

Unparalleled 241

Chapter 241: Ancient Moon Sword Sect's Sword, Good! (8000) _3

"Nameless Saber Scripture, Armor Piercing Might, which book have you cultivated?"

This slash had already caused him minor injuries. If he had not retreated quickly, he might have died.

"Take a guess." Xu Bai stepped forward and executed the Four Steps Steps. As he moved, he carried the unique aura of an army.

When Xu Bai took his first step on the surface of the lake, it was completely different from the young man's elegant and otherworldly manner. Every step

Xu Bai took felt as if the mountains were collapsing and the earth was cracking. Every step he took caused the surface of the lake to rise high.

In the blink of an eye, Xu Bai arrived in front of the young man.

In the next moment, he executed the three styles of the Broken Blade Technique in an exquisite manner. Each of his moves carried an unrivaled might.

The young man reacted quickly after being approached.

He still maintained the posture of the sword seal, and the flying sword he used blocked every blade with extreme precision.

However, he knew very well in his heart that if this continued, he would definitely lose.

The young man's forehead was already covered in cold sweat.

The man wielding the long saber was too strong.

This saber technique had the taste of the Nameless Saber Scripture, but it was not just the Nameless Saber Scripture.

Most importantly, his injuries would not heal.

Although there were signs of recovery, it was very slow. The other party's saber technique had actually left marks on his body.

Unless he concentrated on recuperating, it was impossible for him to recover in time for battle.

"Good! Delightful!" The young man's eyes turned red." You actually made my cousin call you Young Master. I'll make you pay the price today.""

As the young man said this, the flying sword suddenly changed.

A thin line appeared in the middle of the flying sword. Then, as the edge of the thin line broke, it turned into two flying swords.

One of them was used by the young man to protect his entire body, while the other continued to attack Xu Bai.

Xu Bai looked at the flying sword and narrowed his eyes. He didn't change the attack in his hand, but his other hand grabbed at the flying sword.

The hand is wrapped in black light, in contact with the flying sword, in an instant, it is used to move the stars.

The fourth-tier Stellar Transposition could convert attacks of the Sixth Stage, but the young man in front of him had performed far beyond the Sixth Stage.

However, it was not completely useless. When his hand touched the flying sword, the flying sword changed its direction slightly and flew toward Xu Bai's back.

This happened in an instant. The young man reacted and continued to control the flying sword to change its direction.

However, in a battle between experts, a moment could be considered a very long time. It could change many things, such as life and death.

When the flying sword deviated from the distance, the young man felt that something was wrong when he was controlling it.

The divine essence in his body seemed to have some delay. More importantly, he discovered that there was a slight pain coming from his chest.

"You used poison!"

Soon, the young man reacted and looked at Xu Bai in surprise.

"How is it?" "Kill him!" Xu Bai said indifferently. Then, the Ghost Head Blade in his hand slashed horizontally.

Due to the poison, the young man's divine essence was somewhat sluggish, and the circulation of his flying sword also became slightly slower. He did not block this saber.

A huge wound appeared on his chest, extending from his left shoulder to his right abdomen.

If it wasn't for the fact that the young man had used all his strength to pull the flying sword closer to him at the critical moment, this saber would have already split him into two.

But that was it.

The heavy injury ability of the Three Breaker Moves, coupled with the power of the Armor Penetration, made the young man feel dizzy and his consciousness was slightly blurry.

The two flying swords fell into the water. In the next moment, Xu Bai grabbed the young man's neck and threw him high up on the shore.

"Fishing for your grandpa!" Xu Bai stepped on the fishing rod and broke it into two. Then, he used the Four Steps to reach the shore.

"Explain to him. If he still doesn't listen, I'll cut off his head and feed it to the fish."

Xu Bai's indifferent voice came out of his mouth with an unquestionable tone.

Chu Yu nodded repeatedly and began to explain.

Actually, Chu Yu could not be blamed for this. She really wanted to explain herself, but the young man was too fast. He had already made his move the moment he said those two words.

In addition, Xu Bai had a bad temper. When he was attacked, he would definitely fight back. Therefore, he attacked for no reason.

Of course, Xu Bai was still rational enough to not kill the young man.

However, this so-called rationality was only in Xu Bai's eyes.

Because of this slash, the young man was severely injured.

Even though he didn't kill it directly, the damage he dealt was still terrifying.

When the young man heard Chu Yu's explanation, his eyes widened. Then, he knew that he had a problem and could not help but smile bitterly.

"Come, do you still want to fight?" Xu Bai said with interest. When the young man heard Xu Bai's words, he looked ashamed.

"I was wrong."

He answered very quickly, and his attitude of admitting his mistake was also very good. He did not have the slightest intention of forcing it.

This was beyond Xu Bai's expectations.

"I thought that people like you who came from good backgrounds were all proud and unyielding people. I didn't expect you to have such a good attitude when admitting your mistakes."

This young man's attitude was extremely sincere and there was nothing wrong with him.

When the young man heard this, he smiled bitterly." The people of Gu Yue Sword Sect have never behaved like those aristocratic family disciples. They have never been arrogant and domineering. What is right is right, and what is wrong is wrong. If you have done something wrong, you must admit your mistake..'

Chapter 242: Ancient Moon Sword Sect's Sword, Good! (8000) _4

"Alright, this matter can be considered over.""Why are you looking for Chu Yu?" Xu Bai asked with a smile."

The young man said helplessly, "Can you let me recover first? I have a bottle of pills on my waist. No matter how serious my injuries are, it will have a very good effect.""

Xu Bai nodded and took out a small porcelain bottle from the young man's waist. There were five or six bullets inside. He poured out one and let the young man take it.

After the young man took it, the scar on his chest scab at a speed visible to the naked eye and quickly recovered.

"What a good thing!" Xu Bai said.

"Of course, this is the Gu Yue Sword Sect's healing pill, called the Emerald Cry Pill." The young man praised Xu Bai, but halfway through, he noticed Xu Bai making a gesture.

Xu Bai put the Emerald Cry Pill into the pouch at his waist very skillfully. It was obvious that this was not the first time he had done this.

"I was at a disadvantage when you attacked me for no reason. It's normal for you to compensate me with something now, right?" Xu Bai said.

The young man was speechless.

It was reasonable and convincing.

