

Unparalleled 471

Chapter 471: The Candle in the Tomb (3)

Under the circulation of his True Core Strength, the Computational Canon of Feng Shui appeared on his body. Waves of Feng Shui power rose and fell, surging out like waves.

In front of him, this small hill no longer looked ordinary. Instead, it looked like a good geomancy pattern.

“Not bad, it’s indeed a good place to be buried.” Xu Bai said slowly.

Ye Zi didn’t understand this. She crossed her hands and placed them on her lower abdomen as she stood behind Xu Bai.

The puppet of the Fourth Stage carried an enormous bundle on its back, and just like that, it stood guard by the side.

This was a very strange combination, but there was also a wonderful fusion.

“Let’s go and take a look.” Xu Bai strode toward the mountain.

Deep in the mountains.

At this moment, the large group of people was still waiting at the same spot.

The leader had his hands behind his back, and the dirt on his fingernails was extremely eye-catching.

In the middle of this group of people, there was an inconspicuous man surrounded by everyone.

This man looked ordinary and there was nothing unusual about him. However, at this moment, he was surrounded by these people and seemed to be alone. However, this man did not show any panic on his face. If one looked carefully, there were transparent threads on his limbs.

“It seems that I was blind.” “ You’re not a soul controller at all,” the leader said calmly.” You’re an embalmer. I really don’t understand. Why would you betray

“At this point, I’ve done what I should have done.”The man’s tone was calm.

The leader chuckled.

“Hehe, it’s said that an embalmer is more advanced than a soul controller. They can control both the living and the dead. I really want to know, since you plan to join our group, why did you do such a thing?”

“Could it be that you are not satisfied with the current situation and want to rely on the emperor?”

When the man heard this, his tone was disdainful.” Don’t compare me to trash like a soul controller. An embalmer is recognized by Great Chu. Why should I take this risk?”“

“Then why?” The leader asked doubtfully.

“Why do you care?” The man did not say much.

The leader was furious when he heard this.

I’m talking to you nicely, but your tone is so rude. Do I have to give you face?

“Kill him!” The leader waved his hand.

In the next moment, the people around him attacked in unison. All kinds of attacks bombarded him. The man did not resist at all and turned into a pile of flesh and blood in the blink of an eye.

However, the leader was not happy because only he knew that the profession of an embalmer was more advanced than that of a soul controller.

He was even more cautious. The so-called man in front of him was just a corpse, a corpse mixed with his soul.

It could control both the living and the dead.

There were so many unfairness in this world. Similarly, they all dealt with the dead. They did these things that ordinary people thought were especially low-level, but the embalmer actually made Great Chu acknowledge his existence.

“Sir, it seems that our target has been exposed. Should we hide for a while? Otherwise, Xu Bai would probably take care of him. “One of his subordinates put away his weapon and asked in a low voice.

The leader shook his head and said, “No need.”

The subordinate was stunned and did not understand what he meant.

In his opinion, since he had already been exposed, he definitely had to avoid it.

After all, Xu Bails strength had been too strong. He had been pushing his way through. If he didn’t dodge, he would most likely suffer a major blow. At the thought of this, the subordinate suddenly felt a chill.

He seemed to have guessed something.

If they did not plan to escape, they would have to fight to the death here. However, according to the temper of the leader, it was absolutely impossible for him to do so. Could it be that they would become sacrifices?

Just as he thought about this, the subordinate realized that the leader was looking at him with a sinister smile.

Before he could think about it, the soil under his feet shook slightly. In the next moment, he felt a sharp pain in his legs. When he looked down, he realized that the soil was spreading to both sides and wrapping around his feet. The pain just now was in the soil.

"This is the first stage of the Great Tomb. Tsk, tsk, tsk, how extravagant. He actually made these highly toxic items in the first stage. "The leader laughed.

There was no change in the position where the leader was standing. However, the same problem appeared in the positions occupied by the people in front of the leader. Miserable cries began to spread everywhere.

"Great Tomb, you are the gravedigger!" The subordinate finally reacted and pointed at the leader in anger.

"This tomb will use you as sacrifices."the leader said.

The soil under their feet contained a poisonous substance, and it melted very quickly. In the blink of an eye, these people all turned into blood and fused into the soil.

The soil turned from khaki to blood-red, mixed with flesh and blood. A bloody smell assaulted their faces, making them feel nauseous.

A moment later, everything returned to normal. Other than the color of the soil, the place looked so quiet that one could hear a pin drop.

The leader did not hesitate. He took out a cloth bag from behind him. After opening the cloth bag, he saw a shovel that was half the height of a person.

“Although I was tricked by him, the final result is still the same.”the leader said.

Gravediggers could use tools or their hands. The leader was in this line of work. The dirt on his nails was left behind when he used his hands to dig. In the long run, there was no way to repair it..

Chapter 472: The Candle in the Tomb (4)

But today was different. He needed to use tools for the soil. He wanted to live for another two years.

A faint black light enveloped the shovel. Under the moonlight, it looked unusually cold.

The leader moved very quickly. The speed of the shovel was so fast that it left afterimages. The soil was dug up by him, and slowly, his body was gradually sinking.

In less than a moment, the leader had already disappeared from the land.

Not long after the leader disappeared, a man in ordinary clothes appeared. This man’s body was connected with transparent silk threads. After looking back and forth, he walked down the hole in front of him.

When the leader walked down, he had already erased the footprints around him. However, this man deliberately left a series of footprints and disappeared into the cave.

Xu Bai was rushing toward this place. As he was walking, he suddenly felt the ground tremble slightly and frowned.

“Young Master, something seems to have happened.” Ye Zi turned her head and said.

Xu Bai nodded,“Speed up.””

They moved even faster, passing through the layers of trees and soon arrived at an open space.

There seemed to be nothing unusual about this open space, but the blood-colored soil on the open space was shocking.

Not far away, there was a huge hole.

The hole was slanted downwards, and there were footprints left inside. Clearly, someone had walked in.

Xu Bai performed the Arithmetic Sutra of Feng Shui. In his eyes, the Feng Shui power here was especially strong. However, looking at the hole in front of him, he was thinking of a safe way.

