the Spirit World holds. I'm curious."

"Yeah, let's wait and see."

While everyone continued to speculate, the introduction of the Fortune Earth World appeared on the leaderboard. When the cultivators went through the introduction, all of them were shocked to learn that the Fortune Earth World contained the fortune energy of the Infiniverse.

Those who enter would have to use their own fortune energy as leverage. If a cultivator died in the Fortune Earth World, he or she would not die for real, but their fortune energy would be absorbed by others.

"It's indeed a Spirit World related to the fortune energy. Going in would be gambling with your own fortune energy. If you win, you will gain fortune energy; if you lose, you will deplete your fortune energy, and you might get into a series of bad luck."

"Yeah, gambling fortune energy is something new. I've never heard of it before."

"This Spirit World is going to have a lot of opportunities."

Everyone was intrigued.

The fortune energy was mystical and mysterious.

Those who possessed an abundance of fortune energy owned almost everything. "It's said that dying inside doesn't mean the end. Your fortune energy will be absorbed, but at least you won't die. Since you won't die, what's there to be afraid of?" "Yeah. I've been having bad luck in recent years, and I don't have much fortune energy left. I can go in and win big with the least leverage."

"You're right."

"Those favored by this era and blessed with an abundance of fortune energy should be careful. Once they lose, they'll lose big."

"I'm excited."

All forces looked at the massive vortex in the sky, each with their own thoughts. However, all of them longed for the blessing of fortune. The fortune energy was not only beneficial to one's cultivation, but it could also bless future generations and the forces that he or she was in. It worked wonders. Meanwhile, in Manifa Destiny Sect, a man in violet golden robes looked into the sky with his hands behind his back. He stared at the violet vortex in the sky with an interested gaze.

The man was Dao Lingtian, ranked second on the Divine Bachelor Leaderboard.

"The Fortune Earth World is indeed the number one Spirit World of the Great Hongmeng Universe. It has such an amazing feature. If I can gain the fortune energy of the living beings in this universe from there, it would be useful to me and the Manifa Destiny Sect! "Hmmm. Speaking of fortune energy, who else has more fortune energy in the Great Hongmeng Universe than that guy?" Dao Lingtian sounded aggrieved when he mentioned 'that guy'. He was referring to Chu Kuangren, the first Monarch of the era. Chu Kuangren was blessed with an abundance of fortune energy and had seized multiple first places on different leaderboards.

In terms of fortune energy, no one could beat him, and Dao Lingtian was jealous.

"This Fortune Earth World is a great chance. If I can defeat him in there, I'll be able to absorb all of his fortune energy!" A hint of anticipation appeared in his eyes.

However, he knew he should not underestimate Chu Kuangren. Defeating Chu Kuangren would not be easy, and he had to plan it out carefully. Fortunately, he was not alone. There were a lot of people who shared the same hatred for Chu Kuangren.

...

Meanwhile, in the Spatial Tribe, a silver-white figure emerged from the void, carrying a vast aura that swept across the universe.

It was the Spatial One.

After a few thousand years of cultivation, he had mastered the cultivation techniques of the Void Ruler and was far stronger than he was a few thousand years ago.

He had also manifested his own domain and was confident he could fight an Ultimate Monarch.

"Fortune Earth World. Chu Kuangren, you best be inside as well. I will be able to get my revenge there, and I will take your fortune energy!"

The Spatial One believed it was the abundance of fortune energy that allowed Chu Kuangren to reach his current status. If he could just snatch it from him, together with the Void Ruler's inheritance, he would rule over the rest of the era!

"Spatial One, I have something for you."

The Spatial Tribe Leader went up to him with a huge silver roulette. The countless runes carved on it made it look mystical. Seeing it made the Spatial One's heart skip a beat, and he felt a strange connection to it.

"The Void Roulette!" The Void Roulette was an Ultimate Supreme Weapon, one of the best there were. It was once used by the Void Ruler, and now it was passed down to the Spatial One. The Spatial One was delighted. "It is indeed the Void Roulette. Since Chu Kuangren has an Ultimate Supreme Weapon and you're a lot stronger now, not having one will put you at a disadvantage going up against him," said the Spatial Tribe Leader.

