Ruins not only had benefits that made people drool, but there were even more dangers hidden within.

The Divine Sense inside was extremely dangerous. Even if one looked at it from afar, it was very likely that they would fall into eternal damnation.

Eunuch Wei's words were also a reminder to King You Sheng.

King Sheng You waved his hand and said, "I know you're worried about Xu Bai, but sometimes too much protection can make a person mediocre. Moreover, I respect Xu Bai's wishes. As long as Xu Bai doesn't go, I won't force him. ""

Eunuch Wei looked at Xu Bai, meaning that he had already explained the key points to him. It was up to him whether he wanted to stay or go.

Xu Bai smiled and said, "Of course I have to go and take a look at such a lively event. I'm not stupid, and I won't joke around with my life.""

At this point, his meaning was already very clear. With the progress bar, it would be a waste not to take it.

Danger was nothing. In this day and age, he had climbed all the way up from the bottom. Had he not faced enough danger?

As the saying goes, wealth comes from danger. He had to take this step.

Eunuch Wei knew Xu Bai's personality very well. He also knew that once Xu Bai made up his mind, it would be difficult to correct him. He could only sigh and remind him to pay attention to his own safety.

Xu Bai seemed to have heard something and asked, "Eunuch Wei, aren't we going in together? Maybe there's something useful to you inside."

From what he heard from Eunuch Wei, it seemed that Eunuch Wei did not want to participate in the remains this time. There were many treasures in the remains. Could it be that Eunuch Wei did not want them at all?

Eunuch Wei shook his head." I really want to go in too. However, ever since the last letter that Prince Xu sent to His Majesty, it said that many old things were preparing to be resurrected. I'm still cleaning them up. After cleaning them up this time, I've found many more clues. I think His Majesty doesn't have enough people, so I have to go back."

In Eunuch Wei's opinion, the interests of Great Chu were more important than a mere relic. Therefore, he would not stay here for long. If it were not for the fact that he was here to give Xu Bai the saber manual, he would not have even rushed over.

"Leave tomorrow?" Xu Bai asked.

"I'm leaving immediately tonight." Eunuch Wei shook his head."

Xu Bai felt a little regretful." He even said that he would get drunk with Eunuch Wei tonight. What a pity."

He wasn't boasting. He really had such thoughts. As the saying goes, a thousand cups of wine are few when it comes to a bosom friend. Although he and Eunuch Wei were very different in age, he was a rare bosom friend when it came to drinking.

"There will be plenty of opportunities in the future." Eunuch Wei stood up and walked out. As he walked, he said,""I have to go."

Eunuch Wei disappeared without a word, not even a farewell.

"Eunuch Wei, you've been running around for Great Chu all your life. I don't know when you'll be able to rest."

Xu Bai retracted his gaze and laughed." You're not a fish. How can you know the joy of a fish? Perhaps Eunuch Wei would be more than happy to enjoy it." Your Highness, when will the ruins begin?"

Everyone's pursuit was different, so it was difficult to understand others 'standpoints from their own standpoints.

Now was not the time to discuss this, so Xu Bai still asked about the relic.

Since he had understood most of the things, the most important thing now was when the relic would open so that he could be sure in advance.

King Sheng You waved his hand." It's still early. It'll probably be more than half a month later. I'll inform you in advance when the time comes."“

Xu Bai nodded. Since it was still early, he wasn't in a hurry. He had asked about most of the things. It was already late at night, so he didn't want to disturb them. He said goodbye and left.

King Shengyou had no intention of forcing Xu Bai to stay. After he left, he picked up the book on the table and continued reading

In the past half a month, something major had happened in the Ascending Nether Army. Many of the spies that had been buried in the army, whether they were from the Barbarian Race or Great Yue State, had been removed.

No guarantee of 100% removal of the left is also not an important position.

In this half a month, the Underworld Army did not make any other moves, nor did they say anything about sending troops.

However, Xu Bai had heard that King Sheng You's move was so wonderful that both the Great Yue State and the Barbarian Race imitated it. However, some things would have very little effect the second time after someone used it for the first time.

Therefore, when the other two forces used it, it did not produce very good results.

Xu Bai had only heard this news occasionally, but he didn't care about it. He focused on practicing the Three Forms of Ghost Blade.

It had to be said that it was indeed worthy of being the progress bar of the extraordinary stage. The speed was really too slow. If not for the fact that the golden finger had leveled up once, it would probably have taken even longer.

In response, Xu Bai thought about how he had leveled up previously and had the urge to go to the two bizarre markets again.

Of course, it was just an impulse. Most importantly, there was no way to enter now, and his strength was not very stable.

Fortunately, after half a month, the progress bar in his hand was finally full.

The light blue smoke appeared in front of his eyes and gradually gathered into a line of words that appeared in the air.

[You have studied the three forms of Ghost Blade and comprehended the three forms of Ghost Blade.]

When the light blue words appeared, they quickly turned into smoke and filled the air. This time, they did not turn into information, which meant that there were signs of fusion..

[Fusion option found. Fusion in progress.]

[Third Form of Ghost Blade + Swordless Blade Superclass = Three Absolutes of Blade and Sword.]

[Fusion successful.]

In the next moment, the words disappeared completely. As they turned into smoke, they turned into information and entered Xu Bai's mind.

Xu Bai closed his eyes and carefully sensed the vast amount of information. When he had absorbed all the information, he slowly opened his eyes.

In front of him, the latest interface appeared.

[Name: Xu Bai]

‘ Comprehension: Maximum level.’

“F \* ck!”

Even with Xu Bai’s current state of mind, he could not help but curse. The shock in his heart could not be concealed.

Rank-9 Transcendent!

A truly awesome skill!

After Transcendents, there were only Saints and Saints.

Now, this skill had reached the peak of Transcendence.

Although it was not a mental cultivation method, it was like equipping a child with a giant cannonball.

How fierce!

Xu Bai savored it carefully and soon understood this skill.

“So it turns out that Saber Demon hasn’t studied that manual to the extreme.”

