

Uzumaki 59

Chapter 59 - New Project

Uzumaki Xin left the cave, he didn't know how happy Isobu right now, not only he got the freedom that every Tail Beast want to have but also get a place to hide, not only that, the place is a holy land, a brand new one and the master is him.

After Xin get out, the group of Elder is waiting outside full of worries, they come after they sense the evil chakra coming to this place.

Even if Xin sealed the whole cave, the Tail Beast Chakra still come first before he sealed it so it's normal for anyone near to sense it.

"It's okay, you can come and take a look if you want."

"Little Xin, this is a Tail Beast right?" Great Elder nervous asked, he knows what kind of beast is Thai Tail Beast, open can erase the whole Uzumaki Kingdom and turn everything to dust with just one move.

The Horror of Tail Beast is everyone know, and they don't want to experience fighting such natural calamity.

"It's terrible monster the Ninja World, you need to know..... "

While they are talking, they did not know that Xin don't care at all, the strength of Tail Beast is nothing to them who expert in sealing such dangerous beast.

"It's okay."

Xin saw the worried eyes of everyone, and could only say helpless.

"I'm just curious about the appearance of the Tail Beast."

"This is not allowed in the future." The Elderly said with serious face.

Uzumaki Xin nodded, but it's already done, and he also finished his business so he don't care.

Turning his head and looking at Lucci beside him, he seems left behind standing outside, it's better than the Elder who always worry to something nonsense.

If they heard that Xin though, the Elder surely piss off, how can a Tail Beast nonsense thing? This is a serious matter.

"Go find some people, Chunin to Jonin, I don't need many, just couple of people who need to test my new Jutsu."

"Yes Young Master!"

Lucci then disappear.

Now the war end, it's also time to start preparing, recovery, and cultivate for the next big thing that is going to happen.

And because of the he war, Food is the most valuable thinga right now, and right now, Uzumaki can produce high-yield food crops because of the help of Wood Release.

If they want to monopoly the whole food industry and accumulated huge amount of wealth, they need to move faster.

The grain's in the store house and some hidden around the country is overflowing, before all of the food expired they need to sell it fast.

"Fourth Elder, who is the crops?"

"The crops? Everything is going well, the special seed you give last time yield five times than than the normal seed, and with the help of Wood Release, we can harvest it two days later."

"Excellent, call everyone who don't have anything to do to help harvesting the crops, I don't care if they are are Shinobi or Normal Citizens, we need more hand for our next project."

"Yes!"

"Six Elder, what about the prisoners?"

"There's some problem come out when we transport them, and I til now some of them don't want to cooperate but some follow us."

"Give those who don't cooperate a day to decide if they going to follow or now, if not, call Lucci and torture them, extract everything they know."

"Ninjutsu, Taijutsu, and kind of secrets, take everything, and don't let them die easily, they are valuable, if they can't use to do manual labor, them they are good for extracting information."

"I know Young Master."

They feel amaze how meticulous Xin in solving problem, like the prisoners, even if they don't work, the amount of information they have should enough for the food they going to eat.
