Chapter 1051: Exposed

These strange things were indeed discovered on the battlefield, so their combat strength was really strong. Fortunately, Xu Bai had already reached the Saint Realm, so it didn't matter.

Xu Bai stretched his back and scanned the souls of all the guys. After finding no useful information, he asked them to leave traces on the ground.

One by one, progress bars appeared. Looking at these progress bars, the light in Xu Bai's eyes became more and more intense.

“It’s awesome, it’s really awesome!”

Xu Bai didn't think too much about it. He seized the time and continued to rush the progress bar.

Time passed slowly. Due to the upgrade of his golden finger, the progress bar was also very fast.

Although there were many monsters here and many things left behind, this did not hinder his speed.

By the time the last bit of progress bar disappeared, he had finished all the skills.

Unfortunately, he still didn't have the experience of failing to become a saint.

He had learned a lot of skills. Of course, there were also some mental cultivation techniques that had improved his mental cultivation techniques a little. However, overall, the efficiency of the improvement was not very fast.

"It would be great if my cheat could be upgraded again." Xu Bai sighed.

With a flick of his soul, he wiped away the souls of all the strange things in front of him, turning them into lifeless things.

This time, he was no longer without a goal. This was because among the pile of strange creatures just now, there was a strange creature that knew the map of this place, so he had also grasped it.

He only needed to follow the instructions on the map and not fly around like a headless fly.

This time, after knowing the direction and destination, Xu Bai's speed became even faster. Not long after, he arrived at another destination.

It was still the same as the previous one, a dilapidated and desolate city. The only difference was that there were slightly more guards at the door, which proved that the strangeness here was slightly stronger.

But it didn't matter. Xu Bai continued to use the same method to control the strangeness of the entire city.

He was also very familiar with the control process. After he was done, he continued to let the group of monsters leave a progress bar.

Next, he followed the old method and finished the progress bar. He killed the group of monsters and continued to rush to the next scene.

“The feeling of harvesting leeks on time is really great.”

Compared to the human world, in his opinion, the strange people in the bizarre market were more like waves of leeks. Moreover, these leeks were quite mature and growing well.

He was like an old farmer, holding a sickle and waving it continuously. It was very comfortable.

When he rushed to the next city, the remaining Saint Realm monsters were sitting together in the distance.

Not far ahead, the Chu Emperor, who was dressed simply, was standing directly opposite them with a smile on his face.

The white-robed man hurriedly flattered him a few times, saying that his master's plan was brilliant, and so on. He had an extremely flattering appearance.

When the others in the same trade saw this, they all looked at him with disdain, but they didn't say anything strange at this time.

It didn't mean that the stronger one's ability was, the less one had to lick like a dog. In the eyes of the man in white, this man who controlled the Chu Emperor was much stronger than him. Naturally, he had to admit defeat. Otherwise, it would be a simple matter for the Absolute Saint to replace him.

Reality proved that no matter how high one was, one would always like to hear good words. Hunfeng enjoyed this sentence very much, and a comfortable expression appeared on his face.

Of course, he didn't forget his responsibility, so after a satisfied smile, he brought everything back to the main topic.

" When will the unification ceremony begin and when will it be completed? I hope that you will hurry up. If you delay it, there will be changes. If you can't complete the task that I have given you, not only will I be annoyed, even the Supreme Saint will be annoyed."

As Hun Feng finished speaking, everyone present nodded their heads in agreement.

The man in white patted his chest and said loudly, "Sir, please rest assured that we have a Saint now. The situation that was originally a disadvantage for us has now turned into an advantage. We will immediately carry out a corresponding procedure."

Hun Feng glanced at the man in white and spoke without mercy, "I need an exact time, not empty words, and I don't want to hear you continue to praise me like this."

The white-robed man's expression stiffened. In the end, he gritted his teeth and stretched out two fingers. "Seven days. We can finish it in seven days at most. Then, we will go straight to the human world. However, Sir, we still have some things that we haven't prepared. For example, we have too few Saints."

These questions weighed heavily on the white-robed man's heart.

To be honest, now that he had solved the problem of becoming a saint, half of his stones had fallen. If he could solve the later problems, all of his stones would fall.

Hun Feng smiled. " You don't have to worry about that. You know what kind of existence an Absolute Saint is. Go ahead and get these things. I'll give you a satisfactory answer."

This sentence was actually enough. The white-robed man nodded seriously and began to make further arrangements.

After all, even the white-robed man knew that an Absolute Saint was an invincible power.

"Report!"

At this moment, a figure interrupted the scene, causing everyone present to frown. A strange creature with a relatively short figure barged in from outside and hurriedly knelt on the ground, shouting, "Greetings, sirs. Something big has happened. The two medical

centers we established in the border areas have been uprooted. The monsters inside have all died."

As it spoke, the weak Strange Beast wiped the sweat off its forehead, afraid that it would say a wrong word and cause the other party to be dissatisfied.

The man in white was slightly stunned. After he reacted, he said in surprise, "What's going on? Didn't we already unify the country? Why did this happen? Did you send anyone to investigate?"

"I've already sent someone to check the scene, but they haven't arrived yet. The initial suspicion is that it should be done by those remaining demons." The messenger replied strangely.

There was nothing they could do. Even if they unified the Bizarre Market and killed all the demonic monsters that had reached the Saint Realm, there were too many strange things in the Bizarre Market. They could not solve all of them.

It was very normal for such a situation to occur. After all, it was very common for some diehard loyalists to appear here.

"Find the problem and solve it quickly. If you can't solve it, report it again!" the man in white said.

In fact, if it were him, he would definitely not do this. He could even go there personally. The unification ceremony was more important now. Only after unification would it be time to launch a war against the human world.

"Yes, sir!" The strange messenger left.

The place fell into silence. Next, the white-robed man took the lead and continued to set up the follow-up plan.

..

On the other side, Xu Bai looked at the city that had become much stronger. He rubbed his hands excitedly and walked toward the city gate.

He used the same old method to control the two guards, but the information he received this time was completely different.

Someone came to investigate.

"I knew it. How could no one have noticed? It seems that someone has noticed me. But it doesn't matter. As long as it's not a Saint Strange, I'll take them all."

“It just so happens that we’re here to investigate the strangeness. We might be able to find some useful clues. It seems that we can’t kill this group of strangeness. Let’s wait for him to come.”

He definitely couldn’t kill them. He would kill them after the investigation of the strangeness arrived.

Of course, there was no doubt that he could control them to leave a progress bar.

Xu Bai began to work on the progress bar again. When he finished all the progress bars in front of him, he did not leave or make a move. Instead, he pretended to be an ordinary monster and stood in the corner of the street, silently controlling the monsters.

There was no sunrise here, so it was difficult to estimate the time. However, Xu Bai estimated that it was likely that almost a day had passed.

As time passed, Xu Bai, who was hiding in the dark, finally saw the scene.

In the sky not far away, a strange figure appeared.

Chapter 1052: The Absolute Saint’s Investment

At first, the figure was very far away and could only be seen in the shape of a grain of rice. However, in the blink of an eye, it arrived in front of him. A powerful force surged from its body and a sinister aura was emitted from it.

Xu Bai stood in a dark corner and did not expose himself. He narrowed his eyes and carefully sized up this person.

To be precise, it was not human, but strange.

“Very strong...” Xu Bai thought to himself.

The one in front of him was strange and dressed plainly. If not for the powerful aura on his body, he would probably be the kind that would not be discovered even if he was thrown into a pile of strange creatures.

However, in Xu Bai’s opinion, there was a limit to how strong this monster was. No matter how strong it was, it was still not in the Saint Realm.

“Let’s see if there are any other monsters following us. If there aren’t, I’ll kill him. But before I kill him, I have to make sure he leaves a trace so that I can have a better progress bar.”

In just an instant, Xu Bai had determined the gains and losses. At the same time, he had an idea in his mind.

This time, the strange peak Transcendent did not stay in the sky for too long. After falling from the sky, it landed on the ground and looked around.

“Who is the temporary manager here?”

Some of the cities had already been turned into medical centers, and the City Lords had already left. Now, the City Lords were gathered in one place, waiting for the arrival of the war. Therefore, these medical centers were only temporary hosts.

Xu Bai had already known about these things. With just a thought, a strong monster walked out from the pile of monsters.

“Greetings, Milord!”

The peak Transcendent nodded strangely and said, “You are very close to the city that was destroyed. Now tell me if there are any special abnormalities. If there are, report it truthfully and you will be greatly rewarded.”

“No!” The controlled Bizarre shook his head. “We didn’t find anything special. Sir, I have something to say. I don’t know if I should say it or not.”

Transcendent Weird was initially disappointed, but after hearing the last sentence, his interest was instantly piqued. “What words?”

Strange pretended to be cautious, as if he was afraid of angering this Transcendent Strange, “Milord, the enemy was able to silently destroy three cities, so they must be very powerful. Thus, it will be difficult for Milord to deal with them alone. The people we have left behind to guard this place are not very powerful, and there are many injured people.”

When he said this, the controlled Strange pretended to be very sincere and sincere, fully revealing that he did not want the other party to go deep into danger.

However, all of this was just Xu Bai trying to get information.

As expected, after Xu Bai controlled the strange and said this sentence, the supernatural strange waved his hand calmly.

“It’s fine. Ever since I’ve clung onto that existence’s thigh, a mere Transcendent isn’t worthy of my attention. Even if it’s just me alone, I can easily annihilate him.”

That existence?

Xu Bai hid in the dark and rubbed his chin. He could get some information from the words. Firstly, there was only one Strange Beast. Secondly, it was that existence. Perhaps it was the Absolute Saint.

This guy should have some secret methods left behind by the Absolute Saint.

Since that was the case, there was no way he could stay.

“My lord! We can’t accompany you to investigate, but I can arrange for a strange person to accompany you and be your guide.” The strange being who was being controlled bowed.

Strange Transcendent didn’t want to do this. After all, he knew which cities had been destroyed. However, before he could refuse, Strange continued.

“Sir, we want to take responsibility for this matter. Moreover, we are more familiar with this place. Perhaps we can help you.”

When Transcendent heard this, he pondered for a moment before finally nodding his head and agreeing.

After Transcendent strangely agreed, a path was opened up in the midst of the strangeness. Xu Bai pretended to be weak and walked out from the corner.

Transcendent Strange also seemed to want to complete the mission as soon as possible. He did not want to waste any more time. He waved his sleeve, and a gust of wind swept up Xu Bai, rushing toward the destroyed city.

After getting a little further away, Xu Bai’s heart skipped a beat.

The spirits of the strangeness that had been controlled were all annihilated.

..

Xu Bai was brought along by the Transcendent and rushed to the destroyed city at an extremely fast speed. It didn’t take long before they arrived at their destination.

Just as he landed on the ground, he heard the Transcendent’s strange voice.

“You guys are from around here. Tell me about the cause and process.”

Transcendent sized up his surroundings with a strange look, his brows tightly knitted together.

Xu Bai quickly turned his head and pretended to be respectful. "Sir, this is what happened."

When he spoke, he became even more respectful and pretended to take a few steps forward, making it even more flattering.

Transcendent Weird didn't take it seriously and didn't take it seriously. He even thought that Xu Bai was doing this to win his favor.

The distance between the two sides was getting closer, and Xu Bai's speed of speaking was slowing down. When he was only a few steps away from Transcendent Strange, his divine soul suddenly passed by him.

The Transcendent Strange had no defense to begin with. At this moment, he felt dizzy and sleepy, as if something had fixed his soul.

"Not good! There's a problem!"

At this moment, the Transcendent strangely understood.

The strange creature standing in front of him was not just a simple strange creature. There was something wrong with him!

Chapter 1053: The Absolute Saint's Investment (2)

However, the sense of chaos in his mind was getting stronger and stronger. He felt that he would be controlled in an instant.

If he were to be controlled, the outcome would be unimaginable. It would definitely not be a good outcome. Under such a dangerous situation, Transcendent Strange instantly thought of his backup plan.

Xu Bai was only one step away from controlling this Transcendent Strange, but just as he was about to take another step, an unusual sense of danger appeared in his heart.

When he felt a sense of danger, he found it unbelievable. It was impossible for something like this to happen to someone below the Saint Realm.

In other words, the Transcendent Strange in front of him was already able to bring him danger.

Xu Bai instantly reacted. This kind of danger made him retreat rapidly, staring warily at the Transcendent Strange Beast in front of him.

In the next moment, the Transcendent in front of him started to behave strangely. The sinister aura on his body gradually intensified.

“Heh...Who exactly are you!”

The Transcendent’s strange eyes were filled with endless ferocity as his tone became extremely bloodthirsty.

From his bloodthirsty eyes, one could see the pain. It was obvious that the Transcendent Strange in front of him had paid the price.

Xu Bai raised his eyebrows. “Saint Realm?” he said. “You’re actually able to reach Saint Realm in such a short time. It seems like the Absolute Saint has given you a lot of benefits.””

When these words left his mouth, Transcendent Strange was like a wooden statue, and it took him a long time to react.

“Since you know about that person’s existence, it seems that your background is not small. Let me take you down first.”

On the surface, he looked very anxious, as if this kind of short-term improvement could not last long. In the blink of an eye, he raised his fist and bombarded Xu Bai.

Before he died, he was a martial artist, and a martial artist was best at close combat. Now, the distance between him and Xu Bai gave him the feeling that he had the advantage.

The fist carried an invincible sinister aura. In an instant, it caused the surrounding ground to crack inch by inch. As the wind whistled, a destructive force attacked.

Xu Bai’s eyes shone brightly as he stood in the center of the destruction.

He raised his right fist and dodged. His fist was enveloped in a blazing white light, and all kinds of attacks came down with terrifying power.

“Boom!”

The two of them attacked each other and collided in an instant. The white light in Xu Bai's hand became even more intense. At the same time, he took a step forward. It was this step that instantly disintegrated the strange attack of the Transcendent.

The Transcendent Uncanny Dendon Dendon took a few steps back. His pale face turned ashen. Cracks appeared on his right hand, and in an instant, it exploded into a bloody mist.

"How is that possible?"

"We've already slaughtered all the demonic creatures that have reached the Saint Realm. How can there be demonic creatures of this level?"

He couldn't understand. In the battle between the Bizarre Human City and the Bizarre Demon City, all the Saint Realm monsters in the Bizarre Demon City had been killed by them. Since they had killed all of them, why were there still existences that could rival him?

He was very clear about his own strength now. He was a saint. Although he had only become a saint for a short time and paid a great price, he was definitely not comparable to an ordinary monster.

Since it was not an ordinary demon ghost, there was only one answer!

People!

Transcendent Strange's face was filled with shock." You're a human, you're from the mortal world. You can travel freely and are not affected by the rules. I know now, you're the Bloody Butcher Blade Guest!""

"Bloody hell!"

Xu Bai had originally wanted to have some fun, but when he heard these words, he was instantly furious.

He only took one step forward, and layers of cracks appeared in the surrounding space. He had already disappeared from where he was.

Opposite him, Transcendent felt a strange pain in his chest. When he lowered his head to take a look, there was already a huge hole in his chest. Xu Bai's face was cold, causing his scalp to go numb.

With just one move, he was directly reduced to a lower rank. This difference was extremely obvious.

"Your strength isn't that great, but you have the ability to resist my soul. It seems like the Absolute Saint has invested a lot in you. The ruins seem to be weakening, allowing him to project his power."

After Xu Bai said that, he immediately grabbed the strange neck of the Transcendent.

The Absolute Saint knew that he had the ability to control the soul, so he had a special reinforcement on the soul. He couldn't control it directly, but that didn't mean there were no other ways.

The reinforcement mentioned just now was indeed impossible to control, but as long as the controlled object could voluntarily give up the protection of the soul, no matter how much reinforcement it was, it would not work.

After all, the control of the soul was not about strengthening, but the control of the main body.

"I'll give you a chance to perform, and I'll reduce your pain."Xu Bai smiled and said,"Release your soul and let me investigate."

"Haha." Transcendent laughed coldly. If you dare to kill me, the great existence will resurrect me."

Xu Bai sighed. This guy seemed to have been brainwashed, but he also knew that he would not be able to get anything out of this stubborn guy.

After receiving the heavy blow, the Transcendent had already lost the ability to resist. Xu Bai released his hand and let the Transcendent fall to the ground. Then, he slowly squatted down.

From the perspective of a Transcendent, Xu Bai exuded a terrifying sense of oppression.

"What do you want? Torturing me? You can come. We've already made preparations."Transcendent Strange expressed his unyielding attitude.

Xu Bai suddenly felt a little emotional. This emotional gaze fell into the strange eyes of the Transcendent, but he felt a chill all over his body.

This guy actually had a sense of familiarity that he hadn't felt for a long time. It was as if he had recalled something from the past and felt a heartfelt emotion.

Transcendent Strange suddenly felt as though he had encountered a terrifying pervert.

Xu Bai didn't care what Transcendent Weird was thinking. He sighed and said, "Ever since I learned how to control the soul, I haven't used these methods for a long time. I still feel a little rusty. Why don't we do an innovation today?"

Transcendent Weird was stunned on the spot, not knowing what innovation meant.

At this moment, Xu Bai stood up and patted off the nonexistent dust on his body. His eyes revealed a look of reminiscence.

His voice was slow and steady, but it had a hair-raising quality to it.

"A long time ago, Wu Hua once told me that monks should be merciful. I thought about it later and found that it was right. Not only monks, but ordinary people like us should also be like this."

"Tsk tsk tsk...So, I haven't tortured other people's bodies for a long time. You should feel lucky, because I think it's merciful. I prefer to torture people's souls."

"You won't die. I'm proficient in the methods of divine soul support. I can let your divine soul choose between life and death. You know that the pain of the divine soul is much stronger than the physical body. Let us begin."

With every word Xu Bai said, Chao Fan's strange face turned even paler. When Xu Bai said start, his heart was already trembling.

"Ah!"

Before the Transcendent could react, he felt the pain of his soul. Immediately after, his entire body curled up into a ball, trembling non-stop.

This pain was deeper than the physical pain. Transcendents and weirdos had experienced many things. He could swear to the heavens that his past experiences were nothing compared to the present.

Every second, his soul was torn apart, and every second, his soul was constantly repaired. It was like an endless cycle, and he could never escape.

"You... That's strange!" The Transcendent Strange used all his strength to grit his teeth and roar.

Xu Bai shrugged his shoulders and said, "It's not enough. Keep working hard."

The feeling of his soul being torn apart continued to deepen.

In this dark place, only the strange screams of Transcendents and Xu Bai's laments were left.

“What a familiar feeling. It’s been a long time since I’ve used these moves. You have to hold on, or else you’ll be gone before I can get my fill.”

This sentence was like the last straw that broke the camel’s back. The Transcendent Strange finally could not hold on any longer.

He almost used all his strength to say these three words.

“Forgive me!”

Chapter 1054: Xu Bai’s Great Crisis

When he said this, Transcendent Strange’s heart collapsed. However, there was a moment of relaxation that eased the collapse in his heart.

He couldn’t take it anymore. He really couldn’t take it anymore.

This uncomfortable feeling made him feel as if he was in purgatory on earth.

The pain in his soul was countless times stronger than the pain in his body.

As he was torn apart and repaired, he was on the verge of collapse.

Only those who had personally experienced this feeling knew how terrifying it was. He wanted to die, and he didn’t even want to live because he didn’t want to suffer such pain again.

Now, he only wanted to release his divine soul and let the other party give him a quick death. Living was more uncomfortable than dying. He fully understood the meaning of this sentence.

“This man is simply inhuman. I’ve never seen such torture methods.” Transcendent Strange thought to himself as his body trembled slightly.

Looking at the Transcendent Strange who had collapsed, Xu Bai smiled.

He had also experienced the pain of the soul. Moreover, it was not just his first time coming to the Bizarre Market. He had experienced it many times. Therefore, he knew that this kind of pain was not something that ordinary people could endure. Even a Transcendent Bizarre could not endure such pain.

If he could not hold on, his chance would come.

“Now, release your soul and let me check.” Xu Bai said with a smile.”

Transcendent Strange didn’t dare to delay at all. He was afraid that if he hesitated for even a moment, Xu Bai would launch that terrifying attack on him again, making him wish he was dead.

Therefore, after sensing that state and hearing Xu Bai’s words, he hurriedly released his divine soul.

Nothing was important now. The most important thing was to be able to die a quick death. That was the best.

Xu Bai didn’t stop. He expanded his divine soul and wrapped it around the Transcendent Strange. At the same time, he invaded the Transcendent Strange’s divine soul.

The soul of the Transcendent Strange was naturally much stronger than the other Strange Ones. Moreover, Xu Bai noticed that there was a tiny eyeball in the soul.

If one did not look carefully, they would not be able to discover it at all.

Xu Bai guessed that this was a special ability left behind by the Absolute Saint, which could allow him to temporarily become a Saint.

Since it was a Transcendent Strange, its soul must be extremely complicated.

Fortunately, Xu Bai was now a saint, so it wasn’t that difficult to explore.

In just a moment, he had grasped all the information. After grasping all the information, Xu Bai’s expression gradually became solemn.

This time, he found very useful information.

It was because of this information that Xu Bai had such a reaction.

First, he had detected some movements in the Strange Market.

They had indeed allied with the Absolute Saint and were ready to invade the human world at any moment. Now, they only needed a ritual.

Secondly, it was related to the Chu Emperor. He had never imagined that the Chu Emperor would actually be controlled.

In that case, there were also saints on their side.

Lastly, and most importantly, there was something strange about this Transcendent.

Just like his previous guess, there was no deviation.

The strangeness of the Extraordinary Realm had indeed received the care of the Absolute Saint. The Absolute Saint could now reveal a trace of his aura, but he couldn't go to the human world.

Xu Bai felt that this information was even more important than the previous ones.

The message was that the Absolute Saint's investment had divided his power among the peak Extraordinary Evils.

In fact, the power that was scattered was very little. It was almost negligible for Absolute Saints, but every peak Extraordinary could borrow this power once and experience the power of becoming a Saint.

This was the most important information Xu Bai knew.

If the Chu Emperor was controlled, there was still Director Mu in the human world who could deal with him. However, if every peak Transcendent Strange could borrow this power, then the scales of victory would tilt towards the Bizarre City.

Xu Bai knew very well that when a bunch of peak-stage Transcendents became Saints, even if they were not as powerful as peak-stage Saints, it would still be a terrible situation. At that time, the terrible disaster would continue, and the human world would have no chance of winning.

Although there was a limit to becoming a saint, and it would be disastrous if he entered the saint realm rashly, it was hard to say for sure in a short period of time.

"I can't continue collecting. I have to leave quickly and tell them this information." Xu Bai thought for a moment and came to a conclusion.

He didn't stay any longer and headed in a direction.

From the previous few times when he had destroyed cities, he already knew where the City Lords had gathered. This time, he was going to seize the City Lord Token and return to the human world through the circular pattern.

As long as he returned to the human world, everything would be fine. Although the situation did not look good now, they could still discuss the follow-up methods later.

The world was vast. Xu Bai rushed over with all his might. When Xu Bai was rushing over, the white-robed man suddenly let out a soft cry of surprise at the place where the Saint Realm monsters had stopped.

Originally, they were discussing the next step. However, following the strange white-robed man's action, the soul seal that had already occupied the Chu Emperor's body frowned.

"What is it?"

When the man in white heard this, he came back to his senses and quickly said respectfully, "Sir, the power that that existence gave us seems to have worn down a little. I can feel it. It just so happens that the strange thing we sent to investigate seems to have died."

"Dead?" Hun Feng's frown deepened. "The power bestowed upon you by the Absolute Saint can allow a peak Transcendent Strange to reach the level of a Saint. Although it's only for a short period of time, there should be no one in the Bizarre Market who can defeat you."

I Have Unparalleled Comprehension #Chapter 1055: Xu Bai's Big Crisis (2) - Read I Have Unparalleled Comprehension Chapter 1055: Xu Bai's Big Crisis (2)

Chapter 1055: Xu Bai's Big Crisis (2)

The man in white nodded, indicating that this was indeed the case. Now that the Bizarre Demon Market had been eradicated, only a few remaining Bizarre Demons were left. However, they were all small fries and could not cause any big waves.

The Transcendent Strange that had been bestowed by the Absolute Saint could do whatever he wanted here. How could he die for no reason?

After thinking about it for a moment, a ray of light flashed across the white-robed man's mind as he thought of something unusual.

"It should be him!"

"It's Xu Bai. He's not dead. Other than him, there's no one else from the outside world who can defy the rules of the Bizarre Market!"

"Oh no! We seem to have been deceived. The Barbarian Grand Magus must have betrayed us and deliberately cheated our trust!"

The white-robed man kept talking. Every word he said made his heart skip a beat.

If this didn't happen today, he might really have been fooled. At that time, he would have fallen into someone else's trap.

Hun Feng fell into deep thought. After a moment, he stood up from his seat. "The heavens are really helping me."

The man in white was stunned, not understanding what this meant.

"Our goal is to kill him and remove his ability so that it can grow again," Hun Feng said slowly. "Now that he's personally delivered himself to us, isn't it better?""

The man in white reacted and understood what the soul seal meant, but he was very hesitant. "Sir, that existence once said that if we activate his ability, we will definitely not be his match. Is that right...?"

Hun Feng waved his hand and said, "You're thinking too much. It's impossible for me to stimulate his ability. What we need is to destroy his physical body. With my current strength, I can definitely silently make his physical body collapse instantly. That way, he will die immediately.""

If he attacked Xu Bai's soul, it would definitely trigger Xu Bai's ability. However, if he just wanted to kill Xu Bai, there was no need to destroy Xu Bai's soul.

He understood the Dao of Soul Sealing very well. He also knew what to do because he had already thought of a countermeasure.

As long as he killed Xu Bai with lightning speed, Xu Bai's ability would not appear at all.

When the man in white heard this, he thought about it carefully and felt that this method seemed to be quite effective.

Now that things had already reached this point, if they could kill Xu Bai with their own hands, they would definitely be able to gain the favor of that person. At that time, they would really be rich.

Was there a risk? Of course, there were risks.

However, there were more benefits.

Moreover, they were very confident. If it was just them who had become Saints, they wouldn't be so confident. But now, there was a Saint Realm expert helping them.

From the looks of it, I have the advantage.

The man in white gritted his teeth and said, "Sir, if you need our cooperation, we will do our best to help. As long as we can kill Xu Bai, everything will be safe.""

"Can you find his location?" Hun Feng nodded. I know the Absolute Saint gave you powers. If that's the case, you should be able to find him with this clue."

“We just need to sense it a little and we’ll know the exact location.””

As he spoke, the white-robed man turned his gaze to the Saint Realm stranger beside him.

The Saint Realm cultivator who had been placed on it understood what he meant. He nodded and closed his eyes. He felt for a moment and opened his eyes.

“I’ve already sensed it, but the situation isn’t too good. He seems to be planning to escape and is rushing to the place where the various City Lords are gathered. He should be trying to get the token.”

After saying that, the Saint Realm monster stopped talking and waited for the white-robed man’s instructions.

The man in white turned his head and looked at Hun Feng.””Milord, the situation is clear. Should we move immediately and set up an ambush where he passed by, or use other methods?”

Here, the one who made the decision was still Soul Seal, so the white-robed man was not offside.

Hun Feng pondered for a moment and said, ” Of course it’s an ambush. When the time comes, everyone will attack with all your strength. Before he can react, we will directly destroy him.””

After the plan was discussed, they did not stay any longer and rushed in Xu Bai’s direction.

..

Under the dark red moonlight, Xu Bai was flying at full speed toward the City Lord.

For some reason, he had a bad feeling.

This premonition was like a ball of fog that kept reverberating in his mind. He could not get rid of it.

“What’s going on?” Xu Bai slowed down slightly.

At his realm, this premonition was no longer an illusion, but a real premonition.

He raised his hand and calculated.

However, after calculating for a long time, he still did not have any clues. Instead, he felt like he was in a fog.

“No, I can’t rush over rashly.”

They were now in a different position. This was not a safe place. Xu Bai could not risk his life as a price. He had to be cautious.

After thinking about it, Xu Bai decided not to go over for the time being.

At least...He had to wait until the feeling in his heart disappeared.

“Let’s find a place to hide and see what the problem is.”

Xu Bai turned around and planned to leave.

However, just as he raised his foot, he suddenly felt a sense of danger.

He suddenly turned his head and looked in a direction.

There, a ray of light arrived in the blink of an eye.

This light carried a terrifying power. Xu Bai believed that if he came into contact with it, he would definitely die on the spot.

However, things had happened so suddenly, and it seemed that he could not dodge this speed at all. It seemed that it had been so long, but this speed had already broken through to a terrifying level.

Xu Bai could even see the person standing behind the light from the corner of his eye.

The Chu Emperor!

To be more precise, Xu Bai knew that this was not the Chu Emperor, but a controlled body.

This was troublesome!

At this moment, Xu Bai knew that he had been ambushed, but it seemed like he really couldn’t escape.

..

Behind the light, Hun Feng and the Saints were all smiling.

Xu Bai had no way to dodge this attack. He knew that this was a combination of all the Saint Realm experts and the strange peak Saint Realm experts. No matter how much Xu Bai fought, he couldn’t dodge it.

It was as if he had already seen the scene of Xu Bai's death and their victory. The corners of his mouth subconsciously curled up.

"When the time comes, the Absolute Saint will definitely reward me handsomely. I might be able to live forever." Soul Seal thought.

He had joined the Absolute Saint to survive. Now that he had done such a great thing, he would definitely be rewarded.

The other Saint Realm Monsters were also relieved. They would benefit a lot from drinking the soup this time.

Especially after solving the big problem in their hearts, their future plans would be stable.

Every one of them had a smile on their faces. They were very happy, as if they could already see Xu Bai's death.

On one side, it was a joyous atmosphere. On the other side, Xu Bai's forehead was instantly covered in dense sweat.

At this time, it was simply impossible to attack his divine soul.

That was because as he became stronger, his divine soul would also become stronger. And now, in the blink of an eye, he would die. It was impossible to destroy his divine soul in an instant.

If his divine soul could not be destroyed, then he would not be able to invite the Goldfinger. If he could not invite the Goldfinger, he would definitely die a miserable death.

Under such a terrifying crisis, Xu Bai's mind was spinning rapidly.

All of this only took an instant. The attack was already approaching, and the light carried a destructive power that wanted to instantly obliterate Xu Bai.

The sense of danger was like an abyss, making Xu Bai's body stiffen. However, he knew that he had to think of a way to go all out. This was definitely not his final destination.

Under such a strong pressure, a light suddenly flashed across his mind, giving him a solution.

"Since it has already reached this stage, I can only try."

Xu Bai took a deep breath and raised his hands...

Chapter 1056: The Chu Emperor Returns to the Human World

This attack was aimed at the people in the Plane.

Xu Bai knew that there was no way he could dodge this attack. He also knew that it was impossible to destroy his divine soul in such a short time.

Because before he could be completely destroyed, he would have been hit by the attack. At that time, there would be nothing left.

Therefore, when he saw this direct attack, he suddenly had another idea.

The attack was condensed into a single point and didn't scatter. It was fine as long as it didn't hit him. Now that he couldn't dodge it, he would use the simplest and most direct method.

Xu Bai's outstretched hand was shrouded in a blazing white light, but he did not aim it at the group of enemies. Instead, it slid down from his head.

The next moment, starting from his head, it was pulled down continuously. Half of his body turned into nothingness.

It hurt!

It was too painful!

It was so painful that his entire body trembled!

Although it was not as painful as his soul, the pain of having half of his body shattered still surged like a tide, making him feel very uncomfortable.

But he knew that he had succeeded this time.

The tiny light gathered the greatest power, but it did not have a wide range of attack.

In other words, all he had to do was dodge. The half of his body that was broken just so happened to open up an empty area.

The destructive light passed through the crack and disappeared into the distance.

The entire place was silent.

Hun Feng was stunned. He stood rooted to the ground.

“There’s such a thing?”

The other Saint Realm warriors had the same expression. They didn’t expect Xu Bai to use such a self-destructive method to dodge the attack.

“This person’s thinking is really strange!”

Even as enemies, they felt that Xu Bai’s actions were really smooth.

Actually, it wasn’t just them. Even Xu Bai felt that his actions were very strange.

But it didn’t matter. As long as it succeeded, who cared if it was strange or not?

With the flow of his powerful True Core Strength, half of Xu Bai’s body returned to normal in just a moment.

He did not give the other party any time to catch his breath and quickly focused all his energy on his soul.

In the next moment, Zhen Yuan surged, and his divine soul was quickly destroyed.

“Hahahaha!”

Intense pain hit him, but Xu Bai laughed out loud. He laughed in pain and roared.

“How did you guys think of concentrating on one point? Now that I’m alive, you all have to die!”

If the other party did not use this concentrated method to kill him in an instant, but used an area-of-effect attack, he probably would not be able to dodge it. Unfortunately, things were just so coincidental, and he could be ruthless enough to directly shatter half of his body.

“Boom!”

As Xu Bai finished his last word, his divine soul was finally completely destroyed. At the same time, grayish-white and golden heavenly changes appeared in the surrounding void and continuously interweaved.

The intertwining Heavenly Changes rose from his body, and one of his eyes turned golden while the other turned grayish-white.

At this moment, there was no longer any emotion in his eyes. There was only calmness, as calm as a lake.

“Not good, run!”

Even though the Soul Seal possessed the strength of a Saint, it still turned tail and fled without saying a word. It was as if Xu Bai was a ferocious beast.

He ran very quickly and disappeared into the horizon in the blink of an eye.

The other Saint Anomalies didn’t hesitate either. They just slowed down and disappeared into the sky.

They all knew that Xu Bai was terrifying in this state. He was not someone they could deal with at all. Their lives were more important.

One of the Saint Realm warriors turned around subconsciously, and then his face froze like a block of wood.

Xu Bai was nowhere to be seen. There was nothing left.

“Boom!”

Before he could react, he heard a loud sound coming from ahead. When he turned around, he saw Hun Feng’s body in tatters and blood spewing from his mouth.

Xu Bai stood in the middle of the road. His body was covered in gold and gray, making him look mysterious and terrifying.

“Run!”

After all, he was a Saint Realm expert. Even if he was severely injured in one move, he still had the strength to speak.

When he shouted the word ‘run’, he grabbed a saint and threw it at Xu Bai.

“Damn you!”

At this moment, the Sage thought of many things and wanted to curse, but he stopped when the words reached his mouth.

Before he could say that, Xu Bai had already grabbed his neck.

“Let me go, please. I’m willing to be your slave. As long as you let me go, I’ll do anything you want!”

No one would complain about living for a long time. Even old men like them were afraid of death. At this moment, dignity was no longer important. He only wanted to live and beg for mercy.

Unfortunately, Xu Bai could not communicate in this state.

The gold and gray entered the strange saint's body. The strange saint's body started to tremble violently and gradually became stiff.

In the next second, the Saint Realm monster was turned into ashes without any resistance.

"Stop him. I'll ask the Absolute Saint to resurrect you!"Hun Feng's entire body trembled when he saw this scene as he hurriedly shouted.

However, at this time, no one cared about him at all. As for the so-called resurrection, they really didn't take it seriously. It was good that they could run.

Chapter 1057: The Chu Emperor Returns to the Human World (2)

All the Saint Realm ghosts started to run, but before they could take a few steps, Xu Bai raised his palm and gently pressed down.

The golden and grayish-white sky changed and sealed the surroundings. In an instant, all the strangeness present could not move.

Including Hun Feng, they only had one thought in their minds.

"It's over!"

No one could escape!

Xu Bai, who was in a special state, tilted his head and looked straight at the group of monsters. Then, he took a step forward.

With him as the center, the golden and grayish-white sky changed, forming a terrifying madness.

Strange, who was at the center of it, suddenly screamed in pain.

This kind of shouting seemed to be contagious and gradually spread.

In the blink of an eye, all the monsters except the Soul Seal started to wail in pain.

Their wails did not last long before they turned into ashes in pain.

When Hun Feng saw this scene, he was completely dumbfounded. His forehead was covered in fine sweat.

“Spare me! Spare me!”

He was also afraid. He didn’t know if the Absolute Saint would resurrect him if he really died. After all, the Absolute Saint had only given him some verbal promises.

Xu Bai didn’t make a move. He just stared at him calmly, which made him even more afraid.

At this moment, a light light flashed in Hun Feng’s mind. He seemed to have thought of something and said loudly.

