Thinking of this, Xu Bai sighed.

After so long, this was the first time he had come to the border. Moreover, he had come here as a prince. This made him feel curious. However, this novelty did not last for a day or two, because people would eventually get tired of it.

Even if he had to look at a stunning beauty every day and study every part of her body thoroughly, he would eventually get tired of it.

There was a saying that a wife was not as good as a concubine, and a concubine was not as good as a thief. This was the truth. Therefore, for men, many things would get boring after a long time..

Xu Bai didn't continue to look for trouble. He continued to lie on the chair and closed his eyes to take a nap. When Xu Bai arrived, a battle had just ended in a battlefield far away from Xu Bai.

Dressed in armor, Chu Yu ordered her subordinates to clean up the battlefield.

Not long ago, there was a battle here. Although there were not many people, there were more than a thousand people on both sides.

There were only a few hundred soldiers on the scene, and they were led by Chu Yu with great effort. They were all elites who had followed Chu Yu and fought many battles.

Ever since she returned to the military camp, Chu Yu had been applying what she had learned from Xu Bai in battle. She had been using all sorts of tricks in all sorts of small and large skirmishes.

It was also because of her various performances during this period of time, as well as the fact that she had killed the Ninth Prince of the Great Yue State, that Chu Yu could be considered as the number one person at the border.

In addition, she was the precious daughter of King Sheng You. In front of the generals at the border, she was truly doted on by tens of thousands of people.

King Sheng You was the leader of the entire Spirit Ascending Army, and he only had one daughter. Therefore, regardless of whether it was the old subordinates or the new members of the Spirit Ascending Army, they all cared for Chu Yu.

This team was formed by Chu Yu herself. She majored in military formations and Gu Yue Fei's swordsmanship. Hence, this team was made up of people from the martial arts world and every one of them was an expert.

Even though they were slightly weaker in the main battlefield, Chu Yu had made use of this team to do many meritorious deeds as a surprise force.

In the beginning, Chu Yu had gathered all the members of the team. To be honest, they were still a little uncomfortable.

She was just a little girl. Even if she was the beloved daughter of the King of the Underworld, they would only obey her on the surface and go against her.

After all, the martial artists in this team had come for the title of King Sheng You. They did not expect to become Chu Yu's subordinates. They would be unhappy no matter what, but they did not show it.

However, after spending so much time together, this group of martial artists was completely convinced.

Strength was one of them.

Ever since Chu Yu returned, her abilities had improved by leaps and bounds. She had combined the Gu Yue Flying Sword Technique with the secret impartation of the Gu Yue Sword Sect. She had already reached the half-step Extraordinary realm.

Moreover, Chu Yu was not pedantic in her actions. Sometimes, she was even extremely ruthless. Compared to her innocent appearance, there was a huge difference.

Others might not know, but this group of martial artists knew that this ruthlessness was learned from one person.

Xu Wang.

The Lord Xu who had stirred up the entire martial arts world had taught Chu Yu before?

I'm scared, scared.

This group of martial artists was completely convinced.

The impression of King Sheng You in the martial world was still the scene of King Sheng You trampling the entire martial world. It was more of fear.

As for Xu Bai, the group of Jianghu people had a trace of respect for him.

Why?

The reason was simple. He was a person who had truly climbed up from the bottom. Moreover, he had relied on his own strength to get to where he was today. In the entire martial arts world, who could reach this step? Hence, when these conditions were put together, the group of martial artists were completely devoted to Chu Yu.

“General.” A woman dressed simply walked to Chu Yu and handed her a letter.””His Highness has sent a letter. It says that you need to open it personally.”

Chu Yu was instructing her subordinates to clean up the battlefield. The surprise attack this time was very successful. They had killed a few hundred soldiers of the Great Yue State and obtained quite a number of rations and supplies. They were preparing to bring them back.

Chu Yu nodded with a stern expression after she heard that. She took the letter and opened it to take a quick glance.

Following that, Chu Yu could not shift her eyes away from the letter. Her stern face finally crumbled.

A smile bloomed on Chu Yu’s face, and it gradually spread out. Even though they were far away, the people in the martial world could feel that Chu Yu was currently enveloped in a feeling called happiness.

Ever since they started working, the group of martial artists had only seen Chu Yu with a straight face. It was rare for them to see her in such a girly state. A few people who understood the ways of the world looked at each other and understood what he meant. “Could it be that person?”

Who was it?

Who else in the world could make Chu Yu so happy apart from that person?

Everyone in the martial world understood, so they didn’t say it explicitly.

In this day and age, it was fine as long as you understood. It would be awkward if you said it.

Some of the Jianghu people were even very excited.

To be able to see the prince who rose from the grass roots, how could people like them who traveled the martial world not be excited?

Thinking of this, they quickly let go of their hands and feet and cleaned up the battlefield.

Chu Yu did not notice the movements of her subordinates around her as she was immersed in her happiness.

The contents of the letter were very short, but it revealed an important piece of information.

Xu Bai was here!

To Chu Yu, there were many pieces of information in the world, and there were also many important ones. However, the most important one was this piece of information..

“How long has it been since I last saw him?”Chu Yu thought to herself.

It had been a long time since they last met. When her father wanted to go to the capital, she had wanted to go with him, but she had an important mission at that time, so she stayed at the border.

Because of this, she had missed the chance to see Xu Bai. Now that Xu Bai had come, she felt as if she had knocked over a honey jar and was extremely happy.

Chu Yu urged them as she rode on the horse. She could not hold it in any longer. Finally, she waited for her subordinates to pack up everything before she rushed towards the military camp.

The team soon began to rush on their journey because of the reason of carrying grain and fodder. The speed was not fast, but for Chu Yu, it was enough.

Chu Yu was getting closer to the military camp. She was getting more and more excited as she crossed the mountains.

Since it was afternoon when he received the letter, it was already dark after a while.

Chu Yu immediately ordered her men to light the torches and continued moving forward under the illumination of the flames. The people present were all from the martial arts world, so the night journey did not affect them at all.

Even if the mountain path spiraled, it was as if he was walking on flat ground.