Before the fusion, Xu Bai estimated that the skill was at most a seventh grade

Transcendent. However, for Sword Demon, who was only a sixth grade Transcendent, it was still not at the highest level. After the fusion, its power was even stronger.

There were only three moves in the so-called Three Absolutes of Blade and Sword.

These three moves were called Slaying, Overturning the Earth, and Overturning the Heavens.

Each move had its own characteristics and was getting stronger and stronger.

Slash. This move had a powerful external destructive power. According to the description of the skill, one slash could split the world.

Earth-covering, this move had the destructive power of the exterior, but it destroyed the interior, from the inside out.

Even if it had a strong exterior, it was soft inside. If it was destroyed from the inside out, it would be even more vicious and sinister.

It was said that once the earth covered, corpses would float thousands of miles away.

As for Sky-Turning, this move was a combination of the inside and the outside. From the inside out, and then from the outside in. As the two sides clashed, it brought incomparable destructive power.

The three moves summarized everything, from the outside to the inside, from the inside to the outside, and finally from the inside to the outside.

But for Xu Bai, there was still a drawback.

“I still don’t have enough mana.” Xu Bai used gaming terms to think about it.

A Transcendent Rank-9 skill was really a little beyond the norm. He was only at Extraordinary Rank-3 now, so it was really difficult for him to use it.

According to his current true essence energy, he could continuously use it to kill people for about two incense sticks.

If he used the Indestructible Demon Soul Buddha Body, he could only use it for the time it takes for an incense stick to burn.

However, Xu Bai was already very satisfied. One incense stick was already very long, okay?

According to the conversion rules of Great Chu, one incense stick was equivalent to fifteen minutes.

Fifteen minutes of strength, top!

As for Earth Overturning, don’t even think about it.

Xu Bai estimated that even if he used all the true energy in the double kidneys, it would not come out.

Let alone overturn the heavens?

"We've earned it!"

No matter what, it was already very suitable for him to exchange for a powerful attack.

"I feel like I can kill a lot of people now. I really want to find someone to give it a try." Xu Bai clenched his fists.

When he reached the mortal evolution state, weapons weren't that important to him anymore. If he didn't have the materials, he wouldn't have made Hundred Rend.

Of course, this was relative.

If he was given a Saint Realm weapon now, he would really need it.

Of course, that was just a thought.

At least for now, Xu Bai didn't need to improve his mechanism skills. More importantly, he needed to find a mental cultivation method.

"I wonder if King Sheng You has a mental cultivation technique. Although he's a military formation technique, he should have it no matter what. Why don't we ask him?" Xu Bai rubbed his chin and thought to himself.

After this thought appeared, it took root in his heart. He really wanted to ask.

"I'll just go and ask. If you don't give it, forget it." After Xu Bai made up his mind, he stood up and left the door, preparing to go to King Sheng You's tent.

Outside the tent, there was still an endless stream of patrolling soldiers. However, before Xu Bai reached his destination, he heard a shout coming from outside the camp.

A soldier who was delivering orders ran in from outside, shouting as he ran.

"Report! The deputy leader of the Barbarian Race and the Great Yue Army God had suddenly led tens of thousands of soldiers to the Three Watch River."

This voice shouted several times, shouting and running all the way until it finally entered King Shengyou's tent.

Soon, King Sheng You walked out with an unfriendly expression.

"Three Watch River? What the hell is that?" Xu Bai thought to himself.

At this moment, King Sheng You had just come out when he saw Xu Bai. He immediately turned around and said something to a general, asking him to quickly gather his troops and prepare to head to the Three Watch River. At the same time, he gave Xu Bai a look..

Although he didn't say anything, Xu Bai quickly understood that she wanted him to go with her.

"It looks like your highness plans to go together."Xu Bai thought for a moment and nodded to the King of Ascending Secrets.

Not long after, Chu Yu walked out and quickly gathered her men.

With the military order as firm as a mountain, the marching speed increased greatly. Not long after, many soldiers from the surrounding barracks rushed over.

These were all cavalrymen, and what they paid attention to was speed.

King Sheng You also donned his battle armor and stood at the forefront. At the same time, a horse was handed to Xu Bai by Chu Yu.

"Father wants to use the army formation to travel. You can ride on a horse and get a good wind, which will be faster."

Xu Bai nodded and mounted the horse.

His horsemanship was also quite exquisite. After all, before this, he had always been riding a horse.

He did not ask, but he already had a guess in his heart.

Perhaps it had something to do with the ruins. After all, it was getting closer and closer to the time King Sheng You had told him.

The last time he pulled out the nail, he couldn't guarantee that it would be completely pulled out. The news must have been leaked.

Xu Bai did not ask further. He stood beside King Sheng You under Chu Yu's lead.

"As you thought, the elites of the Dark Tower really live up to their reputation. Thousands of them died, and in the end, the information was really spread." King Sheng You said concisely.

This sentence alone made Xu Bai realize that his guess was correct.

After all, the three forces had been fighting for so long. They had always been winning against each other. It was impossible for them to suppress each other in all aspects. Therefore, it was normal for there to be a winner on the battlefield, let alone information.

The Great Yue and Barbarians were not pushovers, so this move was not out of Xu Bai's expectations.

And looking at King Sheng You's intentions, it didn't seem to be out of his expectations. The military situation was urgent, and everyone did not communicate much. King You Sheng pulled out the long sword at his waist and pointed it at the sky.

In the next moment, King Sheng You's body emitted a dazzling light. At the same time, in Xu Bai's eyes, the tens of thousands of soldiers gathered together actually emitted a light to cater to King Sheng You.

When all the light gathered together, it made it impossible for people to open their eyes. Even the sun in the sky paled in comparison.

King Sheng You's strength was top-notch, and it was a military formation that made the entire martial arts world afraid.

In the next moment, when the light reached its most intense moment, Xu Bai suddenly felt that the time and space in front of him were gradually retreating. The horse under him lifted its feet and ran out briskly. Every step was a thousand meters away.

This speed was even faster than his flying speed!

In the blink of an eye, Xu Bai heard the sound of flowing water. He focused his eyes and saw that the surrounding time and space were no longer moving backward. He appeared in front of a wide river.

