Chapter 851: The Power of the New Skill (3)

Soon, a large hole appeared in his chest, and blood splattered everywhere. He had almost lost his life.

If it weren't for the fact that Saint Realm masters had strong vitality, they would have died long ago.

This was not a backlash, but more like a punishment. They had touched someone they shouldn't have, so they were punished.

At the mention of this, the Grand Magus' face revealed an unfathomable fear.

"I can't touch his divine soul. I can only kill his physical body. The things in his divine soul are too terrifying. Even if I can only touch a trace, I can feel fear."

The Grand Magus didn't want to experience this scene a second time. It was something that even a Saint Realm master was afraid of.

"You still want to deal with him?" The barbarian leader frowned. "Don't forget that he is only a part of our plan. It is just a side part. Since it is useless now, don't try it again."

The Grand Magus nodded. "I know. I'm just venting. Now we can implement a new plan and turn that place upside down."

The leader returned to his seat and began to discuss the follow-up plan in detail with the Grand Magus.

The two of them discussed for about an hour before they gradually stopped.

The Grand Magus raised his hand and made a strange hand seal before closing his eyes.

A huge mirror suddenly appeared in the air. There was a black shadow in the mirror that was constantly shaking. As the shadow shook, a cold aura was emitted from the mirror.

Strange!

The strangeness of a Ninth Grade Saint!

Strange was tall and there was a black fog on his face. It was constantly moving, and his expression could not be seen clearly.

“You’re calling for me again. Hurry up and say it. The Human-Bizarre Market is in a mess now. The Chu Emperor is killing everywhere based on his instincts. We can only try our best to avoid him and make enough space for him.”

The Grand Warlock heard the strange words of the Saint Warrior and said, “We have followed your method and killed the barbarians with a special method. We also injected the resentment into Xu Bai’s body, but it failed.”

He repeated the entire process of the event and did not continue to speak. He waited for the saint in the mirror to speak strangely.

Everyone in the world knew that the great shaman was the weakest among the Saint ninth-grade, but he was also the most special.

He could communicate with some unknown existences and obtain a lot of information, but no one knew what he was communicating with, and no one went to the Bizarre Market to think.

Now, it seemed that the Great Sorcerer was communicating with the Bizarre Market.

Only the higher-ups of the Barbarian Race knew about this. They didn’t let anyone else know about it because they knew that if the news was leaked, they would be surrounded by the two forces.

This matter was very simple and could be analyzed very clearly.

To make a very simple analogy, if a few brothers fought with each other, but you went out to collude with outsiders, then you could only be beaten to death by your brothers.

However, they still did this in order to leave a backup plan for themselves. If the situation in the world continued to maintain, everything would be fine.

If the situation from before happened and the Barbarian Race was completely wiped out, then this would be their hope to rise again.

As for whether or not he had any moral integrity in doing so?

Sorry, they didn’t have much integrity to begin with. Otherwise, they wouldn’t have colluded with the Bizarre City and become the public enemy of the world.

"I understand." When the Saint Realm cultivator heard this, he just nodded lightly and spoke in an indifferent tone.

The leader and the Grand Magus looked at each other, asking each other to speak.

However, neither of them said anything until the leader looked at the Grand Magus threateningly. Only then did the Grand Magus bite the bullet and say something.

"Excuse me... What do you need us to do next?"

The Saint glanced at them strangely."You don't have to do anything. All you have to do is wait. When the Bizarre Market is unified and we launch a large-scale attack, you just have to coordinate from the inside and outside."

"Then..." The Grand Sorcerer hesitated."The Chu Emperor has already left the Divine Realm. Will his entry into the Bizarre Market affect him?"

The two of them were now tied to the Bizarre Market. Therefore, when they saw Emperor Chu ascend to the heavens, their hearts were still in turmoil.

They were not afraid of anything else. They were afraid that when the Chu Emperor succeeded, he would delay all the bizarre markets. At that time, the strength of the human world would develop and the bizarre markets would lose. If they lost, their outcome would not be good either.

"Yes." "But we also have a way to deal with it," the Saint Strange said straightforwardly."We just have to hide from him. At most, we'll let him kill a portion of the Strange Ones."

"Although this will disrupt our pace and rhythm, it doesn't mean that we don't have a countermeasure."

"Everything you did was what we thought before. I didn't expect it to really be used. Now, everyone is just delaying each other."

Everything he had done?

"What's the use of what we're doing?" the Grand Magus asked."

He was really curious. When they were surrounded by the Great Chu, the Saint Plane cultivator did not tell them that doing this would change the situation.

Until now, they still hadn't discovered any changes.

"You'll know when the time comes," the Saint Realm expert sneered."Now is not the time for you to know."

After saying this, he seemed to be unwilling to say anything more. He slowly disappeared from the mirror, leaving only the leader and the Great Wizard behind.

The two of them looked at each other and shook their heads in unison.

“Based on the current situation, let’s hide for now.”

Chapter 852: The Power of the New Skill (4)

“I can only hide, sigh...”

The two of them sighed and then fell silent again.

Silence filled the air.

The people in the market.

After cutting off the connection, the Saint Strange One turned around and looked at the eight Strange Ones beside him.

The nine Saints from the Bizarre City were gathered here.

It would have been impossible to gather so many Saint Realm Evils in the past, as they all belonged to different places.

But today was different.

“Has the Chu Emperor left?” The Saint asked strangely.

The other Saint Warrior nodded strangely.”” Twenty-eight Transcendents used all their strength and finally lured him away. His direction has already changed, but there are still many strange things in that place. We will suffer heavy losses.”

“That’s still better than us being killed. We can’t die. If we die, we’ll lack top-notch combat strength.”The Saint shook his head strangely, his eyes cold.

He looked around and spoke in a sinister tone.

“He wanted to slow us down, but he didn’t expect us to slow them down as well.”

“Those people in the human world don’t know how to create strangeness to the greatest extent, but we know because we are strangeness.”

“Right now, the entire Barbarian Race has almost been wiped out. Even if only half of these people turn into Evils, the world will suffer.”

“Now, let’s see who will solve it first.”

When the leader of the Barbarians and the Grand Warlock asked him questions, he did not answer. Now, he finally revealed his true purpose.

One of the Saints hesitated and said, “I’ll stick to the previous method. There’s no need to fight with Bizarre Demon City anymore. If we work together, it’ll be a form of unity.”

“After we take down the human world, we’ll settle the score between us.”

As soon as he said this, the entranced man who had spoken at the beginning suddenly disappeared and quickly appeared in front of him with killing intent in his eyes.

“When alive, humans and demons can’t fuse together. After death, they can’t either. Do you want them to lead us, or do you want us to lead them? Who would be convinced?”

When this question was asked, everyone present fell silent.

Humans and demons were natural opposites. This kind of opposition and hatred between them was formed over time and could not be dissolved at all.

In the human world, there were humans and demons.

The Bizarre Market was the Bizarre Human Market and the Bizarre Demon Market.

If not for this, they would not have had to continue fighting.

If both parties disliked each other, such a collaboration would not be reliable at all.

This was natural and uncontrollable.

Therefore, this fight had to continue.

“Now, it’s up to the strangeness to see if they can surprise us. I’m looking forward to the outbreak of strangeness in the human world. What will it look like?” The Saint Realm expert opened his arms strangely and looked like he was enjoying it.

After a long time, he retracted his arm.

“In addition, didn’t we start a war with Bizarre Demon City? We can’t be the only ones who suffer losses by luring the Chu Emperor there.”

“Good!” The strange creatures agreed.

After a while, all the Saint Realm monsters left, except for the first one.

He looked at the blood-red sky and clenched his fists.

“Emperor Chu, oh Emperor Chu, I really didn’t expect that you would actually use this move. You really are willing to sacrifice yourself, and you actually succeeded. It’s just a matter of whose tempo is faster between us.”

The sky was still blood-red.

Time gradually passed. In the blink of an eye, a month had passed.

In the past month, the barbarian fief had been developing vigorously.

All the buildings had been built, and the recruitment process had begun.

All kinds of forces moved in and the people migrated. This place gradually changed from ruins to good.

During this month, Xu Bai stayed in the palace treasury.

Other than occasionally coming out to take a few steps, he basically never appeared.

Liu Qingfeng and the female Abbey Dean were the same as him.

The three of them were all in the palace treasury. They didn’t step out of the main doors and were all reading their books.

Xu Bai didn’t know what was going on with the other two, but he had made a lot of progress in the past month.

The progress bar of the book about failing to become a saint given by King Shengyou was only a little bit away.

Looking at the progress bar in front of him, Xu Bai was a little excited, but his expression was still calm.

As time slowly passed, after half an hour, the last bit of progress bar was finally full.

Light blue smoke appeared in front of him. It was in the air and gradually gathered into words.

A moment later, new words appeared.

[You have studied the failure of becoming a Saint Warrior and learned the fusion technique x1.]

Xu Bai:

This was the first time he had seen this thing. It was not the name of the skill, but the “×1” behind the name.

As everyone knew, when this symbol appeared, it proved that there were many such things, and this was only a part of them.

“What is this thing?” Xu Bai rubbed his chin and thought to himself.

As he thought about this, the light blue smoke in front of him gave him an answer.

” Matching fusion options.”

[Match successful!]

[Fusion technique. It can forcefully classify and fuse unrelated skills.]

[Corpse Carrying Technique, Mountain Driving Technique, Dark Chariot Technique... Waiting for skills, fusing...]

The light blue smoke in front of him gathered into words that were constantly overlapping.

Xu Bai's eyes narrowed as if he had understood something.

In the past, when he obtained skills, all the skills that were related or connected would automatically fuse, but the skills that were not connected were scattered.

Chapter 853: The Power of the New Skill (5)

Previously, when he was in the Royal Treasury, he had finished all the books and created a lot of skills. These skills even had ellipses on the interface and he had to flip through the pages.

But now, the fusion technique he had obtained from his failure to become a saint could actually accommodate unrelated skills and fuse them together.

Xu Bai's heart was filled with anticipation.

Although these skills were not mental cultivation techniques and seemed to be random, he was already looking forward to it.

A moment later, the light blue smoke disappeared and finally became a new line of words.

[Fusion successful. You have obtained a new skill-Myriad Wonders.]

[Acquired classification: Mystical Techniques!]

Before his eyes, all the words disappeared and turned into information that entered Xu Bai's mind. At the same time, the latest attribute panel appeared.

” Comprehension: Maximum level.”

He had already fused all the complicated and numerous skills he had learned in the royal treasury into a myriad of strange techniques, and all of them had reached the level of a Rank-9 Transcendent.

These skills were not all at the top level of the royal treasury. In other words, there were high and low skills. After fusing them together, they actually reached such a level. This was something that Xu Bai did not expect.

All the miscellaneous skills had become one. As long as he used this one, he could turn it into any Rank-9 Transcendent at will.

Xu Bai was so excited that he couldn't control his expression anymore. He couldn't help but laugh.

This failure to enter the Saint Plane was really a good thing!

If one thought about it carefully, they would realize that it had saved them a lot of trouble!

To make a simple analogy, there were a bunch of skills there, but some were high and some were low. Some didn't even need to be used.

However, through the fusion technique that he had learned from his failure to become a saint, he could actually fuse them into one. There was no need to classify the liver anymore, which saved him a lot of time. Moreover, he could actually level up.

This meant that if there was another fusion technique, would it classify his other skills?

He still had a bunch of Transcendent Level 9 skills. If he fused them, would he be able to break through to the Transcendent Realm?

The more Xu Bai thought about it, the more excited he became.

He took out another book from his pocket. This was the experience of failing to become a saint given to him by the female Abbey Dean.

Liver!

A liver that risked its life!

This thing was amazing!

You're so unreasonable. Who cares if you're in contact with him?

Anyway, I just want to fuse you together. I don't need any scientific basis, let alone any rules. I just want to forcefully fuse you together.

"As expected of Little Gold." Xu Bai thought to himself.

Now, he saw that he had already touched the threshold of Saint Realm, and he could touch it in the shortest time possible.

"I'll finish this book first. Then, I'll go out and look for it or ask other forces to send it over. With my current status, they will definitely give it to me." Xu Bai made up his mind.

The female Abbey Dean was confused. She didn't know why Xu Bai was so happy.

Seeing that Xu Bai was reading another book, she didn't care about it anymore and continued reading her own book.

The palace treasury was quiet again. No one made a sound.

Barbarian territory.

Now that all the towns had been built, the streets were bustling with activity. The people who had migrated here lived here and did all kinds of businesses. Their lives were also flourishing.

Zhao San was very happy.

The reason was very simple. He was one of the first batch of people to migrate here. He received generous treatment here. He moved his entire family here and lived a very good life.

He found a job here. He only worked in the morning and set up a stall on the street in the afternoon. His life was getting more and more comfortable.

Today, he closed his stall very late. Thinking that his wife was going to give birth, he planned to earn more and get some nutrition for her.

When it was getting late, he tidied up his stall and walked home.

His waist bag swelled up, and he became happier.

On the way home, they had to pass by a small alley. Zhao San often walked through this alley, so he didn't feel anything different.

Under the moonlight, he was getting closer and closer to his home. At this moment, he had already walked to the middle of the alley.

Just as they were about to reach their home, something unexpected happened.

"Tick... Tick..."

The sound of dripping water came from behind him.

Chapter 854: Someone Becomes a Saint, Xu Bai Leaves Seclusion

The sound of dripping water?

Zhao San stood rooted to the ground, his entire body feeling extremely cold. He did not know why, but even his fingers had stiffened.

It was supposed to be warm in this season, but he could not feel any warmth at all.

The bone-chilling coldness seemed to come from the inside and gradually spread throughout his entire body. The sound of water dripping behind him was getting closer and closer.

Zhao San's stiff neck twisted, wanting to turn his head.

Normally, this action was very simple, but at this moment, it was extremely difficult.

He turned his head, only to his shoulders. His body followed suit, and he looked behind him slowly and dully.

Immediately after, the bone-chilling feeling became even deeper. Behind him, a figure was gradually approaching.

The sound of dripping water was coming from this figure. As he looked over, the sound became even more obvious.

As the figure got closer, Zhao San saw his true face under the hazy moonlight.

Zhao San felt his entire body trembling. His legs couldn't help but tremble. He suddenly lost all strength and fell to the ground.

"Ghost...Ghost..."

At this moment, Zhao San's face was filled with fear. He kicked his legs crazily and wanted to stand up, but he did not have the slightest strength.

The figure slowly walked over. Under the moonlight, his true appearance was revealed.

This person was dressed in the unique clothing of the Barbarian Race and had a strong barbarian style. However, his face and exposed skin were a mess of flesh and blood.

There were terrifying wounds on his body, and every wound was oozing bright red blood. The sound of dripping water just now was the sound of blood dripping on the ground.

His eyes were also covered in blood, but one could see a chill that made one's scalp go numb.

The strange walking posture was very slow. With every step, his body would sway.

However, Zhao San was unable to resist at this moment. Although he had already recovered and could even get up from the ground to escape, he was still unable to do so.

However, he could not do that at all. The bone-chilling feeling was getting worse and worse, making his limbs stiff and unable to even bend.

"Help! Help!"

The cold feeling made him unable to shout even if he called for help. He could only keep repeating it as if he was begging for mercy.

The strange speed was very slow, but every step made Zhao San's heart beat wildly. The distance between them kept closing, and the sound of blood dripping on the ground became more and more obvious.

Finally, under this extreme despair, he strangely arrived beside Zhao San. He slowly bent down and grabbed Zhao San's shoulder.

Zhao San felt a pain in his chest. He subconsciously looked down and saw a strange arm pass through his chest, holding a bloody heart. The heart was still beating, but Zhao San's consciousness was blurry.

Gradually, Zhao San lost all signs of life.

Strange released his hand and let the corpse fall from his hand. He staggered and walked towards another location...

The next day.

Heaven Inspectorate, Barbarian Tribe Branch.

This place was not like the capital, where a nine-story building was built. Although the building was very grand, it was not as exaggerated as the capital. At this time, Ying Yue was dealing with various memorials.

Some of these memorials contained detailed information about the major factions, some of them contained the arrangements made in various places in the land of Berserkers, and some of them contained important information.

There were many things that the Sky Supervisor had done, especially now that there were still some positions in the barbarian fief that were not complete, the burden on her was even heavier.

But just as Chief Master Mu had said, Shadow Moon indeed had a unique ability in this aspect. Even under such a heavy workload, she still did not lose control.

"After reading these memorials, in a few days, those vacant positions will be filled. There are still many things to do next."

Shadow Moon thought as she watched.

Time gradually passed. When she finished reading the last memorial, she stretched.

"Today's matter is almost over."

Shadow Moon stood up, planning to walk around and exercise.

However, at this moment, a figure suddenly walked in from outside the door. After entering in a hurry, he said hurriedly, "Sir, something has happened!"

Shadow Moon was stunned for a moment before returning to normal. She returned to her seat and sat down. Her tone became solemn, "What is it? Speak slowly."

From the moment she took over this position until now, no one had said anything about anything. This subordinate was very anxious just now, and it was obvious that something big had happened.

The subordinate quickly calmed down.” The yamen reported that they found a corpse. This corpse seems to have been killed by a strange creature. There is still a strange aura around it, so they reported it to the Heaven Inspectorate and asked us to deal with it.”

“What?!” Ying Yue stood up abruptly, her gaze turning grave.”Have you sent someone over?”

The subordinate nodded.” It was handled immediately. Those in charge of investigation, those in charge of examining the corpses, and those in charge of combat, form a team. These are all allocated according to your instructions.”

“The efficiency is very fast. We even killed the strange one, but this strange one is a little special.”

“They are wearing the clothes of the barbarians. It is obvious that they became strange after the barbarians died in the previous war.”

“After all, so many people have died. Even if the probability is very small, some of them will become strange.”

Barbarians?

Shadow Moon frowned and imitated Xu Bai, rubbing her fair chin with her hand.

Actually, if it was just a Strange Beast, it would be fine to deal with it. After that, he would have to do his best to appease the families of the people.

## **I Have Unparalleled Comprehension #Chapter 855: Someone Becomes a Saint, Xu Bai Leaves Seclusion (2) - Read I Have Unparalleled Comprehension Chapter 855: Someone Becomes a Saint, Xu Bai Leaves Seclusion (2)**

Chapter 855: Someone Becomes a Saint, Xu Bai Leaves Seclusion (2)

This was something that could not be helped. After all, a person could not be revived after death.

However, the most important thing was that this was the strangeness of a barbarian.

Just like what this subordinate had said, even if the probability was very small, it would still become strange. This sentence was not wrong, but this was the problem.

She had sent all the members of the Heaven Inspectorate, including the newly recruited ones, to various places in the land of the barbarians.

Moreover, they were distributed in a very strict way. It was impossible for them not to notice the strange appearance.

Even if he had killed someone in a strange way, it was impossible for him to be discovered the next day.

“Don’t you think it’s strange? Why did we only find out about it the next day after the strange appearance?”Ying Yue said.

Previously, the Heaven Inspectorate did not have enough manpower, so they did not implement that kind of garrison system. Now that they had enough manpower, Shadow Moon implemented the garrison system. Moreover, they were also equipped with very strict forces, so it was impossible for them not to notice.

“Sir, do you mean that there is a way to block our surveillance?” The subordinate pondered.”

“Yes.” Ying Yue nodded and said,” If we don’t take the initiative to search, we might not even be able to find them. From the looks of it, it’s impossible to be strange because they only have the instinct to kill. They don’t know how to hide their aura.”

“If the Strange Ones can’t do it, then there’s only one possibility. It’s someone other than the Strange Ones who helped them hide their aura.”

After Shadow Moon’s analysis, the subordinate felt a thin layer of sweat appear on his forehead.

He wasn’t stupid. From this analysis, he could feel that there was a huge net of conspiracy spreading across the entire Great Chu.

Now, the entire world was under the control of the Great Country, and the only enemy was the Barbarian Race. However, the Barbarian Race had been completely destroyed, so who would do such a thing?

It was impossible for the Great Yue State to surrender.

Since it was not the Great Yue State and the Barbarian Race had been completely destroyed, there was only one answer left, and that was the two top masters of the Barbarian Race who had escaped.

Ying Yue glanced at her subordinate and said, "From now on, every place must be strictly guarded. It can't be just this one time. I'll go to the palace."

"Yes, sir!" The subordinate agreed.

Ying Yue didn't say anything more and immediately left the door, rushing towards the palace.

This time, she advanced at full speed. The guards of the palace did not stop her and she quickly entered Chu Ling's room.

He raised his hand and knocked on the door. Chu Ling's voice came from the room.

"Enter."

Ying Yue pushed the door open and entered. After entering, she did not beat around the bush and told him what had happened.

Chu Ling was still holding a booklet regarding various expenses in her hands. After hearing Ying Yue's words, she silently put the booklet aside.

"What do you plan to do?"

Recently, Chu Ling had been exhausted as well. She had to deal with a lot of things every day. Now that such a big thing had suddenly happened, she had a headache.

"First, we'll tighten our defenses and see if we can discover the pattern of these events. With this as a clue, we'll continue to investigate." Ying Yue said.

In this aspect, the Heaven Inspectorate was a professional.

There was nothing wrong with what Shadow Moon said. At the moment, there were no clues at all.

Only when these strange things appeared a few more times could he find something useful from them.

"Then we'll do as you say." Chu Ling nodded her head, giving Shadow Moon some authority.

She had also thought about it just now. If this matter was really related to the two Saint Realm masters, their purpose was definitely not as simple as it seemed.

Ying Yue didn't leave, still standing at the same spot, seemingly in a dilemma, wanting to say something.

Seeing this, Chu Ling frowned, "Is it because of my husband?"

"Yes." "I want to see Xu Bai," Ying Yue said. "I still have to tell him about this. After all, the two Saint Realm masters of the Barbarian Race hate him the most. I'm worried that this matter might have something to do with him."

"Then you can just go and look for him." Chu Ling said.

"I'm just worried that the Ling King is thinking too much."

Chu Ling laughed and teased, "Only you know if I am thinking too much. Only you know if I am thinking too much or if you are like this."

Shadow Moon did not reply, standing in place without saying a word.

"Alright, hurry up and go." Chu Ling said.

Only then did Ying Yue turn around and leave the room.

After leaving the room, she did not stop and walked towards the palace treasury.

Not long after, she arrived at the entrance of the treasure vault. However, before she could step in, she saw a few people standing there.

No Flower, who was dressed in black and had black hair, was chatting enthusiastically with a scholar.

The two of them seemed to hit it off. He kept talking.

However, that was not the most important thing. It was the palace treasury in front of them. Other than these two, the Abbey Dean and Liu Qingfeng were also outside.

The surroundings of the palace's treasury were now covered in gold and grayish-white. No one could see or hear what was happening inside.

"What happened this time?"

Shadow Moon was puzzled, but she still walked over.

The people present were all experts, so they could naturally hear that Ying Yue had arrived. Before she could speak, the young man dressed in scholarly attire pointed to the palace's treasury.

"Xu Bai and my junior sister are discussing some secret inside."

Something secret?

Ying Yue also recognized this young man. He was Yun Zihai from Yunlai Manor.

## **I Have Unparalleled Comprehension #Chapter 856: Someone Becomes a Saint, Xu Bai Leaves Seclusion (3) - Read I Have Unparalleled Comprehension Chapter 856: Someone Becomes a Saint, Xu Bai Leaves Seclusion (3)**

Chapter 856: Someone Becomes a Saint, Xu Bai Leaves Seclusion (3)

Not long ago, he had resigned from his position as a king in the capital and came to the barbarian fiefdom, where he was appointed as the head of the civil officials.

Regarding this situation, no one said that Yun Zihai had used the back door. After all, Yun Zihai was a Transcendent expert himself. He was also a talented person who lived up to his name.

Therefore, to be able to reach this position, even those civil officials were convinced.

“About what?” “ Didn’t the Academy and Buddhism already have their locations? They should be far away from the palace. Right, you should be leaving today, right?”

Not long ago, they had already been assigned a location, which was what they needed.

Chu Ling didn’t place them in the capital city because there was no such rule. Regardless of whether it was the capital city or the land of the barbarians, only the royal family’s power was allowed to exist in the capital city.

Families could have it, but it was definitely not possible for large factions like these.

It wasn’t that he didn’t trust them, but that doing so would benefit both sides.

No Flower nodded.” Indeed, we’re leaving today. However, Almsgiver Liu has something to say to Almsgiver Xu, so we’ll leave after Almsgiver Liu is done.”

“You’re being so mysterious.” Shadow Moon muttered.

This scene gave people a feeling of concealment, but Xu Bai had blocked the surroundings, so Shadow Moon could not enter either. She could only wait.

After about an hour, the surrounding sky changed and disappeared.

Liu Xu walked out with a veil over her face, her footsteps light and brisk.

When Ying Yue saw this situation, she said suspiciously, "What are you two doing inside?"

"We just talked about some things." Joy could be seen in Liu Xu's eyes as she said, "He gave me the answer, and I also got the answer. It's that simple. Let's go, Wu Hua, it's time to go back."

Liu Xu did not explain what had happened inside clearly. She spoke in a hazy manner, and the people present could not figure it out.

Soon, Liu Xu and No Flower left.

Yun Zihai also left. According to Yun Zihai, he had originally come here to catch up with Xu Bai.

When the two of them were almost done talking, Liu Xu and the others came over, so he was chased out. With a curious and gossipy heart, he waited here. He didn't expect to wait for so long and hear nothing.

Since he didn't hear the gossip, there was no point in staying here. He might as well leave early.

Liu Qingfeng and the female Abbey Dean went to the palace's treasury again. Ying Yue went in with them.

The few of them walked along the stairs. When they reached the highest floor, they saw Xu Bai calmly drinking tea.

"What did you say? What did you two say?" Shadow Moon was still the same as before. Without a word, she came up and was ready to pull Xu Bai's hand.

Out of habit, Xu Bai stretched out his hand and held Ying Yue's head, not allowing her to take another step forward. "This is a secret that cannot be told."

Ying Yue was speechless.

The female Abbey Dean and the female Abbey Dean, who were eavesdropping, said, "..."

"Alright, let's not talk about this anymore. I know you came to look for me today." Xu Bai said, "I understand strange things. The entire capital is under my divine soul's cover. Even I didn't sense this strange thing. Someone must have cast a concealment technique."

"I'm already a ninth-grade transcendent. If I can't sense it, then the only people who gave me this strange secret technique are the two Barbarian Saints."

This morning, he had even discovered it before Shadow Moon, so he had long known what it was.

“What do you think?” Ying Yue saw that Xu Bai was talking about serious matters and did not play around, instead asking.

All the women Xu Bai knew had this characteristic. They knew the situation very well.

When it was time to play around, he would not be tactful at all, but when it came to serious matters, he knew his limits.

“How can I see?” Xu Bai’s mouth twitched.” If you can’t avoid my divine soul, then it’s fine. If you can, then it’s up to you. You have so many people under you now. Let’s do as you say.”

“That’s true.” Shadow Moon nodded, not fully understanding.

This was the truth. If he could not avoid the divine soul, Xu Bai alone could defeat countless people. After all, under the cover of his divine soul, everything was clear.

However, being able to avoid his divine soul meant that there was no other way. Xu Bai was only one person, so it was impossible for him to split himself.

“It seems that I still have to use my own method.” Shadow Moon thought to herself.

He had originally wanted to ask Xu Bai for an idea, but from the looks of it, he still had to act on his own.

In this way, the matter was almost over. It was time to go back and do his own things.

However, before Ying Yue left, she suddenly thought of something and turned her head around, her hands crossed in front of her chest.

Xu Bai was speechless.

This girl usually looked like a quiet person, but when she met him, she became crazy. Now that she suddenly did this, she was confused.

“What are you doing now?” Xu Bai was speechless.

Ying Yue lowered her head and stammered,”You said earlier that your divine soul covered the entire capital. Doesn’t that mean that if you want to peek, it’s very easy...”

Xu Bai was expressionless as he hooked his finger at Ying Yue.

When Shadow Moon saw this, she came over curiously, and then her face hurt.

Xu Bai grabbed Ying Yue's face." Even if I'm a ninth-grade Transcendent expert, the palace is so huge. When I spread out my divine soul, I could only feel the outline. Do you know that?"

Chapter 857: Someone Becomes a Saint, Xu Bai Leaves Seclusion (4)

"It's like there's a video, but it's covered with a piece of cloth."

"Unless I want to see a place. I, Xu Bai, am an upright person. Would I be bored enough to go see you?"

As he said that, Xu Bai's entire body felt uncomfortable.

He could use his soul to peep?

Who was he? Prince Xu of the Great Chu Country, the number one person among the younger generation, and now, he was invincible among Transcendents...Oh, no, he couldn't beat Eunuch Wei.

There was one thing he admitted. When he first obtained the divine soul, he was indeed very excited. He used it everywhere and saw some things that he should not have seen. However, now, he was really not that bored.

"It hurts!" "I was wrong..." Ying Yue shouted.

Xu Bai let go of his hand and said helplessly, "Hurry up and do your thing."

