Xu Bai understood. No Flower could only use it to the Transcendent Realm, so the stronger No Flower was, the stronger he would be.

In other words, the benefits to Xu Bai were even better than the Abbey Dean's.

The female abbey dean's wood carving could increase his progress bar, and No Flower's was even more impressive.

As No Flower's strength increased, did that mean that he would be able to see a new progress bar every once in a while?

"A chicken that can lay eggs. This is definitely a chicken that can lay eggs." Xu Bai rubbed his hands hard, his face full of excitement.

He had once had an idea that was especially suicidal. He really wanted to tie the female Abbey Dean up and let her carve wood for him every day. Of course, that was just an idea.

Now, he wanted to tie No Flower up. It was also an idea.

It was impossible to tie No Flower up. After all, it was related to the future of Buddhism. This method was a little extreme, but compared to the female Abbey Dean, Xu Bai had a better choice.

Xu Bai was their benefactor now. He could come and go as he pleased.

He would come back every once in a while, so wouldn't there be a steady stream of progress bars?

Wonderful!

Wonderful!

Xu Bai praised himself for his wit.

At this moment, No Flower felt more and more that there was something wrong with Xu Bai's gaze, but he couldn't say anything.

He couldn't help but recall some of the articles that Liu Xu had once written, especially some of the descriptions that made him shiver involuntarily. He subconsciously put his hand behind his back to block it.

"Benefactor Xu, I treat you as a brother..."

The abbot of one of the ten great temples gasped when he heard this. The other abbots were immediately suspicious, not understanding why he would do this.

"It's fine, it's fine." The old monk, who was one of the ten abbots, laughed and quickly wiped away his own performance. "I usually read a lot of books, so there's some overlap."

Everyone was even more puzzled.

At this moment, Xu Bai finally understood what No Flower meant.

However, there was no way to explain this. He did not want to explain. The progress bar was the most important thing now.

Xu Bai touched his chin and said, "It's been so long. I haven't discussed

Buddhism with Wu Hua for so long. I want to talk about Buddhism with Wu Hua now. Is this condition okay?"

The abbot of the Titanium Temple was stunned. Then, he said, "Just like this?"

He thought Xu Bai's request was ridiculous, but he never expected it to be this request.

The abbot of the Titanium Temple could not help but recall that a long time ago, Wu Hua had once told him that Xu Bai did not become a Buddhist disciple's wisdom root, but he was very passionate about Buddhism. Perhaps it was related to what Wu Hua had said before.

At the thought of this, the abbot of the Titanium Temple waved his hand.

"If that's all, we don't need Wu Hua. We can take turns discussing with Prince Xu."

"No, no, no." Xu Bai waved his hand and said, "Since the Holy Buddha is dead, it proves that this is no longer appropriate. I want to see what the so-called new

Dharma is."

“Sigh... Alright then.” The abbot sighed.

Since he had already said so much, the abbot of the Titanium Temple could not forcefully reject him, so he could only reluctantly agree.

In his heart, Xu Bai’s image inexplicably became higher.

He had already made such a huge contribution and obtained the goodwill of the Buddhist sects in the world, but it was only such a small request.

There were rumors about how ruthless Xu Bai was and how he would take revenge for the smallest grievance. Now, it seemed that Xu Bai had many shining points.

“Indeed, you can only hear half of the rumors in this world. “The monks present thought to themselves, Not only is Prince Xu not despicable and shameless, but he is also a man of noble character and integrity.”

Thinking of this, the monks present looked at Xu Bai with even more respect.

Look, this was what it meant to have noble character and integrity. He had made such a great contribution, and he did not ask for anything in return. He just wanted to hear about the Buddhist Dharma.

Then what were they waiting for?

Promise him!

He had to agree!

Otherwise, wouldn’t Prince Xu be disappointed and the world would laugh at their Buddhist Sect?

Xu Bai couldn’t understand why these monks looked at him with such respect.

He could only attribute it to the fact that he had saved the Buddhist Sect. He did not expect that a small operation would cause a misunderstanding among the people present.

Now that the Holy Buddha was dead, everything had returned to dust.

Next, the abbot of the top ten temples began to clean up the mess. Xu Bai didn’t want to get involved in this matter, so he excitedly pulled No Flower into the room.

If the surrounding monks didn’t know Xu Bai’s anxious appearance and knew that he was listening to Buddhism, they probably wouldn’t be able to help but think about it.

The door was closed, leaving behind a group of monks and the dumbfounded Ah Xiu.

In the Jianghu, there was a legend of the ”

In a teahouse, a storyteller was holding a wooden table in his hand and explaining vividly.

“The last time I read it, it was said that the Holy Buddha still had evil intentions and actually wanted to control the Buddhist sects in the world. At this moment, the appearance of a young man ruined the Holy Buddha’s plan.” “This person is seven feet tall and has a strong body. He has a black saber at his waist and is handsome. People in the martial arts world call him the Bloody Butcher.”

“At that time, the Holy Buddha had already succeeded, but Prince Xu stood up from the disaster. He was dressed in gold and grayish-white, and he stood in front of everyone without hesitation..”

“Prince Xu raised his head and looked at the Holy Buddha in the sky with a disdainful smile on his face. He slowly opened his mouth and his words shocked the entire Buddhist Sect.”

“Prince Xu said that he will slaughter Buddha today!”

“As soon as he finished speaking, he saw Prince Xu carrying gold and grayish-white colors as he fought with the Holy Buddha. That battle was dark and the entire sky was filled with the golden blood of the Holy Buddha.”

“In the end, Prince Xu stood with his saber in the sky full of blood. Behind him was the Holy Buddha, who had already turned into a corpse.”

“From that day on, Buddha died.”

The wooden table fell.

All the customers and customers were mesmerized by the story. At this time, the storyteller suddenly stopped talking, which made people look at him.

The storyteller chuckled.”

Since it was a storyteller, it was natural to pay attention to the rhythm. He left a suspense and waited for the next time to say it again. This action of his naturally caused a wave of laughter.

Scenes like this were currently happening in various places in Great Chu, including the martial world.

Beijing.