At this moment, this spacious place seemed a little crowded.

King Sheng You brought tens of thousands of soldiers, but Great Yue and the Barbarian Race also brought tens of thousands of soldiers.

When the three forces gathered together, they fell into a deathly silence.

Xu Bai could clearly see that the Great Yue State and the Barbarian Race also had leaders who were dressed like middle-aged men.

The aura that these people emitted was similar to King Sheng You. It was obvious that they were all in a military formation.

The aura of these two people was not only similar to King Sheng You, but also on par.

“The idea is a little tricky.” Xu Bai thought to himself as he sat on his horse. Behind Xu Bai were the eldest prince, Chu Yu, and a group of generals.

Their expressions were solemn and solemn.

At this moment, King Sheng You suddenly pointed ahead and said to Xu

Bai, ”Do you see those two people? Bai Zhong, the Military God of Great Yue

State, and Gu Muyin, the deputy leader of the supreme barbarian tribe.”

Xu Bai was stunned. He didn’t understand why the King of Ascending Secrets would suddenly introduce him at this time. Could it be that he had other intentions?

Reality proved that he was thinking too much. He did not have any other intentions because King Sheng You’s next sentence made the already tense atmosphere even more tense.

“These two guys have been beaten by this king before. Of course, this king has also been beaten by them before, but they have been beaten by this king more times.”

The scene fell into a deathly silence. Xu Bai could see with his own eyes that the expressions of the two top-notch big shots had become extremely gloomy at this moment.

Good fellow, as expected of the Underworld King. His personality was really the same. The moment he came, he immediately pulled the hatred to the max. Didn’t you see the expressions of those two? It was as if they had eaten a fly.

After Sheng You King said this, he continued, ”Are you scared?”

“I’m afraid.” “But I also want to try,” Xu Bai said directly.”

“How straightforward!” King Sheng You laughed loudly. He hooked his finger at the two people who were also at the top level and said disdainfully, “Hit me.” Arrogant, extremely arrogant.

However, the War God and the Deputy Chief didn’t make any movements other than looking gloomy.

Xu Bai understood. In this three-way situation, no one made the first move because they were all guarding against the other two.

The War God Bai Zhong sneered.” I was tricked by you once back then. You want to use it again today? You must be dreaming. Let’s talk about the ruins..””

As old rivals, be it the War God Bai Zhong or the Supreme Tribe’s Deputy Chief, they all knew about King Shengyou’s personality.

As the saying goes, the one who understands you the most is always your opponent. Therefore, at this moment, they knew why King You Sheng said those words.

Provoke, provoke.

It was that simple. When a person was provoked and angered, it was easy to lose some judgment.

Only by ensuring absolute calmness could they analyze and deal with the situation appropriately. Now, they needed to calm down.

Therefore, although everyone’s expressions were gloomy, they did not change at all when they saw King Sheng You’s deliberate provocation.

Seeing everyone’s calm expressions, King Sheng You shrugged and exhaled through his nose. “No guts, boring.”

The Supreme Tribe’s deputy leader, Mu Muyin, said in a cold and gloomy voice,””Let’s do what Bai Zhong did. Let’s first discuss the matter of this ruin.”

“Ruins?” King Sheng You chuckled. “What bullsh\*t ruins? I discovered them first. What reason do you have to take my things?”

Bai Zhong sneered. “The ruins are ownerless. I’m afraid it’s not good for you to monopolize them today. Moreover, you can’t. Whoever wants to monopolize

them today will face the siege of the other two forces.”

Ruins were extremely important. No matter how big or small the ruins were, they were extremely rare to those who entered the ruins.

Moreover, the three forces present did not like each other. They were like fire and water. They wanted to destroy each other immediately. Why should they let each other monopolize the benefits?

In short, as long as the other party was living a worse life than him, he would be comfortable. If the other party was living a better life than him, then it would not work.

Xu Bai did not speak. After hearing the conversation between these people, he looked at King Sheng You.

He was also thinking about how King Sheng You would reply.

The current situation was indeed in a stalemate. Even if it was King Sheng You, he probably did not have the confidence to take down the other two forces. After all, everyone’s standards were about the same. Even if they were a little weaker, they would not be much weaker.

After Bai Zhong finished speaking, King You Sheng suddenly laughed out loud. His style changed and he was no longer so domineering. “How can this king be the kind of person who monopolizes everything? You’re right. Whoever wants to monopolize everything will face the siege of the other two sides.” Bai Zhong and Gu Muyin looked at each other and saw a trace of caution in each other’s eyes.

Normally, King Sheng You would never be so easy to talk to, but why did he suddenly become Mr. Nice Guy? According to King Sheng You’s personality, he should at least scold him.

The more this was the case, the more cautious they had to be. Everyone was an old and shrewd person. How could they trust each other so easily?

“What do you want?” Bai Zhong asked.

No matter what, the current situation was that they had to continue talking about this topic. The ruins were about to appear, and they could not just wait.

If they could chat, then they would chat. If they couldn't, then everyone would stop playing. No one would be able to enter.

Bai Zhong felt that he had to at least open up the topic. After all, if everyone really did not enter, it would be a waste of an important resource.

Gumu Yin didn't say anything. In fact, he agreed with the idea.

However, while he agreed, it did not mean that he was used to Bai Zhong. In fact, none of the three parties present could stand each other.

Their gazes were cast on King Sheng You. Clearly, everyone was waiting for King Sheng You's next sentence.

King Sheng You smiled and said, "How about this? Since no one wants to quit, then everyone will go in together. Whether you live or die has nothing to do with everyone here. After you go in, if you want to live, then live. If you want to die, then die. Anyway, it's up to fate. No one can blame anyone."

Bai Zhong frowned and did not answer. He was thinking about the meaning of this sentence.

"Heh." Gu Muyin said, "There is an upper limit to the number of people in the remains. We don't know how many people we will need next. Everyone here is from the military formation. Then, if I send my strongest subordinate and elite soldiers, won't we be able to win?"

