

Unparalleled 481

Chapter 481: Xu Bai Never Had A Battle Intent

The difference in strength between Extraordinary experts was not something that could be made up for by Rank-I.

Even if it was just Half-Step Transcendence.

Ye Zi felt that it was better to leave first. He would wait until he was strong before he planned.

Xu Bai stared at the huge coffin without saying a word.

That sense of danger swept through his heart again. This time, he found his target, and it was this huge coffin.

He had planned to leave, but when he saw the golden progress bar on the coffin lid, he thought about it carefully and decided to stay.

Wealth and honor are sought in danger.

Xu Bai had already seen the Rank-I progress bar once and had a rough estimate of the progress of the Rank-I progress bar. The golden progress bar in front of him was definitely a Rank-I skill.

Thinking of this, Xu Bai suddenly brandished the black blade in his hand.

In the next moment, the black blade, Hundred Rend, exploded into countless fragments, which quickly flew toward the huge coffin.

In the blink of an eye, the fragment lifted the coffin lid and flew toward Xu Bai

at an even faster speed.

The moment the coffin lid was lifted, the cold aura became even stronger. White frost appeared in this space.

It was cold.

It was physically cold.

“Let’s go!”

Xu Bai turned around, hugged Ye Zi, and quickly ran out of the tunnel. Under his control, the fragment was dragging the coffin lid behind him.

On the lid of the coffin, a golden progress bar shone brightly.

Xu Bai used the Four Transformations of Breaking Path to the extreme, leaving behind only a series of afterimages. A moment later, he had already walked out of this passage with Ye Zi in his arms and came out of the coffin in another tomb.

Xu Bai did not stop. Instead, he hurried toward the final exit.

On the other side, the opened coffin emitted a cold aura. The edge of the coffin and the ground were covered in dense white frost. If someone was here, they would probably be frozen into popsicles in an instant.

A withered hand suddenly appeared from the edge of the coffin and tightly clasped the edge of the coffin. This hand was as withered as firewood, and one could see the grayish-white skin on it. It was extremely terrifying.

Then, a black shadow emerged from the coffin and landed on the ground.

The ground was no longer covered in frost, but layers of ice.

It was a 2.5-meter-tall dried corpse. It was dressed in tattered clothes and had an animal tooth necklace around its neck.

His eyes were ashen, devoid of any emotion, but filled with boundless killing intent.

The moment the dried corpse appeared, he saw the gravedigger's corpse on the ground.

Its eyes were filled with killing intent and its desire for flesh and blood. The dried corpse quickly ran to the side of the gravedigger's corpse and lowered its head...

Kengchi, kengchi...

In the quiet space, a voice that made one's scalp go numb sounded.

A moment later, there was only a corpse left on the ground, and the dried corpse had also undergone a huge change.

The dried flesh and blood gradually became plump, and there were layers of bumps under the grayish-white skin, as if someone had forcefully stuffed something into it.

In less than two breaths, the dried corpse had turned into a 2.5-meter-tall muscular man.

The man's face was expressionless, and his eyes were still grayish white. They were filled with coldness and killing intent, causing more and more ice to form around him.

"Roar!"

A scream that did not belong to a human came out of the man's mouth. The man's hair turned blood-red.

A strange aura spread from the man's body. It was crazy and heart-palpitating.

The blood-haired freak suddenly turned around and looked at the exit. It seemed to have sensed something and walked in that direction.

Although he was tall, he covered a distance of more than ten meters with a single step.

His legs kept crossing each other, and the blood-haired freak quickly disappeared from where he was.

At this moment, Xu Bai had already crawled out of the cave and returned to the wilderness.

However, before he could heave a sigh of relief, he heard a roar coming from the cave, as well as a gradually approaching coldness.

Looking at this rhythm, Strange's speed was even faster than his. He probably wouldn't be able to escape tonight.

Thinking of this, Xu Bai looked at Ye Zi and said.

"Take this coffin lid and bag, find a secret place to play and assist me. Try not to get too close."

In times of crisis, Xu Bai would not say things like you go first. Instead, he had to seize all the power around him. Ye Zi's combat strength was not high, but playing the piano could play a supporting role.

The other party was strange. He did not have the consciousness of a living person. He only knew how to kill and would not say things like attacking the support members first.

Ye Zi wasn't the kind of woman who would dawdle. She understood the current situation. If she was too close, it would distract Young Master.

She nodded her head vigorously and immediately hugged the coffin lid and the package. She quickly found a hidden place, and at the same time, her hands emitted white light and danced slightly.

In the next moment, a melodious music spread from her fingers and covered the wilderness.

Xu Bai pulled out the black saber Hundred Rend from his waist and turned around to prepare. The fragments surrounded him and also produced melodious music that overlapped with Ye Zits music. At this moment, his condition was improving at a speed visible to the naked eye.

Today, he had to get the progress bar.

The ground shook violently. In an instant, cracks appeared at the entrance of the cave, and the soil on the ground shattered. A tall figure crawled out from the hole and landed on the ground.

The blood-haired freak's face was cold and gloomy. His gray-white eyes stared at Xu Bai with endless killing intent.

Metamorphosis could roam the sky, but according to the gravedigger, the

Strange Beast in front of him was at most a half-step-to Metamorphosis..

Chapter 482: Xu Bai Never Had A Battle Intent

At this moment, Strange didn't show any signs of flying, which proved that Half-Step Metamorphosis was right.

"There's still a lot to play." Xu Bai licked his lips and his eyes shone with excitement.

If the other party was completely Extraordinary, Xu Bai would have turned around and left without any hesitation. He wouldn't even want the golden progress bar.

But if it was half a step...Then he could give it a try.

Up until now, Xu Bai had only fought with Lord Huang of Bizarre City. Lord Huang was a Rank One, and he had been able to handle it with ease.

If it wasn't for City Lord Huang's special ability, Xu Bai wouldn't even let City Lord Huang hurt him.

Then... What about Half-Extraordinary?

Xu Bai's lips felt a little dry, but his fighting spirit was unparalleled.

Waves of cold killing intent spread out from Xu Bai's body. Even the air around him seemed to freeze. His killing intent was no weaker than the blood-haired man in front of him.

If someone from Jianghu were to pass by at this moment, they would find that Xu Bai was truly worthy of the name Bloody Slaughterer Swordsman.

Icy, murderous, crazy, and...A monstrous battle intent.

