

UATC Draw 2461

Chapter 2461 Primal Flame Appears Grand You The Spot Of Nine Honors, Disdainful Monarchs fell like the rain in the God May Cry Domain.

All the Monarchs were being ground into bits by the powerful spatial vortexes, and their blood rained down like a storm.

The scene was gory and terrifying.

Witnessing it used to only be possible in ancient times.

"A devil! A monster!"

"How is this man so scary?"

Everyone was shocked, especially the other Monarchs, who were trembling in fear.

Even Shen Qixue was surprised. "Such powerful Spatial technique. I think other than the Human Ancestor, he's the second one who can possess such powers as an Ultimate Monarch."

"Chu Kuangren, stop it! We surrender!"

"Chu Kuangren, you're waging war against us! The Witchcraft Tribe has a Primal God! Do you have a death wish?"

"That's right! Stop it!"

"Stop this at once. We can still talk this through!"

The Monarchs were afraid.

They tried to surrender, negotiate, and even scare Chu Kuangren with the Primal Gods, but Chu Kuangren was unfazed.

He continued to control the spatial vortexes and expanded them to all directions. All the Monarchs caught by it were ground into pieces.

"Madman, you're making an enemy out of all the other tribes in the Infiniverse!" a Monarch shouted.

However, Chu Kuangren was not bothered by it. "Making an enemy out of all the tribes? As if I haven't been doing that already."

He had become the eyesore of all the other tribes many years ago, and all the Monarchs wished he was dead.

Still, he was unconcerned by the threats. Even if he had to go to war with all the other tribes, he was not afraid.

"Die!"

Suddenly, a powerful Spatial light beam fired at Chu Kuangren.

It was the Void Ruler's technique, used by Kong Feixing.

Chu Kuangren yawned and simply tapped the void. An even more rampant Daoist law energy gushed out.

"Kabaam!"

As the spatial light beam shattered, Kong Feixing's body exploded, and his Great Dao collapsed.

Chu Kuangren was satisfied with his newly gained power. "I have only used one-third of my power, and I can kill Unlimited Great Dao and Monarchs like dogs. Who else can rival me in the Infiniverse?"

He was loud and brazen with his words, his voice echoing across the universe.

All the Monarchs were astonished when they heard him.

Only one-third of his strength?

If he fought at full power, how powerful would he be?

What kind of monster had they been fighting?

"Heavenly Flame Scorching!"

The black-robed Monarch released a blast of black flame at Chu Kuangren. The flame turned into a black dragon and lunged forward with indomitable power.

"Flame Unlimited Great Dao? Which ancient being are you?" Chu Kuangren looked curiously at the man, allowing the black flame to burn him. Then, a more powerful golden-reddish flame appeared and consumed the black flame instantly.

"Infernal Dragon Flame?" The black-robed Monarch was shocked.

Infernal Dragon Flame was one of the most domineering flames in the universe, and it was also one of the Primal Flames, which made it extremely terrifying.

The black-robed Monarch's flame was no match for it.

"Who are you to the Primal Infernal Dragon?" the black-robed Monarch asked.

"A dead man doesn't need to know so much," Chu Kuangren said and then pointed his finger forward.

"Bang!"

An explosion erupted in the void as the Infernal Dragon Flame burst out. The Ultimate energy in the flame even made the black-robed Monarch, an Unlimited Great Dao, shudder in fear.

Right before the flame could kill him, a meteor came from the sky and broke into Chu Kuangren's Infinity Domain.

The meteor contained terrifying power that instantly canceled out the Infernal Dragon Flame.

Then, the flame from the meteor was blasted at Chu Kuangren.

Chu Kuangren blocked with his hand but was pushed back several steps.

He was shocked.

In fact, the other Monarchs were also shocked.

"Chu Kuangren was pushed back?"

"Who was it? Who has the power to overwhelm Chu Kuangren?"

Chu Kuangren looked at the golden flame on his palm with surprise. "This flame contains an aura from a Source."

In fact, it was a Source from the Great Dao.

Only top Overlords could control that power, and other than the Overlords, another bunch of beings who could control that power naturally was the Primal Gods, who were born from the oldest Sources of the universe.

"Buzz!"

The void trembled furiously.

On the horizon, the sky was painted gold by the golden flame. The flame scorched the sky, turning the realm into a blazing field.

From the sky of flames emerged a man.

The golden flame formed a golden robe around him. Even his hair and facial features were formed by the flames around him.

He also emanated an ancient aura.

Everyone thought they were looking at the embodiment of flame.

To be precise, flame existed to represent him, and the concept of flame began from him.

"The source of all flames, the God of Flames of the Primal Gods!" Shen Qixue's eyes widened in shock when he saw the flaming figure.

He had killed a Primal God before, but only in his prime. In his current condition, it would be difficult for him to face a Primal God.

Meanwhile, Primal Flame slowly walked toward Chu Kuangren.

With each step he took, the void collapsed and was scorched into nothingness.

The black-robed Monarch bowed. "My Lord."

Primal Flame nodded before looking at Chu Kuangren and saying, "I've heard of you before. You're pretty famous in this era. I can give you a chance to join us and have a place in the Nine Honors under the God Emperor. It'll be your greatest honor. Are you willing to accept?"

The other ancient Monarchs, including Ming Bujue were surprised.

"I can't believe Primal Flame invited Chu Kuangren to join them."

Others might not know, but as one of the oldest Monarchs, Ming Bujue knew how tempting Primal Flame's invitation was.

The Nine Honors of the God Emperor consisted of the nine strongest beings under the God Emperor, second only to the God Emperor himself.

Usually, the Nine Honors consisted of all Primal beings, such as the Void Ruler, Primal Flame, and so on.

Now, Primal Flame could provide a spot for Chu Kuangren. It was a privilege that not even other Primal beings could enjoy.

Ming Bujue looked at Chu Kuangren with jealousy.

"Once he agreed, he would be invincible in the Infiniverse with the God Emperor's protection. No one can challenge him anymore!"

Even if all the tribes teamed up, they would not be able to touch him because the God Emperor was the strongest and most superior being.

"Nine Honors? Too bad. I'm Chu Kuangren, the strongest out of all, and you are asking me to side with others and be under someone else? No way."

Chu Kuangren scoffed. He stood with his hands behind his back, looking arrogant. "God Emperor? So what? When he awakens, I will snatch the title of the strongest in the Infiniverse from him!"

Chapter 2462 Three Thousand Ultimate Daos Versus Source Energy, Chu Kuangren Versus Primal Flame

Chu Kuangren carried himself arrogantly.

Upon hearing him, Primal Flame's expression turned cold. "You humans are as arrogant as always."

He made the offer because he saw the potential in Chu Kuangren.

Chu Kuangren would be the second Human Ancestor, so Primal Flame wanted to rope him to their side with that tempting offer.

To his surprise, Chu Kuangren turned him down without a second thought, and it agitated him.

"If you have a death wish, don't blame me for killing you," Primal Flame said coldly.

He pointed forward, releasing a domineering aura. Then, the golden flame transformed into a scorching beam that fired at Chu Kuangren.

Chu Kuangren pointed his sword hand sign forward and countered with a slash.

When the sword qi clashed with the flame, Chu Kuangren was pushed back again.

"The Source energy is indeed powerful."

Shen Qixue and the others reacted grimly to the situation.

"Primal Flame is one of the Primal Gods. Even though he has just awakened like me and hasn't recovered to his full strength, one-tenth of his original strength is scary enough. Chu Kuangren might not be able to take him on," Shen Qixue said solemnly.

Lan Yu, Human Empress, Tempest King, and others were also worried, but they had absolute trust in Chu Kuangren.

"We believed in our King!" the Three Clarities said.

"My Honorable Teacher is good at turning the impossible into possible," Tempest King said.

She had seen Chu Kuangren create miracle after miracle.

Creating one more only seemed normal for him.

"If it's Master, it won't be a problem."

Lan Yu put all her trust in Chu Kuangren.

Shen Qixue blinked at them multiple times, his eyes glinting. He had no idea what gave them the confidence to trust Chu Kuangren to that extent, but the scene somehow felt familiar.

Many eras ago, he and other human elites had absolute trust in the Human Ancestor as well.

He believed with the Human Ancestor around, all problems would be met with a solution.

