

Unparalleled 791

Chapter 791: Slaying The Venerable Spacetime God, Negotiate Terms After Wiping Out Half The Gods

"I said, your Spacetime Dao is too weak. Watch how I break through this pathetic cage of yours," said Chu Kuangren.

He then lifted his hand.

A compass the size of his palm appeared in his hand. It was beaming with countless mythical Daoist patterns.

"W-What's that?!"

The Venerable Spacetime God was appalled. He could sense a surge of unprecedented spacetime energy seething from the compass!

He was the Venerable Spacetime God, the god who could wield the spacetime energy of this world!

Yet, it was at that moment he felt that the spacetime energy he possessed paled in comparison to the sheer amount of power seething from the compass.

The gigantic differences in power were mind-numbing.

It was a form of spacetime treasure.

However, how could a spacetime treasure like that exist in this world?!

It was impossible!

At that moment, Chu Kuangren had already begun to make his move inside the Spacetime Cage.

He exclaimed, "Timespace Treasure, activated!"

The gears of the Timespace Treasure spun. With that, nine rings opened up one by one from the surface and formed a spherical structure.

Incredibly powerful spacetime energy discharged from the item and devastated the eight pillars around Chu Kuangren.

The pillars exploded abruptly!

The Spacetime Cage was destroyed!

The destruction of the Godly Weapon created a backlash that injured the Venerable Spacetime God, who spat a mouthful of blood. He stared deadly at the Timespace Treasure in Chu Kuangren's hand with disbelief. "What the hell is that thing?!"

Chu Kuangren stored the Timespace Treasure away after breaking through the Spacetime Cage. As mighty as this item may be, it consumed a large amount of his energy.

Hence, his current abilities did not allow him to use it for an extended period of time.

In fact, it was only during the last few years that Chu Kuangren managed to decipher the first four layers of the Timespace Treasure and unlocked its basic functions.

Previously, the Venerable Spacetime God's Time Seal was indeed effective against Chu Kuangren. However, it was not long before the Timespace Treasure kicked in on its own and shattered the god's spacetime energy.

Only then was Chu Kuangren able to use his mind power to parry the follow-up attacks by the gods.

The Timespace Treasure was indeed a Transcendent-grade item.

Chu Kuangren suspected that it could be even more powerful than an Immortal Weapon.

It was capable of unleashing the power of Spacetime Dao. Could it still be any stronger than that?!

"Now, it's my turn."

Amidst the god's shock, Chu Kuangren teleported to the front of the Venerable Spacetime God after shattering the Spacetime Cage.

The Venerable Spacetime God was taken by surprise but immediately unleashed his divine power.

"Time Seal!"

He used his time technique once again.

"Time Lock!"

Similarly, Chu Kuangren tapped into his time power.

As the spacetime energies collided, ripples of energy broke through the surrounding rifts. For a second, the world almost seemed to come to a halt around Chu Kuangren and the Spacetime God.

Shortly after.

Chu Kuangren cast his mind power, summoning a golden blade that swang right at the Venerable Spacetime God's neck.

As blood splashed everywhere, the head of the Venerable Spacetime God fell to the ground.

Chu Kuangren's time technique was much more superior to his!

The Venerable Gods around were shocked.

Was the Venerable Spacetime God dead already?!

Chu Kuangren looked at the Venerable Spacetime God's corpse and turned to the rest of the Venerable Gods. "Alright, now it's your turn."

Suddenly.

The corpse of the Venerable Spacetime God emitted a bright light with countless Daoist patterns hovering around it. The blood that once pooled on the floor flowed back to the corpse, and his severed head reattached itself back to its torso.

It was as if the death of the Venerable Spacetime God had been replayed in reverse. He was now resurrected!

It was one of the Venerable Spacetime God's divine powers, Time Reversal!

It was a powerful ability indeed.

However, the ability also came with a cost. Just one use would deplete him of whatever limited divine powers he had left after fighting with Chu Kuangren.

The Venerable Spacetime God stared at Chu Kuangren's back and immediately launched himself at Chu Kuangren with a spear in his hand!

He no longer cared about maintaining the grace and demeanor of being a god. As long as he could kill Chu Kuangren, it would all be worth it!

With that, the silver spear broke through the air. Although the spear was not imbued with any divine powers, the Venerable Spacetime God's godly physique and the spear itself contained enough power to kill even a defenseless Venerable God.

As the spear inched towards Chu Kuangren's back, it somehow penetrated through the Venerable Spacetime God's chest instead.

The Venerable Spacetime God was horrified. "This is a spatial technique. You're well-versed in spatial techniques?!"

Chu Kuangren turned around and stared him in the eyes. "I told you. Your Spacetime Dao is too weak. You couldn't even pick up on my simple spatial technique before ambushing me. What an imbecile."

The Venerable Spacetime God was utterly infuriated to be insulted moments before his death. However, he still had one last question.

"How did you know I wasn't dead?"

After all, his head had been severed by Chu Kuangren. No ordinary person would have the foresight to stay cautious of a dead opponent.

"Am I obliged to tell you?" Chu Kuangren said unfazed. With a flick of his Emperor Thought, he squashed the Venerable Spacetime God's head wide open.

The Venerable Spacetime God never knew that with the help of the Omniscient Spirit, his techniques and tricks had all been made known to Chu Kuangren long before. That naturally included his divine power, the Time Reversal.

After he was killed the first time, Chu Kuangren had already utilized his Spatial Conveyor Skill to create a spatial portal on his back.

All the Venerable Spacetime God had to do was pierce the weapon through the portal to open up a pathway to Chu Kuangren's back.

In other words, the Venerable Spacetime God died in his own hands.

Alas, the Venerable Spacetime God had died in the hands of another person's spacetime technique. What an insult it must be for him.

"Lil Ai, analyze if this idiot's completely dead."

Chu Kuangren said to the Omniscient Spirit.

Spacetime techniques worked in strange ways. Although Chu Kuangren was skilled in this art, there was no harm in taking precautions against the Venerable Spacetime God.

"The Venerable Spacetime God's aura is completely gone."

Chu Kuangren nodded at Lil Ai's response before a golden flame appeared and rained over the Venerable Spacetime God's corpse. After his body was reduced into ashes, a silver-white rhombus crystal remained.

It was the spacetime divine fragment.

Chu Kuangren's eyes lit up at the sight of the crystal, and he quickly retrieved the much-anticipated object.

Meanwhile, the rest of the Venerable Gods began to panic. The strongest Venerable God second to the King of Gods himself had perished.

They looked at Chu Kuangren with an unprecedented fear in their eyes.

"I think I heard one of you suggested wiping out half of the human race," Chu Kuangren said as he stared coldly at the Venerable Gods.

With a lift of his hand, boundless spiritual powers converged around him and manifested as millions of spiritual weapons that surrounded the Godly Mountain.

"Cang, truce!"

"We call a truce. From here onwards, the gods will no longer interfere in the matters of the human race. We'll get rid of the blizzard immediately as well."

One of the Venerable Gods panicked and exclaimed.

However, Chu Kuangren merely dropped his hand. Along with that, the countless spiritual weapons rained over the Godly Mountain like a storm.

The gods perished one after another under the attack.

"Truce? Sure. Let's negotiate the terms after I wipe out half of the gods," Chu Kuangren said calmly.

After that, he lifted his hand again to form a new formation of spiritual weapons in the sky.

Chapter 792: The King Of Gods Awakens, Both Opponents' Limits

Spiritual powers gathered to form an army of spiritual weapons!

The spiritual weapons hovered above the Godly Mountain before it descended upon the region like pouring rain.

Boom, boom, boom...

The Godly Mountain shuddered violently under its attack, and many gods perished under its destructive forces. Their divine blood tainted the lands of the mountain.

The Venerable Gods grimaced in anger.

As much as they wanted to stop Chu Kuangren, they were powerless.

Soon.

Chu Kuangren had killed close to half of the gods who resided in the Godly Mountain.

“Cang, stop right now!”

Unable to bear seeing his gods being slaughtered any longer, the Venerable Light God lashed out in anger as he charged towards Chu Kuangren.

“Judgment of Light!” He hurled his fist forward, unleashing boundless Daoist patterns into a blinding pillar of light!

“A futile attack.”

Chu Kuangren pointed his finger forward. His boundless mind power summoned a lotus flame that shattered the pillar apart and killed the Venerable Light God in the process.

How powerful was Chu Kuangren at this point?

The Heaven Soul and Hell Soul provided him twice the amount of soul power. Hence, the mind power Chu Kuangren could unleash was more powerful than even the strongest Minor Daoist Celestials. With the power of the Heavenly Dao, Chu Kuangren’s power could effortlessly overpower the gods. To them, his combat strength was as strong as that of a Heavenly Daoist Celestial.

Not to mention that he also possessed the Esoteric Art, the Single Thought Series.

“Cang, I’m coming for you!”

The Venerable Darkness God could not stand any longer too.

With a furious shriek, he gathered a surge of boundless dark divine power and shaped them into a terrifying crescent-shaped blade ray, which contained terrifying power that could swallow everything whole.

Chu Kuangren stood his ground.

He activated a technique from his Single Thought Series, and frost qi gathered around the battlefield.

The frost qi of the Godly Mountain was triggered almost all at once.

The temperature dropped to absolute coldness as the realm froze over.

The dark blade ray froze into shard before shattering into pieces. Eventually, Chu Kuangren’s frost qi effortlessly engulfed the Venerable Darkness God, freezing half his body over.

Spiritual weapons rained from above.

Boom!

The Venerable Darkness God was reduced into shards!

Just like that, another Venerable God had fallen.

The other Venerable Gods turned pale.

