This was the dean's Heavenly Change. As the dean was in a state of extreme anger, he couldn't control it. When he finally reacted, he waved his hand weakly and dispelled the Heavenly Change.

"This Great Yue State...How shameless." The dean smiled bitterly.

The female Abbey Dean said, " Didn't you experience it before? In order to strengthen their own national strength, they provoked a chaotic war between the Gale Country and the Great Chu Country. It was also because of that war that they made a fortune."

If it wasn't for the fact that the Chu Emperor had led the people of the Great Chu State and the army to kill them, the current Great Chu State would probably have to follow the lead of the Great Yue State."

The dean sighed, feeling a deep sense of powerlessness.

Even though he was the dean of the Qingyun Academy, even though he was respected by the entire Jianghu, he was still powerless to resist a country.

"For now, we can only report it to His Majesty and ask him to hurry up and get rid of these malignant tumors. "Xu Bai said.

Now, this matter was not only related to the martial world, but also involved the confrontation between the two countries. At this time, the martial world was considered extremely small.

The Headmaster nodded his head. This was the only way for now.

The female Abbey Dean stood up." I don't have much time left. I'll soon fall into that crazy state again. I have to leave first. The further away I am from the bustling places, the better. ""

"When will you be able to get rid of that state forever?" Xu Bai asked."How about I give it to you again?""

The female Abbey Dean shook her head." It's useless. What I got from you is already the limit. Next, it depends on whether I can overcome this difficulty. This will take time. I

don't know how long it will take, but it's already very good for me to be able to gain a long period of clarity."

"Why don't you carve me another wooden sculpture before you leave?" Xu Bai stroked his chin."

Since he had already come, he couldn't come for nothing. No matter what, he had to leave something behind before leaving.

The female Abbey Dean's mouth twitched. "Maybe next time. It took too long in the middle. I'm worried that I don't have enough time to carve the wood carvings."

Xu Bai sighed. He knew that it was impossible after hearing this answer.

Although it was a pity, it was better than the female Abbey Dean going crazy.

The female Abbey Dean did not stay any longer. She pushed open the door and left in a hurry. She did not even leave a word behind. It seemed that she did not have much time to wake up.

After the female Abbey Dean left, the dean picked up the evil book on the table and placed it in the brazier. It seemed that he was going to destroy it.

"Please wait a moment, Director," Xu Bai hurriedly said."

The dean stopped what he was doing and asked, "What's wrong?"

"Can you give me this book? I want to see what these books are. Don't worry, I'll destroy them after I'm done reading them." Xu Bai said.

The dean handed the evil book to Xu Bai without asking for the reason.

Xu Bai was surprised to hear that.

"You're not a scholar. It won't affect you even if you watch this." Just remember to destroy it when the time comes," the dean said straightforwardly."

Xu Bai accepted it and agreed, "We have to report the matter of the evil book as soon as possible."

The dean nodded. "Leave it to me. No matter what, it was caused by scholars. It's appropriate for me to report it."

Xu Bai thought for a moment. There was nothing wrong with saying that. He didn't have time to go to the Yin Posthouse anymore. After all, after what happened to Chimu Wu, he felt that it was better for him to hurry up and keep up with the progress bar.

Since everything was almost done, he did not stay any longer. Instead, he left the room and returned to his own room.

After closing the door, Xu Bai placed the three books on the table.

The puppet of the first grade stood guard at the side.

The three books were the Strengthened Body-strengthening Technique, Travels, and the evil book that he had just obtained.

This time, he did not care about the order. Anyway, he planned to finish all the books before leaving the Qingyun Academy, so he did not care about the order.

Xu Bai picked up one of them and flipped through it. He looked at the slowly increasing progress bar in front of him and continued his boring life.

Time gradually passed, and in the blink of an eye, a long time had passed.

During this period of time, all kinds of things had happened. The most obvious was that the Great Chu had strengthened its control over the borders, causing many merchants to have a headache.

Many of these merchants were trying to profit from the trade between the Great Yue Kingdom and the Barbarians. However, due to the increased border control of the Great Chu Kingdom, many of their goods could not be brought

111.

Secondly, Great Chu had conducted a strict screening of all the scholars in the country, causing some scholars to reveal traces of the evil books.

Not only that, but they also pointed the finger at the Great Yue State, claiming that this was something that the Great Yue State had done, and expressed that the Great Yue State was guilty.

However, just as Xu Bai had thought, the Great Yue State did not admit it, but neither did it deny it. It maintained a silent attitude.

I'm just short of telling the world that I did it. If you have the ability, come and find me!

These two incidents were also the most sensational things in recent times.

Although Xu Bai had been staying in the Green Cloud Academy, he had heard of the Chu Emperor's swift and decisive methods. He was very much in favor of them.

During this period of time, Liu Xu had left. After all, she was the Chief of the Heaven Inspectorate. Furthermore, she had coincidentally reached Rank One, so she needed to carry out her duties as soon as possible.

Yun Zihai also left. After playing with the iron ball for such a long time, he had already mastered the strengthened version of the Body-strengthening Technique. He only needed to slowly consolidate it in the future..

After all, he was a King with a different surname and had his own territory, so he needed to go back and manage it. He could not stay for too long.

In the Qingyun Academy, only Xu Bai remained.

Today, the sun rose as usual.

In the scholarly Nanhua Road, many scholars were looking at the rising sun in the sky. They were in the mood to write poems.

There was no market aura here, only the aura of books.

In a room in the Green Cloud Academy, where the aura of books was extremely dense, Xu Bai looked at the attribute panel in front of him that was condensed by light blue smoke and revealed a satisfied smile.

[Name: Xu Bai]

[Level: Extraordinary Rank 2.]

[Swordless Saber Grade (Extraordinary Rank-2):[Maximum level.]

[Myriad Forms Heavenly Technique (Extraordinary Rank-2): [Maximum level.]

[Wind Snow Return (Level 5): Maximum level.]

[Breaking through rank nine (level 9): Maximum level.]

[Shifting Stars (Level 9): Maximum level.]

[Vajra Holy Demon Body: Rank 8, Level 10]]

[Strong Kidney Harvest (Extraordinary Rank-I): [Maximum level.]

[Poison Class (Level 9): Maximum level.]