He felt a sense of threat from the Spatial One. He knew the Spatial One had outgrown him, but it affirmed his belief that the Spatial One was the Spatial Tribe's future.

The Spatial One might be able to become the next Void Ruler!

"Great! With this weapon, I can defeat Chu Kuangren!" the Spatial One said eagerly.

On the other hand, someone else was also thinking about Chu Kuangren.

At the Dragon Tribe, a crimson figure sat before a volcano, absorbing a large amount of scorching dragon qi essence into his body. He was Zhu Yang, one of the youngest and strongest dragons. Back in Heavenly Void Spirit World, he forcefully absorbed the Infernal Dragon blood from the altar, and it knocked him out.

When he was brought back to the Dragon Tribe, the Primal Infernal Dragon blood in him had fused with the bloodline and boosted his powers.

He was countless times stronger than a few thousand years ago.

"Chu Kuangren, I will have my revenge in the Fortune Earth World for the humiliation I received a few thousand years ago," Zhu Yang said coldly. He was an Infernal Dragon, and after being humiliated by Chu Kuangren and losing to him in battle, there was no way he would let the chance slip so easily!

Chapter 2407 Test Luck, All Monarchs Arrive, 180K Dao Lingtian

Meanwhile, in Pan Gu Sect, Chu Kuangren smiled when he saw the violet vortex in the sky. "Fortune Earth World, huh? Interesting."

The Fortune Earth World was closely related to fortune energy, and the Fortune Kingdom that he was currently cultivating required a large amount of fortune energy.

He had a feeling that he might be able to complete it in the Fortune Earth World. However, the Spirit World was still forming. Since it had yet to open, he summoned everyone for a discussion. Due to the specialty of the Spirit World, where one would not die for real if killed or defeated, many would be interested in exploring the place. If one was defeated or killed, one would just be teleported out of the Spirit World.

It was a good chance for training, and no one would want to waste it. "My cultivation has reached a bottleneck. Maybe I can find an opportunity inside to ascend to the Monarch Realm," Lan Yu said with her eyes twinkling.

She was one step shy from breaking through to the Monarch Realm.

She had a feeling the opportunity would be inside the Fortune Earth World.

Not only she, but even Chu Hong, Shang Honghua, and others showed interest in going. The Three Clarities, Fuxi, Nuwa, and the others were intrigued as well.

Seeing that, Chu Kuangren gave permission for everyone to enter the Fortune Earth World. Since one would not die inside, they could do whatever they wanted without any scruples.

As for their fortune energy, it was not a problem as well. Once Chu Kuangren founded his Fortune Kingdom, even if Lan Yu and the others lost all their fortune energy, he would be able to bless all of them.

Several years later, the violet vortex in the sky became a massive door.

The door had countless carvings of runes, mythical beasts, and all sorts of images on it.

Behind the door would be the Fortune Earth World.

"The Spirit World is ready."

"It's time to explore it."

"Let's go!"

Multiple figures dashed into the entrance.

When one of the cultivators passed through the door, the runes on the door glimmered, and a number appeared. Fortune Level: seventy-five.

Everyone was amazed by the numericalization of fortune energy.

"This door can numericalize fortune energy?"

"How amazing!" "Let me have a try!"

Someone flew past the door, and the number on it changed.

Fortune Level: one hundred and six.

All the cultivators had their fortune energy numericalized since it was a vague concept that no one understood before this.

Everyone wanted to know how much fortune energy they possessed.

Most of the cultivators' Fortune Level ranged from a single digit to around two hundred, rarely reaching three hundred.

"Look! That guy has a thousand!"

Suddenly, a surprised cry came from the crowd.

A young cultivator stood at the door with a delighted smile. He looked at the other cultivators condescendingly. "I know him! He's a sky-pride who reached the Grand Dao Realm in just a few thousand hundred years! No wonder he has such a high Fortune Level!"

"I don't like him."

After that, more and more stronger cultivators appeared. Many of them reached a thousand.

The first cultivator who reached a thousand stayed quiet and decided to keep a low profile. There were always people stronger than him, and being a Grand Dao cultivator in this era was nothing.

