Chapter 181: Xu Bai Pointing at Fuyin Posthouse (3)

After entering the room, he turned around and closed the door. Only then did he come in front of Kong Chan and slowly greet him.

Kong Chan looked at the scar on top of Wu Hua's head and smiled."I didn't expect my disciple to be so talented. After untying the knot in his heart, he actually jumped grades and reached Rank-6."

The scar on the top of the Titanium Temple's head was caused by them. Whether they were strong or not had a direct reaction to the scar.

"Master, disciple has already understood everything and is no longer disturbed by the karma in front of him. "No Flower bowed.

"What plans do you have in the future?" Kong Chan asked.

He didn't ask what was on her mind. He only asked her about her future plans. After all, everyone had different ways to break out of this situation. It was pointless to ask.

"Disciple wants to continue staying in the Heaven Inspectorate. Since I've already entered Rank-6, I'll take the position of Chief and manage the affairs of the prefecture."No Flower said respectfully.

"Oh?" Kong Chan was slightly surprised."

The Department of Heaven Supervision was divided into Heaven, Zheng, Li, Jing, Zhou, Fu, and Dao. It could be said that the hierarchy was clear.

Kong Chan had thought that Wu Hua would leave the Heaven Inspectorate, but she did not expect him to do the opposite.

“There are many things that disciple cannot do, but there are many things that disciple can do. As long as one is in a place within the scope of disciple’s authority, one can do anything.” No Flower rubbed his bald head and said. “Your Majesty...” Kong Chan hesitated for a moment before speaking.

However, after saying two words, she shut her mouth.

No Flower raised his head. His gaze was firm. “His Majesty sacrificed a small number of people’s lives to save more. Even now, I still don’t approve of it, but

I won’t interfere because...”

“Because everyone has different thoughts?” Kong Chan said.

“No, because if I interfere, I will die.” No Flower said seriously, “But I still have a lot of dreams to fulfill. I can’t die.”

Kong Chan was speechless.

He said it directly, but that was exactly what he meant.

If you dare to disobey His Majesty, I don’t care what kind of genius disciple you are. You’ll have to go to the execution ground first.

No Flower’s words were very realistic, but they also made sense. This was also what Kong Chan admired the most.

If one foolishly cultivated Buddhism but did not understand the principles of the world, one would become a fool when one cultivated to the end.

“Then go ahead and take the exam. Oh right, there’s one more thing about Xu Bai. You might want to hear it.” Kong Chan smiled.

No Flower was stunned, then subconsciously asked what was going on.

Kong Chan didn't waste any time and told him everything about Xu Bai and Sheng You King.

In this day and age, how could there be a wall that did not leak?

Of course, Kong Chan didn't know that Sheng You King valued Xu Bai very much. She only knew that Xu Bai was involved.

No Flower slowly recovered, his expression normal: "If it had happened to you, it would be normal."

"Do you think so highly of Xu Bai?" Kong Chan's interest was piqued.

No Flower nodded and told him about his experience with Xu Bai.

"If there's a chance, we can meet." Kong Chan's interest grew.

In the room, the master and disciple chatted more and more.

Green Cloud Academy.

Inside the library.

Liu Xu held a book in her hand and was leaning against the window on the second floor. She looked at the night sky and read the book in her hand.

After returning to the Green Cloud Academy, she had already stayed in the library for a long time. She had read all the books on this floor.

After watching day and night, her strength had long reached the peak of the Eighth Stage. She was only one step away from entering the Seventh Stage Realm.

However, she was unable to step into it and remained at the peak. Even though she had read all the seventh-grade books on this floor, she still did not make any progress.

“What are you reading?”

Unknowingly, Liu Xu’s mind had shifted away from the book and was completely focused on the night in front of her.

The scenery of the Green Cloud Academy was very good. It was filled with the smell of books. Even an ordinary person would be influenced by it if they stepped in.

Looking at the beautiful night sky, Liu Xu’s mood became more and more irritable, to the point that she couldn’t calm down.

She had been back for so long, but she was still unable to break through her demonic barrier and was trapped here.

Her teacher, Wang Qingfeng, had told her to come to the library to find the answer, but she never found it. Instead, she became more and more confused.

Most of the content in the book was to clarify one principle.

In these books, the reason why scholars studied the books of sages was to use their talents to create a peaceful and prosperous world.

And the channel was Great Chu.

But... Could it really work?

Liu Xu was very puzzled and also very puzzled. She felt that the hot blood in her heart was gradually turning cold.

When she heard that the Emperor of Great Chu sacrificed the lives of his people just to destroy the Extreme Life Sect, she had already felt a deep sense of powerlessness.

She knew very well that this was a matter of long-term pain rather than short-term pain. However, her thoughts prevented her from getting out of her current predicament and she was always trapped in the same place.

From the beginning to the end, Liu Xu's goal was to obtain an official rank and create a Great Chu that was full of fairness and justice.

But now, it seemed that this would really work. Or did she really need to take the exam?

Liu Xu walked to the bookshelf and placed the book in her hand safely inside. She then smoothed out the folds on it.

Her face was covered by a white veil, so her expression could not be seen clearly. However, her beautiful eyes revealed the panic and uncertainty in her heart.

Qianqian clenched her fingers into a fist and Liu Xu pounded her head hard.

"What should I do?"

Chapter 182: Xu Bai Pointing at Fuyin Posthouse (4)

The confusion in her heart increased, making her upset and at a loss.

At this moment, a familiar set of footsteps sounded. Liu Xu turned her gaze to the staircase and saw her teacher, Wang Qingfeng, walking up.

"Greetings, teacher." Liu Xu clasped her hands together and bowed as a disciple.

Wang Qingfeng was holding a large pile of books in his hands. There seemed to be more than ten books. He walked to Liu Xujin and placed the books on the ground.

Liu Xu didn't understand what he meant, and her big eyes were filled with doubt.

"Paper True Understanding." Wang Qingfeng said slowly, "This book is even more profound than the paper book. Since you can't solve the problem by reading ordinary books, then take a look at these."

As he said that, Wang Qingfeng paused for a moment before taking out another book and handing it to Liu Xu.

"Some autobiographies made by the paper-binding man might be useful to you."

Liu Xu looked at the book in front of her, her eyes dazed.

She still remembered that when she first advanced from Rank-9 to Rank-8, she had also read about the paper man before she finally succeeded in breaking through.