In an abandoned old house, Eunuch Wei walked out with a calm expression.

In his skinny right hand, he was holding a bloody head.

The head had a tragic expression on its face. It was still unwilling and resentful when it died.

“What an unresigned thief. I haven’t had any activities in a long time, so I did exercise a little. “Eunuch Wei moved his neck, looked at the head in his hand, and smiled.””Resurrect? Dream on.’

Not long ago, after they received the letter from Xu Bai, they had already started to deal with the people on the list. Now, they were almost done.

A gust of wind blew, and a sabersman suddenly passed by Eunuch Wei and threw a head to the ground.

The saberman was old, but he still stood straight. The saber in his hand was rusted, but there was dark red blood on the blade.

“The fifth.”

Eunuch Wei smiled.” As expected of the Blade Demon. He’s even faster than us in resolving this. “”

Blade Demon sneered.” If I was above you, I wouldn’t have been seriously injured by you that day. You’re an invincible Transcendent. You can even defeat a monster who has become a Saint. Why do you have to mock me?””

Eunuch Wei still had a smile on his face.”Have you thought it through?” Saber Demon took out a saber manual and threw it to Eunuch Wei.””Of course I’ve thought it through.

Because of the Sword Empress, I won't betray Great Chu in my life. Then, I'll pass on this skill well. It's just that I don't know who you want to give this saber manual to."

Eunuch Wei said thoughtfully, "You should be demoted."

Blade Demon was stunned. He then put the rusty blade on his shoulder and turned to leave without saying a word.

"Where are we going?" asked Eunuch Wei.

"There are two more." Blade Demon said indifferently.

After taking two steps, Sword Demon suddenly stopped and said something else.

"I heard that he's an expert with a saber. It's not a bad thing to give it to him. It won't be a disgrace to my saber."

With that, Blade Demon turned around and left without hesitation.

Eunuch Wei watched Blade Demon's back as he left. He slowly took out his left hand, which had been placed behind his back, and covered it with gray threads.

"You're quite knowledgeable. Today, I won't take your life."

Eunuch Wei looked at the saber manual in his hand and smiled happily."I have to return to the capital to report and go to the border again. Prince Xu should be very interested in our gift."

With that, Eunuch Wei's figure flashed and he quickly disappeared from where he was.

The martial world was in chaos, so were the Great Yue State and the Barbarian Race.

In this entire world, there was only one person who was not in chaos. At this moment, he was in a room, looking at the black lotus in No Flower's hand.

No Flower felt very uncomfortable.

It had been more than ten days. Almost half a month had passed.

No one knew how he had lived for the past half a month. Only he knew how uncomfortable he had been.

When he was in Shengxian County, he had also discussed Buddhism with Xu Bai. At that time, he felt that it was a kind of torture.

No matter what he said, Xu Bai looked very confused. It was as if he was playing the lute to a cow.

It wasn't a problem to do this occasionally, but after a long time, it was easy to feel uncomfortable.

The most important thing was that Wu Hua felt that Xu Bai was even more abnormal than when he was promoted to the county.

That's right, perverted!

When he was in Shengxian County, Xu Bai had been staring at his bald head when he was listening to him talk about Buddhism. In short, he felt that his head was no longer his and could be taken away by Xu Bai at any time.

During the discussion of Buddhism, Xu Bai had even made a request, which was to keep the black lotus in his hand.

At that time, No Flower was puzzled and asked about this question, but Xu Bai replied with one sentence.

"I like it this way."

No Flower was stunned. Later on, he remembered that Xu Bai was the benefactor of Buddhism. After thinking about it, he still did as he was told.

He had thought that it would only be for a short period of time, but he did not expect it to last for nearly half a month.

In the past half a month, he had been holding a black lotus flower and preaching Buddhist Dharma, which made him feel ashamed of this black lotus flower.

And today, he was finally free.

"In the past half a month, I've been discussing Buddhism with Brother Wuhua. I feel like I'm becoming more and more of a follower of Buddhism." Xu Bai patted No Flower's shoulder. The smile on his face was fake, and the words he said were even more fake..

No Flower sighed and said, "Almsgiver Xu, you really don't have the root of wisdom. Why don't you forget about it?" "I'll let it go this time. Xu Bai said with a smile.

"This time?" No Flower asked.'

Xu Bai nodded and said with a gratified expression, "Brother Wuhua, you have to seize the time to increase your strength. In the future, when I'm free, I'll come over and discuss new ideas for Buddhism with you."

In front of him, the flower was no longer the same flower, but a heartless progress bar production machine.

"Let's go." Xu Bai didn't say anything else and turned to leave. He left in a hurry, leaving No Flower standing there in a daze.

He had to hurry because the progress bar on the black lotus had already finished. Light blue words were appearing. He had to avoid special effects due to obtaining skills.

Xu Bai rushed back to his room as fast as he could with the fastest speed he could get. He slammed the door shut and looked at the void in front of him.

Not far ahead, light blue words appeared and then gathered into a line of words that Xu Bai could understand.

[You have comprehended the Black Lotus and the Devil Buddha True Body.]

After the words appeared, they quickly turned into smoke again. However, they did not turn into information and enter his mind. Instead, new words appeared.

Fusion!

[Fusion option found. Fusion in progress.]

[Demon Buddha True Body + Vajra Holy Demon Immunity Body +

Indestructible Soul Body = Indestructible Demon Soul Buddha Body.]

[Fusion successful!]

Three. A total of three skills were combined together.

When the words "fusion success" appeared, the light blue text disappeared completely. Then, it turned into a large amount of information and entered Xu Bai's mind.

Xu Bai closed his eyes, carefully carefully chewing, waiting until he digested all the information, then he opened his eyes again.

In front of him, the latest attribute panel appeared in the void not far from Xu Bai.

[Name: Xu Bai]

Realm: Extraordinary unspecialized of the third rank.”

” Comprehension: Maximum level.”

Xu Bai rubbed his eyes, wondering if he had seen wrongly. After confirming it again and again, he realized that the scene in front of him was real.

The Undying Soul Body was gone, and the Vajra Holy Demon’s Undying Body was also gone, but it was replaced by the Undying Demon Soul Buddha Body.