Suddenly, a domineering presence arrived.

An elderly man with a boundless aura strutted over. The presence he emanated frightened the other cultivators before the door. He was a powerful cultivator and on a different level than the others.

"A-A Monarch!" Many cultivators gasped and gulped nervously when they saw the elderly man.

However, the elderly man was unfazed by the surprised gaze on him. He walked to the door without queuing.

Those in line to test their Fortune Level quickly made way for him as they dared not mess with a Monarch.

Fortune Level: nine thousand eight hundred and eighty-three.

Everyone was amazed by the Monarch's Fortune Level.

So far, he had the highest Fortune Level. On second thought, the cultivators who succeeded in ascending to the Monarch Realm were all favored by Lady Luck, so it was not too surprising for him to have such a high Fortune Level.

"That's it?"

The elderly frowned as he saw another Grand Dao cultivator getting a Fortune Level only one thousand points lower than his. It meant that, as a Monarch, he did not have a high Fortune Level.

However, he made peace with it a while later because the Fortune Level did not represent his strength.

He had spent almost ten eras in total cultivating and breaking through to the Monarch Realm.

Compared to other Monarchs, he had spent too much time in the process, especially in this final era, where young Monarchs sprang out everywhere.

"Buzz!"

Suddenly, sword qi filled the sky as a group of swordsmen arrived.

The leader was the Divine Sword Palace Ruler, and beside him was another elderly man with a white beard and hair, who seemed to have the same status as the Palace Ruler.

"Oh? You old bastard, you woke up in this era too?"

The first Monarch at the door was surprised by the elderly man beside the Palace Ruler. "Master Daoist Qianyuan, how have you been?" The Divine Sword Palace Ruler greeted the Monarch with a smile.

Since they were all Human Monarchs, they knew each other.

"I'm doing fine," Master Daoist Qianyuan said. Then, he looked at the elderly man beside the Palace Ruler and said, "Sword Saint, it's been so many years, yet you still look full of energy."

The Sword Saint was a secret Monarch of the Divine Sword Palace and of the strongest they had.

Many eras ago, he single-handedly overpowered his era with his sword.

He was quite the legend a long time ago.

Back then, he led the Divine Sword Palace to rival the top three Human Sanctuaries, and many believed they would become the fourth strongest.

Unfortunately, their efforts fell short. After the Sword Saint, there were no more famous Monarchs from the Divine Sword Palace.

Dugu Bupo, because of his talents, was known to be the successor of the Sword Saint, but he challenged Chu Kuangren and got killed in the process.

"The Fortune Earth World has finally opened, and I would never miss the world for it. In fact, I bet the other old bastards will be here as well."

The fight for fortune energy would be a fierce one. Even the oldest Monarch might appear.

Since the Divine Sword Palace had not produced any Monarchs in this era, it made the Sword Saint nervous, hence his awakening.

He had to save the Divine Sword Palace's face and seize a portion of the fortune energy.

Then, the two of them went through the door to test their Fortune Level.

The Divine Sword Palace Ruler's Fortune Level was at nineteen thousand, while the Sword Saint was at eighty-eight thousand.

Both of their Fortune Levels were higher than Master Daoist Qianyuan's.

"I knew I was the weakest among the Monarchs." Master Daoist Qianyuan sighed pitifully.

Following the Divine Sword Palace and Sword Saint's arrival, elusive Monarchs started to show up.

The Monarchs included Manifa Destiny Sect Master, the Heavenly Human Sanctuary Ruler, the Spirit Ruler of the Heavenly Buddha Pure Land, and their respective followers.

Suddenly, a violet qi appeared in the sky.

The Daoist Bachelor of the Manifa Destiny Sect and the second place on the Divine Bachelor Leaderboard, Dao Lingtian, had arrived.

He had his Fortune Level tested, and it was at one hundred and eighty thousand!

Chapter 2408 One Stronger Than the Other, All Tribes Taunts, None Shall Question

"What the hell? A Fortune Level of one hundred and eighty thousand? That's crazy!" "He, too, is a new generation Monarch, yet he possesses such high fortune energy. Not even the older Monarchs had that!"