Now that her teacher had given her a book about paper figurines, she could not help but feel puzzled.

"Teacher, you say... Is this still considered righteous?" Liu Xu thought for a long time and finally decided to ask.

Now, her righteous spirit had long become something else. Although it was also stimulated by scholars, it always felt gloomy.

"Who says it isn't?" Wang Qingfeng glared at him and said, "Have you forgotten what I taught you in the beginning? You are a scholar. You must have a firm belief in your heart. As long as you believe that you are, then you are. As long as you obtain knowledge from books, then that is your righteous spirit."

At the end, he added.

“Besides, everyone in the Academy knows about your situation, and none of them deny it. What are you worried about? Are you not confident in yourself?”

When Liu Xu heard this, she flipped open one of the books.

After looking at it for a while, he raised his head.

“Teacher, don’t worry. I’ll stay up all night today to comprehend the principles within. ”

Wang Qingfeng smiled and left without saying anything.

Liu Xu waited for her teacher to leave before bending down to pick up a book. She went to the window and began to burn the midnight oil under the moonlight.

The next day.

Liu Xu walked out of the library early. Her mental state was already different. Usually, she would feel dejected, but now, every step she took was filled with confidence.

“Rank-6 in one night, I didn’t misjudge you.”Wang Qingfeng’s voice came from behind.

Liu Xu stopped in her tracks and turned around, her face full of surprise.

“Teacher, you waited for me outside for the whole night?”

“Let’s go to the dining hall first. We’ll talk as we walk. ”Wang Qingfeng did not answer Liu Xu. After passing Liu Xu, he led the way.

Liu Xu thought about it and followed behind.

The two of them strolled in the Qingyun Academy. Neither of them spoke. It

was very quiet.

After a while, Wang Qingfeng seemed to feel that the surroundings were too quiet, so he broke the silence.

“Liu Xu, the Great Chu Country will soon hold an examination. Do you plan to take the examination?” Wang Qingfeng didn’t turn around and asked as he walked, as if he was talking about the past.

Liu Xu said in a low voice, “I don’t plan to. I want to join the Heaven Inspectorate.”

Wang Qingfeng instantly stopped and turned around, his face full of surprise.

Recalling how Liu Xu had gone from Rank-8 to Rank-6 overnight and the reply she had given him, Wang Qingfeng seemed to have thought of something.

“You... After solving the mystery in his heart, he made such a decision?” Wang Qingfeng said.

Liu Xu raised her head and fearlessly met Wang Qingfeng’s gaze. She said, “Teacher, this disciple has been thinking and reading for the entire night. The books you gave me have benefited me greatly. This disciple has realized that I am not a suitable person to be an official.”

Wang Qingfeng fell silent and did not reply. He waited for Liu Xu to continue.

Liu Xu tucked her black hair behind her ears and said in a voice like an oriole, “This disciple’s personality is more suitable for the pugilistic world.” Last night, she had come to a conclusion from those books.

She was different from Yun Zihai. The difference lay in the way they dealt with problems.

Yun Zihai hoped to rely on his official position to fulfill his dream, but Liu Xu was very different.

What Liu Xu hoped for was to solve all the problems in the simplest and most direct way. In other words, she wanted to use a more forceful method.

For example, when he was dealing with the young master of the Lin family, he had disguised himself as a man in black and wanted to kill him.

Therefore, she had already thought it through and made a decision. Wang Qingfeng looked at Liu Xu's determined gaze and finally sighed."Up to you."

Teaching students according to their aptitude and adapting to the local conditions had always been Wang Qingfeng's way of teaching his students. Otherwise, he wouldn't have found some paper figurines for Liu Xu to see.

Now that his disciple had made his choice, he naturally respected it, so he did not stop him. At least in his opinion, it was not a bad thing.

"By the way, something big happened to Xu Bai, whom you told me about. "Wang Qingfeng seemed to have thought of something and told him about Xu Bai and King Shengyou. Of course, he was the same. He only knew that Xu Bai was involved in King Shengyou's incident.

After Liu Xu heard this, she was expressionless, as if she did not find it strange.

"Don't you feel weird?" Wang Qingfeng asked doubtfully..

Chapter 183: Xu Bai Pointing at Fuyin Posthouse (5)

"If it happened to anyone else, I would find it strange, but to Xu Bai, everything is normal. "Liu Xu appeared very calm.

“Alright, I don’t want to get involved in the affairs between you young people.

Let’s go and eat.”Wang Qingfeng didn’t say anything more and left with Liu Xu.

Time passed unknowingly. In the blink of an eye, several days had passed.

The county was promoted.

Xu Bai sat on the chair, still reading the Nameless Saber Scripture in his hand.

The progress bar of the Nameless Saber Scripture was about to be completed. What he lacked now was just a little bit of time.

During this period of time, Qing Xue left, and so did Yun Zihai.

Before Yun Zihai left, he specially went to the bodyguard agency to ask Xu Bai what kind of cultivation technique he needed.

Xu Bai indicated that he needed two Tier 5 mental cultivation techniques.

His attack and defense were perfect now, and what he needed the most at the moment was a mental cultivation method that could improve his true foundation.

Don’t forget that he was still a Level Eight expert.

The reason why he could suppress a Rank- 6 was entirely because of three skills.

Diamond Heart Devil Body, Shifting Stars , Kidney Strengthening Technique.

In the end, his current True Core Strength was not enough for him to fight for a long time. In terms of explosive power, he could fight.

There were shortcomings, but not many. However, he still needed to make up for them. Therefore, two Rank-5 mental cultivation techniques could give him a huge improvement.

“Looking at the time, he should be back soon.” Xu Bai thought to himself, his gaze never leaving the Nameless Saber Scripture in his hand.

With that thought, footsteps suddenly came from outside the door, followed by knocking on the door at the same time.

“Escort leader, Lord Yun is here.” Liu Er sent a message from outside. Xu Bai’s eyes lit up, and he quickly asked Liu Er to bring Yun Zihai in.

Speaking of the devil, Yun Zihai just happened to return.

Outside the door, Liu Er agreed and quickly left. After a while, Yun Zihai walked in from outside and pushed open the door. After entering the room impatiently, he closed the door.

“Brother Xu, it’s done.” Yun Zihai walked over and placed the two books on the table.

As he spoke, he couldn’t help but cough twice. The paleness on his face had not faded.

Congenital deficiency caused Yun Zihai to still look weak and sickly. No one would believe that he was a Level Six expert.