Ye Zi, who was hiding in the distance playing, held her breath.

She could feel that the fighting spirit on Young Master's body soared to the sky.

"There's probably no one else in the world who can face a half-step mortal evolution as a Rank-3."

Ye Zi muttered to herself.

Ordinary Rank-3 experts would be scared out of their wits just by looking at such a Half-Extraordinary expert, let alone encountering one.

But Young Master was different. Young Master wanted to use a saber...Kill this Half-Extraordinary!

Thinking of this, Ye Zi used all her strength to urge the energy in her body to the limit.

A trace of blood flowed out from the corner of her mouth, but Ye Zi did not care. Although her face was pale, her eyes were as firm as swords.

Young Master's battle intent was unparalleled, so how could Ye Zi retreat half a step?

Although she couldn't fight against the Extraordinary, she could still use a song to bring the young master to his peak.

The melodious music became hurried.

In this wilderness, the music seemed to have transformed into thousands of troops and horses, galloping on the battlefield.

Ye Zi suddenly broke through the limit of Xu Bai's battle intent.

Rank-4...Rank-3!

Even though Yin Xian Song could only reach the fourth grade at most, Ye Zi had used Xu Bai's fighting spirit to comprehend the next level.

"This song is called...Zhan Wushuang!"

The sound of the army suddenly stopped and turned into countless shouts and roars.

Xu Bai, who was in the wilderness, naturally felt Ye Zi's change. At this moment, under Ye Zi's influence, he was already at the peak of his limits.

The black saber, Hundred Splitters, was gently waved, and all of the fragments emitted a rhythmic sound. Surrounded by Stellar Energy and black light, it appeared to be filled with killing intent.

Xu Bai reached out his hand and crooked his finger at the blood-red hair.

“Come!”

“Roar!”

The blood-haired freak roared at the sky and turned into a shadow, pouncing toward Xu Bai. Wherever he passed, layers of ice appeared on the ground, and snowflakes floated in the sky for no reason.

Xu Bai waved his saber and stood there. The fragments gathered in the air and formed a broken blade.

Five Moves of the Knife!

The Broken Blade went straight in and suddenly exploded, turning into a sky full of starlight, piercing straight at Bloody Hair Strange.

Armor Break, Heavy Injury...

With the various attributes of the mental cultivation method, the fragments left terrifying wounds on the blood-haired freak's body. Some fragments even pierced through.

“Roar!”

The blood-haired monster had no consciousness, nor did it feel any pain. It roared and arrived in front of Xu Bai. It raised its right hand and grabbed at Xu Bai.

The huge body and the hand that came down from above were filled with a mountain-like pressure.

Xu Bai didn't retreat, nor did he use Breaking Four Transformations, because the other party's speed was above his.

Xu Bai's left hand made contact with Bloody Hair's palm. In the next moment, Xu Bai felt a terrifying power attacking him. Not only that, but it also brought with it a bone-chilling chill.

Ice began to form on his palm and gradually spread along his arm.

Xu Bai didn't panic at all. His eyes were calm, like a frozen lake in winter, without any ripples.

Shifting Flowers...Block!

Rank-8 Transposition could divert attacks from Rank-2 and below, and could even counterattack.

However, the other party was a Half-Step Extraordinary Strange. It seemed that his level was not high enough, but it did not matter. It was enough for Xu

Bai.

He only needed to transfer a portion of it.

The ice on his hand disappeared, leaving only a thin layer of white frost. The place where Xu Bai stood was covered in a thick layer of ice.

The blood-haired monster didn't stop. It opened its other hand as if it wanted to hug Xu Bai.

The surroundings were covered in cold frost. The wilderness was already covered in ice and snow, and it was snowing heavily in the sky.

“Is this the Half-step Mortal Transformation? It can actually trigger the phenomenon.” Xu Bai thought to himself, After this battle, I have to ask Ye Zi about the subsequent realms. Now it seems that this Extraordinary is not as simple as just being able to fly.”

Of course, he would not be caught by the other party. If he was caught, he knew very well what the consequences would be.

Xu Bai took a deep breath and began to retreat quickly, trying to use the Five Moves of the Go Sword again.

However, he never expected that the blood-haired freak would suddenly grab his hand, making it impossible for him to retreat.

This step sealed Xu Bai’s retreat.

Xu Bai narrowed his eyes.

It was strange without consciousness, but it still had the fighting instinct of when it was alive.

Very good.

But... I’m a ruthless person.

Fragments flew everywhere. An arm flew up and landed on the ground. Xu Bai quickly retreated under the heavy snow and stood with his saber..

Chapter 483: Xu Bai Never Had A Battle Intent

His left hand was empty, but in the next moment, under the surge of his True Core Strength, a new arm gradually grew out.

Indestructible Body (Incomplete)! Strong Kidney Collection Method!

“Awesome!”

Xu Bai raised his head and roared.

Ever since he entered this circle, he had never had such a good fight.

Xu Bai wasn't scared at all. Instead, he became more and more excited. The True Core Strength in his kidneys was squeezed out crazily by him. Even though it had no consciousness, it was still slightly stunned. If it was still conscious, it would definitely ask, “Are all the youngsters

nowadays so strong?”

But as expected, the blood-haired monster charged at him again. Xu Bai stared at the strange body with bloody hair. There were many wounds there.

In this exchange, he was injured, but that didn't mean that the strange creature in front of him wasn't injured. If someone else was here, they definitely wouldn't be able to break through its defense.

But Xu Bai was different.

He had the Five Moves of the Knife, and he had a mental cultivation method with a particularly long name.

Yes, it was indeed very long.

He still had the ability to replace flowers with trees, and he still had the Indestructible Body!

Now, Xu Bai had thought of an excellent method.

This method was especially crazy.

– Exchanging injuries for injuries!

First of all, this blood hair was strange, and there seemed to be no way to recover.

Secondly, he had a way to recover.

It was that simple.

To answer with nothing.

Transposition of Flowers and Trees combined with the Diamond Heart Devil Body could reduce his injuries to the greatest extent. He did not have to take it head-on.

The mental cultivation method and the Five Moves of the Knife could cause damage to the other party.

The Indestructible Body could maximize the recovery of injuries and allow him to maintain his peak condition.

In addition to the strong kidney collection technique, there was a reserve of real elemental energy stored inside. It could also continuously absorb and replenish from the surroundings.

