Chapter 81: Powerful Skills in Buddhist Scriptures

This feeling caused him to be slightly unfocused. He felt that something in his heart had shattered.

The biggest difference made No Flower feel uncomfortable. If he wasn't a person with wisdom and a firm Buddhist heart, he would have lost his soul.

"Why did you do that? This was the best way to get rid of the Extreme Life

Sect." "The Extreme Life Cult has always been like rats," Yang Chang said. "Although it doesn't have much influence, it's very annoying. When His Majesty decided to get rid of the Extreme Life Cult, he had an idea."

"What does the Extreme Life Cult need? They need something that they think can cause a big commotion. The Boundless Dao Scripture is just right. It's reasonable and won't be suspected."

"As long as the Extreme Life Cult comes to the surface, it will be the best time to destroy them."

At this point, Yang Chang's tone was extremely downcast.

The room fell silent. After a while...

"Then... Many people would die. By now, many commoners had already died." Liu Xu's gaze was complicated, and she didn't know how to describe it.

"In Your Majesty's eyes, this is nothing compared to the people of Great Chu. If the Extreme Life Sect causes trouble from time to time, it will be a long-term instability." Yang Chang said.

Liu Xu did not say anything else. She felt that she had gained a lot of knowledge today.

No Flower didn't say a word, his face turning green and white.

The two of them had the same thoughts. The teachings they had received were in conflict with their current thoughts.

At this moment, Xu Bai stretched out his hand and patted Liu Xu and No Flower's shoulders.

This action stunned the two of them. They turned their heads at the same time, not knowing what Xu Bai was going to do.

"That's not something you should think about." "The most important thing now is to resolve the Extreme Life Cult in Shengxian County," said Xu Bai.

After saying this, the two of them calmed down a little and stopped thinking about what had happened before.

"So the ninth princess gave the Boundless Scripture to the Extreme Life Cult. You should have found something, or you wouldn't have told us so much." Xu Bai said slowly.

He told them everything that had happened. Yang Chang naturally wouldn't just talk to them. He wouldn't believe it if he didn't have other motives.

"I didn't find out much either. We were watching you kill that woman before, but... We only know one thing, this matter is related to Sheng County Yin Posthouse." Yang Chang explained.

Xu Bai frowned.

Yin Posthouse, he had heard from No Flower before.

This was a place different from ordinary relay stations. It was specially used by people from the martial world and the Heaven Inspectorate.

It seemed that the woman he had captured not long ago still had something to vomit out.

"This should be what our Heaven Supervision Division should do." "It's not easy for the Ninth Princess to get involved," Wu Hua said."

Yang Chang shook his head and didn't say a word. However, it was obvious that it was best for them not to ask about this matter.

This matter was related to the royal family. It was better for ordinary people to stay out of it and be careful not to get themselves involved.

"Everything was a coincidence. That woman just happened to be using Spring

Rain Pavilion as a cover. I'm telling you this news, but I hope you won't say that

I was the one who leaked it." "I only know that it has something to do with the

Yin Posthouse in Sheng County. I don't know anything else." "

"You're betraying the Ninth Princess." Xu Bai said with a smile.

Yang Chang continued to shake his head. "The Ninth Princess saved us, and we guarded the property in Sheng County for her. But I still remember why I studied. I won't get involved in it anymore because I still want to live my own life with my wife."

Liu Xu took out the brush and said, "I'll give this to the dean. I'll also ask the questions in my heart."

Yang Chang nodded, indicating that there was no problem.

It was already very late. He did not stay any longer and turned to leave the Liu residence.

After Yang Chang left, the three of them fell silent.

Especially Liu Xu and No Flower, they were not in a good mood.

However, they only calmed down a little before suppressing the emotions in their hearts and thinking about what they should do.

“Looks like we have to go to the Yin Posthouse to investigate.” No Flower put his palms together.

Xu Bai suddenly spoke.

“Before I go, I need to complete two things.”

As Xu Bai spoke, both No Flowers and No Flowers looked over, waiting for Xu Bai to continue.

Now, they understood that Xu Bai wasn’t as simple as he looked. Sometimes, his way of thinking was very unique.

If three people walk together, one of them must be my teacher.

Especially now that the situation was special, anyone’s opinion could be used as a reference. Moreover, in their minds, Xu Bai was not a simple person.

“Firstly, I need a few days to sort out these things.” “Too many things have happened recently. I need time.” “”

On the surface, it looked like he needed to sort it out, but in fact, Xu Bai wanted to finish the Buddhist scriptures and have more confidence.

Furthermore, he wanted to verify something during this period of time.

It was about Yang Chang.

No Flower nodded.

Although he didn't know what they were organizing, Xu Bai had already made it clear that he had to respect their opinions.

"What about the second thing?" Liu Xu asked.

Xu Bai's gaze fell on the Spring Flower Brush in Liu Xu's hand." Secondly, this matter has already exceeded my expectations. There are too many things involved.'""

He was telling the truth. Even the Ninth Princess was involved. Moreover, it seemed that the Extreme Life Cult was not so simple. It seemed that they were brewing a big conspiracy that was getting more and more complicated.

In the current situation, the danger had greatly increased, so Xu Bai's thoughts were different.

The Buddhist scriptures and the Human-faced Ancient Tree were very tempting. It was enough to make him agree at the beginning, but it was different now..

Chapter 82: Powerful Skills in Buddhist Scriptures

After all, it was still uncertain whether the Human-faced Ancient Tree could trigger the progress bar.

If the Human-Faced Ancient Tree was already strange, then the progress bar might be gone.

This matter was about probability. The return was far greater than the current expenditure. Thinking about it carefully, it was not worth it.

After all, he was risking his life. If there was not much profit, his life would not be worth much.

“What do you mean?” Liu Xu’s big eyes were filled with a little doubt.

Xu Bai formed his hand into a cylinder and put it by his mouth. He coughed lightly and then said, “ You have to pay more. ”“

After saying this, Liu Xu and No Flower were stunned at the same time. Liu Xu also noticed Xu Bai’s gaze.

She subconsciously lowered her head to look at the Spring Flower Pen in her hand. She quickly put it behind her back and rejected it very seriously.

This was the pen that the dean had taken in his early years. Although the dean was only an unknown scholar at that time, some things could be used to display their historical value.

Moreover, the Spring Flower Pen was carried around by the director for a period of time and was sealed in a wooden box. It had already been admired by many people.

To scholars, it was of great benefit.

The most important thing was to bring it to the dean.

“I can give you anything else, as long as I can take it out. But this pen can’t be given to you.”

Liu Xu felt that her answer was very obvious and could be considered a

righteous rejection. However, under her observation, Xu Bai did not seem to have heard her and continued to maintain his appearance.

"I don't want this Spring Flower Pen. Give me the Spring Flower Pen, and I'll return it to you intact." Xu Bai said seriously.

