

Unparalleled 1671

Chapter 1671 A Prodigy Before The Thousand Swords Calamity? Showing Strength, Ancient Central Heaven Planet

On an ancient star where the Spiritual Sword Tribe resided, winds and clouds billowed while thunder struck the land.

The Spiritual Sword Tribe looked into the distance in amazement, and the expression of the Spiritual Sword Tribe Leader was solemn. "That's the ancestral land of the Spiritual Sword Tribe!"

Everyone looked at each other before their figures flashed and flew toward the distance.

In the ancestral land, Chu Kuangren broke through the enchanted boundary with his sword and walked out slowly.

As his Immortal Consciousness spread, he sensed some auras from the ancestral land. Those people should be the Prodigies and sky-prides of the Spiritual Sword Tribe who devoted themselves to cultivation.

However, he ignored them after taking a glance at them.

Based on the memory of the young man in purple, those Prodigies had been on the ancestral land for an extremely long time. Some of them had even been on this land for many eras and seemed to be anticipating some Opportunity of Fortune.

Even the current Spiritual Sword Tribe Leader had no idea how many people were on that ancestral land and who they were.

Since he was now cultivating the Spiritual Sword Tribe's Supreme Sword Art, he was not afraid that his identity being revealed.

Some great ones were proficient in deduction technique, especially those Embodier old monsters, who were also Central Heaven Universe's God Kings.

However, he still did not seem to be bothered by it.

Deduction technique?

None of the Pan Gu Universe great ones could deduce his fate, let alone the Central Heaven Universe great ones.

Swish, swish...

The Spiritual Sword Tribe Leader told a group of elders to come to the ancestral land to monitor the surging winds and thunders in the sky above the land. Their eyes were filled with surprise and doubt.

"Such an aura seems to be from the Spiritual Sword Tribe's Supreme Sword Art, Thousand Terrain Sword Art."

"In the history of Spiritual Sword Tribe, very few people could cultivate the Thousand Terrain Sword Art to the expert level. Who could it be?"

“No matter what, the Spiritual Sword Tribe now has another Prodigy.”

The Spiritual Sword Tribe Leader looked into the depths of the ancestral land with some excitement and curiosity.

In the distance, a young man in white with Immortal Sparks radiating all over his body walked out of the ancestral land slowly, and his every movement seemed to transcend the universe.

Everyone was amazed by just one glance.

The person before them was extraordinary.

He approached them from the depths of the ancestral land. His unstained robe was as white as snow, and his gaze was as calm as water. It was as if he was a True Immortal who had descended to earth, and everything around him dulled in comparison to him.

“Who are you?” the Spiritual Sword Tribe Leader asked curiously.

“Who am I...”

Chu Kuangren stared deep into the starry sky. “It’s been too long, so long that I’ve almost forgotten my name. You can call me Chu Kuang!”

The Spiritual Sword Tribe Leader and others exchanged glances.

They had never heard of Chu Kuang before. However, his tone was so majestic. It was as if he was a super ancient Prodigy.

“Could he be a Prodigy before the Thousand Swords Calamity?!”

An elder’s eyes widened in shock.

The Thousand Sword Calamity was a disaster that the Spiritual Sword Tribe experienced countless years ago.

The disaster caused the Spiritual Sword Tribe to decline from a top-notch King Tribe to an ordinary King Tribe. At one point, they even had the risk of losing their King Tribe status.

Fortunately, a peerless genius was born later in the Spiritual Sword Tribe and gained the position of God King, which stabilized their status as the King Tribe.

“Before the Thousand Sword Calamity, many sky-prides and Prodigies were born in the Spiritual Sword Tribe. It’s normal for a Prodigy before the Thousand Sword Calamity to cause such conjuration,” the Spiritual Sword Tribe Leader mumbled with his eyes burning with desire.

The only two Prodigies in the Spiritual Sword Tribe, who were listed on the Heavenly God Leaderboard, died in the universe-connecting portal. Now, a Prodigy who seemed even more powerful was born.

Perhaps it was all fated.

“Chu Kuang, can you show me your power?” asked the Spiritual Sword Tribe Leader.

“How do I show it to you?”

“Attack me with your sword,” the Spiritual Sword Tribe Leader said firmly.

He was a Perfected Arch Gilded Immortal and was confident that he could take a Prodigy’s sword attack.

“Alright.”

Chu Kuangren nodded and then put up a sword hand sign to activate his Immortal’s Core.

In an instant, an extremely tyrannical sword aura swept across the land to suppress the realm!

Except for the Spiritual Sword Tribe Leader, the rest of the elders’ eyes narrowed, and they looked solemn.

Was that the aura of a Trinity Flower or Five Qi Arch Gilded Immortal?

“Sword, Thousand Terrain!”

Chu Kuangren struck forward with his sword, and a silver-white sword ray suddenly appeared above the sky and evolved a natural phenomenon!

His sword attack was much more powerful than the young man in purple.

The earth, wind, water, fire, Yin and Yang, life and death...

Not only did the scenes of natural elements emerge, but they also contained the invisible order of the cycle of rebirth!

The sword ray was like a real world, dazzling and boundless!

Soon after, the Spiritual Sword Tribe Leader narrowed his eyes, yelled, and channeled his strength to its limit to unleash a sword attack.

As a Perfected Arch Gilded Immortal, his sword qi was incomparable to that of an ordinary sword cultivator.

Moreover, he pursued the Murderous Dao, which was even more powerful!

Boom!

As the two sword qis collided, an explosion erupted in that particular space. Soon, a terrifying energy spread and shook most of the Ancient Spiritual Sword Planet.

A few of the Spiritual Sword Tribe elders retreated with horror in their eyes.

“That aura belongs to a Perfected Thousand Terrain Sword Art!”

“He has cultivated the Thousand Terrain Sword Art to the Perfected level. After the Thousand Sword Calamity, no one has ever achieved this for countless years!”

“He’s indeed a Prodigy before the Thousand Sword Calamity!”

Once the energy storm gradually subsided, two figures were seen facing each other.

The Spiritual Sword Tribe Leader laughed while looking at Chu Kuangren opposite him. "Good God! With your existence, the Spiritual Sword Tribe is bound to win the battle in the Ancient Central Heaven Planet!"

He was very satisfied.

He could tell that although Chu Kuangren was a Trinity Flower Arch Gilded Immortal, his combat strength surpassed anyone in the realm!

His strength could be ranked top ten on the Heavenly God Leaderboard!

Chu Kuangren's eyes lit up upon hearing the mention of the Ancient Central Heaven Planet.

He learned from the memory of the young man in purple that the Central Heaven Universe had seven ancient stars, which were said to be the first seven ancient stars that existed in the universe!

According to rumors, tonnes of Opportunities of Fortune would emerge in the Ancient Central Heaven Planet when the seven stars were connected.

In addition, many of the existing God Kings in the Central Heaven Universe took advantage of the opportunities on the ancient planet to set foot successfully. This proved the status and importance of the ancient planet.

"Interesting."

Chu Kuangren said with a smirk.

Once the Ancient Central Heaven Planet was activated, it would inevitably attract all forces of this particular space. All sky-prides and Prodigies would head to the ancient planet to compete for opportunities.

By that time...

An icy look flashed across Chu Kuangren's eyes.

The Central Heaven Universe set up a trap to destroy Pan Gu Universe's sky-prides and Prodigies so that Pan Gu Universe would be left in limbo, and its combat strength would be weakened.

As such, he wanted an eye for an eye!

He could kill sky-prides and Prodigies of all forces once the Ancient Central Heaven Planet was activated.

However, he needed to gain a foothold in the Ancient Central Heaven Planet now, which was not a problem for him.

After gaining the Spiritual Sword Tribe Leader's trust, he temporarily settled down in the tribe.

Soon, the news of the Spiritual Sword Ancestral Land's emergence spread completely.

Countless members of the Spiritual Sword Tribe wanted to meet the Prodigy.

At this moment, the Spiritual Sword Tribe Leader and Sword Tribe elders were discussing an important matter which was closely related to Chu Kuangren.

Chapter 1672 The Heavenly Sword Prophecy, Sword God King, Thousand Sword Peak

“Chu Kuang’s strength is obvious to all. Let’s share our thoughts,” said the Spiritual Sword Tribe Leader.

Upon hearing his words, several Spiritual Sword Tribe elders looked at each other.

“Chu Kuang’s strength is indeed formidable, and he’s almost as powerful as Chen Feihu. We will gain something if he can represent Spiritual Sword Tribe to participate in the banquet on Ancient Central Heaven Planet. Moreover, he’s the only Prodigy who has managed to cultivate the Thousand Terrain Sword Art to the Perfected level. He will definitely be our tribe’s pillar in the future!”

“He might even be as powerful as the Sword God King!”

The Sword God King was a supreme existence in the Spiritual Sword Tribe and the pillar of the Spiritual Sword Tribe.

The Spiritual Sword Tribe could solidify its status as the King Tribe because of the Sword God King’s presence. Otherwise, they would have fallen from the position of the King Tribe long ago.

“Yeah. Chu Kuang’s strength is indeed extraordinary. Do you remember the... Heavenly Sword Prophecy?!” asked the Spiritual Sword Tribe Leader.

Every one shuddered, and their expression suddenly turned solemn.

“It’s an ancient prophecy passed down from generation to generation by the Spiritual Sword Tribe... Once the Heavenly Sword emerges, thousand of swords will surrender, and the Heavenly Sword will be above the sky!”

That prophecy had been around for a long time in the Spiritual Sword Tribe and the world of sword cultivators. After the Thousand Swords Calamity, a great one from the Spiritual Sword Tribe, who was proficient in deduction, risked his life to come up with the prophecy.

It was said that Heavenly Sword would lead the Spiritual Sword Tribe to stand at the peak of the universe and create an unprecedented feat!

They initially thought that the Heavenly Sword was the Sword God King. However, the Sword God King later admitted that he was not the Heavenly Sword but someone else.

Then, Chu Kuangren emerged. The Spiritual Sword Tribe Leader was amazed by his strength and even suspected that he was the Heavenly Sword in ancient rumors.

“I’m going to consult the Sword God King. Perhaps he can provide us with the answer.”

“Let’s go.”

Soon, the Spiritual Sword Tribe Leader came to a giant mountain that was millions of meters tall on the Ancient Spiritual Sword Planet!