Suddenly, Xu Bai laughed.

In this dark night, his smile was slightly sinister. "Young Master, your smile makes me nervous." Ye Zi's face was full of doubt. "I just thought of an excellent technique," Xu Bai said.

"Young Master, what technique did you think of?" Ye Zi asked doubtfully.

A large amount of True Core Strength surged into it. Next, with the help of the Yin Yang Feng Shui Diagram, an incomparably huge Feng Shui array was formed around it. Moreover, the Yin Yang Feng Shui Diagram was at the center.

He had tried it before. The Feng Shui array could not change his own fate. He was a fog, but he could use it on his enemies. This also happened to be flexible.

The so-called flexibility meant that it could be used not only against enemies but also against their own people.

Since there was a huge tomb in front of him, there must be all kinds of traps. There was no doubt about it.

After all, a coffin with a mechanism was standard at all times, but the strength of the mechanism was different.

He had the Mechanical Puppet Technique and the ability to set up traps, but the quality of this skill was a little low. It was very likely that he could not completely prevent the danger below.

It didn't matter if the quality was low, there were higher quality ones.

Feng Shui Arithmetic Sutra was different. It was a first-grade skill.

Xu Bai could not change himself, but he could change Ye Zi's fate and make her luck better. Wouldn't that be much safer?

Luck and fate were very mysterious. If one was unlucky, they could even fall flat and make a big hole. If they were lucky, they could even pick up money in the toilet.

Of course, this was not complete. There were many things that affected fate.

Xu Bai's current Feng Shui ability was at the first grade, so the impact was very small below the first grade. If the layout of the tomb in front of him exceeded the range of the first grade, the impact would be huge.

"Let's go and try. Let's follow this footprint first." "If there's only one path, follow the footprints. If there's a fork in the road, we'll see what's going on."

As he spoke, he led the way and walked down the cave.

Leaf nodded and followed behind, looking around vigilantly.

The puppet of the Fourth Stage followed at the back, acting as a guard.

When Xu Bai stepped in, he felt a cold wind blowing from inside, bringing with it a damp smell.

This was the first time he had seen humans here. Of course, it was very humid. Even the soil under his feet felt like it was deeply immersed.

Fortunately, they were not ordinary people. Even in the darkness, they could see clearly.

He followed the footprint and walked down. The surroundings were abnormally quiet and nothing unusual happened. Under the Feng Shui array, everything was developing in a good direction.

However, this good situation did not last long. After walking for less than an incense stick's time, something unusual appeared in front of them.

"Ka! Crack! Ka!"

The sound of bones rubbing against each other could be heard. In this dark environment, it was extremely terrifying.

Xu Bai stopped and put his hand on the hilt of his sword. He looked at the darkness in front of him and narrowed his eyes.

There was a situation!

In front of him, a figure was constantly flashing. It was extremely agile, and the sound of fighting could be heard.

The sounds of fighting were very chaotic, but they were clear to the ears.

A moment later, the sounds of fighting gradually stopped. A figure fell out of the darkness, flipped a few times, and landed on the ground, just in front of Xu Bai.

Xu Bai looked at the transparent threads on the person's body and knew the identity of the person.

"Lord Xu, it's great that you've arrived so quickly."

After this person appeared, he only said one sentence before he tilted his neck and took the lunch box.

Xu Bai was speechless.

This was the fastest person Xu Bai had ever seen to receive a lunch box. He only said one sentence and it was gone..

Chapter 473: The Candle in the Tomb (5)

Of course, he did not believe that this person would die just like that. After all, it was a particularly cautious profession. The one in front of him must have been manipulated by that person again.

Xu Bai turned his gaze and stared at the darkness in front of him. In the darkness, a few strange figures suddenly flashed over. At this time, Xu Bai finally saw what they were.

The thing that appeared was dressed in tattered clothes. It was impossible to see what shape it was, so it could only serve as a cover.

It had no skin, and its entire body was covered in disgusting red muscles that were still squirming.

"Strange?" Xu Bai rubbed his chin.

It had been a long time since he had seen the strangeness. Now that he saw it again, he felt quite familiar.

The three monsters did not have any consciousness. They only knew how to kill. When they saw Xu Bai, they pounced on him. Obviously, they did not have intelligence and did not want to talk to Xu Bai.

"Quite strong." Xu Bai lightly commented and pulled out the black knife at his waist.

In the next moment, the black blade, Hundred Rend, exploded and turned into starlight that filled the sky, directly piercing through the three strange corpses in front of him.

From the moment the three monsters appeared to their deaths, it only took less than a breath's time.

"He is indeed quite strong." Xu Bai felt that it was not enough, so he added.

These three strange corpses had the strength of the Fourth Stage, and they were just appetizers.

He was looking forward to what he would encounter next.

When Ye Zi saw this scene, she was already used to it, but she still reminded him, "Young Master, you still have to be careful. That gravedigger is probably not dead. Otherwise, such a long passage would not have appeared." "Yes, I know." Xu Bai nodded and continued walking inside.

At first, they encountered a few strange things, but they didn't encounter anything else.

The two of them walked for a while before the front finally opened up. They appeared in a huge cube-shaped space.

This place was no longer wet soil. The ground was paved with square bricks, the walls were also made of square bricks, and even the top of the head was made of square bricks.

It was squarish like a box. All in all, it gave people an extremely bad feeling.

Below them were two rows of coffins. There were about twenty of them.

Each coffin was made of bronze and looked rather grand. Even the lid of the coffin was engraved with complicated patterns.

Xu Bai glanced at it and said professionally, ""This isn't an important tomb.

There are other tombs."

According to the power of Feng Shui, this place was not the strongest.

In the square space, on the coffin in the corner, there was a candle burning.

"The gravedigger has already left, but there doesn't seem to be any extra space here. He probably covered this place up." Xu Bai looked around and did not see the exit.

The Mechanical Puppet Technique, which was equivalent to a fourth-grade skill, did not find anything unusual. Either there was no exit here, or the level was higher than his skill.

Xu Bai was unable to analyze which one it was for the time being. Along the way, he did not see a fork in the road, so the gravedigger must have left quietly and even covered up the traces of the exit.