Xu Bai picked up the two books and casually flipped through them. After confirming that there was a progress bar, he put them back on the table in satisfaction.

“A martial arts manual and a Taoist manual.” “But there’s still a problem,” Yun Zihai said. “We can’t hide your matter.”

Back then, when Yun Zihai asked Xu Bai which type he needed, Xu Bai gave him the answer.

A martial arts practitioner's heart technique was a must. In terms of combat, martial arts practitioners were indeed more professional.

Next was the Taoist mental cultivation method.

Shifting Stars and Four Steps were both skills that came from Taoism.

Xu Bai was wondering if there would be any miraculous effects if he added the Taoist mental cultivation method. He had to give it a try.

"With the matter of Ascending the Underworld King, it will be especially difficult for you to hide your identity. After all, you have already calculated your name among many people." Yun Zihai explained the sequence of events.

Now, the entire martial world was saying that there was a young sword-wielding martial artist who participated in the resurrection of King Sheng You and even contributed greatly.

In the martial world, the rate of information flow was really high. It was said that this young man was covered in black light and was very

powerful.

Of course, for some reason, news of Xu Bai being chosen by King Shengyou did not spread.

However, it was clear to everyone that Xu Bai's background might not be small. After all, the Emperor did not say anything after knowing about this.

Sometimes, not giving any indication would lead to many speculations.

“Heh, His Majesty actually told me that he doesn’t want to get involved in his younger brother’s matters.” Yun Zihai coughed again. “But Brother Xu, I think His Majesty wanted to summon you into the palace, but His Highness must have said something to him.””

At the mention of this, Yun Zihai was amused.

Because when the Emperor spoke to him, the expression on his face was very interesting. It was like a scholar meeting a soldier, and he was very speechless.

It was said that His Majesty and the King had quarreled in the room for a long time. The precious porcelain, landscape paintings, and paintings in the room were all smashed by his younger brother.

However, everyone in the palace knew that it was normal for the two of them to quarrel. When something happened, they were more united than anyone

Therefore, he didn’t dare to say anything.

Xu Bai rubbed his chin and fell into deep thought.

He did not understand what the Emperor was thinking, but it was naturally a good thing that he would not be recruited into the palace. He only wanted to develop now, and too much involvement in the affairs of the Jianghu and the royal family would instead become an obstacle to him.

Although there were benefits, there were also dangers.

“Brother Yun, have you decided on your jurisdiction?” Xu Bai asked.

“It’s settled. It’s in Yunlai Prefecture. The county is also under the jurisdiction of Yunlai Prefecture.” Yun Zihai explained, “We’ll leave tomorrow. You might have to pack up quickly. As for the Yin Posthouse, they’re ready to hand it over at any time.””

Tomorrow?

Xu Bai didn't expect things to progress so quickly.

However, it was also a good thing that he could leave early. He could count on the progress bar elsewhere.

The two of them chatted for a while before Yun Zihai left. After all, he had to rush to a new jurisdiction soon. He had a lot of things to do, and he needed to do all the work here.

After Yun Zihai left, Xu Bai looked at the three books in his hands. He put away the two mental cultivation techniques and started reading the Nameless Saber Scripture.

In Xu Bai's eyes, the progress bar of the Nameless Saber Scripture was slowly increasing until it was finally perfected..

Chapter 184: Life and Death in the Mirror World (1)

In front of Xu Bai's eyes, the progress bar was slowly increasing. After a while, it was finally complete.

Light blue smoke appeared in the air, curling and gathering into lines of words. The words turned from blurry to clear and appeared in front of Xu Bai.

A moment later, the words in front of him were completely formed and no new changes were produced.

[You have studied the Nameless Saber Scripture and comprehended the twenty-four armor-breaking moves (incomplete).]

After this line of text appeared, Xu Bai revealed an expression of 'I knew it'. His guess was no different from his.

In the beginning, he obtained the first nameless saber scripture.

The top of the book once said that it was broken armor twenty-four styles, and the back of the book also followed a residual word.

It proved that this Nameless Saber Scripture was as the legend said. It had been broken into twenty-four parts by the nameless sabersman and scattered in unknown locations, which was why there was an additional word.

Now, it seemed that he had obtained a portion of it.

Xu Bai suddenly had a feeling of getting a set of cards. It was like a card game where he got another part of the cards.

After the light blue text appeared, it began to turn blurry again. Then, it turned clear again and formed new content in the air.

[Fusion option found. Fusion in progress.]

[Breaking First Form + Armor Penetration Twenty-Four Forms (Incomplete):

Breaking Second Form.]

[Fusion successful.]

At this moment, the line of text finally turned into information that entered Xu Bai's mind. It completely integrated the detailed method of the two styles, allowing Xu Bai to successfully understand the true meaning within.

The newest panel appeared in front of him, displaying all of Xu Bai's current cultivation techniques.

[Name: Xu Bail

Realm: Eighth Stage unspecialized.”

[Broken Second Level: Level 3]: Maximum level.] [Reversal Heart Technique (Level 2.5):[Maximum level.]
[Maple Leaves Like Rain (Tier 2): Maximum level.]

[Four Steps (Level 3): Maximum level.] [Shifting Stars (Level 4): Maximum level.]

[Diamond Heart Devil Body (Level 4), max level.]

[Kidney Strengthening Technique (Level 4): Maximum level.]

[Hundred Poison True Clear Rank 3]: Full Rank.]

[Comprehension (max level)]

The First Form of Breaking had become the Second Form of Breaking, and its level had also increased from the Second Form to the Third Form. As he finished absorbing the information in his mind, Xu Bai also understood the true essence of the technique.

In short, the improvement was still very big. The first improvement was the power of Armor Break. Now that Xu Bai had slashed down, the power of Armor Break had directly increased by two times. It could be said to be a huge improvement.

Of course, it was not only the power of the armor piercing that had improved greatly, but also the strength of the saber technique itself.

After all, it was a qualitative breakthrough from Tier 2 to Tier 3.

Other than that, there was another special ability. Compared to these two abilities, it was considered a new ability.

– -Heavily injured.

This was a very easy to understand meaning. Simply put, it was to make the other party's injuries unable to recover.

The principle of its usage was simple. It was to attach True Core Strength to the saber, and when it was used, there would be some subtle changes.

When the attack landed on the opponent's body, the True Core Strength would remain in the opponent's body through the armor-piercing method. Even if the opponent's healing ability was strong, the True Core Strength would still be damaged inside, which would also reduce the opponent's recovery speed.

