

Uzumaki 281

Chapter 281 - The War

Uzumaki Xin didn't know that because he want to create trouble the arrangements he did is lacking.

He need to rearrange everything to prevent any lose or danger to everyone.

War cannot be finished by just a few fight, war takes time and energy and their mission is the hardest one

Especially that now they have created a good image to everyone so they can't fail here, everyone need to think they are helping Konoha and trying their best for their allies.

Although the Uzumaki Kingdom is spending money in war, it's not that huge, with his deal with Hanzo, the fight in Hidden Rain Village is like a play between the two.

Everyday they need to fight, they need to create loud explosion and realistic fight to prevent other to notice the strangeness.

By showing that they never holding back their help, this will make the Reputation of Uzumaki Clan better

At the same time the Konoha Village is having trouble with gossip that they made, but this nothing to do with them for now.

As for Hidden Sand Village, they are just bunch of clow who don't know anything at all.

They just join to add for the fun and hoping to o get a small piece of meat from Konoha Village.

Right now, Uzumaki Kingdom is just a small country with few people, and it is not easy to be able to hold two ninja Village for somlong.

Konoha Village will understand them if they ever to step back but this will cause them huge money so they can only hold.

Uzumaki Xin send some of his people to hold the Hidden Sand Village back, it looks hard if outsiders look into it but actually it's pretty easy.

CP0 is bunch of experts doing assassination mission, searching, and spying so the whole group is having good time right now.

Of course, he send Kizaru to monitor everything to prevent anything bad to happen, but if everything is normal, he don't need to do and just need to watch.

As for the bunch of tools they created, they already send them out to Hidden Rain Village and other small village of that want to buy

Although it's is just some defective products, those things still useful.

...

"Lucci, you know our goal of this mission right?"

Uzumaki Xin looked at him and said." Don't let the people below become stupid and die."

This time, they will going to send some people to sell arms to other village, this is dangerous that's why he send Lucci and his team.

Right now, the upper and middle side of Land of Fire is the most dangerous part of the battlefield, any error will cause death if they are not prepared.

There are no many people right now, because they're are really bot many people in Uzumaki Kingdom that Xin can use.

So in the end, he sending people who just finished their training, and he knows this is not enough so he send Shadow Level Shinobi to prevent and to guard of bad things happen.

"Don't worry Young Master, I will bring everyone back safely."

"Good!"

After Lucci left, he look at Kushina.

"Kushina."

Uzumaki Xin looked helplessly at Uzumaki Kushina who is looking upset while pouting.

"What's the matter? Is someone upset you? Who is it? Don't worry I'll beat them."

"Yes!"

Kushina unhappy look at him and said." It's you!"

"How is it possible?"

"You must have misunderstood something."

Chapter 282 - The Righteous Uzumaki Kingdom

"Why Sister Naga, Nono, and Yuki can go out, why I can't?"

"They are Medical Ninja, Naga need to follow to protect them while Yukihome need to accumulate experience and the war is the perfect place for her to shine."

"And it's a battlefield and not playground, it's dangerous there and not fun."

In fact, those girls, Uzumaki Xin don't want them to go after all, the battlefield was changing rapidly and he can't be sure there will be no accident out there

In the end, he can't persist their pleading, and their own teacher said that they are good enough to serve backups what they need is experience fighting someone.

So he decided to let them go while he asked Naga to follow up them secretly, he really don't want anything to happen with the girls while they are still not in their peak.

"But I.... I can also help." Kushina angry said.

"I'm a Ninja now! And also Shadow Class Shinobi, I can definitely help them!"

That's why he don't want Kushina to join them, she is important for the Uzumaki Kingdom and also she can't hold her temper.

Uzumaki Xin don't want anyone to learn that there is another young Shadow Class in Uzumaki Kingdom.

It's already enough to save him to forefront to any danger to that is coming so no need to sue Kushina to attract more enemy.

"Let's just stay here, it's dangerous outside you know?"

"But.... I just want to help."

Her friends can help well but she, she just left behind and those traitors did not even ask her.