This skill had reached Transcendent Rank-I, far surpassing the Extraordinary Realm.

What was transcendence? It was a realm that surpassed the Extraordinary. It was a whole realm higher.

Xu Bai never expected the progress bar on the black lotus to be so awesome.

The Indestructible Demon Soul Buddha Body, which had reached Transcendent

Level 1, had also reached Transcendent Level. It retained the original Indestructible Soul Body's recovery ability and had also been upgraded to Transcendent Level.

The most important thing was that after fusing them together, with the Demon Buddha's True Body as the guide, one skill would be enough to satisfy all the previous effects. It could save him a lot of trouble and reduce many of his flaws.

It could both defend and recover. It was perfect.

After working hard for half a month, this skill had actually become the strongest skill he had at the moment.

"But... He still has a weakness." Xu Bai tasted it and quickly found its weakness.

He didn't have enough Yuan Power.

Even with the True Core Strength contained in the Body-strengthening Collection Technique, it was still not enough to activate a Rank-I Transcendent.

It was like playing a game. His skills were strong enough, but his mana was not enough.

With his current situation, he could use it for an hour while at full power.

Just like before, he could drive at any time, anywhere, and he was not afraid of anything.

"Looks like I have to find an opportunity to improve my mental cultivation technique. However, an hour is enough." Xu Bai thought for a moment and decided on his goal.

An hour, and under the situation of full power, using it for an hour was already very strong.

At least, it was not five seconds for a real man. An hour was enough for him to crush many people into powder.

"There seems to be more and more of me fighting above my level...'

Thinking of this, Xu Bai finally finished the last thing and completely relaxed. Hmm, try to see how this defense is going to be turned down.'"

Now that he had a new skill, he naturally wanted to try it out. Xu Bai was no exception.

It was just a test of defense, not an attack, so there was no need to worry about damaging the surroundings.

Xu Bai rubbed his hands together and activated his True Distant Power excitedly.

The Refined Qi surged. Xu Bai could feel the Refined Qi in his body slipping away like water. This consumption was too great.

In the next moment, as the True Origin Force surged, Xu Bai sized up his appearance, and the corner of his mouth twitched slightly.

“This is f * cking...This is too ridiculous.. I don’t want to become like this!”

Xu Bai shouted in his heart. Then, he stretched out his hands and rolled up his sleeves.

Looking at the thing on his arm, he fell into deep thought.

On his arm, there were golden and grayish-white interwoven patterns that were constantly spreading from his palm.

The lines looked very complicated and beautiful, giving off an evil sense of beauty.

He kept rolling up his sleeves. When he rolled them up to his shoulders, he looked at the patterns that were still there and fell silent.

“Don’t tell me it’s all over my body?” Xu Bai thought to himself.

He looked around and saw that the surroundings were quiet. The door was closed and there was no outsider.

Xu Bai didn’t care about these things. He took off his Sun and Moon Taoist robe and walked to a mirror.

The face in the mirror was also covered with golden and gray-white patterns.

Although the patterns covered the entire face, it did not look strange at all. Instead, it was especially harmonious, giving people a very evil feeling.

Not ugly, but rather very beautiful. It made Xu Bai's already handsome face look mysterious.

Xu Bai looked down and found that his entire body was covered with golden and gray-white patterns. These patterns were imprinted on his skin, and there were also patterns appearing in some indescribable places. "Is this the Immortal Demon Soul Buddha Body?"

Xu Bai was speechless.

There was no black light or golden light. Everything seemed simple and boring. Everything was restrained and turned into patterns that reflected on his body.

It looked ordinary, but its defense and recovery were still there.

Xu Bai touched his chin and stared at it in the mirror for a while. He felt that it was actually not bad.

At least he wasn't ugly.

Xu Bai raised his hand and struck his own chest with his True Core Strength.

"Boom!"

With a dull thud, nothing happened. Xu Bai didn't even feel any pain. His defense was strong.

"It's alright. I have to come to the Titanium Temple more often to talk to Wu Hua in the future." Xu Bai put away the Indestructible Demoniac Soul Buddha Body and made up his mind.

No Flower would be a chicken that laid eggs in the future. It would be good for him to come over and take a look from time to time.

Xu Bai had not left the house for more than half a month. He stretched his body and put on his clothes again. Then, he subconsciously touched his waist. He did not feel the black saber Hundred Rend. He then remembered that he had lost Hundred Rend in the last battle.

Actually, at Xu Bai's current realm, it didn't matter whether he had Hundred Break or not. He had only created it when he was making a first-grade puppet the last time. He didn't expect that his personal weapon would have such a bad fate that it had been destroyed twice.

"I'll make it the next time I'm free." Xu Bai stretched his back, opened the door, and walked out.

After not going out for nearly half a month, the Titanium Temple had changed a lot.

The ten abbot left, and so did the monks of the Buddhist Sect. They had long agreed that the Titanium Temple would gradually spread the new Buddhist Dharma.

As long as Wu Hua comprehended it, they would not hide it and would immediately pass on the new Buddhist Dharma.

Therefore, the monks of the Buddhist Sect also left in a hurry. After all, everyone had their own businesses and could not stay here for long.

When Xu Bai opened the door and walked into the courtyard, many disciples of the Titanium Temple had already noticed him. These disciples were excited, but they hesitated and did not dare to come forward.

Now, in the Buddhist Sect, Xu Bai was treated differently. These young disciples knew what had happened back then, so they respected Xu Bai even more.

Xu Bai didn't disturb them. Instead, he went to the main hall and found the room of the abbot of the Titanium Temple.

Before he could knock on the door, the door opened automatically. The abbot of the Titanium Temple stood inside and looked at Xu Bai with a smile. "Prince Xu, are you here to bid farewell?" The abbot of the Titanium Temple seemed to have read Xu Bai's mind and immediately voiced his thoughts.

Xu Bai didn't hide anything. He nodded and said, "In any case, there's nothing else in this temple. I've also made a trip here. I still have to leave early."

To be precise, there was no progress bar here. He had to wait for No Flower's strength to increase before there would be a new progress bar, so he might as well go to Ascending King to take a look.