Chu Yu rode on her horse and calculated the situation. She estimated that she would be able to reach the military camp in about two hours. She could not help but feel even happier.

At this moment, they were passing through a forest.

At this moment, the scout leading the way suddenly stopped, and the entire team stopped at the same time.

Chu Yu tightened the reins on the horse and stopped it.

After a while, the scout walked up to Chu Yu from the front. He cupped his fists and bowed. "General, the situation has changed."

Chu Yu was dressed in armor and she was riding on a horse. She stared ahead without blinking. "What is it?"

"Strange, it seems to come from an abandoned battlefield."

At the border, death was a trivial matter. There were conflicts all year round here, and death often descended.

Some places became battlefields, and the more people died there, the more likely it was that something strange would happen.

In this regard, whether it was the Great Chu State or the Great Yue State, even those barbarians who ate raw meat and drank blood, there was an unspoken rule.

Once they encountered such a battlefield that turned into a strange paradise, everyone stopped fighting. First, they had to get rid of the strange.

After all, the fight between them was a fight between humans, and the Strange Ones no longer belonged to the category of humans. They could not let the Strange Ones take advantage of it.

"Is it a lot?" Chu Yu asked.

"There are at least a hundred of them, and they were quite powerful when they were alive. They are fighting amongst themselves," the scout said anxiously.

Strange creatures did not have any consciousness. After all, they were not in the Bizarre Market. Even if they were of the same type, they would still kill each other.

In fact, if they discovered these strange things on the battlefield early, everything would be fine. After they were done fighting, they would just benefit from it. They were afraid of those who discovered it late.

“Wait, find an opportunity to destroy it.” Chu Yu said.

The scout hurriedly nodded. After agreeing, he ran to the front again.

The team continued forward and soon arrived at an extremely wide open space. Chu Yu ordered her men to stop and cast her gaze into the distance.

In an open space in the distance, there were hundreds of monsters fighting each other.

Chu Yu did not let anyone come forward but waited patiently.

A sinister aura enveloped the area in front of them. Each of them looked extremely terrifying. Their bodies had a cold aura that made people despair.

Death was a terrifying thing to begin with. It was filled with fear and mystery.

Moreover, these things became strange after they died, which made people's hair stand on end.

Chu Yu led her men to stand guard at the side, waiting for the most opportune moment.

As time passed, the number of strange creatures gradually decreased. They killed each other. The surviving strange creatures didn't hesitate to pounce on the strange creatures beside them, leaving only the killing to spread.

After about half an incense's time, the group of strange creatures gradually decreased, and finally, only one strange creature survived.

This strange creature was white all over, its body was fat, its clothes were tattered, and its face had a dull expression.

His eyes were cold and murderous. It was as if he would attack without mercy as long as he saw a living thing.

The surrounding scenery began to change. It gradually turned from ordinary to distorted. After the air distorted, eyes appeared in the void. On the strange fat body, an eye also appeared. It looked extremely cold and made people shudder.

“Heaven Transformation! Let’s go!” Chu Yu had intended to reap the benefits from this, but when she saw this scene, she turned around without hesitation and shouted at her subordinate beside her,””Go around it and return to the camp to find experts!”

This was a strange heavenly change. This monster had already reached the mortal evolution state, so it was far from what they could deal with. They were all made up of martial artists, and as a surprise army, they each had their own abilities.

However, in the face of such obvious strength, he could not gain the slightest advantage.

Everyone knew what they had encountered. After hearing Chu Yu’s order, they made a detour without hesitation and rushed toward the military camp.

Fortunately, they were very careful at the beginning and were very far away from the strange location. They were not discovered, so the strange did not catch up.

Chu Yu sped up her marching speed and finally arrived at the military camp after rushing for nearly an hour.

At this moment, the soldiers of the military camp saw her carrying the supplies back. They also knew that this Princess Chu had won another battle, and their faces were full of smiles..

“A mortal evolution state appeared in the south.”Chu Yu did not hesitate and told him the most important thing first.

Hearing the news, the soldiers ‘expressions changed slightly. They understood the seriousness of the matter and quickly ran out to inform the people.

Chu Yu heaved a sigh of relief.

Since the news had already spread, they would definitely send experts over. This strange creature would not live for long.

Thinking of this, she ordered her subordinates to take away the supplies and grain first before rushing to King Sheng You's tent alone.

However, before she could get close, she met a general. When the general met Chu Yu, he told her where Xu Bai lived. It was obvious that King Shengyou had told him.

Chu Yu was stunned for a moment. She changed her direction without hesitation and rushed toward Xu Bai's location.

When the general saw this scene, he could not help but reveal a bitter smile.

Normally, the first thing Chu Yu did when she returned to the military camp was to report to Lord Shengyou. However, ever since Xu Bai arrived, she had prioritized looking for him.

"No wonder your highness often talks to himself, saying that a grown woman can't be kept." the general mumbled.

Behind him, there was the sound of coughing. It was unknown when the Underworld Ascending King had appeared.

"Your Highness." The general was shocked and hurriedly bowed.

"Don't spread what you said just now." King Sheng You said. "Also, a mortal evolution state monster appeared in the south. You should lead a team and destroy it."

"Yes, sir!" The general replied and left in a hurry. He did not dare to stay here any longer.

His highness was especially petty. He was worried that because of this matter, he would be captured and trained by his highness. That would not be worth it.

After the general left, King Sheng You looked in the direction Chu Yu was heading and sighed silently.

"I always feel like I gave birth to this daughter for nothing. But fortunately, if it's Little Xu, then it's fine." King Sheng You muttered to himself as he returned to his own tent.

At that moment, Chu Yu had already found Xu Bai's residence along the path.

She was now a Half-Extraordinary expert, so she could naturally sense Xu Bai's presence in the tent.

Chu Yu walked to the door with excitement. She lifted the curtain and walked in quickly.

She was the only one who dared to do this. If it was someone else who was not familiar with Xu Bai, they would not dare to be so reckless.

Chu Yu lifted the curtain and saw Xu Bai lying on the chair, pretending to be asleep. She could not help but pout.