"Shen Qixue, believe in Chu Kuangren, just like how we believed in the Human Ancestor many years ago," Mingyue Wuxia said as she walked up to him.

Shen Qixue looked at her strangely. "What a familiar presence... I see. You're the sword spirit of the Human Ancestor's sword."

"I am."

"There's only one Human Ancestor, and it's not easy trying to be the second," Shen Qixue said.

"But there is also only one Chu Kuangren in the Infiniverse," Mingyue Wuxia replied.

She understood Chu Kuangren better now.

She knew he could not and did not want to become the second Human Ancestor. He wanted to become Chu Kuangren, the one and only madman in the Infiniverse.

"Kabaam!"

The blazing flame transformed into a fiery dragon and pushed Chu Kuangren back again.

"The Source energy is indeed impressive," Chu Kuangren said.

He was more curious about the Source energy than before.

However, Primal Flame looked at Chu Kuangren coldly. As he raised his hand, a Source aura swirled and transformed into scorching flames.

Each sliver of flame could kill an Ultimate Monarch with ease.

Although he had yet to recover to his prime, he was already stronger than some Overlords.

"In that case, let's see who is stronger. My three thousand Ultimate Daos or the Source energy." Chu Kuangren scoffed.

Following that, a powerful aura and Ultimate Daoist law energies erupted from his body.

Three thousand Daoist laws surrounded him like planetary rings, and each of them exuded a powerful Ultimate aura. They glimmered like the brightest stars in the sky.

Some of the Monarchs gasped in shock when they saw the glimmering scene.

"What are those?"

"Are all of these three thousand Daos in the Ultimate Realm?"

"How is that even possible?"

"I finally know why he is just an Ultimate Monarch but possesses a more terrifying power. This explains a lot."

"Others would cultivate one Dao to the Ultimate Realm, but he cultivated all three thousand!"

"How terrifying!"

Some Monarchs were mortified, and all they did was stare blankly at Chu Kuangren.

"Impossible! It has only been a short few thousand years. How could he have broken through all three thousand Daos to the Ultimate Realm without taking three thousand eras? How did he do it?"

"Three thousand Ultimate Daos... What a monster."

"This is scary."

Even Primal Flame looked at him strangely. "Three thousand Ultimate Daos? Who would've thought we'd still see something like this today? You possess the same potential as the Human Ancestor, and allowing you to live will be an underlying threat to us."

He unleashed a punch at Chu Kuangren, and the Source energy transformed into a sea of flame.

On the other hand, Chu Kuangren cast all three thousand of his Ultimate Daos that shone brightly, and terrifying energy fluctuations caused explosions in the void.

When the three thousand Ultimate Daos and the endless sea of flame collided, the boundless energy from the clash shook the sun and stars. Even the Infiniverse quaked.

Having been bombarded by the energy surge, the entire God May Cry Domain was falling apart.

In the sea of flames, Chu Kuangren stood high while surrounded by Daoist laws that isolated the Flame Source energy from its constant collision.

"Primal Flame, do you think you can survive me?" Chu Kuangren said.

A white light then appeared in his hand.

It was a crystal sword that released a chilling sword qi, and the mystical aura alone could block out the corrosive flame.

The sword itself also emanated the Source aura.

"The source of all swords?"

Primal Flame's eyes narrowed grimly. From a certain perspective, he was on the same level as the sword Chu Kuangren wielded.

"This is the Descendant Self Sword."

Chu Kuangren pointed the sword at Primal Flame.

He stepped forward and swung his sword, releasing a sword ray from the tip of its blade. The sword ray contained three thousand Ultimate Daos, and its sharpness could tear universes apart and turn the world upside down.

Primal Flame narrowed his eyes and countered with a punch.

Fiery lotuses bloomed around him.

"Divine Flame Lotus, Break!"

"Bang!"

While the fiery lotuses clashed with the sword qi, the Flame Source energy clashed with three thousand Ultimate Daos, causing cracks to spread across the void.

The powerful clash pushed Chu Kuangren and Primal Flame back, but the Immortal Sparks around them were shining brightly.

"Again!" Chu Kuangren grinned and swung the Descendant Self in a flurry.

As the sword ray swept across the field, the three thousand Ultimate Dao energies swirled as it moved forward like a bright galaxy.

"Divine Flame Art, Scorching Planetary Annihilation!"

Primal Flame then condensed his flame into a fireball that shone as bright as the sun and hurled it at Chu Kuangren.

The sword qi clashed with the artificial sun, canceling the sword qi and cutting the sun in half.

Again, Chu Kuangren and Primal Flame were blasted away by the clash.

"I didn't expect to see three thousand Ultimate Daos and the Human Ancestor's power again in this era," Primal Flame commented.

At the same time, the Source aura on him grew stronger, and so did his intent to kill Chu Kuangren.

"In that case, let me show you something interesting."

Chu Kuangren rose to the sky with the Descendant Self Sword in hand. Behind him, the Sword Great Dao manifested and released sword intents that it had collected from the past to the present.

"Sword Twenty-six!"

Unparalleled sword qi rushed into the sky.

Seeing that, Primal Flame narrowed his eyes. "Bring it on!"

Chapter 2463 Primal Flame Escapes, The Essence of Limitless Transformation

Primal Flame narrowed his eyes and released his Source energy.

A massive amount of golden flame surged into the sky.

The tiniest ember from the sea of flame contained absolute power that could annihilate an Ultimate Monarch with ease. As the flame intertwined, they formed an ancient demonic avatar behind Primal Flame.

"Flame God Wrath!"

The fiery avatar threw a punch at the incoming Sword Twenty-six!

The moment the two extreme attacks clashed, sword rays and fiery light shone, releasing a shockwave that swept across the universe.

Even the Infiniverse was shaken.

As the light from the clash shone, the entire God May Cry Domain crumbled.

Chu Kuangren and Primal Flame were in the epicenter of the explosion, and both of them were blasted away, crashing through mountains like a meteor.

Chu Kuangren's white robes got a little dirty, but his aura remained strong.

Three thousand Ultimate Dao energies surrounded him like planetary rings. His dark hair danced like a mad god, and his arrogance deterred all from past to present.

A hundred million kilometers away, Primal Flame got up from the rubble. However, his aura felt a little disrupted, and the flames around him flickered. The fiery avatar behind him even had multiple cracks on it.

He glared at Chu Kuangren.

He could not believe that he lost the clash.

However, he believed Chu Kuangren was not in good shape either.

"Flame Guards, kill him!" Primal Flame bellowed.

Multiple figures surrounded by flames emerged from the void. All of them wore black robes, and they were all Monarchs, plus a few Unlimited Great Dao.

They were the Flame Guards, the servants of Primal Flame.

"Haha! I can't believe Primal Flame needs help in a battle, and you think a bunch of slaves can kill me? I think you're underestimating me." Chu Kuangren laughed.

He then swung Descendant Self Sword forward, releasing a cosmic-like sword ray that killed all the Flame Guards in his way.

He stepped forward, traversing a hundred million kilometers, and appeared above Primal Flame.

He swung his sword down and released a sword ray directly at Primal Flame's face.

"Hmph!"

Primal Flame grunted, and the fiery avatar behind him punched forward. It managed to block the attack but was destroyed after the clash.

Primal Flame was blasted away again.

Chu Kuangren grinned. "Again!"

He wielded the Descendant Self Sword in a flurry. Each slash he made was sharp and boundless, containing energy that could destroy worlds.

"Damn it!" Primal Flame grunted.

He released Source energy to block Chu Kuangren's slash before he was forced to retreat.

"Chu Kuangren, today's battle is just the start! The Infinity War is happening, and I look forward to fighting you again!"

He was not in his prime, and Chu Kuangren was far stronger than he thought. If he continued fighting, he might lose.

The wise choice would be to retreat, regroup, and rechallenge Chu Kuangren in the future.

"Run?"

Chu Kuangren hummed as he released unrivaled sword intent, and three thousand Ultimate Dao energies merged into a bright sword ray.

The sword qi tore the sky apart.

The slash was so powerful that it broke the void and even the universal barrier!

The Infiniverse shook, and universes were affected by that one slash.

Having been hit by the slash, Primal Flame grunted in pain. Although he sustained heavy damage, he managed to drag himself away from the battlefield.

All the other Monarchs gasped in shock.

"Chu Kuangren defeated a Primal God!"