The giant mountain towered over the sky, like a huge sword impaled into the ground. It was surrounded by infinite sword qi, and a sharp qi welcomed them from a distance.

The Spiritual Sword Tribe Leader and others passed through the endless sword qi before and arrived at the peak of the giant mountain.

At the peak of the giant mountain stood a person wearing gray robes, who had silver hair and a clean face, looking around at his surroundings.

He stood there with hands behind his back, and the sky and earth around him seemed to have merged into one.

Everyone looked at him as if he was a divine sword that pierced through the heavens and earth. The boundless sharp qi made their sword heart tremble.

“Greetings, Sword God King.”

The Spiritual Sword Tribe Leader and others greeted the elder before them respectfully and dared not be rude as he was the one who supported the Spiritual Sword Tribe and enabled them to keep their status in the King Tribe. Without him, the Spiritual Sword Tribe would not be where they were today.

“I already know your purpose here,” said the Sword God King.

The Spiritual Sword Tribe Leader and others were not surprised as the Sword God King, the most powerful elite in the Spiritual Sword Tribe, knew about everything happening in the tribe.

“I, too, have no idea if Chu Kuang is the Heavenly Sword.”

Everyone was slightly surprised because even the Sword God King did not know if Chu Kuangren was the Heavenly Sword.

As the Sword God King opened his eyes, a sword ray flashed across them. His gaze, which was as sharp as a sword, pierced through the River of Fate to peep into Chu Kuangren’s fate.

Unfortunately, he could only see a strange non-existent fate!

On top of that, the one with the non-existent fate seemed to be an unfathomable and unbearably terrible existence. He knew that he might suffer repercussions if he continued peeping.

It was the first time in countless years that he encountered such an elusive fate.

He failed to fathom the Chu Kuangren’s fate, let alone speculate whether he was the Heavenly Sword.

“Although I have no idea if he’s the Heavenly Sword, you guys can ask him to get the Void Sword from the Thousand Sword Peak. The Heavenly Sword suppresses the Void Sword, so if he can take the sword, he’s likely the legendary Heavenly Sword.”

The Void Sword was a top-notch divine sword in the Spiritual Sword Tribe and an Innate Supreme Treasure born in the Central Heaven Universe!

For countless years, no one had been able to make that Supreme Treasure recognize its owner.

It was said that the sword was waiting for its owner, and someone speculated that the Void Sword’s master would be the rumored Heavenly Sword!

“We understand.”

The Spiritual Sword Tribe Leader nodded and then left.

Meanwhile, the Sword God King remained standing on the mountain peak while looking at the sky. “Chu Kuang, the Heavenly Sword... What an interesting man. It seems like my Spiritual Sword Tribe is done with being lonely.”

Over the years, even though the Sword God King had been watching over the Spiritual Sword Tribe, the tribe could not make further progress because it did not have remarkable Prodigies.

Although the Spiritual Sword Tribe Leader could be regarded as an outstanding Prodigy, it was tough for him to improve. Therefore, a more outstanding person was needed for the Spiritual Sword Tribe to make progress.

The late Chen Feihu and Chen Feilong were not outstanding enough in the eyes of the Sword God King, but Chu Kuang’s emergence gave him some hope.

It all depended if he could pull out the Void Sword.

“The Void Sword?!”

Chu Kuangren pondered when he heard the Spiritual Sword Tribe Leader’s words.

How interesting.

If he could pull out the Void Sword, his position in the Spiritual Sword Tribe would be more stable.

However, nothing much would happen to him if he failed.

After all, his talent and strength would be valued even if he failed to be the Heavenly Sword.

Chu Kuangren was slightly interested in the Void Sword that no one had been able to pull out, and he wanted to give it a try.

“Is it at the Thousand Sword Peak? I will give it a try,” said Chu Kuangren.

The Thousand Sword Peak was a mountain on the ancient planet of the Spiritual Sword Tribe. Together with the Divine Sword Peak, where the Sword God King lived, it was known as Ancient Spiritual Sword Planet’s Twin Peaks.

Many swords were impaled into the ground on the Thousand Sword Peak. Some of them were made by the Spiritual Sword Tribe, while some of them were left by those who came to the Spiritual Sword Tribe to challenge themselves but failed.

The Thousand Sword Peak was not only a place to store swords but also an excellent place for cultivation.

As the Spiritual Sword Tribe cultivated Sword Dao, the sword qi at the Thousand Sword Peak helped them to sharpen their sword qi and refine their Sword Dao.

Since countless long swords were impaled into the ground on the Thousand Sword Peak, many of the Spiritual Sword Tribe’s cultivators cultivated either at the foot or on the side of the mountain. Only a very small number of sky-prides and Prodigies could resist the endless sword qi and cultivate on the

peak of the mountain. From that fact alone, climbing the Thousand Sword Peak also tested the strength of the Spiritual Sword Tribe.

One with more powerful strength could climb higher.

On that day, at the foot of Thousand Sword Peak, a young man dressed in white approached slowly, attracting many Spiritual Sword Tribe members' attention.

It was because the person who approached possessed an extraordinary aura, and there was a sense of transcendence in his gestures.

"Who is this person? His aura is so intense. Why have I never heard of him in the Spiritual Sword Tribe before?"

"Tsk tsk. You guys have no idea about this. Apparently, he came from the Spiritual Sword Ancestral Land."

"The Spiritual Sword Ancestral Land? Could he be an ancient Prodigy?!"

"That's right. The tribe leader and others have met him before, and they also praised his strength. His talent and strength are said to be even greater than that of Chen Feihu!"

Chapter 1673 Climbing The Thousand Sword Peak, Thousand Terrain Sword Intent, The Void Sword's Aura

Under the Thousand Sword Peak, countless people looked at Chu Kuangren while engaged in a discussion.

Chu Kuangren ignored them and looked at the Thousand Sword Peak with nostalgia. There was a mountain like that in the Black Heaven Sect too.

However, the Thousand Sword Peak before him was many times larger than the one in Black Heaven Sect.

A random sword from it could wipe out the Black Heaven Sect's mountain in his memory.

Hum...

The Descendant Self Sword at his waist trembled as if it had read Chu Kuangren's thoughts and was unconvinced by his thoughts.

After all, the Descendant Self Sword originated from the Sword Peak in the Black Heaven Sect.

Chu Kuangren smiled and pressed on the hilt of his sword. "I didn't mean you're inferior to these swords. You're much more powerful than them."

Hum...

The Descendant Self Sword trembled again as if questioning, 'Why do you need the Void Sword? Do you not love me anymore?'

"Ten or even a hundred Void Swords can't compare to you. However, I need to gain a foothold in the Spiritual Sword Tribe, and the Void Sword will benefit me, so I might need you to bear with it."

“Be good, and listen to me.” Chu Kuangren consoled the Descendant Self Sword.

Everyone looked at each other, thinking that the Prodigy from the ancestral land suffered from hysteria because he was whispering to his sword.

Could it be that he regarded the sword as his lover?

“His love for swords has become an obsession. As expected of a Prodigy from the ancestral land.”

“A sword cultivator should have such sentiment.”

“Since he is so obsessed with swords, his Sword Dao prowess must be extraordinary.”

After seeing Chu Kuangren’s act, everyone admired him instead of looking down on him.

As a tribe that cultivated the Sword Dao, the Spiritual Sword Tribe had an extraordinary affection for swords, and many of its members were extremely passionate about swords.

Some extreme ones even regarded swords as more important than their lives.

After reassuring the Descendant Self Sword, Chu Kuangren looked at the top of the Thousand Sword Peak and noticed a pitch-black quaint iron sword impaled into a large azure stone on the mountain.

The sword stood at the top of the mountain without any sword shadowing it.

It seemed that no sword could stand beside it!

That sword was the purpose of Chu Kuangren coming here. It was known as the Thousand Sword King... The Void Sword!

Chu Kuangren took a step forward to enter the range of the Thousand Sword Peak.

In an instant, an incomparably domineering sword aura spread from all directions. It was the aura of countless swords in the Thousand Sword Peak, which was sharp and majestic!

At that moment, Chu Kuangren was in a sea of swords.

However, his expression remained indifferent. He walked toward the top of the Thousand Sword Peak without a care about the sword aura around him.

To him, the surging sword aura was like a mere gust of wind, not affecting him in the slightest.

“As expected of a Prodigy from the ancestral land. He’s indeed different.”

“Wow, he is extraordinary.”

Everyone’s eyes lit up upon seeing the scene.

“I think he can reach the top of the mountain! It’s even possible for him to step into the Void Sword Domain,” said a Spiritual Sword Tribe sky-pride.

The Void Sword Domain, which was located at the top of the mountain, was a domain formed by the Void Sword’s aura. It was so mighty that even the most powerful Prodigy of the Spiritual Sword Tribe dared not set foot in it.

Chu Kuangren walked toward the top of the mountain, step by step.

It did not take long before he finally reached the top of the mountain. Even though the sword aura was getting stronger, he did not stop. He was walking at a leisurely pace as if he was on an outing. In the entire Spiritual Sword Tribe, only a few people could achieve his level, which was difficult to achieve even for the late Chen Feihu and his ilk.

His actions caught many people's attention.

"He's powerful!"

"His strength is no worse than Chen Feihu."

A sword cultivator looked at Chu Kuangren with a gleam in his eyes.

His name was Ling Fei, and he was one of the few Prodigies in the Spiritual Sword Tribe who was second only to Chen Feihu. Although he was not listed on the Heavenly God Leaderboard, his strength was impressive.

"Are you interested in challenging him?"

A sword cultivator looked at Ling Fei and smiled.

"As a swordsman, isn't it normal to challenge someone more powerful than me?" Ling Fei questioned with sword intent surging on his body.

"Well, that's true."

"Wait. Look. What's he going to do?"

Suddenly, someone noticed that Chu Kuangren did not stop after reaching the top of the mountain. Instead, he walked in a direction of... the Void Sword!

"Void Sword? He's going to find the Void Sword!"

"Is he going to attempt pulling out the Void Sword?!"

Someone thought of something, and his pupils widened in shock.

To the countless swordsmen in the Spiritual Sword Tribe, the Void Sword was the supreme divine sword!

