

Uzumaki 171

Chapter 171 - The Raid

On a top of the hill, Xin and everyone is standing, they are looking down to the people who running around matching in one direction.

Xin can see them all, wearing standard ninja jacket full arm in teeth while being followed by dozen of medical ninjas.

"Sarutobi Clan is really rich, they have three dozen of Medical Ninja while the Frontline can't have even have one to help."

"They are corrupt, they eat almost all the nutrients of the huge tree, and now this is the result of their own greed." Kushina said.

Naga appear beside Xin and kneeled on one knee.

"Young Master, everything is ready."

"Good."

"Yukihime!"

"Here!" Yukihime walk forward whole nervous looking around, she know that her task is crucial for the plan.

"Don't worry, take a deep breath, this is just an easy task for you."

"You can do it, Yukihime!"

Both Kushina and Nono try to cheer her up making Yukihime's nervousness slightly suppressed.

*Take a deep breath!

"I'm ready!"

"Good, come here."

Yukihime come close while Xin touch her back, Xin can feel that she is trembling while silently waiting.

"Just follow the thing I teach you and everything will be fine."

"Yes!"

Xin look at Naga while Naga disappear between them.

"Uzumaki Art: Ultimate Kaguya Eyes!"

Kushina open her super sensor technique sensing ten kilometers radius while trying to find any track of Naga.

While Naga on the other hand is watching somewhere looking at the army of thousand Shinobi marching in one direction.

She is calculating, the right amount of time and the timing.

Exactly two minutes later she send the signal.

"It's here Brother Xin!" Kushina shouted.

"Good!"

"Sage Art: Sage Transfer!"

"Ultimate Ninjutsu: Ninjutsu Amplification Technique!"

A icy mark appear on Yukihiime's skin and face, and then she feel her body suddenly become powerful.

To powerful that she can feel tearing pain on her nerves.

"Go!"

"Yes!"

"Sage Art: Chilling Hell!"

From her feet, a biting cold come out, in instant Yukihiime's chakra spread while everything start to freeze while the weather turn to cold.

It's fast, because of Sage Energy, and the Amplification Technique, the Ninjutsu hit fast while the effects is also instant.

Like sound waves, everything Yukihiime's chakra hit turn into ice, the ground, tree, water, animals, and even the whole forest instantly covered by thick fog.

Chapter 172 - Sage Art: Chilling Hell

From above, the Sarutobi Clan Shinobi heard a chilling voice.

"Sage Art: Chilling Hell!"

"Not good!"

"Beware!"

Sensing the dangerous chakra coming from above the cliff, all of the Jonin and Special Jonin jump up to escape.

Some of them jump in time, but for those who fail to jump, they become ice statue in instant.

"Arg!"

"Help!"

"Young Master!"

"Hokage-sama!"

"Leader help!"

Cry for help can be heard everywhere, some try to help but when they try they also get freeze into statue.

"Use Fire Escape!"

While some instantly find a solution for the problem.

"Fire Release: Fireball Technique!"

"Fire Release: Great Fireball Technique!"

"Fire Release: Fire Dragon Flame Bullet!"

"Fire Release: Great Flame Technique!"

Different kind of Fire Release can be seen everywhere, some are weak, but majority is strong, some even using combination Technique while some using Earth Release to make scaffolding to step in.

But even so, the Fire Release they using is only in Level 2 to Level 3 Fire Element, not strong enough to counter Yukihome.

Right now, Yukihome has Level 4 Wind and Level 5 Water so the strength of her Ice Release is something that Sarutobi Clan can counter.

Adding that Xin use some amplification technique and Sage Art to strengthen the Ice Release so it's impossible for them to break it.

...

When the chilling chakra finally stop spreading, what left is a vast part of the land turn into ice and snow.

The tree turn into stone hard ice, the grass turn into razor sharp ice, animal and insect all turn into sculpture made of ice.

Anything that the eyes can reach is all ice, the area of effects and the damage is something everyone is not expect.

"So powerful!"