This thing came from that broom. At that time, the tip of the broom was the tip of the pen, so the progress bar could be distinguished from it.

Although this was something that the dean usually carried with him, and it was used when he was unknown, it had fallen into Yang Chang's hands and now it was back in the Liu residence. Xu Bai could not let it go.

Liu Xu's face was filled with confusion, not understanding what Xu Bai meant.

At this moment, No Flower's eyes lit up.

"Could it be...Almsgiver Xu not only likes Buddhism, but also likes the books of scholars?"

It had to be said that Xu Bai just happened to need a reason, and the considerate No Flower helped him come up with an idea.

"Sigh, I was born in Jianghu. Other than Buddhism, I am also extremely curious about the things of scholars. As the saying goes, there is a golden house in books. Of course, I like it." Xu Bai pretended to be serious and his tone was very serious.

Liu Xu looked at Xu Bai strangely and said, "But..." This is not a book."

There was no problem if she liked reading. Liu Xu also liked reading.

But here came the problem. This was a pen, not a book.

How could books and pens be mixed together?

Like a cow or a horse, they didn't mean anything.

However, Liu Xu thought about it. It was just a loan, so she could still consider it.

Thinking of this, Liu Xu picked up the Spring Flower Brush and said, "As long as you can return it to me, there's no problem.""

"Am I that kind of person in your eyes?" Xu Bai pretended to be sad." Liu Xu was speechless.

She only mentioned it casually and did not say anything else.

Since she had already said this, Liu Xu also handed over the Spring Flower Pen.

Xu Bai took it and examined it carefully.

On the Spring Flower Brush was an extremely exquisite micro-carving. If one didn't look it carefully, one couldn't see it clearly.

Most of the articles written on it were made up of tongue-twister words, which made it look like a trance.

"Then wait for me for a few days." Xu Bai said.

At this point, it wouldn't be a problem to wait a few days.

However, after playing with the Spring Flower Pen for a while, Xu Bai made up his mind.

He first finished the Buddhist scripture, then he went to the Yin Posthouse while he was writing the Spring Flower Brush.

Coincidentally, Wu Hua also wanted to go to the Yin Posthouse, mainly to send a letter to the Heaven Inspectorate. There was also a reason.

The Yin Posthouse was likely to be a plot of the Extreme Life Cult, so it was appropriate to investigate there.

In fact, Xu Bai wanted to finish the Spring Flower Pen Pen, but he thought that time waited for no one, so he made the second plan.

Reputation was the key to getting paid to do things.

If he accepted the money and did not do a good job, how could he survive in the underworld in the future?

If there was a first time, there would be a second time. It was easy to borrow and return. It was not difficult to borrow again.

Time was very tight, and there was no time for the Spring Flower Brush.

The investigation also required time. By then, he could also finish the Spring Flower Pen.

Thinking of this, Xu Bai made a decision.

"It's getting late, so I'll go back first." Xu Bai stretched.

Liu Xu nodded and returned to her room.

Xu Bai and No Flower had just entered the house when he noticed that No Flower was still silent, which was very different from before.

At this moment, No Flower's face was full of dejection.

"There are some things, rather than putting yourself in a dead end, why don't you go back and ask your master when the time comes." Xu Bai patted No Flower's shoulder.

No Flower was stunned. Then, he nodded. "I know. It's just that this hurdle in my heart is very high. I'll be fine in a while."

Xu Bai nodded and didn't say anything. He took out the Buddhist scriptures in his hand and started to check the progress bar.

On the other side, No Flower gently knocked on the wooden clapper. However, the sound of the wooden clapper tonight was a little messy.

The night gradually darkened. Besides Xu Bai and Wu Hua, Liu Xu was in her own room and was also not sleepy.

At this moment, the progress bar was continuously increasing. Although it was slow, it was accumulating.

Xu Bai was very curious about what kind of skills could be derived from this scripture written by the abbot of the Titanium Temple when he was young..

Chapter 83: Powerful Skills in Buddhist Scriptures

After all, this book had a great background. It was written by the abbot of the Titanium Temple when he was young. Although the abbot was only an unknown young monk at that time, it was definitely not an ordinary thing to be able to activate the progress bar.

It was already late at night, and there was still no flower knocking on the wooden fish. However, the frequency and sound of the knocking became smaller and smaller. After about two hours, the sound of the wooden fish finally stopped.

When he looked again, the dejection on No Flower's body had already disappeared. In its place, the indifference returned to him.

Temporarily suppressing the thoughts in his heart didn't mean that he would suppress them forever. It was just that there were important things to do now, so No Flower had no choice but to temporarily give up some thoughts.

The weather in this year was very strange. It was still stuffy in the morning, but it was already slightly cold at night.

Xu Bai put on some clothes and continued to work.

After that, he repeated this action every day. No Flower and Liu Xu didn't disturb him anymore and waited patiently.

Time continued to pass. It was not until noon that the progress bar in front of Xu Bai's eyes was finally full.

A blue text appeared before his eyes.

[You have studied the Nameless Buddhist Sutra and comprehended the Mental Demon Body.]

Mental Demon Body?

Xu Bai was stunned.

What kind of skill was this?

This thing had nothing to do with the temple, right?

He wasn't sure. Although he was puzzled, the words in front of him were still changing.

[Fusion option detected. Fusion in progress.]

[Diamond Body + Mental Demon Body = Diamond Demon Body.]

[Fusion successful.]

Information surged into Xu Bai's mind, and he quickly understood the Diamond Demon Body skill.

The so-called Mental Demon Body wasn't like the Body of the Buddha, which only protected the outside.

In this world, there were as many capable people as there were hairs on an ox. Many of them could destroy things from the inside, and the Mental Demon Body was such a defense.

For example, it could directly erode a person's brain, consciousness, heart, and heart demon body.

One protected the outside while the other protected the inside.

The Vajra Body was external while the Mental Demon Body was internal.

The updated panel appeared in front of Xu Bai.

[Name: Xu Bai]

‘ Realm: Eighth Stage unspecialized.’

[Breaking One Style, Level 2: Maximum level.]

[Reversal Heart Technique (Level 2.5):[Maximum level.] [Kidney Hammering Technique (Level 1): Maximum level.]

[Maple Leaves Like Rain (Tier 2): Maximum level.]

[Four-Xun Movement Technique (Level 1): Maximum level.] [Four Xun Formation (Level 1): Maximum level.] [Diamond Heart Devil Body (Level 4), max level.]

[Comprehension (max level)]

Tier 4!

Although it was not a mental cultivation technique, it was the highest level.

“As expected of spending so much time. “Xu Bai was very satisfied.

He tried to mobilize the True Core Strength in his body. The True Core Strength surged like a mighty tide.

Every strand of Refined Qi was being mobilized by him. He was like a fierce general commanding thousands of troops, and the Refined Qi was like an arm in his hands.