“You’re worried about the Chu Emperor, right? Yes, let me go. After you let me go, I’ll return him to you. If you kill me, he’ll die too!”

It was as if he had grabbed onto the last life-saving straw in the water.

At this moment, any so-called dignity was no longer important. To hell with dignity. Survival was more important.

Seeing that Xu Bai was still sizing him up with his head tilted to the side, Hun Feng knew that even if Xu Bai’s consciousness had blurred, he still wouldn’t be able to hurt the Chu Emperor. Thus, he hurriedly added fuel to the fire.

“Xu... My lord! I’m willing to become your subordinate and serve you at your beck and call. I’ll never have second thoughts!”

This time, what answered him was a pain that left his soul.

The golden and grayish-white interweaved into the sky and directly drilled into Hun Feng’s head. Hun Feng felt that his divine soul was being stripped away bit by bit.

“You want to strip me out? No, please don’t do this. I don’t want to die!”

Hun Feng let out a painful scream. He wanted to struggle, but he was powerless.

From his perspective, he was like a thread being pulled out of the Chu Emperor’s body. In just a blink of an eye, he had been completely stripped away.

He could already predict the moment of his death.

He saw that Xu Bai's golden and gray eyes were still as calm as the surface of a lake.

"Boom!"

Gradually, Hun Feng felt his consciousness blur. His entire body was bone-chilling cold. His soul body turned into dust and fragments that filled the sky.

The Chu Emperor's eyes turned hollow once more, becoming as wooden as a block of wood. He turned his head and stared fixedly at Xu Bai.

At this moment, the golden and grayish-white colors behind Xu Bai continuously interweaved and entered the Chu Emperor's glabella.

In an instant, the Chu Emperor's originally empty gaze gradually returned to normal. His consciousness was returning.

"Xu... Bai..."

A large amount of memories surged in from nowhere. Those memories were all memories from after he entered the Bizarre Market. He realized that he was still in a dark red environment and had not left the Bizarre Market.

"You killed all the Saint Evils!"

"You're not Xu Bai. Who are you?"

The Chu Emperor became serious. He felt that this person in front of him was very unfamiliar. Although he looked like Xu Bai, whether it was his temperament or his gaze, it made him feel a sense of alienation.

Xu Bai didn't answer. After grabbing him, he walked in a direction.

His speed was very fast, and he disappeared into the horizon in the blink of an eye.

The Chu Emperor didn't feel that there was anything wrong with being led by Xu Bai like this.

He was more curious about Xu Bai's current state. He was too strong to kill so many Saint Realm experts in such a state.

Xu Bai didn't answer him. Instead, he brought him to a city.

As soon as he landed in the city, countless strange things appeared.

These strange creatures were all powerful strange creatures. They were either the City Lords of each city or the existences in the deep mountains and forests. However, at this moment, they all revealed expressions of fear.

Xu Bai didn't attack these monsters. Instead, he waved his hand and one of them flew over.

Xu Bai took out a token from his strange waist. Then, he brought Emperor Chu with him and flew towards another place.

However, before it flew over, the gold and grayish-white color entered the bodies of these strange creatures, making them unable to move.

Xu Bai was very fast. Soon, he arrived at the position of a circular pattern.

When the Chu Emperor saw the circular pattern, he frowned. "Do you want to leave?"

Xu Bai didn't answer him. Instead, he threw the Chu Emperor onto the circular pattern and activated the token.

In the next moment, the circular pattern emitted a hazy light that enveloped the Chu Emperor. In the blink of an eye, the Chu Emperor disappeared.

This time, Xu Bai didn't follow them. When the light on the circular pattern disappeared, the gold and gray color in his eyes gradually faded and returned to normal.

"Did I escape?" Xu Bai regained his consciousness and scratched his head, not understanding the current situation.

However, he did not think too much about it because he did not have that memory. He could not understand it even if he wanted to.

"In short, it should be safe. Moreover..." Xu Bai turned his head and looked in the direction where the powerful monsters were.

For some reason, he could feel that there were many things he needed there, and it seemed that he could take them all.

None of this was important. What was important was that Xu Bai felt like he had struck it rich.

Thinking of this, Xu Bai rubbed his hands and rushed toward that place.

..

In the human world.

In the Imperial Palace of Great Chu.

Once again, Director Mu gathered all the Saints. This time, one person was included.

Female Abbey Dean.

The female Abbey Dean was still dressed indifferently. She looked extremely otherworldly, like a fairy who did not belong to the human world.

“Everyone is here. It won’t be long before Xu Bai goes in, but we have to hurry up.”

Director Mu looked around and said slowly, “This time, it will be a tough battle. Although the other party is not as powerful as us, we have to be careful. After all, the other party has completely betrayed this world.”

“This time, we still need one more spot to make up for the gap between us and the Saint Plane. My suggestion is to put everything aside for now and wait here. As long as Xu Bai comes back, we will be able to get the news and make a response.”

Everyone looked at each other and nodded in unison.

Right now, nothing was more important than destroying the Bizarre Market. Although they had the absolute advantage, the other party had reported to the Absolute Saint, so they had no choice but to be careful.

If they won this battle, they would face even stronger enemies, but at least they would have a chance of survival. If they lost, they would have nothing left.

Director Mu waved his hand again and spread out the map. He began to explain some important details again.

This was what he thought of later on. Every time he thought of it, he would communicate with them and supplement them.

In order to ensure that nothing went wrong, they had to go through these things. Otherwise, the slightest mistake would cause them to lose the entire game.

However, at this moment, a powerful aura suddenly appeared, causing everyone present to stand up and look in a certain direction.

Everyone’s faces were filled with shock. Even Director Mu, who was a saint, had the same expression.

At their level, they could easily sense the minute details. It was precisely because of this that they felt incomparably shocked.

Director Mu's eyes revealed a look of disbelief as he muttered to himself, "He actually... You're back!"

Eunuch Wei narrowed his eyes. "Everyone, follow me to welcome the Chu Emperor back to the human world."

Chapter 1058: Xu Bai Is Rich

After Eunuch Mu finished speaking, everyone present nodded at each other. They stood up and prepared to welcome the Chu Emperor.

However, before they could take two steps, they felt a huge pressure. In the blink of an eye, a middle-aged man was already standing in the room.

"Greetings, Your Majesty!"

Everyone present, including Director Mu, bowed.

The Chu Emperor looked around at the crowd, his hands behind his back as he nodded slightly.

His gaze was deep and unfathomable, and there was a hint of emotion in his tone.

"After experiencing countless tribulations, Zhen has returned. Zhen's judgment was right. Xu Bai is indeed the only one in the world."

His return this time was truly an indescribable situation for him.

He really didn't expect that today, because of Xu Bai, not only did his soul return, but it also returned to the human world.

If they could live, who would want to die? Who would be willing to be a muddleheaded object?

Back then, for the sake of this human world, the Chu Emperor was willing to throw himself into the bizarre market and use his life to exchange for a buffer period. However, he was also a person who cherished his life. If it was not for the responsibility on his body, why would he do it?

Now that he had returned, this joy was indescribable, but he knew that he might have to shoulder an even heavier responsibility.

After his soul returned to his body, he had already remembered everything he had experienced in the Strange City.

That terrifying existence made him feel powerless.

But so what?

He had to be prepared for the final battle at any time.

Back then, it was the same when he faced the Bizarre Market, which had the advantage. Now, it was the same when he faced that terrifying existence.

Afraid?

He was not afraid.

He was just worried about this world.

“Hu...” The Chu Emperor took a deep breath. Just as he was about to speak, hurried footsteps came from outside the door. A figure flashed past, grabbed the Chu Emperor by the collar, and pushed him against the wall.

Lord Sheng You’s eyes were red as he panted heavily, his hands trembling slightly. “You’re finally back!”

“Bang!”

He fiercely punched the Chu Emperor’s face, but the Chu Emperor didn’t retaliate. Instead, a bitter smile appeared on his face.

When he ascended to heaven, he did not inform King Sheng You in advance. He already knew the outcome today, so he was willing to be beaten up.

After King You Sheng punched Emperor Chu, he grabbed Emperor Chu’s collar once again and said in an irritable tone, “I don’t care if you’re my brother or not. If something like this happens again, if you don’t tell me, I’ll go crazy.”

The people present did not stop him. This was a matter between the two brothers. Moreover, they were well aware of King Sheng You’s temper. If they did not let King Sheng You vent now, everyone would be in trouble.

The Chu Emperor said helplessly, “Brother, it’s a family matter. When the time comes, let’s talk about it slowly behind closed doors. Although everyone here is familiar, I still want to maintain my face. Don’t worry, the situation from last time will definitely not happen. I promise you.”

King Sheng You looked around before withdrawing his hand. He found a seat and sat down, but his gaze was still irritable.

This time, he was happy to see Chu Huang back. He just couldn't control his temper.

The Chu Emperor coughed to ease his embarrassment. He raised his head and looked at the map left behind by Director Mu in the air. He frowned and said, "Are you guys ready?"

He didn't have the time to mention how he came back because he was already attracted by the map in front of him.

Director Mu nodded and said, "We've already made preparations. Considering the number of Saints in the Bizarre Market and various situations, we've arranged for our men to enter the Bizarre Market in an instant and launch a fierce attack."

As he spoke, he pointed at the map in the air and prepared to explain in detail which areas he would continue to strengthen. He was also prepared to explain his plan in detail.

But before he could say anything, the Chu Emperor interrupted him.

"Old Mu Ah, the USD is There are some things that you have to tell me."

"Hmm?" Director Mu and the people around him were all confused.

They could hear that the Chu Emperor's tone seemed to carry some awkwardness. They had a feeling that something was about to happen.

The Chu Emperor sighed and said in a very special tone, ""I'm afraid your plan will be wasted. Do you know how I came out? It was because of Xu Bai."

"He seems to have entered a special state. This state is very strong, so strong that even I feel a little scared."

"As for why this plan was wasted, it's because all the Saints in the Bizarre Market died. They were all killed by Xu Bai alone."

After the last sentence, the scene fell into absolute silence. The so-called absolute silence meant that not even the sound of the wind could be heard, not even the sound of breathing.

Everyone was holding their breath and had the same expression on their faces, which was shock.

Especially Director Mu, he was completely stunned.

This feeling was very strange. To make an analogy, it was as if he had put in a lot of effort to ask a woman out to bed to discuss something new.

However, before he could take action, another person took the lead and the price was just a meal.

All in all, it was very uncomfortable. It made him feel an indescribable feeling, but the outcome was good. Therefore, although the whole thing had exceeded his expectations, it meant that the Bizarre City was just a small ant to them.

Chapter 1059: Xu Bai Is Rich (2)

Liu Yue, the Prime Minister of the Great Yue State, twitched his mouth and said, "This fellow...Was he not prepared to be a human anymore?"

Everyone present nodded in agreement.

Indeed, this was no longer a matter of anything else. It was a matter of whether he was a human or not.

"We've set up everything here. We've already laid out all the plans in detail. We're ready to deal with the Bizarre Market. We've even paid the price of a tragic victory. But before we can implement our methods, you've resolved all the dangers alone. Is this what a person should do?

The female Abbey Dean felt the same way." At first, he was just a young man with weak strength. Now, he has the strength that surpasses ours. It's not something that can be measured by humans to be able to reach this level in a short period of time."

No one denied this because it was true. Xu Bai was not the same as before. Not only was he a Saint Realm master, but he also had that special state.

"Perhaps we can win in the future." Eunuch Wei added.

One could hear the pride in his heart.

Eunuch Wei had the best relationship with Xu Bai, so he was the happiest to see Xu Bai reach this stage.

Emperor Chu said, "Everyone, since we've already decided, let's enter the Bizarre Market as soon as possible. Now that there are no more Saints, we don't know if the rules of the Bizarre Market still exist."

Since the danger of the Bizarre Market had been eliminated, they had to eliminate all the strangeness as soon as possible. After eliminating these strangeness, they would have the next step of their plan.

"Your Majesty," Director Mu muttered, "we originally wanted to destroy the rules after the Anomalies unified before we attacked. But now that all the Saint Anomalies have been killed, we don't know if the remaining Anomalies can lead the unification."

"If there is no way to unify them, the rules will still exist. Letting us in will be harmful."

Everyone nodded.

What he said was right. If the rules could not disappear, then their souls would all be erased when they entered. It would not be beneficial to them.

After hearing this, the Chu Emperor fell into deep thought.

Everyone stopped talking and waited for the Chu Emperor's reply.

Now that the Chu Emperor had come out, he naturally became the backbone.

Time gradually passed. In the blink of an eye, the time it takes for an incense stick to burn had passed. Only then did the Chu Emperor recover from his state of contemplation.

"It seems that we can only wait for Xu Bai to come out." The Chu Emperor slowly said, "Now that all the Saints have died, there is almost no danger for Xu Bai. He can wander around freely in there. After he comes out, we will carefully discuss other countermeasures."

Everyone looked at each other.

King Shengyou said, "I don't know how long he'll be in there."

Eunuch Wei said, "Based on my understanding of Xu Bai, I'm afraid that the entire Bizarre City will be stirred up by him."

"No matter what, Xu Bai still has a chance of winning." The Chu Emperor was very clear about this. "In that case, let's not set our target on the Bizarre Market for now. We have to focus on the plans that follow. Director Mu, tell me everything that happened while I was not here."

Director Mu nodded and changed the topic. He began to talk about what had happened recently.

..

On the other side, Bizarre City,

Xu Bai put his hands behind his back and paced back and forth. He nodded in satisfaction as he looked at the strange city under his control.

These strange traces were left on the ground of the entire city, and among these strange traces were golden progress bars.

It felt good.

Xu Bai felt that he had made the right decision to come this time. He had made a huge profit.

Not to mention anything else, just the progress bar was already very profitable.

These strange things were not ordinary strange things, they were all extraordinary, and each of them could be considered a city lord or an old monster in the mountains.

These progress bars were of high quality. Xu Bai estimated that there would be a huge improvement this time.

He didn't continue to move, but began to work on them one by one.

A rare opportunity like this, where he was out of danger and could progress steadily, was the best for him.

All the monsters stood there in a daze. They were not killed by Xu Bai. Instead, they protected Xu Bai in the middle like guards.

Xu Bai looked at her attentively, not knowing what to do with the others.

While he was focusing on the progress bar, the huge eye that was bound by chains in the ruins suddenly trembled.

The Absolute Saint seemed to have sensed something. He shook crazily, and the chains around him rattled, creating a headache.

Cracks appeared in the space connected by the chains, but they were quickly repaired.

A figure appeared in the sky and looked at the struggling Absolute Saint.

“Did something happen again? Why are you so angry?”

When the ruins appeared, the struggling Absolute Saint stopped. His eyes were filled with cold killing intent.

“Hehehe...Xu Bai...”

Xu Bai?

The vestige had no facial features, so no expression could be seen. He touched his chin with his hand and said, “Looks like...What plan did he ruin to make you so angry?”

The Absolute Saint’s eyes turned colder. “One day, I will go out from here and kill him. I will destroy that world, and I will even destroy all the worlds related to that world.”

The remains shrugged. “Let’s talk about it when you get out. You can’t threaten anyone with your harsh words now.””

“I’ll still say the same thing. If you help me, I’ll let you exist forever. Even if countless worlds are destroyed, you’ll still be here and will never be harmed.” the Absolute Saint said slowly.

“You were born with countless broken worlds, but you have your own intelligence. Think about it, how fascinating eternal life is.”

“In this world, all wealth and ability are empty talk. They will turn into a pile of dust with death. Only eternal life is the end of time.”

The ruins fell into silence, and the surroundings were completely silent.

The Absolute Saint’s huge eyes were cold, but his words were filled with endless temptation.

After a long time, the ruins shook its head.

“To be honest, I was almost tempted. Eternal life, this is what everyone wants. To be able to sit and watch the autumn moon and spring breeze, to be able to look at the river of time.”

“However, I thought about it later. This so-called eternal life seems to be under your gaze. The river of time that I look at, the autumn moon and spring breeze that I sit and watch, are all created by you.”

“Besides, I was formed from countless broken worlds. The idea I was instilled with was to kill you completely.”

“What I like more is that the world in the future will no longer be in an eternal cycle because of you.”

The Absolute Saint didn’t expect to receive such an answer after waiting for so long.

Eternal life was already the highest bargaining chip he could offer. No one should be able to refuse this, but he was indeed rejected.

“I originally only wanted to speed up the process of time ending to prevent any changes.” Although the Absolute Saint was rejected, he wasn’t unhappy at all. He said slowly, “This time, you will definitely lose.”

“Oh, why do you think so?” The remains raised his eyebrows.

The Holy Zhi said, “I can tell you clearly that Xu Bai is in the Strange Market now. You can’t get in touch with him anyway. He killed all the Saints, including the spies I planted in the Ghost Market.”

“His abilities should have a huge improvement. Just nice, the moment he leaves the Bizarre City will be the first step of my plan.”

“Don’t worry, I’ll invite you to take a look when the time comes.”

A powerful aura emerged from the remains, and his tone gradually became cold. “Tell me.”

The Absolute Saint didn’t say anything else. His huge eyes were filled with mockery.

The ruins floated in the air and did not say anything else. He knew that he would not say anything more about this matter and directly disappeared on the spot.

Soon, only the Absolute Saint was left.

After leaving the ruins, he appeared in another empty place and looked up at the sky.

“No, I have to contact Xu Bai as soon as possible, but how can I contact him? Oh right, let’s use the method from last time.”

Chapter 1060: A Large Number of Failure Experience (1)

The remains had thought of a good idea. They had to contact Xu Bai in advance and tell him what had happened here. The best thing was to inform Xu Bai through someone else and ask him not to come out of the Bizarre Market for the time being.

However, there was a problem. Xu Bai was in the Bizarre Market now. The rules of the Bizarre Market were clear to the remains. Even if they managed to contact him through the method they had just thought of, they would not be able to inform Xu Bai. After all, even if he was a Saint Realm expert, he would be affected by the rules of the Bizarre Market if he entered.

The relic floated in the air anxiously. He had thought of many ways, but if he couldn't contact Xu Bai, it would all be in vain.

In the end, he stopped. After careful consideration, he decided to contact them. At the very least, he would leak the news and see if they had any solutions.

After thinking it through, he didn't waste any time and started contacting them.

..

Barbarian territory.

Ever since the incident last time, Yun Zihai had not continued to be an official. Instead, he stayed in the palace's treasury and cultivated the ability related to the soul. As for his ability as a scholar, he temporarily put it aside.

Since he had already stepped into the Transcendent Realm, he did not have many extravagant requests. It was better to seek stability now. After all, if something really happened, he would really be a person who had committed a heinous crime.

"Brother Qingfeng, it looks like the last Saint Plane will be yours."

In their spare time, Yun Zihai and Liu Qingfeng chatted casually. Liu Qingfeng did not care about anything else and only wanted to become a Saint.

His strength was growing at an extremely fast speed.

Ever since the female Abbey Dean became a saint, there was only one position left in the world. Therefore, Liu Qingfeng really worked overtime to cultivate.

There was no one in the world who didn't want to become a saint. Even if they didn't have any desires, they would go crazy when it came to becoming a saint.

Back then, Liu Qingfeng had created his own abilities, including the recovery of his soul, to pursue a limit in order to become a Saint Warrior. Although he had been full of Saint

Warrior seats, he had always been hopeful. Now that hope had come, he would not relax.

"How many people in the world have both virtue and talent? I'm just a member of the masses. This time, it's up to luck."Liu Qingfeng knew what was going on. He shook his head and maintained a calm heart.

There were so many geniuses in this vast world. How could he guarantee that he would definitely become a Saint?

He had to maintain a calm heart and do his best. Even if he lost, he would have no regrets.

"Brother Qingfeng, don't belittle yourself. You still have a chance."Yun Zihai smiled.

His tone was filled with emotion.

Back then, they all started from the same starting line, and he was even ahead. However, Xu Bai had advanced triumphantly all the way, and now he had reached a height that they could not see.

Thinking back to his experiences over the years, he was rather emotional. He had witnessed Xu Bai's rise all the way. It could be described as extraordinary.

Sometimes, not only did he reach that height, but even witnessing his good friend reach that height was already very satisfying.

As a witness, how many people in this world could witness a miraculous event?

Yun Zihai sighed and shook his head gently. He had rested enough just now and planned to continue studying the power of the soul. At this time, he had to at least ensure that nothing happened to him.

However, at that moment, he felt a tremor in the depths of his divine soul.

Yun Zihai was slightly stunned. Now that he was familiar with the divine soul, he could feel that it was a door, a door from this world.

When Xu Bai first contacted them, he said that the items in the door could be temporarily classified as their own.

"At this time, I suddenly felt something. Could it be that something happened?"Yun Zihai instantly became alert.

He could feel the anxiety and anxiety behind him, as if there was something she wanted to say to him.

Yun Zihai thought for a moment and finally took a deep breath. He used the power of his divine soul that he cultivated to infiltrate his divine soul, preparing to touch that door.

He believed in Xu Bai. At least, among those who were close to Xu Bai, everyone believed in him.

Although Xu Bai was rumored to be very terrifying in the martial arts world, anyone who had interacted with Xu Bai and had a deep friendship with him would know that Xu Bai was very reliable.

Therefore, now that Xu Bai was not around and the other party was transmitting anxious emotions, Yun Zihai planned to give it a try himself to see if he could sense anything.

However, before that, he still told Liu Qingfeng to protect him while he only split a trace of his soul.

Liu Qingfeng was originally focused on cultivating. After hearing Yun Zihai's words, his expression turned serious. He nodded and agreed.

Yun Zihai had already separated a trace of his soul and came into contact with the door that transmitted his emotions.

In the next moment, a message came from the door and turned into clear words that appeared in his mind.

"Don't let Xu Bai come out of the bizarre market. Do everything you can to inform him. If he comes out, he'll definitely face unimaginable danger. That's the Absolute Saint's scheme."

"The Bizarre Market has the power of countless broken worlds. It's an area that the Absolute Saint can't enter. We can't let him out in a short period of time."

"Remember, we must use all means to inform him. Otherwise, we will lose!"

Chapter 1061: A Large Number of Failure Gains (2)

The message was very simple, but every word was heavy. When these words were put together, Yun Zihai understood the content.

His brows were tightly knitted together. Without much communication, he retreated impatiently.

As soon as he retreated, he turned to look at Liu Qingfeng.

“Brother Qingfeng, I have to make a trip to the Great Chu Imperial Palace. I’ll leave this place to you.”

Yun Zihai didn’t explain why, nor did he have the time to do so. After he received this news, he felt that he should inform the Chu Emperor immediately.

Liu Qingfeng wasn’t a dawdling person. He knew that there was an urgent matter at hand, so he nodded and agreed.

Yun Zihai didn’t care about his soul anymore. He directly jumped out of the window and streaked across the sky like a stream of light. His entire body was suffused with a noble aura as he rushed towards the Great Chu Country with all his might.

..

Great Chu, Imperial Palace.

It was already late at night, but the Chu Emperor was still sitting on his chair, his chin propped up in his hand, frowning in deep thought.

Now that he had returned, he had to shoulder the corresponding responsibilities again. When he left today, he could see the crafty expression on Director Mu’s face. It was as if he had thrown all the heavy responsibilities to him and relaxed in an instant.

“This old fellow is still the same as before. After zhen returned, he pushed all the trouble to zhen.”

The Chu Emperor rubbed the space between his brows, feeling a headache.

He had thought a lot today, but he still could not think of a solution. The Bizarre Market was no longer a problem for him, but the powerful Absolute Saint was like a fish bone in his throat that was difficult to pull out.

“We can only think of a way to meet Xu Bai and see if other methods are useful.”

The Chu Emperor picked up the tea beside him and poured a cup for himself before taking a sip.

There was a mist above the tea, and the fragrance of the tea lingered in the royal study.

Just as he was thinking carefully, a commotion suddenly came from outside.

“Lord Yun, don’t worry, I’ll pass the message.”

This was the spy outside the door, seemingly trying to stop him.

Soon, Yun Zihai’s voice was heard.

“What else do you have to say? I have something important to do now and can’t be delayed for a moment. Hurry up and move aside. If anything happens, if His Majesty wants to chop off my head, I’ll let him!”

Yun Zihai became more and more anxious, losing his usual calm demeanor.

“Don’t make things difficult for me. If I really barge in, I can only offend my superiors!” The spy’s tone became sharp.

This was their responsibility, and they could not afford it.

In this world, only a few people could reach the royal study without being notified.

For example, those who had entered the Saint Plane and Xu Bai.

“Yun Zihai?”

The Chu Emperor was also clear of the identity of the person who had arrived. He stood up from his seat and came to the window. Looking outside the window, he saw Yun Zihai who was preparing to barge in. He slowly said, “Let him in. There’s no need to stop him.”

Since the Emperor had come out to speak, the spies who were blocking outside also heaved a sigh of relief. They no longer stopped him and disappeared into the shadows.

Only then did Yun Zihai hurriedly walk in. After pushing open the door, he did not care about etiquette and hurriedly said, “Your Majesty, you can’t let Xu Bai out of the Strange City. After he comes out, he will be in danger.”

The Chu Emperor frowned and pointed at a spot beside him. “Tell me in detail. How can I make a decision when you don’t have a head or tail?”

Yun Zihai also knew that since he had already met the emperor, there was no need to be too anxious. He organized his words and explained the situation in detail.

The entire process wasn’t long. Yun Zihai tried his best to be brief and express the content. When the Chu Emperor heard everything, he fell into deep thought.

After a moment, he raised his head.

“It’s very difficult.”

It was indeed very difficult.

The return rule of the Bizarre Market was there. Perhaps when they launched an all-out attack, the rules could be weakened. However, they still needed time. If Xu Bai had enough fun inside before that, he would definitely be in danger when he came out.

“Your Majesty, can you let everyone brainstorm?” Yun Zihai smiled bitterly. If we really can’t contact Xu Bai, I’m worried that he’ll be in danger.”

The Chu Emperor didn’t reply, but he was already thinking about it carefully.

Yun Zihai also knew that the Chu Emperor was deep in thought, so he didn’t say anything to disturb him. He just waited quietly at the side.

After about the time it takes for an incense stick to burn, the Chu Emperor kept knocking on the table. The frequency of his knocking was slowing down, and finally, there was no sound.

“There is a way.” The Chu Emperor slowly said, “There are still many prisoners on death row in my prison. They should have been executed long ago. However, considering that they might become strange after they die, I have imprisoned them in prison indefinitely.”

“Each of these death row prisoners has committed a heinous crime. The blood on their hands is as much as the hair on an ox. It’s just right to let them go.”

Death row prisoners?

Yun Zihai was only stunned for a moment before he reacted very quickly. He already knew what the Chu Emperor meant.

It was indeed easy to obliterate one’s soul in the Bizarre Market, but it would be different if they sent some death row prisoners over.

These death row prisoners were people who had committed heinous crimes. Each of them had killed countless people. If they were not worried that these death row prisoners would become strange, they would have been executed long ago.

There was nothing wrong with letting these prisoners go to the Bizarre Market even if their souls were obliterated.

There were very few ways to inform Xu Bai, but it was definitely the most appropriate one. As long as he placed something on the prisoner’s body, such as an envelope, as long as Xu Bai could see it, there would be no problem.

But there's still a little bit of it

"Such a wide spread of the net may not necessarily succeed."Yun Zihai smiled bitterly.

No matter how many people there were, who could guarantee that they would meet Xu Bai?

"Let's take the first step first. I will have other plans later."The Chu Emperor said," When you're about to arrive, arrange for people to guard the circular pattern. If Xu Bai sees the message, inform him through the message and ask him to teleport the prisoners back. That way, we'll know that Xu Bai is clear.""

"If it really doesn't work, I will personally enter the Bizarre Market again."

Yun Zihai was shocked." Your Majesty, this is too risky. Let me go!""

Chu Huang shook his head and shook his head." I'm in the state of Saint."" I'm in the state of Sentiment."" I'm in the state of Sentiment."

Yun Zihai opened his mouth and wanted to say something, but the Chu Emperor had already made his decision. He waved his hand to stop Yun Zihai from continuing.

"Start setting up now. Come with me!"

The Chu Emperor placed his hands behind his back and strode out of the door.

..

The Great Chu Country was making preparations to inform Xu Bai. At this moment, Xu Bai was sitting cross-legged in the sky, staring at the ground without blinking.

After his Goldfinger leveled up, it was very fast. Now, he was almost done with all the marks on the ground.

There were too many progress bars. Even with his current divine soul and strength, he still felt very bored.

Fortunately, he had experienced this kind of dullness in the past and was already used to it. As long as he saw the progress bar increase, he would feel a sense of satisfaction in the dullness.

"This is the last one."

Xu Bai waited patiently as he felt the progress bar grow.

A moment later, when the last bit of progress bar was completed and the light blue text disappeared, Xu Bai let out a long sigh.

The light blue smoke in front of him gathered again, forming the latest attribute panel.

[Name: Xu Bai]

Rank-5!

Now, he had already reached the Fifth Stage Saint Realm and had a lot of complicated skills.

The fifth grade was a major improvement, but for Xu Bai, there was something more important.

He looked at the corner, where there was a pile of progress bars that were just a little bit away from completion.

All of them were failed Saint Realm experts!

Chapter 1062: The Progress Bar Was Almost Passive

Those were all his experiences from failing to become a Saint Warrior. He had been trying so hard that he was just a little bit away from completing them. He had been holding back his patience all this time. He had been waiting for him to learn all the other messy skills before he could start using them.

Now that the time had come, Xu Bai could not wait any longer. He fixed his gaze on one of the progress bars and looked at it patiently.

Soon, the last progress bar was filled up. The light blue smoke that appeared from the first fusion appeared in front of him and condensed in the air.

However, Xu Bai did not care about it. He seized the time and quickly looked at the second progress bar. The second progress bar was also gradually completed. The light blue smoke continued to gather, but he continued to look behind.

The third and the fourth, they accumulated and gradually stacked up.

When the last progress bar was completed, a huge cloud of smoke appeared in front of Xu Bai's eyes. In his vision, it was so thick that it could not be dispersed.

"You can even play like this. It's too exciting." Even Xu Bai himself was shocked by the scene in front of him.

The words formed by the light blue smoke kept gathering together and overlapping one after another, looking very messy.

However, the attribute panel appeared in front of Xu Bai. Those complicated skills were gradually merging. This time, the failure to enter the Saint realm was quite a lot. It took some time to merge.

When the light blue smoke in front of him gradually dispersed, the latest attribute panel finally appeared in front of him.

“Very good, all of them have reached the fifth step. This trip’s harvest is very rich, and there are still many that haven’t been collected.”

In fact, Xu Bai didn’t think he could use the knowledge he gained from failing to become a Saint Warrior so quickly.

However, these weren’t books. They were just traces left on the ground. Some things could change if they were delayed, so it was better to use them earlier.

Anyway, he still had time to collect other strange traces.

After doing all this, Xu Bai did not stay any longer. He had to hurry up.

As his soul moved, all the Saint Realm cultivators were wiped out, and their souls disappeared completely.

However, he was not in a hurry to find the strangeness of becoming a Saint. He wanted to try a skill while he was free.

Now that he had killed all the high-level monsters, the ones that were left behind were the same. In any case, their levels were not high.

However, there was one skill that he was very curious about. It was the Fishing skill that he had obtained from Qin Feng.

This skill had already been integrated into the myriad series of skills. If he wanted to use it, he could use it at any time. Moreover, according to his understanding, this skill was related to countless broken worlds. There were many treasures there that could be fished out by this skill.

If he could catch a high-level treasure that was related to the progress bar, he would make a fortune.

Of course, this fishing skill required a fishing rod. After all, it was fishing.

As for water...No need.

Xu Bai casually made a fishing rod with some materials on the ground. Then, he prepared to circulate his True Core Strength and use this skill.

This skill had some characteristics. It could catch some good things, and it was something that the fisher needed very much. It was also possible to adjust it to something that matched the fisher.

Of course, the skill level had to be high enough. If the level was not high enough, the fish would be useless trash.

Xu Bai didn't expect that he would be able to experience the feeling of being a fisherman. His skill was high enough, so he should be able to catch a lot of interesting things.

What he urgently needed now was the experience of failing to become a saint and all kinds of progress bars. Those things were specially left for him. He was also very curious about what they were.

With a shake of his right hand, the fishing rod was already thrown out. The fishing line, along with the hook, directly sank into the void.

If those fishing brothers had my 100% accuracy ability, they probably wouldn't be so miserable."Xu Bai's thoughts jumped and he couldn't help but think of the fishing forum in his previous life.

Only a small portion of them could be caught. Most of the fishing buddies were really miserable.

The Air Force was already used to being in the Air Force. Of course, they would bring some things back with them.

If they couldn't catch fish, they would catch river prawns. If they couldn't catch river prawns, they would gather a handful of water grass. If they really couldn't catch any, they would even carry a calf back when they passed by.

Moreover, the fishing buddies were very knowledgeable. They knew astronomy and geography. They were practically walking encyclopedia.

Except for the fact that they couldn't catch any fish, they could.

If he had any problems or difficulties in his life, he could post it on the fishing forum and a bunch of big shots would reply.

Xu Bai held the fishing rod in his hand and let his thoughts wander.

Even if he had maxed out his Fishing skill, he still needed time to wait. Xu Bai waited silently. After about half an incense stick of time, there was finally movement.

The next moment, the fishing line started to shake. Xu Bai pulled the fishing rod out with all his might. Without any special technique, he fished out something from the void.

Chapter 1063: The Progress Bar Was Almost Passive (2)

When he saw what fell out, Xu Bai's mouth twitched slightly.

"How do you fish out a person?"

Logically speaking, what he fished out should be something he urgently needed or something related to him. Now, he fished out a person. This was too ridiculous.

He was very certain that this was strange. Furthermore, this person's divine soul was completely gone. Clearly, he was affected by the rules of the Strange Market. He was wearing prison clothes, and this prison clothes seemed to be similar to the style of Great Chu.

After all, he was the dignified Prince Xu of the Great Chu Country. He could still tell from a prisoner's robe. If this thing fell at this time, it must have something to do with him. Xu Bai thought for a moment and walked up.

The prisoner in front of him had no soul at all, and his eyes were dull. When he sensed Xu Bai coming up, he instinctively sensed danger and was ready to run.

However, before he could take a few steps, Xu Bai's figure flashed and appeared in front of the prisoner. He grabbed the prisoner's neck.

The next moment, Xu Bai noticed that there seemed to be something in the prisoner's right pocket.

He reached into his pocket and took out a letter. He opened it with one hand and browsed through the contents.

"Hmm?"

Xu Bai's brows furrowed tightly. The higher-ups actually told him not to leave the Bizarre City, and it was Emperor Chu who said so.

Wait a minute!

What was going on with the Chu Emperor?

Xu Bai only saw the beginning. He patiently continued reading and soon understood what had happened.

"In other words, when he was in the Goldfinger state, he helped the Chu Emperor recover his soul."

"The Absolute Saint is already preparing to make a move in the human world. As long as I go back, I will definitely fall into the big net. I can't leave the Bizarre Market for the time being?"

Xu Bai didn't find it strange at all that the Goldfinger state had helped the Chu Emperor recover his soul.

The key problem was that he had noticed something amiss.

"Could it be that he deliberately revealed it? He wasn't stupid enough to reveal this information, was he? If so, he seemed to have given me a very big problem."

At this moment, Xu Bai could already see the difference.

To make a simple analogy, the Absolute Saint had set a trap in the outside world. As long as he returned to the human world, he would definitely fall into the trap. However, the Absolute Saint had told him about the trap.

The goal was very simple. It was to tell him that he had set a trap for him. He had to either come out or stay in the bizarre city obediently.

If he didn't go out, he would be safe, but who knew what changes would happen after the Absolute Saint? He wasn't in the human world, so he couldn't grasp these changes.

"But for now, it's still right not to go out for the time being."

If he went out, he would definitely be finished. If he didn't go out, the Absolute Saint might have a follow-up plan, but at least he could buy some time.

If he could improve himself crazily during this period of time and use his fishing skills to obtain the progress bar, it might be useful.

"Then it's decided. We won't go out for the time being."Xu Bai made up his mind.

He thought for a moment and looked at the prisoner in front of him. He grabbed the prisoner's collar and found the circular pattern.

Before this, he had used the prisoner's blood to leave a message on the paper, indicating that he had received the news and told the others his guess.