Wouldn't it be great if there were progress bars to collect along the way?

When the abbot of the Titanium Temple heard this, he was silent for a moment. In the end, he nodded and said regretfully, "Since Prince Xu has important matters to attend to, we can't stop you. We originally wanted to discuss Buddhism with Prince Xu, but when I saw how much Prince Xu loved Buddhism, my heart itched."

"There's plenty of time in the future," Xu Bai said with a smile. "Why rush?" When I'm done with my work, I'll come to the Titanium Temple when I'm free."

He was not lying. Not only would he come to Titanium Temple, but he would also come often in the future. After all, there was still No Flower here, which was equivalent to a progress bar.

The abbot of the Titanium Temple nodded and said, "Then I won't ask you to stay any longer. However, it's better for Prince Xu to change his appearance for this trip to the border. After all, you're a hot figure now. Moreover, the border has not been peaceful recently."

Xu Bai agreed.

He had the Thousand Faces Technique, which could change his appearance and body shape. Of course, he had to use it. No one wanted to cause trouble along the way. However, after hearing what the abbot of the Titanium Temple said, Xu Bai had another idea..

"The abbot just said that the border isn't peaceful. Could it be that there are more battles?" Xu Bai asked.

He had heard people mention that there were often conflicts at the border, but they were all small conflicts. To the soldiers guarding the border, it was already a common occurrence.

Even the people of the martial world were used to it. After all, in that place, it would be unreasonable if there was no friction.

However, from what the abbot of the Titanium Temple said, it was not as simple as a small conflict.

"Originally, it was just a small conflict, but recently, the conflict has become bigger. I heard that it was because of his highness' beloved daughter." The abbot sighed.

Xu Bai was interested.

His beloved daughter?

Wasn't that Chu Yu?

King You Sheng only had one daughter, Chu Yu, and she was the daughter of the Gu Yue Sword Sect's sect master.

It seemed like all the disputes were caused by Chu Yu.

"It's like this," said the abbot of the Titanium Temple."

The abbot of the Titanium Temple smiled bitterly and began to explain.

"Not long ago, a prince of the Great Yue State led an army and a battle broke out at the border. After that, Princess Chu led her troops to attack."

"According to the situation at that time, it seems that Princess Chu used some despicable and shameless means to capture this prince alive. At that time, she did not kill him and took the opportunity to ask for ransom from the Great Yue

State."

"The Great Yue State was too anxious, so they really brought the ransom over.

However, they never expected that on the way back, this prince of the Great Yue State had an accident and was intercepted and killed by an unknown person."

"At that time, the Great Yue State said that it was done by the Great Chu State, but the Great Chu State did not admit it. The two sides took this opportunity to fight, and it has gradually expanded from a few hundred people to a few thousand people."

Xu Bai raised his eyebrows. It seemed like Chu Yu had gone overboard this time.

As someone who had taught Chu Yu before, Xu Bai was very clear about the details of this matter. It was obvious that the prince of the Great Yue State had been plotted against by Chu Yu on his way back, and he was gone after that.

It couldn't be the Great Yue State or the Barbarian Race, because they didn't need this reason to expand the war.

The three forces were like fire and water to begin with. If they wanted to fight, they could do it with just a word. There was no need for a reason.

"Therefore, Prince Xu must be careful on this trip."The abbot of the Titanium Temple said.

Xu Bai nodded, indicating that he understood. He was going anyway. As for what would happen in the middle, he would deal with it when the time came.

Since they had finished chatting, Xu Bai didn't stay any longer and left.

No Flower didn't come over. If he hadn't talked to Xu Bai about Buddhism, he would have gone into seclusion long ago.

This time, after he finished speaking, he went into seclusion. Clearly, he wanted to completely understand Black Lotus.

The abbot of Jin Gang Temple wanted to ask No Flower to send him off, but Xu Bai refused.

It was not good to disturb someone else who was in closed-door cultivation at this time, so Xu Bai left the Titanium Temple quietly. He did not even agree to the abbot of the Titanium Temple sending him off.

After leaving the Titanium Temple, Xu Bai followed the route of the Yin

Posthouse and walked all the way to the border. Along the way, he used the Thousand Face Technique to change his appearance, and he did not encounter any accidents after that.

Flying along the Yin Posthouse and enjoying the blowing of the wind, Xu Bai's speed did not slow down at all. Other than carrying a first-grade puppet, everything else was ordinary.

After entering the mortal evolution state, Xu Bai had the ability to fly, so his speed increased greatly. He didn't need to take a detour on flat ground. Soon, Xu Bai stopped at a Yin station closest to the border.

He could not fly any further. After all, he was about to enter the border. If he flew in the sky and was seen by the soldiers at the border, it would not be good to cause unnecessary trouble. Although he was not afraid of trouble, he did not want trouble to come knocking on his door.

This Yin Posthouse wasn't big, but because it was near the border, there was quite a lot of traffic. Most of them were people who came to the border to do business.

Wherever there were people, there would be business.

Even at the border, there was still a lot of business here, and correspondingly, the various profits of the business were very high.

After Xu Bai changed his appearance, his arrival did not attract anyone's attention.

After strolling around the Yin Posthouse for a while, Xu Bai didn't find any progress bar. He didn't continue strolling either. He found a place to sit down and prepared to rest before heading to his destination.

On the way, he did not go to the Prince's mansion.

The reason was simple. It was because they were in a hurry.

Especially after hearing that the conflict between the Great Chu State and the Great Yue State had escalated, Xu Bai wanted to rush here as soon as possible. After all, there was a war, and he might be able to get more progress bars.

The King of a Different Surname was just there, and he didn't leave. Even if he could leave, he couldn't leave the temple. It didn't matter whether it was early or late. He couldn't wait here.

After taking a sip of the tasteless tea, Xu Bai put down the cup, stretched his limbs, and prepared to leave.

However, at this moment, something unusual happened.

The sound of horse hooves attracted his attention. Xu Bai looked in the direction of the sound and saw a group of cavalymen riding into the Yin Posthouse.