"This is scary! That's Primal Flame, yet he was no match for Chu Kuangren! He's definitely a monster!"

"Scary..."

Chu Kuangren pursed his lips as he watched Primal Flame escape.

"So that's a Primal God? He's nothing stellar."

He then looked at Shen Qixue and sized up the man carefully.

The God of War of the human race was powerful. Judging from the man's aura, he was extremely powerful, but he did not fit the universal law of the universe.

It was the reason why he could not use his full power, and the same thing happened to Primal Flame.

Due to that, both of them were left with only ten percent of their original strength.

"Senior." Chu Kuangren bowed.

"Y-You're good, very good." Shen Qixue looked at Chu Kuangren with praise. "With you guys around in this final era, we might be able to win the upcoming Infinity War."

"We will win," Chu Kuangren said with determination.

"Yeah, we have to win!" Shen Qixue said with a firm gaze.

It was already the final era, and it would be the last Infinity War.

It would determine the fate of the Infiniverse.

"Senior, let us go back to the kingdom and get you settled down."

"Great."

Meanwhile, Ming Bujue escaped to a certain mountain.

He escaped when Chu Kuangren fought Primal Flame.

He had a strong feeling that he might die if he stayed at the scene.

As an elite of the Destiny Dao, he trusted his instinct strongly.

"He's too scary! I didn't know Chu Kuangren was so powerful. After the Human Ancestor, another human has mastered the three thousand Ultimate Daos," Ming Bujue murmured.

Although Chu Kuangren was just an Ultimate Monarch, with all three thousand Ultimate Daos combined, it granted him terrifying power that could easily rival an Overlord.

On top of that, he could still push his three thousand Ultimate Daos to Unlimited Great Dao Realm!

The Human Ancestor relied on that absurdly powerful strength to reign supreme across the universe and overpower all the other tribes without using his Source energy.

"Chu Kuangren has grown so strong. I have to see the Reversal God," Ming Bujue murmured.

The Reversal God was one of the Nine Honors and an ally to the Six Eyes Tribe.

His strength was needed to fight Chu Kuangren.

...

"Wow. I didn't expect someone to construct the Fortune Kingdom in this era. How astonishing."

Shen Qixue was amazed by the Pan Gu Kingdom.

Chu Kuangren also seized the chance to ask the God of War about the first era, especially about the Human Ancestor.

He had the Human Ancestor's body and had mastered the Limitless Transformation technique.

He might not have met the Human Ancestor before, but he felt connected to the man.

"You've also mastered the Human Ancestor's Limitless Transformation technique, right? Do you know that even the Human Ancestor didn't cultivate it to its maximum potential?" Shen Qixue said.

Everyone else was surprised.

They had seen how terrifying the Limitless Transformation technique was. It could be considered the strongest technique in existence, yet Shen Qixue said it was not at its fullest potential.

How terrifying would it be if it was?

The thought of it made everyone gulp nervously.

However, Chu Kuangren was not exactly surprised.

"So this technique isn't at its maximum potential," he murmured.

When he first learned the Limitless Transformation technique, he had a feeling that there was still space for improvement.

Since the Human Ancestor knew it as well, what did he do to push the technique to its fullest potential?

Chu Kuangren looked at Shen Qixue with anticipation.

Chapter 2464 Three Thousand Overlord Dao, Enter Creation Source

Shen Qixue laughed. He took out a jade talisman and said, "You might be disappointed. Even the Human Ancestor failed to push this technique to its limit, but he did leave some insights behind before he died."

Chu Kuangren accepted the jade talisman with respect. "I understand."

He then let his men help Shen Qixue settle down. Shen Qixue was the God of War of the human race and had killed a Primal God before, so he was considered one of the most important combatants in the Infinity War.

After that, Chu Kuangren went back to study the jade talisman.

The Human Ancestor seemed to have foreseen someone being able to master his Limitless Transformation technique in the future, so he left his insights in the jade talisman and gave it to Shen Qixue to hand it down to his successor.

Several years later, Chu Kuangren finally went through all the contents of the jade talisman.

He learned a lot from it and gained a deeper understanding of the Limitless Transformation technique.

"I see. The Human Ancestor mastered three thousand Daos, but his Daos stopped at the Unlimited Great Dao Realm and did not ascend to the Overlord Realm. His true power was actually the Source energy as he was one of the Primal Gods.

"The Limitless Transformation technique relied on the three thousand Daos, so if all three thousand of them could reach the Overlord Realm, the technique would reach its fullest potential! But three thousand Overlord Daos? How is that even possible?"

Chu Kuangren spent quite the effort to break through three thousand Great Daos into the Ultimate Monarch Realm.

He used almost half of the herbs on the Immortal Island to craft hundreds of Ultimate Pills and used them to achieve it.

However, after the Ultimate Monarch Realm, there was the Unlimited Great Dao Realm, and only after that could he break through to the Overlord Realm.

Was mastering three thousand Overlord Daos even possible? Despite his amazing achievements, even he could not imagine how terrifying it would be to master three thousand Overlord Daos.

Maybe it might be the key to defeating the God Emperor.

"The Infinity War has already begun. Three thousand Ultimate Daos is not enough. I have to reach three thousand Unlimited Great Daos first. "Just cultivating to reach the Unlimited Great Dao Realm for three thousand Daos might take forever. I have to find some external help."

The Infinity War had begun, and the oldest and strongest God Emperor might awaken at any time.

Chu Kuangren felt a sense of urgency.

"Oh wait, how could I forget that?" Chu Kuangren's eyes gleamed, and he vanished at the next moment.

Then, he arrived at a golden pool.

The pool was glimmering with mystical Creation Daoist law energy.

It was the Creation Pool, one of the Eternal-tier prizes that he got from the Fantasy Roulette.

The pool also played a vital role in producing so many Monarchs for the Pan Gu Kingdom in such a short time.

Many of them had their talents and potential amplified by the pool.

The pool was considered a secret of the kingdom.

Chu Kuangren wanted to use it to help him break through to the Unlimited Great Dao Realm for the three thousand Daos.

Of course, the common function of the pool would not be enough, but the bottom of the pool was connected to the Source!

If he could enter the Source, not only could he break through to the Unlimited Great Dao Realm, but he might even master the Source energy and ascend to the same level as the Primal Gods!

With that, he jumped into the pool.

Deep inside the pool, a light barrier stopped Chu Kuangren.

Behind the light barrier was the rumbling Source energy of Creation Dao, which was the source of the Dao itself.

"I couldn't break this light barrier the other time, but I'm a lot stronger now, and I think I can do it."

Chu Kuangren pointed his sword hand sign forward, and the sword qi started to swirl.

With that, the pool started to ripple.

Endless Daoist law swirled around the pool when Chu Kuangren attacked, but the light barrier simply rippled and remained intact.

"Oh, this is stronger than I thought."

Chu Kuangren found himself surprised.

He could easily kill Ultimate Monarchs now, yet he still could not break the light barrier.

However, he was not discouraged. He narrowed his eyes and attacked again with energy that was ten times stronger.

The powerful attack finally left a crack on the light barrier.

From that little crack, intense Source energy gushed out and shook the entire Pan Gu Kingdom.

Tempest King, Human Empress, and the others who were cultivating sensed the commotion.

"What is this?"

"The Great Dao in me is shaking..."

Even Shen Qixue opened his eyes from his rest and looked in the direction of the commotion. He, too, was surprised. "Source? This is the aura of the Creation Source, but why?"

Could the Pan Gu Kingdom have a hidden Primal God or a top Overlord who mastered the Source energy?

"This shouldn't be. The Creation Source energy was only mastered by the Human Ancestor and the Creation Lord back in ancient times. How could it be here?"

Shen Qixue got up and went to have a look.

Tempest King, Human Empress, and the others gathered at the Creation Pool as well.

Intense Creation Source energy gushed out from within and filled the kingdom.

The Creation Source energy was beneficial to all the cultivators of the kingdom, and many of them were blessed by the energy.

Even Shen Qixue felt a little more adaptive to the Great Hongmeng Universe and could use more of his powers.

"It's the Creation Pool."

Tempest King went into the pool, and when she saw Chu Kuangren at the bottom of it, she was surprised.

"Honorable Teacher?"

"Lan, take care of the kingdom. I'm going into the Source for a while."