"Yeah! He's definitely one of the Prodigies of this era."

"He's amazing for having such a high fortune level."

Everyone was amazed by Dao Lingtian's ridiculously high Fortune Level.

Dao Lingtian grinned as he looked at his Fortune Level. "I, Dao Lingtian, am favored by heaven and earth!"

The Manifa Forefather shot him a contented gaze.

"Great. With him, the Manifa Destiny Sect will surely produce an Unlimited Great Dao cultivator in this era!" The Unlimited Great Dao surpassed even the Ultimate Monarch and could be considered as a Pseudo-Overlord.

It was rare even among the entire human race.

There had only been so many since the beginning of the universe.

In fact, there was only one known Unlimited Great Dao among the human race, and ironically, it was the Heavenly Sovereign, who turned his back on the entire human race.

Another person with the potential to reach such height would be Chu Kuangren.

Chu Kuangren's strength was immeasurable. Although he had yet to reach that height, he had already defeated more than one Unlimited Great Dao, such as the Doomsday Darkness, the Void Ruler, Papiyas who possessed the Desire Buddha's strength, and more.

However, someone as monstrous as Chu Kuangren could not be measured using common sense.

"Hahaha! The leaders of the top three Human Sanctuaries are here, and all of you have brought a lot of Monarchs with you," someone said with a laugh.

Then, dragon roars echoed across the sky.

The Dragon Tribe had arrived.

Other than the current Elder Dragon King, another Dragon Monarch with a crimson aura swirling around him, granting him an authoritative presence, caught people's attention. His eyes were as bright as the sun, and there seemed to be runes inside them.

He was the new generation of Dragon Monarch, Zhu Yang.

"The Dragon Tribe is here."

"That's Zhu Yang. He looks a lot stronger than a few thousand years ago, and I don't think I can't beat him." His arrival sparked discussions in the crowd.

Other than the Dragon Tribe, the other tribes had arrived as well.

There were the Spatial Tribe, Celestial Divine Tribe, Beastman Tribe, Devil Tribe, Six Eyes Tribe, Soul Tribe, and so on.

All tribes finally arrived after a while, and with all of them together, the scene looked grand. Some of them were rivals and enemies, while some of them were allies.

"All tribes are here. How many eras had it been since we gathered together for a common goal? It's quite the scenery," said an elderly with a smile.

He was one of the Monarchs of the Celestial Divine Tribe. He, too, had divine light circulating him, glimmering as he spoke.

"Cut the nonsense. What plans do you people have for the Fortune Earth World?" asked a strange beast with nine heads.

"It all depends on how much fortune energy you can secure."

While the discussion was ongoing, Zhu Yang and some other curious cultivators went to the door to have their Fortune Levels checked.

When it was Zhu Yang's turn, the door shone brightly and captured everyone's attention.

"A Fortune Level of two hundred and eighty thousand!"

Everyone gasped in shock.

Zhu Yang beat Dao Lingtian by a hundred thousand! How astonishing!

"Hahaha! Great!"

The Elder Dragon King laughed and then looked smugly at the humans.

Dao Lingtian's expression instantly turned bitter. He could not believe Zhu Yang possessed such a high level of fortune energy!

"Infernal Dragon... He's an Infernal Dragon, which is rare for the past few eras, yet his Fortune Level is ridiculously high."

Everyone looked at Zhu Yang with surprise. A Monarch should possess a Fortune Level of more than ten thousand, yet Zhu Yang had a Fortune Level of a whopping two hundred and eighty thousand. If he could continue to grow, he would certainly become an Ultimate Monarch or even an Unlimited Great Dao. He might even have a chance to achieve the Overlord Realm.

With that in mind, the other Monarchs' hearts sank.

The Elder Dragon King, however, was delighted. He believed Zhu Yang had such a high Fortune level because, other than him being an Infernal Dragon, he also possessed the Primal Infernal Dragon's blood.

If he had the blood of one of the Primal Gods, how could his fortune energy be weak?

It explained why he had such a high Fortune Level.