Would the Godly Mountain fall to a human today?

That was not possible!

The Venerable Gods trembled in denial.

While Chu Kuangren was unleashing genocide over the gods, a burst of divine power more powerful than that of any Venerable Gods discharged from the mountain. Its aura caused the mountain to shudder under its presence.

It was as if a forbidden entity had awakened.

Chu Kuangren had sensed the aura as well.

He narrowed his eyes at the presence. "Oh, this is no ordinary energy."

He even felt mildly threatened by it.

Meanwhile, the Venerable Gods were elated.

"It's the King of Gods! He has awakened!"

"Haha, what a joyous occasion this is!"

"I've waited for this day for many years! The King of Gods has finally awakened. Cang, this is no longer your playing field."

The Venerable Gods were so excited as they stared passionately at the centermost pagoda.

The Daoist patterns around the majestic pagoda dissipated as the overwhelming divine power became stronger.

Boom, boom...

Footsteps so loud that the Gods could feel their heart pounding in its weight rang out.

A majestic black-robed and silver-haired man emerged from the pagoda. As his dark-beaded eyes glanced around the area, the Venerable Gods could not help but feel an eerie chill run down their spines when they made eye contact.

The man was none other than the King of all Gods!

The King of Gods, Huang!

Finally, the King of Gods' sight fell onto Chu Kuangren, and he was surprised by what he saw. "A human. I didn't think the warrior who was making a mess in this place would be a puny human."

The King of Gods was shocked.

For years, the King of Gods had remained in slumber to recover from the injuries inflicted by an Immortal long ago. However, before he could fully recover, he felt the Godly Mountain shaking and sensed the arrival of an enemy so powerful even the Venerable Gods could not defeat all. Hence, he had no choice but to awaken from his slumber prematurely.

To his surprise, the entity that had created such a mess in the Godly Mountain was just a human!

The King of Gods found it hard to believe that a powerful entity like Chu Kuangren could be birthed from the weak humans.

"Have I slept for so long that all of you have become so weak?" the King of Gods said to the Venerable Gods, unimpressed.

The Venerable Gods remained silent.

They felt embarrassed.

As Venerable Gods, they had been bullied by a human so badly that they had ruined the reputations they built over one-hundred-thousand years.

"Never mind. We'll talk about it after I take care of this person," said the King of Gods, unfazed, before he turned towards Chu Kuangren.

The King of Gods lifted his hand, summoning a dark boundless divine power that swarmed ferociously towards Chu Kuangren.

The divine power seethed with an utterly cataclysmic aura.

"Finally, a worthy opponent amongst the gods." Chu Kuangren chuckled.

Then, he mobilized his Emperor Thought and retaliated by launching more than a million spiritual weapons towards the King of Gods.

The Godly Mountain trembled when their attacks collided.

"Your powers are indeed shocking even to the gods."

The King of Gods said.

After that, he unleashed an even frightening amount of divine power towards Chu Kuangren.

This time, Chu Kuangren was beginning to struggle. Even though he cast his mind power, he was blasted several hundred meters away.

If it were not for the mind barrier that he erected earlier on, Chu Kuangren may have been killed right there and then.

Chu Kuangren smirked as he stared at the King of Gods. "So this is how powerful a King of Gods is? Impressive."

The King of Gods did not reply. Instead, he launched another fist technique.

His boundless divine powers erupted.

In the meantime, Chu Kuangren lifted his hand and summoned a huge golden seal.

It was the Human King Seal.

As soon as the seal was summoned into battle, its destructive nature immediately shattered the King of Gods' divine power. Without losing its momentum, it continued charging majestically towards the King of Gods.

Shocked by the sudden turn of events, the King of Gods grunted and punched at the seal.

"Divine Apocalypse!"

A loud explosion ensued, and the surrounding earth fissured all over.

The Human King Seal was blasted away, and so did the King of Gods.

The King of Gods' right fist shuddered mildly as his fingers fractured and were bleeding profusely.

He glared coldly at Chu Kuangren.

Him, the King of Gods, was injured.

Injured by a human being.

Chu Kuangren called the Human King Seal back to hover above his head. He said calmly, "This is my first time using this weapon against my enemy. I'm still not the best at it, so pardon me if the power's not up to your expectation."

The Venerable Gods gulped in fear.

The King of Gods was blasted backward by the seal.

For many years, with the Immortal who hailed beyond Firmament Star as an exception, the King of Gods had never been forced back in battle before.

"Indeed, it still has a long way to go."

The King of Gods snorted coldly.

However, he resumed his attack.

Chu Kuangren did not retreat either. Drawing his power from the Human King Seal, he continued to overpower the King of Gods again and again.

This battle continued until the next day.

The other Venerable Gods could not interrupt either.

As the King of Gods was forced back by the Human King Seal once more, the old injuries that he previously managed to suppress were starting to resurface.

“Heh, let’s see how long you can take it.”

Chu Kuangren chuckled as he stared at the King of Gods.

“I wonder how long your mind power will last as well.”

The King of Gods rebuked mockingly.

They both knew there was a limit to their opponent’s abilities.

Chapter 793: After Gaining A Hundred Thousand Years, A Cloak Torn

In the Godly Mountain.

Chu Kuangren and the awakened King of Gods started a battle, but they were neck and neck. They could not do anything to each other at all.

“Human, you are very strong. I can give you a chance to join us and become a god. What do you think?” said the King of Gods.

The expression on other Venerable Gods changed after hearing this.

Was the King of Gods planning to recruit Chu Kuangren?

Since he could not defeat his opponent, he needed to find a way to get his opponent to join his group.

What a tactic.

However, the Venerable Gods were outraged when recalling that they had to tolerate Chu Kuangren killing so many of their own.

F*ck.

If Chu Kuangren were to join them, they would have to meet regularly. Moreover, once he joined in to become a god, he would rank second after the King of Gods with the strength he possessed.

Their status would definitely be threatened if that were to happen.

The more they thought about it, the more upset they felt.

“Join you? Are you out of your mind?”

Chu Kuangren sneered.

The King of Gods’ face darkened. “I showed you respect, and this is how you respond?!”

“Well... You offered me the chance to humiliate you.”

“Just list your terms.”

The King of Gods took a deep breath and suppressed his anger.

If the battle were to go on further, not only would his injury not recover, but it would even worsen. That was not a consequence he would like to encounter.

"Ah... Since you want to sit down and negotiate, I will give you a chance. I only have one term. For the next hundred thousand years, the gods are not to interfere with any developments of the human race," said Chu Kuangren.

"A hundred thousand years? That's too long."

"Compared to your lifespan, a hundred thousand years is considered short."

"What if I disagree? You should know that we Venerable Gods are immortal. You don't have the upper hand here."

Chu Kuangren chuckled. "Venerable Gods are immortal, but trust me. If I were to sacrifice my life, I'd have a way to make other gods besides the Venerable Gods... disappear!

"The Venerable Gods will fall into a deep sleep. When the time comes, your divine fragments will be taken away and refined by the rest of the human race. By then, a new batch of gods will be born.

"In that case, what can you do even when you resurrect?"

The expression on all gods changed upon hearing Chu Kuangren's statements.

If that happened, the new gods would surely support the human race. Then, the Venerable Gods would no longer have any advantages after their resurrection.

The new gods would even override them!

"I accept your term."

The King of Gods calmly.

"I hope you keep your promise."

Chu Kuangren said indifferently.

He did not have them make any heavenly oaths as it did not have any binding forces to these gods.

With that, Chu Kuangren turned and stepped into the void before disappearing in place.

After he left, the King of Gods' face turned gloomy. He threw his fist in the void, and the ensuing destructive power damaged a big chunk of it.

"Cang!"

"The gods will never forget this."

The King of Gods said in a cold tone.

A few Venerable Gods, who were standing by the side, remained silent for some time. They had never imagined that the human race would be able to corner them to such a point.

Yet, it was now a reality.

“King of Gods, what shall we do from now on?”

“I will continue the closed-door mediation to heal myself. Once my injury has recovered, I will kill Cang myself, and the human race will remain under our control. The gods shall not take any actions while I’m meditating.”

The King of Gods said.

All the gods nodded slightly. “It can only be so.”

...

In the Flame Bulwark Tribe.

More than ten Heavenly Imperials had gathered there.

“It’s reckless for the King to have gone to the Godly Mountain alone. Don’t you know that’s the gods’ territory? Should anything happen to the King, how shall the human race develop in the future?”

“That’s right. The King carries the future of the human race on his shoulder.”

These Heavenly Imperials were the elites of Antigod Pavillion.

They were also the most powerful existence in the human race.

As of now, they regarded Chu Kuangren as the King and the future of the human race. It would greatly impact the human race should something happen to him.

“How pathetic would the human race be if I were to carry the future on my shoulder alone?”

An indifferent voice sounded.

Chu Kuangren walked toward them from the void.

Upon seeing him, the crowd immediately approached him with delight.

“King, are you alright?”

Chu Kuangren waved his hand and said, “I’m fine.”

Then, he said seriously, “The future of the human race is everyone’s responsibility, and it cannot be decided solely by a person. No matter how powerful I am, I can’t look after everyone.”

Everyone looked ashamed when he said that.

“The King has taught us a good lesson. We understand.”

“We were wrong.”

“Oh, right. My King, how was your journey to the Godly Mountain?”

Yan Wu asked with eyes filled with worry as he looked over Chu Kuangren, fearing that there were injuries on the latter’s body.

“Hmm... It was pretty smooth. There was only a minor mistake.”

“What was the mistake?”

“The King of Gods has awakened.”

The expression on everyone’s faces changed.

“The King of all Gods... He has awakened.”

