Chapter 1136: Forced by Tian Xing

It had been like this since not long ago. Ah Wu had been stammering, and no one knew what he was thinking.

Xu Bai had been waiting for Ah Wu to tell him his thoughts, but Ah Wu still hadn't said a word.

He couldn't wait any longer, and the current time didn't allow him to wait.

Some things depended on the occasion. For example, the atmosphere had already reached this point. If she still did not say anything, she would not be giving him face.

Ah Wu met Xu Bai's determined gaze and avoided it as he said, "How about... " Let's just hide here. The place I'm staying at is very safe. Even if the Absolute Saint comes out, he won't be able to find us. We can continue like this. Although it's a little boring, it's at least a ray of hope."

When he said this, Ah Wu looked very ashamed.

As the main force that had once fought against the Absolute Saint, she had now become cowardly, making her blush.

Xu Bai squinted at Ah Wu and said, "You've said this to me before. If you say it now, I won't believe it. If you hide there, hope will be extinguished. Tell the truth, you definitely have a way."

He had been with Ah Wu for so long that he knew Ah Wu's character. What Ah Wu said just now was nothing more than an excuse to confuse him.

As for what the truth was, only Ah Wu knew.

A Wu hesitated, his eyes drifting and his hands unnaturally grabbing the corner of his clothes. After a long while, he finally gritted his teeth and said, "Before the strongest of us died, he once said that he hid something very important to turn the tables."

Turn the tables?

When Xu Bai heard these words, the corner of his mouth twitched. "Why didn't you say so earlier?"

He should have said it earlier. He didn't know how much effort he had wasted to say it now.

Ah Wu smiled bitterly." I really want to tell you too, but that place is very dangerous. I know your personality. You like to take risks. In fact, I'm still unwilling to tell you until now."

"Tell me." Hearing Ah Wu's words, Xu Bai became even more interested.

Adventurous?

Why not take the risk now?

They were in extreme danger now. The Absolute Saint would definitely settle the score with him after he came out.

If he maintained this state of not moving an inch forward, he would only die. As Ah Wu said, would a place that could save his life be safe?

No one could guarantee that, including Ah Wu himself.

Therefore, taking risks was worth it. At least for now, taking risks was the only way.

"Only I know where it is." Ah Wu lowered his head and organized his words before he slowly said,""The entrance is where you and I met. That is the resentment left behind by countless worlds. After all of us failed, it was infinitely magnified."

Xu Bai frowned when he heard that.

Just like Ah Wu had said, this name sounded dangerous.

In that era, countless worlds fought against the Absolute Saint, but they had beaten him until he only had one eye left. He still hadn't recovered. That was a place that hurt him, and he probably still hadn't recovered from the pain.

After that, countless worlds lost and were gone.

Now, hearing the resentment of countless worlds, just thinking about it, he knew how dangerous it was.

"Even if it was me, it would be very easy to get lost after entering. Do you know that once I get lost inside, I will become a part of the resentment."A Wudao.

"Is there any way to avoid it?" Xu Bai asked."

Ah Wu nodded.” Yes, unless you are an ordinary person. The resentment will not be directed at ordinary people. This was set up by the strongest among us. After all, Tian Xing had already betrayed us at that time, so he had to consider the possibility of another traitor appearing.”

“However, after ordinary people enter, they don’t have the strength to come out at all. Therefore, it seems like a solution, but it’s actually an endless loop.”

Those with abilities would be lost and become a part of the resentment.

Ordinary people would not be able to come out after entering. They would slowly fall into a long period of loneliness until they died of old age.

It sounded like it was really a dead end.

“What if my clone goes in?” Xu Bai muttered.”

A Wu shook his head and said,”If the avatar enters, it will follow the avatar to corrupt you. In the end, your main body will also be lost and become a part of you.””

Xu Bai remained silent.

Ah Wu smiled bitterly and said,” This is a situation where you will definitely die. Actually, it’s not risky at all because it’s impossible. Are you still willing to go in now?”

Xu Bai didn’t answer, but he wouldn’t go in for the time being.

If there was even a glimmer of hope, he would choose to go in. But the situation now was different. Just as Ah Wu had said, this was a situation where he would definitely die.

“We can’t leave the Bizarre City now. We’ve been completely cut off.”Xu Bai said.

Not long ago, he had tried it, and those circular patterns had all lost their effect overnight.

“Let’s wait a little longer.” Ah Wu sighed.” Now, you’re right. There’s no need for us to hide. If we really face despair, we might as well risk our lives to enter that world.”

She had already given up, but what Xu Bai had told her just now made her think things through.

Yes, hiding for a lifetime was not a problem. Moreover, it might not be possible to hide for a lifetime.

The two of them stopped talking, but the atmosphere was unimaginably heavy.

..

In the human world.

Within the land of the barbarians.

At this moment, the top experts in the world were gathered here, looking at the man in front of them.