This girl's thinking ability was sometimes even more exaggerated than his. He had to admit that in this aspect, Shadow Moon was indeed a little invincible.

Shadow Moon mumbled, "Hmph, he definitely saw it. Now he's pretending that he didn't. Don't make a move. Goodbye!"

Seeing Xu Bai reach out his hand again, she turned around and ran away with her long legs.

Soon, the palace treasury returned to silence.

The female Abbey Dean looked at Xu Bai and continued to read the book about his failure to become a saint. She asked, "You don't plan to interfere in this matter?"

"No tube, no tube." "I've already told you the reason, so we can only leave this matter to them," Xu Bai said straightforwardly.

He was telling the truth. He really couldn't do anything about it. The reason just now was also very clear.

If he had the time, he might as well seize the progress bar and become a saint as soon as possible so that he could increase his strength.

"That's true." "Let's continue then." The female Abbey Dean nodded.

The two of them continued reading.

Beside him, Liu Qingfeng was also reading a book. He did not interrupt because he suddenly felt that his presence here was a little unnecessary.

The three of them looked at their books as usual.

At this moment, Xu Bai suddenly put down the book in his hand and came to the window of this floor. He looked in the direction of the Great Chu Imperial Palace.

Not only Xu Bai, even Liu Qingfeng and the female Abbey Dean stopped what they were doing.

In the direction of the Great Chu Imperial Palace, a ray of light shot into the sky, scattering all the clouds in the sky.

Even if they were so far away, they could still see it clearly.

"What's going on?" Xu Bai frowned.

From the palace's treasury, the pedestrians on the street were still doing their own things, proving that only people in the industry could see this pillar of light.

"Someone has become a saint. This is a sign of becoming a saint." Liu Qingfeng muttered to himself.

There was a hint of bitterness in his words.

Now, there were only three spots to become Saints. Now that one was gone, their chances of becoming Saints became smaller.

As he had been in a daze for a long time, he was only a seventh-grade Transcendent now. During this period of time, he had been recovering, but he had only recovered to an eighth-grade Transcendent.

It was originally a good opportunity, but looking at the current situation, it seemed that he would not be able to make it in time.

Xu Bai paid attention to Liu Qingfeng's expression."Who is it?"

"It should be Prime Minister Wen." "In this world, if there's anyone who has stayed the most in the ninth grade Transcendents, it's Prime Minister Wen."

"It really is him." Xu Bai thought.

In order to enter the Saint Plane, Prime Minister Wen had ignored the affairs of the court and asked for a leave of absence. Now, it seemed that he had succeeded.

"We have to hurry." "This is an opportunity for all the extraordinary experts," the female Abbey Dean said helplessly." But now, the competition has become even more intense."

"Continue." Xu Bai said.

The three of them returned to their original positions and continued reading.

Xu Bai had originally planned to break through to the Saint Realm here, but the book in his hand was much more interesting.

The next time he obtained the fusion technique, he would only be left with some Transcendental Ninth Grade skills. It was very likely that he would be able to enter the Saint Realm.

At that time, even if it was not a mental cultivation method, he would still have the power to protect himself.

However, sometimes, when one wanted to do something, one just couldn't do it.

Footsteps came from the stairs.

A man dressed like a eunuch hurried out of the stairs. When he saw Xu Bai, he ran over in a hurry.

"Greetings, Prince Xu!" The eunuch bowed.

Xu Bai put down the book in his hand and asked,"Who are you? What do you mean by coming over?"

The eunuch took out a book and respectfully presented it with both hands.””This lowly one is Eunuch Wei’s little eunuch. This time, I’m here to deliver a book to Eunuch Wei.”

“Oh?” Xu Bai was interested.

He had not seen Eunuch Wei for a long time. Ever since the funeral of the Chu Emperor, he had been staying in the barbarian fief to check the progress bar.

He didn’t expect Eunuch Wei to send a eunuch over and give him a book?

Xu Bai took the book and raised his eyebrows when he saw the golden progress bar and the cover.

Good stuff!

In addition to the golden progress bar, there was a line of small words printed on the cover.

This was another book about failing to become a saint. He didn’t know where Eunuch Wei got it from, but it was exactly what he needed.

What he needed the most now was to extract the fusion technique from his failure to become a saint.

“Eunuch Wei said that it wasn’t easy to get this thing. He sold his face to get it, so he hoped that Prince Xu would take a good look.”the eunuch explained.

Xu Bai nodded and said,”Thank Eunuch Wei for me. Also, go to the people in the palace and get a reward.”

Chapter 858: Someone Becomes a Saint, Xu Bai Leaves Seclusion (5)

It wasn’t easy for this little eunuch to run errands. Moreover, the distance between this place and the Great Chu Imperial Palace was actually quite far. Only experts like them could greatly shorten the time.

The young eunuch hurriedly thanked him and left in a hurry.

After the young eunuch left, Xu Bai felt two pairs of eyes on him. He couldn't help but feel puzzled.

"At this time, why aren't you guys reading your books? Why are you all looking at me?"

Liu Qingfeng scratched his head awkwardly. He didn't say anything and continued reading.

The female Abbey Dean looked Xu Bai up and down. She wanted to say something, but she didn't know how.

After hesitating for a long time, she decided to say it.

"Eunuch Wei did have a lover before he was injured, but he died on the battlefield. I've never heard of any children left behind."

Xu Bai was speechless.

He understood.

Eunuch Wei treated him so well that many people suspected that he was Eunuch Wei's illegitimate son.

What was even more ridiculous was that Xu Bai dared to kill the Emperor of the Great Yue State for Eunuch Wei, which caused this rumor to become more and more ridiculous.

Rumors were always biased.

"My relationship with Eunuch Wei is not what you think." Xu Bai wanted to explain, but he didn't think it was necessary.

"Oh." On the surface, the female Abbey Dean seemed to have been explained, but from the excitement on her face, she seemed to be even more gossipy.

"I realized that you no longer have that kind of temperament after you fused," Xu Bai said expressionlessly.

To be precise, before the female Abbey Dean fused, he could use an emoticon to express it.

He didn't have any worldly desires.

But now, the female Abbey Dean had become more human, which meant that she had some characteristics that a woman should have.

Which female Abbey Dean was better?

It could only be said that each had their own benefits.

“Fuse?” When the female Abbey Dean heard these two words, she seemed to have thought of something and quickly picked up the book in her hand to read.

Xu Bai remembered that when the female abbot took out the thing that invaded his soul, he seemed to shiver.

Thinking of this, Xu Bai felt a little awkward and continued to check the progress bar.

Time gradually passed. In the blink of an eye, a long time had passed.

During this period of time, it wasn’t just the barbarians’ fief that was strange.

As long as it was within the boundaries of Great Chu, many inexplicable strangeness would appear, causing one’s scalp to go numb.

These strange creatures had a special concealment technique. They caused trouble in various places and were not easy to be discovered.

Although it wasn’t a big deal and didn’t cause too many casualties, it brought a lot of trouble to the Great Chu State’s Sky Inspectorate and many experts.

Now, the situation could be controlled. However, the higher-ups of Great Chu could smell some conspiracy.

Those who were able to reach these positions were not fools. When they followed the Chu Emperor to conquer the world, they had experienced everything. Even if they were ordinary people, they had become very shrewd to be able to live until now.

They felt that these strange appearances seemed to be slowing them down.

In fact, he had succeeded.

Even the experts in this industry could not abandon the common people.

When the Great Chu State was established, the Chu Emperor had said that the people were the foundation. If they could not even protect the people, then the so-called experts would have no meaning in existing.

Therefore, everyone was trying to stop the strangeness.

There were many barbarians in the past, but now, they had become strange. Moreover, they were so scattered that they were in big trouble.

Only after the Heaven Inspectorate and the entire martial world joined forces did it stop.

However, people could not be distracted, so the pace was slowed down.

There was no way to suppress this. It was like a trap that was placed in front of them and they had to step on it.

If he didn't go, would he just let the people die?

It was impossible.

Back then, when the Chu Emperor ascended to heaven, those words were heard by everyone in the trade.

Even the Chu Emperor dared to face death, so how could they not do what they were supposed to do?

Therefore, the rhythm was really chaotic.

Great Chu was trying to think of a way to deal with this situation, but it needed time.

Director Mu, who was already the emperor, was doing his best to break through to the Saint Realm in addition to his daily affairs.

Director Mu knew very well that if the pace was slowed down, the speed at which Great Chu's overall strength rose would also slow down.

He needed to become a saint and leave a backup plan for the entire human world.

At that time, if the strength of the human world was still unable to resist, he might follow the old path of the Chu Emperor and head to the Bizarre Market alone like the Chu Emperor.

The entire world seemed to have become unpredictable.

Due to the large number of strange occurrences, the wind and clouds in various places were already surging.

Xu Bai, who was in the land of the barbarians, had also heard about it.

However, even Xu Bai couldn't do anything about this situation because there were too many strange things, and he had a method to block them.

Therefore, he went into seclusion to check the progress bar, hoping to find the opportunity to become a saint. After finding it, there might be a way.

In the palace treasury.

Looking at the progress bar in front of him, a light blue smoke appeared in front of Xu Bai's eyes.

The pale blue smoke floated high in the air. In the blink of an eye, it transformed into a line of words.

Chapter 859: Ruins Begin to Occupy

[You have studied the failure of becoming a Saint Warrior and learned the fusion technique x1.]

In front of him, light blue words appeared in the air. This was Xu Bai's third fusion technique. Not long ago, he had once again learned from his failure to become a saint and had already fused many skills.

This line of text was the last book on failing to become a saint, the one Eunuch Wei had given him.

The light blue text slowly disappeared, and then the latest text appeared.

" Matching fusion options."

[Match successful!]

[Fusion technique. It can forcefully classify and fuse unrelated skills.]

[Fusion in progress...]

After a while, the text showed that the fusion was successful.

[Fusion successful!]

The light blue smoke disappeared completely, turning into lines of information that drilled into Xu Bai's mind and disappeared.

In front of him, the latest attribute panel appeared.

[Name: Xu Bai]

[Realm: Transcendental ninth-grade unspecialized.]

[Myriad Form Heavenly Summoning Art (Transcendent Rank 9.1):[Maximum level.]

[Great Phantom Art (Transcendence Rank-9):[Maximum level.]

[Myriad Attack (Saint Level 1):[Maximum level.]

[Myriad Defense (Saint Level 1):[Maximum level.]

[Myriad Mystical Techniques (Transcendence Rank-9):[Maximum level.]

” Comprehension: Maximum level.”

That’s right, it was that simple. Without the complicated attributes of the previous skills, the interface became simple. However, this did not mean that he had become weaker. On the contrary, he had become very strong.

These two new skills were both at Saint Realm Level 1.

The Myriad Forms of Attack was made up of the Three Absolutes of Sword and Saber, Wind and Snow, and the Soul Slaughter Art. After combining the three, a casual attack now had the three coexisting. It was extremely terrifying.

The myriad defenses were formed by the Heaven and Earth Shifting, the Undying Demon Soul Buddha Body, and the two defensive powers fused together. Not only could they defend, but they could also have the effect of teleportation.

As for the others, they did not fuse because only two fusion techniques were produced.

Xu Bai originally thought that even if he combined three Transcendents of the ninth rank, he wouldn't be able to become a Saint.

If he had used a liver, it would have taken him a long time to reach the Saint Realm. But now, it seemed that this fusion was not as simple as one plus one equals two.

This kind of fusion seemed to be able to increase the overall quality of the body.

"Show!" Xu Bai was delighted.

Now, he already had two Saint Realm skills. Although they were only at the First Order Saint Realm, he was basically invincible in the Transcendent Realm.

However, he was also facing a very serious problem.

That was the problem that had happened before. His current True Core Strength was not enough.

As a ninth-grade Transcendent, it was still not enough for him to use the saint-tier skill even if he had the Kidney Harvester Technique.

"It seems that in the end, I still have to find a mental cultivation method. Unfortunately, I only have one mental cultivation method now. Even if the fusion technique appears, who can it fuse with?"

The mental cultivation method was the root, which could strengthen the body. The skill was the external, which could allow one's strength to be displayed beyond ordinary.

However, from the time he obtained the golden finger until now, all his mental cultivation techniques had been fused into one. This also meant that even if he had the fusion technique, he might not be able to successfully fuse them.

For him, this was a headache.

Was it the liver fusion technique or the liver first heart technique?

This was a choice in itself.

If it was the liver fusion technique, he would have more saint-level skills, but that was where the contradiction came in.

His True Core Strength would also become more and more insufficient until it reached the point where he could not make ends meet.

However, if he switched to the liver heart technique, he would not be able to fuse them without the fusion technique. Moreover, even if he had the fusion technique, he would not be able to fuse the heart technique.

The speed was also very slow. A dozen or so books could only be exchanged for 0.1 points, which also slowed down his efficiency and combat effectiveness.

Xu Bai rubbed his chin and thought carefully. He wanted to come up with a compromise, but after thinking for a long time, no compromise appeared.

In the end, he stopped thinking about this matter and made a decision.

He wanted them all!

As long as he had the experience of failing to become a Saint, he would first learn from it.

If he didn't have it or couldn't find it, he would focus on the liver technique and put the other skills aside.

"However, before that, I should ask Eunuch Wei." Xu Bai thought to himself.

The experience of failing to become a saint wasn't something that could be obtained easily. He had to find it.

This thing would not fall from the sky, nor would it fall into his hands for no reason.

The most important thing was that he didn't even know where he had failed to become a saint.

He had asked the female Abbey Dean and Liu Qingfeng during his recent seclusion, but both of them only gave a general direction. They said that there were some forces, but they did not know what forces they were.

Not every force would keep their experience of becoming a saint and let the world know about it. After all, this thing was a treasure. If others knew about it, it would bring danger to them.

## Comprehension Chapter 860: The High Times of the Ruins (2)

Chapter 860: The High Times of the Ruins (2)

Therefore, he needed to find the person who knew. As for who knew, Xu Bai thought that Director Mu of the Great Chu's palace should know.

After all, before he became the new emperor, he was still the head of the Heaven Inspectorate. Such a person should have information. As for what to do if he knew, he would know first.

After knowing it, he thought about the next steps.

Therefore, Xu Bai did not plan to go into seclusion. He planned to make a trip to the Imperial Palace.

"Are you leaving?" The female Abbey Dean asked.

Although Xu Bai's aura did not change after this seclusion, they had been together for so long that they felt that there was something different about Xu Bai.

She wasn't sure exactly what the difference was.

However, her subconscious told her that Xu Bai seemed to have become stronger again. Now that Xu Bai stood up, she recalled what Xu Bai had told her not long ago. He said that if he came out of seclusion, he would go to the Great Chu Imperial Palace. Now, it seemed that Xu Bai was going to leave.

Xu Bai nodded." You guys can continue reading here. You can also help Chu Ling. I'll go now. I might be back soon.""

The female abbot agreed.

Although she was only here to read for the time being, she could still help out if she encountered any trouble.

Liu Qingfeng, who was beside him, was basically selling himself to Xu Bai.

Xu Bai did not say anything else and left the palace treasury.

After he left, he first bade farewell to Chu Ling, Ye Zi, and the others, then went to chat with Yun Zihai for a while. Only then did he set off towards the Great Chu Country's Imperial Palace.

Without wasting any time or pausing, he soared into the sky and flew towards the imperial palace of the Great Chu Country at an extremely fast speed.

In the blink of an eye, Xu Bai had already turned into a stream of light and disappeared into the horizon.

Great Chu, Imperial Palace.

Xu Bai didn't even stop at the city gate. He flew past the imperial city and landed in the imperial palace like a meteor.

Some scouts from the Heaven Inspectorate, including the soldiers guarding the city, saw this scene. However, not only did they not stop them, they lowered their eyes and pretended not to see anything.

They all knew who had flown over. It was the famous Prince Xu.

Who would dare to stop Prince Xu? Wasn't that courting death?

Therefore, they pretended not to see it and continued to do their own things.

After Xu Bai landed in the Imperial Palace, he followed the path of the Imperial Palace and headed straight for the former Imperial Study of the Chu Emperor.

Along the way, he also met some guards, eunuchs, and maids. Every time he met them, they would bow to Xu Bai. Xu Bai didn't say much and strode to the imperial study.

With Director Mu's strength, even though he was now the emperor, he must have known that Xu Bai was here.

However, before Xu Bai could get close, he heard a commotion coming from inside.

The noise was very loud. Xu Bai knew who was inside. It was Eunuch Wei and Director Mu arguing.

The voice came from the room, and Xu Bai also heard the content.

"I really don't understand. Although you're also managing the affairs of the court now, most of your thoughts are spent on breaking through."

"Is it really that important?"

"Now that the entire world is filled with strange things, we still haven't thought of a way. You have to cure this country first before you care about your own affairs."

Eunuch Wei's voice was impatient and his tone was very unfriendly. He was the only one who dared to be so angry at Director Mu.

Although the two of them were comrades-in-arms and had fought together through mountains of corpses and seas of blood, their tempers did not get along with each other.

Director Mu's helpless voice came from inside.

"I don't want to do this either, but you know the current situation. I can't think of a solution in a short time, and the most important thing for me now is to become a saint."

"If there is really no way to solve it, and the progress is slowed down, I might take the original path of His Majesty."

What was the original path of the Chu Emperor?

Xu Bai knew very well that he was going to enter the Bizarre City alone.

He probably wouldn't have said this out loud, but he was probably forced by Eunuch Wei to say it.

Eunuch Wei fell silent.

Eunuch Wei sighed after the time it took for half an incense stick to burn.

"Sigh..."

This sigh was complicated.

Even Xu Bai, who was standing outside the door, knew why he sighed.

Although the two of them seemed to be at odds with each other, they were actually good brothers who had fought together. Naturally, they had established a deep relationship. At most, they would just argue a little.

Hearing that if the progress was delayed in the future, he would walk the same path as the Chu Emperor, Eunuch Wei was naturally upset.

"Come in."

After the sigh ended, Eunuch Wei's tired voice came.

Xu Bai knew that he was the one who said that. Now that they were almost done talking, it was time for him to go in.

Thinking of this, he pushed open the door and walked in. He happened to see two people in disheveled clothes, tidying up their clothes.

Xu Bai was speechless.

He thought of the two of them quarreling, but he did not expect the scene to be so explosive. They probably fought.

“Ahem.” Xu Bai pretended to cough.”

Director Mu rubbed his face.” What’s so inconvenient about that? Ever since you went to the Barbarian Race, you’ve been in seclusion. Now that you’ve suddenly come to look for us, it must be something important.””

Eunuch Wei didn’t say anything. He still hadn’t calmed down, but he looked at Xu Bai and knew that he was waiting for Xu Bai to say it.

Chapter 861: Ruins Begin to Occupy (3)

Just as Xu Bai was about to speak, he suddenly glanced at Eunuch Wei and froze on the spot.

“You...This... Become a Saint?”

That’s right. He had glanced at Eunuch Wei just now and felt that there was something wrong with Eunuch Wei’s aura.

Now that he was already a ninth-grade Transcendent, it could be said that he was extremely powerful. Therefore, he could tell the difference between Eunuch Wei and Eunuch Wei at a glance.

Eunuch Wei had become a Saint?

Xu Bai thought back to when they saw the celestial phenomenon of someone entering the Saint Plane in Great Chu not long ago. He instantly came to a conclusion.

At first, he thought it was Prime Minister Wen, Lu Sheng, but he did not expect it to be Eunuch Wei.

Wasn’t this too ridiculous?

Wasn't it said that eunuchs had almost no chance of becoming saints?

Eunuch Wei smiled." Ever since the world was unified, some things have changed, including the change in our family. I can't say why."

He didn't know why, because he didn't know the reason either.

All in all, this should be similar to a change in the rules.

The reason why eunuchs had a low chance of becoming saints was because they were incomplete.

This was limited by the rules, and the rules were very unreasonable.

But now, he had suddenly become a Saint, and it was out of nowhere. It could only be attributed to the rules.

No matter what, becoming a saint was a good thing.

Xu Bai didn't know why Eunuch Wei was telling him that he didn't know either, so he didn't bother to find out the reason. Instead, he teased,""Eunuch Wei, you told me that if someone was one step ahead and took the position of a Saint, you would help me kill him."

When the two of them were drinking, they could joke about anything, so there was nothing inappropriate about this teasing.

Eunuch Wei smiled bitterly and waved his hand.""Don't tease me. You don't know how Prime Minister Wen looked like he had eaten a fly after my breakthrough."

Of course, Xu Bai could think of that.

Prime Minister Wen had specially gone into seclusion, but he had never expected that Eunuch Wei would step into the Saint Plane before him.

Now, there were only two spots left. It was even more difficult to fight for them.

"Who is faster, Principal or Prime Minister Wen?" Xu Bai asked mysteriously."

" I don't know," Eunuch Wei said meaningfully." But these two people are putting in all their effort. After all, the gap between them is not small.""

The Academy and Prime Minister Wen were enemies.

On that day, the Academy had expelled Prime Minister Wen because they did not like his ideology. However, they had never expected that Prime Minister Wen would become the Prime Minister in the end, and his strength had improved by leaps and bounds.

Both sides disliked each other, but both sides were fair.

Prime Minister Wen had never made things difficult for the scholars of the Academy to become officials. The Academy had only criticized Prime Minister Wen a few times in the beginning and did not say anything after that.

But it was true that they did not like each other.

This time, it would depend on who became a saint first. Whoever became a saint first would be slapping the other party in the face.

"I really envy the relationship between the two of you. You can forcefully change the topic. If you want to have a deep conversation, why don't you find a place to drink?" Director Mu said speechlessly.

He knew that Xu Bai was definitely here for something, but now that the two of them were chatting, they actually started talking about Prime Minister Wen.

Good heavens.

When Prime Minister Wen heard this, his face would probably turn pale from anger.

Why don't I set up a table of wine for the two of you and a table of good dishes? The two of you can eat and chat here.

Xu Bai suddenly realized that he had strayed from the topic, so he told her the purpose of his visit.

Eunuch Wei spoke before Director Mu could say anything.

"Didn't I give you a book on how to become a saint?" Eunuch Wei frowned. "Are you almost done reading?"

Xu Bai nodded. "It should be about the same, but there's no change in his strength."

What he said was the truth. His strength had not changed much.

Eunuch Wei was now a Saint Realm master, so he could naturally see Xu Bai's strength.

But he could also see the unusual place, his vision was much higher than the female abbot.

“Your strength hasn’t changed much, but your methods should have become stronger, right? You never do things that don’t yield results.”

Eunuch Wei was one of the people who understood Xu Bai. He directly pointed out the essence.

“It can be considered a small improvement. Compared to Eunuch Wei’s current strength, it’s not worth mentioning.” Xu Bai said.

“After Eunuch Wei became a Saint, he should be invincible.”

When he was at the ninth grade Transcendent realm, Eunuch Wei was already invincible against anyone below the Saint Realm.

Now that he had reached the Saint Plane, he was probably invincible.

After all, eunuchs were not only physically disabled, but also a bug.

Eunuch Wei did not deny it and nodded.””Pretty much, but you can’t fight Chu Sheng.”

“After all, I’ve only reached the first level of Saint Realm. If I reach the ninth level, I might be able to, but it’s still too early.”

Xu Bai was speechless.

Good heavens.

He had thought that he was already very good at acting tough, but he didn’t expect Eunuch Wei to be an expert.

You’re still thinking of exchanging one for one with a saint, right?

Xu Bai placed his hand on his forehead and brought the topic back.”In short, this trip is for the saint-level experience. Do you know where I can get it?”

Eunuch Wei looked at Director Mu and said,” The book I gave you before was something I risked my face to ask for from an acquaintance. As for the rest, I really don’t know. After all, this thing is hidden like a treasure by every force.””

## Chapter 862: Ruins Begin to Appear More Often (4)

These experiences of failing to become a Saint Warrior were passed down by the ancestors of their forces. They were naturally unwilling to hand them over. After all, they had a great connection with becoming a Saint Warrior.

Even if it was just the knowledge of failing to become a saint, it was still a very important treasure since it had passed the threshold.

Director Mu pondered for a moment and took out a token from the drawer beside him. He handed it to Xu Bai and said, "You can go to the library of the ninth floor and look for it yourself. There is too much information here, and I can't remember some of it."

Xu Bai said suspiciously, "You've already reached your realm. How can you not remember anything? Don't you remember everything with just a glance? Don't lie to me again. You're trying to scheme against me."

This didn't make sense. An expert of this realm should have long had a photographic memory.

"I can't promise you anything else," Director Mu said helplessly. "But I will never go back on my promise to His Majesty. From the moment I promised His Majesty, I will not plot against him."

"The reason why I said I can't remember clearly is that the information there is updated every day. I have to deal with important matters in the court now, so I can't spare time to look at it."

Hearing this, Xu Bai understood. He put away the waist token and prepared to leave.

He was in a rush for this trip. He wanted to find the information first. If the things recorded in the information were easy to take, he would go and take them first.

If it wasn't easy to get them, then he would temporarily return to the palace's treasure vault and take care of all those books.

"Wait, the information you want is very important. It's on the ninth floor. After you get the information, you can come to my place." Director Mu said.

"I wanted to tell you about this a long time ago, but I didn't tell you since you were in seclusion."

Xu Bai agreed. Although he didn't know what it was, he still went to look at the information first.

He didn't stay any longer and left the room. Then, he walked toward Zhai Xing Lou.

The journey was smooth and they soon arrived at Zhai Xing Lou.

When the guards outside the buildings saw Xu Bai holding Director Mu's token, they did not stop him.

Following the stairs, he walked all the way up to the ninth floor. There were many rooms on this floor, and each room was marked with a specific purpose. After searching for a while, he found a place where he stored information.

When Xu Bai pushed open the door and entered, he found that it was filled with thick books. The corner of his mouth twitched slightly.

"There really are a lot."

This room was especially big and was filled with books. Although these books were categorized, just looking at them was dazzling.

"Start looking."

Xu Bai first looked around according to the categories. He didn't look at the categories that didn't belong to them. He quickly searched around and didn't find any categories that were marked as failing to become a saint.

"I almost forgot. It's impossible to label it so directly. It must have been classified into a certain category. When I left, I forgot to ask Director Mu." Xu Baiyi patted his forehead and remembered the things he had forgotten.

"Come on, one book at a time." He thought to himself.

There was no progress bar on these things. Xu Bai began to search for books one by one. Fortunately, with his current strength, his speed was not slow. The speed of reading books was shocking.

In less than the time it took for an incense stick to burn, he found the information he wanted from the books in the room.

Xu Bai flipped through the information and memorized it all before putting it back in its original place.

There weren't many records, only five factions.

Moreover, he was not familiar with these five forces, but it was not a big problem.

When he was flipping through it, he had also stored some information about these five forces in his mind.

There were a few places that were very far away. They were in remote places in Great Chu, and he did not plan to go there.

After all, he was still being targeted by the two Saint Realm Barbarians. If he was too far away, he might be ambushed.

He was very familiar with a force that was located in the land of the Barbarians and had already settled in the land.

Not only that, but there was also a person he was very familiar with in this force.

Miao Xiao.

The girl from the Miao Sect was his fan. He could try to learn from the Miao Sect about his failure to become a Saint Warrior.

He remembered that Chu Ling had arranged for the Miao Sect not to be too far away. It was not far from the capital, so he could go and take a look.

Thinking of this, Xu Bai got what he wanted. He then went down Zhai Xing Lou and walked towards the palace.

Soon, they arrived at the royal study.

At this moment, Eunuch Wei was no longer in the royal study. Director Mu was the only one marking the memorials.

When he saw Xu Bai, he put down the brush in his hand and let Xu Bai sit down. Then, he took out a letter from the drawer and handed it to Xu Bai.

"His Majesty left it for me?" Xu Bai asked."

In his understanding, since it was a letter, someone must have given it to him. Moreover, since Director Mu was so serious about it, it must have been the Chu Emperor. After all, before this, the Chu Emperor had asked the Empress to give him a letter.

"No, I gave it to him." Director Mu shook his head."

Xu Bai was speechless." Actually, we're face-to-face now. We can talk."

He understood now. Director Mu's inexplicable attributes had been activated again. He wanted to talk about being cool for no reason.

There was really no need. They were all face to face. Couldn't they just talk about it? Why did they have to prepare a letter?

Chapter 863: Chapter 233-The High Rise of the Ruins (5)

"You don't understand. This is what style is." Director Mu placed his hands behind his back and returned to his seat. He picked up the brush and thought for a moment before putting it down.

Xu Bai wanted to leave a fist mark on Director Mu's face, but after thinking about it, he felt that it was inappropriate. He could only open the letter.

He finally understood why Eunuch Wei and Director Mu did not get along. Director Mu's every word and action was really a headache.

Enduring this headache, Xu Bai read the contents of the letter and quickly forgot what had just happened. He frowned and read it carefully.

After the time it takes for half an incense stick to burn, Xu Bai put down the letter in his hand, his expression especially solemn.

"According to your letter, not only have there been many strange incidents recently, but there have also been more ruins than before?"

