Chapter 2421 Heavenly Fate Defiant Dragon Formation, Myriad Dragon Aura, Weapon Formation Combination

A sword qi rushed in from afar, penetrating and pinning the Monarch on the mountain.

In just a blink of an eye, he was immobilized and disabled.

Everyone was shocked by the sudden twist of events.

Then, they all turned in the direction where the sword qi came from and already had a guess as to who shot it.

"I-Is it him?"

"Such sword qi... Who else, if not him?"

At the far end of everyone's vision, a figure as white as snow and dazzling as the stars emerged. His splendor outshone the sun and the moon, as well as the heaven and the earth.

His arrival silenced the battlefield.

Everyone instinctively stopped fighting and held their breaths.

It was none other than Chu Kuangren.

He walked to the valley and swung his sleeve at the blazing flames, extinguishing it completely.

The Pan Gu Sect cultivators were freed as well.

"Sect Leader..."

One of the cultivators looked ashamed.

Had they not been too weak and allowed Zhu Yang to capture them, the situation would not have been exacerbated. They all knew it was a trap — a trap specifically set up for Chu Kuangren.

"This isn't your fault. Stand down," Chu Kuangren said.

"Yes, Sect Leader."

The cultivators quickly retreated.

They knew they were nothing but a burden to Chu Kuangren if they insisted on staying.

Mingyue Wuxia and the other stronger Monarchs stayed, wanting to fight alongside Chu Kuangren.

However, Chu Kuangren waved at them and told them to stand back.

"Sect Leader, there are many of them," Mingyue Wuxia said.

She knew Chu Kuangren was ridiculously powerful, but was he powerful enough to handle so many Monarchs from different tribes?

"They're just some rats hiding in the shadows. Why be scared of them? You guys have consumed a lot of your energy. Leave the rest to me," Chu Kuangren said.

His contempt for the Spatial One and his allies was obvious in his tone.

"Uh..."

Mingyue Wuxia hesitated for a moment before nodding. "I understand. We'll rest, recover, and prepare for the next battle."

She and Lan Yu brought the others to the side and started to consume all kinds of pills and herbs to recover their energies.

Everyone was shocked by the pills and herbs they consumed.

The pills and herbs were crafted by Yue Shanling using the different Immortal Herbs and ingredients from the Immortal Island.

The pills and herbs he crafted were considered extremely precious to outsiders, but Mingyue Wuxia, Lan Yu, and the others ate them like candies.

They seemed to have an unlimited supply of the pills and herbs, which made the other cultivators jealous.

How could the Pan Gu Sect be so resourceful and wealthy?

"Chu Kuangren, you have finally shown up."

The Spatial One glared at Chu Kuangren with nothing but hatred.

"Isn't this what you people wanted?" Chu Kuangren said calmly with his hands behind his back.

"Formation, activate!"

A figure emerged from the void and shouted.

The entire valley trembled violently, and runes and restriction seals appeared in the air. Endless spiritual qi gushed in from all directions, converging into a borderless ocean of energy.

Dragon shadows started to appear in the energy ocean.

In the blink of an eye, tens of thousands of dragons emerged and formed a massive ring around the valley.

Then, it compressed onto Chu Kuangren, surrounding him whole.

"Sect Leader!"

Mingyue Wuxia and the others were worried.

They wanted to help but were bounced away by the golden light.

"This formation is a high-level one!"

"This is a powerful formation! So this is their real trap!"

Mingyue Wuxia and the others reacted grimly to the situation.

While being trapped inside the formation, Chu Kuangren felt a powerful dragon aura crushing him from all directions as if mountains had fallen on him.

"Interesting." Chu Kuangren chuckled.

He looked at Yuan Wuwang. "You're a Fate Defiant Master, and this formation contains Fate Reversal energy. I bet you're the one behind this."

"That explains why you're the Monarch who overpowers this era. You didn't even flinch against the Heavenly Fate Defiant Dragon Formation. You're impressive, but as far as I know, I bet you can barely resist the aura from the formation."

"Oh? What makes you think so?" Chu Kuangren asked with an intriguing smile.

"Hmph. Look at the ten thousand dragon shadows around you. Each dragon shadow is as strong as a Monarch, and ten thousand of them means there are ten thousand Monarchs here. How are you going to withstand the aura of ten thousand Monarchs?" Yuan Wuwang explained with a frosty grunt.

The viewers outside the formation gasped in fear upon hearing that the aura of ten thousand dragons equaled the aura of ten thousand Monarchs!

They were horrified.

"My goodness. What kind of terrifying formation is this?"

"Yeah. Ten thousand Monarchs? Who could withstand that?"

"To have set up such a terrifying formation just to deal with Chu Kuangren, they really went all out with this."

"I guess this is where Chu Kuangren falls."

The thought of having the aura of ten thousand Monarchs on

The thought of ten thousand Monarchs' auras was scary enough because one Monarch alone could force a common cultivator down on their knees.

However, it was remarkable to the crowd how calmly Chu Kuangren was standing inside the formation, even though he might be faking his calmness.

While everyone was in awe of the formation, the Spatial One chuckled and then revealed a silvery-white roulette.

He tossed it up into the sky, and it released a blinding light.

Endless Spatial Daoist law energy erupted from it and formed a restriction force. It combined with the aura of ten thousand dragons and enveloped Chu Kuangren whole.

The pressure on Chu Kuangren skyrocketed instantly.

"Chu Kuangren, we know you're ranked first on the Formation Leaderboard. You might have a way around the Heavenly Fate Defiant Dragon Formation, but together with my Void Roulette's power and the formation, how are you going to get out of this?" The Spatial One scoffed.

"Oh? Ultimate Supreme Weapon?" Chu Kuangren narrowed his eyes on the item.

Everyone was shocked when they heard him.

They could not believe that a formation that contained ten thousand Monarchs' aura was not enough and that an Ultimate Supreme Weapon was brought out to combine with the formation!

It seemed the Spatial One and company went the extra mile for that.

"If you think that's it, you're terribly wrong." Zhu Yang scoffed.

He then raised his hand and tore multiple cracks in the void behind him.

Powerful figures carrying intense aura emerged from the cracks.

They were all dragons, and the weakest of them was a Grand Dao cultivator.

There were at least three thousand of them!

One of them was also a Monarch like Zhu Yang!

However, it was just the start.

"Chu Kuangren, the Spatial Tribe is also here to kill you!"

As the void cracked, the Spatial Tribe cultivators emerged.

There were more of them than the dragons, and there were also Monarchs among them.

"Chu Kuangren, you have gotten ahead of yourself!"

Another army of cultivators emerged.

This time, they were from the Celestial Divine Tribe, and two Monarchs had been mobilized to lead more than a thousand Grand Dao cultivators.

"The Nine-Headed Tribe is also here to kill you!"

"The Witchcraft Tribe as well!"

"Tsk tsk. With such a monster in the human race, the Undead Tribe will never be able to rest in peace. We're taking your fortune energy!"

"Chu Kuangren, you can only blame yourself for having too much fortune energy!"

Army after army of cultivators stepped out from the void.

At first glance, there were more than a million of them, and they were from all different tribes.

Their cultivation levels varied depending on the people, but the weakest among them was a Primordial.

Chapter 2422 Monarch Battle Royale, Dao Lingtian's Persistence

All Monarchs from different tribes across the Great Hongmeng Universe teamed up.

Millions of cultivators stood in the sky, releasing their combined aura to fill every corner of the Fortune Earth World.

The weakest among them were Primordials, but more than half of them were Grand Daos, and the rest were Monarchs.

Such a grand scale of cultivators was unprecedented. It even slightly resembled the Infinity War.

The cultivators outside the formation were in awe of the grand scale.

"Oh my goodness! How many tribes are in this?"

"Dragon Tribe, Beastman Tribe, Spatial Tribe, Six Eyes Tribe, Nine-Headed Tribe, Celestial Divine Tribe... All of them are famous tribes in the universe."

"The scale of it is crazy!"

"They really went all out just to deal with Chu Kuangren!"

With so many cultivators and Monarchs on the opposite side, the viewers felt bad for Chu Kuangren.

In their opinion, no one would be able to escape that massacre, not even an Ultimate Monarch.

It was beyond horrifying.

"Monarchs of all tribes, you people have really done it this time!"

A frosty voice echoed across the sky.

Outside the formation, earthen qi rumbled, and a man swooped in.

It was the Earthen Monarch, the Adjudicator of the Human Supreme Council. He wore a grim look on his face. He had decided to assist Chu Kuangren, but before he could do anything, the realm trembled, and a ray of Celestial Divine Light shot out from the void.

It was as powerful as the Earthen Monarch's earthen qi!