"I think it's more powerful than General Kuzan's Ice Release!"

"Stupid, this is the combination of Young Technique and Chakra so the effect is different!"

Yukihime who was dazed looking at the effect of her own Ninjutsu, she never see such powerful and almost devastating Ninjutsu on her whole life.

"The Ninjutsu is not only amplified using my own technique but also because of the help of the winter season."

"If this is summer time, the spreading of chilling wind is 50% slower than this one, and for sure half of them can escape by just running from it." Xin said while watching everything down.

"Anyway, Yukihime's effort did not go to waste, the only thing left is to clean all Shinobi left."

"Yes!"

Chapter 173 - First Hit

From thousand of Sarutobi Shinobi, the only left is the Jonin and Special Jonin Shinobi who reacts fast.

While the rest turn into frozen statue standing under the scorching heat of the sun.

"Who are you!"

"Do you know who we are!"

"Why attacking us!"

"Your Excellency, do you think it's improper to hit us while we are not prepared?"

The Young Master of Sarutobi Star to gather everyone who still can fight, they created a huge circle formation while looking for the enemies.

"The enemy is powerful, this huge Ice Escape is something that Jonin or Special Jonin can't create."

"Maybe we are going to face Shadow Class Shinobi next."

"Shadow Class? Don't worry Second Uncle, we still have twenty Special Jonin on our team, killing Shadow Class will be no problem."

"And besides, with this huge Ninjutsu, I'm sure that the enemy don't have enough chakra left."

While Sarutobi Young Master and his Second Uncle is whispering to each other, Xin followed by Naga, and Kushina jump down from the top of the cliff.

Bang!

A huge dust explode making everyone from Sarutobi Clan alert.

"They here!"

"Hold down, try to follow the leader command!"

"Yes!"

They look at the dust covering their view, they can see three shadow inside.

It's three enemy.

"Your Excellency, do you think what you did is proper?"

"Do you know where we come from?"

"Are you trying to start war with us?"

Young Master Sarutobi start to threaten the unknown enemy, even if he don't know who they are he still have guts to think that his Sarutobi Clan is the strongest and no one ever try to fight them.

"So is your clan that powerful?"

"And what is the name of you clan?"

From inside of the cloud of dust, they can heard a voice asking.

"You don't need to know, you just need to know that we are no someone you can fight!"

"Oh? So scary? You don't have Village Head protector, nor Clan Symbol, is that means all of you are private army?"

"It's better to know nothing than getting into trouble."

"I earn you not to dog more for your own safe!"

"How scary~." Xin and other then come out from the cloud of dust and playful look at them.

"So what are the Sarutobi Clan want to do? Sens all five thousand hidden army to wipe the whole Uzumaki Clan?"

"You! You know!"

The Young Master Sarutobi turn pale hearing such thing, he know that having huge hidden army front ue village is a huge risk.

The other Clan will never let anyone to have such huge army of Shinobi much more than the Sarutobi Clan is just Mid Level Clan so it's impossible for them to have such huge number of Shinobi.

There's only one answer for this, the Hokage is corrupt, he using the guns of the village to strengthen his own clan.

Chapter 174 - The Sarutobi Clan Greed

"What? Cat out of the bag? Confused why we know such important secret?" Xin playful said while looking down at them.

"Everyone know Third Hokage is a person with high moral and fame, who thought he is just a corrupt Hokage who leaching from the tall tree feeding his own insect to become fat worm?"

"With the number of Shinobi Sarutobi Clan have, I think Sarutobi Haruzen is already start consuming the resources of the Konoha in the end of First Ninja War."

"And that is when he sit down on the Hokage position, how evil, just taking sit he started to suck all nutrients of Konoha to enrich his own clan."

"Not only that, you are sending the genius of other clan to death one by one, whatever from Hokage Lineage Clan, from the Founding Clan, or even from small or big clan."

"Not only that, you guys have guts to copy a second Book of Seal and try to learn it in the back of all other clan, not just Sarutobi Clan, but also the other three Elder Clan."

