Chapter 251 - Danzo's Offer

Konoha Village

Uchiha Clan

"What the hell does this Danzo want to do?" Chief Uchiha frowned while looking at the figure who had left

Danzo is not to ask about the Mangekyo Sharingan, but ask them if Uchiha Clan wants to enter the Konoha's High Level again?

Does this need to be said?

Of course, he thought about it, that bastard Tobirama asked the Uchiha Clan to be the City Manager and safety of the whole village.

They thought that they were entrusted with a important and heavy responsibility so they happily accepted the appointment.

They threw their head and sprinkled their blood for the safety of the Konoha Village, but they go nothing back.

Thinking of finally they have managed to become part of the Konoha Village Central powerful but it's different from what they expected.

They are obviously enforcing the law seriously, but they don't know that they are slowly offending more and more people because of their job.

Whether it is civilians, or people from other families.

You must know that those rules were made by high-level people like the Elderly and Hokage so it must be fair.

Now that their own management team is taking everything seriously about enforcing the law, there still is a lot of complaint.

If behind all of this is trying to discredit the Uchiha Clan from their own work, he would believe no one from above is doing this to them.

And because of being restricted from going out, Uchiha Clan has only a few people who awakened in the past few years.

The number of Sharingan that is being awakened is pitifully low compared to ten years ago and the time of war.

Now he is sure, the people above are afraid that Uchiha Clan will gain another member who has Mangekyo Sharingan.

But here is the problem.

"What that fool thinking?"

Chief Uchiha was filled with doubts, it was Danzo who always tried to create trouble for them these years.

Now he is asking then if they want to enter to the central power?

He can feel there is conspiracy from this offer.

Thinking of this, Chief Uchiha suddenly felt that he needed to tell everyone to become more alert from the enemies.

He don't know if this conspiracy will hit them hard in the end.

"What should I do?"

"Perhaps it is time to ask the Elders for their opinion."

...

Uzumaki Kingdom

"What did you said again?"

"I'm asking if we can create seal technique that can automatically absorb chakra in the air and put it on the mechanical arms." Uzumaki Xin said.

"You know that the mechanical arms is can only be used by Shinobi while those civilians can't use it but I see this as waste of resources."

"You see, if we can help the civilians to have the ability to use the mechanical arms, the production will increase.

"Some said that having four hand is better than two hand, so if we can create extra arms for them, isn't this a huge boost for our production?"

Chapter 252 - Scientific Tools

If you want to make the civilians and ordinary people strong as Shinobi, you need to rely on Scientific Tools, Gadget, and othe thing that can reduce the effectiveness of Ninjutsu.

Of course, Scientific Tools can't use on some powerful ninja but still this tools is pretty effective when dealing lower Shinobi at most.

Uzumaki Xin's plan is to arm everyone in Uzumaki Kingdom with powerful tools but the price of scientific tools is still too much for them.

Once they made them more cheaper, maybe he can endorse it to the civilians as powerful protective weapons.

Moreover, Uzumaki Xin don't willing to turn the whole national to where all the people are soldier in amrs.

His goal is to liberate the old rules and create new things to make the whole world advance while stopping Ninja from being tools for killing.

Let them practice in development and construction of society, but this requires ordinary people to be able to sue Chakra as minimum requirements, wether with the help of tools or other thing.

In this wat, the game of being a Shinobi can be reduced to some extent that kids will not choose Ninja first.

This will also reduce the fear of the ordinary people and the social standing of everyone so the gap will not used to terrorize those weak.

Therefore, the first step must be to make people of Uzumaki Kingdom wealthy so they they have ability to eat enough and have ability to make their children have better choice.

It is not necessary for everyone to be storm, as long as they can protect their self if a war start again.

At that tim, military and Shinobi can be separated finally.

But at the moment, if the Uzumaki Kingdom want to survive and develop in this harsh world, strength is indispensable.

The strength of one is not enough, but the comprehensive national strength of the Uzumaki Kingdom.