Then, an unusual scene appeared.

A faint layer of black light appeared on Xu Bai's surface, enveloping his entire body.

The black light appeared to have a strange frequency as it continuously circulated, causing one's heart to feel a chill.

Xu Bai closed his eyes. In less than two breaths, he withdrew his Diamond Fiend Body.

After removing the Diamond Demon Body, his appearance returned to normal, and it was as if nothing had happened.

Xu Bai frowned slightly.

It was a good thing to have a new skill.

But just now, after using it once, he realized that this skill had a very serious drawback.

If he didn't pay attention to it, problems would arise.

Whether the Diamond Demon Body was strong or not, it was undoubtedly the highest level skill among all his skills. Of course, its shortcomings were very prominent.

The so-called weakness was that the true essence energy in his body was somewhat unable to carry this skill.

It could be used, but when he activated this skill, his True Core Strength disappeared like flowing water.

Based on his speed, it was already considered very strong if he could last for an hour.

This was only the consumption of using this skill. Not counting the other skills, it could only be used for an hour.

If he used other skills or was attacked, the Diamond Demon Body would consume even more True Essence Energy.

“It shouldn’t be a drawback of the Diamond Fiend Body. It’s just that I’m biased towards certain subjects.” Xu Bai came to this conclusion after some thought.

It was indeed a side subject, and it was serious.

His mental cultivation method was only at level 2.5, and his current strength was also at the Eighth Stage. However, it was abnormal for him to carry a level 4 skill.

Tier 4 was equivalent to a Sixth Stage skill, but he used a Fourth Stage mental cultivation method. Of course, he could not carry it.

It was as if a rope that could only weigh half a kilogram had to be hung on it. The difference was too obvious.

“Looks like I have to think of a way to get some mental cultivation techniques.” Xu Bai thought to himself.

He knew very well what he lacked now, so he had to think of a way to get it.

But it was clear that this was not the time to do this.

In Xu Bai’s mind, he would first see if he could get a progress bar for this operation, then the bookstore, and finally, he would have to go out and look for it himself.

There was also the Spring Flower Pen. He would slowly work on this pen later.

If the Spring Blossom Brush could produce a mental cultivation technique, that would be the best. If it did not, then it did not matter. He would slowly make up for it later.

Thinking of this, Xu Bai felt slightly relieved.

At this moment, the door was pushed open and the flowers came in from outside.

During this period of time, No Flower still went in and out as usual. After all, he entered the Liu residence with a legitimate reason, but Xu Bai was different.

Xu Bai spent most of his time in his room, except for eating every day.

The progress bar was addictive, especially when the progress bar was slowly increasing. Although the process was boring, the feeling was indescribable.

For example, if you were given a goal in advance, you only needed to work hard to achieve it. As long as you were a human, you would like to work hard.

If he installed progress bars all over Xu Bai's room, he could probably stay here for a year, or even longer.

After No Flower came in, this was the first time he saw Xu Bai put down the Buddhist scriptures. He couldn't help but be slightly stunned.

These few days, I have been waiting for a long time, but I have not seen anything. I know that I have forgotten to eat and sleep. What do these four words mean?

These words were perfect for Xu Bai.

No Flower had never thought that someone could read Buddhist scriptures every day and only eat.

Even in the Titanium Temple, the senior brothers he met had never been so fascinated.

"Sigh... What a pity." No Flower sighed.

If only Almsgiver Xu had the root of wisdom...

Wu Hua had never seen such a person obsessed with Buddhism.

However, no one was perfect. Coincidentally, Xu Bai knew nothing about Buddhist scriptures.

"Perhaps this is Master's idea of balance." No Flower thought.

At this moment, Xu Bai spoke.

"You came at the right time. We can start our plan now.."

Chapter 84: The Three Sides Are in a Difficult Choice

When No Flower heard this, his expression was first stunned, then overjoyed, and he quickly walked forward.

"There's no time to lose. We'll set off now."

They had been waiting for Xu Bai to finish his work. Now that they had finally waited, they had to leave quickly.

Although the Extreme Life Cult hadn't caused any trouble these past few days, it was better to deal with some matters as soon as possible.

There was a saying that went, "A long night brings many dreams." This was the truth.

Just as he thought of this, No Flower prepared to go out and inform Liu Xu to find a time to set off immediately.

But before he could walk out, Liu Xu had already pushed open the door and entered.

Liu Xu had already changed into a white dress. Her face was covered with a white veil that had not changed for a long time, making her look elegant and otherworldly.

As soon as they entered the house, Liu Xu spoke first.

“There’s been no movement. I’ve been secretly observing every day. Ever since that night, Spring Rain Pavilion hasn’t changed at all.”

No Flower was stunned when he heard this.

No Flower looked at Xu Bai from the left and Liu Xu from the right. He didn’t know whether to laugh or cry. Are you planning something behind my back?”

He always felt that he was being ostracized.

It’s quite uncomfortable to have a plan without me.

“No, I just asked Liu Xu to observe the changes in Spring Rain Pavilion. “Xu Bai stood up and played with the Spring Flower Pen in his hand.

“Observing?” No Flower was stunned.

“I’m not just stalling for time because I have something to do. I’ll take advantage of these few days to see Spring Rain Pavilion’s reaction. “Xu Bai said.

No Flower wasn’t stupid and quickly understood what he meant.

That night, Yang Chang came to find them and told them the ins and outs of the matter.

Xu Bai had asked Liu Xu to monitor the Spring Rain Pavilion to see if Yang Chang would make any moves.

If there was any movement, that would be the best. They would be able to find clues from it.

If there was no movement, then there were two possibilities.

Firstly, Yang Chang was telling the truth.

The second possibility was that Yang Chang was lying and had dug a hole somewhere for them to jump into.

“So that’s how it is...” No Flower understood, but there was still a doubt, “Patron, why don’t you let me go over too?”

“Although you have experience in Jianghu, the smell of monks on you is too strong.” Xu Bai said straightforwardly.

No Flower choked. He wanted to retort, but he found that he had nothing to refute.

It was indeed so. Who asked him to be unable to conceal this aura on his body sometimes? Just like the last time he visited Spring Rain Pavilion, he was prone to revealing flaws at that time.

“Then shall we go to the Yin Posthouse now?” No Flower asked.

“Of course I’m going.” “Aren’t you going to the Yin Posthouse to send a message to the Heaven Inspectorate?” Xu Bai said with a smile. It’s killing two birds with one stone.”

“This is what you want.” Liu Xu took out a bulging money bag from her waist and handed it to Xu Bai.

Xu Bai took it and opened the money bag. It was filled with copper coins.

“Fortunately, you used copper coins as hidden weapons. If you used broken silver, even my family wouldn’t be able to bear your expenses.” Liu Xu did not forget to tease.

