

Unparalleled 451

Chapter 451: Stellar Transposition Upgrade

In the blink of an eye, Xu Bai had absorbed all the information and completely mastered the skill of Transposition.

After absorbing the information, Xu Bai opened his eyes and nodded.

Transposition was the same as Shifting Stars. It could shift the opponent's attack. Whether it was a weapon or something else, as long as it was an attack, it could be shifted.

This was the principle of returning the favor.

All those below the Second Stage could spin!

However, compared to the previous Shifting Stars, Transposition of Flowers had a new effect. In Xu Bai's opinion, this effect was simply like a bug.

A simple sentence could describe this effect.

Transferring injuries!

That's right, it was transferring injuries. Whether it was transferring injuries on one's own body or transferring injuries to others, this skill would work. As long as the injuries were not too serious or did not exceed the Second Stage, there would be no problem.

I can heal now.jpg

“Perhaps this is the qualitative change of the Second Stage, just like my saber intent.”

Xu Bai guessed that perhaps the Abbey Dean wanted to divert her madness, so she specifically studied in this direction. However, there were still flaws, so she did not completely succeed and could only be awake for a short time.

Or in other words, only a portion of it had been transferred out, and a large portion had not been transferred out.

Xu Bai rubbed his chin and thought to himself, Can I use a special method to turn this skill into an attack?”

As a transmigrator, it was a must to have a flexible mind. Xu Bai's thinking was also very flexible. Soon, he found the flexible use of this skill.

Shifting Flowers and Grafting Trees also needed to be used after getting close.

However, under certain circumstances, it could be used as an attack method. For example, if Xu Bai stabbed himself and then transferred his own injuries, then...

He had an extremely strong recovery ability, so it was a piece of cake for him to stab himself.

“Isn't this the real anti-armor?” Xu Bai thought to himself.

The current situation was quite similar.

With the new skill, Xu Bai felt more at ease. He was extremely comfortable.

“Hurry up.”

Time waits for no one. Although he was not short of time, he would not waste time. Xu Bai took out the second-grade fortune-telling book from his pocket and looked at the empty progress bar. He opened one of the pages and continued to work.

This second-grade fortune-telling book might be useful in the future.

Xu Bai temporarily gave up on the Nameless Blade Scripture and decided to

focus on the progress bar of the fortune-telling book. After all, he still needed to rely on this thing to find the person behind the scenes. This was the most important method at the moment.

He had just had this thought and was not ready to start yet.

The next moment, someone stood outside the door and knocked gently on the door. The knocking was very soft. After knocking three times, it stopped, as if waiting for Xu Bai's answer.

"Who is it?" Xu Bai frowned.

He was unfamiliar with this place. He had never been here before, but now someone had come to his door. Xu Bai was very curious about who it was.

As Xu Bai asked this question, a loud and heroic voice came from outside the door.

"Lord Xu, I am the head of the Jiang family. I have come to disturb you. I hope

Lord Xu will be magnanimous."

The Jiang family?

Xu Bai rubbed his chin. He did not seem to know this person, nor did he have any specific contact with him. However, since the other party had come to his door, he also gave Ye Zi a look.

Ye Zi put down her hand and obediently walked to the door and opened it.

After opening the door, a robust middle-aged man stood outside.

The man was wearing thick clothes, but the exposed parts were unusually sturdy.

He looked very ordinary and was almost muscular. Xu Bai could feel that the strength of his body was indeed quite impressive, but he still did not recognize him.

Xu Bai rubbed his chin and placed his hand on the table. He said with interest, "Who are you? Why are you looking for me?"

Master Jiang cupped his fists and said, "A few days ago, my son offended Lord Xu. He was blind. I came here to apologize to Lord Xu."

Xu Bai only remembered what had happened when he heard the other party's words. It turned out to be the young man from that morning.

To be honest, he had almost forgotten about that person over the past few days. After all, he was very busy these days. It was not a big deal for him to forget one or two insignificant people.

"So it's Patriarch Jiang. I didn't expect you to be so polite and even come to apologize." Xu Bai said with a smile.

As the saying went, one should not hit a smiling person. Since the other party was so polite, Xu Bai was a person who would not be forced to do so. Of course, he would not throw a tantrum.

The Jiang family head didn't expect Xu Bai to be so easy to talk to.

After all, most of the rumors about Xu Bai were negative. For example, he was ruthless and temperamental.

However, the young man in front of her was acting in a friendly manner, which was the complete opposite of the legends in the martial world.

Not only that, but from his perspective, the young man in front of him, whether it was his temperament or bearing, was the best choice. He gave off a feeling.

The light is gentle like jade, but the light is sharp like a knife.

Looking at the young man in front of him, who was about the same age as his son, the Jiang family's head could not help but think of his son. In comparison, he felt that his son... Tsk tsk..

Chapter 452: Big Upgrade of Stellar Transposition

"Men! Bring those two over!" Master Jiang turned around and shouted at the door.

Outside the door, a few servants walked in and detained two men who were tied up.

The two men were dressed in rags and were covered in various wounds. It was obvious that they had been tortured before they came.

"What do these two people mean?" Xu Bai narrowed his eyes.

Master Jiang pointed at the two men and explained, "Lord Xu's journey will be filled with difficulties and dangers. I am the head of the Jiang Clan in the Fenghua Prefecture, and I know the Fenghua Prefecture like the back of my hand. These two people are the ones who are preparing to assassinate Lord xu."

"Unfortunately, their strength is low and their status doesn't seem to be high. I reckon they don't know much."

"Before I captured them, I tortured them, but these two guys are still quite tough."

“So I specially brought them here to see if Lord Xu has any way to find out their clues.”

When the two men, who were covered in injuries, appeared, they immediately saw Xu Bai and started trembling.

However, they remained silent. Clearly, they did not want to say anything.

Xu Bai took the tea that Ye Zi handed over and took a sip before putting down the teacup. He sized up the two men with interest and stood up from his seat.

How many people who wanted to assassinate him, this was beyond his expectations.

He didn't expect that he would receive such a huge gift not long after he arrived. Although it still needed to be verified whether this gift was real or not, if he wanted to know whether it was real or not, he only needed to give it a try.