"Young Master, I heard that gravediggers have a very common rule. When they dig a grave, they will place a candle in the grave."" When you search the corpse, if the light from the candle changes color, you need to return what you touched and leave carefully," Ye Zi explained."

"You mean he opened the coffin?" Xu Bai pondered."

Since the candle was lit, it meant that he wanted to search the corpse. To search the corpse, he had to open the coffin.

Xu Bai suddenly thought of something.

Perhaps there was an exit in these coffins.

Thinking of this, Xu Bai came to a coffin and inserted the black blade Hundred Break into the crack. He then gently lifted it.

The seemingly heavy coffin lid was easily opened by him.

Xu Bai walked forward and looked at the pile of bones inside. He used the black blade Hundred Rend to search, but he couldn't find an exit.

He even poked the bottom of the coffin with the Black Blade Hundred Break, but there was nothing unusual.

"Continue. "

He didn't stop. He started to flip through the bronze coffins one by one. He opened every coffin lid, but other than the corpses, he didn't see any other passages.

All the coffins in the surroundings had been rummaged through, except for the one with the candle in the corner.

"Let's go take a look." Xu Bai walked over.

When he inserted the black blade Hundred Rend into the gap of the bronze coffin, a chilling aura suddenly flowed out from the gap.

The bright flame of the candle that was placed on the coffin suddenly swayed. Due to the swaying of the flame, the surrounding light and shadow kept intertwining.

Xu Bai looked at it and smiled." The atmosphere team sure knows how to make things work. If it was someone timid, they might be scared to death here. ""

The candle on the coffin was originally bright yellow, but as he pried open a gap in the coffin, the flame turned green at a speed visible to the naked eye.

The surrounding light turned green. Under the green light, Xu Bai heard a soft whimper coming from the coffin..

Chapter 474: The Strange Embracer (1)

When the whimpers were heard, the temperature of the entire tomb seemed to have dropped by a large margin, turning cold.

Xu Bai put down the black blade in his hand. However, when he put it down, he had already lifted the blade slightly, sending the entire bronze coffin lid flying.

“The atmosphere is very lively.”

A black shadow came out of the coffin and turned into an afterimage, pouncing toward Xu Bai. Its speed was so fast that it made people speechless. In the blink of an eye, it had already arrived in front of Xu Bai.

Xu Bai turned his black blade, Hundred Rend, and the fragments seemed to have turned into a long whip, lashing fiercely at the black shadow. The black shadow was attacked and flew backward. It rolled for a long time before it stopped.

At this time, Xu Bai also saw the appearance of the black shadow clearly.

It was no longer a skeleton, but the skin of a dried corpse. Wrapped around the bones, it looked like an absurd shell.

The clothes on his body were already tattered, and his specific shape could not be seen. However, there were different pendants hanging on his neck and hands.

There was a necklace hanging around the neck of the corpse. The necklace was made of an unknown string, and on the string was a ring of animal teeth.

There were also animal teeth on his wrists and ankles, giving off a wild feeling. Coupled with the terrifying shape of the dried corpse, it gave off an extremely absurd feeling.

“This beast tooth...” Ye Zi seemed to have thought of something and said, “Young Master, these should be barbarians.”

The Barbarian Race was also a threat to the Great Chu State.

When the Great Chu State was first established, it was plagued by internal and external troubles. At that time, the Great Yue State was eyeing the Great Chu State covetously. Moreover, there were barbarians who wanted to devour the Great Chu State and become the king themselves.

If not for the Emperor’s decisiveness to unite the people of the martial world, the current situation in Great Chu would have been even more severe.

However, even though these threats were rejected, they did not leave for a long time. At the border, there were often conflicts between Great Chu, Great Yue, and the barbarians.

Now that he heard Ye Zi say this, Xu Bai had an idea. Could this be the tomb of the barbarians? But why did the Barbarian Clan’s tomb come to the Motherland’s Fenghua State?

This was a very suspicious point, but at the moment, Xu Bai couldn’t find any clues to solve it. More importantly, the dried corpse that had just been repelled pounced on him again, like a machine that didn’t know pain.

“You’re very strong. Rank three.” Xu Bai said indifferently.

The fragments scattered everywhere seemed to have sensed something after he said that. In the next moment, these fragments quickly rotated, bringing with them endless power and melodious music as they enveloped the dried corpse in front of him.

Stellar Energy intertwined like black clouds pressing down on the city, wanting to destroy everything.

In the center of the Stellar Energy, each fragment penetrated the dried corpse's body.

In less than a breath's time, the dried corpse in front of him fell to the ground and stopped moving.

A very strong mummy, dead.

Ye Zi covered her face and felt very helpless.

Young Master was good at everything, and he was also very gentle to others. However, his personality was easy to offend.

In the beginning, he kept saying that he was very strong, but this so-called very strong didn't even come face-to-face.

Ye Zi felt that she was still alright. The stronger Young Master was, the happier he was. Moreover, it was an indescribable happiness.

However, if a genius was here, he would probably want to eat Xu Bai up right now.

Actually, Xu Bai did not say anything. He was indeed very strong. To be able to encounter a Rank-3 in a place that was not the main tomb, it would be a lie to say that he was not strong.

Any other young man would have to fight 300 rounds here.

But ultimately, this dried corpse had encountered Xu Bai, a person who had defeated a Rank-1 with the strength of a Rank-3.

The fragments around him closed up and turned into a black blade. Xu Bai put the blade back into its sheath and walked to the coffin.

This guy was actually a barbarian. The more he explored, the more mysterious this tomb became.

Now, he had looked at all the places, but there was no passage. He had not looked at the last coffin.

When Xu Bai was in the coffin, he saw that there was still a board blocking the coffin.

Xu Bai reached out and knocked on the board. A hollow echo came from it. Unlike other coffins, the bottom was empty.

It was empty, which meant that there was space below. In other words, this passage still had to go down.

Xu Bai took out his black blade, Hundred Rend, and slashed at the stone slab below.

In the next moment, the stone slab shattered, and a staircase appeared before his eyes, leading straight to the dark underground.