Uzumaki Xin sighed and look at her with helpless look." Well, I'll take you out there when the time comes, but you must not move on your own and follow me.,x

Hearing Xin's words, Kushina nodded happily." I like you the most, Brother Xin!"

She then launch a kiss to Xin and left happily.

"This girl?"

Uzumaki Xin touched his cheeks and smile." Really?"

Not long after the war begin, Uzumaki Clan assistance set off in mighty manner.

.....

Konoha Village

"Have you heard? Uzumaki Clan has sent all the ni ja across the country to support Konoha!"

"Yes! Yes! I know this, the nephew of my great grandmother's sister's best friend is a beggar, she heard this news from other beggar who also heard the news somewhere, he come to Konoha to ask for alms and told me this information."

"....."

"That team! I heard that even ordinary people of their Kingdom have join the fight."

"Isn't that get dangerous? How can ordinary people fight Ninja?"

"Hey, isn't it impossible for Uzumaki Kingdom to hold two village when they are just small country to begin with?"

"It's impossible to resist two Shinobi Village so they send ordinary people to be the auxiliary team while Ninja is fighting in front "

"This! The Uzumaki Kingdom is really benevolent and righteous!"

"...."

The news of Uzumaki Kingdom movement is know by everyone, there's no hiding for this huge thing.

After all, Uzumaki Kingdom drag everyone who can fight just to help Konoha Village who sell and betrayed them couple of times.

Not only that, they are also helping people who escaping form war by providing food and safety to anyone who need.

Now everyone is thinking, who so the Peace Keepers in the Ninja World.

Is it Konoha Village who sell and betrayed their own ally.

Or

Uzumaki Kingdom who run to help when they heard Konoha Village pleading.

Chapter 283 - Spreading Rumors

"So until now, you haven't found out who spreading the rumors in Konoha?" Sarutobi Haruzen frowned, looking at the document that come up from below.

"Did the police find anything?"

"Yes, Hokage-sama!" Anbu knelt down on one knee and respectfully said.

"There's rumors seem to have appeared in the village for no reason."

"What about the foreigners and the merchants?"

"Have all these people investigated?"

"It's all investigated." Anbu reply.

"Recently, people from outside of the village have been carefully checked when they enter the village so no spy can enter."

"Oh, let's go on." Sarutobi Haruzen sight.

"I still increanthe investigation and punishment to find those people on dark."

The Anbu want to said that they need more people in frontline than wasting time finding the person spreading rumors.

You know as leader you need to solve the most important than wasting time when they needed more in war

But still, he is just a Anbu, the one who need to think about this is the leader of the village so he turn silent and left.

Sarutobi Haruzen did not know that his reputation that he holding dearly is slowly crumbling because of his wrong decision.

But he don't care, what he care most is if his reputation is still clean as white paper and never get stain even a dot of doubt.

Haruzen took a sip of smoke and look at the information in his hand, he felt a little worried, although he knew that these rumors must be or related to the Uzumaki Kingdom he know he can tso anything.

This is a time of war and he can't create new enemy just because of rumors.

"The Uzumaki Kingdom... " Sarutobi Haruzen frowned and murmured." What the hell they want to do?"

At this time.

"Hokage-sama! The Senju Patriach want to see you!"

Anbu come in after knocking stating his reason.

"Senju?"

.....

Uzumaki Kingdom

The atmosphere of the eas still effects all island around Uzumaki Kingdom, thank goodness the citizens are not afraid of the war.

They still work in their post with high energy, because they believe that the Uzumaki Kingdom will protect them like how they protect them in the past

His Royal Highness Xin will protect all weak people in the land.

As written in Uzumaki Kingdom Constitution, the Uzumaki Kingdom is their strong backing.

"Pay attention!" The Old Patriarch look at the gate watching people coming in and going out, specially the routine check they doing

"Be careful patrolling, don't disturb the ordinary people, maintain the order in the country."

"At the same time, be careful not to let the enemy village invade us!"

"Understood!"

