### Chapter 181 - Golden Giant

It's a hundred meters golden giant, and ten meters size six golden fist floating behind of it while looking down at them.

Kushina wave her hand and the giant slowly lean down, with open palm Xin jump in and sit while Kushina control the golden giant.

While sitting, Xin start to use his connection to to connect to Kushina while using his own Sage Mode.

Xin is like a battery that is charging making Kushina always full with chakra.

"Let's fight!"

Hearing this, the Root around also start to move.

"Earth Release: Muddy Swamp!"

The ground underneath of the giant turn into swamp making me he huge giant sink slowly, but this only makes Kushina disappointed to them.

"Didn't your teacher teach you that you can use treading in water can also use to anything?"

The feet of the giant move, Kushina pull the leg of the giant out of the muddy Swamp and step into again like stepping on a solid ground.

With another rpull, she successfully escape from the trap they created.

"Shadow Binding Technique!"

Four Nara Shinobi suddenly jump on the four aide, holding their seal while their shadow connected to the giant shadow.

Kushina feel the restraint, she can't move her body or even the golden giant, but she did not feel nervous, this is also one of the numerous training she experience in the past.

"Fire Release: Fire Dragon Bullet!"

"Wind Release: Wind Tornado!"

"Bug Release: Iron Eating Any!"

"Earth Release: Four Tower Seal!"

Four tower suddenly appear around Kushina's golden giant trapping her in the mission of the four tall tower.

From below, an army of iron insects start to crawl and munch the feet of the golden giant.

In the middle is the huge fire dragon trying to bite the ribs of the golden giant.

White two giant twisters is being launched on the head of the giant.

But even so, Kushina's face did not change at all. She knew how capable her golden giant was, so it still tried to move, not to break their attack but to see if she could break the Shadow Binding Technique.

The four Nara Shinobi shouted back." Useless! We are four brothers is train to restrain even Upper Shadow Level Shinobi so it's useless for you to try to break out Ninjutsu!"

"That's right, no one ever come alive after we seal them with our shadow!"

"Accept your fate kid, die because your dangerous for Konoha!"

"For Konoha!"

Xin look at them full of amusement, they think that this Yin Release is already strong to hold Kushina?

Naive, they don't know what Kushina capable to do.

"So annoying!"

"Damn you Konoha! Take this!"

"Golden Hand: One Finger!"

The four hands floating around the golden giant start to move. The first starts to change to a pointed one, and the pointing finger then moves and drops on the four Nara Shinobi.

Kushina know that the Shadow Binding Technique needs to be stationary so moving will break the technique.

So using the golden fist floating around her is the best way to escape from them.

Of course, no one thought that the golden fist could also be used as a weapon. They all thought that it was just a design, so they never expected it to be taken seriously.

....

Chapter 182 - Desperate Root

"Arg!"

"Ug!"

"Monster!"

"Help-"

The four Nara Shinobi died after getting hit by giant finger, for Shadow Binding Technique, it takes time to cast it and same time to remove it.

The caster need to wait for the shadow to come back before moving or else if they try to move they will get hit back backlash and drop dead in process.

Anyway, the result is still the same, getting hit by your own Ninjutsu backlash or getting hit by gigantic finger results the same.

Kushina then move her arma and fingers.

"Golden Hand: No Finger!"

The golden hand close and transforme into huge fist again.

"Golden Hand: Hammer Fall!"

The six golden fist float above and start to drop down with incredible speed, the friction of the speed creating a booming sound.

The sound of speed breaking the sound barrier.

Everytime the first hit the ground, twenty or thirty so meters deep hole appear, and those who fail to dodge become minced meat.

And there's no successfully dodge it, because even the wind created by just moving hurt anyone who is near.

So even if you successfully dodge you will still get hurt by the attack.

.....

"Danzo-sama! It's not good! The death count is increasing!"

"Please give order Danzo-sama!"

Danzo who's face turn to purple crunch his teeth in anger, he never expect that eliminating two kids will cause huge trouble for them.

He also expected this but he can't accept that the tool he proud of is useless in front of two small kid.

"..... Useless thing, use desperate move, I don't care how you so it but I want those two kid never come back alive!"

"... Yes!"

When the person disappear, Danzo look back at the place the fight currently continue, he then turn around and left.