The young man also knew that since the other party had already accepted it, he had no intention of taking it out. He did not say anything more.

This was his fault in the first place. It was reasonable to give the other party some compensation now.

After that, the young man's injuries had recovered by about seventy to eighty percent. The two of them communicated for a while before Xu Bai found out the young man's identity.

The young man's name was Qin Feng, and he came from the Ancient Moon Sword Sect.

And the Ancient Moon Sword Sect was a sword sect that cultivated Divine Essence, so their flying sword arts were terrifying.

Qin Feng was here this time because Chu Yu's mother asked him to bring something for Chu Yu.

As he spoke, Qin Feng stood up from the ground and waved his hand slightly.

The two flying swords that fell into the water floated in the air as Qin Feng waved his hand. They gradually merged into one and fell into Qin Feng's scabbard.

After doing this, Qin Feng took out a book and an iron ball from his pocket.

"Forged by a swordsmith. After dripping a drop of blood on it, it will become your flying sword. It needs to be recuperated with divine essence every day." Qin Feng placed the iron ball in Chu Yu's hand.

Chu Yu took it and carefully cut her finger to drip a drop of blood.

When the blood stood on the iron ball, it expanded and turned into a long sword that landed in Chu Yu's hand.

Chu Yu played with the sword curiously and tried to imitate Qin Feng by throwing the sword into the air. However, it fell to the ground without stopping.

Chu Yu's face was bitter when she saw this scene. She appeared to be very upset.

"You need to learn this book before you can use it." Qin Feng explained, "The Gu Yue Flying Sword Technique can only be cultivated after reaching the fifth grade in the Gu Yue Sword Sect. Only at this time would one have enough magical energy to control it. When you communicated with the sect master last time, you said that you had reached the fifth grade, so the sect master asked me to bring it over."

“But according to the rules of the Ancient Moon Sword Sect, you can only learn the flying sword art of the next grade after you reach a grade, so I only brought you a fifth-grade book.”

“After all, this is because I’m afraid that you’ll abandon the basics and only learn the flying sword technique, forgetting the origin of the Formless Heart

Sutra.”

Formless Heart Sutra was also from Gu Yue Sword Sect.

Chu Yu sized up the book in her hand curiously. She was about to flip it open, but she felt that it was not the right time.

She turned her head and looked at Xu Bai’s seat.””Young Master, we’ve been out for so long. It might be delayed. Let’s go back first. I...”

Before she could finish her sentence, she realized that something was wrong.

Xu Bai kept staring at the book in her hand until she spoke.

Chu Yu was puzzled.

Xu Bai came back to his senses and coughed,””It’s fine. Let’s go back first.”

Although he said that, he had just seen what he wanted.

— -Progress bar.

There was a progress bar in the book named Gu Yue Fei Sword Technique.

Good stuff!

If it was something else, he wouldn't even look at it, but the progress bar was different.

However, now was obviously not the time. He would talk about it slowly in the future.

At the thought of this, he prepared to go back with Chu Yu.

Unexpectedly, Qin Feng was also following behind.

"You're not going back to the Ancient Moon Sword Sect?" Xu Bai frowned.

Qin Feng coughed to hide his embarrassment. "I haven't recovered yet. I'll go back after I recover at Yunlai Mansion."

Even though he said that, Qin Feng's gaze was drifting as he spoke. Xu Bai had a feeling that something was up.

It was getting late, and he didn't want to delve into these things. The few of them didn't stay any longer and rushed towards Yunlai Mansion.

After solving the problem and rescuing the person, it didn't take much time to return to Yunlai Mansion.

However, there were only three of them when they returned. When they returned to the Yunlai Mansion, only Xu Bai and Chu Yu were left.

Qin Feng left halfway, saying that he was going to recuperate. However, from his excited expression, he guessed that he wasn't going to recuperate.

The Yunlai Mansion was very big. Even in the mansion, there were many rivers and fish ponds.

Based on Xu Bai's understanding of the fishing man, he must have gone fishing again. Taking advantage of the excuse of recuperating, he would probably be idle for a few days.

Of course, with this guy's luck of never catching a fish, it was impossible.

Xu Bai did not bother about him. After all, he was not his man, so there was no point in bothering about him. What he coveted the most was the Gu Yue Flying

Sword Technique in Chu Yu's hands.

Flying swords.

It was very cool..

Chapter 243: Ancient Moon Sword Sect's Sword, Good! (8000) _5

However, he couldn't say it directly.

Thinking of this, Xu Bai had a valid reason.

In front of them, Chu Yu was hugging the sword and skipping around.

Her long black hair kept swaying, indicating that she was in a good mood.

"Chu Yu, from tomorrow onwards, you have to carry this book with you, even during class." Xu Bai stopped in his tracks. He coughed and told Chu Yu not to leave.

Chu Yu was initially in a good mood, but after hearing Xu Bai's words, she turned around with a puzzled expression. "Young Master, what do you mean?"

"After all, this is the inheritance of the Ancient Moon Sword Sect. To prevent the possibility of losing it or being taken away by others, at least until you finish learning, you must always carry it with you." Xu Bai said.

Chu Yu was a little naive. After thinking about it carefully, she finally understood why Xu Bai looked at her strangely at the lakeside.

"So you're concerned about me and worried that I'll lose this book." "Don't worry, Young Master. I'll bring it with me when I come to class in the future."

Chu Yu was touched."

Xu Bai patted Chu Yu's shoulder as if he was a promising student. "Then go back to your room and rest. We'll come back to class tomorrow."

Chu Yu nodded vigorously and greeted Xu Bai before leaving with her sword.

Looking at Chu Yu's departing back, Xu Bai stood where he was and pondered for a while. He felt that he had to change his plans in the future.

The earthen jar was very important, but this Gu Yuefei sword technique was equally important.

The earthen jar could be used at any time, but Gu Yue Fei's sword technique could not.

He planned to teach Chu Yu the Gu Yue Flying Sword Technique in the morning and use it to make the clay pot at other times.

It was impossible for him to ask for it directly. Even if Chu Yu did not have any ulterior motives, it would be a different story in the eyes of others.

After all, it was an inheritance technique of the Ancient Moon Sword Sect, and if he did this, there would be a lot of suspicion.

It would be very troublesome if others found out.