Seeing thst everyone was in high spirits, Old Patriarch nodded in satisfaction, it is really not easy for Uzumaki Clan to have such peaceful life.

Even when the family was strong life back in the past, they are not happy at all knowing enemy is just outside of the gate.

Now, they all seem to have discovered it he meaning of their lives, and that is to defend the peace they finally get and maintain it as long as possible.

Chapter 284 - Life in Uzumaki Kingdom in War Time

"Recently, the number of Refugees is surging again, not like last time we need to find people, now the people is constantly coming to us because of what we doing in frontline."

"I heard the port in the Land of Fire is lacking with manpower so I want to ask Admiral Akainu to go and pick the people back to us." Old Patriarch look at Akaino who sitting with them.

"I will do that, Old Lord." Akaino answer.

As former Daimyo and Uzumaki Patriach, he know he can't hold back his son so he so what he thinks is good for them right now.

So he must prepared food, clothing, and shelter just like what they did in the past to provide better accomodations for the refugees.

He know those refugees maybe leave after the war but he know that when people find the perfect place to stay, they will stay.

And where can you find such perfect place?

Uzumaki Kingdom can give such place, with food, clothing, housing, and safety, of all places the Uzumaki Kingdom is the safest and richest place int he whole world right now.

Even the Hidden Sand Village can't compare to the richest of the Uzumaki Kingdom.

"Old Patriarch." A You gman look at Old Patriarch and asked." Will Young Master Xin bring people back again?"

"Of course." Old Patriarch said proudly." Little Xin had been working hard for everyone to eat, wear and for the peace of Ninja World so don't worry."

"En!" The Young people can't help but admired Uzumaki Xin for his righteous work outside of the battlefield.

They heard that when the Uzumaki Clan group stop, they help and destroy town or people that they pass by.

Old Patriarch heard someone complimenting his son makes him smile joyfully, but still he look at them seriously." Hurry up, stop flattering that kid or else his head will go bigger because of you guys!"

Looking at the group of people in front of him, most of them are refugees who come to the Uzumaki Kingdom in last war.

Now they are no longer thin and sick as they were when they first come, and they have complete clean and new clothes to worn out

As long as you are not lazyman in the Uzumaki Kingdom, you will never be hungry or become a beggar.

Nowadays, the only shortage in Uzumaki Kingdom is people and not the resources, this is because of people who left to hide from war

But, where can you hide when war is everywhere?

It was an idiotic decision to pull your family out and find a secluded place to hide and wait for the war to end.

The only problem is when the war will end, this also happened to them in the previous war, hiding and trying to survive.

Hiding is easy, but what about the good? Shelter? And safety?

There's no such place that can give such a thing except Uzumaki Kingdom, those who left also left their own privilege for those who will come later.

Old Patriarch knows that those people whom he left if they ever survive will not get the same treatment as they first arrive.

Loyalty is the only thing that you can give to the person who saves you.

But if you leave and disregard loyalty, even if you come back, what you left is already gone.

Uzumaki Kingdom doesn't need people who are disloyal, they can still find people who are willing to be loyal to them then taking people who already choose to escape.

"By the way, Old Wang, I heard your daughter-in-law is pregnant, are you prepared to buy a new house before the kid is born?"

"Of course, and I already prepared for that."

"Hey, Old Ding, what about you, I heard you kid is the highest rank in the school right now."

"Yeah I heard that too, if only my son is good as that Little Dingdong."

"Who don't want such good kid right?"

Old Patriarch shake his head, this people really can slip such gossip form time to time while working.

Chapter 285 - Condition of the Uzumaki Shinobi

While walking inside of the Senju Clan, Senju Patriach can't help but to feel sad.

He didn't even want to do this, but he was already scared, especially when Hokage asked his Grandmother to do such thing.

His heart is full of sadness and chilling, as the Patriarch of the Senju Clan, he has responsibility and obligation to contribute to Konoha.

Especially the First Hokage and the Second Hokage are come from Senju Clan.

They sacrificed for Konoha, the Senju Clan were not afraid to sacrifice their self for Konoha.