After all, this place was close to the border, so it was normal for soldiers to come and go often. However, this time, it was not normal. After this group of soldiers realized that it was a Yin Posthouse in front of them, they quickly turned their horses around and ran in another direction..

Xu Bai saw that the cavalymen were covered in dirt and had injuries on their faces. Although there were more than a hundred of them, they all looked extremely tired. Moreover, they were unwilling to enter the Yin Posthouse.

Could it be that something was chasing them, so they were unwilling to come in, afraid that it would affect this place?

Just as he thought of this, the group of over a hundred cavalymen quickly disappeared without a trace. After they disappeared, a figure descended from the sky. After lowering his head to identify the position of the hooves, he soared into the sky and chased after the group of cavalymen.

Xu Bai frowned.

This person was a master, and he was above the mortal evolution state. After all, he could fly, so he wasn't below the mortal evolution state.

It was obvious that this person was the one who was chasing after that group

of cavalymen. Moreover, that group of cavalymen was from Great Chu. Who would dare to chase after them?

Due to the sudden appearance and departure of the cavalymen, coupled with the appearance of this fellow dressed as a Jianghu person, it caused a lot of chaos.

Some people in the Yin Posthouse recognized this guy and couldn't help but whisper to each other.

"It's the Great Yue State's Demon Sealing Palm. How dare it openly chase after the cavalry of the Great Chu State?"

"Don't say anymore. It must be the previous incident again. Now that everyone has started fighting, there's no need to be too particular. It's normal for the martial artists to participate."

"I heard that the Demon Sealing Palm, Yang Chen, is the personal attendant of the ninth prince of the Great Yue State. He once killed an Extraordinary fourth grade person with the Demon Sealing Palm."

"The Ninth Prince of Great Yue? That's right, wasn't he killed by Princess Chu some time ago? It seems that what you said is right, there are definitely important people in that cavalry, otherwise Yang Chen would not come to chase. "

Although the surrounding discussions were very quiet, with Xu Bai's current strength, he had long heard them clearly.

Demon Sealing Palm, Yang Chen?

Xu Bai's first reaction wasn't surprise, but rather speechlessness. Just listen to his nickname. It sounded so comfortable.

Then, he listened to his own Bloody Butcher Knife.

This title was still stuck in his heart.

“However, if they are really hunting us down, it is very likely that these people are right.” Xu Bai thought.

The mortal evolution state was not a common thing. Anyone who could reach this state could be considered an expert.

If he went to a smaller place, he might still be the number one expert.

It was normal for such an existence to enter the battlefield. After all, the martial world on both sides was different. The martial world was dominated by the country, so it was natural for him to support it.

What’s more, this Yang Chen himself was the personal guard of the ninth prince of the Great Yue State.

Chu Yu had killed the Ninth Prince of the Great Yue State, so it was normal for him to hunt someone down. More importantly, there must be someone worthy of being hunted down by such an expert.

“Interesting.” Xu Bai licked his lips, put down the teacup and lifted his feet in the direction of Yang Chen’s departure.

If he hadn’t met him, he wouldn’t have wanted to get involved, but if he did, he had to get involved.

Ever since he stepped into this circle, King Sheng You had helped him a lot, especially in the capital. Xu Bai remembered it in his heart.

He was a person who would take revenge for his enemies. Of course, he would never forget his kindness.

Since this cavalry was the subordinates of the Underworld King, then Xu Bai would have no problem doing it.

The people of the Yin Posthouse saw Xu Bai’s back as he left, and then they saw the direction Xu Bai was heading in. Especially when they saw a person in a black robe following behind Xu Bai, they could not help but feel a little puzzled.

“Who is that person?”

“I don’t know, but looking at the direction they left in, it seems like they’re heading there.”

“Aiya, let’s not care about this. Just do our part in the business. We’re just businessmen.”

Although Xu Baits departure had caused some commotion, it did not have much of an impact. After all, he had changed his appearance, and no one knew his identity. The people here still went about their business as usual.

The Yin Posthouse was still the same Yin Posthouse. It did not change much because of this incident.

In the wilderness, a group of cavalymen was traveling a long distance. Their target was the nearest military camp. In this group of cavalymen, there was a man dressed exactly like the surrounding people. He was protected by the cavalymen in the middle.

This person looked ordinary. At first glance, there was nothing special about him. However, if one looked closely, there was a hint of nobility on his face.

Hundreds of cavalymen galloped at high speed, but they soon stopped. A figure flew across the sky and landed steadily at the front, blocking the only path in the middle.

Yang Chen put his hands behind his back and looked at the cavalry team of hundreds of people in front of him, revealing a disdainful smile.

“Swish!”

The sound of metal clashing could be heard. The cavalymen on the scene drew their long sabers from their waists and prepared for battle.

“First Prince, it’s said that you’ve already made a name for yourself at the border, but it seems that you’re only so-so. Why, do you really want these people to die for you?”Yang Chen’s words carried a cold meaning and he said mockingly.

As soon as his voice fell, a black light appeared on Yang Chen’s palms. At the same time, a huge shadow appeared behind Yang Chen. The shadow continued to converge and converged into a huge black hand.

The sky changed.

The heavenly transformation that belonged to the mortal evolution state was already under a lot of pressure.

“Sigh...” The general who was surrounded by the crowd sighed slowly and rode his horse to the front.”In Great Chu, there are only soldiers who have died in battle. There are no prisoners..”

Hearing this, Yang Chen's mouth was cold: "It seems that the First Prince wants these hundred people to die here."

The First Prince did not continue to answer. He drew the long saber at his waist.

He actually had no way to find out the truth. This trip was originally just to complete a mission to find information and see if there was any new news. After all, they were currently in a conflict and leveling up, so information was the first priority.

With him leading the cavalry, their speed was also faster. However, they never expected that something would go wrong in this mission. A few mortal evolution states were actually lying in ambush for him. There were five of them!

He had originally brought thousands of cavalymen, but after killing four of them, he was unable to fight anymore. Only these hundred cavalymen escaped.

This was the law of the military formation.

As long as there were enough troops, they could even kill the number one person in the world.

As the people who cultivated the military formation became stronger, they could also break through some boundaries. For example, even if they were thousands of miles away, they could still borrow the power of the military formation.