Xu Bai narrowed his eyes and sized her up before waving at Ye Zi.

Ye Zi walked up and glanced at the dark staircase.

“Follow behind me.” Xu Bai said.

Ye Zi nodded and followed behind Xu Bai silently.

The puppet of the Fourth Stage was still walking at the very back, acting as the rear guard.

When Xu Bai took his first step, nothing unusual happened. It was just a simple staircase, and it looked no different.

The passage where the stairs were located was very dark. The space inside was not big. If a normal person raised his hands, he could touch the walls on both sides.

Xu Bai tried to touch it with his hands raised. He was about to walk forward, but the next moment, he realized that the thing he touched was not normal.

The walls on both sides were not smooth. There were bumps and dents. It felt as if something was embedded in them.

Ye Zi followed behind Xu Bai. When she saw Xu Bai's condition, she cleverly raised her hands. There were white threads intertwining between her ten fingers, illuminating the surrounding darkness..

Chapter 475: The Strange Embracer (2)

As the light shone, Xu Bai could see the situation around him clearly.

The walls on both sides were carved with embossed sculptures that looked unusually vivid.

As it had been underground all this time, it was not eroded by the wind, so it could be seen clearly.

People dressed in barbarian clothes were holding weapons in their hands. They were riding on warhorses and killing in a city.

The images on both sides were perfectly connected. One city after another had been killed by them, leaving behind ruins and mountains of corpses. These corpses were wearing the clothes of ordinary people.

The commoners wailed as they knelt on the ground and raised their hands as if they were praying for blessings the heavens.

Blood, flames, smoke, and corpses. These scenes continued to fuse and construct themselves within.

A scene was carved on the mural, like a living hell.

“He’s really not a human being!” Xu Bai frowned.

After entering the martial arts world, he had killed many people, but he had basically not killed these unarmed civilians.

In war, there would always be deaths. However, in Xu Bai’s opinion, this kind of endless killing had nothing to do with war.

The faces of the Barbarians carved on the embossed were also very vivid.

Every single one of them had an excited look on their faces. It was as if killing these commoners would bring them excitement.

This was not for the sake of war, but for the sake of that perverted selfish desire.

Ye Zi also saw this scene. Her mountain-like chest rose and fell slightly. She walked to Xu Bai’s side and said, “Young Master, the barbarians are like this.”

“In their eyes, people other than them are no different from food. They only know how to kill, and they even worship this kind of killing.”

“Engraved on the wall like this is also a way for them to express their so-called glory.”

As she spoke, Ye Zi pointed at a mural. On it was a barbarian carrying a military flag.

There were words written on the flag, but Xu Bai did not recognize them.

However, Ye Zi recognized him. After all, there were too many things that she had learned since she was young. There were also many things that she could take out and use.

“This is the Redwood Tribe. The one young master killed just now should have been a thousand-man chief.”

The Redwood Tribe was the text he had seen on the military flag mural just now.

As for the head of the thousand households, that was Ye Zits guess.

Tribes were the way of life of the barbarians.

They had lived in the land of the barbarians for a long time and did not build a new country. Instead, they lived in tribes.

Each tribe had at least a few hundred people, at most a few thousand people, and at most tens of thousands of people.

The position of a thousand-household commander was the official position of these barbarians.

A thousand-household chief had thousands of people under him.

“Redwood Tribe?” “It seems like this is the tomb of the tribe leader.” Xu Bai rubbed his chin.”

According to Ye Zi’s description, a chieftain could only block the way from the outside, so there must be an important barbarian buried here. The leader was a good guess.

“Go on, go on,” Xu Bai kept this clue in his heart and continued to walk inside.

Along the way, the carvings on both sides of the wall did not stop. Most of them were similar in content, but they were only similar and not repeated. In other words, this so-called Redwood Tribe had caused endless slaughter.

Killing was only because they liked it.

Xu Bai said that he was already gloomy just by walking through this passage.

After walking for about the time it takes for an incense stick to burn, there was finally a new change ahead.

At the end of this underground passage was a bronze door. This door was tightly closed and engraved with complicated patterns.

Just by looking at the pattern, there was a ferocious aura. There were some black blood stains that had dried up on the bumps and dents of the pattern. "I heard that these barbarians like to water things with blood to show their so-called strength. It seems that Young Master's guess is right. This might really be the tomb of the barbarians." Ye Zi sized him up for a moment before saying.

Xu Bai nodded. "There's probably something big waiting for me behind the bronze door."

He pulled out his black saber, Hundred Rend, and reached out his hand. He gently patted the bronze door with the saber, producing a crisp sound of collision.

Other than that, there were no other sounds.

Xu Bai swung his blade, and the shards hit the bronze door. The next moment, the bronze door shattered into pieces.

The moment the bronze door was broken through, Xu Bai's pupils suddenly constricted.

An extremely dangerous feeling came over him. He hurriedly took a step back and pulled Ye Zi along.

Behind the bronze gate, there was a vast space. The space was filled with dense coffins. These coffins were round and guarded the center. The center was a huge coffin twice the size of an ordinary coffin.

The huge coffin also had complicated patterns on it. However, in front of the coffin, a man dressed in ordinary clothes was kneeling with his back to him.

The front of the kneeling position was facing the huge coffin, while the back was facing the exit of the underground passage.

Beside the man was a black shovel.

“Shovel?” “Could this be the gravedigger?” Xu Bai frowned.

The sense of danger just now had not disappeared. Not only that, it was still spreading.

He couldn't figure out where the danger was, but he had a feeling that if he stepped out, he would encounter something terrifying..

Chapter 476: The Strange Embracer (3)

“Ye Zi, you stay here.” Xu Bai beckoned to the puppet of the Fourth Stage behind him.

The puppet of the Fourth Stage took off the bag on its back and handed it to Xu Bai, who then passed it to Ye Zi.

Ye Zi was stunned. After she reacted, she hurriedly said, “Young Master, this place is very strange. Don't take the risk.”

“Of course I won't take the risk,” Xu Bai said with a smile.

As soon as he finished speaking, the puppet of the Fourth Stage, which had already handed over the item, moved. It raised its leg and walked out of the passageway.