Xu Bai hung the money bag on his waist and patted it. He could feel the movement inside.”Let’s go. We’ll meet them at the Yin Posthouse.””

The three of them did not hesitate and left the Liu residence through the wall in the backyard.

Climbing over walls was an essential skill for experts.

With No Flower leading the way, they wouldn’t go wrong.

The streets outside were still bustling with noise, and the commoners did not know about the changes in the martial world.

The Yin Posthouse was an important transportation hub hidden in the dark of the Great Chu Country. It had always been provided for people other than ordinary people to use.

Its purpose was to not disturb ordinary people.

In the Yin Posthouse, there was a unique business that was gradually developed among the Jianghu people.

The reason was that there was no ordinary person in the Yin Posthouse, but they still had to rest here.

As the saying went, where there were people, there would be Jianghu. In other words, where there were people, there would be an economy that met the conditions.

It was unknown when it started, but many Jianghu people had set up stalls in the Yin Posthouse to exchange for items or money.

In the Yin Posthouse, these things were necessary, especially for the Jianghu people who licked blood on their blades. The transactions here were even more important.

Money was one thing. Sometimes, one could really find gold in the waves and get a lot of things.

They gave themselves a name for people who did business in the Yin Posthouse.

It was a very simple and direct explanation. Just the literal meaning was enough to understand 70 – 80% of it.

Not only did they buy and sell things, but some of them even accepted some disgraceful things here.

For example, assassinations and so-called special entertainment.

In this aspect, the Emperor of the Great Chu State turned a blind eye.

To the emperor, he was using the Heaven Inspectorate to check and balance the people of the martial world. He could not wait for these people to mess around.

As long as it didn't violate the emperor's principles, it was good.

Moreover, after the appearance of the posthouse man, it saved the Emperor a lot of expenses. After all, he originally wanted to establish a follow-up supply here. Now that there was a supply, he could save a lot.

As such, the Yin Posthouse's posthumans had gradually improved. Here, one could see all kinds of strange items for sale.

At this moment, three people walked into Sheng County Yin Posthouse.

Two men and a woman. One of the men was a monk, and the other was carrying a Ghost Head Blade.

The woman's face was covered with a white veil, so her face could not be seen clearly. However, between her exposed eyebrows, there was an elegant and otherworldly air.

In the Yin Posthouse, there was a large open space with more than ten people on it..

Chapter 85: The Three Sides Are in a Dilemma

Some of them were sitting, some were standing, and some were even lying on the ground. In front of them, there was a piece of cloth with all kinds of items on it.

The posthumans all had the same unspoken rule. They all covered their faces, so their expressions and appearances could not be seen clearly.

The arrival of Xu Bai and the other two naturally attracted the staffers' attention, but they only took a glance before turning their heads away and not looking at them anymore.

The Yin Posthouse had its own rules. Those who came to buy something would naturally come to buy it. You just had to sell it to him. If you didn't come to buy it, it was useless no matter what you said.

Moreover, they were very clear that the three people in front of them were not to be trifled with.

In this day and age, only by not looking for trouble could one live longer.

It was obvious that the posthouse people knew this very well.

No Flower brought Xu Bai to a wooden house.

The door of the wooden house was closed. No Flower went up and knocked.

Not long after, the door was opened, revealing a skinny face.

The person who opened the door looked to be in his sixties, and his hair was already white.

“Sky Supervisor, Wu Hua, there is important news that needs to be conveyed to the Sky Supervisor.” No Flower took out a token to show his identity. Then, he found a letter and handed it over.

The letter was sealed with wax to isolate it.

There was no mud or water in the entire process, and there was no explanation.

The skinny old man reacted quickly. His face was expressionless as he took the letter in his hand.”

This old man was the manager of the Yin Posthouse, the chief of the Yin Posthouse in Sheng County.

After receiving the letter, the old man closed the door, as if he did not want to have too much interaction with them.

Xu Bai frowned.

“Yin Posthouse is like this.” Liu Xu stood beside Xu Bai and explained,” The station leaders have been staying in the Yin station for many years. Their personalities are very strange, but they won’t delay their missions.”

“Dong dong dong.”

Liu Xu had just finished explaining to Xu Bai when No Flower knocked on the door again.

The door opened again, and the old man appeared again. Only his face was revealed, and his eyes were filled with doubt.

"I have something to ask." No Flower put his palms together.

They had already discussed the matter of the Human-faced Ancient Tree before they arrived. Since they had mentioned the Yin Posthouse, it was most appropriate to ask the Posthouse Chief.

Most importantly, this place belonged to the Yin Posthouse, and the Posthouse Chief had been guarding the Yin Posthouse for many years, so it was very likely that there would be news.

Although the old man was very puzzled, the people from the Heaven Inspectorate had spoken. He still opened the door and let No Flower in.

"I'm going out for a walk." Xu Bai said.

He didn't follow them. He planned to walk around outside. No Flower had to tell him the news anyway.

This was the Yin Posthouse, and the things they sold were very strange. If there was a progress bar, he could also get some wool.

No Flower knew that Xu Bai's personality was unique. He didn't say anything else and just nodded.

Liu Xu looked around and decided to enter the Yin Posthouse to hear the results.

Regardless of whether Yang Chang was telling the truth or not, this was at least a clue.

If it was true, then the route was correct.

If it was fake, Yang Chang was fishing. They had already arrived at the Yin Posthouse, so there should be some movement next.

Regardless of whether it was true or false, the Yin Posthouse was the starting point.

After Liu Xu and No Flower entered, Xu Bai also left the house and began to stroll around the Yin Posthouse.

Sheng County was located in a remote area, and the Yin Posthouse in a remote county was not large.

The stall also looks at a dozen places and looks very shabby.

There were no cries of peddlers. Everyone stayed in their own stalls. Compared to ordinary peddlers, the postmen seemed lifeless. Here, there was only buying and selling.

Take a fancy to-bargain-deal.

The process was that simple.

He didn't talk nonsense, nor did he shout.

Xu Bai looked at the stalls and shook his head in disappointment.

There were many strange things in the Yin Posthouse that Xu Bai had never seen before, but there was not a single progress bar in front of him.

Without a progress bar, Xu Bai couldn't do anything.

"Maybe a bigger Yin Posthouse is still possible." Xu Bai thought.

Although he did not find any progress bar, now that he knew about the existence of the Yin Posthouse, his search for progress bars became even wider.

As he thought about this, Xu Bai heard footsteps behind him. He turned around and saw that it was Liu Xu and No Flower.

“Are you done asking?” Xu Bai asked.

No Flower nodded and told him the news he had received.

After hearing No Flower’s words, Xu Bai fell into deep thought.

What they had just said was nothing more than what they had encountered at the Yin Posthouse in Sheng County. The strangest thing was the forest to the south of the Yin Posthouse.

According to the Yin Posthouse of Sheng County, recently, there would be noises coming from the southern forest at night from time to time.