"Your guts is really big, are you not afraid that you choke to death on your own because of your own greed?"

Sarutobi Young Master did not expect that Uzumaki Clan know so much than what they think.

So much that they also know everything from his own clan more than his own.

"You know something you should not to know, do you know that your pushing Uzumaki Kingdom to death by doing this?!"

"Why do you think so? I did. It do anything, amuen you should be the one who should be afraid right now, if Mito-sama, Hyuga, Uchiha, and the Dear Clan know this, maybe you Sarutobi Clan and other Elder Clan will push out fo the village."

"After all, the crime you committed is something no one in the the village can forgive."

"If they can know, but you kid will going to die here anyway so how can they learn it!"

"So it!" Sarutobi Young Master shouted.

"Fire Release: Grand Fire Bullet Technique!"

At the same time, all Sarutobi Clan Shinobi perform same Ninjutsu, a trade mark of Sarutobi Clan from Warrent State Era.

Naga who watching suddenly step in, she use one of her hand to perform a seal.

"Shadow Release: Shadow Curtain!"

She was her small and and a huge blanket of shadow appear inf eont of them, covering the three of them from the incoming attack.

"Fool! The combination Technique of Sarutobi Clan can kill even Shadow Class Shinobi!"

The huge fire bullet hit the dark curtain, but to their surprised there's no explosion, not other effect happen.

The only thing they see is the Fire Jutsu hit the dark curtain and get suck inside.

"Impossible!"

"How can such Ninjutsu appear in this world!"

"Your just frog in the well, what your father give you makes you think it's already the peak of this world."

"Shut up! My father is the strongest!"

"Use Fire Dragon Technique!"

"Yes!"

All of them perform another combination technique.

"Fire Release: Great Fire Dragon Technique!"

Roar!

A huge fire dragon is form, it launch towards Xin and the two girls.

"Let me!"

When Kushina steps in, her hair starts to move like tentacles, and a golden chain starts to come out from her back.

"Adamantine Chain: Five Chain Binding Technique!"

Five thick chain start to coil around the huge fire dragon, then with two breath, the fire dragon stop in the mid air while being bound by five golden chain.

Chapter 175 - Naga and Kushina

Everyone from Sarutobi Clan was amazed how the Fire Dragon being sealed by Uzumaki Adamantine Chain.

You know that Fire Dragon Technique that they made is not entity, so that dragon fire is not something you can touch.

And it's made from fire element, not like Earth Element that is made from rock, solid or dirt that is composed with solid matter.

Of course, destroying Element Base Jutsu is not impossible, cutting, smashing or crushing is possible using brute or sharp force.

But sealing it, that's impossible to accomplish, not single one can sealed nonentity thing using anything in this world.

Seeing that Ninjutsu done work at them, Sarutobi Young Master react fast

"If Ninjutsu is not working then we need to use our own weapon to deal with them!"

"Yes!"

Everyone pull their iron weapon and take a stance, they waiting for the signal and then.

"Do it!"

"Teleport Jutsu!"

From different direction, Sarutobi Shinobi appear, they did not hold back at all, they are attacking them without holding back.

"He! Want to force your way to us? Stupid!"

"Kushina Exclusive Taijutsu: Adamantine Chain Golden Rope!"

The Adamantine Chain start to wrapped around her arms and shoulder, and then she hold two different chain on both hand.

"Kushina Exclusive Taijutsu: Adamantine Chain Hundred Slaps!"

Swish!

Like a Golden Lightning, the Adamantine Chain fly everywhere hitting everyone who got near them.

From head, shoulder, arms, legs, stomach, any part of their body can't be hidden, and the attack also hurt so much that he crush the bone of anyone who is not strong enough to withstand the beating.

"Kushina Exclusive Taijutsu: Adamantine Chain Whirlpool!"

Like a fast circling tornado, her golden chain start to move around hitting anything in the path, crushing anything that touch her golden chain.

...

Meanwhile, Naga's fight is more clean than Kushina's brawl fight.