From ancient times to the present, no one had been able to pull out the sword, not even the current tribe leader or Chen Feihu, the late Prodigy of the Spiritual Sword Tribe.

Perhaps the legendary Sword God King could pull it out.

However, the Sword God King did not try to pull it out for some reason, or perhaps he tried to do so but no one knew.

"Perhaps he just wanted to enter the Void Sword Domain to feel its aura." A sword cultivator guessed.

After all, someone had tried to cultivate using the Void Sword's aura after entering the Void Sword Domain.

The Void Sword's aura covered a radius of ten thousand meters from the sword, which was also the range of the Void Sword Domain.

Chu Kuangren walked toward the Void Sword and soon entered its domain.

Boom!

An aura that was far more powerful than other swords swept across the land and completely enveloped Chu Kuangren in an instant!

The aura was so powerful that even an Arch Gilded Immortal felt pressured.

Chu Kuangren halted in his step and then smiled before he continued to walk forward.

He remained walking toward the Void Sword at a leisurely pace with a sword intent circulating him!

It was not difficult for him to transform the Arch Gilded Intent into sword intent.

Chu Kuangren managed to cover half of the distance of the ten thousand-meter radius quickly. If he were to walk forward a little more, he would reach a forbidden area that the younger generation of the Spiritual Sword Tribe could not set foot in!

"No sky-prides or Prodigy has been able to set foot within five meters of the Void Sword!" Ling Fei said in a solemn tone.

"He has successfully stepped in!"

In a few seconds, Chu Kuangren was only five meters away from the Void Sword.

Everyone's face was ashen.

Meanwhile, the Void Sword seemed to have been provoked. Its body trembled slightly, and a cold and domineering sword aura erupted.

Chu Kuangren could feel a hint of arrogance from the sword aura, as if it looked down on the entire world.

"Interesting."

"Do you really think that no one can subdue you?" Chu Kuangren questioned indifferently.

As the Void Sword released its sword aura, his sword intent also intensified!

The sword intent was transformed into thousands of illusions of surging thunder and raging fire. They seemed to be able to destroy life and death, yin and yang, and reset reincarnation!

The Thousand Terrain Sword Intent and Void Sword's aura collided!

One of them was everchanging while the other was supreme!

As the two forces intertwined, the surrounding air transformed into countless dense and raging sword qi!

The entire Thousand Sword Peak shook due to the resistance of the two energies.

Chapter 1674 A Mad Sword Meets A Madman, The Void Sword Emerges, The Heavenly Sword Has Been Unsheathed

The collision of the sworn intent and sword aura caused the entire Thousand Sword Peak to tremble.

Many swords were also trembling. It was as if the power from the battle of the two sword supremes made them submit.

Clang! Clang!

Many swords broke due to the resistance between Chu Kuangren and the Void Sword's aura!

The expressions of Spiritual Sword Tribe cultivators sank, and they immediately retreated, for fear of being affected by the aftermath of the two energies' collision.

"It's too powerful. No one has ever been able to fight the Void Sword to this extent!"

"A Prodigy from the ancestral land really is extraordinary."

"It seems that his target this time is indeed the Void Sword. After so many years, someone has finally come to challenge the Void Sword."

The Void Sword had been gaining power in the Spiritual Sword Tribe for a long time. At first, many sky-prides and Prodigies, who had just debuted, wanted to take the sword and thought that they were the destined master of the sword!

However, as time passed, no one challenged it anymore.

Everyone looked at Chu Kuangren, and no one thought that he could succeed. Countless people's failures over the years showed that it was almost impossible for the Void Sword to recognize its master!

The fight between Thousand Terrain Sword Intent and Void Sword's aura became greater.

Even the Spiritual Sword Tribe Leader and others were shocked.

Their gaze turned solemn when they scanned the scene with their Immortal Consciousnesses and noticed Chu Kuangren's actions.

"He has started trying to get the sword!"

"Will he succeed?"

Chu Kuangren's act of taking the sword moved the hearts of all the Spiritual Sword Tribe's higher-ups. Even the Sword God King, who was far away on the Divine Sword Peak, could not help but pay attention to what was happening.

Chu Kuangren soon covered a distance of five meters.

At that moment, Chu Kuangren was only a few dozen meters away from the Void Sword.

Nine meters, eight meters, seven meters...

The sword intent and sword aura became even more terrifying!

Soon, sword intent circulated Chu Kuangren's body, and he stepped forward firmly with bright Immortal Sparks circulating him!

The Void Sword trembled, and its sword qi entwined before its sword aura rose into the sky and shook the land in every direction!

The area of impact of the fight between a man and a sword was not limited to the Thousand Sword Peak as the entire Ancient Spiritual Sword Planet was trembling.

The vibration of the Ancient Spiritual Sword Planet attracted some people in the vast universe who were interested in it.

Many people tried to deduce what was going on, but soon, they were surprised and shocked.

"What's going on here? How could there be such a treacherous fate? What does the strange movement in the Ancient Spiritual Sword Planet have to do with this treacherous fate?"

"I didn't expect the Central Heaven Universe to have an existence that I can't deduce."

"Interesting."

"Could it be the Sword God King's scheme?"

Soon, countless Immortal Consciousnesses rushed over to the sky above the Ancient Spiritual Sword Planet.

The Divine Sword Peak's Divine Sword King snorted and put up a sword finger sign that he slashed with at the sky. A sword ray was released and turned into an enchanted boundary to isolate the Immortal Consciousnesses.

On the Thousand Sword Peak, Chu Kuangren was only three meters away from the Void Sword!

Everyone observed the scene and dared not even take a breath.

Three meters, two meters, one meter...

Chu Kuangren arrived before the Void Sword and stretched out his hand to hold the hilt.

"Gasp!" Everyone gasped.

"He's holding the Void Sword!"

As if it did not allow others to touch it, the Void Sword released intense black sword rays and a majestic sword qi that gushed out!

Instead of dodging, Chu Kuangren took the impact of the sword qi.

"Impudent fool!"

With a low grunt, the Immortal's Core in Chu Kuangren's body gushed out like a flood, trying to suppress the unruly sword in his hand!

Boom!

The Void Sword released a more powerful sword qi, while the Immortal's Core in Chu Kuangren's body also strengthened accordingly!

A mad sword met a madman, and none was willing to surrender!

Under the frightening impact of the sword qi and Immortal's Core, a crack opened on the land between Chu Kuangren and the Void Sword. Then, it spread from top to bottom and soon to the entire Thousand Sword Peak, causing the mountain to crack!

"Holy moly, how powerful must he be to be able to resist that power?!"

"Is that the power of a Five Qi Arch Gilded Immortal!"

Many onlooking sword cultivators gasped with their eyes filled with horror and their scalps tingling.

"Overpower it!"

Chu Kuangren let out a low grunt and put up a stern look. Besides his Immortal's Core, his Ultimate Almighty Source Physique's energy fluctuation also erupted!

The Ultimate Almighty Source Physique was a fusion of all his physiques. It was the most incomprehensible and unique physique in the universe that surpassed all physiques!

The Green Leaf Sword Vision, a peerless Sword Dao physique, was among the physiques that made up the Ultimate Almighty Source Physique.

After sensing the power of the Ultimate Almighty Source Physique, the Void Sword trembled, and its aura was gradually suppressed!

No matter how powerful the Void Sword was, it was still within the Great Dao!

However, the power of the Ultimate Almighty Source Physique was beyond the control of Great Dao!

"Rise!" Chu Kuangren grunted and then pulled the Void Sword upwards!

Bang!

The huge azure stone, which the Void Sword was impaled in, exploded on the spot and turned into dust!

As Chu Kuangren raised the sword to the sky, the Void Sword trembled, and a high-pitched sword chant blasted the clouds away and echoed in the sky. The sharp sword qi swept across the land!

Clang! Clang! Clang!

Sounds of metal breaking rang out non-stop. The moment the Void Sword was pulled out, countless swords on the Thousand Sword Peak started to break!

On top of that, the Void Sword's aura gushed into the sky, while the high-pitched sword chant tore apart the enchanted boundary set by the Sword God King.

Chu Kuangren's Immortal's Core merged with the sword qi of the Void Sword before soaring into the sky to form a huge sword shadow that pierced the starry sky. It made all the stars quake and then explode!

Soon, a supreme sword intent spread wildly from Chu Kuangren and the Ancient Spiritual Sword Planet!

Most of the cultivators in the Central Heaven Universe could feel the frightening sword intent!

Clang...

Somewhere in the Central Heaven Universe, a sword in one sword cultivator's hand broke!

It seemed to be a signal.

In Central Heaven Universe, millions of sword cultivators' swords were either broken, dimmed, or trembling!

That was because the Void Sword had emerged, and the Heavenly Sword had been unsheathed!

The Spiritual Sword Tribe could not hide such a conjuration that filled the entire universe. Countless cultivators either set off to the Ancient Spiritual Sword Planet or release their Immortal Consciousnesses to check it out.

Soon, they noticed the sword shadow in the sky!

The sword shadow was filled with brilliant Immortal Sparks and countless runes that surrounded the sword like a galaxy, releasing a majestic might that could last for ages!

"What a terrifying sword intent!"

A sword cultivator held his trembling sword with an astonished expression.

His sword was already a top-notch Arch Gilded Immortal Weapon, but it still trembled before the sword intent.

However, he was considered lucky because the moment the sword intent emerged, many swords in the universe broke. It was extremely frightening!

"Has a peerless divine sword emerged in the Spiritual Sword Tribe?!"

"Very likely. Otherwise, how could there be such a horrifying conjuration?!"

"Tsk tsk. What's going on..."

While everyone was puzzled, the huge sword shadow across the starry sky dissipated.

As the sword shadow dissipated, everyone's pupils widened in horror when they saw Chu Kuangren standing on the top of the Thousand Sword Peak and holding the Void Sword.

Could that young cultivator be the one who caused the terrifying conjuration?!

Chapter 1675 Is This How You Treat The Void Sword? The Sword God King's Admiration

Before everyone could check it out, a magnificent sword intent emanated from the Ancient Spiritual Sword Planet.

As the sword intent swept across the starry sky, all the Immortal Consciousnesses that came forward to check out dissipated. Everyone knew that it was an attack made by the Sword God King on the Ancient Spiritual Sword Planet.

Since they dared not disrespect the God King, they left.