However, after the station chief rushed over, he did not find anything. This matter became even stranger.

This happened at the Yin Posthouse in Sheng County, so the head of the posthouse reported it in time, but no official came down.

In the beginning, the station chief thought that the higher-ups did not take this matter seriously. It was only when Wu Hua arrived today that he realized that this information had not been sent out.

“The message has been intercepted.” “We were intercepted on the way, so the Heaven Inspectorate is still unclear about the situation here.”“

“Intercepting, Gideon?” Xu Bai rubbed his chin.

"I don't know who intercepted it, but the possibility of it being the Extreme Life Sect is very high." Liu Xu looked left and right before speaking.

The station chief didn't receive the news, so he didn't dare to act rashly. After all, his location was an extremely important transportation hub.

"Let's go to the south first." Xu Bai played with the Spring Blossom Pen in his hand and glanced at it from time to time, increasing the progress bar by a

little..

Chapter 86: A Difficult Choice Between Three Sides

With the news, the three of them did not hesitate. After a brief discussion, they rushed towards the forest in the south.

According to the station chief, the forest wasn't far from the Yin station. They had arrived at their destination in less than the time it takes for two incense sticks to burn.

This was a small forest. The trees inside were not tall, but it looked very strange because it was too quiet here.

They had left at noon, and it was still sunny.

From the outside, it looked like a dense forest, but it looked like a strange scene. After all, the surrounding trees were sparse, but this place was densely packed.

"Let's go in and take a look." Xu Bai put away the Spring Flower Pen and drew the Ghost Head Blade from his waist.

He had looked at the surface just now, but he did not find any progress bar.

“If it really is in this forest, it will definitely be very dangerous. Strange creatures don’t rest during the day. “Liu Xu held the Green Cloud Brush in her left hand and a book in her right.

The strangeness was not like in television dramas, where it only appeared at night. The strangeness of this world did not matter when it happened.

No Flower nodded, agreeing with Liu Xu’s words.

In this day and age, one could only live longer by being cautious.

“You don’t understand what I mean. When I say go in and take a look, I mean walk inside, but not directly walk in.”Xu Bai put his right hand into the money bag.

This sentence was very tongue-twister, and Liu Xu did not understand. At this moment, Xu Bai used his actions to tell No Flower and Liu Xu what method he was going to use to go in and take a look.

He threw out a handful of copper coins like a rain of maple leaves. The copper coins were still wrapped in the dark light of the Diamond Demon Body, making them look heavy and strange.

When the copper coin came into contact with the first few trees, the trees were immediately snapped in half and fell to the ground with a bang. The power of the copper coin did not stop, spreading in all directions, cutting off a small part of the forest.

Xu Bai was very satisfied with the power of the rain of maple leaves combined with the Diamond Demon Body. He felt even more comfortable seeing it now.

He felt that if possible, he could even give himself a new nickname.

Xu-shotgun-white.

This sudden action caused Liu Xu and No Flower to be stunned. Very quickly, the two of them reacted and finally understood what it meant to go in and take a look.

He really just wanted to go in and take a look!

Because he was really going in!

However, before he walked in, he cleared the obstacles in front of him.

“This is indeed safe.” No Flower put his palms together and agreed with this method. He took two steps forward and was ready to help.

Liu Xu was the same.

If the two of them were added, the speed would be even faster.

However, before they could make a move, Xu Bails expression turned serious and he spoke in an extremely solemn tone.

“You don’t have to do anything. We’re not only facing the strange, but also the Extreme Life Sect. If the Extreme Life Sect is in the dark, it won’t be good for you to expose your abilities.”

When he said this, the two of them were stunned.

Thinking about it carefully, it was indeed reasonable.

But...

No Flower thought, ‘Isn’t Almsgiver Xu exposing his means now?’

“He has many tricks up his sleeve, don’t worry about him. “Liu Xu saw what No Flower wanted to say and waved her hand nonchalantly.

Xu Bai had many tricks up his sleeve.

Saber techniques, hidden weapons, and a special flame.

When Liu Xu had investigated the Darksmith, she had seen burnt corpses. At that time, she was certain that Xu Bai’s abilities were not limited to these few.

In this day and age, everyone had their own unique skills. Especially with Liu Xu’s understanding of Xu Bai, this person definitely had many unique skills.

When No Flower heard Liu Xu’s words, he thought about it carefully. It seemed like this was really the case, so he didn’t say anything more.

Xu Bai nodded in satisfaction.

Actually, he didn’t have that thought.

The main thing was that he had to look for the progress bar while he solved the forest.

If they found it and it was destroyed by No Flower and Liu Xu, wouldn’t that be a loss?

If he acted alone, there would be a limit.

The outer layer of the tree broke, revealing the forest inside.

The forest was densely packed with trees. Xu Bai had wanted to use the Four Xun Formation to burn them with flames.

However, when he saw the dense forest, he was worried that the fire would go too far and he would not be able to control it.

After the outer layer of the forest was destroyed, the inner layer was revealed again.

It was still an ordinary tree. There was nothing unusual about it. It looked no different from usual.

There was no progress bar, nothing else, not even a human face.

“Something is wrong.” Xu Bai rubbed his chin.

This was the location the station chief had mentioned, but it was strangely calm.

In an ordinary dense forest, there would definitely be animals living there. However, Xu Bai had caused such a huge commotion, and there was not even a single movement in the forest. This was really abnormal.

But since things had already come to this, Xu Bai did not think too much about it. He continued to follow the rhythm and began to destroy the forest.

After razing this forest to the ground, they would know what was inside.

No matter how scheming he was, he would be able to see everything clearly after razing the place to the ground.

The copper coins scattered and reflected a dim light under the sunlight.

Xu Bai didn't add the Diamond Fiend Body's black light anymore. Just the rain of maple leaves and his Quintessential Essence were quite destructive.

After a while, the forest was no longer the same as before.

The dense forest had been razed to the ground. Other than piles of tree stumps, there was nothing inside.

The tree trunks collapsed everywhere, looking as if they had been crushed by a giant beast.

There were two bags of copper coins on Xu Bai's waist, one for himself and one for Liu Xu.

Destroying this forest used up a whole bag of copper coins, and it also consumed a lot of True Core Strength..

Chapter 87: A Difficult Choice Between Three Sides

Fortunately, some of the copper coins could be recycled, so he would not squander.

"Looks like the water runs deep." Xu Bai didn't move. He was recovering in silence.

There was no progress bar at all, and he didn't even find a single one.

"There aren't even any animals here. "Liu Xu's face was covered with a white veil. She walked lightly to Xu Bai's side."

"Looks like...I still have to go in personally." Wu Hua said.

At this moment, Liu Xu shook her head.

"No need."

The saying, 'Don't enter the woods,' was not a joke. It was based on facts.