"Two hundred and eighty thousand? So what?" someone said with a laugh.

A handsome young man in silver-white robes and a pair of light wings arrived. Each step he took caused ripples in the void.

Powerful Spatial Daoist law energy surrounded him, garnering all the attention on him.

"That's the Spatial One!"

"It really is him!"

The Spatial One went straight to the door to have his Fortune Level checked.

The door shone brightly and revealed a whopping four hundred and thirty thousand! His Fortune Level was almost twice as much as Zhu Yang's.

Countless cultivators gasped in shock, and it started an uproar.

"Holy cow! One is stronger than another!"

"This is ridiculous!"

"A Fortune Level of four hundred and thirty thousand? I only have eighty! It's absurd!" "They're all favored by the universe and Lady Luck."

"That explains the difference between people."

Zhu Yang looked grimly at the Spatial One. The cultivators of other tribes, too, went up to have their Fortune Level checked.

Some of the new generation of Monarchs had high Fortune Levels, easily reaching more than a hundred thousand. Many of them surpassed Dao Lingtian.

Aside from their cultivation and strength, in terms of fortune energy, Dao Lingtian was the only human to have more than a Fortune Level of a hundred thousand. "Hahah! The humans are said to be the main lead of the universe, yet the strongest one is Dao Lingtian. What a joke!" The Spatial Tribe Leader laughed, prompting the Celestial Divine Tribe, Beastman Tribe, Dragon Tribe, and the others to laugh at the humans too.

The humans had been the main leads of the universe for countless eras, and they had always overwhelmed the other tribes with absurd numbers.

However, now that the human race had fallen in terms of Fortune Level, the enemies of the human race or those who wished to usurp their position as the main lead seized the chance to sneer at them.

"Main lead of the universe? I think it's time for others to take over!"

"Yeah! The human race has no right to seize that position anymore!"

"A while ago, the Heavenly Sovereign stole the fortune energy of his people. The humans are only capable of fighting each other. They're no longer worthy of being the main lead of the universe!" As the other forces mocked the human race, the Manifa Forefather, Buddha Emperor, and the others responded with a bitter look. However, the Human Empress and Earthen Monarch were fairly calm.

"Who gave you the audacity to question us as the main lead of the universe?" Then, a frosty voice echoed across the sky.

Further away, a massive battleship cruised through the clouds.

A white figure stood at the top of the deck, embracing the chilly wind.

Immortal Sparks glimmered around him, granting him a transcendental presence.

It was Chu Kuangren, and behind him were the cultivators of the Pan Gu Sect.

"He's here." The Human Empress grinned.

"Fortune energy? You guys are comparing fortune energy in front of him?" The Earthen Monarch teased the other tribes with a frosty grunt.

The Spatial One, Zhu Yang, Elder Dragon King, Celestial Divine Tribe Leader, and the others responded to Chu Kuangren's arrival with a stern look.

Chapter 2409 Spatial One's Embarrassment, All From Pan Gu Sect Felt Like Monarchs

It had been a few thousand years since Chu Kuangren showed himself to the public, yet his reputation remained strong. Quite the opposite, he became even more reputable as time went by.

Whenever a new leaderboard appeared, there was a high chance his name would be in the first place.

He never showed up, but everyone knew his name.

Chu Kuangren became the biggest legend of the era.

"It's Chu Kuangren!"

"He's here!"

"So he's ranked first on the Divine Bachelor Leaderboard, the Formation Leaderboard, the Weaponsmith Leaderboard, and all sorts of leaderboards?"

"He's indeed one of a kind!"

"He's so handsome!"

The cultivators from different tribes looked at Chu Kuangren in awe.

Some female cultivators were instantly infatuated with him.

However, there were also a number of them who harbored hostility against him, such as the Spatial One, Zhu Yang, Dao Lingtian, who was also a human, and some other beings in hiding. "Chu Kuangren, you have finally arrived!"

"My hatred for you has only increased in the past few thousand years!"

Chu Kuangren received many hostile gazes, but he was unfazed. He had seen a lot of unfriendly people in his entire life.