It was a very sinister characteristic, but Xu Bai liked it very much. The more he looked at it, the more he found it pleasing to the eye.

"Yes... Next, he would focus on these two books." Xu Bai rubbed his chin and took out the two mental cultivation methods on the table. After careful selection, he decided to read the Taoist mental cultivation method first.

The mental cultivation technique he currently possessed was called the Reversal of Yin and Yang. The name sounded quite awesome, but its level was actually not high.

More importantly, he really wanted to know if it would be closely related to the ability he used after fusing with the Taoist mental cultivation method.

For example, it could increase or reduce consumption.

No matter what, there was no loss in trying. What the golden finger gave him was infinite tolerance. In other words, as long as he was given time, he could learn the strengths of the various schools and fuse them into one, standing at the highest peak.

Flipping through the book, a progress bar appeared in front of him.

It had to be said that it was indeed worthy of being a new Tier 5 technique. This consumed quite a lot of time.

However, it wasn't a big problem. What he didn't lack the most was time.

This Taoist mental cultivation technique was called Purple Cloud Imperial Technique.

When Xu Bai read the book carefully, he was surprised. The contents of the book and the effects it described were beyond his expectations.

According to the description of the Purple Cloud Imperial Technique, the main effect of this cultivation technique was to borrow power.

Using divine essence as a guide, one could borrow the power of heaven and earth.

However, this book had a drawback, and that was that its level was not high.

Only grade 5, the force borrowed was only about 20% at most, the consumption when using it would also be greater.

However, sometimes, this 20% effect could reverse the situation.

Moreover, if he could really reach the fifth rank, Xu Bai was not afraid of consumption.

The energy of the Double Kidney could be used as a treasure trove. In terms of consumption, it was nothing. Moreover, it could increase one's strength by 20% for no reason. It was indeed not bad. "Xu Bai stroked his chin and pondered.

The biggest weakness was the consumption of energy, but to him, it was not a weakness at all.

"Let's do it!" Xu Bai immediately began to focus on the screen.

In fact, he was still looking forward to it. After all, what he had was not only the Purple Heaven Imperial Technique, but also the Reversal of Yin and Yang..

Chapter 185: Life and Death in the Mirror World (2)

If he could fuse them together, who knew what changes the effects would have.

Armor Penetration, Hallucination, Courage as the battle progressed, and borrowing momentum.

She was so beautiful, so beautiful!

With this thought in mind, Xu Bai became even more fascinated.

Time passed, and the sun and moon rotated.

In the blink of an eye, it was already night time.

Yunlai Prefecture was located in a remote place. The people there were simple and honest, but in comparison, they were still relatively backward.

However, no matter what, it was still a prefecture, so it should have some land. Moreover, it ruled over many Dao City.

At this moment, Wu Gou, the former chief of Yunlai Prefecture, was packing his things. He was preparing to leave early in the morning and take up his post elsewhere.

When he left, he had to bring along a lot of his own people. After all, he had left a familiar territory and was in a new place. He could bring some familiar people with him so that he could use them.

“I didn’t expect Yun Zihai to really succeed. This matter has even set a precedent. The first residence that can govern itself and is not affected by external vision.”Wu Gou secretly sighed as he packed his things.

It was like sour grapes. After all, people were very envious of such a situation. As a sixth-grade scholar, Wu Gou did not come from the Qingyun Academy, but from another academy.

That academy was not very famous, but he was able to get into the imperial examinations and reach his current status step by step. It was all thanks to his own hard work.

He was also someone who had climbed up from the bottom, so of course he knew the ins and outs of it. Compared to some flowers in a greenhouse, he could see many different things.

The Emperor’s delegation of power might not be just a promise on the surface, but there was a deeper meaning.

Of course, as officials, how could they guess the heart of the Son of Heaven? He could not understand what it meant.

However, there was one thing he was clear about. The handover procedure had to be smooth. He could not let anyone see anything fishy.

After packing up, Wu Gou came to a brazier and looked at the ashes inside, revealing a satisfied smile.

As the saying went, the mountains were high and the emperor was far away. A remote area like theirs had all kinds of wonderful benefits.

Sometimes, when one was close to the emperor, everything would be restricted. However, when one was far away, some things would naturally be extremely smooth.

He didn't miss a single piece of money, and he kept all the women in his hands.

He was used to working here. It seemed like he had been transferred to a bustling place, but in fact, it had restricted his hands and feet.

"Fortunately, there was nothing left out."Wu Gou thought.

After this last matter came to an end, he felt much more relaxed. He went to the window and looked at the moonlight outside.

He looked at the beautiful night sky and wondered if he had missed anything. After confirming it again and again, he was ready to close the window and rest early.

He had to go through the handover procedures early tomorrow morning. Of course, he had to rest early to avoid being distracted.

However, before he could close the window, he saw someone standing in the courtyard from the corner of his eye.

As the moonlight was not very bright, he could not see clearly, but the sudden appearance of a person in the middle of the night immediately alerted him.

A brush and a book appeared in his hands. He slowly pushed open the window. At the same time, words surrounded his entire body as he wrote.

After all, he was still a sixth pin student. This bit of strength was still something he could show.

Wu Gou was about to question the other party's identity, but he did not expect the other party to not seem to appreciate it. Without giving him a chance to ask, he raised his right hand.

A cold light flashed, and the surrounding temperature plummeted.

Wu Gou only felt a chill on his neck, followed by a sharp pain.

This pain was not the kind of pain that came from a sharp object cutting into one's throat, nor was it the pain of a blunt object being hit. Instead, it was the pain of ant-sized mouths constantly gnawing at the flesh on his neck.

Wu Gou couldn't help but free his hand and grab at his neck, grabbing the thing that was flashing with a cold light.

Under the moonlight, he could clearly see what was on his palm. Then, all the hair on his body stood on end.

It was a broken piece of a bronze mirror. In the broken piece, there were ant-sized faces that were opening and closing their mouths at him.

That was the source of the pain just now.

"Strange!"

Wu Gou's eyes widened."

He did not finish his sentence because the blurry figure in the courtyard gradually became clear.

The figure was in pieces, as if pieces of mirrors were pieced together. It looked extremely terrifying.

When the figure became clear, it slowly lifted its feet and walked toward Wu Gou.