Liu Xu raised her hand and spread her fair fingers. A yellow paper crane appeared in her palm.

When the paper crane appeared, it flapped its wings and floated beside Liu Xu.

She was a scholar who had broken through to Rank-8 with the Paper Binding Secrets. Some of the evil abilities on it could be replicated using a scholar's method.

Although it wasn't much, it was enough to deal with the current situation.

The paper crane flew and slowly approached the forest.

When the paper crane reached the edge of the forest, it suddenly stopped.

Immediately after, a black fog rose from the ground and enveloped the original dense forest.

Roars came from the black fog.

The roar was filled with pain, collapse, sorrow, and other emotions. It was extremely ear-piercing.

In less than a breath's time, the black fog gradually disappeared as if it had never appeared.

The paper crane was gone, and everything returned to normal.

Xu Bai turned his head and looked at Liu Xu.

"Strange, so strange!" Liu Xu took a deep breath and said, "In just an instant, the paper crane was torn apart.""

She couldn't see much, but she could roughly sense that there were many strange things inside.

The paper crane disappeared in an instant. Its speed was ridiculously fast.

"The tree is already gone, so why is there something strange?" No Flower looked left and right, puzzled.

This forest had already been razed to the ground by Xu Bai, but the strangeness had appeared out of nowhere. Most importantly, it had only killed the paper crane that had flown in.

"It has already become strange?" Xu Bai was stunned for a moment, then he sighed in his heart.

He had originally guessed that after the Human-Faced Ancient Tree became strange, there would be no progress bar. It seemed like he was right.

"I've already cleared the area above. There's still a strange existence, and it's specially killing things that enter the forest. This proves that the strange is bound here."

The strangeness of dying in a tree, being permanently imprisoned in the tree, only effective in a certain area. This was something he had learned from No Flower not long ago.

Now that the paper crane disappeared after entering, it matched this characteristic.

"The ground has been cleaned up, but there's still underground." Xu Bai said slowly.

He thought that since there was still the strangeness, there was still the Human-faced Ancient Tree.

The Human-faced Ancient Tree was also linked to the strangeness, and the strangeness was bound to that area. The tree was likely to still exist.

If the tree trunk was gone, what about the soil?

As Xu Bai finished speaking, the empty space in front of him changed.

“Weng...”

A series of sounds came from the ground. Then, the ground began to tremble slightly, and soil began to fly.

Cracks appeared on the ground, and they expanded like a spider web.

The remaining half of the tree stump began to topple over. The roots of the tree emerged from the stump and turned upside down.

The tree trunk was buried in the soil, and the roots stood in the air.

In the entire open space, the forest stood in an extremely strange shape.

At a glance, it was as if the entire land had been turned upside down.

The black gas continued to emerge. Not long after, translucent figures condensed one after another.

There were men and women, old and young.

Their bodies were covered in all kinds of wounds, and their deaths were extremely terrifying.

If a person died and turned into a strange being, they would retain their appearance before they died, which was called the death appearance.

This group of strange eyes were dull and cold. Each of them stood in front of a tree and stared at Xu Bai and the other two with cold eyes.

They did not take a single step forward, but it was as if someone had constructed an invisible wall that blocked them.

Those who die in trees are bound to trees.

“Indeed.” Xu Bai rubbed his chin and said, “It seems that this place is related to the Extreme Life Sect.”

As soon as he finished speaking, he received a response.

“Benefactor Xu, here... It’s spreading.” No Flower took a deep breath.

Xu Bai turned around and his pupils constricted.

When Xu Bai turned his head, he saw a change in the area.

The roots began to grow slowly, falling into the ground and then gradually spreading.

The speed of the spread was not fast, but every inch it spread, the monsters moved an inch in the direction of the spread.

Xu Bai looked in the direction of the spread and frowned.”

The way it spread was very strange. It didn’t spread out from the center, but directly towards the Yin Posthouse.

Xu Bai’s mind flashed, “Could it be that the ultimate goal of the Extreme Life

Sect..." Yin Posthouse?"

As soon as this thought appeared in his mind, he turned around and told Liu Xu and No Flower.

"If we let the strange envelop the Yin Posthouse, it would be even more troublesome than directly envelop the county. "Liu Xu's eyes were filled with worry."

The importance of the Yin Posthouse was self-evident. If it was engulfed by the strange, even if it was paralyzed for a moment, the losses would be immeasurable.

"This is just a promotion to a county. There are other counties with the Extreme Life Cult. "No Flower took a few steps forward and said, "Patrons, we can't wait any longer."

He wanted to settle the matter here immediately and then go to the Yin Posthouse to spread the news.

This was the only way to let the others know what the Extreme Life Cult's true purpose was.

"Don't you think it's strange?" Xu Bai suddenly said..

Chapter 88: The Three Sides Are in a Difficult Choice

Liu Xu turned her head, not understanding what was going on.

"His Majesty asked the Ninth Princess to spread the Boundless Scripture, but the Ninth Princess has already found out that it is related to the Yin Posthouse. Why do only the three of us know?" Xu Bai said slowly.

This was the thing that he couldn't figure out the most, and also the thing that he didn't understand the most.

Just now, when No Flower said that he had to inform the others as soon as possible, Xu Bai had already considered this point.

Liu Xu looked at the speed at which the roots were spreading. It was still very slow. As Xu Bai said this, she fell into deep thought.

A moment later, Liu Xu raised her head and said, "You mean..." Not only did Yang Chang lie to us, but he was also not loyal to the ninth princess!"

"If Yang Chang and his wife are not loyal to the Ninth Princess, then there is only one possibility. "No Flower turned his head and suddenly said, "Extreme Life Sect! ""

When he said this, he became even more certain of No Flower's opinion.

Xu Bai nodded." The Ninth Princess spread the Boundless Scripture because His

Majesty wanted to destroy the Extreme Life Sect. His goal was the Extreme Life

Sect. "

" The Ninth Princess received the news but did not report it. She doesn't have the guts to do so. If Yang Chang used the Green Cloud Brush to gain her trust and let us come over, the follow-up plan..."

"Lure the tiger away from the mountain!"

The three of them looked at each other when they heard this.

"No matter what, it's more important to settle this." No Flower put his palms together.

Since he was already here, he had to settle it.

If they were to return to Hui County immediately, a huge problem would arise and the Yin Posthouse would be destroyed.

“Benefactor Xu, Benefactor Liu, leave this to me. You guys go back quickly.” No Flower’s body emitted a green Buddhist light.

Now that there were three of them, it seemed like they could do it all.

“Can it be solved?” Xu Bai raised his eyebrows and said. No Flower nodded, indicating that there was no problem.

“Then let’s go to the county first.” Liu Xu said.

However, before he could finish speaking, he heard a commotion coming from the Yin Posthouse.

“Rumble...”

This sound was continuous and could be heard even from a distance.