“Young – Master –

She knew that with Xu Bai's strength, he must have noticed her a long time ago. But now, he was pretending to be asleep, so she used the old address.

Chu Yu had used this title to conceal her identity when she was learning from Xu Bai.

Xu Bai shuddered when Chu Yu said it in such a resentful tone. He quickly recovered from his fake sleep and smiled bitterly. “Don't talk to me in that tone. I'm worried that your father will skin me alive.” This was a joke to liven up the atmosphere.

As expected, Chu Yu smiled happily when she heard that. She ran to Xu Bai and took out a small notebook from her pocket.

The small notebook was wrapped in a cloth. Clearly, Chu Yu cherished it very much.

“Xu Bai, take a look at some of the things I've learned recently.” Chu Yu passed the small booklet to Xu Bai.

Xu Bai took it and felt the remaining warmth on it. He could not help but feel a little dazed as he recalled the time when he taught Chu Yu.

Now that their identities had changed, they missed that time.

Xu Bai smiled as he opened the small notebook. Looking at the words on it, he couldn't help but smile.

“I heard that you killed the First Prince?”

Chu Yu rolled her eyes and said, “Can you call what happened on the battlefield a killing trap?” That's called Wisdom Kill.”

“I didn't expect that after so long of not seeing you, you've become cunning.” Xu Bai knocked on Chu Yu's head.

Chu Yu closed her eyes and enjoyed it a little.

He had done this before, but it had been a long time since he had done it.

She had thought that this meeting would be extremely exciting, but after the initial excitement, it became calm, as if they were supposed to be like this.

It was as calm as water, but everything was extremely normal.

“Xu Bai, you don’t know how bored I’ve been staying here for so long!” Chu Yu tugged at Xu Bai’s sleeve and began to ramble on about what happened at the border.

There were all kinds of battles and some daily affairs, including some trivial matters at the border. Chu Yu recounted everything in detail.

Chu Yu seemed to have been holding it in for a long time as she rambled on like a river that had burst its banks.

Xu Bai did not feel bored either. He chatted with Chu Yu from time to time, smiling as he listened.

The two of them seemed to have endless things to talk about. They chatted for a full hour.

Chu Yu only stopped when it was late into the night.

“We hunted quite a lot of game in the camp. I’ll get the cook to prepare it and order a pot of wine for us to drink.” Chu Yu widened her bright eyes and said.

Xu Bai also felt a little hungry. He nodded and agreed.

Chu Yu stood up and was about to leave.

However, before she could lift the curtain, there was a sudden commotion outside..

Ever since the establishment of the Ascending Underworld Army, they had always been disciplined, and there was no commotion in the military camp. At this moment, there were noises coming from outside. Something must have happened.

Chu Yu's fair complexion changed slightly. She turned to look at Xu Bai and said, "I'll go out and take a look."

Xu Bai stood up and stretched. "I'll go take a look too. Let's go together."

The two of them walked out of the tent and followed the source of the sound to an open space. At this moment, there was a large number of wounded soldiers lying in the open space. A general was covered in injuries, and even one of his eyes was pierced blind. Blood was flowing non-stop.

There were many generals around, including King Sheng You.

Before he even got close, he heard the angry voice of King Shengyou from afar.

"This damned Great Yue State is really crazy. They don't even abide by the most basic rules!"

"Looks like they want to start a large-scale war with us. This king isn't afraid, so let's fight once."

"Men, gather the soldiers and charge into the battlefield with me!"

The surrounding soldiers looked at each other and nodded in unison. They bowed and cupped their fists. "Yes, sir!"

They were preparing to leave and lead their respective troops. After gathering their troops, they would be led by King Sheng You and charge into the battlefield.

When Chu Yu saw the situation, she shouted and walked forward. "Dad, wait a minute. What's going on?"

When King Sheng You heard the voice, he turned his head and said, "Didn't you notice the strangeness of the mortal evolution state? I sent someone over to deal with it. I didn't expect that after I finished dealing with it, I was ambushed by the people of the Great Yue State and almost lost Wang Zhou's life."

His words were filled with anger. Clearly, the other party's lack of discipline had touched his reverse scale.

If something strange happened on the battlefield, everyone had to deal with it first. This was an unspoken rule that all three parties had to abide by.

But now, the Great Yue State had broken this rule and laid an ambush there, waiting for them to deal with it before taking action.

This was no longer a provocation. In King Sheng You's eyes, the Great Yue State was declaring war on them.

Wang Zhou, the general who had been blinded, did not care about his injuries and prepared to follow King Sheng You.

After saying this, King Sheng You turned around and wanted to leave.

"Wait, everyone, wait." "There might be something fishy about this matter. Don't act rashly yet," Chu Yu said hurriedly.

She knew her father the best.

If he was to lead an army to fight, he would be a good fighter. After all, the name of King Sheng You was well-known even in the Great Yue State and the Barbarian Race.

On the battlefield, the soldiers of the Rising Nether Army fought bravely and fearlessly, and they also made a name for themselves.

But now, why couldn't her father see through something that even she could?

Think about it, it had been a long time since the war broke out. Even if she killed the Ninth Prince of the Great Yue State, there was no major conflict. At most, they would ambush the First Prince of the Great Chu State.

However, that was only an assassination attempt. There was still no direct conflict like this.

Now, this unspoken rule that all three parties had to abide by was inexplicably disrupted by the Great Yue State. What was the Great Yue State thinking? Could it be that he was completely confident that he could start the war?

Most importantly, the Ascending Underworld Army was guarding this pass, and the front line was very long. If the Ascending Underworld Army was summoned at this moment, who would guard the border?

If it was only the Great Yue State, it would still be a good thing. At worst, everyone would start a war. However, there was still the Barbarian Race who was eyeing them covetously. If the Barbarian Race took advantage of this opportunity to attack, wouldn't it be a wedding dress for others?

Even Chu Yu was aware of this matter. She did not know why her father was so rash.

When King Sheng You heard this, he waved his hand and said, "Don't worry about it. Just wait for my instructions. They have already stepped on their noses. If we don't give

them a slap, where will our Great Chu's face be?" Chu Yu opened her mouth slightly, wanting to continue speaking.