He then zipped into the light barrier through the crack.

After he entered, the crack on the light barrier recovered rapidly and stopped releasing Creation Source energy.

"The pool is connected to the Source. I can't believe the kingdom has such an amazing thing hidden here." Shen Qixue was in awe.

The Source and three thousand Daos disappeared after they were formed.

Back in ancient times, other than the Source energy that the Primal Gods used, there were rarely any items connected to the Source.

It was the reason why it was so difficult to defeat the Primal Gods.

However, a pool connected to the source?

Even back in ancient times, there were rumors of such a place

"With the Source energy, I should be able to adapt to the universal law quicker."

Shen Qixue looked at the Source energy in the water with interest and decided to cultivate there.

No one disagreed since he was one of the strongest among them. Besides, it would benefit them if he could recover sooner.

On the other side of the pool, or inside the Source, Chu Kuangren was in awe of the Source energy around him.

He felt like he was flowing along a river, and the Source energy was changing his body.

It made his body fit the source better.

With that, he started to cultivate the Unlimited Great Dao energy.

A while later, he broke through to the Unlimited Great Dao Realm for one Dao.

"This is fast!" Chu Kuangren cried out in shock.

Chapter 2465 Primal Kingdom Appears, War Between Kingdoms

"The Creation Source is indeed extraordinary," Chu Kuangren exclaimed.

The Creation Source surrounded him like a river, pushing him along the flow. As he drifted along the Creation Source, he breathed in the Source energy and used it to comprehend the Unlimited Great Dao's energy.

Multiple Ultimate Daos broke through to the Unlimited Great Dao Realm in just a while.

Time flew, and Chu Kuangren had no idea how long he spent in the Creation Dao.

As he continued his cultivation, more Ultimate Daos broke through to the Unlimited Great Dao Realm.

Back in the outside world, the situation of the Great Hongmeng Universe shifted.

Many ancient beings awoke and started to take control. The Great Hongmeng Universe was at its tensest state.

It somehow started to feel like the first era, where Monarchs were everywhere and Unlimited Great Dao cultivators filled every corner. Countless living beings were both excited and scared of the situation.

As the universe grew more crowded, more Opportunities of Fortune would present themselves.

However, there was also the risk of being killed by a Monarch out of the blue or getting caught in a fierce battle.

The mortality rate was at an all-time high.

Battles between Monarchs were already terrifying, and the fiercest one could annihilate billions of living beings.

Now, not just two Monarchs were engaged in a battle, but numerous of them were engaged in a war that made the Infiniverse quake. Despite the turmoil, one place that was free from the flames of war — Pan Gu Kingdom.

Compared to the other places, the Pan Gu Kingdom was extremely peaceful. The kingdom had many Monarchs, who all played a vital part in maintaining order. On top of that, all the cultivators in the kingdom were blessed with the fortune energy's blessing and saw incredible growth in their cultivation. Almost everyone in the universe believed that the Pan Gu Kingdom would soon rule the universe.

"The Pan Gu Kingdom has Chu Kuangren. He's ridiculously powerful, and he's certainly going to be an Overlord."

"Yeah. I heard he defeated a Primal God."

"How scary." ...

"Pan Gu Kingdom ruling the future?"

Inside a grand palace, a young man sat on the golden throne, grinning as he pondered those words.

Beside him were multiple figures standing in line, including Primal Flame and Reversal God.

"My Prince, the Pan Gu Kingdom has gotten out of hand. Send me there, and I will bring you Chu Kuangren's head," said a man in black armor. The young man in golden robes shook his hand. "No rush. Let's just play with them first. I'd like to see how capable the Pan Gu Kingdom is. They think they're the only ones with a kingdom, so why don't we make one for ourselves?"

His words intrigued Primal Flame and the others.

"My Prince, are you going to construct a kingdom?"

"Yes."

The God Prince scoffed, "Our Primal Kingdom is the oldest and strongest kingdom there is!"

The group went deeper into the palace, where a golden crystal was floating in the air inside a chamber.

The crystal exuded a mystical aura and a hint of fortune energy. The God Prince looked at the crystal excitedly as he said, "My father gave me the authority to restart the kingdom. It's time to bring the Primal Kingdom back and show them what a true kingdom is!"

Then, the God Prince's body released a burst of divine light.

Primal Flame, Reversal God, and the others channeled their Source energy as well.

They infused their energies into the golden crystal, causing it to shine like the sun and release a spatial ripple that expanded across multiple major domains.

The energy fluctuation raised numerous buildings from the ground, forming a massive city spanning across different domains. It looked absolutely magnificent and grand.

The Great Hongmeng Universe shook, and all kinds of conjurations appeared across the universe.

Many Monarchs sensed the boundless aura as well.

"T-That's a kingdom! Another kingdom has appeared!"

"Another kingdom appeared! What's going on?!"

Everyone was shocked by the sudden appearance of a new kingdom.

The palace and structures that made the kingdom were grand and glorious. All kinds of auspicious scenes and landscapes could be found within, and many mythical beasts roamed free.

More importantly, the kingdom was built high above the sky!

Back at the Pan Gu Kingdom, Shen Qixue also noticed the construction of a new kingdom. He stared into the sky with a grim look. "The Primal Kingdom! Only two people can construct the Primal Kingdom — the God Emperor and the God Prince! "It seems like the God Prince has awakened."

If it were the God Emperor, the entire universe would know.

It should not be so quiet.

The appearance of the Primal Kingdom shook the Great Hongmeng Universe, and everyone in the Pan Gu Kingdom gathered.

"The God Prince is the son of the God Emperor and one of the Nine Honors. He must be the one who brought the Primal Kingdom back. Now that they have the Primal Kingdom as their base, this war would be even more challenging."

"I believe the Primal Kingdom will soon send their men over."

Everyone was engaged in a heated discussion.

Other than the Slaughter Kingdom, the Pan Gu Kingdom and the Primal Kingdom were the two strongest kingdoms in the current era.

Both of them took different sides — one protection and the other destruction.

They were destined to go to war with each other.

Since the Primal Kingdom had appeared, they would certainly make the first move.

Their first target would be the Pan Gu Kingdom, and once the Pan Gu Kingdom was destroyed, the other resistance would be useless.

"Senior Shen Qixue, when can you recover to your prime?" Gu Linglong asked.

"At least another three hundred years."

Shen Qixue took a deep breath and sighed. Even though he had the Creation Pool, recovering to his prime was not that easy.

"Three hundred years..."

Gu Linglong pondered and then looked at everyone with a determined gaze. "In that case, we shall hold on for three hundred years!"

They ought to protect the Pan Gu Kingdom from the Primal Kingdom for three hundred years!

Back in the Primal Kingdom, the God Prince raised his hand and bellowed, "Awake!"

In a certain cemetery in the kingdom, a hand plunged out from the soil, and a man crawled out.

More and more men crawled out from their graves.

The God Prince was delighted to see the dead coming back to life. "Very well. May the kingdom shine eternally! Warriors of the Primal Kingdom, on me as we conquer our enemies!"

He confidently led the warriors of the kingdom and marched on the Pan Gu Kingdom.

The march left the land trembling and the sun outshadowed.

All the cultivators who saw them were horrified.

"Is the Primal Kingdom going to war with the Pan Gu Kingdom?"

"This will be a war that shakes the Infiniverse!" "A war between two kingdoms? This is extremely rare!"

The war between the two kingdoms became the hottest topic in the Great Hongmeng Universe.

Everyone knew the outcome of the war would determine the fate of the Infiniverse.

Meanwhile, everyone in the Pan Gu Kingdom prepared themselves for the upcoming war when they learned that the Primal Kingdom was marching on them.

Chapter 2466 God Prince's Test, Empty City, An Outdated Little Villain

The two kingdoms were at war.

The number of soldiers that the Primal Kingdom sent was overwhelming. There were countless Grand Dao cultivators and more than a hundred Monarchs, which was terrifying. The army marched with an indomitable force, shaking the land as they advanced.

On the other hand, the whole Pan Gu Kingdom was cautious and alert. The Pan Gu Kingdom paled in comparison to the Primal Kingdom since the Primal Kingdom had existed since the beginning. Although the Primal Kingdom had been in slumber for countless eras, they were still powerful and resourceful. The Primal Kingdom army arrived in front of the Pan Gu Kingdom, but they did not march in just yet. They were aware of the characteristics of the kingdom, which made Chu Kuangren almost invincible.