This was roughly what the letter meant. It said that in the past month, nearly 30 ruins had appeared in the entire Great Chu. In other words, there was an average of one every day.

Although the Great Chu Country was very large, the frequency of such a small number of people appearing was not high. However, in the past, there was not such a high frequency. Compared to the past, the frequency was much higher.

"What's going on?" Xu Bai asked.

Right now, he placed great importance on the remains. He really wanted to get to the bottom of the matter regarding the remains. After all, the Chu Emperor had previously mentioned in his letter that his identity, or to put it bluntly, some of the secrets of his golden finger, were very likely to be hidden in the remains.

If it was something else, he might not be very interested, but the matter of the cheat greatly increased his interest.

In the past, he did not have the strength and did not have the opportunity to understand. Now that he had clues, he naturally wanted to understand.

"I don't know." "It might be a good thing for us," said Director Mu."

"Not only can we obtain more resources from it, but we can also understand what happened at that time."

"The reason why I showed it to you is to let you be prepared. Since the Barbarians were beaten down, there has only been one incident with the Barbarians, but we found that it is gradually spreading."

Xu Bai put the letter back on the table and nodded, indicating that he understood.

Since he had already received the news, he didn't plan to stay any longer. He had to go back and look for his failure to become a saint.

However, since he was already here, he was naturally not in a hurry to go back. After going to Eunuch Wei's place, he drank with Eunuch Wei again before bidding farewell and leaving.

By the time he returned to the palace, it was already very late.

"I haven't been with them for so long. I'll spend the night with them tonight."

Xu Bai chuckled and rubbed his hands together before walking towards the place where Chu Ling and Ye Zi were resting...

The next day.

Xu Bai got up with the help of the two girls. Ye Zi helped Xu Bai wash up.

Chu Ling was lying in Xu Bai's embrace, gently leaning against his chest.

"Tired?" Xu Bai lowered his head and looked at Chu Ling, who still had some fatigue on her face.

Chu Ling nodded and shook her head, "There are too many things to deal with every day. Fortunately, I have Sister Ye Zi to help me. Moreover, these various institutions have been improving recently."

Xu Bai smiled and patted Chu Ling's head. "Sometimes, since you have made a decision to sit in this position, you must pay the price."

Chu Ling softly hummed in agreement and buried her head in Xu Bai's chest, not saying a word.

On the other side, Ye Zi slowly stood up."Husband, I've already washed up."

Xu Bai hummed in agreement and patted Chu Ling's back."Today, I will make a trip to the Miao Sect."

The two women didn't say anything. They didn't care what Xu Bai did because they would support him unconditionally.

Xu Bai didn't say anything more and left.

He had to hurry up. If he could successfully get the experience of failing to become a saint, he had to finish the progress bar as soon as possible.

After Xu Bai left, the two girls looked at each other and were speechless.

Between Chu Ling's brows, there was still exhaustion.

"Sister, I'll help you deal with the recent matters. You can rest assured and recuperate."Ye Zi said gently.

Chu Ling thought for a while, then raised her hand and rubbed her forehead, emitting a lazy aura."That's good. This way, I can rest for a while."

She seemed to be very tired, but because she had already been conferred the title of king, she had already become an Extraordinary expert the moment she was conferred the title of king. No matter how tired she was, she should not have been unable to recover overnight.

Moreover, as the land of the barbarians was getting better and better, her strength was also steadily improving. It was even more impossible for such a situation to happen.

When Ye Zi saw Chu Ling's current state, she said with slight worry,"Sister, why don't you tell husband about this? If husband knows, he will be very happy."

Chu Ling shook her head again," My husband has been in the treasury every day these days. He is very busy with his closed-door cultivation. If I tell my husband about this, he will be very happy. However, it will disrupt his plans."

When Ye Zi heard this, she lowered her head and looked at Chu Ling's lower abdomen."But... You can't hide this for long..."

### Chapter 864: Two Books of Saint Enlightenment (1)

As soon as she finished speaking, Ye Zi stopped talking because she really could not hide it.

Chu Ling touched her flat belly, her eyebrows as thin as willow leaves slightly furrowed, and finally sighed, "I also want to tell my husband, but as you can see, my husband is busy with all kinds of things all day long. If I tell him now, won't his plans be disrupted?"

She was pregnant not long ago.

Before, her strength hadn't reached the mortal evolution state, so she couldn't get pregnant. However, ever since she reached the mortal evolution state, she was already pregnant with Xu Bai's child.

The reason why she was so tired was because she was pregnant. For some reason, the child in her stomach would absorb the energy in her body for some reason. Fortunately, it did not absorb much.

Now that she was at the mortal evolution state, she could handle the absorption speed.

Originally, this was a joyous occasion, but Chu Ling did not plan to tell Xu Bai about it.

She remembered that Xu Bai had been in the palace's treasury all day and had only spent a little time with them. She could see that Xu Bai was very busy.

A smart woman would not bring trouble to her man. She even had good taste and knew when to say and when to do it.

Chu Ling was a smart woman. She knew that Xu Bai would be very happy if she told him about this.

However, it would also disrupt her plan. Xu Bai might even accompany her all day, which would not be good for Xu Bai.

It wasn't that she didn't like Xu Bai's company. On the contrary, she really wanted Xu Bai to accompany her all day long. However, sometimes, such things had to be done in different situations.

She had heard some trivial things in the past. Most of them were the families of some officials in the palace. When they chatted with her, they would pour out their grievances.

Whenever the wives of high-ranking officials talked about their men, they would complain that their men had no time to accompany them and were busy with all kinds of things all day.

Actually, in Chu Ling's eyes, this was purely looking for trouble.

You want your man to accompany you, but you also want your man to go out and work. Could it be that you can tear your man into pieces?

She said that men understood love and that men did not understand the so-called romance, but she still had to live.

Chu Ling understood very well, so he decided not to tell Xu Bai for the time being, or he would tell Xu Bai when Xu Bai was free.

Ye Zi's gaze could not help but look at Chu Ling's flat stomach. Her face revealed envy as she stretched out her hand to touch Chu Ling's stomach.

"I also want to give birth to a child for my husband."

Just as Eunuch Wei had said, with Xu Bai's current situation, the only one who could take care of his children was Chu Ling.

She and Xu Bai hadn't taken any precautions before, but she just couldn't get pregnant.

Therefore, Ye Zi felt slightly regretful and envious.

Chu Ling's lower abdomen was touched by Ye Zi as she slapped Ye Zi's hand away and said, "It's time to get busy. My husband is very busy every day. We can't drag him down."

Ye Zi stuck out his tongue and helped Chu Ling up.

Chu Ling's fair face revealed a helpless expression: "I'm just pregnant. There's no need to be so careful."

Ye Zi giggled, "Sister, the little guy in your arms is either rich or noble. He will be the darling of your husband in the future. You must be careful."

Chu Ling shook her head slightly and lightly patted Ye Zi's shoulder.

The two girls played as they walked away.

In the capital.

On the bustling street, Bai Bai was walking towards the Miao Sect's location. At this moment, his face was filled with excitement and excitement.

Pregnant!

Pregnant!

Pregnant!

Important things must be repeated thrice!

Who was he?

His divine soul covered the entire capital. Although he could only feel the vague outline, the voices of the two women did not escape his ears.

As long as he wanted to hear something, he could hear it clearly if he focused.

Before he left, he felt that something was wrong with Chu Ling. No matter how tired she was, a mortal evolution state would recover after a night of rest.

Although he was a little dazed from the shaking of the bed last night, he was not that tired after a night, so he specially paid attention.

It was just a subconscious thought, but he didn't expect to hear such news.

Xu Bai wanted to rush back, but he stopped when he heard the conversation between the two women.

For any man, becoming a father for the first time was a very happy thing.

Xu Bai was also happy, but he thought about it and realized that Chu Ling was right. His plan could not be messed up now.

Although it was peaceful now, his strength was already invincible in the Transcendent Realm. He even had three Saint Realm skills.

However, the peace on the surface was filled with undercurrents.

It was not just the situation in the two bizarre markets. More importantly, there was also the recent phenomenon of the frequent occurrence of ruins. It constantly told people in the industry that this world was more dangerous than they had imagined.

The sense of urgency was like waves after waves.

All in all, the pursuit of strength was endless, the stronger the better.

Xu Bai temporarily put aside his plan to go back and continued to walk towards the Miao Sect's position.

The position allocated by the Miao Cult was not in the imperial city. Instead, it was in the direction of Great Chu.

Therefore, Xu Bai could walk in this direction without worry.

After all, the further they went, the closer they were to the imperial palace of the Great Chu State. The two barbarians did not dare to come over.

His speed was very fast, and he arrived at his destination in the time it takes for half an incense stick to burn.

Chapter 865: Two Books of Saint Enlightenment (2)

Longzhou.

Currently, the Barbarian Race's fiefdom was divided into four regions like the Great Chu Country.

The Miao Sect was assigned to Longzhou.

Xu Bai descended from the sky and slowly walked into the city gate.

When the soldiers guarding the city saw Xu Bai, they were all shocked. They rubbed their eyes hard as if they were seeing things. They could not believe it.

If there were some commoners who did not know Xu Bai, then as long as they were in the industry or working in the Great Chu Country, they would have a portrait of Xu Bai in their hands and knew what Xu Bai looked like.

As for why there was a portrait of him, it was actually very simple.

Great Chu was very big, but the interactions and collisions between people could not be reduced just because the place was big.

If they ran into each other one day and didn't know what Xu Bai looked like, they would do something to offend Xu Bai. Not only would the gains not make up for the losses, but it would also bring about huge consequences.

Therefore, these were all necessary for a streamer.

Xu Bai nodded to the soldiers and raised his hand slightly to signal them not to disturb the people. Then, he walked in.

When the soldiers saw Xu Bai's action, they knew that Xu Bai did not want to cause a commotion.

Therefore, none of them said anything and pretended not to see anything.

After entering Longzhou, Xu Bai felt a little emotional.

On both sides of the streets of Longzhou, there were stalls and vendors who were trying their best to sell their wares. All kinds of buildings looked brand new.

After all, it had just been repaired, so the buildings here were much newer. In just a short period of time, they had been restored so much that they could almost be considered as new.

He couldn't help but sigh at the speed at which the construction of the new class was so fast that it was hard to imagine.

However, he only sighed for a short while. He did not stay any longer and walked in one of the directions.

After passing through one alley after another, the noise in Xu Bai's ears gradually faded away, and a slightly luxurious mansion appeared in front of him.

The mansion was very large and imposing. Just from the surface, it already showed its luxury.

Not all the people from the Miao School had come. Just like the Academy, they had also sent many geniuses of the younger generation. This was enough to show that they cared about the things here.

To any faction, the younger generation was something that every faction was grooming and nurturing. Therefore, the Miao Sect was able to send all the geniuses of the younger generation here to show that they really wanted to develop here.

At the entrance of the mansion, there were two members of the Miao Cult standing guard. They were so bored that they yawned.

Not far away, footsteps could be heard.

The Miao Temple members guarding the door heard the sound of footsteps. The two of them looked at each other and looked in the direction of the sound.

At first, they thought that someone was passing by, or someone was looking for them.

In fact, they were right.

Someone was indeed looking for them, but when they saw who it was, they were stunned on the spot and their shoulders began to tremble.

A feeling called fear grew in his heart.

The two of them could not help but take a step back. They looked at the figure that was gradually enlarging not far away and felt panic in their hearts.

In the past, they had been through many battles and would not be flustered by some things. However, in their current situation, anyone who came would have the same expression as them.

There was no other reason. The person walking in front of him was tall. Although there was no weapon hanging on his waist and his hands were behind his back, he could still give people a sense of pressure.

This kind of pressure came from his heart and he couldn't control it.

They wanted to run, but it seemed like there was no need to do so in the current situation. If this famous Prince Xu wanted to kill them, they could just blow on him. No matter how much they ran, they would not be able to escape.

At the thought of this, one of the guards stood out and cupped his hands at Xu Bai. He said respectfully, "This lowly one greets Prince Xu. May I know why Prince Xu has come here?"

Rules still had to be followed, and the procedures could not be simplified.

Xu Bai glanced at the guard and smiled. "Let me know. I'm here to look for you. There's indeed something important. I want to see the person in charge here."

"Yes, please wait a moment," The guard didn't say anything else. He cupped his hands and said this before turning around and entering the mansion.

After the time for half an incense stick to burn, the guard who entered hurriedly walked in. He opened the door and raised his hand to bow. "Please!"

Xu Bai nodded and followed behind the guard. The guard led him all the way to a very stylish room.

“Prince Xu, please wait here for a moment. Soon, the person in charge will come to look for you.” The guard said respectfully.

Xu Bai could see the sweat on the guard’s forehead. He knew where the sweat came from.

This guy seemed to be very afraid of him. If he stayed by his side for another minute, it would probably be a huge torture.

“When did I become so scary?” Xu Bai rubbed his chin and thought to himself, I remember that I’m quite an easy-going and refined person.”

On the side, the guard saw that Xu Bai did not speak. His head was lowered, but his face was covered in sweat and he kept trembling.

“Alright, you can leave first.” Xu Bai waved his hand in boredom.

The guard felt as if he had been pardoned. He quickly ran away without any hesitation, as if he was followed by a ferocious beast.

Xu Bai didn’t care about him. He sat on his seat and poured himself a cup of tea. After taking two sips, the door was pushed open.

Chapter 866: The Enlightenment of the Two Sages (3)

Then, he saw Miao Xiao, who was dressed in black, skipping in.

“Greetings, Prince Xu.” Miao Xiao hurriedly stopped and respectfully cupped his hands. However, his eyes were rolling around, revealing a crafty look.

Xu Bai looked behind Miao Xiao and realized that there was no one else behind him. He said thoughtfully, “I see. You’re in charge of things here now?”

Miao Xiao nodded his head vigorously. Seeing that there was no one around, he put on a particularly wretched look and rubbed his hands.

It was hard to imagine that although Miao Xiao wasn't a peerless beauty, she had a cute and fairy-like air about her.

And such a cute woman could actually do such a wretched action. It was simply ridiculous.

"What do you want?" Xu Bai's mouth twitched.

To be honest, he had seen this expression and this look from Ying Yue before. However, Miao Xiao was different from Ying Yue. She was not as bold as Ying Yue. After all, Xu Bai was now in a different position, so she had to restrain herself as much as possible.

But Shadow Moon was different. After seeing Xu Bai, she directly attacked him.

Miao Xiao stared at Xu Bai pitifully and mumbled, "When I came, Grandma told me to follow the rules when I see you. How can I not follow these rules?"

Xu Bai waved his hand. "You don't have to say it, but you have to act like a normal person. You know what I mean by normal."

"Alright!" Miao Xiao immediately beamed with joy. He skipped to Xu Bai's side and sat down. He placed his chin on his palm and stared at Xu Bai without blinking.

"Prince Xu, why are you here this time?"

Although she was a fanatical fan, she knew that it was time to talk about serious matters, so she did not change the topic.

Xu Bai nodded and put down the teacup in his hand. "There is indeed a serious matter. I have come here this time around to find something. The matter is like this..."

In the quiet room, he told the whole story, emphasizing that he really wanted to learn about his failure to become a saint. Of course, although it was a bit abrupt, he didn't want to beat around the bush.

If he gave it to her, then he would give it. If not, then he would see if there was any room for a deal.

Miao Xiao was slightly stunned, but he quickly recovered. "Wait for me. I'll be there soon."

After saying that, she skipped away happily.

Xu Bai was speechless.

What was going on? Why did it feel a little off?

He didn't give a straight answer whether he agreed or not.

However, Miao Xiao had asked him to wait for a while, so he did not leave for the time being. He continued to sit in his seat and wait.

After a few minutes, Miao Xiaocai walked in from outside, holding a book in his hand and handing it to Xu Bai.

"Here, this is the book you wanted."

Xu Bai was speechless.

He felt that he had a lot of question marks today, but he was indeed very puzzled.

This thing was very precious, but Miao Xiao gave it to him so simply. It was too simple.

"You're giving it to me so easily?"

He had thought that this trip would be very troublesome, and he had even prepared to make a trade. However, he had not expected that he would be so happy to give him the experience of failing to become a saint.

Moreover, this item was so important that Miao Xiao had kept it. It was obvious that Miao Xiao had brought it with him.

Miao Xiao placed his index finger on his lower lip and looked up at the ceiling."Grandma said that this thing was originally for you, but we can't give it to you on our own accord. We have to ask you to come over and ask for it before we give it to you. Moreover, we have to look very troubled before we give it to you..."

Xu Bai was speechless.

How could he not understand the meaning of this sentence? In fact, this thing was very easy to understand.

To make a simple analogy, if you wanted to give something to someone important, if you gave it directly, it would seem very unimportant.

However, if the person asked for it, and you put on a difficult expression, but still gave it to him in the end, the value of the item would increase, and the favor you gave would also increase.

From this, Xu Bai guessed that the higher-ups of the Miao Cult had long wanted to give him the item, but they had been holding onto it all this time, probably waiting for this moment.

He did not expect Miao Xiao to be so direct and even say what he had just said.

“Then it would be impolite of me to refuse.” Xu Bai said with a smile.

He put the book away. Since the other party was willing to give it to him, he didn’t mind keeping it.

The room fell silent after he put away his failed attempt to become a saint. There was a sense of awkwardness in the air.

Miao Xiao’s eyes rolled around, looking left and right as if he was thinking about something.

Xu Bai felt that he had to break the silence at this time, so he condensed his words into two words: “What’s the matter?”

Miao Xiao nodded happily when he heard Xu Bai’s words. “Yes!”

Xu Bai rubbed his forehead helplessly. “If you have something to say, you should have said so earlier. I just received a book of your experiences. If there’s anything I can help with, I won’t reject it.”

“Isn’t that just a bad idea?” “Wait for me a little longer.” Miao Xiao chuckled.

Then, without waiting for Xu Bai to speak, she ran out in a hurry. Xu Bai looked at Miao Xiao’s back and didn’t know whether to laugh or cry.

The Miao Sect was really bold to hand over the younger generation to Miao Xiao alone.

Looking at the situation, there was probably something that he had to do himself.

Chapter 867: Two Books of Saint Enlightenment (4)

However, he had only received a book on failing to become a Saint Warrior. This book was treated like a treasure by every force, so if there was really anything he needed, he would help as well. It was just a deal.

As he thought about this, he heard hurried footsteps from outside. Miao Xiao quickly walked in.

When Miao Xiao approached, Xu Bai saw that she was holding a square wooden box in her hand.

This wooden box did not look big, but it was exquisitely carved. Just from this box alone, one could tell that the things inside were definitely not simple.

Something that could be stored in such an exquisite wooden box was definitely not ordinary. Thinking so, Miao Xiao stuffed the wooden box into Xu Bai's hands.

Xu Bai gently weighed the wooden box in his hand and asked in confusion, "What is the meaning of this?"

He didn't open it but waited for Miao Xiao's reply.

Miao Xiao chuckled and scratched his head with a silly look. "Back then, we had a total of two books on how to become a saint. However, after the Gu God Sect split up, they took one with them."

"You've also experienced what happened that day. At that time, it seemed that His Majesty was furious, so he used a heavy hand and wasted a lot of manpower and resources to kill all the remaining evil spirits. This thing returned to our hands."

Xu Bai remembered.

However, he did not know what happened after that. So the Gu God Sect had already been destroyed by the Chu Emperor?

It seemed like he was going to give him the book as well.

Xu Bai looked Miao Xiao up and down and suddenly said, "At first, I thought you were a simple-minded person, but I didn't expect you to be so smart."

Miao Xiao was stunned for a moment, but he quickly returned to normal. He did not say anything, but his expression was a little stiff.

Xu Bai pointed at the wooden box and said slowly, "Your conditions are definitely not simple. If you had mentioned your conditions first, I might not have agreed. However, if you took out the item first and showed me the benefits first, it would increase the possibility of me agreeing."

At this point, Xu Bai had already understood Miao Xiao's thoughts. This little girl looked silly, but her heart was really delicate.

"Then, can you accept it?" Miao Xiao asked with anticipation."

The smile on Xu Bai's face slowly disappeared, and his tone became calm."Speak."

Miao Xiao didn't notice Xu Bai's expression and continued,"After Prince Xu becomes a Saint, can we... Make a trip to the Miao Sect?"

"Why are you going to the Miao Sect?" Xu Bai frowned.

Miao Xiao explained," Recently, our Miao Sect has encountered a huge problem. We don't know what's going on with the Golden Thread Gu, but it's constantly weakening. If this continues, it's very likely that it will really go extinct."

"We heard that Prince Xu has a powerful body recovery ability, so we want to borrow your blood to save the Golden Thread Gu after we become Saints."

Miao Xiao shut his mouth.

She finally realized that there was something wrong with Xu Bai's expression. He looked very calm.

This feeling was unfamiliar to her.

"Aren't you afraid that I won't be able to become a Saint Warrior?" Xu Bai asked calmly."

"If I can't become a saint, your plan won't work. I'll just use this book for nothing."

Miao Xiao put away his previous thoughts and shook his head."Don't be afraid. If there's really no way to become a Saint, it means that the Golden Thread Gu is destined to die."

Hearing this, Xu Bai didn't say anything else.

Since he had already said this, there was no point in continuing.

"Alright, I agree. After I become a Saint, I will go over and help you solve this problem as soon as possible."Xu Bai said.

If it was just using blood to save the Golden Thread Gu, it would be nothing.

Xu Bai used a divination technique to calculate the situation and found that it was a good thing. There shouldn't be any problems.

Miao Xiao nodded and wanted to say something.

But this time, Xu Bai didn't give him a chance to say anything. He stood up with the wooden box.

"Since we're done here, I'll leave first. The earlier I become a Saint, the earlier I can help you."

There was nothing wrong with his words. It was indeed so. The earlier he became a Saint, the earlier he could help the Miao Cult solve their problems.

Miao Xiao fell silent and nodded.

She had wanted to talk about other things, but now it seemed that Xu Bai was not in a good mood.

Xu Bai didn't say anything until he was about to leave.

"Actually, we have experienced life and death in that battle. There is no need to play such tricks."

"If it was Wu Hua and Liu Xu, they would have told me directly. I would have tried my best to help them."

"But since you're treating it as a business now, then it's a business."

After saying that, Xu Bai did not stay any longer and walked towards the palace.

Miao Xiao looked at Xu Bai's back and suddenly thought of something. His face turned pale.

She seemed to have done something wrong. She had used her little tricks in the wrong place.

Just as Xu Bai had said, if he took out the item first and then talked to Xu Bai about the deal, he would be scheming against others.

If they weren't familiar with each other, perhaps there wouldn't be any problem.

But the problem was that they were familiar with each other. When they dealt with the Gu God Sect, they almost died there.

The feeling of fighting together and experiencing life and death together was different. However, he had actually schemed against Xu Bai. No one would be happy if it were him.

Think about it, when your friend schemed against you, would you be happy?

Miao Xiao gritted his teeth and didn't chase after her.

With Xu Bai's speed, she wouldn't be able to catch up to him. She could only apologize to him the next time she went to the Miao Temple.

Thinking of this, she sighed and returned to her room.

Xu Bai did not stop along the way. He rushed back to the palace as fast as he could.

However, this time, he did not return to the royal family's treasury. Instead, he rushed towards Chu Ling and Ye Zi's resting place.

This round trip actually didn't take long. According to the current time, it should be when Chu Ling was in the study reading the memorials.

Ye Zi should also be resting there for a while.

"Pa!"

After arriving at the study room, Xu Bai pushed the door open. Under the astonished gazes of the two girls, he quickly walked to Chu Ling and carried her up.

"Let me see."

Xu Bai placed his ear close to Chu Ling's abdomen and listened carefully. Unfortunately, he didn't hear anything.

This was very normal. She had just gotten pregnant. How could there be any special movements?

Just as he was thinking about this, he suddenly felt a different life force coming from Chu Ling's lower abdomen.

"I got it!" Xu Bai was overjoyed.

Since he had made it so clear, the two girls knew that Xu Bai had understood what had happened.

“Husband, I didn’t mean to lie to you. The most important thing is...” Chu Ling said in a panic.

“There’s no need to say anything else.” “That’s a good thing. You don’t have to hide it from me in the future.” Xu Bai smiled.

Chu Ling opened her mouth but eventually nodded.

Seeing Xu Bai put his ear on her stomach, she couldn’t help but stroke Xu Bai’s hair.

Beside him, Ye Zi covered her lips and smiled lightly.

Xu Bai suddenly raised his head.” Oh, right. You said that your fatigue is due to your pregnancy. What’s going on?”

He recalled what he had heard when he left today, especially when he thought of how Chu Ling was often tired, and was slightly worried.

Chu Ling smiled and said,” It’s alright, husband. I’ve found a specialist doctor to take a look. They said that the more tired a person is during pregnancy, the stronger the fetus is.”

“I’ve reached the Extraordinary realm, but I still feel tired. This proves that the child is definitely extraordinary.”

“So it’s like this...” Xu Bai understood and rubbed his hands excitedly.”Then you should do less for now. Some things can be left to those ministers.”

Chu Ling nodded lightly, she understood.

Ye Zi walked over with light steps.”With me helping to share the burden, husband can rest assured.”

Chu Ling said,”Husband, you must not delay your matters because of my matters. If that’s the case, I will feel very guilty.”

Xu Bai shook his head and said,” It won’t be delayed. Anyway, my spirit has covered the entire capital. I can see your recent situation, so there’s no danger. Besides, there’s still Qingfeng Liu and Temple Master Jade-faced. As long as it’s not those two old barbarians, any Transcendent will die.”

Hearing Xu Bai’s certainty and serious tone, Chu Ling couldn’t help but laugh. This was the first time she had seen Xu Bai’s expression.

“Husband, you’re talking nonsense again. Even Transcendent experts want to curry favor with us, who would dare to oppose us?”

Not to mention Xu Bai’s background, with Xu Bai’s current strength, he could really beat up Transcendents.

The three of them chatted for a while more. In the end, Chu Ling chased Xu Bai out with the excuse that she didn’t want to delay him.

Xu Bai was also very helpless, but he couldn’t stay inside and not come out. Pregnant women needed to rest, so he left.

Xu Bai didn’t stop. He walked straight to the palace’s treasure vault and soon reached the highest level. He saw the female Abbey Dean and Liu Qingfeng, who were still desperately reading.

“You guys are really hardworking. I thought geniuses like you would have a lot more free time than ordinary people.”

This sentence was a joke. Xu Bai only said it in a joking tone.

The female Abbey Dean glanced at Xu Bai.”

Xu Bai was slightly stunned.” You found a way to become a saint?””

The female Abbey Dean nodded.” Recently, I’ve been using my ability to continuously simulate. I’m about to reach my limit, so I need to find a very quiet place.”

“Oh...” “Oh,” Xu Bai replied, “It’s quiet and safe here.””

The corners of the female Abbey Dean’s mouth twitched slightly. She didn’t say anything, but her expression was obvious.

“Alright, alright.” ” It doesn’t matter.” Xu Bai waved his hand.” By the way, Brother Qingfeng, how’s your progress?””

Liu Qingfeng smiled bitterly.” I’m still an eighth-grade Transcendent. I probably won’t be able to do anything. However, I’m already very lucky to be able to recover my divine soul. I won’t pursue too much.””

Xu Bai patted Liu Qingfeng’s shoulder.””Don’t worry about these things. Just take it step by step and fight steadily.”

This was just a consolation, and he could only do so.

Since he couldn't possibly take advantage of it, he decided to help Liu Qingfeng raise his strength.

After saying that, he found a spot and continued to work.

This time, he had a goal. He had to finish reading the two books on failing to become a saint before coming out of seclusion.

The golden progress bar was slowly moving forward. Xu Bai's eyes were fixed on it, and he was focused...

## **I Have Unparalleled Comprehension #Chapter 869: Large-scale Ruins, Xu Bai's Breakthrough (1) - Read I Have Unparalleled Comprehension Chapter 869: Large- scale Ruins, Xu Bai's Breakthrough (1)**

Chapter 869: Large-scale Ruins, Xu Bai's Breakthrough (1)

Time seemed to be moving forward without any hindrance. Even if there were earth-shattering changes, it could not stop the passage of time.

In the blink of an eye, nearly two months had passed.

In the past two months, all kinds of strange events had happened.

Strange things frequently appeared in various places, causing great trouble to the people.

Although the Heaven Inspectorate had changed their arrangement today and could arrive in time, there would always be situations of negligence.

Fortunately, it wasn't to the extent that the people's hearts were unstable and could barely be controlled.

"On the other hand, the frequency of ruins appearing in Great Chu is much higher than before.

For those in the industry, this was a good thing, but for the higher-ups, this kind of abnormal change often brought about the unknown.

Every place was changing, including the land of the barbarians.

During this period of time, some of the important institutions that were missing were finally successfully filled up. The current barbarian fief could also basically operate.

The one who was slightly more relaxed was Chu Ling. Now that she had unloaded a lot of heavy burdens, the complicated work was also much less, allowing her to rest a little.