“Wasn’t he injured by the Immortals a long time ago and went into a deep sleep? How did he awake so fast?”

“Are you injured, King?”

Chu Kuangren waved his hand to keep everyone quiet.

Then, he told them pleasantly about the incidents that occurred in the Godly Mountain.

Everyone brightened up after hearing that Chu Kuangren had gained a hundred thousand years for the human race, which had developed rapidly in the past few years.

If given another hundred thousand years, the progress the human race could achieve would be unimaginable. They would surely suppress the gods by then.

“Although we will have a hundred thousand years, we can’t slack off. We don’t know whether the gods will keep their promise or not.”

Chu Kuangren reminded them.

He walked out the door and spoke while watching the falling snow, “This snow will stop soon. Yan Wu, I’ll leave the aftermath to you.”

“Understood.”

Greenie looked at Chu Kuangren standing in the snow and then around the room. He asked, “King, where is your cloak?”

At this, Chu Kuangren looked apologetic. He took out the torn cloak and said, “Greenie, I’m sorry. I accidentally tore the cloak during the battle in the Godly Mountain. I apologize for wasting your good intentions.”

The corner of the other Heavenly Imperials’ mouths twitched.

Only a cloak was killed fighting with the Venerable Gods and the King of Gods in the Godly Mountain?

How far had the King’s strength developed?

Everyone was secretly amazed.

Greenie looked at the cloak and smiled helplessly. “King, we’re very glad to know that you’re safe. It’s just a cloak. I can make a new one. There is no need for you to feel sorry.”

He found the King too gentle sometimes.

However, that was the reason his followers were with him unswervingly.

“Haha. In that case, you have my thanks.”

Chu Kuangren smiled.

After conversing with the crowd, he went back to his room and took out the things he had gained from the battle in the Godly Mountain.

They were all divine fragments.

The main ones were the divine fragments of the Venerable Light God, Venerable Darkness God, and Venerable Spacetime God. Extremely powerful energy was flowing through them.

Chu Kuangren was lost in thought as he looked at the divine fragments.

Chapter 794: Re-entering The River of Time, Witnessing The Historical Development of The Firmament Star

“The human race will be able to gain more elites more quickly if people can refine these divine fragments. But I’m afraid that the divinity in these divine fragments will bring negative effects to the human mind.”

Chu Kuangren whispered while fiddling with the divine fragments.

There was no doubt the human race could become new gods if they refined the divine fragments. However, that meant that their strength would be fixed.

Under the influence of divinity, these new gods would probably follow the current gods’ path to seek progress as times went by.

Putting the human race in captivity, reaping the power of faith, strengthening oneself – these were the reasons Chu Kuangren had been preventing the human race from refining the divine fragments all these years.

After all, humans and gods were two different kinds of existence.

“I shall keep these divine fragments and think about it later. Should I go back now?” Chu Kuangren took out the Venerable Spacetime God’s divine fragment.

As long as he had the divine fragment of the Venerable Spacetime God, he could then use the Timespace Treasure to open the river of time and return to the future.

“It’s time to start preparing for my return.”

Chu Kuangren mumbled. Once he left, and without his suppression, the gods would definitely come out to mess about. By then, all of the human race’s achievements would go to waste.

He had to do some preparations before leaving.

...

After the battle in the Godly Mountain, the gods were quiet and were seldom seen roaming Firmament Star.

In the meantime, the human race thrived under the leadership of Chu Kuangren.

Time flew by, and another two years were gone.

On this day.

Chu Kuangren stood on the top of a mountain. He had set up an enchanted boundary around him that even the Venerable Gods could not peep into this area.

"This city should be completed soon. It will be the first city of the human race." A look of satisfaction shone in Chu Kuangren's eyes as he looked at the city, which was under construction below the mountain.

Under Chu Kuangren's leadership these years, the human race had stepped into the city-state era. Everywhere was under intensive construction.

Once these cities were built, the human race's development would enter a new stage, where they would build a new country.

"It's time for me to leave."

Chu Kuangren whispered.

He took a deep breath. Three rays of light appeared above him and transformed into three souls that each sat on a lotus.

"I've been here for many years. I'm feeling a little reluctant to leave now," said Chu Kuangren's Heaven Soul.

The Fourth-Cycle Earth Soul, which he had been cultivating in the past two years, looked at the Heaven Soul and said indifferently, "We will keep watch here on your behalf."

"Ha! Thank you, the both of you."

The Heaven Soul said with a smile.

Chu Kuangren intended to return to the future.

However, before he left, he had cultivated the Earth Soul and intended to leave Hell Soul and Earth Soul here in this era.

As for him, who led the Heaven Soul, he would return to the future.

"We will meet in the future if it's possible."

"I don't think it is. According to historical records, the Human King Cang and the King of Gods perished together during the battle in Kunlun Pool in immemorial times."

The Heaven Soul said while lost in thought.

The Hell Soul and Earth Soul knew this too. "The future is unpredictable. Perhaps you'll see a different future under our leadership when you return."

“Don’t mess around. It’s difficult to guarantee that chaos won’t ensue in the future if a big change happens.” Heaven Soul frowned and said.

There were many things about the future that Chu Kuangren was concerned about.

He did not want anything to go wrong because of him.

“We understand.”

The Hell Soul & Earth Soul were also Chu Kuangren.

Hence, they knew Chu Kuangren’s concern.

“Well... I’ll make a move first.”

Chu Kuangren took out the Timespace Treasure and the divine fragment of the Venerable Spacetime God.

The mind powers of the three souls erupted at the same time.

The divine fragment of Venerable Spacetime God released a surge of majestic spacetime energy. Under the manipulation of his mind power, the energy continuously entered the Timespace Treasure.

Boom...

Strong fluctuation erupted in the void.

Almost half of the enchanted boundary that Chu Kuangren created blew up.

With that, a golden whirlpool appeared.

In the whirlpool was a long river that seemed to reflect the past and the present. Everything in the river was constantly changing.

“Farewell, the both of you.”

Chu Kuangren’s Heaven Soul smiled.

Then, his figure flashed into a ray of light and dived into the golden whirlpool.

Soon after, the Timespace Treasure and the golden whirlpool disappeared. The Hell Soul and Earth Soul looked at each other with sadness in their eyes.

“From now on, we are Cang.”

Both souls, who were also Cang, looked at the city under construction below the mountain and said that because they could not return to the future.

They had to stay here to lead the human race.

From now on, they could only live as Cang.

“Time heals all wounds. The future will be left in Heaven Soul’s hands.”

“Yes.”

Both the Hell Soul and Earth Soul vanished and returned to the physical body.

With a lift of Cang's hands, majestic mind power exploded and shattered the enchanted boundary.

Not far away.

Greenie was approaching.

He had some doubts in his eyes when looking at Cang. He felt that his King was not quite the same, but he could not figure out the difference.

"King, Yan Wu and the rest are waiting for you to join their meeting."

"Alright."

Cang nodded slightly.

...

In the river of time.

Chu Kuangren was walking in it, with his Emperor Thought spread across the river, searching for the time node of when he traveled through time.

However, this river of time was very, very long.

Although Chu Kuangren's Emperor Thought was strong, finding the exact time node was not easy.

Nonetheless, he saw the developments of the human race after he left.

In his absence, the Hell Soul and Earth Soul, who were also Cang, led the human race to prosperity, and the number of cultivators gradually increased.

The number of elites in the Antigod Pavillion was also on a rise.

The first Daoist Celestial even appeared.

"Not bad, me. That is quite a development."

Chu Kuangren said.

However, ten thousand years later, the gods broke the hundred thousand years agreement and set off a war with the human race.

As such, Cang and the King of Gods went into a battle.

Both parties fell in the battle at Kunlun Pool in the immemorial times.

Before Cang lost, he used the Human King Seal to seal the entire Godly Mountain into the void. Hence, the King of Gods could not walk out from the mountain even if he was resurrected.

Despite that, there were still the Venerable Gods.

The human race fell into despair.

At this time, the strength that had been hidden in the human race and the appearance of the Antigod Pavillion encouraged the Great Panhuman Revolt.

The gods had never thought that under Cang's leadership, the human race could produce more elites in just ten thousand years.

The gods were either killed or sealed... until there were no more gods on the face of the earth.

"The human race won." Chu Kuangren could not help but lament as he witnessed the progress of the Great Panhuman Revolt in the river of time.

Before this, he had only seen records of the Great Panhuman Revolt in the ancient archives.

This time, he witnessed it, and it was a completely different feeling.

"It looks like there aren't many changes in history. The Blood Tribe will invade after the Great Panhuman Revolt.

"The Hell Soul and Earth Soul have done their mission and led the human race to development. The future will be left to me."

Chu Kuangren said.

He mobilized his Emperor Thought and searched for the time period before he traveled through time. During this process, he saw the development of the human race.

From archaic ancient times to past ancient times, then to recent ancient times...

Kingdoms changed, and orthodoxies carried on.

However, following the invasion of the Blood Tribe and the damage of the Heavenly Dao, Firmament Star stepped into the Era of Dharma's End, where it was rare for cultivators to ascend successfully into Emperorhood...

Chapter 795: Locking The Time, The Physical Body Is At Planet Bei

"I still haven't found it. How long do I need to spend looking for it?" Chu Kuangren frowned in the river of time.

"Lil Ai, do you have any ideas?"

Chu Kuangren asked.

"Master, you may try to sense the Power of Faith."

"Power of Faith?" Chu Kuangren's eyes lit up.

"Yes, the Power of Faith exists because of you, Master. It can sense you, and with the Power of Faith, it can help to lock onto the time which you were at," Lil Ai said.