Thinking of this, Xu Bai made up his mind and walked toward his room.

On the other side.

Qin Feng held the fishing rod in his hand and was rushing to his destination excitedly.

When he bought the fishing rod, he asked the seller. The seller said that there was a relatively large lake in Yunlai Mansion. There were many fish there, and many people had caught a lot of fish there.

Thinking of this, he became more and more excited.

Actually, there was a very important matter involved.

Qin Feng's killing intent is very heavy.

Don't look at his current unfeeling appearance, acting like a fisherman all day long. In fact, in the eyes of the others in the Gu Yue Sword Sect, Qin Feng was a person with a strong killing intent.

Gu Yue Flying Sword Technique was a killing technique. When cultivating this, everyone had to think of a solution, and everyone's solution would be very different.

For example, playing chess, planting flowers, etc.

Because once the killing intent was too strong, it was very likely to affect the body, so he used this to synthesize.

On the other hand, Qin Feng's killing intent was even stronger. When these ordinary methods were unable to alleviate his condition, Chu Yu's mother, the Ancient Moon Sword Sect's sect master, suggested this method to him.

But sometimes, a good method might not necessarily produce a good result.

Fishing...It was addictive.

When Qin Feng's killing intent was suppressed, he also unconsciously became addicted to it and from then on, it was out of control.

Other than the daily cultivation, he spent all day by the pond, as if he had become a different person.

Unfortunately, Qin Feng could not catch any fish. He did not even have the legendary novice protection period.

What was the novice protection period?

In the fishing industry, there were some newbies who were very likely to catch fish even if they were to use a pole to poke the toilet. This was called the novice protection period.

Not only did Qin Feng fail, but he was also very unlucky.

He had never caught a single fish.

In the end, he began to doubt himself and even...They blamed the water quality.

As time passed, the problem of the water quality could not be solved, so he blamed it on others. There was nothing in this world that he did not blame.

He didn't catch any fish today because the water quality was bad. He didn't catch any fish tomorrow because of the bad weather.

Anyway... He thought that the heavens were against him.

Thinking of this, Qin Feng gnashed his teeth. "I must catch one today."

The more he thought about it, the faster he walked.

Although this so-called fishing lake was in Yunlai Mansion, it was also in a remote place.

When Qin Feng rushed over, there were already not many people here.

After all, the sky was getting dark and everyone had to go back for dinner. However, Qin Feng was different.

"I'll fish at night after he leaves. All the fish in this lake will be mine, haha!" Qin Feng walked to the lakeside and casually threw his fishing rod into the water.

It had to be said that there was no problem with his technique, his movements were also very standard, and there was no problem with his patience.

But he couldn't catch any fish.

As time passed, the sun gradually set and night gradually approached.

The moon replaced the sun and hung high in the night sky.

There was no one by the lakeside, and no one in Yunlai Mansion was fishing at night.

Qin Feng stood quietly by the lake, staring at the surface of the lake without blinking.

“If I can’t catch any fish today, I won’t catch any more.”

Qin Feng didn’t know how many times he had said this. He had to say it every time, but it didn’t count.

Time continued to pass.. Just as Qin Feng was feeling more and more hopeless, he suddenly realized that the fishing line was moving!

Chapter 244: The Black Hole at the Bottom of the Lake

Waves of water rippled on the calm surface of the lake, spreading along the intersection between the fishing line and the lake. The fishing line shook violently, indicating that something had taken the bait.

Qin Feng was slightly stunned at first. Soon after, his face revealed a look of ecstasy. He gripped the fishing rod tightly with both hands and could not help but shake it.

This was the first time he had such a phenomenon. He was so excited that he couldn’t even control his hands.

As a fishing brother, Qin Feng was someone who had never caught a fish before. He had never even seen the signs of fishing before.

Not only did they not encounter any signs of being hooked, but they also did not even see the shadow of a fish.

Now that he suddenly saw it, he realized that his luck must have changed.

"I told you that people can be bad for a while, but not for a lifetime." Qin Feng says excitedly.

"Calm your breathing and try to feel the vibration of the fishing rod. As the fishing rod shakes, start to exert strength."

"Don't be nervous at this time. You have to calm down."

"You can't use brute force. You have to learn to use dexterity!" Qin Feng muttered to himself as he carefully controlled the fishing rod.

If there were people who knew Qin Feng here, they would definitely be shocked. Because the current Qin Feng was completely different from before.

In the past, Qin Feng was filled with killing intent and could easily take away a life. However, now, he has become nervous, like a person who has never seen the world.

Looking at his nervous expression and trembling hands, he was completely different from the Qin Feng of the past.

Of course, Qin Feng didn't care about this.

He only cared about the fish in front of him.

This was the first time he had taken the bait. It would be a lie to say that he was not nervous. No one could experience this feeling. Only people like them who were fishing could experience it deeply.

Qin Feng followed the techniques he had learned and worked hard to control the fishing rod. The fishing line was constantly rising.

The thing that was hooked floated to the surface of the water. When Qin Feng saw what he had caught, he was greatly shocked. It was like a bolt from the blue that struck his body, charring him on the outside and tender on the inside.

The fishing line was not fished out, it was tightly wound.

At the position where the fishing line was coiled, a complete white bone was directly fished up by him.

As a person who was addicted to fishing, he had heard many seniors

'explanations.

In their line of work, it was very easy to encounter some strange things when fishing.

For example, catching a turtle or a prawn was a normal operation

But now, Qin Feng had fished up a skeleton. This was truly inconceivable.

Of course, as a genius of the Ancient Moon Sword Sect, the white bones in front of him did not affect him at all. He even felt that it was boring.

He had seen even more disgusting things, let alone this skeleton.

"Perhaps someone fell into the water and was not discovered or salvaged. In the long run, it became like this." Qin Feng thought.

He was in a bad mood again after not catching any fish. He was ready to get up, untie the skeleton in front of him, and start anew.

However, before he could do anything, just as he reached the lakeside, the skeleton in front of him suddenly moved.

White Bones was originally entangled by the fishing line, but when Qin Feng got close, White Bones actually slowly raised its right arm and started to untie the fishing line.

On the surface, this action was extremely terrifying.

A skeleton suddenly came to life and was as agile as a human. A sinister aura pervaded the lakeside.