“In that case, I'll begin to give it a try.” “Master Jiang, if you leave now, you don't have to get involved in this matter.” Xu Bai extended his left hand.

This is a system prompt.

If they left now and Xu Bai accepted the gift, the conflict between them would be written off.

If he didn't leave, he would be involved in this matter, and that would be dangerous.

Of course, there were also benefits. After Xu Bai entered the capital, the Emperor would definitely reward these people. There was no doubt about it.

“Although I am a martial artist, I have always been a righteous person. Of course, I am willing to stay here.” Patriarch Jiang said righteously.

Morality my ass!

These family heads were able to create a Sacred Central Crypt in a state that was bigger than a residence. Which one of them wasn't a spirit?

Obviously, this Jiang family's head wanted to make a big deal out of it, which was to stand in Xu Bai's team.

However, many times, some words could be seen through, but they could not be said. If they were said, everyone would feel awkward.

"Aiya, I didn't expect to meet such an honest person. I really admire your righteousness. It's a pity that you don't want to be a scholar. "Xu Bai clung onto Master Jiang's shoulder, looking very grateful.

Patriarch Jiang was speechless.

Although everyone was just making small talk, why did he feel that Xu Bai was exaggerating? Sigh, whatever. Anyway, staying here was a must.

Xu Bai let go of his hand and looked at the two men who were covered in injuries. He smiled and said, "Not going to say anything?"

The two of them looked at each other and did not say anything. It was obvious that they did not plan to say anything.

"Then..." Xu Bai was about to speak.

Unexpectedly, before he could say anything, he was interrupted by them.

"Bloody Butcher, don't waste your time. We know how you torture people. We have long used special methods to cut off our sense of pain." One of them said disdainfully.

The veins on Xu Bai's forehead were throbbing."

He pulled out the Black Saber Hundred Break from his waist and flicked his finger. The blade of the Black Saber began to vibrate gently. Then, a special melody echoed in the room.

The two men, whose faces were full of disdain, were suddenly stunned. Their eyes became dull as if they had entered a special state.

"Now, tell me everything you know." Xu Bai said indifferently.

When Patriarch Jiang saw this scene, he was completely stunned.

He was also very knowledgeable. Although he was only a martial artist, he could tell that this was a divine soul cultivation technique.

Hiss...

Master Jiang sucked in a breath of cold air. It was indeed as the rumors said. Lord Xu had cultivated many things. He had cultivated all three types of energy.

It was too f * cking terrifying!

If he could reach such a realm by cultivating multiple times, if he cultivated alone, he would probably have long left them behind.

Of course, now was not the time for him to be surprised. He also wanted to know who was the one who plotted against Xu Bai.

The two men, who were covered in injuries, looked dazed. When Xu Bai asked this question, they raised their heads and stared at Xu Bai with dull eyes.

“Tell me, why not?” Xu Bai continued to ask.

The two injured men were still staring at Xu Bai without saying anything.

Xu Bai frowned.

He kept feeling that something was wrong. Just now, he was sure that he had already controlled the other party’s divine soul, but the other party did not say a word.

“Young Master, is there a possibility that they don’t know anything?” Ye Zi asked quietly.

Xu Bai shook his head and said, “Even if I don’t know anything, I can still say a few words. It won’t be like this.”

The crowd fell silent. In fact, Xu Bai was stronger in terms of soul power.

But even if he didn’t know what was going on, the people present were even more at a loss.

Xu Bai thought carefully and tried to remove the control of his soul..

Chapter 453 - Star Transposition Upgrade

In the blink of an eye, the two men, who were covered in wounds, returned to normal. They looked at each other, their faces filled with fear.

Although they didn’t know what had just happened, they still felt a sense of trepidation.

“There’s no problem with the soul.” “You two don’t know anything, do you?” Xu Bai asked.”

The two men did not speak.

"It's a little prickly." Xu Bai said.

It was indeed a little tricky. The two guys had used a special method to cut off their pain, and torture was definitely not going to work.

For some reason, his divine soul could not be asked.

It was as if all of a sudden, all of the paths to the exit had been blocked.

But... It wasn't like there was no other way.

Xu Bai walked around the two of them and said, ""Let's try."

A paper crane flew out from his hand and landed on the two of them. However, it immediately turned into ashes after landing on them.

It was useless to search for traces.

Seeing this, Xu Bai frowned even more and thought, ""Looks like I can only wait for the fortune teller."

In this situation, other methods were useless. He could only try divination.

Doesn't he still have a divination technique? As long as he filled up the progress bar of the fortune-telling book, he might be able to calculate something useful.

Thinking of this, Xu Bai decided to let the Jiang family's head watch over these two people closely.

However, before he could say this, a voice suddenly sounded from around him.

“Crack! ”

The voice was very clear and came from the two men on the ground.

The next moment, the two men suddenly started to twist.

From Xu Bai’s angle, he saw something unusual. There seemed to be translucent threads appearing on the joints of the two men.

This translucent thread hung high up, but it had no end. It was only about half a meter long.

With the appearance of these threads, the two men stood up under the control of the threads, and their expressions became extremely strange.

A sentence came out of the two men’s mouths.

“Their divine souls are all with me. What you control is only a trace of a remnant soul. How can you ask?”

Xu Bai was stunned. Then, a cold light flashed in his eyes. “You’re the bravest person I’ve ever met.”

Judging from the current situation, these two men were being controlled. The voice that came out just now did not come from the consciousness of these two men. It came from the person behind them.

This was the most arrogant person he had ever met. He had dared to meet him face to face when he had just arrived in the Fenghua State, although it was not exactly face to face.

“Ha, courage depends on who you are facing.”

The man who was being controlled let out a gloomy voice.

"I never expected that your deterrence would actually be able to make a clan willing to be a lackey. Tsk tsk tsk..."

"Xu Bai, I'll give you a chance."

" Tomorrow night, come to the third floor of the Spring Rain Pavilion in

Fenghua State. It's the innermost room. I have something to tell you."

At this point, blood flowed out of the corners of the two men's eyes in front of Xu Bai.

The two men stood on the ground, lifeless. The threads connecting their joints had disappeared completely.

Everyone fell silent.

Master Jiang's expression turned extremely ugly. This was equivalent to slapping his face.