With every step he took, the fragments that seemed to be pieced together on his body trembled, as if they would fall off at any moment.

As the Mirror Death approached, Wu Gou seemed to have thought of something. He quickly turned around and wrapped the bronze mirror in a cloth.

After doing all this, he immediately turned around. With a brush and a book in his hands, he let the words appear around his body and attacked the Mirror

Death.

“Boom!”

A series of loud noises came from the backyard, and all the words were lost.

When Wu Gou looked over, he realized that the Mirror Death that had just appeared had already disappeared.

“Gone?”

This situation made his heart tremble, and an uneasy feeling spread throughout his body.

He didn’t dare to slack off at all. His hand that was holding the brush kept waving, forming characters one by one, surrounding his body from top to bottom, protecting him tightly..

Chapter 186: Life and Death in the Mirror World (3)

Around him, a gust of cold wind blew, causing Wu Gou's back to feel cold.

Turning his head, Wu Gou realized that the cloth covering the mirror had been blown off by the wind.

When he turned around and subconsciously stared at the mirror, he realized that his face was reflected in the mirror.

That face had a strange smile, but his eyes were cold and sinister.

Wu Gou suddenly put down his hands, his expression extremely dull as he slowly walked in front of the mirror.

The words no longer appeared on his body. The book and brush in his hand fell to the ground, but he did not feel anything.

The face in the mirror still had a strange smile on it, as if it was mocking or looking at a prey.

The next moment, Wu Gou suddenly stretched out his hand and made a strange gesture.

He picked up the mirror in front of him and threw it on the ground with all his strength.

The crisp sound of something breaking rang out, especially in the pitch-black night, causing one's heart to tremble.

It was not just his house. The sound of mirrors shattering could be heard everywhere in the yamen where people lived.

After smashing the mirror, Wu Gou squatted on the ground and picked up one of the fragments.

At this moment, his face was no longer dull, but replaced by the strange smile in the mirror.

Her smile was emotionless and eerie.

Wu Gou held the mirror fragment and slowly raised his hand. He placed the fragment on his face and gently slid it.

The sliding motion was very gentle, as if he was applying a layer of rouge on himself, but what was left was blood.

The blood flowed along the mirror fragment, then along his hand, and finally dripped down from his chin.

Wu Gou didn't feel anything and continued to move.

Gentle and slow.

More and more blood stains appeared on his face, and some parts were so deep that the bones could be seen. In just a moment, there was no place to see on his face.

Wu Gou's smile was very cold. The flesh on his face and the blood that was flowing continuously made him look even more sinister.

The direction of the mirror fragment changed and slowly landed on Wu Gou's neck.

In the next moment, Wu Gou slid gently, and a bloody wound appeared on his neck. Immediately after, blood sprayed out.

"Plop!"

Wu Gou knelt on the ground with his head hanging down and his hands placed weakly on both sides.

The aura of life gradually disappeared. In the blink of an eye, Wu Gou became a corpse.

The room fell silent again. The Mirror Death was no longer in the backyard.

The next day.

Xu Bai left the Dragon Conqueror Bodyguard Agency with the escorts sending him off.

Before he left, he had already given everything to another bodyguard. That bodyguard was relatively calm and efficient. He was completely competent.

Among the people who followed him, only Liu Er followed behind him.

Today was the day he would head to Yunlai Mansion. He would probably rarely come back from Sheng County in the future.

Liu Er followed behind Xu Bai. As he looked at Xu Bai's back, the admiration in his eyes increased.

On the way, Xu Bai had told him everything, including the place he was going to. Liu Er had no objections.

In his mind, upgrading to a county was already considered very big.

The place they were going to now was Yunlai Mansion, which was two levels higher than Sheng County.

He didn't know how big Yunlai Mansion was.

But it was definitely much bigger than Sheng County.

He was excited when he thought about how a person from a small county town like him would have the chance to go to Yunlai Manor.

“As expected, there is no problem with following the escort master.” Liu Eryi thought as he walked.

Not long after, the two of them arrived at the county government office. Yun Zihai was also waiting at the entrance of the county government office. He was still carrying big and small bags.

He was a weak scholar with a congenital deficiency. His face was as pale as paper, but he was carrying big and small bags, giving people a very strong sense of difference.

“Go help him get his things. ””

Liu Er was very sensible. He quickly took the package from Yun Zihai’s hands.

After all, he had become a ninth-grade martial artist, so he still had this bit of strength.

Xu Bai had only brought money with him other than his daily necessities. He did not leave anything else behind.

“Brother Yun, don’t you have a carriage?”

The surroundings were empty, and there wasn’t even a horse. Xu Bai wondered if they had to walk.

“The carriage is outside.” Yun Zihai said, “It’s parked at the city gate of the county town. I still have some things to do on the way, so I’m walking outside.””

Xu Bai rubbed his chin.

Yun Zihai did not say what he wanted to do, and he did not ask.

The two of them walked side by side towards the city gate.

The further they went, the lower the density of the houses outside, and the more dilapidated the buildings were.

This was how it was. The closer it was to the center of the county, the more prosperous it was. The further away it was from the center of the county, the worse it was.

When the two of them were about to reach the city gate, Xu Bai couldn't help but frown when he didn't see any movement from Yun Zihai.

At this moment, Yunhai suddenly stopped and revealed a bitter smile.

Xu Bai looked in Yun Zihai's direction and realized that there was already a group of people standing at the city gate.

This group of people was dressed in ordinary clothes. It could even be said that they were shabby. One look and one could tell that they were not rich.

"We're here to send Lord Yun off." The citizens of Sheng County knelt on the ground and said in unison.

Yun Zihai quickly helped the commoners up one after another, then started to nag at them.

Most of the content of his nagging was about ordinary things, just reminding them to be careful.

The situation only gradually turned for the time it took for an incense stick to burn.

"I didn't expect Brother Yun to accomplish so many things for the promotion of the county in such a short period of time," Xu Bai said with a smile.."

Chapter 187: Life and Death in the Mirror World (4)

"I'm only doing some things in my spare time. "Yun Zihai said helplessly," I just wanted to travel in a low-key manner. I didn't want to take a carriage. I didn't expect them to find me.""

Outside the county town, the carriage was parked undamaged.

Xu Bai walked over.

When he passed by Yun Zihai, he suddenly said,""Brother Yun, perhaps Yunlai

Prefecture is a place where you can display your talents."

Yun Zihai was stunned for a moment before he smiled." This is the first time

Brother Xu has been so sure of me.""