Qin Feng took a step back and frowned as he looked at the lake not far away.

A layer of white fog suddenly appeared on the lake, enveloping the entire lake. It was already late at night, and under the cover of the white fog, black and white intertwined. A strong contrast suddenly appeared, making it seem abnormally strange.

At the outermost layer of the white mist, White Bones also stopped untying the fishing line. It suddenly stretched out its hand and grabbed towards Qin Feng.

There was still a distance of two to three meters between the two parties, but as White Bones moved, the surrounding white fog began to surge violently.

On the surface of the lake, the white mist condensed into a palm the size of a millstone and slapped down towards Qin Feng.

This process seemed slow, but it happened in an instant.

Looking at the palm formed from white mist, Qin Feng frowned. At the same time, he raised his sword finger and waved it gently.

“Clang! ”

A long cry came from the scabbard, and the sword was unsheathed, slashing at White Bones.

The longsword was like the wind, carrying an unrivaled might as it swept across the sky from top to bottom.

The lake water shook violently, and as the longsword slashed down, it spread to both sides, raising huge waves that were two feet high.

Under the power of the long sword, the skeleton in front of him turned into fragments on the ground and disappeared into the lake with the wind.

In an instant, everything returned to silence. The white fog disappeared and the white bones also disappeared. They returned to their normal appearance. Only Qin Feng was left standing by the lake, pondering.

“Strange, or is it the lakeside?” Qin Feng finally gave up on his plan to fish for the time being because the things that happened before his eyes made him fall into deep thought.

“It doesn’t look like a drowned person. The ability just now seems to be something that this skeleton knew when it was alive. Could it be that a martial artist threw it into the water after dying?”

The ability of the skeleton just now was to condense white fog into a huge palm. This was different from dying in the water..

Chapter 245: The Black Hole at the Bottom of the Lake (2)

That level of proficiency was more like a martial artist who had retained his abilities after death.

As everyone knew, after a person died, there was a chance that they would become strange. The only difference was whether they were powerful or not. The stronger the Jianghu person was, the stronger they would become after death.

"It seems like it's really as the Sect Leader said, the waters of Yunlai Mansion run deep. "Qin Feng mused.

He was Chu Yu's cousin. There was no need to address him as the chief, but he was a person who valued rules. He would address him in this manner no matter what.

"I have to contact my cousin and tell her to be careful."

Qin Feng looked at the lake in front of him and did not have the mood to fish. He packed up his fishing rod and prepared to turn around and leave.

He had to hurry back and tell Chu Yu about the abnormality here. After all, he came here because of his cousin.

If he caused irreparable losses because of a single mistake, the Hierarch would definitely skin him alive.

Thinking of this, Qin Feng subconsciously shivered.

It was said that he was extremely murderous in the Ancient Moon Sword Sect. In fact, the one who was really murderous was Chu Yu's mother.

After tidying up for a while, there was actually nothing much to pack. It was just a fishing rod.

Qin Feng was originally prepared to leave immediately. However, he did not expect that before he left, an abnormality would appear on the surface of the lake.

After the previous turmoil, the lake had already calmed down. Just as Qin Feng was about to leave, the calm lake surface rippled again.

Water ripples appeared. This time, it was different from before. The entire lake was rippling with small water ripples.

When the entire lake was in this state, the scene was extremely shocking.

Ripples of water touched each other and gradually spread into the distance.

Qin Feng stood at his original spot. He didn't sense any strange occurrences. However, the scene before him was even stranger than the strangeness.

The ripples did not last long. After a few breaths, they slowly subsided.

Although the scene in front of him had calmed down, an even more terrifying scene appeared.

On the surface of the lake, white things emerged one after another. At first, they were just the sharp edges of the lotus, but as time passed, they slowly revealed their full appearance.

White bones!

White bones emerged from the water one after another, filling the entire lake.

These bones were of different sizes. The big ones were about the size of an adult, while the small ones were like children.

The lake was full of white bones, but none of them could move. It was very different from the strangeness that had appeared at the beginning. Instead, it seemed very normal.

Of course, this was only the case in Qin Feng's eyes. If it was an ordinary person here, their legs would have long gone soft from fear.

There's something at the bottom of the lake. Qin Feng looked at the lake. After pondering for a moment, he came to a conclusion.

However, he did not take any action. Instead, he wanted to hurry back to the

government office and tell Xu Bai about this.

Before he came, the Hierarch had told him that if his cousin was not in danger, he had to come back quickly. If there was a threat, he had to stay there and act as a protector.

However, he didn't want to meddle with the Yunlai Manor's matters. It was the most correct thing to leave it to Xu Bai and the others. He only needed to ensure his cousin's safety.

Therefore, Qin Feng did not intend to delve into the current situation. Instead, he immediately turned around and walked towards the government office.

In the darkness, Qin Feng's figure grew further and further away until he disappeared.

Yunlai Mansion, the government office.

Xu Bai was sitting on a chair, swaying as he looked at the clay pot in his hand.

The progress bar on it was slowly increasing. With every increase, he became more excited.

Although he was already used to it, he could not hide his excitement, especially when he was alone.

This was a very simple principle. For example, if one could draw a prize every day, but the things they won each time were different, the excitement would also be updated every day.

"In that case, the progress bar of the terrine is even faster than Gu Yue Fei's sword technique." Xu Bai leaned back in his chair and looked at the progress bar while thinking.

After all, Gu Yue Fei's sword technique required scattered liver, but the terrine did not. The time spent was different.

“What kind of skill is it?” Xu Bai was looking forward to it.

It was already very cold at night. There was a cool breeze blowing outside. Although there were doors and windows blocking the way, they could still hear clearly.

As he looked at it, he gradually felt sleepy. Xu Bai estimated that it was about time to rest, so he put the jar in a secret place and prepared to go to bed.

At this moment, there was a sudden movement at the door. Xu Bai stood up and looked in the direction of the door. “Who is it?”

After saying this, he quickly got a reply.

“Me, Qin Feng.”

Xu Bai frowned when he heard the reply.

To suddenly come looking for him at this time, and it was already late at night, could something big have happened?

His relationship with Qin Feng was very shallow. They had only met once. There was no need for him to come here in the middle of the night. There must be something fishy going on.

