

Unparalleled 261

Chapter 261: The Mystical Side of the Paper Binding Technique (3)

With Xu Bai's current Fifth Stage Realm, he could only control one at most. If he had more, he would not be able to handle them.

Of course, if he could mobilize the kidney technique, he would be able to control it more. However, it was not necessary because his own strength could not be measured by one more paper figurine.

The icing on the cake could not be reversed.

Thinking of this, Xu Bai took out a lot of paper and began to fold it.

Not long after, a three-meter-tall paper human figure appeared. It had six hands, four of which were holding knives, spears, and axes.

Xu Bai injected a trace of his True Core Strength into it, and a change occurred.

There were originally no facial features drawn on the paper figurine's face, but after Xu Bai injected his True Core Strength, facial features began to appear. There was even a strange blush on his cheeks.

The color of the paper began to become old, but Xu Bai could see that the strength of the paper figurine was rapidly increasing.

In the blink of an eye, a fifth-tier paper figurine was formed. It established an inexplicable connection with Xu Bai, and he could easily control it.

This was a genuine Rank-5 paper figurine, not the fake Rank-5 that blocked the way previously. Its strength was naturally incomparable.

"Not bad, you have more good helpers." Xu Bai waved his hand.

The paper figurine gradually shrank until it was the size of a fist and landed flat on the table.

Xu Bai picked up the paper figurine and put it into the bag at his waist.

After everything was settled, he stood up and walked out of the room. He called Yun Zihai, Chu Yu, and Qin Feng over.

"It's done?" Yun Zihai was shocked when he heard Xu Zihai's explanation.

It can't be. How long has it been?

Could Brother Xu really be the reincarnation of an old monster?

Chu Yu lowered her head and muttered to herself softly, "Don't have the heart to compare. You have to be calm. Why can't I be calm? It's too frustrating."

At this moment, it was the time that gave the geniuses the most headaches because this blow was too unbearable.

"Why do I feel like you've become stronger?" Qin Feng couldn't even close his mouth.

He felt that his loss was justified.

Losing to such a terrifying person, anyone would feel justified.

"At least, I managed to withstand a few moves from him." Qin Feng thought.

"Yes, time might be a little slow." Xu Bai sighed. "After all, it's a fifth-tier cultivation technique. My cultivation speed is relatively slow."

Everyone was speechless.

Someone come, fork this guy out!

This was called slow, how could he let people live!

It was torture.

Every second they stayed here, they felt that they were not worthy of the word genius.

Yun Zihai felt that he had to quickly change the topic. Otherwise, wouldn't he die of discomfort?

"Brother Xu, I'll bring Chen Yan over now."

Look for traces, and there will be traces to follow.

Chen Yan was the only survivor of the Chen family and the only trace left. It was naturally the best to start from Chen Yan.

Over the past few days, Yun Zihai had been investigating. After confirming that there was no problem with Chen Yan, he focused on protecting him.

After all, this was the only clue.

After a while, Chen Yan was brought over.

When he knew that Xu Bai had learned it, he was even more confused.

Not only did he learn it, but he also learned the higher-level technique of searching for traces. This was too terrifying.

Chen Yan knew how to tie paper, so he knew what this meant.

The other party was definitely a genius. That was what he had said on the paper.

Xu Bai didn't care about their expressions. After all, it wasn't the first time he had seen them.

After Chen Yan brought it over, he took out the paper crane in his hand.

The paper crane flew lifelike.

Xu Bai continued to measure the amount of True Elemental Force.

The paper crane became even more vivid, flying around Chen Yan.

A moment later, the paper crane seemed to be tired of flying. It left Chen Yan and flew outside.

"Follow me!" Xu Bai said as he gripped the Ghost Head Blade at his waist.

Everyone no longer hesitated and started chasing after Zhihe.

Fortunately, it was almost night time and there were not many people on the street.

Everyone followed him out of Yunlai Mansion and headed straight for the suburbs.

The paper crane was flying in front of them, and Xu Bai and the others were following behind. Soon, they were far away from Yunlai Mansion.

This part of the road was very peaceful. There were no obstacles at all, and no two people jumped out and ran over to block their path.

When they arrived, they found themselves in a forest.

The forest was dense and there were no outsiders.

The paper crane continued to fly and flap its wings. It came to a stop on the ground.

Before long, the paper crane burned itself to ashes.

When Xu Bai saw this, he frowned slightly.

This meant that Zhihe had found her target and completed her mission.

But the result was not satisfactory.

They did not find any red powder.

“Let’s dig up the ground first.” Xu Bai said.

He didn’t find the red powder, but the paper crane stayed on the ground. This meant that there was something underground, and this thing must be related to the red powder.

As long as it was a clue, he had to look at it.

Qin Feng didn’t wait for everyone to move. He took the first step and dug up the soil on the ground, taking out a wooden box. After seeing the wooden box, Xu Bai took it.

“This is it?”

The wooden box was not big and looked ordinary. There was nothing special about it.

However, since it was related to red powder, it was definitely not simple.

Xu Bai opened the wooden box and found a jade stone the size of a peanut.

The jade stone flickered with a hazy white light, constantly flickering in the dark night, looking very beautiful.

“There’s a strong energy in it.” Xu Bai sensed the situation.

He could feel that there was a strong energy in the jade..

Chapter 262: The Magical Part of the Paper Binding Technique (4)

As soon as he finished speaking, he did not receive a response because a gust of wind sounded.

“Hidden weapons!”

Xu Bai, who had maple leaves like rain, knew the sound of the hidden weapon very well.

This hidden weapon was much more advanced than Maple Leaf Rain.

Yun Zihai naturally heard it as well and quickly raised the book in his hand.

The pages of the book danced in the air, forming a barrier in the sky.

The tinkling sounds were endless, as dense as a rainstorm on a summer night. The flying knives fell to the ground and were blocked by Yun Zihai's pages.

"Fifth Grade." Yun Zihai raised his eyebrows.

In the darkness of the forest, more than twenty figures approached them from afar.

He walked at the back with a flying knife in his hand that was constantly spinning.

These people were all masked and did not reveal their true faces.

"Wait for the rabbit? Or did you steal it?" Xu Bai took out the jade from the wooden box and put it into the money pouch at his waist.

The aura of the twenty plus people did not decrease. When they combined together, they gave off a great pressure.

The strength of this group of people was not low. They were all around Rank- 5.

"A bunch of Rank-5s. It's a little troublesome." Qin Feng conjured a sword technique. The flying sword unsheathed and revolved around him.