However, before she could say anything, she felt someone grab her wrist. She turned around and saw Xu Bai shaking his head gently. He grabbed her wrist slightly harder.

Chu Yu was stunned. She did not understand what he meant.

However, she trusted Xu Bai wholeheartedly, so when she saw Xu Bai's expression, she temporarily suppressed her thoughts.

King Sheng You left, he really went to recruit soldiers and feed his horses.

Xu Bai took Chu Yu's hand and returned to his tent.

Chu Yu did not say anything along the way, but everyone could see the doubt in her eyes. When they entered the tent, she finally could not hold it in any longer and voiced her thoughts.

"Father can't do such a reckless thing. What if the barbarians..."

Before he could finish, Xu Bai interrupted him.

Xu Bai held Chu Yu's shoulder and smiled. "Do you think that His Highness is really a boorish man? If he was just a boorish man, how could he have been guarding this place?"

Chu Yu was stunned. After she had a taste of Xu Bai's words, she said, "Is there another meaning behind this?"

Xu Bai nodded. He had already thought of something, but he was not too sure.

Chu Yu's eyes darted around. "Could this be related to the barbarians? Is the Great Chu State colluding with the barbarians? Let's deal with the Great Yue State first."

This was all she could think of. After all, this was the only explanation for this situation. If she really wanted to deal with the Great Yue State, it was impossible not to consider the Barbarian Race's invasion..

Now that King Sheng You really wanted to deal with the Great Yue State, he had to take this into consideration.

If they were working together with the barbarians, then everything made sense.

Xu Bai shook his head when he heard Chu Yu's thoughts."Impossible."

Chu Yu thought that her analysis was already very unique, but Xu Bai rejected it. She could not help but feel a little annoyed as she tugged Xu Bai's hand and shook it gently.

"Don't keep me in suspense. Just tell me."

Xu Bai smiled. "Did you notice that the wounded soldiers who came back are all fine? They seem to be seriously injured, but none of them died."

"Logically speaking, the enemy set up an ambush there. No matter what, it's impossible for no one to die. If they died, it's normal for them to be able to carry back the injured soldiers and some corpses, but there were no corpses."

"There's a problem with your previous analysis. If we really cooperate with the Barbarians, the Great Chu will not send troops."

"Think about it carefully. If a former enemy of yours asked you to cooperate and let you deal with another person, and asked you to attack first with all your strength, would you be willing?"

Chu Yu fell into deep thought as she furrowed her beautiful eyebrows slightly. She opened her eyes wide and analyzed Xu Bai's words. After a moment, she probed.

"Could it be that my father has other plans?"

Xu Bai nodded and said, "That should be the case. In my opinion, this war shouldn't be fought."

They definitely wouldn't be able to fight. Moreover, Sheng You King's performance just now was a little reckless. Xu Bai felt that he was acting for someone.

As for the motive behind the scenes, he would wait and see.

With Xu Bai's explanation, Chu Yu was slightly relieved.

“Then I’ll go gather my men first. My father has already given the order. I’m also a part of the military camp, so I have to make arrangements first.” Xu Bai nodded and agreed.

Since he had nothing to do here, he decided to go out with Chu Yuyu.

Xu Bai only saw his subordinates when Chu Yu was making arrangements.

What Xu Bai didn’t expect was that all of his subordinates were from the martial world. Although none of them had reached the mortal evolution state, a few of them were already on the verge of it.

Chu Yu was gathering her subordinates. Xu Bai’s arrival made the people of the martial world excited. Some of them were even trembling in excitement.

Of course, they were excited. Who in the martial world didn’t know the name Lord Xu? If they could meet him in person, they could brag to others when they went out in the future.

However, since they had military orders, they all obeyed the rules. No one came up to talk to Xu Bai, but their eyes never left Xu Bai.

A few female Jianghu people even winked at Xu Bai.

Of course, Chu Yu saw it too. She silently noted down the few female martial artists in her little notebook and gave them more training when she was free.

When all the troops were gathered, a horn sounded throughout the entire camp.

At the same time, the soldiers in charge of delivering orders were running around.

“Pass down my order. We will stop fighting today and set off tomorrow. All the barracks are ready to go!”

This order was passed three times, spreading throughout the entire tent.

In the military camp, there was a tense and serious atmosphere, as if a fight was really going to start tomorrow.

If Xu Bai didn’t believe in his own judgment, he would have thought that they would all fight tomorrow.

Chu Yu waved her hand hurriedly.” Everyone’s here. Let’s find a place to rest first, but don’t relax too much. We’ll gather together tomorrow morning.

Military orders were like mountains. If he said it would be tomorrow, it would be tomorrow. There was no room for detours.

Now, he was just gathering everyone to let them know the news so that they would not be at a loss tomorrow.

Everyone nodded and left.

Chu Yu waited until everyone had left before she walked to Xu Bai's side. She tugged at Xu Bai's sleeve and said, "'I wanted to eat and drink with you, but I have to go back to my tent now.'

With military orders, she did not dare to slack off.

Xu Bai smiled and stroked Chu Yu's head out of habit. "'You've grown up.'

He recalled that Chu Yu was still learning from him previously. She was really an innocent and cute young lady then. Although Chu Yu was still innocent and cute now, she was able to be independent most of the time.

Chu Yu's face turned red when she was touched by Xu Bai. She stomped her feet and slapped Xu Bai's hand away. "You can't touch my head anymore when you're older. You can't touch my head in the future. You have to treat me as an adult.'

Then, for some reason, she ran away with a red face.

Xu Bai was dumbfounded.

Didn't he enjoy being touched on the head before? Why did it suddenly become like this?

"A woman's heart is like a needle at the bottom of the sea. I don't understand, I don't understand. Ye Zi is still the best. Her skills are good, and she doesn't have such a temper."

Thinking of Ye Zi, Xu Bai was also thinking about it. He did not know when he would be able to see her. It was still very early for her to start studying, and he did not even know how her progress was.

He didn't think too much about it and returned to his tent.