Ye Zits tune had broken through to the third grade, and with the tune of his mental cultivation method, he could make these skills reach the most perfect state.

F * ck!

He had to do it!

Xu Bai took a deep breath. Then, he turned into an afterimage and charged toward the blood-red hair.

The surrounding fragments were guided and turned into streams of starlight that swept everything around them with a whistling sound.

The blood-haired man let out a terrifying roar. The surrounding cold air became even thicker, and the heavy snow in the sky fell like a downpour. The surrounding wilderness was reduced to nothing under the attacks of the two.

The shard pierced through Bloody Ghost and tore off a piece of flesh from Xu Bai's body. The shard pierced through Bloody Ghost again and left a terrifying wound on Xu Bai's body.

Xu Bai frantically circulated the True Core Strength in his body to heal his injuries.

At this moment, a shocking battle was taking place in this barren land.

Ye Zi hid in the distance and watched the two figures kill each other like crazy demons. Her heart gradually ached.

Everyone thought that the Sanguine Slaughterer machetemen would rise to fame after being put in an important position by the Emperor. However, they did not know that this was all because of the Young Master.

"The young geniuses of this world probably don't even have the qualifications to participate in this battle." Ye Zi thought with heartache.

Ru Yu's fingers moved even faster, and the music became even faster.

In the wilderness.

The battle was extremely fierce. Both sides were severely injured. However, if an ordinary Jianghu person passed by and stepped into this area, he would be torn into pieces by the aftershock of the attacks from both sides.

“Come!”

“How refreshing!”

The excitement in Xu Bai's eyes had reached a peak, and there was even a hint of madness in them.

Other than the skills mentioned earlier, all the skills in his body were activated to the extreme.

One slash after another, completely ignoring the injuries on his body.

The blood-haired freak was even more miserable than him.

Those wounds didn't heal as fast as Xu Bai's. Although they were also recovering, they didn't have Xu Bai's special skills.

Xu Bai only felt that this battle had made his entire body feel extremely happy.

He had never fought so happily before.

Under the night sky, in the wilderness, there was a constant rumble. Killing intent and ice intertwined, and even the dark clouds in the sky were scattered.

Time gradually stopped, but it did not stop here.

It was not until a faint white light appeared on the horizon that the sounds of battle in the wilderness gradually disappeared.

Xu Bai panted heavily as he looked at the strange blood on the ground. The madness in his eyes did not retreat at all.

He won!

The True Core Strength in his body had already been used up, but he had won.

Rank-3 versus Half-Step Metamorphosis, Xu Bai, victory!

“Young Master.”

Ye Zi carried the coffin lid and the package as she stumbled over and quickly floated Xu Bai up.

At this moment, Xu Bai saw that all ten of Ye Zi’s fingers were bleeding, and there was also blood at the corner of her mouth.

Even a third -grade Strange Musician was exhausted after playing for an entire night. He had relied on a strong belief to persevere.

“Thank you for your hard work.” Xu Bai said as he patted her head.

Today’s battle would not have been so easy without Ye Zi’s assistance.

Ye Zi shook her head, indicating that it wasn’t hard on her. She said, “Young Master Wushuang killed a Half-Extraordinary at Rank-3. Even the most dazzling young generation in the world can’t compare to you.”

As expected of Ye Zi. She could always win Xu Bai’s favor at the critical moment.

Xu Bai laughed out loud and pinched Ye Zi's face."Find a place to hide and let me recover."

"Young Master, aren't you going back to the inn to rest?" Ye Zi was slightly stunned and asked in confusion."

Xu Bai shook his head and looked at the sky in the distance.

"There's still one more guy to deal with. I won't let the person who threatened me off easily.."

Chapter 484: Above First Grade (1)

It was simple to stay here. Of course, he wanted to kill Wen Si.

Although Wen Si had decisively committed suicide in the tomb, she had only committed suicide as a corpse. No one knew where her true body was hiding.

Since the corpse in the grave was so important to Wen Si, Xu Bai would not let go of this opportunity. He would wait for the rabbit by the stump. It was a good thing if he could, but it did not matter if he could not. Anyway, he could recover his strength at the same time.

The blood-haired freak's corpse had already become tattered. The clothes on its body were already tattered enough. During the battle, it did not hold back. It was bare. There was basically no place worth touching the corpse.

Xu Bai was about to drag the corpse away, but he didn't expect it to turn into ashes the moment he touched it.

This also made him worry less. With Ye Zi's help, they found a secret place and waited silently.

Time slowly passed, and the white light on the horizon increased. It was about to turn into dawn.

Xu Bai thought that Wen Si would not come again and was about to return to the inn with Ye Zi. However, he did not expect that there would be a sudden noise from the forest. A male corpse in tattered clothes suddenly came out of the forest and walked to the entrance of the tomb.

The male corpse was connected by translucent threads. If one did not look closely, one would think that he was a normal person.

When Xu Bai saw this scene, his eyes narrowed slightly, and a smile of interest appeared on his face.

Sure enough, this guy still came, proving that there was something he had to take.

It was impossible to find the corpse of the blood-haired monster. After all, when Wen Si left, she had already known that the blood-haired monster had come out of it. Therefore, it was impossible for her to go after the blood-haired monster.

From the looks of it, there might be something new that was worth Wen Si taking the risk.

Ye Zi gently pulled on Xu Bai's sleeve with a puzzled expression. It was very vivid, meaning that they needed to make a move now.

Xu Bai shook his head, indicating that he shouldn't move for the time being. Since the other party had come prepared, he must be looking for a new existence. This was actually a good thing for Xu Bai.

However, not making a move did not mean that they would not follow him. Xu Bai planned to take a look, so he waved his hand and followed him quietly with Ye Zi.

Wen Si planned to crawl into the hole again. However, this fellow was especially cunning. When he was about to crawl in, he popped his head out not long after. He tried his best to look around, wanting to make sure that he was not mistaken.

It was indeed a good turn of events. After all, who would have thought that Wen Si, who had just entered, would suddenly pop up?

If he had been a little reckless and had already started chasing after Wen Si when he entered, he would have definitely been discovered at this moment.

Wen Si looked left, right, left, and right. After making sure that there was no one around, she went back to the bottom of the tunnel. Xu Bai waited until everything was ready before waving his hand and saying, "Follow behind. I want to see what she's up to."

The two of them followed behind quietly.

It was still dark inside the cave, but there was only one path in this passage. Xu Bai was not afraid of losing him, so he followed carefully behind him.