However, they were concerned about the sword intent and would check it out when there was a chance.

At that moment, on the Ancient Spiritual Sword Planet, all Spiritual Sword Tribe members were looking at Chu Kuangren, shocked and dumbfounded. In fact, they were much more astonished than others.

Others did not know what the Void Sword represented, but they knew.

“H-He pulled out the Void Sword!”

“The Void Sword has recognized its master!”

“Impossible. For so many years, no one has been able to make the Void Sword recognize its master. How did he manage to do that?!”

“The Heavenly Sword!”

“The Heavenly Sword... Yes, it must be the Heavenly Sword! Only the rumored Heavenly Sword, who will lead the Spiritual Sword Tribe to its peak, can make the Void Sword recognize its master!”

As soon as the Heavenly Sword was mentioned, everyone fell into a frenzy.

The Heavenly Sword was significant in the Spiritual Sword Tribe, and it was even more astonishing than the Void Sword.

After all, the Void Sword was merely a sword, whereas the Heavenly Sword was the prophesied person who would lead the Spiritual Sword Tribe to be the best of the Central Heaven Universe and reign supreme across the universe!

He might be able to achieve what the Sword God King could not achieve.

“H-He’s the Heavenly Sword!”

The Spiritual Sword Tribe Leader looked at Chu Kuangren excitedly, while the rest of the elders were also happy.

Chu Kuangren looked at the Void Sword that had already recognized him as its master. After sensing the amazing power contained in the sword, he grinned. “Not bad.”

The Void Sword was a Supreme Treasure!

It was a premium Innate Supreme Treasure with murderous power no weaker than the Godkiller Spear!

“I’m now in Central Heaven Universe, and I don’t have the protection of the Celestial Demon Tribe. Hence, I must hide my secrets well, such as the Chaos Green Lotus and the Timespace Treasure. I’m afraid the Spiritual Sword Tribe may not be able to protect me once I reveal these Chaos Supreme Treasures.”

“Under the circumstances that these treasures can’t be easily utilized, the Void Sword is indeed a good weapon,” Chu Kuangren thought to himself.

Then, he unsheathed the Descendant Self Sword at his waist and smiled. "My dear Descendant Self Sword, do bear with it for the time being."

The Descendant Self Sword trembled slightly. Although it was a little dissatisfied, it understood Chu Kuangren's situation.

Following that, Chu Kuangren kept the Descendant Self Sword in his Enchanted Sleeve and left the Thousand Sword Peak with the Void Sword in his hand.

Everyone looked at his back enthusiastically.

They did not expect they would witness the emergence of the Heavenly Sword in their lifetime.

...

In a manor in the Spiritual Sword Tribe, Chu Kuangren looked at the Void Sword without a scabbard and found a piece of cloth to wrap it up.

In his mind, the Void Sword was far inferior to the Descendant Self Sword that had grown up with him, so he was lazy to make a scabbard for it.

Suddenly, he sensed a few people outside the manor.

They were the Spiritual Sword Tribe Leader and others.

As he walked out to take a look, he noticed that they were looking at him enthusiastically, as if they were looking at the future of the Spiritual Sword Tribe.

"Greetings, Tribe Leader."

"Haha. Chu Kuang, you're the Heavenly Sword, and your status is above ours. There's no need for the formalities," the Spiritual Sword Tribe Leader said with a smile.

When he noticed the Void Sword wrapped in a cloth behind Chu Kuangren, the corner of his mouth twitched. He was slightly speechless, to say the least. "Chu Kuang, is this how you treat the Void Sword?"

The Void Sword could be claimed as the most powerful sword in the Spiritual Sword Tribe and even in the Central Heaven Universe.

If the Spiritual Sword Tribe Leader were to own such a sword, he would probably hold it every day and worship it.

However, Chu Kuangren had wrapped the sword casually with a piece of cloth.

"A sword has a spirit, and what's important is the sword heart of the person holding the sword. The outlook of the sword is merely a decoration," said Chu Kuangren.

"Well said!" The Spiritual Sword Tribe Leader could not help applauding.

Everyone, including him, understood the fact. Perhaps he believed Chu Kuangren was the Heavenly Sword, so he felt his words were always extremely extraordinary.

"I wonder why you've come to look for me, Tribe Leader?"

"Ha! I'm here mainly to meet the Void Sword. Besides, the Sword God King has invited you to his place," said the Spiritual Sword Tribe Leader.

The Sword God King?

Chu Kuangren's eyes flickered.

The Sword God King was one of the peak elites in the Central Heaven Universe. Could it be that he wanted to meet Chu Kuangren because he doubted his identity?

Or perhaps he wanted to meet Chu Kuangren as the Heavenly Sword.

With that, Chu Kuangren stopped thinking about it. "Let's go."

Not long after, they arrived at the Divine Sword Peak, and Chu Kuangren met the famous Sword God King.

"Heavenly Sword, please be seated," the Sword God King said with a smile and then pointed at a stone bench next to a stone table not far away.

There was a chessboard on the stone table.

Chu Kuangren sat down without fearlessly while the Spiritual Sword Tribe Leader and others stood beside him.

With the Tribe Leader standing while Chu Kuangren sat down, it was clear how highly respected the Heavenly Sword was in the Spiritual Sword Tribe.

"Do you play chess?" the Sword God King asked.

"Yeah."

"Let's play two games."

"Alright."

Chu Kuangren made a move first with a sunspot. When he dropped the sunspot on the chessboard, he felt a surge of sword intent gushing out from the chessboard!

Chu Kuangren's expression became stern. The game was not as simple as he thought.

"I wonder what you think a sword is, Heavenly Sword?" asked the Sword God King.

Was the Sword God King sparring with him?

Speaking of that, he had never been afraid of anyone. His profound understanding of the Dao was incomparable in the entire Pan Gu Universe.

He was not afraid even when facing an elite like the Sword God King.

"A sword is just a term given by ordinary people. There is no sword in the universe," said Chu Kuangren.

Then, as he moved another sunspot, the sword intent on the chessboard became more violent. However, Chu Kuangren looked calm and asked, "What do you think a sword is, God King?"

"You believe that there is no sword in the universe, but I believe that a sword is both heaven and earth."

"Alright."

Chu Kuangren nodded. After he moved the sunspot again, the Sword God King continued asking, "What can a sword be?"

"A sword can be a person, and a person can be a sword. The sword heart means a person's heart. What is a sword?"

"A sword is everything. Wherever the sword intent passes, everything can be a sword."

Chu Kuangren and the Sword God King discussed Sword Dao while playing chess.

Both of them were persuasive and well-spoken.

The Spiritual Sword Tribe Leader and others felt that they had gained a lot after hearing Chu Kuangren's words. They looked at Chu Kuangren while lamenting that for being able to spar with the God King, he was no doubt a Heavenly Sword.

Although he was merely a Trinity Flower Arch Gilded Immortal, his understanding of Sword Dao truly stood out amongst the greats throughout history.

As more chess pieces were on the chessboard, Chu Kuangren could sense the surging sword intent becoming more intense. He felt that the chessboard before him was like a turbulent current and he was like a tiny canoe that might be knocked over by the current at any time.

Should he say that it was as expected of the God King's sword intent? It was indeed frightening.

Chu Kuangren thought to himself before looking at the chessboard and making another move.

The Sword God King could not help but admire secretly. "Should I say as expected of the Heavenly Sword? With such sword intent, not to mention a Trinity Flower Arch Gilded Immortal, even a Great Perfected Arch Gilded Immortal may not be able to keep calm. Yet, he can spar with me while playing chess with me. That's amazing."

Chapter 1676 Key to the Spiritual Sword Tribe's Rise in Power, Ling Fei Wants to Become a Follower

The chess game grew more and more intense.

Chu Kuangren found himself taking the impact of his opponent's tremendous sword intent. If he did not have a sword intent that far outclassed his peers and a Rocksteady Daoist Core, Chu Kuangren would have lost long ago.

Hum!

At that time, the Void Sword on Chu Kuangren's back suddenly trembled.

A burst of sword intent erupted from it!

The chessboard was flipped over, and its black and white pieces scattered over the floor. Then, that surging sword intent disappeared right after.

“Oh, is the Void Sword unhappy?”

The Sword God King glanced at the Void Sword with surprise, and it piqued his interest in that sword.

During his early years, he had also attempted to draw that sword out from the ground, but he was unsuccessful. Later, upon becoming a God King, he could have forcefully removed the sword using his superior cultivation, but he did not do that either.

That was because he knew he could not make the sword obey him if he were to suppress it using his cultivation level.

However, he could tell that the Void Sword truly recognized Chu Kuangren as its master.

Sensing the hostile sword intent on the chessboard, the Void Sword immediately took action to protect its master.

“My apologies. I just tamed this sword recently, so it’s still a little bit rowdy.” Chu Kuangren chuckled.

“You’re just carrying it around wrapped in some cloth. Of course, it’s going to be unhappy about it.”

“Oh well, I don’t have a scabbard for it anyway. I guess it’ll have to deal with it for now.”

“Try this,” said the Sword God King as he took out a piece of black Immortal Metal. Terrifying gusts of sword qi then appeared in the palm of his hands, gradually forming and shaping the metal.

That piece of Immortal Metal eventually turned into a black scabbard.

“This scabbard is yours to keep,” the Sword God King said with a smile.

“Thank you very much.”

Chu Kuangren gladly accepted the scabbard and sheathed the Void Sword inside it.

“I still haven’t had enough fun from our match earlier. Perhaps, another time then,” the Sword God King uttered.

“Sure, of course.”

After chatting for a while, Chu Kuangren left.

The Sword God King could not help but smile as he watched Chu Kuangren leave. “Splendid. Splendid indeed. It looks like the key to the Spiritual Sword Tribe’s rise in power has fallen on the Heavenly Sword’s shoulders now. ”

Just as Chu Kuangren was arriving at his cavern, he noticed someone standing proudly in front of its entrance.

That person had an upright figure and held a crimson long sword as he stood before Chu Kuangren.

Seemingly noticing Chu Kuangren’s return, that person turned around, looked at Chu Kuangren, and said, “Draw your sword now! Show me the strength of the Heavenly Sword!”

“You’re still too weak.”

Chu Kuangren shook his head, not wanting to be bothered by that man.

“What’s the matter? Is the legendary Heavenly Sword afraid to fight?” The man with the crimson sword sneered.