As for whether they would fight tomorrow, they would see tomorrow.

The night was getting deeper and deeper. The moon was hidden deep in the dark clouds. Only a few specks of moonlight shone through the clouds and onto the ground.

In the vast military camp, there were soldiers patrolling with weapons from time to time. Some tents were lit up, while others had their lights out.

Xu Bai had not slept yet. He looked at the dim oil lamp in front of him and was still thinking about what had happened in the morning..

He didn't know what Sheng You King was up to, but he had a feeling that something was going to happen tonight.

Since they were going to set off tomorrow, it was impossible for them to fight, so tonight should be a necessary time.

Xu Bai didn't know if his guess was right, but after he had this guess, it was fine for him not to rest for the time being.

After entering the mortal evolution state, it didn't affect him much if he didn't rest for half a month.

Outside the tent, people passed by from time to time. They were patrolling soldiers.

There was a sentry every five steps and a sentry every ten steps.

King sheng you's military camp was heavily guarded. This was only on the surface. Who knew how many people were secretly guarding it.

Xu Bai looked at the figures that swayed from time to time. He put his hands on his head and leaned back on the chair.

He suddenly felt that life at the border was filled with a special novelty.

After all, he had never experienced living in a tent like this before. Of course, this novelty was only temporary. If he stayed for a long time, he would get tired of it.

With that thought in mind, Xu Bai switched to another foot and placed his right foot on the corner of the table.

Just as he changed his foot, he suddenly heard an unusual sound.

The sound of footsteps

The footsteps were extremely soft, but they were completely different from the patrolling soldiers. Every step the patrolling soldiers took was open and aboveboard.

However, the footsteps were sneaky, like a cat walking on tiptoes.

This was a critical period. Who would tiptoe?

When Xu Bai heard this voice, the corners of his mouth curled up slightly. He seemed to understand what King Sheng You was doing.

His divine soul began to expand. A moment later, this area was already enveloped by his divine soul.

Through his soul, Xu Bai could see that in the vast military camp, in an open space not far away, a faint shadow was flashing.

After the shadow appeared, it quickly disappeared into the surrounding air. If it was under normal circumstances, it would not be easy to discover.

This was an expert who was extremely good at hiding.

If Xu Bai hadn't heard the footsteps, he wouldn't have used his divine sense to observe. If he hadn't used his divine sense to observe, even he wouldn't have discovered it.

Xu Bai had been on high alert that night. After all, he had been extremely careful after what had happened. That was why he had discovered something.

"It seems that the Nether Army isn't as united as one piece of iron. This is probably the reason why King Sheng You acted so strangely today." Xu Bai thought to himself.

He did not continue to sit in his seat. Instead, he raised his feet and slowly walked out of the tent.

As soon as he came out, Xu Bai ran into patrolling soldiers.

However, these soldiers were also aware of Xu Bai's identity. When they saw Xu Bai come out, they did not feel anything different. They took a glance and left.

Xu Bai didn't communicate with him. Instead, he rushed in the direction where the shadow disappeared.

Under the cover of his divine soul, he could feel that subtle abnormality. He had already left the military camp.

Xu Bai didn't alert them and followed them quietly.

Before long, he was getting closer and closer to the phantom. However, at this moment, he felt the phantom stop.

Soon, a commotion broke out not far ahead. There were shouts of killing. It was very subtle, but Xu Bai heard it.

"As expected, so he made such a big move just to bait the fish."

Xu Bai used the Divine Nine Rounds and turned into a shadow, approaching quickly.

Soon, he arrived at the place where the fighting was coming from. He saw a man in armor surrounded by a group of soldiers.

The leader of this group of soldiers was the general who had been blinded in the morning.

The general's eyes were almost healed. He did not know what secret technique he used to grow new eyes. However, there were many magical businesses in this world, so it was normal for this to happen.

The person who was surrounded was injured and held a scimitar in his hand. He said angrily, "Wang Zhou, in terms of position, I am above you. How dare you send people to ambush me!"

Wang Zhou told his subordinates not to let their guard down and surrounded the area until not even a drop of water could pass through. Only then did he reveal a smile. "A fox will eventually reveal its tail, including the Dark Tower of the Great Yue State."

Dark Tower?

Xu Bai hid at the side. After hearing these two words, he felt that they were familiar. After thinking about it carefully, he knew that he had encountered them before.

The Dark Tower was very similar to the Heaven Inspectorate. It was a sophisticated intelligence agency in Great Chu. It also had the same responsibilities as the Heaven Inspectorate, but it was broader and even served the army.

The people of the Dark Tower were not only in charge of the Jianghu of the Great Yue State, but also responsible for assassinations, spying, ambushes, and spies.

Now, it seemed that the general who was surrounded was from the Dark Tower.

Wang Zhou's words had already made the matter clear. The expression of the general who was surrounded became extremely ugly. It was obvious that he knew that he had been exposed.

The general seemed to have thought of something, and his face revealed a horrified expression."Making such a big commotion and even saying that they want to start a war with the Great Yue State, could it be to lure us out? Your Highness, you have a good plan."

Xu Bai rubbed his chin.

It seemed like there was more than one military camp. Similar incidents were happening in the military camps at the border.

That proved that his guess in the morning was correct. Everything was done by

King You Sheng in order to pull out the nail.

Xu Bai guessed that there must be something more important to do.

At the scene, after the general knew that his identity had been exposed, he revealed a bleak expression..

No one answered him. There was no way out now.

Wang Zhou sighed." You're an old man who has been with His Highness. I really didn't expect it to be you. What benefits could make you betray me?"

When the general heard this, he smiled bitterly." In this world, there are other things besides benefits. The Dark Tower has paid so much to send me here.

There must be something that can control me. Your Highness is indeed very good to me. It's a pity that we're not on the same side after all."

As the general spoke, a trickle of blood flowed from the corner of his mouth.

The general's face turned purple, a sign of poisoning.

They were both from the border, and they were also part of the army. He naturally understood what it meant to be surrounded by a group of soldiers.