"Get in the car." Xu Bai didn't say anything else and got into the carriage.

Yun Zihai was able to win the love of the people just by spending some free time. Perhaps Yun Zihai really had that talent. What he lacked was just a platform.

Yun Zihai did not say anything else. He followed behind Xu Bai and sat in the carriage.

Liu Er took the horsewhip from the person who sent him off and sat on the horse groom's seat, acting as the horse groom.

"Giddyup!"

Along with the sound, the hooves of the horses lifted and ran into the distance, kicking up a cloud of dust.

The Yin Posthouse was the transportation hub of Great Chu. It was located in the capital.

At this moment, at the new Daoyin Posthouse.

A carriage slowly approached.

This Yin Posthouse was much bigger than the Yin Posthouse in Sheng County. There were many people passing by on the streets.

When the carriage arrived, the posthouse people did not show much. They only took a glance more or less and did not care.

Yin stations were meant for this kind of work, so it was normal for people to come.

It would be abnormal if no one came.

Yun Zihai walked down from the carriage with a pale face.

Xu Bai followed behind and looked around.

When he saw the Yin Posthouse that was much bigger, he could not help but sigh.

“Brother Xu, I’ll go find the station chief.” Yun Zihai turned around and said,

When they were in the carriage just now, Xu Bai had said that he wanted to stay here and take a look, so Yun Zihai did not force him.

They were on a long journey. As officials, there was free food here that could be used to supplement their needs.

After Yun Zihai left, Xu Bai got Liu Er to guard the carriage and began to stroll around the Yin Posthouse.

The Yin Posthouse was indeed huge. Xu Bai was not in a hurry. He looked at the stalls one by one.

Most of the things traded here were strange and strange. After all, they were not ordinary people.

Would these things be useful?

Whether there was or not depended on the specific situation.

For example, there was a coffin beside the table.

According to the courier who sold the coffin, once they encountered a strange thing and really couldn't defeat it, they could directly hide in it and isolate the aura of the living.

It was strange. Once the aura of a living person was isolated from the body of the ship, it would be much safer.

The courier spoke very strongly, but Xu Bai also knew that the people who sold things all boasted about their goods.

He was only here for the progress bar. He was not interested in anything without a progress bar.

Yun Zihai seemed to have been talking for a long time and had yet to come out.

Xu Bai wasn't in a hurry and just walked around.

Only after the time it takes for an incense stick to burn did he finish touring the Yin Posthouse.

When he walked out of the stall, he was holding a clay pot in his hand and a satisfied smile appeared on his face.

There were strange and complicated patterns carved on the earthen jar, and it was impossible to distinguish the specific shape.

There was nothing inside. It was empty, not even a lid.

However, Xu Bai was very happy because there was a progress bar on the pattern.

"I found a treasure." Xu Bai carefully placed the jar on the carriage, his smile growing wider.

At this moment, Yun Zihai also walked out from where the station chief was.

However, compared to Xu Bai, Yun Zihai's expression was not as happy. Instead, his face was gloomy.

Even when they boarded the carriage, the cloud remained silent.

"Giddyup!" Liu Er drove the carriage and continued on his way.

The carriage left a trail of dust as it went further and further away. In the carriage, Xu Bai looked at Yun Zihai as he stroked the patterns on the earthen jar.

"What's wrong?"

From the moment Yun Zihai entered the carriage, he had a worried look on his face. His eyebrows were knitted together, and the only thing missing was the words "I have something on my mind"

Even an ordinary person would be able to tell, let alone Xu Bai.

Just now, Xu Bai was still immersed in the joy of getting the progress bar. At this time, he gradually calmed down, so he asked.

Yun Zihai was still deep in thought. After Xu Bai asked, he came back to his senses and said apologetically, "I'm sorry, Brother Xu. I was still thinking about something just now, so I didn't say anything. We might have to speed up the progress. "

"Oh?" "Something happened in Yunlai Mansion?" Xu Bai asked, intrigued."

If there was anything that was worth catching up on, it could only be that something had happened in Yunlai Mansion.

As expected, just as Xu Bai said that, Yun Zihai nodded continuously.

"Not only did something happen, but something big happened.""Brother Xu, the magistrate of Yunlai Mansion died not long ago.""

"What? Dead?" Xu Bai was slightly stunned.

He really didn't expect the news to be so explosive. A dignified Prefecture Magistrate was actually dead?

"It seems like it was killed by the Strange Ones. I can't find any clues, but after the Strange Ones kill people, they will definitely kill again, so I have to hurry over. "Yun Zihai's words carried a trace of worry.

Xu Bai noticed the abnormality and frowned."

The expression that Yun Zihai revealed just now seemed to be quite fearful of that strange creature.

Yun Zihai shook his head and said, "It's not very strong, but its characteristics are very strange, especially one of its characteristics. Even now, there's still no way to break it.."

Chapter 188: Life and Death in the Mirror World (5)

Yun Hai could be considered an expert in this aspect. Although Xu Bai was famous now, he had only been in this circle for a short time. He was still unclear about many things.

In particular, there was no opportunity to understand the strange thing about the boss. From beginning to end, he also encountered a few strange things. He also directly solved them with violence.

"Brother Xu, have you heard of...The Mirror Death?" The clouds came from the sea.

Xu Bai shook his head, indicating that he had never heard of it before. However, he suddenly remembered that there was a "mirror" character in the name. Could it be related to mirrors?

Xu Bai asked.

Originally, this was just his guess. He did not expect that when he said it, Yun Zihai actually nodded, indicating that it was indeed related to the mirror.

"The Mirror Death's unique characteristic is that it uses mirrors as a medium. It can appear anywhere with mirrors, and every time it appears, it will be in a certain area. After the first incident, it will continue to happen in that area."

'Most importantly, wherever there is a mirror, as long as you look at that mirror, the mirror will show the appearance of the person who looked directly at you. The Mirror Death will have the level of the person who looked directly at you, and the strength of the person who looked directly at you will be reduced by half.'

At this point, Yun Zihai roughly explained the Mirror Death's ability.

Xu Bai raised his eyebrows.

This ability...Very strong.

First of all, if the Mirror Death had the appearance of the person who was looking straight at it, it would have the same level as the person who was looking straight at it. Just this alone was very difficult to deal with.

There was something worth pondering about Yun Zihai's words. The Mirror Death could only have the level of a direct observer, but not the ability of a direct observer.