The group of people in front of him were not only Rank-5 experts, but there were also a lot of them.

"If we had waited for the rabbit to come, this jade stone would not have fallen into our hands. It seems that we have played along. Brother Yun, after we return, I'm afraid we will have to investigate the people around you." Xu Bai said indifferently.

Yun Zihai nodded.

Anyone who was here would know that there was a mole in the Yunlai Mansion.

Otherwise, why would the other party come out at this time? They had just dug out something and were already blocked by someone. This was already very obvious.

The leader of the masked men laughed when he heard Xu Bai's words. "You guys should see if you can get out of here alive."

More than 20 Rank-5 experts surrounded and killed four Rank-5s. Even if these four Rank-5s were all geniuses, it was still very stable.

Confidence.

Extremely confident.

"Since we are all going to die, why don't we fulfill our wishes? Who is the person behind this?" Xu Bai said.

"You should die with regret. "Masked Man was not an idiot, so he naturally wouldn't say anything. He waved his hand and said simply, "Kill them."

It was just a simple word, but all the subordinates behind the masked man moved and used all kinds of methods.

Just as Xu Bai was about to make a move, he realized that more than ten masked men had forcefully pushed him away.

"This..."

What the f * ck, half of them were sent out just to deal with him?

Too unethical!

Pulling out the Ghost Head Blade from his waist, Xu Bai cursed under his breath and slashed at the masked man at the front.

As True Essence Energy surged, strong gales rose in all directions, carrying a sharp killing intent as they swept back.

The power of this blade was unparalleled.

At this moment, the masked man at the front seemed to have seen Xu Bai's attack. He raised his hands and began to circle them.

As the astral wind approached the masked man, it actually shrank rapidly and disappeared very quickly.

A large number of cracks appeared under Masked Man's feet.

Seeing this, Xu Bai raised his eyebrows. "Transfer?"

The masked man's ability was similar to Shifting Stars, but it was much weaker.

Shifting Stars was a combination of movement and counterattack, but this masked man could only move and let the ground bear Xu Bai's blade. However, now was not the time to watch, because the people behind had already attacked.

As everyone knew, in a group fight, especially when there were more than ten people fighting one person, the only ones who could really make a move were the four or five people in the innermost circle, because there was no other space.

Seeing all kinds of weapons coming at him with terrifying power, Xu Bai didn't dodge. The black light of the Diamond Heart Demon Body appeared. When the weapon landed on his body, some cracks appeared on the black light.

Xu Bai used Stellar Transposition without any explanation.

The other party was a Fifth Stage expert, so the Stellar Transposition could only slightly deflect it, but it had already played a role in diverting the force.

Taking advantage of his opponent's movement, Xu Bai raised his Ghost Head Blade and swept it around.

But right at this moment, Ghost Head Blade felt a trace of resistance.

The remaining masked men all raised their weapons and blocked Xu Bai's Ghost Head Blade.

Xu Bai:

Why did these ten people seem to specially restrain him?

The first person was used for teleportation, but in fact, it was used for defense. The few who attacked him later were all close-combat, almost restricting him.

The last few locked onto his weapon.

"Sure enough, I came prepared. It seems that the spy from Yunlai Mansion must be eliminated as soon as possible." Xu Bai thought to himself.

At this moment, Yun Zihai and the others were not in a good state either.

Yun Zihai was the first to be surrounded by a few masked men.

The other party seemed to know Yun Zihai's weakness and took advantage of his weak body to keep fighting in close combat.

Fortunately, Yun Zihai's page count was very high, and he had been defending himself.

Chu Yu and Qin Feng were in a terrible state as well.

They were surrounded by a group of people. A few of them specialized in dealing with the flying swords, while the others were dealing with Chu Yu and her companion.

Losing their flying swords, they could only use the Formless Heart Sutra to parry.

This was restraint.

Moreover, it was a restraint that was specifically targeted at them.

If it were some other Rank- 5 experts, they might have broken the situation long ago.

However, the other party had carefully planned to prevent them from escaping.

"Brother Yun, you have to pay more!" Xu Bai shouted.

As soon as he shouted, he received different attacks.

Ghost Head Blade was entangled, and he was also engaged in close combat. The black light was on the verge of collapsing..

Chapter 263: The Mystical Side of the Paper Binding Technique (5)

Fortunately, Xu Bai had a kidney strengthening method, and Wu Guang replenished his body very quickly.

However, his Refined Qi was also being consumed very quickly.

Yun Zihai had been frowning the entire time. He defended while looking for an opportunity to break through the situation.

At this moment, after hearing Xu Bai's words, Yun Zihai turned his head and said loudly, ""If Brother Xu can break the situation, I will add money. I will ask for a fifth-grade book from the Academy."

Chu Yu was speechless.

Qin Feng was speechless.

The two of them were also dealing with the attack. After hearing Xu Bai and Yun Zihai's words, their expressions were different.

Chu Yu smiled comfortably. Since Xu Bai said that he would pay more, there was no problem.

Adding money and doing things. This was Xu Bai's style. It proved that this matter could be done. Otherwise, Xu Bai would not have added money at all. At that moment, there was only one word in Chu Yu's heart-it's settled.

Qin Feng's face is filled with doubt.

Were people nowadays so direct?

Fight, we are fighting!

Although there was no danger for the time being, he was still entangled. If this continued, it would be easy for flaws to appear.

At this tense moment, you guys are shouting for more money?

Wasn't it too inconsistent with the aura at this moment!

Qin Feng really wanted to complain. The masked man who had been leading the attack on Xu Bai was one step ahead of him. He was furious.

'More money? Take care of your life first, don't lose your life.'

The leader of the masked men attacked while finding it hard to hide the anger in his heart.

This was an insult to him!

Can you guys be more serious? Can you not be so childish!

If they could solve it with more money, why would they need them?

The more he thought about it, the angrier he became.

"Brat, your blade is blocked by me, so it's useless to move it, and you won't have the chance to use your poison. Do you see the person behind me? As long as you use poison, I will move it. How long can you defend? I will definitely exhaust you and humiliate you to death! If you turn back, kill them!" As he spoke, the masked man felt a little more relaxed.

"Oh," Xu Bai said, "Actually, as long as we pay more, the problem will be solved."

As he spoke, Xu Bai touched his waist.

Following Xu Bai's action, a pale object appeared in front of the masked man.

Her face was pale, and there was strange makeup on her face.

