“There are some clues, but I still need to take a closer look.”

No matter what, he had to wait and see. He had to get his hands on the progress bar.

After all, he had to use his eyes to watch the progress. He couldn't possibly come up with another reason to stay here, right?

The abbot of Jin Gang Temple was just trying to make a last-ditch effort to let Xu Bai take a look. He didn't have much hope.

In his opinion, since he had dealings with Xu Bai, it was good for his Titanium Temple. He would treat it as a good relationship.

However, he did not expect Xu Bai to say that it was possible.

As long as it was possible, no matter how big the possibility was, he could try it.

“How long will it take?” The abbot of the Titanium Temple asked.

Xu Bai pondered, “Give me ten days.”

Ten days was an exaggeration. After all, no one knew if the two progress bars would overlap, or if the beginning would be fast but the middle would be slow.

Therefore, Xu Bai was exaggerating.

The abbot of the Titanium Temple nodded silently.

Before he could speak, a representative from the nine great abbot walked out and said.

“Prince Xu, thank you.”

“You're welcome. I'm just interested in this matter.”

The nine abbot nodded in unison and said nothing more.

However, the host who had just spoken still added.

“If we can really find out, we also know some of the ways of the secular world.”

As they spoke, the nine hosts took out a booklet from their pockets and handed it to the host who had just started speaking. The host then handed it to Xu Bai.

“These are some of our daily Buddhist insights. Please forgive us for being rude, but we can’t give you an exclusive cultivation method because we have to pay attention to the rules of the Buddhist Sect.”

Xu Bai looked at the ten booklets in his hand and the golden progress bar on them. If it weren’t for his good facial skills, he would have been stunned by now.

What a great harvest!

This was called a great harvest, a truly great harvest.

Nine books!

There were nine progress bars!

Moreover, looking at the pace, it was a very slow progress bar.

He was rich!

Xu Bai understood that he had struck it rich.

He looked at the abbot of the Titanium Temple beside him, meaning that he had already given it to him.

The abbot of the Titanium Temple gave him a look and said, “Isn’t that so?”

Xu Bai looked at the Holy Buddha skeleton beside him and the annotations on it. He understood.

Alright, other people gave him books, but you carved it directly on the bones of the Holy Buddha’s skeleton. It was simply outstanding.

“Everyone, why do I feel like you were waiting for me?” Xu Bai was hinting at something.

Although he had received so many progress bars, he was not blinded by joy. He quickly realized that something was wrong.

This is not the right place, that is, every person has prepared something for himself, this is as if it is dedicated to him.

The abbot of the Titanium Temple explained,” Prince Xu is right. That’s indeed the case. After all, His Majesty has said that you are an unparalleled talent. We will place our bets on you.””

“We’re going to take out this Holy Buddha skeleton for the Buddhists of the world to comprehend.”

“Regardless of whether you comprehend it or not, we will show it to Prince Xu again.”

“Of course, we also know that Prince Xu is particular about business, so these things have been prepared.”

As he said that, the expression of the abbot of the Titanium Temple was like a fox that had stolen a chicken, a cunning old fox.

In this world, there was no such thing as help for no reason.

Perhaps there would be some help between friends. With the friendship between No Flower and Xu Bai, if No Flower appeared, Xu Bai would come to help. However, No Flower said that it might not necessarily be the Titanium Temple.

Not long ago, the abbot of the Titanium Temple had found No Flower, hoping that he could ask Xu Bai for help.

However, No Flower quickly gave his answer. Xu Bai could help, but it had to be a deal.

The reason was simple. No Flower didn’t want his friendship with Xu Bai to become a mutual advantage.

The abbot of the Titanium Temple did not say anything about this answer. He even felt that No Flower had done the right thing.

If Xu Bai came to help for nothing because of this, the Titanium Temple could not afford to lose face, and neither could the other nine temples.

Therefore, these rewards were prepared in advance. What they did not expect was that Xu Bai really came at this time.

Xu Bai sighed and decisively handed all the books in his hand to the first-grade puppet beside him.”“Since you’ve said so much, I can only accept it. Seniors, don’t worry. I’ll do my best.”

Everyone nodded. They still believed Xu Bai’s words.

Although it was only the first time they met, they were still famous and everyone in the martial arts world knew about them.

Xu Bai was serious about doing business.

Of course, they wouldn't take back what they had given, regardless of whether it worked or not.

Although they were all eminent monks, they were actually more intelligent than monkeys. After putting on their fur, even monkeys would sigh at their inferiority.

If it didn't work out, then it would be a greeting gift to Prince Xu. After all, Prince Xu's current identity was here, so everyone could get to know each other.

And if it happened to work out, wouldn't it be better to use this greeting gift as a deal? They wouldn't lose anything.

If that's the case," said the abbot of the Titanium Temple," feel free to let me know if you need anything during this period of time. I'll get someone to send the food over.. Everyone, why don't we set the time for the Holy Buddha's skeleton to be displayed to ten days later?"

The abbot of the nine temples looked at each other and nodded. They had no objections to this decision.

Then, the hosts left without bothering Xu Bai.

The abbot of the Titanium Temple did not leave, and neither did No Flower. After the abbots of the nine temples left, he gave No Flower a look.

Of course, No Flower understood the meaning of this look. He turned around and left the room, closing the door before he left.

As he turned his head, his long black hair fluttered in the wind, giving Xu Bai an illusion.

If he put on a black robe for No Flower and changed the word "flower" to "heaven", he would look like a big shot in a TV series in his previous life.

Xu Bai knew that the abbot of the Titanium Temple must have some unspeakable secret. Otherwise, there was no need to wait for the abbot of the nine temples to leave before closing the door.

He looked at the abbot of the Titanium Temple, implying that he had a secret.

“Did Prince Xu see through it?” The abbot of the Titanium Temple came to the Holy Buddha’s skeleton and placed his hand on the table.

Xu Bai smiled.” It must have something to do with the Holy Buddha’s skeleton. The abbot spent so much effort to write so many comments. I feel that it’s not that simple.”“

“In the beginning, I thought that the abbot wrote these mysterious things that were easy to forget because he was worried that others would find out about your chuunibyuu.”