In other words, this strange monster still used its own method of killing people. It would not use the ability of a direct observer to kill people.

Secondly, the most fatal point was that he would directly reduce the level of the person who looked directly at him by half.

If it was a Level Six expert, what would happen after cutting it in half was self-evident.

"You just said that it appears every time. Could it be that this is not the first time it appears?" Xu Bai asked when he noticed the strangeness in Yun Zihai's words.

"Yes." Yun Zihai nodded and said, "This is its second characteristic. It can never be killed.""

"The place where it lives belongs to the world in the mirror. No matter how many times it is killed in the outside world, it will be resurrected."

Someone once tried to run into the mirror world and kill it. After that, it stopped for a long time, but unexpectedly, it came out again. Later, I found out that as long as there is a mirror, it has countless places to revive."

The carriage fell silent.

Yun Zihai thought of something and waved his hand repeatedly. "Brother Xu, I didn't ask for your help. I didn't mean anything else. I was just chatting with you."

What he said was the truth. There was no trace of falsehood. After all, the current matter was already considered a matter under his jurisdiction. Most importantly, the last time he asked Xu Bai for help, Xu Bai was almost taken away by the female Abbey Dean, which made Yun Zihai feel very guilty.

"I'll go take a look." Xu Bai said, "What you said is to cover an area. The Yin

Posthouse that I'm in happens to be in the Yunlai Mansion's area. If the Yin Posthouse is affected, it will affect me greatly."

Xu Bai was telling the truth.

If there was any danger in the place where he was collecting wool, he had to think of a way to resolve it. Otherwise, he would not be able to sleep or eat in peace if he stayed here.

Moreover, if the two of them worked together, they could solve the problem faster.

"Brother Xu, I knew you were a chivalrous person! "Yun Zihai didn't know what to think, but he was immediately moved." "As expected, Junior Sister Liu didn't misjudge you. He said that you have a sense of justice that is hard to detect." Xu Bai was speechless.

He didn't know if he should say thank you or say something to alleviate the special situation.

If he was given a second chance, or if Liu Xu was standing in front of him, he would definitely press down on Liu Xu's shoulders, lean in front of her ears, and roar at the loudest volume.

"Don't praise me so well!"

Even with Xu Bails facial skills, he still felt that it was not very good to praise him like this.

Outside the carriage, Liu Er was still driving the carriage.

The two people in the carriage were having a close conversation.

After talking for about half an incense stick's time, Xu Bai and Yun Zihai gradually felt that something was wrong.

"The carriage seems to have slowed down, and it's getting slower and slower." Xu Bai frowned and shouted, ""Liu Er, are you asleep?

Liu Er heard the sound and stopped the carriage. Then, he lifted the curtain of the carriage and carefully put his head into the carriage.

"Sir, something happened outside."

His voice was trembling, showing that Liu Er's heart was very unstable.

Xu Bai's gaze passed Liu Er and followed the gap in the curtain that Liu Er had lifted, looking outside.

When he saw the situation outside, his eyes widened slightly. Then, he gripped Ghost Head Blade.

"Brother Yun, it looks like this last trip is going to be bumpy.."

Outside the carriage, it was a boundless night. As Xu Baiyun and Zihai were sitting inside the carriage, they did not know that the carriage was currently traveling in a dense forest. It just so happened to stop and was surrounded by towering trees.

Due to the tree leaves blocking the light, the moon shone sparsely on the ground, creating a mottled shadow.

There was no one around. It was quiet. Other than the occasional chirping of insects and birds, there was no other sound.

If someone passed by, the timid would even feel a chill run down their spine.

Other than the quiet night and the occasional sounds around them, abnormal things were happening in the pitch-black sky.

The weather was very good at this time. Although the night was a little cold, wearing two layers of unlined clothes was enough to keep them warm.

If the moon was a little rounder today, it would be the best time to admire the moon with two pots of old wine and some side dishes.

Moon appreciation was a common activity in Great Chu. Be it the elegant scholars or the ordinary people, they all liked to admire the moon.

However, other than the bright moon, there was also something yellow floating in the sky.

Under the influence of gravity, these orange objects fell from a high place and slowly landed on the ground.

The edges were round, the middle had holes, and the paper money was shocking.

The paper money was spread on the ground, densely packed. There were still paper money in the sky, falling with the wind.

Such a thing happening out of nowhere would feel strange no matter where it was.

“Brother Xu, I once heard a folk story about this moment.” Yun Zihai looked up at the sky and slowly told him everything he knew.

To sum it up, there was only one sentence.

If paper money falls from the sky, there must be a great disaster.

Paper money was used to pay tribute to the dead. It was the most widely used during the memorial ceremony.

The Yang Realm had the currency of the Yang Realm, and the netherworld had the paper money of the netherworld. The two did not conflict with each other.

Many times, it was a custom to pay homage to their deceased ancestors at a specific time and use paper money to express their respect.

However, customs were customs. If they encountered such a situation on a normal day, even the most normal customs would become terrifying for no reason.

It was said that in an unknown county, there was once a scholar who had been studying hard in his courtyard after failing the examination. He planned to continue to take the examination next year.

Coincidentally, it was time for the memorial ceremony. The scholar was more concerned about these rules, so he bought some paper money and went to the wilderness to pay homage to his deceased ancestors.

On the way back, it happened to be raining heavily and they happened to encounter an uninhabited dilapidated temple. The scholar took shelter from the rain in the temple.

After the rain gradually became lighter and disappeared, he continued to rush home.

However, he did not expect that the rain would only gradually stop in the middle of the night. The scholar could only take advantage of the moonlight and rush home.

They were halfway through the journey, but unexpectedly, when they passed by a small road, something strange happened.

On this small road, paper money suddenly appeared one after another. They were densely packed and covered the entire road.

He didn't know what happened that day, but the next day, he found the scholar's body on that path.

From then on, there was a legend that had been circulating among the people for a long time.

The road paved with paper money was the road to giving money, and this so-called giving money was giving money from the dark.

Through this path, the paper money could be delivered to the hands that needed it. Once a person took this path, they would enter the world of the dead.

If he encountered such a situation when he returned home at night. He had to immediately turn around and find a place to stay along the path he had taken. He could only go back when dawn came.

When the living meet the dark road, turn around and don't look back.

Hearing Yun Zihai's story, Xu Bai rubbed his chin thoughtfully.