King Sheng You shrugged and said, "I've already said that life and death are determined by fate. Wealth and nobility are determined by the heavens. If you can send the strongest troops and subordinates, I can also send them. So, it depends on who plays the best chess. Anyway, if you die, don't blame others."

 Everyone fell silent.

Whether it was Gu Muyin or Bai Zhong, they both knew that this was the best solution.

As for them entering by themselves, it was simply impossible. They absolutely could not enter by themselves.

If they really went in by themselves, the other party could completely take advantage of this period of time to launch a large-scale invasion. Without them guarding the rear, wouldn't they leave the rear to others? No one would do such a thing that put the cart before the horse.

King You Sheng's tone became unfriendly. If you're a man, just give me a straightforward answer. Are you willing or not?"

Bai Zhong and Gu Muyin came back to their senses.

Gu Muyin suddenly stretched out his hand and pointed at a location. "I agree with your statement, but there's a condition. He can't enter."

As soon as he said this, everyone's gaze followed the direction that Gu Muyin was pointing at and fell on a handsome young man.

Xu Bai had been watching from the side, but now the fire was burning him. He couldn't help but narrow his eyes.. "What do you mean?"

He was still thinking about how he could go in and get some benefits, but now, the other party did not seem to want him to go in.

"Do you think I don't know your identity, Prince Xu, or the Bloody Butcher Blade Guest?" Gu Muyin's tone was cold."

"Blood your mother!" Xu Bai cursed without hesitation.

They had already become enemies, and now they were still calling him by this nickname. Who else could they scold if not him?

"Hiss..."

On the Supreme Tribe's side, the group of people from the Supreme Tribe all sucked in a breath of cold air.

This was the Deputy Chief of the Supreme Tribe. To put it bluntly, his status was equivalent to that of King Sheng You. However, he was actually scolded by a young man, and it was so direct that he was cursing his mother.

Even the generals of the Great Yue State gave Xu Bai a look, which meant that he was really a warrior.

Sigh?

Something was wrong?

Someone finally reacted and recalled the identity Gu Muyin had called Xu Bai.

Prince Xu?

Bloody Butcher Blade Guest?

This time, everyone present understood.

Gu Muyin was suddenly scolded. His face was full of confusion. He did not understand why he was scolded at all. He could not help but put his hand on the long saber at his waist.

The knife had a faint dark red color. It was obvious that it had cut down countless people.

In this life, other than people of the same level, who would dare to scold him?

Before he could flare up, another voice sounded.

“Blood your mother.” “What are you looking at, old man?” Xu Bai continued to curse. What do you want?”

As he spoke, Xu Bai pulled the horse closer to King Sheng You.

Was he joking?

In any case, everyone was enemies. What was wrong with scolding a little? Moreover, with King Sheng You here, could anything happen to him? He had not forgotten that the barbarians had sent an expert from the tribe to assassinate him. He had already made it clear. What was wrong with cursing a little to satisfy his craving?

King Sheng You stared at Gu Muyin and said slowly, “You want to make a move?”

Gu Muyin took a deep breath and finally calmed himself down.

At this moment, Bai Zhong finally spoke.

“So it’s Prince Xu. I was blind just now and didn’t see Prince Xu’s arrival. Since it’s Prince Xu, I really can’t go in.”

Xu Bai raised his eyebrows.

Bai Zhong continued, “Everyone in the world knows about Lord Xu’s ability to fight above his cultivation level. We are all members of the military formation. There is a limit to the number of people in the relic, so we can’t bring more people. Moreover, it is relatively isolated there, so the power of summoning the military formation from afar is limited. If Lord Xu enters, what will our people do?”

As soon as he finished speaking, he did not say anything else. Clearly, he and Gu Muyin were on the same side in this regard.

The ruins were relatively isolated, and each ruin had a different limit on the number of people. This was especially unfair to the people in the army.

Unless one could summon the power of an army from afar after becoming a saint.

However, it was impossible for them to send someone of that level in. If they sent someone in, there would be one less true expert outside. At that time, even if one of them had a little thought, the situation at this border would change.

Therefore, they absolutely could not let Xu Bai in at this time. They all knew that if they let Xu Bai in, they would directly kill him with a knife.

Xu Bai's brows furrowed deeper and deeper. He was about to speak, but he didn't expect King Shengyou to raise his hand to stop him.

"Good! This king agrees." King Sheng You said indifferently.

Xu Bai stopped and didn't say what he was going to say. His mind was racing.

He was thinking about what he had just said. Although he didn't know why he suddenly agreed, when King Sheng You spoke, he gave him a look, meaning to let him calm down.

In other words, there should be a contingency plan, but he agreed to it now as a stopgap measure.

"Good, good!" Bai Zhong said, "In that case, let's retreat first. We'll come back a day later. But let's be frank. If anyone dares to enter first, don't blame us for joining forces.

King Sheng You and Gu Muyin didn't say anything. It was obvious that they agreed with this statement.

Only then did everyone turn around and leave.

On the way, Bai had not said a word. Even after arriving at the military camp, he did not say a word.

As soon as he handed the reins to Chu Yu, King You Sheng walked over and patted Chu Yu's shoulder gently. At the same time, he gave Chu Yu a meaningful glance, indicating that he was coming over.

Xu Bai nodded and followed silently. Soon, they entered the tent of King Sheng

You.

Before he could say anything, he heard footsteps behind him, followed by a middle-aged woman with a wooden box on her waist.

Not only that, Chu Yu also walked in.

Although the middle-aged woman was old, one could still see that she had been charming when she was young. There was a medium-sized wooden box on her waist. The wooden box was locked, and it was obviously very expensive. Chu Yu pulled the curtain shut and walked to Xu Bai. She winked at him.

Xu Bai was stunned, not understanding what this meant.

At this moment, King Sheng You said, "Let me introduce you. This is the Thousand-faced Female Thief. After I saved her, she has been working under me. She is good at changing her appearance. Using this ability, she has also made many contributions to Great Chu."

In the end, King Shengyou didn't forget to add, "Next, we'll have to rely on her. "

Thousand-faced Female Bandit?