"This aura... The Celestial Divine Forefather?" The Earthen Monarch narrowed his eyes.

A white-haired elderly emerged from the void. Every move he made was surrounded by Celestial Divine Light.

He was an Ultimate Monarch and the oldest being to exist in the Celestial Divine Tribe.

"Earthen Monarch, for wrecking the Celestial Divine Tribe many years ago, let's settle the score here and now!" the Celestial Divine Forefather said coldly.

Then, he shot a ray of Celestial Divine Light at the Earthen Monarch.

The Earthen Monarch grunted coldly and refused to back off.

"Kaboom!"

Terrifying energy erupted across the field.

"How dare all of you come after the human race's fortune energy?"

Golden rain wet the land as the Human Empress arrived with a paper umbrella in hand.

Even the kind and gentle Human Empress was furious. However, following her arrival, another powerful Ultimate Monarch appeared to stop her, preventing her from assisting Chu Kuangren.

"Only I can kill Chu Kuangren! Who are all of you anyway?" Tens of thousands of sword qi gushed in like a tidal wave, wrecking everything in its path.

The Sword Saint arrived and swung a slash at the formation.

However, the slash only managed to shake the formation, not break it. The sword qi did not even leave a scratch on it.

"This formation..." The Sword Saint frowned.

Before he could use his next attack, a saber ray headed toward him.

The Sword Saint had to raise his hand to block it.

A Dragon Monarch arrived before him, carrying a domineering aura. "I'm Elder Dragon Wudao of the Dragon Tribe. Please enlighten me, Sword Saint."

"Bring it on!"

The Sword Saint accepted the challenge boldly.

Inside the formation, the battle had yet to commence, yet the Monarchs were already fighting outside the formation.

Multiple top Monarchs in the current era fought each other.

Everything progressed according to Yuan Wuwang's plan.

Once the Human Monarchs intervened, the Monarchs of other tribes would not just sit back and do nothing.

No matter how strong the human race was, they were just one tribe.

The Monarchs of all the other tribes combined were definitely more than they had in the human race. If not for the constant dispute between different tribes that led to discord, they could have teamed up and wiped out the human race a long time ago.

Now, the chance has finally presented itself — Chu Kuangren.

No matter how much the different tribes hated or disliked each other, they reached an agreement to remove Chu Kuangren.

He became the reason that all the other tribes decided to unite.

"You shall not hurt the Child of Light!"

The Radiant Goddess arrived, but an Undead Monarch stopped her.

"Radiant Goddess, the Radiant Tribe should stay out of this."

To fight Chu Kuangren, all the tribes were involved.

The Radiant Tribe was just an average tribe among the others, but the Radiant Goddess did not back down.

"I don't mind fighting."

"Nicely said, my dear sister."

Laughter sounded, followed by a blanket of darkness.

At that moment, the Dark Demonic Ruler arrived.

He looked at Chu Kuangren trapped in the formation, and his eyes gleamed. "I can't let all of you take his fortune energy."

"What are you doing here?" The Radiant Goddess was baffled by the Dark Demonic Ruler's arrival.

"Come on, let's put our conflict aside first. We have a common goal now, don't we?" The Dark Demonic Ruler chuckled.

The Radiant Goddess grunted but did not attack him.

"Monarch Chu, I'll assist you!" The Soul Tribe Leader arrived as well.

With the Soul Tribe closely working with the Pan Gu Sect and Hun Meier's voluntary stay at the sect, the Soul Tribe could not sit that out.

"Let's go!" Mingyue Wuxia said with a frosty expression.

"Yeah!"

Lan Yu, Chu Hong, and the others nodded.

Just like that, the Monarchs of the Pan Gu Sect had joined the battle.

An unprecedented battle royale of Monarchs happened outside the formation, stunning all the other viewers.

"This is huge! Other than the human race, there are quite a lot of tribes who took Chu Kuangren's side too."

"One man to connect them all, huh? Chu Kuangren is well-connected with other tribes. Whoever goes after him will surely trigger a huge chaos."

"I just didn't expect one man to be able to cause such a large-scale battle. Monarchs have been popping up everywhere!"

"This is terrifying!" The Monarchs outside the formation fought fiercely.

It was no longer a battle just to eliminate Chu Kuangren; it had escalated to a battle between the human race and all the other tribes.

Luckily, the battle was happening in the Fortune Earth World, and no one would actually die.

If it were back in the real world, that scale alone would have shaken the Infiniverse.

In fact, even the battle happening in the Fortune Earth World would shift the hierarchy of power in the real world because of the fortune energy's effect, and it should be taken seriously, especially the one with Chu Kuangren.

If he lost, his ridiculous amount of fortune energy would be seized by all the tribes, and it would be a huge loss to the human race.

The human race might decline in the future and cease to produce any Monarchs.

"Damn it! Dao Lingtian, are you out of your mind?"

A shout echoed across the sky, followed by a boundless aura scattering in the air.

The Manifa Forefather had arrived.

He glared at Dao Lingtian and shouted, "Dao Lingtian, stand down! Why are you teaming up with the foreign tribes against the human race? Are you insane?"

The Manifa Forefather disliked Chu Kuangren, but he knew his priorities.

If Chu Kuangren were to lose in the Fortune Earth World, he must lose to another human, not a foreign tribe.

Dao Lingtian's expression shifted multiple times when he heard the forefather. However, he said sternly, "Forefather, just watch. I will defeat Chu Kuangren and take his fortune energy. I will lead the Manifa Destiny Sect in the future!"

He could not step away now.

He had to fight! Only by beating Chu Kuangren and gaining a massive amount of fortune energy could he go back to his sect with leverage.

No matter whether the forefather disapproved of his actions, he would be forgiven, given his talents and the fortune energy he gained from defeating Chu Kuangren.

Chapter 2423 Against The World, Truly Overpower The Era, Yuan Wuwang Attacks

"Spatial Tribe, Dragon Tribe, Fate Defiant Masters, Six Eyes Tribe..."

Chu Kuangren glanced over all the Monarchs and, in the end, landed his gaze on Dao Lingtian.
"Even a Human Monarch trying to kill me?"

Then, he sighed and said, "Sometimes, I really wonder what I did wrong. Why is the world against me? Is it because of the blood on my hands, and all of you want to kill me for revenge? Is it because of the fortune energy I possess, and none of you can accept how lucky I am? Is it because the Pan Gu Sect that I founded threatens your existence?"

"Oh, world... Oh, Universe..."

Chu Kuangren lamented, and his eyes suddenly turned fierce. He shouted, "Universe! How dare you stand against me?"

His words provoked everyone in the universe.

Chu Kuangren's aura rose sharply, and an unimaginably powerful Monarch aura erupted, shaking the sky and trembling the land.

All the Monarchs were shocked.

Yuan Wuwang's expression shifted. "How? He's trapped in the Heavenly Fate Defiant Dragon Formation together with the Void Roulette's power! How can he release such intense energy? I-It's impossible!"

Domineering and unrivaled Monarch aura scattered across the field.

The aura from the formation that rivaled ten thousand Monarchs could not hold him back either.

He swung his sleeve, releasing Daoist law energy that surrounded him like planetary rings. He stood firm in his white robes, releasing an aura so powerful that it overpowered the Infiniverse!

"Today, I shall let all of you know what it means to be the Monarch who overpowers the entire era!"
Chu Kuangren hissed.

"Swoosh!"

His figure disappeared.

The aura of ten thousand dragons did nothing to restrict his movements.

In the next moment, he appeared before Dao Lingtian with a frosty gaze. He raised his finger at Dao Lingtian and channeled Daoist law energy at the tip.

"I hate traitors the most."

Those impassive words rang in Dao Lingtian's ears.

Then, Chu Kuangren pointed his finger that contained the Universal Genesis Daoist law forward. The pierce energy formed a massive golden finger that could penetrate the universe!

"No! Violet Qi Burst, Nine Thousand Miles!" Dao Lingtian roared and channeled his energy to the limit.

Violet qi erupted and blanketed the area instantly. It crashed toward Chu Kuangren like a tidal wave, but it was useless.

The golden finger perforated the violet qi across miles like a piece of paper.

The attack crushed Dao Lingtian into bits.

No matter the plans Dao Lingtian had or the ambitions he possessed, everything ended with the pierce.

"This isn't good!" Yuan Wuwang's heart sank. "Hurry up!"

After he gave the order, he rose into the sky and infused even more Fate Reversal energy into the formation, attempting to restrict Chu Kuangren with a stronger aura.

The Spatial One went over to the Void Roulette and infused endless Spatial energy inside, making it shine even more.

The power from the weapon and formation combination reached a greater height.