After walking for a while, they arrived at the second intersection. It was the bronze coffin placed in the corner. There was still no trace of Wen Si here.

Xu Bai stopped and looked at the huge space in front of him. The huge bronze coffin had no lid and was currently being carried by Ye Zi.

Not far away, Wen Si was carefully leaning on the edge of the huge coffin and looking inside. When she did not see the strange blood, she heaved a sigh of relief.

"He must have run away. Xu Bai must have been killed. Fortunately, I didn't come here in my main body."

The sound of her muttering echoed in the empty tomb.

Seeing this, Xu Bai thought to himself, ""This guy is really sure that I'm dead, that's why he dared to sneak over."

It made sense. After all, it was a Half-Extraordinary Strange. How could an ordinary Rank-3 defeat it?

According to conventional thinking, Wen Si's method was not a problem.

However, Xu Bai was not an ordinary person.

He did not make a move, but continued to observe, because he had a feeling that Wen Si had another move.

As expected, after Wen Si confirmed that there was no blood, she made a new move. She walked to each coffin and opened the lid.

Not only did they open every coffin, but they also dragged out all the dried corpses inside. These dried corpses were all dressed in strange clothes. Although they were tattered, one could still see some of their original appearances. It was obvious that these were people from the Redwood Tribe.

After doing all this, Wen Si raised her hands. Grayish-white threads appeared on her fingertips. Then, she waved the grayish-white threads on her fingertips. Every thread seemed to have a spirit as it drilled into the dried corpse.

When Xu Bai saw Wen Si's actions, he thought that she was trying to control the corpses. However, he did not expect that the corpses would turn into ashes as soon as they touched the threads. Wen Si retracted the threads and closed her eyes to meditate.

"It's been too long. The instinctive memories of these corpses are too little. Fortunately, there are enough for me to find clues about them." Wen Si suddenly opened her eyes and muttered to herself..

Chapter 485: Above First Grade

Instinctive memories, clues?

Xu Bai rubbed his chin and continued to watch patiently.

Wen Si stood up from where she was and slowly walked to the side of the huge coffin. She pressed her hands on the edge of the coffin and pushed it with great effort.

The sound of friction came from the ground, making one's teeth ache. Soon, the coffin was pushed to the side by Wen Si. Under the coffin was a complicated pattern.

This pattern was circular and not large. It was perfectly blocked by the bronze coffin. If the bronze coffin was not moved away, one would not be able to see it at all.

Wen Si walked to the center of the circular pattern and slowly squatted down. She pressed her right hand on the circular pattern, and grayish-white threads interweaved between her palms and pierced into the ground.

When the grayish-white vision pierced into the ground, the circular pattern suddenly protruded and turned into a disc that appeared on the ground.

Wen Si began to twist her wrist. With a cracking sound, the circular plate made of circular patterns began to rotate.

Turn radian very clever left left right right, from time to time, stop again, stop again, continue to rotate again, give Xu white, feel again, just like the safe password.

"It seems like that instinctive memory told her." Xu Bai thought to himself.

After about half an incense's time, Wen Si finally stopped what she was doing and slowly raised her right hand. The grayish-white thread was absorbed into her body.

In front of him, the disc suddenly split open from the middle, and the ground began to tremble slightly.

A crack appeared at the edge of the tomb and spread rapidly, splitting the tomb into two.

The whole process happened very quickly. When the ground of the tomb was split into two, a brand new passage appeared in front of Xu Bai.

"It's really a different world." Xu Bai's eyes were filled with excitement.

Wen Si did not know that she was being watched. When the passage appeared, she could not help but jump up, looking very happy.

After a long time, Wen Si finally calmed down and calmed down. Then, he didn't stop and walked down the passage.

Xu Bai had been hiding in the dark for a few minutes before he and Ye Zi walked to the passageway.

The two of them didn't talk much and quickly walked down the passage.

The passage was very dark. Fortunately, Xu Bai could walk steadily with his strength, so he did not need a torch to illuminate it.

Walking around for a while, the front suddenly suddenly opens up, Xu Bai gathers in the secret position, hears in the space, there are bursts of sound coming out.

"By the ancestors of the Wen family, I have finally found the leader of the

Redwood tribe. As long as I control it, I can truly let the Wen family rise again. At that time, my status in the Great Yue State will definitely rise."

"Humph! Although the Wen family had been benevolent and had secretly transported all the corpses of the Redwood tribe here to be buried, the Emperor had gone too far."

"Hundreds of lives were lost in the Emperor's memorial. Even the underage child couldn't escape your clutches."

"Emperor Chu, one day, you will repeat the same mistake!"

There was anger and resentment in his words.

Xu Bai thought to himself that it was indeed so.

How could the hatred of exterminating a sect be easily erased?

Furthermore, he had heard that the construction of this tomb seemed to be related to the Wen family.

Thinking about it carefully, the Wen Family was indeed suited for such a thing.

If they moved a large number of corpses, it would definitely arouse suspicion. However, if they turned these corpses into human-like bodies, it would be much safer.

The Wen Family specialized in this kind of shady business and it was easy for them to do it.

It was also because of this reason that the Emperor had exterminated the entire family.

And now it seemed that Wen Si had joined the Great Yue State.

No, to be precise, he should be a servant with three surnames.

First, it was the Great Chu State. Then, it joined the Barbarian Race. After being discovered by the Great Chu State, it joined the Great Yue State.

This was really awesome.

In the past, when Xu Bai read s or biographies, he felt that this kind of situation was rare, but now he really saw one.

Ye Zi gently tugged at Xu Bai's sleeve, opened her mouth, and mouthed something. Was she going to make a move?

Xu Bai held Ye Zi down and quietly poked his head out of the exit. He happened to see the scene inside.

Inside, there was a coffin. However, this coffin was not made of bronze, but a kind of stone.

There were complicated patterns carved on the stone, and it looked desolate.

Unfortunately, Xu Bai did not see the golden progress bar.

At this moment, Wen Si had already opened the coffin lid and carried out the corpse inside.

The corpse was wearing luxurious clothes. Although it was tattered, it looked much better than the blood-haired freak outside. It was even much more high-end.

Xu Bai guessed that if this was the real leader of the Redwood Tribe, then the strange, blood-haired man outside should be the leader's confidant.

However, judging from the current situation, this corpse did not show any signs of becoming strange. Otherwise, Wen Si would not have dared to do such a thing.