Accompanied by the rumbling sound was a series of shouts.

They were not far away and could hear clearly.

“Something happened at the Yin Posthouse?” Liu Xu solemnly said, “Condemn

the tiger from the mountain and break the whole into pieces.””

They weren’t stupid. After Xu Bai’s initial analysis, they understood the pros and cons.

First, he lured the tiger away from the mountain. Then, something happened at the Yin Posthouse not far from the forest.

The forest needed to be dealt with, and the Yin Posthouse needed to be dealt with.

Then... What about upgrading to a county?

Every single place here was extremely important, and he couldn't give it up.

Even if they returned to Sheng County, they would lose the Yin Posthouse.

In other words, if two people went back to the county and one person took care of the forest, what would happen to the Yin Posthouse?

It was difficult to take care of three.

Xu Bai frowned." Why don't we go back to the county together? If the three of us split up, we'll have a chance.'""

This was true, splitting up was disadvantageous.

As he said this, the shouts from the Yin Posthouse gradually grew louder.

At the same time, the speed at which the roots spread increased.

The entire process was very fast, leaving no room for negotiation.

"It's too late." No Flower sighed and prepared to step forward.

He had no choice.

He couldn't just leave it be.

Liu Xu looked in the direction of the Yin Posthouse, where the battle cries were getting louder.

She couldn't just sit back and do nothing.

She would never forget her ambition to study. She studied for the peace of the world. If she was left alone, she would never be able to feel at ease for the rest of her life.

"Have you two made up your mind to leave the hardest part to me?" Xu Bai said thoughtfully.

"I'm going to Sheng County." Liu Xu thought for a moment and said.

"I can do it too." No Flower added.

The two of them didn't care which direction they went to. They could switch places with Xu Bai.

"Why are you guys so stupid?" Xu Bai even found it funny.

The two of them were stunned. They knew that Xu Bai definitely had a way, so they quickly asked.

If there was a way to get the best of both worlds, they would definitely be willing.

After all, no one wanted to separate their own strength.

"From now on, the two of you will head to the Yin Posthouse and quickly resolve the matter. Then, you will turn around and deal with this forest." Xu Bai made a hand gesture and roughly explained.

The roots were heading towards the Yin Posthouse, and the other places were not disturbed.

Liu Xu and Wu Hua could have rushed to the Yin Posthouse at full speed and quickly dealt with it.

When they dealt with the Yin Posthouse, the roots would spread. After they dealt with the Yin Posthouse, they could turn around and the roots would spread by themselves, saving them the time to run back and forth.

“But...Upgrade the county...” Liu Xu was slightly worried, “If you go alone, I’m afraid it’ll be dangerous.””

This method was very good, but it neglected the promotion of the county.

If Xu Bai went to Sheng County alone, he would have to face Yang Chang, who was at Peak Rank-7, based on their assumption.

Xu Bai was very strong, so there was no doubt about it. Liu Xu and No Flower frankly admitted it.

However, the pressure of fighting a Peak Rank-7 was obvious.

“You just need to resolve this as soon as possible. I have my own ways.” Xu Bai waved his hand and said.

“What method?” No Flower asked subconsciously.”

This was just a question that he asked out of curiosity.

Liu Xu also turned her gaze over with a puzzled expression.

How could a Rank-8 deal with Yang Chang, who was half a step into Rank-6?

This... It was a little wishful thinking.

Xu Bai turned around and looked up at the sky. He spoke slowly in an extremely lonely tone..

Chapter 89: Boundless Dao Scripture Is Perfect

“I have my own ideas.” Xu Bai said with certainty.

Liu Xu and No Flower were confused. They didn’t understand what Xu Bai meant. His words had no beginning or end, so they couldn’t understand either.

A brilliant plan? What was the plan?

“You have to come as soon as possible. If you don’t, I might be in danger.” Xu Bai didn’t say it clearly. He pointed at the forest.

When Xu Bai did this, Liu Xu and No Flower finally understood the meaning behind it.

The two of them revealed an understanding expression and did not say anything else.

They already understood.

First of all, they had to make sure that they were outside the forest of the Yin Posthouse.

Just this point alone could not be said too clearly. After all, no one could say for sure if there were enemies in the dark.

Therefore, Xu Bai spoke in a daze, and both of them understood the reason.

"I will definitely do my best to solve this problem." No Flower put his palms together, his expression very serious.

"If you really can't solve it, think of a way to hide for a while and wait for us to arrive." Liu Xu said very seriously.

Xu Bai nodded, indicating that he understood. Time was of the essence, and he didn't want to say anything more. He turned around and left.

The sky had already turned dark, and it was about to turn dark.

Xu Bai's speed was very fast. He was trying his best to get to Sheng County.

This time, he wasn't fighting a battle he wasn't confident in. On the contrary, he was very confident.

That night, Yang Chang's strength had already been fully understood.

At that time, the three of them had fought as if it was a life and death battle. Their goal was to kill Yang Chang.

It was only at the end that Yang Chang said those words to stop Xu Bai.

Yang Chang was hiding his strength?

There was no need for that.

If he still hid his strength under such circumstances, he would undoubtedly be courting death. At that time, Yang Chang was already on the verge of death. If he did not unleash his true strength, he might really capsize. However, at the last moment, he still chose to say that sentence to protect his own safety.

Was he absolutely confident?

Xu Bai didn't think so.

If the roles were reversed and Xu Bai was in that position, he could only say that if he did not hide his strength.

If he had hidden his strength, there was no need for him to only say those words at the moment of life and death.

The reason was simple. If that sentence didn't work and he couldn't stop Xu Bai's saber, wouldn't he be courting death?

Of course, this was just Xu Bai's guess, but he had to try everything. He had the confidence to try it because of the skill he had recently obtained.

Diamond Heart Demon Body, Tier 4 Skill.

This skill corresponded to the strength of a Rank-6.

Although the True Distance Force was not enough for him to use for a long time, if Yang Chang was really only at Level Seven, he could block it.

Of course, there were also unexpected situations. He would just run when the time came.

With the Four Xun Movement Technique and other abilities, he could still run.

Thinking of this, Xu Bai walked even faster.

After Xu Bai left, Wu Hua and Liu Xu did not stop either. They turned around and rushed towards the Yin Posthouse.

The Yin Posthouse was not far from the forest. When Liu Xu and No Flower arrived, they were already shocked by the scene in front of them.

Even though the two of them were used to big scenes, they could not help but feel a chill down their spines.

At this moment, the Yin Posthouse was littered with corpses. In the middle, the emaciated old Posthouse Chief was holding a pipe and panting heavily.

Perhaps it was because he was old, the hand holding the pipe was trembling slightly, indicating that he was close to the end of his life.

There was a huge wound on the old postmaster's chest, starting from his shoulder and extending all the way to his abdomen.

If not for the fact that the old postmaster was not an ordinary person, he would have died long ago.