Change his appearance?

In an instant, Xu Bai understood what Sheng You King meant. Good heavens, this time he wanted to change the crown prince..

Wouldn't there be no problem if he used the method of changing his appearance to turn himself into another person?

High, really high.

Not only was he tall, but he was also extremely sinister. As expected of King Shengyou. He looked like a boorish man, but he actually had a lot of bad ideas in his stomach.

However. Why was Chu Yu here?

“Could it be that Chu Yu is going in as well?” Xu Bai asked doubtfully.”

Previously, he had learned that there was a certain number of people entering the ruins. The most important thing was to try to fill the upper limit.

If Chu Yu had followed him in, it would have been the right thing to do.

He thought that his guess was right, but before he could finish speaking, Sheng You King shook his head.

“This king won’t let her go in. After all, if she goes in and you disappear, it’s hard to say.”King Sheng You said slowly.

“I understand. You want her to pretend to be me, right?” Xu Bai was speechless.”

The meaning was clear. If Xu Bai suddenly disappeared, it would arouse suspicion. Therefore, he had to let someone pretend to be Xu Bai. At least, it would not arouse suspicion.

The most suitable person to impersonate Xu Bai was none other than Chu Yu. After all, she had lived with Xu Bai before, so she knew him very well.

Xu Bai smiled.” Not bad, not bad. You’re indeed a prince. You’re really meticulous in your thinking. I’m really impressed. Since I, Chu Yu, am pretending to be me, who should I pretend to be?””

There was obviously nothing wrong with this plan. He could enter smoothly, so he was in a good mood.

Especially when he thought of the progress bar inside, his mood became even better.

King Sheng You pointed at Chu Yu, and it was obvious what he meant.

Xu Bai’s body stiffened and he said, “I... Pretending to be Chu Yu?”

When he saw King Sheng You nod his head and clearly express that it was like this, his entire person was like a bolt from the blue.

Chu Yu was unhappy. She tugged at Xu Bail s sleeve and said unhappily, ””What’s so good about pretending to be me? Am I not pretty?”

“That’s not what I meant. It’s actually quite good.” Xu Bai grinned.

In fact, it was normal to change one’s appearance. It wasn’t really a change. It was just a simple disguise. After entering, one could completely change back.

King Sheng You coughed and said, “Since you’ve agreed, let’s begin.”

“There’s no need for that,” Xu Bai said with a smile.

As he spoke, he used the Thousand Faces Technique.

In the next moment, his body shape and even his facial features were identical to Chu Yu’s.

Chu Yu’s mouth was agape when she saw this. She circled Xu Bai twice and exclaimed in surprise, “You even know this!”

Not only Chu Yu, but even King Sheng You was shocked. He did not expect Xu Bai to know this.

“If you had only cultivated one thing, I’m afraid you wouldn’t be far from me now.” Sheng You King said regretfully.

Thousand-faced Female Bandit also saw this scene and could not help but cover her mouth. “This is the Thousand Faces Technique. Prince Xu is truly astonishing.”

Xu Bai rubbed his chin and said, “Can I fool anyone with this appearance?”

To be honest, he was still not confident. After all, the other two were on the same level as King You Sheng.

He saw the other ‘Chu Yu’ doing the actions that Xu Bai was supposed to do. It was extremely strange.

Especially Chu Yu, who was rolling her eyes. “If Xu Bai turns into me and I turn into Xu Bai, then... Aiya, it’s so embarrassing.”

She felt guilty and carefully looked around. When she saw that no one had noticed her abnormality, she heaved a sigh of relief.

The Thousand-faced Female Bandit smiled and opened the wooden box beside her. She took out two masks from the box and handed them to Chu Yu and Xu Bai.

“There is indeed a problem with his appearance, but as long as he wears a mask, they shouldn’t be able to tell. After all, I’m a professional. If Prince Xu can change his body shape, then I don’t need to do anything.”

Xu Bai looked at the mask in his hand curiously.

The mask was very smooth and didn't even have any facial features. It felt cold in his hand and had a good texture.

After he put it on his face, he felt it squirming. Soon, he found a mirror and realized that he had already turned into Chu Yu.

The Thousand-faced Female Bandit smiled and said, "This is an heirloom of our lineage. It can change into anything you want. It's very difficult for others to discover it. When the time comes, Prince Xu will have to return it to me." "Of course." Xu Bai said.

On the other side, Chu Yu had also put on the mask and turned into Xu Bai's appearance. However, her body shape did not change. She still had the same curvaceous appearance, which made her look very strange.

The corners of Xu Bai's mouth twitched. His gaze stopped at Chu Yu's magnificent chest and he said, "You have to change your size. It's too big."

"Leave it to me." Thousand-faced Female Bandit said.

Soon, Chu Yu left with the Thousand-faced Female Bandit.

After the time for half an incense stick to burn, he had turned into Xu Bai from his body shape to his appearance.

"Yes, very good." King Sheng You smiled. "In that case, even if they have the means to reach the heavens, they won't know my plan. They're dead for sure in this relic."

As he spoke, Sheng You King waved his hand.

"You can leave first. Xu Bai stays behind. This king still has some things to say to him."

Chu Yu and the Thousand-faced Female Bandit did not stop even after she said that. They left very quickly. Xu Bai could not help but feel a sense of novelty when he saw Chu Yu mimicking his walking posture and leaving..

This Chu Yu was quite good at imitating others. It seemed that she had observed her frequently.

After the two of them left, King You Sheng looked at Xu Bai.

He first explained some of the rules in the ruins, including how to get out.

Actually, the method to come out was very simple. As long as the time was up, it would come out naturally.

Every ruin had a time limit, and this was the only way to get out. Moreover, the time limit of each ruin was not fixed.

After saying all this, King Sheng You finally spoke of the main event.

"This time, although you can enter, you still have to be careful. The main reason why I kept you here is to talk to you about the Nian God in the ruins." King Sheng You's tone became solemn.

Xu Bai nodded and waited patiently for the next words.

The Mindfulness God was different from the strangeness. It was also a unique product of the ruins.