After the corpse was carried out, Wen Siping placed it on the ground.

Wen Si's heart was burning.

Finally, he succeeded!

Only she understood how sad she felt.

It wasn't that she had nothing to worry about after she joined the Great Yue State. In fact, when she joined the Great Yue State, her own strength was not favored by the Great Yue State.

The other party took her in because she wanted to deal with the Great Chu

State. Therefore, she was put in an important position in the Great Yue State..

Chapter 486: First Grade Above (3)

“It’s almost time. It’s time to call my main body over.”Wen Si thought excitedly.

In fact, all the corpses she could use had been used on the white fog earlier. Now, she only had this corpse as her last resort.

In order to take away the corpse of the Redwood Tribe’s leader, she had to use her main body.

Fortunately, Xu Bai had been killed by that strange creature, and that strange creature had probably gone to where there were people. After all, strange creatures were born to kill.

Now, everything was hers.

As Wen Si thought about this, she had already communicated with her main body.

Xu Bai had been hiding. Seeing that Wen Si did not move, he seemed to have thought of something and turned to Ye Zi to make a gesture.

– Watch your back.

It was obvious that if Xu Bai was Wen Si, he would have been eager to take action immediately. But why didn’t he take action?

Xu Bai thought that it was very likely that the corpse controlled by this guy could not collect the corpse. He did not collect the corpse just now and was just trying to get some memory.

Since that was the case, it would be fun.

Xu Bai knew that he had to be patient. He had to catch the real Wen Si behind the scenes. Otherwise, it would not be a good thing if people kept thinking about him.

At the thought of this, he tried his best to control his breathing. He did not want his breathing to be too obvious and waited patiently.

About an hour later, the sound of footsteps could be heard in the passage. They were running very quickly.

Xu Bai narrowed his eyes and turned to the passage. A slim figure appeared there.

A moment later, the figure gradually became clear. It was a charming woman.

She was dressed very ordinarily, but because of her appearance, she looked more spirited. At this moment, this woman was running excitedly. However, he stopped in the next moment. The excitement on his face turned into fear.

"You didn't die!" Wen Si said in fear.

In front of her line of sight, Xu Bai was leaning against the wall with his hand and looking at her with interest. His eyes seemed to be saying, "I finally caught you."

Ye Zi laughed, "I didn't expect it to be a woman. Young Master, why don't you take her as your maid?"

Xu Bai replied, "I'm not as good-looking as you. Why do I keep it? Do I have to clean the toilets?"

The two of them seemed to be playing around, but in Wen Si's ears, it was as cold as ice.

Wen Si quickly turned her head, wanting to escape immediately. However, the ground under her feet suddenly moved away from her legs. Something wrapped around her body, and she felt a pain. Blood flowed from her hands.

The fragments of the black blade, Hundred Splits, wrapped around Wen Si and quickly dragged her to Xu Bai.

By this time, Xu Bai's injuries had already recovered, and his True Core Strength had almost recovered.

Although Xu Bai had controlled his strength, the shards were too sharp and left terrifying wounds on Wen Si's body.

Wen Si's clothes were torn apart, revealing her fair skin. However, her fair skin was drenched in blood.

Unless it was some guy with a strong taste, otherwise, the scene in front of him would only make one feel creeped out.

Wen Si bit her lips so hard that her lips turned white. She stared at Xu Bai with her eyes filled with boundless anger.

"Rank-3 escaped the pursuit of a Half-Step Mortal and dared to come back again. I lost. I really didn't expect it!"

She really did not expect this. No one else would have expected this. After all, how could a Rank-3 expert survive the hands of a half-step Extraordinary? This had never happened before.

He had never seen or even heard of Xu Bai, so Wen Si was certain that Xu Bai was already dead.

"Hmm? Escape?" Xu Bai rubbed his chin and said, "I killed it."

Wen Si was stunned, like a wooden sculpture that had been immobilized.

“Kill... Killed?”

She suspected that she had misheard or that the other party had said something wrong.

How could a Rank-3 kill a Half-step Extraordinary?

Do you think it's as simple as drinking water and eating?

Xu Bai didn't explain. He didn't need to, because he felt that it was a waste of time to explain to a dead man.

At this moment, Ye Zi suddenly flicked the white light on her fingertips, and a melodious music sounded.

Wen Si was unharmed, and even the expression in her eyes did not change.

“Young Master, there's something protecting his soul that I can't control.”

Up until now, Ye Zi was already at Rank-3. She could use this move very casually and did not need too many restrictions.

However, he did not expect that it would lose its effect on Wen Si.

“It's useless.” Wen Si finally recovered from her shock and understood what the other party wanted to do. She mocked, “Who do you think I am? ” An embalmer? What does an embalmer do? It's to play with the soul of a corpse. Our soul has long been indestructible during this process.”

“You! Don't even think about hearing a single word!”

While mocking him, he let out a hearty laugh.

Being caught was one thing, and being caught with the thought of death was another. At this moment, Wen Si already knew that she would definitely die.

Isn't it better to mock your opponent before you die?

Xu Bai frowned. He raised his hand and gently flicked the fragment, producing a rhythmic sound.

But at the same time, Wen Si's divine soul was extremely sturdy and difficult to overcome.

"Don't try, just give me a quick death!" Wen Si closed her eyes.

"Sigh, I didn't expect to use such a barbaric method in the end." Xu Bai sighed.

Wen Si suddenly opened her eyes as if she had thought of something. "Let me think about it. How long has it been since I used torture to extort a confession? My hands are a little rusty now." Xu Bai moved his wrist and sighed..

Chapter 487 - Above First Grade

Ever since he had Ye Zi and obtained music, he rarely used torture to extort confessions. So now that he suddenly had to use it, he felt a little emotional and nostalgic.

Wen Si felt as if she was looking at a demon when she saw the expression of regret and nostalgia on her face.

"By the way, you didn't cut off the pain, did Bai pinched Wen Si's fair index finger and suddenly exerted force.

In the next moment, the sound of bones cracking could be heard as Wen Si let out a shrill cry.

Watching a beautiful woman scream was sometimes a visual enjoyment.

It was better than a man screaming.

“Don’t be anxious, don’t be anxious.” ” I know how to use poison and cure people,” Xu Bai comforted her gently.” I have a way to make you recover quickly.””“

As he spoke, Xu Bai continued to pinch Wen Si’s little finger and exerted a little force.