"Why didn't you tell me earlier?"

"You didn't ask, Master."

"So it's my fault?" Chu Kuangren glared.

Lil Ai, the Omniscient Spirit, was speechless.

“Why are you not answering me?”

“Master, you’re annoying.”

“Oh? How dare you talk back? Watch me. I’ll ferret you out and whip you,” said Chu Kuangren as his mouth twitched.

“The Omniscient Spirit is connected to the Master’s soul. It’s not possible for you to strip me away.”

There was a little smugness in Lil Ai’s voice.

“Yes, yes... You’re awesome,”

Chu Kuangren did not want to dwell on this matter. As such, he calmed down and tried to sense his Power of Faith in the river of time.

Time passed by.

All of a sudden, Chu Kuangren sensed a familiar energy wave.

It was the Power of Faith.

He seemed to hear countless people calling out to him.

“True Black Heaven God above, I hope you can bless our village with good weather this year and good harvest next year.”

“True Black Heaven God, my wife is pregnant. I hope you can bless her and the baby to be safe and sound.”

“True Black Heaven God, I’m taking my exam next year. I hope you can bless me with a good result. I’ll offer a votive when I return...”

Countless prayers echoed in Chu Kuangren’s ears.

Some occurred intermittently and sounded extremely vague, whereas some sounded much clearer. It was as if the level of devotion was different.

“I found it.”

A brilliant light burst out of Chu Kuangren’s eyes.

He then flew swiftly towards a time node.

Soon after, he came to the river of time, where the waves were formed by countless light spots. He locked onto one of the light spots and flew towards it.

With a whoosh, he vanished into that light spot.

...

In the vast universe.

A golden whirlpool appeared, followed by a figure sitting on a lotus.

It was Chu Kuangren.

Chaotic spiritual qi swept across the universe.

In the meantime, Chu Kuangren's mind power was circulating and keeping him isolated from the outside. Following that, he tried to sense the location of his physical body.

Although it had been disintegrated into countless molecules, it should have recovered by now, considering he possessed the Immortal Body.

"Is it in that direction?"

Chu Kuangren aimed in a direction and flew towards it.

Violet Gold Galaxy, Planet Bei.

Planet Bei was also a cultivation civilization. However, it was an unremarkable one in the Violet Gold Galaxy and was at a lower level than the Firmament Star.

On Planet Bei, the strongest cultivator was an ordinary Emperor.

On this day.

A stream of light suddenly flew across Planet Bei's night sky.

"Mom, look. It's a meteor."

On the street, a girl pointed at the sky and said excitedly.

Beside her, a gentle-looking woman smiled lightly and looked at the fleeting stream of light. Her eyes were filled with worry.

"This stream of light contains a weird energy wave. Could it be an interstellar object?"

Planet Bei's cultivation civilization may be underdeveloped, but they still had some knowledge about the interstellar civilization.

There were numerous civilizations in the vast universe. Among them, some strong ones plundered for a living.

It would be a disaster if Planet Bei were targeted.

Besides the gentle-looking woman, other cultivators had also noticed the arrival of the interstellar light. Every one of them looked toward the distance with bright eyes.

"Isn't this the second time this has happened?"

"Within three years, Planet Bei has received interstellar objects twice in a row. What do these signs mean?"

"Is it true that an interstellar civilization has been targeting Planet Bei..."

"Perhaps it's a kind of interstellar treasure."

“Send someone over to investigate. Besides, there should be some information about the interstellar object at the Arcane Aqua Sect...”

An interstellar light had caused a stir in all the cultivators in Planet Bei.

The stream of light flew across the sky and arrived at the peak of a mountain.

It dissipated and transformed into a handsome white-robed guy, who was sitting on a lotus. He looked handsome and outstanding, like an interstellar Immortal.

He was none other than Chu Kuangren.

Upon his arrival, a surge of powerful suppressing force enveloped him.

Chu Kuangren knew it was the Planet Bei’s Heavenly Dao.

“Ha! You don’t welcome me?”

Chu Kuangren chuckled and raised his hands, where mysterious Daoist patterns interweaved between his palms. This was the Heavenly Dao energy.

Two Heavenly Dao’s collided.

After that, Planet Bei’s Heavenly Dao energy receded like a tide.

Planet Bei could no longer suppress Chu Kuangren.

“Firmament Star’s Heavenly Dao is a level above Planet Bei’s.” Chu Kuangren was not surprised by the outcome.

Planets in the universe were divided into nine categories.

Only those that could create civilizations would be called Living Planets and produce the Heavenly Dao.

Living Planets were divided into low, middle, advanced, and immortal levels.

Before arriving at Planet Bei, Chu Kuangren used the Omniscient Spirit to analyze this Living Planet. It was just a Category Four Planet and a Middle-level Living Planet.

Meanwhile, the Firmament Star was a Category Seven Planet and an Advanced-level Living Planet.

Compared to Planet Bei, the Firmament Star was three categories and a level higher.

Since Chu Kuangren had the Firmament Star’s Heavenly Dao energy in him, Planet Bei’s Heavenly Dao dare not be reckless in the face of a Heavenly Dao that was higher in level.

“According to my senses, my physical body has landed on Planet Bei. As to where it is, I’ll have to search for its exact location.”

Chu Kuangren mobilized his Emperor Thought to cover the whole of Planet Bei.

Planet Bei’s cultivation civilization could not isolate his great Emperor Thought by any means.

The whole Planet Bei had nowhere to hide under his senses.

Soon, he found the location of his physical body. However, he frowned. "What do these people want to do to my body?"

...

Planet Bei, Arcane Aqua Sect.

As the rarest among the three emperor orthodoxies in Planet Bei, Arcane Aqua Sect had thousands of disciples, and they were all elite cultivators. In Planet Bei, Arcane Aqua Sect was a holy place that a hundred million cultivators yearned to get into.

However, three years ago, the news about Arcane Aqua Sect obtaining an interstellar object spread like wildfire. When the other two emperor orthodoxy learned about it, they joined hands and pressured them to hand over that interstellar object.

How could Arcane Aqua Sect hand it over so easily?

After a big war, three parties each suffered damages, and hundreds of Sage elites died. Eventually, leaders from the three parties sat down and talked. After intense negotiation, they decided to examine the interstellar object together.

Today was the day the Arcane Aqua Sect should take out the interstellar object and let the other two emperor orthodoxy examine it.

In Arcane Aqua Sect's square, everyone was looking forward to the occasion.

"Arcane Aqua Sect Master, it's time to keep your promise. Please take out the interstellar object," said a red-haired guy. He was the King of another emperor orthodoxy of Planet Bei, the Sacred Fire Kingdom.

"Rest assured. I won't break my promise."

Arcane Aqua Sect Master was a gentle-looking woman.

After her conversation, some people not far away walked over while carrying a crystal coffin with someone lying in it.

Chapter 796: Interstellar Object, What Do You Think You're Doing With My Body

At the Arcane Aqua Sect's plaza, a crystal coffin was being lifted for display.

Inside that coffin lay a person.

Everyone could not help but feel stunned when they saw that person. He was the most perfect human they had ever seen.

With eyebrows sharp as a sword and a slender nose, that man's appearance was flawless. A crystal-like gleam could be seen reflecting from his white jade skin.

That man was lying quietly inside the crystal coffin, looking like the most perfect being created by the heavens. It made countless female cultivators smitten and dazzled by his looks.

"Who is this person? He's so good-looking."

“Didn’t they say they were going to bring out the interstellar object? Is this man related to the interstellar object?”

“What is the Arcane Aqua Sect’s purpose for doing this?”

Everyone was very puzzled.

The Arcane Aqua Sect Master looked at the man inside the crystal coffin and announced, “This person you’re looking at is the interstellar object that appeared three years ago.”

“What?!”

An uproar suddenly broke out in the crowd when they heard what she said.

The Sacred Fire Ruler asked, “So this man is the interstellar object we’re talking about?”

“That’s right.”

The Arcane Aqua Sect Master nodded. “Three years ago, this man suddenly came crashing down from the skies, landing one thousand meters deep into the surface of our planet. After we managed to dig him out, we found out that his body was not injured at all. There was no sign of life on this body as if it was already dead. However, upon further observation, we also discovered immense energy contained within this body.”

At this point, her eyes gleamed with excitement. “That energy was so vast that it exceeded our imagination.”

The Sacred Fire Ruler walked to the crystal coffin and took a closer look. When he noticed the great energy flowing inside that body, his expression changed. “This energy is Emperor qi. It seems that this person was an Emperor as well. However, I’ve never seen Emperor qi of such scale before. This is just too unbelievable.”

He, too, was an Emperor. However, he felt that compared to this person in the coffin, his Emperor qi was like a small river in comparison to a vast ocean. His strength was no match at all.

“What kind of cultivation level did this person possess when he was alive?”

The Sacred Fire Ruler exclaimed.

Standing next to them, the leader of another emperor orthodoxy, the Holy Dragon Pavilion, also walked towards to sense that energy. His eyes immediately lit up. “If we can utilize this power efficiently, it’ll surely benefit everyone greatly.”

“That’s right.” The Sacred Fire Ruler was also excited.

“It’s useless. I’ve tried many ways to extract the energy contained within this body, but they were all useless.”

The Arcane Aqua Sect Master just had to pour cold water on the plans of the other two.

“I don’t believe it.”

The Sacred Fire Ruler said as he opened the crystal coffin. Then, a black bundle of flame appeared in his palm, and he hurled it towards that man's skull.

His idea was very simple and brutal.

Since vast energy was contained within that body, all he needed to do was to destroy it to release the energy.

As long as he could obtain that energy and absorb even just a small portion of it, his cultivation would progress to the next level.