The paper money on the ground was densely packed. Coupled with the eerie trees on both sides and the moonlight, it gave people a feeling of coldness and terror.

“Turn around?” Xu Bai said.

Yun Zihai shook his head and said, “What I’m talking about is indeed a legend that has been circulating among the people for a long time. However, this legend has its roots and is not groundless.”

“In other words, the scholar really encountered this situation and died?” Xu Bai asked.

The folk version was naturally different from the official version. The official news was definitely more reliable. Now that he heard what Yun Zihai said, Xu Bai guessed that there was indeed something strange happening, but it was not some so-called shady road.

“That’s the mirror world.” “After the Mirror Death was born, the Mirror World appeared,” Yun Zihai said seriously. “That scholar walked along this path and entered the Mirror World. He died there.”

“What?” Xu Bai’s interest was instantly piqued. “In other words, we might encounter the strange thing that killed the prefecture token?”

He did not expect to meet the Mirror Death so soon. He had thought that he would deal with him in Yunlai Mansion.

“Turning back is useless. From the moment I set foot on this path, there is no way out. I can only keep walking forward and see the essence of it. “The clouds came from the sea.

The two of them discussed for a while before getting off the carriage.

Liu Er was confused. In the end, he followed Xu Bai. At the same time, he pulled out the long saber at his waist and was on guard against the dark environment around him..

Chapter 190: Basic Operation, Everyone Seats (2)

He panicked, especially when he saw the paper money all over the ground.

Xu Bai and Yun Zihai were both veterans of the battlefield, and Liu Er was only a ninth -grade martial artist. He had not encountered the situation before him, so it was normal for him to panic.

As soon as he came down and stood on the paper money on the ground, Xu Bai felt different. It was as if he was stepping on soft mud.

A gust of cold wind blew over. Xu Bai followed the path and looked forward. At the end of the road, it was pitch black and blurry. He couldn't see the specific

situation clearly.

"Brother Yun, what was the method used by the person who broke into the mirror world and killed the strange creature?" Xu Bai asked as he walked.

Yun Zihai stared into the distance solemnly. When he heard Xu Bai's voice, he turned his head." As far as I know, the Mirror Death can only replicate a person's strength, but not their ability. That person was a ninth-grade martial artist. He brought a weapon that was good at attacking and directly broke in. He used the weapon to kill the Mirror Death."

"I see." " No wonder you're not anxious at all." Xu Bai suddenly understood." It seems like there's something special.""

Thinking about it this way, the Mirror Death's loophole was quite big.

He could only replicate strength, not abilities. This included weapons and all kinds of treasures.

“Yes,” Yun Zihai said, “I reckon that the prefecture commander who was killed was very likely to have been ambushed. Moreover...” To put it bluntly, that prefecture commander might not have any treasures.”

Before he came, Yun Zihai had already understood everything in the Yin Posthouse.

The Prefect of Yunlai Mansion had climbed up from the bottom. His birth was indeed incomparable to that of the Qingyun Academy. The academy that the Prefect was in was also ordinary in the Nanhua Road, or even very poor.

If that was the case, it was really possible that he would die at the hands of the Mirror Death.

Xu Bai stopped talking and focused on moving forward.

He had no treasures.

However, he had the ability.

The Mirror Death could duplicate a person’s grade, but it was useless against him.

At most, he would have the strength of a Rank-8, and the Mirror Death would be able to copy him. As for what happened after that, he could only press him on the ground with one hand.

The True Essence Energy that the Kidney-Strengthening Technique carried was a full Sixth Stage.

There were also so many Tier 4 skills. Any one of them would not be enough for him to fight.

In fact, compared to the fact that he was rubbing the dead man on the ground, he was more curious about something else.

All of this was too much of a coincidence.

Why did they suddenly encounter the Mirror Death on their way here?

Moreover, the Prefecture Master had been killed by the Mirror Death earlier.

Xu Bai thought about it carefully. He felt like a net was coming at them.

However, all of this could be put aside for the time being. He could talk about it again after he dealt with the thing in front of him.

The two of them walked faster and faster, and the paper money on the ground became thicker and thicker.

The only one who was nervous was Liu Er.

After all, it was his first time experiencing such things. It would be a lie to say that he was not nervous.

The road ahead was dark. As they walked, a light suddenly appeared in the darkness.

Xu Bai pulled out his Ghost Head Blade, and the corners of his mouth curled up slightly.

As they got closer, the light became brighter and brighter. When they got closer, they realized that it was a huge mirror.

The mirror was three meters tall and three meters wide. It was placed in the middle, making it look unusually abrupt.

The moonlight in the sky shone on the mirror, and the light reflected was slightly eye-catching.

However, the thing in the mirror was very abnormal.

Three people were reflected in the mirror. Of course, they were Xu Bai and the other two. However, their expressions in the mirror were different from their original expressions.

In the mirror, they had strange smiles on their faces. It was as if they were mocking the people outside the mirror.

Xu Bai glanced at him, asking how to get in.

"You can enter with your back facing the mirror." Yun Zihai turned around and maintained his back facing him. "This was also discovered by the person who went in that day. It was considered a coincidence. As for the principle, I don't know either."

As he spoke, countless words rose from Yun Zihai's body and wrapped around his entire body.

Xu Bai rubbed his chin and turned around as well. The black light on his body covered his entire body.

Liu Er was speechless.

So these two have ways to protect their backs, but I don't.

Of course, Liu Er still turned around and put his long saber behind him as protection.

He wasn't a fool. He knew that it was more dangerous to stay outside alone. He might as well go in with Xu Bai. Besides, he was determined to become Xu Bai's lackey.

Xu Bai retreated with his back facing the mirror. When he touched the mirror, he felt something wrapped around him and a faint suction force.

He didn't resist and fell into the suction force.

Clouds and mist-like objects appeared in front of him, blocking his vision. He didn't feel like he was in the air, and he still stepped on flat ground.

When the clouds dispersed, Xu Bai found that he was still in the dark forest.

Soon, Yun Zihai and Liu Er also walked in. Like Xu Bai, they looked at the surrounding darkness.

"This is already the mirror world. What we need to do is to lure it out. As for how to lure it out, we have to destroy it." Yun Zihai said in a familiar manner.

"Every mirror world is only located in the place where the mirror shines. The mirror just now was very large, but it was only limited to that forest."

In the mirror world, every piece was connected to each other, but if it existed alone, it would only be in the position where it was illuminated..