“Crack! ”

Ah!” Wen Si screamed again, her face pale.

Cold sweat broke out on her fair forehead, and her snow-white teeth clenched tightly together, trembling from time to time.

“You... It’s even crueler than strangeness!” Wen Si cursed. His voice seemed to come out from between his teeth.

“What else can I do? The martial world calls me Bloody Butcher Saber

Guest. “Xu Bai placed it on Wen Si’s other finger and squeezed it tightly. The sound of bones shattering rang out once again. Wen Si’s eyes rolled back as he fainted.

“I didn’t make you faint.” Xu Bai raised his hand and slapped him twice.

In the next moment, Wen Si, who had fallen unconscious, felt a sharp pain on her cheek and woke up again.

“It’s pretty good. Let me explain to you. Starting from your hand, all the way to your shoulder, your bones will shatter inch by inch.”

” Then, it will start from your feet, all the way to your thigh bones.”

“Finally, don’t worry about being disabled. I’ll treat you with medicine very quickly. Then, we’ll repeat the previous procedure.”

Xu Bai spoke in a particularly gentle voice, as if he was whispering sweet nothings into a young girl’s ear.

However, in Wen Si’s ears, it was like a demon’s voice urging her to die. Every word made her tremble. At the same time, she felt an even more intense pain from the finger that she had crushed earlier.

This was a terrifying demon. While he was laughing, he could use methods that made people wish they were dead. It was as if it was a common occurrence. Wen Si understood. At this moment, death was a light and brisk way for her.

“I said...

Thousands of words were finally condensed into one word. Teacher Wen had compromised.

She had no choice but to compromise. She knew that she could not live on, but she did not want to die in such pain. She wanted to have a quick death. She was going to die anyway. It was fine to say something. This was also the reason why she changed her mind.

“I know what you want to ask, but I don’t know the secret between the Great Yue State and the Barbarian Race. You know that my strength is nothing to them.”

Wen Si said painfully.

” Why did you build such a tomb here?” Xu Bai rubbed his chin and asked.” What were you planning to do?””

Indeed, with Wen Si’s strength, he would not be able to get a good position at all.

“Fate!” Wen Si said, “Ever since Great Chu was established, it has been lacking in luck. Although there was a thin layer, it was almost non-existent in the end. Building a tomb here can slowly devour their luck. After all, this is the tomb of the barbarians.”

“But I didn’t expect that all of a sudden, because of you, the Great Chu Country actually took over the Gale Country’s luck. Now that this place is no longer useful, it can be used to its full potential.

They knew that you were going to the capital, so they wanted to kill you. Unexpectedly, the gravedigger became greedy and wanted to occupy this place.”

Xu Bai frowned.

Was it because of him that Great Chu had regained its luck?

Right, there seemed to be such a thing. On the way here, there seemed to be a battle related to luck.

What a loss!

Xu Bai suddenly felt that he had lost money on this deal.

After he went to the capital, he had to talk about it and see if he could add more.

Seeing Xu Bai’s thoughtful look, Wen Si shut her mouth.

“Why aren’t you saying anything? Continue.” Xu Bai said.

“What else do you want to know?” Wen Si asked bitterly.”

“What’s with the corpse inside? Is there any secret?” Xu Bai asked.

Wen Si shook his head and said, "No, there are no abnormalities or secrets. I just want to take it back and improve my strength so that I can have a foothold in the Great Yue State.""

"No more?" Xu Bai said.

Wen Si nodded and said, "Indeed."

Xu Bai paced back and forth, pondering Wen Si's words.

The interrogation this time seemed to be quite useful. After all, they knew the cause and effect of the matter and also knew a lot of past events, such as the origin of this tomb.

Moreover, it was not that he had gained nothing. On the contrary, he had also gained a huge harvest, which was the progress bar of the coffin lid.

It was alright, the harvest was quite good.

Xu Bai smiled.

Wen Si shivered, looking very afraid. "Yes...Kill me?"

She had never thought that it would be so difficult to beg for death.

"Whoosh!"

The fragments of the black blade Hundred Rend surged. In the next moment, Wen Si lost her life force.

"Let's go take a look." Xu Bai snapped his fingers and walked into the huge tomb.

The tomb was especially large, and there was only one coffin here, so it looked unusually empty.

After entering, Xu Bai looked around and did not see anything related to the progress bar. There was only a dried corpse on the ground and the corpse that Wen Si had controlled just now..

Chapter 488 - Above First Grade

“What a pity, there’s no progress bar.” Xu Bai thought to himself.

Although he felt a little unsatisfied, who would complain about having too much? Unfortunately, there was no progress bar as he had imagined.

Ye Zi gently pulled Xu Bai's sleeve and asked, ““Young Master, should we keep this place?”

Xu Bai's eyes turned to the corpse not far away and said, ““There's no need to keep them. Burn them all.”

It was useless to keep it. This thing couldn't be looked at, so it was better to burn it.

Then, without waiting for Xu Bai's instructions, Ye Zi took out a fire torch and walked in front of him, burning the corpse to ashes.

The two of them searched the place again. After finding nothing else, they left the tomb.

Before Xu Bai left, he blocked the exit with something to prevent people who didn't know the truth from finding it.

The sky was completely bright now, and the sun had replaced the moon. The chirping of birds sounded in the forest, and it sounded extremely leisurely to his ears.

Other than the wounds all over the ground, it looked no different.

Ye Zi hugged the coffin lid and the bundle as she followed behind Xu Bai, gradually leaving this desolate area.

They didn't stop along the way and soon returned to the inn. Of course, on the way, they caused quite a commotion.

After all, a veiled woman with a stunning figure holding a coffin lid and following behind a man would naturally attract a lot of attention.

After returning to the inn, Xu Bai washed up under Ye Zi's service. Then, he lay on the bed and let out a long sigh.

The battle this time was really dangerous and soul-stirring.

In particular, the strange blood-haired man's Half-Extraordinary strength was really extremely powerful. If not for the fact that he had unimaginable means, he would have really died there.

Ye Zi had also finished washing up. She lay beside Xu Bai and rested her head on Xu Bai's shoulder.

The surroundings became quiet.

Xu Bai narrowed his eyes. His sudden relaxation made him look a little tired.

"Young Master, when do we set off to the next place?" Ye Zi placed her chin on Xu Bai's chest and asked.