After doing all this, he threw the prisoner directly onto the circular pattern and activated the circular pattern with the token.

When the light of the circular pattern disappeared, there was nothing there. The prisoner had been sent back to the human world.

"Next, I'll continue fishing. I'll fish all the progress bars and do my best to improve myself. I feel that the final battle is getting closer and closer." Xu Bai took a deep breath, picked up the fishing rod, found an empty spot, and continued fishing.

..

In the outside world.

The two spies carried a prisoner and brought him to the Chu Emperor before respectfully leaving. The Chu Emperor took the note from the prisoner, and when he saw the contents, he heaved a sigh of relief.

"I finally got the message."

What he was most worried about was that he would not be able to send the message, and he would have to go to the Bizarre City himself. Now, it seemed that there was no need. Since the message had already been sent, everything was safe.

After reading the content that Xu Bai gave him, he knew that they could actually guess these things, but they just didn't have a good method for the time being.

"Men!" The Chu Emperor thought for a moment before shouting out.

A spy quietly walked in with his head lowered and did not speak.

The Chu Emperor pondered for a moment and slowly said, "The imperial edict tells the world that other than the Bizarre Market, there are even more powerful enemies."

"From today onwards, all sects and clans are not allowed to keep their treasures to themselves."

"The Great Chu Imperial Palace's treasury is open to the public. Anyone who has reached the Transcendent Realm can come."

“Those who disobey will be beheaded!”

When the spy heard the Chu Emperor’s words, he was slightly stunned. However, he quickly reacted and hurriedly lowered his head in agreement before retreating.

After waiting for the spy to leave, the Chu Emperor took a deep breath and knocked his hand on the table as he pondered carefully.

Now was not the time to be selfish. What they were facing was the danger of subverting the world.

He would do his best to increase his strength and be completely open to the world. If he increased the strength of the entire world, he would at least have a chance of winning.

..

The Chu Emperor had already begun to take action. On the other side, Xu Bai was still using his fishing skill.

When the fishing rod shook and an item flew up, his eyes lit up slightly.

It was a book with a golden progress bar.

As the fishing rod was thrown backward, the book fell into Xu Bai’s hand and he caught it steadily.

Looking at the golden progress bar, even though this book was only a normal skill and did not have the so-called experience of failing to become a saint, the progress bar of this book was slower than other books. It was considered a high-level book.

“If this continues, I’ll be rich.”Xu Bai rubbed his hands excitedly.

It was as if there was a huge treasure trove in front of him. All he had to do was continue to buy in.

Xu Bai didn’t waste any more time. He continued to throw the fishing line into the void.

True essence energy spread along the fishing rod and fishing line. After a while, the fishing line shook again.

“Here it comes again!”

Xu Bai continued to wave the fishing rod excitedly, and another book was brought out for him.

The whole process repeated itself. Xu Bai kept throwing the fishing rod and pulling the fishing rod. Books were fished out of the void one after another. In the blink of an eye, there was a pile of books in front of him that looked like a small mountain.

It was not an adjective, but a real mountain. Xu Bai stood on the ground and looked up. He craned his neck to the highest point, but he couldn't see the top of the pile of books.

Too many!

Xu Bai resisted the urge to immediately use the liver purity bar and threw the fishing rod out again.

He would continue to fish until he finished fishing everything inside. Then, he would finish everything in one go.

Seeing the fishing line disappear into the void, Xu Bai continued to wait.

This time, the waiting time was very long. Xu Bai estimated that most of the things inside had been fished up.

Fortunately, after waiting for nearly an hour, the fishing line continued moving.

As Xu Bai pulled the fishing rod, an object flew out of the void.

Xu Bai was stunned when he saw the thing flying out.

He almost couldn't hold it in anymore and spun off the fishing rod to run away.

If it wasn't for the difference in size, he would have thought that the Absolute Saint was here.

It was a small eye about the size of a fist, but its shape and appearance were exactly the same as an Absolute Saint's.

It was like a miniature version of the Absolute Saint. Xu Bai was also very confused. How could he catch this thing?

However, his doubts were confirmed in the next moment. He had already guessed the reason. This guy was probably a hidden hand planted by the Absolute Saint.

When the miniature eye appeared, it did not hesitate at all. Its entire body was covered in scorching flames as it rushed towards the pile of books that was as big as a small mountain.

Judging from the tempo, he was going to destroy all the books so that Xu Bai wouldn't be able to make any progress.

“You dare touch my book?” Xu Bai’s eyes widened. The golden and grayish-white sky changed and enveloped the surroundings, blocking the miniature eyes.

I might be afraid of a complete version, but I’m not afraid of a miniature version. Touching my book is equivalent to taking my life!

“Die!”

I Have Unparalleled Comprehension #Chapter 1064: Corpse... Alive!_1 - Read I Have Unparalleled Comprehension Chapter 1064: Corpse... Alive!_1

Chapter 1064: Corpse... Alive!_1

It wasn’t easy for him to fish for so long here and finally catch so many progress bars. Now, someone actually wanted to mess with his progress bar. Who could resist this?

He finally understood. They had the initiative and left so many books for him, but the Absolute Saint also had a backup plan.

He had been waiting for the books to be taken out. He would climb out of the fishing rod and destroy the books, slowing down Xu Bai’s progress.

Xu Bai really wanted to say that this mantis stalked the cicada, unaware of the oriole behind it. As expected of an old man who had lived for who knows how many years, he was really sinister.

Fortunately, he reacted. The moment the miniature eye appeared and released flames, he was already in the middle. The flames hit his body, and the surrounding sky actually felt like it was about to collapse.

“Go!”

Xu Bai turned around and waved his right hand. The pile of books behind him was swept away by the wind and fell backward.

In an instant, he had already moved a very long distance.

At this moment, when he turned around, his pupils constricted slightly.

Due to the gap in his movements, the miniature eyes were less than a meter away from him.

The eye was terrifyingly hot, and the flames were burning, making him feel a little hot. Even the golden and grayish-white Heaven Changes could not completely envelop it.

“Is this thing so terrifying after shrinking?” Xu Bai took a few steps back, and the temperature dropped slightly. However, in the current situation, he did not have time to think.

He took a step back, and the miniature eye in front of him took a step forward. The flames continued to rise. The entire sky was originally dark red, but as the flames intensified, the dark red turned into the shape of flames.

“Something’s wrong!”

Seeing this situation, Xu Bai instantly had an idea.

In the beginning, this miniature eye seemed to be aiming at those books. Once it appeared, it wanted to destroy those books.

However, he reacted quickly. Those books were safe for now.

However, as time shifted slightly and the books were moved to a safe place, the miniature eyes did not seem to be in a hurry. Instead, they aimed at him.

Xu Bai thought about it briefly and an idea instantly appeared in his mind.

“What a good plan to kill two birds with one stone. Destroying the book and dealing with me, it seems that you have hidden your hands quite deeply.”

The shrunken eye did not answer. It continued to rush toward Xu Bai like a simple machine.

The flames burned the sky and boiled the sea. The temperature was so high that even Xu Bai had to avoid them.

Xu Bai raised his right hand, and the white light became extremely hot. He used all kinds of attacks and directly covered the miniature eye.

“Boom!”

The roar echoed through the sky. In the infinitely blazing white light, the miniature eye was gradually losing its flame.

However, now was not the time to be happy. Although the flames were suppressed by Xu Bai, there was an even stronger counterattack.

Xu Bai suddenly felt a sense of danger. It rose from his heart and quickly spread to his entire body, making his hair stand on end.

From his angle, the black pupils of the suppressed miniature eyes carried coldness and killing intent. There was a black light emerging inside. If one did not observe carefully, it was really impossible to notice it.

The black light was rapidly enlarging. It looked very slow, but it was actually extremely fast.

At such a close distance, and with Xu Bai attacking with all his might, even he couldn't dodge.

"Tsk!"

A crisp sound rang out, and the white light enveloping Xu Bai's body instantly shattered. All kinds of defenses were simply unable to withstand it.

A tiny black dot appeared on Xu Bai's chest. It was the result of the black light. It didn't look big, but he felt extreme pain, and his recovery power was suppressed.

This was an extremely rare situation. Even if he had encountered it before, no matter how ridiculous it was, it was impossible for it to easily suppress his recovery ability.

But now, he was indeed suppressed.

Xu Bai took a deep breath. He was about to step back and assume a defensive stance, but the miniature eye in front of him moved again.

This time, the black light in his eyes was no longer just a dot. Instead, it was densely packed, making one's scalp tingle.

If he were to be swept by these black lights and had no recovery ability, Xu Bai reckoned that he would have to ask for a cheat.

However, he could not hire a cheat. The other party was an old monster who had lived for god knows how many years. An old monster like this could not be a fool. He did not know how many schemes he had.

If he used a cheat in this place, it just so happened to be the other party's scheme to force him. If there was any follow-up plan, wouldn't he fall into the other party's trap?

At that time, there would be no turning back.

After much thought, Xu Bai looked at the countless black lights in front of him and raised his fist. Although his expression was solemn, he resolutely swung it out.

His fist was wrapped in a white light unique to all kinds of attacks.

At the same time, the golden and grayish-white colors interweaved into the sky, overlapping with the white light along the fist that was swung out.

Countless powerful attacks from the Berserkers combined together to form a terrifying power.

At the same time he swung his fist, countless black lights swept over from his miniature eyes.

At this moment, when countless black lights gathered together, it could be said to be destructive.

Not only the blood-red light in the sky, but countless cracks also appeared in space.

Chapter 1065: Corpse... Alive!_2

The ground began to cave in, falling at an unimaginable speed. Xu Bai's attack had just collided with the countless black lights, producing a huge boom that resounded through the clouds.

Xu Bai felt a sharp pain in his fist, making him want to retreat. However, he knew that if he did, he would be pierced by the black light.

That outcome was simply unimaginable. It would definitely be very miserable.

“Explode!”

Xu Bai gritted his teeth and urged his True Core Strength with all his might. The white light on his hand was as hot as the sun.

The gray and golden-white light was like the core of the sunlight, carrying an invincible power.

“Boom!”

The ground that was originally descending shattered in an instant, turning into a pile of smoke and dust that covered his eyes.

The blood-red light completely disappeared. The sky was clear and turned black.

If an outsider suddenly came to the scene, he would think that he was not in the Bizarre City but in the human world.

Even the light of the Bizarre Market would have to avoid the power of the two attacks. It was absolutely impossible for them to exist.

The black light began to fade, and the white light in Xu Bai's hand, as well as the golden and grayish-white Heaven Change, completely disappeared.

“Hu...”

Xu Bai let out a long breath. The attack this time was a little strong and had consumed a lot of his True Core Strength.

Attacking each other had indeed eliminated the danger this time. Of course, the miniature eyes were still there, so it could not be said that there was absolutely no danger.

“Hu...”

Xu Bai took another deep breath. The Refined Qi in his body had almost recovered, but under such circumstances, the other party did not attack him.

The miniature version of the eye floated in the air like a stiff piece of wood. If one ignored the high temperature and the numbing flames, one would think that it was just a small toy.

The vigilance in Xu Bai's heart did not disappear. On the contrary, he felt that the danger was increasing.

As someone who had crawled through life and death situations, he trusted his intuition. Now, his intuition told him that it was even more dangerous than before.

Xu Bai took a step back, wanting to leave first.

He had already pushed the mountain-like secret manuals far away. He thought that if this miniature eye was restricted, for example, it could only be within this range, he might not have to continue fighting.

However, before he could do that, the miniature eyes started to move.

“Weng...”

A series of vibrations came from the shrunken eye. Under Xu Bai's surprised gaze, the shrunken eye gradually left afterimages.

No, to be precise, the afterimage was not as simple as it looked on the surface. It was a physical entity!

One eye after another kept splitting out. In the blink of an eye, the entire sky was filled with miniature eyes.

It looked so densely packed that Xu Bai's heart trembled.

In the blink of an eye, countless miniature eyes shone with the same black light as before.

One eye was enough to deal with, but now it had become countless eyes, and each eye had such a terrifying attack. Xu Bai didn't even pause for a moment. He turned around and ran in a different direction.

“This is a hammer!”

He had used all kinds of movement techniques to the extreme. He did not care about anything else now. He had to escape first.

Countless eyeballs were chasing after him, and Xu Bai was running in front. From time to time, there would be black lights brushing past his hair, almost hitting him.

Moreover, the wound on his chest had yet to recover. Fortunately, it did not worsen. Otherwise, he could only turn around and fight to the death.

“6!”

Xu Bai muttered to himself as he ran.

He finally understood now that the other party did not want him to stay in the Bizarre Market for long.

This step should have been calculated. If he appeared in the Bizarre Market, he would be forced to leave the Bizarre Market. From the looks of the situation, other than leaving, he could only use his cheat.

It was impossible to fight. With so many eyes, if they really fought, he would only lose.

He couldn't use his golden finger. Who knew if there were any follow-up plans? He couldn't return to the human world either. After returning to the human world, he would probably face even greater danger.

Moreover, he still had a lot of progress bars here that were like a small mountain. As long as he finished it, he would be able to obtain a huge improvement. If he left now, he would really suffer a huge loss.

However, the problem was that they couldn't beat the game. They could only run away. They couldn't return to the human world. They couldn't use their cheat. So, how were they going to break the game?

Xu Bai racked his brains as he tried to think of a way to catch up. Fortunately, these miniature eyes seemed to only focus on attack and defense, so they were not too fast.

However, Xu Bai guessed that at this speed, there would be a time when the primordial energy would be exhausted. If the other side continued to chase after the enemy, then the enemy would have nowhere to go.

The current situation was that the other side had thought of all the steps he could think of, including the golden finger. Whether to go out or escape, the other side had corresponding backup plans.

It was to the extent that no matter which path he took, the consequences would be unimaginable.

Feeling the pressure behind him, as long as the black light swept past, it would cause endless destruction. Xu Bai felt a headache. He rubbed his forehead as he ran.

“Old thing, you really think too much. However, there will always be flaws in things. You are not omniscient.”

“Can you predict the sky and the earth?”

Xu Bai changed his direction. He didn't move forward anymore. Instead, he moved diagonally upward. As he moved forward, he ascended.

The speed of his ascent was extremely fast. In the blink of an eye, he had already reached a terrifying height. The underground city had already become the size of a sesame seed.

In the sky above the Bizarre Market were the remains of countless broken worlds. They had turned into corpses and were buried there, providing an endless stream of energy.

Xu Bai had been there once, and now that place might be his only way out.

Even after countless years, there was still a large amount of energy stored.

He wanted to see if the countless pairs of eyes behind him would suffer a strong blow if he walked in.

As he flew higher and higher, he was getting closer and closer to the top of the sky. Xu Bai felt a powerful pressure spreading out from the sky.

He took a deep breath, and then his hands bombarded the sky with blazing white light.

Now that he had the strength of a Saint, his attack caused countless cracks in the sky. Then, a huge hole appeared.

The hole was being repaired quickly, but Xu Bai did not give him time to do so. He punched again.

The white light that attacked all kinds of attacks hit the hole that was being repaired, causing the hole to spread even wider.

“If you can’t break it, I’ll fight you to the death.”

Xu Bai didn’t hesitate and jumped into the huge hole.

The hole keeps shrinking, the number keeps increasing, the eyes keep emitting dark light, the hole keeps expanding again, the eyes keep following behind Xu Bai, the eyes keep getting in.

..

“Bang!”

With a dull sound, Xu Bai landed on his feet and turned around to look at his surroundings. He had arrived at this place again.

In front of him was a sea of blood and countless corpses.

A strong pressure came from behind him. He turned his head and saw a dense group of eyes approaching.

“Really?” Xu Bai frowned.

This was the remnant power of countless worlds. It should have clashed with the Absolute Saint, but why was it useless?

There was no time to think about it now. His figure flashed and he flew towards the pile of corpses.

No matter what, he had to try. What if it worked?

If it was really useless, then they would fight a bloody battle to see who would survive today.

As he got closer and closer to the corpses, Xu Bai suddenly had a special feeling.

This time, it seemed different from the last time. He kept feeling that something was staring at him, making his scalp go numb.

“It’s that pile of corpses!”

With his current senses, he could instantly sense it.

The pile of corpses seemed to have come alive!

Chapter 1066: Xu Bai, They All Ran Away, Right?(1)

He was alive!

Although the corpses were still lying there without any movement, they gave Xu Bai the illusion that they were alive.

Xu Bai didn’t know if it was an illusion, but he could feel that the aura of death was disappearing. A wave of vitality was gradually spreading from point to point.

Behind him, countless eyes were desperately chasing after him.

Countless rays of black light shone on them as if they were free.

Cracks appeared on the ground, and the sky turned ashen. At this moment, Xu Bai arrived above the corpses. He turned to look at the miniature eye behind him. The surrounding space seemed to have condensed.

The corpse was really...He was alive!

The corpses that were originally lying quietly were moving. They were like machines that were constantly piecing together and fusing under the effect of the catalyst.

In front of Xu Bai’s eyes, they were gradually gathering.

Every corpse was dead, but when they were pieced together, they gave off a feeling of life.

The flesh and blood were melting, and each corpse was a part of the other, fusing together.

This pile of corpses was endless.

However, after fusing, they took on a particularly tall human form.

It was all flesh and blood without any facial features.

Even the dark clouds in the sky couldn't block it, and it was impossible to see how huge this figure was. They only felt that the body that entered the clouds emitted a desolate, ancient, and unresolvable mystery.

"This is...What's going on?"

Xu Bai believed that he had seen many things in this world and understood many things, but this was the first time he had seen so many corpses fusing in front of him.

Most importantly, that aura was so strong that he felt the pressure increase sharply. He felt as if he was being suppressed until he could not breathe.

"Looks like the shrunken eye triggered something here."

Xu Bai turned his head abruptly and looked at the miniature eye that was still chasing him.

At this moment, the shrunken eye seemed to have felt the pressure. After it stopped, it actually began to fuse.

Each eye was extremely small, but when the countless eyes fused together, a humanoid creature formed from eyes appeared.

The eyes were so dense that it made one's scalp go numb.

This was not the most important thing. The most important thing was that each eye had no emotion, only a deathly stillness and coldness. Even the humanoid creature's fingers were made up of countless eyes.

Moreover, after they were pieced together, they did not seem to be afraid of the tall figure formed by the corpses. They actually charged at the tall figure with their weak bodies.

"Boom!"

The tall figure that had been pieced together by the corpses moved. It slowly raised its palm like a mountain range, making people feel despair. It slapped down on the weak eyes.

Countless black lights shot out from his eyes, shooting at almost no blind spots. Xu Bai hid at the side and saw a few black lights shooting towards him. He raised his fist and attacked with all kinds of attacks to offset all these black lights.

"No, his target has changed again. Now, his target is not me!"Xu Bai thought of something unusual with just this attack.

Even if he had a cheat, he still had to rely on his brain to be able to survive until now. The only things he could think of were minute changes, such as now.

From the very beginning, this eye had appeared with the intention of destroying those skill books and making him lose his progress bar.

However, after he made his move, he immediately changed his target and aimed it at him. His method also changed. He wanted to kill him.

In the end, the target turned into the tall figure. A light flashed in Xu Bai's mind as if he had thought of something.

"I understand now. This isn't just a problem of killing three birds with one stone. It's really a tight chain of schemes."

"He destroyed the skill book so that I wouldn't be able to advance any further, and then he killed me. He gave me a few options, either returning to the human world, or dying here, or using a cheat to cause an even more terrifying change."

"And now is your real goal. You must have calculated that I would come to this place. You want to make a move on this thing!"

"You've calculated every step. No matter which path I take, you'll benefit. Absolute Saint, your thoughts are terrifying and unbelievable!"

Xu Bai wasn't in any danger, but his expression was extremely grave. This was the first time he felt the terror of an Absolute Saint, and it wasn't just his power.

The depth of this scheme made his scalp tingle.

The tall figure lightly patted the creature, and the humanoid creature formed by the eyes flew backward and exploded with a bang.

However, they did not die. Instead, there were threads connecting each of the miniature eyes. The moment they exploded, the threads tightened and pulled the eyes back to their original positions.

Xu Bai thought to himself, "Every step I take is fatal, but I can't sit still and wait for death. I can't let anything happen to this tall figure. Since that's the case, let's cooperate!"

The golden and gray-white sky changed and enveloped the surroundings. The white light in Xu Bai's hand was as hot as the sun in the sky.

With an invincible might, it bombarded the humanoid creature formed by the miniature eyes.

"Boom!"

A loud explosion sounded again. Xu Bai's myriad attacks combined with the power of the Heaven Changing Spell left a terrifying wound on his eye.

However, the eye seemed to have completely lost interest in facing Xu Bai. It rushed toward the tall figure again. The flesh of the tall figure stirred, and the shape of a corpse could be vaguely seen. However, if one did not look carefully, it was just a creature made of flesh and blood.

Chapter 1067: Xu Bai, They All Ran Away, Right?(2)

"Boom!"

This time, the black light seemed to be even more intense. It swept across the tall figure's body, leaving behind wounds.

"Boom!"

The tall figure let out a muffled sound and took a few steps back. It was obvious that he was injured.

On the other side, Xu Bai's figure flashed, and his crazy Heaven Transformation landed on the eye again with a terrifying aftershock.

"Crack!"

With a cracking sound, a crack appeared in the eye.

“You’re not invincible. You didn’t descend with your true body, so there’s a limit.”

Seeing this, Xu Bai smiled.

If the Absolute Saint’s true body had come, he would have sent it away by now. However, this was only a miniature version and didn’t have the strength of the true body.

Since there was no limit, then there was a limit.

Xu Bai could not beat them before, but now that he had the high-level figure to take the damage, Xu Bai could attack without hesitation.

As expected, the shrunken version of the eye didn’t care about Xu Bai at all. It continued to attack the tall figure.

The desolate aura on the tall figure became even thicker, like ink that could not be melted.

At this moment, the black clouds in the sky trembled for a moment. A beam of despairing red light descended from the sky and enveloped the miniature eye.

“Crack!”

Another crisp sound rang out. As this sound rang out, the wound on the shrunken version’s eye became even more serious. Xu Bai did not waste the opportunity and cooperated with it to launch another attack.

More and more cracks appeared, but these miniature eyes did not seem to notice. They just continued to attack the tall figure.

This reckless fighting style had really caused damage to the tall figure. The tall figure’s body was already covered in dense wounds, especially with his height and size.

“Why isn’t this thing dead yet?” Xu Bai thought to himself.

The miniature eyes weren’t in a good condition either. When Xu Bai and the tall figure attacked together, they left fine wounds on the miniature eyes, which looked extremely terrifying. Some of the eyeballs had exploded, turning into a bloody mess.

Xu Bai felt that he had to hurry up and solve this problem. If he didn’t, the consequences would be hard to predict.

He didn’t expect that this miniature version of the eye could actually fight to a draw with the tall figure. He estimated that perhaps the Gundam figure had held on for too long and was constantly providing power. Now, it was probably coming to an end.

After all, even the power left behind by countless worlds had a limit. After such a long period of wear and tear, it was already very good to be able to fight to this extent.

From this, it could be seen how terrifying an Absolute Saint was.

Just a few miniature eyes could reach such a level.

“I have to think of a way to resolve this stalemate as soon as possible.”

Xu Bai racked his brains to think about what would happen if the tall figure was injured.

However, the current situation seemed to have reached a stalemate.

Even if he attacked together with the tall figure, no matter how many wounds he left on the shrunken eye, the shrunken eye would only attack the tall figure.

This kind of exchange of injuries would continue unless one side could not hold on anymore.

“This guy, he’s just grinding away a little bit.”

The tall figure was made up of countless corpses, a collection of countless remnants of power, and so were the ruins.

The only difference was that the huge figure had no intelligence, while the ancient remains had intelligence.

From the looks of it, the Absolute Saint wanted to weaken as much as he could before this.

Just as Xu Bai was thinking about this, the tall figure suddenly stopped.

Xu Bai was still attacking, but the tall figure stopped, but the miniature eyes did not stop.

The black light with a destructive aura swept across the tall figure. A portion of the tall figure’s flesh and blood fell apart, making him appear much weaker.

Xu Bai frowned.

They were fighting well just now, but now they suddenly stopped and allowed the other party to attack. There must be something going on.

“You’re about to die. Why are you stopping now?”

Xu Bai had guessed that the tall figure did not have any spiritual intelligence, so he only called out casually.

However, as he shouted this sentence, a change suddenly occurred.

The tall figure suddenly turned around and ran.

The scene suddenly fell into silence, so quiet that a pin drop could be heard. Xu Bai felt that if he had to add an animation to himself, a flock of crows would fly over his head.

Are you kidding me? I thought you were going to explode, but you turned around and ran!

Xu Bai finally understood. This tall figure was just like the people who entered the Bizarre Market. He had no soul or intelligence, but he had instincts.

When the shrunken eye came in, he instinctively felt disgusted and gathered the flesh together.

Now that his instincts made him feel danger, it was probably normal for him to turn around and run.

But... He couldn't run away now.

The ultimate goal of the miniature eyes was this tall figure. Even if he ran away, the miniature eyes would not let him escape.

As expected, when Xu Bai thought of this, the humanoid creature formed by the shrunken eyes chased after the tall figure. Its speed was not slow at all.

Soon, the two of them disappeared, leaving Xu Bai standing alone in the same spot.

"Am I chasing him or not?" Xu Bai's mouth twitched.

He really did not expect things to end up like this.

However, he stood where he was and thought about it for a while before chasing after the miniature eye.

Nothing could happen to the tall figure. If anything happened, there was no guarantee that something would happen later.

He had to save the tall figure first. Now, Xu Bai felt that things seemed to be developing in the opposite direction. At first, he was looking for a solution to the problem, but now, he had become the solution.

"Chase after him!"

Xu Bai sighed and used all kinds of movement techniques to chase after him.

..

Fortunately, although the two were fast, Xu Bai could still catch up.

When Xu Bai arrived, he found that the two were still chasing each other.

It was very funny to run and chase at the same time.

The miniature eyes didn't care about Xu Bai at all. They just kept chasing after him.

Xu Bai followed behind. He suddenly felt that this scene was getting stranger and stranger.

In the beginning, he was the one being chased, but now it was the other way around. Moreover, for some reason, he suddenly had a special feeling. Could this miniature eye not have intelligence?

He had a feeling that the miniature version of the eyes seemed to be a pre-programmed program.

First, he destroyed the book, then chased after him, and finally dealt with the tall figure. He completely ignored him. No matter how stupid he was, it was impossible for him to do this.

Thinking of this, Xu Bai's eyes gradually lit up.

He suddenly thought of a plan. Looking at the back of the shrunken eyes, he licked his lips.

"You were the one who left the rest for me..." Xu Bai's hand emitted a strong white light, and an evil smile appeared on his face.

Immediately after, all kinds of attacks landed on the back of the miniature eye, causing countless cracks to appear.

Such a powerful attack made the shrunken version of the eye stagger. It turned its head and stared at Xu Bai before continuing to chase after the tall figure.

"As expected, you acted according to a fixed method."

This scene left a deeper impression on Xu Bai. He knew that his guess was right.

Xu Bai smacked his lips.

In the next moment, countless white lights continuously bloomed from his hands, making people's scalps go numb. These attacks all landed on the miniature eye.

“Boom!”

“Boom!”

“Crack!”

The explosion was accompanied by the sound of cracking. The cracks on the shrunken eye gradually increased. When Xu Bai attacked again, the shrunken eye could no longer hold on.

“Kacha!”

It was as if broken glass had fallen to the ground, and the human body formed by the shrunken eyes had completely disintegrated.

Looking at the sky full of ashes in front of him, Xu Bai felt very happy.

“Finally, I’ve killed you!”

Chapter 1068: The Absolute Saint's Counterattack

He had thought of many ways to kill this shrunken eye, but he had never thought that he would use such a method.

If the shrunken eyes had intelligence, they would definitely feel that this method of death was too aggrieved.

After all, no one could accept the feeling of being killed by Xu Bai from behind without facing him head-on.

” We’ve finally solved the big problem!”

Xu Bai stopped. After the threat was gone, he felt relaxed.

In front of him, the tall figure also stopped. Due to his instincts, he also sensed that the danger had disappeared. Instead of continuing to escape, he turned around in a daze.

Xu Bai had just heaved a sigh of relief, but after seeing this scene, he frowned and became alert.

They had to be on guard. Although they were not enemies now, they were not friends either.

He could feel that this tall figure did not show any signs of dissipating. Although he did not sense any hostility or killing intent, he could not believe anyone in this environment. Moreover, this thing in front of him was too strange.

Not to mention anything else, just the pressure brought by that incomparably huge figure was suffocating. Moreover, it was made of flesh and blood. Other than the bloody smell, the pressure was even greater.

Xu Bai didn't say anything because he knew that this guy didn't have any spiritual intelligence.

The scene instantly fell silent, so quiet that one could hear a pin drop. The entire environment was in a state of high pressure.

Xu Bai felt the air around him turn heavy. At this moment, the tall figure suddenly extended his right hand.

The right hand formed by the corpses looked as huge as a mountain range. However, it did not attack Xu Bai. Instead, it slowly supported the ground. At the same time, the other leg bent down and knelt on the ground.

He was kneeling on one knee, and the target of his kneeling was Xu Bai.

Xu Bai was speechless.

No, no, it was just a slap, why did he suddenly kneel down?

Logically speaking, this tall figure should have acted according to his instincts. Could it be that his instincts made him kneel?

This was a little funny. He had never had any deep interaction or contact with these things, so wasn't he the one kneeling?

Xu Bai suddenly thought that this matter might have something to do with his cheat. After all, the only explanation now was his cheat.

But here came the problem. Even if it had something to do with the cheat, how should he break the situation now?

There was no danger or pressure, but the tall figure just knelt there without saying a word or doing anything else. This was very puzzling.

Thinking of this, Xu Bai said tentatively, "Can you communicate?"

No one answered him. The scene was still silent.

Xu Bai pondered for a moment and decided to retreat for the time being.

He couldn't find any other clues here. There were still a lot of books waiting for him in the outside world. He couldn't waste this. The most important thing was to seize the time to improve himself.

However, just as he tried to take two steps to the side, the tall figure moved. He stood up from his kneeling position and followed him.

Xu Bai was completely dumbfounded. He tried to take a few more steps, but the tall figure still did the same thing.

This was not a simple follow. Whether it was the movement of his arms, the range of his feet, or even his expression, they were all similar to Xu Bai's.

What was more, they were exactly the same.

Xu Bai said, "(òÀó.) "

What was going on? What was going on? Why did he do the exact same thing as me?

He tried to raise his arm, and the other party immediately did the same thing. He raised his leg again, and the other party did the same thing.

"What the hell is going on?"

Ever since he came here, he had encountered these strange things. Now, this tall figure in front of him really made him speechless.

Xu Bai felt that he had to try and see if he could do the opposite.

In the beginning, he ran to the back and the tall figure chased after him. Now, he wanted to see how the tall figure would feel if he walked towards the tall figure.

Thinking of this, he raised his feet and walked toward the tall figure.

At this moment, the tall figure also lifted his foot and walked toward Xu Bai.

The distance between the two was gradually closing. The air was very quiet, and Xu Bai could even hear the beating of his heart.

The closer Xu Bai got to the tall figure, the greater the pressure. When Xu Bai was about to get close to the tall figure, something strange suddenly happened to the tall figure.

A deafening roar suddenly came from the tall figure's body.

The sound was very loud, resounding through the entire space, making people dizzy.

In front of Xu Bai, the tall figure suddenly trembled. The body formed by the corpse fell to the ground like rain.

Xu Bai reacted very quickly. In a flash, he had already retreated a very long distance.

Even from such a far distance, he felt immense pressure when he saw this scene.

Corpses rained down like rain. The scene was spectacular. When all the corpses fell to the ground, they became a mountain-like pile of corpses.

The oppressive feeling disappeared, and then everything became quiet again, returning to normal.

At this moment, there was nothing left. Xu Bai just stood there and felt that something was wrong.

"Let's go back first and talk about it later."

He searched the surroundings but did not find anything unusual about the corpse.

Chapter 1069: The Absolute Saint's Counterattack (2)

Then he remembered that there was still a large pile of books waiting for him to go to the liver. He did not want to stay here any longer, so he prepared to go back.

Xu Bai found a slightly empty place, raised his fist, and used all kinds of attacks to press on the ground under his feet.

In an instant, the ground began to sink, and deep pits appeared under his feet. After connecting with each other, they became a huge black hole.

Then, he jumped down from the black hole and arrived under the red sky.

Arriving at the familiar Bizarre City again, Xu Bai stretched his neck and stretched.

He raised his head and looked at the black hole in the sky. The black hole was gradually repairing itself.

“It’s getting late. Let’s finish the book first.”

“Although the Holy One’s plan failed, it was a success. At least I won’t be able to return to the human world for a while, so I don’t know what plans I have.”

“All in all, work hard to improve yourself first.”

After Xu Bai thought it through, he did not stay any longer and flew towards the place he had come from.

..

In the ruins.

That huge eyeball had been tightly shut the entire time, but the moment Xu Bai returned to the Bizarre City, it suddenly opened again.

“I failed...”

The old and distant figure spoke with slight regret, but not much.

“You’ve escaped from this slaughter once again, but how many times can you escape? Even if you escape, you’ll never return to the human world. It seems that I’m still worth it, because my plan is about to begin.”

The iron chains that bound him rattled.

The Absolute Saint closed his eyes again, and no sound came out.

In an empty space not far from the Absolute Saint, the ruins were sitting cross-legged, floating in the air.

Suddenly, he shivered and turned from a sitting position to a standing position, looking at the sky not far away.

He didn’t have any facial features, but he could feel that there was a huge change in his emotions at this moment. There was a kind of irritability growing in his heart that he couldn’t control.

“What’s the reason for this frustration?” the ruins muttered to himself. There would definitely be a big change, but Xu Bai could not come out of the bizarre market now. There might be great danger in the human world.”

As he finished speaking, a crack appeared in the distant sky. The crack brought with it an extremely powerful suction force, and the surrounding darkness was gradually sucked in.

The remains were stunned on the spot.

He was the leader of this place, leading everything. However, this situation was beyond his expectations. Through the crack, he could see that behind the crack was the human world.

The ruin flashed and appeared before the Absolute Saint. He said solemnly, "You're taking away my power!"

The Absolute Saint opened his eyes and mocked, "You used this kind of repetitive space to make me lose myself, making me unable to find my way out."

"But you didn't expect that after staying here for so long, I would gradually fuse with this place."

"Right now, other than these chains, what else can you control?"

"What do you want?" The voice of the remains gradually turned cold."

Just as the Absolute Saint had said, he really couldn't control it anymore. Everything here seemed to have made him lose control.

Even though he wouldn't kill the Absolute Saint or attack him, he couldn't control himself. The only thing he could control was the iron chain on the Absolute Saint.

He suddenly thought of a phrase, which was to ensnare oneself.

They used the power of countless worlds to create this scene that repeated the Absolute Saint.

However, he didn't expect the Absolute Saint to gradually gain the upper hand in this chaos. Other than being unable to leave, the Absolute Saint had become the owner of the ruins.

"What do I want to do? How dare you ask me what I want to do?" The Absolute Saint began to laugh. His laughter carried a strong sense of oppression.

"Since the day I was born, countless worlds have blossomed before me, and countless worlds have been destroyed by my hands. I have witnessed spring, summer, autumn, and winter, as well as the ups and downs of life and death."

"To put it bluntly, you remnants are just the sand in my hands."

“Have you ever seen the sand burying the master?”

“I will let you experience what true destruction is. I will let you despair bit by bit, and I will let you see it.”

“This world is mine.”

As the Absolute Saint finished speaking, a shiny disc appeared in the sky. The scenery reflected on the disc was the human world.

It was an empty sea with almost no traces of humans. Above the sea, countless illusions suddenly appeared, and the illusions reflected the ruins.

“I can make life disappear, and I can also make life reappear,” the Holy Zhi said. “I want to thank you because the ruins you created gave me a reliance. I made everything in the ruins reappear, reappearing the power struggle of all countries and the sainthood of the past.”

“Let me think. In that era, Transcendents were as common as dogs, and I...He could try to break the rule of nine Saints and add another nine.”

As soon as he finished speaking, the illusion on the sea area was gradually condensing in the eyes of the ruins.