[Mastery of Mechanical Puppets (Level 9):[Maximum level.] [Undying Soul Body (Extraordinary Rank-I):[Maximum level.] [Water Aptitude Technique (Level 5): Maximum level.]

[Feng Shui Arithmetic (Level 9): Maximum level.]

[Thousand Faces Technique (Level): Maximum level.] [Yin-Yang Coexistence (Extraordinary Rank-I):[Maximum level.]

” Comprehension: Maximum level.”

It took a long time to finish the progress bar for the three books. After that, the rewards were huge.

The first was the strengthened version of Body-strengthening. After the liver was consumed, it was fused with the Kidney Harvester. The name did not change, but it raised the skill's level to Extraordinary Rank-I.

After reaching this level, the Strong Kidney Harvest Technique could store Extraordinary Rank-I Refined Essence Energy. In other words, he now had an extra Extraordinary Rank-I Refined Essence Energy reserve.

This was a huge improvement. In the past, his kidney harvesting technique could no longer keep up. Now that he could catch up again, he could imagine that in the future, when he fought against the enemy, not only would he have a steady supply of true essence energy, but he could also add it to the explosion.

The other improvement was the travel notes and evil books.

After the two fused, it became a new skill called Yin and Yang Coexistence.

This skill was very unique and targeted.

Yin and Yang had always been a very common saying in Jianghu. Yin and Yang were opposites, but they complemented each other. They were either Yin or Yang.

The co-existence of Yin and Yang could increase Xu Bai's combat strength in all aspects. In short, it could increase his combat strength by 10%.

As for how to improve, it was a very simple analogy. If the enemy was Yin, he would use Yang, and there would be additional bonuses. If the enemy was Yang, he would use Yin, and there would also be additional bonuses.

As for how to determine Yin and Yang, there was a secret to it.

However, this skill also had a certain limitation. It was only Extraordinary Rank-I and could only increase it by 10%.

But it was enough.

As the skill level increased in the future, this bonus would gradually increase. At that time, even Xu Bai would feel that he was very terrifying.

"I seem to have become stronger again, and I'm even stronger when fighting someone of a higher level."Xu Bai stroked his chin and pondered.

Not long ago, when he was in the capital, Eunuch Wei had once evaluated his combat strength and said that he could surpass two ranks.

Even though it was only level two, the mortal evolution state wasn't like the level one to level nine below. After reaching the mortal evolution state, every level was like the difference between heaven and earth.

To everyone in the world, it was extremely difficult to surpass two grades, but to Xu Bai, it was as easy as eating and drinking.

Now that he had the Kidney Hardening Technique and the Yin and Yang Coexistence, Xu Bai felt that he was no longer as simple as just saying that he was at Rank-2. As for how much he could surpass, he would have to find someone to try it out.

After feeling the changes in his body, Xu Bai finally calmed down.

"It's time to leave."

The trip to the Qingyun Academy had come to an end.

Since the old witch had been resolved, the problem in his heart had also been resolved. There was no reason for him to stay here.

Moreover, Xu Bai had other things to do, such as going to the Titanium Temple.

It was still the same as before. When he went to the capital, the Qingyun Academy and the Titanium Temple had clearly expressed their support for him and stood on his side.

People had to know how to reciprocate courtesy and also understand the ways of the world. If the other party gave him face, he could not sweep away the other party's face.

Xu Bai knew that he had to take advantage of this period of time to make a trip there.

Moreover, Xu Bai was particularly interested in the abbot of the Titanium Temple.

After all, the abbot had written many comments on the Buddhist scriptures when he was young.

According to No Flower, the Titanium Monastery had planned to use these so-called rare books to communicate with other monasteries. Unexpectedly, the elders who had proposed this idea were beaten up by the abbot.

Xu Bai was naturally interested in a host who was constantly testing the waters.

He would never admit that he was more interested in the possibility of getting more progress bars.

Xu Bai stood up and stretched.

The first-grade puppet beside him had already packed up and was waiting for Xu Bai to set off. Xu Bai did not stop and went straight to the dean's room to bid farewell.

As for the evil book, Xu Bai burned it in front of the dean..

The dean did not try to persuade him to stay. In his opinion, Xu Bai was a young man with great potential and was unique in the world. It was impossible for him to be confined to the small Qingyun Academy.

Xu Bai left in a low-key manner. He didn't let the dean or anyone else send him off. When he left, he specifically chose to leave late at night.

It was late at night.

An average-looking young man and a well-dressed figure quietly walked out of Nanhua Street.

The young man's appearance was very ordinary. He belonged to the kind of existence that could not be found in a crowd.

This ordinary-looking young man was Xu Bai.

He was no longer his original appearance, but his appearance after using the Thousand Faces Technique.

[Thousand Faces Technique (Level): Maximum level.]

This skill could not only change one's appearance with True Essence Energy, but it could also change one's body shape.

Xu Bai felt that after the incident with Chi Muwu, he still had to be careful, so he didn't show his true appearance.

After leaving Nanhua Road and walking along the Yin Posthouse for a long time, he finally rose into the air and flew in the direction of Titanium Temple.

Behind him, the first-grade puppet was being lifted up and floating in the wind...

Titanium Temple.

One of the ten great temples in Great Chu.

Here, not only were there an endless stream of devotees, but there were also many Jianghu people who often stopped by.

After all, it was one of the ten great temples in Great Chu. Its reputation and reputation naturally shook the entire martial world.

Compared to Nanhua Road, which was full of scholars, Titanium Temple was more open.

More importantly, although the Titanium Temple was one of the top ten temples, its purpose was different from other temples.

In the eyes of the Titanium Temple, other than subduing demons and devils, there was only subduing demons and devils.

Other than the time they spent chanting Buddhist scriptures every day, they were either fighting or fighting on the way.

All in all, this was a very iron-headed temple, and this temple was very protective of its own people.

A long time ago, there was once a disciple of the Titanium Temple who went out and encountered a strange creature. After killing the strange creature, he was ambushed by an unknown person and returned with serious injuries.

On the second day, hundreds of sturdy monks walked out of the temple and searched the world. They found the person who ambushed them and beat him to death.

What the other temples paid attention to was what the Titanium Temple did not need.