“Weak taunts like that won’t have any effect on me.”

Many people were soon attracted to the area by the commotion. They were watching curiously to see how things would unfold.

“It’s Ling Fei. I can’t believe he’s really challenging the Heavenly Sword to a fight.”

“However, is he strong enough to face off against the Heavenly Sword?”

“Oh well, even if he’s not, I don’t mind watching him try. We’ll get to see the Heavenly Sword in action for once, after all.”

Everyone was extremely excited.

Chu Kuangren could not care less and continued walking toward his cavern. However, Ling Fei continued blocking his way in a very annoying manner.

“Now listen to me, Heavenly Sword, if you don’t–”

Before Ling Fei could finish his sentence, the flash of a sword ray immediately appeared before his eyes.

The sword ray was like a raging torrent sweeping toward him mercilessly!

At that moment, he instantly felt as if he was plunged into an ocean of sword qi, and there was no way for him to fight against it. Before he realized what had happened, a huge impact hit him. His bones cracked as he was sent flying hundreds of meters away. Upon landing on the ground, he was instantly knocked out cold.

The surrounding sword cultivators and swordsmen looked at each other, wondering what the hell had just happened.

“Did any of you see the Heavenly Sword unsheath his blade?” someone asked.

Everyone shook their heads, implying that they had seen nothing.

Ignoring the crowd, Chu Kuangren returned to his cavern. He had now obtained the Void Sword and met with the Sword God King.

The next thing he wanted to do was to start his closed-door meditation to continue cultivating, and he did that while waiting for the Ancient Central Heaven Planet to open.

Several days later, Ling Fei woke up sluggishly. When he tried to get up, he instantly felt a tremendous pain all over his body.

When he recalled what happened a few days ago, he realized that he was blasted away by the Heavenly Sword!

‘Was it a single sword attack?’

‘Was I sent flying by a single attack?!’

‘No, that can’t be right.’

He was not even sure whether the Heavenly Sword drew his blade or not. In other words, that was not even a proper attack.

“Is this the power of the Heavenly Sword? How terrifying indeed!”

Ling Fei took a deep breath with a look of astonishment in his eyes.

However, his look of shock then turned into that of determination.

“Once the Heavenly Sword appears, all swords in the world shall kneel as the Heavenly Sword stands above the heavens itself!”

“That was the ancient prophecy. The Heavenly Sword shall be the one to lead the Spiritual Sword Tribe into a better future and achieve unprecedented glory! It would benefit me to stay by his side before the future unfolds!”

“It is decided. I’m going to be the Heavenly Sword’s follower!”

Ling Fei looked at the cavern nearby and took out a medicinal pill. After he swallowed it, his wounds soon recovered.

Not long after, he arrived at Chu Kuangren’s cavern and was about to step inside. However, at the thought of Chu Kuangren’s attack earlier, he quickly stepped back.

“If I enter his cavern without permission, I will surely suffer a fate worse than that day. I better wait outside,” Ling Fei thought.

As time went by, several months passed.

Chu Kuangren slowly woke up from his cavern and began to gauge the abundant Immortal’s Core energy within him. “Immortal’s Core Flower – Fourteenth Grade, Life’s Core Flower – Twenty-Fourth Grade, Soul Flower – Fifteenth Grade. Well, it looks like I’ve fully surpassed the Trinity Flower Arch Gilded Immortal Realm now. I’m sure it won’t be hard for me to reach the Five Qi realm if I tried.”

Back then, he had to resort to the Damage-reversing Technique when facing a Five Qi-realm cultivator in battle. Right now, even without using that technique, an ordinary Five Qi-realm cultivator would be no match for him.

“I still don’t know when the Ancient Central Heaven Planet will open. I might as well take the time to venture out and find out as much information about this universe while I’m at it,” Chu Kuangren thought.

When war between the Central Heaven Universe and Pan Gu Universe inevitably broke out in the future, his universe would be at a disadvantage if they did not understand their enemy well enough.

With that, he exited his cavern.

At this time, someone immediately rushed toward him.

Chu Kuangren recognized that person. It was Ling Fei, the one who was sent flying with a casual swing of his sword qi previously.

‘What’s his deal? Still not giving up?’

A cold glint shot out from Chu Kuangren’s eyes. If Ling Fei still wanted to seek trouble, Chu Kuangren would not hesitate to kill him on the spot.

“Thud!”

Just when Chu Kuangren was prepared to attack, Ling Fei immediately knelt before him, his knees landing on the ground with a great thud. “Honorable Heavenly Sword, please accept me as your follower! I hereby pledge my loyalty and would do anything you ask!”

Not only Chu Kuangren but everyone else who heard that was stunned.

What kind of person was Ling Fei?

He was one of the few Spiritual Sword Tribe Prodigies who were second only to the late Chen Feihu in strength! Even Chen Feihu could not have gotten someone like Ling Fei to become his follower.

However, Ling Fei had chosen to kneel before Chu Kuangren and was begging to be accepted as his follower!

The point was, how could someone like Chen Feihu possibly be compared to the likes of the Heavenly Sword?!

That person was the one and only Heavenly Sword!

He was someone who would not only stand at the precipice of Sword Dao, but he was also the prophesized leader who would bring the Spiritual Sword Tribe to the peak of their power in the entire universe.

How could the likes of Chen Feihu even measure up to someone like him?

Becoming the follower of such an incredible person would not be a bad thing at all! In fact, those who become his followers would surely benefit too!

Once Chu Kuangren became the leader of the Spiritual Sword Tribe in the future, the standing of his followers would also increase compared to everyone else.

“D*mn it. No wonder Ling Fei knelt without any hesitation. He was thinking of the same thing as us!”

“Wow, Ling Fei. I can’t believe you’re so despicable. Honorable Heavenly Sword, you can ignore him. I’m confident I can be a much better follower than him.”

“Move away, everyone. I’m becoming his follower no matter what.”

“Honorable Heavenly Sword, please consider having me as your follower. I can even help warm your bed, you know.”

Chapter 1677 The Frost Sword Physique, the Frost Tribe, Leng Jiufeng

One by one, the members of the Spiritual Sword Tribe started to voice their interest in becoming Chu Kuangren's followers.

After all, it was anything but shameful to become the Heavenly Sword's follower. Besides, it would be the greatest honor of the Spiritual Sword Tribe members!

Chu Kuangren's eyes flickered as he swept his gaze across the crowd of Spiritual Sword Tribe members.

He was going to do some traveling anyway, so it would not be a bad thing to have someone familiar with the Central Heaven Universe be his tour guide. Although Ling Fei did not possess significant strength, he was still one of the top-tiered cultivators among the younger generation of Spiritual Sword Tribe members. At the very least, he was qualified enough to become Chu Kuangren's follower.

"Ling Fei can stay, and the rest of you guys can leave," Chu Kuangren said.

A look of disappointment appeared on the rejected Spiritual Sword Tribe members' faces. On the other hand, Ling Fei's face lit up with joy, and he was beyond excited.

"Stand up," said Chu Kuangren to Ling Fei, who was still kneeling at that time, after everyone left.

"Thank you very much, Heavenly Sword."

"I'll be leaving the Spiritual Sword Tribe for a while to travel. You shall follow me on this journey."

"Very well."

Chu Kuangren went to the Spiritual Sword Tribe Leader and told him about that. The Spiritual Sword Tribe Leader saw no reason to reject Chu Kuangren's request.

"Having recently awakened from a deep slumber, going out to see the world can be a good thing for you. It'll allow you to understand the current situation of the Central Heaven Universe at least," said the Spiritual Sword Tribe Leader.

From what he presumed, Chu Kuangren was a Prodigy that went into a deep slumber in the ancestral land before the Thousand Swords Calamity happened. Since it had been countless years since that incident, he would surely be very unfamiliar with the Central Heaven Universe. Going on a trip would surely broaden his knowledge. It might also provide him an advantage when facing off against the other Prodigies on the Ancient Central Heaven Planet when it opened.

"Oh, right, there's something else. A few days ago, we received news from the Frost Star Planet that someone has awakened the Frost Sword Physique there. Do remember to stop by there along the way. If that person is of any interest to you, do keep him or her by your side in your travels."

The Spiritual Sword Tribe Leader suddenly remembered something and said.

The Frost Sword Planet was one of the subordinate forces of the Ancient Spiritual Sword Planet. Their tribe was a Category Nine Tribe, second only to the King Tribes in the Central Heaven Universe.

As for the Frost Sword Physique, it was a Sword Dao Physique comparable to or, if not, stronger than the Infallible Sword Physique. That made it an extremely rare and precious physique, and those who possess

such a physique would surely become on par with the late Chen Feihu if properly nurtured. Hence, the Spiritual Sword Tribe had been paying great attention to that matter. Originally, the Tribe Leader planned to send some men to bring the physique host over. However, since Chu Kuangren was going to do some traveling, the Tribe Leader figured he might as well ask him to go there instead.

The Heavenly Sword's way of Dao was to be the ultimate ruler of all swords, and with the Frost Sword Physique's host by his side, it would surely bring many benefits to the physique's cultivation.

"The Frost Sword Physique, huh? I got it."

Chu Kuangren nodded gently.

After leaving the Ancient Spiritual Sword Planet, Chu Kuangren and Ling Fei both started their journey toward the Frost Sword Planet.

Meanwhile, the Frost Tribe was holding a banquet on the Frost Sword Planet.

The Frost Tribe was the strongest force on the Frost Sword Planet, and the host of the Frost Sword Physique was also a member of that tribe.

The reason the banquet was held was to announce to everyone that a peerless Sword Physique had been awakened in the Frost Tribe. As a result, the physique's host would also be joining the Spiritual Sword Tribe.

After all, the Spiritual Sword Tribe was one of the King Tribes. Having the host of the Sword Physique join them would greatly benefit the Frost Tribe's reputation and standing.

Secondly, the Frost Tribe Leader's thirty-thousand years birthday just so happened to be around the corner, so the banquet was held to celebrate that as well.

"Congratulations, Frost Tribe Leader. It seems that the Frost Tribe has gained another talented cultivator."

"That's right. If Lady Han Xingyu joins the Spiritual Sword Tribe, it would be a wonderful thing indeed. In the future, she would surely stand a chance to become one of the strongest cultivators at the peak of Sword Dao."