Chu Kuangren was already a terrifying person who had mastered three thousand Ultimate Daos. No one dared to challenge him alone, let alone on his turf where he was invincible. Therefore, the Primal Kingdom sounded the drums and horns of war outside the Pan Gu Kingdom.

"Chu Kuangren, come out and face your doom!" One of the Monarchs from the Primal Kingdom stepped forward and shouted.

The whole of Pan Gu Kingdom heard him clearly, and Lan Yu, Chu Hong, and the others frowned. "Damn it. They aren't coming in. They're just making noise and provoking us outside." "Don't fall for it." However, everyone turned a deaf ear to the provocations.

The Primal Kingdom continued the drums, horns, and provocations for days. All kinds of insults were included, and it was grinding the Pan Gu Kingdom's patience away. In the end, Tempest King and the others created a sound isolation boundary to cancel the noises.

"Finally, some peace to my ears," Chu Hong said with relief. Gu Linglong pondered. "This isn't right. Something is wrong. Why would they resort to such a cheap tactic? They're testing us!" Her eyes narrowed.

On the other side, the God Prince rubbed his chin as he pondered. "Based on the reports we received, Chu Kuangren is arrogant and proud, so he shouldn't be able to endure such insults and humiliation. However, he isn't out yet. Is he being held up somewhere else?" The God Prince's eyes

gleamed at the possibility. "Chu Kuangren hasn't shown himself for years. Is he cultivating again?" If so, it would be a great opportunity.

With that, the God Prince got up and released a stern and powerful aura.

The Fortune Kingdom would only bless the kingdom's ruler with the fortune energy, but the other cultivators could not use the fortune energy to boost their combat capabilities.

As long as Chu Kuangren was held up, the Primal Kingdom could carry on with the attack.

"God Prince, our men have been provoking them for days, and Chu Kuangren still hasn't shown up. I think he's held up, or he's not in the kingdom at all," Primal Flame said.

"In that case, let's get on with it," the God Prince said.

Right before he gave the order, a terrifying Thundergale Daoist law energy erupted from the Pan Gu Kingdom.

"Bang!"

The Monarch in charge of the provocation was blasted into a cloud of blood mist.

Tempest King stepped out proudly and scoffed. "Primal Kingdom, what's the point of barking out here? If you have the nerves, bring it on!" The God Prince and the others were baffled.

Were they wrong?

If Tempest King had come out to answer their provocation, did it mean Chu Kuangren was inside?

"Hmph. Bluffs."

The God Prince grunted, and just as he wanted to attack, the Pan Gu Kingdom did something unexpected.

The boundaries across the kingdom were turned off, and the entire Pan Gu Kingdom was exposed before them, defenseless!

The Primal Kingdom army was stunned.

What happened? Was the Pan Gu Kingdom surrendering?

"No, they're luring us to go in. Once we enter, Chu Kuangren will be able to kill us like dogs," the God Prince said as he stopped the army from marching in.

Primal Flame and Reversal God agreed as well.

The Pan Gu Kingdom's fortune level was terrifyingly high, and Chu Kuangren's powers, while in his kingdom, were unlimited. He could even overpower an Overlord.

If the Primal Kingdom marched in recklessly, they would suffer the consequences.

...

"The smarter they are, the more cautious they are." "Although we've turned off the boundaries and left ourselves defenseless, it will make the enemies think we have traps ready for them. They won't march on us now," Gu Linglong said.

If Chu Kuangren were here, he would recognize the strategy — the Double Bluff Strategy!

"Sister Linglong, how long can we hold them?" Chu Hong asked.

Chu Kuangren was inside the Creation Source.

With him held up, the Pan Gu Kingdom lacked its core power. Once the God Prince saw through the bluff, it would be a massacre.

The Pan Gu Kingdom would suffer terrible consequences.

"As long as we can. If we stay in the kingdom, even if they kill us, Kuangren will be able to revive us using the kingdom's power," Gu Linglong said. It was the other layer of insurance she had.

Chu Kuangren's ability to revive everyone fueled her confidence.

"I guess you're right, but they are really noisy outside. I'll go and have a look," Chu Hong said, and her figure vanished.

Outside the kingdom, Tempest King stood high in the air alone, releasing a boundless aura.

The Primal Kingdom's army grew restless but dared not attack recklessly.

Suddenly, a scorching aura erupted.

A shadow of a Godly Phoenix soared into the sky, releasing intense Phoenix Flame at the Primal Kingdom, burning their soldiers to a crisp. "Cowards! Bring it on!" Chu Hong appeared and provoked the Primal Kingdom.

Her provocation put a grim look on many of the Monarchs.

"Little bastard!"

"How dare a Monarch talk to us like that?"

"My prince, let me teach her a lesson!" One of the Monarchs grew impatient.

He then flew toward Chu Hong and expanded his domain.

He was a First Step Monarch, one of the strongest in the universe.

However, Tempest King stopped him with just one slap. A loud thump later, the Monarch was slapped into bits.

"Come on, you guys can do better than that," Tempest King said.

"Damn it!" someone shouted fiercely.

Extreme darkness erupted from the void all of a sudden.

It was Doomsday Darkness.

After being consumed by the Dark Demonic Ruler, the Doomsday Darkness was able to regenerate himself under the Primal Kingdom's influence.

What he had currently was everything he got, yet he was not even half as strong as his prime.

He was aggrieved, and he hated the Pan Gu Kingdom to his core.

"Die!"

Doomsday Darkness attacked with a palm strike.

Tempest King countered with a palm strike of her own and managed to push Doomsday Darkness several steps away.

"Doomsday Darkness? You're just an old villain," Tempest King scoffed.

Doomsday Darkness' expression shifted multiple times. He shook violently but could not alter the fact that he was pushed back by one palm strike. He was no longer Tempest King's match.

Chapter 2467 Stalemate, Empty Threats, Frighten Primal Flame

"Tempest King, how dare you be so arrogant?"

Reversal God stepped forward and released his aura that far surpassed a common Overlord.

"Kaboom!"

The Reversal energy crushed the void.

Tempest King narrowed her eyes and channeled her energy to the limit, countering with her Unlimited Great Dao energy.

Following a huge explosion, Tempest King was blasted away. She quickly grabbed Chu Hong and returned to the kingdom.

"Come after me if you have the nerves," Tempest King said as she flew away.

"Hmph. Do you really think I will fall for your trap?" Reversal God scoffed and did not chase the Tempest King into the Pan Gu Kingdom.

He was confident in his own strength but not enough to face Chu Kuangren in his kingdom.

The Primal Gods had yet to recover to their fullest.

"Reversal God, range attack," the God Prince said.

Reversal God's eyes gleamed. "I understand."

He raised his hand, releasing unparalleled Daoist law energy that transformed into a massive palm that crashed down on the kingdom.

The palm strike carried indomitable force.

At the next moment, the defenseless kingdom summoned multiple boundaries and restriction seals, which combined into a massive and powerful defensive boundary.

Yin Yang energy and a Taiji diagram appeared to take on the palm strike from Reversal God. The Pan Gu Kingdom had been around for a while now, and knowing that its defensive capabilities should not be neglected, Chu Kuangren set up a series of defensive measures to prevent attacks from enemies.

As the first place on the Formation Leaderboard, his formation was off the charts.

Different formations were connected, forming a whole new formation with mystical functions.

Not even an Overlord could break through it.

"Continue. I don't care how strong it is. It must have a limit," the God Prince said.

Even though he refused to lead the army into the kingdom, he could still attack from a distance.

As Primal Gods, they possessed powers to destroy a certain area, even if they were a dozen major domains away. Hence, breaking the Pan Gu Kingdom from a distance might not be a problem. The Primal Kingdom's army started to attack with all kinds of range attacks, bombarding the formations relentlessly. It caused the entire Pan Gu Kingdom to shake violently.

"Three hundred years... Just three hundred years more," Gu Linglong muttered.

The Pan Gu Kingdom's formation was exceptionally strong, and it could effectively stall the Primal Kingdom's army. Nevertheless, the relentless bombardment managed to open up tiny cracks across the boundaries. Both kingdoms took on offensive and defensive roles respectively.

The offensive side managed to open cracks in the boundary from time to time and send in a small vanguard team, but they were all stopped by the Tempest King.