He don't want to see the process, what he want is the result.

He don't care about the casualties.

He do t care about death.

What Danzo want is the result that he want any nothing else.

For him, Ninja is just a tool to be used, if the tool is useless, then find better tool and disposed the useless tools.

...

While fighting, Xin notice the small change, he know they using desperate move as he can sens so many detonate talisman sticking to each other body.

But even though he noticed this, he did not warn Kushina, this thing should be learn first hand to gian expirience.

On a war, something new always come for those who newbie, teaching them on the field is impossible so learning it on advance is better than not learning it.

This is a first class training for her to develop more, after all, for half year Kushina is starting to become lazy.

....

Chapter 183 - Konoha's Perfect Shinobi

While fighting, Xin noticed a small change. He knew they were using desperate moves as he could sense so many detonated talismans sticking to each other's bodies.

But even though he noticed this, he did not warn Kushina, this thing should be learned firsthand to gain experience.

In a war, something new always comes for those who are newbies, teaching them on the field is impossible so learning it in advance is better than not learning it.

This is first-class training for her to develop more, after all, for half a year Kushina is starting to become lazy.

Kushina is about to pinch one Root that she just caught suddenly a violent reaction appears on her hand.

"Boom!"

"What!"

One of the floating golden hand exploded into small pieces, Kushina was shocked by what happened just now.

Theirs still buzzing sound can be heard on her ears after the loud explosion.

"What happened!"

"Who?"

"Why!"

She can't understand, she plans to capture them one by one and add some of them to the workers that they capture.

Of course, she will kill if necessary or if she gets irritated by them like the four Nara Shinobi root just now.

But the one on her hand, she did not plan to kill him, she just wanted to capture him alive but ah never expected something like that to happen.

"Why did he commit suicide?"

One of the Root suddenly jump into the head of the golden giant, and then he explode.

Boom!

"What!"

She can't understand, how can they do such stupid thing when they have choice to be alive.

Another one jump and explode.

Boom!

Then continue to other.

Boom!

Boom!

Boom!

With a dozen or so suicide attacks, the golden giant finally becomes tattered and beaten.

Losing all limbs, head only left with one floating fist, and open chest, the giant is more rugged than anything around.

Kushina on the other hand still confused, to why they throw their life as if nothing, as if they don't value life at all.

Xin appears beside her, petting her scattered hair.

"As you can see, they are the 'perfect' ninja that the Konoha Village created."

"No emotion, no expression, no anything."

"For Konoha, a Ninja is just a bunch of tools that they can use, if the tool is useless, then throw it, that's how they treat their own ninja."

"But.... I heard Konoha Village is a righteous village."

"Who said all righteous is just? Not everyone can take everything, of course if you take it in the very start then you can fake in the very end."

"See them? They are just tools of war, they are created to serve the purpose of being a Ninja, I hope you will never become one of them, a tool to kill."

"..."

Chapter 184 - Last Push

Even though Kushina feeling guilty, the fight never stops, it continues to become harsher and harsher as time goes by

The Root disregards their own life their friend, comrade, and even themselves just to kill Xin and Kushina.

While Kushina on the other hand is having a hard time solving them, Xin can still see that Kushina is trying to save them even though they are committing suicide just to kill her.

Looking at the tattered golden giant that is trying to recover, Xin says, "I won't be surprised if Kushina's chakra eventually bottoms out."

Without any choice, he starts channeling natural energy while absorbing it simultaneously.

"Nature Energy Absorption Technique!"

"Nature Energy Transfer Technique!"

A golden energy starts to gather around Xin while underneath him is the transfer of the nature Energy he collected.

Because of the help of the energy, the regeneration process of the golden giant is boosted by hundred times or so.

Just half of a second the tattered golden giant turned back to its original appearance.

While Kushina on the other hand feels the overflowing power coming inside of her, the strength is something that she never felt before.

She knows that Xin is strong, but on what level, that is the mystery, and right now it seems she caught a glimpse of Xin's true strength.

Of course, it's on the Chakra Level and not his overall strength.

"Fire Release: Great Fireball Technique!"

"Earth Release: Earth Spike!"

"Water Release: Water Bomb!"

"Lightning Release: Lightning Slash!"