There was no way he could escape, so it was better to die as soon as possible. "In this case... My family wouldn't have died. At least I died for the Dark Tower." The general fell to the ground in pain. He grabbed the soil on the ground with his hands, and his nails fell off. This poison did not feel good.

Although his face was filled with pain, his eyes were filled with regret.

"Your Highness treats me well, but I have no other choice. If there is a next life,

I won't have so many burdens. I'm only willing to kill two more enemies for Your Highness."

The general and the others' eyes gradually dimmed, and their purple faces gradually stiffened. Soon, they lost their vitality.

Wang Zhou looked at the scene coldly and said, "'Take him away."

A few soldiers walked over and took the bodies away. Soon, the group of people disappeared from where they were.

Xu Bai did not show himself and watched the scene silently.

After the crowd disappeared, he turned around and returned to the military camp.

However, he did not return to his own tent. Instead, he went to where King Sheng You lived.

He had to understand these things, and Xu Bai also wanted to know what their purpose was.

It would not make sense if Sheng You King did not know that there were spies around him.

However, something must have happened if it was not removed earlier or later, but at this time.

Xu Bai was very curious, especially when it came to secrets.

He wanted to come over and ask. If Sheng You King didn't say anything, then forget it.

The closer he got to King Sheng You's tent, the faster Xu Bai's footsteps became. No one stopped him. After all, his identity was here.

Sometimes, the identity of Prince Xu was especially useful. For example, in Buddhism, a token was enough to intimidate those monks.

The oil lamp in King Sheng You's tent was still lit. However, when Xu Bai approached, he suddenly stopped and his face revealed a happy expression.

He felt that there was another person in King Sheng You's tent, and it was an old acquaintance, someone he especially wanted to see.

Outside the tent, there were soldiers standing guard from afar. They did not stop Xu Bai. After Xu Bai arrived, before he could speak, a voice came.

"Come in, I knew you could tell."

This was the voice of King Sheng You. It was filled with confidence, as if he was not curious about Xu Bai's arrival.

Xu Bai smiled, pushed open the curtain of the tent, and strode in.

Other than King Sheng You, there was another person sitting at the side, smiling as he looked at Xu Bai.

After Xu Bai met the man's gaze, he cupped his hands and said, "'Greetings, Eunuch Wei.'

The person who had come was none other than Eunuch Wei.

When Eunuch Wei saw Xu Bai, a smile appeared on his face. Although he looked particularly terrifying, in Xu Bai's eyes, this fear was gone. Instead, he felt a sense of familiarity.

After being in the business for so long, he could see the hearts of many people. He knew that Eunuch Wei was extremely sincere to him.

Eunuch Wei quickly stopped smiling and stood up, but his tone carried a hint of reprimand. "'Nonsense. As a King with a different surname, how can you bow to a eunuch like me?'"

As the most law-abiding person, even if Sheng You King broke the rules, Eunuch Wei would dare to reprimand him loudly, even if it was His Majesty the Emperor.

Most importantly, in the entire Great Chu, the most loyal person was none other than Eunuch Wei.

At the beginning, because the Great Chu State had lost its most precious thing, it was also because of its physical disability. It was even unwilling to accept a

position equivalent to the prime minister. It was willing to be the head of the eunuch.

To be honest, even someone as cunning as Xu Bai was impressed by his state of mind.

At least, he couldn't do it.

Moreover, although the two of them were very different in age, they had become friends regardless of age. Especially when they worked in the palace, they really got along quite well.

Therefore, when Eunuch Wei reprimanded him, he just smiled and didn't take it seriously.

'I can't change my identity in such a short time,' Xu Bai said.' Besides, in front of Eunuch Wei, it's better to drink two more jars of wine than to be polite. ''

Eunuch Wei's smile became even more radiant when he heard this. The wrinkles on his face were squeezed together.

In the palace, they had often drank together.

"It's a pity that I didn't bring any wine with me, but I brought a gift for Lord Xu." Eunuch Wei handed over the book in his hand.

Xu Bai was stunned. After he took it, he realized that there was a golden progress bar on it.

The progress bar was very slow, even slower than the progress bar he saw on No Flower.

After a brief comparison, Xu Bai knew that this thing was definitely at the extraordinary level.

There were a few words in the book-Three Forms of Ghost Blade.

"Saber manual? For me?" Xu Bai asked.

Eunuch Wei nodded." A Sixth Stage Transcendent expert, Blade Demon's ultimate skill. It wasn't easy for us to get him. I'm here to make a gift..''

Beside him, King Sheng You's mouth twitched.

"Honestly speaking, is Xu Bai your illegitimate son? I know Sword Demon's temper. You actually got this thing for Xu Bai."

To be honest, King You Sheng had never seen Eunuch Wei treat people so well, so he did this.

"Nonsense. As a king, how can you be so rude?" Eunuch Wei turned his head, not giving any face to King Sheng You. "The stronger Prince Xu is, the better it will be for Great Chu. I defeated the Blade Demon back then, so he was very happy to give it to me."

Willing to do so meant that if he didn't hand it over, he would cut off Blade Demon's head.

King You Sheng rubbed his head as he was reprimanded by Eunuch Wei.

Only Eunuch Wei dared to say that to him. Even if the current prime minister was here, he would dare to raise his knife and cut him if he said that.

However, Eunuch Wei could not. Eunuch Wei's character was not wrong. He was really doing this for Great Chu. What reason did you have to kill him when you ascended to King You?

Xu Bai didn't care about their bickering. He pondered and said, "This gift seems a little heavy."

No matter what, a sixth grade Transcendent expert was still a Transcendent skill, right?

He was indeed lacking an attack method. After all, after obtaining the Indestructible Demon Soul Buddha Body, his defense had already been greatly improved. What he lacked now was to increase his attack.

Now, it was really like sleeping on a pillow. Xu Bai was even looking forward to what this skill could fuse into.

Eunuch Wei shook his head and said, "This is a gift from our family. It's just a personal gift. It's not heavy at all. You don't need to return the favor."

With that, Xu Bai did not waste any more time. He gladly placed the Third Form of Ghost Saber into the hands of the puppet.