At the moment, the other cultivators made their moves as well. Be it Monarchs or Grand Dao cultivators, all of them attacked Chu Kuangren together.

Great Dao cultivation technique, Hongmeng cultivation technique, and even the rarest Ultimate-level cultivation technique, as well as all kinds of Daoist law energies, were blasted at him.

The sea of energy came crashing down.

Even a First Step Monarch would be crushed to bits instantly, yet Chu Kuangren stood still with a frosty look on his face. His aura was constantly rising.

The nine hundred and eighty-one formations on his body activated, the Heaven-devouring Technique was cast to absorb the spiritual qi across a billion kilometers, and the Heavenly Human Art siphoned energy from the realm.

With three Ultimate-level cultivation techniques activated, Chu Kuangren's energy skyrocketed and reached a terrifying level.

Then, runes shone brightly all over his body.

"Bang! Bang! Bang!"

The sea of Daoist law energy crashed on Chu Kuangren.

The explosion of energy was blinding, blasting the area to chaos.

Amidst the chaos, the refuted energies formed a turbulent zone around the area.

The figure in white could be vaguely seen standing in the center of the turbulence.

"With so many of us attacking, not even Chu Kuangren can escape this!"

"Yeah! All of us attacked together! We'll surely beat him!"

"But I don't feel an increase of fortune energy. It means he's not dead, but he should be heavily injured."

"Wait, look at that..."

Someone cried in shock.

White Immortal Sparks shone in the center of the chaos, and the white figure walked out.

It was Chu Kuangren!

He had runes and vitality qi circulating him.

Every time the rampaging energies hit him, they were all canceled out.

"All Law Indestructible Physique!"

Zhu Yang's eyes widened in fear.

He knew Chu Kuangren had cast the Ultimate-level cultivation technique recorded in the Divine Physique Seal — the All Law Indestructible Physique. Once that cultivation technique was fully mastered, it could produce a unique energy that could cancel out all Daoist law energy.

Zhu Yang cultivated it as well. In fact, Chu Kuangren had copied it from him using the Limitless Cultivation!

Yet, Chu Kuangren's mastery of the technique far surpassed his own.

"Sword Twenty-three!"

Chu Kuangren pointed his sword hand sign upward and slashed down.

"Bang!"

A rampaging sword qi rose to the sky.

The sword qi multiplied rapidly and quickly formed a tidal wave, sweeping everything in its path.

All the cultivators caught in it were eliminated instantly, and Chu Kuangren absorbed all the fortune energy from the cultivators he defeated.

"Damn it!"

Zhu Yang, who was struck as well, was sent flying away.

He looked grimly at the Spatial One and Yuan Wuwang and shouted, "Why isn't your formation and weapon combination working? Why is he still so strong?"

Even Yuan Wuwang was baffled.

According to his understanding, Chu Kuangren was trapped in the Heavenly Fate Defiant Dragon Formation and should be pinned down by the tremendous amount of pressure.

How could he still possess so much power?

"Wait, that's..."

Suddenly, Yuan Wuwang noticed something, and his eyes widened.

He realized there was a strange energy circulating Chu Kuangren, which he was, in fact, exceptionally familiar with.

It was the Fate Reversal energy, the unique energy that the Fate Defiant Masters used!

"I see. That explains a lot..."

Yuan Wuwang finally understood what was happening.

Chu Kuangren was resisting the formation using the Fate Reversal energy!

The formation was formed using Yuan Wuwang's Fate Reversal energy, and it would not work on Fate Defiant Masters.

Chu Kuangren must have realized it and used it to free himself from the formation.

"Damn it. I should have guessed he had a way to break out, but I didn't expect it to be the Fate Reversal energy!" Yuan Wuwang was surprised, to say the least.

Nevertheless, he recalled the Fate Reversal energy.

Since the formation no longer worked on Chu Kuangren, there was no need to continue using it. He stepped forward and attacked Chu Kuangren.

"Chu Kuangren! Have a taste of this!"

Yuan Wuwang channeled his Fate Reversal energy into a massive saber.

He swung the saber downward with the power of an Ultimate Monarch!

Chapter 2424 Overpower Yuan Wuwang, Limitless Primal Infernal Dragon, Sudden Flash
The aura of an Ultimate Monarch erupted.

An intense and boundless aura caught Chu Kuangren and enveloped him whole.

"Ultimate Monarch? It's not like I've never killed one before," Chu Kuangren scoffed.

He then pointed his sword hand sign and shot his sword qi forward.

"Bang!"

The sword and saber clashed, setting off a powerful energy storm.

The powerful shockwave pushed Yuan Wuwang back for more than ten steps. He looked at Chu Kuangren with a grim gaze. "You are indeed the most troublesome Master of Destiny!" "You are wrong! It's troublesome for you not because I am the Master of Destiny but because I am Chu Kuangren, and you shall kneel before me!"

Chu Kuangren pointed his sword hand sign again and used one of his strongest attacks, Sword Twenty-four!

With Chu Kuangren's current strength, the Sword Twenty-four became a sword shadow that could penetrate the heavens. The attack was aimed at Yuan Wuwang.

Outside the formation, the Sword Saint noticed the usage of Sword Twenty-four, and his widened in shock. "It's powerful!"

The power of Sword Twenty-four surpassed that of when he fought Chu Kuangren. It meant Chu Kuangren did not use his full strength during his little spar with the Sword Saint!

"Fate Defiant Dragon Slash!" Yuan Wuwang roared.

Endless saber rays shone and formed a white dragon shadow in the void. The dragon shadow roared as it lunged toward Chu Kuangren's sword shadow.

However, the shockwave from the clash sent Yuan Wuwang flying again.

The Great Dao in his body was close to shattering.

"He's almost as strong as an Unlimited Great Dao Realm cultivator!" Yuan Wuwang was shocked.

He might be an Ultimate Monarch, but he was still far from achieving the Unlimited Great Dao Realm.

He was no longer Chu Kuangren's match!

Fortunately, he was not alone.

"Avatar!" Zhu Yang shouted and immediately channeled his Infernal Dragon energy.

A massive avatar appeared, followed by a burst of time energy that instantly slowed down time around Chu Kuangren.

Not only Zhu Yang but all the other Monarchs channeled their strongest attacks.

The Celestial Divine Monarch summoned endless Celestial Divine Light in his hand and shot a blinding ray at Chu Kuangren.

The Six Eyes Monarch activated his Six Eyes and channeled the destiny energy in him.

The Nine-Headed Monarch roared and unleashed nine different elemental breath attacks that converged into a torrential stream.

The Spatial Monarch channeled his spatial energy to summon a powerful void edge from nothing.

The different attacks of the Monarchs could easily wipe out a universe.

Some attacked with their avatars, some their Ultimate-level cultivation technique, and some even used their domains to seize Chu Kuangren.

The first attack that landed on Chu Kuangren was the boundless time energy. The time around Chu Kuangren slowed down to a freeze.

"Oh, this is the Primal Infernal Dragon's technique, but yours is much weaker," Chu Kuangren hummed. Then, Daoist light shone around him.

"Limitless Primal Infernal Dragon!"

"Kabaam!"

Time energy that was ten times more powerful erupted, shattering Zhu Yang's time energy.

Even the incoming attacks were all slowed down to a freeze by the terrifying time energy.

Suddenly, everyone saw a crimson figure emerging from the river of time. The person wore a pale white skeletal mask with meticulous patterns carved on it, and the pair of dark golden eyes behind it emanated a domineering aura.

It was the Primal Infernal Dragon!

"Impossible!" Zhu Yang gasped in shock.

The Primal Infernal Dragon had reappeared in the present!

"No! He's Chu Kuangren!" Someone else explained, "He has the Human Ancestor's technique that allows him to quickly master other people's cultivation technique. He can also transform into someone else!"

Transform into someone else?

Everyone looked at Chu Kuangren curiously.

When they looked into the dark golden eyes, they felt like their souls were frozen by a powerful time energy.

The indescribable aura almost suffocated them. No one believed it was just a disguise or a cover!

It was the Primal Infernal Dragon himself!

"Have a taste of the real Infernal Dragon energy!"

The Primal Infernal Dragon, or Chu Kuangren, rose into the sky and released a boundless dragon aura.

The vast dragon qi and the Infernal Dragon Flame then gathered behind him to form a massive golden eye in the sky.

"Infernal Dragon Eye, Silence Realm!"

Time energy gushed outward, silencing the realm.

The avatars, cultivation techniques, and all kinds of abilities and domains froze.

"Infernal Dragon Eye, Fleeting Beauty."

Infernal Dragon Flame enveloped the void, summoning beautiful fiery lotuses in the sky. Time flew by faster than usual without anyone's notice as the lotuses bloomed, and the frozen attacks rapidly faded.