Thinking of this, Xu Bai came to the door and opened it. He saw Qin Feng carrying a fishing rod on his shoulder and looking around carefully.

“Could it be that you attacked the widow’s village at night or kicked the widow’s door at night? Why are you so Bai teased with interest.

Qin Feng naturally heard the teasing tone in his voice. He did not say anything more and walked into the room quickly. He said mysteriously, “If I had that ability, I would have been sneaking around a long time ago.. Why would I need to look for you? Didn’t I go fishing today? Guess what I encountered?”

Chapter 246: The Black Hole at the Bottom of the Lake (3)

Xu Bai closed the door behind him.” What did you encounter? You caught a big fish?” he asked.

Qin Feng grinned. He felt that Xu Bai’s words were like sprinkling salt on his wound.

But the key point was that Xu Bai was absolutely right, so he had no room to refute.

He felt that if he continued to argue with Xu Bai, he wouldn’t have to do anything else tonight, so he didn’t stay on this topic and told him what happened tonight.

When he spoke, he tried his best to be concise and clear. In just half an incense’s time, he explained it clearly.

The room fell into silence. Xu Bai sat on the chair and tapped his fingers on the table, thinking about what Qin Feng had just said.

If it was any other time, he might not have thought too much about it. But now that there was an enemy hiding in the dark, and this incident had happened, it was easy to associate it with something.

“Follow me.” Xu Bai said.

“Wait, wait, I didn’t come here to help you, I just wanted to protect my cousin.” Qin Feng felt that at this moment, he had to explain. Otherwise, the other party would pull him over to be a thug.

Xu Bai stopped and turned around, looking at Qin Feng with a strange expression.

Being stared at by Xu Bai, Qin Feng felt uneasy.

"Come, Brother Qin, take a seat. Let me explain to you the relationship between them." Xu Bai wasn't in a hurry and beckoned Qin Feng to sit down.

Although Qin Feng was puzzled, he subconsciously sat to the side when he saw Xu Bai's actions and waited for Xu Bai to continue. Xu Bai sorted out his thoughts and said, ""You want to protect Chu Yu, right?" Qin Feng nodded, indicating that this was the case.

"Chu Yu can be considered as a student of the school. If I were to go, she would follow me." Xu Bai continued.

Qin Feng's expression was slightly sluggish but he quickly nodded his head.

This made sense. There was nothing wrong with it, and he could not find any problems.

"If she follows me, she'll definitely be in danger," Xu Bai added. "You're not around. What should we do?"

Qin Feng was speechless.

He didn't know why, but he felt that the other party was trying to trick him.

However, the key problem was that there was nothing wrong with what the other party said.

He was protecting Chu Yu, but she had to follow Xu Bai. In other words, he had to follow Xu Bai.

Qin Feng sighed. "I've realized that you're really good at pulling people onto the ship."

As a genius of the Ancient Moon Sword Sect, Qin Feng wasn't stupid. He quickly thought of the true meaning behind it.

Wasn't this a classic example of pulling him onto the boat, making him a grasshopper on a rope? It was just that he had changed to a reason that no one could refuse.

However, he couldn't reject this reason because every word was on point.

If Qing Xue was here, she would definitely raise her hands and shout, "Huge pit!"

Back then, Qing Xue had also returned to tell Xu Bai about the clues, but she had been dragged onto the boat. Qin Feng was the same now.

Xu Bai patted Qin Feng's shoulder and said seriously, "How could I be that kind of person? I'm doing this to let you complete your mission better."

Qin Feng's face was filled with disbelief. "Let's not say anything else. I'll admit it. What are your plans now?"

There was no need to say more about whether he was pulled onto the boat or not. Anyway, he admitted defeat. After all, he had to protect his cousin's safety.

"Of course, it's better to hand it over to someone more suitable." Xu Bai walked to the door, opened it, and looked at the dark night outside. "Brother Yun should like this news very much."

After saying that, he lifted his feet and walked toward the night.

Qin Feng was stunned on the spot for a while. After he reacted, he hurriedly followed behind Xu Bai.

The two of them didn't communicate with each other. They went straight to Yun Zihai's room and soon arrived at the door.

The surrounding night was like ink, so thick that it could not be melted.

Even at this level of darkness, Yun Zihai's room was still brightly lit. When he walked to the door, he could still hear the sound of flipping books and Yun Zihai's signature cough.

Xu Bai raised his hand and gently knocked on the door.

Soon, a voice came from inside the door.

"You must be Brother Xu. The door isn't locked."

Yun Zihai's voice was a little weak. When he said this, he coughed from time to time.

Xu Bai frowned.

As he worked hard day and night, he could feel that the other party's body was deteriorating at a speed visible to the naked eye.

Congenital deficiency, coupled with the fact that he was getting more and more tired, Xu Bai kept feeling that Yun Zihai was getting weaker and weaker.

"Brother Xu, why did you bring him here?" Yun Zihai had seen Qin Feng before when Xu Bai returned, so he did not find it strange. He only felt that Xu Bai must have brought her here for something.

Yun Zihai did not know much about the Ancient Moon Sword Sect, but he had heard that this sect was very secretive, and he did not know what they were doing.

"Tell me what you know." Xu Bai didn't waste time to get straight to the point. Qin Feng nodded and told him what had happened to the last few days.

After hearing what Qin Feng said, Yun Zihai fell into deep thought.

After a while, Yun Zihai stood up and paced back and forth in the room. As he walked, he thought about it and frowned.

“Why don’t we go over and take a look first?”The clouds came from the sea.

“Actually, there’s no need to go over to check on it. I thought about it when I came back. It’s just that I fished out the first skeleton, which caused the subsequent events.”Qin Feng organized his words and said..

Chapter 247: The Black Black Hole at the Bottom of the Lake

“According to this situation, it seems that some mechanism has been triggered. After all, there are usually no other strange things in that lake. There are even fish.’

“Because I fished out that skeleton, it also became strange. I opened that mechanism, so the lake was filled with bones.”

At this point, Qin Feng shut his mouth, indicating that he had finished speaking.

“If that’s the case, then we have to go. “Xu Bai said.

“Why?” Qin Feng expressed that he didn’t really understand. He had already given a rough guess, so why did he still have to go over?

“What you guessed is what you guessed, not what we saw. If it’s really as you said, there must be another world at the bottom of the lake.”Xu Bai said.