But the problem is, Konoha is no longer a he same Konoha Village they willing to serve.

And so, even if this is heavy in his heart, he choose to do it.

"Don't worry Grandmother, the Senju Clan will never betray Konoha.... "

He said as he walk slowly as if he is facing hai own execution.

.....

The war continue.

When Konoha was fighting with other Shinobi Village, the Uzumaki Kingdom that supported the Konoha face two also.

The troops were dividend into two groups, Lucci Team, Aokiji Team, each of them rush to their own designated area, their own line of offense.

And why offense and not defense?

Well, Uzumaki Kingdom is a mobile Army, they never stay on one place, they dont have any camp or permanent resting place.

Any cave they come by is their temporary resting place, the offensive line is the Land of Fire border.

Thuy never let any Shinobi to enter the border unless they are civilians or refugees who pass the screening to prevent any spy.

Of course, the fight with Hidden Rain Village is the easiest fight, they are making the fight so no one die or hurt from the fight they show.

In this part, the group consist of the lowest level of Shinobi with Lucci as the leader, this part of the battlefield only need to show off some fighting to prevent Konoha and other Shinobi Village to know that they make deal with Hidden Rain Village.

On the other hand, the fight with Hidden Sand Village is the most gruesome, the fighting here is real that's why the Uzumaki Shinobi in this part is more than the other.

But it's not hard for them to fight, because on their team there's a Shadow Class Shinobi watching the fight while almost everyone of them is Jonin or Elite Jonin so defeating them is not easy as sending more Shinobi to fight.

"Everyone remember the real mission!" Aokiji said looking at the Uzumaki Shinobi in front of him

"Now star camping, at same time use Shadow Clone to attract the attention of other Ninja Village."

"At the same time, Spy star to infiltrate the he enemy camp, find their food and armor storage, take everything and burn it to remove the evidence, you can also use Detonate Talisman to make everything faster."

"Kizaru, who is the other Village?"

Kizaru turn into light and appear beside Aokiji.

"I find three group of Shinobi on three side, it seem they prepared ambush for us."

Kizaru pointed the part where he swe those people.

"Hmmm, I see, do you want me or you to eliminate them?"

"Yawn, let me do it, I don't have anything to do anyway."

"Okay, and check any reliable information from them."

"I will try."

Kizaru then turn into light particles and disappear.

Second's later.

Boom!

"..... Why did he make so much noise?"

Chapter 286 - Airship

Uzumaki Kingdom

"There is still business to discuss in a few days." Uzumaki Xin looked at the corner and said." Its about the airship."

After negotiating with Hidden Sand Village and Hidden Rain Village to make them cease the war for five months,, the Uzumaki Shinobi will retreat.

Although they felt very curious in their heart, why the benevolence and righteousness Uzumaki Clan which is spreading in the Shinobi World would make.

But they understand that is is because of Konoha Village in the end.

It's pretty good that the Uzumaki Kingdom is willing to spend money to seek peace , is it really sacrifice for Konoha?

How could there be such a stupid Kingdom in the Ninja World?

Therefore, although Kazekage and Hanzo is happy inside, they still have to arrogant in front of the enemies.

After all, the peace that comes from praying for money will not be recognized by people, especially those fools.

But even so, Hanzo like this kind of trade, he get something while keeping his force whole for the next fight

Hanzo must let the Konoha win with a narrow victory in this war, consume Konoha's strength, and weaken the strength of other Ninja Village.

After all, he already had a hunch that he will going to fight a gruesome battle next.

But still, the Airship that Uzumaki Clan is selling is a huge thing for him, having the sky open for you is a huge advantage to any fight.

Except for Tsuchikage who can fly, almost everyone don't know how to fight in something flying up in the sky.

.....

Hidden Cloud Village

"Airship?" Raikage muttered looking at the information sent by the spy outside.

"The shipbuilding technology of the Uzumaki Clan is already that advance?"

He still remember that the Uzumaki Clan can only make Detonate Talisman at best and now they can make such floating fortress?

He did not expect that Uzumaki Kingdom develop so fast, this time, they did not expect them to come up with such technology.