“But I thought about it later and felt that something was wrong.”

That’s right, he did have such thoughts at the beginning, but the moment the abbot of the Titanium Temple stayed, he overturned his thoughts.

Even a young and immature person would not be stupid enough to leave something on the Holy Buddha’s skeleton, let alone the person in front of him, who was a top-notch existence.

“Sigh...” ” It’s not an annotation,” the abbot of the Titanium Temple said with a bitter smile.” It’s an imprisonment technique that I obtained from a ruin in my early years. ““

Xu Bai raised his eyebrows.” Imprisonment? Is it alive?” he asked.”

The abbot shook his head.” No, he only had one pinky that turned into flesh. I was just being cautious.”“

Xu Bai sized up the abbot from head to toe and paced back and forth. He suddenly felt that things were not that simple.

The reason for the confinement was that they were worried that the Holy Buddha skeleton would come back to life. Why should they be worried?

Could it be that after coming back to life, it would become strange? Or rather... Was it a bad existence before it came back to life?

The abbot of the Titanium Temple raised his hand, and a burst of Buddhist light flashed, isolating the surroundings.

Xu Bai subconsciously touched the Hundred Splits at his waist, then released it.

“Prince Xu is really vigilant.” The abbot of the Titanium Temple said.

“This is just a subconscious action. After all, I was once a member of the martial arts world and have experienced many storms in the martial arts world. “Xu Bai loosened his grip.

When the abbot of the Titanium Temple heard this, he said,” There’s no other way. I have to ensure that the communication is safe enough because Prince Xu will hear a true secret next. A secret that only I know. It’s about...” The secret of the Buddhist Sect’s shortcomings.”

Xu Bai didn’t think much of the first half of the sentence, but when he heard the last half, he was a little surprised.

What did it mean to have secrets about the drawbacks of Buddhism?

The more mysterious it sounded, the more curious he became. Especially when he thought that this matter was definitely related to the Holy Buddha skeleton, he became even more interested.

The abbot of the Titanium Temple said,” Holy Buddha, the first monk in the world. He is also the person who created Buddhism. He is unprecedented and will not be followed. He can be said to be the founder of Buddhism.”

“In this world, all the cultivation techniques of the Buddhist Sect come from the root he created and are slowly derived from this root.”

“It can be said that he plays a vital role in the reason why the Buddhist Sect has spread its branches and leaves. However, he has also caused the Buddhist Sect to fall into a quagmire that it can never get rid of.”

“Everyone in this world has a limit to their lifespan. Even people like us who work in the industry only live longer than others.”

“No matter how long our lives are, there will be a day when we will come to an end. ”

Xu Bai nodded his head. After hearing this, there was no problem.

In this world, no one could have eternal life. Life had an end.

“Abbot, do you mean that the Holy Buddha has a different thought when he is about to reach the end of his life?”

Since he mentioned lifespan and the Saint Buddha, Xu Bai easily connected the two together.

However, he didn't know if his thoughts were good or bad.

'That's right,' the abbot nodded." But there are some guesses that are wrong. To be precise, the moment the Buddhist Sect was established, it was already within the Holy Buddha's plan.'"

"Everything we learn and see, as long as it's derived from the Holy Buddha, has its drawbacks. This is the news I obtained by chance."

"Prince Xu, you should know that when I was young, I did some things.

I didn't read Buddhist scriptures for nearly a month because it would remind me of that period of time."

"It's also during this month that I realized that there was a terrifying power in my mind that wanted to break out of my body. It was my own power, and I couldn't control it."

Speaking up to this point, the abbot of the Titanium Temple still felt a little palpitated. Clearly, the situation at that time had left an indelible impression on him.

"You can't even control your own strength?" Xu Bai frowned and said, "It shouldn't be with the abbot's strength.. Could it be related to the root left behind by the Holy Buddha?"

If it was a newbie who couldn't control his own strength, it would be fine. However, even the abbot of the Titanium Temple couldn't control it. This shouldn't be.

"It's the Buddhist Dharma." "If we don't read the Buddhist Dharma for a long time, our strength will go out of control and we might even explode and die."

"Back when the Holy Buddha founded the Buddhist Sect, he made such a request. After the baptism of time, it has long formed a habit that no one has discovered."

"However, I discovered it during that accident."

"What's his purpose?" Xu Bai muttered. "Is it resurrection?"

It was related to lifespan. Since the Holy Buddha was already dead, the only thing left was resurrection.

As soon as this question was asked, the abbot of the Titanium Temple quickly confirmed it.

"At first, I thought that this was just a flaw of the Buddhist Sect that even the Holy Buddha couldn't get rid of, but later I realized that it wasn't." The abbot of the Titanium Temple smiled bitterly.

"Prince Xu, did you see that? Flesh and blood had already grown out of his bones. Everyone knew what it meant for bones to grow flesh and blood."

"Combined with the disadvantages that it left us, I thought of a possible way to resurrect."

The abbot of the Titanium Temple stopped and walked to the bookshelf beside him. He took out a book and opened it in front of Xu Bai. Finally, he took out a piece of paper from the middle of the book.

This piece of paper was only the size of a palm, and there were many words written on it.

"This is what I concluded after a long time. Actually, as early as a month ago, he had already grown flesh and blood, and I began to study the profundities within." The abbot handed it over.

Xu Bai took the paper and read it all. His expression became extremely serious as he returned the paper.

The first thing written on it was a conjecture about why there were such drawbacks.

Death meant that everything would turn into nothingness.

If the Holy Buddha wanted to revive, he could not let everything turn into nothingness.

The most important thing was the physical body. Now that he had the Holy Buddha's skeleton, the first step was completed.

How could his physical body be preserved for so long without being destroyed?

Why were the bones golden?

The abbot of the Titanium Temple guessed that it had something to do with the Buddhist scriptures recited by the Buddhist cultivators of the past generations.

The abbot of the Titanium Temple had tried to read Buddhist scriptures in front of the skeleton. He realized that when he read, the golden color on the skeleton changed imperceptibly.

He guessed that perhaps this was the reason why the bones could remain unchanged and even grow flesh.

At that time, the skeleton had already grown out flesh and blood, so hard that even he could not destroy it.