"However, there still some people who don't have ability to use Chakra, even if I produce a potion that can make them use chakra, thee still some who will decline or even don't produce results that I want."

Uzumaki Xin touched his chin while thinking, this is not something that can be change easily, it take time and more research for them to tackle all problem they facing.

And this world, talent and blood is the first thing for them.

Having talent already make you step to the better future.

Having blood can make you step to higher level in the future.

Having both can make you be sure that your future is already secured unless you die in midway before you can even develop full.

Xin can create such thing, but he don't want too, he only use this method to the people he know that he can trusted that's why there only twenty or so people on his hidden force.

There is also the genetic technology that he want to try but his knowledge in this area is also weak at same time the information in this world about this topic is so minimal to none.

Maybe if he have complete knowledge in genetic technology, he can solve slmt he problem they facing right now.

After all, genetic is higher level than scientific technology that they are currently trying to research.

"Maybe I should start to move now." Xin murmured while hen call people to announce something.

...

Konoha Village

"Mito-sama!"

Sarutobi Haruzen looked at Uzumaki Mito respectfully in front of him.

After all, after the death of First Hokage, Senju Hashirama and Second Hokage Senju Tobirama, she is the only one who stay on place and hold those who want to create trouble for Konoha.

"It's Haruzen?"

Mito raised her head and look at Sarutobi Hiruzen." What can I do for you?"

"That's... "

Chapter 253 - Konoha Village Radical Move

"That's... "

Sarutobi Haruzen hesitated for a whole and decided to say.

"The seal is restarting to leak out... "

After conducting secret experiment, it was discovered that although the new sealing technique was ncub better than previous ok me.

It was still not good as having a perfect person to carry the Tail Beast.

Although there are a lot of refugees nowadays, even if you don't use the village, there are still a lot of them outside to use.

But it was been unsuccessful, they can't create the perfect Jinchuriki like Lord Mito, this makes him as Hokage feel little uneasy.

Some families in the village began to complain, complain about Danzo conducting human experiment which violated the Ninja Regulations.

But, what do they know about Tail Beast?

This is for Konoha Village safety.

That's the ultimate and hidden weapon of all Great Village.

Thai is indispensable if you want to prevent other village from invading easily.

However, after long time of experiment, they have been unsuccessful.

"..."

Mito was silent got a moment, it seemed that ther was a problem with the Sealing Technique that Xin gave to her.

But she knows there is no problem from it, the biggest problem her is Sarutobi Haruzen and the other Elder is looking for the best Jinchuriki Candidate out there.

But this is hopeless, who can ther a perfect Jinchuriki with same as Uzumaki Clan? Finding one is impossible because if there is, then they already find it long time ago.

She knows that they will never find the target they wantz but the problem is that Uzumaki Clan had already nese it clear.

They will never send anyone to become vessel of the Tail Beast, and they never reply to any call from Konoha Village.

It is forced, maybe Konoha Village and Uzumaki Kingdom will fight in the end and that is the last thing she doesn't want to see.

No matter how amazing that kid is, he still needs long time to develop, the only wait for them is death and destruction in the end.

"What do you want to do?" Mito hesitated for a while then asked.

In her heart, she hopes that the Village that Hashirama built will not go to fail her in the end and break her heart.

"The people below come up with a war at this time." Sarutobi Haruzen lowered his head and helplessly said.

"I need you..."

He whispered.

When Uzumaki Mito heard what Sarutobi Haruzen said, her eyes became widened.

"You guys want to!"

"It's all for Konoha!"

Sarutobi Haruzen raised his head while looking at Uzumaki Mito with clear gaze.

"For the peace of Konoha and the whole Ninja World we must do this!"

Unless the Uzumaki Kingdom is completely destroy.

Otherwise, Konoha Village has no other choice.

Uzumaki Mito did not expect that hem to choose such radical way of solving problem after the Uzumaki Kingdom produced a better solution for them.

She finally understand, the greed of people can't quench by small things, they will going to find bigger and better just for their own self.