A group of men in black surrounded the old station chief. They held all kinds of weapons in their hands, and their fiendish auras floated in the Yin station.

"If you want the token, then step over my dead body. "Although the old postmaster was heavily injured, he did not retreat.

He held the pipe tightly, and the corner of his mouth was pale. Although the wound on his chest had dried up, it began to bleed again as he said this.

The post station order was the symbol of the post station leader's identity.

Of course, that was only one of the functions. More importantly, the post station order also had the corresponding authority.

The Emperor of Great Chu had once spent a huge amount of money to make a post station order.

It was made by a blacksmith with unparalleled forging skills and using excellent materials. It could not be replicated.

The post station commander was the symbol of the post station leader's status and could do many things in the Yin post station.

"Their goal is the post station order?" No Flower frowned.

As soon as he spoke, he immediately attracted the attention of everyone present.

The black-robed man from the Extreme Life Cult turned his head and stared fiercely at Liu Xu and Wu Hua, revealing a ferocious aura.

"They really are here. Get ready!" One of the black-robed men waved his hand.

As the black-robed man waved his hand, the other black-robed men surrounded Liu Xu and No Flower.

Liu Xu took out the Green Cloud Brush. Although her voice was like a deep valley, it was filled with coldness. "No matter what, we should hurry up now." Xu Bai went to Sheng County alone to face Yang Chang. This was his trust in them.

At this moment, there weren't so many twists and turns. One word, hit.

After settling the matter here, he had to hurry and help Xu Bai. That was the most important thing.

"Attack!" No Flower naturally understood. A green Buddhist light rose from his body and he charged into the black-robed men.

Liu Xu did not lag behind. With a wave of the Green Cloud Brush, a "kill" word formed.

After the word was formed, it landed on the book in Liu Xu's left hand. A moment later, the pages of the book fluttered..

Chapter 90: Boundless Dao Scripture Is Perfect

The yellowed pages swept towards the crowd with killing intent.

The pages of the book were like cutting machines, directly crushing a dozen black-robed men.

On the other side, No Flower was wearing a green Buddhist light. His fighting style was simple, and he just charged forward.

Every collision would separate the black-robed man's flesh and bones.

Two people, two different playstyles.

They were completely opposite, but they both had miraculous effects.

The black-robed men were like paper, unable to fight back at all. They were instantly destroyed by the two of them.

Soon, everything returned to normal in the Yin Posthouse.

There was nothing but corpses all over the ground.

To solve the problem of extreme life, to solve the problem of Yin, should be worth happy about.

However, No Flower frowned.

The reason was that this group of black-robed men did not seem to be very good at fighting.

He had thought that it would be a bloody battle, but the result was one-sided.

If this was the plan of the Extreme Life Cult, it was too weak.

“It’s too simple.”

Liu Xu retracted her book and also felt that something was wrong.

All of this was too logical.

At this moment, the postmaster calmed down and prepared to go forward to thank him.

Of course, he recognized these two people.

One was an official of the Heaven Inspectorate, and the other was a scholar of the Qingyun Academy.

The two of them arrived in time and solved his big problem.

If it weren’t for them today, he would have lost his life here.

However, before he could open his mouth, something happened.

The Yin Posthouse, which was originally safe and sound, changed.

The corpse on the ground suddenly started to shake unconsciously, as if it had been electrocuted. It shook without any rhythm or frequency.

“What’s going on?” No Flower was slightly stunned.

“What else can happen? This should be the true purpose of the Extreme Life Cult. “Liu Xu took out the Green Cloud Pen again with a solemn expression.

At this moment, the corpse looked as if it had suddenly transformed.

They were also familiar with strange situations. This state was very consistent with the appearance of strangeness.

At this moment, the old postmaster also became serious. Other than being cautious, there was also a very unlucky expression.

I’m just an honest station chief here. Why do I always encounter these things?

He looked like he was about to retire soon, but at the critical moment, this good show happened.

Bad luck!

No Flower took a step forward, ready to attack and deal with these impulsive corpses in front of him.

Next, before he could make a move, something even more ridiculous happened.

Thick tree roots grew out of the soil beneath the trembling corpses and pierced straight into the corpses.

When the tree root was inserted into the corpse, the position of the tree bark began to move, and large bumps appeared one after another. It was like a blocked straw. Someone was trying hard to suck on the other end, causing the space inside to be broken.

As the tree roots continued to move, the corpse shriveled up.

The tree roots grew stronger and stronger. In an instant, they shot into the sky.

The roots that shot out continuously stirred. On the other side, the forest that was constantly spreading was already in front of them. Together with the roots, they formed a barrier that connected the sky and the earth, enveloping the entire Yin Posthouse.

“This is...What is his real purpose?” Liu Xu raised her head, her lively eyes narrowing slightly as she gripped the Green Cloud Brush even harder.

Anyone could see that they were in a desperate situation. They were surrounded by tree roots and could not get out, nor could anyone get in.

“Abandoned.” Wufa smiled bitterly and said two words.

This group of so-called men in black did not come for the post station order at all. In other words, they had been tricked into coming here. Otherwise, how could their strength be so low?

Liu Xu was a disciple of the Academy, so she was quite knowledgeable. After hearing what Wu Hua said, she connected the dots and understood the truth.

The movement of the tree roots just now was obviously absorbing the nutrients from the corpses. After absorbing the nutrients, it gradually grew stronger and formed a barrier that enveloped the Yin Posthouse.

Although these black-robed men’s strength was low, they were all ranked. Compared to ordinary people, they were many times stronger.

Absorbing so many people's nutrients, the roots grew healthily, and they were already trapped to death.

The so-called token was just to deceive these black-robed people.

If they could take down the Yin Posthouse, that would naturally be even better. If they couldn't, then they could only become nutrients for the tree roots.

No one wanted to die in vain. Only by deceiving them would the black-robed men be dead set on dying.

"I remember now...I see..." The old postmaster seemed to have thought of something and revealed an expression of realization.

"A long time ago, a man came here with a serious burn on his face. He wanted to buy and sell things here."

"What did you say?" No Flower was shocked.

A severe burn injury. Didn't that mean that their previous guess was true? It was really Yang Chang's doing.

"When I see a tree, I think of a seed. That's all I can think of. Other than that, I can't find anything else." The old postmaster revealed a helpless expression.

"We have to break out of the encirclement as soon as possible. We have to rush to Shengxian County as soon as possible to help Xu Bai." Liu Xu looked at No Flower and said word by word.

Since he was 100% sure, Yang Chang was most likely waiting for him in Sheng County.

"Perhaps...We have to deal with the current situation first." The old postmaster looked up at the sky and said in a daze.

In the sky, the black tree roots gradually retracted, and their speed was not slow. From the looks of it, they were about to drown them all.

“Attack!” No Flower shouted angrily..