It was as if they had been through lightyears in a blink of an eye.

However, that was not the end of it. When the fiery lotuses landed on the cultivators, they started to lose their vitality qi. Some weaker ones saw a huge boost in their cultivation while the time energy corroded them.

They were delighted by the unexpected boost of energy.

"The fiery lotuses are accelerating our time!"

"It gave us a few million years of cultivation! Haha, Chu Kuangren! Are you helping us cultivate?"

Some of them cackled excitedly as they reached the Monarch Realm in an instant, whereas some of them felt indescribable fear.

Millions of lightyears went by in just a blink of an eye?

What kind of technique was that?

Did Chu Kuangren truly help them with increasing their cultivation levels?

"The power siphoned from time isn't that easy to control," Chu Kuangren said with a grin.

As soon as he said, the cultivators who saw a huge boost in their cultivation were horrified.

The energy in them continued to skyrocket, but their bodies started to deteriorate and age rapidly.

As the aging body and surging energy clashed in them, their bodies broke down, and they quickly reached the end of their lives.

"Bang! Bang!"

All of them exploded into clouds of blood mist, one after another.

It was like bloody flowers blooming in the sky.

The youthful beauty was but a moment.

No matter how beautiful a flower was, it would wither someday.

It would start to wither at its most beautiful state and ultimately end in death and destruction.

Its beauty would last for a fleeting moment before it fell off.

"I can't believe he has mastered the time energy to this extent!" Zhu Yang exclaimed, his voice trembling.

What Chu Kuangren did was something he could never achieve in his life.

As an Infernal Dragon, his mastery of time was far inferior to that of a human, and that impacted his confidence.

"What kind of cultivation technique is that?"

"Damn it!"

"Is the Human Ancestor's cultivation technique so powerful?"

Not only the cultivators who fought Chu Kuangren inside the formation but even the cultivators outside the formation were shocked.

They had heard of the Limitless Transformation and knew it allowed Chu Kuangren to copy cultivation techniques.

They knew it was powerful but not to the point that it allowed him to transform into the Primal Infernal Dragon, a Primal God.

It was difficult for them to wrap their heads around the fact, especially the Heavenly Saint.

He desired the Limitless Cultivation, yet he could not attain it.

For that, he envied and hated Chu Kuangren.

Chapter 2425 Attack of the Future, Limitless Void Ruler, Fortune Harvest

Chu Kuangren transformed into the Primal Infernal Dragon and went on a rampage inside the formation set up by Yuan Wuwang.

His rampant time energy eliminated countless cultivators, and not even a Monarch could fight it.

It was because he wielded the power of a Primal God!

"Infernal Dragon Eye, Heaven Earth Darkness!"

Zhu Yang rose into the sky and summoned the massive Infernal Dragon Eye behind his back.

Time energy transformed into a domain of darkness, trapping Chu Kuangren inside.

Chu Kuangren scoffed, and his own Infernal Dragon Eye gleamed.

The corrosive time energy could get nowhere near him.

He clapped his hands in the void and formed a massive sword shadow using the Time Daoist law energy.

"Infernal Dragon Sword!"

The sword shadow was swung at Zhu Yang. Zhu Yang raised his hand to block it, but the sword went through his body.

"What?"

Surprisingly, he did not feel any pain or discomfort in his body.

The slash did not work?

No! Suddenly, he sensed something, and his eyes widened in fear. The Infernal Dragon Eye behind him shone brightly as if trying to resist something.

"It's too late," Chu Kuangren said.

"Bang!"

Blood splattered from Zhu Yang's body.

Everyone else was stunned.

What happened? Did the slash work? Why now? Why the delay?

"I see... Chu Kuangren's slash did not attack Zhu Yang of that moment, but it attacked Zhu Kuang of this moment!" a Monarch said.

Many other cultivators came to their senses when they heard the man.

The slash did not attack the target in the present but the target in the future!

In other words, the slash did not kick until after a slight delay, which was a certain time in the future.

It might be a second later, a minute later, or even a day later. Worse, it might happen millions of years later.

"How the hell are we going to block that?" a cultivator said as he gulped nervously.

Not even Zhu Yang, a Monarch who had mastered the Time Dao, could block a future sword attack, let alone the others.

It was absurd! "Why? How? How did you master time to this extent? Have you really turned into the Primal Infernal Dragon?" Zhu Yang glared at Chu Kuangren.

He still could not believe how ridiculous the Limitless Transformation was. "You're just too shallow-minded," Chu Kuangren said.

He then raised his hand to deliver the final blow.

He transformed into the Primal Infernal Dragon using the Limitless Imitation. Although he could not achieve the prime form of the Primal Infernal Dragon, a sliver of the Primal God's power was terrifying enough.

Suddenly, lights shone from all directions.

At a closer look, the light rays were chains, and at the other end of the chain were Spatial Tribe cultivators.

The leader was a Spatial Monarch. He was extremely powerful, and Chu Kuangren found his powers familiar. "Oh, it's you. Void Spirit King," Chu Kuangren said.

The man was none other than the Void Spirit King, the Ultimate Monarch Chu Kuangren met when he wreaked havoc in the Void Prison.

He, too, was part of the plan against Chu Kuangren.

"Chu Kuangren, you shall pay with your fortune energy for what you did at the Void Prison!" the Void Spirit King bellowed.

As soon as he said that, the chains around Chu Kuangren released a powerful restrictive spatial energy that locked him down.

The Spatial Tribe cultivators pulled the other end of the chains and infused even more energy into it.

The chains were a Premium Hongmeng Supreme Treasure, so not even a Monarch could easily break free from its restraints.

However, Chu Kuangren scoffed. "Naive."

Infernal Dragon Flame and time energy continued to burn the space around him, causing the void around him to collapse and ruin the restrictive spatial energy.

"Nine Void Restrictions!" High up in the sky, the Spatial One bellowed, and the Void Roulette was activated.

Runes appeared and intertwined into nine halos that descended from the sky, catching Chu Kuangren within. As the haloes contracted on him, powerful spatial energy that could crush a universe attacked him relentlessly.

"Kabaam!"

Following a deafening explosion, a light pillar shot up into the sky and impacted the entire Heavenly Fate Defiant Dragon Formation.

"Did we win?" the Spatial One muttered as he stared at the fading light pillar.

The Nine Void Restrictions was the strongest attack he could unleash using the Void Roulette.

With an Ultimate Supreme Weapon, plus an Ultimate cultivation technique and the assistance of an Ultimate Monarch, the Void Spirit King, the Spatial One could not imagine that Chu Kuangren would survive the attack. Even if he survived, he would be heavily injured.

"Void Tribulation!"

A boundless Spatial Daoist law energy erupted and spread outward like waves.

Mountains were leveled; lands were crushed.

All the Spatial Tribe cultivators were caught by the wave and eliminated on the spot. Even the Void Spirit King was blasted more than a hundred kilometers away.

The Spatial One and his Void Roulette were shot down from the sky as well.

"This energy... No way..."

The Spatial One's expression shifted.

At that moment, a white light emerged from the void.

The entity inside the light was an existence that was out of this world. The vast Spatial Daoist law energy around him made him look like he was the terrifying ruler of space!

"The Void Ruler?" the Spatial One cried in a trembling voice.

The other Spatial Tribe cultivators were similarly shocked.

Not only could Chu Kuangren transform into the Primal Infernal Dragon, but he could even transform into the Void Ruler!

How was it possible?

"Have a taste of the true horror of space," Chu Kuangren said coldly.

He opened his arms, releasing rumbling Spatial Daoist law energy that hit the void in waves.

The entire Heavenly Fate Defiant Dragon Formation shook violently.

Even more cultivators were eliminated by the attack, including Monarchs.

"We're no match for him!"

"Monster! He's a monster!"

"He's a monster who can transform into the Void Ruler and the Primal Infernal Dragon! How are we supposed to stop him? We can't! We just can't!"

Some of the cultivators were devastated already.

They finally knew what it meant to overpower the entire era.

"I refuse to believe he has unlimited energy! There are so many of us! We can exhaust his energy if we work together!"

"Yeah! Kill him!"

Some of the Monarchs refused to give up.

They had planned it meticulously and gathered so many cultivators.

How embarrassing would it be for their tribes if they failed to kill Chu Kuangren, especially in front of the entire human race?

With that, all the cultivators attacked once again, and Chu Kuangren did not back down either, as he stood against a million cultivators alone.

As he went on a rampage, endless fortune energy gathered upon him.

He could feel the Fortune Kingdom's core in his body resonating as it absorbed the fortune energy.

"This is fun!" Chu Kuangren laughed hysterically.