As for the God Prince, Primal Flame, and the others, their fear of Chu Kuangren stopped them from taking the risk of going in.

The situation fell into a stalemate for quite some time.

Two hundred or more years later, Primal Flame finally ran out of patience. "My prince, I want to go in and see if Chu Kuangren is inside."

"No, you're one of the Nine Honors. The Void Ruler is gone, and if we lose you too, it will impact the kingdom a lot. This attack is just a test. There's no need for you to go." The God Prince rejected Primal Flame's request.

"My prince, we can't just stay here forever. I have ways to escape as well. If I really do encounter Chu Kuangren, I will flee immediately. I won't engage him," Primal Flame said.

"Fine. You can go and have a try."

The God Prince ultimately agreed since Primal Flame insisted.

With that, Primal Flame's figure flew toward the Pan Gu Kingdom's boundary in a streak of flame, easily tearing an opening in it.

"Bang!"

The moment Primal Flame landed on the ground, a terrifying Source aura shook the land.

"Pan Gu Kingdom, today will be your end!"

The Tempest King, Human Empress, and the others were shocked. It would be a stretch for them to face a Primal God now.

However, a sword ray suddenly shone from the deepest part of the kingdom.

"Are you here to die?" A frosty voice sounded, and overwhelming sword intent filled every corner of the kingdom.

It was Chu Kuangren's sword intent.

When the Human Empress, Tempest King, and the others sensed the sword intent, their spirits were lifted. Primal Flame, however, was slightly nervous. He was within the Primal Kingdom's territory, and if Chu Kuangren really came out, he would be no match for him.

"Chu Kuangren is here?" Without further ado, he turned into a streak of flame and flew off the kingdom in a hurry.

Then, the sword intent slowly faded.

With the Descendant Self Sword in her hand, Gu Linglong breathed a sigh of relief. She looked at the blade and smiled. "Thank you, Descendant Self Sword."

The sword intent belonged to Chu Kuangren, but he was not there in person.

It was released by the Descendant Self Sword, and Gu Linglong mimicked his voice perfectly.

Chu Kuangren had left his sword behind when he entered the Creation Source, and after many years of cultivation, Gu Linglong's cultivation level skyrocketed.

With the Descendant Self Sword in hand, she could also rival an Overlord.

Still, if she exposed herself, she would also reveal the fact that Chu Kuangren was being held up and unable to attend the war himself. Therefore, she used the sword intent to frighten Primal Flame away.

A streak of flame flew out from the Pan Gu Kingdom.

The Primal Kingdom was surprised to see him come out so fast.

"Chu Kuangren is inside. I felt his sword intent!" he said.

Reversal God and the others frowned.

If Chu Kuangren was inside, they could not march on the Pan Gu Kingdom.

However, the God Prince noticed Primal Flame was unscathed, and it intrigued him. "Tell me your encounter with Chu Kuangren in detail."

Primal Flame explained what happened down to the most meticulous details.

The God Prince grinned. "Hahaha. It's all fake! Chu Kuangren isn't inside. If he's there, Primal Flame wouldn't have come back without a scratch. Primal Flame only sensed his sword intent but didn't see him in person. Someone is using his sword intent to fake his presence."

"I see!"

"My prince, you are wise!"

Primal Flame reacted sourly. He could not believe he was frightened away by a sliver of sword intent! How embarrassing! "When I find out who bluffed me, I will burn him to a crisp!" Primal Flame said angrily.

"Men, we march!"

With the order given, everyone from the Primal Kingdom marched toward the Pan Gu Kingdom.

"Kaboom!"

Primal Flame, Reversal God, and the God Prince teamed up to attack the boundary.

In addition to the other Monarchs and even Unlimited Great Dao cultivators, the boundary collapsed swiftly, and the army marched in. Cries of war echoed across the sky.

Inside the Pan Gu Kingdom, Gu Linglong wielded the Descendant Self Sword tightly. "It seems we'll have to fight with our best."

The Tempest King, Human Empress, and the others were alarmed as well.

With their previous experience, they no longer feared death, but they could not just sit back and watch the God Prince trample over the kingdom.

The Pan Gu Kingdom contained a lot of treasures, and there was no way they would give them away to the Primal Kingdom.

"Die!"

"Pan Gu Kingdom, this is your end!"

"We won't die, but you won't live either!"

The cultivators of the two kingdoms finally clashed in an epic battle.

Chapter 2468 Devil King Ascends to Overlord, Luo Hou Arrives, Dream On

"Kill them!"

"The Primal Kingdom is the only kingdom in the universe!"

"The Pan Gu Kingdom is doomed!"

"Roar!"

Warcries echoed across the realm.

All the cultivators were engaged in probably the fiercest battle of the era, and the entire kingdom shook.

The Tempest King, Human Empress, Mingyue Wuxia, and the others were engaged in a brutal fight with the Unlimited Great Dao cultivators of the Primal Kingdom. However, they were no match for the God Prince, Reversal God, and Primal Flame, who were as strong as Overlords. With no other contender available, the Pan Gu Kingdom was destined to lose.

"Pan Gu Kingdom, you are full of talented cultivators."

The God Prince noticed how many Monarchs the Pan Gu Kingdom had. Although their cultivation realm was not exceptionally high, they were unusually powerful.

All of them possessed unlimited potential.

"Buzz!"

A sword ray shot at him.

It was so sharp and powerful that it forced him to take it seriously.

He punched as a counter, releasing the God Emperor energy to crush the sword ray.

Further away, Gu Linglong stood tall and strong with the sword in her hand. She looked at the God Prince with furrowed brows. "So that's the God Emperor energy? It really is something else."

The God Emperor energy was an energy unique to the God Emperor.

It was one of the strongest power in the Infiniverse.

As the descendant of the God Emperor, the God Prince also inherited the power.

"This sword qi... I bet you're the one who pretended to be Chu Kuangren," the God Prince said.

He raised his hand to attack with his God Emperor energy again. The unparalleled energy shook the universe as it gushed forward.

Gu Linglong was sent flying by the energy the moment she was hit.

"The Pan Gu Kingdom doesn't even have an Overlord. How are you going to fight us?" the God Prince said with his hands behind his back.

As soon as he said that, a black crack tore open in the void.

Intense evil intent gushed out from it.

It was so terrifying that it rendered people numb and left them shivering.

The God Emperor narrowed his eyes. "That's a familiar aura."

"Who said the Pan Gu Kingdom doesn't have an Overlord?"

As a frosty feminine voice echoed, a beautiful woman with black wings emerged from the crack. The black glamorous robe could not even hide her voluptuous figure. Each move she made was charming and could enchant all life.

It was the Devil King.

Her arrival uplifted the entire Pan Gu Kingdom.

The aura she released was far more powerful than an Unlimited Great Dao cultivator. She had ascended to the Overlord Realm!

"It really is you, Evil Bone."

Primal Flame grunted when he saw the Devil King. "I didn't expect you to survive that massacre."

"I'm sorry to have disappointed you." The Devil King grinned and then looked at the God Prince. She said, "God Prince, you better retreat before he comes out."

"He? Do you mean Chu Kuangren? I'm looking forward to meeting him."

"You are no match for him."

"I'm more curious since you think so highly of him."

After that, the God Prince attacked the Devil King.

Primal Flame and Reversal God released their Overlord energies as well. They all tacitly attacked the Devil King, attempting to remove her first.

Gu Linglong raised the Descendant Self Sword and stopped Primal Flame.

"Great. You're the one who tricked me with that sword, so I will kill you first," Primal Flame roared.

Suddenly, boundless rage qi rose into the sky, and a blinding ray erupted.

The ray was from a Broken Arm.

The Broken Arm, which had been powered up by endless Blazing energy, surprised Reversal God and managed to block the attack.

"Bang!"

The Broken Arm was deflected by the collision and caught by a powerful arm.

It was Armament Destruction.

He wielded the Broken Arm. With the boost from the Water Nation Warring Map Formation, his aura was so strong that he could almost rival the Reversal God.

"You're just a vengeful spirit. So what if you have the support of the formation? Even destiny kneels before me, let alone you," Reversal God said coldly.

He stood high with his hands behind his back, his Source energy channeled.

His eyes shone like stars twinkling in the darkest sky.