"Frost Tribe Leader, the Ice Tribe hereby presents a hundred and fifty kilograms of hundred-thousand-year-old Ethereal Ice. Please accept this wonderful gift."

"Haha! Thanks a lot, Ice Tribe Leader."

Many guests had gathered in the Frost Tribe, where countless banquet tables had been set up. It was a celebration indeed.

Besides the Frost Tribe Leader, a woman who was an exquisitely cold beauty dressed in a long blue dress was welcoming the guests.

Her cultivation level was not high as she was only a mid to high-tier cultivator who recently became a Gilded Immortal amongst the Frost Tribe sky-prides. Despite that, no one dared to show her any disrespect.

That woman's name was Han Xingyu, the host of the Frost Sword Physique who was going to join the Spiritual Sword Tribe!

"I'm sorry for troubling you, Xingyu," the Frost Tribe Leader said to the woman with a bitter smile.

She replied by shaking her head. "It's alright. This is something that I should do."

"Congratulations, Sister Xingyu."

At that time, a man walked toward Han Xingyu and congratulated her with cupped fists. He was a sky-pride of the Frost Tribe, whose cultivation level was higher than Han Xingyu.

It was no secret that the man had feelings for her.

However, Han Xingyu merely replied in a platonic tone, especially so since after she awakened her Frost Sword Physique. Both their paths would only diverge more and more after this.

The young man could not help but feel sad at that thought.

Taking the opportunity that she had not left for the Spiritual Sword Tribe yet, he tried to talk to her as much as he could. However, Han Xingyu would only reply politely, obviously to keep her distance from him.

"Haha! So, someone from the Frost Tribe has awakened the Frost Sword Physique, huh? I can't believe she's being sent to the Spiritual Sword Tribe and not returned to the Skysnow Tribe instead! What a f*cking joke!"

At that time, a condescending voice sounded from a distance.

The surrounding temperature plummeted rapidly, and the nearby mountains, lands, and rivers were frozen. The bright and relaxing weather was soon replaced by instant snowfall.

A handsome man with blue hair slowly approached from afar.

The young man's brows were as sharp as swords, and his eyes as cold as winter itself. Waves of chilling freezing qi circulated his body, causing snowfall to occur wherever he went. Every living being was frozen without mercy in his wake, and it was a frightening sight.

"It's him, the Prodigy of the Skysnow Tribe, Leng Jiufeng!"

Everyone looked at the person who arrived in shock.

The Skysnow Tribe was one of the King Tribes, and Leng Jiufeng was a Prodigy of that King Tribe, who was ranked twenty-first on the Heavenly God Leaderboard. That was a higher rank compared to Chen Feihu.

Furthermore, legend had it that the Frost Tribe could trace its origins to the Skysnow Tribe.

Although the Skysnow Tribe and the Spiritual Sword Tribe were not considered enemies, the relationship between both tribes was not friendly, and they would usually not interfere with one another.

Now that Leng Jiufeng had come to the Frost Tribe, everyone could not help but think of the history between the two tribes.

“We do not welcome the Skysnow Tribe here,” said the Frost Tribe Leader coldly.

Although the Frost Tribe hailed from the Skysnow Tribe, relations between both tribes were anything but pleasant.

“I heard that long ago, the forefather of the Frost Tribe was once a Prodigy from the Skysnow Tribe. However, he was framed by his tribe members, leading to him having his cultivation level abolished and being excommunicated from the tribe. However, the Frost Tribe Forefather had a fortunate encounter. Not only did he manage to recover his cultivation base, but he even started the Frost Tribe.”

“Well, it looks like the legends are true. Otherwise, how would you explain the Frost Tribe Leader’s unpleasant attitude.”

“Tsk tsk, I bet the Skysnow Tribe must’ve had their eyes on Han Xingyu’s potential. They just want to bring her back to the Skysnow Tribe and nurture her talents there.”

“I suppose that must be the case. This is the Frost Sword Physique we’re talking about, after all. It’s ranked fiftieth out of the three thousand physiques, and I bet even the Skysnow Tribe doesn’t have a physique like hers in their ranks.”

“It looks like things are going to get interesting.”

Everyone discussed, eager to see what was going to happen.

After all, both the Frost Tribe and the Skysnow Tribe were forces that were not to be reckoned with.

“I know that there’s some misunderstanding between both our tribes. But as long as Han Xingyu returns to my tribe, we will forget everything that happened in the past. The Frost Tribe might even have the chance to return to the Skysnow Tribe too. What do you think?” Leng Jiufeng said.

He spoke with a high-and-mighty attitude as if he was doing the Frost Tribe a great favor by letting them join the Skysnow Tribe again.

The Frost Tribe Leader’s face was as grim as a foggy night. “Sigh. After all these years, it seems like you people from the Skysnow Tribe still can’t rid of that disgusting attitude.”

Chapter 1678 Leng Jiufeng’s Power, How Dare You Injure a Member of My Spiritual Sword Tribe?

“Insolent old fool!”

Leng Jiufeng’s face turned extremely grim when he heard the Frost Tribe Leader’s words. The freezing qi around his body began to surge, causing the surrounding void to freeze.

The Frost Tribe Leader did not care and replied with a cold smile, “The Frost Tribe’s forefather was once abandoned by your tribe like he was nothing. Yet now, you’re asking our tribe to rejoin yours? What do you take the Frost Tribe for? Mere mongrels to obey your every command? Who’s the insolent one now? Well, I’m pretty sure it’s not me!”

“It seems like you’re not going to hand over the Frost Sword Physique today.”

"The host of the Frost Sword Physique is going to the Spiritual Sword Tribe to further her cultivation. The likes of you lot have no right to even touch her!" said the Frost Tribe Leader firmly.

"Oh, is that so? What if I still decide to take her away today?"

"I'd like to see you try."

Although Leng Jiufeng was a Prodigy ranked twenty-first on the Heavenly God Leaderboard, the Frost Tribe Leader had nothing to fear. After all, he was an elite, a Five Qi Arch Gilded Immortal.

He was confident that he could deal with Leng Jiufeng alone.

"Interesting."

Leng Jiufeng's figure disappeared in a flash.

The next instant he reappeared, he was already above the Frost Tribe Leader. With a strike from his palm, Immortal Sparks flowed, and a terrifying burst of freezing qi was unleashed like a raging torrent!

"Hmph."

The Frost Tribe Leader snorted and attacked in retaliation.

Striking with his palm as well, two bursts of freezing qi collided. The impact was akin to two icebergs being hurled at each other, sending countless ice shards everywhere like a snowstorm.

Many of the onlooking cultivators quickly backed off and ran away, fearing that they might get caught up in the battle.

After that attack, both Leng Jiufeng and the Frost Tribe Leader were forced backward.

"As expected of a Prodigy on the Heavenly God Leaderboard!"

The Frost Tribe Leader looked at Leng Jiufeng with a conflicted gaze.

He was a Five Qi Arch Gilded Immortal elite while Leng Jiufeng was only a Trinity Flower Arch Gilded Immortal. However, the latter could still match his power without trouble. That meant that Leng Jiufeng's strength was astonishing indeed.

From Leng Jiufeng alone, one could sense how powerful the Skysnow Tribe was. They were undoubtedly far stronger compared to the Frost Tribe.

"Again!"

Without the slightest fear of the Frost Tribe Leader's power, Leng Jiufeng's figure disappeared once again. As surges of chilling freezing qi circled his body, he launched another attack at his opponent!

His every punch and kick released an incomparable might!

Boom! Boom!

Bursts of freezing qi continued to release as the two cultivators clashed. Their battle continued from the ground to the sky, illuminating the skies with colorful Immortal Sparks and freezing the void.

The surrounding terrain, flora, fauna, and every being caught up by the freezing qi were turned into ice and snow.

Some of the cultivators with a Frost-attribute cultivation also could not help but shiver due to the freezing qi released from that battle.

“What terrifying freezing qi.”

“Is this the power of a Prodigy ranked on the Heavenly God Leaderboard?” Han Xingyu could not help but mutter as she watched the battle in the sky. There was a look of hope and excitement in her eyes.

The Heavenly God Leaderboard was a leaderboard of prodigies in the Central Heaven Universe.

Countless Prodigies and sky-prides would do anything to have their name on that leaderboard. Even Han Xingyu was no exception to that. However, she was not qualified to be ranked on the leaderboard before. Now that she had awakened her Frost Sword Physique, with hard work and training in the Spiritual Sword Tribe, she was confident that she would be ranked on the leaderboard eventually.

The battle between Leng Jiufeng and the Frost Tribe Leader reached a boiling point.

“Heavenly Spiritual Frost Sword!”

The Frost Tribe Leader immediately formed a sword hand sign, converted his Immortal Core energy into endless sword qi, and imbued it into his freezing qi. A gigantic white sword shadow was formed!

The sword shadow slashed forward, freezing everything in its path!

It was as if the whole Frost Sword Planet was going to be sliced into pieces by the endless blizzard from that attack.

Meanwhile, Leng Jiufeng also began to unleash his ultimate technique.

He focused and channeled an overwhelming amount of freezing qi in the palm of his hands. Then, he made a mysterious hand sign, and the freezing qi was immediately controlled, taking the form of several gigantic icebergs.

Nine icebergs were formed in a line and hurled toward the gigantic sword qi attack, one after another.

Following several blasts, the icebergs shattered one after another, and the sword qi also disintegrated into nothing.

Boom!

Finally, considering that the sword qi was more powerful, Leng Jiufeng was sent flying from that attack. His clothes were also ripped into shreds, revealing a crystal-like armor underneath.

He was wearing a protective item.

“The Divine Frost Armor?!”

The Frost Tribe Leader’s expression sank. “The Divine Frost Armor was a Frost Tribe item that was lost many years ago. Why do you have it?!”

“Hmph. Many years ago, an elder of the Frost Tribe came to me with this armor, pleading with me to return to the Skysnow Tribe. I agreed, and so, the divine armor now belongs to me. You might not want to return to us, Frost Tribe Leader, but make no mistake that there are many more among your tribe who want to, just so you know,” said Leng Jiufeng coldly.

Upon hearing that, the Frost Tribe Leader’s expression became even more unpleasant.

Although he was the Tribe Leader, he could not win everyone’s support and allegiance. Hence, he could not stop those who wished to return to the Skysnow Tribe.