That idea sounded good, but he had to face reality.

That body could not be damaged at all, no matter how he wielded his flame. Not even a single strand of hair was broken.

"D*mn. What kind of body is this? This strength is crazy." The Sacred Fire Ruler was utterly shocked by this.

The Arcane Aqua Sect Master, who stood beside them, was not surprised, to say the least. She had known about the body's strength for a while now.

"This body is unbelievably indestructible. I have tried countless ways but still cannot damage it."

The Arcane Aqua Sect Master said.

"I do not believe it as well."

The Holy Dragon Pavilion Leader took out a long black saber.

It was an Emperor Weapon.

"That's the Holy Dragon Saber. Legend says that this sword has been passed down throughout the ages from the first forefather of the Holy Dragon Pavilion. Its strength is considered the top three among all the weapons on this planet."

"That's right. It's one of the most powerful items that the Holy Dragon Pavilion possesses."

"Will this Holy Dragon Saber be able to damage this body?"

Everyone looked at the Holy Dragon Pavilion with excitement.

However, some of the female cultivators looked at the body in the coffin with a sorrowful gaze. 'Why do they have to treat such a good-looking guy like this?'

They quickly covered their eyes, not daring to look any further.

"Now break!"

The Holy Dragon Pavilion Leader yelled, channeling all his Emperor qi into the Holy Dragon Saber and unleashing a powerful slash at the body.

The razor-sharp saber ray was concentrated on a single point as it landed towards the body.

A clang was heard.

Along with the sound of metal clanking, sparks burst out.

Following that, the Holy Dragon Pavilion Leader's expression changed upon him feeling a strong impact force. Just like that, he was sent flying away from the coffin.

While he flew dozens of meters away, the Holy Dragon Saber in his hand trembled as the arm holding it had split open, with blood gushing out from it.

Then, he looked at the body inside the crystal coffin.

It was still unscathed and flawless!

"By the heavens, does this body really belong to a human?"

"That slash just now could slice any of the strongest metal on the planet in two. Yet, it can't even make a dent in that body?!"

"It's horrifying..."

Everyone was utterly shocked.

They looked at the body in the crystal coffin with disbelief.

The Holy Dragon Pavilion Leader was horrified too. "What is this body made of? What kind of person is this?"

Out of nowhere, he suddenly felt a little terrified.

'If this person were to be alive...'

At that thought, he looked at the Arcane Aqua Sect Master and asked, "Are you sure this person is dead?!"

The Arcane Aqua Sect Master shot him a glance. "There is no soul energy fluctuation in this body at all, so what do you think? Is he alive or not?"

Every living being possessed a soul.

Without a soul, that living being would be considered dead.

"How can a dead person still possess such a powerful body? This is unbelievable. I'm sure there's a great cultivation secret hidden inside it."

"That's right. We must conduct more research into this."

The Sacred Fire Ruler and Holy Dragon Pavilion said excitedly.

Although they had ascended into Emperors, the strongest cultivators on Planet Bei who held the life and death of every human at their command, they were still cultivators. It was their instinct to pursue a higher level of cultivation. That was why they would never give up studying the secrets of this body.

"Divine Eightfold Fire Furnace, activate!"

The Sacred Fire Ruler commanded and took out a huge golden three-legged copper furnace. “This is an item of heritage from my kingdom, and it can refine anything in this world. There is no way I can’t refine this body in it.”

After that, he threw that body into the furnace.

Golden flames suddenly erupted within the furnace.

The Sacred Fire Ruler channeled his Emperor qi to its limits.

Inside the furnace, countless sparks of brilliance radiated from the body as it was burned in the flames. As if they had been activated, countless Daoist patterns started flowing around it.

Those Daoist patterns were too profound.

A few Emperors looked at it, dazed.

“Ha! It’s really working!”

“Haha. It might not be able to refine that body immediately, but give it a few years, hundreds, thousands, or millions of years even. Don’t tell me that it won’t be refined then!” The Sacred Fire Ruler laughed.

His eyes lit up with a gleam of delight that had never been seen from his eyes before.

How many years has it been?

How many years has it been since he had been stuck in the Emperor Realm?

Finally, he saw a hope to progress in his cultivation.

“As long as I can learn the secrets of this body, not only will I break through to the next level, I might even reach the next realm of cultivation!”

Besides the Sacred Fire Ruler, the Holy Dragon Pavilion Ruler and Arcane Aqua Sect Master were very excited too.

Hum...

At this moment, that body inside the furnace trembled a little, as if it had sensed something. Soon, a strand of energy was released from it.

That energy was only a small portion of what was contained in that body. However, to the Emperors at the scene, it was the most horrifying thing they had ever encountered.

With a bang, the Sacred Fire Ruler’s Divine Eightfold Fire Cauldron immediately blew up into pieces, and frightening flames spread in all directions.

As the closest to it, the Sacred Fire Ruler felt the full brunt of that explosion and was blasted away by those immense flames, dying on the spot immediately.

“What do you think you’re doing with my body?”

Chapter 797: Fighting the Draconic Beast With Bare Hands, Do You Think I'd Be So Shameless To Do Everything as You Say?

"What do you think you're doing with my body?"

A solemn voice suddenly resounded throughout the whole Arcane Aqua Palace.

Then, a ray of light appeared.

Still covered in a mess from the Divine Eightfold Fire Cauldron's explosion, the crowd quickly turned and looked when they heard the voice.

"Who is it?"

"His body... What's going on?"

Everyone immediately looked at it.

A young man sitting on a lotus flower suddenly appeared in the void. He was holding his chin as he gazed upon the crowd below.

What shocked everyone the most was the fact that the young man's face was identical to the person lying inside the crystal coffin.

"W-What the hell?"

"Who is this man?"

Questions began to fill up everyone's mind.

Both the Holy Dragon Pavilion Leader and Arcane Aqua Sect Master glared at the young man, who had appeared out of nowhere, as though a great enemy had appeared. That man was, of course, Chu Kuangren.

They could sense an absolutely terrifying pressure coming from his body and felt as if they were mere ants facing a mighty dragon. That invisible aura seething from him almost made them want to kneel to him.

"Who are you? Why have you come to my Arcane Aqua Sect?"

The Arcane Aqua Sect Master asked boldly.

"You're one to talk. Well, look at what you're doing with my body, slicing and burning it like that. Now, you're asking me who I am? Don't you think that's ridiculous?"

Chu Kuangren said.

Upon hearing his words, the eyes of cultivators at the scene widened in shock.

Then, they took a closer look and realized that Chu Kuangren was currently in an astral form. For a moment, they were stunned.

'How powerful must his soul be to be able to venture around the lands in astral form without worrying about his soul dispersing into nothing?'

“We didn’t know you were still alive. I hope you can forgive us for any trouble our actions have caused.”
The Arcane Aqua Sect Master immediately gave in.

‘He’s too powerful.’

‘He is not someone we can make an enemy with.’

Meanwhile, the Holy Dragon Pavilion Leader’s eyes lit up as he looked at Chu Kuangren. Deep down, he was struggling as to how he should react.

Should he give in like the Arcane Aqua Sect Master?

It might ensure his survival, but this also meant that he would lose a chance to ascend to the next cultivation realm.

Should he fight?

However, Chu Kuangren seemed incredibly unpredictable. Just that invisible aura of his alone made the Holy Dragon Pavilion Leader feel suffocated.

If he were to fight Chu Kuangren, there was a huge chance that he would die.

After an intense struggle, the Holy Dragon Pavilion Leader’s gaze turned cold. He took out a jade scroll, crushed it, and immediately flew towards Chu Kuangren with the Holy Dragon Saber in his hands. With a slash, a dragon-shaped saber qi unleashed towards his opponent.

“Holy Dragon Pavilion Leader, don’t do it.”

The Arcane Aqua Sect Master’s expression changed drastically.

She thought the Holy Dragon Pavilion Leader must have gone crazy.

Otherwise, why would he suddenly attack Chu Kuangren, a being who was dozens of times stronger than everyone here?!

So what if he could increase his cultivation level?

Was that more important than his life?

As the dragon-shaped saber qi approached Chu Kuangren, his face revealed a playful smile. “You have the guts to attack me, huh? Your bravery is commendable.”

He remained seated on the lotus flower.

At that moment, he cast his mind power to turn that dragon-shaped saber qi into nothingness.

“Such power! He could even display such strength in his astral form. If this person’s soul reunites with his body, not even a dozen of me will have the chance of winning.”

The Holy Dragon Pavilion Leader thought.

He only dared to attack because Chu Kuangren was in astral form, thinking that his opponent’s strength would be limited because of that.

However, he was greatly mistaken.

If it were any other ordinary cultivators, their combat strength would be drastically reduced if their body and soul were separated. Then again, was Chu Kuangren even an ordinary cultivator?

With unparalleled soul energy, coupled with a talent like mind power, any of his mind power attacks were now on par with any other Emperor qi attacks.

"This person's soul energy is incredibly powerful. It looks like dragging the battle on will be no easy task," the Holy Dragon Pavilion Leader mumbled.

He never believed that he could win against Chu Kuangren.

All he wanted to do was stall his opponent until he could unleash his trump card.

"Holy Dragon Saber Transformation, activate!"

The Holy Dragon Pavilion Leader tossed the Holy Dragon Saber into the air.

That long black saber started radiating brightly as countless strands of Daoist patterns flowed through it. Eventually, it transformed into a terrifying black dragon.

That dragon looked extremely realistic.

Its Dragon Poise spread everywhere, shocking the surrounding lands.