These things had consciousness, and it was the consciousness of when they were alive. They lived according to the path of their previous life.

However, as the ruins unfolded, they would gradually lose their rationality and eventually become terrifying existences.

Of course, Xu Bai wanted to know about such a novel thing.

King Sheng You didn't waste time. After explaining the uniqueness of the Mindfulness God, he added, "The only thing you have to be careful of is not to kill these Mindful Gods when you meet them."

"Contact?" Xu Bai frowned.

Why was it necessary to come into contact with such a strange thing?

King Sheng You nodded and said, "That's right. You know, once you encounter the Mindfulness Gods, everyone who enters the ruins will want to come into contact with them because they still retain their rationality when they were alive. By coming into

contact with them, you can understand what happened in the past and infer a lot of resources from them.””

When Xu Bai heard this, realization dawned on him.

If that was the case, it was indeed possible. After all, to be able to communicate with something with consciousness, one could obtain a lot of things.

However, the danger involved was huge without even thinking about it, because you never knew when Nian Shen would lose his mind.

Perhaps he was still communicating with you a second ago, but in the next second, he had already become a terrifying existence.

“This time, this king will send a portion of soldiers to follow them and fill up the quota to prevent them from being suspicious. “Sheng You King continued.

Xu Bai was still thinking about how to get some benefits from this, but when he heard this, his brows furrowed tightly.

“Your highness, if that’s the case, I’m afraid I won’t be able to take care of you inside.”

Just by going in alone, he was free, but if he added the Spirit Ascending Army, he felt as if he was bound.

King Sheng You shook his head.” You don’t have to take care of them. They are also going in to find their own opportunities. You just have to follow your own ideas.””

Since he wanted to find the opportunity, he had to be prepared to leave his life behind. Obviously, King Sheng You had already made this preparation. The people he sent in were also to find the opportunity and would not hold Xu Bai back.

“I just need to do it my own way?”” What if I kill all the barbarians and the people of Great Yue State after I enter?” Xu Bai rubbed his chin and smiled.”

As soon as he finished his reply, the corner of King Sheng You’s mouth twitched slightly.

“As long as you don’t kill your own people, it doesn’t matter if you kill your enemies. After all, once you enter that place, life and death are up to fate.” Xu Bai really did have this idea.

Since they were all enemies, he would not care about the lives of others. Just like in a real battle, others would not show mercy just because of a word from him.

When dealing with enemies, one must never be soft-hearted. Once they were soft-hearted, they would only be waiting for their own destruction.

Ever since Xu Bai entered this circle, none of his enemies had ever walked out alive.

He wasn't the main character in those novels, and he didn't have a main character halo to protect him. He couldn't do the stupid things that the main characters did.

Especially in the ruins, where there was the mysterious Nian Shen, he could not let his guard down. Wouldn't leaving a few enemies by his side make things difficult for him?

"Could it be...Do you really want to go in and start killing?" Seeing Xu Bai's current actions, You Sheng King already felt that what Xu Bai had said just now did not seem to be fake.

Xu Bai recovered and said with a smile, "Don't worry, I won't do anything to my own people. I'm not that crazy."

The corners of King Sheng You's mouth twitched slightly.

Why did this kid give him a feeling that he was especially out of tune?

However, thinking about it carefully, it would be very good if he could go in and slaughter the other two forces.

"Then I'll inform you tomorrow. We'll rush over in the morning." King Sheng You said.

The time of the ruins was very accurate. If one could calculate it, there would definitely be no difference.

Xu Bai nodded and agreed. Just as he was about to go back, he suddenly thought of something and turned around to ask, "Your Highness, do you have any high-level mental cultivation techniques here?"

King Shengyou was slightly stunned. He felt that Xu Bai's angle was a little too big. They had just been discussing the ruins, and now it had become a mental cultivation method.

However, after hearing Xu Bai's question, he seemed to have thought of something.

"I've gotten quite a lot of spoils of war from the battles here. I have a higher-level mental cultivation technique here. I've sent the lower-level ones to Beijing.."

Although he didn't know why Xu Bai asked this question, King Sheng You was instantly reminded of his memory. He did have a mental cultivation technique here, but this mental cultivation technique was very strange.

"Oh?" Xu Bails eyes lit up as he said, "Your Highness, since you're keeping it, why don't you just give it to me? If you want something to exchange, I'll give you everything I have here."

Mental cultivation method, this thing was what he lacked the most now. After all, there were two especially high-level skills that consumed a lot of his true essence energy.

If he could increase the level of his mental cultivation method, then he could increase his overall strength. Using those two skills would also reduce the consumption.

Of course, he still had to say it. After all, no one gave you anything for free these days. The things that were given for free were actually the most expensive.

"This king doesn't want you to give me anything. "Seemingly not wanting Xu Bai to give him anything, King Shengyou turned around and walked to a cabinet. He rummaged through it and finally took out a book and handed it to Xu Bai."However, with your merchant personality, you see everything very directly. How about this? This time, entering the ruins will be your reward in advance."

Xu Bai stared at the book in front of him with a burning gaze. Soon, he noticed the golden progress bar on the book.

The speed was very slow, but compared to the saber manual and the lotus flower from before, this speed was slightly faster.

Xu Bai was sure that it was something from the mortal evolution state, but he couldn't be sure if it was from the transcendent state.

The mental cultivation method was extremely precious and rare. Now that there was one, Xu Bai didn't treat it as an outsider and put it away.

He thought of what King Sheng You had said before and could not help but ask, "Your Highness just said that this mental cultivation method is very special, what is it special about?"

King Sheng You said, "The good things that this king obtained are all sent to the capital. After all, the border doesn't need any secret manuals or the like. However, this thing is very special, so this king has always kept it. ""

"If you want to take a look, feel free to read it. However, you must not cultivate it, because this is a book that invites gods to do things. "

Xu Bai was still listening. When he heard this, he was stunned on the spot.

A book to invite gods?

He couldn't figure it out, especially since he didn't know the role of this profession.

In his previous life, he had heard of this word, but he did not know what it was in this world.