“One last chance. Hand over the Frost Sword Physique, and I’ll consider letting the Frost Tribe return to its rightful place,” Leng Jiufeng said once more.

“In your dreams!”

The Frost Tribe Leader said coldly, “I can’t do anything for those who wish to reduce themselves to mere mongrels in your tribe, but do not think for the slightest chance that I’ll do the same!”

“What a shame. I guess you’ll have to die today.”

“Hmph. Don’t get too ahead of yourself, Leng Jiufeng. You might have the Divine Frost Armor, but you’re still no match for me. Don’t even think about killing me,” the Frost Tribe Leader said with disdain.

“Now, who said I’m going to be the one to kill you?” Leng Jiufeng said indifferently.

The moment he said that, two figures appeared behind him. It was a man and a woman, both of them Five Qi Arch Gilded Immortal elites!

Furthermore, the auras of those two Arch Gilded Five Qi Realm elites were stronger compared to the Frost Tribe Leader!

“They’re the ones who shall kill you,” Leng Jiufeng said with a chilling laugh.

“Well, Frost Tribe Leader, the two of us are the same as you, having cultivated the Taichi and Taisu qi respectively. It’s two against one, so how can you possibly win against us?” the man who walked out behind Leng Jiufeng asked calmly.

For the Trinity Flower Realm, one would cultivate and manifest three Flowers.

Meanwhile, in the Five Qi Realm, the Five Qis were cultivated. There were the Taichi, Taisu, Taishi, Taichu, and Taiyi Qi respectively.

Once one cultivated the Trinity Flowers and the Five Qis, they would finally get to the Great Perfected Stage.

That was a summary of the Arch Gilded Immortal’s cultivation path.

Besides that, the cultivation of one’s Arch Gilded Intent was also crucial.

“How can I win, huh? Let’s find out in battle then,” the Frost Tribe Leader said coldly as he attacked the two of them.

While the three Five Qi Arch Gilded Immortal elites were caught in battle, Leng Jiufeng quickly disappeared. Then, he appeared before Han Xingyu and released his Arch Gilded Intent.

For Han Xingyu, who just became a Gilded Immortal, there was no way she could resist such a powerful aura. Hence, she started trembling and eventually fell to her knees.

"I'm giving you a chance now. Follow me back to the Skysnow Tribe."

"I won't!" Han Xingyu said with her teeth gritted. Although she did not know the disgrace and humiliation her forefather experienced, her father's hatred for the Skysnow Tribe was evident enough. There was no way she would join them.

"If you disobey, you shall die!"

Leng Jiufeng's aura grew more and more intense.

However, that was still not enough to break Han Xingyu's spirit. She held her sword tightly and stood her ground stubbornly. "If you want to kill me, just do it!"

"What a shame. Since you won't pledge your allegiance to me, I will have no choice but to end your life this instant!" Leng Jiufeng snorted.

He let out a merciless attack. His tremendous freezing qi turned into a giant iceberg that crashed upon her!

"How dare you injure a member of my Spiritual Sword Tribe!"

At that time, an indifferent voice sounded, followed by a burst of sword qi that came from afar that immediately sliced that iceberg in half.

Following that, an overwhelming sword aura descended upon the whole area, its overbearing presence making the entire planet quake!

Chapter 1679 Are You Worthy Enough to Challenge the Heavens? The Heavenly Sword's Might Is Unparalleled and Terrifying!

Just as Han Xingyu was about to die, a calm voice suddenly sounded.

Following that, an overwhelming sword aura descended upon the land. An indescribable sharpness soon filled the usually snowy Frost Sword Planet.

Other than that, something began to happen to the numerous sword cultivators who attended the banquet on Frost Sword Planet. At that instant, their swords started to tremble uncontrollably due to the sword aura.

"What a horrifying sword aura!"

"Who... Who is it?!"

"The Spiritual Sword Tribe. It must be someone from the Spiritual Sword Tribe."

Everyone looked into the distance and trembled in shock.

Amidst the rolling clouds, a seemingly endless illumination of Immortal Sparks lit up the sky. Within it, a man in white robes holding a black long sword slowly approached.

That person was simply extraordinary. His brows were as sharp as swords, and his eyes were as bright as the stars themselves. He possessed a handsome appearance, and his every movement screamed of an otherworldly demeanor. Besides, there was also his astonishingly terrifying sword aura!

“Who is he? He looks quite young.”

“When did the Spiritual Sword Tribe have a Prodigy like him? Could he be the rumored Chen Feihu?”

“No, I heard that Chen Feihu died long ago in the secret realm between the passage of two universes. Besides, I’ve seen Chen Feihu in real life before. This person is not him.”

“Then, who is he?”

“Hold on a minute, don’t you guys sense that this aura is a little familiar?” said one of the sword cultivators as he looked at the trembling sword in his hand. He could not help but remember that horrifying day that happened a while ago!

Whatever happened that day was certainly significant enough to be recorded in the history of Sword Dao!

Due to unknown reasons, a third of Central Heaven’s sword cultivators’ swords suddenly broke, and the other third noticed the light dimming from their swords. Meanwhile, the remaining one-third experienced their swords trembling uncontrollably.

Right now, the sword cultivators present had sensed an aura similar to the one that caused that incident that day. Although it was not as powerful, it was coming from the same source!

Could it be that the person before them was the reason for all that happened that day?

Chu Kuangren approached as he stepped forward through the air. Ling Fei was behind him, like his follower.

“A Prodigy from the Spiritual Sword Tribe? I haven’t seen you before! Tell us your name now!” said Leng Jiu Feng as he looked at Chu Kuangren.

Having noticed the powerful aura exuding from Chu Kuangren’s body, he immediately put on his guard.

“Do you think you deserve to know who am I?”

Chu Kuangren glanced at Leng Jiufeng, and a ray of sword ray immediately shot out from his eyes!

The razor-sharp sword ray tore through the skies as shot forward!

“What!”

Leng Jiufeng’s expression darkened. He held up both his arms and unleashed a burst of freezing qi, which collided with the sword ray!

However, the unstoppable sword ray immediately ripped the freezing qi apart and directly cut off half of Leng Jiufeng's hand. That made him yell in pain as he frantically tried to cover his wounds with freezing qi.

When the onlooking cultivators saw what happened, all of them gasped, and their faces were filled with horror.

"By the heavens, to think a mere sword ray can tear through half of Leng Jiufeng's hand! This guy is just too powerful. Who the hell is he?!"

"Well, no matter who he is or where he's from, all I know is that he's not someone we should mess with."

"I can't believe there's another Prodigy in the Spiritual Sword Tribe other than the late Chen Feihu. No, I bet he must be much stronger than Chen Feihu."

"And that sword of his..."

One of the sword cultivators looked at Chu Kuangren's black sword, which had yet been unsheathed, with an uncertain expression. "That sword... Could it be the... Void Sword?!"

"The Void Sword."

"That's right. When I visited the Spiritual Sword Tribe back then, I saw this sword stuck atop the Thousand Sword Peak. That sword, named Void Sword, was said to be the most powerful sword in the Central Heaven Universe! Other than the prophesized Heavenly Sword, legend has it that no one is ever worthy enough to pull out this sword!"

"This means... He's the Heavenly Sword!"

Everyone could not help but gasp. After all, there were many legends in the Central Heaven Universe.

One of them was about the Spiritual Sword Tribe's Heavenly Sword.

Once the Heavenly Sword appeared, all swords in the world would fall under its rule. The Heavenly Sword's existence would exceed that of the Heavens itself!

That prophecy had been spreading for many years among the world of sword cultivators. However, the Heavenly Sword had never appeared before, so many thought the prophecy was fake.

However, the Heavenly Sword that drew the Void Sword out had now appeared!

Everyone then recalled the Sword Dao event that shocked the whole universe with the Heavenly Sword's power.

"By the heavens, the legend is true."

Everyone looked at Chu Kuangren in shock.

Han Xingyu also found it unbelievable. She, too, was a sword cultivator who thought that the Heavenly Sword's legend was not true.

However, it seemed that her knowledge was still quite limited.

“Damn it all! I shall see for myself how powerful you are, you so-called Heavenly Sword!”

With a terrible expression on his face, Leng Jiufeng started channeling freezing qi. The part of his hand that was cut off had regenerated with a new ice-made hand.

He then formed a few mysterious hand signs, unleashing his chilling Arch Gilded Intent everywhere.

One by one, several runes formed to surround him, and the conjurations of several towering icebergs appeared. The horrifying aura of the technique swept toward Chu Kuangren mercilessly.

“Are you worthy enough to challenge the Heavens?” said Chu Kuangren with both hands behind his back.

His expression was calm and composed, and he looked prideful as if he was looking down on the world itself!

“Arrogant b*stard!”

Leng Jiufeng roared, and countless surges of freezing qi gushed out from his body. The conjurations of icebergs began to materialize and were hurled toward Chu Kuangren all at once.

Each iceberg was no different than a gigantic asteroid. The power contained was massive and extremely frightening.

However, Chu Kuangren just stood where he was and simply moved his sword hand sign.

With a single swipe, an endless freeze spread outward, followed by a barrage of sword qi akin to thousands of mountains!

Chu Kuangren swiped his sword hand sign across the void, unleashing an endless barrage of sword qi from his fingers that intertwined and transformed into a gigantic sword shadow thousands of kilometers long. The sword shadow was launched right away toward the incoming icebergs!

His sword qi also contained the might of tempest, destroying the void wherever it went!

The icebergs shattered under the might of the sword shadow. As huge amounts of snow and ice shot out everywhere, the shockwave was so big that a tornado formed and turned into a hailstorm that fell upon the whole Frost Sword Planet.

Amidst the clash of sword qi and icebergs, a person was suddenly sent flying before he crashed into the faraway mountains.

That person was in tatters, and it was none other than Leng Jiufeng.

The tendons and bones all over his body were broken, and his aura had weakened considerably from being critically injured by that one attack. If not for the Divine Frost Armor, he would be dead already!

He looked at Chu Kuangren, who was standing proudly in the distance with disbelief.

He was already defeated terribly with just a single sword attack.

Meanwhile, his opponent had yet unsheathed his sword!

Everyone else could not help but gasp when they witnessed what happened. “The might of the Heavenly Sword is truly unparalleled and terrifying!”