"You people say we humans are not worthy of being the main lead of the universe, yet you don't even reflect on yourselves," Chu Kuangren said as he glanced over the other tribes.

His gaze carried a frosty sword intent.

Those who locked eyes with him were deterred, including Monarchs.

"It's been a few thousand years. I wonder where his cultivation level is at. Has he manifested his own avatar and domain?"

"A common Monarch might take tens of millions of years from the moment he ascended to manifest his own avatar, but you shouldn't measure Chu Kuangren with common sense. Although it's only been a few thousand years, he probably has manifested his avatar."

"His aura is much more profound than before."

Chu Kuangren's arrival silenced every Monarch.

Many of them remembered how he killed the Void Ruler with the Human Ancestor's sword like it was yesterday.

"Chu Kuangren, it's been a while," the Spatial One said while temporarily putting his hatred away.

"You seem polite, but you wish you could kill me on the spot. Spatial One, save the hypocrisy, and let's be real." Chu Kuangren sneered at him.

The Spatial One wanted to argue about how different he was compared to a few thousand years ago, but then he spotted Hun Meier beside Chu Kuangren.

Hun Meier was staring at Chu Kuangren with the utmost admiration. She did not even spare a glance at her ex-fiance! The Spatial One could no longer keep calm. He stared at Hun Meier and said coldly, "Hun Meier, you've ascended to the Monarch Realm as well."

Hun Meier only regained her composure when she heard her name. She looked at Spatial One and smiled. "Hey, isn't this my poor ex-fiance? Long time no see."

Poor ex-fiance? The way Hun Meier addressed the Spatial One hurt the man.

A ferocious aura erupted from him, tearing the void around him into shreds.

"Hun Meier, I swear I will rip you and Chu Kuangren to shreds!" the Spatial One said with clenched teeth.

His words made the other cultivators fall into an uproar.

"Wait a minute! So Hun Meier canceled the wedding with the Spatial One because of Chu Kuangren? Did the Spatial One get cuckolded?" "Poor b*stard."

"I don't think so. The two of them weren't married."

"If I were her, I would choose Monarch Chu as well."

"The Spatial One is nothing compared to Monarch Chu."

A heated discussion sparked among the cultivators, and the Spatial One heard them all.

It was then he realized he just made a fool of himself.

Confronting Hun Meier before the public would be equal to telling everyone that his woman chose another man over him. He had embarrassed himself!

"Look at him. Meier is right. He's not that bright," the Soul Tribe Leader said as he looked at the Spatial One and shook his head.

Despite having unrivaled talents and fortune energy, with that personality and patience of his, even if he became an Ultimate Monarch, he would not achieve anything big.

He was not just falling behind Chu Kuangren; he was lightyears away.

Chu Kuangren founded the Pan Gu Sect and developed it into one of the strongest forces in the Great Hongmeng Universe.

Yet, all the Spatial Tribe knew how to do was leech off the Spatial Tribe.

The Soul Tribe Leader was glad that the marriage union between the Spatial Tribe and Soul Tribe was canceled.

"Thank goodness the wedding was canceled back then."

Meanwhile, Chu Kuangren looked at the Spatial One, who had a grim look on his face, and scoffed as if he was looking at a clown.

He could sense that the Spatial One was a lot stronger than before.

However, nothing would change because the Spatial One would still have to kneel before him.

"Holy cow! Look!"

Someone in the crowd cried out loud.

Everyone then turned to the door and the number that it displayed.

Five hundred thousand of Fortune Level? Everyone was shocked.

In front of the door was a woman in white who had a face veil over her face — it was Mingyue Wuxia, the number one Divine Maiden of the human race!

She smiled at the number displayed above her.

As the reincarnation of the Human Ancestor's sword spirit, it was normal for her to have such a high Fortune Level. It was also the reason why she could reincarnate into who she was today.

If she did not reincarnate, her Fortune Level would easily surpass five hundred thousand.

"I can't believe Mingyue Wuxha has such a high Fortune Level!" The Heavenly Saint was shocked. At the same time, he started to regret kicking her out of the Heavenly Human Sanctuary back then.