"It is said that the first leader of the Holy Dragon Pavilion was one of the most remarkable cultivators ever in the history of Planet Bei. When he became an Emperor, he had killed a draconic beast and refined its soul, which he imbued into this saber after that. From the looks of it, the legend seems to be true. That's the dragon soul."

"What frightening power."

"I'm afraid only a few on Planet Bei are a match for this creature."

Surges of Emperor qi flowed out continuously from the Holy Dragon Pavilion Leader's body as he controlled the dragon's soul to attack Chu Kuangren.

In the process, the mighty Dragon Poise spread everywhere, and the void started to collapse wherever it passed by.

Chu Kuangren looked at the dragon's soul with interest. With a gentle lift of his hand, his invisible mind power gushed out and formed a great invisible palm.

In a split second, Chu Kuangren had grabbed that ferocious and menacing dragon soul in mid-air, where it struggled to escape his grasp.

Its roar was like claps of thunder, causing the surrounding void to tremble violently.

"A small worm like you is leagues apart compared to my Lil Red back home."

Chu Kuangren grinned.

The True Dragons and the Godly Phoenixes were divine beasts born from the Heavenly Dao. Hence, they possessed an incredibly high growth potential. No matter where in the galaxy they were, they would undoubtedly be ranked among the top and had a very high chance to ascend into Immortals in the future too.

However, Chu Kuangren did not see such potential in that black dragon before him. It was obviously not a True Dragon but a draconic beast that had somehow obtained blood from the True Dragons.

Beings like that were not uncommon.

Hiss...

Chilling hissing sounds suddenly rang out from the surroundings, as if there was a huge rattlesnake around somewhere.

This shocked everyone present.

‘That’s a draconic beast, a being even stronger than an ordinary Emperor. Yet, Chu Kuangren could grab it just like that?’

“Break free now!!”

The Holy Dragon Pavilion Leader kept yelling.

He channeled his Emperor qi to its fullest potential, attempting to help the draconic beast to escape the control of Chu Kuangren’s mind power.

However, no matter how much Emperor qi he exerted and how rough the draconic beast struggled, Chu Kuangren’s mind power remained unaffected.

The difference in strength between them was just too drastic.

“Alright, play time’s over.”

Chu Kuangren said calmly.

Then, he tightened the palm of his hand a little.

With a bang, that draconic beast was immediately crushed into pieces!

The draconic beast dispersed and reverted back to the Holy Dragon Saber. However, that Emperor Weapon, which was famed throughout Planet Bei, instantly shattered into countless fragments on the spot.

“H-h-how could this be...”

The Holy Dragon Pavilion Leader’s face turned pale.

Chu Kuangren glanced at him.

That one gaze made the Holy Dragon Pavilion Leader shudder uncontrollably.

“Stop it.”

At that moment, a voice was heard from the distance.

A ray of light flew toward them from the horizon. The Holy Dragon Pavilion Leader was so delighted to hear that voice. "The Grand Forefather is here!"

However, Chu Kuangren ignored that voice. His mind power surged and locked onto the Holy Dragon Pavilion Leader.

The Holy Dragon Pavilion Leader's look of delight immediately turned into horror.

The next instant.

Bang! Like the shattered Holy Dragon Saber, the Holy Dragon Pavilion Leader was crushed into pulp on the spot.

"D*mn it!"

An elderly man rushed to the scene. Having seen Chu Kuangren kill the Holy Dragon Pavilion Leader, his expression was extremely grim. "I said stop. Didn't you hear me earlier?!"

Chu Kuangren replied, "Yeah, I did. But it doesn't mean I have to obey, right? Do you think I'd be so shameless to do everything as you say?"

Chapter 798:c Uniting With Its Body

"It doesn't mean I have to obey, right? Do you think I'd be so shameless to do everything as you say?"

Chu Kuangren said calmly.

At that, the Grand Holy Dragon Forefather's expression turned grim. 'He killed the leader of my Holy Dragon Pavilion just because of such bullsh*t?!'

"Is that him? Is that the Grand Holy Dragon Forefather?!"

A few people among the crowd exclaimed upon recognizing the Grand Holy Dragon Forefather.

That was because the Grand Holy Dragon Forefather was very well-known.

He was the most remarkable and talented cultivator in the history of Planet Bei. Besides establishing the mighty Holy Dragon Pavilion, he also created a series of Esoteric Techniques, known as the Nine Holy Dragon Forms. Apparently, he was almost undefeated in the world.

"Wasn't there a rumor about the Grand Holy Dragon Forefather's death? So how is he here? Did he fake his death?"

"Isn't this obvious? It just shows that he's been deep in cultivation all these years inside the Holy Dragon Pavilion. After so many years, there's no telling how powerful he has become now."

"I'm afraid no one in this world can be his match anymore."

As everyone chatted and discussed, the cultivators of the Arcane Aqua Sect and the Sacred Fire Kingdom, which were also great emperor orthodoxies, could not help but frown. They, too, were extremely shocked by the Grand Holy Dragon Forefather's sudden appearance.

Yet, the Grand Holy Dragon Forefather could not care less about everyone else.

The only thing he could think of now was Chu Kuangren, whom he could sense an unprecedented threat from.

For countless years, he had only felt that way a handful of times.

However, that feeling today was the most intense he had ever experienced.

Chu Kuangren was also looking over the Grand Holy Dragon Forefather, who was only a normal Heavenly Imperial cultivator. As such, he had no reason to take his opponent seriously.

What captured his attention was the very familiar energy that his opponent possessed.

It was... the Heavenly Dao energy.

That was the first time Chu Kuangren had felt the presence of Heavenly Dao energy from someone else.

"Lil Ai, analyze this person."

"Very well, Master... Grand Holy Dragon Forefather, Low-rank Heavenly Imperial, Epic-quality Emperor Dao, mastered the High-grade Esoteric Art, Nine Holy Dragon Forms... Possesses the Heavenly Dao energy of Planet Bei, also the Ruler of Planet Bei..."

Every piece of information related to the Grand Holy Dragon Forefather appeared in his mind one after another.

Chu Kuangren was quite surprised.

"Ruler of Planet Bei? Planet Ruler? The ruler of a planet..."

"That's right. This person, the Grand Holy Dragon Forefather has obtained the acknowledgment of Planet Bei's Heavenly Dao and is thus allowed to utilize Heavenly Dao energy as the ruler of this planet. To some extent, this means that you're the ruler of the Firmament Star, Master," Lil Ai explained.

"I see."

Chu Kuangren pondered.

While he was pondering, the Grand Holy Dragon Forefather decided to attack.

A power burst of Emperor qi erupted from his body, and countless Daoist patterns emanated to form a miniverse that enveloped the whole area.

The Grand Holy Dragon Forefather then rushed towards Chu Kuangren, attacking him with claw-like movements from his hand.

"Nine Holy Dragon Forms, Holy Dragon Claw!"

A gigantic dragon claw apparition reached out at Chu Kuangren.

Everyone was stunned when they saw this.

'The Grand Holy Dragon Forefather made a surprise attack? Is that what a talented cultivator, famed throughout Planet Bei, would do?!'

Nevertheless, this also showed how pressured the Grand Holy Dragon Forefather felt facing Chu Kuangren. It even made him disregard his reputation just for a better chance of winning by making a sneak attack.

"So what if a puny Heavenly Imperial like you sneak attacked me?"

Chu Kuangren's mind power activated.

In an instant, the Holy Dragon Claw was shattered, and half of the Grand Holy Dragon Forefather's body was crushed into pieces in return.

'What?!'

The Grand Holy Dragon Forefather's pupils shrank in shock.

Following that, a bright light emitted from his body, and soon, his damaged body had recovered rapidly.

"Oh, some sort of healing item, it seems. What a surprise. I didn't expect Planet Bei to possess such an item." Chu Kuangren uttered in surprise.

Once the Grand Holy Dragon Forefather had healed completely, he looked at Chu Kuangren with horror. He was defeated within a single move!

If not for the healing item he had, he would have been dead by now!

'Since this person is so powerful in his astral form, how terrifying would he be if his soul reunites with his body?!'

"No, I have to go all out!"

"Heavenly Dao, lend me your strength!"

The Grand Holy Dragon Forefather roared.

Dark clouds gathered in the sky as a surge of Heavenly Dao energy entered the Grand Holy Dragon Forefather's body, causing his energy to grow exponentially.

The Grand Holy Dragon Forefather's expression became indifferent as if he was void of any emotion. After that, he pointed his finger towards Chu Kuangren.

"Holy Dragon Pierce!"

His majestic Emperor qi and Daoist patterns merged to form a gigantic golden finger.

That attack immediately caused a large portion of the void to crumble.

All the other cultivators, including the Emperors, were horrified.

"Heavenly Dao energy?"

"Oh dear, Planet Bei's Heavenly Dao is too weak. As for you, you're even weaker."

Chu Kuangren shook his head. With a single thought, countless streaks of flames gathered towards him and transformed into a golden-red flame lotus.

With that, the golden-red flame lotus was unleashed towards his opponent.

In a blast, the void shattered, and the flame lotus landed on the Grand Holy Dragon Forefather's body, immediately disrupting and forcing him out from the Daoist Convergence state.

"Impossible. This is impossible..."

"How are you so powerful? How are you a match for Planet Bei's Heavenly Dao?!" The Grand Holy Dragon Forefather uttered with disbelief.

"I can easily destroy this tiny Planet Bei of yours within two or three moves. Do you possibly think this planet's Heavenly Dao can be a match for me?" Chu Kuangren replied.

Everyone went crazy.

'What kind of being has arrived at Planet Bei?!'

'Even our Heavenly Dao can't hold against him!'

"No, no, I do not want to die."