Seeing the fully regenerate giant, the Root suddenly attacks more intensely, it seems they want to destroy Kushina before she can even regenerate again.

But sadly, this is the wrong move, if they try to at least get Xin's attention, maybe they can slow down the regeneration of the giant but it's not.

They focus on what they think is the strongest, and that is Kushina and her golden giant so they just forget Xin who sitting on own of the palm.

.....

"Captain, it's not good! The giant regeneration is absurd!"

"That's right Captain, it's impossible to overturn this giant without finding a real solution from the regeneration!"

"What should we do Captain?"

The Captain of the Root looks at the golden giant and feels hopeless, he himself knows that it's impossible for them to destroy it much more with their current situation.

The fight is already so long, and he is sure that the spy on the border of the Land of Fire already notices the commotion but they can't stop.

Danzo already gives them the ultimatum for this task.

If they can't destroy it, they will die.

If they try to run, they will also die.

If they try to escape, they will die for sure.

The last order is already given the end of their life so whatever they choose the end still the same.

"Gather the rest of Detonating Talisman, we will going to push for the last time."

"Also call the Sensor Ninja, they need to send a report of this mission."

"... Yes!"

....

Chapter 185 - Desperate Root 2

Xin notice the change again while meditating but he does not warn Kushina, he know that she will notice it eventually without him saying it.

And just Xin thought, Kushina realized the change around, this time she noticed it after making her Kaguya Eyes open.

"What this person trying to do?"

"Want to use suicide tactics again?"

"But that won't work while Brother Xin is here."

"What this people want to do?"

She concentrate her chakra while using Kaguya's Eyes.

"Kaguya's Eyes: Full Open!"

Her eyes turn into crystal blue color while it start to shine because of the use of Nature Energy.

And then she found what they trying to do.

They are gathering all the Shinobi left who can still fight while picking all the Detonate Talismans that is left.

No need to think, the idea already come up inside of her little head.

They want to use all the remaining Detonate Talisman and use it on one final strike, by doing this they can surely kill her and Xin using the powerful explosion.

"They start to move!"

She can see tour people out of sixty who carry all the Detonate Talisman, it seems the rest will go to become decoys in process.

While the other two is constantly moving around while trying to hide what they carry.

'Want to explode us? As if.'

"Golden Hand: Five Gesture!"

"Spear"

One of the first turn into point gesture.

"Scissor!"

The second turn into scissor gesture.

"Paper!"

The third one open wide.

"Rock!"

Of course the fourth is still fist.

"Knife!"

A huge hand chop.

She then control it and start wrecking havoc around destroying everything from rock, trees, earth, and of course the Root around.

The movement is getting faster and faster while the Root Ninja is using different Ninjutsu to stop the attack.

But it's useless, the amount of Chakra and the Adamantine Chain is something that is not easy to destroy.

"Earth Release: Muddy Swamp!"

"Wind Release: Poison Fog!"

"Water Release: Steam!"

"Fire Release: Dark Smoke!"

Different kind of wide range Jutsu instant explode around covering everything except the sky about them.

....

Chapter 186 - Last Gamble

'Not good!' Kushina inward though.

She forgot to track the two Root Ninjas who were missing in the process, but even so, she knows the plan, so it doesn't matter now.

But looking at her situation, she knows both of them will get hurt if she doesn't do anything, so she needs to make preparations.

She claps her hand and starts using a hand seal.

Ten Dragon Seal

Twelve Ox Seal

Five Serpent Seal

Fourteen Boar Seal

And all of this hand seal is only finished within five seconds, that's how fast her.

Her hand almost create countless after imagine just using such complex Ninjutsu m

It also show that this Jutsu is harder than anything else, but not exaggerated like the iconic 44 Hand Seal Water Release: Water Dragon Bullet Technique that Kakashi and Zabuza both use in the anime show.

"Adamantine Sealing Chains: Adamantine Armament!"

Numerous small chain start to come out from Kushina's body, the small chain start to combine to the golden giant and forming a thick golden armor transforming the naked giant into a general giant.

The armor design is pretty simple, like spartan armor with long red crest on the top of the golden helmet.

After wards a golden round shape shield appear on the hand of the giant and a spear on the other side.

With such powerful shield and armor, Kushina feel safe now, in the past, she never successfully use this kind of technique because of the chakra problem but now chakra is not problem anymore.