She used to be the Divine Maiden of the sanctuary, but she was forced to leave because of the Heavenly Saint's selfish desire. Now, the sanctuary realized they had lost a huge amount of fortune energy.

"A door that displays one's fortune energy? Interesting."

Chu Kuangren rubbed his chin.

Lan Yu and the others were eager to have their fortune energy tested.

"Master, I'd like to go and have a try."

"Sure."

As soon as Lan Yu appeared before the door, the door displayed her Fortune Level — four hundred and ninety thousand! It was almost the same as Mingyue Wuxia's!

Everyone was shocked that, other than Chu Kuangren, there were two more cultivators with such high Fortune Levels in Pan Gu Sect. The two of them would probably become Unlimited Great Dao in the future.

What happened next continued to surprise everyone. The cultivators of the Pan Gu Sect took turns stepping into the door to have their fortune energy checked.

The numbers were displayed at the door. Chu Hong had a Fortune Level of three hundred and eighteen thousand.

Shang Honghua had a Fortune Level of three hundred and fifty thousand. Ye Zhu had a Fortune Level of one hundred and eighteen thousand.

Yu Zhi had a Fortune Level of two hundred thousand.

Jue Wushen had a Fortune Level of one hundred and ninety thousand.

All members of the Black Heaven Nine Stars achieved more than a hundred thousand, proving that each of them was stronger than Dao Lingtian.

On top of that, the Fortune Level of the Three Clarities, Fuxi, Nuwa, and the others ranged between one hundred and fifty thousand to two hundred thousand as well.

Even the most common Grand Dao cultivators of the sect had a Fortune Level of more than ten thousand.

The scene silenced everyone.

A common Monarch's Fortune Level would range around 10,000, and everyone in the Pan Gu Sect had a higher Fortune Level than a Monarch.

What kind of sect was it?

It was absurd!

Chapter 2410 Astonishing Fortune Level, Fight Me

Everyone in the Pan Gu Sect possessed the demeanor of a Monarch, which shocked the cultivators of all tribes.

Even the Human Empress and Earthen Monarch were stunned.

What kind of monstrous sect was that? With that amount of fortune energy, how would it make the others look?

"Impossible! Something is not right."

"Lan Yu isn't even a Monarch, yet she has such a high Fortune Level! What's going on?"

"Have I lost my mind, or have the world lost its mind?"

What happened before their eyes was far beyond their comprehension.

They knew Chu Kuangren possessed an abundance of fortune energy and that a part of the human race's fortune energy was with him as well. However, they did not expect the amount to be so huge that the other cultivators of the sect would benefit from it as well.

All of them was blessed by the abundance of fortune energy.

"Haha! Now, who else dares to question our status as the main lead of the universe?" The Earthen Monarch scoffed.

Some other Monarchs reacted grimly to the scene. With such a ridiculous amount of fortune energy, the human race was indeed the main lead of the universe.

It was not easy for the other tribes to have someone with more than a Fortune Level of ten thousand, yet everyone in the Pan Gu Sect had more than ten thousand, and a bunch of them exceeded a hundred thousand. How absurd was that? The human race had never fallen out of the spotlight. Now, almost all the fortune energy had gathered at the Pan Gu Sect and blessed its cultivators.

"The Pan Gu Sect is going to have a bright future."

"Yeah. With that many cultivators blessed by fortune energy, they will soon surpass the three major Human Sanctuaries."

"If their cultivators grew stronger, they might even rule over the entire Great Hongmeng Universe."

"If the common cultivators of the sect already have such ridiculous Fortune Levels, how absurd would Chu Kuangren's Fortune Level be?"

Everyone was curious how high Chu Kuangren's Fortune Level would be, and some were eager to find out.

If those were the Fortune Levels of Pan Gu Sect's cultivators, how absurd would the Sect Leader, the first Monarch of the era, be?" "I think he has more than a million."

"At least a million for sure."

"Tsk. I think the scale of his fortune energy will be unprecedented."

Everyone's eyes were on Chu Kuangren.

Then, the Human Empress contacted Chu Kuangren telepathically, saying, "Monarch Chu, you can conceal your Fortune Level to avoid unwanted troubles."