In the words of the current abbot, the world was not stable yet. What was the use of chanting scriptures and chanting Buddha?

Wouldn't it be nice to use his fists to flatten this chaotic world first before going back to chant scriptures and Buddha?

It was also because of this that the Titanium Temple was very favored by the Great Chu State and was very close to the Great Chu State. Almost every disciple would go to the Heaven Inspectorate to take a look, and they had also made many contributions during their tenure.

Today, the Titanium Temple was different from the past. They refused the visitors and closed the temple door.

Even those Jianghu people were chased out by the monks of the Titanium Temple.

No one knew what had happened, because after the temple gate closed, no one dared to come forward. After all, this temple was a name that was earned with fists.

Xu Bai descended from the sky and landed at the foot of the mountain where the Titanium Temple was located.

In this world, just because you could fly didn't mean that you could go high. Some places were very particular. If you landed in the mountain gate by flying, it would be considered as breaking the taboo of others.

After all, no one wanted someone to descend from their sect from time to time. Therefore, it was an unspoken rule to land when they were close.

After landing, Xu Bai did not stay for long and walked towards the Titanium Temple.

The mountain road was flat and there were stone stairs.

Perhaps to the Jianghu people, these mountain paths were equivalent to flat ground. However, for some ordinary pilgrims, if the mountain path was too steep, it would make it extremely difficult for them to walk. Therefore, these stone stairs were for ordinary pilgrims to walk on.

Xu Bai walked on the road at an extremely fast speed, but he also had doubts in his heart.

As one of the top ten temples, why was there no one here and it seemed especially quiet?

That shouldn't be the case.

Even if there were no ordinary people, there were at least a few Jianghu people passing by. However, he did not see anyone along the way. He did not even see a dog.

Did something happen?

With this in mind, Xu Bai continued to climb the stairs. After walking for nearly an hour, he finally arrived outside a mountain gate.

At this moment, the mountain gate was tightly shut, and there were two monks guarding outside.

When the two monks saw Xu Bai coming over, they looked at each other and one of them slowly walked out.

"Patron, the Titanium Temple will not allow anyone to enter during the closed period. Please return."

The monk was very polite. In fact, when they weren't fighting or when they weren't fighting, they would be very polite.

Xu Bai sized up the monk and said, "I want to see No Flower."

He had thought that he would be able to let him in if he said this, but he did not expect the monk to still shake his head. "Patron, please come back in a month."

Xu Bai raised his eyebrows.

This situation was unexpected. It seemed that his guess was right. Something big might have happened to the Titanium Temple.

Just as he was thinking this, he heard footsteps behind him.

Xu Bai turned his head and looked behind him. He saw dozens of monks wearing different clothes from the monks of the Titanium Temple walking toward him..

Originally, Xu Bai wanted to say a few more words or reveal his identity.

However, ever since the group of monks appeared, Xu Bai dispelled this thought and looked over with interest.

In Great Chu, the monk robes worn by the monks of every temple had their own characteristics. The general style would not change, but in the color and style, there were enough distinct symbols.

The monks who were walking slowly in front of him were wearing different robes from those of the Titanium Monastery. They should be from other monasteries.

How could monks from other temples come to this desolate place in groups?

Xu Bai felt that if he revealed his identity, he might not get the answer he wanted, so he stood quietly at the side.

He even took a step back to make way for the monks behind him.

However, sometimes, the more you didn't want to cause trouble, the more things would happen. For example, right now, Xu Bai just wanted to wait and see, and he didn't want to provoke anyone. However, the group of monks passing by looked at him in unison.

The leading monk spoke to him.

"Where did this mortal come from? How dare you behave atrociously in the temple?"

As soon as he finished speaking, the leading monk raised his palm and pressed it directly against Xu Bai's chest. The speed was so fast and the angle was so ruthless that if it were an ordinary person here, he would have died instantly after receiving this palm.

When the monk from the Titanium Temple who had been guarding the door saw this scene, he revealed a shocked expression. However, he quickly reacted and wanted to step forward to block this palm.

However, due to their speed being too fast, they were also late, so it was already too late.

Xu Bai looked at the approaching palm. A thick black light appeared on his body and enveloped his entire body.

In the next moment, a crisp cracking sound was heard. The palm of the leading monk broke inch by inch. White bones pierced out of his skin, and blood dripped down.

“Ah!”

The monk let out a tragic cry and hugged his injured arm as he retreated.

However, before he could take two steps back, the first-grade puppet that was standing beside Xu Bai and covered in black moved.

The first-grade puppet drew the long saber at its waist and lightly waved it in the air.

The monk who was retreating felt a chill on his neck. When he looked down, he realized that his vision was gradually getting lower and he soon lost consciousness.

The head fell down the stairs and soon disappeared at the end. Blood sprayed out and scattered all over the ground. The remaining headless corpse fell directly onto the stone steps.

The remaining monks looked at each other. This scene had happened too quickly, so they had yet to react.

When they finally reacted, they heard Xu Bai's cold voice.

“Leave no one alive.”

In the next moment, the first-grade puppet moved like a ghost and shuttled through the monks. In less than a moment, the monks were turned into corpses.

“Clang! ”

The first-grade puppet sheathed its saber and stood there, emitting a cold aura.

Xu Bai looked at the two disciples of the Titanium Temple guarding the door and said indifferently, “That's right. I thought you would stop me. If that's the case, I can only kill you.”

The two disciples of the Titanium Temple shivered. One of them said, “Benefactor, it was this group of monks from the Great Yue State who attacked first. They were in the

wrong first. The matters of the martial world have already been settled. Since you have attacked, you should be prepared to die."

"Great Yue State?" Xu Bai heard some additional information.

In this world, not only did Great Chu have temples, Great Yue also had them.

Although the three parties were currently in a tense situation, special existences like temples could still exchange what they needed after some reasonable procedures.

Of course, the so-called mutual exchange was only targeted at people with low strength.

For example, the monks that Xu Bai had killed just now were not very strong. If they were strong, it would be impossible for them to enter Great Chu.

However, what puzzled Xu Bai was why this monk from the Great Yue State came to the Titanium Temple.

"What exactly happened at the Titanium Temple?" Xu Bai frowned."