This was also the reason why King Sheng You dared to run to the capital alone. No one dared to intercept him, because as long as King Sheng You waved his hand, the power of the military formation at the border would surge into it.

Although this kind of remote control was not as effective as directly leading the troops, it was enough for an expert like Sheng You King.

The eldest prince was only a ninth-level and was half a step into the mortal evolution state.

He was not forbidden by the royal family because he was the only one who killed enemies at the border, so his strength increased normally.

This time, he was able to kill four mortal evolution states because of his cavalry, but he also suffered heavy losses.

Out of the thousands of cavalymen, only a hundred of them managed to escape. And from the looks of it, he would not be able to escape very soon.

"You killed the Ninth Prince. Today, I will use your First Prince's head as a sacrifice." Yang Chen sneered and made a noise.

If there were thousands of cavalymen, even if there were only a thousand, he would never chase after them. But now, there were only a hundred or so, so he was not afraid at all.

Behind him, the huge palm did not stop giving off an oppressive aura. All the cavalymen present gripped their weapons, appearing abnormally nervous.

But no one retreated.

The First Prince stood at the very front and led them. They drew their sabers, and powerful killing intent rose from their bodies and gathered to resist the huge palm.

Yang Chen still sneered. In his opinion, without a large number of soldiers, this cavalry was not enough to be feared.

He slowly stretched out his right hand and pressed down.

Behind him, a huge palm rose into the air. In the blink of an eye, it had covered the hundreds of cavalymen and slowly landed.

"Boom!"

Booming sounds rose and fell. All the cavalymen raised their long sabers to resist the enormous palm. Cracks appeared on their armor, and some people had already spat out blood.

The First Prince stood at the very front and suffered the most severe attacks. His face was already extremely pale.

The huge palm dissipated and slowly condensed, floating in the air.

Yang Chen's hands were behind his back, looking extremely relaxed. The palm just now was just a casual move, and it had already seriously injured the First Prince.

“Hahaha! When you killed the Ninth Prince that day, did you think about this?”

In the air, the giant palm began to spin again, and it looked like it was about to fall.

Yang Chen felt that his mood was very good and comfortable. The reason was that he was about to avenge the Ninth Prince.

Since the Ninth Prince was killed, Yang Chen, as the personal guard of the Ninth Prince, fled back to the Great Yue State in a sorry state and suffered all kinds of cold eyes.

His master was dead, but his personal guard had returned alive. He was already lucky that he did not commit suicide immediately.

Today, after going through so much trouble, he finally had the chance to take revenge. The sense of satisfaction in his heart had already made him feel so good that it reached the clouds.

As long as the First Prince was dead, he could return with another identity. That was the identity of someone who would resolutely avenge his master after being treated coldly.

This identity would definitely change the pressure he had in the past. He might

even be rewarded. After all, he could kill the First Prince of the Great Chu State. The Great Yue State would not mistreat him.

The more he thought about it, the more Yang Chen felt happy. Looking at the huge palm in the air, he seemed to have already seen the scene of the First Prince's head being separated.

“When I return to the Great Yue State with the head of the First Prince, I will see who dares to look at me coldly again.” Yang Chen thought to himself.

The giant palm descended, and the First Prince and the rest of the cavalry looked at the giant palm in the sky, their eyes filled with the desire to die.

They couldn't beat him, but they didn't want to drag out an ignoble existence either.

This was especially true for the First Prince. When he had given up on life in the capital and walked to the border, he had never thought of returning alive. As a soldier at the border, the only thing he could do was to wrap his body in a horse's leather.

His father had once told him that as the son of the emperor, he had to set an example. Other commoners would send their children to the border, and he would not be an exception.

The First Prince gladly accepted it and even learned the profession of ascending the King of the Underworld.

It could only be said that he had already expected today's outcome. He had thought of countless ways to die in battle, and today was just one of them.

"Brothers, kill!" The First Prince's eyes were red as he raised the long saber in his hand to meet the giant palm in the sky.

Seeing that they were about to engage in close combat, they were about to be destroyed by this palm..

In the next moment, a figure suddenly appeared in the sky. The people present did not even see clearly how he appeared.

This person was wearing a daoist robe. He raised his head and looked at the huge palm descending from the sky with an inexplicable smile.

The First Prince was stunned. Seeing this, he shouted, ""Be careful, the Demon Sealing Palm can seal a person's cultivation!"

As soon as he finished speaking, before he could say anything else, he realized that he did not have to say anything else.

This was because this person raised his right hand and naturally collided with the huge palm in front of him.

The appearance of the person in the sky had changed. He no longer had his original ordinary appearance, but gradually became handsome. The First Prince looked at the person in front of him and felt that he was somewhat familiar.

But now was not the time for him to think about it, because the next scene made him unable to close his mouth.

Golden and grayish-white patterns appeared on the handsome young man's body. These patterns covered his entire body and looked extremely evil. Moreover, there was a unique sense of beauty.

"Boom!"

The huge palm and the young man's palm intersected. From the size, there was a world of difference.

However, the next second, the huge palm fell apart.

"Yes... Its Dower was so strong that it was almost at Extraordinary Rank- 5. but what was the use if it couldn't break through its defense?"

Extraordinary fifth-grade could not break through his defense?

The people present all suspected that they had misheard, but Yang Chen's performance made them know that they had not misheard.

"Puff!"

Yang Chen spat out a mouthful of blood, his face full of horror. Immediately after, he did not hesitate to turn around and run.

He ran very decisively, without the slightest hesitation. It was as if he would turn into dust if he waited another second.

"Did This King let you run?"

Behind Yang Chen, that voice followed like a shadow, like a devil whispering.

Yang Chen did not dare to look back, he already knew that the other party had caught up, he gritted his teeth and hit out with his palm.

"Bang!"

This palm hit the other party's forehead, and it hit a vital point.

If one did not take precautions, even an expert would be heavily injured if they were hit.

Yang Chen's heart was originally filled with joy, but in the next second, he found that there was a sharp pain.

"Kacha!"

The bones in his right hand shattered. He felt as if his palm had hit a rock.