Buddhist scriptures could be used to enhance the bones, and after countless years, the bones had reached a terrifying level.

This was a fact that had to be done.

If they did not do it, none of the Buddhist cultivators would be able to control their strength. However, if they did it, the skeleton would continue to strengthen.

Therefore, the abbot of the Titanium Temple felt that this was a dead end.

“Abbot, do you think that it will be a bad thing for him to be resurrected?” Xu Bai asked,”

The abbot nodded without hesitation.””Yes.”

“Oh?” Xu Bai was slightly surprised.

He realized that the answers given by the Jingang Temple’s abbot were very smooth. There was no hesitation at all.

The abbot of the Titanium Temple pointed at the skeleton and said,””Prince Xu, look at how simple he is. Do you really think it’s what I said?”

“This matter is only known to the people in power of our ten great temples, because he is not worthy of our glory.”

“The ancient books that have been passed down from generation to generation only reveal one aspect of him. It’s enough to know the consequences of his resurrection.”

As he spoke, the abbot of the Titanium Temple turned around and returned to the bookshelf. He took out a book and opened a page, handing it to Xu Bai.

Xu Bai took the book and read it in detail before closing it again.

The content on this page seemed to be a lot, but it was actually just to show one of the ideas of the Holy Buddha, and this idea could be summarized in a short way.

The Holy Buddha wanted everyone in the world to join the Buddhist Sect at all costs. He also wanted to eliminate all those who were not Buddhist Sect.

Xu Bai quickly understood what this meant.

He wanted to use this opportunity to impose this profession that required Buddhist Dharma restrictions on the world.

This was because the more people entered this profession, the more they would be restrained, and the more they were restrained, the stronger their bones would be after they died.

He thought about the future. For example, even if the Holy Buddha was resurrected, would he have an endless lifespan?

Impossible, he would definitely die again. Then, when he died, he would definitely use this method.

Before he died, he would definitely drag more people into the water and let more people become members of the Buddhist Sect. This would also allow his bones to become even stronger after he died.

This was what the abbot was worried about.

"I understand." "Abbot, are you not going to tell the people from the other temples?" Xu Bai asked."

The abbot shook his head and said, "I don't plan to tell you because I don't have any conclusive evidence. Moreover, I want Lord Xu to help me with something."

"Oh?" "What does the host want me to do?" Xu Bai asked.'

The abbot of the Titanium Temple put his palms together.."

What?

Protect No Flower?

At first, Xu Bai thought that he had misheard. After asking again and again, he received an affirmative answer from the abbot of the Titanium Temple.

“What does No Flower have to do with this?”

He was very puzzled. Why did he want to protect No Flower? Looking at the current appearance of the abbot of the Titanium Temple, No Flower seemed to be especially important.

Now, the only way to solve the problem was to unravel the secret of the Holy Buddha's skeleton. If he could find something from it, he might be able to solve the problem of Buddhism.

But why was it related to No Flower?

The abbot of the Titanium Temple put his palms together and said, “Prince Xu, since you want to solve the problem of the past, there's a possibility of failure. The problem has existed for so long. The possibility of failure is still very high. ““

“What I mean is that if the Buddhist Sect falls into eternal damnation in the future, if it's convenient for Prince Xu, please help Wu Hua.”

“From what the abbot said, No Flower seems to be different from the rest.” Xu Bai muttered.”

Even a fool could hear that. It was obvious that No Flower's identity was different. It was not as simple as it seemed.

The abbot of the Titanium Temple chanted a Buddhist proclamation and said, “If all the Buddhist sects are destroyed, as long as Wu Hua is still alive, he will be able to create a brand new Buddhist sect. This is also my guess. After all... His identity cannot be revealed.”

Such an answer was very strange. It was vague and mysterious. In short, it did not give Xu Bai a clear answer, but there was a mysterious feeling in it.

Xu Bai also knew that the abbot of the Titanium Temple did not want to tell him. No one would be willing to be a riddle maker. Such an answer could be considered perfunctory, but it could also be considered as unwilling to tell Xu Bai.

He didn't have to entangle himself with these people. Everyone had their own secrets, and he also had the right to hide his own secrets. It wouldn't be good to force them.

Xu Bai brought the topic back. Looking at the Holy Buddha's skeleton not far away, he said, "Then let's start from today. I'll meditate on the Holy Buddha skeleton here."

The progress bar was right in front of him. If he didn't hurry up and work hard, Xu Bai would feel that it was too much.

Seeing Xu Bai's eagerness, the abbot of the Titanium Temple knew that it was time to get down to business, so he didn't chat much. After confirming that Xu Bai was here and wouldn't go far, he left.

When he left, the abbot of the Titanium Temple closed the door behind him.

After a loud bang came from the door, Xu Bai turned around and gave the first-grade puppet a look. The puppet slowly walked to the door with a cold gaze and locked the door from the inside.

After doing all this, Xu Bai rubbed his hands together when all the preparations were done. He came to the Holy Buddha's skeleton and sized it up.

Just as he had guessed, when the two progress bars were combined on the same object, he could see them at a glance and make the two progress bars rise at the same time.

This was also because they had the right time, place, and people. Usually, such a situation had never happened.

This was the first time he had seen it. He had tried it before. Even if two books were stacked together, it was impossible for them to increase at the same time.

Therefore, it should be considered a coincidence. However, whether it was a coincidence or not, it was just a progress bar in Xu Bai's eyes.

After finding a good seat and sitting down comfortably, Xu Bai began to feel excited.

Time slowly passed.

During this period of time, Xu Bai did not stop. He did not leave the room and kept rushing the progress bar.

While he was feeling bored, his recent deeds had already spread throughout the entire Titanium Temple.

Especially when he had just arrived, he had almost angered the leaders of the medium-sized temples to death. It was even more interesting.

Of course, although Xu Bai was holding the progress bar, he did not shut his eyes and ears. From time to time, a small monk would come to deliver food to him, and he also heard about this news.

Especially when he found out that the old monks who had been angered by him were even more upset after hearing these rumors, he could not help but smile.

“I’m very angry, but I don’t dare to fight. I’m really helpless...” Xu Bai mocked in his heart.