One palm strike and he eliminated more than ten thousand cultivators.

He then reverted to his own self and used the Heaven-devouring Technique to absorb their Daoist law energy and Great Dao energy to replenish his depleted energy pool.

"Sword Twentyfive!"

Chu Kuangren pointed his sword hand sign forward and unleashed a slash.

Zhu Yang was eliminated on the spot.

However, the slash continued forward with indomitable power, eliminating even more cultivators.

While Chu Kuangren continued his killing spree, the Fortune Earth World suddenly trembled.

A light pillar burst up into the sky somewhere in the Spirit World, and the cultivators who sensed it immediately stopped fighting, including Chu Kuangren.

Chapter 2426 Channel Massive Fortune Energy, You Think I Can't Break It? White Avatar Appears

"This aura..."

Chu Kuangren narrowed his eyes. As they had been exploring the Fortune Earth World for a while now, they were starting to sense the fortune energy better. Within that pillar of light that pierced the sky contained a boundless fortune energy, and its magnitude was greater than anyone could have imagined. It was even more than what Chu Kuangren possessed.

Everyone's eyes were fixed on the light pillar.

"What fortune energy is that?"

"Look! Something is inside the light pillar!"

Floating inside the light pillar was a rainbow ball, which was the source of the boundless fortune energy!

"This rainbow ball must be something produced by the Fortune Earth World!" "The Fortune Earth World must've absorbed half of all the fortune energies of those defeated in the battles, and I bet that ball is the cultivation of the fortune energies. If I can get my hands on it..."

Everyone breathed heavily.

There were billions of cultivators in the Fortune Earth World. With that many cultivators killing each other, the fortune energy they lost upon defeat had all culminated into the rainbow ball of light. Even Chu Kuangren's Fortune Level was nothing before that rainbow ball of light. "That ball of light is mine!" Cultivators were already making their way toward the massive amount of fortune energy. The Human Empress, Earthen Monarch, and the others could not sit back and watch the other tribes get it either.

"Hmph! Dream on!"

"You'll have to get past us to get the fortune energy!" Following the appearance of the rainbow ball of light, the already messy battlefield turned even more chaotic. What started as the human race versus all the other tribes had escalated into a complete battle royale where everyone fought each other. They were all each other's enemies as all forces wanted to get their hands on the fortune energy.

With more cultivators defeated and eliminated in the battle royale, half of their fortune energies were absorbed into the ball of light.

It verified everyone's speculation.

The ball of light was indeed the culmination of their fortune energy.

"Hahaha! This fortune energy is mine!" The Heavenly Saint approached the ball of light with eagerness and greed.

Once he got the fortune energy, he believed he could rule over the Infiniverse and possibly master the Limitless Transformation Technique! He could definitely do it! He was no weaker than Chu Kuangren! Moreover, Chu Kuangren must have mastered the Limitless Transformation Technique because he had an abundance of fortune energy!

If the Heavenly Saint got that much or more fortune energy, he could do it as well!

With that in mind, the Heavenly Saint reached out to the ball of light.

He could feel the blessing from the ball of light already. Unlike the Daoist law energy, the fortune energy was much more mystical.

He felt that his fate was changing. However, before he could absorb it all, a powerful palm energy struck him.

A Monarch from a different tribe blasted him away.

"Heavenly Saint, this fortune energy doesn't belong to the human race!"

"Yeah! The human race already has Chu Kuangren! If the human race gets this too, we will never be able to beat them!"

"You're right!"

With that, several Monarchs engaged the Heavenly Saint in a fierce fight, and the other cultivators continued to fight each other.

Meanwhile, inside the formation, the Spatial One was distracted by the massive amount of fortune energy outside. He, too, wanted to compete for it.

Hence, he tried to fly out of the formation but was stopped.

The Heavenly Fate Defiant Dragon Formation could not only block external forces, but it could also trap someone inside. "Yuan Wuwang, let me out!" the Spatial One shouted.

He had to get his hands on the fortune energy! With that amount of fortune energy, he would no longer be afraid of Chu Kuangren and could easily defeat the latter in the future.

"No!"

Yuan Wuwang narrowed his eyes and denied the Spatial One's request.

He glared at Chu Kuangren and said, "Once the formation is removed, Chu Kuangren will regain his freedom, and if he gets the fortune energy, it will be almost impossible to fight him anymore. I cannot allow that to happen!" "He won't! The cultivators of different tribes are out there! Chu Kuangren won't be able to get the fortune energy!" the Spatial One argued anxiously. "What if he does? What if he did it?" Yuan Wuwang bellowed. His eyes were burning with flames of anger. "I would rather give up on the fortune energy than give one-millionth of a chance for Chu Kuangren to get it."

The Fate Defiant Masters existed to oppose the Master of Destiny.

They devoted their lives to the Reversal God, so they were prepared to sacrifice everything just to stand against fate or destiny. Yuan Wuwang might have lost confidence in killing Chu Kuangren, but he could not allow Chu Kuangren to have the chance to grow stronger.

"You have quite the awareness." Chu Kuangren chuckled.

He then looked at the fortune energy outside the formation. The core of the Fortune Kingdom in him was buzzing fiercely. It wanted the fortune energy!

It released a strange energy fluctuation, and the massive fortune energy also sensed its calling as well. With that, the fortune energy started to move toward the formation!

"What is going on?" Everyone was shocked that the massive fortune energy was moving toward Chu Kuangren.

"What is going on? Why is the fortune energy moving toward Chu Kuangren? Is he really the chosen one in this era?"

"Why? He already has so much fortune energy! If he gets this, he will be unstoppable!"

"Damn it..."

The Monarchs were jealous and enraged.

They all looked angrily at Chu Kuangren, who seemed to have all the good things in the universe.

"We must stop him!" "Even if we don't get this fortune energy, we can't let him get it!"

"You're right!" The Monarchs fighting each other suddenly reached an accord and started to team up against the fortune energy.

They wanted to disperse it.

However, the Human Empress, Earthen Monarch, and the others could not allow it to happen.

"Stop them!"

The Human Monarchs intervened.

"Kabaam!"

Just then, the massive amount of fortune energy crashed onto the Heavenly Fate Defiant Dragon Formation and was stopped outside. It could not enter the formation.

Yuan Wuwang laughed. "Hahaha! Chu Kuangren, I have no idea what you did to attract the fortune energy, but as long as the formation is here, no matter what you do, you won't be getting your hands on this fortune energy!"

He was glad he did not remove the formation when the Spatial One requested it.

Otherwise, Chu Kuangren would have gotten the fortune energy already. At the same time, he feared Chu Kuangren even more. He did not expect Chu Kuangren to have a way to attract fortune energy to him.

Chu Kuangren was always full of surprises.

"Do you really think I can't break your formation?" Chu Kuangren scoffed.

Yuan Wuwang's heart skipped a beat.

The next moment, three thousand Daoist law energies erupted from Chu Kuangren.

The Daoist laws intertwined into a white avatar behind him and shook the world with its presence.

Chapter 2427 Terrifying White Avatar, One Slash Kills And Breaks

Three thousand Daoist laws intertwined and manifested into a white avatar.

Following the appearance of the avatar, endless light erupted from it.

Everyone felt an unprecedented aura, more powerful than an Ultimate Monarch's, pressuring the realm.

The appearance of the white avatar silenced the entire battlefield.

The avatar's white robes were pure as snow, and its eyes were as bright as the sun and moon.

Above its head were countless conjurations, its feet stood on the balance of Yin-yang and Chaos, it controlled the cycle of rebirth in its hands, and tens of thousands of Daoist laws surrounded it like planetary rings.

It was extremely powerful.

From what they felt, the crowd believed a sliver of the avatar's unprecedented power could crush the Infiniverse.

It was the universe's first time seeing the avatar, and it horrified everyone.

"Oh my god! What avatar is that?"

"Is that Chu Kuangren's avatar?"

Everyone gulped nervously as they looked at the avatar in disbelief.

The Spatial One, Yuan Wuwang, and the others were shaking uncontrollably.

"This avatar might be able to break the Heavenly Fate Defiant Dragon Formation!" Yuan Wuwang muttered.

As his gaze turned grim, he bellowed, "Do not let him break the formation! Get him! We cannot let him get the fortune energy!" His shout forced everyone to come back to their senses. Chu Kuangren's Fortune Level was already out of this world. If he got his hands on the extra fortune energy, he would be able to rule over the Infiniverse, and all the other tribes would not be able to defy him anymore!

"Kill him!"

As the cultivators rushed forward fearlessly, the white avatar behind Chu Kuangren simply raised his hand.

"Bang!"