No, even a stubborn rock could be crushed into powder by him. The other party's defense was simply ridiculous.

"It doesn't hurt at all."

Behind him, the voice sounded again, filled with mockery.

Yang Chen shouted in pain and continued to escape.

However, before he could take two steps, he felt a gust of wind behind him. At the same time, a feeling of chaos spread throughout his body.

The golden color and the greyish white color spread in an instant, filling the surrounding space. The feeling of chaos fell from the sky. Yang Chen's eyes were red, and his heart was already in chaos.

Due to the chaos of resistance, he felt that his strength had plummeted, and the person behind him seemed to have swung a palm.

"Bang!"

A dull sound came out, Yang Chen could no longer bear it, and turned around to meet the other party's palm.

At this moment, he finally saw the other party's appearance clearly. He also saw the golden and grayish-white patterns clearly, and he also saw the surrounding scene clearly.

"Chaos...It's you, it's you..."

Yang Chen muttered to himself.

He looked at his own hand, which was gradually turning into fragments. He also saw that the other party's hand was like a Imife.

The head flew high and Yang Chen lost consciousness.

Before he lost consciousness, he felt that he was very unlucky to have met a legendary figure.

However, he could no longer think about it because he was completely gone.

"Bang!"

Xu Bai grabbed Yang Chen's head and slowly fell to the ground, his heart calculating.

Extraordinary fifth-grade was very easy to fight.

Furthermore, because of the undying demonic soul buddha body, if a mortal evolution state wanted to break through his defense, they would have to exhaust his true essence first.

However, even if he went all out, it would still take him an hour to exhaust it.

In other words, no one at the mortal evolution state could hurt him within an hour, not even a ninth level mortal evolution state.

Even a first-grade Transcendent could use the Indestructible Demon Soul Buddha Body to withstand it. Don't forget that this skill was a first-grade Transcendent skill.

In fact, Xu Bai's battle was also to measure his own strength. Now, it seemed that he had already measured it.

Xu Bai raised the head and it flew in an arc in the air before falling to the ground. It rolled down and landed right under the First Prince's horse.

This scene caused everyone present to fall silent.

Yang Chen, who had been arrogant to the point of being insufferably arrogant, had been beheaded in an instant. It would be a lie if they did not remain silent.

Seeing this young man in front of them, especially when they thought of his strength just now, some people could not help but be on guard.

This was not their fault. After all, they did not know if this young man in front of them was a friend or foe, so they were still very cautious.

Xu Bai frowned and was about to speak.

He didn't want to cause any misunderstandings, so he was prepared to reveal his identity.

However, before he could say anything, the First Prince turned around and berated the cavalryman.

"Withdraw your blade! "

The First Prince's tone was serious. After saying this, he got off his horse and walked solemnly to Xu Bai. He folded his arms and bowed slightly.

"Chu Mingyue greets Your Highness!"

This action, coupled with the words he said, caused the entire place to fall into a dead silence.

The First Prince knew Xu Bai. As long as he was a member of the royal family, even if he had not seen Xu Bai in person, he would know what he looked like through various channels.

Thus, at this moment, the First Prince already knew who had come to save him.

Some of the soldiers guarding the border still didn't know, especially the cavalry. They didn't know who was coming.

It was only after the First Prince spoke that the cavalry reacted.

Xu Bai nodded and was about to say something to set off the atmosphere.

After all, according to this rhythm, he should also do something that Prince Xu should do, so he was about to raise his hand and make a hand gesture. However, before he could do it, he suddenly heard a unified voice.

"Whoosh!"

The sound of armor rubbing against each other could be heard. The cavalymen present got off their horses in unison and knelt on one knee. At the same time, they placed their hands on their chests and lowered their heads.

"This General! Greetings, Prince Xu!"

In the wilderness, the voices were unusually uniform. In this dead silent night, they sounded loud and exciting.

Xu Bai was slightly shocked. He did not expect the cavalymen in front of him to give him such a big bow. It should be known that the great motherland had abandoned many red tape. Even if they met the emperor, they did not have to give him such a big bow.

Thinking about it carefully, it seemed reasonable. These people in front of him were the subordinates of King Sheng You, and he had done one thing, which was to rescue King Sheng You. It was only natural for these soldiers to treat him with great courtesy.

However, he was still the mighty Prince Xu. He had come from the bottom of the hierarchy, so Xu Bai could handle these situations.

Xu Bai raised his hand and pressed it down lightly. He said calmly, "All of you, get up. The king was just on his way to the border and happened to pass by here. He saw that you were being hunted down and took the opportunity to attack."

With that, the cavalymen stood up one after another. Through their cold armor, one could see the excitement and respect in their eyes. Some even showed grateful expressions.

"Your Highness, why don't we go together?" Xu Bai said with a smile.

Xu Bai thought highly of this prince, even more so than the Ninth Princess.

All the members of the royal family had been conferred the title of king, but the First Prince had not been conferred the title of king. He had only been guarding this side of the pass.

Just one look and one would know how tough the border was.

This place had been in war for many years, and there was no prosperity here. There were only ruins.

As a member of the imperial family, and the eldest prince, he did not stay in the bustling capital but came here. This was enough to show how the eldest prince was.

The eldest prince nodded when he heard that. "Your Highness has made it clear that you've wanted to meet with Your Highness Xu for a long time. It's my honor to meet you today. Please follow me to the military camp. I believe that Second Uncle and Sister Chu Yu have been looking forward to your arrival for a long time."

No matter what, he was still a member of the royal family. His words were extremely dignified and did not seem impolite at all.

Xu Bai gladly accepted and waved his hand, indicating for the First Prince to lead the way.

One of the cavalymen was about to give up his horse for Xu Bai to ride, but Xu Bai refused.

In the past, he rode a horse, but ever since he reached the mortal evolution state, he stopped riding. Why would he need to ride a horse when he could fly?

“Please follow me.”

The First Prince led the cavalry to lead the way for Xu Bai. Xu Bai flew in the air and followed.

There was nothing unusual along the way, and no one came out to stop them. They arrived at the military camp very smoothly.