Chapter 254 - Danzo's Change

Uzumaki Xin heard a pretty funny and interesting report today.

"Danzo went to the Uchiha Clan for a unknown reason and it heard that he want to work with them."
One of the CP0 said.

After hearing this, Xin was stunned, he did so many things so hard and start running around. To find talents every day.

What is all this for?

It's not for the peace of Shinobi Wold, but to strengthen the Uzumaki Kingdom.

Unexpected, something happen that he never expect at all.

Danzo, the first and the most racist in the Konoha Village actually go to the Uchiha Clan to work with them?

This is huge thing, after all, the people who is involved to this is Danzo and the Uchiha Clan.

Uzumaki Xin really didn't expected this.

Danzo has been in Uzumaki Kingdom for such a short period of time, and his whole mind suddenly changed?

Didn't he originally distrusted the Uchiha Clan very much, he is the one and only one who get all Tobirama's teaching about Uchiha, and you saying he wanted to work with the Uchiha Clan suddenly?

How is this going?

He come back in the village and know that he can't afford to fight against the Village Chief so he went and week cooperation with Uchiha Clan?

Amazing!

Danzo can really bend and stretch according to weather.

Uzumaki Xin didn't know what to sua.

He had known that Danzo would not stay in the Uzumaki Kingdom and really start reading the books he gave.

Otherwise he wouldn't have so many ideas like asking for cooperation with his mortal enemy, Uchiha Clan.

Sure enough, the best way to change a person is to let him read more

Now it's good, it's up to Uchiha Clan now what they doing to do next.

People wholeheartedly wanters to return to the Konoha's Central powerful, and now Danzo gave them such good opportunity.

How could they not seized it?

Just...

"Danzo really changed?"

Uzumaki Xin murmured, frowning, knowing that Danzo that black pot doesn't need allies at all.

He don't trust anymore, even they are friends, family, clan, love one and even his own father or mother.

He only need toolds, look at the strength of the root and you will know they are basically all train on one way.

Abandoning personal though, emotion, opinion, only exist as sharp sword to work for anything that Danzo order.

Will the Uchiha Clan agree?

He don't know if Uchiha Clan and Danzo will do in the end, but this will change his plan for Konoha Village and Uchiha Clan.

And the Senju.

Why they still thinking, Mito's life is about to end and that time, Sarutobi Haruzen will clean all of them.

Without anyone supporting them and any powerful force in the family, only destruction is waiting for them.

They are inclining to much to Village while the Village don't even need them anymore.

Chapter 255 - Another Attack

A shocking news suddenly detonate half year after the end of war

Yesterday, in the Land of Lightning, Kumogakure there's a mysterious group suddenly attack, and the damage was heavy.

A long river of blood is left in the country showing how brutal the fight is, and from the news ther everyone get, the enemies are all form Uchiha Clan.

At the same time, the Sage Took that were stolen is finally appear but not back to lwagakure but in the hand of unknown group of Uchiha Clan.

The enemy is the exactly what he one who attacked the Kamizuru Clan of lwagakure, a dwarf with one eyed swirling mask and can use strange Ninjutsu and Space Jutsu.

Third Raikage reminding the major Shinobi Village to take their own property and beware of Konoha Thieves.

At the same time warn the two unknown thieves bit to let the know who they are or else the will taste his powerful fist .

...

Konoha Village

"What so you think?"

Sarutobi Haruze took hso pipe and start to smoke.

He did not expect that the enemy is powerful, Space Jutsu, Mangekyo Sharingan, and Powerful Taijutsu making it hard for them to believe it.

There's no such thing as a pentagon warrior, a person can only use his time training one specific Technique not multiple.

Based from the report, the unknown ninja is so proficient to different powerful Jutsu at the same time as an Upper Shadow Class at best.

But who are those people and what are their motives?

"Is the mysterious organization collecting Sage Tools?" Homura Mitokado asked.

"Going to Iwagakure, destroying the Kamizuru Clan and stealing one of the Sage Tools."