"Arrange the Anbu!"

Raikage said to his assistant with serious face." You must get the technology to make airship back to the village."

The significance of this technology can change the outcome of a war.

Although Hidden Cloud Village is all barbarian who only know using their muscle to fight, they still can see the advantage of having such technology.

"Understood!" Assistant nodded seriously, he also know the importance of this airship.

No matter how dangerous the Uzumaki Kingdom is, this action is necessary.

"It seems that I need to pull some elite to dispatched."

.....

"What do you want kid?" Kushina look at the child following behind them, she don't know when this kid start to follow but this makes her angry.

Not only the whole place is wet and humid, there's no sun in the sky, the whole place is full of mud and there's no enemy to fight.

It seems she understand now why Xin accept her to go here for expirience, after all, this is the safest place that she can go to gain experience.

"Ah! This making me crazy!"

*Grumble!!

"Are you hungry? Come follow me let's eat."

".... En.."

Chapter 287 - First Generation Airship, 'Alexander'

The Land of Rain is a magical country, a small country where it rains everyday and the rain never stops throughout the year.

Because of the, few people come to the Hidden Rain Village because the weather is too humid making anyone who stay too long will get sick.

At the same time, because the territory is bordered by the three Great Ninja Village, domestic development is basically controlled by the three Great Ninja Village.

In order to prevent the invasion of the spies from other Village, the Hidden Rain Village is very strict when it comes to foreign people.

Once suspect that you are spy, basically the result is death or getting beaten to death.

Couple with the division of domestic civil war and continues in fight, it can be said that the people in the country are not living just with bad weather but also the the struggling of power by those who think they are the higher one.

.....

Hidden Rain Village

"Is that the Airship you want to sell?"

Hanzo look at the huge object floating above the ground asking, he never see such vehicle that can travel through air.

"Yes, this is develop by the Uzumaki Kingdom Scientific Group, this is the first generation of Uzumaki Airship."

"... So you really are from Uzumaki Clan." Hanzo said looking at Xin who still wearing same black cloak when they first meet.

"Yes."

"I understand now why you have such weird deal last time, who will think that the Benevolence and Righteous Uzumaki Kingdom is actually making a hidden deal with enemy." Hanzo sneering said.

"War is all about outsmarting your enemy, a war without a goal is a pointless war, into those who warmonger and bloodthirsty people who like to kill will start a global war."

That right, War is just the way to rob other people property in legal way.

If you can't get anything from war, why start a war?

"So can you tell me what this huge chunk of metal can do?"

"Airship, also known as 'Alexander' the first generation Airship that developed by Uzumaki Clan Scientific Group."

"This thing can float above five hundred meters away from the ground, with fly speed of 2.5 kilometers per hour."

"That's slow." Hanzo said.

"Yes, but the 'Alexander' is not built to use as rescue ship but a carrier ship, this Airship can carry hundred people that is fully equipped."

"And can carry up to 5 tons in weight but this will cause huge loss to the speed of the airship by half."

Hanzo was amazed inside, a ship that can carry almost half of the army into the designated location.

With the huge carry capacity of 5 tons making perfect carrier of the war weapon and food for fast.

Having this as form of transportation is a huge thing to prevent getting ambush in their way or prevent getting trap by the enemies.

But still, even if he wants to get one, he know the price of this thing will going to be high and right now Hidden Mist Village is having hard time providing money.

"Can I pay partially for your airship?"

"You can, but you need to add 10% increase of actual price."

Hanzo accept this, he know that Uzumaki Clan is good in doing business, they never do a business that they will lose in the end.

10% is huge, but if they can win the war, the compensation will enough for them to pay for the remaining debt.

"Congratulations, you are now the owner of the 'Alexander', come with me and we finish the paperwork inside while I will going to tour you."

Chapter 288 - Uzumaki Fame

"Fellow inside, open the door, we are the Uzumaki Relief Team, an organized and discipline army, if you don't take people one by one, we will force to open the door so please cooperate with us.

*Crackk!