Since he sensed danger, he would send someone to take a look. The most suitable person here would be a puppet of the Fourth Stage.

Puppets of the Fourth Stage didn't have any life. They were controlled by him, and they were the best for exploration.

When the puppet of the Fourth Stage stepped out under Xu Bai's control, Xu Bai saw danger approaching.

In front of Xu Bai's eyes, a thin layer of fog suddenly appeared on the ground. The fog was white, and it looked no different from ordinary fog. However, as the fog swept over, the puppet of the Fourth Stage standing on the ground suddenly stopped.

Then, a series of sizzling sounds could be heard from where the puppet of the Fourth Stage was standing.

When legs of the puppet the Fourth Stage came into contact with the mist on the ground, they actually turned black.

"Looks like this is a trap, and it's a highly toxic object. "Xu Bai knew how to use poison, so he could tell at a glance that the mist was highly toxic. That was the source of the sense of danger he felt just now.

However, the level of his poison technique was still too low. He could not tell what kind of poison it was, nor did he have a solution.

Xu Bai frowned. It seemed that he was stuck because of the poisonous fog in front of him.

At this time, the gravedigger who had been kneeling in front of the coffin finally moved. He turned around and looked at Xu Bai with a mocking smile.

Strangely, the white mist did not circle around him. Instead, it stopped around him and did not corrode him.

"Lord Xu, I didn't expect you to really come looking for me. Do you want to come in and sit?"The gravedigger's voice was mocking, but the content of his words was like a host greeting a guest.

Xu Bai stroked his chin and said, "You're the mastermind. Compared to the ones who dealt with me before, you're the fastest to be exposed.""

"I have no choice. Who asked me to have a mole on my side? However, it doesn't matter. As long as I can achieve my goal, that's enough." the gravedigger said slowly.

He maintained the same smile on his face and remained in his kneeling position, but he turned his head fiercely in Xu Bai's direction.

"Lord Xu has been mighty for a lifetime. In the martial world of Great Chu, there have already been storms and waves. I wonder if you feel a sense of powerlessness now." The gravedigger continued to taunt, as if this taunt could bring him endless pleasure.

"No, I haven't." Xu Bai said simply.

The gravedigger was slightly stunned. He did not expect Xu Bai to be so unpredictable.

"I understand. Are you trying to hide your incompetence? Seeing that he had failed, he wanted to hide it."

"I really don't." Xu Bai shrugged, "I didn't fail. Why did I hide it?"

The gravedigger was stunned. He pointed at the surrounding fog in disbelief. "You still say that you didn't fail? Can you come in and hit me? You can't. I know that your blade is very strange and can shatter into pieces, but I can tell you that nothing in this fog can't rot."

In the time it took to speak, the puppet of the Fourth Stage had already turned into fragments that scattered all over the ground.

The fog rose and filled the surroundings, but they could not enter the passage where Xu Bai was.

In this era, every tomb had to leave a way out.

Their goal was simple. If any of their unfilial descendants were to meet with great trouble, this place might become the foundation for them to turn the tables. Now, it seemed that this passage was a way out.

The gravedigger's voice came from the white fog.

"This poison cannot be dispersed by the wind. Anyone below the first grade will die if they touch it."

"You only need to wait ten days. When I fuse with this corpse, it will be your nightmare."

"You said you didn't have it just now, but I have to let you have it!"

Xu Bai smiled." It seems like your ultimate goal is to merge with this corpse. Is this corpse very important?"

The gravedigger didn't answer. He didn't say anything at all. Clearly, he knew that too much talk was bound to make a mistake.

The scene fell into a strange silence.

Xu Bai found a place to sit down. He looked ahead and said,"Come out now and

I'll give you a chance to live."

The gravedigger still didn't answer. It was obvious that he ignored Xu Bai's words.

Ye Zi frowned slightly. The current situation was very dangerous. The other party was like a turtle shell, not coming out at all.

However, for some reason, his young master was calm and composed. It was as if the other party did not come out and instead gave him an opportunity.

Yes, this was the feeling.

She even saw the young master sitting down and staring straight ahead.

However, Ye Zi did not say anything or ask anything.

By following Young Master, he only needed to use his remaining strength. The rest was to trust Young Master unconditionally.

Even if he died, it didn't matter.

When she first learned that Young Master had disappeared, she had planned to walk this path and sink to the bottom of the river forever.

So... Ye Zi naturally walked to Xu Bai's side and sat down as well. She held Xu Bai's arm with both hands and leaned on Xu Bai's shoulder.

"This is good too." Ye Zi thought..

Chapter 477: The Strange Embracer (4)

It was too noisy outside. It was not bad to suddenly calm down now.

Xu Bai patted Ye Zi's head and stared straight ahead.

In fact, if he had encountered such a situation, he would have turned around and left because there was no way to enter.

Going in or not, wasting time here was a waste of time.

But... It was different now.

Through the white fog, he could see the huge coffin looming.

Accompanying the indistinct appearance of the coffin was a golden progress bar.

If the golden progress bar was full, then what the hell was there to go!

Isn't it better to live here?

Moreover, looking at the pace of the progress bar, it was definitely a good skill. Not to mention anything else, just the degree of slowness was different.

Just now, he heard from the gravedigger that it would take ten days. In these ten days, he could completely max out the progress bar first.

The progress bar appeared on the huge coffin. Perhaps it could solve the fog here.

When that time comes...Hehe.

Kid, let's see how arrogant you can be.

I'll definitely kill you.

The more Xu Bai looked at the progress bar, the more excited he felt.

However, sometimes, the more you wanted to relax and live up to the progress bar, the more reality would not allow you to do so.

Xu Bai's dream was to have endless progress bars every day, but now it seemed that something had happened.

r

"Ta Ta Ta ya..."

A series of footsteps came from the underground passage behind Xu Bai.

"Someone actually came in at this time and place?" Xu Bai was slightly surprised. He stood up and turned around.

Behind him, a group of people ran towards him. There were at least a few hundred of them, and they formed a long line, filling up the passage.