King Sheng You explained, "The so-called 'please god' means to attach something to the body to increase one's strength. However, no one knows what it is, including this profession. ""

"Moreover, this industry has already disappeared, and this book is the only one left. "

Xu Bai fell into deep thought.

Invite a god?

Moreover, he didn't even know what they were inviting. This was a little mysterious. After all, he didn't even know what this profession was, which added a little mystery.

"Is this profession extinct?" Xu Bai asked.

King Sheng You shook his head. "This king doesn't know either. He just disappeared inexplicably and never appeared again.

Xu Bai didn't get the information he wanted. Even the King of Ascending Darkness didn't know about it. Xu Bai looked at the progress bar in his hand and pondered.

A moment later, he had already figured it out. Since there was a progress bar, he would give it a try. With the cheat, perhaps he could discover many secrets after the fusion.

They had talked about what they needed to talk about and obtained a secret manual. Xu Bai did not stay any longer. He turned around and prepared to leave.

“You’ll stay in Chu Yu’s tent tonight. After all, you’re Chu Yu now. “King You Sheng added.

Xu Bai agreed. He did not return to his own tent but went to Chu Yu’s tent instead. After he entered, he laid on Chu Yu’s bed and flipped through the book again. He carefully checked the progress bar.

He was really interested in this book about inviting gods, especially a mental cultivation method, which greatly increased his interest.

If there was really something special about it, or if there were any disadvantages, it didn’t matter.

After all, this was only a mental cultivation technique and not any other skill. He did not have a way to use it. At most, he could fuse it with his mental cultivation technique. After learning it, he would not be able to ask for help without the corresponding skill.

Fusion meant improvement. It also meant that he could use the Three Uniques of Sword and Saber and the Indestructible Demon Soul Buddha Body more.

No matter how one looked at it, it was beneficial to him.

It was getting late, but Xu Bai couldn’t fall asleep. He continued to study the progress bar.

The next day.

When the first ray of sunlight shone in, Xu Bai had already gotten up and followed King Shengyou’s army to the Three Watch River that they had been to before.

He did not bring the first-grade puppet with him. Instead, he let it follow Chu Yu, who had turned into him.

After all, his identity was different now. Therefore, he did not plan to bring the first-grade puppet into this operation.

Three groups of people had already gathered at the Three Watch River, confronting each other. No one spoke, clearly waiting for the arrival of the ruins.

Xu Bai turned into Chu Yu and waited patiently.

Time gradually passed. After about an hour, something strange finally appeared in the surroundings..

Above the Three Watch River, there was a sudden distortion in the air, as if there was a high temperature burning.

The distorted air didn't last long. It only lasted for half an incense stick to burn before it slowly stopped.

However, the surrounding soldiers scattered and did not approach the distorted position.

When Xu Bai saw this scene, he felt that there was something above the river, but there was nothing there.

It was a relic. The relic had quietly descended. Only people like them could feel it.

No one went first, and the three forces sent out their own forces.

No one knew how many people this ruin could accommodate.

However, there was an extremely simple method, which was to keep entering until they could no longer enter.

For the sake of fairness, the people of the three forces all lined up in three rows and entered the ruins at the same time.

These people all went in from the weak to the strong.

Xu Bai was at the front of the line. When he stepped into the void in front of him, he felt a change in his vision. Then, he appeared in an unfamiliar environment.

The surroundings were not as dark or gloomy as Xu Bai had imagined. Instead, it was filled with a gentle light.

In the sky, warm sunlight shone down on the ground, dispelling the surrounding cold and making his body feel warm.

Although this place was empty, it didn't give off any sense of evil. It was just like an ordinary wilderness. Xu Bai looked around and found that he had come to a mountain not far away.

Looking up from here, the mountain was majestic and tall, towering into the clouds. The forest and grass in the mountain were dense, and the vitality was all in sight.

The space behind him distorted, and the soldiers who entered from behind gradually appeared. Not only the soldiers of Great Chu, but also the soldiers of Great Yue and Barbarian Race had arrived.

After the three forces arrived, they set up their own boundaries and were on guard against each other.

After all, in a place like this, killing could happen at any time. No one would not be on guard.

It was only because everyone's strength was equal now that there would not be any killing for the time being. Otherwise, it would affect the following opportunities. Otherwise, they would have already started fighting.

Xu Bai turned around and found that the soldiers of the Great Yue State and the Barbarians were also looking at him.

This group of hostile forces did not hide the killing intent in their eyes at all. It was as if they wanted to kill Xu Bai here and now.

Xu Bai touched his face and suddenly realized why these people were so eager to kill him.

He was wearing Chu Yu's appearance now, so the group of people in front of him must have other thoughts.

As expected, just as he thought of these people in the Great Yue State, one of them walked out and drew his weapon.

"Everyone, let's work together to destroy the people of Great Chu and kill the princess of Great Chu. At that time, we will definitely be able to make King

Sheng You grieve."

"I don't know how many brothers have died in the hands of Sheng You Wang. There are mountains of corpses and seas of blood. Now is a good time to take revenge on him."

"Moreover, we should eliminate them first. With one less competitor, we can settle our scores."

The general who spoke had a long saber at his waist and a black spear on his back. Coupled with the cold armor, it made people feel a chill on their backs.

The Ninth Prince of the Great Yue State had been killed by Chu Yu previously. Now, he finally got the chance. Everyone was the same here, and he knew that Chu Yu's secondary skill was the military formation technique. It was not the main skill.

Therefore, if the two forces joined forces, they could easily kill him here. At that time, King Sheng You would definitely be heartbroken.

As for revenge, he had said before that he would not care about life or death after entering this place.

If they wanted to use this as an excuse to retaliate, the Great Yue State would not back down.

He had already explained the importance of the matter and the benefits. He thought that the barbarians would agree.

As expected, after these words were said, the barbarian generals looked at each other. Then, they took out the weapons in their hands and surrounded all the soldiers of Great Chu.

At this moment, the atmosphere became more and more solemn. At the same time, the strength of the army was also competing with each other.

Xu Bai was the only one who was baffled. After stroking his chin, he suddenly said something that stunned everyone present.