When she sink into shadow, one Sarutobi Shinobi eliminate, she is like a true assassin who hit anyone with great precision and accuracy.

"Shadow Dive!"

She sink into the shadow and appear behind one of the Sarutobi Shinobi.

"Assassinate!"

With her the blunt part of her dagger, she smack the Sarutobi Shinobi behind eliminating one of them in process.

Her figure is not to easy to catch, you can't even find her from the number of people around, and even if you find her, you can sure that she successfully eliminate one Ninja in process.

"Shadow Dive!"

"Backhand Lock Technique!"

"Hand Chop!"

The number of the people she catch is not far from the number of casualties of Kushina's Adamantine Chain.

Meanwhile, Xin fight is more easy, with great speed, greater strength, and Grand Master Rank Taijutsu, he is more like the older one bullying bunch of kids.

Not even the Second Elder of Sarutobi Clan manage to survive from his simple attack without getting beaten.

....

Chapter 176 - Xin Taijutsu

Sarutobi Second Elder come behind Xin, he is holding a sharp Kodachi trying to cut Xin's neck in one swift strike but Xin grab his wrist before he can even slash him.

Successfully grabbing his opponents wrist, Xin pull him closer while the Shinobi take out Kunai on his other hand trying to counter.

One

Two

Three

Three swift punch hit the Sarutobi Second Elder, from forehead, chin and above his heart, the small fist mark left to those three parts.

Xin then slam the unfortunate Shinobi into the ground then deliver a powerful kick in the head of his enemy.

Puff!

Boom!

Smoke explode, the person he want to kick turn into block of log, while the Sarutobi Shinobi appear above the tree while holding his aching chest.

'Damn! How can a small child have heavy fist?!

He never encounter a Taijutsu Master so he never experience fighting such one, on his whole life, he is known as open of the strongest Taijutsu Master in Sarutobi Clan but he never expect that his own Taijutsu Technique is not good as small child.

"Shadow Shuriken Jutsu!"

He throws bunch of Shuriken and then the Shuriken explode and multiply by ten fold, looking at the rain of flying Shuriken, Xin only smile.

Taking a fighting pose, Xin is ready.

"Uzumaki Taijutsu: Leaf Catching Technique!"

When the Shuriken finally come closer, Xin's hand turn into blur leaving countless afterimage whatever his hand stop.

From left to right, up or down, even on a tricky part, Xin manage to catch every single one of the Shuriken, not single one escape.

Seeing this, the Sarutobi Shinobi's eyes turn sharp he pull something from his pocket and throw another batch to Xin.

"Shadow Shuriken Jutsu!"

"Uzumaki Taijutsu: Leaf Catching Technique!"

Xin did it again, he grab all the Shuriken that come towards him, and when he is about to continue he suddenly throw bunch of Shuriken back and hit the other flying darts.

Bang!

Bang!

Bang!

When two Shuriken collided, the Shuriken exploded, all the other Shuriken also explode while the rest is cleared because of the explosion.

"Throwing Detonate Talisman with the Shuriken? What a good plan, but not smart enough."

Xin grab ten piece of Detonate Talisman for his pocket, he then throw it randomly while Sarutobi Shinobi watching attentively.

The paper talisman fly on different direction, only three paper talisman fly straight to the Sarutobi Shinobi while he destroy the incoming talisman using Shuriken.

"That's it? The Uzumaki Clan Throwing Technique seems lacking, your not good as the student of the Konoha Village."

"Really?"

Xin move his finger and the detonate talisman suddenly change direction.

"This!"

The Sarutobi Shinobi look closer and see bunch of wires around him, he never expect or even notice when the wire is place around him.

....

Chapter 177 - Xin Start to be Serious

"Boy, your smart, but it's not enough, I heard your Shadow Level Shinobi but why I can't feel it?" Sarutobi Shinobi said while making hand seal.

"Earth Release: Earth Wall!"

Bang!

From below, a huge wall made from dirt come out from the ground blocking all four direction while making the Shinobi inside safe.