When the two disciples of Titanium Temple heard this, they looked at each other and did not answer.

Even if Xu Bai had killed someone here, it would have been the monks who had started it. The Titanium Temple would not have cared about this matter. On the contrary, they were very supportive of this situation.

But now that Xu Bai had asked this question, they all chose to keep their mouths shut because in their eyes, Xu Bai was not a Buddhist.

Xu Bai smiled when he saw this. Then, his True Core Strength surged and his appearance began to change. Soon, he returned to his original appearance.

Xu Bai took out the special token with the word "Xu" and stopped in front of the two disciples of the Titanium Temple for a moment.

"Look carefully, who am I?"

The two disciples of the Titanium Temple were slightly stunned. When they saw the words on the token and Xu Bai's appearance, as well as the black saber, Hundred Rend, hanging at his waist, they instantly understood who the person in front of them was.

The next moment, they quickly took a step back and lowered their heads at the same time. They put their palms together and bowed slightly.

“Greetings, Prince Xu.”

Their eyes were filled with excitement, especially after they found out Xu Bai’s identity.

Xu Bai put away the token. Seeing the excitement of these two people, he couldn’t help but ask, “Although this king is now famous, there is no need for you to be so excited, right?”

He knew his own family’s situation, and he was very clear about his current status in the martial world..

The entire Jianghu had been thrown into chaos by him, especially the younger generation. They probably hated him to the core.

After all, being too famous was also something that made people jealous.

However, these two monks were too excited.

One of the Titanium Temple disciples raised his head and said, “We’ve often heard Senior Martial Brother Wu Hua mention His Highness. Senior Martial Brother Wu Hua has told us all sorts of things about His Highness.”

“The disciples of the Titanium Temple advocate martial strength and even more so, they advocate people who subdue demons and devils. That’s why we’re a little excited.”

Xu Bai was speechless.

Alright, he finally understood. So it was No Flower who was bragging about him in the temple, which led to the current situation.

However, now was not the time to dwell on this. Xu Bai changed the topic and asked.

“Is Wu Hua in the temple?”

Now, Wu Hua was already the chief of the Heaven Inspectorate, and he should be very busy. Xu Bai wasn't sure if he could meet Wu Hua here, so he asked.

"Yes." "Ever since the Holy Buddha's remains were discovered, Senior Brother Wu Hua has returned to the temple," the disciple of the Titanium Temple replied. "

' What's the body of the Holy Buddha?' Xu Bai asked.

He saw that today's situation was obviously unrelated to the Holy Buddha's remains, so he asked this question with a puzzled mind.

It's said that it's the body of the first monk in the world," the disciple replied."

The abbot found it by chance and left it in the Titanium Temple.""

"This time, the Holy Buddha's corpse suddenly showed an abnormality. It actually began to grow flesh and blood. The abbot did not find any clues, so he could only open the mountain gate and let all the monks who could rush over take a look."

" I hope that the problem can be solved. I didn't expect that even the Great Yue Country would send people. Actually, it's useless even if they came. They can only send some weaker disciples.""

Xu Bai fell into deep thought after hearing that.

The corpse of the world's first monk?

This was really explosive news.

Anything that had the word 'first' stuck to it was extremely important. Moreover, there was something unusual about this corpse.

According to what he had just said, this corpse should only have bones left, but flesh and blood had grown out.

Was this a revival of the past. or was there some other secret?

Of course, Xu Bai didn't understand, but that didn't stop him from wanting to go in and take a look.

"Since that's the case, I'll go in and take a look at Wu Hua."

Xu Bai thought that there was nothing else to say. He did not expect the two disciples of the Titanium Temple to look troubled.

"Something happened to Wu Hua?" Xu Bai frowned.

The disciple of the Titanium Temple shook his head." Senior Brother Wu Hua is fine. However, if Your Highness wants to see him, it's best to be mentally prepared because Senior Brother is very different from before.””

“What's the difference?” Xu Bai asked curiously.

It hadn't been long since they parted ways in the capital. How much could there

“Your Highness, we can't explain this matter clearly either. Please follow us in, Your Highness.” The disciple of the Titanium Temple smiled bitterly.”

As he spoke, one of the disciples of the Titanium Temple continued to guard the door while the other disciple led Xu Bai in.

Although Xu Bai felt strange, he still followed behind and did not continue to ask.

After passing through the mountain gate, there was still a stretch of stone steps that led straight to the top of the mountain. Xu Bai walked for about an hour before he reached the top of the mountain and entered the real Titanium Temple.

As soon as he stepped in, he felt a sense of peace.

It had to be said that it was indeed one of the top ten temples in the Great Chu Country. The Diamond Temple looked extremely solemn.

The monastery was as quiet as water, and smoke lingered in the air.

The forest outside the monastery was lush and green, surrounded by bamboos.

There were monks sitting cross-legged, and there were monks holding Buddha beads.

The palace was magnificent, with carved beams and painted pillars painted with gold. It looked solemn.

Not only that, but due to the fact that it invited all the temples in the world, although this place was extremely spacious and the courtyard was also connected in all directions, it was already crowded.

“Your Highness, that's Martial Brother Wu Hua's room. You can go there directly. “The disciple of Titanium Temple led Xu Bai to a room and pointed at it.

Then, he said that he had something important to do and had to guard the door before leaving.

Xu Bai waited for the disciple to leave before he walked up and knocked on the door.

However, after knocking for a long time, no one opened the door. Xu Bai scanned the room with his spirit and found that it was empty.

“Where did this monk go?”

Xu Bai was puzzled.

Just as he thought about this, he heard footsteps behind him. When he turned around, he saw No Flower walking towards him with a happy expression.

Xu Bai reacted quickly and retreated. Then, he raised his right hand and said, “Stop!”

No Flower instantly stopped in his tracks. A delicate and pretty girl also stopped in his tracks.

The delicate and pretty girl was holding No Flower’s arm, looking extremely intimate. Most importantly, No Flower’s appearance had undergone a huge change at this moment.

To be precise, his appearance had not changed, but his shiny bald head was gone. In its place was long black hair that hung down to his chest.

“Almsgiver Xu, why are you looking at me with such a strange gaze?” No Flower asked doubtfully.