"My fellow man, you finally opened the door, hurry up, take your people away, don't take anything else, remember, we are organized and discipline army, and we will never take anything from you.'

"....." Hidden Rain Village citizen

"Uzumaki Relief Team sends warmth, please open the door!"

"..."

"Hello, we are the Uzumaki Relief Team, we will check your water meter, please open the door!"

"....."

.....

Couple of months later as the war continue, when the Uzumaki Shinobi entered the Land of Rain, they were welcomed by the people of the land.

The Uzumaki Shinobi has been implementing the basic strategy of the country, from the masses to the masses, integrating into masses and everything start from the masses.

At the same time, the Uzumaki Shinobi should keep on mind the moral and integrity, attention to details and abide the law in the place.

They come not to harm anyone or destroy anything, they come to helped the local people, protect the local people, And bring the local people a sense of security.

The behavior of the Uzumaki Shinobi made the people of the Land of Rain feel more cordial, reflecting the military strength and civilians love between two different country.

And because of this, when they entered the Land of Rain, they are welcome by the local people, because they know that Uzumaki Shinobi is different from the old traditional Shinobi who only know how to kill anyone in their path.

"So this is the perfect army Young Master said, the serve and to be love by normal people, job that you don't need to hide and need to be proud to show off."

Uzumaki Ryu frowned and look at the facts he had recorded in the Land of Rain, he need to record the important details so he can report it back.

Uzumaki Ryu once again wrote in his little book.

The Uzumaki Shinobi had always kept in mind the teaching of Young Master Xin and dare not forget the slightest bit of them.

They always remember Young Master Xin and set an example, everyone is equal in front of fate, if you want to do something foolish, you should prepare for the consequences.

Having good Karma will make your after life more easy, being righteous and benevolence is better than become known as a butcher.

"Hey Ryu, what are you doing?"

"I'm writing information about the Land of Rain, I can pass it to Captain later I'm sure the Young Master Xin will like it."

"Ah! Is that the daily report of everyone?"

"Yes? Why you did not finish yours?"

"Not good! I forgot to do mine!"

"Then better prepare, I heard Captain is strict when it comes to finishing the assignments."

His friend take a note in his pocket and start writing hastily, they know that the corporate punishment is something that no one want to experience.

Because it's not hard or painful, but it's embarrassing, and your embarrassment will be recorded and announced in the end of the year.

"Hurry up! Hurry up!"

"Not good! Captain is back!"

"Attention! All your of you pass your assignment to my assistant, you know what will happen if you fail to pass it to me!"

"Yes!"

You can hear different cry all around the camp, the locals don't know why there's howl of wolves and cry of pig everywhere so they only think that the Uzumaki Shinobi is having party.

Chapter 289 - Kushina Destroying Xin's Image

"Xiao Nan, let's go and check Brother Xin, I'm sure he will like you, he is a pervert after all " Kushina said pulling the little girl that following her last time, of course she did not forget to discredit Xin from other girls to prevent to gather attention of bees and butterflies.

"Is Young Master Xin is a pervert?" Xiao Nan who don't know anything think that the Uzumaki Xin she talking is same as those rich people who like to collect beautiful girls.

S perver people.

Kushina can't help but giggles hearing what she said, little girls really easy to scared.

"Thats right, Brother Xin like to collect little girls to play so don't get close to him okay."

"And also, he like hugging me when he sleep, whispering in deep night like."

"I love you Kushina."

"You are beautiful."

"I like your smell."

"I want to make baby with you."

Kushina finally found a way to get out, she speaking to Konan while telling all her hidden dreams she keeping secrets.

Both of girls blushing when they finally arrive at Xin's tent.

Konan look at the huge tent that looks like same as other but much larger, she don't know the appearance of this Young Master but she know that he help the people of Land of Rain.

This is different from what Kushina's expectations, she thought that if she discredit Xin, she can prevent anyone to attract to Xin.

What she never expect that Konan is more open-minded than her, for her, anyone who can give food and protect them is good people.