The speed of condensation was very slow, but many of them had already become real. People who gave off powerful auras walked out one by one. Those people were originally from the ruins.

“Hahahaha!”

All kinds of laughter echoed in the sea.

Everyone was emitting a powerful aura. They were talking to themselves, but it was clearly transmitted into the ears of the ruins.

“I didn’t think that there would be a possibility of being reborn. This world has been lonely for too long.”

“All countries stand together, that is the true power of the world. There is only one country in this world. Unforgivable, destroy him!”

“The Absolute Saint has promised us that after we win, we will be assigned to different worlds to reduce the pressure so that we can survive forever. Now, we only need to destroy this world!”

Madness and chaos in the face of greed made this group of people not only powerful, but also filled with killing intent.

Through the disc, the ruins could see a large area in the middle.

He could feel that there were extraordinary beings inside, but they were not solid enough to walk out. However, it was only a matter of time.

At the very center were nine illusory figures that were constantly flashing inside.

They were the nine Saints who had broken the rules.

As long as there was enough time, when the virtual reality was condensed, everything would become reality.

“We still underestimated you. Even if we imagine you to be the most terrifying existence, you are still very small.” The ruins sighed when they saw this scene.

“I know you’re trying to trick me,” the Holy Zhi said. “You think you can win just because you have two Saints, right?”

The ruins did not speak.

The Absolute Saint continued, “You think you’ll win, but I think you’ll lose.

Transcendents can enter the Saint Plane in a short time with my power. Although I can’t divide that many, I can gather them and give them to nine. Think about it. It must feel good to have nine of them enter the Saint Plane in a short time.”

“There’s not much time left for you. When they materialize, the nine Saints will attack together. I’m afraid this world will be shattered. If the world is shattered, it won’t matter if Xu Bai exists or not. After all, you are rooted in this world.”

The remains felt that if there were any hairs on his body, they would probably all stand up at this moment.

No!

He had to inform the human world immediately, even if Xu Bai wasn’t here!

He had to make sure that the human world was safe, at least until Xu Bai reached the peak of the Saint Realm.

The ruins had disappeared. He went to contact the human world through Yun Zihai’s door.

He had to hurry up!

The Absolute Saint looked at where he disappeared and laughed even more happily.

“Hahaha!”

“In the end, I’m going to win. The world has to follow my path, and since you’ve left the path and caused so much chaos, you must be destroyed!”

Chapter 1070: Strange Giant Ball (1)

The Absolute Saint’s cold voice echoed in the entire space. It was emotionless. The chains rattled, and when the Absolute Saint’s voice echoed, it seemed even more sinister and terrifying.

After the ruins left the Absolute Saint’s location, they found an empty space. Looking at the crack in the sky and thinking about what they had seen before, they felt heavy.

This time, he felt that his side was really very uncertain.

No matter what method the Absolute Saint had come up with, he would try his best to deal with it. However, today’s situation had already become an established fact. It was impossible to deal with it.

That place had already been formed, and he could not even control this place. Now, the entire situation had become a state of head-on confrontation.

“No matter what the situation is, I have to fight to the death. I’m going to die anyway. I have to contact them in advance and at least make preparations.”

Thinking of this, the remains immediately tried to use Yun Zihai to contact him. However, he sat cross-legged in midair for a long time before he regained his standing state and sighed in his heart.

“Losing control over this place, we can’t even use our communication.”

He had already lost control of this place. The only thing he still had was the power to trap Absolute Saints.

But now, it seemed that this power was not enough. He could not contact Yun Zihai anymore.

To them, information was completely blocked. The human world did not even know what was going on. This situation was very troublesome. After all, knowing oneself and knowing the enemy was the only way to win.

But now, he knew the other party's background, but he had no way to contact him. It was very awkward.

"Everything depends on fate. If fate can succeed, then it can succeed. If it can't, then it will fail."

The ruins sighed silently and stopped thinking about these things. They focused on locking the Absolute Saint.

To him, the most important thing now was not to let the Absolute Saint go out early. Otherwise, everyone would have no fun.

..

Bizarre market.

Xu Bai was sitting in front of a small mountain of books. He was engrossed in reading the progress bar. He was reading pile after pile of books. He was calm and not in a hurry.

However, his speed was not slow. Due to the upgrade of his cheat, his progress bar could already be described as fast. However, there were indeed a lot of books in front of him, so although Xu Baigan's speed was fast, it would take a long time to finish it.

"I wonder how the human world is doing. Did anything strange happen?"

This time, he did not plan to return to the human world for the time being.

According to the clues he had obtained, he would be caught if he went out. It was safer here. He would develop here first and wait until he had developed to a certain extent before going out to take a look. At the very least, he had to finish all these books.

Although this process is very boring, but the progress of the bar is decreasing, even if it is boring again, the kind of rapid growth of the sense of harvest can also make the boring and disappear without a trace.

"At this speed, it will take some time, but it will allow me to improve greatly."

"Hmm? Is this what you learned after failing to become a saint?"

"Keep it, use it after finishing all the books."

Xu Bai also found out a lot about his failure to become a saint when he checked the progress bar.

It was indeed a treasure trove left for him. The things inside were too important to him. However, he didn't bother with these books. He put them aside. After he finished reading all these books, he would extract the fusion technique from the experience of failing to become a saint and fuse all these complicated skills together.

With that in mind, Xu Bai began to organize his thoughts. While reading the progress bar, he sorted out the experiences he had gained from failing to become a Saint Warrior. It took him a lot more time, but it would be more convenient when the time came.

In such an environment, Xu Bai's efficiency became even higher when he was alone.

Gradually, time kept slipping away. Although there was no sun or moon here, and Xu Bai couldn't feel exactly what time it was, he knew that he had been living for quite a long time.

He stretched his back and moved around a little. Then he picked up a book and prepared to continue.

However, at this moment, something unexpected happened.

“Boom!”

A series of booming sounds resounded in the sky.

Xu Bai suddenly raised his head and looked at the sky. Countless cracks appeared in the sky. Even though they were very far away, Xu Bai could see them clearly with his eyesight and the increasing number of cracks.

That location was the location of another space in the Bizarre City, and there were countless corpses hidden there.

Xu Bai narrowed his eyes.”

People at their level had a very strong ability to detect danger.

He didn't feel any danger, but the situation was very strange. There must be something unique about it.

“Kacha!”

After the explosion, there was only the sound of cracking. The sky was like a broken mirror, and the cracks fell to the ground like rain.

The cracks that fell to the ground turned into ashes in the blink of an eye and no longer existed.

Soon, a huge hole appeared in the sky.

When Xu Bai saw this scene, his frown deepened.

In fact, he had gone in a few times before, and he had broken through it himself. Even if the sky was broken, it would repair itself.

This time, however, it was different. The sky broke by itself and did not repair itself. This was very strange.

From the huge hole, there was a faint sound of wind. The wail was so loud that it made people's scalps go numb, like the wail of a malicious ghost.

I Have Unparalleled Comprehension #Chapter 1071: Strange Giant Ball (2) - Read I Have Unparalleled Comprehension Chapter 1071: Strange Giant Ball (2)

Chapter 1071: Strange Giant Ball (2)

Xu Bai didn't approach it rashly. Even if he didn't feel any danger, he wouldn't approach it immediately. There might be something inside now. Especially when he thought of the tall figure made of flesh and blood, he felt a chill down his spine.

The hole continued to open, but it didn't continue to crack or repair itself. It just hung in the sky.

Xu Bai had been waiting for a long time, but he didn't see anything unusual. He turned to look at the book behind him and didn't approach the hole again. Instead, he patiently checked the progress bar.

There was no need to go over. The progress bar was the most important. As long as he could control the progress bar, there was nothing he couldn't do.

He had to finish the progress bar first. As for the big hole, it was still there and wouldn't run away.

The big hole in the sky remained the same, and Xu Bai was also busy with the progress bar. The two of them did not disturb each other, but formed a strange tacit understanding.

What Xu Bai didn't know was that some wonderful changes were happening in the big hole.

Countless corpses lay motionless on the ground. However, in the middle of these corpses, there was a golden ball of light flashing.

The golden ball of light flickered. Suddenly, countless fine threads drilled out of the ball of light.

These threads were grayish-white and connected each corpse. As the corpses were connected by the threads, the corpses actually trembled at an irregular frequency.

The shaking speed was very fast, and the shaking corpse looked extremely shocking.

As the corpse trembled, the golden ball of light turned from flickering to stable, and the grayish-white threads became more solid.

At this moment, shadows suddenly appeared one after another on the golden ball of light. These shadows gathered densely and entangled on the surface.

At this moment, the hole was gradually widening and rushing toward Xu Bai.

Xu Bai was still rushing the progress bar. When he saw this scene, he was stunned on the spot.

“This thing has a grudge against me, right?”

He didn’t know what would happen after he came over.

However, looking at the pace, it would only take a while before it could spread to this side.

Xu Bai turned around and looked at the small mountain of books behind him. Then, he sighed and flew toward the big hole.

Since things had already reached this stage, he had to resolve it. Otherwise, if something really happened, he would lose the books behind him. That would be unlucky.

The black hole was still spreading, as if it was going to swallow the entire sky. As Xu Bai got closer, the speed of its spread slowed down.

When Xu Bai arrived at the bottom of the big hole, he finally saw the situation inside clearly.

In the hole, the golden sphere that was originally normal in size had now expanded to a terrifying extent.

The gray threads had also turned from extremely thin to the thickness of a thumb, and each of them was stuck into the corpse.

The corpse was drying up at a speed visible to the naked eye. As the corpse dried up, the golden ball became even larger. It was now the size of a football field.

"This thing is absorbing the energy of the corpse, and why does it feel so familiar?"

Xu Bai could see the true meaning at a glance. It was normal for him to feel a sense of familiarity. Didn't the gold and grayish-white colors correspond to his Heavenly Change?

The question was, what was this golden ball trying to do?

As the grayish-white threads continued to absorb, the golden sphere continued to expand. Some corpses could not withstand it anymore and turned into ashes.

Gradually, all the corpses disappeared. When the last corpse turned into ashes, the golden ball began to tremble violently.

Xu Bai was not afraid. He stroked his chin and pondered. The huge golden sphere in front of him did not threaten him. Instead, it made him feel very close.

The grayish-white threads had been retracted, and the golden ball remained suspended in the air, still trembling.

Moreover, there were many shadows on the screen, and each shadow was different from the other.

Xu Bai was thinking about whether he should go up and take a look. Just as he was thinking about it, the golden sphere suddenly changed.

The golden sphere stopped shaking and became still. There was a great contrast. On the surface of the golden sphere, the floating figures finally merged completely, and the golden sphere began to gradually darken.

Starting from the top of the golden ball, it was gradually disappearing. The entire process took less than half a minute before the huge golden ball was gone.

Xu Bai raised his head and looked at the scene in surprise. "That's it?"

He had thought that something earth-shattering would happen, but things had changed too quickly. Nothing was left behind.

Xu Bai walked back and forth in the hole, but he couldn't find anything. Even the corpse had turned into ashes.

The place was empty.

He came out of the big hole again and found that the big hole could no longer be healed. He searched for a long time but found nothing.

Xu Bai thought for a moment and decided not to continue searching. It was more important to go back and check the progress bar.

He didn't stay there for long. He returned to the small mountain of books and continued to read the progress bar.

..

In the human world.

Barbarian territory.

Chu Yu was guarding a mountain with the disciples of the Ancient Moon Sword Sect.

Now, the First Prince was guarding the borders of the Barbarian Race's fief, and he had been conferred the title of King. He was following the old path of King Sheng You, while she was focused on the matters of Gu Yue Sword Sect.

Currently, Chu Yu was not far from the Extraordinary State. She was just one step away from entering it. However, her thoughts had been getting more and more chaotic recently.

Xu Bai had disappeared for some time. Everyone who was related to him was in a state of confusion. Chu Yu was frustrated every day. She became anxious when she was dealing with certain matters.

Chu Yu stood on the peak of the mountain and looked at the setting sun in the distance. She sighed silently.

“Junior Sister, why are you sighing? With Xu Bai's strength, are you still worried about him?”

A voice rang out. Chu Yu turned around and saw Qin Feng holding a fishing rod in his hand. He was about to rush towards the river not far away.

Chu Yu shook her head. “I haven't seen you for a long time. Of course, I'm worried. However, I've been feeling uneasy lately. I don't know why.””

Time would change a person. The current Chu Yu had long shed her past innocence and had become more mature.

Of course, she was worried about Xu Bai, but she trusted him more. With Xu Bai's strength, the possibility of him encountering danger was very low. However, for some reason, he had been feeling increasingly irritable recently.

Qin Feng didn't think too much and scratched his head. "Think about it, I'm going fishing first."

After Qin Feng left, Chu Yu returned to her original state. She looked at the setting sun in the distance and fell into deep thought.

For some reason, the agitation in his heart gradually intensified, as if some danger was about to descend.

..

In the sea.

A two-meter-tall muscular man was looking at the endless sea.

There were all kinds of people standing beside him. They were all dressed in different ways, which was very different from the clothes of Great Chu.

"Tu Tianke, are you sure that treasure can allow us to sneak in without a trace?"

Beside him, a middle-aged man dressed like a scholar was waving his folding fan. His tone was indifferent.

Tu Tianke was muscular, but strangely, he carried a long sword on his back.

"That was originally my supreme treasure. As long as I take it back, I'll be able to control it perfectly and teleport people to any place I want."

"Why, can't you wait?"

The middle-aged scholar shook his head and did not answer.

More and more people gathered around them. They were densely packed with people, and these people all carried terrifying auras.

The middle-aged scholar continued to wave his fan. "It's almost done. Everyone is gathered here. We're just waiting for you to bring us there."

Tu Tianke nodded and turned to look at the people around him.

"Let's go!"

“This trip is to snatch the treasure. If anyone tries to stop us, kill them without mercy!”

“For the Absolute Saint!”

Chapter 1072: Danger in the Ancient Moon Sword Sect

This group of people was confident and confident, as if they would never fail.

As they shouted, their voices gathered together, making it seem very imposing.

Everyone was very powerful. If they were really released, it would be a huge disaster.

After shouting for a while, Tu Tianke waved his muscular arm, and everyone present quieted down. Then, he slowly said,

“This time, with the absolute saint helping us deceive the heavens, no matter how hard we fight, they won’t be able to sense it. So, everyone can fight freely. Remember, we want a quick battle!”

“Since everyone has handed this operation to me to command, everyone must do as I say. Once we succeed, it will be a solid step forward.”

After he said these two words, the morale of the people present rose once again. After this, Tu Tianke didn’t say anything else and directly waved his hand and flew forward.

A dense group of people followed behind, and they were flying in the direction of the Ancient Moon Sword Sect.

..

Gu Yue Sword Sect.

Gu Yao sat in an elegant room, savoring the fragrant tea in front of her.

There was an incense burner on the table, emitting green smoke. It surrounded the room, making it look like a fairyland.

The faint scent of sandalwood and the fragrance of tea made Gu Yao close her eyes in enjoyment.

As the current Sect Master of the Ancient Moon Sword Sect, other than dealing with some necessary matters, she still enjoyed this kind of elegant and refreshing leisure time.

Drinking tea and enjoying tea every day was the time when no one disturbed her. It was also the time for her to relax.

Putting down the teacup in her hand, Gu Yao opened her eyes. Her eyes were calm like autumn water, but there was a hint of worry.

“Xu Bai has been gone for too long this time. I don’t know if my daughter is worried about him.”

In her entire life, she only had this one daughter with Sheng You King, so she valued her daughter very much, more than herself.

Now that her daughter had grown up and had a sweetheart, Gu Yao was naturally not at ease since her daughter’s sweetheart had already gone to the dangerous Bizarre City.

“Logically speaking, this kid has already become a Saint and is stronger than me.”

“Emperor Chu and that old bastard Chu You have sealed this information too tightly.”

“He only told the world that a great calamity was coming, so he opened up all the inheritances, but he didn’t say anything specific.”

“My daughter is thinking about her sweetheart every day, and she’s getting haggard day by day...Sigh...”

Gu Yao frowned and sighed silently.

The tea in the teacup on the table had already been emptied. Gu Yao waved her sleeves and extinguished the incense burner on the table. She then stood up and opened the door to the room.

Outside the room was a quaint corridor. Gu Yao walked along this corridor and kept walking out.

Soon, they were outside the corridor.

Outside the door, the Ancient Moon Sword Sect was built against the mountain. The scenery was beautiful and refreshing. From time to time, the disciples of the Ancient Moon Sword Sect would pass by. When they saw Gu Yao, they would immediately bow.

Gu Yao nodded and walked towards the back of the mountain.

There was a straight path leading to the back of the mountain. It was not difficult to walk. There was a little rain yesterday, and the path was a little muddy, but there was no rain under Gu Yao's feet.

There were very few people on this path because the back mountain was the forbidden area of the entire Ancient Moon Sword Sect.

The surrounding scenery was pretty good. Due to the rain, the air was fresh.

When Gu Yao followed the path to the top of the mountain, there was still the same messy building on the top of the mountain. The iron sword was stuck in the middle, making it seem unusually lonely.

There was no one guarding this place, because if they wanted to reach this place, they would have to pass through the heavy blockade of the Ancient Moon Sword Sect.

No one dared to be impudent in the Ancient Moon Sword Sect.

Around the iron sword, there were some small grasses swaying in the wind.

Gu Yao came to the side of the iron sword expressionlessly. She held the hilt of the iron sword and closed her eyes. The powerful aura in her body poured into the iron sword from her hands.

The iron sword began to tremble slightly, emitting waves of sword chimes. After Gu Yao, who was at the peak of the extraordinary state, injected into the iron sword, the rust on the iron sword gradually faded.

After a long while, she released her grip and sighed tiredly.

She could have fought for the position of Saint.

But because of the iron sword, she couldn't fight for it.

The iron sword was proficient in the space attribute and could teleport to any place in the world. This was the foundation of the Ancient Moon Sword Sect. If the Ancient Moon Sword Sect encountered a great enemy one day, it could bring everyone away.

However, due to the passage of time, the iron sword had become more and more old. Every once in a while, a powerful force had to be injected into it to make the iron sword continue to exist.

However, injecting power was not a simple process. It required one to use all the power in one's body to inject it. For Gu Yao, this was an extremely energy-consuming thing.

After reaching the peak of the Extraordinary State, the difference between them would be magnified infinitely. Furthermore, this kind of long-term infusion of special power made it almost impossible for him to step into the Saint Realm.

However, she did not regret it, because this was her foundation, and it could not be shaken.

Even if she had to sacrifice a little, even if she couldn't become a saint, she couldn't shake this foundation.

Gu Yao took a deep breath and waited until the power in her body had almost recovered before she turned around and slowly walked back to her room along the beautiful path.

The sky was a little gloomy. It had drizzled yesterday, and it would probably rain again tonight.

Chapter 1073: Danger in the Ancient Moon Sword Sect (2)

Gu Yao stood on an empty piece of land, looking up at the gloomy weather and shaking her head.

"Some of the rooms are damp. Remember to repair them." She called out to a passing disciple and instructed.

The disciples who passed by nodded respectfully and turned to leave.

Gu Yao had nothing to do. She placed her hands behind her back and returned to her room, closing the door behind her.

While she was carrying out her daily routine, at this moment, not far away from the Ancient Moon Sword Sect, an overwhelming number of people were rushing over.

The muscular Tu Tianke carried a long sword on his back, his expression solemn.

"Not far ahead, where the iron sword is. Everyone, remember, kill everyone."

"I will bring the experts to the place directly and not let them use the iron sword."

“As long as we get the iron sword, we can use it to go to various places and have our people planted in every secret place.”

When everyone heard this, they nodded in unison, indicating that they understood.

Tu Tianke didn’t say anything more and continued to lead the way.

The sky was getting darker and darker, and there was a faint flash of lightning. A storm was about to arrive, and before that, the air was stifling.

..

In front of the mountain gate of the Ancient Moon Sword Sect.

At this moment, two disciples of the Ancient Moon Sword Sect were chatting.

“When do you think our senior sister can go home and take a look? It’s been a long time since I last saw her.”

There were two female disciples on duty today.

Another female disciple said, “That’s right. I haven’t seen Senior Sister for a long time. However, Senior Sister is currently leading the elite young disciples to expand their territory. I reckon that she won’t be back for a short period of time.””

Although he said that, the two female disciples could understand each other’s expressions during their conversation.

What expanding territory? What expanding territory now?

The entire world was stable now. They naturally knew what their Senior Sister was going to do.

However, these words could not be said too clearly. Even if the two of them were chatting, they had to be careful. After all, this involved that existence.

“If Prince Xu takes a fancy to me, I will immediately wash myself clean.” The female disciple thought to herself.

They could only spend their free time chatting.

Time slowly passed.

They waited until noon and prepared to change shifts.

However, just as they were about to turn around, something strange suddenly happened.

A powerful pressure came from the sky in the distance. The two female disciples turned around and looked, revealing a surprised expression.

In the sky not far away, a dense crowd appeared. Every single one of them had a terrifying aura.

They were heading towards the Ancient Moon Sword Sect, and from the aura on their bodies, it was obvious that they had ill intentions.

“Let’s go, quickly inform the sect master!”

The two female disciples were also well-trained. They quickly took out two cylindrical objects from their pockets.

There was a string under the cylindrical object.

The two female disciples looked at each other and pulled the string at the same time.

Two rays of light shot out from the cylindrical object and exploded in the sky. The entire sky was dyed red and moist, forming the shape of an iron sword.

“Let’s go!”

Without any hesitation, they turned around and walked towards the mountain gate.

At this moment, when the sky formed the shape of an iron sword, all the disciples of the Ancient Moon Sword Sect moved. They quickly gathered on the platform and quickly finished gathering.

This was the way Gu Yue Sword Sect sent messages. Once this appeared, it meant that someone was attacking and they had to be prepared.

Everyone’s gaze fell on a room and did not move away.

“Pa!”

The door of the room was opened. Gu Yao, dressed in a white robe and carrying a long sword on her back, walked out from inside.

Twelve middle-aged men and women in the same clothes walked out from the other rooms.

“Greetings, Sect Master!”

“Greetings, Twelve Swordsmen!”

Seeing this, the disciples hurriedly bowed.

Gu Yao nodded and said, “Ten Thousand Sword Array!”

He didn’t say much and just gave simple instructions. She didn’t think about who it was.

Because now that the arrow was on the bow, there was no way to think about it.

She was still resting when she suddenly saw the iron sword flying in the sky. Of course, she understood what it meant.

Under the current situation, who would dare to touch the Ancient Moon Sword Sect?

But even if someone came, she already knew who it was. It was probably related to those hidden secrets.

If they came, then let’s try and see who’s stronger.

Of course, before this, she had already sent a disciple of the Ancient Moon Sword Sect to rush to the palace of Great Chu.

This was because she felt that something was very wrong. So many people had come over, and they were filled with killing intent. However, there was actually no movement from Great Chu. This place seemed to have been blocked.

Since that was the case, he would send someone to inform them. They only needed to defend here for a while.

When the disciples heard the words “Ten Thousand Sword Array,” they hurriedly found their positions and activated the long swords on their backs at the same time.

At this moment, everyone’s swords flew into the sky. They were densely packed like a wide river, blocking the entire sky.

Gu Yao turned her head and looked at the twelve sword envoys behind her. She said with a serious expression, “Everyone, form the 12th Heaven Sword Formation!”

The twelve sword envoys glanced at each other and nodded. Then, they activated the long swords on their backs.

Twelve unusual swords flew into the sky.

Even among the 10,000 swords, these 12 swords were exceptionally outstanding. One could see them at a glance.

Each sword was of a different color, like twelve streams of light, forming a different sword formation within the Ten Thousand Sword Formation.

“Sect Master, the 12th Heaven Sword Formation is complete!”

The twelve sword envoys said in unison,

Gu Yao nodded.

There was a huge commotion in the sky. This scene made people's scalps go numb. They definitely did not want to experience it personally.

But even under this vast momentum, Gu Yao's brows were still furrowed.

She was a little uneasy.

This kind of ability that blocked the heavenly secrets and made powerful experts unable to sense it was obviously aimed at them. Moreover, after knowing their background, the other party still dared to come over. The other party definitely had a method to rely on.

Even if they were fully prepared now, they could not guarantee that it would be absolutely effective.

Gu Yao took a deep breath and threw away the thoughts in her mind. Then, she formed a sword seal with her right hand.

Behind her, the longsword on her back suddenly unsheathed and rose into the sky. As the longsword gradually rose into the sky, the sword slowly grew. In the blink of an eye, it had already become a hundred times larger.

Even the 10,000 Swords Formation and the 12th Heaven Sword Formation were overshadowed by the radiance of Gu Yao's sword.

Three layers of formations!

The Ten Thousand Swords Formation was outside, the Twelve Heavens Sword Formation was inside, and Gu Yao's Gu Yue Sword was in the center.

This was the foundation of the Ancient Moon Sword Sect. Even if a Saint Realm expert came, they could still fight against a Saint Realm expert.

Of course, it was just a delay.

“Everyone, you must be careful. This person is definitely not simple!”Gu Yao shouted.

“Yes, sir!” All the disciples agreed in unison.

At this moment, in the distant sky, densely packed figures finally appeared.

This group of people came to the edge of the Ten Thousand Sword Array and did not take another step forward.

Tu Tianke looked at the sword formation in front of him and sighed.

This dazzling sword formation made him feel rather emotional, as if he was recalling the past.

"I didn't expect that after so many years, the Ancient Moon Sword Sect would become stronger and stronger, it's really gratifying!"

His voice was not loud, but it passed through the layers of sword formations and entered Gu Yao's ears.

Gu Yao was slightly stunned. Then, through the sword formation, she saw Tu Tianke's appearance.

In the next second, Gu Yao was stunned.

She seemed to be reminded of a long time ago.

At that time, under the ruins, a little girl was holding an iron sword in her hand.

Beside it was an abandoned graveyard, but there was a stone tablet in front of the graveyard. A person's appearance was engraved on the stone tablet.

Tu Tianke!

Gu Yao was shocked." You didn't die! You actually lived for countless years!"

Tu Tianke smiled and said," What's there that's not possible, under that existence, life is just a plaything, I don't know how you found my inheritance, but now you can return it to me."

As he spoke, Tu Tianke stretched out his hand.

"Give me the iron sword, and you can live. I can pray to that existence, and consider it a benefit for you to help me continue the Ancient Moon Sword Sect."

That existence?

Gu Yao frowned, "Who is it?"

Chapter 1074: Ancient Yao: Saints Do Not Dare to Enter

Gu Yao thought of many things, especially her past memories. She already knew the identity of the man in front of her.

The inheritance in her hands, including that iron sword, and the current Gu Yue Sword Sect, all came from this man.

Back then, this man had already died, leaving behind only a lonely grave, and she had obtained the inheritance from the lonely grave.

Now that this man was alive, she found it unbelievable, especially when she heard about the so-called existence.

There was no resurrection in this world.

If they died, they would either become a strange entity or completely disappear from the world.

The man in front of him had been resurrected. After so many years, it was impossible for him to exist for long. This method was simply shocking.

She was very curious, but at the same time, she was full of vigilance, so she asked this question.

Tu Tianke's eyes were filled with reminiscence. He pulled out the long sword on his back and gently brushed it across the blade, leaving behind a dazzling edge.

"That existence is not something you can understand. He is so powerful that even you will feel despair. In his eyes, we are just ants."

"I know what you're thinking. Don't fight to the death, just surrender obediently. I can talk to that existence, and perhaps I can save your life."

Beside him, the middle-aged scholar frowned and did not say anything. He felt that Tu Tianke had become a little emotional.

Of course, if it were him, he would probably end up like this.

After all, he had been dead for countless years. When he suddenly came back to life and saw his legacy, he more or less recalled it.

After Tu Tianke said this, he shut his mouth. He was waiting for Gu Yao's answer. At the same time, he held the long sword in his hand, and the sharpness of the long sword became even more intense.

Gu Yao fell silent and did not reply for a long time.

If she had the confidence to fight before this, she would have been able to stall for time even if a Saint Realm expert had come. But now, she was not sure.

To put it bluntly, the inheritance that she had obtained back then was still incomplete. Even so, the Ancient Moon Sword Sect could still grow to this extent. Now, facing the person who had given her the inheritance, she had no confidence at all.

It was like learning a unique skill from an old master, but the old master had hidden another skill. How could he be confident?

Unless...Use that!

Gu Yao took a deep breath and broke the silence. "What is your purpose? If you can tell me, I might agree to it."

Tu Tianke frowned and said, "You still don't understand?" Our goal is to destroy this world, especially that Xu Bai. He will definitely die."

Gu Yao raised her head and said, "You were once the strong practitioners of this world, and even a part of it. Why would you help a villain destroy the world? What good would it do you?"

"Traitor?" Tu Tianke laughed loudly, his laughter shaking the heavens. "You don't understand how powerful that existence is. All of us can't even compare to a finger of his. As for why he wants to destroy this world, it's naturally to survive."

" You haven't experienced it before, so you don't understand the despair of death. That boundless darkness swallowed you. In the darkness, you were like a butterfly that had fallen into a spider web, struggling endlessly."

" The more you struggle, the more you can't break free. You slowly sink into it, until in the end, you fall into eternal loneliness."

"Death is very terrifying. I don't want to die, and neither do they."

"Clang!"

The long sword let out a soft hum as the blade pointed at Gu Yao. Tu Tianke's tone gradually turned cold.

"After saying so much, you have to give me an answer. If you want to die, then fight to the death. If you want to live, hand over the iron sword as soon as possible. I really don't want to fight. After all, you have obtained my inheritance."

As soon as he finished speaking, everyone behind him drew their weapons. Some of them came empty-handed, but their auras were abnormally powerful. The auras condensed by this group of people filled the entire sky, and they brought with them a power that could topple mountains and overturn seas as they pressed down on the sword formation.

"Stay steady!"

One of the twelve Sword Envoys shouted, and the disciples of the Ancient Moon Sword Sect quickly stabilized their formation to prevent any chaos.

Gu Yao sighed." I don't know what to say, but if you want to fight to the death, I will fight to the death. Xu Bai can't die. He is my son-in-law, and you can't destroy this world. He already belongs to our era. You are just a bunch of outdated old fellows."

"As for the existence you mentioned, let's wait until he comes out. There are no cowards in the Gu Yue Sword Sect, we want to fight you."

"All disciples, listen up!"

The disciples of the Ancient Moon Sword Sect shouted in unison,""We are here!"

Gu Yao took a deep breath and pointed her sword at the dark crowd in front of her." Although this battle is difficult, the world is behind us. Everyone, let's fight!"

The disciples replied,"We will follow the Sect Master. We will die without regrets. We will fight to the death in this battle!"

"Buzz!"

In the sky, countless swords began to wander. In the Ten Thousand Sword Array, countless swords flew toward Tu Tianke and the others.

Tu Tianke sighed."

He waved the long sword in his hand, and the originally densely packed Ten Thousand Sword Array suddenly froze in place. Immediately after, the disciples suddenly felt a stifling feeling in their chests. Countless long swords could not be controlled and fell to the ground.

Chapter 1075: Gu Yao: Saints Don't Dare to Enter This Place

Gu Yao's eyes widened.

Tu Tianke smiled and said, "It's alright. I was about to die, so I didn't leave a complete one. I couldn't hold on anymore. Otherwise, it wouldn't have been easy to fight today."

"Kill them all. Leave none alive."

Behind Tu Tianke, a dense crowd of people shouted and rushed towards the Ancient Moon Sword Sect's group.

A brush appeared in the middle aged scholar's hand, and he drew a line in the sky. Countless words descended from the sky and pressed down on the Ancient Moon Sword Sect disciples.

After that, countless attacks followed.

"Boom!"

A loud boom resounded through the sky. The 12-heaven Sword Formation was completed in the sky, blocking all the attacks.

The twelve Transcendents, in addition to the might of the sword formation, blocked the attack completely. However, the twelve Sword Envoys were not in a good state either. They spat out a mouthful of blood and their faces turned as pale as paper.

The middle-aged scholar looked at Tu Ke and said, "Isn't this your method? Why don't you make it ineffective?"

Clearly, the middle-aged scholar was unhappy that the attack did not destroy the place immediately.

"Who do you think I am?" Tu Tianke sneered. These people were able to rely on the incomplete manual to reach the extraordinary realm. Their talent was not inferior to mine, so wasn't it normal for them to improve?"

The middle-aged scholar didn't say anything else, but his brows were still tightly furrowed."Everyone, they won't be able to withstand a few more attacks. Continue!"

Now, the 10,000 Swords Formation had been destroyed, leaving only the 12th Heaven Sword Formation. However, although the 12 Sword Envoys were strong, it was still difficult for them to deal with such a large group of people. How many times could they resist with the 12th Heaven Sword Formation?

When everyone heard the middle-aged scholar's words, they understood that this was not the time for internal strife.

They gathered their attacks and prepared to attack again. At this moment, Gu Yao took a step forward.

One of them was a woman, and her sleeves fluttered in the wind. The largest Ancient Moon Sword in the sky let out a sword hum.

"I used a sword to challenge this chaotic world."

"I once faced an attack from over a thousand people and blocked it with a single sword."

"The Gale Army is known as invincible, but no one dares to step into the Ancient Moon Sword Sect because of me."

As Gu Yao took a step forward, she gradually soared into the air, and the entire world actually stopped.

Tu Tianke suddenly had a bad thought. He had a feeling that the person in front of him had changed.

Gu Yao's eyes were cold as she turned to Tu Tianke and the others.

"Thank you for your incomplete manual. If it was complete, I wouldn't have been able to comprehend my own Sword Dao."

"Back then, there were saints in Gale Country but they didn't dare to come. Do you know why?"

"Why?" Tu Tianke gulped.

"Haha..." Gu Yao's cold laughter answered him.

"Great Chu has Eunuch Wei, who can break through to the Saint Realm. As for me, although I can't break through to the Saint Realm, I'm a taboo."

Gu Yao took a deep breath and looked behind her.

Behind her was the shabby path and a scrawled platform. On the platform was an iron sword.

As she looked over, the iron sword made a buzzing sound.

In the next moment, the iron sword rose into the air and turned into a stream of light, landing in Gu Yao's hand.

Gu Yao reached out to touch the blade of the iron sword and said, "This sword can cross space, and it is also the sword path I cultivate. Do you know what is taboo?"

"Join my Ancient Moon Sword Sect and use Gu Yue as the foundation. Within the range, your cultivation will be reduced and you will be banished into space!"

"Boom!"

The iron sword emitted a fierce light, covering everyone present in the light. There were waves of miserable cries.

"Ahhhh! My ability is gradually decreasing. What's going on?"

"I've already fallen to the Extraordinary Realm. Impossible, this is impossible!"

"She can cut people's cultivation. Everyone, run!"

"Space! She banished our cultivation into space and will never be able to find it back!"

A series of screams rang out, and Gu Yao's eyes turned even colder. Through the sword light, she saw the situation inside.

Everyone's cultivation base had been cut off by a major realm by her. Everyone was screaming, but they were powerless. As long as they were blocked by the sword light of the iron sword, everything would cease to exist.

Tu Tianke watched helplessly as he fell to the Extraordinary realm. He stood rooted to the ground like a block of wood.

"Isn't space just a teleportation? You can still use this method?"

He was the creator of this inheritance. Even the iron sword was forged by him with great effort, but the other party used it better than him!

Cutting a person's cultivation and storing it into the ancient moon range, entering the Saint taboo!

At this moment, he finally understood why no Saint Warrior had come to the Ancient Moon Sword Token to cause trouble.

You came, you lost, not your life, but your cultivation.

The oldest among the twelve Swordsmen sneered.

“If it wasn’t for the iron sword, the sect master would have already fought for the position of a saint. He would definitely be one of the nine people in the world now. You idiots, how do you know the sect master’s talent?”

“The sect master was born for the sword!”

The blazing sword light gradually faded.

When all the sword energies disappeared, Gu Yao also revealed a pale expression.

Even for her, weakening the cultivation of so many experts of the same level was a little unbearable. Fortunately, she could not hold on any longer.

“Kill them!”

Although her face was as pale as paper, Gu Yao was still cold as she spat out the word ‘kill’.

As soon as she said this word, the 12th Heaven Sword Formation in the sky brought with it endless power as it slashed towards this group of people.

Everyone’s strength had been reduced by a large level. At this moment, facing the twelve sword envoys at the extraordinary realm, no one could withstand it.