Having seen the true extent of Chu Kuangren's strength, the Grand Holy Dragon Forefather no longer had any intentions to go against Chu Kuangren anymore. He immediately turned and left, attempting to flee from battle.

"Do you think you can escape from me?"

Chu Kuangren said indifferently.

With a single thought, spiritual qi gathered to form thousands of weapons that rained down from the skies.

Just like that, the Grand Holy Dragon Forefather was brutally blasted into a mist of blood. After he died, a golden bundle of light floated in the void.

Chu Kuangren's eyes lit up when he saw that bundle of light.

His mind power reached towards that bundle of light.

However, an invisible surge of pressure suddenly weighed down upon Chu Kuangren, seeking to block his mind power's movement. Planet Bei's Heavenly Dao had taken action.

That bundle of light was a fragment of the Heavenly Dao Source. It was this Source fragment that gave the Grand Holy Dragon Forefather control of the Heavenly Dao energy.

Right now, Chu Kuangren really wanted to obtain that Heavenly Dao Source fragment.

"F*ck off!"

Chu Kuangren shouted and channeled his mind power to its fullest potential.

The suppressing force from Planet Bei's Heavenly Dao was forced away from him immediately.

Like he said earlier, destroying the whole Planet Bei would not be a hard thing to do if he were to unleash his full power.

What could Planet Bei's Heavenly Dao possibly do to stop him?!

Chu Kuangren's mind power was soon wrapped around the bundle of Heavenly Dao Source.

Then, he asked Lil Ai to analyze it.

He learned that the Heavenly Dao had infinite uses and would greatly benefit him whether it was used to increase his cultivation level or to gain knowledge about the Dao.

After obtaining that fragment of Heavenly Dao Source, Chu Kuangren suddenly felt the Heavenly Dao energy inside him expressing a joyful behavior.

'Is that emotion?'

'The Heavenly Dao has emotions?'

Chu Kuangren was amazed.

He wrapped that bundle of Heavenly Dao Source with his mind power. Then, his astral form dashed towards his physical body nearby along with the Heavenly Dao Source.

His soul entered into his body.

With that, his soul and body were reunited.

Chu Kuangren opened his eyes. At that moment, an inexplicably terrifying aura emerged from him and spread all over the planet like a tsunami.

The whole Planet Bei quaked violently because of his aura.

Countless living beings knelt and bowed to him as they shuddered in fear.

It was as if the end of Planet Bei was here.

Chapter 799: Gaining Allegiance From Planet Bei's Civilization, I'll Leave It in Your Good Hands

"Ahh... It feels good to be back in my body once again."

Chu Kuangren said as he moved his body around.

He waved his arms, setting off terrifying storms that shattered the void and blowing the other cultivators around him all over the place. All of them were screaming in pain.

Then, he hopped twice, causing Planet Bei to quake as a result.

The Arcane Aqua Sect Master and the remaining cultivators looked at Chu Kuangren. They were all on the ground, incredibly shocked and terrified.

They could tell that Chu Kuangren did not exert any of his Emperor qi or Daoist patterns at all. In fact, he was just waving his arms and leaping normally.

However, that was enough to cause Planet Bei to tremble as a whole.

Seeing such terrifying energy that slender body possessed was quite unimaginable for everyone.

After a while.

When Chu Kuangren got familiar with moving his body and controlling his power, he suddenly got shocked upon sensing the Emperor qi inside him.

“Wait, my cultivation level has broken through to the Daoist Celestial Realm?”

Although his combat strength was already on par with a Daoist Celestial during the battle at Blood God Mountain, he was only a top-tier Heavenly Imperial back then.

However, after his soul returned from a trip to the archaic ancient times, he discovered that his body had somehow ascended to the Daoist Celestial Realm. That was just too strange for him.

“What happened?”

Chu Kuangren rubbed his chin, trying to figure it out. He, too, had Lil Ai analyze himself but still did not notice anything out of the blue with his body.

On the contrary, his body was so perfect that even he was in disbelief.

“Master, I’ve detected traces of Nirvana from your body.”

Lil Ai suddenly said.

Upon hearing that, Chu Kuangren immediately understood. “The Godly Phoenix Physique!”

Besides the several other physiques that Chu Kuangren possessed, he had three Daoist Physiques that were the strongest and most mysterious.

They were his Immortal Body, Universal Cauldron Physique, and the Godly Phoenix Physique respectively.

The Godly Phoenix Physique was the one that enabled him to wield the power of a phoenix’s flames.

At the same time, he gained the ability to undergo Nirvana from it too.

When the Godly Phoenix was reborn from Nirvana, their strength would undergo a new transformation.

The same thing could be said for Chu Kuangren now.

“At the Blood God Mountain, my body was reduced to countless atoms by the Blood Abyss explosion. I basically died at that time.”

“However, this also triggered the Godly Phoenix Physique’s Nirvana effect, which elevated my cultivation level straight into the Daoist Celestial Realm!”

Chu Kuangren could not help smiling when he figured it out.

“This is a blessing in disguise!”

“My trip back to the archaic ancient times has greatly increased my soul energy. Now that I’ve returned, the cultivation level of my body has risen to the Daoist Celestial Realm too.”

He then looked at the Arcane Aqua Sect Master and others.

Upon noticing his gaze, the Arcane Aqua Sect Master walked to him and admitted. “Fellow Daoist brother, we have committed a grave mistake for trying to mess with your body. However, the inhabitants of Planet Bei are innocent and not to be blamed for our actions. I humbly ask that their lives be spared from this...”

She could easily tell just by looking at him.

With how powerful Chu Kuangren was, he could kill everyone here on a whim.

Destroying the whole Planet Bei would not be a difficult thing for him to do as well.

She did not expect herself and the others to survive after this. Hence, she could only plead to Chu Kuangren, hoping that he would spare the remaining people of Planet Bei.

Chu Kuangren did not say anything.

After pondering for a while, he then replied, “Seeing that I’m in a good mood now, sparing your lives is fine by me. However, from this day onwards, I shall be the ruler of Planet Bei. Do you guys have anything to say about that?”

He suddenly had an idea.

The Blood Origin Star had invaded Firmament Star in the past because of Firmament Star’s various resources, as well as the Blood Tribe seeking to expand their rule. If that was the case, he could do the same with the Firmament Star, too.

As for Planet Bei, it would be the first step in the Firmament Star’s development in the future.

“We wouldn’t dare.”

The Arcane Aqua Sect Master replied.

The other cultivators also answered the same.

After all, would they even dare to defy him?

Following that, the next step would be to unite the forces on Planet Bei, which was not a difficult task for Chu Kuangren.

Having been a Sect Master and even the Human King before...

Dealing with matters like those was second nature to him.

Planet Bei had three emperor orthodoxies — the Arcane Aqua Sect, Sacred Fire Kingdom, and Holy Dragon Pavilion. The remaining forces were mainly led by those three orthodoxies. With Chu Kuangren’s strength, gaining the allegiance of these forces was not a problem at all. After all, he could wipe out anyone who opposed with a single thought.

Within just a few days, the situation on Planet Bei had changed as a whole.

All of the forces that were sage orthodoxies and above had submitted to his rule.

...

Arcane Aqua Sect. Inside a courtyard.

A little girl sneaked in, spying curiously at Chu Kuangren, who was napping beneath a tree.

She heard that a powerful person had come to Arcane Aqua Sect and that the person was staying inside this courtyard.

'Is that person the good-looking big brother over there?'

She tiptoed over to Chu Kuangren and looked at him as he slept. She could not help but get a little enchanted by his looks. 'This big brother is so handsome.'

Her soft pink fingers reached out, wanting to poke his face. However, her fingers met an invisible barrier.

"It's no good to disturb others in their sleep, little girl."

Chu Kuangren opened his eyes and said.

The little girl blushed and replied softly. "I'm sorry."

"Don't worry about it."

Chu Kuangren could not be bothered to mess with a little girl.

"Big brother, are you the powerful person whom everyone's talking about?" asked the little girl curiously.

"Powerful person, huh? What kind of powerful person are they talking about?"

Chu Kuangren asked with a smile.

"I have no idea either. I heard this from mommy and the others saying that if you stomp your foot, the ground would shake," replied the little girl.

"Oh. I guess that's me, alright."

"Really?"

"Mhm."

"Then, what kind of cultivation techniques do you know, big brother? I know the Overarching Aqua Technique. Here, I'll show you." The little girl could not stop herself from showing off a little in front of Chu Kuangren.

She raised her hand and channeled her spiritual power, forming a fist-sized water ball in the air. Then, she held that ball of water before him and asked. "What do you think?"

Chu Kuangren looked at it. "That's awesome."

He reached out and poked that ball of water.

With a poof, the water ball immediately broke apart, causing water to splash all over the place. Even the corners of Chu Kuangren's robes became wet because of it.

"Ah, I'm sorry, big brother. I-I'm not good at controlling it yet." The little girl suddenly panicked a little.

Chu Kuangren smiled casually. "It's okay."

At this time, the Arcane Aqua Sect Master walked into the courtyard and saw the little girl beside Chu Kuangren. Suddenly, her expression changed drastically. "Ping'er?"

When she saw the wet corner of Chu Kuangren's clothes and the little girl who looked at a loss, she suddenly felt terrified and anxious.

Without another word, she knelt on the ground.

However, an invisible mind power held her back up when she was about to do so.

"Don't kneel in front of your child like that without saying anything."

Chu Kuangren said calmly.

The Arcane Aqua Sect Master was a little touched.

Perhaps following this new master was not that bad after all.

"Mommy."

The little girl called out to her mother, the Arcane Aqua Sect Master.