He don't care about the hidden hobby of them, what she thinks that this is normal, they are rich and strong and having such hobby is normal for Noble.

"I'm here Brother Xin!" Kushina said kicking the door of the tent and entering.

Next to her is Konan who are more reserve while looking around.

In front of her is the Young Master of Uzumaki Clan and the youngest Daimyo/Clan Master of Uzumaki Kingdom.

Looking at him, he don't look like what Kushina describe to her, he look handsome and cool, he don't have look fat like ball like those Young Master.

He is also working without help of anyone that is rare for Konan.

You know, for Konan, those Young Master of huge clan is people who'd not work without any help of other.

So far because of eating so many delicious, oily and greasy but him, he is different from what she imagine.

He wear comfortable and clean clothes without wearing jewelry, neat long hair that is tied with string, a serious looking face while doing works.

He is more like a perfect princes from those childrens book than a ordinary noble kid form famous clan.

"Hey, Sister Kushina, I feel that Young Master Xin is different from what you said." Konan whisper to Kushina.

"This is just showoff, if we get out he start to become lazy again."

"Really?"

Kushina nodded seriously trying to continue to fool Konan.

"But he is not fat and oily as you said, he looks clean and handsome." Konan describe as she peek at Xin.

"So your Xiao Nan?" Uzumaki Xin suddenly speak making both girls teun stiff.

"Y-Yes." Konan nervous said

"Tell me your name, favourite, dislike and like, now you can start."

"I-"

....

Chapter 290 - Konan

"I-Im Konan, Orphan, 7 Years Old this year, I like flame-broiled fish and I dislike Karaage, I also like Origami and Flower Arrangement."

"I did not expect you are more girlish then me!" Kushina did not expect that Konan who look like a poor kid actually have such ladylike hobby.

For her, she don't have time to sit and arrange flowers, she is more like competitive and adventurous so she never stst on one place.

"What about dream? What is your dream?"

"Ummm...." She look at Xin with embarrassed look, she feels her dream is childish and not good.

"Just tell me, dont worry, I know people have different goal and idea so it's natural to have different than us."

".... I want to become powerful Ninja so I can help people like Kushina.... "

"Kushina help people? Impossible, she like to beat people than helping." Uzumaki Xin teasing said while looking at Kushina who blushing hard.

"I'm not that bad okay!"

"Fine, just don't beat those refugees again, the people below is already tired getting complain about you."

"What! Wait me her I will see who's complaining!"

Kushina then left making Konan who left behind feel incredibly nervous.

Xin look at the Future Angel and shake his head, she is still young girl so its natural for her to be warry to everything new for her.

"Here drink this, it will help you to achieve your goals faster." Xin take a potion from his drawer and pass it to her.

Konan nervous take it and drink without asking, she then look at Xin while holding the empty bottle.

"Do you feel hot inside?"

Konon nodded.

"That's good, just sit there and wait for the potion to digest inside of you, here read this I think you would like this kind of book."

Xin open his space pocket and take a book and pass to Konan.

Konan take the book and walk to the her chair and start to read carefully, even though she only know couple of letters she can still understand the words in front of the book somehow.

"Don't worry, the book is not for reading, it contains pattern for Origami."

Konan open the book and see pattern, she can understand it because she also like making Origami at some time there is no words her just image so it's easy to understand.

...

Half hour later Kushina come back, she look flustered and sweaty after a long fighting outside.

"Phew ~ thos idiot, so they think Kushina is easy to bully!" Kushina walk to the water dispenser and get water.

"Did you hold back when you beat them?"

"Of course, or else all of them will lie down in bed couple of months to heal."

"Sister Kushina, fighting is bad." Konan who hears that Kushina beat someone can't help but to said.

"Shut up Xiao Nan, read your book and let me beat those kids."

"But you are to strong than them."

"That's why I'm beating them so they can understand that it's foolish to anger stronger than you."

"By the way, you really know how to fold paper." Kushina said while looking at the Origami scattered around Konan.

"Im still learning."

"But you already great, your flower Origami is life-like, can I shave this?"

"You can take it, Sister Kushina."