Screams of pain could be heard from everyone present.

In just an instant, there was no one left alive except Tu Tianke and the middle-aged scholar.

Both of their faces were extremely pale. It was obvious that they understood the current situation.

“Tell me who that existence is,” Gu Yao said. “Also, tell me your plan. Perhaps I will give you a chance to live.””

Tu Tianke and the middle-aged scholar looked at each other in silence.

“Aren’t you all doing it to survive?” Gu Yao frowned. I gave you a chance to live, why didn’t you say so?”

“If I tell you, we’ll definitely die,” Tu Tianke said. “If you kill us, the Absolute Saint might revive us.””

After Tu Tianke finished speaking, he suddenly stopped talking. Meanwhile, cracks began to appear on the body of the middle-aged scholar beside him.

Gu Yao's expression changed slightly. She already knew what had happened.

"Defend!"

The iron sword wrapped around his body, and the sword array enveloped the surroundings.

"Boom!"

Tu Tianke and the middle-aged scholar actually chose to self-destruct. Fortunately, their abilities had been weakened by a large level, so they did not have much power. They were easily stopped by Gu Yao.

"Sect Master..." Among the twelve sword envoys, the oldest one walked out and wanted to speak.

Gu Yao raised her hand and interrupted him.

"Let's settle the mess here first. The people I sent to Great Chu should be here soon. By then, we will know everything. Don't say anything now in case the walls have ears."

The twelve sword envoys naturally understood and hurriedly bowed in agreement.

After Gu Yao and the others finished dealing with the mess here, they returned to their own room. The iron sword had always been with her, never leaving her.

After waiting for nearly two hours, a whistling sound came from afar. Soon, her door was opened.

"Yao 'er, are you alright?"

King Sheng You walked in hurriedly.

However, before he could take two steps, he was kicked in the face by a delicate foot.

"Pa!"

The famous King Sheng You fell to the ground and said helplessly, "You're still so strong..."

Gu Yao grabbed King Sheng You's collar and pulled him closer. "Let me tell you, if you don't explain everything clearly to me today, even though the iron sword can't leave the Ancient Moon Sword Sect too far, don't even think about passing by my place."

"I was in a hurry to rush over. I was just about to tell you..." King You Sheng said helplessly.

Gu Yao humped and let go. She crossed her arms and waited for King Sheng You to continue.

King Sheng You had no choice but to tell him everything he knew.

Chapter 1076: Chapter 300-Great Advancement of the Seventh Grade Saint!_1

In the room, King Sheng You's voice did not fluctuate. It was more like he was describing an ordinary matter.

However, the listener had the intention. Gu Yao heard it, but the shock in her heart had not calmed down. It was like a surging wave that could not calm down for a long time.

When the dust settled and everything stopped, King Sheng You did not continue.

Gu Yao took a long time to calm herself down. After a while, she sighed and said, ""In other words, our world may be destroyed at any time, and Xu Bai has become the key person, but he can't return to the human world. If he does, he may encounter a huge threat."

King Sheng You nodded and skillfully picked up the teacup beside him and took a sip." It's not a possibility, it's a certainty. He will definitely encounter danger. This is certain. The existence they speak of is indeed supreme. If we really face him, we have no chance of winning, and there's no possibility of winning."

Gu Yao pondered for a moment." It's indeed impossible for us alone. However, it's different if we add Xu Bai. Since the other party is so afraid, Xu Bai must have a deeper meaning. Therefore, Xu Bai is the only possibility to turn the tables."

It was impossible for their world to defeat an existence that could destroy countless worlds. This was a fool's dream.

However, Gu Yao had also experienced all kinds of storms and had already seen it very clearly. The most important person here should be Xu Bai.

Since the other party was so expectant, Xu Bai must have the advantage to turn the tables. It seemed that Xu Bai was also the core of the group.

King Sheng You put down his teacup and knocked on the table."So, do you know what we should do during this period of time?"

Gu Yao nodded." Of course I know. Before Xu Bai and that person fight, what we have to do is to clear away unnecessary obstacles for him. For example, these people who appeared today."

"Those fellows were once people of our world, but they all betrayed us in order to survive. To be honest, their betrayal made me feel despair, but...Inferring from one example can also help us prepare."King Sheng You said slowly.

Since this situation had happened today, he could gradually extend this situation and know the subsequent problems.

The follow-up questions were very simple. Since the other party was a person who had once lived, there must be others. It was impossible for only a portion of them to come.

In that era, a hundred flowers bloomed, and it was even more prosperous than this world.

It seemed that although the pressure they faced was great, as long as they were well prepared, they would not necessarily lose.

King Sheng You continued," Move it away and return to the palace of the Great Chu State. At least your sword won't be stolen there. I already know what they are thinking. If they can snatch your sword, they will be able to sneak into every corner at the simplest speed without being discovered."

The sword in Gu Yao's hand was able to cut through space, and it was the only treasure in the world that could cross space.

If it was really snatched away, the consequences would be very serious. King Sheng You was already very clear in his position.

Since he knew the other party's plan, he could not let Gu Yao continue to stay here in case something bad happened.

Although Gu Yao had a strong personality, she was a person who understood the big picture in this aspect. Without much hesitation, she agreed.

This matter was of great importance. Even if he wanted to throw a tantrum, he would not do so on this matter.

“What about the barbarian fief?” Gu Yao asked, “Although there seem to be a lot of people over there, and there are also quite a number of Transcendent experts, there are no top-notch existences. If the other party really attacks from there, not only will we be very passive, but it will also bring pressure to Xu Bai.”

Chu Ling and the others were still in the land of the barbarians.

Those were the people that Xu Bai valued the most. If something really happened there, the consequences would be unimaginable.

“All the Saint Realm masters will be assigned to a specific group.” “Originally, we wanted to gather together to deal with the Bizarre Market. Now that the Bizarre Market is no longer needed, we can only focus on defense first before looking for an opportunity to attack.”

“In addition, Director Mu will personally go over to take charge. This way... He would try his best to ensure that nothing went wrong.”

One of them was a Saint Realm expert, overseeing the land of the Barbarians.

Before Xu Bai returned, this was the safest way.

Gu Yao frowned. “You have to find a way to solve what happened today. In that era, all the flowers bloomed and all the countries competed. You can’t wait for them to wake up one by one. The danger they would bring would be no less than that of an Absolute Saint.”

“Didn’t this just happen today? We have to go back and discuss it.” King Sheng You stood up and said, “Let’s not talk about this anymore. Hurry up and follow me. Leave this place to ensure your safety. We’ll discuss it when we get back.”

Gu Yao thought about it and knew that this was not the place to talk. After agreeing, she went out to prepare various arrangements.

Although they left in a hurry this time, as a sect with a deep foundation, they had long planned many escape routes, including the matter of escaping. Therefore, they quickly gathered.

King Sheng You and Gu Yao stood side by side, looking at the dark Gu Yue Sword Sect disciples in front of them, feeling rather emotional.

Everyone had their youth, and when they were young, they had all kinds of wonderful experiences. Sheng You King, as a Saint Realm master, was the same.

Chapter 1077: Chapter 300-Great Advancement of the Seventh Grade Saint! 2

Seeing this scene, Sheng You King recalled the moment he met Gu Yao in the Ancient Moon Sword Sect when he was young.

King Sheng You reached out and held Gu Yao's hand.

Gu Yao didn't struggle and allowed King Sheng You to hold her hand.

"This is the most difficult battle." Although King Sheng You said that it was difficult to beat, his face was very calm.

Gu Yao turned her head and said, "Back then, Gale Country was cruel and brutal, causing the entire world's people to live in misery. You and the Chu Emperor rose from the bottom of the world and experienced countless battles."

"Between life and death, between life and death, I don't know how many reincarnations I've gone through. Now that you're afraid, it's not like you."

"Back then, I saw King Sheng You, who dared to lead a thousand cavalrymen and raid the Gale Country's tens of thousands of people. Why are you so emotional now that you're old?"

King Sheng You scratched his head. He only made such a gesture in front of Gu Yao. "I'm getting on in years. I'm always thinking about things that people at this age should think about. I thought that Xu Bai was very pleasing to the eye back then. I didn't expect him to have such a shocking background after becoming my son-in-law."

Gu Yao rolled her eyes at King You Sheng. "Aren't you just trying to praise yourself for having good taste? Do you think I don't know you?" Do you want me to praise you a little more?"

Sheng You King only smiled and didn't say anything else.

Gu Yao held King Sheng You's hand tightly and said, "Now that life and death have yet to be determined, the outcome is not yet decided. Anyway, the biggest plan is to die."

King Sheng You opened his mouth, wanting to say something.

At this moment, the twelve swords gathered together.

At this moment, everyone had arrived. King Sheng You didn't say anything else. These words could be said slowly in the future. Right now, the most important thing was to leave this place.

Gu Yao released her hand and pulled out the iron sword at her waist. The power in her body merged into the iron sword.

It was as if she had turned from a weak woman into a sharp sword, making it difficult for people to look at her directly.

The iron sword emitted a clear sound that was very pleasant to the ear.

A moment later, Gu Yao raised the iron sword in her hand and pointed it at the sky.

In the next moment, the iron sword emitted a dazzling light that enveloped the entire sky. At the same time, it enveloped everyone present.

The light gradually weakened, and when it disappeared, the Ancient Moon Sword Sect was empty, with nothing left.

..

Bizarre market.

Xu Bai sat cross-legged on the ground with one hand on his knee and his chin propped up. He was holding a book in his other hand and staring at it intently.

A bright progress bar appeared in front of him. At this moment, he was just a little bit away from being full.

During this period of time, his life was extremely regular, so regular that he read books every day.

This also made him feel quite emotional. He recalled the scene when he first entered this industry. At that time, he was also the most diligent. Every day, there was only a progress bar.

Even seeing No Flower's head would make him excited for a long time. He would think of ways to get that head.

During this period of time, he felt like he had returned to that time.

It was boring, but it was very comfortable. The continuous progress bar made him feel at ease.

The progress bar in front of him was still increasing, but the last part was filled. Light blue smoke appeared in front of Xu Bai's eyes.

He was already used to it and didn't even want to read it. He casually threw the book in his hand behind him.

There was a small mountain of books behind him, and the book he threw out happened to land on the top of the pile of books.

In front of him, there was a list of books. These books all had progress bars, but they were all just a little bit away from being finished.

These books were the experiences of failing to become a saint, so he had deliberately kept them.

"Hu..." Xu Bai let out a long breath, "I've finally finished all these things. ""

Other than the experiences of failing to become a saint, he had finished all the other books.

The light blue smoke in front of him disappeared and re-formed the latest text.

A new attribute panel appeared, and there were already huge changes.

[Name: Xu Bai]

" Realm: Seventh Grade Saint Itinerant

[Incantation of Myriad Forms Attracting Mountains and Seas (Saint Level 7):[Maximum level.]

[Myriad Attack (Saint Level 5):[Maximum level.]

[Myriad Defense (Saint Level 5):[Maximum level.]

[Myriad Mixed Spells (Saint Rank-5):[Maximum level.]

[All kinds of support (Saint Level 5):[Maximum level.]

[Myriad Mystical Techniques (Saint Level 5):[Maximum level.]

" Comprehension: Maximum level."

..

The ellipses represented that there were many skills that were not displayed. Due to too many reasons, they were replaced with ellipses.

Xu Bai's greatest improvement now was that his strength had already reached the level of a Seventh Grade Saint.

"I've reached another hurdle. Now that I can't find a progress bar to work on, the momentum to improve is far away."

Although Xu Bai was happy about the huge improvement, he still felt a headache when he thought about the large number of progress bars he needed.

The further he went, the harder it was to improve. He could take shortcuts, but it would still take time to take these shortcuts.

Xu Bai stretched his body to get rid of the distracting thoughts in his mind and shook his head.

His gaze turned to the ground, where a pile of books was placed.

These were the experiences he had gained after failing to become a saint, and they were also what he urgently needed.

He had a lot of skills now, but he couldn't fuse them. He could only rely on the fusion technique he had learned after failing to become a saint.

All these failed experiences of becoming a Saint Warrior had been absorbed by him to the point where he was only a sliver away from completing it, all for this moment.

Xu Bai picked up one of the books and glanced at the progress bar. It had already reached perfection.

He did not stop. After the light blue smoke appeared, he had already picked up the second book.

When the second book appeared, the light blue smoke gradually became thicker.

Xu Bai's hands didn't slow down. He read one book after another, and the light blue smoke gradually became more solid in the process.

Throughout the entire process, he remained expressionless.

There were simply too many of them. Even with his speed, it took him nearly the time it takes an incense stick to burn before he managed to absorb all of them.

In front of him, the light blue smoke was as thick as ink and could not be melted at all.

Xu Bai was expressionless as he silently watched all of this. After about ten breaths, the words finally disappeared.

In the next moment, the latest attribute panel appeared in front of Xu Bai.

[Name: Xu Bai]

” Realm: Seventh Grade Saint Itinerant

[Incantation of Myriad Forms Attracting Mountains and Seas (Saint Level 7):[Maximum level.]

[Myriad Attack (Saint Level 8):[Maximum level.]

[Myriad Defense (Saint Level 8):[Maximum level.]

[All kinds of spells (Saint Level 8):[Maximum level.]

[All kinds of support (Saint Level 8):[Maximum level.]

[Myriad Mystical Techniques (Saint Level 8):[Maximum level.]

” Comprehension: Maximum level.”

With so many fusion techniques, other than the mental cultivation method, his strength had become an Eighth Level Saint, far surpassing his own Seventh Level Saint.

“Hu...”

Xu Bai let out a long breath.

This was a huge gain.

This time, he had earned a lot.

“Since we can't go out for the time being, then sweep all the corners and take as much as you can.”

After everything was settled, Xu Bai had an idea.

He couldn't leave the Bizarre Market now. If he went out, he might fall into the Absolute Saint's trap. According to the clues he had obtained previously, he had to at least reach the Ninth Grade Saint Realm to barely be able to protect himself. Moreover, it was not certain.

Therefore, when they could not get out, they might as well go through all the corners of the bizarre market and squeeze out all the strangeness.

Even if those monsters were not strong, no matter how small their legs were, they were still meat. When the number reached a certain level, it would cause a qualitative change.

Thinking of this, Xu Bai no longer hesitated and directly rushed in a direction.

..

In the ruins.

The Absolute Saint opened his huge eyes, and the chains on his body rattled.

“Idiot! A bunch of idiots, the first step was wrong!”

His voice was filled with endless pressure and contained boundless anger. The sky of the ruins darkened.

Chapter 1078: Big Secret (1)

“What’s wrong? Seeing your plan fail? Why are you so angry?”

A voice rang out, and a figure without facial features appeared in the sky, standing in the void.

When the Absolute Saint heard this voice, he looked up and his anger gradually subsided.

“Hehe, are you here to laugh at me?”

” Yes.” The remains nodded honestly.” You took away my authority here. Can’t I see you make a fool of yourself?””

The Absolute Saint didn't answer. He remained calm.

The chains that bound him returned to normal, and the huge eyeball stared at the ruins with a terrifying pressure.

"I've already lost control anyway. Why don't you tell me what other plans you have?" The remains said indifferently."

"Plan?" The Absolute Saint sneered. "My plan is to get out of here and destroy this world. Do you understand?"

This sentence was equivalent to saying nothing. The remains shrugged and ignored him.

The Absolute Saint closed his huge eyeball and remained silent.

The remains raised his head. Although he did not have any facial features, he could feel that he was calm on the surface but anxious on the inside.

"I don't know how far Xu Bai has gone. I've already lost control and have no way to get any information. The time I can trap him is getting shorter and shorter."

"When he walks out of here, it will definitely be a major disaster. At that time, no one can stop him."

In fact, ever since he lost control of the remains, he had become indifferent to many things.

All the plots and plots were fake, and he was here. The most he could do was to remind him.

Apart from that, he couldn't stop the Absolute Saint's plans. All he could do was try his best to stay in the ruins for a while longer.

Thinking of this, the ruins sighed again and disappeared into the sky.

The Absolute Saint didn't say anything. After the ruins left, he opened his eyes again with a hint of mockery.

"No matter how many things there are for him in the Bizarre Market, there's still a limit. If he dares to leave the Bizarre Market, it'll be the time when his life ends."

"If he doesn't leave the Bizarre City, he can only wait for me to come out of here. At that time, not only will he die, but all of you will die."

"Just you wait. I've been here for so long. Sooner or later, I'll make you pay the price. At that time, I'll make all of you die miserably."

"Hahahaha!"

His wild laughter echoed in the ruins. The Absolute Saint was like a vengeful person, and his heart was filled with all kinds of joy.

..

Bizarre market.

Xu Bai looked at the progress bar in front of him and rubbed his forehead, looking like he had a headache.

Up until now, he had already collected a lot, but these progress bars were like drizzle to him. They were of no use at all.

Even if it was a mosquito leg, this mosquito leg was too small. It wasn't even enough to fill the gaps between the teeth.

After all, he had already reached the Seventh Stage of the Upper Tier. It was really difficult for him to improve.

"There seems to be a big problem." Xu Bai put down the hand that was rubbing his forehead and was speechless. "At this rate, it's a problem whether I can even reach Rank-8, let alone Rank-9."

According to the clues he had obtained, he might be able to arm wrestle with an Absolute Saint when he was a ninth-grade Saint.

But now, even Rank-8 had become an extravagant hope for him. If he really ran out of this rhythm, it would be gone in the blink of an eye.

"I finally understand what this guy means. He really wants to trap me here until I die. After he escapes from the ruins, he will directly attack me." Xu Bai thought speechlessly.

The more she thought about it, the more melancholic she felt.

“I wanted to take it one step at a time, but now that I can’t even walk, what’s the point of looking at a hammer?”

“The future is a little bleak...”

Xu Bai clapped his hands. With a thought of his soul, all the monsters gathered in front of him died on the spot.

This was already his daily routine. While obtaining the progress bar, he would also kill some monsters at the same time. This would also reduce a lot of burdens in the future.

After all the monsters in front of him died, Xu Bai stood still and made a decision.

“Let’s get rid of all the strangeness here first. At least we can reduce a lot of the burden.”

“As for how I’m going to take the throne later, I’ll think about it slowly.”

Xu Bai stretched his back and prepared to act according to the plan.

At this moment, he suddenly felt that something was wrong. He looked up at the sky in the distance.

The people there were all red, which made people feel depressed.

In addition, with Xu Bai's current strength, he could see that the sky was trembling slightly.

To be precise, it was not the sky that was trembling, but the sky and the mysterious space.

Not long ago, all the corpses in that space had withered and gathered into a golden sphere, but that sphere disappeared in an instant.

Up until now, Xu Bai still didn't know what had happened.

Now that the sky was trembling again, he wondered if it had something to do with that space.

"Now that I have time, maybe I can go and see what's going on." Xu Bai thought to himself.

The problem that had occurred last time was that he didn't want to take the risk. More importantly, he had a lot of progress bars waiting for him to work on them.

However, it was different this time. He did not have a progress bar. Most importantly, he did not have any progress. He could only try. What if he found something new?

Chapter 1079: Big Secret (2)

Thinking of this, Xu Bai rubbed his hands and flew into the sky.

Other than the blood-red color, the sky was ashen. As Xu Bai got closer and closer to the sky, he could clearly feel the huge change in the sky.

Gradually, Xu Bai flew higher and higher until he reached the highest point. He raised his hand and pressed it against the sky, and the True Core Strength in his body exploded.

In the next moment, cracks appeared in the sky, filling the entire sky. A huge hole gradually appeared in the cracks.

It was pitch black inside the hole. Xu Bai took a deep breath and flew into the hole with his True Core Strength.

It was still empty inside. There was no sign of life. Even the corpses were gone.

Xu Bai's eyes wandered around, searching everywhere, but he did not find any signs.

He could confirm that there had indeed been a tremor just now, but why was there no abnormality here?

At this moment, the huge hole gradually recovered and returned to normal.

The silence deepened, making one feel a chill in their hearts.

Xu Bai was still standing at the same spot. He didn't gain anything. He couldn't even feel the vibration.

Originally, with his current strength, he would be very sensitive when he sensed danger approaching, but he could not even sense danger.

But what caused that tremor?

Xu Bai didn't understand. He didn't want to continue investigating. He wanted to return to the city first.

At this moment, something strange happened in front of them.

Xu Bai frowned and looked at the distorted figure that appeared not far away.

"He's not very strong, and he doesn't have any killing intent."

Why was he looking at it with his chin? He felt that this thing was a little strange.

After a while, the distorted figure changed into an ordinary young man.

The young man's appearance was also a little strange. He looked left and right, his face full of confusion. In the end, the young man's eyes fixed on Xu Bai and found him.

"Blood...Bloody Butcher Blade Guest!"

It was a few simple words, but there was a trace of fear and shock in his voice, as well as admiration.

Xu Bai's spirits were instantly lifted when he heard these words. His figure flashed and he was already beside this person.

"You are...People!"

The young man was frightened for a moment, but then he seemed to have figured it out. He said excitedly, "I actually saw a living person. I'm so happy. I can see the Bloody Slaughterer Swordsman himself. It's simply... Ah!"

Before he could finish, the young man covered his head and screamed.

"If you mention this name again, I can't guarantee that your head will still be on your neck." Xu Bai said expressionlessly."

The young man was speechless.

He suddenly remembered that the legend of this person in front of him could be described as a legend. Now that he had angered him, fear immediately arose.

Seeing that the young man was no longer speaking, Xu Bai slowly said, "Are you from the human world?"

Only those in the human world knew the title of Bloody Slaughterer Swordsman. After all, the title he hated the most was called out in the beginning.

The young man quickly nodded, indicating that it was indeed so.

After Xu Bai received the confirmation, his frown deepened. "Do you know what this place is?"

The young man shook his head, indicating that he did not know.

“This is the Bizarre City, but you haven’t been cleared. What’s going on with all the souls? Tell me about your experience.” Xu Bai said.

It was simply out of the picture.

The rules of the Bizarre Market still existed, but the young man had actually appeared here and his soul had not been wiped away. There was something going on.

When the young man heard this, he was stunned on the spot. Clearly, he had not recovered from this shocking news.

“Strange... Bizarre Market!”

Xu Bai nodded to confirm.

The young man used his greatest strength to finally walk out of his shock. He said all his energy and closed his mouth.

Xu Bai propped his chin on his hand and paced back and forth for a moment, thinking about what the young man had said.

According to what he had just said, this was indeed interesting.

This young man had accidentally encountered a strange creature and was killed by it. He was already dead, but he had inexplicably come to this place.

The most important thing was that this young man was still a human.

“Xu... Prince Xu.” “Am I alive or dead?” the young man asked in fear.”

Xu Bai glanced at the young man.””Do you think you should be alive or dead?”

The young man thought for a moment and said uncertainly,””Probably...Live...”

Xu Bai didn’t care about this young man anymore. He didn’t care if he was alive or dead. In his eyes, this guy was still a human.

From the beginning of the condensation to the current situation, Xu Bai’s heart had actually already turned into a monstrous wave. However, on the surface, he still looked expressionless.

He was connecting everything together, but he felt that there was still something missing. Something was not completely connected.

Xu Bai walked back and forth, thinking about it.

“The ball of light absorbed the power of many corpses, but it disappeared inexplicably without causing any trouble.”

“Nothing strange happened after that, and everything was very calm.”

“But today, this happened. This person died in the human world, but his inexplicable neighbor in this place turned into a human again, and his soul was not erased.”

“Can I understand it as this place is isolated from the Bizarre Market, so the soul will not be erased? But what about reviving the dead?”

The more Xu Bai thought about it, the more confused his mind became. He felt that the clues in front of him were confusing. He could grasp some of them, but he couldn’t completely understand them.

At this moment, another change occurred in the surroundings. Another figure gradually condensed and appeared at the scene.

“Another person?” Xu Bai narrowed his eyes and looked back and forth.

He was very sure that the person who had come was also a human, and his soul had not been erased.

It was a middle-aged man. When the middle-aged man appeared, his face was also filled with confusion. When he saw Xu Bai, his confusion turned into shock.

“Xu... Prince Xu!”

The corner of Xu Bai’s mouth twitched slightly. Hearing this title, he already knew that this guy also came from the human world.

“You didn’t come here after you died, did you?”

The middle-aged man was more experienced than the young man, so he quickly recovered from his shock. After hearing Xu Bai’s question, he quickly nodded, afraid that he would be late.

Before Xu Bai could ask anything, he had already told him everything.

It was just as Xu Bai had thought. The middle-aged man had died in an accident and finally appeared in this place.

Two people, two similar encounters, and they appeared in the same place.

At this moment, Xu Bai's chaotic thoughts suddenly flashed with a light, as if he had grasped something.

He rubbed his forehead with his hand and tried to catch the light.

As the light shone, the messy thoughts in his mind gradually became clear.

After about half the time it took to assemble the portrait, Xu Bai let out a long sigh.

"I think I understand now."

The young man and the middle-aged man looked at each other. They didn't know what Xu Bai meant, but they didn't dare to ask.

After all, the person standing in front of them was the famous Bloody Butcher, a legend of the entire world. They did not dare to provoke him.

According to the legends in the martial world, this person was ruthless and capricious. If he was unhappy, his head would fall to the ground in an instant.

Xu Bai didn't care about the young man and the middle-aged man. His gaze became extremely complicated.

The two of them had accidentally barged in. In fact, they had nothing to do with this place, but they had inspired Xu Bai.

He turned his head and looked around at the pitch-black environment." You've really put in too much effort to deal with the Absolute Saint. It turns out that you also have these trump cards..."

Chapter 1080: The Second Group of Resurrected People (1)

Although Xu Bai had entered this circle and developed to his current level, his speed of improvement was very fast, resulting in some basic knowledge not being fully grasped.

However, it did not mean that he had not improved at all.

As the saying goes, even if you haven't eaten pork, you've seen pigs run.

After seeing so many changes today and combining them with the clues he had obtained before, he quickly thought of something.

Not long ago, the huge ball of light had absorbed all the corpses, then turned invisible and disappeared.

But now, two people who had died inexplicably had appeared in this space. Xu Bai could understand it as resurrection.

He thought that if those light balls and the scattered corpses were nourishment that could revive these people, then all of this could be explained.

After making this assumption, he quickly verified it in his heart and found that there was a 70% to 80% chance that it was his guess.

Not only that, but with the current situation and the subsequent events, he thought of more.

The simplest analogy was that these things were probably left behind by countless worlds.

Thinking about it carefully, if a fierce battle broke out with the Absolute Saint, he would definitely face the Absolute Saint's lackeys.

Using the power of a world to deal with the Absolute Saint's lackeys was very weak. If he revived before that, would it increase his chances of winning?

The answer was obvious. It would definitely increase his chances of winning, but he didn't know if there were any restrictions to this resurrection.

There would definitely be a number of times. After all, this kind of resurrection would very likely consume the power of those broken worlds.

After Xu Bai thought it through, he felt a little better. He looked at the two people in front of him and said, "What's happening in the human world now?"

He couldn't get any information about the human world. After all, he was in this environment and couldn't go out. If he went out, he would definitely be tricked by the Absolute Saint.

Now that the two of them had just arrived at the Bizarre City, Xu Bai could use this opportunity to understand the situation.

The young man and the middle-aged man looked at each other. Then, the middle-aged man stood up and explained the situation in the human world.

They didn't ask Xu Bai why he was here, nor did they ask why he wanted to know the situation. They were all smart people and knew that they didn't deserve to ask this question. They just had to answer honestly. Sometimes, people who talked too much were courting death.

After the two of them explained everything, Xu Bai frowned and fell into deep thought.

"I didn't expect things to be so serious."

According to the two of them, the Chu Emperor had opened up all the inheritances and ordered everyone in the world to do the same. He wanted everyone to develop their strength with all their might. This meant that they were preparing for a great battle. Before the great battle, they had to raise their strength as soon as possible. In other words, the Chu Emperor and the others had already made mental preparations.

"The middle-aged man smiled bitterly." According to what His Majesty said, the enemies we face are beyond imagination. Therefore, we must do our best to cultivate. Otherwise, we will lose and lose everything."

Xu Bai nodded.

These people didn't know who their final opponent would be, and it was likely that the Chu Emperor had intentionally done so.

If the news of the Absolute Saint was leaked, these people would lose their confidence instantly.

Everyone knew that the pressure was great, but they didn't think that their opponents were so strong that they couldn't resist, so their morale was still there.

However, Xu Bai didn't want these things.

He was wondering if the two of them would go out this time.

After all, he could be resurrected here, but if he was resurrected and stayed here, he would not be able to produce an endless stream of new energy.

If these two people went out, they might be able to send him information.

Thinking of this, he said slowly, "You guys wait here. I'll go get something and come back. Remember not to leave this place."

After saying that, he ignored the two of them and pressed his hand on the ground, his True Core Strength surging.

A loud boom rang out, resounding through the entire space. Under the shocked gazes of the two, an incomparably huge hole appeared on the ground.

The cave was filled with a cold aura. Xu Bai turned his head to look at the two of them. Seeing that the two of them had not lost their souls, he knew that even if they could get through here, they would not be affected by the rules of the Bizarre Market.

He warned the two of them not to move around again before jumping down from the big hole and looking up at the big hole in the sky.

As he jumped out of the hole, the hole repaired at a speed visible to the naked eye and returned to normal.

There were no more cracks in the sky.

Xu Bai didn't stop there. He went to the nearest city and searched around. He found some paper and pen, then returned to the sky with them.

According to the original method, after creating a crack and a big hole in the sky, he would follow the crack and big hole and directly enter the mysterious space.

The middle-aged man and the young man stood where they were obediently. They listened to Xu Bai and didn't move around at all. When they saw Xu Bai appear again, they let out a sigh of relief.

After all, this place was too mysterious. They were also worried that they would encounter danger. Now that it seemed that there was not much danger, they relaxed a little.

Xu Bai took out a piece of paper and a pen. After writing some information on it, he handed it to the two of them.

The two of them each took a piece of paper. The contents were the same. Most of them were what Xu Bai had learned and what he had guessed the purpose of this space.

After that, he said seriously, "The two of you must not read the contents inside. If you read it, it's difficult to guarantee your lives."

I Have Unparalleled Comprehension #Chapter 1081: The Second Group of Resurrected People - Read I Have Unparalleled Comprehension Chapter 1081: The Second Group of Resurrected People

Chapter 1081: The Second Group of Resurrected People

The two of them were also sensible people. When they heard Xu Bai's words, they nodded repeatedly, indicating that they would definitely not peek.

In this day and age, if you read more, your life would be a little thin, so it was better to control your eyes.

Xu Bai didn't say anything else and just waited patiently. He really wanted to know if these two people would disappear in the future.

If it didn't disappear, the pen and paper wouldn't be able to be taken out. Then, the subsequent thoughts would be empty talk.

After the time for half an incense stick to burn, something strange suddenly happened. The two of them trembled slightly.

Seeing this, Xu Bai frowned and asked, "What happened to you guys?"

The middle-aged man was still a little calmer, but the young man was inexperienced, so he seemed a little panicked. After hearing Xu Bai's question, the young man's panicked face turned pale.

"I don't know what's going on either. I feel like something is pulling me away, but I don't know who's pulling me!"

The middle-aged man didn't reply. He just nodded quickly, indicating that he was in the same situation as the young man.

Xu Bai's brows furrowed even more deeply. At the same time, his True Core Strength began to extend. The surroundings were covered in grayish-white and golden Heaven Changing, enveloping the entire space.

After witnessing all of this, he wanted to personally experience what kind of mysterious power it was that could actually bring people back from the dead.

And the pulling feeling that the young man had mentioned just now was probably to bring them back to the human world.

As the Heavenly Change spread and True Core Strength surged, Xu Bai did not feel anything unusual. He felt that his surroundings were ordinary, just like normal.

However, he had witnessed the changes in these two people. It was definitely not what he had imagined.

After a while, their fear gradually faded and finally disappeared.

Xu Bai looked around for a while and heaved a sigh of relief when he did not find the paper he had given them.

It seemed that he had brought these two pieces of paper out. It was a good thing that he could bring them out. As long as he brought them out, there would be a channel for information transmission.

Xu Bai thought to himself and searched again. He did not find anyone else, so he returned to his original position. After opening up the ground, he jumped out and arrived at the Bizarre City.

In any case, as long as someone was resurrected, there would be an abnormality in the sky. He did not have to continue waiting here.

There were still many strange things waiting for him in the Bizarre City. He did not want to give up on these mosquito legs.

Xu Bai found a direction and flew over, continuing to search for the strangeness.

..

In the human world.

The Chu Emperor sat in the dark royal study, looking at the memorial that had been presented, going through it again and again in detail.

These were all recent reports from all over the world. They mainly talked about the cultivation situation in various industries, including their strength composition.

This time, other than opening up the inheritance, the busiest people in the world should be the organization he had in charge of checking household registration and the Heaven Inspectorate.

This time, he had done a comprehensive household registration check and had a general understanding of the distribution.

However, it's not enough. The Chu Emperor finished reading the last report and sighed. He leaned back in his chair and drank a mouthful of tea from the table, his eyes carrying a trace of gloominess.

“It's far from enough. Currently, there's still a huge gap between our strengths. If we fight with this kind of strength, it's impossible to win.”

He was a little helpless now because there was really not much time left for them. However, the increase in their strength was not as fast as he had imagined.

Although many legacies had been opened, they all required time. To him, time was what he lacked the most.

“Your Majesty, it’s already very late. You need to rest more.”

Eunuch Wei’s voice rang out from outside the room. He pushed open the door and saw the Chu Emperor sitting on the chair with a gloomy expression. He already knew what the Chu Emperor was thinking.

After hearing the voice, the Chu Emperor retracted his thoughts and smiled bitterly, “I am sitting in this position and plotting, so I can’t rest. If I rest, wouldn’t I be irresponsible to the world?”

Eunuch Wei was silent.

The Chu Emperor frowned. “Eunuch Wei, why did you come here in the middle of the night? Something must have happened.”

Eunuch Wei nodded and said, “The Heaven Inspectorate sent news. In two relatively remote cities in Great Chu, two people from the trade suddenly came to the Heaven Inspectorate. They said that after they died, they were resurrected in a special place and even met Xu Bai.”

“And they all have a letter with Xu Bai’s message on it.”

Eunuch Wei placed two letters on the table.

The Emperor of Chu paused for a moment. He held it in his hand, opened it, and glanced at it. He had read the contents in detail, not missing a single word.

The contents of the two letters were exactly the same, but the contents were so shocking that even the Chu Emperor was shocked.

The Chu Emperor put down the two letters, and the shock in his eyes turned into joy. “Good, this is great. Xu Bai’s discovery has increased our chances of winning!”

The two letters were handed to Eunuch Wei, and the Chu Emperor let Eunuch Wei take a look.

Eunuch Wei did not delay. He skillfully opened the letter and read the contents in detail.

“Pa!”

The letter was gently placed on the table with a soft sound. Eunuch Wei’s eyes shone brightly.

“Your Majesty, we can be revived there. Moreover, Xu Bai’s guess can provide us with a huge backing if we really want to fight against countless worlds in the future!”

Those present were not stupid people, so they naturally understood the essence of it.

Naturally, the Chu Emperor was able to read it even more deeply. He raised a finger and solemnly said, “No. You might not have understood the deeper meaning. Other than providing us with a strong backing, there is something more important. It is the most stable way to contact Xu Bai.”

When Eunuch Wei heard the Chu Emperor’s words, a light flashed in his mind. He instantly understood the meaning behind it.

In the past, when they contacted Xu Bai, they needed to send people into the Bizarre Market, especially those on death row. This was the most unstable because they did not know which circular pattern would allow them to reach the Bizarre Market smoothly.

However, it was different now. If the prisoners died once and then entered the Bizarre Market to revive, it would be a stable method of communication.

Eunuch Wei bowed.” I’ll do it immediately. I’ll arrange for someone to contact Xu Bai.””

The Chu Emperor nodded and said, “This matter has to be placed first. Also, have you found out where those people from the era of ten thousand countries are?”

Eunuch Wei shook his head and said, “The people are still searching in all directions. Once there is news, report it to His Majesty immediately.””

The Chu Emperor acknowledged.

Eunuch Wei didn’t stay any longer. He quickly bade farewell and left to settle this matter.

After Eunuch Wei left, the Chu Emperor once again fell into deep thought, continuing to ponder over the current situation...