In the resplendent palace, Ye Zi was helping Chu Ling sit down.

In two months, Chu Ling's stomach had already taken shape. Now that she was wearing loose clothes, it did not have much of an impact on people in the industry.

Although the fetus in her womb was constantly absorbing her power, as the barbarian fief became more and more complete, she was not far from becoming a transcendent as an emperor. She could balance the degree of absorption.

"Elder sister, I wonder how my husband is doing. I haven't seen him for two months." Ye Zi helped Chu Ling sit down and poured a cup of water for her.

In the past two months, the two of them had been working non-stop to complete the operation of the Barbarian Race's fief.

During these two months, Xu Bai had never shown his face. He had been staying in the treasury of the palace. If not for the fact that everyone in the world knew that Prince Xu had not left the barbarian fief, they would have thought that he was no longer here.

"I think it's something important. As long as husband doesn't call us, we won't disturb him." Chu Ling rubbed her belly and smiled.

A pregnant woman's temper would become worse, but a pregnant woman would also emit a motherly glow. The current Chu Ling was just like that.

The two of them hadn't seen Xu Bai for more than two months. To be honest, they both wanted to see him, but they restrained themselves.

They thought that sensible women always knew when to leave a man alone, especially when a man was doing business. It was stupid to disturb him too much.

"That's true." Ye Zi nodded lightly.

Even if she wanted to see Xu Bai again, she shouldn't disturb him at this time.

Ye Zi looked at Chu Ling's bulging belly and couldn't help but touch it.

When the two girls were together, they had a good relationship in private. Moreover, when there were no outsiders, they were very open.

Chu Ling was already used to such actions and did not stop him.

At this moment, there was a knock on the door.

At the same time, a crisp sound was heard.

“Your Highness, Qingxue has something to report.”

“Enter.” Chu Ling hurriedly swatted Ye Zi’s hand away and resumed that graceful and elegant appearance.

Ye Zi stuck out her tongue and sat quietly at the side.

The door was pushed open. Qing Xue, who was dressed in green, held a memorial in her hand and hurriedly walked in.

As the saying goes, once a person attains the Tao, chickens and dogs will ascend to heaven.

Because of Xu Bai, Chu Ling sat on the throne of the Barbarian Race’s fief and became the current owner of the land.

And because of Chu Ling, Qing Xue was also the most popular person in the land of the barbarians.

Whenever there was an internal matter that needed to be reported, Qing Xue would pass it on to him.

“Your Highness, two hundred miles north of the capital, we found signs that the ruins are about to open.” Qing Xue passed the memorial in her hands to Chu Ling and added a sentence at the end.

“It’s very big.”

The size of any relic could be seen before it opened. Qing Xue’s expression was very solemn. From this, it could be seen that the relic this time was not ordinary.

Chu Ling did not say anything. She stretched out her fair hand and took the booklet. After she flipped it open, her slender eyebrows furrowed tightly.

She slowly finished reading the memorial with an equally solemn expression.

After she finished reading it, she put away the memorial solemnly. She seemed to be thinking about something and did not say anything.

Beside him, Ye Zi took the booklet and flipped through it as well.

His already big eyes widened even more when he saw the memorial.

According to the report, the ruin that appeared this time was an extremely large ruin.

This meant that there would be plenty of resources inside, but at the same time, there would be plenty of hidden dangers.

The relic was like this. It seemed unreasonable, but it was actually very fair and just. There would not be any tilting.

If he wanted good things, excellent resources, and greater benefits, he would go to the ruins.

However, at the same time, they would also face endless danger and unimaginable terror.

The ruins written on it were huge, but that was not the main point. The main point was that this was the land of the barbarians.

Ever since he took over, this was the second time a relic incident had happened.

There was a long gap between the two, but since it had already happened, it meant that this was not a simple beginning.

## **I Have Unparalleled Comprehension #Chapter 870: Large-scale Ruins, Xu Bai's Breakthrough (2) - Read I Have Unparalleled Comprehension Chapter 870: Large- scale Ruins, Xu Bai's Breakthrough (2)**

Chapter 870: Large-scale Ruins, Xu Bai's Breakthrough (2)

Sitting in their positions, they were very clear about the major events that were happening now, especially the frequent appearance of the ruins.

Did this mean that the barbarians' fief had already begun?

After the start, there would be more and more ruins appearing at an increasing frequency?

Ye Zi felt that her guess was very reasonable and it was in line with the current trend of the world.

"Got it. Qingxue, go to the palace treasury and find my husband. Show him this memorial." Chu Ling handed the memorial back.

They didn't want to disturb Xu Bai, but their husband had already warned them about this matter a long time ago.

If something related to abandonment appeared, she must inform him immediately. That was why Chu Ling had asked Qing Xue to make a trip over.

“Yes.” Qing Xue took the memorial and bowed slightly before leaving without saying a word.

After Qing Xue left, Chu Ling’s face revealed a trace of worry.

Now that she had completely run the barbarian fief, she could not afford to cause any more trouble.

He only wanted to take care of his pregnancy after he was done with the daily government affairs. He didn’t want to do anything else.

“Sister, don’t worry. Don’t forget who my husband is. In this fief, with my husband guarding it, unless those Saint Realm masters come, they won’t be able to withstand a single blow.” Ye Zi comforted softly,

Chu Ling nodded and replied.

Although he had agreed, the worry between his brows still existed.

Qing Xue held the memorial and walked in the spacious and clean palace.

At this moment, her hands were clenched very tightly. She was not as relaxed and indifferent as she was when she faced Chu Ling previously. She appeared very nervous.

The memorial was crumpled in her hand.

“Calm down, calm down.” Qing Xue took a few deep breaths and patted her chest. After she calmed down, she rushed to the palace treasury.

The palace treasury.

At this moment, in the majestic capital, Xu Bai was sitting on a chair in the royal treasury. He was reading the book that he had failed to become a saint. His eyes were glued to the progress bar.

Now, the progress bar was only a little bit away from completion.

Only Liu Qingfeng was left beside him. As for the female Abbey Dean, she had left the palace’s treasury not long ago.

In the quiet room, although Liu Qingfeng felt that he had no hope of becoming a saint, he was still staring at the book in his hand.

No matter how slim the hope was, he had to try. If he didn't even dare to try, then his state of mind would have a huge problem. With his current strength, he couldn't tolerate this.

Thinking of this, Liu Qingfeng subconsciously looked at Xu Bai and sighed. "In such a short period of time, he was able to easily reach the peak of the extraordinary state. Even in my era, he was probably a beloved child of the world."

There were times when people would compare with each other. This saying was true. However, Liu Qingfeng had lived for so long. Although he was crazy most of the time, he would not be jealous.

At most, he was envious, so envious that he was a little jealous.

Xu Bai felt Liu Qingfeng's envious gaze and knew why he was looking at him.

However, he could not divert his attention to talk to Liu Liuqing because he was focused on the book. At this moment, the golden progress bar had reached perfection.

The light blue words floated in the air. In the blink of an eye, they formed an order that Xu Bai could understand and appeared before his eyes.

[You have failed to study the Saint's Loot, you have comprehended fusion x1]

Soon, the light blue text disappeared. However, after it disappeared, it didn't enter Xu Bai's mind. Instead, it turned into another line of information.

" Matching fusion options."

[Match successful!]

[Fusion technique. It can forcefully classify and fuse unrelated skills.]

[Fusion in progress...]

After a while, new words appeared again.

[Fusion successful!]

As the fusion technique disappeared, the light blue text finally turned into information and entered Xu Bai's mind.

Xu Bai closed his eyes and sensed carefully. Only after he had absorbed the information in his mind did he open his eyes.

In front of him, the light blue words were gone. In their place were brand new attributes.

[Name: Xu Bai]

[Realm: Transcendental ninth-grade unspecialized.]

[Myriad Form Heavenly Summoning Art (Transcendent Rank 9.1):[Maximum level.]

[Great Phantom Art (Transcendence Rank-9):[Maximum level.]

[Myriad Attack (Saint Level 1):[Maximum level.]

[Myriad Defense (Saint Level 1):[Maximum level.]

[All kinds of spells (Saint Level 3):[Maximum level.]

[All kinds of support (Saint Level 1):[Maximum level.]

[Myriad Mystical Techniques (Transcendence Rank-9):[Maximum level.]

” Comprehension: Maximum level.”

This time, he had finished reading the two books on the experience of entering the divine realm, and both of them had come from Miao Xiao.

All kinds of miscellaneous techniques were formed through the combination of the Ten Thousand Poison Guide, the True Understanding of Mechanical Puppets, the Water Method, the Feng Shui Arithmetic, the Invisible Spell, the Mountain Sea Inviting Divine Technique, and the Corpse Controlling Technique. It had even reached the third level of the Saint Realm.

## **I Have Unparalleled Comprehension #Chapter 871: Large-scale Ruins, Xu Bai’s Breakthrough (3) - Read I Have Unparalleled Comprehension Chapter 871: Large- scale Ruins, Xu Bai’s Breakthrough (3)**

Chapter 871: Large-scale Ruins, Xu Bai’s Breakthrough (3)

To be honest, it was indeed very strong, but this skill was not meant for combat. It was more like a combination of many things.

However, to be able to reach this level was considered to have reached the peak in various fields.

The other one made Xu Bai happy.

It was a combination of the two skills, the Kidney Returning Technique and the Yin-Yang Coexistence. It had reached the first level of the Saint Realm.

When the two were separated, they had different characteristics. First, the kidney recovery technique was equivalent to storage.

The co-existence of Yin and Yang could increase one's combat strength.

Now, after the two fused, he had reached the first level of the Saint Realm. Putting everything else aside, both of them had reached this level.

First of all, this skill had the original storage function, but it could store the True Core Strength of a Saint Level One.

Of course, this amount was not just the amount.

"I feel like I can fight a First Level Saint with my True Core Strength."

The description of the skill was what it was used for. It was just so unreasonable.

To be able to store a Level 1 Saint Realm True Core Strength meant that he had the combat power of a Level 1 Saint Realm expert even though he hadn't reached that level.

The more Xu Bai thought about it, the more he couldn't help but laugh.

This was equivalent to getting a saint-advancement experience card, and it was a 24-hour saint-advancement experience card.

It was comfortable!

More importantly, the various auxiliary effects were not as simple as increasing True Core Strength. There was another more important effect, which was the increase in combat strength with the co-existence of Yin and Yang.

"This feels good!" Xu Bai thought to himself.

The harvest this time was an extremely important harvest for him.

However, there was also something that made him dissatisfied. His strength was still that of a ninth-grade Transcendent.

The mental cultivation method did not fuse at all. This indirectly confirmed his previous guess.

His liver progress bar would automatically fuse with the heart technique if he used the liver heart technique, so he could not find a place to use the fusion technique.

“So this thing really can’t be taken shortcuts and can only be used crazily?” Xu Bai could not help but feel a headache coming on.

Especially when he thought about how he could only increase the progress of that book by 0.1 after working on more than a dozen Level Nine Transcendents, he became more and more speechless.

Other than the movement technique of the Phantom Great Art and the mental cultivation technique that came with it, the rest had become skills that started with “Ten Thousand Styles”.

There were two situations now. The first was that he had to use other skills. The skills he obtained would not be fused. Instead, he had to use the Fusion Technique to fuse them into the skills that started with “All Things”.

This was the best situation. This way, the progress would not be delayed.

There was also a second situation. In the future, when the other skills were obtained, he would immediately integrate them. However, at this speed, integrating more than ten books would probably not increase much.

” I hope it’s the first situation.” Xu Bai thought to himself.

If it was the second case, he really didn’t know if this fusion technique was a loss or a profit. As for which case it was, he could only try it out in the future.

Also, should he focus on more skills in the future and find the experience of failing to become a saint? That way, he could fuse more books and their grades would be higher.

Of course, this was all in the future. There were more important things to do now.

Xu Bai looked at the corner of the stairs where a woman in green was slowly walking over.

Qing Xue walked over leisurely and handed over the memorial in her hand. She said softly, “His Highness gave it to me. It’s about the ruins.”

Xu Bai took it without even looking at it.

He had long since understood that because of Chu Ling’s pregnancy, a portion of his divine soul was focused on taking care of Chu Ling. Thus, he already understood these things.

"I know. I'll go in and take a look at the ruins this time." Xu Bai said.

"Aren't you in seclusion?" Qing Xue was slightly surprised.

No one had seen Xu Bai in the past two months, so Qing Xue was very surprised to hear that Xu Bai was going to come out of seclusion today.

"It's been more than two months. It's been a long time. It's time to go out and exercise." Xu Bai said with a smile.

He hadn't forgotten about the relic, and the thing inside the relic was very important.

In fact, he could continue to work hard because the barbarians had quite a lot of cultivation techniques, but he did not want to continue now.

The reason was very simple. If it was a small ruin, it might not arouse his interest, but this time, the ruin was very big. He might be able to find some clues.

Moreover, he could also find the progress bar in the ruins. He would definitely not let go of this two-pronged opportunity.

Qing Xue bit her rosy lower lip.

"Let's go together." Xu Bai stood up.

Qing Xue nodded and did not say anything else.

The two of them left the palace treasury together.

The place instantly became much quieter, leaving Liu Qingfeng alone.

Liu Qingfeng looked left and right, then lowered his head and looked at the book in his hand. He felt like he was a lonely widow.

It was not far from the palace's treasury to the bedroom. If one did not walk slowly, they would arrive very quickly.

However, Xu Bai and Qing Xue slowed down. Neither of them spoke and fell into a strange silence.

After walking for nearly half the distance, Qing Xue finally could not hold it in anymore. She quickened her pace and stopped in front of Xu Bai.

Xu Bai also stopped and looked at Qing Xue in confusion.

Qing Xue gritted her teeth and mustered up her courage. "His Highness told you before that I'm a maidservant for the dowry. You..."

Chapter 872: Large-scale Ruins, Xu Bai's Breakthrough (4)

He did not finish his sentence, and he seemed to be hesitant. He wanted to say it, but it was not easy to say it.

Even if Xu Bai was a fool, he could still hear the content. He smiled and shook his head. "I can't give you an answer now. After everything has settled down, I'll give you the answer you deserve."

Qing Xue and the others raised their heads, their eyes shining. "Good or bad?"

"Probably." "Are you sure you want to do this?" Xu Bai asked.

"I'm sure." Qing Xue nodded vigorously, indicating that she was very sure.

Xu Fan sized up the woman in green and finally sighed.

"Let's go. You'll get the answer you want, but you need to settle everything down."

Qing Xue looked straight at Xu Bai and still did not move. "Just like the answer you gave Liu Xu?"

"How did you know..." Xu Bai said a few words and then shut his mouth.

The corner of Qing Xue's mouth curled up slightly. "I know a lot of things. Alright, let's not talk about this anymore. Let's go quickly. I think His Highness is waiting anxiously."

At this moment, Qing Xue did not stay any longer. She walked in front of Xu Bai, leading the way. Her footsteps became even lighter.

Xu Bai shook his head with a bitter smile and followed behind.

Not long after, the two of them arrived at the bedchamber. Qing Xue did not go in, but opened the door to let Xu Bai in.

After Xu Bai entered, Qing Xue left.

Walking into the room, Xu Bai looked at Chu Ling whose belly was slightly bulging and couldn't help but rub his hands.

"Come, let your husband listen."

As he spoke, Xu Bai walked to Chu Ling's side and placed his ear on her abdomen.

Feeling the signs of life inside, Xu Bai smiled happily.

Chu Ling gently stroked Xu Bai's head, her face filled with enjoyment.

"Husband, sister is pregnant. Are you only concerned about sister?" Ye Zi pretended to be jealous.

Xu Bai stood up with a smile. "Didn't we always share the rain and dew at night? How could we be biased?"

When Ye Zi heard Xu Bai's teasing, her face turned slightly red and she turned away.

Xu Bai didn't continue teasing him. He said seriously, "I want to go in and take a look at the ruins this time. If there's any problem when I'm not around and you can't handle it, you can tell Liu Qingfeng and let him handle it."

Entering the ruins took time, and a large ruin would take a lot of time.

They would only come out after the time of the ruins 'existence was over. Otherwise, they would stay inside forever.

Therefore, Xu Bai had made some arrangements for the affairs of the outside world. Currently, among the Transcendent experts that could be mobilized, Liu Qingfeng was considered to be the top. Other forces could also mobilize them, but they were not as direct as Liu Qingfeng. After all, Liu Qingfeng had already sold himself to Xu Bai.

When Chu Ling heard this, she said with slight worry, "Husband, the ruins are very dangerous. You must be careful."

She didn't stop him, nor did she say that she wouldn't go.

They had known each other for a long time, and they were familiar with Xu Bai's personality. If Xu Bai made a decision, it would be impossible to change his mind.

Xu Bai patted Chu Ling's head. "Don't worry. I'm now a Transcendent Ninth Grade expert. There are very few people who can be my opponent."

These words sounded a little pretentious, but they were very practical.

No one could refute Xu Bai's words, because no one could withstand a single slash from Xu Bai except for the Saint Realm experts.

After that, Xu Bai discussed with Chu Ling and the others about the follow-up matters. After knowing that the ruins would open tomorrow, he decided to go there tomorrow.

But tonight, he would not return to the palace treasury.

It's boring there. It's not as fun as here.

The quality of the bed in the bedchamber was very good. It did not even make a sound when it shook.

This shake lasted for the entire night.

The next day.

Xu Bai got up early. With the help of the two girls, he got dressed and washed up before heading straight to the huge ruins.

The two women did not follow. They still had to deal with the matters in the court, but it did not mean that they were relaxed about the ruins.

There were already people from the Heaven Inspectorate and the army guarding it.

The ruins were open to the outside world, but order had to be maintained, so there could not be no one there.

The location of the ruins was located in the middle of the Great Chu Country and the Barbarian Race's fief. It was in the wilderness. When Xu Bai arrived and saw the sea of people, he felt uneasy.

Although he knew that a large ruin was very attractive, he didn't expect so many people to surround it. If it weren't for the soldiers guarding the edge, there might really be trouble.

"Greetings, Prince Xu!" In the dark, a person dressed in ordinary clothes came over and bowed.

Although he was dressed in ordinary clothes, there was a tag hanging from his waist. Xu Bai could tell at a glance that he was from the Heaven Inspectorate.

"Where's Shadow Moon?" Xu Bai frowned.

“Lord Mu has already sent people over, but she is still investigating the strange matter, so she can’t split herself up. However, there are many people transferred over, so there won’t be any problems.”the man explained.

Lord Mu was referring to Mu Yingyue.

Xu Bai nodded, indicating that he understood.

The current Xu Bai had long been known by everyone. Unless he changed his body size, would he be discovered as long as he came?

Therefore, at this moment, many people had already noticed Xu Bai and looked over. Xu Bai’s hearing was very good, so he could hear their conversation.

“It’s Prince Xu. I didn’t expect this ruin to alarm Prince Xu. We actually saw Prince Xu!”

Chapter 873: Large-scale Ruins, Xu Bai’s Breakthrough (5)

This was the sound of excitement. Xu Bai guessed that it was similar to those fanatical fans.

“No, no...The Bloody Butcher Blade Guest had come personally, so he probably wanted to plunder a lot of them. There was nothing left!”

It was a voice who admitted that he was unlucky. It was as if everything inside belonged to Xu Bai.

“Hehe, I’m also a Transcendent. Although I’m only a third-grade, I’ve long wanted to meet Prince Xu. This time, let’s see if I can find as many as Prince Xu.”

Transcendents?

The road is narrow, little brother.

Xu Bai filtered out some information and tried to spread his soul. Soon, he sensed a few people who were different from the others. These people were all in the extraordinary realm.

“I didn’t expect it to attract so many people. Even Transcendents have been attracted. It seems that everyone wants to fight for the resources inside.”

Unfortunately, there was no one from the Academy or the Buddhist Sect, let alone Liu Xu and Wu Hua.

Actually, thinking about it carefully, it was right for them to come.

The Academy was a powerful force, and it did not lack such resources. Moreover, those scholars were more interested in studying as officials.

As for the Buddhist Sect, they were all learning the new Buddhist Dharma that Wu Hua had taught them. How could they have the mood to care about this?

Therefore, Xu Bai was not surprised that these two forces did not come.

The noise became louder and louder, and it was all caused by Xu Bai’s arrival. Xu Bai frowned even more.

He knew that if he didn’t speak now, the situation might get out of control.

Thinking of this, Xu Bai could only speak slowly.

“Everyone.”

After saying two words, everyone present stopped and the scene fell into a strange silence.

Xu Bai could feel everyone’s gaze on him. He smiled and said, “Don’t panic because of this king’s arrival. After entering, find your own opportunities and don’t give this king any trouble.”

The meaning of this sentence was to let them eat a peace of mind pill and not be too surprised. It also gave them a warning.

If it was a nobody who gave a warning here, it would probably cause public anger, but it was Xu Bai who spoke.

This was the case most of the time.

To make a very simple analogy, among ordinary people, if an extremely ordinary person spoke, not many people would pay attention to him. However, if a powerful person spoke, he would be sought after by everyone.

Now, Xu Bai was like this.

No one dared to object, and Xu Bai ignored them. He looked past the crowd and into the sky.

There was a huge area there that was constantly distorting.

This scene was very similar to the first time he entered the ruins.

Xu Bai rubbed his chin and asked the member of the Heaven Inspectorate beside him, "How much longer?"

The member shook his head. "I can only make a rough guess. Anyway, we should be able to enter today. His Highness might need to wait a little longer."

Xu Bai hummed in acknowledgment and did not say anything else.

As a member, he knew that if Xu Bai didn't want to talk, he would only annoy others if he stayed here. Therefore, he bid farewell and left.

Xu Bai lifted his feet and walked forward. Wherever he walked, the Jianghu people all made way for him.

He arrived at the front without any obstruction.

With so many people staring at him, he felt especially relaxed. He randomly found a spot and waited patiently.

However, these Jianghu people felt as if there was a knife on their back, and it was not very natural.

In this strange atmosphere, time continued to pass. In the blink of an eye, night came.

The distorted space in the air suddenly became even more distorted, like a snake that was constantly crawling and wagging its tail.

"It's coming!"

A Jianghu person could not help but shout.

Xu Bai was naturally attracted by this scene. He looked up at the sky and narrowed his eyes slightly.

The distorted space continued to expand. Soon, a huge black hole appeared. This was the entrance to the ruins.

Logically speaking, after he appeared, everyone present would definitely rush in. However, no one dared to go in first. They all looked at Xu Bai.

Everyone knew very well that Xu Bai would definitely enter. No matter how big the relic was, there was a limit to the number of people. If they really fought to enter, but Xu Bai didn't enter in the end, then they could forget about making a living.

After all, there were rumors in the martial world that the Bloody Slaughterer Swordsman was very vengeful.

Xu Bai knew what these people were thinking. Without hesitation, he flew into the black hole.

Since he had already decided, he didn't say anything.

Soon, his figure disappeared.

When the Jianghu people saw this scene, they all heaved a sigh of relief. Then, they entered in an orderly manner and took turns to enter until the upper limit was reached and the big hole in the ruins disappeared.

..

Xu Bai felt like his vision was blurred. Soon, he found himself in an unfamiliar place.

Now, he was standing on a vast grassland. The grass on the ground was withered yellow and looked lifeless.

Because of the vastness of the grassland, the sky seemed even wider from his angle.

Most importantly, there was no one here!

Logically speaking, if everyone entered together, there was a high probability that they would appear in the same place.

However, Xu Bai had waited for so long, but there was no one.

The surroundings were empty.

Except...Corpses.

Chapter 874: Encountering Another High Pass (1)

The grassland was empty, and the sky was gloomy. Under the black sky, silver moonlight shone down from the clouds, covering the entire grassland with a layer of silver gauze.

However, this layer of silver gauze covered the ground with corpses.

It spread from the distant edge and kept shrinking inwards. Corpses circled one after another, layer after layer. Wherever one could see, the grassland was covered.

Many, especially many

From Xu Bai's perspective, there were only a few places where he could settle down. It was as if he had experienced a terrifying battle.

Each corpse was covered in terrifying wounds.

The blood on their bodies had already dried up, soaking the withered and yellow weeds. Some of the withered and yellow weeds had already been dyed red.

Xu Bai frowned and looked around.

Such a situation was unheard of.

They had brought him here at the beginning of the game, and there was not even a single person. There were only corpses. What secret was there?

In his opinion, there must be a secret. The entire ruin was a big secret, but there were no clues now.

Xu Bai raised his hand and pinched carefully.

He had fused all kinds of techniques into a Saint Level One, yet he was unable to predict good or bad luck, let alone find any clues.

This situation made Xu Baimei's heart beat wildly. He felt that this trip would be dangerous.

Even he couldn't predict the good or bad luck of this place. He couldn't even predict it with a Third Level Saint Warrior. This ruin was not simple.

"With this kind of opening, let's just go straight to one place."

Xu Bai first used his divine sense to spread out to find out the situation around him. After finding no useful clues, he decided to find a direction to hurry along.

There were only corpses here. Wait!

Xu Bai had just taken a step forward and was about to leave when he retracted his foot. His gaze lingered on the corpses in his sight, and soon, the corners of his mouth curled up slightly.

“How long has it been since I last searched a corpse?”

In the past, after he fought and killed people, he would carefully explore to see if there was a progress bar.

Later on, when he became stronger and stronger, no one fought him anymore. In the end, there was no looting.

Now that this was a relic, it was a reappearance of the era of resource depletion. If these corpses were all people in the industry, could they find some secret manuals?

“There are so many corpses. It’s too slow to search through them one by one. Oh right, I still have this skill...”

The True Core Strength in Xu Bai’s body twisted. Then, he made a hand seal. At the same time, a portion of his True Core Strength was consumed.

The Corpse Controlling Technique was obtained from the corpse collector in the previous ruins, and it had already been integrated into all kinds of miscellaneous techniques.

Since there were corpses everywhere, it was naturally easy to control them.

Soon, a terrifying scene appeared on this vast grassland.

Every corpse crawled up from the ground. Although there was no sign of life, and there were terrifying wounds and blood on their bodies, they had indeed used a different method to come back to life.

If the corpse collector saw Xu Bai using this method to simplify his method of searching the corpse, he would probably be so angry that he would run out of the coffin.

“Then...Let’s begin.” Xu Bai snapped his fingers and waited calmly.

Under the moonlight, these corpses began to search themselves. As long as there was something useful, they would find it.

Unfortunately, Xu Bai didn’t see anything related to the progress bar, and this scene made him feel that something was wrong.

These people had died here and there were wounds all over their bodies. It was obvious that they had fought for a while.

Xu Bai made a hypothesis. If these people were fighting for something, or if there was some benefit that made them kill each other.

If that was the case, the people in the industry would definitely leave something behind.

After all, a dead person couldn't take things away by themselves.

But now, there was nothing useful, let alone a progress bar.

There was only one answer.

Some people left alive and even took away the things here, including the secret manuals that could produce progress bars.

However, there was another problem. There were many corpses here, and it was impossible for one person to take them away. Therefore, there were many people who proved that they were still alive.

"I didn't find any traces of movement, not even any footprints. From the looks of it, it should have been through flight, then... Those who left were at least at the mortal evolution state."

According to the scan of his soul at the scene, he did not find any clues. Xu Bai had another guess.

In such a messy place, it was as difficult as ascending to the heavens to clean up all traces. Thus, the only way to leave was to fly away without leaving any traces.

"But the key is, which direction did these people leave from?" Xu Bai stroked his chin and pondered.

He had to chase after them. If those who left really took the secret manual away, according to the number of corpses here, even if it was halved, it would not be less.

With so many progress bars, how could they slip away from his hands?

Then the question was, which direction should they go?

Xu Bai stood rooted to the ground. After a moment, he put down his hand and looked at the figures around him who were controlled by him to stand up. Then, he snapped his fingers.

The next moment, the corpses began to run in all directions.

He was alone, so he definitely couldn't search everywhere. Then, he would let these corpses search.

Now that the Corpse Controlling Technique had been integrated into all kinds of miscellaneous techniques, it had long reached the level of a saint. The range of control it could have was extremely wide.

Chapter 875: Meeting Another High Point (2)

If he couldn't find it even after searching like this, or if he couldn't find it even after running out of the range, then Xu Bai could only count himself unlucky.

The speed of the corpses was not slow. After all, they had retained their strength when they were alive.

Xu Bai stood where he was and waited patiently.

The grassland was already empty, and the corpses were frantically searching for them.

Xu Bai waited for nearly an hour in the dark moonlight. Finally, he sensed something amiss from the corpses.

"I found you." Xu Bai smiled. He circulated his True Core Strength and soared into the sky, chasing in a certain direction.

..

Under the blood-colored light.

Dozens of people were facing each other under the moonlight.

These people were divided into two groups, and the strength of each side was roughly the same.

Each of them carried a bundle on their backs. Some of the bundles had the outline of a book sticking out.

One of the teams was led by a middle-aged man with a goatee, while the other team was led by a white-haired old man.

The goateed man looked coldly at the opposite side and said in a sinister tone, "I knew it. You wanted to take the remaining tokens and said that everyone was living in harmony."