"In the Land of Lightning is the same, destroying one Clan and stealing the Sage Tools they're hiding, not even we know that they're hiding Sage Tools."

But they feel they don't need to kill, they can just take the Sage Tools without creating trouble like professionals but they are different.

As if they are afraid not to be discovered by everyone.

"I don't know." Sarutobi Haruzen shook his head and said. "It's just.. "

"Does the Ninja World have so many Sage Tools?"

"We don't know, no one knows how many Sage Tools are really out there, not even the other villages have such information."

"But I think we need to investigate this, maybe there's a hidden secret in those Sage Tools.,x

"I will arrange it." Sarutobi Haruzen nodded and took a sip on his pipe.

This is indeed a blind spot for them, it is necessary to clearly understand what the goal of this mysterious group so they can be prepared if they want to attack them.

Turning to Danzo, he asked. "Anything in the Uchiha Clan recently?"

He remembered that Danzo came back from Uchiha Clan before coming here.

"Pay close attention to all the movement of the Uchiha Clan." Sarutobi Haruzen said looking at Danzo "if there is any action that treats the Village, you must move."

Danzo really disgusted from Haruzen's movement, all of his order he always carry only drop down to him if something bad happens.

Although Haruzen hadn't finished talking, he still knew that his good friend means.

Now that the entire Ninja World thinks I get is such a strong man, except for the Konoha Hokage Faction, he can't just sit down easily.

He wants to know, he wants to hold, he wants to lead them without missing anything else that will bring his Hokage Position down.

That's why all dirty stuff needs to be dealt by him and him alone.

Chapter 256 - Final Appointment

Good in Sensing Chakra, High Chakra Capacity, Abnormal Strength, Expertise in Sealing Technique, Tail Beast Natural Enemy, and Adamantine Chain Blood Limit.

This is the characteristics of the Uzumaki Clan, although compared to the other Blood Limit Clan who only have one or two special abilities, Uzumaki Clan have multiple one

But because they are too special, these abilities are basically unusable in ordinary products and life.

Uzumaki Xin rubbed his head, his Hidden Force, The Uzumaki Blood must used to fullest, right now he gave them various task like spying, search, and hunting criminal for bounty.

But this is not enough, he need to find a way to utilize then to fullest.

"We can only established a Police Force and Maritime Force." Uzumaki Xin helpless said.

"It seems it's time for the Uzumaki Blood to integrate with other department."

He then start taking note while Naga watching him form behind.

"Police Force, Captain, CP0 Rank 3, Uzumaki Hayate."

Xin then create of letter of appointment.

"With CP0 Rank 19 - 11, they can create ten group of Police Force that will going to protect the inner part of the Kingdom."

"Their Police Chief is Admiral Kuzan."

"Navy Department, Captain, CP0 4, Uzumaki Oga."

"Navy Fleet Admiral is Admiral Akainu."

"With CP0 Rank 10, 8, 7, 6, 5, they need to create 5 Team of Navy Team."

"Air Forced Department, Chief of Staff, Kizaru."

"As for his teammates, tell him to find his own and train them, I will find a good technique for Air Force after I'm done with my problem."

"Naga."

"Yes!"

"Tell them that they can create their own base to any part of the Uzumaki Kingdom, they can ask the Department of Infrastructure for help."

"Yes!"

"Intelligence Agency, CP0 20, Uzumaki Lucci."

"He is also the Head Chief at same time ask him to find his own members, and then them of course."

"Yes."

"And just like the other, he can find a perfect location for his base, if possible I want their base near on my office if possible."

"Yes, Young Master."

"Blacksmith Guild, CP0 9, Uzumaki Kushina."

"The goal of the Blacksmith Guild is to create new metal and iron tools for the Kingdom, she can find her own people, and that is included her disciple and the people who can use Adamantine Chain."

"Naga, you will go my personal assistant from now on."

Hearing this, Naga feel her feet is floating up in the air, as if she become the new Uzumaki Patriach or even become the new God of Shinobi.

She did nyo expect that the position that she currently become her own permanent position.