The Arcane Aqua Sect Master caressed the little girl's head and bowed to Chu Kuangren. "Please forgive my child. She's still young and is not familiar with our etiquette. If she has done anything offensive to you, I hope you can overlook this."

"Her name is Ping'er?"

"That's right."

"Hm. She is quite talented and very cute-looking too. Besides, do I look like someone who will be easily offended?" Chu Kuangren said.

"Of course not. Thank you for your generosity, Master."

"It's alright. What's the matter?"

"Master, the leaders of each major force have gathered and are preparing to greet you," the Arcane Aqua Sect Master said.

That greeting was a sign that they had submitted to him.

"There's no need for that as I'll be leaving Planet Bei soon. But before I leave, I need someone to take care of things here for me. You don't seem so bad and could fit the job perfectly, so I'll leave Planet Bei in your good hands," Chu Kuangren said.

The Arcane Aqua Sect Master was taken aback when she heard this. However, she was overjoyed the next moment. "I'm deeply grateful to you, Master. I'll certainly take care of matters here."

Chapter 800: The Heavenly Golden Daoist Celestial's Proposal, in Your F*cking Dreams

With that, Chu Kuangren left Planet Bei.

There were still a lot of things he needed to take care of back at the Firmament Star.

Upon entering the vastness of space, he tried sensing the Firmament Star's aura. However, he could not detect it, maybe because it was too far away.

Although he did not find the Firmament Star, he unknowingly stumbled upon the Blood Origin Star's aura instead. However, it all made sense when he thought about it. Seeing that his body was destroyed at the Blood Origin Star, it was no surprise that it recovered somewhere nearby.

He should be thankful that his body did not land on the Blood Origin Star. Otherwise, who knew how difficult it would have been for him to obtain it?

"I should go to the Blood Origin Star then. They will surely have a star map that leads to the Firmament Star. I might as well get myself a warship while I'm there too," Chu Kuangren thought.

After his body was disintegrated, his Yin and Yang ring that had accompanied him since he came to this world was also destroyed. Naturally, all of its contents were lost too.

He could technically be considered dirt poor now.

Somewhere in the universe.

Outside the Blood Origin Star.

A ray of light was approaching at breakneck speed.

Chu Kuangren realized something as he looked at the Blood Origin Star. "Even a planet full of life like Planet Bei has its own Heavenly Dao. Yet, there is no sign of it on the Blood Origin Star. Now that I think of it, I did not sense the suppressing presence of a Heavenly Dao at all back during the battle at Blood God Mountain."

'Something has gone wrong with the Blood Origin Star's Heavenly Dao.'

'Is that the reason why they invaded the Firmament Star?!'

Chu Kuangren pondered.

Then, his figure flashed and arrived on the Blood Origin Star.

His Emperor Thought swept out, and he instantly got a hold of the situation on this planet. After getting up to date with everything, he could only say that the planet... had fallen into a horrible state.

The battle at Blood God Mountain had caused a devastating and destructive impact on the Blood Origin Star as a whole.

Seventeen Daoist Celestials and a few of the thirteen Blood Kings perished in battle. Coupled with the destruction of the Blood God Mountain, the entire Blood Origin Star was plunged into chaos and despair by the series of natural and man-made disasters that had been happening ever since then.

Currently, the Blood Origin Star has lost its ability to invade the Firmament Star again. As such, most of the threat from the Blood Tribe was considered gone.

Most of it, of course. That was because Chu Kuangren could sense the aura of a very powerful being, slumbering deep within the Blood Origin Star.

Even Chu Kuangren felt threatened by that aura, which was dozens of times stronger than the thirteen Blood Kings.

“Is that what the Blood Kings were talking about? The Blood God?!”

Chu Kuangren mumbled as he speculated.

However, he stopped thinking about it. Since that being was still in a deep slumber, he had no reason to wake it.

“There, found it.”

Chu Kuangren found a place where the Blood Tribe warships were parked.

His Spatial Conveyor Skill was immediately activated.

...

Somewhere on the Blood Origin Star.

Dozens of warships were parked here.

These warships were tools of war used by the Blood Tribe to invade their enemies. However, after the battle at Blood God Mountain, the Blood Tribe lost half of their strength and was incapable of launching any interstellar attacks for the time being.

Hence, these warships could only be gathered and kept somewhere.

The Blood Tribe cultivator guarding the warship could not help but sigh. “Sighs. I wonder when is the next time we’ll be able to use these warships?”

“Who knows?” The other Blood Tribe cultivator beside him replied frustratingly.

“Word says that the Blood Kings are not giving up on Firmament Star that easily. It seems like they’re planning to seek help from Planet Zi.”

“Planet Zi? There’s no way. Planet Zi is one of the two strongest civilizations in the Violet Gold Galaxy. Would they even lend help to us?”

“Beats me. I wonder what kind of conditions will the Blood Kings propose to them.”

The Blood Tribe cultivators discussed quietly.

At this time, a rumbling sound suddenly roared to life from not far away.

Then, they saw a warship rising into the air.

“What’s going on? Who started the warship?!”

“D*mn it. We didn’t even notice it at all!”

The Blood Tribe cultivators began to panic.

Meanwhile, inside the hovering warship, Chu Kuangren was sitting inside the pilot cabin. He opened the star map and soon found the way to the Firmament Star.

After a while, his warship flew out from the Blood Origin Star, with several other warships pursuing him from behind. However, they were quickly shot down in the end.

Within the vast universe.

Chu Kuangren piloted the warship, flying it towards the Firmament Star.

This warship he was in was the most advanced warship in Blood Origin Star. However, it would still take him months to reach the Firmament Star.

He might as well take the time to start his closed-door meditation.

...

Firmament Star, Extraterritorial Region.

The Daoist Celestials had gathered and were discussing something.

“Now that the threat from the Blood Tribe is gone, I propose that we deactivate the Detaching Heaven Megaformation and release the Sword Daoist Celestial and others from it.”

The Transcendental Daoist Celestial said.

“I object.” The Heavenly Golden Daoist Celestial then said, “The Detaching Heaven Megaformation is the most important formation that’s keeping the Firmament Star safe. Although we’re safe from the Blood Tribe now, who knows when the next interstellar civilization will invade us next? That’s why, for the time being, we cannot deactivate the Detaching Heaven Megaformation.”

“The Sword Daoist Celestial and others have been part of the formation core and slumbering for twelve eras. Are you going to let them rest in slumber forever? Heavenly Golden, don’t you think you’re a little too selfish?”

The Transcendental Daoist Celestial tried to reason with him.

“Who cares? They’re willing to do so anyway.”

“You...”

The Transcendental Daoist Celestial was extremely displeased.

“Hmph, at the end of it all, you’re just afraid that your position will be threatened once they’re released. Heavenly Golden, you were also one of the pioneers back during the Great Panhuman Revolt who

contributed endlessly to the advancement of the human race. However, it seems like the thirst for power is very poisonous, seeing that it changed you to the way you are now.”

Luo Shui sneered and replied.

“Just tell us, Heavenly Golden. What do you plan to do?”

“Throughout all these years, your behavior has gotten increasingly out of hand. The gods have been successively breaking free from their seals back on the Firmament Star. I bet you’re involved with this, aren’t you?”

“You have committed the most terrible crime in this world.”

Beyond the skies, the voice of a Heavenly Tormentor rang out.

Then, a figure in green robes appeared.

It was the First Tormentor.

He glared at the Heavenly Golden Daoist Celestial and said coldly, “Heavenly Golden, the Seventh Tormentor discovered your unique Heavenly Golden energy at the sealing site where the gods of Firmament Star successively broke free. You owe me an explanation for all of this.”

The Daoist Celestials all looked at Heavenly Golden coldly upon hearing this.

Even the Daoist Celestials who had good relations with him could not help but step back, quickly showing that they had nothing to do with this.

The Heavenly Golden Daoist Celestial replied, “It was I who freed them.”

“Heavenly Golden! What the f*ck are you thinking!”

“Have you forgotten how many of us have died during the Great Panhuman Revolt? Have you forgotten how difficult it was for us to capture them and seal all of them away? Why did you do this?!”

“Heavenly Golden, explain yourself.”

The Daoist Celestials did not expect Heavenly Golden to admit it so casually.

With that, their expressions turned grim.

They did not mind seeing the Heavenly Golden Daoist Celestial grow in power and influence over the years, so much that he could control the situation in the Extraterritorial Battlefield.

However, their predecessors had labored and suffered to seal all the gods away. By breaking them free, the Heavenly Golden Daoist Celestial had undoubtedly trampled over their predecessors’ hard work.

The Daoist Celestials could not tolerate something as terrible as this.

“Everyone, the times have changed. Firmament Start has now reached a bottleneck in its advancement, and it’s time we start to embrace change as well.”

“Now that the threat of the Blood Tribe has been erased, I plan to follow their actions by invading other civilizations for their resources to help the Firmament Star progress further. As for the gods, they will be our greatest ally in this grand scheme.”

“I understand that everyone here has a lot of reasons to hate the gods. However, they’re no different than us. They are also beings who were born from the Firmament Star. That’s why we’re all on the same side.”

“I hope everyone can let go of their prejudice and think of the future,” the Heavenly Golden Daoist Celestial said sincerely.

Everyone started pondering on what he said.

However, Luo Shui sneered. “Let go of our prejudice? How easy for you to say. Why don’t you go and ask all our predecessors who had been killed by the gods, then? Ask them whether they can set aside their prejudice for your so-called ‘future’?!”

“Don’t you forget how the gods used to treat us, humans, like cattle back in those days. If it weren’t for our King, do you think you’d be standing here spouting this nonsense about the future to us?! Cooperating with the gods, huh? In your f*cking dreams!”