"After all, some of your people don't have tokens, so they really want ours."

The white-haired old man did not have the kind look that an old man would have. Instead, he gave off a cold and gloomy air. "Aren't you the same? If we didn't have the same goal, how could we have killed all those people and snatched their tokens?"

"Since you've discovered it, we can only snatch it by force. Cut the crap. If you throw the token on the ground, I can spare your lives."

Goatee sneered. "You want to give us a way out, but I want to give you a way out. Since we've fallen out today, let's not rest until one of us dies."

Although the two sides were talking tough words, neither of them made a move. They confronted each other and were both weighing the pros and cons after making a move.

Time gradually passed. These people could control their temper and just stood there, wary of each other.

At this moment, a sound came from not far away, attracting the attention of both parties. When the leaders turned their heads, they saw the source of the sound and fell into shock.

A large pile of corpses in all sorts of strange postures was surging toward them.

Some of the corpses were on all fours, running like animals, while some of the corpses jumped very far. From their point of view, it looked like a wave was surging over.

"What's going on? Weren't they all dead? Why did they come back to life?"

Everyone present was extremely shocked.

These people were killed by them and left after snatching the token. However, why did these people come back to life? Moreover, they were especially terrifying.

"I won't argue with you for the time being. Let's work together to deal with these strange things first." Goatee said loudly, "No!"

"Good!" The white-haired old man's expression was solemn as he agreed with Goatee's actions.

Immediately after, the troops of both sides soared into the sky at the same time, and their escape movements were exceptionally consistent.

This group of people were all above the mortal evolution state, so they all escaped by flying.

“Bah, I knew you wanted to escape.” Goatee cursed.”

“Likewise.” The white-haired old man also mocked.

Although both sides had agreed to cooperate, the first thing they thought of was to escape. As long as one of them stayed, they would be the scapegoat.

They were not afraid of these corpses because they had killed them when they were alive. However, there must be something strange going on.

There must have been a terrifying reason for the corpse to suddenly come back to life, so no one was willing to stay.

Both sides did not stop to fight. They were running with all their might.

There was a saying that when you were chased by a ferocious beast, what you had to do was not to run faster than the ferocious beast, but to run faster than your companions. That way, you could survive.

At this moment, both sides had this mentality. They wanted to run faster than the other party, but they were both on par. There was no difference between who was faster and who was slower.

Gradually, the group of corpses seemed to slow down. Then, the corpse at the front lost control and fell to the ground. The corpses behind fell one after another and could no longer move.

Both parties let out a sigh of relief, but they still did not stop.

They had been chasing after him just now, but suddenly there was no movement. This situation was even stranger, so they wanted to leave as soon as possible.

However, at this moment, someone with sharp eyes noticed the difference and pointed behind him.

“There’s someone! It’s rapidly approaching!”

As soon as this voice rang out, several gazes immediately turned over. These people flying in the air quickly saw the situation behind them.

There was a small black dot that was gradually enlarging under the moonlight.

The zooming speed was extremely fast. In the blink of an eye, they could already see the outline.

It was a man wearing a Daoist robe with his hands behind his back.

The strong wind blew the man's long hair into a mess, and at the same time, his robe was blown up.

The man's gaze was cold, but there was a hint of mockery in it. He was like a hunter looking at his prey that was running away.

No matter how the prey tried to escape, it could not escape the hunter's grasp. In the eyes of the hunter, it was just playing with the prey.

Because they were looking back, the people present paused for a moment. It was this moment of pause that the man directly passed them and blocked their way.

Chapter 876: Encountering Another High Pass (3)

Xu Bai looked at the fleeing people and smiled. "Are you tired from running? Sit down and rest."

As he finished speaking, golden and grayish-white heavenly changes interweaved and enveloped the surroundings.

The aura of madness and rationality continued to spread and seeped through the air rapidly.

Now, he was already at the ninth grade. The change in the sky was so terrifying that it made one's hair stand on end.

Even the mortal evolution states couldn't resist. When the sky changed, the mortal evolution states all held their heads and screamed as they fell from the sky.

Only the goateed and white-haired old man could barely resist, but their faces became abnormally pale. Clearly, it was especially difficult for them to resist.

"Yes, two Transcendents, but aren't they very strong?" The smile on Xu Bai's face disappeared, and his tone turned cold. "I told you to rest for a while. Are you unwilling?"

With that, he waved his hand.

In the next moment, a dazzling light appeared in his hand.

All kinds of attacks had merged with all of his attack methods, and he was already at his will at this moment.

This light was a saber, but it could also be something else.

With the sudden appearance of the light, both the external destructive power and the attack of the soul made the goateed and white-haired old man spit out blood.

The dark clouds in the sky were scattered, and even the moonlight could not compare to the light in Xu Bai's hand.

"Sir, please spare us, please spare us. We didn't know you were here!"

Goatee reacted very quickly. He knelt in the air and cried.

The white-haired old man was not slow either. He did the same thing as the goateed man and raised the token in his hand at the same time.

"We are willing to offer all the tokens to you so that you can enter the Power-Destroying Pavilion."

The Power-Destroying Pavilion?

Xu Bai raised his eyebrows. He didn't expect to find a new clue.

However... This was a good thing!

When they first arrived, there were no clues. Now, there were clues.

Xu Bai didn't want to waste his breath on him, so he used his divine soul to suppress him. Everyone present was under his control.

In the next moment, everyone present, including Goat Lake and the white-haired old man, turned dull.

"Come, tell me. Tell me everything you know about this token."

Xu Bai placed his hands behind his back and waited calmly.

If he was given a pot of tea now, he could still drink a few sips and listen to a story.

The goateed and white-haired old man were already under his control. Under his control, they told him everything that had happened.

When Xu Bai heard the whole story, he frowned.

It was still the time when resources were exhausted, but he did not know how exhausted they were.

After all, no one knew what time period they were in every time they entered the ruins.

There was an organization called the Power-Destroying Pavilion. This organization was open in many places.

The so-called Power-Destroying Pavilion was to recruit some experts to fight for resources in order to continue their survival.

They firmly believed that this shortage of resources was because there were too many people in the industry.

Therefore, they used this as the center to continuously slaughter the people in the middle.

As long as a certain number of people died in these industries, the shortage of resources would stop.

Moreover, in these continuous battles, even they would suffer casualties. Therefore, every once in a while, tokens would be randomly distributed. As long as one obtained a token, they would definitely have a stepping stone.

And this stepping stone would allow them to accept the test. If they passed the test, they would be able to join the Power-Destroying Pavilion.

In the Power-Destroying Pavilion, they fought for resources, which was why they could alleviate the current situation of resource depletion. The only drawback was that they had to go out and experience all kinds of battles, but it was still much better than such a person.

The people killed by these two forces were also here to snatch the token.

After killing those people, they snatched the token away.

However, the number of tokens they had snatched was too little. It was not enough for all of them to enter, so they all wanted to kill each other.

"I see." Xu Bai rubbed his chin and asked, "Where is the Magic-Destroying Pavilion's branch here?"

Goatee pointed in a direction, meaning that it was probably in this direction.

“Hand over all the cards.” Xu Bai nodded.

When everyone present heard Xu Bai’s words, they all handed over their tokens. Xu Bai roughly looked at them and found that there were nearly 200 of them.

The total number of people from both sides was close to 300.

“One is enough to enter, right?” Xu Bai said.

Goatee nodded stiffly.

Xu Bai put away one of them and ordered, “Other than those tokens, what else did you steal? Take it all out.”

After Xu Bai said that, everyone opened their bags.

Xu Bai searched the books and found only seven books. Most of them were valuable items like weapons.

These things were found from the corpses, but the progress bar was too little.

“Why are there only these few manuals?” Xu Bai said.

” In an intense battle, secret manuals are the easiest to destroy,” Goatee replied.” Moreover, everyone is only fighting for the resources to survive. Why would they care about some secret manuals and keep them with them?”

Xu Bai understood.

A mosquito’s leg was also meat. Although these progress bars did not seem slow, they could still increase a little.

He didn’t want anything else. He just packed the seven books in a package.

## **I Have Unparalleled Comprehension #Chapter 877: Encountering Another High Pass (4) - Read I Have Unparalleled Comprehension Chapter 877: Encountering Another High Pass (4)**

Chapter 877: Encountering Another High Pass (4)

After doing all this, he rushed in the direction that Goatee had pointed at.

However, before he left, his divine soul moved slightly. Everyone present fell to the ground and lost their breath.

If these people didn't die before they became Mindful Deities, they wouldn't become Mindful Deities, so Xu Bai wasn't worried about anything else.

They flew in the air and rushed in that direction.

Only then did Xu Bai realize that the ruins this time were really huge. He had flown for two hours, but he still hadn't reached the place he had planned to go.

However, it wasn't as if he had gained nothing.

The level of these seven books was not high. In this two hours, he had already finished all of them. Unfortunately, they were all mental cultivation techniques, and these seven books did not even increase by 0.1.

Xu Bai felt a toothache, especially when he thought of the various problems with the mental cultivation method. He was even more speechless.

"Let's hope that we'll gain something this time."

After flying for nearly the time it takes for an incense stick to burn, a huge building finally appeared in front of them.

This was a city that looked a little rundown, and there were two people guarding the city gate.

There was no plaque, and he didn't even know the name of the city.

Xu Bai descended from the sky and casually changed his appearance and body shape before walking toward the city.

As he got closer, he could feel the smell of blood in the entire city.

In such an apocalyptic environment, killing was inevitable.

Those who could enter this city alive and successfully join the Power-Destroying Pavilion had experienced more killings.

Xu Bai slowly walked to the city gate. There were two guards at the gate, each holding a different weapon.

"Token."

These two simple words were spoken in an extremely indifferent tone. It was as if they were going to attack Xu Bai if he couldn't hand over the token.

Xu Bai took out the token from his waist and waved it in front of the two guards.

The two guards looked at each other. One of the guards said to Xu Bai, "Are you alone?"

"I'm alone," Xu Bai said with a smile.

"Alright." "Just follow me."

The guard turned around and led the way.

Xu Bai didn't know what she meant, but he still followed her into the city.

After entering, he realized that this city was completely different from what he had imagined.

There was a wide street inside. Although the street was not cleaned and was covered in dust, there were stalls on both sides of the street.

The difference between this place and the human world was that the stalls here were all for the trade.

The stall owners were also people in the industry.

There were no ordinary people here. Ordinary people would have died long ago in such an environment.

Along the way, the guard did not speak, and Xu Bai was idle and did not speak either.

After walking for a while, a rather imposing building appeared in front of them. The guard came to the door and pointed inside.

"Report inside and see where you will be assigned."

"Excuse me, what places are there?" Xu Bai asked with a smile.

The guard didn't answer. Instead, he stretched out his hand. "If you want me to answer questions, you need to give me resources."

"Pills, weapons, or anything else, as long as it can help me increase my strength, I'm fine with it."

Xu Bai raised his eyebrows.

He seemed to understand that in this world, resources seemed to have become a kind of trading item. The so-called resources were things that could allow people to live and increase their strength.

It was not limited to pills or weapons.

But Xu Bai didn't.

He thought that he had made a mistake just now. He should have casually taken some weapons and lived a better life here.

Seeing that Xu Bai did not answer, the guard chuckled. He knew that Xu Bai did not have any resources, so he turned around and left.

Xu Bai didn't stop him. He looked at the building behind him and thought for a moment before walking in.

Inside the building was a vast courtyard. From time to time, people would walk around in the courtyard.

As soon as he stepped in, Xu Bai could smell the thick smell of blood. Everyone here had that smell. Clearly, everyone had experienced some battle or slaughter not long ago.

No one paid attention to him. He thought carefully for a moment and was about to pull someone over to ask.

But unexpectedly, a voice came from behind him.

"New here?"

Xu Bai was very familiar with this voice.

He turned around and looked at the man in white with a complicated expression.

—High Pass.

He didn't expect to see him again. It was indeed unexpected. He still remembered that Gao Guan had found the old man before he turned into the Mindfulness God in the ruins. He wanted to drag the old man into death and enforce justice on behalf of the heavens.

However, it did not succeed in the end. It was Xu Bai who used the divine technique to lure Liu Qingfeng over and killed him.

Now that he suddenly saw him, Xu Bai knew what time it was. It was definitely before Gao Guan went to that mountain.

In other words, the current resources had not been exhausted to a certain extent. It would not be like before, where everyone would think of ways to survive.

From this, it could be inferred that the Power-Destroying Pavilion might have failed in the end. From what Gao Guan said, it seemed that he was a member of the Power-Destroying Pavilion. There must be a reason why he went to that mountain in the end.

Gao Guan was still dressed in his white robe and tall hat. When he saw that Xu Bai was ignoring him, he thought that Xu Bai was in a daze. He could not help but ask, "Newcomer, it's very difficult for you to survive in this world in this state."

Chapter 878: Encountering Another High Pass (5)

Only then did Xu Bai react. He rubbed his face hard and smiled. "Are you a senior here?"

Gao Guan chuckled. "Of course. You don't have to change your name. Gao Guan is one of them. Moreover, he's a very rare corpse collector nowadays."

Xu Bai raised his eyebrows.

He really wanted to say, 'I know that you are the corpse collector, and you even gave me your inheritance in the end, asking me to help you find a successor.'

Of course, he couldn't say these words out loud. He could only pretend that he had just met him. He cupped his hands repeatedly, wanting Gao Guan to introduce him to the next step.

Before these people became Deities, they could communicate and socialize. Perhaps they could even find useful clues from them. Therefore, Xu Bai did not start a massacre as soon as he arrived.

Besides, who knew if there were any Saints in the ruins?

No one told him that there was such a thing, but no one told him that there was none either. He would just treat it as if there was, so that he could be more careful.

Gao Guan raised his leg and walked in front of the Grand Instance. He waved at Xu Bai and said, "Looking at your poor appearance, you probably don't have any treasures. Follow me. I won't take your resources. Otherwise, if you let these people lead the way for you, they will ask you for things. If you don't have them, it will be difficult for you to move an inch here."

Xu Bai nodded and followed behind.

The two of them soon arrived at one of the rooms.

Gao Guan pointed to the room and said, "Here, record your name and information. After a while, we'll know which section you're in."

"Don't get someone to give you a portion of the allocation. If you have the resources, then pretend that I didn't say anything. Anyway, the good parts will always be given to those who have the resources."

"Oh?" "What's the good part?" Xu Baichao asked with interest. "What's the bad part?"

He knew that the so-called part here was definitely through connections.

Gao Guan pointed at himself and said, "It's not good for people like me to be classified into the combat category. We have to fight and kill every day. Who knows, there might be no more one day."

After saying this, he pointed at the room.

"Those who specialize in recording and doing other things in the city are considered good. They don't have to go out to fight and kill."

Xu Bai understood. So as long as they didn't leave the city, they were in the good category.

He nodded and did not say anything else. He pushed the door open and entered.

Gao Guan didn't stop either. He took his white top hat and left.

After pushing the door open and entering, Xu Bai smelled a strong smell of blood. A middle-aged man in ordinary clothes with a mustache was writing on the paper.

The thick smell of blood was coming from the bearded middle-aged man.

The middle-aged man seemed to have heard the sound of the door being pushed open. He raised his head and his mustache moved slightly. "Newbie? Name."

It was a simple question. If he wanted to ask more, he would lose out.

Xu Bai looked to the side. There was a corpse there, and there were traces of blood on the middle-aged man's hands.

The middle-aged man did not even lift his eyelids."It was seriously injured and couldn't be saved after being brought back. It's just nice to give me some important herbs.""

As he spoke, he walked to the side of the corpse.

A few herbs that looked like grass had already grown out of the corpse's stomach.

"Unfortunately, a corpse can only grow so much."The middle-aged man said regretfully.

These medicinal herbs were also resources, but now that all kinds of resources had been exhausted, the medicinal herbs could not be grown at all. Now, this middle-aged man actually took a new path and wanted to use corpses to grow them.

"My name is Fang Mu," Xu Bai said.

Since the other party only asked for his name, he casually answered. As for why he was called Fang Mu, was there any other reason for him to casually answer?

The middle-aged man nodded. After writing in a book, he got up and went into the room.

Xu Bai felt that joining this place was too simple. After thinking about it, it was not that complicated.

They were all here for resources. With a token, they must have gone through a period of fighting and killing. They came here just to ask for resources. Who was willing to lie or do anything else?

After waiting for about half an hour, the middle-aged man took out a booklet and opened it in front of Xu Bai.

There were various categories marked on the settings, including combat, office, and others. However, other than the combat category, the others were clearly priced and required a certain amount of resources to obtain.

Xu Bai recalled what Gao Guan had said just now. Looking at the middle-aged man's blatant bid, he should have been allowed.

The resources obtained from fighting and killing were also resources. Extorting them here was also a resource. Most likely, all the resources obtained would be handed over and distributed uniformly.

Xu Bai didn't have any resources, and he wouldn't give them to him even if he did, because he really wanted to go into the combat category.

He didn't come here for the sake of this city. He could follow this category and see if there were any other clues. Moreover, Gao Guan was also here.

Xu had a good impression of Gao Guan. After all, he was able to face the terrifying old man calmly. This kind of person was not even afraid of death and was easy to get along with.

Since there was a chance, he would go and get in touch with them.

"I think it's a combat type. Xu Bai said.

The middle-aged man pursed his lips."

Then, he turned around and took out a bottle of medicine from the drawer and handed it to Xu Bai.

"Drink it."

Chapter 879: Xu Bai: Start the Performance (8000)

The black bottle was open. From Xu Bai's angle, he could see the black liquid inside.

After the Ten Thousand Poison Guide was integrated into the Ten Thousand Mixed Techniques, it would have the level of a first level Saint.

Now, the potion in front of Xu Bai was mixed with all kinds of strange poisons. He quickly analyzed it with his eyes.

When all kinds of strange poisons were mixed together, they would form a certain commonality and eventually reach the level of a slow-acting poison.

If one took this potion and did not take the antidote regularly, it would cause one to suffer the pain of having their heart dug out. Moreover, it would not cause one to die, but would only cause constant pain.

At first, he thought that the ceremony to enter the Power-Destroying Pavilion was too simple, but now it seemed that the other party really had a backup plan.

Ordinary Transcendent experts would probably not be able to withstand the effects of this medicine. This was the key to controlling these people in the Power-Destroying Pavilion.

If he could still betray them when he was poisoned, it would be a fantasy.

The middle-aged man saw that Xu Bai did not move, and his mustache swayed. "Drink it. If you don't drink it, get out of this city."

Xu Bai raised his eyebrows and took the bottle of medicine. "Everyone drank it. You drank it too?"

The middle-aged man stroked his beard and sneered, "If you want to live and obtain resources, you have to pay the price. Everyone has drunk the potion, even the controller of this branch. If you want resources, you have to drink it."

The meaning had been explained clearly. Xu Bai did not ask any more questions and directly drank it.

All kinds of miscellaneous techniques had reached the first level of the Saint Realm. Although this poison could poison Transcendents, it was useless against him.

After the poisonous medicine entered his body, it turned into a layer of fog and tried to drill into Xu Bai's heart. However, under the surge of his True Core Strength, this layer of fog quickly disappeared without a trace.

"Yes, you can leave after drinking it. This is a book about the rules here. Hurry up and read it. If you haven't finished reading it before the mission comes, you can read it during the next break." The middle-aged man waved his hand impatiently. After passing the book to Xu Bai, he turned his head to look at the herbs on the corpse.

Xu Bai didn't waste any time. He left the room and found a corner in the yard outside to read carefully.

He flipped through the book very quickly. In just a moment, he had already understood all the contents of the book.

What the book said were mostly rules and regulations.

All members of the Ending Dharma Pavilion would receive a portion of resources every month. These resources were randomly distributed, and the amount distributed was not high.

However, every member would undergo a regular assessment. If they were satisfied with the assessment, they would be given more resources.

It was easy to understand. Xu Bai thought for a moment and thought, Isn't this the difference between basic salary and commission?

The more you do, the more you get. The less you do, the less.

There was a way to evaluate each category, but in Xu Bai's opinion, this so-called evaluation method was the most unfair to those who were in the combat category.

The resources obtained from fighting outside were the same as those obtained from leisurely living in the city.

Of course, Xu Bai didn't pay attention to these things, because everything here was going to pass away before his eyes.

He focused on the content at the back, which was about the various rules of combat.

Those who belonged to the combat category should not leave the city when they had nothing to do. If there was a mission that needed to be assigned, the bell in the city would be rung. Those who heard it could rush over and the person who issued the mission would choose them.

The rest was not important.

Xu Bai put the book away and thought of another question.

This place didn't seem to provide food or accommodation. Food was fine, but living in a place would probably cost resources.

Xu Bai mainly wanted to see what the so-called mission was and whether he could find some useful clues by following the mission.

So far, the harvest from entering this place was the first few books. However, after he finished reading them, it did not bring him much growth.

His main goal was to explore the secrets of the golden finger. Now, it seemed that he had no clues at all.

"Follow the path and go out for a walk."

Xu Bai couldn't find any clues. He wanted to wait for the next mission, so he left the building and wandered around the streets.

Although the streets here were not cleaned, there were a lot of people on both sides. People from all walks of life were crowded on both sides. This scene could not be seen in the human world.

Xu Bai stopped in front of a stall for a moment and found that the prices of all the items on it were clearly marked. The amount of resources needed was also clearly written.

He went to a few more stalls. Every stall was the same, but he was not in a hurry. Instead, he went to look for them one by one.

Unfortunately, at this time, the resources had begun to dry up, and no one treated the secret manual as a treasure, so he did not find anything related to the progress bar.

After walking for the time it takes for half an incense stick to burn, he still found nothing. Just as Xu Bai was about to give up, he suddenly heard a shout coming from the corner in front of him.

“Help! Help!”

Chapter 880: Xu Bai Begins His Performance (2)

A woman's cry was heard.

Xu Bai followed the voice and saw a woman in disheveled clothes crawling on the street with terrifying wounds all over her body.

However, the woman's scream didn't travel too far before she was stopped by a burly man. The burly man grabbed the woman's ankle and dragged her into a room like a dead dog. Soon, a shrill scream came from the room.

Xu Bai raised his eyebrows and turned to look at the surrounding stalls.

Everyone in the industry seemed to have not seen it and were still doing their own things. It was as if the scene just now was already commonplace here.

“Yes... Did the depletion of resources reveal many of his true nature?” Xu Bai thought.

Of course, this was only his guess, but it was soon confirmed.

“This woman was once the woman of a Transcendent before her resources were exhausted.” A voice sounded from behind.

Xu Bai turned his head and saw Gao Guan, who was dressed in white and wearing a tall hat.

Gao Guan walked over slowly and continued, "Later on, the resources were exhausted. That Transcendent died on the spot because of fighting for resources. This woman lost her source of resources and found a way in the Anti-Dharma Pavilion."

"She first rented herself out, but later realized that this way, the speed of obtaining resources was not fast, so she sold herself out. The person who beat and scolded her just now bought her."

"Why are you fleeing?" Xu Bai frowned.

After listening to Gao Guan's explanation, Xu Bai understood. Wasn't this a business in disguise? The only difference was that this woman treated herself as a commodity and sold herself.

"In this place, never believe what you see." Gao Guan laughed. "This woman isn't easy to deal with. She wanted to kill the man in bed and take his resources. But she never expected that the man would buy her back and turn her into a resource."

"In short, it's a very complicated matter. You're new here. You only need to know that no one in the Power-Destroying Pavilion deserves your sympathy, because they can enter because they have blood debts on their hands."

"Are you the same?" Xu Bai smiled.

Gao Guan shrugged. "Something like that. Let's go. I'll take you somewhere."

After saying that, Gao Guan led the way.

Xu Bai didn't ask why. He just followed behind them. After about the time it takes for an incense stick to burn, they arrived at a teahouse-like place.

"Two people and a pot of good tea." Gao Guan said, "I don't have any more resources today. I've spent all of them. Why don't I give them to you after I distribute them this month?"

The boss was a chubby middle-aged man. After hearing Gao Guan's words, he nodded and agreed.

Gao Guan turned around, waved at Xu Bai, and found a seat.

Xu Bai didn't have a tacit understanding either. He sat opposite Gao Guan. Soon, a waiter brought a teacup and teapot and placed them on the table.

It looked very shabby, but Xu Bai had heard that even drinking tea here required resources.

“High-grade medicinal herbs. The boss here is a tea master, which is considered a supporting profession. This thing is also considered a resource, so we need to use resources to exchange for it.”

“The Power-Destroying Pavilion allows these businesses to be here. After all, the resources they obtain may not be suitable for themselves.”

As he spoke, Gao Guan poured a cup of tea for Xu Bai and another cup for himself before carefully taking a sip.

Xu Bai also took a sip. As the tea entered his stomach, he felt the True Core Strength in his body circulate slightly faster.

Tea of this quality was plentiful in the human world, but it had become scarce here. It could be seen how exhausted the resources were.

“Let’s get down to business!” After Xu Bai finished the cup of tea, he put down the teacup and looked at Gao Guan with interest. He said calmly, “There’s no such thing as a free lunch. You even have to treat me to tea on credit here. It might not be as simple as just drinking tea.”

Gao Guan nodded and didn’t hide anything. He said bluntly, “I just want to ask you for some corpse control techniques.”

Xu Bai narrowed his eyes, and a dangerous light flashed in his eyes.

How did this guy know that he knew how to control corpses?

This time was completely different from the previous time. Logically speaking, the two of them had not even met.

” It’s strange, isn’t it?” ” Here, nothing about you can escape the eyes of the Power-Destroying Pavilion,” Gao Guan said.” For example, your strength, the fact that you changed your appearance, and the fact that you killed so many people.”

Xu Bai was slightly shocked.

What Gao Guan said just now revealed everything he had done.

However, he had done it very secretly. Moreover, when his divine soul swept over, he did not sense that there were outsiders.

Why was he discovered?

Even the people he killed in the end did not leave any traces behind.

Seeing that Xu Bai did not answer, Gao Guan came to the window and pointed at the building that Xu Bai had just gone to. "There's a saint level treasure there, and it's a saint level treasure that uses the soul as its core. It can sense everything around it, and it's in the hands of the city lord."

"So when you killed those people and entered this city, you attracted the attention of the city lord. But for some reason, the city lord didn't care about these things."

Xu Bai's brows furrowed more and more tightly when he heard that. "How do you know?"

Chapter 881: Xu Bai Begins His Performance (3)

According to what Gao Guan said, there was a saint level treasure here that could detect him.

After all, his true strength had not reached the Saint Realm. However, what Gao Guan meant was that he knew about this as well.

To make a very simple analogy, the City Lord knew what he had done, but it was very likely that he did not tell anyone else. This was because whether it was those guards or that middle-aged man with a mustache, they did not know his situation.

Only Gao Guan knew, and he even called him here to drink tea. Then what was Gao Guan's intention? Or what was his identity?

Gao Guan turned his head and said solemnly, "I am one of the City Lord's male companions."

"Puff!"

Xu Bai couldn't help but spit out the tea he had just drunk.

"I owe you this drink, so don't waste it." Gao Guan looked at the tea on the ground and said with a pained expression.

Xu Bai coughed hard and interrupted, ""Let's not talk about the tea first. What did you just say? The City Lord is a woman?"

The so-called gigolo, to put it bluntly, meant male pet and male concubine.

If that was the case, Gao Guan could be considered the person who slept beside the City Lord. It was normal for him to know this news.

But the problem was, why would such a male escort be assigned to the combat category?

With this identity, he would have long been assigned to other categories that were not dangerous. It was impossible for him to take this risk.

Gao Guan seemed to have read Xu Bai's mind and said, ""There will always be times when I'm not favored. I did something wrong, so I was punished to this category."

"In our line of work, the most unbearable thing is that the corpses are not buried. Therefore, I buried those who died in battle. Because of the burial, these corpses could not be planted with herbs, so it became this field today."

Xu Bai was speechless.

Good heavens, this was an occupational disease, right?

Gao Guan continued, "I've been stuck in this realm for a long time. After knowing that you know how to control corpses, I felt that this was an opportunity for the two of us to communicate. To be honest, I didn't know when I led you there. It was only after you entered that house that the City Lord suddenly told me."

"Right, you definitely won't be able to sense her appearance because she has a saint level treasure with her soul, so she's not afraid of being detected by her soul."

Xu Bai rubbed his chin. He didn't answer Gao Guan's question about the corpse control technique. Instead, he was thinking about what Gao Guan had just said.

A saint level treasure for the soul. It didn't sound like the one-time saint level treasure that Director Mu had given him before. This thing should be quite powerful.

Even now, the City Lord probably knew that he was communicating with Gao Guan here.

But the question was, why didn't the City Lord come to see him?

Logically speaking, after doing such a big thing, there should be some movement, but he did not feel the slightest change.

"It's strange, isn't it? I'm also very strange, but she just won't come looking for you." Gao Guan shrugged his shoulders and said, "Why don't we talk about corpse control?"

"Not interested." Xu Bai shook his head.

How could he still have any other interest after this incident?