The corner of Xu Bai’s mouth twitched slightly as he gestured with his hand and said, “No, I want to ask, where is your big bald head?”

No wonder the disciple of Titanium Temple said that Wu Hua had changed a lot. This was not just a lot, it was a complete change..

His bald head was gone, replaced by a head of black hair. Could it be that No Flower was no longer a monk?

No, he was still calling himself a little monk just now. Clearly, he was still a monk.

However, the most important thing was why there was a delicate and pretty girl beside No Flower, and this delicate and pretty girl was even holding No Flower's arm. This was somewhat unreasonable.

When No Flower heard Xu Bails question, he instantly understood. He quickly took two steps forward and opened the door to his room."Almsgiver Xu, let's talk after we enter."

Xu Bai nodded and followed No Flower into the room. The delicate girl also walked in.

After Wu Hua closed the door, Xu Bai looked over with a puzzled gaze.

No Flower didn't immediately explain. Instead, he pointed at the delicate girl beside him and smiled."Almsgiver Xu, let me introduce you. This is Ah Xiu, this little monk's unmarried wife."

Although it was only a brief introduction, Xu Bai felt that if he had a cup of tea, he would definitely spit it out because this brief introduction was too explosive.

If it was just introducing a name or something else, then everything would be fine. However, No Flower suddenly asked," Is this his wife?" What kind of trick was this?

Was he really not afraid of being beaten to death by the host?

Could it be that the Titanium Temple had already opened up to such a state? No Flower saw Xu Bai's surprised face and slowly explained what had happened.

"It's like this. Almsgiver Xu, please listen to this little monk..." No Flower's voice sounded in the room.

As Wu Hua explained, Xu Bai finally understood what had happened.

After everything was revealed, Xu Bai only said one word.

"Six. "

A single six.

The situation was like this. After leaving the capital, Wu Hua carried out the missions of the Heaven Inspectorate as usual, but he was seriously injured during one of the missions.

At that time, his injuries were so severe that even walking became a problem. Coincidentally, he met the Yin Embroidery Master Ah Xiu and was saved by him.

As for what Yin Embroidery was, Wu Hua did not explain. It was a special profession.

Then, something happened.

The Titanium Temple itself advocated entering the mortal world and then leaving it. No Flower had fallen into it at that time.

Love was something that was extremely unreasonable when it surged, so No Flower couldn't resist it at all.

He had once taken some time to return to the Titanium Temple and meet the abbot. He had also told all the doubts in his heart to his teacher and abbot.

The host knew that there was no depression in the heart of the flower, and told him that he could do whatever he wanted.

From then on, No Flower grew his long hair. He went from being the outstanding representative disciple of the Titanium Temple to a layman disciple, and he brought Ah Xiu by his side.

No Flower, who had completely let go of the knot in his heart, became stronger and was now half a step into the mortal evolution state.

"That's about it." No Flower put his palms together.

This action, coupled with No Flower's long hair, looked out of place no matter how one looked at it.

"There's something I don't know if I should say," Xu Bai muttered."

No Flower smiled and said, "Benefactor Xu, with our relationship, we can say anything."

"Don't delay the girl." Xu Bai said bluntly, "The Titanium Temple pays attention to entering the mortal world and leaving it. If you enter the mortal world now and leave it one day, won't you hurt the girl's heart?"

Wu Hua shook his head and said, "I have entered the mortal world. What I have entered is love. What I will get in the future will also be love, but it will not hurt

Ah Xiu."

Xu Bai rubbed his chin, not understanding what he meant.

Wu Hua said, "When love lasts long enough and is strong enough, it will turn into kinship. That's when this little monk will come out of love and embrace kinship."

When Ah Xiu heard this, he clenched No Flower's hand tightly with a sweet expression on his face.

Xu Bai frowned.

He didn't know if what No Flower said was correct or not. After all, Buddhism was full of twists and turns, and he didn't know much about it. However, judging from the performance of these two people, it shouldn't be too bad. He had played a role in reminding them, so it was about time.

"Are you Ah Xiu?" "Is your identity real?" Xu Bai asked Ah Xiu. Or are you hiding anything?"

When he said this, Xu Bai used the power of his soul.

The next moment, Ah Xiu's expression became dull. He slowly shook his head, indicating that he had nothing to hide, nor did he have any intention of harming No Flower.

No Flower didn't stop him. He knew what Xu Bai was doing, and he knew Xu Bai was doing it for his own good.

Both of them had experienced life and death, so naturally, there would not be any estrangement because of this matter.

Xu Bai got the information he wanted, so he deactivated his divine soul.

Ah Xiu recovered, and his face was filled with confusion. He looked at Xu Bai with a hint of fear in his eyes. "Your Highness, you..."

She wasn't from a prestigious family like No Flower, and she wasn't one of those genius disciples, so her mental endurance was much weaker. At this moment, she was a little afraid.

"It's nothing. I'm just asking." Xu Bai said with a smile. "Don't be afraid, Almsgiver Xu is a good person." "A good person?"

Ah Xiu's face was filled with question marks.

Although she was not a genius disciple, nor was she from a prestigious family, she had heard all kinds of rumors in the martial arts world.

Bloody Slaughterer Swordsman!

This was the Bloody Butcher, how could he be a good person?

However, when she saw the smile on Xu Bai's face, she felt confused.

At least from his smile, he looked very gentle..

Could it be that the rumors in the martial world were false?

A Xiu muttered to himself as he went to the press.

Xu Bai didn't know what Ah Xiu was thinking. Hearing the noise outside, he returned to the main topic. "Wuhua, what's going on with the bones of the Holy Buddha in the Titanium Temple?"

When the disciple from the Titanium Temple explained to Xu Bai at the beginning, there were also some things that he did not understand. Xu Bai felt that No Flower should be clearer.

'I only know that flesh and blood have grown out of the Holy Buddha's skeleton,' Wu Hua said." But other than that, there's nothing else unusual.

Besides, there's only a piece of pinky flesh."'"

"Is that so..." "I wonder if I can go and take a look." Xu Bai pondered." To be honest, he was quite curious.

Perhaps this was his occupational disease. After all, if he could trigger the progress bar for such an ancient thing, it would be a huge gain for him.