Then the detonate talisman hit the wall.

Bang!

Bang!

Bang!

A powerful explosion resound, the wall of dirt broke into small pieces while the Sarutobi Shinobi inside is safe.

"See, your not strong as I said."

"And who said I'm taking you seriously?"

Xin appear from behind smiling at the stupid Sarutobi Shinobi who taunting him.

'How! How can he appear inside of the wall I made without me noticing him!'

"Curious? Confused? Don't worry, I'm going to take you serious right now."

Bang!

"Ugg!"

The Sarutobi Shinobi throw up in the air by a powerful blow coming from behind, he can't help but to glance and see the golden chain coiling around Xin's fist.

"See my serious move, beware, block it or you will die."

"Adamantine Chain: Adamantine Fist!"

From behind of Xin, bunch of golden chain come out and start to form a dozen of golden fist.

Xin then throw a simple punch in the air while one of the golden fist fly up in the air flying towards the Sarutobi Shinobi who falling from mid air.

Seeing this, the Shinobi know that he don't have room to escape, so the only way he can see is to try minimize the damage so he made his body small as possible while protecting all important part.

Bang!

The golden fist hit the target and for second time the Shinobi throw up in the air like broken doll by Xin.

"It's not end yet."

"Shadow Clone Jutsu!"

Peng!

Peng!

Peng!

Four Xin's avatar appear, the same chain hanging behind them and teleport on four different directions.

Seeing them, the face of Sarutobi Shinobi becomes purple, he knows that landing in the ground will not be easy but he will never let them hit him freely.

"Fire Release: Great Fireball Technique!"

"Catching Snake Head Technique!"

The golden fist suddenly opens and grabs the huge fireball in the air, with one squeeze the fireball explodes without damaging anything.

"It's that's it?"

"Then get beaten!"

....

Chapter 178 - Unknown Shinobi

Xin's hand turns into countless afterimages, everything around him turns into golden light while raining down towards the Sarutobi Shinobi.

He does not stop until the opponent finally gets beaten to pulp and falls unconscious.

Of course Xin only beat his opponent, but getting beaten without dying is one of Xin's technique Master after using it to all of his subordinates.

Even Kushina got a good beating in the past, and it's a part of the daily training for anyone who followed Xin first.

When Xin finally stops, four unknown ninjas suddenly jump holding daggers on their hands, each dagger is shining in purple color showing that it's coated with poison.

Xin jimp back couple of times while the four unknown assailants continue to chase him.

With one flip, a golden dagger appear on Xin's hand and then block the first one who try to stab his chest.

He then twisted the dagger, push slightly then deliver a kick on the chin on his opponent, the attack made the unknown ninja shaken making him drop down the dagger.

Xin grab the falling dagger and with a spin, he throws it to the nearest ninja who is about to stab his stomach.

After that, he step in the second Ninja use his head as foothold and push his body up in the air.

The last two unknown Shinobi start to use hand seal, base on their speed they are all Special Jonin Ninja.

"Earth Release: Earth Spike!"

"Wind Release: Wind Bomb!"

Two different Ninjutsu is cast, the two Ninjutsu come from different direction while the Shinobi who cast it drop down on the ground and start casting another Jutsu.

Even Xin is on the difficult situation, he did not panic, he calmly pill nother golden dagger on his pocket and hold it on each hand.

With two move it his hand, Xin successfully cut the two Ninjutsu.

"Earth Release: Earth and Stone Bamboo Shoot!"

"Wind Release: Blade of Wind!"

From four different direction, a spike made from rock suddenly shot straight to him, trying to pinch him in the middle but with one wave of his dagger he easily brake it.

From below the other one holding a sword fire with A Class Ninjutsu, Blade of Wind making the blade sharpener and more deadly.

Xin only smile at him then start to chunnel his own chakra into his golden dagger.

"Aura Blade!"

His dagger start to glow with red light.

Swish!

Swish!