With Xin and the universal battery of the giant, chakra problem is not a problem anymore, with this, she is sure she can block even ten S Rank Jutsu without her shield breaking.

Sensing the change of the giant, the Root start to become nervous, they know this is thier last bet, if they fail they will die so they need to do it successfully.

"Fire Release: Fire Explosion!"

"Wind Release: Giant Twister!"

"Earth Release: Earth Fang!"

"Water Release: Water Vortex!"

The Root did not hold back anymore, squeezing every drop of their chakra, they use it to perform different powerful Jutsu and launch it to Kushina.

Kushina on the other hand move the giant and place the round shield in front.

Bang!

The giant only shaken slightly with just one S Rank Jutsu, seeing this the Root start to become desperate, launching more and more powerful Jutsu disregarding those own life.

Bang!

Bang!

Bang!

Finally, Kushina's giant step back once, this is huge for everyone because they never see the her take step back even once.

But after that, the huge spear stab in the middle of them killing half of the he Root in process.

"Damn you!"

"Uzumaki Die!"

From above two unknown root drop down and active the Detonate Talisman.

Kushina's face turn pale sensing the strength of the explosion so she hurry raise her shield and drop down on one knee to absorb the impact.

Boom!

....

Chapter 187 - Kushina's Forbidden Technique

Smoke starts to disappear, what is left is the giant who holding a golden shield above his head while kneeling on the ground.

Looking around, you can see a huge crater was formed by the explosion. Almost everything around five hundred meters is bare soul; not a single green leaf is left.

You can also see some burn bodies scattered around, from the degree of burn, you can still see some burning coal left.

Slowly, the golden giant starts to move, starting to stand while a hole in the chest area starts to open.

There are two kids, Xin and Kushina, and both of them are safe except that Kushina seems overused her chakra again for the second time.

"That's dangerous!" She can't help but slap her chest trying to calm her heart.

She never expected that the explosion created by the huge amount of Detonating Talisman could create such a powerful explosion.

If not for the help of her own chakra and nature Energy, they both explode with each other when they get hit.

Xin looked at her nervous expression and helplessly asked. " Why still nervous? It's just a small explosion."

"What do you mean small? That's not small at all!"

"And besides, why did you not help? Do you know we almost died there?"

Xin wry smiled at her making her flustered, shaking his head he look at the round shield that protected them.

"Barrier Jutsu."

"Sealing Technique."

"And Absorbing Technique."

"You put all of this on your shield to maximize the safety, how can I be afraid?"

"Additionally the Adamantine Chain is harder than Granite and even Chakra Metal, the round shield you made may be the safest place you can hide if someone tries to use S Rank Jutsu."

Kushina's displeased look suddenly becomes a smile, how can she be ignorant, just like how the Root plans everything, she also plans everything.

The round shield is the last layer of defense she created while hiding a couple of first, second, and even third later of safety measures.

"Your self-made Ninjutsu can now enter in the Uzumaki Book of Seal."

"Really?"

Xin nodded.

Just like other villages, Uzumaki Kingdom also has Book of Seal, a book that contains dangerous and powerful Ninjutsu that the Uzumaki Clan created or confiscated.

This Book of Seal only complimented three years ago when Xin started to discover that his own Jutsu is all Forbidden or S Rank Jutsu.

Xin doesn't have time to create a training scroll for anyone to learn it so he comes up with a plan to copy the Book of Seal of the other village.

"Hmmm.... If I'm not wrong, the last Ninjutsu that is recorded on the Book of Seal is Sister Naga's Shadow Release: Black Hole right?"

Xin nodded.

.....

No: 23

Ninjutsu: Black Hole

Element: Yin

Rank: Forbidden

.....

She can still remember how jealous she is when Naga finally left her name in the Book of Seal, that's why she train and trian to create her own technique and now she finally made it.

Her own technique finally upgrade from A Rank Jutsu - S Rank Jutsu.

She can finally leave her own name on the Uzumaki Clan Book of Seal.

....

Chapter 188 - Winter Ends, Spring Comes

A couple of months later after the incident.

Early in the morning, Uzumaki Kingdom, the central plaza.

After the winter infrastructure plan, due to the ravage of the war, the original ruins, and potholes in the Uzumaki Kingdom have slowly recovered.