The test of fortune energy was for a better understanding of one's fortune and future.

However, if one's Fortune Level was too high, it would surely attract hostility.

Once inside the Fortune Earth World, those with a higher Fortune Level would surely become the common target. This time, not only the younger generations would go into the Fortune Earth World, but even the ancient Monarchs would participate.

Chu Kuangren could overwhelm the younger generations and even a majority of the ancient Monarchs, but it did not mean he was powerful enough to deal with every Monarch of every tribe.

Chu Kuangren grinned when he received the Human Empress' reminder.

Despite that, he stepped out and went over to the door.

The Human Empress chuckled helplessly. "I knew it. With his arrogance, he will never hide himself, especially before all the tribes. He would never stand down."

Some of the Monarchs were impressed by his audacity.

"Such audacity! As expected of the legendary Monarch Chu."

"He really isn't afraid of anything."

Some Monarchs mocked him.

"Doesn't he want to conceal himself? He's going to become the public enemy soon."

"I'm actually curious how high his Fortune Level is."

Everyone looked at Chu Kuangren, only to see him strutting into the door. The door glimmered, but nothing happened. The Fortune Level indicator was not showing anything either, which was surprising.

The door worked smoothly with the others, yet it froze when Chu Kuangren went through.

"Is Chu Kuangren's Fortune Level too high for the door to react?" "It's possible."

"How high is his Fortune Level?"

All eyes were on him.

At the next moment, the door released a blinding divine light, releasing endless light into the sky and in every direction. It almost lit up the entire Great Hongmeng Universe.

Amidst the blinding light, the door trembled violently, and the runes on it rumbled. All the carvings of mythical beasts came alive and roared. The scene shook the minds of the crowd.

Then, numbers started to appear above Chu Kuangren.

From one hundred thousand, the number skyrocketed and soon approached thirty million.

Everyone gasped nervously as the numbers continued to increase. It was so terrifying that it started to feel surreal.

"Boom..."

The spiritual qi in the universe rumbled, manifesting violet lotuses in the void.

The mythical beasts on the door came out, surrounding and kneeling before Chu Kuangren with a low growl.

As the door continued to shine, lotuses bloomed from spiritual qi, all mythical beasts knelt before him, and mystical phenomena occurred around him, the numbers above Chu Kuangren continued to increase.

When it reached 99,999,999, everyone's jaws dropped. Some had to count multiple times how many nines there were to confirm how high the Fortune Level was.

"What the hell is this?"

"99,999,999? How is this even possible? It's impossible!"

"Wait! Look! The numbers are still shimmering!"

Someone realized that the numbers were still shimmering as if they could continue increasing. However, something stopped it. Some of the Monarchs speculated. "This isn't Chu Kuangren's Fortune Level! His real Fortune Level is higher than this, but this is how much the door can display! His Fortune Level is too high for the door to display!"

"It literally went over the charts!"

"Oh my god!" Countless cultivators looked at Chu Kuangren basking in light as he possessed an ocean of fortune energy.

They were shocked and astonished.

A Fortune Level of ten thousand would grant one the demeanor of a Monarch. With Chu Kuangren's astronomical figure, no one could imagine how powerful he would be in the future.

Many cultivators looked at Chu Kuangren with eagerness. They wished they could have some of it.

Before this, it was impossible for them to get Chu Kuangren's fortune energy, but now, with the Fortune Earth World appearing, they could get it if they defeated Chu Kuangren inside. They could get all his fortune energy and become the luckiest person in the universe!

The Spatial One, Zhu Yang, Elder Dragon King, Celestial Divine Tribe Leader, and many other Monarchs of different tribes looked at Chu Kuangren with utmost jealousy and greed.

Chu Kuangren noticed how the others were looking at him as well.

He grinned widely and opened his arms. He said loudly, "You people want the fortune energy? Come and get it! Fight me and kill me. Then, you can get my fortune energy!"

"With the fortune energy, you can become kings, rulers, or whatever you want! You can even rule over the Infiniverse! So, come! Bring your weapons and use whatever you learn — assassination, ambush, poison, team up... Whatever! Come at me with everything you've got! Fight me!"