The void exploded, shooting out beams of Daoist law rays at the attackers.

Primordials, Supreme Honorable Great Dao, and even Pseudo-Monarchs were obliterated by the rays.

"Domain expansion!" Three First Step Monarchs managed to get close to Chu Kuangren and had him surrounded.

They expanded their domains, attempting to suppress him.

Yuan Wuwang and the Void Spirit King attacked as well. With their Ultimate energies channeled, they released their powerful attacks to flank Chu Kuangren from left and right.

The Spatial One summoned his avatar, and the Void Roulette about him shone brightly, boosting his avatar's power.

Three differently powerful attacks, consisting of domains, avatars, and Ultimate techniques, were thrown at Chu Kuangren with indomitable force.

Seeing that, Chu Kuangren grinned.

"Is that it?"

He closed his fist in the void, and with a bang, the void exploded.

The white avatar moved once again.

It grabbed the void, controlling Yin-yang, Genesis, Life-Death, and all kinds of Daoist law energies in between its fingers before punching forward.

The void shattered like a massive mirror.

The domains of the three First Step Monarchs were crushed, and the three of them were hit by an impact they had never felt before, sending them flying away.

One of them instantly exploded and was eliminated.

Before the powerful strike, the Void Spirit King and Yuan Wuwang's Ultimate energy dispersed. The two Ultimate Monarchs were also blasted several hundred kilometers away. The Spatial One, the strongest Prodigy of the Spatial Tribe Prodigy, had an avatar that rivaled the domain's powerful energy. Coupled with the Void Roulette's boost, his power could easily obliterate common Monarchs.

Yet, he could not take a punch from Chu Kuangren's avatar either.

Just one punch and his avatar was shattered. As he was sent flying away with his Void Roulette, he spat out a mouthful of blood.

He glared at Chu Kuangren with his bloodshot eyes. "Impossible! How could such a terrifying avatar exist in the universe?" There should be a limit to how strong an avatar could be, but the rule did not seem to apply to Chu Kuangren.

One punch from the avatar and the Spatial One's avatar was destroyed together with the domains of three Monarchs and the Ultimate energies of two Ultimate Monarchs.

No one had ever heard of such a powerful avatar, let alone seen one. "I will do whatever it takes to stop you from taking the fortune energy!" Yuan Wuwang roared and immediately reversed his Great Dao!

His aura rose sharply. The Void Spirit King did the same. Since they would not die in the Fortune Earth World, there was no risk in reversing their Great Daos.

The other Monarchs followed suit to boost their Monarch's aura.

As for the remaining cultivators, they disregarded everything and used their respective life-threatening cultivations just to put an end to Chu Kuangren's reign.

Chu Kuangren was not surprised by the cultivators risking their lives to take him down.

He stepped forward, further releasing his avatar's powers.

The power of three thousand Daoist laws crashed forward like a tsunami, shaking not only the land but also the sky. All cultivators below the Monarch Realm were eliminated instantly.

Chu Kuangren then raised his hand, summoning a crystal sword. The blade of the sword shone brightly.

It was the Human Ancestor's sword! The sword boosted Chu Kuangren's energy level higher.

"This sword here can kill and also break formation!" Chu Kuangren said.

The white avatar behind him also summoned a sword shadow using the Daoist law. It raised the sword, releasing an even more powerful energy that shook the universe.

Before the sword was swung down, the Heavenly Fate Defiant Dragon Formation was already shaking.

"Be careful!" Yuan Wuwang's eyes widened in fear.

Even without his reminder, all the other Monarchs could already sense how powerful that slash would be.

Everyone's expression turned grim.

Outside the formation, the Sword Saint witnessed the attack Chu Kuangren had prepared, and his eyes burned with eagerness. "Let me see how strong the ultimate Sword Dao technique is." Everyone paid close attention to the slash.

"Sword Twenty-six!" Chu Kuangren bellowed.

The Sword Great Dao then appeared behind him.

Endless sword qi gushed out from the Sword Great Dao and formed a massive sword shadow that emanated an unprecedented sword aura.

If the slash could cut even the river of time in half, just the gale from the slash alone was strong enough to eliminate the cultivators below the Monarch Realm. As the sword shadow crashed down, the Monarchs teamed up to block it with everything they had. However, their efforts were futile before the ultimate slash.

The moment the sword shadow landed, not one or two but all the Monarchs were eliminated!

All the Monarchs within the formation were overwhelmed by the sword aura of that powerful slash. Before the sword qi, their attacks crumbled like paper. Yuan Wuwang, Spatial One, Void Spirit King, and all the other Monarchs were obliterated, and that was not the end!

The sword shadow then crashed onto the Heavenly Fate Defiant Dragon Formation.

Dragon roars echoed in the sky as the dragon shadows were crushed one after another.

As the formation collapsed, the boundless fortune energy descended from the sky without any hindrance and gushed toward Chu Kuangren.

The Fortune Kingdom's core was so happy that it started to absorb the endless fortune energy like a black hole. The absorption speed shocked even Chu Kuangren, but he was delighted to see it.

With that massive fortune energy, plus his own, he would be able to construct his Fortune Kingdom after this.

Chapter 2428 Doomsday Darkness and Heavenly Sovereign Appears, One Man One Sword Slash All Tribes

As the massive fortune energy entered Chu Kuangren's body, the Fortune Kingdom's core shook to express its joy. However, the other cultivators did not feel the same. Chu Kuangren's fortune energy was already terrifyingly high.

Now that he had gotten another massive boost, it was hard to imagine what greater heights he would reach in the future. One thing was for sure — it would be nothing all the other tribes wanted to see.

"As long as Chu Kuangren is alive, we won't be able to achieve anything!" "Yeah! Chu Kuangren must die!"

"Even if we can't kill him, we'll have to wear down his fortune energy!"

The Monarchs from all tribes united like never before and attacked Chu Kuangren.

All ultimate attacks were cast and aimed at Chu Kuangren.

The Human Empress, Earthen Monarch, and the others fought back with their best, but the number of Monarchs was overwhelming, and they could not block them all.

More than a dozen Monarchs slipped past them and went after Chu Kuangren.

"Hmph! Fools." Chu Kuangren grunted.

Then, the white avatar behind him shone brightly.

What happened next was a punch that shattered the void. All the Monarchs were obliterated by that one punch.

The Monarchs were but common Monarchs. Some of them did not even have their avatar, so there was no way they could lay a finger on Chu Kuangren.

"Damn it! He's too strong!"

"We're no match for him!"

"Damn it!" Just when the cultivators felt a sense of despair and helplessness, a massive hand appeared in the sky and crashed down with an indomitable power. Even the entire Fortune Earth World shook.

The hand was pitch-black, and Chu Kuangren found the power emanating from the hand oddly familiar. "Doomsday Darkness?" Chu Kuangren narrowed his eyes.

He did not expect the Doomsday Darkness to appear in the Fortune Earth World. On top of that, the Doomsday Darkness had grown much more powerful.

Had he collected all the remaining fragments of his powers?

However, Chu Kuangren was not the same as when he first faced the Doomsday Darkness. Now, he might have a way to counter the Doomsday Darkness, even without the Radiant Seed.

"Sword Twenty-six!"

The white avatar attacked again with its Daoist law sword.

The sword qi rumbled and shook the heavens.

"Bang!"

When the sword and hand clashed, the sword qi and palm energy canceled out each other.

Next, another even more powerful energy erupted, and it carried a hint of nobility.

It was the Heavenly Golden energy!

"The Heavenly Sovereign?"

The Human Empress was shocked to recognize the owner of that unique energy source. Many years ago, the Heavenly Sovereign had fought her, the Earthen Monarch, and the Tempest King. He should have been hurt from the battle, but based on what she felt from him now, the Heavenly Sovereign had almost recovered.

How did he recover so fast when the Human Empress and Earthen Monarch were still recovering?

The Heavenly Golden energy rumbled and manifested into a massive palm. As it crashed down with indomitable force, heaven and earth trembled.

It was even more powerful than the Doomsday Darkness' attack.

In fact, it was close to a full-out attack from an Unlimited Great Dao!

"Mingyue Wuxia!" Chu Kuangren bellowed.

Mingyue Wuxia tacitly understood Chu Kuangren's call. With just a thought, she appeared beside Chu Kuangren and infused the sword spirit energy into Chu Kuangren.

As she had ascended to the Monarch Realm, she could resonate with the Human Ancestor's sword better. Hence, she no longer had to sacrifice her lifespan to boost Chu Kuangren.

When the sword combined with the sword spirit, the Human Ancestor's sword could unleash its true power once again.

Chu Kuangren slashed the sword forward, and the sword shadow glimmered like the Milky Way, carrying indomitable power that managed to tear the golden palm into half.