It was a paper figurine the size of a fist.

When the paper figurine appeared, before the masked men could react, Xu Bai threw it casually.

The paper human figure suddenly grew to a height of more than three meters in the blink of an eye. It held a knife, spear, and axe as it descended from the sky.

“What is this? I know he knows how to make paper, but didn’t he just learn it?

How did he make a fifth-grade paper figurine for me?”

Masked Man felt his mind go blank and could not react at all.

The scene in front of him had already completely exceeded the scope of his understanding.

Didn’t the manager say that the other party had just learned the paper binding technique? How could he directly turn into a fifth-grade paper figurine?

Something was wrong. This was not logical at all!

Not only him, even Yun Zihai and the others were shocked.

“Brother Xu must be the reincarnation of an old monster!” Yun Zihai thought.

“As expected of the young master. No wonder my father and uncle wanted to fight over it. They almost fought.” Chu Yu did not know how to describe it, and a huge wave surged in her heart.

The most shocked one was none other than Qin Feng.

“What? Did you just learn it? If he had cultivated the same technique alone, wouldn’t he have entered Rank-I long ago?”Qin Feng originally wanted to fight Xu Bai again, but he immediately gave up on that thought.

With what?

They were not even on the same level. Wasn’t this asking for a beating?

Forget it, forget it. I’ll just fish in silence.

In this cold world, only fishing can give me a trace of warmth.

Of course, there was no way to explain the scene in front of him. After the paper figurine landed, it waved four weapons.

There was a strange smile on the paper man’s face. The weapon in his hand was powerful and powerful.

The masked men reacted very quickly. When the weapons fell, they quickly retreated and narrowly avoided them.

But this retreat changed everything.

A butterfly could cause a tsunami by flapping its wings.

Their formation against Xu Bai was completely disrupted at this moment.

Xu Bai felt his entire body relax. Then, he sneered and revealed his killing intent.

They were finished.

“Next, it’s time for me to perform.”

As soon as he finished speaking, the leader of the masked men cried out in his heart.

But it was too late.

Xu Bai used the Four-Step Movement Technique and arrived in front of the masked man who had started to divert his astral winds. He slapped his palm on the masked man’s chest.

The masked man quickly raised his hands and moved the black light on Xu

Bai’s hand to the ground.

However, before he could move halfway, he suddenly realized that the energy was out of control.

The masked man raised his head, his face full of horror. He saw Xu Bai smiling at him.

This smile was extremely terrifying, as if he was looking at a person who was about to die. There was mockery and killing intent.

“In terms of transferring, I am the expert.”

A portion of the black light that had been shifted was disrupted by Shifting Stars.

Although it was only a portion, it was enough to completely disrupt the masked man’s aura.

The masked man clutched his chest and cried out in pain.

In the next moment, a cold light flashed, and the masked man's head flew high into the air. It spun with a gurgling sound, and his eyes widened as he died with grievances.

Xu Bai turned around and looked at the remaining masked men. His tone was like the grim reaper in the abyss, sending chills down one's spine.

"It's your turn next. Now, the slaughter begins.."

Chapter 264: My Liver Is Finally Full (1)

"It's over!"

When the leader of the masked men saw this scene, he had a bad feeling and could not help but take a step back.

The structure had been broken. The good structure that had been formed before was now gone.

If they had followed his plan, they could have trapped this group of people here to death. However, the result was that Xu Bai had inexplicably gained another ability, and it was a Rank-5 paper figurine.

This time, not only was the situation broken, but it was also developing in the opposite direction. The current situation had already put them at a disadvantage.

"Kill, continue to kill!" Although the masked man knew that he had lost, he still turned his head and shouted at his subordinates.

He had no other choice.

Before they came, the manager had said that if they did not reach the goal, they could all die.

He was very clear about the toxicity of the poison in the Dark Tower.

Most importantly, the antidote was distributed layer by layer. Their antidote was in the hands of the manager.

If they couldn't complete the mission today, even if they were lucky enough to escape, they would still die.

Obviously, the masked men understood this logic.

When the leader said this, no one retreated. Instead, they were prepared to fight to the death.

However, sometimes, reality was cruel. It was not certain that one would succeed just because one wanted to do something.

"Haha, you are truly loyal." Xu Bai brandished Ghost Head Blade at the nearest masked man. "Since the game has started, I am the one leading the game." With one slash, strong gales rose in all directions, and the sky was filled with dead silence.

Without the masked man who could move, the masked men present could only use their movement techniques to dodge.

The masked man at the front fell to the left and narrowly dodged.

The strong wind brushed past his scalp and made him shiver.

Before he could relax, he felt a sharp pain in his neck and lost consciousness.

The head rolled on the ground, its eyes wide open.

The fifth-grade paper man held a knife, spear, and axe. There was still blood on them, but the strange smile on his face did not change.

Only then did the masked men realize that there was a terrifying paper figurine.

“Go help them.” Xu Bai slowly approached with his saber.

After receiving the order, the paper man carried four weapons and chased after Yun Zihai and the others.

At this moment, the masked men heaved a sigh of relief when they saw the paper figurines leave.

But in the next moment, something even more terrifying appeared.

Xu Bai executed the Four Steps. His speed was not slow at all. In just a moment, he had already walked into the masked men.

The saber was swung once again. This time, the saber brought with it countless astral winds.

The astral winds were like a ferocious beast that could destroy the heavens and the earth, sweeping wildly in all directions.

There were strong gales in all directions, and no one could stop them.

A few masked men were unable to dodge in time and were hit by the strong wind, instantly turning into minced meat on the ground.

The ones behind him attacked Xu Bai, but this time, the attack seemed weak.

A bottle of medicine appeared in Xu Bai's hand. Xu Bai smiled sarcastically.

‘ You’re not talking about me, are my poisons useless?’”

The leader of the masked men was stunned. Then, he realized that his aura had become chaotic, and his Qi and blood had also begun to stagnate.

Without the ability to transfer the masked man, they were like lambs waiting to be slaughtered. They had no defense at all.

They had been specially prepared to deal with Xu Bai. All of them were extreme attacks, and all of their defenses were the masked man who had moved away. However, at this moment, all of them were gone.

At this moment, the masked leader felt fear.

The young man in front of him was not human at all!

The moment fear appeared, it began to spread rapidly.

Xu Bai was the source of the fear.

The masked men who had been poisoned by the Hundred Fierce Poison had their strength greatly reduced. Xu Bai waved his saber again, and the strong wind brought by the three forms of Breaking swept up all the masked men in front of him.