He had spent a lot of effort to find these two people. He originally wanted to use them to get closer to Xu Bai, but he did not expect that they would be used instead.

The other party was practically using his hand to contact Xu Bai.

This was very awkward.

He didn't succeed, but he embarrassed himself instead.

"Lord Xu, I..." Patriarch Jiang wanted to speak.

Before he could finish, Xu Bai raised his hand to stop him.

“Don’t mind it. I understand your painstaking efforts. Since things have gone beyond my expectations, I won’t blame you.” Xu Bai said.

“Thank you, Lord Xu, for your magnanimity.”

“Patriarch Jiang, things are a little complicated right now. I need to calm down by myself. I’ll visit you again another day to thank you for this great gift.” Xu Bai said calmly.”

When he said this, Master Jiang understood that Xu Bai was asking him to leave. It was indeed the case. After such a big incident, it was not good for him to stay here any longer.

“Lord Xu, then I’ll take my leave first. If there’s anything that requires my help, I’ll definitely go through a mountain of knives and a sea of fire without hesitation.” Patriarch Jiang cupped his hands.

After saying that, he left in a hurry with his servants. Before he left, he even took the two corpses on the ground with him.

After they left, Ye Zi closed the door behind her and turned around. She looked at Xu Bai, who was frowning, and walked in front of him.

“It’s okay. Let me think about it.” Xu Bai said.

Ye Zi shook her head and gently squatted down. She placed her hand on Xu Bai’s knee and raised her head to look into Xu Bai’s eyes.

“Young Master, although I don’t know who the mastermind is, I might be able to guess what he’s doing after today’s situation.”

Ye Zi’s voice was very gentle.

Xu Bai was slightly stunned. He then remembered that Ye Zi was much more knowledgeable than him. Moreover, she had been specially trained by the Ye family in all kinds of knowledge.

Previously in Wind Chimes Manor, Ye Zi also saw many things clearly and helped Xu Bai quite a bit.

If he could find out what the other party was doing, he might be able to find some clues.

Ye Zi stood up and placed her hands on Xu Bai's shoulders.. She slowly moved closer to Xu Bai's ear...

Chapter 454 - Why a Heavy Sword (1)

In the quiet room, Ye Zi's voice rang out. It was gentle and slow.

When Ye Zi finished speaking, Xu Bai's eyes narrowed slightly.

"Soul controller?"

This was the first time he had heard of this profession. To be precise, it was the first time he had heard of many professions. After all, his knowledge reserve was still slightly shallow.

Being able to fight was one thing, but it did not mean that he knew a lot.

Xu Bai rubbed his chin and said, "There's actually such a cautious business in this world?"

Cautious?

No, this was just so that Ye Zi could understand. To be precise, this profession was especially underhanded.

The so-called soul control master was a profession that was mainly related to spiritual energy.

They could extract a person's soul, leaving only a portion in that person's body.

And the extracted soul was the method they used to control that person.

The soul that was extracted would become exactly the same as the person being extracted. They would use a special method to condense their energy into threads and use them to condense a soul that looked exactly the same as the person being extracted to control the person being extracted.

Anyone who was controlled could use their full strength through their control.

The reason why this profession was particularly underhanded was that they would never appear in front of the world. They would always appear in front of the people they controlled.

More importantly, there were special methods to avoid detection and tracking.

Soul controllers were a disgusting profession.

Most of the people who were controlled by them would never be able to escape.

It was precisely because of this that many people felt their own crisis and stayed away from this industry.

If the difference in strength was too great, the divine soul could be extracted directly. If the difference in strength was not too great, there was another condition.

The premise was that before they extracted the divine soul, they had to make the person they extracted fall into a state of chaos.

To put it bluntly, the person who was extracted had to be unconscious and not resist.

Even if he fell asleep, he had to be completely unconscious.

“Young Master, the world is full of wonders. This profession is also despicable because a long time ago, they used this method to control unrelated people.”“ They wanted to become an overlord through this method,” Ye Zi explained.” However, it was precisely because of this that it aroused the vigilance of many industries and was attacked by a group. ”“

“He really asked for it.” Xu Bai said.

Indeed, there was a way to control others and make the controlled person exert his full strength. The ability of this profession was like a sword hanging over the heads of other professions.

Most importantly, even if the difference in strength was relatively large, as long as the other party was unconscious and the prerequisite was met, the soul could be extracted.

There were many ways to make a person unconscious, but this was the most important.

If these guys were honest, others wouldn't be able to find a reason. However, once they took a wrong step, the reason would come out. After the reason came out, they would definitely not have a good ending.

“According to what you said, it's very difficult to detect their whereabouts. It seems that you've set up a trap for me this time.”Xu Bai pondered.

Putting aside what they were talking about, just this scene was like a banquet.

“Does Young Master want to go over?” Ye Zi frowned.

She had learned these things before, so of course, she knew the disgusting aspects of this profession. She also understood that there were many ways to implement those prerequisites.

When Ye Zi said this, the worry in her words was obvious.

Xu Bai nodded and said, "Of course I want to go and take a look. But I'm not stupid enough to run over alone. After all, the other party is obviously prepared.""

"Does Young Master have a countermeasure? Why don't I go in Young Master's place?" Ye Zi bit her lips and said.

Xu Bai touched Ye Zi's face and said with a smile, "It's not your turn to do these things for me. Don't worry, I have my ways."

When Ye Zi heard Xu Bai say that he had a way, she believed him unconditionally. Therefore, she was relieved after hearing this.

Xu Bai took out the second -grade fortune-telling book and didn't think about these things. He continued to focus on the progress bar.

Since the other party wanted him to attend this banquet, he naturally had to go. However, he already had a plan, so he did not think too much about it. He continued to seize the time. He had one more skill and one more method.

Ye Zi stood quietly by the side.

In the blink of an eye, a night passed slowly.

The next morning, Xu Bai woke up early as usual.

As usual, he went out for a meal with Ye Zi and did not stay on the street for long. He returned to his room and continued to check the progress bar in his hand.

Ye Zi was also very curious and didn't know what Xu Bai was thinking, but seeing Xu Bai's confident appearance, she didn't ask anymore and accompanied him with peace of mind.

Spring Rain Pavilion was only opened at night. After all, it was a romantic place and there was no one in broad daylight.