With the progress bar, it would be a waste not to take it. Moreover, since he had already made it clear, it was normal for him to keep it.

After Xu Bai put it away, Eunuch Wei turned his head to look at King Shengyou with a serious expression.

“Wangye, although I can’t make the decision on this border and it’s not something I should manage, I still want to say that it’s a bit risky this time.”

Eunuch Wei’s tone was solemn. There was no harsh criticism, just a reminder.

“The nail can be slowly removed. Military orders are like mountains, but Your Highness used this method to remove the nail. It’s fine if it’s done once, but don’t do it a second time, or else you might break your promise.”

Xu Bai listened on the side without saying anything.

What Eunuch Wei said just now made sense.

For example, the ancient beacon fire toying with the dukes was similar to this time.

Of course, Eunuch Wei exaggerated his words a little, his goal was to make King Sheng You remember.

Xu Bai also understood why King You Sheng did this.

Thinking about it carefully, if he informed all the troops in advance that they would attack the Great Yue State tomorrow, then once the spies in the army heard the news, they would definitely spread the news at the first moment.

If he waited for them, he could easily make those nails reveal their true form.

King Sheng You shook his head and said, “I also want to slowly remove them, but time is not on my side. There is no time to slowly remove these nails. We must remove them as soon as possible.”

Xu Bai and Eunuch Wei looked at each other and saw the confusion in each other’s eyes.

Time doesn’t wait for me?

The moment he said these words, it meant that something was about to happen. Moreover, it was a major event and a secret. Otherwise, it would be impossible to pull out the nail in the army so quickly.

Eunuch Wei reacted very quickly and waved his hand gently to the surroundings.

A gray thread appeared from his body and quickly covered the surroundings.

Xu Bai felt a huge pressure coming from his eyes.

“This Eunuch Wei’s strength is truly unfathomable. As expected of an invincible Transcendent, an existence that can even be beaten by a Saint.”

In my heart, I thought of a sentence, Xu Bai did not do other thoughts, but my gaze stayed on the King of the Ascended.

Eunuch Wei placed his hands on his lower abdomen and said, “Wangye, in your army, coupled with our methods, you can rest assured that no one knows.”

There was still Xu Bai here, but Eunuch Wei said that he could speak without worry. Clearly, he already treated Xu Bai as one of his own.

King Sheng You also treated Xu Bai as one of his own. After hearing this, he revealed an extremely solemn expression and slowly said, “Ruins.”

Eunuch Wei and Xu Bai’s expressions changed when they heard these two simple words.

Eunuch Wei was stunned at first, then he stood up abruptly, his expression uncertain.

It was obvious that Eunuch Wei knew what the ruins were. Moreover, these two words seemed to be very important, so important that Eunuch Wei’s

expression went out of control.

Xu Bai was at a loss. He looked left and right as if he had never seen the world before.

He couldn’t be blamed for this. After all, he hadn’t been in this industry for too long. From a certain point of view, he was still considered a newbie.

“Ahem.” Xu Bai pretended to cough to attract their attention.. He then said, “If it’s possible, can you explain to me what the ruins are?”

In fact, Xu Bai could not be blamed for not knowing this. He had been in this circle for too short a time. He wanted to make up for the lack of knowledge, but he had to be clear about the primary and secondary.

The progress bar was very tight every day, and he couldn't give up the time to learn something. Most importantly, it was useless to learn something when he didn't have the time.

He was very busy.

Of course, Xu Bai would not admit that it was because he was too lazy. Moreover, after he had Ye Zi, he became even lazier.

Studying?

Read my ass.

If he encountered something he didn't understand, he could just ask. If he had the time, he might as well look for the progress bar and strengthen his strength. Wasn't this much better than reading?

For example, now, when the Underworld King said the word ruins, Xu Bai didn't understand at all. It didn't matter if he didn't understand. He just had to ask.

When Xu Bai asked this question, King Shengyou and Eunuch Wei looked at each other. It was only then that they remembered that in some aspects, Xu Bai was still a tender newbie.

King You Sheng organized his words and told him what happened in the ruins. "The so-called ruins are actually some things from a long time ago.

They were more or less preserved and turned into strange places. There, one might be able to find useful information or even special things."

"However, the ruins are very dangerous. There's a saying that goes, if you want to have better benefits, you have to face greater risks."

When Xu Bai heard it, he could already feel that there was some unfathomable information jumping in front of him.

“A long time ago, before the country of Gale?”

Just now, the Ascending King had said the words ” a long time ago “. In their eyes, it was a long time ago, so Xu Bai could only make a guess.

It was earlier than the Gale Country. The Gale Country was established before the Great Chu Country and was overthrown by the Great Chu Country. Since it was a long time ago, he made a bold conclusion.

As soon as he asked this question, King You Sheng nodded and admitted Xu Bai’s deduction.

Beside him, Eunuch Wei didn’t wait for King You Sheng to finish his sentence and continued.

“To be precise, it was even older than any of the countries of today. At that time, there were not as few countries as there are now. At that time, all countries stood tall and it was a prosperous scene.”

No country can dominate, and no country has the strength to deal with other countries. At that time, every country has irreconcilable problems and inseparable relationships. They either form alliances or become enemies, and they fight fiercely.”

” The reason for this is that we want to be able to enter the Bizarre Market after unification. The method that we know now to enter the Bizarre Market through unification was also inherited from that time.”

Bizarre market?

Xu Bai had never expected that this matter would be related to the Bizarre Market. After hearing this, he hesitated for a long time and asked the question he wanted to know the most.

“Why do all of you want to go to the Bizarre Market? What exactly is there that can get so many people’s fanaticism?”

This was what Xu Bai couldn’t figure out. Why did everyone want to go there?

If he was worried that the Bizarre Market would be unified first and attack the human world, then all of this was easy to say.

After all, the best defense was offense.

But up until now, the information that Xu Bai had obtained told him that the reason why he had taken the initiative to attack the Bizarre Market was for better benefits. But what exactly was this benefit that could make the three factions so eager?

Eunuch Wei raised his index finger and said simply, "Resources."

Xu Bai rubbed his chin and thought about the word. His eyes lit up as if he had thought of something, but he couldn't grasp it completely.