All number of buildings are starting to sprout like bean sprouts after getting watered, it's beautiful and looks richer than the previous Uzumaki Kingdom.

The center square was also built in the winter, relying on the hands of countless refugees and citizens of the Uzumaki Kingdom.

Whether it's a Ninja or an ordinary civilian.

They build this large square in the center of the Uzumaki Kingdom with their power, blood, and sweat.

Since the dawn of the morning and the beginning of a new day, the center square has begun to gather a large number of people.

Whether they are citizens of Uzumaki Kingdom or refugees of the war who just joined.

Whether they are Shinobi, Wandering Ninja, or Ordinary people, all of them are highly motivated, gathering around the central square.

Because Uzumaki is a small country, although there was war from time to time, spy getting caught every week, but life in Uzumaki Kingdom is better than they have before the war.

Food, shelter, clothing, a job that pays well to feed your family, and a sense of security that no one ever experienced before.

Enclosed is a two-story house with the same appearance and unified standard color, with exquisite design and pattern around it.

The refugee's house here in Uzumaki Kingdom is more beautiful than Hokage's own Clan House.

Just looking at the housing, anyone who is new will think that Noble people only stay here

The roads extending in all directions are no longer the original dirt roads that are difficult to navigate when it rains.

Instead, they are asphalt roads built by special Earth Shinobi and with the assistance of Ordinary People.

Around here, both civilians and Shinobi have an excited expression, they are in the middle of the center square with great expectations and excitement.

Hope for a better future.

Today is an important day for each of them.

The cold winter has passed, the thick white snow has also started to melt, and spring is coming.

Suddenly, the ritual music of the Uzumaki Clan starts to play in the central square.

Grand and passionate, unyielding vocal music swirls around the Uzumaki Kingdom.

Everyone slowly calmed down with the music, but their Reyes were fixed on the central square.

Today is the most special day for everyone.

...

"Uzumaki Kingdom, think back then... "

Uzumaki Xin led by the Uzumaki Clan and the high-level official of Uzumaki Kingdom, standing in the center of the square.

The old Patriarch started his long speech to the surrounding citizens, of course, this is the boring part that Xin doesn't want to experience.

He feels sleepy whenever he hears such a long speech, making him fall asleep almost instantly.

Behind him are Naga and Kushina who suing Adamantine Chain and Shadow Release to create a comfortable chair for him to sleep.

While the Old Patriarch, Elders, and some with sharp eyes look speechless while glancing at him, everything continues just like in the plan.

Every time is happening while Xin is sleeping peacefully, amidst all the shock and funny expressions of everyone.

....

Chapter 189 - New Uzumaki

"... At that time, Uzumaki Kingdom was still in the war period, and people's hearts were disordered, facing the Great Ninja Village."

"The Uzumaki Kingdom is afraid, afraid of destroying the country, afraid of living in the Shinobi I, afraid of .... "

".... Death with no meaning or even reason."

"At these chaotic and frightening moments, countless brave and loft men stood up, because they are not afraid of sacrifice, and forget their own lives, so there will be the day like today we allow waiting for."

"Today! The Uzumaki Kingdom!"

Looking at the people below who are quietly watching their speeches, as long as the people in the country are united, everything is possible.

"I announced that Uzumaki Kingdom new begging!"

When the sound fell.

"Long live!"

"Long live!"

"Long live!"

Everyone is cheering with great excitement.

A smile appeared at the corner of all the Uzumaki people, this speech is great, the one who wrote this is of course, Xin.

They all see what the content is, and at the same time the excitement they feel when they read it, Uzumaki Clan is really blessed to have such a powerful Young Patriarch.

They can't help but to look at Xin who sleeping comfortably while everyone is shouting loudly, you can see that Naga and Kushina create a Seal Technique to remove all loud noise around him to prevent him from waking up.

"Front this moment, everything will change, the master of the Kingdom is only chose by election, those who member of the Uzumaki Kingdom that leaving here for not long as rive years have the privilege to vote."

"Each vote count as one, whatever it's Shinobi, Refugees, Civilians, Elder, and even Patriarch, this part is already decided by all high-level official."

"But right now, we can't implement this, maybe give years later the voting start, of course there some flaws on this project but we will eventually fixed it as tile goes by."