Although the mysterious person did not set a specific time yesterday and only said that he would go today, Spring Rain Pavilion would not open during the day, so he definitely would not go during the day.

Therefore, Xu Bai continued to read the progress bar during the day. He only put down the book in his hand at night.

"Is Young Master going?" Ye Zi sat at the side with her hands on her chin and her elbows on her knees. She looked up at Xu Bai..

Chapter 455 - Why a Heavy Sword (2)

"No." "It's going," Xu Bai said.

As he spoke, Xu Bai took out a stack of paper from the cabinet in the room and wrote a long paragraph on it with a pen. Only then did he hand it over to the puppet of the Fourth Stage.

"This... So, Young Master had sent the puppet over." Ye Zi's beautiful eyes were filled with surprise.

This really surprised her. She had thought that Xu Bai would go there personally because he had a plan, so he was confident. However, she never expected that he would go there as a puppet.

"I'm not a fool. Why would I go over myself?" If it was a head-on clash, I might have some ideas, but his ability is really too strange. It's better to be safe." Xu Bai said with a smile.

"But Young Master, what if you don't go over and they don't say anything?" Ye Zi came back to her senses."

"No," Xu Bai shook his head and said, "He called me over because he wanted to talk to me about something, or he wanted to assassinate me. There are only two possibilities. "

If they wanted to talk to me, my puppets could satisfy them. If they didn't want to talk, then they could only assassinate me. Since that was the case, it didn't matter whether they controlled the puppets or not."

This situation was nothing more than an assassination or a conversation. The puppet could talk on his behalf. Whatever he wanted to say or ask was written on that piece of paper. If the other party wanted to say something, they could also write it on the paper.

This seemed to be the safest method at the moment. It was safe and effective.

If the other party used the method of control to meet him, he would also control the puppet to meet him. Wasn't this the same?

Xu Bai stuffed a few more banknotes into the arms of the puppet of the Fourth Stage, then had the puppet cover his body, and directly left the house.

After the puppet of the Fourth Stage walked out of the door, it headed straight for Spring Rain Pavilion.

Due to the fact that it had covered its body, the puppet of the Fourth Stage looked more like a human at the moment. Even its face was covered tightly, revealing only a pair of eyes, which were covered by the hood on its head. If one didn't look carefully, they wouldn't notice that it was a puppet walking on the street.

Spring Rain Pavilion was not far from the inn.

The sky was already dark, and there were not many people on the streets. Most of the people who were busy during the day were at home doing entertainment activities. As the entertainment venue of the entire Fenghua State, Spring Rain Pavilion was bustling with people.

At the entrance, there were either wealthy merchants dressed in gorgeous clothes, young people dressed in bright clothes, or scholars waving folding umbrellas.

On the second and third floors, the gorgeously dressed girls were leaning against the railings. From time to time, their eyes would move, and they could seduce people's souls.

This place was full of extravagance and nature. Although it was in the hands of the Ninth Princess, it was one of the important sources of income for the Great Chu State. It was also an important capital channel formed by the Emperor through the hands of the Ninth Princess.

The puppet of the Fourth Stage walked out from the darkness, and with agile steps, it stepped into the darkness.

In the surroundings, quite a few guests and ladies looked over. When they saw that the Fourth Stage puppet's attire wasn't right, but there was a bone-chilling aura emanating from its body, they all turned their heads away, not looking over.

This person was not to be trifled with. Those who knew what was good for them would hide far away, but it did not hinder Spring Rain Pavilion from making money.

The brothel madame swayed her body and walked over with her charm. She said, "Master, do you have a good girl?"

She could be considered a discerning person. After all, she was in this place.

When he met those weak scholars or rich young masters, he would call them young masters. When he met these people, he would call them master.

Different titles could bring different effects. After all, everyone liked different titles. This was the detail.

In this aspect, Jiang Tong, who called the Bloody Slaughterer Swordsman, was not even comparable to a brothel madame.

The puppet of the Fourth Stage couldn't speak, but it didn't hinder Xu Bai's previous arrangements.

It reached into its chest pocket and took out a few banknotes, stuffing them into the brothel madame's arms. It then waved its hand impatiently.

Under Xu Bai's control, a very familiar movement was formed.

It was just like a regular who didn't need anyone to bring him around.

The brothel madame was also slightly stunned. She had been in this place for so long, but she had never seen such a strange person.

However, looking at the silver notes in her arms, she thought that perhaps this person knew someone, or perhaps he had specially come over to take a look.

No matter what, she had enough silver notes in her arms. This person was obviously impatient with her.

"Master, then you can take a look around first. If there's anything you need, just let me know. I'll walk around this floor." The brothel madame was also a discerning person. Most importantly, she had received a considerable sum of money. Just this amount of silver notes proved that the person in front of her was definitely not poor, and did not have the kind of behavior that ate a king's chi.

After a while, the brothel madame left, very decisively.

The puppet of the Fourth Stage was even more straightforward. It went straight to the stairs, slowly raised its feet, and walked up to the third floor, step by step.

After arriving at the agreed location on the third floor, the puppet of the

Fourth Stage found a room in the corner and gently knocked on the door.

Along with a creak, the door opened from the inside. A girl with heavy makeup, dressed in extremely smooth silk, raised her head and glanced at the puppet of the Fourth Stage.

“You are...”

She didn't manage to ask this question, and only managed to say two words before the puppet of the Fourth Stage raised its hand to interrupt her. There was a stack of papers in its hand, and the puppet of the Fourth Stage took out one of them and showed it to the girl. There was only a simple line of words on it.

“I'm here.”

The girl was stunned. After a long while, she silently turned her body to the side and let the puppet of the Fourth Stage enter the room..

Chapter 456 - Why a Heavy Sword (3)

The puppet of the fourth grade didn't hesitate either. It stepped into the room and sat down on a chair.

A crisp sound was heard as the woman in rags closed the door.

Immediately after, her shape became extremely strange. Dense threads appeared in the air at her joints, and they were hanging in the air. It looked very strange.

“Lord Xu, rumors in the martial world say that you are a boor. I didn't expect you to be so cautious. You didn't even come to see me sincerely. It seems that Lord Xu is worried that I will make you deal with you secretly.”