Everywhere the wind passed, it was deathly silent.

The world seemed to have become an ocean of astral winds, and everything was no longer complete.

The ground was littered with broken limbs, carrying a strong smell of blood.

Xu Bai held the Ghost Head Blade, but it was spotless. Not even a trace of blood could be seen on it.

On the other side, Yun Zihai and the others cooperated with the paper human figurines and also completed the kill.

When they saw this scene, they all sucked in a breath of cold air.

Other than the masked leader, there was no one else alive.

The masked leader was trembling in a sea of corpses, looking extremely pitiful.

The cold wind blew, and the masked leader trembled even more violently.

He finally understood what it meant to be utterly crushed and what it meant to be terrifying.

“Oh right, I still have poison!” The masked leader raised his right hand.

There was poison under his fingernails that could kill him.

He knew that he had survived because the other party wanted to obtain information.

Then the torture that followed would definitely not be little.

At the thought of this, the masked leader gritted his teeth and prepared to consume it immediately.

However, before he could do anything, he felt a pain in his chest and could not help but open his mouth.

A pill melted in his mouth.

The masked leader fell to the ground and trembled in fear. He looked at Xu Bai, who was like a demon from hell, and said with a trembling voice, "What did you feed me?"

Xu Bai narrowed his eyes and said, "It's nothing. It's just a Detoxification Pill. I know the Dark Tower's style very well. If your poison is the same as the other poisons, you can try to see if it can poison you to death."

The leader of the masked men was stunned. Finally, he sighed and put down his hand weakly.

Yes, since the other party was an expert in using poison, he must be an expert in detoxification..

Chapter 265: My Liver Is Finally Full (2)

He gave up, not wanting to suffer.

All the time. The masked leader removed the black cloth on his face and said with a pale face.

Since he could no longer take the poison, he might as well tell them everything. Perhaps he could be happy.

As for loyalty...

It was not important anymore.

He was about to die, so how could he care about anything else?

"It's you!" Yun Zihai walked over and said angrily when he saw the appearance of the masked leader.

"Brother Yun, do you know him?" Xu Bai turned around and asked.

Yun Zihai nodded." So that's how it is. You've already infiltrated the government office. ""

Xu Bai had guessed that there must be a mole in this operation. After all, the other party was able to find them accurately and only came out after they had dug up something. It seemed that it was true.

"Tell me, what's the use of this thing?" Xu Bai took out the jade from his pocket and asked.

Since the other party was very cooperative, Xu Bai was too lazy to make a move.

As soon as he asked this question, the masked leader shook his head decisively, indicating that he did not know.

"Only the manager knows about this jade. We don't know. To be honest, I only found out when the manager told me that he was coming to kill you."

As he said this, the leader of the masked men raised his hands high to show that he was being honest and that what he said was true.

Hearing this, Xu Bai frowned and sized up the leader of the masked men.

It seemed that the other party was indeed very cautious. He did not even tell his subordinates. He could only put this jade stone aside for the time being.

Thinking of this, Xu Bai put the jade back into the purse and asked,""How many people do you have left?"

The masked leader shook his head again." We don't know each other's situation. The reason why so many people came this time was because of the steward. We can only know if the steward lets us know.""

At this point, the sound of a slap was heard, replacing the masked leader's words.

The masked leader felt a sharp pain on his face. The left side of his face was already swollen, and the burning pain was overwhelming.

“You don’t know this or that. What’s the use of keeping you alive?” Xu Bai withdrew his hand, his body full of killing intent.

He had kept this person alive for clues. Now that he did not have what he wanted, this person was completely useless.

I know, I know, I know, I know, I know, I know.” The leader of the masked men felt Xu Bai’s murderous aura and quickly spoke.

Death was not scary. What was scary was that he would die in endless pain.

He only wanted a quick death. He didn’t want to suffer before he died.

He was already very fortunate to be able to die so easily.

“Tell me, I know you want to die quickly. The saber in my hand is very fast, so you can rest assured. “Xu Bai’s eyes narrowed as he laughed.

The masked leader nodded his head vigorously, afraid that if he spoke too

slowly, the other party would let him taste the subsequent pain. He quickly said, “The tunnel. I know their real purpose for finding the tunnel. I also know why there are corpses from Gale Country.”

“They want the entire Yunlai Mansion to fall into endless suffering. The tunnels are not only in Yunlai Mansion, but in many other places..”

At this point, perhaps because he spoke too quickly, the leader of the masked men coughed violently and only returned to normal after a long while.

"It's not only the Yunlai Manor that's been waiting for you." Yun Zihai grabbed the collar of the masked leader and said,"Hurry up and tell me everything!"

When he heard this, he felt that there was a huge conspiracy that spread throughout the entire Great Chu.

The masked leader didn't dare to wait any longer. He said in fear,"Back then, when the Gale Country was already powerless, the Gale Country's emperor dug tunnels throughout the country. Your Great Chu was established in Gale Country, so there are tunnels in the area where Great Chu is now.

Although I don't know the location of the tunnel, I know how to find the subsequent tunnels through your existing tunnels."

As he spoke, the masked leader gestured with his hands.

' Fengshui. We have carved the map of Yunlai Mansion into the tunnel according to their respective locations. The steward is a fengshui master. Perhaps this is the key to solving the mystery because the Dark Tower will never send anyone else. The steward is a fengshui master, so he will definitely be of great use. Of course, this is just my guess."

After saying that, the leader of the masked men let out a long sigh.

He was done. That was all he knew.

He did not know more.

Xu Bai rubbed his chin and looked at Yun Zihai."Is there a feng Shui master?"

Yun Zihai shook his head and said," No, and we can't send a message either. The carrier pigeon that sends it out will be blocked unless we follow the carrier pigeon all the way out of Yunlai Mansion. ""

“You can’t come out of the Yun Nation to the manor. Fengshui masters are very strange. I don’t know why the steward hasn’t made a move now, but it seems that obstructing your messenger pigeons is a plan to lure the tiger away from the mountain.”the masked leader said.

At a time like this, he couldn’t care less and said everything he could.

People would do many things and think of many things before they died.

For example, the leader of the masked men was thinking that he could not die alone.

Since he was going to die, he would drag the manager down with him. Since they were already dead, how could they care so much? Everyone should die together.