"Right now, we vote Uzumaki Xin, the Young Patriarch of Uzumaki Clan as the temporary leader of the New Uzumaki Kingdom, while the other Elder will help him to do some work that involves the whole Kingdom."

"In the future, we will see you, working hard, and participating in various industry in this country, in the future, we will see you working hard and conscientiously to promote the stable operation of this country, in the future, we wills we you diligent, dedicated and hardworking to promote the overall life a of Uzumaki Kingdom."

"The future is in you, we are providing what you need while you are the one who creating the perfect country you wanted."

"Maybe the Uzumaki Clan will eventually leave this Kingdom ok the hand of people who you think can manage the whole situation, and we hoping to see it someday."

"Your hand is the tools to create your future!"

"Your blood is the ingredients building your dream!"

"Your hardwork is the food to feed to your own goal!"

"Let's go everyone! Let's build the perfect kingdom!"

"For Uzumaki!"

"Long Live, Uzumaki Kingdom!"

"Long Live Uzumaki Kingdom!"

Looking at the people who look feverish cheering, Old Patriarch know that the plan finally bear fruit.

Everything Xin prepared finally become successfully.

The only hit left is the internal enemies, it's time to face them once and for all.

Chapter 190 - Konoha's Reaction

Konoha Village

"Haruzen, don't you need to send a representative?" Koharu Utatane looked at them and frowned.

Homura Mitokado next to him calmly said." Anyway, Konoha Village and Uzumaki Kingdom are all allies on the face."

"The Uzumaki Kingdom has re-established its political power, we should send representatives based on our feelings and reason."

"And besides, did you forget about the Sarutobi Shinobi that they captured, I think we gave them enough time already to release your people."

"Oh, don't worry about my people."

Sarutobi Haruzen took his pipe and said with sight." And I have sent Danzo as Konoha Representative."

"....."

"Sending Danzo?"

"Will it be a problem?"

You know that they heard that two friends sent people to chase and kill the Young Master of Uzumaki Kingdom, and Danzo is the one who commanded the operation that time.

Sending him will make his life in danger.

Koharu Udatane looked at his Elder Brother with a painful expression and said." Sending Danzo is not good right?"

"It's okay, I have warned him not to make trouble." Sarutobi Haruzen said with a sad voice, he doesn't want to send Danzo but Danzo is causing trouble to Konoha right now.

Danzo is recruiting Shinobi in different clans by force creating huge trouble for him, this also makes him helpless, and chooses to send him away.

And the Senju Clan.

He doesn't need to tell that the Senju Clan's relationship with the Higher Ups is getting colder and colder, the number of missing people from Senju is already getting higher.

This thing can't be hidden from everyone but he can't find a proper explanation for the missing Senju Shinobi.

Of course, you can't say they all go to special missions, after all, the Senju Clan only left a couple of Shinobi so sending you them out doesn't seem realistic.

And right now, he can't ask the Senju Clan to clarify all the gossip around the village, after all, the relationship with them already dropped to a freezing point.

"Senju.... What are you going to do with the Senju Clan?" Homura Mitokado asked.

Koharu Uatatane put down the files on her hand while looking at Sarutobi Hiruzen seriously saying.

"The Senju Clan stop sending Shinobi out, not a single one of them took any mission, this caused a huge disturbance in the village, knowing that the Senju Clan started to close to everyone."

"Hyuga, Uchiha, and other Clan is asking for the answer, we can't just tkeep silent for long time, because the truth will eventually go out if Senju Clan speak first."

"Why not tell them the Senju Clan is going to revolt?" Homura Mitokado said seriously making Haruzen and Koharu speechless.

"..... Maybe my clan, Sarutobi Clan can revolt but Senju Clan? That's impossible."

"That's right, we all know what kind of people the Senju Clan is, revolting is the last or maybe never be their solution to their problem."

"But Senju Clan....."

"By the way, did you already visit Tsunade?"

"Tsunade... She still copping on her room... I heard she was drowning her self in alcohol right now."

"... Well she loses her brother, lover, and her parents."

It's not hard to understand why Tsunade suddenly became like that. No one is trying to confirm her because of the trouble they are facing.

"Senju..... I don't want to face them right now.... Let's see what they were going to do next and then find a solution."