A voice that was neither male nor female, but also seemed to be male or female, echoed in the room. It was impossible to hear the specific tone and gender.

In terms of caution, soul controllers had their own methods.

The puppet of the Fourth Stage didn't reply. Instead, it took out another piece of paper, and the contents appeared on it.

"I can't say it, I can't see it, and I can't hear it. You'd better write down everything you know, including what you want to talk to me about today."

The woman was speechless.

What the hell was with this familiar sense of déjà vu?

Wasn't this a trick that he often used? How could the other party learn it so quickly?

He looked at the puppet of the Fourth Stage in front of him, placing the piece of paper in its hand on the table. Clearly, it wanted him to write on it.

The woman gritted her teeth. She knew that it was useless to say anything else at this time.

Under the pull of the translucent silk thread, she took out a pen from the table and wrote on the paper.

She wrote very quickly, and in just a few moments, she had already written two full pages. In the end, she stuffed them into the hands of the puppet of the Fourth Stage.

After she finished writing, the woman sat on the chair. The translucent threads on her body disappeared, and she didn't even look at them.

In her mind, the puppet could neither see nor hear her. There was no point in saying anything more. She could just write what she wanted on a piece of paper and let the puppet bring it back.

But he hadn't expected that the puppet of the Fourth Stage wouldn't leave. Why was it staying where it was?

The woman started to hesitate, occasionally looking at the puppet of the Fourth Stage.

This woman was only controlled by a soul controller.

The content that he had just written was also controlled by the soul controller through the thread, so he didn't know what to do now.

The puppet of the Fourth Stage was unable to speak, and it just stood there.

The woman did not speak.

Time passed by, but there was no sign of him leaving.

But this woman couldn't say much, and the person controlling her didn't control her anymore. She could only remain in a stalemate.

Time passed by, and in the blink of an eye, the entire night had passed.

As the day approached, there were fewer and fewer people in Spring Rain Pavilion. After all, the brothels were only open at night. Most of the doors were closed during the day. The girls needed to rest too.

Right at this moment, the puppet of the fourth grade suddenly lifted its leg and left Spring Rain Pavilion under the woman's astonished expression.

After leaving the Spring Rain Pavilion, the puppet of the Fourth Stage didn't stay any longer. It returned to the inn and handed the piece of paper to Xu Bai.

After doing all this, the fourth-grade puppet quietly stood guard by the side and did not move at all.

This was the weakness of the Mechanical Puppet Puppet Technique.

If they were far away, Xu Bai's control would be limited and he could only give some rigid orders.

He issued the order before, and the four products of the puppet also according to the order before, and the time before, and the spring rain pavilion closed before returning.

It was equivalent to giving an order. When to do something, it was very rigid.

As for why he had to take out the silver notes when he met the brothel madame, it was also an order given in advance.

If someone tried to stop the puppet of the Fourth Stage, it would take out the silver notes in its hands.

After all, in that kind of place, the only one who could stop the puppet of the Fourth Stage after entering would be the brothel madame.

Xu Bai estimated that he would have to increase the level of the skill to expand the range.

However, now was not the time to think about this. Xu Bai picked up the paper in front of him and scanned the contents with interest.

A moment later, Xu Bai had finished reading the first page, and the corners of his mouth curled up slightly.

The contents of the paper jumped into his mind...

[Lord Xu, I really didn't expect you to be so cautious. But this time, you're really wrong. I'm not trying to harm you.]

[Those two men who tried to assassinate you were indeed arranged by me. I was the one who tried to assassinate you, but I met you this time to help you.]

[Whether you believe it or not, soul controllers are nothing more than street rats in this world. I only hope that by helping you, we can walk on the bright road.]

[I've joined an alliance established by the people who are dealing with you. Their goal is to work with you from the inside and outside to help you successfully overcome this crisis.]

[The other party is very strong and I still don't know what his profession is. He said that he will destroy you and the entire Fenghua State.]

[I know that if I want to work with you, I have to have a good bargaining chip.]

The content was divided into two pages. This was one of the pages, but Xu Bai could see through many things.

First, it was divided into true and false.

Of course, there was no need to say anything more about the fake ones. The other party had played a mission impossible with him.

If he believed it, it would lead to a series of troubles.

As for if it was true, there was something worth pondering.

The other party's motive was to help him and then get the soul controller to get close to the royal family, so that he could wash away his previous stain. However, Xu Bai was more interested in the bargaining chip..

Chapter 457: Why Did I Get a Great

Thinking of this, Xu Bai rubbed his chin and flipped to the second page.

The contents of the second page appeared on the paper.

[My bargaining chip is actually very simple. First, I will tell you which forces are targeting you.]

[There is only one local family, the Tong family.]

[As for those outside the local area, there are many different factions here.

These factions are actually not a threat to Lord Xu.]

[Most importantly, our leader didn't even tell us what he did.]

[But he is extremely confident that he can completely destroy you, including the entire Fenghua State.]

' Another thing is that the leader seems to be waiting for an opportunity. If there are any changes in the Fenghua Province during this period of time, Lord

Xu must pay more attention.]

At this point, everything was over.

Xu Bai handed the paper in his hand to Ye Zi. ""See if you have any ideas?"

Ye Zi took it curiously. After scanning it from top to bottom, she placed the paper on the table. She frowned slightly as if she was thinking.

After about half an incense's time, Ye Zi finally spoke.

"Young Master, I don't know if what he said is true or false. We need to consider two things."

"If what she said is true, then she's helping us. If it's fake, then she's baiting us."

‘ No matter what, we need to investigate the Fenghua State family mentioned in the letter, as well as the leader and the recent changes that he said happened in Fenghua State.” “We need to consider these points.”

Ye Zi said logically.

Xu Bai praised,”Not bad, you thought the same as I did.””

Truth and falsehood required two considerations, but now there was an order placed in front of them.

He would first go and take a look at this so-called Tong family and verify how much of what they said was true and how much was false.

Ye Zi asked,” Young Master, should we investigate openly or secretly? If it’s an open investigation, the two of us are enough. If it’s a secret investigation, we need to monitor it at all times. I’m afraid the two of us aren’t enough. Should we ask the state magistrate to help?””