..

In an extremely distant place.

There were countless blurry figures here, and each of them gave off a powerful aura.

At the edge of the area, countless blurry figures were gradually becoming clearer. In less than the time it takes for an incense stick to burn, they turned into living people one after another.

Voices came from the scene, and it was extremely noisy. These voices carried the joy of surviving a disaster.

“I’m alive, I’m alive!”

“Hahaha! Is this what it feels like to be alive?”

“I don’t want to endure that endless darkness anymore. Death is too terrifying.”

“Kill everyone in this world and offer a congratulatory gift to that supreme existence!”

Other than the joy of surviving a calamity, there was also endless killing intent.

“Shut up!”

At this moment, a different female voice sounded in the noisy crowd. A woman pushed aside the crowd and stood out.

This woman was wearing armor and had a serious expression, but she was extremely beautiful.

He didn’t wear silk, but armor.

She did not have the gentle and beautiful posture that a woman should have. Instead, she carried a soaring murderous aura, like a veteran on the battlefield.

After this woman appeared, everyone present fell silent.

I Have Unparalleled Comprehension #Chapter 1082: The Ancestor of the Army (1) - Read I Have Unparalleled Comprehension Chapter 1082: The Ancestor of the Army (1)

Chapter 1082: The Ancestor of the Army (1)

The scene was silent, and no one dared to make a sound.

The woman in armor looked around with a cold smile on her lips, as if she was looking down on everyone present.

“Tell me, why aren’t you saying anything? Weren’t they quarreling just now? Why aren’t they talking now?”

No one answered her, and the whole crowd lowered their heads.

She had suppressed everyone present with the attitude of a woman, and no one was unconvinced.

“Come here.” Seeing that no one answered, the woman casually pointed at someone and hooked her finger. The armor on her body rattled.

The person being pointed at was a man dressed like a warrior. His muscles were twisted and he was tall.

However, after being pointed at by this woman, he immediately shrunk his neck and pretended to be very weak.

“I’ve seen it before… General Ning!”

Ning Weiyue put down his hand and said coldly, “The previous wave of people were all dead. What exactly is the situation? Have you understood?””

Wu Fu immediately shook his head, as if he was afraid that if he answered too late, he would suffer a disaster.”We didn’t know. The members of the Central Plains had just been resurrected, so for some reason, they were all dead.”

“Yes.” Ning Weiyue frowned, “Let me tell you, that existence resurrected us not to let us die in vain. It’s fine if we do this kind of stupid thing once, but if we do it too many times, that existence will be unhappy. At that time, no one will be able to live. Now that I’ve been resurrected, I think you should know what to do.”

Even though she was frowning, she did not have the weak aura of a typical woman. She looked more like an imposing man. However, everyone present knew that this person was not even comparable to a man.

Ning Weiyue was a dazzling superstar even in the era of the world.

This was the origin of military formations.

She had once led her army straight up, stretching for tens of thousands of miles, and no one dared to stop her.

He had also met a Saint Realm expert before, and even a Saint Realm expert had lamented that Ning Weiyue was only a step away from becoming a Saint Realm expert.

Only people from that era knew how powerful the woman in front of them was. She was an existence that countless men couldn’t even catch up to. Therefore, even if a woman suppressed the entire scene, they didn’t have any complaints.

Those who had complaints were already dead. They died under the iron hooves of this woman. Those who were alive now were all smart people. Even if they had a lot of hatred with this woman before they were resurrected, they had all let it go.

They couldn't let go either. If they wanted to die again, this woman would fulfill their wish.

Therefore, after hearing Ning Weiyue's words, everyone nodded repeatedly, indicating that they understood and would definitely not act rashly.

Ning Weiyue still had that solemn expression, making everyone unable to guess what he was thinking.

After seeing that everyone had agreed, she did not waste any time. She placed her hands behind her back and revealed her figure, but no one dared to look at her directly.

"From today onwards, no one is allowed to act arrogantly. Don't think that this era is weak."

"What are we? We are just old fogeys. You think you are very strong, but that is just what you think. The lesson of the previous wave of people is enough."

"Only by being careful can you achieve great things. Do you remember?"

Everyone kept it in mind, and no one dared to refute.

At this moment, the martial artist who spoke at the beginning took two steps carefully, bent his waist, lowered his head, and said submissively.

"General, I want to know what we should do next. If we're just careful, we might not be able to complete it. The mission that existence gave us, when the time comes to settle the accounts, we'll also..."

He didn't continue, but everyone understood. Everyone looked at each other and agreed.

If they were to act carefully, they would not be able to complete the mission. In the end, they would still be punished. Instead of that, it was better to be reckless.

Ning Weiyue said, "I know you're worried that you won't be able to complete it. Just because you're careful doesn't mean you won't do anything. Look at what this is."

As Ning Weiyue said this, a dense crowd of people appeared in the vast sky. One could not see the end of them at a glance.

To describe it as a sea of people, it was even a little petty. At a glance, even the sky seemed narrow.

“A million soldiers!”

The martial artist who spoke first swallowed his saliva, feeling a little frightened.

Back then, in that era of all countries, Ning Weiyue relied on this army to dominate the world.

Now, not only was Ning Weiyue resurrected, but this army was also resurrected. If this army was released, it would definitely be able to sweep through half of the country.

“From now on, we’ll gather intelligence first. After we’ve collected the intelligence, we’ll slowly nibble at the center from the edge.”Ning Weiyue said slowly.

Although the warrior was frightened, he still mustered up his courage and asked, ”The nine Saints on our side have yet to awaken and revive. If the other party’s Saints or even Ex-Saints attack, it might be difficult for us to deal with them.”

Ning Weiyue’s tone became cold, ”You’re simply an idiot, who told you that you must fight them head on?”

The martial arts practitioner choked on this sentence and did not dare to say a word for a long time.

“What’s our mission?” Ning Weiyue continued. Our mission is to eliminate the enemy’s forces before the nine Saints are resurrected.”

“What is a living force? It’s those people in the industry and ordinary people. As long as they are individuals, we will directly kill them.”

“We don’t need to attack the city and defend the city. We just need to leave after killing people. The world is so big, who can stop them? They do have experts, but can they take care of the entire world?”

I Have Unparalleled Comprehension #Chapter 1083: The Ancestor of the Army (2) - Read I Have Unparalleled Comprehension Chapter 1083: The Ancestor of the Army (2)

Chapter 1083: The Ancestor of the Army (2)

“We are in the dark, and they are in the light. The advantage is on our side.”

As Ning Weiyue slowly explained, everyone present understood the next step.

After all, they were all people from that prosperous era, and they were not stupid people. How could they not understand?

Among the crowd, a young man hesitated slightly and muttered softly.

“We can deal with those in the industry. Why do we have to kill those ordinary people? Isn’t that a little cruel?”

The young man only muttered to himself and did not cover his mouth.

However, everyone present was an expert. Even if you spoke softly, everyone could hear you.

When the young man finished speaking, everyone looked over.

There was cruelty, disdain, and even a hint of killing intent in his gaze.

The young man instantly became alert and covered his mouth with his hand, not daring to speak.

At this moment, Ning Weiyue waved her hand lightly.

The densely packed soldiers in the sky raised their weapons in unison, emitting a terrifying might.

The young man who spoke felt his breathing stop, and then he let out a miserable cry.

His entire body was penetrated by the might of the army, and his vitality was gradually weakening. In the blink of an eye, this young man had turned into a corpse lying on the ground, lifeless.

Ning Weiyue sneered, “We have to be ruthless when doing things. Since we have already stood on the team, we cannot hesitate. I don’t care if they are people in the industry or ordinary people. As long as they are our enemies, they cannot live. What we have to do is to destroy the existing strength. Those ordinary people are also counted. Do you understand?”

Looking around, everyone present lowered their heads. Although there was fear on their faces, they did not dare to say anything.

“Understood...Understood...”

With one person taking the lead, everyone said that they understood in unison. There was no sound of resistance.

“Heh...Pity for those ordinary people will only harm ourselves. We are doing this to survive, so pity should not exist.” Ning Weiyue continued, “From now on, everyone will go out and gather information. I want all the information in this world. Only then will we take action.”

“Yes, sir!” Everyone agreed.

Ning Weiyue waved his hand unhappily and let these people leave.

No one dared to stay. After saying goodbye, they left in all directions. When these people left, Ning Weiyue looked up at the soldiers in the sky.

“Heh...I’m the number one person below the Saint Realm in the Myriad Kingdom Era. Today, I’d like to see just how strong a Saint Realm expert in this world is.”

In the empty sky, only Ning Weiyue’s voice echoed.

..

Time gradually passed. In the blink of an eye, nearly half a month had passed.

In this half a month, the entire world was in a state of close operation.

All the players in the game were training seriously, holding every minute and second.

They didn’t slack off and were even more diligent than before. This period of time seemed very peaceful, but only those who truly understood the inside story knew that there was a huge danger hidden in the peace.

The calmer it was, the greater the storm in the dark. Once the storm gathered, it would produce terrifying consequences.

More and more information gathered towards a mysterious place. When the information gathered to a peak, Ning Weiyue wanted to make a move.

On this day, Ning Weiyue tore the letter in his hand and revealed a cold smile.

“Great Chu...”

“I have to say, even in the era of all countries, he was one of the best. He was actually able to unify this world.”

“Unfortunately, this world is too big, so big that you can’t even imagine it.”

“Barbarian territory...An Exalted Saint overseeing the palace sounded quite scary.”

“But you can’t take into account all the positions.”

Ning Weiyue raised her right hand.

A soldier in armor walked up and cupped his fists.

“General!”

[Inform everyone to start from the border of the barbarian fief. Remember, everyone must return as soon as they touch it. We must not stay for long.]”Ning Weiyue instructed.

“Yes, sir!” The soldier received the order and retreated.

Ning Weiyue played with the long sword at his waist: “This world should be in chaos. I want to see how you guys deal with it.”

..

At the border of the barbarians.

There was a slightly old city here called Deep City.

Because it was at the border, the environment here was not very good. After the Great Chu unified the world, they had already done their best to protect the environment here.

Although it was still a little old, the people here lived very comfortably.

There was a small family in Shen City called the Zhang family. They had also defected from the Great Chu State.

In the Great Chu, such a small family did not have it easy either. However, in the land of the barbarians, there were still some places to stay and they could barely make a living.

The head of the Zhang Clan, Zhang Chen, was currently sitting on a chair and drinking a cup of tea.

Beside him, the butler was reporting to him about the recent major and minor matters in the family.

“According to your instructions, all the young people are working hard to cultivate. We didn’t slack off either. Other than dealing with some necessary things, we are also focusing on cultivation.”

“Yes.” Zhang Chen put down the teacup in his hand and said, “It’s good that you’re all cultivating. You have to remember that there will be a huge disaster in the future. Every

bit you can improve now is a bit. After all, this is also an opportunity. Everyone has opened up the inheritance, which is beneficial to our small family."

The butler nodded repeatedly." Master is right. I will definitely do as you say.""

Zhang Chen nodded and waved his hand to dismiss the butler.

The butler didn't say anything else and closed the door before leaving.

After the butler left, Zhang Chen picked up the teacup again and sipped gently, enjoying the time.

Time gradually passed, and this cup of tea was drunk for half an incense stick to burn.

"Time to cultivate."

Zhang Chen sighed. He stood up and prepared to go back to his room to cultivate.

Ever since His Majesty had issued the imperial edict, even he had not slacked off in the slightest. As a person in the industry, strength was important. If he encountered a powerful enemy like the one mentioned in the underground, the more strength he had, the more foundation he would have to live on.

Zhang Chen went to the door and opened it. It was empty outside. The night was dark and the moonlight was slightly bright.

At this moment, a faint smell of blood suddenly appeared in the air.

Zhang Chen frowned.

Although the Zhang family was just a small family here, as long as it was a family, it had fought its way up from the bottom and had experienced many bloody storms.

This faint smell of blood immediately alerted Zhang Chen. He quietly took a step back and a black water droplet appeared on his right hand.

Poison masters were the profession of the Zhang Clan.

They were experts in using poison. Although they were not known in the martial world, as long as they used poison, their methods were extremely sinister.

Putting everything else aside, there were as many traps as there were hairs on a cow's head in the entire Zhang family. If an ordinary Jianghu person stepped into them, they might die from poison after taking a few steps.

However, things were different now.

Zhang Chen was a little nervous. He had a feeling that something bad was going to happen tonight.

“Poison...It was quite good, but unfortunately, it met its ancestor.”

A voice suddenly sounded. Zhang Chen raised his head and looked in the direction of the voice. His pupils constricted.

In the dark night not far away, a man wrapped in a green robe walked in. This man had good facial features, but his face was densely covered in green patterns.

“Who are you?” Zhang Chen asked cautiously.

The night was dark and the wind was strong. An unfamiliar man had come, and he had a dangerous feeling. Zhang Chen was already prepared to fight.

“I...” The green-robed man’s tone carried a hint of reminiscence.””In the era of all countries, they called me Poison Langjun. Today, I came here to take your life.”

The era of all nations?

Zhang Chen instantly felt his hair stand on end. He could not help but open his mouth, wanting to shout.

However, before he could yell out, he felt pain spreading throughout his entire body.

Chapter 1084: Large-scale Death (1)

A sharp pain spread throughout his body. Zhang Chen hugged his head and fell to the ground, twitching non-stop.

Green blood vessels emerged from his eyes, occupying the entire white of his eyes.

The green-robed man, Du Langjun, slowly walked a few steps and squatted in front of Zhang Chen, revealing a terrifying smile.

” Sigh, it’s a pity that if there wasn’t someone who gave me a mission, I wouldn’t be willing to do anything to you. After all, all the poison techniques in the world originated from me, and you are also my inheritance.””

“Uh, uh...” Zhang Chen’s throat felt as if there were thousands of knives scraping his throat. He could not say a word and could only make a whining sound.

Du Langjun gently patted Zhang Chen’s head and said with a smile, “Don’t worry, everyone in your clan is dead. I poisoned them myself, so they will accompany you.”

“Puff!”

When Zhang Chen heard this, he spat out a mouthful of blood.

Due to the infusion of fresh blood, he regained his voice.

He tried his best to get up, but his hands and feet were twitching uncontrollably. His bloodshot eyes were filled with endless anger.

“Dozens of lives. You come from the era of all countries, so why do you want to attack us? We are your legacy!”

If this kind of conflict had happened between enemies, he might be able to understand, but he could not imagine that he had inexplicably suffered the flames of extermination.

“ You can only blame yourself for offending that existence,” Poison Langjun sighed. “Don’t worry, this world will eventually be destroyed. You’re just one step ahead of us. As long as we’re alive, the inheritance will not be cut off. The most important thing in a person’s life is to stand in line. If your team doesn’t stand well, then there’s only death, and we will live on for generations.”

“That existence...” Zhang Chen’s eyes were gradually fading. He didn’t have much vitality left and couldn’t hold on for much longer, but he still held his breath. “Is it the ultimate enemy that His Majesty mentioned?”

Poison: ” Poison Langjun shook his head. His green robe fluttered in the wind, and a wisp of poisonous fog was gradually spreading. “You might be wrong. You’re not worthy of being his enemies at all. He destroyed countless worlds and reborn countless worlds. Are you worthy of being his enemies?”

Countless worlds...

Countless worlds...

Zhang Chen came to a sudden realization, and his tone turned sharp as he cursed angrily, “I understand now. You are afraid of death, so you betrayed this world. So now you have become his lackeys.”

The wisp of poisonous mist from Poison Playboy’s body seeped into Zhang Chen’s body, and the vitality in Zhang Chen’s eyes was completely cut off.

Poison Langjun stood up, his eyes turning extremely cold.

“Even if there was a sliver of hope of winning, I wouldn’t have taken this step. However, that existence is so powerful that I can’t even see a sliver of hope of winning, so don’t blame me.”

As soon as he finished speaking, several figures flashed around. In this courtyard, more than ten people suddenly appeared.

Du Langjun turned to look at these people and asked, “The matter has been settled, we must do it cleanly.”

One of them nodded.”

Du Langjun waved his sleeves and soared into the sky. “Since it’s almost time, let’s leave. We can’t stay too long to avoid repeating the same mistake.”

The crowd did not say anything. They followed behind Poison Playboy and left the small town.

The entire city was shrouded in darkness. Beneath the darkness were countless corpses.

The original vitality became lifeless. The hawkers and pedestrians on the streets all fell into pools of blood. The entire city instantly became a dead city.

Many of the people in the Heaven Overseeing Bureau’s uniform also died and fell into a pool of blood.

Poison Langjun and the others looked indifferent as they walked further and further away, disappearing into the sky.

Such a situation happened in every corner of the world. They were all at the edge of the barbarian fief. Due to the lack of manpower, they did not respond in time.

The destruction continued, and danger gradually enveloped the entire barbarian fief.

..

Barbarian territory, palace.

After finishing the day’s matters, Chu Ling, Ye Zi, Qingxue and the rest were sitting in their rooms drinking tea.

Beside him, Xu Ling, who looked like she was in her teens, was reading a book with her head lowered.

According to Xu Ling's growth speed, this was considered normal. Now, she had grown up like a young lady from a rich family.

She had inherited the looks of Xu Bai and Chu Ling. She looked peerlessly beautiful, but her eyes were rolling around, revealing a cunning and spiritual aura.

Even though she was currently reading a book, her ears were constantly listening to Chu Ling and the others chatting, and she would even interrupt them from time to time.

"I wonder when my husband will return." Chu Ling put down the teacup, her brows were filled with worry, and the hand that was holding the teacup tightened slightly.

It was supposed to be a casual afternoon chat, but when Xu Bai was mentioned, Qing Xue and Ye Zi also carried a trace of worry.

Perhaps the other people in Jianghu did not know where Xu Bai had gone, but as the people closest to Xu Bai, they knew best.

Ye Zi gently patted Chu Ling's hand and comforted, "Sister, what we need to do now is to let husband rest assured. We need to take care of this land of the Barbarians. We can't let husband worry about this when he comes out."

Qing Xue picked up the teapot and poured a cup for Chu Ling. "Husband is a good person, and the heavens will help him. From the time he rose from the grassroots until now, he has always been able to turn danger into safety."

Chapter 1085: Massive Death (2)

Chu Ling received the comfort of the two girls and nodded, "I also know that we can't catch up to you after you've become a Saint."

Even if they were all geniuses, they couldn't keep up with Xu Bai's footsteps. In today's world, who dared to call themselves geniuses when facing Xu Bai?

Chu Ling was also very clear about this, so she could only do her best to help Xu Bai handle everything within her power.

Xu Ling rolled her eyes and said, "Mother, why don't I go to the Bizarre Market for a walk? My father can go to the Bizarre Market without being affected by the rules, so I should be able to do the same."

Before he could finish his sentence, Chu Ling glared at him.

“Do you think I don’t know what you’re thinking? If you want to go to the Bizarre City, let me tell you, you absolutely cannot go!”

“Oh...” Seeing that her plan had been exposed, Xu Ling lowered her head dejectedly.

At this moment, the surrounding space changed. A black shadow flashed in from outside the door and gradually condensed into a handsome young girl.

“Aunt Ying Yue...” Xu Ling immediately greeted him, pretending to be very obedient.

Normally, Ying Yue would have teased Xu Ling, but things were different now. She didn’t say anything, and instead wore a serious expression, her long and thin eyebrows tightly knitted together.

“What’s wrong?” Chu Ling saw the difference in Ying Yue and asked.

Shadow Moon said, “Something big has happened. Some cities at the edge of the fief have been inexplicably exterminated. Our people have also died there. We are still investigating who it is.”

“Whoosh!”

Hearing this, Chu Ling, Ye Zi and the rest immediately stood up.

Chu Ling said in a deep voice, “You didn’t find out the reason? That shouldn’t be the case. Now that the entire world is unified, the remaining barbarians are gone. Who could do such a thing?”

Shadow Moon shook her head. “We couldn’t find out. I asked my father, but he couldn’t find out who it was either. But because he couldn’t find out who it was, it made it even more obvious who the other party was.”

Chu Ling’s eyes widened slightly.

With their status, they knew who it was. They knew the secret.

“The mastermind behind the scenes has finally started to make a move, right?” Chu Ling asked.

Shadow Moon said with certainty, “Even my father couldn’t find it. He couldn’t find it even if he used his luck. This is for sure.”

Director Mu had already moved to the Barbarian territory, and he was a master of the Saint Realm. Even a master of the Saint Realm couldn't find him. The answer was obvious.

"Your Highness." "Since it's already confirmed, we should be prepared," Shadow Moon said." I suspect that this situation will gradually deepen."

Chu Ling fell into deep thought as she paced back and forth.

Everyone did not say anything and waited for Chu Ling's next decision.

Chu Ling walked for about half an incense's time before she finally stopped.

She returned to her original position and slowly sat down. She tapped her fingers on the table and frowned. In the end, she said the solution.

"Inform the people in the city at the edge to quickly shrink inside. Don't care about the pressure caused by the overpopulation of the city."

"All the organizations must cooperate. We must make this operation a success as soon as possible!"

She was in a high position and had already dealt with many things. She also had a certain degree of emergency ability.

The entire fief had been handled by Chu Ling properly. Thus, when faced with what had happened today, he only needed to think about it for a moment to know what the other party was thinking.

It was obvious that the other party was wary of the experts on their side, so they had adopted a light-touch-and-leave combat method. Under the circumstances of maintaining their absolute advantage, they chose to attack some of the peripheral areas and did not stop.

This method was indeed an excellent countermeasure.

This was because the world was so big that they really could not take care of it.

Chu Ling had already thought about it a lot earlier, but in the end, she still chose this method.

In fact, they could set up an ambush, but the enemies were all people from the era of the myriad countries. Those people were as many as the hair on an ox back then.

If it wasn't for the fact that there were so many experts here, they would probably have come straight to the surface. Hence, the ambush was useless. Chu Ling chose to retreat as much as possible.

The larger the area, the easier it would be for the defense to slip through. However, if they tried their best to shrink it, the experts on this side would be able to take care of it.

As for the subsequent steps, he could only take this step first.

"Yes, sir!" Ying Yue received the order and did not stay for long. She turned into a black shadow and disappeared, leaving to set Chu Ling's orders.

"Sister, it seems like the other party wants to use the barbarian fief as a stepping stone. They must think that we are weak and easy to bully."

Chu Ling's eyes carried a trace of coldness: "Weak and easily bullied? "They think that just because our husbands have gone to the Bizarre Market, they can do whatever they want. But they're wrong. Once we shrink everyone in, we'll become an iron bucket. No matter where they start, it'll be too late."

"Don't forget, Director Mu is still here. Once we shrink our defense to the limit, when Director Mu can rush over, they won't be able to advance an inch."

Ye Zi nodded in agreement because there was no better way now.

"We might have to get busy. Let's start after drinking this cup of tea. There are still some details that need to be discussed." Chu Ling finished the tea in her teacup and stood up.

Ye Zi and the rest stood up as well. They did not stop and walked in the direction of the royal study.

..

Bizarre market.

Xu Bai was collecting the progress bar.

Recently, he had made some progress, but it was negligible.

After all, the ones left behind were not very strong, so those progress bars were only a drizzle to him.

However, no matter how small a mosquito was, it was still meat. His current goal was to clean up all the strangeness in the Bizarre Market. The collection progress bar was only a side effect.

He had originally planned to follow the original rhythm today, but something went wrong. Xu Bai looked up at the trembling sky and frowned.

“Is someone going to be resurrected again?”

He was all too familiar with this scene. The last time something like this happened, it meant that someone was resurrecting. This time, it happened again, and Xu Bai soon understood the reason.

“There should be many resurrected this time.”

Compared to the last time, the trembling of the sky this time was even more intense, making people feel extremely pressured.

Not long ago, only two people had been resurrected, and they could only feel a slight tremble. Now, it was as if the sky had collapsed and the earth had collapsed. From this, it could be deduced that the number of people resurrected this time was not small.

“What happened? How did he capture so many people?”

Xu Bai didn’t think much about it and flew into the sky, injecting his True Core Strength into the sky.

In the next moment, cracks appeared inch by inch, and a large hole grew from small to large.

Inside the big hole was endless darkness, with no end in sight.

Xu Bai dived into the hole, and the darkness around him gradually faded.

Golden and grayish white sky changes appeared from all directions, illuminating the darkness.

Xu Bai’s vision gradually became clearer. When he saw the dense crowd in front of him, he was stunned.

“I’ve been here for a long time. Why do I keep feeling that...Is this world going to be destroyed?”

The densely packed people in front of him did not know what had happened. When they regained consciousness, they looked at each other with blank faces.

Obviously, even they themselves didn’t understand the situation.

At this moment, Zhang Chen, who had died in Du Jun’s hands, reacted the fastest. After sensing the change in the golden and grayish-white sky, he saw a tall figure in the sky.

“Xu Wangye!”

As Zhang Chen couldn't help but shout, everyone present heard the voice and followed his gaze to Xu Bai.

“It's Prince Xu! We actually saw Prince Xu!”

“Prince Xu, the world is in danger. Those people are making a move.”

“My entire family was destroyed. They were all vicious bastards, a group of traitors! Disgusting!”

Chapter 1086: Xu Bai Has Died Countless Times

This group of resurrected people instantly found someone to talk to and began to complain everywhere. They were really helpless. For some reason, they were exterminated.

If they had a fair fight with the other party, even if they lost, there was nothing to feel bad about. However, the most important thing was that they were ambushed for no reason. Moreover, the other party was so strong, and he even used a sneak attack. It made them feel especially sullen.

At this moment, Xu Bai seemed to have become the backbone.

Xu Bai listened to the noise around him and frowned. When they were almost done, he raised his hand to stop them.

As Xu Bai moved, everyone present was very tactful and instantly stopped talking. The scene became silent, but everyone's eyes were fixed on Xu Bai with anticipation.

“Someone, yes, you. Tell me what happened in detail.”Xu Bai pointed at Zhang Chen, who was the first to speak, and said,“I'll put it simply. If I'm not wrong, you'll be leaving this place soon.”

The last time the two people came in, they left not long after, so Xu Bai told them to keep it simple so that they could save a lot of time.

He had guessed that this would happen, but he did not expect it to happen so quickly. Moreover, there were so many people resurrected. In order to understand the situation, he had to hurry.

Leave?

The people present caught the main point. They looked at each other and saw the surprise in each other's eyes.

Why did he suddenly talk about leaving?

"Are you surprised? Hurry up and say it. You don't have much time left." Xu Bai said.

Only then did Zhang Chen come back to his senses. He was very excited to be called out by Xu Bai. He quickly said, "It's like this. One night, a group of people suddenly came..."

He tried to be brief because Xu Bai had said that there was not enough time. He did not have much to say. Only two or three minutes had passed when he finished talking about the whole thing.

After hearing the whole story, Xu Bai turned to the others and said, "Is what he said probably what you experienced?"

The others nodded, indicating that it was indeed what they had experienced.

Xu Bai fell into deep thought again, walking back and forth.

Things were not looking good!

From the description of the group of people just now, the other party must have started the second wave of attacks. This time, the attack was more direct than the first.

Not only that, but the casualties this time were even greater. Just look at this group of people. In the future, the other party's attacks would only increase, and the casualties would also increase.

Xu Bai rubbed his head, feeling a headache.

The biggest problem now was that he was trapped here. He couldn't go out and couldn't participate. This was a very troublesome matter.

If he could get out, he might be able to cooperate with the Chu Emperor and the others to achieve unexpected results. However, the key was that he couldn't get out.

Xu Bai didn't think too deeply about it, because this group of people would leave soon. He had to give them a warning.

"I won't say any more nonsense. After you go back, hurry to the center and don't wander around the edge."

After dying once, he had to learn his lesson after reviving. He could not stay where he was.

What if he died again and again? Who knew if he could resurrect?

Everyone also understood Xu's thoughts, so they all nodded and agreed.

Just as Xu Bai had expected, the time had just arrived.

The surrounding space shook violently once again. The group of people in front of him gradually turned into light and disappeared. The entire sky became empty again. There was no one.

Xu Bai was not in a hurry to leave. Looking at the empty sky, he fell into deep thought.

"Time doesn't allow me to stay here any longer. I have to think of a way, at least to leave this place."

"But if we leave this place, we'll be attacked by the Absolute Saint, and we won't have any chance of winning."

"Staying here, compared to going out, is actually just a slow death."

"I have to find an ability. Perhaps I can find an ability related to clones. I won't lose out if I try."

Now, this was the only way he could think of. If he could find an ability related to avatars in this world, perhaps he could go out and take a walk.

He wasn't sure if there was any. At least, he hadn't mastered such an ability so far, but he had to try it out.

It was a pity that before this group of people returned, due to the tight schedule, he didn't think of it. However, it wasn't a big problem. If there were still people resurrecting below, he could use this method to inform the Chu Emperor and ask him to help him look for them.

Thinking of this, Xu Bai did not stay any longer. After using the old method to get out of this space, he returned to the Bizarre City.

After returning to the Bizarre City, he found another direction and continued with his original plan.

..

The Bizarre City was still the same as before. It was filled with a dark red oppressive feeling, and Xu Bai's search this time took a lot of time.

After all, he had killed many strange creatures since the last time.

The high-level monsters were almost all dead, and the low-level monsters were mostly dead under his full power.

He was lucky to be able to find it now.

Another dilapidated ancient city appeared in front of him. When Xu Bai descended from the sky and landed in the ancient city, his divine soul had already expanded and enveloped the entire ancient city.

I Have Unparalleled Comprehension #Chapter 1087: Xu Bai Has Died Countless Times (2) - Read I Have Unparalleled Comprehension Chapter 1087: Xu Bai Has Died Countless Times (2)

Chapter 1087: Xu Bai Has Died Countless Times (2)

But in the next moment, Xu Bai frowned.

“What is this?”

In his divine sense, he did not sense any strange existence. The entire ancient city was empty and abnormally silent, like an abandoned city.

However, in the center of the city, there was something strange that attracted his attention.

Xu Bai flew in the direction that his soul had sensed. Soon, he arrived at the center of the city, and an unusually terrifying scene appeared before his eyes.

Not far ahead, it was still dark red, but in the center of the city, there was a huge tree that covered the entire sky.

From Xu Bai's perspective, the tree was luxuriant and covered with all kinds of fruits.

Each fruit was incomparably huge and thicker than a human. These fruits were not ordinary fruits, but terrifying human heads.

Xu Bai looked at the towering tree in front of him warily. His senses told him that this tree was very dangerous.

Even with his current strength, he could still feel the pressure.

Each head was different, and each head had its eyes tightly shut, showing an extremely painful posture. If it wasn't for the fact that there were no bodies below, one would probably think that they were alive.

"Why is there such a tree here, and why are there so many human heads?"

Xu Bai didn't approach the tree rashly. He used his spirit to scan the tree from top to bottom.

There was nothing unusual, and he did not find anything useful.

This tree did not possess any life. It was not even strange. It was like a withered tree that only had its outer appearance.

But that dangerous feeling is really real, it's not fake.

"Since there's no progress bar and no other discoveries, I'll just destroy it."

The feeling of danger constantly reminded him that this tree was not a good thing.

There was no progress bar and no harvest. Xu Ban did not plan to keep him.

Xu Bai took a deep breath. A blazing white light burst out from his right hand. At the same time, he controlled the white light to envelop the entire tree.

All kinds of attacks, coupled with the golden and grayish-white changes in the sky, were actually turning into ashes from the top of the tree.

"Hmm?"

Xu Bai hummed softly. He did not feel the tree resisting, and the whole process was smooth.

He stopped and dispelled all kinds of attacks, but the golden and grayish-white Heaven Changes still wrapped him up and prepared a defense.

His eyes stopped on the head at the top of the bottom of the tree. He said with interest, "You think I'm very handsome, so you turned into me."

Just now, when the top of the tree was gradually reduced to ashes, the head closest to him suddenly opened its eyes. As it opened its eyes, the head changed and turned into the same person as him.

His eyes were emotionless as he stared at Xu Bai. It was neither cold nor murderous. It was as if he was looking at an objective object.

When Xu Bai said this, no one answered him. However, the change in the giant tree was the answer.

One head after another opened their eyes, and each head began to transform into Xu Bai's appearance.

The giant tree was very tall, and there were many heads on it. When all the heads turned into his appearance, Xu Bai had a strange feeling.

"So, when my head was chopped off, it was like this?" Xu Bai grinned and said, "Do you have any other tricks up your sleeve? Use them all. If you don't, you might die."

The reason why he had stopped just now was because of this change. If this change did not continue, Xu Bai would not be in the mood to wait any longer.

This time, all the heads opened their eyes. When Xu Bai asked this question, all the heads opened their mouths.

"Xu Bai!"

"Xu Bai!"

"Xu Bai!"

Every single head was shouting his name. When all the voices converged together, it shook the heavens and earth.

"Why did you call your father?" Xu Bai raised his eyebrows."

"Huh?"

In just a moment, these heads seemed to be choked by Xu Bai, and their voices stopped abruptly.

They didn't seem to be convinced. They didn't expect Xu Bai to suddenly spew out trash talk, catching them off guard.

Fortunately, it reacted quickly. The head opened its mouth again and let out an earth-shaking sound.

“We are you. We are all dead. You are next. Why do you want to destroy us?”

“At the very top, we’ve left a spot for you. After you die, you can hang your head on it!”

“Come quickly, come and accompany us. This is our destiny. We can’t escape death!”

You guys... Was it me?

Xu Bai raised his eyebrows and the corners of his mouth curled up slightly.

“What kind of dog are you? You’re messing with my mind. If you’re just talking nonsense, then you can go to hell.”

No one would take these words seriously if they were to suddenly say these words out of nowhere.

Xu Bai moved his hands, and the blazing white light floated in his hands again.

If there were no more, he would kill all of them.

The skulls opened their mouths again and let out a shrill cry.

“It’s all fake, everything is fake!”

“You died countless times, you resurrected countless times, you can’t remember, you are us, we are you!”

“Come quickly. We’re going to die anyway. What’s the difference between dying earlier or later?”

His voice was like a demonic voice, and every word filled his mind.

Xu Bai didn’t listen to their nonsense. A blazing white light burst out from his hand and crushed toward the giant tree.

What bullshit!

The Riddler had to die.

This time, the giant tree finally began to resist when the golden and grayish-white sky changed and descended from the sky.

Every head raised its head. Their eyes, nostrils, ears, and mouths were all emitting white light, making them look extremely strange.

In the next moment, the white light burst out and resisted Xu Bai’s attacks.

“F * ck?”

Xu Bai rarely swore, so this time, he said something rare.

After saying that, he turned around and ran away without any hesitation.

He couldn't beat it, he couldn't beat it at all!

He could feel that when the attacks of the other party were mixed together, they could instantly annihilate him. What was the point of fighting!

Run, he had to run!

Xu Bai used all kinds of movement techniques to the extreme, constantly dodging and moving.

Behind him, wherever the white light went, even the surrounding space would turn into nothingness.

Not only that, the giant tree actually lifted its incomparably huge roots and flew directly toward Xu Bai, as if it would not rest until one of them died.

“Is it endless?”

Xu Bai turned to look at the giant tree behind him, and the corners of his mouth twitched.

What the hell was this thing?

It was fine if they said that they were them for no reason, but what did they mean by everything they said just now was fake?

Xu Bai felt that he had figured out the situation of these worlds, but now he had added these things. It was simply unbelievable.

Of course, now was not the time to think about this. He just wanted to seize the time to escape.

Fortunately, the giant tree was not moving fast. Perhaps it was because there were too many heads hanging on it, so it was a little clumsy. The distance between Xu Bai and him was not shortened.

Of course, he didn't open it.

“If this continues, it won't be a problem.”

Xu Bai felt a headache coming on. The giant tree seemed to have a lot of time to chase after him, but he didn't have that much time.

If this continued, how would he find the progress bar?

His mind was spinning as he tried to think of a way.

At this moment, a hand suddenly reached out, grabbed his arm, and dragged him to the side.

Even someone like Xu Bai didn't feel the difference.

Xu Bai's heart skipped a beat. Just as he was about to resist, he felt his vision blur.

The surrounding space changed, and Xu Bai disappeared from where he was.

Chapter 1088: Paragon of the Holy State (1)

The speed at which the hand reached out was too fast. Even with Xu Bai's current strength, he still could not sense when it had reached out.

It was silent and extremely fast. Xu Bai guessed that if this hand was used for a sneak attack, it would have succeeded.