Ling Fei looked at Chu Kuangren with admiration and respect.

That person was worthy for him to serve as a follower.

He looked at Leng Jiufeng, who was still dazed at what just happened, and grinned. ‘How dare a Prodigy ranked twenty-first challenge the Heavenly Sword? How presumptuous.’

‘Even if those top ten freaks from the Heavenly God Leaderboard were to come, they still wouldn’t stand a chance against the Heavenly Sword.’

“Young Master!”

The two Five Qi Arch Gilded Immortal elites, who were Leng Jiufeng’s followers, quickly came to help him up. They then looked at Chu Kuangren and glared at him. “How dare you, Spiritual Sword Tribe, lay your hands and injure the Skysnow Tribe’s Young Master! Do you guys want to start a war?!”

“Go to war?”

Chu Kuangren sneered. “Do you possibly think that the Spiritual Sword Tribe will be afraid of that?”

Although he did not know how powerful the Spiritual Sword Tribe was in terms of combat power and resources, he believed the Skysnow Tribe would not go to war that easily.

Besides, he had also asked Lil Ai to analyze the Sword God King back then.

That person was a peak Embodier cultivator. In other words, he was one of the most top-tier God Kings in that universe. The Sword God King alone was enough to keep his enemies in place.

“Damn you, Heavenly Sword! I can’t wait to test your strength myself!”

Chapter 1680 Even if You Rebel Against the Heavens, You Are Still Beneath It, I’m the Heaven That Lie Beyond the Heavens Itself

“D*mn you, Heavenly Sword! I can’t wait to test your strength myself!” said the Skysnow Tribe Elder, a Five Qi Arch Gilded Immortal elite.

Everyone else could not help but silently scold that man for his audacity. How shameless was he, an older generation elite, to pick on a young generation cultivator? Was he not ashamed?

Then again, Chu Kuangren did not seem bothered at all. Instead, he said, “Do you have what it takes to go against the Heavens?”

He stood proudly in the air, keeping that look of his that looked down on the world!

“Bring it on!”

Whoosh!

The Skysnow Tribe elder disappeared in a flash and reappeared above Chu Kuangren the next instant. Without a second thought, he unleashed a palm attack!

His vast and surging freezing qi was several times more powerful than Leng Jiufeng.

However, Chu Kuangren did not move in the face of that attack but readied his sword hand sign. He released his Immortal's Core energy, and his Arch Gilded Intent burst forth, gathering at his fingertips.

With his sword qi released, it immediately clashed against the freezing qi.

The Thousand Terrain Sword Art involved unleashing a single slash that materialized various natural phenomena. Hence, for Chu Kuangren, who possessed many Arch Gilded Intents, that sword art technique happened to compliment him greatly as he could perfectly imbue each of his Arch Gilded Intents into that sword technique now!

"Sword, Windstorm!"

The moment his sword qi, which contained the power of windstorm, collided with the freezing qi, the surroundings immediately blew up!

Waves of windstorms spread everywhere, and the freezing qi covered the land in frost!

"Nine Heavens Freezing Qi!"

The Skysnow Tribe elder made a mysterious hand sign and gathered Freezing Arch Gilded Intent into the palm of his hands. He then formed a giant iceberg and threw it outward!

That iceberg was as big as a planet, and its power was dozens of times more powerful than Leng Jiufeng.

"Sword, Yin Yang!"

Chu Kuangren made a sword hand sign and injected the power of Yin Yang into his sword qi to create a gigantic Yin Yang symbol that crashed against the incoming attack.

That attack of his was quite similar to his previous divine ability, the Yin Yang Life and Death Symbol.

He was gradually utilizing everything he learned, reapplying all his previous divine abilities to his Sword Dao. The fact that he could achieve it already made him better than ninety-nine percent of all the cultivators in the... universe.

After all, he possessed many divine abilities, each extremely powerful in their own right.

The Yin Yang Life Death Diagram, Universal Life-Death Cycle, Green Leaf Sword Ocean, Reincarnation Tribulation Light...

Every single one of them was divine abilities from his Honorable Supreme Immortal Physiques, which were extremely rare in his universe. One could only imagine the difficulty of having to incorporate those divine abilities into a single sword attack now.

However, Chu Kuangren not only succeeded in doing so, but he succeeded very well too!

Boom!

The Yin Yang Diagram collided with the giant iceberg!

Powerful shockwaves soon formed cracks in the sky, sending the entire Frost Sword Planet into a terrifying rumble.

Following that, the Yin Yang Diagram shattered.

The iceberg filled with freezing qi was heading toward Chu Kuangren without mercy!

“Now, shatter!”

Chu Kuangren grunted as he let out a slash with his sword hand sign. His sword qi turned into overwhelming waves of fire that dispelled the endless freezing qi. Although he was unharmed, everyone could tell from that exchange that he was at a disadvantage.

“Although he’s the Heavenly Sword, the difference in cultivation level still proved hard for him to surpass.”

“That’s right. If he’s in the same Five Qi realm as this elder, he’ll surely defeat his opponent without an issue. Alas, he’s only at the Trinity Flower realm now.”

Everyone was engaged in a discussion.

The Skysnow Tribe elder could not help but laugh. “Oh, my dear Heavenly Sword! Although your Arch Gilded Intent is powerful, it’s only at First Step. As for me, I’m already at the Third Step! Besides, the difference in our cultivation level is worlds apart. How can you possibly hope to defeat me?!”

“How can I expect someone with such an ignorant and narrow view of the world to comprehend the sword that is I who’s above the Heavens?” said Chu Kuangren calmly as he stood with both hands behind his back.

He noticed he was getting more addicted to role-playing as the Heavenly Sword.

There was no end to his taunts and ridicule.

Upon hearing that, the Skysnow Tribe elder’s face sank. “Well said, arrogant Heavenly Sword. Let’s see if you can continue spouting such nonsense once I break you into two!”

This time, he no longer held back. A tremendous burst of freezing qi rose into the skies, causing the whole area to rumble and quake!

“Quintuple Frost Dao Art, Star Cracking Cold!”

Huge amounts of freezing qi appeared and gathered above the elder, forming a gigantic frozen planet with countless runes surrounding it!

The surroundings were all frozen the moment that the frozen planet appeared!

At that moment, everything in the starry sky seemed to have stopped. It was as if the starlight in the sky were frozen!

The Quintuple Freezing Qi Art was the ultimate killer technique of the Skysnow Tribe!

“Behold, this attack of mine shall rise against the Heavens!” the Skysnow Tribe elder yelled as he launched that gigantic frozen planet toward Chu Kuangren.

Before the planet could crash down on him, the terrifying freezing qi had already locked on to Chu Kuangren!

There was no way to escape an attack of such scale!

The countless banquet guests gulped with fear as they watched the frozen planet descend from the sky. All of them were horrified, and they felt as if the sky itself was about to fall on them.

“By the heavens.”

“Quick, we need to run!”

“There’s no way we can fend off an attack like this. We’ll end up dead if we stay around here!”

Everyone fled in panic, fearing that they would be caught in the attack.

Meanwhile, the Frost Tribe Leader was still busy battling the other Five Qi-realm elite in the distance. He wanted to help but was held back by his enemy. Hence, he could not assist Chu Kuangren.

“Damn you! Damn you all!”

The Frost Tribe Leader’s face looked ghastly. ‘If no one stops that frozen planet, more than half of the Frost Tribe will be destroyed.’

Gulp...

Ling Fei was subconsciously thinking of escaping as he stood behind Chu Kuangren.

However, when his gaze landed on the white-robed figure standing fearlessly in the distance, he gritted his teeth with determination. He would not run away too!

‘The Heavenly Sword is unbeatable!’

‘This is the time for me to show my bravery and loyalty as his follower!’

Han Xingyu also did not retreat, and the same could be said for some of the Frost Tribe elders as well. After all, they had to protect the Frost Tribe behind them.

If they ran away, the Frost Tribe would surely be hit by that attack, resulting in countless casualties.

“The Heavenly Sword...”

“Can he defend against this attack?”

Everyone looked at the Heavenly Sword’s back, thinking that the odds were severely stacked against them. Although he was legendary, his cultivation level was only at the Trinity Flower realm.

Besides, there was no way a Trinity Flower cultivator could block that powerful attack.

“Going against the Heavens?”

Chu Kuangren chuckled as if he heard a joke. “Even if you rebel against the Heavens, you are still beneath it! As for me, I’m the Heavens that lie beyond the Heavens itself!”

Endless sword qi shot out from his eyes.

Finally, the black Void Sword in his hand was unsheathed!

When the Void Sword was unsheathed, its vibrant sword chant echoed across the skies, sending shocks into space around the planet. Its black blade was as dark as the center of a black hole, seemingly wanting to swallow every light in the universe!

“Rejoice, for with this attack, you shall bear witness to the... true Heavens!”

Chu Kuangren’s tightened his grip on the sword. Surge upon surge of Arch Gilded Intent erupted from his body and surrounded the edge of the Void Sword.

Life-Death, Yin Yang, Windstorm, Samsara, Flame, Massacre...

Close to ten completely different Arch Gilded Intent gathered at the Void Sword’s edge, eventually merging and turning into an overwhelming and earth-shattering sword qi!

“Sword, Heavenly Thousand Terrain!”

Chu Kuangren immediately swung the Void Sword toward the incoming frozen planet. His devastating and endless sword qi burst forward like a raging torrent that sprung from the chaos of the world!

Some witnessed the cycle of rebirth in his sword qi, some saw the pinnacle of Sword Dao, while some saw the culmination of ever-changing Yin Yang...

It was as if that was not sword qi but a whole new world instead!

Boom!

The sword qi torrent landed on the frozen planet and exploded with a terrifying bang akin to the Big Bang. Many cultivators who witnessed that immediately fell into a daze.

At that moment, the frozen planet began to crack and shatter, while the sword qi gradually traveled along the cracks and eroded the frozen planet. Toward the end, another explosion erupted and shattered the frozen planet!

However, the overwhelming sword qi managed to retain much of its power as it headed toward the Skysnow Tribe elder at lightning speed!

“This power... Impossible!”

The elder screamed and resisted the sword qi torrent with all his might. However, his fate was already sealed, and the sword qi attack soon reduced him to ashes.