Xu Bai said,” In this situation, it’s not good to investigate openly. The state is different from the government. The state’s situation is even more complicated, so we need to investigate secretly. As for how to investigate secretly, I don’t need the state’s order’s help. I just need to find the Jiang family. ””

He didn’t want to look for the Prefecture Magistrate because he wasn’t sure if the Prefecture Magistrate was one of those pedantic scholars. It wouldn’t be good to look for him under such circumstances. Therefore, it was better to look for the Jiang family. After all, the Jiang family had already expressed their intentions and wanted to join.

Actually, there was something he didn’t say. Whether it was in the open or in the dark, it was fine. Since the other party dared to spread this information, it would be very easy for Xu Bai to find out. Therefore, whether it was in the open or in the dark, it was effective.

The reason why he wanted to come secretly was to give the Jiang family a chance. To be precise, he wanted the Emperor to reward more people.

It was not for anything else, but to make the emperor lose money.

From the beginning to the present, Xu Bai felt that he had made a lot of money. After all, there were so many nameless sword scriptures.

But up until now, Xu Bai felt that he had suffered a loss again, especially the last time when he had inexplicably entered the Bizarre Demon City. He felt that he had suffered a loss, so he was a little unhappy. He had to ask the emperor to spend money.

Moreover, he wasn't the one who rewarded him. Anyone who didn't use it

would be a fool.

"If we discover that this clan is colluding with those people..." Xu Bai reached out his hand and rubbed his neck. His meaning was simple.

"Let's go to the Jiang family now."

With a countermeasure, Xu Bai naturally had to take action.

Soon, he brought Ye Zi to the Jiang family's residence. After entering the house, the Jiang family's head welcomed him warmly.

"Lord Xu, why did you come all the way to look for me? Don't worry, as long as it's something I can do, I'll do it without hesitation." Patriarch Jiang patted his chest and promised loudly.

For such a burly person to make such an action, he looked extremely sincere and down-to-earth.

But in Xu Bai's eyes, these guys were as smart as monkeys, so he could only watch for fun.

At this moment, before Xu Bai could say anything, Master Jiang grabbed Jiang Tong and brought him to Xu Bai. "Sir, I have offended you previously. I will let him apologize to you now."

Jiang Tong didn't know whether to laugh or cry. He looked at the young man in front of him who was about his age and still listened to his father's words. He said respectfully, "Lord Xu, I shouldn't have called you by your title. I was wrong last time, please forgive me."

Xu Bai waved his hand. He had long forgotten about this matter. The most important thing now was to solve the matter in front of him. "Patriarch Jiang, how much do you know about the Tong family?"

Master Jiang was stunned for a moment before shaking his head. "We don't have any business dealings with each other. We only know that this Tong family is considered a big family here. They are in the business of secret escorts and specialize in special escort business."

Xu Bai smiled. "It's nothing serious. I just happened to get a piece of information. They are related to the people who assassinated me. If Master Jiang is free, why don't you help me keep an eye on them?"

When the Jiang family head heard this, he was slightly stunned. Then, he revealed a solemn expression. "Lord Xu, don't worry. If there's anything unusual about them, I'll tell you immediately." Xu Bai nodded..

Chapter 458: Why a Heavy Sword (5)

It had to be said that the Jiang family was indeed quite smart. As long as you said a word, they would agree readily.

"Since that's the case, then I'll take my leave. I'll have to trouble Patriarch Jiang for this matter."

Xu Bai had other things to do now. The most important thing was to check the progress bar. He did not want to waste any more time after explaining the matter clearly.

He thought that he could leave smoothly, but before he could stand up, the Jiang family's head reached out and stopped him.

"Lord Xu, please wait a moment. I have another presumptuous request that I hope Lord Xu can agree to."
"Patriarch Jiang said.

Xu Bai stopped in his tracks and turned to look at Master Jiang with interest, indicating that he could say it at any time.

"It's like this, Lord Xu. I'm a martial artist. I can feel that the aura on Lord Xu's body is different. Lord Xu, have you comprehended a special saber

Master Jiang was hesitant when he said this. After all, it was not good to ask about such things, but his heart was burning with passion.

Xu Bai narrowed his eyes and said," That's true. Master Jiang, you really have good eyesight. I wonder what you mean?"

Master Jiang gritted his teeth and said," I'm now in the Third Stage Realm, but

I haven't comprehended sword intent for a long time. If I can take a look at

Lord Xu's saber intent, I might be able to comprehend it by analogy. Therefore, I would like to ask Lord Xu to help me. ""

As he spoke, the Jiang family's head took out a book and handed it to Xu Bai.

"I know that Lord Xu is a businessman, a businessman, and he wants to talk about business, so this is a deal. This book is the sword art of my Jiang family."

“Although it doesn’t have a set of mental cultivation techniques, it’s still a second-grade book. As for the mental cultivation techniques, it’s not that I’m unwilling to give them to you, but my mental cultivation techniques aren’t a set.”

“If Lord Xu is willing, this book is yours.”

As he spoke, the Jiang family’s head revealed a pained expression. Clearly, giving this thing was a huge price for him.

However, he had no choice. In this world, strength was always respected. Even if he clung to Xu Bai’s thigh, the future would still depend on his own strength.

If he could comprehend the sword essence, his strength would definitely have a qualitative leap. It would be a very good protection for his family.

“What did you say? Swordsmanship?” Xu Bai had been listening attentively, but when he heard the word ‘swordsmanship’, his eyes lit up with excitement.

It was not just because of the progress bar, but because it was a sword technique.

To be honest, which man didn’t have a Wuxia dream or a Xianxia dream? The most outstanding weapon in Wuxia and Xianxia was the sword.

To Xu Bai, he preferred sword techniques, but he was helpless because he had been using saber techniques along the way. Even Gu Yuefei’s sword technique had merged into Wind Snow Return in the end.

Swordsmanship! That was a sword technique!

When Xu Bai was young, he was known to be someone who could kill anything within a mile with a wooden stick.

Xu Bai took the book and looked at the blurry words on it. He flipped through two pages and suddenly asked in confusion, ""Then why is Patriarch Jiang so burly?"

Shouldn't a person who practiced the sword have an immortal aura floating around him? Why did his body become so burly?

"This is the technique of the heavy sword," said the Jiang family head very straightforwardly."