“Xu Bai, I’ve read Feng Shui books before. I guess Yun Zihai must have occupied the Feng Shui of Yunlai Manor. If he doesn’t leave, it will be difficult.”Chu Yu walked to Xu Bai and asked..

Chapter 266: My Liver Is Finally Full (3)

She began to explain the reason.

Xu Bai finally understood what was going on after Chu Yu’s explanation.

If the entire tunnel was related to Feng Shui, then Yun Zihai was the most important location in this Feng Shui.

He was the prefecture commander, and when he took over the position, he became the most important component of Feng Shui.

If the other party wanted to completely grasp the situation, he would either get rid of Yun Zihai or lure him out of Yunlai Manor.

"If you know Feng Shui, can you do it?" Xu Bai asked after Chu Yu finished speaking.

Chu Yu shook her head. "I've only seen it before, but I'm not a Feng Shui master. I've understood it before, but it's only very shallow. I couldn't tell what the tunnel was like previously."

"And we can't go out either." "If we go out, Yunlai Mansion will be empty. It's hard to guarantee that the other party won't take this opportunity to attack

Lord Yun."

If what Chu Yu said was true, then the other party only had two motives.

First, lure Yun Zihai out of Yunlai Mansion. Second, find an opportunity to kill

Yun Zihai.

"I understand now. I finally understand why the steward wanted to kill the previous prefecture magistrate." "It turns out that the previous prefecture order is related to Feng Shui," the masked leader shouted. "But at the critical moment, he was replaced by Lord Yun. So, even if we kill him, it won't work."

Xu Bai rubbed his chin and fell into deep thought.

From the looks of it, Yun Zihai was now in extreme danger.

If the other party found an opportunity to kill Yun Zihai, then the plan would be complete. On the contrary, if they could not succeed, it would be equivalent to placing an unstable factor beside them.

"I didn't expect that I would be so important." Yun Zihai smiled bitterly and said, "I finally understand why His Majesty said that the waters of Yunlai Manor are very deep."

It's not just Deep Waters." Xu Bai said, "In my opinion, His Majesty should have known about this long ago. As for why he hasn't moved, I'm afraid he doesn't know the location of the tunnel. Now, he's using a trick to lure the snake out of its hole."

With the Emperor's temper, how could he let a fierce tiger sleep beside his bed?

He probably knew that there was a tunnel, but he did not know the exact location. And this location happened to be known by the Dark Tower of Great Yue State, so they took the opportunity to lure the snake out of its hole.

Xu Bai believed that it was not just Yunlai Mansion. There were probably important people planted in every place. They were just waiting for Dark Tower to take the initiative to pull in the net.

The Emperor played the role of the fisherman. The net was already cast, and he was just waiting for the fish from the Dark Tower to enter the net.

Old and cunning!

Xu Bai felt that this was the real cunning old fox.

Even though he was thousands of miles away, he still had to cast the net over and control it so precisely.

"I reckon that if we fail, there will be a second plan." Xu Bai thought.

The leader of the masked men looked left and right. In the end, he couldn't help but whisper, "I've already said what I should say, then... Can't you give me a quick death?"

Even if they were seeking death, they were still so humble. The masked leader felt very uncomfortable.

Xu Bai saw that the masked leader was indeed not trying to extract any value. He raised his Ghost Head Blade and said, "Congratulations, you are the first one to die so comfortably."

As the leader of the masked men looked relieved, Xu Bai raised his knife and chopped off the leader's head.

After doing all this, before anyone could say anything, Xu Bai started doing his old job again.

Put away your saber and start searching!

He searched every corpse carefully, afraid that something was missing. Especially the masked man who used throwing knives. Xu Bai really wanted to

find the progress bar related to hidden weapons to make up for Maple Leaves Like Rain's weakness.

Unfortunately, he did not find what he wanted.

Other than some money, there were only weapons left.

However, weapons were useless to him. Ghost Head Blade was already very handy now, and these weapons weren't that great either. He didn't want to change them.

After taking all the money, he realized that Yun Zihai and the others had turned their heads away as if they did not see it.

Killing and searching corpses, he knew how to do this.

Yun Zihai and the others had actually done a lot of work. Who didn't have a past?

Chu Yu was the only one who stole glances at him from time to time. It was obvious that she had kept this good virtue firmly in her heart.

When Xu Bai was done, Yun Zihai asked, ""Brother Xu, let's return to the government office first."

Today's matter was too chaotic and he needed to hurry up and sort it out. This was obviously not the place to sort it out.

After returning, Yun Zihai planned to thoroughly investigate the government office to at least ensure that there were no more spies around him.

If he really did this again and again, he couldn't afford to lose face.

After discussing for a while, they did not stay any longer and rushed towards the government office.

After returning to the government office, Xu Bai and the others did not return to their rooms. Instead, they gathered together and discussed the next plan.

This discussion lasted for nearly an hour.

During this period, everyone expressed their opinions and finally came up with a plan.

Since there were no more clues now, he would wait for the other party to attack.

Up until now, the other party's goal was already very obvious. That was to make Yun Zihai his ultimate goal.

Then, they would use Yun Zihai as bait to fish out the person behind the scenes.

They would see who moved first, who moved first, and who couldn't hold it in. There would be flaws.

"Turn light into darkness. I reckon that the other party is even more anxious than us." Yun Zihai smiled.

They could wait and could afford to wait.

During the process of waiting, Xu Bai could keep up with the progress bar, Yun Zihai could handle the important matters in Yunlai Manor, and Chu Yu could attend classes. There was no problem at all..

Chapter 267: My Liver Is Finally Full (4)

As for Qin Feng, who cares? He's just an Air Force fisherman.

"Alright, that's it. If anything happens, we'll deal with it together. We'll definitely take down the mastermind.""

Xu Bai suddenly paused. Then, he told everyone to wait and left the room.

Everyone looked at each other, not understanding what Xu Bai was doing.

After about two hours, everyone heard Xu Bai's voice in the room and walked out.

When they saw the situation outside the door, they were all stunned.

In the backyard, there were twenty paper men standing. Their faces were pale, and their facial features were stiff. They looked extremely terrifying.

"I can only get one fifth-grade paper figurine, but I can get more of these ninth-grade ones. It's enough to be used as a warning. "Xu Bai waved his hand, and the paper people walked stiffly toward various hidden corners.

In a short while, he hid in the dark.

There were no major problems with the paper men, the security guards, and the alert guards.

“As expected of Brother Xu.” Yun Zihai praised.

“Alright, everyone should rest. Hurry up and recuperate. After all, some people won’t be able to sleep tonight.” Xu Bai yawned and walked toward his room.