The more ancient, mysterious, and powerful something was, the better the progress bar would be.

Although it was just a guess, he had to verify it no matter what. After all, he wouldn't lose a piece of meat by taking a look.

"Of course," Wu Hua said.

“Originally, we wanted to wait a few more days to make the corpse public so that everyone could understand it.”

“But if Almsgiver Xu wants to watch, I believe the abbot will definitely agree.”

Xu Bai’s eyes lit up.”

No Flower nodded and turned to look at Ah Xiu. “Wait for me in the room. I’ll bring Almsgiver Xu to see the abbot.”

Ah Xiu obediently agreed and let go of No Flower’s hand.

Only then did No Flower lead the way and step out of the room.

Xu Bai followed behind No Flower.

After they left, the two of them walked side by side in the same direction, chatting from time to time.

Xu Bai could tell that the current No Flower was much more relaxed than before.

In the past, although No Flower didn’t show it, Xu Bai could always feel it. At that time, there were still some restrictions. Now that he had entered the mortal world, he was calm.

Perhaps it was because of this that his strength had improved by leaps and bounds.

The two of them walked for about the time it takes for an incense stick to burn before they arrived at a luxurious hall.

When Xu Bai walked in, he felt the depth of these ten great temples.

The hall was resplendent and golden. The Golden-bellied Buddha was holding his belly and laughing. The statues of Buddha on both sides were huge and lifelike.

Not only that, but there were also hundreds of golden arhats in the hall. They had different expressions and were beautifully shaped.

It gave people a golden and resplendent feeling, as well as a holy and solemn feeling.

Other than these, there were also many monks standing in the hall.

These monks were all wearing different monk robes, and they looked a little old. Many monks outside did not come in, but those who could enter were mostly the leaders of the temple.

They came from all over the world just to watch the changes in the Holy Buddha's skeleton.

When Xu Bai and Xu Lan walked in, they naturally attracted the attention of the crowd. All eyes instantly turned to them. Some of the older monks frowned, their eyes filled with dissatisfaction.

Some of the monks even spoke up to stop Xu Bai and Wu Hua.

"Nonsense!" An old monk with a white beard stepped forward and stopped Xu Bai and No Flower. He shouted angrily, "It's not time to show the Holy Buddha's remains yet. How can a secular disciple like you step into such a sacred land?" After the old monk spoke, many voices immediately echoed.

"That's right. I know who this person is. He's the most representative of the younger generation of the Titanium Temple, Wu Hua, but he just went astray."

"That's right, that's right. Not only did he enter the mortal world, but he also completely fell into the mortal world. Now, he's even returned to the secular world.'

"How can a secular disciple enter without any rules? And this person beside you isn't even a member of our Buddhist Dao, right? Hurry up and leave. Don't disturb this peaceful place."

Although these voices didn't contain any vulgarities, it was very ear-piercing to the ears. After all, every word carried a sense of rejection.

The most annoying thing in the world was being sarcastic. This group of old monks had simply brought out their sarcastic nature to the extreme.

Even with No Flower's upbringing, after hearing these words, he could not help but raise his eyebrows. However, these people were all seniors of the older generation. He clenched his fists and did not know how to answer.

Xu Bai glanced at No Flower." Is there anyone from the Titanium Temple here? Where is the abbot?"

No Flower took a deep breath and tried to calm his anger down before answering, "No, the abbot and the others should not have come out yet. They are probably still in the inner court. After all, the representatives of the other ten great temples are also in the inner court."

Xu Bai didn't even say anything when he heard this. It was as if he had poked a barrel of gunpowder.

"The two of you still have the mood to chat here. Hurry up and get out!"

“This is a peaceful place of the Buddhist Sect. Even if you want to comprehend the Holy Buddha’s skeleton, you can’t enter at this time.”

“If you don’t come out, don’t blame me for being rude!”

Xu Bai shrugged and said, “Then I can do whatever I want.”

No Flower was slightly stunned, not understanding what Xu Bai meant.

Let go, how?

Could it be that they were going to make a move here?

No way...

Even if he knew Xu Bai’s personality, he didn’t think Xu Bai would do such a crazy thing..

Of course, in the next moment, he understood how Xu Bai did it. Although he didn’t do anything, it was comfortable enough.

Xu Bai turned around and faced the group of old monks. He took a deep breath and then let out a roar, “All of you shut up for This King!”

This voice was extremely loud. The moment the words left his mouth, the scene fell into a strange silence.

“You bunch of old things, why are you so unreasonable? There must be something going on when we came up.”

“You keep talking about what’s not worthy and what’s not good. You’re simply pedantic. Do you think you’re good?”

“Bullshit. Yes, that’s right. I’m talking about you. You said the most just now.

Come, bark at this king again."

A series of words were fired like a cannon, causing the group of monks to instantly stop.

The most important way to deal with such a person was not to be sarcastic, but to scold him directly.

Although this was a failure, it was still very satisfying.

What was a dough? Was it important?

For example, if someone else was being sarcastic, you would scold him. If someone else continued to be sarcastic, you would continue to scold him.

No matter what, you have the advantage.

Although it looked a little vulgar and gave the onlookers a particularly unreasonable feeling, it was fine as long as he felt good.

The crowd fell silent as Xu Bai spoke. After a moment, the old monk who was first criticized by Xu Bai stood up.

The old monk's face became unusually red. This was not because he was in good health, but because he was angry.

He came from a medium-sized temple. It couldn't be said to be a big force, but it wasn't a small force either. Now that he was scolded by a young man like this, no one would be able to tolerate it.

"How dare you!"

The old monk raised his hand. He didn't want to care about the three nine twenty-seven anymore. He was ready to teach Xu Bai a lesson.

Xu Baiyu looked at the hand that was about to fall. He did not dodge and calmly took out the token.

Wang Ling's Xu word flashed.

The hand stopped right in front of Xu Bai and did not fall.

Xu Bai stretched his face over and mocked, "What, you want to fight? Why don't you try fighting for this king?"

The old monk's face stiffened as he forcefully retracted his hand.

How could they not understand what the token represented?

In fact, at the beginning, they were just extremely angry, so they did not think about Xu Bai's identity.

Now that he had seen the token, he had already guessed it.

xu, wang Ling, Xu Bai.