Xu Bai was now in the ruins, and everything here was not safe.

Although they hadn't met any Saint Realm masters yet, the city lord of this branch had a Saint Realm treasure.

At present, he only knew that it was related to the divine soul, but he did not know anything else.

For example, the level of this treasure.

If it was only a first grade Saint Warrior, then it would be fine, but what if it was even higher?

The most important thing was that the City Lord did not seem to be looking for him. How should he deal with it now?

The more Xu Bai thought about it, the deeper he went. Without any clues, it was useless no matter how much he thought about it.

"I want to see the City Lord."

After thinking for a long time, he finally raised his head.

Gao Guan was stunned, not understanding what this meant.

"The City Lord already has a lot of gigolos. Don't tell me you're thinking..."

"I just want to see him." Xu Bai said.

He suddenly thought of something. The City Lord telling Gao Guan about his situation was definitely not unintentional. He must have done it on purpose. Gao Guan approaching him was probably the City Lord's doing.

Since that was the case, he might as well meet them and see what the situation was.

After all, if he didn't make a move immediately, there would be other things.

"You really want to see him?" Gao Guan frowned.

Xu Bai nodded to confirm.

Gao Guan looked at Xu Bai with a complicated expression. After a while, he turned around and said, "Follow me."

Xu Bai didn't waste any time and followed behind Gao Guan.

The two of them quickly returned to the building from before. This time, with Gao Guan leading the way, they arrived at the backyard of the building without any effort.

"Wait here for a while. I'll go knock on the door." Gao Guan said.

As he spoke, he came to the door and knocked lightly.

A moment later, a gentle female voice came from inside.

"Bring him in."

It seemed that he already knew Xu Bai was coming, which was normal. After all, he had a saint level treasure in his hands.

The door was pushed open by Gao Guan. Gao Guan stretched out his hand and gestured for Xu Bai to enter.

Xu Bai nodded and walked in. At this moment, Gao Guan closed the door from the outside.

The room was not dark because it was daytime. When Xu Bai walked in, he saw a woman.

The woman was wearing a light muslin. She was not wearing any clothes underneath. She could vaguely see some things that she should not be seeing.

Chapter 882: Xu Bai Begins the Performance (4)

Other than this woman, there was no one else here. Xu Bai knew that this woman should be the City Lord, so he cupped his hands and said.

"Greetings, City Lord."

“Just call me City Lord Si.” The woman was barefooted and did not wear shoes. Her smooth and fair instep was slightly arched, forming an alluring arc.

“Come here.”

Xu Bai did not move.

City Lord Si smiled and did not get angry. Instead, he stood up.

As she stood up, the light veil on her body swayed and became a little loose, allowing one to see more of the scenery.

“It seems that you have already decided.” City Lord Si came to Xu Bai’s side and smiled.

“I know what you want to know, so I’ll tell you the truth.”

“I intentionally revealed this information to Gao Guan to see your reaction and whether you have the courage to come and see me.”

“If you didn’t think of coming to see me, it proves that you’re not smart enough. If you thought of it but didn’t come, it proves that you’re not brave enough.”

Now you come, that’s enough.”

Xu Bai narrowed his eyes and said,” Since I’m here, I have to make some things clear. What do you mean by that?””

As expected, there was something fishy going on. In the end, he was still lured here.

City Lord Si placed his hands on Xu Bai’s shoulders.””You killed so many people by yourself. Your strength is shocking. I have a business deal to discuss with you now. As long as you do it well, you can use my resources as you wish.”

“Including me.”

As he spoke, City Lord Si licked his lips.

Xu Bai was not interested in City Lord Si at all, let alone the so-called resources. He was only interested in the progress bar and the secrets of the ruins.

As for City Lord Si, he had two exclusive luxury cars at home and did not want to take this bus.

“Tell me.” Xu Bai removed City Lord Si’s hand from his shoulder.””As long as I can do it, I will definitely do it.”

City Lord Si took two steps back and turned to the drawer in the room. He took out a map from the drawer and opened it on the table.

“This is a mountain 200 miles away from this city. It’s said that a Saint Realm master died here, so many resources were left here.”

She pointed at a spot on the map and said slowly.

“This information came from the headquarters and is absolutely reliable. After all, the headquarters has three Saint Realm masters guarding it.”

“And the reason why this expert died was because of the headquarters. Unfortunately, they didn’t kill him on the spot. He ran away and hid in this mountain.”

” However, this expert is good at formations. Before he died, he set up a formation with all the resentment in his body. Even if he wanted to enter the formation, he would have to expend a lot of energy. Now that he has run out of resources, it’s not worth it.”

When Xu Bai heard this, he had already sorted out the ins and outs of the matter.

“You don’t think that I can break the formation set up by a Saint Realm master, do you?”

City Lord Si shook his head and said,” Of course I’m not asking you to break the formation. After so long, the formation has been worn down a lot. I thought I could get it smoothly, but I didn’t expect the fallen Saint Realm master to think of this.””

” He changed the formation into a form of division. Once the formation is destroyed to a certain extent, it will explode. All the resources inside will spread out in all directions.”

“The headquarters is facing some problems now, and the Saint Realm masters won’t come out, so they’re gathering people from the branch.”

“Although we will hand over the resources we obtain, we have the final say on how much we will hand over.”

As City Lord Si slowly explained, Xu Bai also understood what he was thinking.

In a very simple sentence, he wanted to take a kickback.

After getting a portion of the resources, he would only hand over a small portion and keep the rest for himself.

“But if it’s scattered, I can’t take much by myself.”

That was what he said, and that was what it made sense. He did not know how to clone himself, so how could he get it?

City Lord Si stretched lazily and said, "Who said you could go get it?" "There's a path from obtaining the resources to handing them over. What we have to do is to intercept the resources that are handed over in the middle. That's the true benefit."

Xu Bai exclaimed after hearing this.

He had thought that he was getting a kickback, but he did not expect it to be a two-way deal.

This woman had a big heart and was very greedy.

If that was the case, then the resources he would obtain would be too much.

Thinking about it carefully, the people from the other branches had snatched the resources and then gathered together to prepare to hand them over to the headquarters. Moreover, it was a painstaking effort.

However, if he was robbed halfway, all his efforts would be gone.

As for City Lord Si, he returned with a full load.

"How is it? Isn't my method good?" City Lord Si said, "There are too many useless people in our branch, and you are very strong. You just happen to be qualified. Don't worry, after you finish this, I will erase all traces and definitely won't let you be exposed."

Xu Bai sneered in his heart, but he did not show it on his face.

This woman had a lot of plans in mind.

He definitely wouldn't expose himself?

This sentence was enough.

If it was really released, everyone who heard it would be fools.

If this matter succeeded, Xu Bai could be used as a scapegoat and pushed out by City Lord Si.

Chapter 883: Xu Bai: Begin the Performance (5)

However...His interest was piqued.

Of course, it wasn't just the so-called saint-level resources.

Xu Bai pretended to be very serious."When are we leaving?"

"Don't be anxious..." "Before you go, you have to do something."

As he spoke, City Lord Si reached out and flicked his hair. A jade hairpin appeared and pierced towards Xu Bai's forehead.

Xu Bai grabbed the wrist of the City Lord,""This is a soul-type saint level treasure, right?"

It looked like an ordinary hairpin, but Xu Bai could feel the terrifying energy inside.

"Let me stab you, let me leave an imprint in your soul, so that we can both be at ease."Although City Lord Si's wrist had been taken away by Xu, he was still calm and unhurried, as if he was very relieved of the treasure in his hand.

Xu Bai stared at the hairpin and said,"You can't keep using it, right? After all, you're not strong enough."

City Lord Si didn't say anything and just looked at Xu Bai.

"At first, I didn't know if this treasure had any other functions, but I could see from your method of use that it could only attack the soul."Xu Bai's tone became faint.

City Lord Si's expression gradually turned cold.

Xu Bai didn't care about the expression on City Lord's face and continued,""You are very smart, and your guesses are correct. I came here to lay my cards on the table with you, but more importantly, I want to talk about your actual situation."

" If you could activate this saint level treasure directly, you wouldn't have to say so much to me and could just control me. But you said so much, which proves that you can't activate it directly with your strength. You need a certain process."

"The time you wasted talking just now should be enough for you to use it, right?"

When he said this, Xu Bai saw that City Lord Si's expression had already turned cold.

"Haha..." City Lord Si twirled the hairpin gently with his fingers, as if he wasn't worried that Xu Bai would see through him at all.

"It's already too late. You only realized it now, but I've already successfully activated it. Moreover, you just said a lot to me, which gave me more time."

A green light was flashing on the hairpin, making people dizzy.

"Gao Guan said that we can't trust anyone." Xu Bai suddenly let go.

This action stunned City Lord Si. He didn't know why. Now that he suddenly let go of her, could it be that he was prepared to ruin her?

City Lord Si was very suspicious. Xu Bai's open embrace made her hesitate.

Xu Bai smiled and pointed at his head. "Come, bring it here. Use your greatest strength to destroy my soul or control it."

In fact, this was Xu Bai's greatest reliance.

When he knew that City Lord Si's saint-level treasure was related to the soul, he already had this plan.

Divine soul?

'I'm sorry, even the Prime Minister in white of the Great Yue State, a master at the peak of the Saint Realm, can't do anything to me in terms of soul.'

You're just a small saint level treasure. How can you compare to a peak-stage saint level master?

Come on.

Get me!

Xu Bai's mocking look made people want to step on his face.

City Lord Si finally couldn't control himself after being repeatedly mocked by Xu Bai.

"Alright, since you want to be controlled by me so much, I'll fulfill your wish."

As he spoke, City Lord Si continued to activate the jade green hairpin.

The next moment, it was very quiet.

Xu Bai felt something drilling into his mind, but it was quickly devoured by his divine soul.

City Lord Si was speechless.

Xu Bai was speechless.

Alright, it turned out that this saint level treasure didn't even have the right to make Little Gold come out.

"What grade is this?" Xu Bai asked.

"Rank one..." City Lord Si was in a panic and subconsciously replied.

It couldn't be helped. This was the first time he had felt panic. Logically speaking, even if a Saint Level self-defense was only at the first grade, it should be a kind of suppression for a Transcendent Level person. However, it was abnormal now.

"That's still too low." Xu Bai sighed.

He had already upgraded the skill to Saint Realm Level 1.

He was indeed only a ninth-grade Transcendent now, but his skills were at the first level of the Saint Realm. Moreover, there was a skill that was integrated into the myriad cultivation techniques, and that was a skill related to soul annihilation.

This was the skill that Xu Bai had used to activate his Goldfinger, and it possessed powerful soul attack and defense capabilities.

Now, it seemed that the two seemed to cancel each other out.

"Give it to me!" Xu Bai reached out and grabbed the jade hairpin.

Although it was only at the level of a first level Saint Warrior, it was still meat no matter how small it was. When the time came, he would give this hairpin to Chu Ling and Ye Zi, which would increase their safety.

"Give it back to me!" City Lord Si shouted.

However, the next moment, she felt something flowing in her soul, and she quickly became dull.

"Without this hairpin, you're really a good-for-nothing. But you're still useful now, so I have to keep you." Xu Bai put away the jade green hairpin and looked at City Lord Si, who had been controlled. The corners of his mouth curled up slightly.

Now, the city was no longer in danger.

I, Xu Bai, have begun.

His divine soul spread out and enveloped the entire city in a terrifying manner.

# **I Have Unparalleled Comprehension #Chapter 884: The Giant Eye (1) - Read I Have Unparalleled Comprehension Chapter 884: The Giant Eye (1)**

## Chapter 884: The Giant Eye (1)

The terrifying divine soul gradually spread at a speed that ordinary people could not see. In the blink of an eye, it had enveloped the entire city.

As Xu Bai's heart moved, his True Core Strength surged and his soul invaded the consciousness of everyone present. Everyone, including Gao Guan, was instantly controlled by Xu Bai.

"In that case, it's settled."

Xu Bai had always been very cautious, including when he came to this ruin. Therefore, he did not expose himself along the way.

However, he didn't expect City Lord Si to find out about it with his divine soul cardinal treasure.

In fact, he had thought about it before. If he did not know the other party's strength, he should not force it.

However, everything was clear now. He also knew that the other party only relied on this one divine soul supreme treasure, and this supreme treasure was only a level one saint. Therefore, he had no worries now and controlled the entire city in his hands.

"This is finally a lot more practical." Xu Bai thought to himself.

It was only in this kind of situation where everything was firmly in his hands that he felt the most comfortable.

Of course, it was only limited to this city.

But for Xu Bai, he could use this city as a base point for the time being and gradually explore the outside world.

This method of exploration was relatively safe.

But before that, he needed information.

Xu Bai's gaze turned to the stunned City Lord Si and hooked his finger."Come on, tell me everything you know."

City Lord Si's expression was dull as he slowly spoke...

In this room, only City Lord Si's voice was left. As City Lord Si finished speaking, Xu Bai gradually understood what he meant.

When he saw Gao Guan, he knew that this should have happened before the Three Life Mountain in the ruins. Now, it seemed that it was true. Only ten years had passed since the resources were exhausted.

However, there were so many people in this world, and there were also a large number of ordinary people. In the past ten years, resources had become more and more scarce, so everyone was doing their best to make a living.

The Power-Destroying Pavilion was established under such circumstances. Three Saint Realm masters joined together and became the top fighting force. The other six fought on their own and didn't participate.

Most of the resources that they had robbed fell into the hands of the three Saint Realm masters. Only a small part of them slipped through their fingers, barely enough for the people in the trade to survive.

However, it was impossible to increase his strength. He could only make do with it.

In this world, being able to survive was already an extremely extravagant hope. These people in the industry had no objections.

As time passed, the Power-Destroying Pavilion grew bigger and bigger, reaching its current state.

At present, the Spell Ending Pavilion had become more and more stable.

"It's only been ten years, and he's already in such a miserable state?" Xu Bai stroked his chin and pondered.

It seemed that the speed at which resources were being depleted was faster than he had imagined. Even for people in the industry, it was very difficult to carry them.

"Continue." Thinking of this, Xu Bai put away his thoughts and ordered City Lord Si to continue.

City Lord Si nodded with a dull expression and continued to speak. This time, he was talking about the formation set up by the Saint Realm masters.

Things had to start from a long time ago.

A long time ago, the three Saint Realm masters suddenly joined forces and attacked another Saint Realm master, the one City Lord Si and Xu Bai had mentioned.

No one knew why. After all, such a thing was rarely seen.

However, they all knew that there was one less Saint in the world.

If it was during normal times, these people, especially the Transcendents, would definitely be ecstatic. After all, one less Saint meant one more chance for Transcendents.

However, in this era, even if one of them was missing, there was not much benefit because they did not have enough resources. How could they continue to rush up?

It was already good enough that he was alive.

Moreover, it was said that this Saint Realm master had used up all his resources. It was naturally the Power-Destroying Pavilion who had spread the news to avoid causing chaos when the formation was destroyed.

Otherwise, if the whole world knew that a saint warrior had left some resources, they would all flock to him.

The resources of Saint Realm masters were extremely important even in this era where resources were exhausted.

Even if there was nothing, a saint's body was still very reliable for some evil businesses.

Therefore, this news could not be spread and had been sealed.

Even in this city, only she and Xu Bai knew about it.

He would only tell others when the mission was assigned, and it would not be too obvious.

Everything that happened after that was made clear. City Lord Si indeed wanted Xu Bai's help.

However, this was not a trade but a one-sided attempt to force Xu Bai.

Therefore, after Xu Bai entered the house, she used the hairpin to control Xu Bai continuously. Moreover, the degree of control was gradually increasing. She thought that she would be able to complete the work as long as she waited a little longer. However, she did not expect Xu Bai to suddenly wake up and instantly lose everything.

“Is there any other news?” Xu Bai asked after hearing this. For example, some secrets about your organization, or core information?”

City Lord Si shook his head.” No. Even if it’s core information, it wouldn’t be placed in such a remote place like ours.””

Chapter 885: The Giant Eye of the BOSS (8000)

“Remote?” Xu Bai repeated.

City Lord Si agreed,”The city is very remote and is not valued. If we weren’t very close to that place this time, they probably wouldn’t let us go.””

” Also, that saint warrior went in this direction when he escaped. It was a coincidence. The headquarters doesn’t trust remote places like us. Even I drank the potion.”

At this point, City Lord Si stopped talking. Clearly, she had already answered Xu Bai’s questions and had nothing else to say.

“Let’s go down first.” Xu Bai waved his hand to signal City Lord Si to leave. City Lord Si nodded stiffly, turned around, and left.

Now, he had used his divine soul to envelop the entire city. The entire city was in his hands. It was time to make a small fortune before the big scene arrived.

There was still some time before that place opened, so he could just stay here and work on the progress bar.

If he could read a few books before opening it, even if it was just to increase his mental cultivation method by 0.1, it would be a huge improvement.

After making his decision, Xu Bai used his soul as a guide to control everyone in the city.

Very soon, whether it was the people guarding the stalls or the various people in the Magic-Destroying Pavilion branch, all of them became extremely stunned.

However, this did not mean that they were just a block of wood. After receiving the instructions of Xu Bai’s divine soul, those who had secret manuals took them out.

Those who didn't have a secret manual were still standing.

Before long, the building was filled with people queuing up. Everyone was holding a secret manual. Xu Bai controlled two people to receive it, and soon, they received ten books.

It wasn't much, but it wasn't little either. However, these levels were all very low.

Xu Bai thought about it carefully, and it was indeed so.

In this era, the so-called secret manuals were basically just worldly possessions, and not many people were willing to carry them.

"No matter what, let's take a look first."

No matter how small a mosquito was, it was still meat. Xu Bai did not mind. He picked up a book and began to read.

..

The progress bar for ten low-realm books only took him a day to finish.

He didn't gain much. Most of them were mental cultivation techniques. They didn't even increase by 0.1. After all, they were all low-level progress bars. However, he made a very important discovery, that was, his skills hadn't been integrated.

This time, in addition to the mental cultivation method, he also obtained three skills. These three skills were not skills that he had used before, and there were no similarities.

In this case, the fusion technique was obviously needed to prevent the fusion from taking place. Xu Bai was relieved to find out.

If he could automatically fuse without the fusion technique, he would be at a disadvantage. After all, what the fusion technique fused would increase his level, and directly fusing would probably be the same as the mental cultivation technique.

"Time should be up soon." Xu Bai looked at the sky outside and thought.

At the side, City Lord Si stood there in a daze and did not say a word.

Since Xu Bai knew that City Lord Si wanted to wait for those people to collect the things before killing them halfway, he would go with the flow.

Thinking of this, Xu Bai waited silently.

Since it was a resource left behind by a Saint Realm master, there might be a high-level progress bar.

Although a Saint Realm master couldn't leave any traces in this world, he must have other resources since he had them.

Now that everything was ready, they were just waiting for the array formation to be destroyed before they came to intercept the path halfway.

Thinking of this, Xu Bai began to feel bored again.

There was no progress bar. Now, he was waiting for the array in that place to disappear. Suddenly, he became idle.

Xu Bai walked back and forth. He turned around and asked, "Did anything interesting happen here?"

Since there was nothing to do, he would find something to do. Xu Bai asked subconsciously.

Who knew that when he asked, City Lord Si actually nodded.

"Yes."

"Oh?" Xu Bai's eyes lit up.

City Lord Si said stiffly, "Not long ago, we found a madman. We don't know what the situation is, but that madman ran and shouted that everything was fake."

Was it all fake?

Xu Bai raised his eyebrows and narrowed his eyes.

This sentence was a little interesting. If it was normal or outside, it would not be a big deal, but now it was in the ruins.

Xu Bai could easily guess something else when he heard the words "all fake."

"Could it be that the person discovered that they only existed in a certain period of time in the past, so he fell into the stage of becoming a sentient being?" Xu Bai thought to himself.

These people would continue to live according to the way they were alive and retain their original appearance. However, if they discovered any abnormalities, they would become the Mindful Gods.

The Mindfulness was not strange, but it was still very evil.

Therefore, Xu Bai guessed that it was very likely that he had become a Mindfulness God.

“What happened to that person?” Xu Bai asked.

City Lord Si said, “I was just about to take him down, but he ran far away. His speed is extremely fast. He must be a Transcendent expert. No...” I feel like he’s half a step into the Saint Realm because I couldn’t control him when I used my Saint Realm treasure.”

Half-step into Saint?

Xu Bai rubbed his chin and pondered.

Chapter 886: The Giant Eye (3)

However, after thinking for a while, he gave up on this idea.

There were no clues or traces, so what if they found it?

The most important thing now was to get the resources left behind by the Saint Warrior.

“Let’s continue waiting.” Xu Bai continued to wait.

Time gradually passed. In the blink of an eye, a few days had passed.

In a huge plaza, Xu Bai looked at the person whose soul was under his control and nodded in satisfaction.

“Remember, your goal is to prevent the loss of those resources. You have to do a good job. As for the follow-up, you don’t have to worry about it.”

This time, the order given by the headquarters of the Power-Destroying Pavilion to the branch was to let the people of the branch gather all the resources after the array disappeared and the resources scattered everywhere.

Therefore, Xu Bai felt that he still had to make it look good.

Of course, he had other plans. He would talk about them when he arrived.

“Let’s go!” Xu Bai waved his hand.

Everyone followed behind him and rushed towards the predetermined location.

..

This time, City Lord Si was also following them.

After leaving the city, Xu Bai trailed behind City Lord Si, pretending to be an ordinary member.

The stream of people gathered into a long line and soon arrived at their location.

At this moment, the place was already surrounded by people.

These were the members of the Power-Destroying Pavilion. They belonged to the various branches and were all selected by the headquarters.

The arrival of Xu Bai and the others had attracted attention because City Lord Si was actually in charge of leading them.

The other forces were not led by the City Lord, but they were the only ones, so it was a little strange. However, everyone belonged to the Power-Destroying Pavilion, so they did not suspect anything.

Xu Bai stood behind City Lord Si and looked around. He said softly, “Is there anything strange?”

City Lord Si shook his head, indicating that there was nothing strange.

The so-called strangeness was asking her if there were any hidden experts here, but it seemed that City Lord Si didn’t.

After all, they were only collecting some resources. There were no outsiders coming to snatch them, so there was no need to send many experts over.

Xu Bai licked his lips.”

His divine soul quickly spread out and soon enveloped the surroundings. Everyone present was under his control.

In any case, he would have to intercept them in the end. It was better to control them directly and let them collect the resources first. Then, he would see if there was a need to continue acting.

If there was, then he would continue acting. Of course, he would have to change the method. If there was no, he would use another method.

After these people were all under control, Xu Bai finally had time to size up the place surrounded by the crowd.

It was a huge empty space. There seemed to be nothing on the surface, but the ground was covered in all kinds of patterns drawn with blood, which looked extremely strange.

What was even more ridiculous was that the blood was actually flowing slowly, forming a cycle.

"This should be a formation." Xu Bai thought.

Now that these people were all under his control and were all his own people, he did not have any other thoughts and just waited patiently.

As time passed, the blood flow slowed down and slowed down. The blood coagulated, and the whole picture, which was originally in an active state, became lifeless.

At this moment, the ground began to tremble violently. Then, in front of Xu Bai's eyes, cracks appeared on the ground that was covered with patterns. It began to collapse and shrink.

Not only that, but the ground that had collapsed and shrunk actually emitted bursts of light.

This light was dazzling and colorful. Even an ordinary person would be able to see its mysteriousness.

"It's coming." City Lord Si said.

Xu Bai nodded.

He turned around and retreated, leaving everyone behind.

He had to be careful with this thing, so the more careful he was, the better. Anyway, these people were responsible for collecting it, so he left them there.

Flying high up in the sky, Xu Bai looked at the scenery below and felt a little safer.

The five-colored light gradually weakened. Then, streams of light emerged from it and flew in all directions.

Under White's control, the people present quickly chased after the flowing lights and quickly followed them.

Only Xu Bai remained in the sky, looking at the black hole below with a slightly focused gaze.

He saw that inside the hole, there was something so weak that it was invisible to the naked eye, shining.

“There is indeed something fishy.”

If he was like those people, chasing after other resources, he would probably miss this thing.

Xu Bai thought for a moment and scanned the area with his Astral Body. He found that the faint light hidden under the hole was a pair of eyes.

His eyes were filled with chaos and coldness.

“F \* ck!”

In just an instant, Xu Bai’s hair stood on end. He seemed to have discovered something.

An extremely chaotic feeling came from the hole. The pressure shook the sky and earth, and Xu Bai couldn’t help but take a step back.

– Mindfulness!

Your grandpa!

Xu Bai didn’t say anything else. He found a place and quickly ran away.

A Saint Realm master had lived here. He had been chased by the people of the Power-Destroying Pavilion and had hidden himself with a formation, but he had died in the end.

These words came from City Lord Si, and City Lord Si had also heard them from other places. However, when Xu Bai saw this scene, he thought of another possibility.

Mindfulness!

This Saint Realm expert might have become a Mindful God before he died!

Chapter 887: The Giant Eye (4)

A saint-tier master had become Nianshen, which was also saint-tier.

Xu Bai felt a chill run down his spine. This was the reason why he didn't hesitate to turn around and run. However, the icy feeling was getting closer and closer.

He didn't turn his head. Just by scanning with his spirit, he knew what was behind him.

A man in tattered clothes was chasing after him.

This person's expression was distorted. There was nothing but confusion in his eyes.

Even though Xu Bai had used the Great Phantom Art, this person could cross a very long distance in the air with a single step. The distance between him and Xu Bai was gradually shrinking.

"Damn it, hell has begun." Xu Bai thought as he ran.

The journey had been smooth, but they never expected to encounter the most dangerous thing in this place.

He wasn't a fool. He didn't think that he could fight a Saint Realm expert with his current strength.

If he had just entered the Saint Realm, he still had a chance. After all, he had three Saint Realm skills. However, the person chasing him was obviously not the kind of person who had just entered the Saint Realm.

"Uncomfortable."

The distance between the two sides was gradually closing. If he was caught, he would definitely not have a good ending.

Xu Bai sighed silently.

He knew that in his current situation, he probably couldn't escape. Since he couldn't escape, he would fight.

He turned around.

In the next moment, he felt a huge pressure coming at him.

The Divine Thought was covered in distorted air. When it saw Xu Bai stop, it reached out its hands and grabbed at Xu Bai.

It was just a simple action, but in Xu Bai's eyes, it was like two huge mountains pressing down on him.

“Hu...” Xu Bai let out a long breath.” Fortunately, I found a life-saving method before this. Otherwise, I would really be finished.””

As he finished speaking, he directly lay down in midair.

“Find a cool place to lie down. Xiao Jin, I’m counting on you.”

After Xu Bai laid down, he immediately launched all kinds of attacks and began to destroy his divine soul.

All kinds of attacks had already reached the first level of the Saint Realm, and the divine soul attacks contained in them had reached the same level. Therefore, it was easy to destroy the divine soul of a ninth-grade Transcendent like him.

Pain, very painful!

This method was simply unbearable for him.

Although he had suffered before, this was the first time he had encountered such a situation.

His soul was being destroyed, and soon, Xu Bai lost consciousness.

The two hands were still trying to grab Xu Bai. At this moment, Xu Bai lost consciousness and fell from the sky.

The Divine Thought was now only left with countless chaos and strangeness. Of course, it didn’t know what fear meant and continued to chase after Xu Bai.

Xu Bai was falling very fast, but the Divine Sense was even faster. When the two hands were about to get close, Xu Bai suddenly stopped and opened his eyes.

One of the eyes was golden while the other was grayish white. They looked extremely evil.

When he opened his eyes, the surrounding air seemed to have frozen. The two incomparably huge hands became extremely slow.

The next moment, Xu Bai extended his right hand and flicked his finger.

“Boom!”

The golden and gray-white colors intertwined and directly entered the Divine Thought God’s forehead.

A huge rumble sounded, and the feeling of the earth shaking and the mountains shaking gradually spread out. The Divine Sense hugged its head and howled miserably.

Although Xu Bai's eyes were golden and gray, there was no emotion in them. There was no emotion in them. He was more like a wooden statue.

Indifferent and indifferent.

It was as if he was standing above the nine heavens, looking at the myriad of living beings that were like ants.

After the Divine Divine Consciousness screamed for a while, it instantly turned into ashes.

With just one move, he had completely wiped out the Divine Thought.

This time, Xu Bai didn't change back. He still maintained the appearance of his eyes with different colors and looked up at the sky.

There was an aura circulating on his body that quickly spread in the surroundings.

Grayish-white and golden heavenly changes gradually interweaved. Chaos and rationality were blending.

In the sky, a series of thunder suddenly sounded. Immediately after, the surrounding dark clouds spun and spiraled, continuously spreading.

An eye suddenly appeared at the center of the area. Its gaze was cold and gave off a soul-stirring feeling. When this eye appeared, the entire world changed color.

It was as if the world had turned black and white, and only this eye had color.

Cracks appeared in the surrounding space, and even time began to slow down.

Not far away, a tree swayed gently with the wind and instantly turned into nothingness.