Fortunately, he was only dragged to one place.

Xu Bai felt the space in front of him change. It first turned black, then it became unimaginably bright.

He looked around and realized that he had arrived in a strange world. The sky was blue and white clouds were everywhere, and the ground was like water, reflecting the sky.

Heaven and earth gradually overlapped, revealing a suffocating world. The exit could not be seen clearly, nor could the entrance be found, as if they were one entity.

The golden and grayish-white sky became the only exception in this space.

Xu Bai's face was full of vigilance, ready to take action at any time to deal with any unexpected situation.

The hand that had grabbed him had disappeared without a trace, and he didn't find anyone. Even if his spirit expanded and covered the surroundings, it was empty, as if it was a dead land without life.

“Why is there nothing?”

Xu Bai frowned, but he still didn't relax.

He saw that hand very clearly. It had really grabbed him in, but his divine soul could not sense it. There was something inside.

If the hand had disappeared, he would not be able to sense it. However, if the other party's strength was much higher than his, he would be able to escape his perception. This kind of situation was also possible.

No one could be sure of this situation.

The scene was unusually quiet. There was not even a sound around them, not even the sound of the wind.

Xu Bai stood there for a long time without moving.

As time passed, Xu Bai could sense that a long time had passed, even though there was no sun or moon here and he couldn't sense the changes in time.

“Not good. No one has attacked me yet.”

“I can't waste time here anymore. I have to think of a way to see the situation.”

To him, he was running out of time in the world. It was impossible for him to waste his time here. He was surrounded by the blue sky and the mirror-like ground under his feet. He did not stay any longer. Instead, he maintained a vigilant posture and chose a direction to leave.

However, just as he was about to take a step forward, a female voice sounded around him.

“I knew that you wouldn't be willing to stay here, but please don't go out, at least not now, because they haven't left yet.”

This female voice sounded ethereal and pure, making people feel relaxed and happy, as if they were bathing in the spring breeze.

“Who is it?” However, Xu Bai's reaction was very different. The blazing white light in his hand exploded violently, spreading out with him as the center.

This time, Xu Bai saw it.

In the white light, there was a figure that was blocking his myriad attacks.

“No matter who it is, take it down first.” Xu Bai reacted very quickly and charged forward.

The blazing white light was ready to explode. It condensed into a point and launched the fiercest attack. At this moment, the figure spoke.

“I came with good intentions. I am you.”

When the voice rang out, the figure before him gradually solidified and turned into a tall and beautiful woman.

When Xu Bai saw the woman’s appearance, the white light in his hand suddenly stopped.

This woman was very beautiful, but that was not the reason why she stopped. Countless women had died in her hands, and he would not stop because of her appearance. More importantly, this woman had a temperament that was very similar to his.

It was this astonishing similarity that made him stop what he was doing.

“You are a woman, how could it be me? Who are you? Tell me, and I might spare your life.”

“The woman smiled.” I am you. All the heads on that giant tree are yours. You can’t kill me because we are all the same.””

Xu Bai raised his eyebrows and said, “Are you kidding me? How can you be exactly the same as me? I don’t want to play any riddles with you here. Hurry up and tell me.””

“The woman sighed.” I had the same thoughts as you back then. I had the same feelings as you. I didn’t believe it, but in the end, I believed it. I was very sure that I was you, and you were me. They were also us.””

“Can you speak more clearly?” Xu Bai’s mouth twitched.

The words that came out of this fellow’s mouth could be considered to have gone around in circles several times. In his ears, he could not understand what was going on at all.

What ‘I, I, you, you’? It’s such a headache.

The woman thought about it and knew that no one would understand what she said. She could only organize her words and continue, "Let me put it this way. You know that there are countless worlds. Absolute Saints destroy those worlds that exceed their limits so that they can survive."

Xu Bai nodded, indicating that he knew about this.

"Then do you know how many worlds there are?" the woman continued."

"In my opinion, the so-called countless refers to a very large number." Xu Bai frowned.

There was no such thing as infinite. In this world, other than time that could extend indefinitely, everything else had a limit.

The woman said, "It's indeed a very large number. It's so many that it can't be counted. That's why there are many in this world. You can also know how powerful an Absolute Saint is."

I Have Unparalleled Comprehension #Chapter 1089: Absolute Saint Is Only Incomplete - Read I Have Unparalleled Comprehension Chapter 1089: Absolute Saint Is Only Incomplete

Chapter 1089: Absolute Saint Is Only Incomplete

"I'm not exaggerating to say that if it was a complete Absolute Saint, he would only need to blow and the world you're looking at would be completely destroyed."

Complete state?

Xu Bai pondered for a moment and thought of something new. "You're saying that the giant eye isn't a complete Absolute Saint?"

"You're right." The woman smiled. "Even an ordinary person has the complete shape of a human. How can a powerful Absolute Saint only have one eye?"

"Have you ever thought that he might have been continuously destroyed until only one eye was left?"

When Xu Bai heard this, he was stunned.

It was constantly destroyed, and only one eye was left?

This news could be said to be particularly explosive. If it were anyone else who heard it here, they would be extremely shocked.

Absolute Saints were powerful and could rule countless worlds. It was unbelievable that they were destroyed until only their eyes were left and hadn't recovered.

The woman seemed to have noticed Xu Bai's shock and explained, "The countless worlds you see now are only the tip of the iceberg. The world he controls is countless times larger than you can imagine, but...The resistance has already begun."

“You know what? When a sentient creature knew that it was just a plaything of the other party and could be destroyed at any time, resistance was already formed.”

“That was when the war began. A complete Absolute Saint is extremely terrifying, but we also thought of a solution.”

At this point, the woman paused for a moment and her eyes stopped on Xu Bai.

A light flashed in Xu Bai's mind as he quickly thought of something. He pointed at himself and said in surprise, "You mean... Me?"

He could not help but think so. These things were too shocking. He could only think of these.

The woman nodded without hesitation, indicating that it was indeed so. She shrugged and said, "To be precise, it's not you, but us. We're the same."

As she spoke, the woman waved her hand, and the blue sky and white clouds in the sky disappeared. In their place was a night sky filled with countless stars.

In the night sky, countless stars were densely packed, making people dizzy.

The woman raised her hand and pointed at the stars in the sky. "Do you see that? Every star in the sky represents a world. They are full of life and vitality. They represent the beginning of everything."

"And the moon in the center is the Absolute Saint. He's destroying the stars. To deal with him, we've thought of countless methods, and in the end, we've decided on one, which is to die and then live."

"Absolute Saints don't care about dead worlds. They only wait for the rebirth of dead worlds. We, on the other hand, are formed from the remnant power of countless worlds."

"Including the scene you are in now, those countless worlds are just our continuation."

"We succeeded. We destroyed him until he only had one eye left, but we also failed because he was still alive and he saw through our plan."

At this point, the woman fell silent, and there was a trace of sadness in her eyes.

"According to what you said," Xu Bai pondered, "he only has one eye left. If we put in more effort, we will win."

To be honest, the information he had just heard shocked him, but he was able to react quickly.

What he did not expect was that the existence of his cheat had already been used by others in the past, and now it was just a continuation.

However, none of that mattered. What mattered was that the Absolute Saint only had one eye left.

An existence with only one eye left, its strength was already much weaker than before. Why didn't it speed up?

The woman shook her head when she heard Xu Bai's words. "If there is a plan, there will be a way to deal with it. He has already seen through our plan. I can say without exaggeration that he has already predicted every step you have taken."

"For example, right now, you're already locked in the Bizarre Market and can't get out. After you get out, you'll welcome his follow-up plans. But if you don't get out, you'll only die slowly."

“What kind of plan does he have?” Xu Bai asked. And what about that giant tree?”

The woman shook her head and said, “I don’t know what his plan is either. If we could guess it, we wouldn’t have lost so badly. As for what that giant tree is, he is us. However, we have already failed. We have unwilling thoughts in our hearts and finally turned into giant trees.”

“He’s unwilling, but he doesn’t harm others. If he meets me or you, he’ll try to assimilate. If he meets an absolute saint, he’ll even fight. It can only be said that he doesn’t harm others.”

Xu Bai remained silent.

The news he received this time was earth-shattering, but other than this news, there was still no way to break out of the situation. It was as if he had only received news.

Seeing Xu Bai’s silence, the woman sighed several times and said dejectedly, “There’s nothing we can do. There’s nothing we can do. I’m already extremely disappointed. We’ve failed too many times. You’re the last one. When you lose, he will continue to destroy the world. Moreover, he won’t let these worlds gather their power. Then, he will be invincible.”

Xu Bai raised his eyebrows and said, “I think there’s always hope until the last step. Instead of being as dispirited as you are, why don’t we fight for it? I once got a clue. She was qualified to stand with him.”

“What are you thinking about? What qualifications? The clues you got were given to you by the Absolute Saint. He knew and understood, so he twisted the clues. To him, twisting a clue was as easy as turning a palm.” the woman interrupted Xu Bai.

“At least we tried. In order to fight him, you have to reach the peak of the Saint Realm. But do you think it’s possible?”

“Do you know why I brought you here? Just wait here. This is a crack left behind by countless worlds. He can’t find it. Although it’s a little boring, at least he can live.”

The woman sat on the ground, looking extremely depressed.

She no longer had the will to fight. Countless worlds had been destroyed by the Absolute Saint, and she had seen the rise and fall of the plan. All her courage had long been worn away.

Xu Bai took two steps forward and squatted in front of the woman. “I want you to do me a favor.”

The woman was slightly stunned, not knowing what he meant.

"That giant tree, can you lead it to a place?" Xu Bai asked with a smile."

The woman nodded.

However, she did not understand what Xu Bai meant.

Xu Bai shook his head." There's no need to ask. You'll know when the time comes. That giant tree is very powerful. It should be able to cause trouble for Absolute Saints.""

The woman finally understood what Xu Bai wanted to do.

"You can bring him trouble and even hurt him, but what do you mean? It's useless even if you beat him up."

The giant tree had become a monster, but it still had some remaining power. The Absolute Saint was also a remnant, so it could hurt the Absolute Saint.

Xu Bai stood up and looked up at the sky." "I think...We bear the responsibility of changing the world, so we have to try. In fact, I think we can call ourselves variables."

"As for what I will do in the end, I will use all my strength. At least before that, I will let him know what the price is."

The woman looked at Xu Bai in a daze. There was a hint of anger in her eyes, but more of it was decadence.

Xu Bai smiled and said,"If we really have to fight the final battle, will you attack?""

"Do you think I'm afraid of death?" The girl smiled bitterly. I'm not afraid of death. I just feel that there's at least hope for us to live."

Xu Bai placed his hands behind his back and said," Let's see. Let's see whether he dies or I die.""

Chapter 1090: The Beginning of Xu Bai's Revenge

The woman looked at Xu Bai blankly and did not respond for a long time.

It was as if she saw her past self in Xu Bai.

In the past, countless worlds had united to fight against the Absolute Saint. They had been so confident.

They believed that they could win and take back the initiative to survive, not a piece of trash that was casually destroyed by others, but the final result was different.

They had lost. They had lost terribly.

The Absolute Saint had won, and it was a miserable victory.

But no matter what, they still failed.

Losers had no rights to speak of, and it completely shattered her confidence from the beginning to the end. It was as if she had jumped down from a high mountain and fallen into a terrifying hell.

She had nothing left but dejection. She had no energy or ambition. She could only live in this crevice, dispirited and depressed.

Until today, when she saw Xu Bai being chased by the giant tree, she made a move and pulled Xu Bai in. She thought that she could find someone to talk to and spend the boring time with.

But what she didn't expect was that Xu Bai's words were filled with the confidence she had in the past, the fighting spirit that was like a raging flame.

"I'll help you get it out if you need it," the woman said slowly."

In the end, she decided to agree because she wanted to see it.

Now, Xu Bai seemed to have given him a glimmer of hope. This hope was very slim, like a fragile spark. Just a slight breeze could easily destroy it.

But at least this was hope. With hope, she would not continue to be depressed.

"There's no hurry now. I have to leave this place. Can you tell me when that giant tree will leave?" Xu Bai shook his head, indicating that he was not panicking for the time being.

This was a very complicated plan. He had to get confirmation from the Chu Emperor and get the Chu Emperor to help him. Otherwise, it would be very difficult to intervene.

The woman said, "If the giant tree can't find you, it will naturally return to its original position after a long time. It won't move again. At that time, you can go out. If you want to come in again, you just have to shout from where you are. I will be able to sense it. After all, we are of the same origin."

Xu Bai nodded." Right, I still don't know your name.""

The woman replied," After so many years, I have already forgotten my name. I don't want to recall that period of time, including my own name. I don't have a name now. If you want to call me, you can call me Wu or Ah Wu.""

"Ah Wu..." "Can you tell me about your battle with the Absolute Saint?" Xu Bai repeated. I'm very curious about how powerful the Absolute Saint was to have only one eye left."

Ah Wu nodded. Then, she sat cross-legged on the ground and began to tell the story of the past that she did not want to recall.

Xu Bai sat cross-legged on the ground and listened patiently.

Around them was the scene that was as pure as white paper, and only Ah Wu's slow voice was left.

..

In the outside world, in the human world.

After the Chu Emperor finished reading the memorial in his hand, he placed it on the table with a livid expression.

He had already heard about what happened in the Barbarian territory. He didn't expect the other party to attack so quickly. He already felt a strong sense of oppression.

"Eunuch Wei, have those people been resurrected?"The Chu Emperor asked.

Eunuch Wei bowed and stood at the side with his hands tucked in his sleeves. He nodded and said,"Your Majesty, they have all been resurrected. I have also asked them. They have indeed seen Xu Bai, but Xu Bai did not pass on any information."

For them, time was the most precious. Therefore, they had protected those people at the first moment and gathered them as much as possible.

The Chu Emperor pondered for a moment and said," Have the Great Yue side been notified? Have them gather their forces and not feel crowded. At the very least, they have to keep their lives. This is the most important thing."

Eunuch Wei replied," I've already informed everyone, including the border pass at His Highness's side. They've also begun to close the battle lines to ensure that there are no loopholes. However, Your Majesty, you also know that this world is too big. Even if we close the battle lines, it'll be difficult to provide comprehensive protection."

“Moreover, after gathering them, there are still various follow-up arrangements that require a lot of energy, including how the people who have been gathered will eat and survive.”

In many cases, it was not possible to carry out a sentence completely.

This time, the matter that needed to be considered was very complicated.

For example, the people who originally had homes and fields would become homeless and jobless after shrinking. They might not even be able to eat. Moreover, many fields would be abandoned. The food problem was also a big problem.

The Chu Emperor sighed.” Let the various regions help each other first. If they really can’t handle it well, open the granaries and release the grain. This is much better than letting them die.””

Now that they had reached the moment of life and death, they could not consider too many details. If they could delay it, they would delay it for a moment.

Eunuch Wei hesitated.” But Your Majesty, according to this rhythm, if the other party decides to use a delaying tactic against us, they will not attack. If we maintain this state for a long time, it will consume a huge amount of financial and material resources. We don’t know how long we can last. The problem of food alone is a big problem.”

Chapter 1091: The Beginning of Xu Bai’s Revenge (2)

There was a limit to the number of people on the land. By shrinking the number of people, each piece of land would be able to withstand the maximum number of people. After reaching the limit, it would be a slow death for them.

“I know, but I have to slow down first. In this time, I have to think of a way as soon as possible. Oh right, have you done what you did? I need prisoners on death row. Kill them all now and let them bring this letter over.”The Chu Emperor said briefly and changed the topic.

Eunuch Wei nodded.” It’s done. You can do it anytime.””

He received the letter from the Chu Emperor and kept it in his bosom.

The Chu Emperor waved his hand and said, "Then go now. ""

Eunuch Wei opened his mouth and wanted to say something, but he didn't. He turned around and left.

After the eunuch left, the Chu Emperor's originally tall and straight posture collapsed in an instant. He sat on a chair and leaned his head against the back of the chair.

"Truly a dead end!"

"If you shrink, you will be surrounded by people. When you can't make ends meet, you will collapse like rotten wood."

"The other party is really smart. It seems that they have a very smart person commanding them. It seems that this siege has been planned out."

"What should I do..."

The Chu Emperor placed his hand on his forehead and muttered to himself as he pondered.

On the other side, after Eunuch Wei left the royal study, he came to a gloomy underground space.

This was the imperial prison of Great Chu. There were all kinds of prisoners, including many death row prisoners.

In the past, these death row prisoners would be executed gradually and would not gather together because they were afraid that it would become strange.

However, it was different now. The Bizarre Market had already become like this. In fact, they could have killed it, but they had kept it so that they could have a way to communicate with Xu Bai.

"Eunuch Wei." The jailer looked ordinary, but he was actually a peak extraordinary expert. When he saw Eunuch Wei, he quickly put down his wine glass and stood up.

"It's okay. You can have a few drinks." Eunuch Wei waved his hand, not caring at all.

The warden wiped the cold sweat off his forehead, feeling the pressure.

After all, the person in front of him had already entered the Saint Realm, and his reputation in the world was not very good, so he did not dare to slack off at all.

“Find ten prisoners and bring them out. I’ll wait outside.”Eunuch Wei also saw the nervousness of the head of the prison, so he did not say anything more. He only gave a simple order, then put his hands in his sleeves and walked out.

The warden quickly responded and followed Eunuch Wei’s instructions. He brought the ten prisoners out and brought them to the courtyard outside.

The prisoners ‘faces were sallow and emaciated. They stood in the cold wind and shivered, especially when they faced Eunuch Wei. The indifference in their eyes made them feel as if they were facing the end of the world.

Eunuch Wei waved his hand lightly. He had already copied out the letter that the Chu Emperor had given him earlier. He split it into ten portions and placed them in the prisoner’s arms.

Immediately after, a gray thread shot out swiftly, piercing through all ten people present.

“Bang!”

A muffled sound rang out as the ten prisoners fell to the ground. They did not even feel pain as they lost their lives.

“Send someone to guard this place. Remember, you must trust someone. They will come back to life.”Eunuch Wei said lightly.

The warden didn’t ask or say much. He quickly nodded and respectfully agreed.

As for why he was resurrected, he did not want to know, nor did he dare to know. The less he knew, the safer he would be.

Eunuch Wei waved his sleeves and walked away.

The warden did not dare to disobey Eunuch Wei’s words. He quickly found a few trusted aides, and they were all selected to be strong and specially guarded here.

The moon outside the window was very bright. Under the night sky, the stars were twinkling, looking very beautiful.

..

Bizarre market.

Xu Bai and Ah Wu had been chatting here for a long time. Xu Bai finally understood the many things that had happened since the beginning.

To be honest, he felt a little sad after hearing it.

From that distant era of unknown time until now, countless unimaginable years had passed. The war had spread from that time until now, and Xu Bai finally understood the cruelty of that time from Ah Wu.

When ordinary people fought, their lives were counted in strips, but when they fought with Absolute Saints, their lives were counted in worlds. In an instant, there would be unimaginable world destruction. These were the costs of their battle.

"That's why the Absolute Saint must die." "There's no need for such a cycle to exist," Xu Bai said." Everyone's life should be in their own hands, not in the hands of others.""

Ah Wu sighed." It's easy to say, but it's as difficult as ascending to the heavens. Otherwise, we wouldn't have to do this.""

Xu Bai shrugged and did not answer.

There was no need to continue this topic. If they continued, they would only be vexed.

Ah Wu did not continue and fell silent.

Neither of them spoke. A deathly silence gradually spread.

At this moment, Wu looked up at the pure sky and suddenly said.

"He left."

Xu Bai turned from sitting cross-legged to standing up." "Then I should go too."

After staying here for so long, who knew what the outside had become.

Things were different now. If he couldn't receive any information from the outside world, he would feel as if he was in the sky for a day and on the ground for a year.

"I'll send you out, but you must be careful. Unless it's absolutely necessary, don't leave the Bizarre City."

Xu Bai nodded, indicating that he understood.

Ah Wu was slightly hesitant, as if he had something to say, but he couldn't bring himself to say it.

Seeing this, Xu Bai knew what Ah Wu was worried about. He smiled and said,""When you think that winning or losing is not that important, you only have one thought, and that is to work hard to charge forward. You have to try. I'm not someone who sits to wait for death, and I believe you aren't either."

“Who’s the one who’s waiting to die?” A’wu asked dejectedly. However, I’ve experienced it before, so I still don’t have much hope.”

” You’re not afraid of death,” Xu Bai said.” That’s what you said. I just need you to help me when I’m in the most difficult time. It’s good enough that you can help me. You should be able to do that, right?””

“I can do it.” Ah Wu nodded.

Die?

She was not afraid.

Staying here and wanting to live was only because he felt that at least he was alive. It was just a hope.

Xu Bai raised his hand and patted Ah Wu’s shoulder.””You said that I am you and you are me, but I am not you.”

Ah Wu was stunned and didn’t know how to answer.

“Just try your best.” Xu Bai withdrew his hand and said.

A Wu returned to his dazed state and nodded. He didn’t reply to Xu Bai’s words, but everything was already in silence.

A crack appeared in the sky, and Ah Wu signaled Xu Bai to enter from inside.

Xu Bai didn’t waste any words. He flew into the sky and disappeared into the crack.

After a moment, the crack gradually disappeared and returned to its original state. This place had become that pure world again.

Ah Wu looked at the clouds in the blue sky in a daze. It took him a long time to come back to his senses and continued to sit cross-legged.

..

Bizarre market.

Xu Bai’s figure suddenly appeared. He raised his head and looked at the dark red color in the sky. The corners of his mouth curled up slightly.

The giant tree was gone, and so was his threat. This time, he had to hurry up and send the message out.

He already had a good plan. This plan could at least make the Absolute Saint bleed.

Before the final battle, he would weaken his opponent's strength as much as he could.

"First, I need to find a way to contact the outside world. I'll just wait for the people to resurrect. After they resurrect, I'll be able to implement my plan."

Xu Bai thought.

At this moment, the dark red sky suddenly shook violently.

Xu Bai was stunned for a moment before he smiled. "You're really giving me a pillow when you're sleepy. The rest is up to me."

He directly soared into the sky and flew towards the dark red sky.

"Absolute Saint, you've tricked me for so long. Now, I'm going to give you a big gift!"

Chapter 1092: Absolute Saint, Your Trouble Is Coming

The sky was blood-red, like blood. It was immersed in a dark environment, giving people an extremely oppressive feeling.

Xu Bai was flying in the air, getting closer and closer to the sky. When he reached the top of the sky, he raised his hand and pressed it against the sky.

As his True Essence Energy surged, dense cracks appeared in the entire sky.

The crack gradually spread in the sky and extended. Soon, a large hole quietly appeared in the center.

As the cracks deepened, they gradually spread.

In the blink of an eye, a huge hole was formed. Xu Bai didn't hesitate and jumped into the hole. Soon, he disappeared into the horizon.

As time passed, the hole gradually shrank until it disappeared.

..

It was still the familiar dark environment and the same vague space. Xu Bai stood in the same place and looked around.

He saw ten prisoners in prison uniforms standing in place, trembling with fear.

“Resurrected, we’ve been resurrected, what’s going on?”

“I remember that Eunuch Wei seemed to have killed us. How could he suddenly come back to life?”

“Who do you think he is? It’s the Bloody Butcher!”

The prisoners were talking to each other. One of the sharp-eyed prisoners saw Xu Bai’s arrival and immediately let out a cry of surprise.

“Bloody hell!”

Xu Bai didn’t give any face to the prisoners. He raised his hand and slapped them. The prisoners rolled on the ground for a while, half of their faces bloody.

The other prisoners were trembling in fear. They didn’t even dare to breathe loudly. They lowered their heads and kept trembling.

Xu Bai knew that they would soon return to the human world after their resurrection, so he did not waste any time and used his True Core Strength to control all the prisoners.

“Come over and tell me what happened between you two.”

He casually pointed at a prisoner on death row and hooked his finger.

The prisoner who was being controlled walked out with a stunned expression. His face was as pale as a piece of old wood.

“It’s like this. Eunuch Wei called us out and killed us. Before he killed us, Eunuch Wei left a letter for us.”

He spoke very briefly. This was Xu Bai’s request. After all, they had to hurry up. Xu Bai nodded and waved his hand. All the prisoners present took out the letter. After a moment, Xu Bai read all the contents of the letter before putting it away.

“Use your blood to write these words.”Xu Bai was still pointing at the prisoners on death row.

The prisoner nodded without hesitation.

Then, under Xu Bai's instructions, he quickly wrote a large piece of paper with the blood of the condemned prisoners.

As soon as he put the letter into the prisoner's arms, the prisoners began to turn into smoke. It was time for them to revive.

Xu Bai watched these people disappear with a hint of mockery in his eyes.

The next step was simple.

They only needed to wait for the reply from the Chu Emperor's side, and then work together from the inside, no, work together to complete this plan.

Xu Bai stretched his back. This time, he didn't go out. Instead, he waited patiently.

..

In the human world.

In the royal study of the Great Chu's palace, an oil lamp was lit even in the middle of the night. The Chu Emperor was sitting on a chair and silently looking at the orange light on the oil lamp.

His eyes were erratic as he silently stared at them. No one knew what he was thinking, but no one dared to disturb him.

"Squeak-"

At this moment, the sound of creaking sounds, the door is pushed open, the eunuch Wei is bent over, his hands are in his sleeves, like a candle in the wind, the old man is like, slowly walking in, the door is closed, the door is closed, this just comes to the place not far away in front of the emperor of Chu.

He took out his hands from his sleeves. There was a letter in his hands, and he placed it on the Chu Emperor's table.

"Your Majesty, we have received a letter."Eunuch Wei put the letter away and returned to his stooped posture.

The Chu Emperor raised his eyelids and opened the letter in his hand.

On the front of the letter was written the contents of his message, while the blank space on the back was written with blood.

After silently scanning through the contents, the Chu Emperor passed it to Eunuch Wei and said indifferently, "Looks like he's also thinking of a way in the Bizarre City. Cooperate with him."

Eunuch Wei received it and read it once as well. After reading it, he was slightly shocked.

"The giant tree can hurt an Absolute Saint. An Absolute Saint only has one eye left. How powerful are they to be able to do this?"

The Chu Emperor smiled bitterly. "The world is so big. We are just a drop in the ocean of countless worlds. I once thought that becoming a Saint was the limit. But now, it seems that becoming a Saint is just a speck of dust in the world."

Eunuch Wei nodded and said, "Your Majesty, it seems like we have to hurry up and set up. We have to arrange manpower for every circular pattern."

"According to the letter, the giant tree won't hurt ordinary people. Xu Bai's plan is to lure the giant tree into the ruins and let the giant tree fight the Absolute Saint. It will cause indelible damage to the Absolute Saint to delay the opportunity."

"Now that ruins are appearing everywhere, it's a good idea. I just don't know if it can completely destroy the Absolute Saint."

He read the contents of the letter once and found that it was basically about luring the Absolute Saint to fight the giant tree.

The specific method of doing things was exactly as he had just said. He would place people in every circular pattern to see where the Absolute Saint would descend from.

Chapter 1093: Absolute Saint, Your Trouble Is Here

Emperor Chu said, "Even someone as powerful as the past could only retreat in defeat. Although the Absolute Saint only has one eye left, he isn't that easy to deal with. Do you think Xu Bai didn't just want to injure the Absolute Saint?"

Eunuch Wei was still hunched over, but he was frowning and deep in thought.

He began to walk back and forth. As he walked, he thought about what the Chu Emperor had said just now. After a moment, he suddenly raised his head.

“Understood!”

“Xu Bai’s ultimate goal is to leave the Bizarre Market. This step of his seems to be his intention.”

“But how can we get out of there? Even though he could injure an Absolute Saint, he might not be able to come out safely. After all, there was no way to test it.”

Even if he could severely injure an Absolute Saint, who could say that he would ruin the plan of a quasi-Absolute Saint? Xu Bai wouldn’t dare to come out so impulsively. Eunuch Wei couldn’t understand this.

The Chu Emperor said, “As for how he came out, I am not very sure either. He did not say it clearly, so I cannot guess. However, I feel that he is definitely not that simple.”

No one knew what Xu Bai would do. After all, it wasn’t stated clearly. However, the Chu Emperor felt that they had to cooperate unconditionally for a very simple reason. Right now, Xu Bai was the key to turning the tables. Everything had to be done according to Xu Bai’s plan. This was the most important thing.

Eunuch Wei nodded.”

The Chu Emperor nodded.” Prepare a few more death row prisoners. Tell him that we are ready to cooperate. This way, he will be able to make a move.””

“Oh right, didn’t he say in the letter that he wanted a clone? Let’s go look for it and see if we can find it.”

“Yes, sir!” Eunuch Wei responded and left.

After Eunuch Wei left, the Chu Emperor tapped his finger lightly on the table as he muttered to himself.

“Xu Bai, oh Xu Bai, I don’t know what you’re thinking, but the world is already on your shoulders. I’ll cooperate with you unconditionally.”

The oil lamp on the table flickered, illuminating the Chu Emperor’s face, making him appear mysterious and unfathomable.

..

Bizarre market.

Xu Bai waited patiently.

After about an hour, the surrounding space began to tremble again. The ten figures turned from nothingness to corporeal, turning into another ten prisoners.

Before the prisoners could say anything, Xu Bai cut the Gordian knot and controlled them. He took out the envelopes in their arms, opened them, and read the contents.

Soon, he finished reading the contents.

“His Majesty Chu Emperor is still so swift and decisive when handling matters. This is good too. I can immediately implement it.”

Xu Bai stretched lazily and followed the original method. He let the prisoners in front of him bring some news back before turning around and leaving the space. He dug a new hole and returned to the Bizarre Market.

In just a few moments, they had already arrived in the dark red sky.

“We can start now, Ah Wu. We have to bring the disaster to the absolute saint and let him experience what it feels like to be injured.”Xu Bai’s voice sounded faintly.

A moment later, a beam of light flashed, and a huge crack appeared in the sky. The tall and slender Ah Wu descended from the sky.

“Are you really going to make a move?” Ah Wu asked, still looking the same.”

“Why not? When people were in despair, they would fight back and try to see how far they could reverse the situation.”Xu Bai shrugged and said.

“How can we lure him over? Do you need me to do anything?”

Ah Wu shook his head.” It’s easy to lure him over. There’s nothing to do.” I just need to do it.”

As he spoke, Ah Wu suddenly reached out and grabbed his right hand. With a gentle tug, his right hand was like a ball of water, directly pulled off by him. Very quickly, it turned into a person that looked exactly like her.

Even though Xu Bai had seen many special abilities, he still found it strange at this moment.

Ah Wu smiled and said,” I’m the same as you. We share the same roots. Your abilities are diverse, and so are mine. We’ve experienced what you’ve experienced.”

Xu Bai understood.

Since everyone was the same, then the golden finger was also the same. It was normal for them to have more abilities.

After all, at this point, Xu Bai couldn't even count how many abilities he had. Although they were all integrated into the myriad series of skills, they could all be used independently.

However, this discovery made Xu Bai's eyes light up.

"Then if you leave a trace behind, will I be able to follow your trace and get what I want?" Xu Bai asked."

"What realm do you think I'm at?" Ah Wu asked helplessly."

"Saint?" Xu Bai thought for a moment and said."

Ah Wu replied, "You're wrong. I've already reached the level of Saint. I can't even leave a trace of a Saint. It's even more impossible for me to leave a Saint. This rule can't be broken unless we can kill the Absolute Saint. But if we can kill him, there's no need to break this rule. ""

Xu Bai thought about it carefully, and it seemed to be true.

Breaking the rules and obtaining abilities was to kill Absolute Saints.

With the existence of an Absolute Saint, it was impossible to break it.

If he could kill the Absolute Saint, he could break it, but he had already killed him. There was no need to break it.

"Let's start. We don't have enough time." Xu Bai said.

He didn't want to talk about this problem any longer. It was best to seize the time.

"Next, he'll bring my aura over. Just give me the token." Ah Wu stretched out his hand.

Xu Bai nodded. He took out the token that he had already prepared and handed it to Ah Wu.

After Ah Wu took the token, he handed it to his clone. The clone quickly took the token and rushed toward the giant tree.

Xu Bai felt a little regretful. In fact, he really wanted to have the ability to clone himself. After all, not long ago, he wanted to use his clone to try and see if he could get out. Unfortunately, Ah Wu could not leave any traces, so he gave up on this idea.

Moreover, the Chu Emperor had also said in his latest reply that he would do his best to help him find it, so he wasn't in a hurry.

Soon, Ah Wu's clone disappeared into the sky. In just a moment, a terrifying roar sounded in the sky.

Gradually, the angry roar faded away and soon disappeared.

Ah Wu closed his eyes and sensed carefully. After a moment, he opened his eyes and looked at Xu Bai. "It's already a success. I've successfully lured him out."

"Are you still not going to tell me your follow-up plan?"

"The follow-up plan will also need to change," Xu Bai said with a smile. "Let's see what happens next."

Ah Wu smiled, but she didn't continue asking.

"Let's go and find a place to talk. I haven't spoken for so many years. I also want to find someone to talk to."

Xu Bai spread his hands and said, "I'd be happy to."

The two of them quickly disappeared, and the world became empty again.

..

In the human world.

At this moment, there were more than a dozen members of the Heaven Inspectorate guarding a rather remote circle.

Everyone's expression was very serious. They did not speak and maintained their silence.

The scene was dead silent.

Everyone's eyes were fixed on the circular pattern as if they were facing a great enemy.

Before they came, they had already received the news that this mission was extremely important. They had to be careful.

The most important thing was to guard this place well. If anything abnormal happened, don't care about it. You just need to ensure that this abnormality wouldn't hurt the civilians.

The circular pattern looked a little old. Because no one took care of it, a layer of dense moss appeared on it.

It was already night, and under the moonlight, it looked a little mysterious.

At this moment, the circular pattern suddenly showed an abnormality.

A beam of light shot straight into the sky, illuminating the night sky as if it was daytime, dazzling and eye-catching.

Under the terrified gazes of the Heaven Inspectorate, a towering tree suddenly walked out.

There were all kinds of heads hanging on the tree, looking ferocious and terrifying.

Chapter 1094: Great Battle Against the Absolute Saint

The moment this giant tree appeared, the world was filled with an unimaginable sense of oppression. The entire sky was suppressed, and the ground trembled slightly. It was as if a tree could intimidate the world.

When the surrounding Heaven Inspectorate staff saw the giant tree, they realized that they could not move at all. They were like a piece of wood.

The moment the giant tree moved, they felt the pressure as if they were there.

Fear rose in the hearts of the members of the Heaven Inspectorate. Their mission was to observe the movements of the giant tree here, but now they could not move.

Not only would they not be able to complete the mission, but their lives might also be threatened.

However, in the next moment, they realized that they were thinking too much. This was because the giant tree did not pay any attention to them. Instead, it stretched out its branches and leaves without a care.

Although the terrifying head on the giant tree had a terrifying expression, it did not have the slightest killing intent, nor did it launch a terrifying attack.

At this moment, one of the members of the Heaven Inspectorate suddenly realized that he could move. As he could move, the others also began to move.

“I can move! Don’t get close, just observe!”

“The higher-ups gave us information that he won’t attack us, but don’t provoke him rashly in case something happens.”

“Everyone, you must be careful!”

Every member was very careful. They did not dare to get close or move too much, afraid that they would cause the giant tree to act abnormally.

At this moment, the giant tree moved.

Countless roots were lifted up. The giant tree seemed to be moving slowly, but it was flying in a direction at an extremely fast speed.

Every head on the tree opened its eyes at the same time and let out furious roars. It was as if there was a surging resentment that constantly stirred between heaven and earth.

The members of the Heaven Inspectorate watched the giant tree fly in that direction with their mouths agape.

“That location seems to be in the direction of the ruins, right?” A member said in surprise.”

Another member nodded.” It’s His Majesty’s order. He even said that we should lead it to the location of the ruins. It seems that there’s no need at all. It’s running directly towards the nearest ruins.””

They really wanted to chase after it, but with the speed of the giant tree, they had no way to chase after it. They could only watch as the giant tree’s figure turned into a small black dot, unable to catch up with them.

..

Now, the ruins were becoming more and more frequent, but fortunately, they could still be controlled for now.

At a place far away from the giant tree, there was a small ruin that was constantly flashing.