The old monk's face was ashen. He did not know whether to advance or retreat. In the end, he gritted his teeth and silently turned around to return to his original position.

Xu Baits lips curled up. He looked around and placed his hands behind his back."Who else wants to stop me now?"

All the old monks present shut their mouths. No one spoke.

They couldn't say.

If it was just a king with a different surname, then there was still room for reversal.

However, the person in front of him was not only a Wang with a different surname, but most importantly, his surname was Xu.

The surname Xu was enough.

Xu Bai turned around when he saw the silence. "Let's go."

No Flower was happy to see the old monks being defeated. After hearing Xu Bai's words, he continued to lead the way.

The two of them swaggered through the hall and arrived at the backyard under everyone's gaze.

Different from the resplendent hall, although the backyard was huge, it gave off a feeling of tranquility.

There was a place in the courtyard where water flowed over the surface of the rock, like a curtain of crystal beads. Behind the curtain, it was as if someone was playing a zither, and the sound of the zither flowed from the fingertips.

Some were virtual and some were real, changing constantly, like a clear and exquisite stream.

Of course, although these sceneries gave Xu Bai a refreshing feeling, what made Xu Bai unable to take his eyes off was a house not far ahead.

Without needing Wu Hua's introduction, Xu Bai knew that the leaders of the ten great temples were all in that room.

Because he could already hear the sounds of conversation coming from the house.

Although the conversation was not very loud, Xu Bai could hear it clearly. At the same time, a strange expression appeared on his face. "You really have a problem!"

"You're right. I agree too. You really have a problem!"

"It's fine if you fell ill when you were young. If you write it in the Buddhist scriptures, no one will care about you. Just treat it as your illness when you were young. After all, no one will remember their thoughts in the Buddhist scriptures."

"But you're already so old, but you still can't forget these shameful habits. I heard that you even beat up your own elder because of this. But look at what you're doing now."

"There's really something wrong with writing your own comments on the Holy Buddha's body."

These voices were very concentrated and orderly. Most of them were the verbal criticism of one person from the ten temples.

Xu Bai could tell that the abbot of the Titanium Temple was the one being criticized.

As everyone knew, the abbot of Jingang Temple liked to annotate his chuunibyou views, so the social death was very serious now.

But... Even Xu Bai did not expect this.

As one of the top experts, he actually made an annotation on the Holy Buddha's skeleton.

Was this an occupational disease?

Just as Xu Bai was thinking this, the door was pushed open.

An old monk lifted the hem of his monk robe and ran out.

Behind him, the nine old monks raised their fists with murderous intent.

"I have to beat him up today!"

Xu Bai had never expected to see a group of old monks chasing after him in one of the ten great temples, the Titanium Temple, which was known as the holy land of Buddhism.

Not only that, but this group of old monks were also the abbot of the ten great temples. Each of them was a famous figure outside, enough to make many Buddhist disciples worship them.

But now, they did not care about any manners at all, let alone the bearing of a Buddhist monk.

The abbot of the Titanium Temple was leading the charge. His hands were no longer pressed together. He was holding the hem of his clothes and swinging his legs as he ran wildly.

His face was bruised and purple. It was obvious that he had been injured before he rushed out. Behind him were the abbot of the other nine temples. Each of them had an angry expression on their faces as if they wanted to capture the abbot of the Titanium Temple and torture him.

This kind of scene was not something that could be seen once in a hundred years, but it could at least be considered extremely rare.

Everyone present was an expert. The moment they rushed out, they noticed Xu Bai and No Flower.

The abbot of the Titanium Temple reacted quickly. He immediately stopped in his tracks and straightened his back. At the same time, he placed one hand on his chest and made an extremely serious expression.

“So it’s a distinguished guest. Stop fooling around.”

As he spoke, the abbot of the Titanium Temple turned his head and winked at the abbots of the nine great temples who were rushing over.

It meant that since outsiders were here, everyone should pay attention to their face.

However, what he did not expect was that his previous actions had completely angered these nine colleagues. They did not care at all.

Because he had stopped now, he was caught up in an instant. The abbot of the nine temples used both his hands and feet to press the abbot of the Titanium Temple to the ground with a bang.

This was only the beginning. In the next moment, they surrounded the abbot of the Titanium Temple and began to beat him up inhumanely.

“Hiss...” When Xu Bai and No Flower saw this scene, they both sucked in a breath of cold air. The two of them looked at each other and silently retreated far away.

Compared to the old monks in the main hall, these were the real top big shots. However, they were now like street thugs, kicking the abbot of the Titanium Temple.

The current scene was a little comical. The abbot of the Titanium Temple also looked miserable. From time to time, he would stretch out a hand from the gap and pull on the ground, but he would soon be dragged into the crowd.

This brutal beating lasted for the time it takes for an incense stick to burn before it gradually came to a stop. The abbot of the nine temples stood up and tidied his clothes. His face was filled with comfort. The abbot of the Titanium Temple, who was lying on the ground, looked at the sky with a dull gaze. He felt like he had been played badly.

“Ahem.” Xu Bai saw that it was time, so he coughed as a hint.

Coincidentally, it could also give the hosts a good way out. Sure enough, as Xu Bai coughed, all the hosts present looked over.

“Greetings, Prince Xu.”

Xu Bai didn’t need to reveal his identity, nor did he need to say anything. They were people of high status, so they naturally knew Xu Bai’s identity, so they greeted him naturally.

Xu Bai smiled and cupped his hands.” Eminent Monks, please don’t stand on ceremony. In terms of age, all of you are my seniors. There’s no need to be so polite.”“

He was such a person. If someone respected him, he would respect them.

The abbot of the nine temples looked at each other and nodded in unison. He did not hide the praise in his eyes.

He was neither arrogant nor impatient, and he was in an important position in the King of a different surname. He could almost be considered a young talent in the world today.

Anyone who had such a halo, even some of the older generation, could get lost in it.

However, Xu Bai was able to treat them with a normal heart, and he was even able to remain humble under such circumstances. The hosts felt that this person was not a person who lived up to his name.

The first impression was very important. Now, it seemed that Xu Bai had given them a good first impression.