You know, Xin's secretary is random, there's no permanent one because the appointment is still not released to them.

And now she finally got it, the best and only position she really want.

She can't help but to imagine how angry Kus

hina and other of they heard what kind of job she get.

"Hehehe."

Chapter 257 - First Appointment Expirence

After releasing the letter of appointment, the whole Uzumaki Kingdom suddenly change.

It not visible in naked eyes but you can feel it in the atmosphere of the whole Uzumaki Kingdom even far.

From every correct of the street you can see a special person who wearing black slacks and long sleeve polo shirts with dark brown protective vest and a weapon holder on the belt.

They are all have black eyeglasses and always looking around sharply as if they are looking for something.

They are the new Uzumaki Kingdom Police Force that is being lead by Police Chief Uzumaki Kuzan.

They are new but they are the most powerful force around the Uzumaki Kingdom right now, they are just appeared weeks ago after a local notice is spot in the bulletin board in front of the central square.

They know who they are, they are the one who protecting them, they are strict but not so strict that you can't move wrong.

The crime rate is low so there's not much problem but with their presence and their own assistance from time to time, the whole flow of people in Uzumaki Kingdom become smoother.

Of course there is also those Police Post that is place everywhere, you can also there for help or for information, that Police Post is always open 24/7.

With such force around, the number of businessman who visiting suddenly grow up with just span of three days.

That huge change made the Elderly happy, you know, the Businessman are the people who hard to pull over, but with such strict Policy and almost perfect guard, they can surely feel safe when they stay in Uzumaki Kingdom.

In the coast of Uzumaki Kingdom, a huge structure is being made, it's the Navy Base, outside of the new port ten huge ship is park.

Not like the Police Force that has many members, the Navy is lacking with people right now, after all, Navy is new at same time not really need in this world.

But still, there still people who want to join, Navy maybe not useful right now but the resources of them is abundant so some try to join.

Well, the only problem is the joining, of all Departments Xin created, the most strict and discipline department is the one Akainu leading, the Navy.

But still, there's a lot of people willing to join, having huge resources, and the safest department of all.

They only dealing with Maritime Industry and the Pirate in the sea so this job is more easy.

As for Air Force, there's only five people in this department right now, after all, it's hard to find people who have good affinity in this kind of department.

Of course, this will change after Xin finished his first aircraft that is being made somewhere, for sure people will run to join the Air Force if the finished product goes out.

As for Kushina, she is angry after hearing that the most important position that they think is already have a winner.

The girls even visit that Orphanage to ask Xin's mother to change the decision but it's helpless, the position is already released and no one can change it even if they want to.

With full of helplessness, Kushina with her disciple can only build their own department, the Blacksmith Guild.

But who knows that the unknown department is actually the third largest group who raise suddenly.

With almost fifty members who can use Adamantine Sealing Chains, from young to old, and ten different businesses man who want to ask businesses for them.

Not only they are third in population, but they also first when it comes to resources, they have already source of income at same time dezon go shop selling tools that they made.

Apart from this, Kushina have ten huge partnership with ten different businesses man all round the Land of Fire.

Her tools is already entered the Land of Fire Palace and the Land of Fire Army, while some is being keep by other Village.

With the toughness of Adamantine Chain, and the unique method of Forging, even the Chakra Steel is nothing in front of Adamantine Chain Steel.

The 25% of the income is coming from Blacksmith Guild, and they still increasing as time goes by.

Uzumaki Xin can already imagine when the other three department will come to Kushina asking for tools she made, maybe that time Kushina will understand how important her current position.

Chapter 258 - Year 57

Year 57, Two Years after the Second War End.

The whole Shinobi World began to be in a tense atmosphere again.

Especially the Hidden Rain Village.

Hanzo of the Salamander is stirring trouble everywhere, creating conflict to every Shinobi from different village that step on the Hidden Rain Village.

While the Three Ninja Village, Hidden Sand, Hidden Leaf, and Hidden Rock is frequently going in and out of the Hidden Rain Village.