Evidently, Eunuch Wei wasn't a mute person. After saying those two words, he continued without hiding anything.

"We can compare this world to an incomparably huge resource. We are the people who live in this world and can continuously obtain the resources within. "

"Whether it's ordinary people or people in the industry, they're constantly absorbing things from this world. However, resources are limited. Something seems to have gone wrong in this world, and it can't be recycled."

"It can't be recycled. In other words, one day, the resources of this world will be exhausted. When the resources of a world are exhausted, you should know what the outcome is."

Xu Bai fell into deep thought.

Of course, he knew that this was a very simple principle. When all the resources disappeared and survival became a problem, the world would be in chaos.

Or rather, it was already chaotic before it was completely exhausted.

If there were people with extreme thoughts, they would even kill each other.

Humans were consuming resources, and so were the people in the industry. Then, could killing these people delay the consumption of resources?

At that time, it would be an extremely terrifying chaos. No one would stop it, and no one would be able to stop it.

After all, when everyone was in a state of madness, if you were the one who was sober, you would be the most unsociable one.

Those who died the earliest were the most clear-headed.

"The same goes for the Bizarre Market?" Xu Bai drew inferences.

He thought about how the Bizarre Market wanted to unify and then attack the people on a large scale. Therefore, he guessed that the resources of the Bizarre Market would also run out..

Eunuch Wei nodded without hesitation. "Yes."

"Only when the two worlds merge into one will a circular world be formed."

"Only then can resources be circulated without limit. But you know that humans and strangeness are conflicting existences. One of them will die."

"If we lose, then this world that can circulate will be strange. If we win, it will be ours."

"It has nothing to do with good or evil. Everyone is doing this for survival. After all, no one wants to become an extinct race."

Xu Bai fell silent.

He had never expected that everything he did was just to snatch resources.

To put it in a deeper way, it was to make the world cycle, but this was also the beginning of conflict and contradiction. No one would expect their own camp to fall into extinction.

Therefore, it did not matter who won or lost in this world. No matter who won, the world would continue to circulate. What really mattered was the people living in this world.

Perhaps some people would ask, why didn't they immediately join forces when faced with such a major issue?

Impossible. They already had a strong grudge against each other, so who would be willing to join forces?

To put it bluntly, who would they listen to when they united and achieved true unification?

No one could say for sure if he would kill the goose that laid the golden eggs.

“So...At that time, the crazed scene of the ten thousand countries contending for hegemony fell into eternal extinction because of them contending for hegemony?” Xu Bai said.

Eunuch Wei nodded and said, “That’s right. No one would have thought that no one would truly unify the world in the end. Instead, the already tense situation was completely turned into nothingness.”

“Not a single country survived. They were beaten to pieces, and after generations of reproduction, they were very different from before. Only the ruins remained. ”

At this point, Eunuch Wei sighed. He was clearly thinking of the era where the wind and clouds were everywhere, but now it had become fragmented. He sighed from the bottom of his heart.

A world where thousands of countries coexisted. What a prosperous world it was, but now, everything had turned into nothingness.

“Then...” Xu Bai asked the last question, “What good things are there in the ruins, and why is it called a strange place?”

This was also something he wanted to know. The various performances of King Shengyou and Eunuch Wei just now showed that this ruin was extremely important.

Xu Bai was very curious and wanted to know what was inside. He had mentioned that it was a strange place not long ago.

Strange, how strange?

“The so-called strangeness,” Eunuch Wei said. “There are some things that are different from strangeness. We call them the Divine Consciousness.” “Divine Sense?” Xu Bai frowned.

Just hearing these two words, he felt an inexplicable pressure, as if he had triggered some kind of rule.

Eunuch Wei continued, “The so-called Nianshen refers to those who have died. They have their own consciousness. They didn’t become strange, but they have been moving in various forms and repeating themselves. ”

“However, if they come into contact with living people for too long, the rationality in their bodies will gradually be stripped away. In the end, they will turn into a terrifying consciousness.”

“It starts from the thoughts of a living person and ends from the thoughts of a living person. That’s why it’s called the Nianshen.”

“As for what benefits there are inside, there are really a lot of them.” Eunuch Wei pointed at the saber manual in the puppet’s hand.

Xu Bai was slightly stunned.” Where did you get this from?”

Eunuch Wei nodded and said,” Back then, Saber Ghost was just an ordinary saber user. He accidentally entered the ruins and was even lucky enough to come out alive. He relied on this saber manual to achieve his current reputation.”

“I can’t even imagine what’s inside. There’s indestructible armor, weapons that are so sharp that they can break hair, and secret manuals that make people intoxicated...So, do you understand why you have to go in?”

“Understood,” Xu Bai nodded.

Since he had already said so much, how could he not understand the meaning behind it?

Just these treasures alone were enough to make people go crazy, not to mention that after obtaining these things, their strength would definitely increase greatly.

Any party that obtained it would be able to increase their strength by a lot. For the matter of unifying the world, they would be able to occupy a sufficient advantage.

“When will it start?” Xu Bai asked.

At this point, Xu Bai was very interested in this. Not only was he very interested, he even wanted to turn the ruins upside down.

As for weapons and armors, he was not interested in them at all. What he was most interested in were the secret manuals of the trade.

With the secret manual, there would be a progress bar. With the progress bar, he could increase his strength. This was the most important thing.

Therefore, after thinking about it, Xu Bai had already made up his mind to go in and take a look.

Previously, he was still worried about how to get the progress bar, but now, wasn't there one?

If he could collect all the things inside, he could instantly turn from poverty to wealth. Not only could he solve his urgent needs, but he could even benefit in the long run.

Beautiful, very beautiful!

King Sheng You smiled." This king knew that little brat Xu would be happy to hear this news. See, this king is right, right?"

Eunuch Wei glanced at King Sheng You and said,"I'm not a prince, so I don't have much ambition. I only know that if something happens to Prince Xu, His Majesty will probably be furious. Prince, I hope you think twice before you act. After all, Prince Xu is now the pillar of Great Chu.."