The eye was scanning the area as if it was looking for a target.

At this moment, the golden and grayish-white colors on Xu Bai's body suddenly fused into one and covered him.

After being covered, the aura on his body was completely isolated, and the gold and grayish-white color actually matched the surrounding environment very well. Gradually, it produced an effect similar to invisibility.

Its huge eyes were filled with human-like confusion. It swept its gaze around, but it did not seem to see what it wanted to see.

However, he was unwilling to give up. He scanned the area several times, but in the end, he still did not get what he wanted.

Soon, the huge eye disappeared with a hint of doubt.

Chapter 888: The Giant Eye (5)

After the eye disappeared, the golden and grayish-white sky slowly opened.

Xu Bai stood on the spot with his hands behind his back. His eyes were tightly shut.

But he remained motionless, as though he had fallen asleep on his feet.

After the time for half an incense stick to burn, he slowly opened his eyes. The golden and grayish-white color had disappeared, replaced by a sense of confusion.

“Done?” Xu Bai looked around and heaved a sigh of relief when he found that he was unharmed.

“As expected of you, Xiao Jin. You can even deal with a Divine Thought. I don’t think anyone in the Divine Realm can withstand my pengci style.”

Actually, he had wanted to use this move for a long time, but he had never found a suitable person. Now, he had tried it today, and it was very successful.

The Divine Sense that had entered the Saint Realm was gone. It had disappeared completely.

Xu Bai finally relaxed, but this didn’t last long. Suddenly, he remembered something and his expression changed.

“Oh no! Those guys didn’t have my control, so they probably recovered!”

Just now, in order to escape, he had no choice but to use the method of soul annihilation on himself.

Although he had successfully escaped, the final result was also very obvious. He had fainted, and it was impossible to control the divine soul without any consciousness. In other words, those who were controlled by him had all woken up.

“Fortunately, when I was controlling them, I erased the process of controlling them. However, this time, I think I really have to rob them.”

Now that he had been delayed for so long, those people might have already obtained the resources and were probably about to set off. He could not go and look for them one by one, so he could only rob them.

“Let’s go back first. After we go back, we’ll have to use the old method.” Xu Bai understood the essence of the matter and did not stay there any longer. He walked toward the city.

..

City Lord Si felt that there was definitely something wrong with him. At the very least, something was wrong today.

For some reason, she and a bunch of her subordinates ran over to intercept the escaping resources and even successfully intercepted a portion of them.

However, this was not what she wanted to do. What she wanted to do was to rob the Dao!

They were clearly prepared, so why did they come over to intercept the resources?

The most important thing was that he had come here for no reason and had no memory of it.

She asked her subordinates, and they all said that they had no memories of this incident.

In other words, a part of her memory was missing.

No matter how she thought about it, she could not figure out what had happened.

But everything was going so smoothly, so smoothly that it made one’s hair stand on end.

She met people from other cities on the way, and they were also holding the resources she had intercepted.

After asking, he found out that even the other party was a little baffled.

However, the other party remembered more things than them. This was because the other party remembered everything that happened before he came here. It was just that the memories behind it were a little blurry.

“Something must have happened in the city. Let’s go back first.”

Her thoughts were in a mess now, and she was in the wilderness, so she did not plan to stay here for long.

These resources still had to be handed over when the time came. She needed to go back first and snatch the other people’s things on the way.

As for what happened today, he would think about it slowly after he snatched it over. He would eventually be able to figure it out.

The distance from the wilderness to the city wasn’t too far. Everyone was rushing at an extremely fast speed. Soon, they could see the outline of the city in front of them.

Everyone was walking when City Lord Si, who was at the front, suddenly stopped.

After she stopped, the others also stopped.

Everyone was puzzled and followed City Lord Si’s gaze.

They saw a young man slowly walking over from an empty space not far away.

This young man was wearing a Daoist robe, and he gave off a familiar feeling as he walked.

Yes, it was a sense of familiarity.

City Lord Si had a feeling that he had seen this man somewhere before, but if he thought about it carefully, he couldn’t figure it out.

At this moment, as the man walked over, they heard a voice.

“Hello everyone, we meet again.”

This voice sounded extremely familiar, as if he was very familiar with them.

City Lord Si’s brows furrowed tightly. Other than the fact that she seemed to have seen this man before, this man also gave her an extremely dangerous feeling.

It was like a prey being closely watched by a hunter. Everything about him was in the hunter’s control, and his life and death were also in the other party’s grasp.

“Be on guard!” City Lord Si said in a low voice.

In just a moment, she had her subordinates be on guard. If anything went wrong, they would immediately attack.

However, just as she finished speaking, she saw the man in front of her open his arms and the power of his soul swept over...

“What a familiar feeling...” City Lord Si only had time to say one sentence before he lost consciousness again.

The others were the same and quickly followed City Lord Si.

The surroundings were so quiet that one could hear a pin drop. Everyone present stood motionless on the spot like wood, their eyes dull and their expressions indifferent.

Xu Bai smiled as he looked at the people he controlled. He snapped his fingers and waved his hand. “Let’s go. Follow me to the Tribulation Dao.”

Chapter 889: Illusion (1)

Those resources were just left there. It was better to wait for him to retrieve them and see if there were any important progress bars.

At present, he had not found any information related to the cheat, nor did he have any so-called mystery that could be solved.

Since he couldn’t find it, he would take this opportunity to find more progress bars. It was a worthwhile trip.

As Xu Bai waved his hand, everyone followed behind him and walked toward the designated location.

..

According to what he had said, in order to send all the resources to the headquarters, they had to pass through a place, and this was a good place to ambush.

Xu Bai didn’t care about these people. He just let them guard the place and inform him if anything happened. He was thinking about the matter of killing the Saint Intentional God not long ago.

Previously, he had no other choice, so he used this move. He did not have any memories of it.

Although he had no memories, he still found something unusual. The most important thing was that he was in the air at that time, but when he woke up after fainting, he was standing on the ground.

This was something worth pondering.

Could it be that the golden finger had taken over his body and done these actions?

Of course, these were just his guesses, but with this conjecture, he proved that the golden finger could indeed take over his body.

“So what exactly is Xiao Jin?” Xu Bai rubbed his chin and thought to himself.

At this moment, City Lord Si slowly walked over from not far away with a dull expression.

“They’re here. They should be coming one after another.”

“Oh?” Xu Bai’s eyes lit up. He temporarily gave up thinking and went to the dark to observe.

Not far away, a member of the fraternity was slowly approaching with a backpack on his back.

They flew from the sky, and they were all mortal evolution state masters.

“Is there anyone you don’t know?” Xu Bai asked.

He had to be more stable in doing things. He wanted to see if there were any strangers here. If even City Lord Si felt that they were strangers, he would have to think of other ways.

City Lord Si shook his head.”

Xu Bai nodded after receiving the reply. He was relieved that there were no strangers.

His divine soul swept across and swept up the people in the sky. In the next moment, these people were all controlled and fell from the sky to the ground. Their expressions became as lifeless as wood.

Since they didn’t, they used the simplest method. Xu Bai directed these people to hide again.

Then, a few more waves of people like this were controlled by Xu Bai with his soul.

Just like that, after about half an hour, there was already a huge pile of people here.

“Is there anyone else coming?” Xu Bai rubbed his hands.”

City Lord Si took a quick glance and compared it with the people he saw in his memory. In the end, he shook his head.”No more.”

In other words, all of these people had been captured by Xu Bai.

“Alright, all of you open your bags and let me take a look.”Xu Bai commanded.

As he finished speaking, everyone present opened their bags and poured out all the resources inside, piling them on the ground like garbage.

Xu Bai looked through them one by one and found that most of them were useless. Although they were very useful to people in the industry, there was no progress bar.

“It can’t be. Don’t tell me that there are no books for the other?”Xu Bai thought to himself.

In this era where resources were exhausted, it was normal that there were no secret manuals. However, Xu Bai didn’t believe that a sage-level master wouldn’t keep them.

He patiently continued reading. Finally, after searching for a long time, he saw a book with a golden progress bar.

“Good stuff!” Xu Bai’s eyes lit up as he picked up the book.

Just by looking at it, he realized that the progress bar of this book was extremely slow.

The slower the progress bar, the more likely it was a high-level skill.

Although he had only taken a glance, he could tell that this thing was definitely not simple.

With this in mind, he first opened the book and glanced through it. Then, he saw the contents and was slightly happy.

“I didn’t expect that I would actually be able to obtain this thing. It’s really unexpected.”Xu Bai was delighted.

When he flipped open the book, he was surprised to find that the contents of the book were the experiences of failing to become a saint. He had only glanced at it briefly and confirmed the contents.

This book was written by the Divine Sense when he was still alive. When he broke through to the Saint Realm, he had failed once, so he wrote down his experience once. He only succeeded the second time.

Most importantly, this was written by someone who had already become a saint.

This meant that the level of this book was much higher. He did a rough calculation and the progress bar was indeed much slower. Perhaps he could learn something different from it.

Xu Bai excitedly put the book in his arms and looked for other things. Unfortunately, he didn't find anything else related to the book.

Since he didn't find anything related to the book, he had to make plans for the next step.

Xu Bai rubbed his chin and paced back and forth, thinking about what to do next.

## **I Have Unparalleled Comprehension #Chapter 890: 239-Illusion (8000) - Read I Have Unparalleled Comprehension Chapter 890: 239-Illusion (8000)**

Chapter 890: Chapter 239-Illusion (8000)

He had already intercepted the item, but the only thing that was useful to him was this book.

The current situation was that he did not know when the ruins would end, so he had to continue looking for clues.

The question was, how was he going to find clues?

Now, he only had one clear direction, which was the headquarters of the Power-Destroying Pavilion. Only there could he find new clues.

However, he didn't go to these things just because he was told to. There were three Saint Realm masters there. If he went there, it would be very dangerous. If he didn't do it well, other big problems might appear.

All in all, it would be a little rash to decide to go to the headquarters of the Power-Destroying Pavilion now.

Thinking of this, he decided to continue escorting the resources to the headquarters.

At the moment, the most important thing to him was the book on failing to become a saint warrior. He only took one book. With such a huge amount of resources, it was not a big deal to lose one book, so there was no risk of exposing himself.

This was what he had considered before. If he needed a lot of resources, he would not send them over. It was another plan.

However, he only took one book now. He could send these things over to reduce the risk of him being exposed.

Although these people could be controlled within the range of his divine soul, the headquarters of the Power-Destroying Pavilion was still very far away from here. Once they were out of the range of his divine soul, Xu Bai would not be able to control them.

However, this was not a big problem. Xu Bai's True Core Strength surged, and with a little movement, he modified the souls of these people, making everything very smooth.

They wouldn't feel that they were being controlled. The fact that they had to hand over the resources had never appeared in their minds. They would continue to escort them over as usual.

After doing all this, Xu Bai waved his hand and let these people leave. He planned to return to the city first and carefully consider what his next step should be.

At this moment, a figure suddenly flew across the sky. Xu Bai looked up and saw a mortal evolution state master. He had seen this master before, not in the ruins, but in the human world.

This person should be the one who entered the ruins.

This time, there was a big difference between entering the ruins and the last time. The last time, he would enter with the others, but this time, he was alone. There was no trace of anyone else.

Even now, he still felt that this matter was a little strange. At this time, he suddenly encountered someone coming in from outside. Xu Bai immediately prepared to stop this person.

However, before he could make a move, he discovered that there were two strange-looking things chasing after this person.

Although it was said to be grotesque, it was actually the size of a human.

However, one was as fat as a ball, and the other was as thin as a bamboo pole.

These two people had a violent aura on their bodies and were chasing crazily.

Xu Bai's gaze froze slightly. He had already sensed that the two people chasing after that person were not humans, but existences that had already transformed into Mindfulness.

Everything had gone smoothly since he arrived here. Other than meeting the Divine Mindfulness, nothing else had happened. Now that he had met two Divine Mindfulness, he was even more interested.

In the sky, the mortal evolution state was still running for his life. At this moment, the two Psyche Gods that were chasing him suddenly stopped.

He subconsciously turned his head. Then, he saw a brilliant white light burst out from the bodies of the two Mindful Gods. They turned into smoke and disappeared.

This scene stunned the mortal evolution state and he even forgot to run.

"Die...Is he dead?"

He knew very well what realm these two Deities were at.

That was the same realm as him, but now he actually died in an instant. This made him somewhat puzzled.

At this moment, he felt someone watching him.

He subconsciously followed the gaze and saw the person standing on the ground.

Then, the mortal evolution state master was ecstatic.

"Xu Wangye!"

As he shouted, he landed on the ground. The excitement on his face was very obvious. Anyone could see it.

It was guaranteed! This round was completely secured!

In the beginning, all of them who entered the ruins had the same idea, which was to cling onto Xu Bai's thigh.

However, to his surprise, this time, he didn't see Xu Bai.

This made them feel lost.

But now that he met Xu, he saw hope.

As long as he was by Prince Xu's side, he would be able to win this round.

Don't forget what kind of person Prince Xu was. Among the current Transcendent experts, Prince Xu dared to say that he was second, but no one dared to say that he was first.

Transcendent...

That was the strongest realm below Saint Plane.

As long as he didn't provoke the Divine Sense in the ruins, Prince Xu could kill his way through.

Xu Bai also saw the man's excitement and naturally knew what he was thinking. He frowned and said, "Don't get too excited. Tell me what happened."

Hearing Xu Bai's words, the man suppressed the excitement in his heart and slowly told him what had happened.

Xu Bai finally understood the cause of the matter.

This person was called Zheng Hong, the clan leader of a clan.

If a family had an Extraordinary expert as the family head, it could be considered a second-rate family.

## **I Have Unparalleled Comprehension #Chapter 891: Illusion (3) - Read I Have Unparalleled Comprehension Chapter 891: Illusion (3)**

Chapter 891: Illusion (3)

Don't look down on a second-rate family in the United States. Even if it was a second-rate family, there were very few in this world.

Because of this, the ruins this time were very large. He also wanted to come in and try his luck. He could bring benefits to his family.

The truth was just as Xu Bai thought. This time, only Xu Bai was left alone. The others were all together. They did not know what Xu Bai had experienced, but now Xu Bai knew what they had experienced.

The place where they had descended was a deep mountain. That mountain was very strange. There were no signs of life, not even an ant. There was only a group of people.

At that time, they thought that they might as well start searching from this mountain. Therefore, they really did so, but the result was unexpected.

They walked directly from the foot of the mountain to the top of the mountain, but unfortunately, they did not find anything on this trip. At that time, the sky was a little dark, so they wanted to come down from the mountain.

At that time, they did not think of splitting up.

After all, this was a super-large ruin. There were indeed many resources inside, but the danger was also multiplied.

Therefore, they wanted everyone to unite and distribute the resources equally. This way, they could better ensure their safety.

They had never expected that their trip down the mountain would be filled with ups and downs because of this.

They didn't encounter anything when they went up, not even a person. However, when they came down, they encountered a person. It was a blind man in tattered clothes. He held a long banner in his hand, and there were blurry words written on it.

They knew that they had encountered a local in the ruins. Moreover, from the looks of it, he did not seem to have turned into a Mindfulness God.

Therefore, they thought of going up and exchanging information to see if there were any benefits.

However, they never expected that before they could take two steps, this person would actually attack them directly.

His speed was extremely fast, and he was actually a Transcendent expert.

Fortunately, they had no lack of Transcendent experts on their side, so they managed to block the attack.

They also knew that they could not negotiate, so they were prepared to take down this blind man. However, something changed later. This blind man actually turned into a Mindfulness God without any warning in front of them.

Without any warning, he had become a Mindful God. There was still a slight pause when casting spells, but the speed at which this person became a Mindful God was really unbelievable.

Of course, it was fine if he became a Mindfulness God. At most, everyone would kill him. However, before they could do so, countless Mindfulness Gods appeared on the originally empty mountain.

The number of Mindfulness Gods was simply hair-raising.

Even though they had many people, they could not hold on either. Soon, they turned into a disadvantage and began to escape.

However, it was useless to escape. Soon, their disadvantage was completely irreparable. Being chased by so many Mindful Gods, they gradually scattered from one body and fled in all directions.

Zheng Hong wasn't sure about the situation of the others, but he was lucky enough to meet Xu Bai. If he continued to run like this, he would be caught sooner or later, and the consequences of being caught were obvious. The only way out was death.

"I see." Xu Bai rubbed his chin.

If that was the case, there was nothing else going on in that place.

It was nothing more than a large-scale transformation into a Mindfulness God.

There were many problems in the ruins, so it was normal for this to happen.

No!

Xu Bai had just thought of that idea, but he quickly dismissed it because of the word 'large-scale'.

If it was just one or two, it would be fine. They might have discovered something different about him. However, if they appeared in large numbers, the meaning would be different.

"How far is that location from here?" Xu Bai asked.

The fact that these people could run out proved that there was no Saint Realm existence there. If there was, none of them would be able to escape and Zheng Hong wouldn't be able to run in front of him.

"Let's go." Zheng Hong pointed in a direction. "Just follow this place. It's the first mountain peak we encounter."

Xu Bai looked in the direction that Zheng Hong was pointing at and snapped his fingers at the others.

Soon, these people walked stiffly into the city.

After they returned to the city and left the range of Xu Bai's soul, they would forget these things like the others before them. Moreover, they would forget them very smoothly, and there would not be any problems like before.

Since there was something unusual, Xu Bai decided to go and take a look. There was no Divine Consciousness there anyway, so he could kill it all by himself.

“Find yourself a safe place. I’m going to take a look. If anything happens, I won’t be able to protect you.” Xu Bai said.

He was right. He didn’t have time to be a nanny this time.

Zheng Hong sighed. He knew the stakes.

He really didn’t want to go to that place anymore. Thinking about the omnipresent Nian Shen, he felt his scalp go numb.

Therefore, Zheng Hong found a place to hide and bid farewell to Xu Bai.

Xu Bai didn’t stop and directly flew into the air, rushing towards that place.

..

The location that Zheng Hong had mentioned sounded very far, but it was actually not far when he started his journey.

Not long after, they arrived at the scheduled location.

Looking at the pitch-black mountain in front of him, Xu Bai rubbed his chin. He didn’t see anything unusual. He gradually expanded his divine soul, but he didn’t feel the presence of the Mindfulness God.

## **I Have Unparalleled Comprehension #Chapter 892: Illusion (4) - Read I Have Unparalleled Comprehension Chapter 892: Illusion (4)**

Chapter 892: Illusion (4)

Thinking about it carefully, the Mindful Gods here should have gone to chase after the others. They were probably long gone.

“If that’s the case, wouldn’t I have made a wasted trip here? No, he had to check it no matter what.”

Although his divine soul had already enveloped the mountain, Xu Bai still planned to walk inside personally. After all, it was safer this way.

At the thought of this, he walked inside.

After stepping into this mountain, he felt the same thing as what Zheng Hong had told him before.

There was no life, not even an animal.

Xu Bai thought for a moment and followed Zheng Hong's method. He walked all the way from the foot of the mountain to the top of the mountain. The journey was also smooth and there were no abnormalities.

"It seems that the problem is on the way down the mountain."

Standing on the top of the mountain, Xu Bai felt the cold wind blowing. He thought for a while and turned around to walk back the way he came.

On the way back, Xu Bai continued to walk on the same road. He stepped on the soft soil as if he was walking on flat ground and continued to rush to the foot of the mountain.

He thought that he would be able to walk without any obstacles. He did not expect that he would encounter an accident when he was halfway up the mountain.

A middle-aged man in tattered clothes was standing not far away from him with a long banner in his hand. The middle-aged man's eyes were wide open.

From Xu Bai's angle, this person's eyes had no pupils. Instead, they were filled with a murky color, making him look extremely scary.

The blind, the long banner, the blind fortune-teller?"

"Wait, didn't this blind man go after those people? Why did he come back here?"

"What exactly is going on..."

When Xu Bai saw this person, he quickly thought of what Zheng Hong had said before, and his heart became even more bewildered.

However, he did not have much time to think because the blind man in front of him had made a move.

A gust of cold wind blew. Blind stabbed the long sail in his hand at Xu Bai. Xu Bai could feel that the blind man in front of him had not become a Mind-reading God.

He was just an ordinary person. Why would such a situation happen?

However, the situation in front of him did not allow him to think too much.

A bright light erupted from his hand. In the next moment, the long sail of the blind man in front of him was directly smashed into countless pieces by him.

Blind stumbled back a few steps. Cracks appeared on the ground under his feet, and he spat out a mouthful of blood.

“Thief, don’t get Cang Kuang!”

Although he was not as strong as Xu Bai, he was not afraid at all. He shouted and prepared to attack again.

“You can still talk. It seems like it’s not what I thought. Then let me know the truth.”

Xu Bai waved his hand lightly.

The soul of the blind man in front of him was instantly controlled by him and turned into a sluggish state.

“Tell me everything you know. What’s going on here?” Xu Bai asked.

Blind opened his mouth and was about to speak.

But unexpectedly, before he could say this, a breeze blew past and he returned to his original state.

“What happened? What happened to me just now?” Blind looked around in shock.

This action meant that he had recovered from the state where his soul was controlled and was no longer under Xu Bai’s control. Due to the blank space in his control just now, he could not remember many things.

Xu Bai narrowed his eyes and turned to look at the top of the mountain.

“There are experts.”

Then, he turned around and fled without saying a word.

The Soul Slaying Knack was able to control the power of a Level One Saint. However, someone could make his control disappear in an instant. What did this mean? It meant that the person who attacked him was definitely a Saint.

Xu Bai knew that the three known Saint Realm masters were in the Power-Destroying Pavilion.

However, he wasn't sure about the rest. At the beginning, he had killed one Divine Mindfulness Deity. Now, there should be eight more. Apart from the three from the Power-Destroying Pavilion, there were only five left.

Where are these five people?

Was there an accident?

No one could understand.

But Xu Bai knew that he had met another one.

If he didn't run, would he stay here for the New Year?

As Xu Bai ran, he aimed all kinds of attacks at his own soul. As long as something went wrong, he would activate it and attack himself to get Little Gold out.

He could only use this kind of pengci method now. Other than that, there was no other way.

A voice came from behind him, interrupting his escape.

"Little friend, your aptitude is extraordinary. I've never even seen you before. Why did you run away when you saw me?"

"Don't tell me you know who I am? But everyone in the world knows that among the nine Saints, I'm the most amiable and gentle one."

"Everyone in the world can't wait to see me, but you ran away when you saw me. This proves that you don't know me. From this, we can infer that you're not from this world."

..

The voice started from behind Xu Bai, but by the time it finished speaking, it was already in front of Xu Bai.

A chubby man appeared in front of Xu Bai. The man was wearing an ordinary gray cloth, but he had a kind face and looked like a good old man.

Xu Bai was stunned and almost couldn't hold it in.

It wasn't because of this man, nor because this man wanted to talk to him, nor because this man was a sage-level powerhouse.

The most important thing was the man's appearance.

Although the man looked fat, Xu Bai could tell that he looked like a human from his facial features and the outline of his face.

## **I Have Unparalleled Comprehension #Chapter 893: Illusion (5) - Read I Have Unparalleled Comprehension Chapter 893: Illusion (5)**

Chapter 893: Illusion (5)

No Flower!

That's right, this man's head was also bald. If he had long black hair, this man would be skinnier and look exactly like No Flower.

"This time, I've really learned something."

Xu Bai didn't understand what was going on. He needed to go out and find someone who knew this industry, such as Director Mu, to discuss this matter with them. Everything in front of him was too strange.

How could he explain this situation?

Reincarnation, or something else?

All in all, he couldn't make a conclusion too early.

Xu Bai still did not let down his guard. He aimed the Soul Annihilation at his own soul. As long as there was something wrong, he would immediately launch an attack.

The fat man smiled bitterly when he saw Xu Bai's expression."Little friend, don't be so nervous. I've already chased my brother away. He definitely won't cause any harm to you."

"Your brother?" "What do you mean?" Xu Bai raised his eyebrows."

Out of nowhere, another younger brother suddenly appeared, making Xu Bai uncertain.

The fat man explained," I have a younger twin brother. Both of us are in the top positions, but we have completely opposite personalities. I am a very kind person. Perhaps you might sound boastful, but everyone thinks so. My brother is completely different. He is an extremely cruel and violent person."

"The specific situation is like this..."

Only Xu Bai and the fat man were left in this space. The blind fortune-teller had already left.

With the fat man's slow explanation, Xu Fan also understood the cause and effect of the matter.

According to the fat man's explanation, he and his brother had been living in seclusion here since the resources were exhausted. As Saint Realm masters, they naturally had a lot of resources and a bunch of subordinates.

However, when two different ideas were fused together, there would be conflicts. He and his brother had conflicts.

The two of them were like fire and water here, and neither of them could stand each other.

Originally, this was not a big problem. At most, he just could not stand it. However, he did not expect that not long ago, something strange had suddenly happened to his brother and his subordinates.

This sudden change came without warning. Almost in an instant, more than half of the people had turned into monsters, monsters that he could not understand.

After that, he and his brother fought each other and killed his brother with a slight advantage.

With the death of his brother, those who had fallen into madness had all changed back.

However, not long ago, a group of people came.

He had never seen this group of people before, but with the arrival of this group of people, the people who had originally transformed back became the same as before.

They had all gone to chase after those people. If he had not reacted quickly and used his methods in time to let these people recover, those people who were being chased would probably have all died.

"As you can see, he has already recovered."the fat man said.

He was referring to the blind fortune-teller, as well as those who had become the Nianshen.

Xu Bai narrowed his eyes." Oh, I know. I want to leave now. Get out of my way.""

The fat man chuckled and said, "It's not easy in this world. It's not easy to meet someone. Little brother, why don't you follow me? I'll find a place and we can have a good chat. That place has what you want."

Xu Bai shook his head. "No, I want to go back now."

The fat man stretched out his hand. "Little brother, the resources are already exhausted. You should follow me. I have a lot of resources that can let you live for a long time."

Xu Bai sighed.

The fat man was stunned for a long time. He could not understand why Xu Bai would say such a thing.

"Little brother, what did you say just now? I didn't quite understand."

He did not believe his ears and wanted to confirm it again and again.

Xu Bai moved his fingers and smiled. "I say, I might as well kill you. It seems like you're not a saint yet, and your ability to make up lies is much weaker."

"Let me think about your ability..."

"The blind fortune-teller who was supposed to chase after someone suddenly came back. If it was any other time, you could say that you saved him, but it's impossible now."

Was this a joke?

Even if he became a saint, he would become a Mindful God. How could he save him?

If it was a normal lie, he would have been able to cover it up, but now it was different. This was the biggest flaw of this lie.

This was because the fat man in front of him did not know about the Divine Consciousness.

Seeing the fat man's expression change, Xu Bai continued, "Also, why are you so sure that you're not a saint? If you were, you would have done it long ago."

As the old saying goes, if you can fight, don't force yourself.

This guy had talked to him for so long and still wanted to make him stay. It was obvious that he was not strong enough.

Then this man's ability would be revealed.

“Hallucinations, or rather, related abilities.”

“That blind man was an illusion, so I didn’t actually control him. It was only you who used it to let me control his illusion.”

“In the end, you made the control disappear. It was also an illusion, including your saint aura.”

“I guessed right.”

The fat man’s expression changed and became extremely cold.

“No, you guessed wrong.”

## **I Have Unparalleled Comprehension #Chapter 894: I Want to Slaughter and Become a Saint - Read I Have Unparalleled Comprehension Chapter 894: I Want to Slaughter and Become a Saint**

Chapter 894: I Want to Slaughter and Become a Saint

The fat man’s face was cold and ruthless. He looked at Xu Bai with mockery and killing intent as if he was looking at a lamb waiting to be slaughtered.

After hearing the fat man’s words, Xu Bai touched his chin and smiled.””I got the wrong point? Hmm, that should be because your ability isn’t just illusions. Let me think, you make me feel like you’re no flower because you have a bald head. In that case, can you follow other people’s thoughts and use them as a foundation to spread illusions?”

He had thought about it again just now. This thing definitely had nothing to do with No Flower, so there was only one possibility.

“You guessed right, but you still don’t know where you guessed wrong.”The fat man took a deep breath. Then, his body gradually expanded.

In the blink of an eye, it had already doubled in size. Moreover, this speed did not stop and continued to grow. As this man continued to grow and expand, his words gradually spread out.

“I am the follower of the dead Saint Warrior. I am the only one in the world who knows that he is dead, and I have successfully taken his place and become a Saint Warrior.”

“Do you know that feeling? All the extraordinary masters in the world don’t dare to try to break through to the Saint Realm. I’m the only one who dares to try to break through to

this realm. It's like a huge delicacy is placed in front of me. Others can only look at it while I can eat it."

"Now that I've finished all the delicacies and occupied the seats, no one has any other thoughts."

"My realm has just entered, so it isn't stable yet. I wanted to reduce the number of sneak attacks and let you die, but you are so smart. Sometimes being smart is a bad thing."

At this moment, Xu Bai finally felt the aura of this guy in front of him. It was the aura of a saint, not something a Transcendent could compare to.