Then, the sword qi continued forward and crashed onto a mountain ridge.

The entire mountain ridge was leveled to the ground.

However, the Heavenly Sovereign was nowhere to be found.

He might have escaped or been blasted out of the Fortune Earth World.

"Heavenly Sovereign... You will be next!" Chu Kuangren grunted.

He had no tolerance for the traitor.

He turned to another direction but could not see or sense the Doomsday Darkness anymore, which made him ponder.

Was the Doomsday Darkness and the Heavenly Sovereign appearing together pure coincidence, or was it planned?

"Interesting," Chu Kuangren murmured with a frosty glare.

High up in the sky, Chu Kuangren was still absorbing the massive fortune energy into the Fortune Kingdom's core. Everyone was shocked at how fast Chu Kuangren absorbed that amount of fortune energy.

Since the outcome was fixed, all the Monarchs looked at Chu Kuangren with jealousy and grievance.

They looked at him, hoping to kill him in the Fortune Earth World to take his fortune energy away. It was the only chance the other tribes could come up on top.

"Kill him!"

Even though they knew Chu Kuangren was ridiculously powerful, the Monarchs had no choice.

"Hahaha! The human race is always superior to the others!" The Earthen Monarch laughed out loud.

He, too, had thoughts about the massive amount of fortune energy, but he knew there was no way he could get it. If Chu Kuangren already had it, he would just have to let it go since Chu Kuangren was a human and an ally.

"We humans are the main lead of the Infiniverse!" The Human Empress laughed. She spun her umbrella and released blinding rays into the sky, shooting down the cultivators from different tribes.

On the other hand, the Pan Gu Sect cultivators were also engaged in fierce battles.

Even though they risked losing their own fortune energy, they fought with all they had, with no complaints. "As long as the Sect Leader lives, the human race will continue to thrive, and the Pan Gu Sect will be blessed! My little fortune energy is nothing!"

"Yeah! For the Sect Leader!" Many Pan Gu Sect cultivators ascended beyond their limits during the battle.

They were fearless of death, enjoying every second they had battling.

On the contrary, the cultivators from different tribes, albeit fearless of death as well, simply wanted to kill Chu Kuangren. Due to the overwhelming odds, they were more depressed, and it was hard for them to bring out their full strength.

"Die!"

The white avatar behind Chu Kuangren remained strong as he joined the battle royale with the Human Ancestor's sword in hand, eliminating one cultivator with one slash.

Mingyue Wuxia followed him around and continued to resonate with the Human Ancestor's sword. With her assistance, the sword was able to display its full power.

A simple strand of sword qi from it could easily kill a Monarch.

Its power was unrivaled, and it allowed Chu Kuangren to single-handedly fight all the tribes.

After a massacre, Chu Kuangren almost wiped out all the Monarchs as if he were a grim reaper taking lives.

All the tribes cowered in fear.

They looked at Chu Kuangren, horrified.

"We're no match for him!"

"Leave! If we stay, we'll lose our fortune energy! We'll be doing nothing but helping him gain more fortune energy!"

"We must leave!" The cultivators finally realized they were no match. As some started to flee, it started a domino effect, and all the other cultivators started to scuttle away. Demoralized by the result of the battle, the rest of them stopped fighting.

With that, the battle royale finally ended. Someone glanced at the leaderboard in the sky and noticed more than one-third of the cultivators were not on the leaderboard anymore. In other words, more than a billion cultivators were eliminated from that battle alone.

Such a grand scale of battle could only happen in the Fortune Earth World.

If it happened back in the real world, the Infiniverse would collapse.

Chapter 2429 Exit Fortune Earth World, Heavenly Sovereign's Partner, Reversal God

"Monarch Chu, what are you planning to do next?" the Human Empress asked Chu Kuangren.

"Go back to Pan Gu Sect and start cultivating," he said. He could feel that the core of the Fortune Kingdom within him was undergoing drastic changes, so he had to go back and comb through the massive fortune energy. It was time for him to construct the Fortune Kingdom. "That's a wise choice," the Human Empress said with a nod. "Now that you possess so much fortune energy, you're a walking target for the other tribes. Leaving the Fortune Earth World is a good idea."

As long as Chu Kuangren stayed in the Fortune Earth World, it would put him at risk of losing all that fortune energy, despite it being almost impossible.

After all, one could not be too safe.

Outside the Fortune Earth World, all the cultivators gathered and discussed what happened inside.

"Chu Kuangren is ferocious. He obliterated the cultivators from all the tribes with just one sword. He's scarier than a real monster!"

"Yeah! How is someone like him allowed to exist?"

"From now on, he will be the one in charge of the Infiniverse. With that amount of fortune energy on him, he can do anything. The Pan Gu Sect will benefit from it and rise to prominence."

Most of the cultivators who were eliminated by Chu Kuangren had gathered to vent their grievances. The Spatial One, Zhu Yang, Dao Lingtian, and other cultivators were there too.

When they learned from the other cultivators that Chu Kuangren got that massive amount of fortune energy, their jealousy exploded and almost drove them mad.

"Chu Kuangren! Why is he always so lucky? What gave him the right to possess that much fortune energy?"

"I'm a human too! Why can't it be me?" Dao Lingtian's expression turned sour. He could sense other people's gazes on him. There was no more admiration or reverence but only contempt and disgust.

The second-best Divine Bachelor of the human race should be worshiped and admired by his fellow humans, yet he was looked down upon.

He was as hated as a street rat!

He could not figure out how he ended up in his current position.

The same happened to the Spatial One and Zhu Yang.

One of them was born from the Void Source and possessed the inheritance of the Void Ruler and the Ultimate Supreme Weapon; the other one possessed the Primal Infernal Dragon's blood and the mastery of time. Such Prodigies should have a bright future, yet Chu Kuangren had stolen their limelight. Chu Kuangren single-handedly overpowered them, humiliating them with raw power.

"I cannot accept this..." the Spatial One said with seething anger, his eyes bloodshot.

Then, the door to the Fortune Earth World opened, and people started coming out.

The leader was a man in white robes.

It was Chu Kuangren.

All the other cultivators instinctively took a few steps away when they saw him. After the battle in the Fortune Earth World, they feared him. They were afraid because they were no longer inside the Fortune Earth World.

Once they died, it would be over for real.

"Hah!"

Chu Kuangren scoffed when he saw the cultivators stepping away.

When he walked past the door, the door cracked and the Fortune Level indicator exploded.

Everyone was shocked.

"What happened?"

"Why did the door explode?" "I see. It's Chu Kuangren! Chu Kuangren's original Fortune Level already exceeded the door's detection limit, and now that he has gotten the massive fortune energy from the Fortune Earth World, the indicator can no longer work properly."

The thought made everyone gulp nervously, and they found it unbelievable. How massive must his fortune energy be to destroy the Fortune Level indicator?

"Anyone want to fight again?" Chu Kuangren said with a smile.

All the cultivators stepped back in fear.

It was without a doubt that no one in the infiniverse could overpower Chu Kuangren anymore.

"Fight him? Has anyone lost their minds?"

"Yeah."

Everyone looked at Chu Kuangren with reverence.

Although the Spatial One, Zhu Yang, and others were dissatisfied with the outcome, they could not do anything about Chu Kuangren. As such, they were forced to swallow their grievance.

Seeing that no one dared to challenge him, Chu Kuangren grinned.

His current priority would be to construct the Fortune Kingdom.

With that, he returned to the Pan Gu Sect and refined the fortune energy in his body. As for other affairs, they could wait.

...

Meanwhile, in the void, a figure sitting in the air with his legs crossed and Heavenly Golden energy swirling around him.

The man was a white-haired elderly who resembled an ancient deity.

He was the ex-Adjudicator of the Supreme Council — the Heavenly Sovereign.

He was recovering from his injuries.

Strands of sword qi were being removed from his body one by one.

"The Human Ancestor's sword is really something," he murmured.

When he attacked Chu Kuangren in the Fortune Earth World, he had taken a hit from the slash. Even though he escaped death, some of the sword qi lingered in his body.

Not even the Fortune Earth World could remove it all from his body.

It was proof of how amazing the slash was.

Suddenly, an abyssal darkness energy appeared before him.

A figure emerged from the darkness.

It was a pitch-black figure dressed in black robes, whose face could not be made out. In a more exact term, he was just darkness in the form of a human.

"Doomsday Darkness."

The Heavenly Sovereign was not surprised by Doomsday Darkness' arrival.

"We failed to kill Chu Kuangren, and he got that massive amount of fortune energy. It's only going to get more difficult to kill him in the future," Doomsday Darkness said.

No one knew how they got together.