Everyone don't know what they're trying to do, but to majority of people, they know that war is about to start again.

Seeing this that Hidden Rain Village is fighting three different village at same time from time to time, people start to notice the change around.

At same time, Hidden Rain Village have caught a lot of spies from other Ninja Village in the past months making Hanzo start to feel irritated.

After the God of Shinobi died, and the Younger Brother of God of Shinobi died couple of years later, who else will fight Hanzo who title himself as Demigod Shinobi.

No one knows who gave Hanzo the Demigod Shinobi Title but everyone knows how powerful he is from the previous Second Ninja War.

Killing anyone from his path, he has a huge complete percentage of all his missions he takes, kill not less than a thousand or more Shinobi, and the hardest Shinobi to kill because of his unique physique.

With such title and fame, who else will be his opponent in the Ninja World?

Of course, the kid from Uzumaki Clan is not included, he hasn't developed yet and after the rise of fame no one knows what will happen to that kid after that.

Maybe he will surpass Hanzo in the future as everyone expects but for him, he is too young for such achievement.

....

Hidden Rain Village

"Arrange Shinobi in various places." Hanzo put on his mask and said lightly.

"Always pay attention to everyone who enters and exits the Hidden Rain Village to prevent being invaded like last time by the spies of the other Shinobi Village.

"Yes!" The Shinobi around responded respectfully.

".... Peace.. "

Hanzo states at the Hidden Rain Village, because of the rain all year around that's why they called it Hidden Rain.

There is no peace in the village, from his birth to the present, he always sees civil war and death all around.

When he was young, a group of obnoxious researchers in white coats implanted a venom sac of the Black Salamander into his body causing him to endure unimaginable pain in his childhood.

But because of this, he finally achieved the title Demigod Shinobi by using the blood of his own enemy.

It's not that he is super strong, it just that the poison inside of his body is so strong that his breath can easily kill hundreds of Shinobi within a minute.

But because of this, he also became lonely for lifetime, he knows that he can marry and create family because of his condition so he put all his attention to creating a better Hidden Rain Village.

"Shinobi World..."

Hanzo's eyes turn cold while watching the rain outside." There is no peace in this world."

Selfishness, greed are what Ninja World all have right now, mercy and peace can only be enjoyed by the dead.

The same as Hidden Rain Village, whether you are an adult or a child, when you are born, your destiny has long been doomed to your future.

And that is darkness.

"I only hope I can protect this small peace that we have..."

....

Chapter 259 - Neutral Position

Uzumaki Kingdom

"The theme of today's meeting is the upcoming Third Ninja War." Uzumaki Xin who is already 13 years old look at everyone while sitting on the leader position.

After two years of reconstruction and rearrange, the Uzumaki Kingdom final come to start.

Everyone is arrange, the lack of people is finally end, all the facilities and government agency is all full while the whole Uzumaki Kingdom can be said as the most prosperous and safe place in the whole Ninja World.

All of this by the help of everything, of course with the mastermind of all, Uzumaki Xin.

"Is the war is about to start again, Young Master?" One of the Shinobi sitting asked.

When the three Ninja Village, Konoha, Iwagakure, Sunagakure began to gather forces on the edge of the Hidden Rain Village, Uzumaki Xin knew that the Third World War was about to break out.

Especially those three shameless Ninja Village, they took other countries as a battlefield.

It's not strange that Hanzo doesn't get angry even tight now.

But Xin knows that the war is about to break, and what everyone waiting is something big to detonate everything.

Uzumaki Xin is really powerless to complain, he don't like wasting time with shameless people because he know shameless people never feel ashamed for what they did.

"Oh?"

"Is the war going to start again?" Those Elder said with melancholy look.

They experience countless wars throughout of their life, so those who old is afraid of war.

In recent years, because of the dedication of scientific research, all the Elder in the clan gain huge advantage.

But this is not enough for them to feel save, the current life in Uzumaki Kingdom is great, greater than the so called Number 1 Village.

They don't want the peace they have to be destroy by the war again.