“No one outside can see what happened here, right?”

The Great Yue State and the Barbarian Race who were preparing to launch an attack were obviously stunned after hearing this. Then, the general who spoke first replied with a mocking tone.

“Of course not. Why? You want to give yourself a way out, but are you afraid of losing face? Alright, take off your clothes now and let us play. Maybe you can find a way to live?”

As soon as he said that, the soldiers of Great Yue and Barbarian all burst into laughter. At the same time, many of them looked at Xu Bai with inexplicable fervor.

They also knew the culture of the Great Chu Country. They would rather die in battle than be cowards. However, they still had a glimmer of hope now. If the princess of the

Great Chu Country could play with them, they would definitely feel extremely comfortable.

“Oh.” “Yes,” Xu Bai replied indifferently. Then, he reached out and wiped his face. A human skin mask was wiped off and he stuffed it into his pocket.

He could return this thing when the time came. According to his personality, he would have easily made it his own. However, this depended on the person. The Thousand - faced Female Bandit said that this was the most important inheritance treasure of the other party, so it was better not to scheme..

The armor on his body was slightly loose. When Xu Bai was choosing it, it was also to prepare for the upcoming changes, such as now.

The True Core Strength continued to flow in his body. Soon, Xu Bai's body began to change and became his own.

This body shape was just right for the armor. Moreover, he was wearing the Sun and Moon Daoist robe inside, making it extremely comfortable to wear.

His face gradually changed, returning to his original appearance.

Everyone gasped and took a step back.

The general who spoke first stuttered, ”You’re not Chu Yu, you’re Xu Bai, you’re the Bloody Butcher!”

“Blood your mother!” ” I was going to spare your lives,” Xu Bai scolded.” After all, you are still qualified to be cannon fodder and bait here. However, your provocation has made it unnecessary for you to live.””

That was what he had thought just now. After all, the ruins were filled with unpredictable dangers. If some people were left here, they could be cannon fodder or bait.

Wasn’t there a good saying? When you were being chased by a ferocious beast, what you had to do was not to run faster than the ferocious beast, but to run faster than your companion. That way, you would have a chance of survival.

However, what the other party said at the beginning made Xu Bai feel that it was better for these scumbags to die.

“Get into formation! Formation! Fight it out with him!”

No matter what, they were all people who had experienced hundreds of battles. The people present were only stunned for a moment before they quickly reacted. They all formed a military formation, wanting to fight to the death.

They couldn't use more people here, but the military formation itself relied on numbers to maintain, and now it was enough.

Of course, this so-called “enough” was just what they had imagined. They thought that the two forces combined should be enough to fight Xu Bai.

However, they soon realized that they were very wrong.

Normally, it was fine to make a small mistake, but in this place, making a mistake was equivalent to death.

Xu Bai raised his right hand slightly and raised his index and middle fingers.

Behind him, gold and grayish-white colors slowly appeared and intertwined.

An extremely chaotic and terrifying atmosphere gradually spread. In just a moment, the surroundings were surrounded by Xu Bai's terrifying chaos, and Xu Bai was the center of this chaos.

When this chaos appeared, everyone present was affected. Xu Bai was targeting the Great Yue State and the Barbarian Race.

They were the most affected by the chaos. Some of them who were not strong enough already felt dizzy. They even had the thought of raising their weapons and killing their companions.

“Army formation, rise!”

Up until now, Xu Bai had already developed a terrifyingly strong killing intent. There was no room for him to ease up.

The general of the Great Yue State shouted, and the battle formations of both sides suddenly appeared. With a huge pressure, they swept towards Xu Bai.

He had thought that this move would at least be able to put a lot of pressure on the other party, but when the general accidentally saw Xu Bai's gaze, his entire body went numb.

What kind of gaze was that!

It was calm, but filled with killing intent. It was as if they were nothing but ants before the owner of these eyes.

A deep sense of powerlessness emerged in his heart. When it overlapped with the chaos around him, the sense of powerlessness gradually magnified.

However, the general did not seem to intend to wait for death. He pulled out the spear on his back and waited for the best opportunity.

Seeing this scene, Xu Bai's lips curled up slightly. "Are you ready? Unfortunately, the difference in strength will never be made up for by you." As he spoke, Xu Bai's raised hand slowly moved from high to low.

Even though it was just a flash in the air, the next moment, everyone present felt a heavy killing intent that continuously permeated the entire place, making it difficult for them to breathe.

Xu Bai's voice was like a strange whisper that echoed throughout the entire arena. "Just nice, I'll use you guys to test my new move."

The Three Absolutes of Sword and Saber- Slash!

This was the only move he could use in the Three Uniques of Saber and Sword. He could use it to test its power.

On the surface, it was just a finger drawing in the air, but as it did so, Xu Bai's body was enveloped in an extremely powerful saber intent in the next second.

This saber intent was fusing with the Three Absolutes of Saber and Sword. In an instant, countless saber rays spread out from his hand.

After the saber light spread, it suddenly bloomed like the stars in the sky. After experiencing the destruction of time, it exploded in midair.

The dazzling light made it hard for people to open their eyes, and a sharp pain was spreading through the soldiers of Great Yue State and Barbarian Race.

This was a sharp pain in his entire body and mind. As long as his body was still exposed to the air, he had already suffered the pain of Xu Bai's knife.

The light that could stand shoulder to shoulder with the sun was gradually dissipating. When the light completely dissipated, the soldiers of Great Chu raised their heads and looked at Xu Bai's back with his hands behind his back.

Not far ahead, the barbarians of the Great Yue also lowered their heads and looked at their own bodies.

The excruciating pain was still there, so much so that they could not even scream. After all, when a person's pain reached its limit, a similar mechanism would occur, making it impossible for them to scream out the pain.

A general of the Great Chu State pulled out the weapon at his waist and prepared to charge forward.

From his point of view, Xu Bails attack did not seem to have any effect, so they could not just surrender.

However, before he could rush forward, he saw Xu Bai raise his right hand and wave it gently. This meant that they didn't need to go on stage or even participate..