In front of him, the two golden progress bars were moving side by side. There was only one last bit left, but he did not leave. He just sat there quietly, waiting for the last progress bar to be completed.

It seemed like only a trace, but it took a full 15 minutes for the last trace of progress bar to be completed.

Light blue smoke appeared in front of Xu Bai’s eyes, then condensed into new words and appeared in front of him.

[You have studied the annotations and comprehended the Scripture of Suppression Immunity.]

[You studied the Holy Buddha’s skeleton and comprehended the Demon

Absorption Technique.]

“It really is two skills.” Xu Bai smiled.

Just as he had expected, the Scripture of Restraint should be the annotation left behind by the abbot of the Titanium Temple, because the annotation was meant to suppress the skeleton.

As for the other magic absorption skill, it should be something from the Holy Buddha’s skeleton.

With that thought, Xu Bai continued to look at the light blue text. Although the light blue text had disappeared, it did not disappear. Instead, it was condensing again. This was a sign that it was about to fuse.

A moment later, brand new words appeared again.

[Fusion option found. Fusion in progress.]

[Suppression Immunity + Diamond Holy Demon Body = Diamond Holy Demon Suppression Immunity Body.]

[Demon Absorption Technique + Myriad Forms Heavenly Art = Myriad Forms Heavenly Attraction Art.]

[Fusion successful!]

In the next moment, the light blue text in front of him turned into a large amount of information and surged into Xu Bai's mind..

Xu Bai closed his eyes and immersed himself in the chaotic flow of information. After a while, he finally sorted out all the information and opened his eyes again.

In front of him, the latest interface appeared.

[Name: Xu Bai]

Realm: Extraordinary unspecialized of the third rank." [Swordless Saber Grade (Extraordinary Rank-2):[Maximum level.]

” Comprehension: Maximum level.”

Big gains, two really big gains.

The first was the Diamond Holy Demon Body, which had advanced to Extraordinary Rank-I.

With the addition of the two words ‘exempt from suppression,’ the effect was significantly improved. The so-called ‘exempt from suppression’ meant to avoid all suppression.

As long as it was below Transcendent 1, he could be exempted. As for those above, he could have enough resistance.

At the moment, this skill was powerful enough, but it was still slightly inferior to the next upgrade.

First of all, his strength had reached Extraordinary Rank-3, which was a huge increase.

Many of the skills he had now were high-quality skills, but he needed to have the foundation to use these skills. Extraordinary Rank-3 was the foundation that strengthened this skill.

The reason was the Extraordinary Rank-3 Myriad Forms Heavenly Drawing Technique.

Compared to the Ten Thousand Forms Heavenly Art, there was an additional word, lead, and this lead had an extremely high magical effect.

First of all, this skill benefited from the Holy Buddha’s skeleton.

As for the skill on the Holy Buddha skeleton, it was called the Demon Absorption Technique. This cultivation technique had a very important feature, which was that it could absorb the chanting of Buddhist scriptures and use it to strengthen one’s body. This was also the reason why the Holy Buddha skeleton could survive for a long time.

However, this thing had a drawback. It could not be used while alive. It could only be used when dead.

After fusing with the Myriad Forms Heavenly Technique, the Myriad Forms Heavenly Technique became the Myriad Forms Heavenly Attraction Technique. It removed those drawbacks and added a characteristic.

His Heaven Transformation was Chaos, and the Myriad Forms Heavenly

Attraction Art now possessed the ability to absorb chaos and explode violently.

Absorbing other people's chaos, the more one absorbed, the stronger one would be. Most importantly, this skill had no upper limit.

What did he mean by no upper limit? As long as he continued to suck like this, as long as he lived long enough and no one disturbed him, he could even destroy the world with one move.

However, it still had a flaw. The area it covered was not large, and the speed was not very fast.

Xu Bai estimated that if his mental cultivation method continued to improve, it might increase the speed and area.

However, this was enough for him to use as a trump card.

Xu Bai stood up and stretched his neck, his face full of joy.

He still had nine books in his hands, which were from the other nine temples. However, he did not have time to read them for the time being. After all, he had to investigate the problem of the Holy Buddha's skeleton first.

After receiving the things and agreeing to others' matters, he had to do it well. Only then would the business flow continue.

Thinking of this, Xu Bai circulated his True Core Strength and began to carefully examine the Holy Buddha skeleton in front of him.

He had already absorbed the progress bar on the scroll and had the ability to achieve the same result, so he could see the abnormality.

After a careful examination, Xu Bai finally found the problem with the little finger on the Holy Buddha's skeleton.

That little finger was the only place where flesh grew. When Xu Bai looked over, a thread that ordinary people could not see appeared at the top of the little finger of the Holy Buddha skeleton. The thread was very long and connected to the ceiling.

Xu Bai followed the translucent blood-red thread and saw that the ceiling had been penetrated by the thread. Or rather, the thread was invisible and the ceiling could not block it.

“If we haven’t reached the end, could it be in the sky?”

With the ceiling blocking his view, Xu Bai couldn’t see clearly. He went out and jumped onto the roof.

At this moment, he saw that the thread was connected to the sky.

No one could see it. Only after absorbing the skill could Xu Bai see it clearly.

At the end of this thread was a void, but the thread was stuck on it as if it had already penetrated it.

The contrast between the blue sky and the blood-red threads was a little strange.

Xu Bai frowned and flew to the end of the thread.

Now that he was closer, he could finally see clearly that the thread had indeed pierced into the void.

He wasn’t sure what was on the other end, but judging from the current situation, it definitely wasn’t something good.

“Inform the host of this news first,” Xu Bai muttered, “I’d better not move.” ‘

Regardless of whether the host could see it or not, he had already found out. Of course, he had to tell them.

Xu Bai didn’t have the intention of moving the thread first.

The novels and TV series told him that people with cheap hands would not have a good ending.

Thinking of this, Xu Bai turned around and was ready to land on the ground to tell the truth..

However, he did not expect that before he could fly down, he felt a gaze watching him.

Xu Bai suddenly turned his head and looked at the end of the silk thread behind him.

The feeling of being watched came from there.

When he turned around, he finally realized who was watching him.