But this not worried those who know what the current condition of the Uzumaki Kingdom, they can't even wait to use those things left behind in the weapon storage.

The invention over couple of years has allowed some of them see the difference path, a path that makes the Uzumaki Kingdom stronger.

"The kids in the school is not ready yet, we can't send them just having two years of knowledge in school."

"The Uzumaki Kingdom Army is ready but it will take time for them to gain experience, the war is just in time for us to test them."

"Young Master, let us Navy be the vanguard, I will bring honor for our clan!" Akainu as usual gladly take the lead of the war.

Well, it's normal for the well-known hot-blooded of Uzumaki Clan.

"Akainu, relax, the sea is still not clean, let us the Police take charge of this." Kuzan who almost lying on his chair said.

"Hey, hey, don't involve me in this, my Air Force only has dozen of people." As always Kizaru wants to skip work.

Uzumaki Xin helplessly shake his head, he used to this kind of opinion every time they conduct a meeting.

"This time, I chose to declare that our Uzumaki Kingdom is in a Neutral Position." Uzumaki Xin said with a serious face.

"No matter which Village asked for an alliance, Uzumaki Kingdom will refuse them."

No one declines the decision, they know that Uzumaki Xin is planning something and they believe his decision is the best for everyone.

After all, Xin never fails them in his decision.

"Good I like that!"

"Understood!"

Chapter 260 - Strange Atmosphere Around the Kingdom

The atmosphere of war is always the easiest to infect people, so when some merchants leave and the police in the Uzumaki Kingdom begin to strengthen public security management.

The civilians of the Uzumaki Kingdom know that something is going to happen.

"Ginta, did you say something is going to happen recently?" A youngman asked, looking at his partner next to him.

"How do you feel that the atmosphere is a little bit wrong?"

"Indeed, something is wrong." Ginta said while frowning.

"There are many shops in the shopping street that is not open, they seem to have left the Uzumaki Kingdom."

"Why are they leaving?" The Young Man puzzled asked.

"Isn't the Uzumaki Kingdom is very good?"

Uzumaki Kingdom is the best place he has ever lived in, there is no hunger, no cold, no Shinobi trying to bully them at work.

It can be said that there is not better place in the Shinobi World than Uzumaki Kingdom.

"I don't know." Ginta shook his head, but when he saw someone walking towards them, he said. "Joz is off work, we can go and ask him."

The last time the police station recruited people, Joz is lucky enough to be selected so Joz is now quite well known in the circle.

If they want to know something, they need to ask someone who knows more than them, and that is the people who work with Uzumaki.

"Joz!" Ginta shouted waving at Joz calling him. "Here!"

A young man with short hair was frowning, thinking about things as he walked, he then heard someone is calling him.

After he came back to his senses, he raised his head and saw who it was, a shadow appeared on his face then shouted back. "Ginta, Young Li!"

Then he ran towards them.

"Joz!" Ginta is really quick tempered person, he couldn't bear to stop and asked Joz directly.

"Is there anything going on in Uzumaki Kingdom recently?"

"You!" Joz saw Ginta looking at him curiously, Young Li also join making him turn silent got a while.

"Are you awake of it?"

"Yes." Young Li nodded.

"The atmosphere is a bit wrong these days, especially in the commercial street, there are a lot of people running over there, we.... "

"Shut up!" Joz hurry said.

"What's going on?" Ginta look at Joz with confused face.

Joz embarrassed said." Sorry, its confidential, you don't need to tell anyone of this, otherwise it will be bad if you are punished in the end."

"Oh... I.. " Young Li suddenly understood what was going on and hurry apologize." I'm sorry, I do t mean it."

"It's okay." Joz shook his head with a smile.

"It's not a secret or anything else, anyway, you will know it in a few days or so."

"That is..... "

"War... War is about to begin again.. "

How can't they understand how serious this is, but they never expect that the cause of all of this is more serious than hat what they expected.

War?

How much damage war bring to them, almost all the powerless people die because of the war so they know how serious all of this.

....