“How about this? I’ll go find someone and we’ll level the lake.”Yun Zihai clapped his hands and decided.

If there was really something at the bottom of the lake, they would not have gone down while there was water. A gentleman would not stand under a dangerous wall.

"It's such a big lake. You might not be able to find her in time." Xu Bai stood up and said, "Let the bailiffs surround the area. We'll take care of the rest."

When Yun Zihai heard this, he was slightly stunned.

Soon, he figured out what Xu Bai meant.

In terms of destructive power, the few of them together could flatten a lake as easily as eating and drinking water.

"Brother Xu, isn't this a little too rough?" Yun Zihai smiled bitterly.

"Extraordinary times call for extraordinary actions. Moreover, this is the simplest and most effective method. Compared to finding people to fill the gap and pumping water, the time in between is too much." Xu Bai shook his head and said seriously, "Things will change if we delay."

Qin Feng looked left and right and said strangely, "Why don't we let others come? We can actually use this time to fish her out."

Just now when Xu and Bai were discussing this problem, Qin Feng had been thinking that he could actually think of the problem in another way.

If it was an ordinary person doing this, it would indeed take time. Whether it was gathering manpower or drying up the lake midway, it would take a long time.

However, this waiting period was not for nothing.

When they started the construction, the people behind them must have known. If this was related to those people, those people must have made a move. They would then invite the monarch into the trap and succeed.

In Qin Feng's opinion, this is a good opportunity to kill two birds with one stone. However, he doesn't understand why Xu Bai doesn't do it.

After hearing Qin Feng's words, Xu Bai and Yun Zihai looked at each other and shook their heads.

Qin Feng's face was filled with doubt. He always felt that these two people were very mysterious and especially sinister.

"We're already on the same boat. If you have anything to say, just say it. It's useless for you to hide it from me."

He had been hung up by these two people. Now, he really wanted to know what these two people were thinking.

"You tell me." Xu Bai said.

Yun Zihai nodded and raised two fingers. "Actually, I had the same idea as you at the beginning, but after Brother Xu told me his method, I feel that Brother Xu must have considered two aspects."

"Firstly, is this discovery a secret trick of the other party? If it isn't, we will obtain the item faster than the other party."

"Secondly, if it is, then the other party will definitely think of a way to stop us.

No matter when, we will wait for the rabbit."

If it was really one of the people behind the scenes' plans, they would definitely prevent them from sabotaging it. The faster they acted, the faster the person behind the scenes would definitely be. The speed was proportional to them.

Qin Feng became even more puzzled. "But what if the other party doesn't think so? We're too fast. The other party hasn't even made a move. Wouldn't we have wasted an opportunity?"

This time, the one who answered him was not Yun Zihai, but Xu Bai.

another plan that we didn't expect? What if we didn't wait for him and let him succeed for nothing?" Xu Bai asked in a soul-like voice.

Qin Feng finally understood the situation after the explanation. The moment he said that, he revealed a look of realization on his face.

Since there was a new clue, it was best to hold it firmly in his hands. Although it was good to wait for the rabbit, if the rabbit was too smart, it would not be worth it.

"Let's set off. Finish your work early and rest early. You guys get ready. I'll call Chu Yu." Xu Bai left Yun Zihai's room after saying a few words and walked toward Chu Yu.

When he woke Chu Yu up, she was still sleepy. It was obvious that she had fallen asleep and was forced to get up.

However, Chu Yu's sleepiness disappeared the moment she heard about the new discovery. She changed her clothes excitedly and followed Xu Bai to the main entrance.

Outside the door, it was pitch-black. It was still a long time before the next morning. Yun Zihai and Qin Feng were already waiting at the door.

"Let's go." Xu Bai waved his hand and said.

The few of them no longer hesitated and rushed towards the lake.

While Xu Bai and the others were hurrying on their way, Hong Fen, who was far away from the government office, looked at the letter in her hand with a serious expression.

She stared intently at the letter, her hands clenched tightly as she trembled. Her eyes were filled with caution and helplessness..

Chapter 248: The Black Hole at the Bottom of the Lake (5)

After a long time, she heaved a sigh of relief.

“I didn’t expect the person in charge to contact me for the first time because his arrangements were exposed.”

“You’re really capable. You just had to choose me and let me take this risk. Don’t you know that the Chen family has already been exposed to the enemy’s eyes?”

“Damn it! But I can’t not go.”

Although Pink was expressionless, her heart was in turmoil. She was like a small boat that was drifting and facing the threat of a huge storm.

She had been exposed. She was even more convinced that Seven Ghost had betrayed her and exposed the Chen family.

Recently, she had ordered the head of the Chen family not to do anything else. It was also a test.

Xu Bai and Yun Zihai did not make any movements, which deepened her guess. The other party was waiting for her to make a move. Once she made a move, she would definitely face a storm-like attack.

After all, the other party did not know where she was now, and they did not want to alert the snake. Once this so-called snake appeared, they would face a terrifying follow-up.

Therefore, she had been treading on thin ice during this period of time. However, she did not expect that this letter today would disrupt her entire plan.

According to the letter, she had to stop him from stepping into the lake at all costs.

Furthermore, the letter emphasized on another path that could lead to the bottom of the lake through another secret passage.

Was it dangerous?

It was very dangerous.

There was no absolute certainty in this world. One could only reduce the risk, but it was impossible to reduce the risk to zero.

Pink's sigh grew louder and louder. In the end, she burned the letter and waved at the darkness.

In the darkness, the head of the Chen family walked out. His face was filled with respect, but there was a hint of greed hidden in this respect. His greedy eyes stared straight at the red powder.

"Come here. I have something to tell you. If you help me do it, I'll give you everything you want." Pink said.

The head of the Chen family did not hesitate at all. He walked in front of the red powder and his eyes were fixed on the red powder's thigh.

"Now, go to a place and enter the destination through the secret passage there. Then..." Pink said slowly.

The head of the Chen family nodded as he listened.

Without any hesitation, after Pink finished speaking, she only said yes and left the place.

The pink girl looked at the back of the Chen family's head and sneered.

"Although I'm a member of the Dark Tower, I've been living in this place since I was young. I can be used by the Dark Tower, but it doesn't mean that I can sacrifice my life at any time."