At the end of his line of sight, it was originally empty, but at this moment, there was actually a phantom flickering. It would occasionally shine and occasionally darken.

The shadow did not look tall, and it was even about the height and size of an ordinary person. However, it gave Xu Bai an extremely uncomfortable feeling just by standing in the air.

Destruction, destruction, slaughter...

All kinds of emotions were extremely direct and added an indescribable feeling to this figure, making people not dare to look at him directly, afraid that if they looked at him, they would fall into endless madness.

This feeling was constantly transmitted. If it was someone else here, it would probably be very uncomfortable.

Xu Bai felt that it was alright. Although he also felt a little uncomfortable, his Heavenly Change was extremely chaotic, so he was already used to it.

"Saint Buddha?" he said slowly.

When the two words left his mouth, the figure in front of him trembled slightly and quickly dissipated, as if it had been triggered by Xu Bai's words. Xu Bai rubbed his chin and thought, What a familiar aura."

The moment the figure dissipated, he felt a familiar aura spread out.

He couldn't be more familiar with this aura because it gave him a very deep impression.

-Bizarre market!

The moment the Holy Buddha's figure disappeared, the aura of the Bizarre Market actually leaked out. Although only a trace was revealed and it disappeared very quickly, Xu Bai was certain.

Among the living, no one understood the bizarre market better than him.

After all, he had gone to both the Bizarre Demon City and Bizarre Human City, and he had a deep impression of them.

"Yes, I understand." After Xu Bai sensed the aura, he thought about it carefully and connected the recent events. He had a clue in his mind.

"The Holy Buddha is already dead. In this world, when a person dies, they either have nothing or turn into something strange."

"From the looks of it, the Buddha has already turned into a Strange. Moreover, it entered the Strange City when it turned into a Strange, so it retained its consciousness when it was alive."

"He wants to be resurrected, and after he is resurrected, he will come out of the Bizarre Market."

Xu Bai descended from the sky.

He could not wait any longer. He had to inform the abbot of the Titanium Temple as soon as possible and see if he and the other nine temples could do anything about it.

This was because the things involved were becoming more and more complicated. Even the bizarre market was involved.

After Xu Bai landed on the ground, he didn't stop. He walked straight to the room of the abbot of the Titanium Temple.

Soon, he arrived at his destination and knocked on the door.

Not long after, the abbot of the Titanium Temple opened the door. When he saw that it was Xu Bai, he stepped aside to make way for Xu Bai to enter the room before closing the door again.

Without waiting for the abbot of the Titanium Temple to ask, Xu Bai told him everything that had happened. Of course, he didn't say anything that he should hide, such as his cheat.

After hearing Xu Bai's explanation, the abbot of the Titanium Temple fell into deep thought.

After the time for half an incense stick to burn, he finally came back to his senses.

“It’s actually related to the Bizarre Market.” ” Wait a moment, Prince Xu,” the abbot of the Titanium Temple said.” We can’t hide this anymore. I have to inform those old fellows.” ‘

As he spoke, the abbot of the Titanium Temple did not stay and left in a hurry.

Xu Bai didn’t stop him. He sat calmly in his seat, poured himself a cup of tea and took a sip.

Actually, it was normal for the abbot of the Titanium Temple to want to tell others about this. After all, this matter involved the Strange City. If Xu Bai could figure it out, the abbot of the Titanium Temple would definitely be able to figure it out as well.

There was a very important point in this, and that was that the resurrection of the Holy Buddha was no longer the most serious matter.

What was more serious was that resurrection meant that the Holy Buddha had come out of the bizarre market.

If they could really use this method to get out, the Bizarre Market would definitely be able to sense it. If they used this to simulate other methods, wouldn’t the world be in chaos?

Right now, a war was also breaking out between the Bizarre City and the Bizarre City. They wanted to unite as soon as possible and then launch a large-scale attack.

If there was an easier way before this, they would have accepted it more easily.

Therefore, the nature of this matter had changed. There was no need for the abbot of the Titanium Temple to hide it.

Not long after, the remaining nine abbot came to the room under the lead of the abbot of the Titanium Temple.

The door was closed, and the atmosphere was heavy.

“Prince Xu, let’s go take a look at the remains of the Holy Buddha. “The abbot of the Titanium Temple said solemnly.

Xu Bai put down his teacup and asked,””There’s already a way to deal with the problem?”

“It’s better to try than not to try at all.” The abbot nodded.”

Xu Bai didn't say anything and just nodded in agreement.

Everyone left the room again and walked to the room where the Holy Buddha's skeleton was placed at the beginning.

The Holy Buddha's skeleton was still scattered on the side. It looked normal, but in Xu Bai's eyes, the thread on his little finger was very eye-catching.

"Everyone, I didn't tell you before because I didn't have conclusive evidence. Now, I have evidence.."The abbot took a deep breath and said,""Then let's destroy the flesh on his little finger!"

Xu Bai stood at the side and listened. He thought it was a very ingenious method, but he didn't expect it to be so simple. He couldn't help but frown."Only destroying the flesh of the little finger?"

In his opinion, if he wanted to destroy it, he might as well destroy the entire Holy Buddha skeleton. If he continued to grow back the flesh of his pinky finger, wouldn't it only treat the symptoms but not the root cause?

As soon as he said this, the hosts looked at each other and smiled bitterly.

One of the abbot chanted a Buddhist proclamation and said,""Prince Xu, you might not know this, but with the current hardness, you really can't destroy the bones. At most, you can only wipe away the flesh and blood on them."

"I know that you can't destroy it even if you join forces, but why don't you let everyone in the world join forces?" Xu Bai said."

The hosts fell silent.

Obviously, they didn't know how to answer Xu Bai's words.

If they couldn't destroy the game, it didn't mean that there weren't any stronger players.

If even stronger experts could not be destroyed, then they would gather all the experts in the world and destroy them together. At least in Great Chu, under the orders of the Emperor, those experts in the territory still had to obey.

At this moment, seeing that the hosts had fallen silent, Xu Bai felt that they were up to something.

No one answered Xu Bai's question. The abbot of the nine temples took a step back and asked the abbot of the Titanium Temple to stand up.