There were men and women, old and young, but they all had one thing in common. Their limbs were all wrapped in transparent silk threads.

"Lord Xu, I'm here to help you!"

This group of people shouted in unison, deafening the ears. The underground tunnel trembled slightly.

Xu Bai was speechless.

These people...It seemed to be that soul controller?

Just as he was thinking this, a group of people stopped in front of him.

Standing at the front was a woman controlled by a thread.

The woman glanced at Xu Bai and said, "Lord Xu, let me help you!" Xu Bai was about to speak, but unexpectedly, Ye Zi tugged at his sleeve.

"Young Master, be careful. I suspect that he's not a soul controller. I wonder how powerful a soul controller must be to be able to control so many people." Ye Zi whispered.

"Oh?" Xu Bai's eyes narrowed as he sized up this group of people.

At this moment, the woman in the lead covered her mouth with her hand. Under the control of the thread, she slowly said, "As expected of a member of the Ye family. This knowledge is indeed profound."

Ye Zi raised her head, and a white light appeared in her hand. If there was anything unusual about the other party, she would first play a deadly demon tune.

The woman in the lead turned around and cupped her fists. She bowed solemnly to Xu Bai and said loudly, "The mortician Wen family, Wen Si, greets Lord Xu."

Xu Bai looked at the woman with interest and looked at Ye Zi at the same time.

Ye Zi was also slightly stunned. After sensing Xu Bai's gaze, she finally said, "An embalmer is an extremely ancient profession..."

Then, she told Xu Bai about the situation of the embalmer.

As Xu Bai listened, his eyes wandered around these people.

When he heard everything, he realized that these so-called people were not humans, but corpses.

An embalmer was similar to a soul controller in that they were both controlling, but at a higher level than a soul controller.

A soul controller would seize the soul of another person, while an embalmer would use the soul of the other person as the foundation to exert control.

A soul controller could control living people, but an embalmer could control both living and dead people.

Of course, there were specialties in every field. An embalmer was not as good at controlling living people as a soul controller. They mainly controlled the dead.

When a person had just died, their soul had not completely dissipated. It was also at that time that the embalmer used this as a foundation to control it.

As for the various special techniques involved, they were the essence of an embalmer, and outsiders were not allowed to know.

The Wen family was one of the families of the embalmers, but this family had long since been submerged in the passage of time.

Of course, the Wen family was not the only embalmer.

“Let’s cut the crap. What’s your motive?” Xu Bai said.

The controlled female corpse, temporarily called Wen Si, replied without hesitation after hearing Xu Bai’s question.

Revive the Wen Family.”

These four simple words had a powerful and sonorous tone.

Xu Bai narrowed his eyes and said, "Do you think I'm easy to deceive? Why don't you tell me why the Wen family was destroyed and you're the only one left?"

Wen Si said, "The Wen family has offended His Majesty. They actually targeted those people who died for Great Chu. Therefore, His Majesty secretly sent people to wipe out the entire family."

"However, the Wen family was also considered loyal to the Great Chu Country back then. Therefore, His Majesty did not tear off the last cover of the Wen family and did not mention what the Wen family had done."

"It seems like you and His Majesty have a blood feud," Xu Bai said.

Wen Si shook her head and said, "No, the Wen family brought this upon themselves. I am the only survivor of the Wen family and I want to pick up the family again. To complete this step, the most important thing is to regain His Majesty's trust. If I help Lord Xu, there will be no problem."

Chapter 478: The Strange Embracer (5)

Xu Bai raised his eyebrows and didn't say anything else.

The matter had been explained clearly, but Xu Bai was not a three-year-old child. He would not believe a word the other party said.

None of this was important. What was important was that he wanted to see how Wen Si would eliminate the fog in front of him.

Actually, he could just sit here and continue to work on the progress bar. When the time was perfect and the progress bar was full, he would see if there was a way to break it.

However, now that someone could solve it, he was naturally happy to see it.

For nothing else, stability was the most important.

As for Wen Si...Let's talk about it later.

"Lord Xu, I know you won't believe me, but what do you think of my performance next?" Wen Si said."

Xu Bai waved his hand nonchalantly, indicating that he wanted to see his performance.

He and Ye Zi made some space.

Wen Si turned around and waved at the densely packed corpses behind him.

In the next moment, the corpses dived into the fog without hesitation.

When Xu Bai saw this scene, he was slightly surprised. He did not expect the other party to use such a method to break it.

"Most of the barbarians practice combat techniques and professions. Although they can make something as nimble as feng Shui or burial chambers, they are still lacking in details." Wen Si explained slowly.

"For example, this poisonous fog has no foundation. If it's completely absorbed by someone, there won't be any risk. Therefore, I let these corpses absorb it without any loss."

As each corpse entered the fog, the fog rapidly decreased. When the last corpse entered, the fog completely disappeared.

Wen Si turned around and cupped his fists."

Xu Bai looked inside. The sense of danger that lingered in his heart was gone.

The gravedigger, who was kneeling in front of him, also noticed the change. He turned his head in shock and clenched his fists when he saw Wen Si.

“An embalmer!”

A feeling of extreme danger lingered in the grave digger’s heart. The white fog was gone, and he had lost his support.

However, he did not leave this place. Instead, he continued to maintain this posture, as if once he left, he would suffer endless losses.

Xu Bai pointed at Wen Si and said, “You go in first.””

Wen Si knew that Xu Bai was using him as a test. He nodded and stepped into it.

There was nothing unusual or dangerous.

“Lord Xu, it’s nothing.” Wen Si said.

“Kill him.” Xu Bai pointed at the gravedigger.

Wen Si was stunned.

“Lord Xu, aren’t you coming in?” she asked in surprise.”

“Why did I come in?” “With you helping me inside, isn’t it in line with your idea of making a contribution?” Xu Bai laughed.”

Although that feeling of danger was gone, it did not mean that there was no new danger. Moreover, he was still worried about this guy.

Wen Si stood rooted to the ground, his expression uncertain.

“You’re not thinking of tricking me into going in and then dealing with me, are

you?” Xu Bai teased.”

“I’ve long heard that Lord Xu was born cautious. It seems that this is indeed the case.”Wen Si said.