Everyone looked at each other and left.

After returning to his room, Xu Bai took out a clay pot from under his bed and looked at the progress bar seriously.

Not far away, the Fifth-grade paper man was holding a knife, spear, and axe. There was an evil smile on his face as he stood guard in the room.

The progress bar in the terrine was growing, and the smile on Xu Bai’s face grew wider and wider.

When the progress bar became more and more perfect, the secret of this pottery jar that had been dragging on would be completely solved.

Everyone had different joys and sorrows. Xu Bai was busy with the progress bar, and on the other side, in a secret place.

The masked man threw the teacup in his hand onto the ground with a crisp sound.

The shattering sound was very loud. When the sound rang out, a black-robed man standing beside the masked man trembled unconsciously.

“Idiots, all of you are idiots!” The masked man hammered the table hard and roared angrily, “I’ve already told them to cooperate with each other. I’ve also told them why they still failed!”

The black-robed man did not dare to make a sound. He only lowered his head and did not dare to say anything.

The masked man's chest heaved up and down violently. It took him a long time to recover.

"Tell me, is the other party really invincible? Is it really an insurmountable mountain? Is it really impossible to deal with?"

After three consecutive questions, the room fell silent.

The black-robed man still did not say a word. He maintained a state of lowering his head and not saying a word.

After a long time, the masked man finally regained his composure.

At this moment, the black-robed man seized the opportunity and slowly spoke. "Milord, I feel that we seem to have fallen into a desperate situation." It was just one sentence, but it made the masked man stand up from his seat.

His gaze was cold as he looked through the mask.

"In Yunlai Mansion, no one has ever been able to force me into a desperate situation. They only won by luck. How did they force me into a desperate situation?" the masked man said coldly.

The black-robed man organized his words and did not dare to say anything too extreme to avoid angering the masked man. He carefully said, "I'm just worried that after several failures, once the other party knows our true intentions, they'll probably fall into a passive position."

This time, he did not use the word "desperate" but changed it to another word.

The masked man fell silent. After a long time, he said, "Are you saying that they know we want to kill Yun Zihai?"

As soon as he finished speaking, he immediately retorted, "Impossible, absolutely impossible. They don't have a fengshui master. I've always kept this a secret."

"This subordinate is just worried. After all, it's just a guess." "If that's the case, then we won't be able to succeed. After all, they're in a group. The outcome is unknown." "

The masked man carefully considered the black-robed man's words and finally sighed. "Let's wait for a few days. I'll see how they are doing."

In fact, he had already thought of this possibility when the black-robed man first spoke, but he was unwilling to say it out loud.

Now, he could only verify that if the other party had been inseparable during this period of time, then there was a high possibility.

At the thought of this, the masked man's mind spun quickly and finally thought of a way.

"Bring a group of people to the Yin Posthouse and spread the news that there will be a fatal disaster in the Yin Posthouse." the masked man said.

The black-robed man was stunned for a moment before he understood, "Your

Excellency is wise, this subordinate is ashamed of his inferiority."

"If you could think of it, I wouldn't be sitting in this seat." The masked man laughed. "Since we are testing whether they know the truth, we will use this method. Xu Baigui is the chief of the Fu Yin Posthouse. If he doesn't go back, he will know. If he goes back..."

"Without Xu Bai, they can't even withstand a single blow!"

A murderous aura appeared on the masked man's body and circled around him. "I'll do it now," the black-robed man hurriedly said."

After saying that, the black-robed man left after the masked man agreed.

The masked man took a deep breath as he watched the black-robed man disappear. He placed his arm on the table and opened a large box on it.

Inside the box, there was a pile of jade stones the size of peanuts, flickering with light.

"Other than the jade stones from that lake, I've already taken back the rest. They can't get any more. As long as I kill Yun Zihai and put these jade stones back, I'll succeed."The masked man thought to himself..

Chapter 268: My Liver Is Finally Full (5)

In the dim room, only the light of the jade was flickering.

Time gradually passed. In the blink of an eye, a few days had passed.

During this period of time, it had been very quiet and there had been no disturbances.

The person behind the scenes seemed to have already retired and did not appear at all.

However, this period of time gave them a buffer.

Yun Zihai was getting more and more proficient in handling the affairs of the Yunqi Residence.

On Xu Bail's side, the progress bar was also increasing at a flying speed.

Chu Yu stood up and bowed after Xu Bai finished reading the last word in Xu Bai's room early in the morning.

"Young Master, I'm leaving."

Chu Yu planned to go back and absorb the energy properly after the lesson for the day.

She had to revise every day after she finished learning the class. This was the only way to deepen her impression of the city.

His hand was on her shoulder.

Chu Yu turned around and saw that it was the fifth-grade paper human figure. She looked at Xu Bai in confusion.

"Young Master, what's wrong?"

Didn't you already finish today's lessons? Are you going to give me special treatment?

Chu Yu could not figure it out, and her eyes were filled with confusion.

Xu Bai coughed and glanced at Chu Yu's chest.

Chu Yu hugged Gu Yue Fei's sword technique, and there was only a trace of progress on it.

He couldn't wait until tomorrow, right?

Xu Bai thought that it would be better to settle it today.

But now, he needed an excuse.

“Chu Yu, you’ve been learning for so long. Have you gained any enlightenment recently?” he asked after some thought.”

Chu Yu was stunned.” Young Master, this is the third time you’ve asked me today. It’s strange. Young Master, you’ve talked a lot of nonsense today and you’ve repeated it a lot.””

She became more and more puzzled. Today, Xu Bai was filled with the unique aura of nonsense literature.

For example, there was a sentence that roughly meant that one’s life was the priority at all times.

In the end, Xu Bai said,” To protect your life is to protect yourself. To protect yourself is to protect your life.”

Of course, she didn’t know that Xu Bai had become a master of nonsense literature because of the progress bar.

Xu Bai coughed again.” That’s because I wanted you to learn it to your bones. That’s why I emphasized it.””

Chu Yu was touched when she heard that. She said,””Young Master, you said this seven times today.”

Even though she was touched, Chu Yu still remembered her feelings.

Xu Bai was speechless.

Damn it, when did the silly girl become so smart?

Could it be that his teaching was finally effective?

Chu Yu seemed to have read Xu Bai's mind. She suddenly lowered her head and stared at her delicate feet. She said bashfully, "Actually...young Master, I'm just a little innocent and not stupid. I've read in a book that there's a saying called 'showing your affection for nothing.'"