The abbot of the Titanium Temple looked left and right and knew that he had been tricked again. He could only say helplessly, "Prince Xu, you must not do this."

"In this world, can you guarantee that everyone has a righteous heart? There will always be people with bad intentions."

"Besides, there's still the Great Yue State and the Barbarian Race. If they use some tricks during the process of destruction and cause the situation to develop in an unpredictable direction, that would be a real sin." Hearing this, Xu Bai thought about it carefully. It was indeed the case.

However, their method was only a temporary solution.

"From now on, we'll clean up the Holy Buddha's skeleton every once in a while to ensure that no similar problems will occur." The abbot of the Titanium Temple said.

Xu Bai nodded.

If that was the case, then he could only do it according to this method. At least it could be alleviated and wouldn't grow any more.

"Then let's begin." The abbot of the Titanium Temple looked at the other abbots and said.

The abbot of the nine temples agreed. They did not avoid Xu Bai. They put their palms together and surrounded the Holy Buddha in front of them.

In the next moment, every abbot raised their right hand and placed it above the Holy Buddha's skeleton.

Bursts of Buddhist light rose from their bodies, and within the Buddhist light, there was a mysterious Buddhist chant.

The entire room was filled with Buddhist light and Buddhist chants, making people feel intoxicated when they heard them.

Xu Bai was in the room. He felt that the ten abbots in front of him seemed to have gathered together to form a Buddha as tall as a mountain.

“As expected of a top expert of the older generation.” Xu Bai silently took a step back and thought to himself.

Even though the Buddhist light was not targeted at him, he could still feel the pressure of a mountain.

The Buddhist light and voice continued to spread. Under the Buddhist light and voice, the little finger of the Holy Buddha skeleton was undergoing earth-shattering changes.

The flesh and blood on the little finger were affected by the Buddhist light and Buddhist voice. They did not melt quickly, but instead grew rapidly.

Seeing this situation, Xu Bai hurriedly shouted.

“Stop!”

The hosts all stopped. When they saw this scene, their faces darkened.

“Why is this?” Xu Bai asked.

Not only was it not destroyed, but it was even helping it grow. This was the first time he had seen such a strange scene.

The abbot of the Titanium Temple chanted a Buddhist chant and sighed. “I miscalculated. The Holy Buddha’s plan is really too detailed. The Buddhist Sect was founded by him. Using the methods of the Buddhas to deal with it will instead help it grow.”

Xu Bai raised his eyebrows but didn’t answer.

Although he didn’t say anything on the surface, he was thinking in his heart.

It seemed that the methods of the Buddhas had failed. After all, with the methods of the Buddhist Sect, there was no way to wipe off the flesh on it. On the contrary, the more they used it, the faster it grew.

He could only use other methods.

“Write a letter to His Majesty,” Xu Bai said. “Report the entire incident to him and ask him to find an equal number of experts to smooth this matter over.”

The current solution was clear. They couldn't destroy the whole place because there were too many masters who needed to be destroyed. People's hearts were unpredictable, and Great Yue State and Barbarian Race were eyeing them covetously.

However, to destroy the flesh alone, only the flesh of the little finger would be destroyed. Only an equal number of experts would be needed.

"I'm afraid this round trip will take a long time," said the abbot of the Titanium Temple. "

Xu Bai said," That's still better than having nothing to do. Besides, I think it's better not to start comprehending the Holy Buddha's skeleton.'"

Now that the matter of the Holy Buddha's skeleton was clear, it would probably cause unnecessary trouble if he still tried to comprehend it. It was best to minimize all the risks.

The abbot of the Titanium Temple and the other abbots looked at each other and nodded in unison.

"This is the only way. However, we have already spread our word back then.

This time, we have to find a good excuse."

Xu Bai asked curiously," Why do you have to find an excuse? If you find an excuse, aren't you clearly telling others that there's something going on here?

You still have to comprehend the Holy Buddha's skeleton. Just make a fake one.

With the abilities of the ten abbot, I believe you should be able to do it..'"

He had clearly said that he was going to be in the middle of nowhere, but he suddenly did not carry out this matter. Wouldn't it be a waste of money? It was better to make a fake one and fool him this time.

The abbot thought about it and felt that this method could work.

There was still some time before the date set by the Holy Buddha's skeleton.

They could make a fake one and temporarily stabilize the monks.

At this time, the basic solution had already come out. Next, Xu Bai left the room and wrote a letter to the abbot of the Titanium Temple, asking him to send someone to the capital as soon as possible.

Then, the remaining matter was the matter of the ten great abbot. They wanted to create a fake one to fool all the Buddhist cultivators in the world first.

Xu Bai did not stay in his room. He returned to his room and took out the nine books he had obtained earlier. He randomly picked one and started to check the progress bar.

As long as there were no accidents along the way, according to this rhythm, this matter would basically be settled. Xu Bai would not have anything to do in the future, so he should focus on increasing his strength.

At the moment, the growth of strength was the most important. Moreover, there were a total of nine progress bars.

Titanium Temple was safe enough. He needed to finish the progress bar of these nine books here before going to the next place.

Thinking of this, Xu Bai continued to work hard.

While Xu Bai was reading the progress bar, in a dense forest not far from the Titanium Temple.

At this moment, there were hundreds of bald men in black sitting among them.

Although they looked like monks, they were dressed in black and did not have the solemnity that monks should have. Instead, they had a cold and gloomy aura.

Hundreds of men in black were reading Buddhist scriptures with their heads lowered. If someone who knew Buddhist scriptures was here, they would know that the Buddhist scriptures they were reading were actually read upside down.

Hundreds of people whispered at the same time. Although their voices were very soft, when they gathered together, they shook and buzzed.

Suddenly, one of the monks dressed in black stopped.

As soon as he stopped, the black-robed monks stopped as well. After a while, the hundreds of black-robed monks all stopped moving.

The black-robed monk at the beginning stood up from his cross-legged posture and looked in the direction of the Titanium Temple.””It’s the Buddhist light. It’s the Buddhist light that stimulated the supreme Holy Buddha’s skeleton, causing his flesh and blood to speed up.”

“They have discovered it. They must have discovered the secret within, but their Buddhist light cannot destroy flesh and blood.”