At this moment, the abbot of the Titanium Temple, who had been lying on the ground, finally got up. He stretched out his hands and rubbed his face a few times. The wound on his face that was deliberately left healed in an instant.

“Prince Xu, you’re finally willing to come to my Titanium Temple to play. “The abbot of the Titanium Temple didn’t put on airs at all. He went forward and held Xu Bai’s hand very kindly, leading him into the room. “Come, follow me into the house. I’ll show you something good.”

Xu Bai’s mouth twitched when he saw this.

He did not expect the abbot of the Titanium Temple to be so enthusiastic. He was not used to it.

However, No Flower, who was standing at the side, seemed to have gotten used to it. He winked at Xu Bai, meaning that this was how the abbot was like. Otherwise, he wouldn’t have done such a f \* cking thing as beating up his own elder.

Moreover, the abbot of the other nine monasteries did not stop him from doing so as if it was only natural.

Xu Bai had already guessed what the abbot of the Titanium Temple wanted to show him. To be honest, he was looking forward to it.

He did not understand what the Holy Buddha skeleton was either. Although he was not a Buddhist and should not be interested in it, what if it could trigger the progress bar?

Therefore, it was naturally best to take a look first.

As he thought about this, he was dragged into the room by the abbot of the Titanium Temple.

After entering the room, Xu Bai saw a very simple long table in the empty room. On the long table, there was a golden skeleton..

It was really simple.

There was only a long table. There was not even a cloth on the table. The skeleton was placed casually on the table like an unimportant broken bone. Due to the carelessness, the two leg bones of the skeleton were even interlaced.

“Don’t mind appearances.” The abbot of the Titanium Temple said.

From the first meeting, Xu Bai’s impression of this host was that he was unreliable. After all, he had seen him being beaten up by nine people of the same level the first time they met. No matter what, he was not reliable.

However, at this moment, when the abbot of the Titanium Temple said this, his eyes contained wisdom.

The abbot of the other nine temples nodded in unison. They had all lived for so long, so they knew what Xu Bai was thinking.

Xu Bai nodded his head in a half-understanding manner. Although he still didn’t understand why they were doing it so casually, he didn’t feel conflicted about it because when his gaze fell on the words ‘withered bones’, he couldn’t take his eyes off it.

The progress bar was very new and dazzling.

The entire progress bar appeared abnormally abrupt above the golden skeleton.

There was indeed a progress bar!

Xu Bai was overjoyed, but his face was expressionless.

The reason was simple. He saw many small words on the skeleton.

From the handwriting, it should be the work of the same person. On it was engraved the comprehension of the golden skeleton.

Not only that, but these inspirations were written in an abnormally childish way, making people feel ashamed at a glance.

But what was even stranger was that Xu Bai only felt that he was in chuunibyou. He could see the contents clearly, but he couldn't recall them no matter how hard he tried.

"Cough cough, Prince Xu, don't look at those words. I've added a special method to those words, so it's easy to forget them." "After all, I'm afraid that some weaker disciples would see me and affect their state of mind." Xu Bai was speechless.

Alright, now he finally understood who had written these words. It was all written by the abbot of the Titanium Temple.

He had long heard that the abbot of the Titanium Temple liked to leave comments in some places. This was the root of his illness since he was young.

He did not expect it to be used on the Holy Buddha's skeleton, and it was even written on someone else's skeleton.

There was no empty space in Xu Bai's sight.

As for what the abbot of the Titanium Temple had said about affecting one's state of mind, Xu Bai felt that it was simply far-fetched.

He was probably afraid that others would find out that he had done something stupid, so he did it on purpose.

Before Xu Bai could say anything, veins popped out on the foreheads of the abbot of the nine temples. Apparently, he was enraged again.

However, with Xu Bai here, they couldn't say anything.

"Prince Xu." The abbot of the Titanium Temple ignored the surrounding gazes and said, "I've long heard from Wu Hua that you especially yearn for Buddhism. Moreover, it's rumored that your academic knowledge is extremely complicated. I wonder if you can see the secret of the Holy Buddha's bones growing flesh and blood?"

Grow flesh?

When Xu Bai heard this, he followed the skeleton's finger.

On the golden palm, the little finger was no longer a skeleton, but a human's little finger. Flesh and blood had already grown there. Other than that, the surroundings were still bare.

The abbot of the Titanium Temple had a very simple idea. The abbots of the other nine temples had the same idea. There was definitely a major discovery in the matter of the Holy Buddha's skeleton growing flesh and blood, and the premise of this major discovery was to see through the secret.

Actually, this skeleton was not obtained by the Titanium Temple back then. It was only for this reason that it was stored in the Titanium Temple.

To put it bluntly, among the ten great temples, the one with the most singular ability was the Titanium Temple. It was also the best at fighting. It was also the safest to be kept in the Titanium Temple.

Moreover, they had studied it before and found nothing unusual, so they thought it was just a skeleton. However, it was different now.

If there was an abnormality, it meant that their previous research could be overturned. It also meant that they could not figure it out. Since they could not figure it out, then this secret would always be a secret. It was better to take it

out and let everyone see it.

Of course, Xu Bai knew what they were thinking, but he was not sure about one thing.

Was this progress bar the one on the skeleton or the one on the chuunibyou notes?

If it was the progress bar on the skeleton, he might really be able to discover the secret. However, if it was only the progress bar on the chuunibyou annotation, then the progress bar he comprehended was left behind by the abbot of the Titanium Temple.

Xu Bai walked a few steps and was about to reply in a more official way.

However, he did not expect that as he walked, his gaze would freeze again.

Due to the angle, the progress bar was floating in the air. As Xu Bai walked, the angle of the progress bar changed. Below the golden progress bar, there was another golden progress bar.

Xu Bai stopped in his tracks. His face was expressionless, but he was secretly surprised.

He had made it.

This time, he was rich again.

There were a total of two progress bars. He could now confirm that one of them was the progress bar on the Holy Buddha skeleton, and the other was the chuunibyou annotation on it.

Under Xu Bai's observation, these two progress bars actually began to rise at the same time.

Xu Bai guessed that it might be because of the combination of the two, which would save him a lot of time.

Thinking of this, he already knew how to answer.

Xu Bai said with a smile as he met the gaze of the abbot of the Titanium Temple..