Before she could finish her sentence, Chu Yu held her head and cried out in pain.

Xu Bai retracted his hand and said, "It's alright now. You can go."

The progress bar was full because of the delay just now.

Chu Yu was dumbfounded. She did not understand what had happened at all.

Why did he look like he had something to ask just now, and now it had become like this?

Even his expression changed faster than yours! Chu Yu was speechless as she held her head.

"Young Master, are you kidding me?"

Xu Bai stroked his chin." This is to let you understand the dangers of the martial world. Look, didn't I say a lot of nonsense today?"

Chu Yu tilted her head and thought about it carefully before nodding her head with certainty.

Not just a lot, but a lot.

"Actually, I'm telling you something. When someone talks nonsense with you, you should think that the other party has other motives." Xu Bai made up a reason, and it was indeed the case.

For example, in a big battle, if the other party suddenly spoke nonsense, he would just do it directly. There was no need to say anything at all.

Chu Yu nodded her head in a half- understanding manner. Suddenly, her eyes lit up. “Then does Young Master have a motive for saying so much nonsense?”

My purpose is to teach you,” Xu Bai said with a serious face.” If you don’t put yourself in my shoes, how can you understand?”“

Xu Bai was a professional when it came to bluffing, especially when it came to bluffing the silly girl, Chu Yu.

Oh,” Chu Yu replied. She even dragged out her voice to indicate that she finally understood.

“Let’s go down first and comprehend it properly.” Xu Bai pretended to be serious.

Chu Yu skipped away after confirming that there was nothing else after she heard that.

After Chu Yu left, Xu Bai let out a long breath and looked at the air in front of him.

He had finally tricked Chu Yu into leaving, Now, he could see the surprise of Gu Yue’s flying sword technique.

Xu Bai rubbed his hands and waited.

In the air, light blue smoke appeared and gradually gathered into a line of words.

[You have studied Gu Yue Fei sword technique and comprehended Gu Yue Fei sword technique.]

After the words appeared, they immediately turned into a large amount of information and entered Xu Bai’s mind.

However, Xu Bai didn't look very happy because the light blue smoke didn't disappear in front of him.

If the smoke did not disappear, it meant that Gu Yue Fei's sword technique could fuse with his current ability.

This situation made Xu Bai even more excited.

Actually, Xu Bai was quite envious of the Flying Sword Technique. After all, this thing was very similar to the descriptions in the novels in his previous life.

Which man didn't have the dream of becoming a Xianxia, and who didn't want to travel the world with a sword?

The Flying Sword Technique was already a pleasant surprise, but what was even more pleasant was the fusion.

In front of Xu Bai's eyes, the light blue smoke finally changed into another line of words...

Chapter 269: Fused Flying Sword Technique, Fierce!

(8000) _1

When the new text appeared, Xu Bai was slightly stunned, and then his face revealed a look of ecstasy.

Up until now, most of the skills of the Guancha were in line with his current grade. Although some of them were still slightly lower by one level, they were very easy to use.

Some things didn't need to be expensive. as long as they were right. Of course.

he also wanted a higher level, but he still lacked the opportunity now.

There was only one skill that had been dragging him down.

This skill was none other than Maple Leaves Like Rain. It was only at the second rank at the moment, but now he had the strength of the fifth rank, so it was relatively weaker.

Due to its weakness, he had not used it much until now. He had been eating dust inside, but now it seemed that this skill was once again powerful.

The light blue words curled up and gradually gathered, and new words appeared.

[Fusion option found. Fusion in progress.]

[Gu Yue Flying Sword Technique + Jade Maple Leaf = Wind Returning Snow.]]

[Fusion successful!]

Looking at the line of text in front of him, Xu Bai only wanted to say, 'Goldfinger, you've changed.'

You're no longer the Xiao Jin of the past. The Xiao Jin of the past had almost zero naming ability and was made up of several names.

But now, these two skills combined to form a more elegant name.

Is this still my Xiao Jin? You've changed, you've become elegant, not like a boor at all.

Xu Bai was complaining in his heart. The light blue text ignored his complaints and turned into a large amount of information that fused into his mind.

A moment later, when Xu Bai grasped the contents of the message, he finally understood the power of this skill.

A light blue attribute panel appeared, displaying his latest situation.

[Name: Xu Bai]

[Realm: Fifth Stage unspecialized.]

[Three Breaks (Level 4): Maximum level.]

[Reversing Purple Cloud Squall, Yin Yang Disorder (Level 5-5):[Maximum level.]

[Wind Snow Return (Level 5): Maximum level.] [Four Steps (Level 3): Maximum level.] [Shifting Stars (Level 4): Maximum level.]

[Diamond Heart Devil Body (Level 4), max level.] [Kidney Strengthening Technique (Level 4): Maximum level.]

[Hundred Poison True Clear Rank 3]: Full Rank.]

[Paper Binding Essence (Level 5): Max Level.]

” Comprehension: Maximum level.”

A Tier 5 skill had its own powerful aspects. It was considered the top-notch skill at the moment.

When the so-called Wind Snow Returning Wind inherited the hidden weapon technique of Maple Leaves Like Rain, it also had the control technique of Gu Yue Fei’s sword technique.

Xu Bai tried to activate the True Core Strength in his body. Immediately after, an abnormality appeared.

As he moved, the purse suddenly began to shake. As time passed, the shaking became more and more intense, as if something was bumping left and right inside.

Xu Bai raised his index finger and his eyes narrowed as he muttered.

Actually, there was no need to say this word. He just felt that it was more impressive to say it at this time.

Just look at those transmigrators in novels. When they fought, they had to recite the moves.

Could it be that there was a bonus to reading it out? There was no bonus, but it only made him look cool. Of course, he was only thinking about it now. If he really fought, he would not do such a stupid thing.

At this moment, the shaking of the money bag finally reached its maximum extent. Immediately after, countless copper coins flew out of the money bag. They were wrapped in a black light, and it was terrifying.

These copper coins revolved around Xu Bai, spinning and floating, but they did not shoot out.

Xu Bai's heart skipped a beat. The copper coin moved with his thoughts, sometimes moving forward, sometimes floating up and down.

As long as he had a thought, these copper coins would turn into a sharp weapon that could kill people and cause them to be covered in bruises.

"My sword technique seems to be even stronger than Gu Yue Fei's sword technique." Xu Bai thought to himself.