Xu Bai was speechless.

Why did he suddenly not want it?

Give me back my long sword, I don't want a heavy sword!

He used a heavy sword, and he felt like he was a certain one-armed hero.

Master Jiang did not know what Xu Bai was thinking, so he even showed off his muscles."This is a real man's sword technique. With one sword strike, he will directly smash the other party into meat paste."

The corner of Xu Bai's mouth twitched as he thought to himself, ""That's the f * cking Disorder Splitting Wind Hammer Technique!"

A sword strike and the opponent was smashed into meat paste. It really did not match the agility and elegance of the sword technique.

However, even though he was complaining in his heart, Xu Bai still agreed in the end. No matter what, it was still a progress bar.

Xu Bai immediately drew his black saber, Hundred Rend.

In the next moment, the black blade, Hundred Rend, shattered into countless pieces. Each piece carried a terrifying saber intent.

When the saber intent was unleashed, the entire place fell silent.

The Jiang family's head sensed it seriously, while Jiang Tong took two steps back. His face turned pale as he felt a terrifying pressure.

This man was about the same age as him, but he felt like a small ant in front of him.

"Fortunately, I didn't offend him at that time." Jiang Tong thought.

After a few breaths, the Jiang family's head nodded and asked Xu Bai to put away the black blade, Hundred Rend.

"Thank you, Lord Xu. I'm already close to the edge." Patriarch Jiang cupped his fists.

The two of them had nothing else to talk about.

After asking the Jiang family's head to monitor him carefully, Xu Bai and Ye Zi returned to the inn from the Jiang family.

"Don't go around for the next few days. Let the people in the inn prepare food. I'll stay here for a few days until there's news from the Jiang family." Xu Bai ordered.

Ye Zi nodded and agreed.

Xu Bai, on the other hand, was still hugging his book and continuing to work hard.

Time passed day by day. He did not receive a reply from the Jiang family. Instead, he waited for the progress bar to be completed. The progress bar of the second-grade divination book in front of him had already reached the last trace.

Seeing the progress bar in front of him reach perfection, Xu Bai waited for the light blue smoke to appear..

Chapter 459: Computational Classic of Humanity (1)

Looking at the last progress bar in front of him, Xu Bai rubbed his hands excitedly.

He had always wanted this second-grade fortune- telling book. When Kong Xu used it previously, it could even predict good or bad luck. This thing was simply a must-have item for traveling in the martial world.

As the light blue smoke appeared, it slowly gathered in front of Xu Bai and turned into a line of words.

[You study the computational classics and comprehend the human algorithm.]

After the light blue text appeared, it quickly disappeared. Then, it turned into a message and entered Xu Bai's mind. There were no signs of fusion or anything else. In Xu Bai's eyes, the latest interface appeared.

[Name: Xu Bai]

Realm: Third-stage unspecialized."

"Five Sword Moves (Level 7): Maximum level.]

[Reversing Purple Cloud Squall Yin Yang Song (Level 7-5):[Maximum level.]

[Wind Snow Return (Level 5): Maximum level.] [Breaking through rank four (level 6): Maximum level.] [Transposition (Level 8): Maximum level.] [Diamond Heart Devil Body (Level 4), max level.] [Kidney Harvester (Level 5): Maximum level.] [Hundred Poison True Clear Rank 3]: Full Rank.] [Clever Puppet Technique (Level 6): Maximum level.] [Indestructible Body (Incomplete)(Level 6): [Maximum level.] [Water Aptitude Technique (Level 5): Maximum level.] [Computational Canon of Man (Level 8): Maximum level.]

‘ Comprehension: Maximum level.”

As expected, this fortune-telling book was indeed a second-grade book. Kong Xu wasn't lying and really offered such a huge price to exchange with him.

Xu Bai closed his eyes and carefully recalled the information in his mind. It took him a few breaths to absorb all the information before he opened his eyes again.

He had already mastered all the techniques, and he had reached the level of mastery of the Sutra of Human Numerancy. He also had a very detailed understanding of the profession of diviner.

There were many branches of diviners in this major industry, and the branches were evaluated according to their abilities.

There were those who were traditional and used the “Day Dry for Me” to check the five elements between the eight characters, and Xing Chong's meeting was the most important.

There was a blind faction that did not talk about prosperity or decline, nor did they talk about using gods. fortune-telling was simple, fast, and accurate. It was never spread to non-blind people, so it was very mysterious.

There was a new school of thought that focused on the use of God as the main line of the method of life and support and suppression, adjustment, clearing, the balance of prosperity and decline to the extreme.

Some Nanyin Sect used the five elements of Nanyin combined with the restraint of the Gan and Zhi to deduce good or bad luck.

There are pattern faction to use the moon as a god, set the pattern, discuss success or failure.

There is a balance between exuberance and decline, namely, peck, discharge and consumption.

There was the theory of divinity in addition to the five elements.

There were a lot of them, and they were extremely complicated. Each faction had many small branches. In short, this was an extremely complicated profession.

This was a traditional calculation, and it wasn't complete.

In fact, many fortune-telling books were incomplete. After all, they were too complicated. Most of them focused on those types.

Computational Canon of Humanity was mainly used to predict good or bad luck and trace traces.

Previously, when Kong Xu was being robbed and killed, he had used this method to chase after traces.

Xu Bai rubbed his chin and thought to himself, 'The Tong family can be my guinea pig to experiment with the latest skills.'

Now, this fortune-telling book could be considered to have satisfied his daily needs. However, Xu Bai did not relax. Instead, he prepared to take out the heavy sword technique given by the Jiang family's head.

Although this heavy sword technique was not to his liking, it was still a second-grade book. If he finished it as soon as possible, it would be of great help to his strength. After all, this was an attack technique.

As for the remaining 15 of the Nameless Book of the Saber, he could only put them aside for now.

"It's not that I like the new and dislike the old, but this book is indeed too fragrant." Xu Bai thought to himself.

Just as he was about to ask Ye Zi to take out the book, he did not expect someone to knock on the door.

"Who is it?" Xu Bai raised his hand and told Ye Zi not to take it out for the time being.

A respectful voice sounded from outside the door.