When these two sentences were spoken, all the black-robed monks present revealed a shocked expression. Then, their expressions gradually disappeared and became gloomy.

On their bodies, there was a cold and icy aura spreading, making people despair and fear.

Another black-robed monk walked out from the crowd and asked the monk in black at the beginning, ””Chief Buddha, what should we do?”

The black-robed monk who was called the Head Buddha fell silent when he heard this. He only came back to his senses after a moment.

He slowly walked up and down as if he was thinking about what to do.

Wherever he walked, the grass withered as if it had lost its vitality.

After about the time it took for an incense stick to burn, the Chief Buddha finally stopped.

“Everyone, we are the direct descendants of the supreme Holy Buddha. Today, the Holy Buddha has begun his resurrection, but it has been obstructed by these people who are protected by the Holy Buddha. It’s time for us to make a

”

move.

The monks in black nodded in unison.

‘ We’ve been passed down for generations,” the Chief Buddha continued.”

There’s only a small portion of us. We’re definitely not their match, but it doesn’t mean that we have no way.’

“They must have realized that the Buddhist light and Buddhist seal can’t deal with the Holy Buddha, so they will definitely invite other experts. We have to seize the time

difference and summon a trace of the Holy Buddha's remnant soul before the other experts arrive."

As soon as he finished speaking, the black-robed monks immediately went into an uproar, whispering to each other endlessly.

"The Holy Buddha's divine soul has long disappeared. Can you really summon a trace of it?"

Even if it is called out, can it deal with so many Buddhists?"

"Most importantly, how can we summon the remnant soul of the Holy Buddha?"

The whispers gradually grew louder.

The Chief Buddha heard it and frowned. He raised his hands and suppressed the noise.

"The method left behind by the Sacred Buddha will definitely be able to summon his remnant soul. As for whether we can deal with them, you don't have to think too much about it."

"And how do I summon the name of the word?" I need you."

The black-robed monks looked at each other, not understanding the meaning of this sentence.

However, they didn't understand. Because in the next moment, the black-robed monks present suddenly held their chests and fell to the ground without any signs of life.

Streams of black Qi flowed out of the black-robed monk's body and gathered in the palm of the Chief Buddha, turning into a black pearl the size of a peanut.

"I'm sorry, everyone." The Chief Buddha said calmly, "The inheritance of the Holy Buddha's direct line of descent. I can control your life and death. The most exquisite part of your divine souls is the key to resurrecting the Holy Buddha's remnant soul."

After saying this, he kept the pearl on his body. With a shake of his body, he actually took off his black clothes and put on a white robe.

The coldness on his body was gone, replaced by a Buddhist light.

The Chief Buddha tidied himself up and walked toward the Titanium Temple..

Titanium Temple.

At this moment, monks from all over the world had gathered in the temple.

They came from different temples, but they had the same goal, which was to comprehend the Holy Buddha's skeleton.

Usually, they would not get the chance to do something like this. However, this time was different. The Titanium Temple had made it clear that they wanted all the monks in the world to participate. Therefore, no one was willing to give up such a rare opportunity.

The usually large Diamond Temple looked rather crowded now.

Many monks were whispering to each other. Their voices were slowly spreading out and mixing with each other, making it extremely noisy.

"Why isn't he out yet? Didn't we agree that we could see the Holy Buddha's skeleton today?"

"Don't be anxious. Since the Titanium Temple has made a promise, it's one of the top ten temples. It won't go back on its word."

"That's right. For such an important matter, we have to be 100% confident. Otherwise, how could we take it out so easily? Since we have to be confident, we will definitely delay it for a longer time."

The monks' voices were intermittent, but one of them was very different.

The monk was dressed in white. He looked calm on the surface, but there was a sense of holiness and peace between his brows. However, if one looked closely, one would find that his eyes carried an undetectable bloodlust.

When the Chief Buddha heard the conversation of the surrounding Buddhists, the corners of his mouth unconsciously curled up, revealing a look of disdain that was difficult to see through. However, he quickly put it away.

His eyes were fixed on the great hall in front of him. There were already many disciples of the Titanium Temple standing in formation there, acting as isolation and protection, separating the crowd from the great hall.

The Chief Buddha did not see the Holy Buddha's skeleton, nor did he see the people from the ten temples, but he did not act rashly.

He was waiting, waiting for the moment the Holy Buddha's skeleton appeared. Then, he would put the soul beads that he had absorbed from the black-robed monks into it. This way, he might be able to draw out a trace of the remnant soul.

Only then would he be considered successful. Therefore, he did not act rashly and waited patiently.

Time gradually passed. After about an hour, the crowd finally became restless because ten old monks walked out of the hall.

Due to the appearance of the abbot of the ten great temples, these people were restless. However, after they raised their hands, the restless crowd gradually calmed down.

The abbot of the other nine temples shifted their gaze to the abbot of the Titanium Temple, meaning that since he had organized this grand meeting, he would be in charge.

The abbot of the Titanium Temple did not say anything. He pressed his palms together and took two steps forward.

Although his voice was not loud, it spread throughout the entire temple.

"Everyone, I know that you have been waiting for a long time and are getting impatient, so let's not talk about formalities now and start today's content directly. "

"The Holy Buddha bones you want are here, but everyone must come up in an orderly manner. You can't disturb the order, and you can't have conflicts because of this."

"Start from my left side, take turns to go up, then go down from the right side." As he spoke, the abbot of the Titanium Temple opened up a path.

The remaining nine abbots also turned their bodies after the abbot of the Titanium Temple did this. The scene behind them was finally revealed.

There was a table with golden bones on it.

If Xu Bai was here, he would definitely give him a thumbs up and praise him for doing it as if it was real.

After the golden skeleton appeared, the monks could no longer sit still, and their eyes lit up.

However, since the abbot of the Titanium Temple had spoken just now, they did not cause any commotion.

They were in someone else's territory now, and the other party's strength was at the top here. They did not want to cause trouble.

Following that, the ten great abbots did not care about this. A disciple of the Titanium Temple began to guide them. One by one, the monks walked out from below and walked in along the location of the Holy Buddha's skeleton. After looking at it for a while, they shook their heads and left.