Originally, with the existence of the ruins, many people would come over. After all, there were countless treasures hidden in the ruins. However, ever since the Chu Emperor gave the order, this place had been tightly sealed, and no one dared to come over.

Although there was no one here, there were actually many spies from the Heaven Inspectorate hiding in the dark. Their goal was to prevent those people from sneaking over.

After all, the temptation in this was very likely to make some people disregard the price.

But today, all the scouts of the Heaven Inspectorate received a piece of news. They were waiting.

After about half a minute, a giant tree descended from the sky and landed in the ruins.

No one could stop them, and they could only watch as the giant tree disappeared.

One of the members of the Heaven Inspectorate quickly said, "Quickly inform His Majesty that the giant tree has fallen into the ruins."

As soon as he finished speaking, two members of the Heaven Inspectorate immediately disappeared without a trace.

..

In the ruins.

The Absolute Saint was still bound by the chains. His huge eyes were tightly shut like a lifeless sphere.

The surroundings were quiet and deathly still. There was no sound. Everything had returned to nothingness.

The vestige was still sitting cross-legged beside the Absolute Saint.

"To be honest, if we weren't on opposite sides, we should be able to become friends after spending so much time here." The Absolute Saint still closed his eyes tightly, but he still made a sound.

"Friend, can you be my friend?" "Who are you?" The vestige shook his head. "You're a supreme saint with infinite power. You can easily destroy countless worlds, and I'm just an ant in one of the countless worlds."

"Friends, do you need friends? What you need is a group of things that you can control."

"Perhaps you think so," the Absolute Saint said with a smile."

The ruins did not speak and remained in a cross-legged position.

The Absolute Saint continued, "Actually, it's very simple to be friends. You just need to help me untie the chains, and I can grant you eternal life. Eternal life is something that many things want to achieve. They pursue it, and they rush in like crazy, but they can't succeed. But you can easily obtain it."

"The so-called eternal life you've bestowed upon me is only in your hands. What's the point of me coming for such eternal life?"

"Sigh..." The Absolute Saint sighed. "I just want to speed up the progress. It's fine if you don't agree. Anyway, the entire ruin is under my control now. It's only a matter of time before I get out. Besides, the human world will soon be in chaos."

After saying that, the Absolute Saint remained silent.

In this land of ruins, both of them were like this.

They chatted from time to time, mostly in anger.

They had already experienced this kind of situation too many times, and everyone was used to it.

Chapter 1095: Battle Against the Absolute Saint (2)

The two of them fell silent again.

But at that moment, the Absolute Saint's eyes suddenly opened and he looked in a certain direction.

That direction was extremely far away.

The ruins had long lost the initiative. He didn't know what the Absolute Saint was looking at, but he quickly followed his gaze.

In the distant horizon, there was a small black dot that was constantly enlarging. At first, the small black dot was only the size of a grain of rice, but in the time it took to take a breath, it arrived in front of him.

The gigantic old tree stood tall and upright, with all kinds of terrifying heads hanging from it. These heads were terrifying, and their eyes were originally closed, but at this moment, all of them had opened their eyes.

Words came out from these heads.

“I finally found you, I finally found you!”

“The beginning of life, the tracing of life. You control life, but you ignore it. Today, we will kill you!”

“I’ll kill you! Let you die! Let all living beings be free, let all living beings live freely!”

..

Each head was speaking their own words. It should have been very messy, but when these words gathered together, one could hear the contents of each head clearly.

He was the first to recognize the ruins. He was confused as he looked at the giant tree. He felt that it had the same origin, but he was sure that he had never seen it before.

“Who are you? Why are you here?”

Even in his long life, he had never seen such a thing, so he was very surprised.

The giant tree didn’t answer him. Instead, it stared at the Absolute Saint, and its aura was gradually rising.

At this moment, the Absolute Saint, who had his eyes closed, finally moved.

His tightly shut eyes opened quietly, and then he said something.

“I really didn’t expect that you guys would still be alive. Moreover, you’re living in such a strange way that you’ve become such low-level creatures without intelligence.”

“You used to be my greatest enemy, but now you don’t even have a name. It’s really sad, but I’m very happy.”

“What makes me happy is that I can finally repay the wounds you have left on me today.”

“Because...I can wipe you all out with my own hands.”

As the Absolute Saint finished his last sentence, a powerful aura rose from his body. The chains that bound him prevented him from using his full strength, but he now controlled the entire ruin.

The chains rattled, and a huge eyeball suddenly appeared in the surrounding sky. This eyeball was made of black clouds and looked extremely huge, covering the entire sky.

The giant tree moved as well. It charged at the Absolute Saint, ignoring the eyeball in the sky.

Each head shot out a fierce white light. The white light tore through space, causing cracks to appear. It surrounded the Absolute Saint like a spider web.

He was the first to run away. He no longer had the ability to control the ruins, so it would be dangerous for him to stay here. If he was in danger, he wouldn't be able to restrain the Absolute Saint.

Fortunately, the giant tree did not chase after him and successfully escaped.

However, even though he was far away, he could still feel the terrifying pressure.

In the sky, the huge eye formed by the dark clouds emitted a terrifying pressure.

The endless white light that the giant tree had shot out suddenly stopped. This time had also stopped.

"Even if I can only use my insignificant power to borrow this ruin," the Absolute Saint sneered. "It's enough to deal with you."

His words were very proud, but he had his reasons for being proud.

However, before he could be proud to the extreme, the next moment, he began to slap his face.

"Boom!"

The originally stopped time rolled again. The white light directly bombarded his body, producing a huge sound that spread continuously from heaven to earth, making people feel fear.

"Ah!"

The Absolute Saint let out a miserable cry as cracks appeared on his huge eyeball.

This was not because he underestimated his opponent, but because the power he currently controlled was too small.

Perhaps controlling the ruins was powerful enough for anyone, or even at the top.

However, to him, it was insignificant. The giant tree in front of him was an opponent that had once made him pay a heavy price, so he seemed to be unable to defeat it.

“Boom!”

The giant tree emitted white light again, striking the Absolute Saint’s body again and again. The wounds on the Absolute Saint’s body gradually spread, and more and more cracks appeared.

The huge eyeball, which originally looked desolate and ancient, actually felt like it was about to shatter at this moment.

However, it was only a feeling.

“Cut!”

The sound of something cracking could be heard. This time, it didn’t come from the Absolute Saint’s body, but from the giant tree.

It continuously launched powerful attacks. Although the giant tree was powerful, it was only a remnant of countless worlds and could not continue attacking for a long time.

This terrifying form of attack had caused enough damage to it. It did not have intelligence and was not afraid of these injuries. It only knew to act according to its current instincts.

Absolute Saints were terrifying, but the giant tree was even more terrifying.

“Hahahaha, you won’t be able to hold on for long. You can’t kill me, you definitely can’t kill me!” The Absolute Saint laughed wildly.

He could feel that the giant tree was already at the end of its rope, unable to unleash its full strength.

At first, he thought that he was really going to die here, but now, he was relieved.

As long as he didn’t die, no matter how serious his injuries were, he would recover in an instant after he left this place.

Now, the only thing that could kill him was the giant tree in front of him, and this giant tree was about to die.

The giant tree only had instincts. After hearing the Absolute Saint’s laughter, his instincts made him even angrier. His attacks became more intense and frequent, but it also made the wounds on his body even more dense.

Layers of scars gradually overlapped.

The next moment, a loud bang was heard. One of the heads exploded.

As the first head exploded, more and more heads began to shatter one after another. The degree of shattering was gradually deepening.

The banging sounds rose and fell.

The joy in the Absolute Saint's eyes increased.

He controlled the large black eyes in the sky and continuously exerted pressure to cause more damage to the giant tree.

In the ruins far away, although they couldn't see what had happened, they could feel it.

At first, the tree was very strong, and he thought it could kill an Absolute Saint. However, the tree became weaker and weaker, and its life force was only half of what it was before.

"Still can't do it? Even so, he couldn't kill him."The remains sighed.

"It's alright. I've experienced many failures, but they can't destroy my confidence."

He was already very satisfied that he could hurt an Absolute Saint this time. He wouldn't think about anything else.

Most importantly, he had already lost control of the situation and could not think of anything else.

Roars could still be heard from afar. The Absolute Saint's voice was especially arrogant.

"Hahahaha, I know. Xu Bai must have brought you here. That kid really has a vengeful heart. He's taking revenge on me!"

"But I don't care at all. If I'm injured, I'll be able to recover after I get out!"

"What can he do to me? It's just a moment of pleasure!"

This voice traveled extremely far, carrying a hint of arrogance. The ruins could hear it clearly.

He was a little disappointed at first, but after hearing what the Absolute Saint said, his disappointment was swept away. A light flashed in his mind as he remembered something.

“Xu Bai!”

“Xu Bai was the one who brought this in. There must be a deeper meaning behind it!”

“I understand, I finally understand, I finally understand what he meant!”

“Hahahaha!”

Even if the ruins did not have any facial features, one could still feel the joy at this moment.

I Have Unparalleled Comprehension #Chapter 1096: Are You Angry?_1 - Read I Have Unparalleled Comprehension Chapter 1096: Are You Angry?_1

Chapter 1096: Are You Angry?_1

The ruins 'happy laughter spread far and wide.

The Absolute Saint was still fighting with the giant tree. He didn't think much of it at first. After all, the giant tree in front of him was already an arrow at the end of its flight. He could see that he didn't need to worry about it. It was just a little more injured.

The more the giant tree attacked him, the more damage it received. He did not have to worry about it at all.

But now, the strange laughter from the ruins stopped his good mood.

Why was he laughing?

What exactly happened here?

He was a little confused.

But even if he couldn't figure it out, he knew that everything that had happened here must have been done by Xu Bai. He knew Xu Bai the best.

This fellow had nothing but a strong desire for revenge. She had caused so many troubles for him, and now it was obvious that it was his revenge.

However, Xu Bai was a very sinister person. It was absolutely impossible for him to just injure him, because these injuries were useless to him.

Then, there would definitely be a series of tactics in the follow-up.

He couldn't help but think about these things. The reason why he was where he was now was all because of the remnants of countless worlds. Moreover, the things made by the remnants of countless worlds, including Xu Bai himself, were not easy to deal with.

He only had one eye left now. If he was injured again, he would probably be completely finished.

The more he thought about it, the more scared the Absolute Saint felt. He listened to the laughter in his ears and felt the giant tree attacking him, making him even more frustrated.

At this moment, a figure appeared in the distant sky.

There was no emotion on the symbolic face of the ruin, but the Absolute Saint could feel that the ruin was very happy as if it had seen a rare treasure.

"What are you laughing about?" The Absolute Saint was furious.

Although the remains did not have any facial features, one could still feel his happiness.

The happier the ruins were, the angrier the Absolute Saint became. After all, no one wanted to see their enemies live well.

The ruins laughed when they heard the Absolute Saint's words. Their tone became extremely happy and mocking. They pointed at the Absolute Saint and said happily, "" Of course I'm laughing at you. You're smart and muddle-headed, and you control countless worlds. Not only is your strength unparalleled, but your intelligence is also unparalleled. The plans you've laid out in this world are indeed admirable, but you've really lost this time."

"Lose? How could I lose? "Back then, when you joined forces to oppose me, I never lost. I'm an existence that you can't reach!"The Absolute Saint roared angrily.

The eyes of the remains turned to the giant tree beside him and said, "Because of its existence, you will lose. Of course, you will only lose this step. It is still unknown who will win or lose in the future. However, even if you only lose this step, it will be a great humiliation to a high and mighty person like you."

When the Absolute Saint heard this, he was stunned on the spot and didn't react for a long time.

Beside him, the giant tree was still attacking crazily, not caring that it was about to collapse.

Of course, there was a result to all of this. The Absolute Saint's body was covered in wounds and looked extremely terrifying.

However, the Absolute Saint was completely oblivious to all of this. These attacks wouldn't kill him. They would only make him worse. What he was most concerned about now was what this guy wanted to do.

"I know. You must be guessing what I want to do. It's not easy. You were quite arrogant before, but now you can guess?" the ruins said.

The Absolute Saint laughed, "Whatever you have, do it. Show me. Show me how powerful you are." "

At this moment, the giant tree was still attacking, but its body had already become extremely intangible.

Originally, there were countless heads on this giant tree, but after these heads exploded one after another, less than one-tenth of them were left.

"Time should be up soon," the ruins said with a smile."

The Absolute Saint was stunned."

The ruins pointed at the giant tree and said, "To be honest, I don't know its origin. But when I saw it about to die, I felt a sense of sorrow. This feeling is inexplicable, but it does exist. I am very sad. Perhaps we have the same goal, which is to kill you completely."

For some reason, the ruins felt a deep respect for this huge tree. There were all kinds of heads hanging on the tree. At this moment, they did not look scary. Instead, they looked a little cute.

This feeling was as if they were connected by the same vein, making it impossible for him to part with them. He guessed that these might be worlds that had once resisted.

Although he didn't know if he had guessed correctly, he was willing to think so.

The remains said respectfully.

"Those who carry firewood for the people must not be frozen to death by the wind and snow. Even if we cannot do anything for you, when we win, everything you have done will be remembered in history. All of this will serve as a warning to future generations. It will let us know that you have once carried a heavy burden forward and overcome all obstacles."

“Absolute Saint, do you see these people who are resisting you even in death? We might lose, but as long as you don’t turn us all into ashes, we will make a comeback.”

The Absolute Saint looked like he didn’t care, but his heart skipped a beat.

I Have Unparalleled Comprehension #Chapter 1097: Are You Angry?_2 - Read I Have Unparalleled Comprehension Chapter 1097: Are You Angry?_2

Chapter 1097: Are You Angry?_2

At this moment, the giant tree finally could not hold on any longer. The last part of its head completely exploded, and as the head exploded into ashes, the entire tree, starting from the top, completely turned into endless smoke.

A desolate and magnificent aura lingered on the giant tree. When everything turned into ashes, the sky was bright, showing the prosperity and magnificence of countless worlds.

Every world was different, each with its own unique beauty.

“Such a beautiful world, but you destroyed it with your own hands. You really deserve to die!”A powerful aura suddenly rose from the ruins.

At this moment, the Absolute Saint’s huge eyeball emitted a dazzling light.

“Don’t even think about it!”

The sky was covered in dark clouds. The eyes formed by the dark clouds carried a powerful pressure as they rolled towards the ruins. However, this pressure was useless when it landed on the ruins.

“I was originally a relic. You controlled the power of the relic, so how could you hurt me?”The ruins sneered.

“I’ve been with you for so long, but this is the first time I’ve felt your impulse. Are you excited? Despair? Do you know what I’m going to do?”

Cold mockery and ridicule continued to spread.

When the Absolute Saint heard this, he felt despair. He already knew what the ruins wanted to do.

Other than controlling this place, the ruins had another function, which was to use these illusory chains to lock him up.

It was impossible to take this thing away. Otherwise, he would not be here. He could resist these chains, and as time passed, the chains would gradually corrode until they broke.

However, there was a requirement, which was that one's strength could resist and slowly wear down the chains.

An accident had happened today. That giant tree had fought with him, and he had left too many terrifying wounds on his body, causing his strength to drop slightly.

Even if he wasn't in his complete form, as long as he left this place, he would be able to obtain a huge amount of power. However, he wasn't able to leave now. He was injured, and his strength had decreased. This was an ironclad fact.

If one's strength decreased, the strength of the chain would increase.

"Xu Bai, if I find you, I will tear you into pieces, burn your bones, and scatter your ashes. I will let you watch your world be destroyed, kill all your friends and women, and let you suffer endless torture in despair!"

"I will make you wish you were dead. Even if you die, I will revive you. I will make this world revive and be destroyed by me until all your wisdom is gone!"

"Just you wait, that day will definitely come!"

The Absolute Absolute issued a vicious curse with endless resentment.

"What's the use of saying all this now?" The remains smiled. I didn't expect you to suffer a huge loss at Xu Bai's hands. It's all too late."

As the relic finished speaking, his powerful power finally gathered and landed on the Absolute Saint's huge eyeball.

In the blink of an eye, brand new chains appeared and locked the Absolute Saint.

"Ah!"

The Absolute Saint let out a terrifying roar that was deafening. The entire world began to tremble.

"What should I call you?" the ruins asked. Shame from embarrassment or roar of incompetence?"

When the Absolute Saint heard this, he calmed down and said coldly, "It's just delaying the time for me to leave. So what? He can't come out of the Bizarre Market anyway, so I don't care."

Ruins:

To be honest, he had seen stubborn people before, but this was the first time he had seen someone so stubborn. He was already in such a miserable state, but he still pretended not to care.

The ruins stopped in mid-air and thought for a moment before saying, "I seem to be in control of this place again."

Absolute Saint:

As time passed, the Absolute Saint's restraints became less and less, and he had complete control over this place. However, it was different now. After adding another restraint, the ruins regained its dominance.

"How about we make a deal? It's a very fair deal. I can untie this chain for you." The ruins laughed.

The Absolute Saint's huge eyeball suddenly raised. "Tell me, how do you want to trade?"

The ruins sneered.

Sure enough, he pretended to be nonchalant on the surface, but in fact, once he mentioned that he could break free from the shackles, he began to show it.

"Why don't you tell me what you will do when Xu Bai returns to the human world?" the ruins said.

"Sure, I can tell you, but will you believe me?" The Absolute Saint chuckled. If you don't believe me, then everything is just empty talk. More importantly, you can untie me and tie me up. How can I believe you?"

"Then let's not talk about it." The ruins shrugged."

After saying this, the ruins disappeared.

The Absolute Saint froze on the spot. After a while, he roared angrily, "You're playing with me!"

He now knew that the remains had no intention of trading with him at all. They were just teasing him.

However, no matter how much he roared, no one paid attention to him.

..

After leaving that space, the ruins found a remote corner and looked up at the sky.

“Since we’ve regained the initiative, it’s time to contact the outside world. At least let them send a message to Xu Bai.”

“Although Xu Bai still can’t come out, it’s good enough that the Absolute Saint can delay him for a while.”

As he thought of this, the surrounding space trembled. The relic used its own power and approached the door that belonged to this world.

In the human world, in the land of the barbarians.

In the palace’s treasury, Yun Zihai was reading a book carefully.

At this moment, he suddenly felt a tremor in his mind. It was as if someone was calling out to him from the depths of his soul.

“It’s that power again. The door is moving!”

Yun Zihai immediately put down the book in his hand and turned to look at Liu Qingfeng. “Brother Qingfeng, I have something urgent to do. Please protect me!”

Liu Qingfeng was already half a step away from becoming a Saint, and he was trying his best to break through.

At this moment, after hearing Yun Zihai’s words, he put down the book in his hand and nodded in agreement.

He didn’t ask why.

Yun Zihai did not waste any more words and directly immersed himself in his divine soul.

In his mind, countless doors of worlds appeared. He followed the original method and kept wandering in the gaps. Finally, he found the door that sent the message.

Soon, information about the ruins came from this door. The ruins told him everything that had happened there. Due to the large amount of information, Yun Zihai took some time to digest it.

Yun Zihai didn’t dawdle. He followed the method of transmitting information and transmitted the situation in the human world.

Silence fell behind the door. He knew that the being behind the door was thinking.

He didn't say much and waited patiently.

A moment later, another message came.

Yun Zihai spent some time receiving this message. He was in a state of shock.

"So, Brother Xu's plan has a follow-up!"

"He didn't want to come out. He focused his target elsewhere!"

"The existence behind the door only heard the news in the human world and actually analyzed it. It's also immeasurable."

"No, I have to tell this news to His Majesty quickly!"

When Yun Zihai thought of this, he hurriedly bid farewell to the existence behind the door and left the world of his divine soul. As soon as he came out, he met Liu Qingfeng's eyes.

"Brother Qingfeng, I'm sorry to disturb you, but you're very fast. Could you please make a trip to the Great Chu Imperial Palace?"

Liu Qingfeng was slightly stunned, but he quickly reacted and nodded in agreement.

Yun Zihai took a piece of paper and wrote a lot of small words on it. Then, he found an envelope and handed it over.

Liu Qingfeng didn't waste any time. He took it and turned to leave.

Yun Zihai looked at Liu Qingfeng's departing figure and thought to himself, "If it really works, Brother Xu will have a huge improvement!"

Chapter 1098: New Source of the Progress Bar

Yun Zihai clenched his fists, his face full of anticipation. After that, he tried his best to calm himself down. He took a few deep breaths and picked up another book to read.

This was a book about the divine soul. He had been constantly strengthening his divine soul. After all, he was the key to the entire matter. There were countless doors to the world in his mind that could destroy this world, so he had to control himself.

From the moment he knew until now, he had already not increased his strength. Instead, he focused on the divine soul as his main direction.

Only by making his soul more stable could he make those doors tightly shut and not let them come out from inside. Otherwise, after countless worlds came out from inside, the pressure would be very great, and it might even destroy this world.

“Recently, I’ve been controlling the door better and better, but why do I feel more and more uneasy?”

Yun Zihai pondered as he read the book in his hand.

He had always felt that it was too simple. He had also asked Director Mu. After all, Director Mu was currently overseeing the barbarian fief, but Director Mu’s reply was indeed fine.

Later on, he thought about it. Perhaps he was thinking too much, so he stopped thinking about it. However, today, this uneasy feeling appeared again.

” The power of the door is gradually increasing. If I don’t continue to cultivate my soul, I will lose control of it sooner or later. However, the more I cultivate, the more uneasy I feel. What is the meaning behind this contradictory situation?”

“No, I have to go find Director Mu.”

Yun Zihai trusted his intuition very much. Now, his intuition was making him feel that something was wrong. He had to go.

Thinking of this, he didn’t stop and went straight to Director Mu’s residence.

..

The imperial palace of the Great Chu State was far away from the land of the Barbarian Race, but Liu Qingfeng was already half a step away from becoming a Saint. He flew at an extremely fast speed, leaving streaks of light in the air. The distance between them was gradually closing.

Liu Qingfeng Feng kept the letter close to his chest and pressed it with his hand, looking very solemn.

At this moment, he had already arrived at the edge of the Great Chu Imperial Palace. As soon as he arrived, he felt many pairs of eyes staring at him. These gazes were filled with caution. Clearly, they were spies from the Heaven Inspectorate.

However, when they saw him, they quickly retracted their gazes.

These scouts from the Heaven Inspectorate knew Liu Qingfeng's identity, so they did not stop him.

Liu Qingfeng entered the palace smoothly and landed in the courtyard in front of the royal study.

Even though the sky was already dark and the commoners had already gone to bed early, the lights in the royal study were still bright.

The window was already open. Through the window, one could see the Chu Emperor sitting on a chair, reading the memorial in his hands.

With Emperor Chu's strength, he naturally knew that Qingfeng Liu had already arrived. He put down the memorial in his hand and turned to look at Qingfeng Liu. He nodded slightly, indicating for him to come in.

Liu Qingfeng nodded as well. He pushed the door open and closed it behind him. He came before Emperor Chu and said, "Greetings, Your Majesty. This one has come here for an urgent matter. This letter was personally written by Yun Zihai and was given to Your Majesty."

"Oh?" The Chu Emperor was also slightly surprised, and he extended his hand to receive the letter.

He opened the envelope and glanced at the contents of the letter. He raised his eyebrows slightly.

"Zhen already knows. You can go back."

Liu Qingfeng knew that the Chu Emperor was unwilling to say it out loud. He had never read the contents of the book, so he did not want to ask any more questions. He was at a critical juncture right now, and he wanted to return as soon as possible to reach the Saint Realm.

Therefore, he did not stay for long. After cupping his fists and bowing, he left the royal study and soared into the sky, rushing towards the land of the barbarians.

After Liu Qingfeng left, the Chu Emperor tapped his fingers on the table and fell into deep thought. The letter in front of him turned into ashes and disappeared completely.

The power of providence burst forth from the Chu Emperor's body, isolating the surroundings, turning the imperial study into a sealed space. No one could hear the situation inside.

The contents of this letter were truly very important. Even the Chu Emperor had to be extremely careful, and he couldn't reveal any abnormalities.

So even if he was alone here, he must be isolated around him. After all, when he was thinking, some small details were easily exposed.

The Chu Emperor furrowed his brows and pondered in his heart. The order is really like this, it's like a very complicated plan."

The content of the letter was very detailed, but it was also very simple. It was the existence behind the door that Yun Zihai had come into contact with and told him what he had guessed.

The Absolute Saint had suffered a devastating blow, and the time he had been released had been extended. There were many other effects.

The most obvious effects were the people released by the Absolute Saint.

These guys were revived because of the Absolute Saint, and they had the power of an Absolute Saint, which could increase their realms.

These were all things mentioned in the letter, but now that the Absolute Saint had suffered a cruel blow, the power he could borrow was much less.

At this time, there was no room for manipulation.

The letter said that they had to come up with a plan to plot against that group of people, but try not to kill them immediately.

Instead of killing them, he would capture them alive and leave them to leave a mark on this world. Then, he would think of a way to bring this mark to Xu Bai.

Chapter 1099: New Source of the Progress Bar (2)

Originally, this plan could have been implemented in the past, but the Absolute Saint at that time was too strong. If it was implemented, there would be risks.

However, things were different now. After the Absolute Saint was bound, he wasn't as strong as before. This plan could be carried out in all aspects.

"If we really want to implement it, we have to change this tight defense. Otherwise, the other party won't make a move."

The Chu Emperor didn't care why he did this, because Xu Bai definitely had some tricks up his sleeve.

The problem was that they didn't know the enemy's location, so they had been using a tight defensive posture and had already abandoned many cities at the edge.

Now, he had to change his plan. Because of such a defensive stance, the other party would definitely not make a move. If they did not make a move, they would not be caught. If they could not catch them, they would not leave any traces. If they wanted to catch them, they had to change their plan.

"The most important thing is that at the beginning, we adopted a tight plan. If we suddenly let go now, the other party will definitely be suspicious and won't take the bait so easily."

"You have to do it naturally or it will backfire."

The Chu Emperor stood up and paced back and forth in this sealed space. At the same time, his mind kept spinning as he thought about what would happen next.

One plan after another echoed in his mind. After the time it takes for half an incense stick to burn, he waved his sleeve.

The surrounding luck disappeared, and the originally sealed space was completely opened.

"Men." the Chu Emperor said.

A figure quietly entered the room and said respectfully, "Your Majesty."

"Go and call Eunuch Wei, the dean, the female Abbey Dean, and Prime Minister Wen over," the Chu Emperor said calmly. "I have something important to discuss with them."

"Yes, sir!" The scout nodded respectfully and quickly turned into a shadow and disappeared.

After the time it took for an incense stick to burn, Eunuch Wei, the dean, the female Abbey Dean, and Prime Minister Wen arrived.

As soon as they entered the room, the Chu Emperor waved his hand and said, "There's no need to pay attention to this anymore. I have something especially important to do with Xu Bai."

The power of providence continued to reverberate, once again sealing the surroundings tightly.

Eunuch Wei and the others looked at each other. Seeing the current scene, they knew that it was definitely something important. They didn't say anything and waited for the Chu Emperor to continue.

The Chu Emperor first recounted what had happened, then gave them enough time to calm down.

As expected, when the contents of the letter were repeated by the Chu Emperor, everyone present fell into deep shock. Other than shock, there was also a sense of elation.

"That's great. The absolute saint being bound again is a crucial benefit for us." said Eunuch Wei.

The others nodded in agreement.

Their greatest enemy was the Absolute Saint. Now that the Absolute Saint was bound again, the time he could be released was extended, giving them more time to recover.

The Chu Emperor nodded his head and said, "It is indeed a good thing. Therefore, we must seize this opportunity to fight for more benefits for Xu Bai. As you all know, we should change our tactics from now on. Therefore, my plan is very simple. See if there are any areas that need to be modified."

As he spoke, the Chu Emperor revealed all of his plans. After he finished speaking, he fell into silence, waiting for these people to give him an answer.

Eunuch Wei frowned and didn't say a word.

The Headmaster and Prime Minister Wen did not speak either.

Evidently, the three of them had tacitly agreed to the Chu Emperor's plan.

"There's a certain risk," the female Abbey Dean said. "We don't know what those two are thinking."

“Your Majesty, what you said about winning in the chaos is indeed very good, but you have to consider this. If the two of them still have second thoughts, then it will be very easy for something to happen.”

The Chu Emperor said, “You’re right. If these two people have second thoughts, it’s indeed easy for something to happen. Therefore, the entire plan needs to be carried out under our strict control. If they show the slightest bit of second thoughts, then We will act and kill them, just in time to free up two more positions.”

The female Abbey Dean knew that the Chu Emperor wanted to continue with this plan.

She didn’t say anything. In fact, at present, the Chu Emperor’s plan was indeed the most suitable.

Everyone stopped talking.

The Chu Emperor knocked on the table and stood up. “If that’s the case, then we’ll act according to this plan. Quickly go and inform them.”

“Yes, sir!” Eunuch Wei and the others agreed.

The Chu Emperor waved his hand and released the power of fate in the surroundings. Only then did Eunuch Wei and the others leave.

After Eunuch Wei and the others left, the Chu Emperor closed the window and returned to his seat. He looked at the oil lamp on the table and the flickering flames.

“I hope we can find their nest directly this time. That way, we can achieve our goal according to Xu Bai’s instructions.”

“However, before that, we need to inform Xu Bai and let him know that we’ve already begun our operation.”

The oil lamp swayed as if it was responding to the Chu Emperor...

..

Bizarre market.

Xu Bai was chatting with Ah Boring.

In this lonely environment, only the two of them could chat with each other. As the main way of killing time, the two of them chatted happily.

From the south to the north, from that ancient era to the present, the two of them talked about almost everything.

At this moment, Xu Bai suddenly had a thought and looked up at the sky.

The sky trembled slightly, and the dark red sky became a little blurry.

“Someone else died.” Xu Bai narrowed his eyes and stopped talking. He directly rose into the air and arrived at the end of the sky.

Ah Wu didn’t follow. Everyone had their secrets, and she didn’t want to get involved, so she stayed where she was.

Xu Bai followed the old method and opened a big hole in the sky with his True Core Strength. Then, he threw himself into the hole.

The hole was repaired and soon disappeared. The sky returned to normal.

In this mysterious space, a few prisoners were standing there with blank faces. They obviously didn’t know what was going on.

Xu Bai didn’t waste any time. He used his soul to control all the prisoners.

Soon after, the prisoners who were being controlled were stunned. Their hands and feet were stiff as they took out a letter from their chest and handed it to Xu Bai.

Xu Bai took the letter and scanned its contents. After destroying the letter, a comfortable expression appeared on his face.

” The remains are really smart. They understood my thoughts. It’s done.””

This was his follow-up plan.

In fact, he had long since cast his gaze at those people from the Era of Ten Thousand Nations, but he had never had a good opportunity to do so.

The Absolute Saint had been very powerful before. If he had attacked at that time, he might have used some strange methods. However, it was different now. He had used the giant tree to weaken the Absolute Saint, and the ruins had successfully extended the time the Absolute Saint had come out. In this case, the Absolute Saint’s methods would be greatly reduced.

And during this period of time, Xu Bai would be able to completely use his methods on the people of the various countries.

He no longer had a source for the progress bar. Even if he did, it was like a drizzle.

Such a small progress bar was not of much use to his current strength.

In that case, if he wanted to obtain a huge improvement, he could only rely on the people of the Era of All Nations. At first, he could enter the ruins to search for them, but now that everything in the ruins had been released, he could only rely on the people of the Era of All Nations.

In his eyes, these people were no longer just humans. They were living progress bars. As long as the Chu Emperor's plan was in place and they left traces behind, he would definitely be able to improve tremendously through this method.

Xu Bai looked at the prisoners in front of him disappearing and reviving. He was so happy that he couldn't help but laugh.

"Even if I don't go out, I can still improve my abilities. Absolute Saint, when I reach my limit, I'll come and settle the score with you!"

Chapter 1100: The Strategy Unfolds

With a new way to obtain the progress bar, Xu Bai was happy. After thinking for a while, he did not stay any longer. He directly broke through the space and returned to the Bizarre Market.

The hole in the sky gradually repaired itself and returned to normal.

Xu Bai looked at the dark red sky and felt a little emotional.

"Looks like you're very happy because something good happened, right?" Ah Wu stayed where he was and asked with a smile after Xu Bai returned.

Xu Bai came back to his senses and turned around with a smile. "This time, I can only say that the Absolute Saint shot himself in the foot."

"Oh?" A Wu revealed an interested expression and asked, "Why?"

As long as it was related to the Absolute Saint, she was very interested.

After all, she had once fought against the Absolute Saint. Now that she saw the Absolute Saint suffer, she was naturally happy.

"The Absolute Saint wanted to use the people of the Era of All Nations to weaken our world," Xu Bai said. "He even wanted to destroy our world in one fell swoop. However,

he didn't expect that the people of the Era of All Nations could provide me with endless resources. You know what resources they are."

Of course, Ah Wu knew. After all, Xu Bai's golden finger had been passed down from their era.

"So that's how it is. It seems like you will have a huge harvest."

Now, all the resources had been cleaned up by Xu Bai. To Xu Bai, having so many resources from the era of ten thousand countries was a bloody profit.

"Not only me, you should have gained something too," Xu Bai shrugged."

This thing was related to the progress bar. Xu Bai was done for, but he didn't know if Incompetent could do it. If he could do it, it would be a huge gain.

"I don't have it anymore when it extends to you," Ah Wu shook his head and said."

Xu Bai understood.

This thing was obviously not something that ordinary people could make, and it was not the so-called mass production.

"This time, you should have a huge improvement. Now, I suddenly agree with what you said." "Perhaps you can really achieve the final victory," Ah Wu suddenly said."

Xu Bai smiled but didn't answer.

He didn't continue on this topic. He changed the topic and talked about something else with Ah Wu.

..

Time gradually passed. In the blink of an eye, nearly a month had passed.

During this month, the Great Chu State did not have a good time, including the land of the barbarians and the current Great Yue State.

The use of shrinking tactics would shrink a large number of people, causing the land area to overload.

Due to the overload of land area, grain had become a scarce commodity. Of course, the Great Chu State had opened its granaries to release grain. At present, everything was still very stable, but no one knew how long this stable situation could last.

However, it was fortunate that the Chu Emperor was good at pacifying the hearts of the people. The commoners did not panic, and it seemed that everything was still peaceful.

However, this peace did not last long. Today, a huge change occurred.

The Great Yue Country was in chaos!

The Great Yue State, which was originally subdued by the Great Chu State, suddenly rebelled today. It brought a large number of troops and fled far away to a remote place.

After this situation happened, everyone was still in shock because it happened too suddenly and they were not prepared at all.

In this case, the Great Chu State gave a very simple answer.

Kill without hesitation!

In just a short period of time, the Great Chu State had launched a very fierce offensive. Under the encirclement and interception, the rebels of the Great Yue State had been chased to the ends of the earth.

Liu Yue and Bai Zhong led a large number of troops and trusted aides to hide from place to place, but they managed to survive in the cracks.

The whole Jianghu was in an uproar when the two Saints escaped. They went around to find out the reason and finally came to a conclusion.

He was afraid!

The two Saint Realm warriors were scared of their opponent.

The people in Jianghu guessed that these two people must have gotten some insider information. Otherwise, it was impossible for them to run so fast.

Of course, guesses were just guesses. No one knew what would happen in the future. At the very least, the Great Chu Country was still chasing after them on the surface. It was just that they had not caught up for the time being.

This matter was indeed extremely shocking, but soon, everyone continued with what they were doing. Whether it was the people of the martial world or the people of the imperial court, they continued to increase their strength.

The news was like a bird that had grown wings, constantly spreading and finally reaching the endless sea.

Ning Weiyue looked at the letter in his hand. After reading the contents, he crumpled the letter into a ball and frowned.

Beside him, two armored soldiers lowered their heads, not daring to say a word.

The scene was solemn, and the soldiers did not say much. A cold aura flowed continuously around Ning Weiyue.

"You couldn't find the reason, so you fled with those people just because you were afraid?" Ning Weiyue asked.

The soldier cupped his fists, and the armor on his body made a rustling sound. "Yes, that was the only reason. They fled to an extremely hidden place and could no longer be found."

Ning Weiyue fell into deep thought.

The people around them didn't even dare to breathe loudly. After all, this woman in front of them was the number one person below the Saint Plane in all the eras.

They also knew that at this moment, Ning Weiyue must be thinking about the follow-up plan, so they did not dare to disturb him.