Armament Destruction scoffed. "How dare a loser to destiny speak to me like that?"

"Your face is repulsing!"

Reversal God looked at Armament Destruction's face, which highly resembled Chu Kuangren, and it irritated him.

The murderous intent in his eyes grew intense.

With his arm raised, the Source energy intertwined and released a torrential stream of energy.

"Bang!"

The collision pushed Armament Destruction back.

"Bring it on!"

However, Armament Destruction was not deterred by the attack. He regained his balance and charged toward Reversal God.

The Tempest King joined him in fighting Reversal God as well.

A chaotic and brutal battle was happening in the Pan Gu Kingdom.

"Die!"

Doomsday Darkness released all his Darkness energy, crushing all the common Monarchs with ease.

The Monarchs caught by the Darkness energy were blasted away with blood gushing out from their mouths.

Suddenly, another stream of terrifying Darkness energy erupted.

"It's you!"

Doomsday Darkness narrowed his eyes at the Dark Demonic Ruler, who emerged from the void.

His eyes were overflowing with murderous intent. "Give me back my power!"

Dark Demonic Ruler grinned and fought Doomsday Darkness. "I'll absorb what's left of you."

He was unusually aroused because he had a feeling that he was one step shy of achieving the Overlord Realm. If he could just absorb the remaining Darkness energy of Doomsday Darkness, in addition to his original power, he would certainly become an Overlord of the Darkness Dao.

"Die!"

Doomsday Darkness fought Dark Demonic Ruler.

The fight was as terrifying as the others.

Lan Yu, Chu Hong, Shang Honghua, Three Clarities, and the others fought the Monarchs of the Primal Kingdom, which included the Monarchs from the Spatial Tribe, Six Eyes Tribe, Witchcraft Tribe, Undying Tribe, and so on.

All the tribes had pledged their allegiance to the Primal Kingdom.

"Pan Gu Kingdom, here I come!" someone shouted.

Demonic qi burst out in the sky all of a sudden, and an authoritative figure emerged from within.

The aura he released could rival an Overlord.

The Three Clarities and the others were pretty familiar with him.

"Luo Hou?"

"Why is he here?"

The man was Luo Hou, the Demonic Forefather of the Pan Gu Universe.

The God Prince grinned. "It seems like you guys know him. He now has a new name, Arch Sky Demon, one of the new Nine Honors of the Primal Kingdom!"

"Arch Sky Demon? That guy has an heir?"

Devil King was slightly surprised.

Arch Sky Demon was one of the Primal Gods and also the origin of the Demonic Dao.

It seemed Luo Hou had acquired the inheritance and became the new Nine Honors.

"Luo Hou is lucky enough to have had such an Opportunity of Fortune."

"What a surprise."

The ancient cultivators of the Pan Gu Universe were pretty surprised. However, it was not a good kind of surprise as Luo Hou was no longer a part of the Pan Gu Universe but an enemy. Quite the opposite, the Pan Gu Kingdom was in more danger than ever.

"I shall destroy the kingdom that Chu Kuangren built," Luo Hou said coldly.

"You? Hmph. Dream on."

A frosty voice sounded, and a blast of rampant qi erupted over the field like a storm.

A dazzling figure emerged from the kingdom, wielding a spear and having a pagoda at his head.

His aura felt mystical and divine.

Chapter 2469 Luo Hou to Fill the Numbers, God Prince Versus God of War, God Emperor Seal

A frosty voice sounded.

A figure emanating rampant qi and battle intent emerged. He wielded a pear and had a pagoda on top of his head.

The moment he arrived, the cultivators of the Primal Kingdom were shocked.

Most of them came from the ancient era, so they knew the man before their eyes.

It was the God of War of the human race, Shen Qixue.

"His aura..."

Primal Flame realized Shen Qixue's aura had grown a lot stronger, and it was completely different than when he had just awoken.

"How? How did he recover so fast in such a short time? What happened?"

Primal Flame was stunned.

Shen Qixue grunted and locked onto Luo Hou before lunging his spear forward.

As the spear traveled forward, the void was pierced, and the domineering spear energy shocked Lou Hou.

He quickly channeled the Demonic energy to his limit.

"Arch Sky Demon Avatar!" A massive avatar of the Arch Sky Demon started to take form behind him.

He threw a punch, crushing the void in its way.

However, the spear energy was much more domineering, and when they clashed, the Arch Sky Demon Avatar's arm cracked before it imploded.

Luo Hou was blasted away with blood gushing from his mouth. He was shocked. He had just ascended to the Overlord Realm and joined the Primal Kingdom, so he thought he could use that

chance to show off his strength before his fellow Nine Honors. Yet, he was defeated with just one strike.

The God of War of the human race was ridiculously powerful.

"Even the real Arck Sky Demon wasn't my match when he was alive, let alone you." Shen Qixue grunted coldly.

He swung his spear forward. "God Demon Cry!" "Kaboom!"

The void collapsed, and cries of demons and gods echoed in the sky.

His attack was terrifying, so terrifying that it struck fear in people's hearts.

Stunned, Luo Hou channeled his energy for another of his stronger attacks.

However, he also lost the second battle and was flung over a hundred mountains. He fell and ended up in an even more miserable state than before.

"So, is this your newest addition to the Nine Honor? It's even worse than the first generation." Shen Qixue scoffed as he looked at the God Prince.

The God Prince said coldly, "We lost several of the Nine Honors, so I had to find someone to fill in the numbers."

Not far away, Luo Hou climbed up from the rubble and spat blood when he heard the God Prince.

He was recruited just to fill the numbers?

Shen Qixue scoffed and pointed his spear at the God Prince. A rampant and domineering energy erupted, shaking even the land he was standing on.

Gu Linglong and the others breathed a sigh of relief.

Fortunately, Shen Qixue showed up at the last moment.

With the help of the Creation Source energy, he managed to recover at least two-thirds of his full strength, which was already more powerful than a common Overlord.

That was why he could fight the Primal Gods on his own.

"Since we couldn't fight last time, let me see how powerful your God Emperor energy is," Shen Qixue said indifferently. He stepped forward and swung his spear at the God Prince.

"Bang!"

The void exploded as his battle intent gushed forward like a tidal wave.

His attack was terrifyingly powerful. Even the God Prince had to take it seriously.

"God Emperor Art, Innate Wall."

Golden God Emperor energy surrounded the God Prince and formed a light wall around him before the spear energy crashed into it.

The stray energy from the clash exploded like a tornado, destroying the area around the kingdom.

The realm was forcefully reverted to chaos by its power.

"So that's the God Emperor energy?"

Shen Qixue narrowed his eyes and swung his spear again. He attacked relentlessly, releasing continuous sweeps and thrusts that shook the realm.

The rampant energy bombarded the God Emperor energy. "Bang!"

After a series of attacks, the Innate Wall shattered, and the God Prince was blasted away.

His aura was slightly messed up.

The sight of it shook Primal Flame, Reversal God, and the others.

"The God Emperor energy was destroyed?"

"How?"

"I see. The God Prince hasn't recovered to his prime, so Shen Qixue concentrated his attack on a single spot to break through the defense. He's good. No wonder he's called the God of War of the human race," Reversal God said.

The God Prince looked at Shen Qixue in shock and released even more God Emperor energy.

"Very well. God of War of the human race, you are worthy to witness my strongest attack. I shall strike heaven and shake hell. God Emperor Art, King's Heaven Calling." He cast his strongest attack.

Incredible God Emperor energy erupted and filled the realm instantly with domineering force. It boosted the God Prince's aura and granted him a superior aura.

Countless Monarchs had the urge to kneel and submit before him, like a subject kneeling before his king.

"Great!"

Shen Qixue was not deterred by the strongest attack. Instead, he narrowed his battle-intent-filled eyes and released his Daoist law energy. "Bring it on! Let me see how powerful your strongest attack is!"

As he raised his spear high in the sky, the sun and moon shook.

It was the God of War of the human race versus the God Emperor's son.

The unparalleled aura disrupted the spiritual qi of the realm.

Endless Immortal Sparks shone brightly, shedding its blinding light across the realm.

"Go!"

The God Prince punched forward, and his God Emperor energy transformed into unrivaled fist energy.

Shen Qixue wielded the spear in reverse and entered a throwing stance. Once Daoist law energies were intertwining across its body, he thrust it forward.