Xu Bai continued,” I just don’t believe that a family whose entire family was killed by the Emperor would trust the Emperor again. You can’t be so stupid.”

Wen Si fell silent.

Obviously, this sentence hit her right on the head.

After a moment, she pointed at the coffin not far away and said,”Lord Xu is indeed far-sighted. How about this? Let’s make a deal. I’ll kill this person for you, and then I’ll take the corpse inside.”

Xu Bai narrowed his eyes.

Take the corpse.

Combined with Wen Si’s current line of work, it seemed that he wanted to manipulate this corpse. Regardless of the identity of the corpse inside, just this kind of grand scene was definitely extraordinary.

“Lord Xu, you have no choice.”“ I could have taken this corpse directly,” Wen Si said slowly.” The reason why I’m still discussing this with you is because I don’t want to become enemies with you.”“

“The surrounding white fog was indeed absorbed by my corpses, and the corpses were completely turned into ashes. However, that doesn’t mean that I can’t get the white fog out after turning into ashes.”

“Because, as long as there is a trace of a soul remaining, it can be completely reversed. This is the essence of an embalmer master.”

As she spoke, she snapped her fingers.

Not far away, a puff of white mist suddenly burst out, but it quickly disappeared.

‘ Oh,” Xu Bai said.” Then you can just take it. You don’t have to care about my feelings. No problem, no problem. Just take it.””

He sounded as if he was very understanding and did not care at all.

The gravedigger looked left and right, not quite understanding the current situation. He felt that the situation was developing faster and faster. Weren’t these two people together? Why are they scheming now?

No, this was not the main point at all.

The gravedigger lowered his head and secretly thought of a way to break out of this situation.

On the other side.

Although he said that, Xu Bai didn’t move a single step. He still stood guard at the exit of the passage.

This posture was like a goalkeeper, guarding the door with peace of mind.

Wen Si’s expression became strange.

Xu Bai’s tone changed and he teased,””Why? I gave you a chance, but you’re useless.”

“It can’t be that I’m the only one in such a huge tomb...Is it the only exit?”

Chapter 479: Xu Bai Is Never Having Battle Intent

As soon as he finished speaking, the entire place fell silent.

After Xu Bai finished speaking, Wen Si stared at him without blinking. Her eyes were very calm, but Xu Bai could see that there was a hint of panic in her calm eyes.

“Look, I was right. I’m the only exit here. If you want to take the corpse and

leave, you have to go through me.” Xu Bai flicked the Black Blade Hundred Break’s blade with his hand, his tone carrying a hint of ridicule.

Just thinking about it, there were many things worth pondering. If Xu Bai were in this situation, he would definitely not negotiate a deal. He would just take the corpse and run far away. He couldn’t get in anyway.

However, this woman in front of him was actually talking about a deal with him. This was a little interesting. If it was really a deal, there was definitely something fishy going on.

What was the problem?

Thinking about it carefully, Xu Bai realized that this place was completely sealed off, and the exit was in his tunnel.

“Now that you have White Mist to help you, there’s no problem. I won’t go in, but you have to come out after you take the corpse. It’s fine if you don’t come out. Then you can stay in there forever.

Wen Si’s expression was uncertain, especially when she saw Xu Bai’s calm expression. She knew that her thoughts had been seen through. “This is a deal. Doesn’t Lord Xu like to talk about business the most?”

“Alright, bring the corpse out. No problem. Kill that person first, and I’ll definitely let you go.” Xu Bai said with a smile.

When Wen Si heard Xu Bai’s words, even a fool would know the value of his words. Therefore, she became the one who felt awkward.

If he really did as Xu Bai said and walked out with the corpse, his head would probably fall to the ground in the next second.

Of course, she was the one who felt awkward, not the most awkward one. The one who felt the most awkward was the gravedigger.

The gravedigger remained in his kneeling position. He looked left and right and suddenly realized that there was something strange going on.

These two people seemed to be difficult to deal with, but they had a common goal, which was to kill him first.

The gravedigger was having a headache. His gaze fell on the bronze coffin. He gritted his teeth and finally changed his posture. He stood up from his kneeling position and picked up the shovel at the side. He slowly walked towards Wen Si.

“You two have been chatting for so long that you seem to have forgotten about me. Don’t forget that I’m also a member of this bureau now.”

“Kill me? You want to kill me with just a corpse? Aren’t you thinking too simply of me?”

As a gravedigger, his strength was not weak. After all, he had been doing that kind of business all year round. He might encounter danger one day. Therefore, they were all gravediggers who walked in danger. Their strength was definitely not low.

"I advise you not to move. It's easy for you to kill me, but have you thought about the current situation?" Wen Si was not afraid at all. After all, there was an even more terrifying person guarding the passageway.

The gravedigger paused for a moment and put down the shovel in his hand.

He wasn't stupid. He only needed to think for a moment to know the subtlety of it.

The few of them seemed to have formed a particularly delicate balance.

The gravedigger could kill Wen Si. After all, Wen Si had only entered as a corpse.

Wen Si was also able to make the white fog reappear, which was the key to limiting Xu Bai.

As for Xu Bai...If not for that layer of white fog, he could have killed both of them by himself.

Therefore, the gravedigger knew that he couldn't make a move. If he killed Wen Si, Xu Bai would be invincible without the white fog.

Thinking of this, he silently put down the shovel and returned to the bronze coffin, maintaining his previous posture.

The power of the gravedigger that was invisible to the naked eye was gradually eroding the bronze coffin. It was impossible for there to be only one way to break the situation. The gravedigger thought that this stalemate would be beneficial to him.

His goal was to utilize the concealment technique of the trade and fuse with the corpse in the coffin. At that time, he would be able to use it without any scruples.

Therefore, this stalemate seemed to be better for him.

Wen Si could see through the gravedigger's thoughts.

She gritted her teeth and walked towards the huge coffin.

The gravedigger became alert and raised his hand to pick up the shovel. If Wen Si intended to go forward, he would attack.

Wen Si stopped, his expression ugly.

She did not expect things to turn out this way.