Gu Yuefei controlled one sword, or like Qin Feng, he controlled two.

However, he had a whole bunch of them.

He could really do whatever he wanted and hit wherever he wanted.

“It’s a pity that the one in Chu Yu’s hands stopped after reaching the fifth rank.” Xu Bai thought to himself.

Although he thought so, he was already very satisfied. After all, he had finally fixed this weakness.

“No, it seems like it can be used like this.” Xu Bai wanted to withdraw the coin, but he suddenly remembered something and continued to control the coin.

This time, the copper coins were different.

Under Xu Bai’s control, the copper coin came to the backyard, and countless strong winds rose from it.

Each copper coin carried a strong wind.

Fortunately, Xu Bai controlled it well. All the astral winds were directed toward the sky and did not cause any trouble.

However, after seeing this scene, he suddenly realized another use of Feng Liuxue.

If there were copper coins everywhere during a battle, and they could shoot out violent gales at any time, the damage would be very different.

The opponent had to face Xu Bai’s saber techniques, various skills, and fifth-grade paper men. He also had to be careful of the copper coins that filled the sky. Moreover, these copper coins could shoot out astral winds. Thinking of this, Xu Bai broke out in a cold sweat for his opponent.

Satisfied, extremely satisfied.

After putting away the copper coins that filled the sky, Xu Bai stretched lazily and walked back to the house with a satisfied expression.

In the room, he placed the terrine on the table. The progress bar on it was almost complete.

"I've neglected you. It's finally your turn this time." Xu Bai stroked the patterns on the jar with his hand and smiled..

Chapter 270: Fused Flying Sword Technique, Fierce!

If the earthen jar could talk, the progress bar on it would definitely curse.

It should have been the turn of the progress bar on the earthen jar a long time ago. Unfortunately, after being delayed by various things, it became the last.

Xu Bai picked up the earthen jar and sat back down. He began to work on the progress bar.

He had to hurry up and obtain more skills so that he could have more protection.

But sometimes, things just didn't go as he wished. The jar seemed to have a curse that prevented him from concentrating.

"Plop..."

A voice rang out. A carrier pigeon flapped its wings and landed at Xu Bai's door.

"Hmm?"

Looking at the pigeon at the door, Xu Bai frowned. He put the jar back to its original place, then went to the door and grabbed the pigeon.

There was a paper roll tied to the pigeon's leg. Inside was a letter.

When Xu Bai opened the letter, the contents entered his eyes...

"Sir, something big is about to happen at the Yin Posthouse. I heard that someone has taken a fancy to the Yin Posthouse and wants to destroy it in one fell swoop."

The content was very simple. It said that someone wanted to destroy the Yin Posthouse, and the source of this letter was Liu Er.

Ever since Xu Bai came to Yunlai Mansion, he had asked Liu Er to manage these things. He had never asked about it. Now that he had received this news, he could not help but frown.

"It seems that there is a big connection between this problem and this time." Xu Bai placed the letter on the table and continued to read it from top to bottom, deep in thought.

After a while, he figured out the reason. He took out a piece of paper and wrote on it with a brush.

"The Yin Posthouse has been sealed off. Tell all the posthumans not to come. You should return to the government office as well. As for when it will open next time, just wait for the notice."

After doing all this, he tied the letter to the pigeon's leg and walked to the door. He lifted his hand slightly and released the pigeon.

Looking at the messenger pigeon slowly flying away, Xu Bai's lips curled into a cold smile. He turned around and returned to his room, sitting back on his chair.

He had long seen through the other party's actions.

He wanted to use this action to test if they knew the inside story. If he went to the Yin Posthouse, it meant that he didn't know. If he didn't go, it meant that he knew.

But could he go?

Obviously, he couldn't go.

Although it was just a test, if they really went, there would be fewer people in Yunlai Mansion. Once there were fewer people, the result would be obvious.

As for why he called Liu Er back, it was actually very simple. Xu Bai was telling him directly that he did not need him to test him. It was just as he had guessed.

He already knew what he was thinking.

It was the time to play the cards openly. There was no need to hide it. If he said that he knew openly, it would depend on what method the other party used.

Xu Bai took a sip from his teacup, satisfied.

Previously, when they were in the open and the other party was in the dark, that feeling was as uncomfortable as it could be.

Now, it was different. As long as the other party wanted to kill Yun Zihai, they would have to go through them.

Xu Bai and the others were not afraid of a head-on clash.

Thinking of this, Xu Bai put down his teacup and continued to check the progress bar.

Yin Posthouse.

Liu Er packed up his luggage, put up a notice outside, and left quickly.

Outside the Yin Posthouse, a few figures flashed past.

It was not until Liu Er's back disappeared at the end that they looked at each other and left.

After these people left, they walked through many winding paths and some secret passages. Finally, they arrived at a secret room.

In the room, the black-robed man was waiting.

As soon as these people arrived, they immediately told the black-robed man the news.

The black-robed man didn't say much. He waved these people away and waited quietly in the room.

He kept lowering his head and seemed to be thinking about something.

After a long time, he raised his head and took a deep breath.

"I still can't make a move. I'm the last resort that His Majesty planted. If I can't find the location of all the tunnels in Yunlai Mansion, my exposure will be useless." The black-robed man thought to himself, "If a steward dies, another steward will come. Only by destroying all the tunnels in Yunlai Mansion can we settle this once and for all."

The Emperor of Great Chu was far-sighted. He did not just have a plan. The black-robed man was the second plan.

The black-robed man's ultimate goal was to find the location of all the tunnels in Yunlai Mansion.

Unfortunately, he only knew one place.

Unless he captured all of the masked man's other subordinates, he might be able to ask.

However, as long as one person did not say anything, the problem could not be completely solved.

Therefore, in the current situation, the black-robed man decided not to expose himself and act according to the situation.

In the secret room, the black-robed man thought for a while. After thinking it through, he stood up and left.

After leaving the room, he walked a long way and finally arrived at the masked man's residence.

"Milord, the news has been received. They do know our movements."The black-robed man bowed.

The masked man was resting with his eyes closed. When the black-robed man spoke, he finally came back to his senses and opened his eyes.

There was a trace of coldness in his eyes.

"As I expected, they really already know. It seems that things are not easy to handle. "The masked man sighed.

The black-robed man did not speak. He kept his head lowered. His eyes, which were covered by the black robe, flashed with an inexplicable light. "Milord, what plan have you come up with?"

After thinking for a long time, the black-robed man decided to ask..