Just by looking at it for a while, how could he see any clues?

Even if he kept comprehending like this, he might not be able to comprehend it. After all, the abbot of the Titanium Temple had studied it for so long, but he had never heard of the abbot it.

However, such a good thing could be deeply remembered even if it was just a glance. After remembering it, he could go back and slowly think about it. Although everyone could only watch for a while, there were too many people here. The monks came up and down the stage in an endless stream. At this moment, there were still many monks gathered, but they could not see the whole picture.

The head Buddha is also under the clouds

When he saw the Holy Buddha's skeleton appear, he was originally extremely excited. However, after his excitement was over, he suddenly realized that something was wrong.

What was wrong?

It was obvious that he could not sense any connection between him and the Holy Buddha skeleton.

To put it nicely, inheritances like them were the direct descendants of the Holy Buddha. To put it bluntly, they were the tools of the Holy Buddha, or rather, they were the backup plan.

Therefore, he believed in his intuition as a direct descendant.

There was only one possibility if he didn't feel any connection. This Holy Buddha skeleton was very likely fake.

“Aren’t these people too bold?”

If they were to use a fake one to deal with the world, if they were discovered, the ten great temples might lose face. Although they were still powerful, their prestige would drop in a straight line..

The Chief Buddha felt that it was a little difficult because he had not found the real Holy Buddha’s skeleton.

However, he was also very glad that he didn’t follow his original plan. Otherwise, he didn’t even know where the Holy Buddha skeleton was. If he attacked rashly, he might be destroyed.

Just imagine, if he used the God Soul Pearl in the wrong place, not only would it fail, but he would also be discovered. And here, if he was discovered, there would only be death.

The Chief Buddha heaved a sigh of relief. At this time, he realized that his palms were covered in sweat. This was caused by escaping from danger.

But here came the problem. How was he supposed to find the Holy Buddha’s skeleton and put the bead of the divine soul in it?

” The key problem now is that I can’t even find the skeleton. Otherwise, I would have used it long ago.”The Chief Buddha stood there and thought.

Like everyone else, he went up and did it perfunctorily. He took a look at the fake skeleton before returning to the courtyard and frowning in thought.

“Now it seems that we should wait and see. I’m definitely going to get the Holy Buddha’s body.”

The Chief Buddha decided not to leave. In fact, he couldn’t go anywhere. If he suddenly left this place, it would be very difficult for him to appear again.

Even if he appeared, it would easily arouse suspicion. Therefore, this was a unique opportunity for him.

An opportunity had to be waited for and grasped. He decided to continue guarding it. Once a new opportunity appeared, he would never let it go.

At the thought of this, the Chief Buddha suppressed the panic in his heart and buried his anxiety quietly.

At this moment, the monks were still coming in an endless stream, and then leaving in an endless stream. However, no one could see anything.

It would be a ghost if he could tell. This was all a fake.

This scene looked very lively, but Xu Bai did not join in the fun. In his opinion, it was better to get two more skill books. At this time, he was in the room, but he had not finished one of them.

After all, this progress bar was not cheap. It was given by the abbot of the ten great temples, so the progress was very slow.

If the progress bar had not been upgraded once, it would have been even slower.

However, Xu Bai didn't mind. As long as he could improve, it was fine. The length of time was meaningless to him.

The room was so quiet that even a pin drop could be heard. Only Xu Bai and the puppet of the First Stage stayed there quietly. They thought that nothing would happen today and that they could continue to work on the progress bar.

However, he did not expect that before he could take a good look at it, he suddenly felt his heart palpitate for no reason.

Xu Bai rubbed his chin and felt that something was wrong.

He had the Geomantic Arithmetic, so he was quite particular about this aspect.

Moreover, he had some special premonitions, so he did not take it lightly. Instead, he put down the book in his hand and handed it to the first-grade puppet beside him. After the first-grade puppet received it, he raised his index finger and his True Core Strength surged continuously.

Then, waves of Feng Shui power appeared. A golden compass appeared in the direction he was pointing.

After the golden compass appeared, the needle on it began to spin rapidly as if it was cramping.

The golden compass usually had three situations. The first was that it would not move after it appeared. The second was that it would move for a moment after it appeared and then stop. The third was the situation now. It would spin crazily and could not stop at all.

The first scenario proved that nothing had happened. The second scenario was that something had happened and he had guessed it. The third scenario was that something had happened but he had not guessed it.

No matter what, the golden compass was giving him a hint that there was a problem.

Not only was there a problem, but there was also a huge problem. Even a

golden compass equivalent to a first-grade compass could not calculate it. It was definitely above first-grade.

“Now is the time to comprehend the Holy Buddha’s skeleton, and such a mess has already occurred. Could something have happened there?” After pondering for a moment, Xu Bai waved his hand to disperse the golden compass and walked out of the door.

He walked out of the door, and the first-grade puppet followed behind him.

After leaving the door, Xu Bai rushed toward the main hall without stopping. After walking for about half an incense stick of time, he finally arrived at the main hall.

It was almost the end, and there were still many monks coming up and down the stage. When Xu Bai arrived, not many people noticed him.

After all, everyone’s attention was on the Holy Buddha’s skeleton. There was nothing else.

However, Xu Bai could feel a gaze on him, but it quickly disappeared into the crowd.

He tried to spread out his divine soul and search the surroundings one by one, but he did not find anything unusual. There were too many people here. If he wanted to act more convincing, it would really be difficult to notice.

However, Xu Bai knew very well that there must be a problem here.

Thinking of this, Xu Bai winked at the abbot of the Titanium Temple on the stage.

Ever since Xu Bai arrived, the
Titanium Temple had noticed him.

Hence, Xu Bai gave him a look. He understood the meaning behind it and took two steps back before quietly getting off the stage.

Seeing this, Xu Bai raised his foot and walked toward the abbot of the Titanium Temple.

As he walked in this direction, under the platform, a trace of gloominess flashed across the Chief Buddha's eyes when he saw Xu Bai leave.

"Why hasn't this fiend left yet?"

Of course, he knew that Xu Bai was here. After all, he had been monitoring the situation here at all times. However, he did not expect Xu Bai to still be here..