However, at this moment, a voice suddenly sounded, breaking the silence of this space.

"Sigh, that's not right. I can kill you now!" Xu Bai patted his head and said. Wen Si and the gravedigger turned their heads and stared at Xu Bai.

Kill who?

Him or her?

Xu Bai weighed the Black Blade Hundred Rend in his hand and pointed at the gravedigger. "You don't seem to have any way to deal with me now, right?"

The gravedigger's face stiffened. He suddenly looked at Wen Si and said, "Help me, I'll let you refine the corpse."

Wen Si was silent. If you weren't here, I would have refined it faster.

A cold killing intent suddenly appeared and reverberated in this space. The gravedigger knew that this was Xu Bai's killing intent.

“This is for real!”

He knew that it would be easy for his opponent to kill him. This distance was just a small distance for the weapon in Xu Bai's hand. It could be reached in an instant. Xu Bai didn't even need to step in personally.

The gravedigger's eyes were filled with sorrow. Then, this sorrow turned into a fierce expression..

Chapter 480: Xu Bai Never Had A Battle Intent

He turned around and saw Xu Bai ready to swing his saber.

In the next moment, he exerted strength in his legs and turned into a shooting star, crashing straight into the bronze coffin. “If you want to die, then die together!”

“No one can live! ”

“With my blood, I can awaken the leader of the Redwood Tribe. The strangeness of a Rank One expert will definitely be a Half-Step Extraordinary.”

“Since you want to die, all of you die!”

“Hahahaha!”

The gravedigger, whose head was covered in blood, laughed loudly beside the bronze coffin. His eyes were filled with madness.

When a person was on the verge of death, he might retreat or risk his life.

At first, the gravedigger thought that this balance would not be easily broken, so he still had a glimmer of hope. However, when Xu Bai revealed his terrifying killing intent, he knew that he no longer had any hope.

The Bloody Slaughterer machetemen was famous in Jianghu. He was decisive, but he did not hesitate at all. Once he had the intention to kill, he would definitely kill.

The gravedigger knew that it was impossible for him to survive, but before he died, he had to drag two people down with him.

The situation happened too quickly, and Wen Si did not react for a long time. When she finally reacted, she turned around and glared at Xu Bai.

“You did it on purpose!”

“You want to try if he still has a backup plan under the pressure?”

“You didn’t really want to kill him just now!”

The series of questions stunned the gravedigger.

The gravedigger’s head was covered in blood. He did not understand what had happened, but he knew that he was like a clown now.

Was it intentional?

Was she lying to him?

Impossible!

It was absolutely impossible!

The reputation of the Bloody Slaughterer Swordsman in the martial world was that he could kill people whenever he wanted.

"I didn't know he was so timid." Xu Bai smiled faintly.

Indeed, he had no intention of attacking just now. He just wanted to scare the gravedigger. Even though he could reach the gravedigger in an instant with the Black Blade in his hand, Hundred Rend, at this distance.

However, there was still Wen Si beside him. If he were to be attacked by the white fog when he used his saber, it would not be worth it. The puppet of the Fourth Stage had already been corroded by the white fog, and he did not want to lose another weapon.

The reason why he said those words just now was to scare the gravedigger and see if he could make these two guys fight among themselves. However, he did not expect the gravedigger to be so decisive.

You can't blame him for this, right? It's your own mentality that's wrong. It has nothing to do with him.

When the gravedigger heard this, he was on the verge of collapse. He said crazily, "Sinister scoundrel, I'm going to kill you!"

After a long time, it turned out that it was just a scare, but he had no way out now. He turned around and saw the blood on the bronze coffin. The gravedigger revealed a miserable smile.

'End, end, end, end, end, end, end, end, end, end, end, end, end, end, end, end, end, end, end, end,
end,
end, end, end, end, end, end, end, end, end '

“The dried corpse that absorbed the blood turned into a true monster. The next moment, it reached the half-step mortal evolution state.”

"It's all over. You're all gone."

The more he spoke, the deeper the despair on the gravedigger's face became. In the end, he simply sat on the ground, his face ashen. – Open.

“Half-Extraordinary? What does that mean?” Xu Bai frowned.

When he heard about the gravedigger, he felt that something was wrong.

“Young Master, they are above the first grade. If they shed their mortal form, they would surpass ordinary experts. Being able to fly is their mark.” Ye Zi explained.

Above Rank One?

Xu Bai was slightly surprised. This was the first time he had heard of such a realm.

Looking at the hopeless gravedigger in front of him, Xu Bai rubbed his chin and was about to speak.

He didn't expect that there was someone faster than the attack.

“I'm not playing with you guys anymore.” Wen Si rolled his eyes and fell to the ground.

Xu Bai was speechless.

No way. He ran away when he heard the word Extraordinary. Was it that terrifying?

Thinking of this, Xu Bai looked at the gravedigger and said.

“Hurry up and tell me what you know. The situation is so urgent now. You don't want to die, right?”

The gravedigger sat on the ground as if he hadn't heard anything. He didn't say a word, and his eyes seemed to have lost their vitality. They were filled with ashes and darkness.

At this moment, the abnormality finally appeared.

In that incomparably huge space, the huge coffin suddenly trembled, causing the entire space to tremble slightly. A desolate aura flowed out from the coffin's cracks, bringing with it a terrifying and cold aura.

The gravedigger shivered, and was provoked by the cold aura. Suddenly, he seemed to have thought of something and rushed toward Xu Bai's position. As he ran, he shouted, "Don't block the way. If you don't want to die, run quickly.

With the Half-Extraordinary Strange, you and I will only be courting death."

What answered him wasn't Xu Bai, but the huge bronze coffin. To be precise, it wasn't an answer.

The gravedigger, who was running toward Xu Bai, suddenly trembled. Then, he seemed to have lost all his strength and fell to the ground. When he raised his head, his face was lifeless. The last trace of life had disappeared, and he had turned into a corpse.

This scene was bizarre and strange, but Xu Bai did not feel anything unusual.

He only felt a cold wind blowing at him, that was all.

"It should be his blood, so he died an unnatural death." "Young Master, do you want to leave first?" Ye Zi guessed.."