"This is a test. If I succeed, I will still be one of your members. If I fail..."

Pink raised her head and looked at the darkness in the sky, deep in thought.

On the other side.

Xu Bai and the others rushed to the lake without stopping. When they saw the scene in front of them, Xu Bai frowned slightly.

Perhaps it was because they had arrived too early that the other party did not react in time. Countless white bones were still floating on the surface of the lake. Under the cover of the night, it looked particularly sinister.

"On the way here, there were no traces of anyone stepping on the ground, but that doesn't mean that he didn't come from other directions. "The clouds came from the sea.

"Let's start immediately. "Xu Bai turned to look at the crowd.

Everyone looked at each other and nodded in unison.

This lake was very big, at least much bigger than the small lake they encountered in the suburbs.

Xu Bai pulled out the Ghost Head Blade from his waist. After circulating his True Core Strength, he slashed in the air. Stellar Energy spread along the blade and slashed at the lake.

The power of this slash was astonishing. High waves rose from the lake and soared into the sky.

When the waves rose, Yun Zihai waved the brush in his hand and wrote words in the air. The words landed on the book in his left hand and turned all the waves into the air.

On the other side, Qin Feng formed a sword seal and slashed out. All the waves were cut off and turned into small splashes.

Chu Yu executed the Formless Heart Sutra and casually carried the newly obtained long sword on her back. She then soared into the air and transformed into sword shadows, cutting the remaining water droplets into even smaller droplets.

“To be able to form an outline so quickly, Biao Younger Sister is truly stunning.” Qin Feng praised.

Xu Bai didn’t pay any attention to this. When the water turned into water droplets, he raised his left hand and waved his sleeve.

A gust of strong wind rose in all directions, pushing the water droplets in front of him and pushing them into the forest in the distance.

It started to drizzle in the forest in the distance. Many animals were making strange noises. Clearly, they did not expect the rain to come so quickly.

After a short period of time, the amount of water in the lake had decreased significantly.

“Continue.” Xu Bai said.

Everyone did not waste any time and continued to move according to their previous cooperation.

It had to be said that this lake was indeed quite big. They used about half an incense’s time to empty the entire lake.

The surrounding forest was completely soaked by the lake water, as if it had just experienced a storm.

Xu Bai walked to the lakeside. When he saw the scenery in front of him, his eyes lit up slightly.

Under the bright moonlight, one could see that there was a black hole at the bottom of the lake that could be crossed by a person.

"I finally found it.."

Chapter 249: Omni-directional Travel's Coffin Appears (1)

The black hole was located at the center of the lake.

On the surface, there was nothing unusual. Because it was night and there was only moonlight, it was pitch-black inside.

"A skeleton can actually block this hole. It's really unbelievable." Xu Bai stroked his chin and muttered to himself.

Although it was unbelievable, it was normal in this world. After all, not everything could be explained by the experience of his previous life.

"Shall we go down and take a look now?" Qin Feng asked.

Ever since the black hole appeared, Chu Yu had been hiding behind Xu Bai. She stuck her head out and looked around until she saw the black hole. Her eyes were fixed on it and did not move away.

Qin Feng asked Xu Bai if he wanted to go down. Chu Yu finally reacted. She gritted her teeth and finally decided to voice her thoughts.

“Young Master, I feel that something is wrong here. “Chu Yu hesitated. She looked at Xu Bai’s face and turned to look at the black hole.

Initially, Xu Bai had intended to go down immediately. However, he frowned when he heard Chu Yu’s words and turned to look at her.

“What’s wrong?

Chu Yu’s words earlier had left him a little puzzled.

In fact, Chu Yu had always acted as if she was heartless and extremely curious about everything. However, her behavior was the complete opposite now.

Why did he look so nervous?

The surroundings were pitch black. Under the moonlight, Chu Yu scratched her head and said in confusion,””How should I describe it? I feel extremely disgusted. The feeling of disgust makes me feel uncomfortable all over when I look at this black hole.’

Chu Yu gestured as she spoke.

Xu Bai frowned when he heard Chu Yu’s description.

Other people might not know Chu Yu’s identity, but he knew it clearly.

Chu Yu was the daughter of King Sheng You. In other words, she was also a member of the royal family.

Chu Yu’s unusual behavior reminded Xu Bai of the royal family, especially the one in the capital.

He still remembered the bet that King Sheng You had made with that person.

If he could resolve the matter here, then the world was so big that the emperor would not interfere.

If it wasn't resolved, the Emperor would fight with King Sheng You over it. As for what to fight over, it was naturally him.

Sometimes, Xu Bai wondered what he had done to make the emperor value him so much. However, for the sake of his dream of being a salted fish, he really could not give up.

Moreover, if he took down this matter, Yunlai Manor would be in his hands, and there would be many benefits.

It was a good thing initially, but after seeing Chu Yu's performance today, he could not help but overthink it.

Although the Emperor was far away, the extent of his shrewdness could not be measured by distance.

Don't forget how the eighth prince died. He fell into the emperor's trap step by step and became the price to save King Sheng You.

How could an emperor be lacking in intelligence?

The more he thought about it, the more careful Xu Bai became.

However, after repeated questioning, Chu Yu could only repeat that she hated this place to the extreme. Other than that, there was nothing else.

"Brother Xu, it's getting late." Yun Zihai saw that Xu Bai was in a daze and could not help but remind him.

They had heard what Chu Yu said, but they had no clue and could not make any guesses.

Xu Bai came back to his senses and looked at the black hole in front of him.””Let’s go.”

Even though they wanted so much, they had to look at the clues in front of them.

They didn’t hesitate and jumped down from the edge of the lake.

The bottom of the lake was moist, and the soil was loose. As the lake water had just been opened, it was very sticky to step on.

When Xu Bai and the others approached, they finally saw the black hole clearly.

Under the moonlight, the black hole finally became clearer.

Inside the cave was a staircase that slanted downwards. Due to the narrow cave entrance, one could not see anything deeper, and could only see the first few steps.

“There must be an independent space underground, and there must be a special staircase. It seems that someone built it, but I don’t know who built it.”Yun Zihai went back and forth several times and said.

Of course, Xu Bai could tell as well. He rubbed his chin and looked at Chu

Yu.”Do you feel anything more?”