Xu Bai didn't open his eyes and answered, ""Let's take a break first. We'll set off after a period of time."

He had thought it through. There wasn't much distance left now, so there was no need to be anxious for the time being. He had to make more progress.

After all, after today's battle, Xu Bai had seen clearly that there were still many dangers in this world.

For the sake of his own life, he could not be too anxious.

Xu Bai also had his own plans. He had to at least complete the progress bar of the Bronze Gate and the Heavy Sword Technique.

When he finished these two progress bars, he would have some foundation before continuing. Of course, it would take some time, but it did not matter as long as it was not too long.

“Yes.” Ye Zi gently responded and didn’t say anything.

Young Master’s words were the truth. Young Master said that he wanted to stay here, so she stayed here with him. If Young Master said that he wanted to leave, she would follow.

Ye Zits personality was soft on the outside but tough on the inside. However, when facing Xu Bai, she would always show her soft side.

“Right, Young Master.” “Your puppets are gone, and you’re lacking materials now. Why don’t you ask the Jiang Clan to gather some?”

Xu Bai nodded his head. He did have such a plan tomorrow.

Although the level of the fourth-grade puppet was not high, it could sometimes produce a huge effect. For example, in this battle, the fourth -grade puppet had taken the lead in making the journey, which had reduced a lot of his burden.

It would be a waste not to take the materials that came for free. In any case, the one who would be rewarded in the end was the emperor, not him.

If he had thought about it, he would do it tomorrow!

Xu Bai had already made up his mind.

Ye Zi stood up and prepared to blow out the oil lamp and rest early.

Xu Bai suddenly thought of something and jumped up from the bed, giving Ye Zi a fright.

“Ye Zi, do you know what’s different about the realms after the First Stage?”

He had originally planned to come back and ask about this matter. He had thought that Rank-9 to Rank-1 was the limit. He did not expect that there was a realm above Rank-1.

Ye Zi was stunned for a moment before she reacted.

This young master of his was powerful, but he didn’t know many things. He had just entered this circle not long ago, and he was still a very tender newcomer.

Thinking of this, Ye Zi walked to the bedside and sat down.

“Young Master, there are four major realms above the first realm. Each realm is divided into nine levels, namely Extraordinary, Extraordinary, Saint, and Saint.”

“What’s the difference between each realm?” Xu Bai stroked his chin and asked. ”

There were four realms, and each realm was divided into nine grades. It seemed that the classification was very wide.

Since Extraordinary was already so abnormal, it seemed that the later realms were even more terrifying.

When Ye Zi heard this, she held Xu Bai’s hand and smiled gently.””Of course, there are many differences. For example, Extraordinary. The symbol of this realm is that you can roam the sky.”

“There’s another characteristic. This is the characteristic that is truly different from Rank-1..”

Chapter 489: The Skill from the Coffin Cover (1)

Although it was already late at night, Xu Bai did not feel sleepy at all. When he heard that it was a critical moment, he realized that Ye Zi had kept him in suspense.

Ye Zi raised her head, looking as if she would tell him after he praised her.

Xu Bai rubbed Ye Zi’s face.” Alright, I know you’re knowledgeable and talented. Hurry up and tell me what’s different.”“

Ye Zi narrowed her eyes and said,”“When Young Master was fighting with that strange creature, did you notice that something was wrong? It was the kind of situation where it snowed in the sky. That’s the most important characteristic.” Snow in the sky?

Xu Bai thought back carefully. That was indeed the case. Not only was it snowing in the sky, but even the ground was frozen. Under those circumstances, it was strange and especially fierce.

He had thought that it was very strange and that it was a special effect that came with strangeness. Now, it seemed that it was not just a special effect.

“That’s the heavenly change. This is the effect of entering the mortal evolution state.”Ye Zi said that he had come.

“Why is the Extraordinary realm called Extraordinary? It was because under this realm, regardless of whether it was Rank-9 or Rank-1, they all belonged to the mortal world.”

“Everyone’s Heavenly Change is different. Some people have boundless snow, some people have monstrous flames, and some people have sword qi that fills the sky, or endless yellow sand. These are all possible, and there are many types.”

“I’ve just entered the Extraordinary Realm and have only comprehended the beginner level of the Heavenly Transformation. At this time, the Heavenly Transformation can increase the corresponding strength. Not only that, but the enemy will also be weakened when they are in the Heavenly Transformation.”

“This is the reason for the qualitative change. The realm is already high, and if you increase it, then weakening the enemy is equivalent to increasing it further. Therefore, it is basically impossible to fight against those below the First Stage.”

“How much can it increase?” Xu Bai asked.”

He really couldn’t feel the increase or decrease. Anyvay, he felt that the strange creature was really strong. It was the strongest expert he had come into contact with so far, and the only one that could make him use all his strength.

Ye Zi stretched out her fair hands and gestured.”There are a total of nine grades of Extraordinary. Every grade can increase one’s strength by 10%. After reaching the ninth grade, it will be 90%.”

Xu Bai listened as he thought about it. If Ye Zi was right, it would be impressive if he could reach 90%. He wondered what kind of changes he would have when he reached Extraordinary.

“And after that?” “What are the characteristics of Transcendents and Saints?”

Xu Bai continued to ask.”

When she asked this question, Ye Zi pretended to be racking her brains, as if she was searching for Xu Bai’s answer in her jumbled memories.

In the end, Ye Zi’s tightly furrowed brows finally relaxed. Clearly, she had thought of something.

“It’s still the Heavenly Change.”

“In the Transcendent Realm, the Heavenly Transformation will also be carried out. Every level of improvement will increase the power by 20%. As for the Saint Realm, every level of improvement will increase the power by 30% ”

“As for the emergence of saints, no one knows.”

Ye Zi said.

Xu Bai frowned.”

“Because no one in this world has ever reached this level, so no one knows.”Ye Zi explained.

“I see.” Xu Bai understood.

However, he only understood a rough and specific division. As for what happened after that, he would talk about it later. He was still quite far from that realm.

“Let’s just focus on the progress first. We’ll rest for the time being and not rush.”Xu Bai thought.

The night was getting deeper and deeper, and the surroundings were so quiet that one could hear a pin drop. Ye Zi went forward, blew out the oil lamp, and lay down with Xu Bai, gradually falling asleep.

Time gradually passed, and in the blink of an eye, many days had passed.

Other matters aside, a letter had quietly entered the Imperial Palace of the capital through various hidden channels.