Xu Bai narrowed his eyes slightly. A bright white light was flashing in his hand.

The gold and gray colors intertwined, forming a chaotic and rational change in the sky.

The changes in the sky blended together and finally turned into endless madness.

This madness and chaos also contained rationality.

Xu Bai licked his lips."I've just entered the Saint Plane. I haven't stabilized my cultivation yet. That means I'm only at the First Stage at most."

At this moment, the fat man's body had become five times its original size. The fat on his body had disappeared and was replaced by a circle of strong muscles.

His original appearance, which was similar to No Flower, had now returned to his original appearance. He looked like a ferocious bandit with a fierce face.

When he heard Xu Bai's words, he was stunned. He didn't understand what he meant, but after thinking about it carefully and looking at Xu Bai's current posture, he understood.

"Kid, you want to fight a saint warrior? Are you dreaming?"

He understood that Xu Bai wanted to fight him.

However, this thought was too arrogant in his eyes.

If it were anyone else in this world who knew what Xu Bai was thinking at this moment, they would find it especially funny.

Every major realm was a mountain that no one could cross, not to mention the realm from Transcendent to Saint, which directly raised the mountain countless times.

Transcendents entering the Saint Plane?

Even a thousand of them wouldn't be enough.

"Whether it's wishful thinking or not, you'll know when you see it." Xu Bai didn't give the fat man a chance to speak. The white light in his hand suddenly exploded and then turned into countless broken lights that swept toward the fat man.

The light was so bright that it lit up the entire dark sky. At the same time, countless gusts of wind suddenly swept up.

Cracks began to appear on the ground as it began to sink. The shattered light cut off all the wind.

Ten thousand... Attack!

This was a rare all-out attack from Xu Bai, and he had even used his latest skill. This time, he really wanted to see if he could kill a First Grade Saint.

He was very excited because he wanted to kill a Saint Realm expert.

At the same time, all sorts of support skills were used, and the power of the attack increased by a large margin.

The light was dazzling, and the fat man was in the center of the light. His face revealed a trace of horror.

To be honest, under such circumstances, even if he had just become a Saint, he wouldn't find it strange.

After all, even if a Transcendent Level expert were to stand here and let him attack casually, he wouldn't lose a single strand of hair.

However, when he saw the light, he suddenly felt a chill run down his spine.

The coldness came from his back and instantly swept through his entire body, making him feel as if he had fallen into an ice cellar, and a layer of fine goosebumps appeared on his body.

He knew very well what this feeling was. It was a sign of impending danger.

"Danger. A Transcendent expert can actually give me a sense of danger. Who is he?"

The fat man's mood at this moment was like riding a roller coaster. He was originally standing at the highest point, but at this moment, he had fallen to the bottom.

However, since he could be the follower of a Saint Realm master, his strength must not be low.

Moreover, he had fought his way up from the bottom. His rich combat experience was something that ordinary experts could not compare to.

At this moment, the fat man was prepared.

“Illusion!”

He spat out a word and made a hand seal with his right hand. Then, he still did not move and stood on the spot.

Chapter 895: I Want to Slaughter to Saint Plane (2)

That burst of light actually passed by him at this moment and landed in the surroundings.

“Boom!”

Loud sounds rose and fell continuously.

Everything in the surroundings turned into nothingness under Xu Bai’s move.

A huge pit gradually spread from the furthest part of the surroundings. Soon, it had already formed, and everywhere one could see was a ground full of scars.

Xu Bai’s eyes narrowed slightly, feeling a little strange.

He was very sure that his move was aimed at this person, but this person stood on the spot without any movement. He didn’t even see any defense.

If that was the case, his move could have hit him, but why did it miss?

The fat man didn’t give Xu Bai the chance to think too much. He already knew that the guy standing in front of him was definitely not someone that ordinary Transcendent experts could compare to.

He had to get rid of this person just because he gave him that dangerous feeling.

If he didn't get rid of it, in time, he would definitely be the one to fail.

No one could afford the price of failure, so they had to eliminate the root of the problem.

The fat man had already transformed into a giant. At this moment, he pointed at Xu Bai with a finger, and a light flashed in his eyes.

There was no movement in the surroundings, but Xu Bai saw the scenery suddenly change. He was no longer where he was, but on a huge grassland, surrounded by corpses.

The corpses were all people he knew.

Eunuch Wei, Emperor Chu, Yun Zihai, Wu Hua...

There was also Liu Xu, Ye Zi, Chu Yu, Chu Ling...

Everyone he knew had fallen to the ground and turned into a stiff corpse.

"Is it an illusion again? But with your methods, how could you use such a low-level illusion?"

If it was any other time, he might have believed it if such a scene suddenly appeared. However, after knowing that the other party's strongest technique was an illusion, he felt that the scene in front of him was too fake.

If the other party could seize the time to reach the Saint Realm, he definitely wasn't a fool.

Moreover, when he launched his attack just now, the other party's response was very timely. Clearly, he was also an expert who had experienced hundreds of battles, so it was impossible for him to use such an ordinary move.

Thinking of this, Xu Bai became more and more cautious. However, other than the corpses on the ground, he did not see the fat man.

At this moment, Xu Bai suddenly felt an emotion in his heart.

This emotion came very quickly and appeared in an instant. It was gradually affecting his thoughts. He suddenly felt that the corpses in front of him made him feel unusually sad.

"I see. Not only can it affect one's sight, hearing, and feelings, but it can even affect one's thoughts." Xu Bai touched his eyes and found that they were a little wet.

Although he was already in tears, he was still thinking calmly. He had already figured out this guy's methods clearly.

"If that's the case, then I'll destroy everything in front of me so that I won't appear sad."

Xu Bai raised his hand, and a bright light appeared before his eyes again.

However, when he wanted to destroy everything in front of him, he felt a kind of emotion that made him unable to do it at all. It was as if he could not bear to do it now.

That's right, he was affected by the illusion in front of him again.

This illusion was very unreasonable. Even if he knew that it was all fake, it could still affect him imperceptibly.

"Yes... Very good." Xu Bai put down his hand and took a deep breath.

Under such influence, he really couldn't do anything.

It was a very strange feeling. It was like holding a knife and wanting to stab yourself, but when you raised the knife, you were stopped by yourself. It was very conflicted.

That sadness was still affecting him, even making him give up resisting.

"I've seen many tough people, but this is the first time I've seen a special ability like yours." Xu Bai said.

As he spoke, the fat man's words came from around him. It was as if he was replying to him, filled with disdain and mockery.

"If I had just stepped into the Saint Plane and fought you to the death, I'm afraid no one would be able to defeat you. But I'm different. I'm not that kind of boorish person."

Other than mockery and disdain, there was also excitement in this voice, as if he had seen the most expensive treasure in the world.

"You're so special, so you must have a huge secret. After I catch you, I'll study you carefully. Don't worry, I won't let you die so easily."

The sadness in Xu Bai's heart was still growing, but after hearing the fat man's words, he shrugged and pretended to be indifferent. "You should still care about yourself."

As soon as he finished speaking, the fat man's voice sounded again.

"Care about myself? What's there to care about? Can you still crack it now?"

“That’s right. I can tell you clearly that after you destroy these corpses in front of you, it’s possible for you to break my illusion.”

“But do you have the heart to destroy it? If you couldn’t make a move, you wouldn’t be able to make a move.”

Every word was said precisely. It was obvious that this guy knew his own ability, which was why he was so confident and thought that he could control Xu Bai.

“Yes, I can’t attack, but that doesn’t mean I can’t attack you.” Xu Bai took a deep breath and calmed the sadness in his heart for a moment.

## **I Have Unparalleled Comprehension #Chapter 896: I Want to Slaughter and Become a Saint - Read I Have Unparalleled Comprehension Chapter 896: I Want to Slaughter and Become a Saint**

Chapter 896: I Want to Slaughter and Become a Saint

It was also at this moment that he turned around and waved a terrifying light at the ground beside him.

In fact, he could totally awaken Xiao Jin, but there was no need for that. If he couldn’t even deal with this guy, then he would have wasted his time. He couldn’t do anything to these corpses, but he could directly attack the ground.

By now, he already knew why the attack just now had failed. It must have been that before the attack was about to arrive, this guy had used an illusion to mislead him, so he missed.

It doesn’t matter. I’m going to hit the ground now. No matter how you change it, no matter how you make my attack deviate, you can’t make it deviate to the sky, right?

In any case, there was no difference between hitting the ground vertically or diagonally. However, there was a huge difference when hitting the ground.

“Boom!”

This time, Xu Bai did not hide his strength at all.

When the light landed on the ground, the ground began to shatter and fall.

The mountain he was on was collapsing at a speed visible to the naked eye.

Everything around him was shattering.

As the mountain collapsed, the scenery showed a momentary flaw, but it was quickly stabilized by the fat man. A new round of illusions was about to be woven.

However, it was extremely dangerous for experts to exchange blows, even if it was only for a moment.

Xu Bai seized this moment and saw the flaw in the scenery. The white light in his hand exploded again.

“Boom!”

The rumbling sound rang out again. Everything around him finally collapsed completely. He returned to his original position, but the peak of this mountain had already been flattened by him.

Looking at the fat man in the air, Xu Bai smiled.

“I really like your arrogant look just now. Please maintain it.”

These words were like a knife that was deeply carved into the fat man’s body. At this moment, the fat man’s expression became extremely cold.

He had mocked Xu Bai just now, but now, he was stopped by Xu Bai’s words and had no strength to refute.

“It doesn’t matter. You can’t kill me anyway. I’m leaving now. What can you do to me?”The fat man sneered.

“All your attacks can’t hit me, it’s just a taste of your mouth, but you can’t hurt me at all.”

He had thought it through. He could have continued to attack, but now he decided to give up. He was only a First Grade Saint, and his strength was not very stable.

Because he had just broken through to the next level, if he continued to fight with Xu Bai, he might fall. Therefore, he could only retreat first. After all, he had just seen Xu Bai’s method of breaking his illusion and felt that this guy was very strange.

As long as he managed to escape successfully and stabilize his cultivation base, he would be able to kill this guy.

Thinking of this, the fat man didn’t want to talk nonsense with Xu Bai anymore. He turned around and prepared to escape.

But at this moment, Xu Bai’s voice was heard.

“How do you know that I can’t hit you?”

A sense of danger instantly spread throughout his entire body.

The fat man didn’t even turn around. He just wanted to run away with all his might, but when Xu Bai spoke, he was stunned.

It was at this moment that he could not escape.

Dazzling white light burst out from Xu Bai’s hand. This time, it didn’t go in one direction. Instead, it spread out with Xu Bai as the center.

The speed at which it spread was extremely fast. In the blink of an eye, everything in sight was filled with white light.

It was still a myriad of attacks, but he used them in a different way.

Actually, this was a very simple principle.

For example, if someone else was hiding in the dark and talking to you, you would have a weapon in your hand. If you poked it here and there, it would be impossible to hit it.

However, since the other party could talk to you and was within this range, why did you use a single target attack?

It could directly cover the surroundings without limit. With a terrifying area-of-effect attack, even if it was hidden underground, it could still be pulled out.

A white light suddenly appeared, and a terrifying power fell on the fat man.

The fat man spat out a large mouthful of blood. He felt that both his external body and his soul had suffered terrifying damage, and this damage was still colliding with each other, continuously worsening his condition.

” What kind of attack is this?!”

He had only taken one move and was already heavily injured.

As a person who often followed Saint Realm masters, he was of course a man with a wide range of knowledge. Therefore, he could tell the difference in an instant.

“Your attack can actually reach the Saint Realm. Aren’t you afraid of being sucked dry?”

He knew very well that although he was only a weak Saint, he was at least a Saint.

Only a saint level ability could hurt him. In other words, this attack was a saint level one.

However, wouldn't a Transcendent be sucked dry in an instant if he used a Saint's attack?

Why did this guy look so cool and unrestrained? He didn't even feel anything at all?

"I have a lot," Xu Bai said with a smile.

These three simple words were confusing.

Xu Bai was the only one who knew that the kidney harvesting technique had also been upgraded to level one saint.

His kidneys still contained the True Core Strength of a First Stage Saint Warrior.

This kind of thing can't kill you?

Seeing the fat man fall to the ground with serious injuries, Xu Bai smiled and took a step forward.

He used the Great Phantom Art and arrived in front of the fat man in the next moment.

Looking at the fat man who was shrinking and returning to normal, Xu Bai raised his foot and stepped on the man's forehead. He bent down and smiled.

Chapter 897: I Want to Slaughter and Become a Saint

"Are you convinced?"

The fat man nodded quickly. He no longer had the imposing aura he had at the beginning."Lord, please spare my life. It's not easy to live until now. As long as you spare me, I'm willing to follow you around!"

"No need." "You don't have to follow me around at all. You just need to answer some of my questions," Xu Bai said with a smile."

At this moment, the fat man was attacked by Xu Bai and was seriously injured. He could not use any of his abilities at all. When he heard that Xu Bai would let him go, his face revealed a look of ecstasy and he quickly nodded.

“Sir, please speak. As long as I know, I will tell you everything I know. As long as I say no, you can immediately take my head.”

Xu Bai was very satisfied. This guy really knew how to adapt to the situation. No wonder he could follow a Saint Realm master.

With this spirit of a fairy and extremely experienced in doing things, he could be popular anywhere.

However, what he wanted was not an unstable factor.

His divine soul spread out.

The next moment, the fat man in front of him was already under his control.

The Soul Slaying Art belonged to the Ten Thousand Attacks, and it was also a level one Saint Realm skill.

Of course, he was stronger than the First Grade Saint Realm cultivator in front of him, which was why he could control it.

The reason why he didn't control it before was because he knew that this guy could use illusions to guide him.

Although his divine soul could cover a large area, after covering a large area, his control would be weak, and he might not be able to control it. Therefore, he first attacked a large area and now controlled it from point to point.

As Xu Bai's spirit was released, the fat man's face turned dull. He was already under Xu Bai's control.

Xu Bai nodded in satisfaction and slowly asked, “You just said that I'm not from this world. What do you know?”

Not long ago, when the fat man was disguising himself, he was still communicating with him. At the same time, he said that Xu Bai was not from this world, which made him feel the strangest.

How could this guy know?

Logically speaking, it was impossible for the people in the ruins to know.

Xu Bai guessed that someone who came in had leaked the information.

However, that was just a guess. Now that there was someone here who understood the cause and effect, he naturally wouldn't let it go.

As Xu Bai asked this question, the fat man's eyes were still dull, but his expression changed.

His expression became extremely terrified.

It was as if he had seen something that terrified him the most. His entire body suddenly trembled, and dense sweat appeared on his head. His entire body trembled like a sieve.

"Hmm? What's going on?"

In the past, when he used this move to control, it was completely impossible for such a situation to occur.

Even if he asked about the most private matter, the other party would also say it out without holding back. Moreover, he would say it out with a dull expression. But now, there was fear flowing on this guy's face. What did this mean?

This meant that the things he thought of were beyond Xu Bai's control.

Although Xu Bai's expression was calm, his heart was in turmoil. He was waiting for this guy to continue talking. He thought that there must be a huge secret that was about to be exposed.

After about ten breaths, the fear on the fat man's face still did not fade. However, he was still under control and slowly said something with great fear.

"He's here, he's here again. He took a glance at me and I knew a lot. I don't know why either..."

Every sentence and every word seemed to be uttered with all his might.

"Who is he?" Xu Bai asked.

The fear on the fat man's face deepened. He opened his mouth and wanted to continue.

However, before he could say anything, the aura on his body suddenly changed.

"Fake, it's all fake. We're all dead, hahaha!"

Chapter 898: Look at My Past Life (1)

Fake?

When Xu Bai heard this word, he was obviously shocked and took a few steps back.

Not far ahead, the fat man was lying as he hugged his head and rolled on the ground.

There was an aura circulating around his body. Waves of aura emerged from his body and circled in the sky.

Then, it fell from the sky and covered the fat man.

At this moment, the fat man's eyes no longer had any humanity or emotions that a human should have. It was impossible to explain what that emotion was, but it made one's scalp go numb just by looking at it.

"I am... Fake, this place is also fake, all of it is fake, I see, hahahahahaha!"

The fat man got up from the ground, making a crazed sound and waving his hands and feet like a lunatic. His Qi Power was increasing, and his strength that was a little weak had become real.

"Divine Sense."

Seeing this scene, Xu Bai knew that the fat man had completely turned into a Nianshen.

"I'm really speechless. Every time it comes to this, he'll use Riddler on me. He's clearly about to find out the truth, but now he's hitting me back."

He was about to ask who he was, but he never expected that at the most critical moment, this guy would actually become the Nian God.

Xu Bai didn't know what the reason was, but now wasn't the time to think about it. He had to get rid of this Nianshen in front of him. Otherwise, he would be in danger.

"Because you've become a Mindful God, your cultivation has stabilized. But I'm sorry, you're only a First Grade Saint."

A dazzling white light burst out from Xu Bai's hand. At first, the white light only wrapped around his palm, but it continued to expand. Soon, the dazzling white light gathered into a pillar of light that shot up into the sky.

The fat man had stopped talking, but the aura on his body had become disordered and different from strangeness.

He seemed to have sensed Xu Bai's existence. He turned his head stiffly and stared at Xu Bai with a mechanical gaze. That kind of inhumane gaze was different from the strange brutality and killing. It made people feel numb all over.

"Hu..."

A gust of wind blew past. Then, Xu Bai felt the surrounding scenery begin to change. He found that the place he was in had disappeared again.

It was no longer that mountain, but a place where only darkness remained.

There was no light here. Even with Xu Bai's strength, he could not see too far. All he could see was darkness.

"It's an illusion again, but this time, it doesn't seem to affect my emotions. What's going on?" Xu Bai thought to himself.

As he was thinking about this, the darkness in front of him finally changed. A ray of light appeared in the darkness and gradually spread, forming a human figure.

The human figure was emitting a faint light, but as time passed, the light gradually disappeared. Soon, it became a human.

When Xu Bai saw this person, he was slightly stunned. Then, the corners of his mouth curled up, revealing an interested expression.

The person in front of him looked exactly like him, whether it was in terms of clothing or appearance.

He didn't think that the other party could replicate him. It was an illusion.

Not long ago, when he first met this fat man, this fat man's appearance was somewhat similar to No Flower. This was the type of illusion.

The fat man's illusion was very unusual. It didn't directly affect your sight and hearing, but started from your heart and changed according to your heart.

However, everything must be experienced by you.

In other words, what you think is transformed by him.

The person in front of him who looked exactly like him should be an illusion of the fat man according to his inner thoughts, so it should be fake.

"But it's very real. Whether it's real or fake, I don't know, and I can't let my guard down." Xu Bai thought to himself.

In his hands, the towering light pillar of the Tower became the only thing that could dispel the darkness. However, the darkness that this light pillar could dispel was limited to the range of the light pillar and could not illuminate other places.

Opposite him, the person who looked exactly like him also raised his right hand. Bright white light erupted from his hand, and the white light continued to spread, forming a situation that was exactly the same as his.

“Boom!”

A loud boom rang out as the person facing Xu Bai slowly pushed out the pillar of light from his right hand, sweeping toward Xu Bai. As it swept toward Xu Bai, it kept expanding. In the blink of an eye, it had already expanded ten times.

“Come!”

Xu Bai wasn't afraid at all. He did the same thing. The two beams of light overlapped with each other, and all kinds of attacks were urged to the extreme. As they interweaved, they produced a huge aftershock.

At this moment, the surrounding darkness was finally unable to bury the pillar of light and completely turned into nothingness.

Xu Bai saw the other party in the intense light and rushed toward him.

However, when he saw the man rushing over, he disappeared in an instant.

“Great Phantom Art, you even know this?”

In fact, he knew that the thing in front of him was an illusion, but it was too real for him to believe.

What was the highest level of illusion?

False and true, true and false.

If you think he's real, he might be fake. If you think he's fake, this thing might very well be real.

## **I Have Unparalleled Comprehension #Chapter 899: Look at My Past Life (2) - Read I Have Unparalleled Comprehension Chapter 899: Look at My Past Life (2)**

Chapter 899: Look at My Past Life (2)

Xu Bai wouldn't bet on this. If this thing was real, he would treat it as a fake. Wouldn't that be cheating him?

After all, even if it was just an illusion, the fat man's strength as a Saint Warrior was not bad.

Therefore, he had to treat every strike as real and fight with all his might.

Xu Bai's figure disappeared from where he was. At the place where he disappeared, the other party just happened to appear. The white light in his hand suddenly appeared.

"It's indeed the same ability as mine. If we continue fighting like this, it'll be the most uncomfortable for me."

"A person who can reach this level really can't be underestimated. Even if it's just an illusion that doesn't seem to have any combat power, he can still play it to perfection."

Although he did not seem to be at a disadvantage at the moment, he knew in his heart that at this moment, he was already at a disadvantage.

There was no other reason than that he was able to perfectly use all kinds of attacks of the first level of the Saint Realm because he had all kinds of miscellaneous techniques that could provide a considerable amount of True Core Strength.

However, the consumption of this thing was very serious, so once it was exhausted, what awaited him was failure.

"The difference between a Transcendent and a Saint is really not small. Even for me, who can cross realms as easily as drinking water, it's still a little difficult for me to do so, but it's not impossible."

Xu Bai watched as the other party disappeared again. He also disappeared. At the same time, his mind was spinning rapidly.

In the past, when he crossed realms, he didn't think much about it. He just had to go head-on. But now, it was different.

Not only was the difference between a Transcendent and a Saint too great, but the other party's strength was too strange.

He didn't know much about illusions. He could only guess the true essence of the other party from the very beginning.

Therefore, he had to start from this essence. If he wanted to win at this time, it was not enough to rely on strength alone. He had to use his brain.

Fortunately, for now, it was barely okay, but not for long.

Xu Bai was hiding as he started to think about the matter in his mind.

“The other party’s illusion is based on the thoughts of the enemy and is extended from there.”

“In other words, the person in front of me is derived from my thoughts and possesses all my strength.”

“Most importantly, I don’t know if it’s real or fake, and if its attacks are fake or real. It seems like I’m at a disadvantage, but it’s not absolute.”

“I can completely rely on this characteristic to solve the problem.”

“Your ability is an illusion that I have experienced and imagined. I will let you see what I am thinking.”

In fact, the best way to solve the problem at this time was to directly send a message to his soul and let Little Gold deal with it.

However, Xu Bai didn’t plan to do that. He didn’t need to pull Xiao Jin out every time he encountered great danger.

Most importantly, when he summoned Little Gold the last time, he realized that it was a little different.

The previous few times he had taken Xiao Jin out, he was always in his original position, without any changes.

However, ever since he took Xiao Jin out, he discovered that not only had his position changed, but even his state had changed.

Therefore, he felt that every time he summoned Little Gold, there would be some differences. This difference was something that he could not grasp.

As for Xu Bai, he would never touch things that he could not control.

He would only use this move when he was in a truly hopeless situation where he was unable to resist. However, this was not the case.

After dodging another attack, Xu Bai started to think about random things.

He had a very good idea. Since the other party was a character that changed according to his thoughts, he would change his thoughts.

How to change?

He was still him, but he was not him.

Right now, the other party had simulated him according to his thoughts, but it was him in this world. He had another one, and that was his previous life.

In his previous life, he was not so flashy.

Thinking of this, Xu Bai's divine soul began to surge. In the next moment, the thoughts in his heart changed.

As his thoughts changed, the enemy in front of him suddenly slowed down, and at the same time, his clothes changed.

He was no longer wearing ancient clothes, but modern clothes. His hair had also changed from long to short, and the aura that could devour the heavens and earth had also become extremely weak. He had become an ordinary person.

The surrounding darkness had long disappeared. High-rise buildings rose from the ground, and the extremely modern city roads criss-crossed. People came and went on the streets, but they were dressed in modern clothes. All kinds of vehicles were speeding.

Xu Bai felt nostalgic when he saw this scene.

He had lived in this world for many years, and seeing it again at this moment, he suddenly felt unreal.

However, now that everything had been resolved and there was no danger, the only thing left was Nian Shen.

"You're finished." Xu Bai smiled.

He disappeared, but soon appeared behind the other party and gently slapped out.

This palm seemed light and slow, but when it landed on the other party's body, the other party melted like a bubble.

"Using the thoughts in one's heart to create illusions is indeed very strong, but not very strong."

"Can you continue with what you are doing now?"

He knew that the other party wouldn't listen to him after he became a Mindfulness God, but he really wanted to say it now.

## **Chapter 900: Look at My Past Life (3)**

As he said this, the surroundings suddenly changed. The cars that were originally flowing around suddenly changed directions and crashed into him at high speed.

Xu Bai stood still, not moving at all. Strange and beautiful patterns appeared on his body.

All kinds of defense!

The car crashed into him and shattered into countless pieces. The building began to collapse and pressed down on him, but none of this caused him any harm.

This was the terror of Xu Bai's thoughts. If he didn't have these memories of his previous life and the world he thought of was still this world, then the world he was in now was very likely to have something that could pose a threat to him.

However, he was thinking about the world in his previous life. With his current strength, who could pose a threat to him in that world?

"It's useless."

Xu Bai narrowed his eyes. With all kinds of defenses on him, he would not care about these attacks at all.

"Unless...F \* ck! You've gone overboard!"

Xu Bai was dumbfounded when he saw a special bullet flying toward him in the sky not far away.

"I can withstand the strongest attack in my previous life?"

Xu Bai's mouth twitched.

He couldn't be sure, but the next moment, he soared into the sky and disappeared in the blink of an eye.

"Fortunately, no one can stop me."

Looking at the mushroom cloud rising in front of him, Xu Bai heaved a sigh of relief.

However, before he could finish speaking, he saw the same thing as before.

Xu Bai was speechless.

“Forget it. Even if it’s fake, we can’t let it exist. This thing is fake and hard to deal with.”

Xu Bai’s heart skipped a beat. He put away all his thoughts and returned to his original place.

Not far ahead, the person who looked exactly like him appeared again.

Seeing this person and the white light in his hand, Xu Bai felt a headache.

It was difficult to deal with...

After the fat man turned into the Mindfulness God, the illusion he created was much more powerful than the fake saint-level one.

If he were to fight him head-on, he would not be afraid. However, this kind of underhanded play was still a headache for him.

“After this is over, I have to make use of the time to get a book related to illusions. With the knowledge I gained from failing to become a Saint Warrior, I can merge the illusions into it.” Xu Bai thought.

Here, he saw his weakness, so he would go out and improve himself.

However, the most important thing was to get rid of this Mindfulness first.

“Try the old method. No, the old method is useless.”

Previously, when he was attacked by the illusion, he had tried to directly hit the ground. Using this thing was to make the other party lose focus for a moment and find a flaw.

Now, it seemed that the other party had already become a Mindfulness God. It was impossible for him to be absent-minded.

Therefore, it was quite troublesome and a headache.

He was thinking here, but it was obvious that the person who looked exactly like him did not want him to think.

The attack appeared once again. It carried a destructive power as it swept toward Xu Bai.

Xu Bai's figure flickered and disappeared once again. He allowed his attack to miss and began to think again.

The memories of his previous life were useless. Most importantly, there was a great killing weapon in his previous life. He was not sure if he could withstand that thing.

Therefore, he had to think of something else.

The most important thing was that he couldn't imagine this thing. It seemed that he had to experience it.

"What should I do..."

Xu Bai dodged and dodged, trying to think of the biggest countermeasure with the smallest consumption.

However, the consumption of his True Core Strength was still extremely terrifying. According to the current situation, he could only hold on for half an hour at most.

In this empty space, only Xu Bai and the person who looked exactly like him were left. One attacked and the other defended, constantly dodging and moving.

"Yes!"

After dodging the opponent's attack again, Xu Bai finally thought of a way. His eyes suddenly lit up.

"In that case, I can't think about this world. It has to be something from my previous life."

"I'm not sure if those things are real or fake. After all, even if he's proficient in illusions, he's still a Saint Realm master. His attack power isn't weak at all."

"Then I'll just dodge it as well. Although that thing is very lethal, it doesn't have the speed to conserve my True Qi to the greatest extent."

Xu Bai had already thought of the best plan. At this moment, he continued to think.

The surrounding scenery changed again, returning to the original modern city. At this time, the sky was filled with a large number of warheads again.

"There are really a lot..." Xu Bai's mouth twitched.

Before those bullets fell, he had already turned into a shadow and disappeared. This time, he guessed correctly.

These things could not keep up with his speed. Moreover, just by using the Phantom Art of a Rank-9 Transcendent, he was already a Rank-9 Transcendent. Not only could he keep up with the consumption, but he could also slowly recover.

"I feel better." Xu Bai said with a smile.

Following that, he did not attack or defend at all. He just kept dodging.

Xu Bai sighed as he watched the skyscrapers in front of him turn into ruins.

Although she knew that it was all fake, she still felt very uncomfortable when she saw it.

As time gradually passed, nearly an hour passed in the blink of an eye. During this hour, Xu Bai could clearly sense that the attack was gradually weakening.