Chu Yu stared at the stairs without blinking. She shook her head when she heard Xu Bai’s words.”It’s the same as the beginning. I just hate this place.” He was indescribably frustrated.

It was even more annoying than the few days of a woman’s month. Chu Yu could feel that the irritation was an instinctive disgust that made her feel uneasy.

“You don’t know the reason either?” Xu Bai looked at Qin Feng and said, “You’re his cousin, so you should know.””

Qin Feng similarly shook his head and said, “I don’t feel disgusted. Moreover, ever since cousin was born, she has always been...” We haven’t met many times. ”

When Qin Feng was about to say that Chu Chu had been in the palace, he saw that Yun Zihai was here and held back.

Xu Bai did not get what he wanted, so he decided not to ask anymore. He changed the topic and said to Chu Yu,””If there’s anything unusual later, you have to tell us immediately.”

Chu Yu nodded vigorously to show that she understood.

After everything was ready, everyone looked at each other. Yun Zihai was ready to take the lead.

Xu Bai didn’t say anything.

The second was Qin Feng, the third was Chu Yu, and the last was Xu Bai.

There were the strongest people guarding the front and back. Qin Feng and Chu Yu were in the second and third positions, so they were able to provide support in time.

After all, only one person could enter this cave. If it was a little more spacious, it would be easier to arrange. Now, he could only use this optimal solution to solve the problem..

Chapter 250: Omni-directional Travel ‘s Coffin Appears (2)

As for who was stronger between Yun Zihai and Qin Feng, Qin Feng directly raised his hand, indicating that he could not defeat Yun Zihai.

From Xu Bai's point of view, it was another matter if he could win the fight. In fact, he was in second place because he wanted to protect Chu Yu.

When they walked into the narrow passage, the sticky feeling on the ground was gone.

The passage was paved with stone slabs and was clean and tidy. Because it was at the bottom of the lake, the air was slightly damp.

The dark, narrow, and damp passage always reminded Xu Bai of other things.

The journey was very smooth. Yun Zihai led the way in front and played a very good role.

There was no light in this passage, and Yun Zihai waved his hand to write a few words. When they landed on the book in his left hand, the pages slowly floated up, emitting a hazy light that illuminated the place.

Xu Bai also took the opportunity to observe the situation around him.

The walls of the passage were smooth and delicate. When he touched them, he did not feel rough at all.

"Everything here seems to have been meticulously built. Even the walls are exquisite." Xu Bai rubbed his chin and said.

Even an ordinary passage was filled with a sense of exquisiteness. Xu Bai thought that the things inside must be extraordinary.

The deeper they went, the further they were from the ground.

The stairs were slanted downwards, and they were now heading underground.

They didn't communicate much and all carefully moved forward. After walking for a while, they finally noticed something different.

The walls around him were no longer smooth. Instead, there were different degrees of undulations and bumps. Xu Bai leaned against the wall and saw something fishy with the light from the book.

Different degrees of bumps and undulations gathered together and slowly formed a picture. The carvings on the wall were exquisite embossed.

"I seem to have seen this thing somewhere before." Qin Feng looked at the picture and fell into deep thought.

What the embossed depicted was a scene of people coming and going. There were many people on it, doing different actions. Other than people, there were all kinds of houses around it. It looked like a picture of prosperity.

Similar to the wall, the embossed were also extremely exquisite. The characters on the reliefs were exquisitely carved, and the expressions of the characters were also lifelike. They all had excited expressions, making it look extremely lively.

"Isn't this the street next to the government office?" Xu Bai said.

He could finally tell that the street carved on the wall was the street beside the Yunlai Prefecture government office.

He often passed by that place and had already memorized many of them. There were a few iconic buildings that looked exactly the same.

Not only that, but the pedestrians, as well as the peddlers on both sides of the street, were all engraved on the relief embossed.

"And here, this is another street." Yun Zihai pointed at the embossed beside him and added.

"This road seems to be the place I passed by when I was fishing. I even bought a fishing rod from this shop." Qin Feng said as he looked at the other embossed.

"There's even a shop that I often sell buns in, but why are these embossed carved in this passageway?" Chu Yu asked in puzzlement."

No one answered his question, because no one present understood this question. The scene in front of them was too strange. Without any clues, they could only watch the show.

"Continue to walk in. Maybe we will get an answer later." Xu Bai said.

Everyone nodded. They knew that they wouldn't be able to get any useful information just by staying here and watching. Therefore, they didn't stay any longer and continued to walk deeper.

The passage was dark, but there was light, which always made people feel a little comfortable.

The deeper they walked, the more they felt that it was a mystery.

The more embossed on the wall, the more scenes they depicted.

As they walked, they suddenly realized that they had already seen many streets in Yunlai Mansion.

"Nothing is missing. It's even more detailed than what I saw." Yun Zihai turned his head around, his face carrying a cautious expression.

Xu Bai raised his hand and touched the wall. Then, he rubbed the finger that had touched the wall earlier. The corners of his mouth curled up slightly.

The relief embossed that he had just seen was a little rough to the touch. It was not as round as the one behind it. Moreover, there was some powder in the gaps between the relief sculptures.

“It seems that when the previous magistrate was in office, they did quite a lot of work. Looking at the marks on this embossed, they just made the latest relief sculpture not long ago.” Xu Bai said.

“Continue. I really want to see what fancy things they want to do.”

The stairs at the bottom of the lake, the stairs in the tunnel, and the embossed on the walls on both sides of the tunnel.

On the embossed, the situation of Yunlai Mansion was still engraved, and it even appeared exactly the same. In the latest relief sculptures, new work was also shown, proving that even at the last moment, they did not stop carving.

Xu Bai had thought that it was left behind from a very ancient time, but after seeing the latest state, he understood that this thing was completely arranged by the mastermind behind the scenes.

“Let’s continue walking.” Xu Bai thought for a moment and said. For now, the further down they went, the more clues they would have.

Everyone nodded and quickened their pace.

They left for an hour.

When Yun Zihai, who was at the front, stopped, Xu Bai looked over.

“Brother Xu, trouble has arrived.” Yun Zihai smiled bitterly.

Originally, this passage could only allow one person to pass through, but after

Yun Zihai said this, he took a step back to the side, revealing the situation

behind him..