"Come on, the Reversal God wants to see us."

"Reversal God? About what?" the Heavenly Sovereign asked.

"To discuss Chu Kuangren. If he's not removed, he will be the Reversal God or that lord's biggest hindrance in the future," Doomsday Darkness said solemnly.

"That lord... God Emperor..." A glint flashed in the Heavenly Sovereign's eyes.

"Heavenly Sovereign, that lord isn't someone you can speculate or deduce. If you want to regain the authority of the human race, you will have to work with us," Doomsday Darkness scoffed.

"Let's go then," the Heavenly Sovereign said. The reason he teamed up with Doomsday Darkness was to regain authority over the human race. He knew Chu Kuangren was already in power. In addition to the Supreme Council's support and Chu Kuangren's foundation in the human race, it was nearly impossible for him to regain authority alone.

The only way was to seek help.

The enemy's enemy was his friend.

Since Doomsday Darkness and Reversal God wanted Chu Kuangren dead, they became the perfect partners. The Reversal God was the one who healed his injuries, and it was one of the benefits of working together.

...

Somewhere in space, a massive body was floating in nothingness and restrained by countless chains.

It was the Reversal God, the Primal God who defied fate and destiny and wanted to become a master of his own future!

The Heavenly Sovereign and Doomsday Darkness bowed to show their respect when they arrived.

They seemed puny in front of the Reversal God.

"We're here, Reversal God. What do you want to talk to us about?"

"Let's wait for someone else."

Chapter 2430 Heavenly Sovereign's Plan, Human Empress' Anxiety, Six Eyes Diviner's Reminder

The Heavenly Sovereign and Doomsday Darkness sat with their legs crossed in space.

A while later, someone arrived.

It was Yuan Wuwang, one of the Fate Defiant Four Kings.

"My liege."

Yuan Wuwang knelt before the Reversal God.

"Tell us everything about Chu Kuangren."

"Yes, my liege."

Yuan Wuwang then revealed everything he knew about Chu Kuangren from the fight with him in the Fortune Earth World, including Chu Kuangren using the Fate Reversal energy, Limitless Transformation, and others.

Upon hearing Yuan Wuwang, even the Reversal God fell silent.

"Since the first generation Master of Destiny, Chu Kuangren will be another arch nemesis of us Fate Defiant Masters. I believe he possesses even more potential than the first generation," Yuan Wuwang made his conclusion.

The Reversal God said, "He cannot be allowed to exist anymore. We must eliminate him at all costs! Heavenly Sovereign, it's your turn to prove your worth."

The Heavenly Sovereign went silent for a moment before he said, "I might have some foundation within the human race, but it's not easy trying to kill Chu Kuangren."

"From now on, you can order the Fate Defiant Masters around."

That comment surprised the Heavenly Sovereign.

The Fate Defiant Masters were a sizable force, and the Fate Defiant Four Kings had powers that rivaled Ultimate Monarchs.

If he could use them properly, it would help him a lot in regaining authority in the human race. In order to regain authority, he had to overcome his biggest hurdle, which was Chu Kuangren, one way or another. It was just a matter of time.

With that, he said, "I will do my best not to disappoint you."

...

In Manifa Destiny Sect, a figure scuttled away while being chased by multiple more.

"Dao Lingtian, how dare you defy the forefather's order! Come back with us and accept your punishment behind bars!"

"Yeah! You still have a chance to make things right!"

"Don't force our hand!"

The Monarchs chasing Dao Lingtian tried to persuade him.

Dao Lingtian's expression was grim.

Due to his performance in the Fortune Earth World, the Monarchs of the sect wanted to capture him and punish him for the betrayal, but he refused to accept it.

He believed he did nothing wrong! The only thing he did wrong was failing to defeat Chu Kuangren! Dao Lingtian managed to ditch the Monarchs chasing him, but his actions would make him a wanted fugitive of the Manifa Destiny Sect, and he could never return anymore.

His decision put him at a crossroads. Where should he go next? What should he do?

Suddenly, someone appeared before him. "The second-best Divine Bachelor of the human race is being chased by his own sect. How pitiful."

"Who are you?" Dao Lingtian's expression turned cold.

"Heavenly Sovereign."

"Heavenly Sovereign? The traitor?" Dao Lingtian immediately put up his guard.

He had heard of the Heavenly Sovereign before.

"That makes the two of us."

The Heavenly Sovereign added, "Chu Kuangren has the power of discourse now. If he says we're traitors, we're traitors."

That reminder filled Dao Lingtian with indignation.

The Heavenly Sovereign seized the chance and said, "Join us, and we can overthrow Chu Kuangren and the Supreme Council. With you together, we can regain control of the human race."

"What are you planning to do?"

He knew the Heavenly Sovereign was using him, but he no longer had a choice. Dao Lingtian could never be on good terms with Chu Kuangren after what happened. If someone could help him defeat Chu Kuangren, he would not mind being used.

"I need you to go back to Manifa Destiny Sect..."

...

In the Supreme Council, the Human Empress was cultivating when a sudden feeling made her open her eyes. She frowned. "This feeling... Is someone targeting the human race?"

She started to deduce the future, but all she saw was blurriness.

Someone had blocked her out and prevented her from seeing into the future.

"Someone who can blur out the fate of the future to this extent and prevent me from reading the future must be in the same realm as me. Who could it be?" The Human Empress felt extremely uneasy.

She, who had not fully recovered from the battle with the Heavenly Sovereign and the Void Ruler, sighed and murmured, "What troubled times. I'm still recovering. Even if I want to stop this, I'm not capable in my current state..." Then, she thought of Chu Kuangren.

"Maybe I should have a talk with him at the Pan Gu Sect."

Before she knew it, she had started to rely on Chu Kuangren.

He had grown so strong that she could count on him to solve difficult matters relating to the human race.

When she arrived at the Pan Gu Sect, she learned that Chu Kuangren had been in closed-door mediation since he came back from the Fortune Earth World. He even gave the order not to disturb him, which was rare.

He must be doing something important.

He had assigned Gu Linglong to take care of the sect's affairs before he went cultivating. He also asked the Tempest King, Mingyue Wuxia, and the others to assist her.

"An ominous feeling?"

Gu Linglong and the others pondered when they learned of the Human Empress' concerns. With the Human Empress' cultivation level, she could deduce the past and occasionally sense the future. An ominous feeling was not groundless if it was from her. The Infinity War was an example.

As Monarchs, they were able to sense a war coming to some degree, so Gu Linglong took her words seriously.

"No matter what happens in the future, we need power. We have to be strong enough to turn the tables around," Gu Linglong said.

She was calculating the combat strength the Pan Gu Sect had, especially the Monarchs.

"Unfortunately, I'm still recovering, so I can only use ten to twenty percent of my original strength," the Human Empress said helplessly and shook her head.

She and the Earthen Monarch were some of the strongest Ultimate Monarchs, only a few steps shy of reaching the Unlimited Great Dao Realm.

Even with just ten to twenty percent of her original strength, she could easily rival common Ultimate Monarchs. However, stronger enemies had started to appear more frequently lately, and just being an Ultimate Monarch was not enough for her to lose the concerns.

"You're still recovering? My husband once told me that you cultivate the Creation Dao. Is that right?" Gu Linglong asked.

"That's right."

"Maybe the Pan Gu Sect has a way to help you recover."

Before the Human Empress could say a word, someone came into the room and informed Gu Linglong of a visitor.

Gu Linglong took a look at the visitor and found herself surprised.

"It's you?"

The visitor was a fortune teller whose eyes were closed.

When Gu Linglong first arrived at Myriad Arms City, he did fortune telling for her, informing her of a noble fate.

"Six Eyes Diviner?" The Human Empress recognized him as well.

She had met him once many years ago.

"Human Empress, you're here as well? This is great." The Six Eyes Diviner nodded and saluted at Gu Linglong. "My Matriarch."

"Matriarch?"

Gu Linglong was surprised. When she regained her composure, she asked, "You're with my husband?"

"I am." The Six Eyes Diviner nodded.

"What are you doing here?"

"I saw something." The Six Eyes Diviner pointed at his closed eyes.

"In the near future, the Pan Gu Sect will face a great calamity. In fact, not only the Pan Gu Sect but the entire human race will be affected by this disaster."

The Six Eyes Diviner has been deducing the future in the Divine Destiny Temple for many years, and a while back, he foresaw a disaster befalling the Pan Gu Sect.

Chu Kuangren was in closed-door meditation, so he had to inform Gu Linglong, warning her to be prepared.

"A disaster?" Gu Linglong murmured. Then, with determination in her eyes, she said, "No matter what disaster it is, the Pan Gu Sect will overcome it!"