Two swift cut motion, he cut the blade of his enemy into two, then cut the head of his enemy on the second cut.

Before the enemies head fall, Xin throw his dagger on the last enemy hitting the forehead of the unknown ninja.

"Urg!"

"Ah!"

Two helpless shout, two fallen Ninja, Xin finally step down and landed safely.

All for this happen with just twenty or so seconds, and Con never step on the ground even once.

Xin then wave his hand again, the dagger that stuck in the enemies forehead.

Xin looking around playfully.

"Hundred elite Shinobi? You guys really want to spend so much for us while trying to hide when the war is still going, your make us too serious."

Xin can sense it, the hundred unknown ninja lurking around like a poisonous snake waiting to strike any time and any moment.

....

Chapter 179 - Fight Root Again

Xin was watching as his enemies also watching all of his movement, he can sense it even while the other is watching him in the dark.

".... Hundred Shinobi? Your making my day useful."

Xin then look at Naga who cleaning everything and signal him to come over.

Naga sink in the ground then appear beside him.

"Young Master."

"Stop fighting, capture all of the enemy inside of your shadow and prevent anyone of them taking their life."

"Yes!"

Naga know it's hard to take everyone inside of her shadow but for her Young Master, she willing to take a risk.

But she don't know Xin understand her problem, so without second thought he grab her back making Naga jump in shocked.

"Young Master.... " She look at Xin shyly, you know her back is the most sensitive part of her body so she easily get tickled on that part.

"Be prepared."

"Y-Yes!"

"Sage Art: Sage Transfer!"

"Ultimate Ninjutsu: Ninjutsu Amplification Technique!"

Sensing the huge change on her body, Naga start to made seal.

"Sage Art: Kingdom of Shadow!"

One by one, the shadow around start o move and spread, ink like thing start to change the color of everything from bluish white to smoking dark.

And then, all the block of ice start to sink in the ground leaving nothing but ground full of ice and snow.

Nage feel empty inside, she knows this is the symptoms of Chakra Deficiency, she lose to much chakra.

"Go, take a break, let me and Kushina clean what left."

"But Young Master of, I can still fight."

"I know your condition without you telling me, so better follow my order."

"..... Yes."

"And also, bring Nono and Yukihiime with you, hide on your shadow first and come out after we done here."

"..... Yes."

Even though she don't want to hide and wait for them to finish, her condition is not good for the upcoming fight, so even with heavy heart, she followed Xin's order.

She sink down and appear above the cliff, she grab Nono and Yukihiime who is about to assassinate by the enemies.

Xin wave his hand and command his Adamantine Chain to hook Kushina and pull her closer.

Kushina look at Xin then look around, she excitedly said." There so many of them!"

"Yes."

"Hundred or so Jonin and Special Jonin, Brother Xin, the Konoha Village really want us dead."

"That's for sure, and they will not going to let us go easily."

"Do we need to capture them or... "

She show a cutting neck gesture showing what ah thinking right now.

"You can, after all, they are from Root."

"Form Root? I hate Root! Will kill all of them!"

Xin look at Kushina, he did not expect that the cute and lovely kid in the past become more violent when she grow up, he don't know what kind of face her future husband will show knowing what kind of problem this girl bring to anyone.

....

Chapter 180 - Kushina's True Power

"Can we start now, Brother Xin?"

Kushina excited said while looking around restless, she don't look like nervous or afraid, Xin know what kind of mind this girl have.

He know that her first is itchy, it's been a long time when she last have a good training partner like the other.

Of course, except for the Three General, and Xin, almost everyone in the team taste her fist first hand or sometimes multiple times.

"Good, you can release as misj as you want, but always priority your own safety."

"Yes!"

Kushina's hair start to dance wildly making it looks like a boiled octopus, then a tremendous chakra suddenly burst form her small body making everyone from the dark broke a sweat.

"I need to remove all the hidden enemy of the village."

"Centipede!" Danzo shouted loudly.

Swish!

A Root Ninja appear, kneeling on one knee bowing his head without showing his face.