The little guy named Shi Wei, the head of the family, told Lord Xu that he had found clues and was sending people to the Tong family. He asked Lord Xu to hurry over, otherwise he would miss the opportunity."

Found a clue?

This surprise really came in waves. First, it was the progress bar, and now, it gave him a wave of clues. Wasn't this just giving him a pillow when he was sleepy?

Thinking of this, Xu Bai asked for the location of the Tong Clan, then let the people outside go first. He also had the puppet of the Fourth Stage carry the bag before leaving with Ye Zi.

At this moment, the sky had already darkened. There were fewer pedestrians outside, and the smell of rice filled the air.

The dinner in Great Chu was especially early. After all, other than some special occupations, the people here didn't use 996. Therefore, they had nothing to do, so they ate early.

It was convenient to have fewer people. Xu Bai did not have to be restrained when doing things.

According to the address provided by the person outside the door, Xu Bai quickly found his destination.

Not far ahead was a luxurious residence. At this moment, there was a large group of people gathered outside the residence.

Before Xu Bai could get closer, a few burly men appeared in the darkness and quietly stopped Xu Bai.

“Lord Xu, we are the scouts of the Jiang family. We have been investigating this place under the orders of the family head.” The especially burly man said

respectfully.

Xu Bai grinned..

Chapter 460: Human Aristocrat Sutra (2)

Just by looking at this body size, he was definitely a member of the Jiang family. After all, only those who played with heavy swords could play with such a body size. If their body size was not a little big, they would not be able to play with heavy swords smoothly.

“Tell me, where are the abnormalities?”

“Yes, sir!” The burly man cupped his fists and said, “We didn’t find anything else, but just yesterday, the Tong family members were hurriedly packing their things as if they were going to escape. Then, we remembered the instructions of the family head and guessed that the other party might have known something and planned to escape.” Escape?

Xu Bai thought to himself.

This was a little out of his expectations. He did not expect this so-called Tong family to actually have such a low tolerance.

In fact, he had never considered that if it were anyone else, they would not be able to withstand the Bloody Slaughterer Swordsman. After all, in the eyes of others, he was someone who would even kick a stray dog on the roadside.

Do we have to do this?" The muscular man stretched out his hand and made a gesture on his neck, meaning that he could silence them all.

Now was the time to curry favor with Xu Bai. He had long heard that Xu Bai was ruthless, and he happened to have accepted this mission, so he had to think of a way to appear ruthless.

Unexpectedly, Xu Bai rejected him directly.

"No need. You all can go back. I'll be fine alone." Xu Bai said.

The brawny man was stunned. He didn't expect Xu Bai to be so unpredictable. However, he didn't know what to say and could only leave with cupped fists.

After these people left, Xu Bai narrowed his eyes and looked at the group of people who were gathering not far away.

"Young Master, are you planning to follow us?" Ye Zi asked."

Xu Bai nodded and said,"That's right. Since the other party wants to escape, they must have a destination. We'll just stay behind.""

Ye Zi pursed her lips and stopped talking. She stood quietly at the side.

More and more people gathered in front of the mansion. When there were more than ten people gathered, a middle-aged man dressed in silk walked out.

"Greetings, Patriarch!"

When the Tong Family Head walked out, the surrounding people greeted him in unison. Although their voices were very soft, when they gathered together, they could hear it clearly.

“Shut up. We’re not doing anything aboveboard.” “Have you packed everything?” Master Tong asked sternly. Pack up and leave.”

Everyone nodded and did not dare to say anything.

When Master Tong saw that everyone had packed up, he waved his sleeves and walked in front. The others followed behind him. They took advantage of the darkness and slowly disappeared at the end.

Xu Bai and Ye Zi looked at each other, then quietly followed behind them with their puppets of the Fourth Stage.

It had to be said that soul-type cultivation techniques were indeed very good. When following someone, they could also avoid being exposed as much as possible. This was just like how if a person could investigate, he would definitely be able to counter-investigate.

The two of them followed from afar, all the way out of Fenghua State, until they reached a desolate area.

His son was among this group of subordinates.

Not everyone in the Tong family wanted to assassinate Xu Bai. Only these people knew the inside story, and they were all higher-ups of the Tong family.

After all, the Tong Family Head was also clear that it was safer for a small number of people to know about these things. Even if the majority of the people knew about it, it would not be of much use.

“Father, why don’t you hurry up and leave?” Young Master Tong’s face was full of doubt, not understanding what his father wanted to do.

The other higher-ups of the Tong Clan had the same expression. They were prepared to travel through mountains and rivers tonight, but they did not expect to stop halfway.

“Yes, this place has beautiful mountains and rivers. It can be considered as a good burial place for you. Patriarch Tong’s tone was calm.

When these words left his mouth, everyone present was stunned. However, very quickly, they reacted and revealed a shocked expression.

No one spoke nonsense. All of them turned around and prepared to leave.

But the next moment, before they could take two steps, they all clutched their chests and fell to the ground.

These people, including Master Tong’s son, had already died.

“I went through so much trouble to obtain this poison, but I didn’t expect it to be used in the hands of my own people. Sigh, you can’t blame Father, child.” Master Tong sighed and said, “I’ve interacted with the Fengling Manor’s manor, so I know their plan. Xu Bai must have gone to the Bizarre Demon City if he disappeared. If even the Bizarre Demon City was able to come out alive, we’re definitely no match for him.”

” To be able to escape from Bizarre Demon City, such a person is definitely not an ordinary person. His background is unimaginable.”

“Moreover, the leader doesn’t want us to live. He wants us all to die with him.

Why would I be willing to risk my life for such a leader?”

“I’ve thought about it. If I run with you guys, the target will be too big. If I run alone, the target will be smaller.”

“Father has let you down, but as long as Father is alive, he can continue to carry on the Tong family line.”

As he said that, although the Tong Family Head spoke in a very miserable manner, his face still had an indifferent expression.

He took out a bottle of medicine and sprinkled it on the corpses in front of him. After a moment, the corpses and their clothes turned into blood and melted into the ground under his feet.

After doing all this, Master Tong kept the medicine and prepared to leave.

Xu Bai narrowed his eyes.”

Originally, he had planned to follow behind to see where the other party’s nest was. However, he never expected that the Tong family’s head actually wanted to slip away..