"God Annihilation Void Spear!"

The spear flew out like a meteor.

When the spear and fist energy collided, the void collapsed, and the Infiniverse trembled.

Shen Qixue and the God Prince, who were both caught in the explosion, were both pushed back with minor injuries.

"God Prince, if you die here today, I wonder how the God Emperor will react when he wakes up." Shen Qixue cackled.

He raised his hand to catch his spear.

Instead of being offended, the God Prince revealed a square seal in his hand. "You seem awfully confident."

He raised the jade seal in the air.

The jade seal shone brightly and released runes from within. Following that, Source aura erupted and transformed into multiple golden dragons.

"That's..."

Shen Qixue's eyes widened in fear. "Source Supreme Treasure, God Emperor Seal?"

A Source Supreme Treasure was stronger than an Ultimate Supreme Treasure.

An Ultimate Supreme Treasure might appear once in every era or a few eras, but the Source Supreme Treasure only existed in the Source era, the oldest one.

After the Infinity War, the Infiniverse had never seen another Source Supreme Treasure.

The Human Ancestor's Sword and Shen Qixue's Seven Treasured Pagoda were Source Supreme Treasures.

However, the God Emperor Seal was one of the strongest and most highly-ranked Source Supreme Treasures because its owner was the God Emperor!

"Have a taste of the God Emperor Seal!" the God Prince said.

The God Emperor Seal released a light beam at Shen Qixue.

The Seven Treasured Pagoda shone brightly and managed to block the attack, but Shen Qixue was pushed backward. "You may have seen the Seven Treasured Pagoda, but what about them?"

The God Prince looked at the Tempest King and the others with a wicked grin.

Multiple beams were fired from the seal and blasted at the others.

At that critical moment, endless sword qi rose into the sky and filled the realm.

Chapter 2470 Primal Kingdom Defeated, Legacy From Source Era, Irresistible Trend

Endless sword qi rose into the sky, each containing extremely sharp sword intent.

The sword qi soared across the sky and clashed with the beams from the God Emperor Seal.

When the light and sword qi collided fiercely, they canceled out each other.

The void exploded like fireworks.

Amidst the dazzling fireworks show, a figure emerged in white robes and obsidian hair.

Surrounded by Immortal Sparks, each move he made felt transcendental.

It was Chu Kuangren!

"What?"

The God Prince's eyes widened in shock. Primal Flame, Reversal God, and Luo Hou were also horrified.

"What? He's here?"

"We were wrong!"

"What is going on?"

The God Prince was baffled.

They launched the attack because they thought Chu Kuangren was not in the kingdom, yet Chu Kuangren showed up and even canceled the God Emperor Seal's attack.

The God Prince and his army instantly fell into a difficult situation.

"You guys are having a lot of fun here," Chu Kuangren said.

He pointed his sword hand sign forward. Millions of sword qi rose into the air, blanketing the sky like the stars in space.

The sword qi was aimed at the God Prince and his army.

Each sword qi contained terrifying power and also the fortune energy from the kingdom.

Not even an Overlord could block it without being hurt.

"Retreat!"

The God Prince ordered a retreat without a second thought.

Chu Kuangren would not let them leave so easily. He raised his hand, and the sword qi rained like a storm.

No Monarchs could withstand the attack.

"No!"

Ming Bujue shouted in fear as his eyes widened. His body exploded at the next moment.

The God Prince bellowed and released a stronger light from the God Emperor Seal.

The endless beams of light clashed with the sword qi.

It was to buy time for the army to retreat.

"Charge!"

Shen Qixue, Tempest King, and the others pressed forward with the attack.

Chu Kuangren's arrival raised their morale and confidence.

After a furious pursuit, Shen Qixue, Tempest King, and the others managed to slay numerous Monarchs.

The Primal Kingdom suffered a huge loss in this battle.

The only regrettable thing was that they could not take down the Nine Honors.

"This isn't your real self."

Shen Qixue looked at 'Chu Kuangren'. He had met Chu Kuangren in person before. If Chu Kuangren was really here, with the power of the kingdom, the God Prince might not escape even with the God Emperor Seal.

Chu Kuangren nodded. "I am not real."

It was just a clone he left behind before he entered the Creation Source. There was no way he would leave no insurance behind while he was away.

The Descendant Self Sword and the clone were the two layers of insurance he left behind. With them together, not even an Overlord could cause trouble in the kingdom.

In addition to Shen Qixue and the others, unless the God Emperor was here himself, the kingdom would be fine from all kinds of attacks.

"Can you contact your true self?" Shen Qixue asked curiously.

The others looked at him, wondering how Chu Kuangren was doing.

Chu Kuangren's clone shook his head. "I lost contact with my true self after he went into the Creation Source. He seems to have entered a strange place. He isn't in the Infiniverse or even the Great Hongmeng Universe."

Everyone was surprised.

There was a place that was not within the Infiniverse?

"In that case, we shall continue to prepare for the Infinity War while we wait for him to come back," Shen Qixue said.

...

The clash between the two kingdoms ended.

The Primal Kingdom, who marched on a grand scale, came back miserably and lost a lot of men.

Many people sighed at the outcome. They somehow felt that the Primal Kingdom was not as terrifying as it was rumored.

"Damn it!" Primal Flame was infuriated.

Beside him, the God Prince continued to ponder. Then, he was struck with a sudden realization. "His power... is he really? Could it be just a clone?"

Despite his speculation, he could not lead the army back.

It might be just a clone of Chu Kuangren, but it was still terrifyingly powerful to be able to counter the God Emperor Seal.

In addition to the Devil King, Shen Qixue, and the others, going back would not earn them any merits.

"We still haven't recovered to our peak, or we won't be in such a miserable state. However, we do gain a lot from this battle. At least we know how much firepower the Pan Gu Kingdom has now," the God Prince murmured.

Then, he sent someone to find out how many men they lost in that battle.

Numerous Grand Dao cultivators were dead, and more than a dozen Monarchs were killed.

Even Doomsday Darkness was completely wiped out in the battle.

Casualty was high, but to the God Prince, as long as the Primal Gods existed, others were nothing but numbers.

With that, the battle between the two kingdoms ended.

The God Prince brought his men back to the Primal Kingdom. However, on the way back, he sensed something and looked into the distant horizon. The spiritual qi rumbled in the sky, and the void exploded.

A strange aura gushed out from the void like a tornado.

Even Primal Flame and Reversal God sensed it. They could not believe what they sensed.

"This aura belongs to the Source..."

"Why is there a Source aura here? How could such an intense and natural Source aura exist in this era?"

They could tell that the Source aura was something new and natural. It did not belong to the ancient but was unique to this era, which was unbelievable.

Even in ancient times, natural Source energy had faded, and it was extremely rare to see one.

"Let's go and have a look."

The God Prince dared not be careless.

He led Reversal God, Primal Flame, and the others to the source of the energy presence.

The energy presence came from a spatial crack, and it was recovering to contain the energy presence.

The God Prince reacted swiftly and tossed the God Emperor Seal out.

The seal shone and stopped the crack from recovering.

At a closer look, there was Source energy rumbling behind it, and it was actually from a brand new Source Realm.

Primal Flame and Reversal God were extremely familiar with the Source Realm.

"T-That's the source era!"

"How is this even possible? I thought the source had faded."

The realm behind the spatial crack was the source era or, more precisely, a scenery that would only appear in the source era.

"I see. This is the hidden treasure of the source era!" the God Prince said with delight.

They did not expect there would be hidden treasures left behind from the source era. Even if there was, it should be in bits and pieces and not an entire realm.

"This is great. We can go in and replenish our strength."

"Yeah. When we recover, we can hasten the God Emperor project and turn this realm into the Source era."

Primal Flame was excited.

The appearance of the Source Realm was sensed by the Pan Gu Kingdom as well.

Shen Qixue and the others wanted to explore the place, but it was already put on lockdown by the God Prince.

They could not even get close.

"They beat us to it. This is going to be troublesome."

Shen Qixue and the others worried.

Other than the Source aura, the Source Realm also contained many treasures.

Once the Primal Kingdom got its hands on them, the consequences would be severe.

"We are already at a disadvantage in this Infinity War, and now the Primal Kingdom has access to the Source Realm. Is going back to the source era inevitable?"

The Devil King looked into the sky, feeling helpless.