The Imperial Palace was heavily guarded. It looked quiet and no one moved around. Other than a few guards, there were countless dangers hidden here.

It was known as the most sealed place in the entire Great Chu State. Many people from the Great Yue State and the Barbarian Race had been killed in this place.

In the royal study.

The Chu Emperor held a brush in his hand and gently wiped it across the inkstone.

The ink was very thick, and it seemed to be of a high quality. After the brush's hair turned black, the Chu Emperor lifted the brush and began to write on a piece of white paper.

A moment later, a poem appeared on the paper. The Chu Emperor put down the brush and carefully picked it up. Looking at the ink that had not dried yet, he nodded his head in satisfaction.

The dragon and the phoenix were flamboyant, with iron and silver strokes. There was a domineering aura that assaulted one's senses. Just standing there and looking at the words on it made one feel dizzy.

"Xu Bai should be reaching the capital soon." The Chu Emperor thought to himself.

After such a long time, it was almost time. He calculated in his heart that there was not much time left before Xu Bai arrived in the capital.

Putting down the piece of paper in his hand, the Chu Emperor walked to the window. Before he could even touch the window, the window automatically opened.

The two black figures outside gradually disappeared. Clearly, they were the people who opened the window. The Chu Emperor stood inside the window and looked out at the dark night outside. His brows raised slightly.

He liked to stand in front of the window of the royal study because the terrain here was very good. From where he was, he could see the starry night..

Chapter 490: The Skill From the Coffin Cover (2)

As he looked, he thought, placing his hand on the window frame. No one knew what the Chu Emperor was thinking about, but he had unknowingly fallen into a trance.

At this moment, a series of footsteps could be heard. Accompanied by the footsteps was Eunuch Wei, who was dressed very formally.

Eunuch Wei, who abided by the rules and could discuss matters from the window, still went all the way to the door and knocked lightly.

The corners of the Chu Emperor's mouth twitched slightly. He couldn't help but turn around and return to his room to sit down.

Eunuch Wei was good at everything, but he was too rigid when it came to following the rules.

As he returned to the room, two black shadows flashed outside the door and slowly closed the window without making a sound.

"Enter." After confirming that there was no problem with his attire, the Chu Emperor slowly spoke.

Not long after, Eunuch Wei pushed open the door and entered. He held a secret letter in his hand and handed it to the Chu Emperor. The secret letter was sealed very well, and the wax on it did not show any signs of being opened.

The Chu Emperor opened the secret letter, and after reading it carefully, his brows furrowed in surprise.

'The tomb of the Berserkers, the backup plan, and all the people who were involved in it were all exposed to me because of Xu Bails trip.'

This was what was written in the letter. However, compared to the information Xu Bai had asked, the investigation was more perfect and rigorous. Even the various forces involved were written in the letter at a glance.

Eunuch Wei didn't say a word after hearing this. He just stood quietly at the side.

He had to abide by the rules. If the Emperor did not ask, he would not say anything.

"Eunuch Wei." The Chu Emperor placed the letter on the table and said,""Keep an eye on everyone in here. Once Xu Bai arrives in the capital, exterminate his entire family immediately. Don't let any of them walk out alive."

Eunuch Wei then walked over and picked up the letter. After glancing at it, his expression did not change. He silently put it in his pocket."Don't worry, Your Majesty. I will do my best to keep them under surveillance as soon as possible.

When Lord Xu arrives, I will eliminate all the survivors immediately."

His words were very calm, but the killing intent within them did not diminish in the slightest. The surroundings were originally a little cold because of the chilly night, but after Eunuch Wei finished speaking, the cold weather became even more severe.

"Right, Xu Bai should be nearing the end of this period of time. Help him check and see if there's any important news. After all, at the last moment, these people did not want to give up. They were probably tough bones to chew on. "The Chu Emperor instructed.

"Yes." Eunuch Wei agreed.

He didn't leave, but stood there for a while before saying,""Your Majesty, if we find out, do you need us to wipe it out? It could also relieve Lord Xu of many problems."

This sentence was right. He had also received news along the way. Xu Bai could be said to have passed five tests and killed six generals. Only he knew the difficulties and obstacles along the way.

Now that he finally knew the news, should he eliminate this crisis in advance? It could also help Xu Bai reduce a lot of burdens and allow Xu Bai to go all the way to the capital.

Hearing this, the Chu Emperor shook his head, indicating that there was no need.

Eunuch Wei didn't quite understand. He didn't understand why he didn't help Xu Bai remove the obstacles.

"There are two reasons," said the Chu Emperor.

Firstly, if we act rashly, we might arouse their vigilance. If there are still hidden troubles, they won't be exposed completely. The gains won't make up for the losses."

"Secondly, the journey of Xu Baigu is the opportunity for him to become famous throughout the entire Jianghu. If we attack, it would be superfluous. If he can reach all the way with his own strength, then everyone will think highly of him. "

Eunuch Wei understood and understood the Emperor's true meaning. He said,""His Majesty's intention is to give the members of the royal family a warning."

"That's right." The Chu Emperor didn't have any misgivings and directly said, ""These guys are all fighting in the dark. I don't want to wait for Xu Bai to arrive and become their target. If Xu Bai arrives on his own, it will be enough to let them know that he is not someone they can deal with."

Eunuch Wei nodded, indicating that he understood.

The Chu Emperor rubbed his forehead with his hand, looking extremely helpless, as if he had thought of something difficult.

As an official, he naturally had to share the Emperor's worries.

Eunuch Wei could tell with a single glance that the Chu Emperor had something on his mind.

“Your Majesty, is it because of Xu Bai? He didn’t know how to use it after he arrived.”

The Chu Emperor put down his hand, but his brows did not relax. Instead, his frown became tighter and tighter. “That’s right, I know very well what my brother is planning.”

“In short, we must let these virtuous people shine. If what I give Xu Bai is not good, my brother may poach him at any time.”

“Humph! He thought that I did not know that sending Chu Yu over...Haha.”

Eunuch Wei could not help but feel a headache coming on as he listened to the Chu Emperor speak of the secrets of the royal family in such a casual tone.

This throne was the only one in the world, but he did not expect that these two brothers actually did not want to be either of them. Both of them wanted to be hands-off managers.

For example, King You Sheng was currently living a very lively life at the border. From time to time, he would have some small conflicts with the Great

Yue State. He was extremely happy..