The Great Chu had set up many military camps at the border, and they had also set up many important points. However, Xu Bai knew that the First Prince would definitely take him to the military camp where King Sheng You was.

After walking for about an hour, various tents appeared not far ahead. In this desolate wilderness, they seemed to be full of vitality. At the highest point, there was a military flag with the word ‘You’ written on it.

Other than the Nether Ascending Army of King Sheng You, there was nothing else that could use the word ‘Nether’ as a military flag.

In front of the camp, there were a few soldiers on duty. When they saw the cavalry approaching, they were nervous and vigilant at first, but soon they saw who it was and relaxed.

The First Prince rode his horse closer and said to the soldiers guarding the door, “Is Your Highness in the military camp? I was going to see him for something important.”

The soldiers guarding the door quickly nodded and let the hundreds of cavalymen in. However, when Xu Bai was about to enter, the soldiers looked at each other and one of them walked out.

“This...” Brother, you can’t fly in the military camp. Please come down from the sky.”

The military camp naturally had its own rules. If one couldn’t fly, then one couldn’t fly. No matter how strong one was, one couldn’t violate these rules.

As the saying goes, when in Rome, do as the locals do. When you arrive at a place, you naturally have to abide by the rules of the place. Otherwise, you would be a person who doesn’t understand etiquette. Xu Bai understood the ways of the world, so he didn’t take offense. He descended from the sky and walked steadily forward.

After seeing Xu Bai do this, the soldier did not stop him.

This military camp didn't look big, but at least it was where King Sheng You lived, so don't look at it from the surface.

Even if there were not many soldiers here, they could not let their guard down..

The border was so long that the soldiers had already been sent out, so it was reasonable that there were not many soldiers.

"Your Highness, it's just ahead." The First Prince pointed to a tent at the very front.

The tent looked ordinary and was no different from the surrounding tents. It blended perfectly with the environment.

After the First Prince brought Xu Bai to the door, he shouted into the room, "Second Uncle, I'm back. I have some special encounters that I need to report to you."

After such a big incident, even the prince almost died. Of course, he had to report to King You Sheng. Just as he finished speaking, King You Sheng's voice came from the tent.

"Let the soldiers find a place to rest. You and Xu brat can come in." Sheng You King was an expert, so he knew Xu Bai was here.

There was not much surprise in his tone.

Reporting this kind of thing did not matter how many people there were. The cavalry were also extremely tired after cutting through the thorns along the way, so only the First Prince was needed.

After receiving the order, the First Prince let the cavalry rest and walked into the tent with Xu Bai.

After entering, Xu Bai looked around and found that the tent was not as spacious as he had thought. There were all kinds of books scattered everywhere, and there were even scattered maps in some places.

It looked extremely chaotic, which was in line with Xu Bai's guess. King Sheng You sat in the main seat at the front, holding a book in his hand and reading it carefully.

On the table was an old map.

Next, the First Prince recounted what he had encountered. It was roughly related to this ambush. They had indeed fallen into a trap.

If Xu Bai hadn't come at the right time, the First Prince would have been a corpse by now.

After King Sheng You heard this, he fell silent. After a while, he nodded. "Do a good job in the compensation work. Don't let the soldiers feel cold. In addition, this matter can be considered an oversight. We have to learn a lesson and don't let the same thing happen again."

The First Prince agreed.

Let's do it first, let's do these things well. As for how to deal with it, I have my own tricks. I can't let the Great Yue get an advantage. Otherwise, how can I explain to the dead soldiers?" King Sheng You waved his hand.

After saying this, the First Prince took his leave without hesitation.

King Sheng You waited until the Eldest Prince left before turning his gaze to Xu Bai. He said with a face full of amusement, "Are you a little disappointed that you didn't see Chu Yu?"

Xu Bai smiled and shook his head. "That's not it. I came here mainly to see His Highness. After all, I personally promised him when I was in the capital. I can't go back on my word."

King Sheng You was delighted. He put the book in his hand aside and even thoughtfully added a bookmark so that he wouldn't forget how many pages he had read.

After doing this, he smiled and raised his head. "Since you're here, let's find a place to rest first. You're tired from the journey. Let's recuperate first so that I can bring you to see the scenery at the border."

"Chu Yu should be back soon. When she's back, you two should get closer to each other. After all, you're both master and disciple."

Xu Bai listened to what he said. The first half of the sentence was fine, but he felt that the second half of the sentence was a little inappropriate.

What did it mean to be close?

Why did it feel like King You Sheng was selling his daughter?

However, King Sheng You did not give him a chance to think. He gave an order to the outside. Soon, two armored soldiers came in and respectfully escorted Xu Bai out of the tent.

Now was not the time to talk about it. Chu Yu would be back soon anyway, and he did not want to waste any more time, so he followed behind her with a peace of mind.

The two soldiers received the order and took Xu Bai away from the place and found a relatively ordinary tent.

The two soldiers knew Xu Bai's identity because when Xu Bai was taken away, King Sheng You had called him Lord Xu.

In this day and age, he was a prince and also a Xu. His identity could be seen at a glance.

The two soldiers didn't delay at all. After they brought Xu Bai to his seat, they didn't go in and directly left.

Xu Bai pushed open the curtain of the tent and saw the same decorations inside. He knew that the tents in the military camp should be some standard equipment.

Other than being much cleaner than Sheng You King, it looked no different from an ordinary place.

This was the border, not a place for enjoyment. Therefore, it was normal for the decorations to not be too particular.

After the two soldiers left, Xu Bai found a comfortable chair and sat down. He leaned back on the chair and raised his feet to place them on the table in front of him.

This place felt very special. It didn't feel like a border pass, but a good place to shed blood.

In fact, there was nothing wrong with saying this. It was indeed a good place to shed blood. The border was indeed a place that men yearned for.

"I feel like there's no reason for me to speak. Let's talk about it tomorrow. Can you find a corresponding excuse?" Xu Bai thought to himself.

Of course, he did not forget that the main purpose of this trip was actually the so-called progress bar.

However, it was not good to say it out loud when they had just met. Therefore, Xu Bai held back for the time being and waited for the opportunity to do so later..
